Preparing students for international careers...

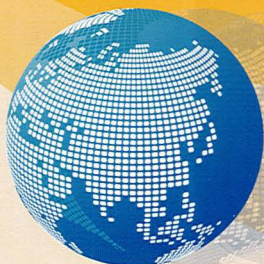

International Studies-International Careers (ISIC) is a Florida International University program designed to enhance students' knowledge of and expertise in international affairs. ISIC partners with companies and organizations to provide internationally oriented internships that connect students' academic training to real world work environments.

ISIC Expo

ISIC Expo 2006 is scheduled for November 7-8, 2006 and will be held at FIU's University Park and Biscayne Bay campuses. The two-day exhibition links undergraduate and graduate students to ISIC partners by showcasing internship and job opportunities as well as FIU's academic and study abroad programs which prepare students for international careers. Partners are invited to sponsor exhibition booths on both event days to meet and network with students on each campus. The Expo also features speaker presentations as well as student academic advising sessions sponsored by international studies programs.

For more information on the ISIC program or Expo, including registration and exhibition information, or to see a current list of program partners, please consult the ISIC website:

Partner with ISIC

ISIC Partnerships

ISIC actively seeks partnerships with companies and organizations to provide internationally oriented internships for FIU students.

ISIC Expo partners and participants include international companies, for profit and not for profit organizations, academic and study abroad programs and foreign consulates. If you are a company or organization that operates in South Florida and addresses international issues—trade, services, policy, information, etc.—and would value hosting an undergraduate or graduate FIU student, ISIC wants to partner with you.

Internships

ISIC encourages program partners to provide one or more internships that will help prepare students for successful careers in the diverse and challenging international environments of twenty-first century corporate and organizational workplaces. ISIC staff will work with prospective partners to design internships that are mutually beneficial to the organization and the student.

How to become an ISIC partner

To set up a student internship or to participate as an exhibitor or speaker at ISIC Expo 2006, please contact ISIC program coordinator Christine I. Caly-Sanchez at 305-348-6561 or by email at calyc@fiu.edu
