Water Infrastructure in Cuba:

A Seminar

February 12, 2014 | 9:30 AM–12:45 PM | FIU Modesto A. Maidique Campus | MARC Pavilion

The Cuban Research Institute at FIU will hold a half-day seminar with a group of experts from FIU and professional organizations such as the Cuban American Association of Civil Engineers. Participants will explore Cuba's hydrology, potable water resources management, the state of the current infrastructure and its implications for public health, future development needs, and funding models and alternatives.

Confirmed participants include Dr. Irma Becerra-Fernández, FIU Vice President for Engagement; Dr. Amir Mirmiran, Dean, College of Engineering and Computing; Dr. Inés Triay, Director, Applied Research Center; Dr. María Donoso, Director, Global Water for Sustainability Program; Dr. Georgio Tachiev, Applied Research Center; Dr. Héctor Fuentes, College of Engineering and Computing; Dr. John Proni, Applied Research Center; Dr. Fernando Miralles, Inter-American Development Bank; Mr. José Cueto, City of Coral Gables, Public Works Department; Mr. Eduardo A. Vega, Miami-Dade Water & Sewer Department; and Ms. María Fernández- Porrata, Past President, Cuban American Association of Civil Engineers.

Cosponsored by FIU's College of Engineering and Computing, Applied Research Center, Global Water for Sustainability Program, Latin American and Caribbean Center, and the Cuban American Association of Civil Engineers. The event is free and open to the public. For more information and to RSVP, please call (305) 348-1991 or write cri@fiu.edu.
