FIU Medallion

Barbara Sharief '97, '00
Outstanding Alumna

Broward County Commissioner Barbara Sharief has spent more than two decades helping children with medical complexities. In 2001, she founded South Florida Pediatric Homecare Inc. The company — which employs more than 650 professionals — provides high tech quality home health services to children and adults. It is considered one of the top agencies in Broward and Miami-Dade counties.

Commissioner Sharief holds her Doctorate of Nursing Practice from Wilkes University in Wilkes-Barre, Pennsylvania and received her bachelor's in Nursing and an Advanced Registered Nurse Practitioner from FIU. During the course of her career, she has worked for the Jackson Memorial Health Care system and several other hospitals. Her passion for caring for the sick at home stems from growing up with a younger brother who was diagnosed with several medically complex conditions. Sharief developed the philosophy that quality of life is better if a patient can be maintained at home in their normal environment. This philosophy prompted her to adjust her career from hospital nursing to home care. As a result, she has worked for several national home health agencies as an administrator and director of nursing.

In 2010, Sharief was elected to the Broward County Commission District 8. In 2013 and 2016, she was selected as mayor of Broward County. During her tenure, she advocated for affordable health care, mortgage and foreclosure relief, solutions for homelessness, and for entrepreneurial/small business assistance and mentoring programs.

Sharief has been a member of the Florida Association of Counties since 2009 and, in 2015, was elected president. She has also been a member of the National Association of Counties since 2009 and currently serves as Chair of the National Association of Counties' subcommittee on Medicaid and indigent care.

Sharief is the mother of three children — Amanda, Alyssa and Hailey — and an active volunteer in Broward County schools.

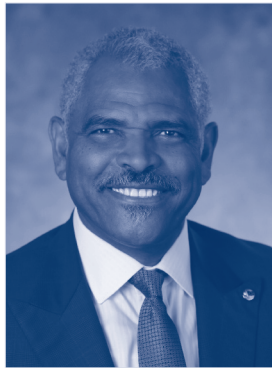

FIU Medallion

Jennifer H. Richards
University Service

Jennifer H. Richards has devoted herself to teaching, research and service during a career that has spanned nearly four decades. In that time, she turned the Florida Everglades into her lab as she tirelessly studied the ecology of wetland plant species. She is a co-author on scores of refereed articles, abstracts, symposium papers and posters that share a wealth of acquired knowledge with the rest of the world. She served as lead on EPA projects that monitor water quality and biology of the Everglades ecosystem and along with a colleague pioneered the use of high-resolution remote sensing to map wetland vegetation. This and other work has contributed to ongoing Everglades restoration efforts.

In the classroom, Professor Richards inspires her students by giving them real-world problems to solve. Her dedication to turning novices into confident, self-motivated scientists led her to restructure the Biological Science Honors Program. She added a research component and created a course that teaches undergraduate students how to write up and present results in a professional manner. More than 90 have completed the program.

In addition to achieving success in both the classroom and the laboratory, Professor Richards has served as a leader within her department and her field. At FIU in 1982, she was the first female professor in the Department of Biological Sciences, and fewer than 10 years later took on its chairmanship. During that time, she single-handedly obtained a \$1.5 million National Science Foundation infrastructure grant to renovate the department's building, a sum that the state of Florida matched with another \$1.5 million. Currently, she is helping to further develop the ICTB, FIU's International Center for Tropical Botany that she helped establish, which is part of FIU Tropics, an emerging preeminent program at the university.

THE COMMENCEMENT:

An Academic Tradition

At every academic institution, commencement exercises are the high point of the calendar for students and their families. Since the purpose of a college or university is to prepare its students to merit the conferral of an academic degree, the commencement ceremony serves as the instrument for exhibiting the success of both the university and its students in fulfilling this primary goal. The rites involved in the celebration of commencement stem from civilization’s earliest times. In fact, the very word, commencement, means a beginning. If you are familiar with the trappings of this grand ceremony, you are aware that the traditions carried forth from medieval days are revealed in all of their pomp, color and symbolism. It is a celebration of new beginnings. For participants and observers alike, commencement is meant to be both self-serving and an emotional experience.

The Chain of Office

The university president is the ceremony’s convener and chief presider at the commencement ceremonies. The great chain, which is the FIU chain of office, is displayed on stage. This ancient symbol is perhaps the most beautiful and artistic of any of the accoutrements of the ceremony. During the Renaissance, holders of very high office sometimes wore a chain as a symbol of their authority. FIU’s chain is made of sterling silver and its designs are cast, cut and etched. The center medallion represents the world and is surrounded by sea shells cast from an actual shell. Reflecting the university and the South Florida area are the eight ovals which make up the chain—designed by Clem Pennington, associate professor of art education, now retired, and created in 1977 by Leo Shirker, a Miami goldsmith, art teacher and FIU alumnus.

Grand Marshal

The leader of the academic procession is the Grand Marshal. At FIU, this prestigious honor goes to the chairperson of the Faculty Senate, which is the democratic collegial governance body of the faculty.

The Mace

The Grand Marshal carries a ceremonial club called a mace. In antiquity, when an official of high rank went out in public, a mace-bearer was assigned to accompany him in order to literally beat away those who got close enough to try to petition the favors of the official. Today, the bearing of the university’s mace is ceremonial in nature, signifying the authority and authenticity of those who are to follow.

The Dais Party

The Dais Party is also known as the Platform Party. This group is composed of the university’s administrative leaders and very special guests. The Dais Party enters the hall before the faculty and proceeds directly to stage.

Academic Regalia

The tradition of wearing distinctive academic attire at commencement ceremonies originated in Europe in the 12th century. However, gowns and capes had been worn by clerics and ecclesiastics even before that date. A heavy black or brown gown was apparently worn at all times. Hoods and capes were also a necessity during the long, cold European winters because the buildings in which scholars lived, studied and taught were cold and drafty. When not being used to provide warmth, hoods and baggy sleeves served the same purpose as do today’s pockets. The academic costume at English universities (from which many of our American commencement

traditions originate) can be traced as far back as the middle of the 14th century, to the time when scholars were rebuked that a decent habit was to be worn (Statutes of Peterhouse, 1344). The faculties of American universities have worn academic garb for commencement ceremonies since the beginning of the system. For almost 250 years, each university chose its own costume until it was realized that in 1896 an event unique in history would be taking place. This was the simultaneous celebrations of the 250th anniversary of Harvard University and the 500th anniversary of Heidelberg University. Because of this unique circumstance, the Intercollegiate Bureau of Academic Costume was opened in 1895 to record the distinctive colors of institutions, their arrangement, the particulars of gowns, hoods and caps, as well as information pertaining to academic ceremonies. At that time, an American code of academic dress was agreed upon to which we adhere today with few modifications. Since Spring 2011, FIU has selected to use earth-friendly academic regalia for undergraduate and graduate students. This initiative underlines FIU’s commitment to sustainability. At Florida International University, whose colors are blue and gold, the traditional colors of the disciplines are:

The Honors College

The Honors College provides highly motivated students with a cutting-edge education that complements their majors and prepares them to successfully compete for graduate school or employment. The heart of the college is its creative, active, and supportive community of outstanding students, superb teachers, accomplished researchers, and dedicated staff. Honors College scholars are admitted competitively into a transformational environment featuring problem-based experiential learning, active mentoring, and interdisciplinarity.

The curriculum emphasizes critical, integrative, and creative thinking; team and independent research; oral and written communication; and integration of class work with the world outside the university. Students choose from an array of advanced multidisciplinary seminars that complement their major studies; study abroad; and/or extended research through the groundbreaking Advanced Research and Creativity in Honors (ARCH) program. The College also provides unique, focused tracks in pre-med/health professions, innovation/entrepreneurship, and law, with Early Assurance Programs in law, medicine, dentistry, pharmacy, and osteopathy.

Students can live in the Honors College Building, taking advantage of its extensive Honors living-learning community and co-curricular opportunities, with access to high-tech innovation and video labs, as well as IT support. The College's Career Center guarantees an internship to any student seeking one, and provides training in real-world social and business skills. Honors students embrace civic responsibility, and engage in service-research that directly benefits external communities, such as the Worlds Ahead Honors-Sweetwater Partnership.

Phi Beta Kappa

Phi Beta Kappa (PBK) is America's most prestigious academic honor society. Since 1776, Phi Beta Kappa has championed education, fostered freedom of thought, and recognized academic excellence. PBK honors the best and brightest liberal arts and sciences undergraduates from 286 top schools across the nation through a highly selective, merit-based invitation process. PBK advocates for the importance of liberal arts and sciences education and equips members with information and tools to thoughtfully engage in American society as leaders, volunteers, and citizens.

It is a distinct honor to be elected to PBK. Only 10% of U.S. colleges and universities have Phi Beta Kappa chapters and these chapters select a maximum of 10% of their liberal arts and sciences graduates to join. Election is based upon the evidence of broad cultural interests, scholarly achievement, and good character. We congratulate the following students for having been elected to the Epsilon Chapter of Phi Beta Kappa at FIU.

On behalf of the FIU Alumni Association and its Board of Directors we extend our congratulations and welcome you to your new family of more than 224,000+ alumni. **All of our graduates now belong to the FIU Alumni Association – we are no longer charging membership fees!** FIU alumni have access to more than 300,000 local and national discounts, numerous benefits and services the Association offers.

The Association helps fund student scholarships, provide career coaching, engage in legislative advocacy, and sponsors many events and activities throughout the year.

Be loud and proud in your Panther pride for you are forever linked to FIU! Let everyone know about the great education you received here. Wear your FIU colors. Purchase an FIU license plate.
