FIU and Florida International University are registered marks. Florida International University believes in equal opportunity practices which conform to all laws against discrimination and is committed to nondiscrimination with respect to race, color, creed, age, handicap, sex, marital status, religion, or national origin. Additionally, the University is committed to the principle of taking the positive steps necessary, to achieve the equalization of educational and employment opportunities.

Note: The programs, policies, requirements, regulations published in this catalog are continually subject to review in order to serve the needs of the University's various constituencies and to respond to the mandates of the State Board of Education and the Florida Legislature. Changes in programs, policies, requirements, and regulations may be made without advance notice. The ultimate responsibility for knowing degree requirements imposed upon students by State laws rests with students.

Fees given in this catalog are tentative pending legislative action.

Dear Undergraduate Students:

Welcome to Florida International University. At FIU, we are committed to providing you with the best possible academic experiences to assist you in achieving your goals and to prepare you for the world of tomorrow. Whether you are a first-time college student or are returning to school to expand your knowledge, you will, without a doubt, find a large array of opportunities designed to enhance your horizons intellectually, culturally and socially. In this Undergraduate Catalog we provide an overview of our institution and a list of programs, courses, requirements and services, including a great deal of useful information to guide you through your academic experience. Please take the time to review carefully this important information.

As a leading student-centered urban public research university located in one of the nation’s most exciting international cities, FIU provides a rare combination of vast resources, personal attention and affordability. We also offer many opportunities for community and global engagement through more than 200 bachelor’s, master’s and doctoral degree programs. With outstanding faculty, state of the art research and a quality learning environment, we prepare our students for the leading job markets and the latest technologies. Committed to both quality and access, FIU meets the educational needs of traditional students, as well as part-time students and lifelong learners.

FIU has a nationally and internationally recognized full-time faculty known for outstanding teaching and cutting-edge research. The university is a member of Phi Beta Kappa, the nation’s oldest and most distinguished academic honor society. FIU also is ranked as a Research University in the High Research Activity category of the Carnegie Foundation’s prestigious classification system. Our students, faculty and alumni continually receive national and international recognition for their achievements.

FIU's College of Law received full accreditation in the fastest time allowed by the American Bar Association in December 2006. In February 2008, our Herbert Wertheim College of Medicine received preliminary accreditation from the Liaison Committee on Medical Education, establishing South Florida’s only public medical school. The first class of 43 students was inaugurated in August 2009 and is expected to graduate in 2013. The college is continuing the university’s tradition of addressing pressing community challenges through its innovative NeighborhoodHELP™ program, which is one of its kind in the nation. FIU’s Herbert Wertheim College of Medicine is a state of the art medical school that is transforming medical education and health care in the region and greatly enhancing the university’s research mission. FIU also offers a strong Arts and Sciences core, and many nationally and internationally-recognized programs in Business, Engineering, Hospitality Management, Nursing, Architecture and other disciplines.

On behalf of your fellow students and our faculty and staff, I congratulate you on being admitted to FIU and for deciding to pursue your degree at one of the finest public institutions in the country. I wish you a challenging and fulfilling experience as you work to achieve your goals. I look forward to seeing you on campus.

Sincerely,

President Mark B. Rosenberg
Academic Calendar 2011-2012

**February 1 Wednesday**
Last day for international students to submit admission, readmission, and certificate applications to all programs.

**February 10 Friday**
First day to apply for Summer 2012 term graduation.

**February 17 Friday**
Last day to submit FORM M1: Appointment of Thesis Committee (Master's students planning to graduate in Fall 2012).
Last day to submit FORM D1: Appointment of Dissertation Committee (Doctoral students planning to graduate in Summer 2013).

**March 1 Thursday**
Last day for international graduate students to submit all supporting academic credentials, appropriate test scores, and Declaration and Certification of Finances.
Last day for domestic graduate applicants to submit complete applications to master's, doctoral, and certificate programs, as well as for readmissions.

**March 23 Friday**
Last day for faculty to adopt textbooks and other instructional materials.
Last day to submit FORM D3: Doctoral Dissertation Proposal (Doctoral students planning to graduate in Spring 2013).
Last day to submit FORM M2: Master's Thesis Proposal (Master's students planning to graduate in Summer 2012).

**March 28 Wednesday**
Transfer Orientation (Biscayne Bay Campus).

**March 29 Thursday**
Transfer Orientation (Modesto A. Maidique Campus).

**April 2 Monday**
Registration Information available to all returning undergraduate and graduate students for Summer 2012 term.
Transfer Orientation (Modesto A. Maidique Campus) – Evening Session.

**April 2 Monday - April 18 Wed**
Official registration for degree-seeking students by appointment time and day.

**April 3 Tuesday**
Transfer Orientation (Pines Center).

**April 19 Thurs - May 6 Sunday**
Open registration for degree-seeking students. Continuous web & kiosk registration.

**April 21 Saturday**
Short Term Tuition Loan Applications available.

**April 26 Thursday**
Transfer Orientation (Modesto A. Maidique Campus).

**May 2 Wednesday**
Low enrollment courses will be cancelled and students notified by email.

**May 3 Thursday**
Transfer Orientation (Biscayne Bay Campus).

**May 4 Friday**
Non-degree-seeking student registration begins.
International Student Immigration Orientation (Modesto A. Maidique Campus and Biscayne Bay Campus).

**May 4 - 6 Friday - Sunday**
Official Housing Check-In 9 AM to 6 PM for Summer Term C.

**May 6 Sunday**
Last day register without incurring a $100 late registration fee.
May 7 Monday
Classes begin.
May 11 Friday
Last day for students to apply for a Short Term Loan
May 14 Monday
Last day to add courses; last day to drop courses or withdraw from the University without incurring financial liability for tuition and fees.
Last day to change grading option.
May 15 Tuesday
Payment Due Date. First installment due for students enrolled in the Tuition and Fee payment plan.
May 16 Wednesday
$100 late payment fee assessed for outstanding balances; students enrolled in the Tuition and Fees Payment Plan will not be assessed a Late Payment Fee if both installments are paid by the due dates.
May 17 Thursday
Cancellation of Enrollment for unpaid Tuition and Fee balances not covered by Payment Plan, Scholarships or other awards.
May 18 Friday
Last day to apply for Summer 2012 graduation; all four CLAS subject areas must be satisfied and reflected in official University records.
May 28 Monday
Memorial Day Holiday (University Closed).
June 1 Friday
Last day to submit FORM M1: Appointment of Thesis Committee (Master’s students planning to graduate in Spring 2013).
Last day to submit FORM D1: Appointment of Dissertation Committee (Doctoral students planning to graduate in Fall 2013).
June 4 Monday
Last day to withdraw from the University with a 25% refund of tuition.
June 26 Tuesday
Last day to drop a course with a DR grade.
June 28 Thursday
Last day to submit FORM D5: Preliminary Approval of Dissertation and Request for Oral Defense.
Last day to submit FORM M3: Preliminary Approval of Thesis and Request for Oral Defense.
July 4 Wednesday
Independence Day (University closed).
July 5 Thursday
Return of Title IV deadline for financial aid recipients for Summer "C" Term.
July 12 Thursday
Last day to submit FORM D3: Doctoral Dissertation Proposal (Doctoral students planning to graduate in Summer 2013).
Last day to submit FORM M2: Master’s Thesis Proposal (Master’s students planning to graduate in Fall 2012).
July 19 Thursday
Last day to hold thesis/dissertation defense. (Graduate students planning to graduate in Summer 2012).
July 26 Thursday
Deadline for faculty to review class rosters to ensure accuracy before grade rosters are created.
August 9 Thursday
Grade rosters available to faculty for grade entry and submission.
August 10 Friday
Last day to submit final copies of dissertation and FORM D7: Final Approval of Dissertation.
Last day to submit final copies of thesis and FORM M5: Final Approval of Thesis. (Graduate students planning to graduate in Summer 2012).
Classes end.
On-campus exams for online courses.
TBA
Commencement Exercises (details to follow)
August 15 Wednesday
Deadline (by 11:59 pm) for faculty to submit grades.
August 16 Thursday
Complete grade report available to students by web and kiosks at 9:00 am.
August 20 Monday (Fall 2012)
Fall 2012 semester classes begin.
**Grades will be posted on transcripts. However, graduation will not be processed until the end of the Complete Summer C Term.
Calendar dates are subject to change. Please contact appropriate offices for verification and updates.
University Graduate School deadlines are available at http://gradschool.fiu.edu.
This calendar includes official University holidays. Faculty are encouraged to make accommodations for students who wish to observe religious holidays. Students should make their requests known at the beginning of the semester.
For a listing of religious holidays you may visit http://www.interfaithcalendar.org.
University Information

MISSION
Florida International University is an urban, multi-campus, public research university serving its students and the diverse population of South Florida. We are committed to high-quality teaching, state-of-the-art research and creative activity, and collaborative engagement with our local and global communities.

VISION
Florida International University will be a leading urban public research university focused on student learning, innovation, and collaboration.

VALUES
Florida International University is committed to the following core values:

• Truth—in the pursuit, generation, dissemination, and application of knowledge
• Freedom—of thought and expression
• Respect—for diversity and the dignity of the individual
• Responsibility—as stewards of the environment and as citizens of the world
• Excellence—in intellectual, personal, and operational endeavors

THE UNIVERSITY
Florida International University, a member institution of the State University System of Florida, was established by the Florida Legislature in 1965. Classes began in September 1972, with 5,667 students enrolled in upper division and graduate programs—the largest opening day enrollment in U.S. collegiate history. In 1984, FIU received authority to begin offering degree programs at the doctoral level. The Carnegie Foundation for the Advancement of Teaching ranks FIU as a Research University in the High Research Activity Category.

The University is a member of Phi Beta Kappa, the nation’s oldest and most distinguished academic honor society. Florida International University offers more than 190 baccalaureate, master’s and doctoral degree programs in the following colleges and schools: College of Architecture and The Arts; College of Arts and Sciences (School of International and Public Affairs, School of Environment, Arts, and Society, School of Integrated Science and Humanity); College of Business Administration (School of Accounting, Chapman Graduate School); College of Education; College of Engineering and Computing (School of Computing and Information Sciences); College of Law; Herbert Wertheim College of Medicine; College of Nursing and Health Sciences; Honors College; Robert Stempel College of Public Health and Social Work; School of Journalism and Mass Communication; and School of Hospitality and Tourism Management.

FIU has more than 40,000 students, 870 full-time faculty, and 160,000 degrees awarded, making it the largest university in South Florida and placing it among the nation’s largest colleges and universities. The University has two campuses—Modesto A. Maidique Campus in western Miami-Dade County and the Biscayne Bay Campus in northeast Miami-Dade County. A shuttle bus runs continuously between the two campuses throughout the day. FIU offers programs at the Pines Educational Center in adjacent Broward County and Downtown on Brickell in Miami. Additionally, numerous programs are offered at off-campus locations and online.

MODESTO A. MAIDIQUE CAMPUS

The Modesto A. Maidique Campus is a 344-acre site on the western edge of Miami, the center of a metropolitan area of almost four million people. Apartment-style residence halls, a nationally certified environmental preserve, and athletic facilities all contribute to a pleasant collegiate atmosphere on Modesto A. Maidique Campus, which is also Florida International University’s largest campus. FIU’s Modesto A. Maidique Campus (MMC) has an impressive campus architecture, lush tropical landscaping, a Sculpture Park, and the eight-story Green Library. There is also a state-of-the-art performing arts center, a recreation center, an expanded university center, a 4,500 seat U.S. Century Bank Arena and a football stadium. Modesto A. Maidique Campus also has laboratories, auditoriums, music and art studios, an art museum, an international conference theater, and an experimental theater. There is a wide variety of clubs and student organizations on campus to meet the professional, service, athletic, social, and cultural needs of the FIU community.

FIU’s libraries at Modesto A. Maidique Campus and Biscayne Bay Campus have more than 2 million volumes and 65,000 serials including journals (5,000 online), electronic databases, numerous resources in other formats along with substantial holdings of federal, state, local, and international documents, maps, institutional archives, and curriculum materials.

Housing and Residential Life provides a wide variety of living accommodations on campus. Residence halls at Modesto A. Maidique Campus include Panther Hall, Everglades Hall, University Park Towers, University Apartments, and Lakeview Housing. Housing staff assist students in selecting accommodations to meet their particular needs. Housing for married students is available on a limited basis. Graduate housing is also limited and applications should be submitted as early as possible.

BISCAYNE BAY CAMPUS

The Biscayne Bay Campus of Florida International University is located on 200 acres on the waterfront of Biscayne Bay and has an enrollment of 7,000 students. The campus is headquarters for academic programs in Hospitality and Tourism Management, Journalism and Mass Communication, Marine Science, and Creative Writing. Course work in Arts and Sciences, Business Administration, Architecture and the Arts, Computer Science, Nursing, and Criminal Justice are also offered (for specific degree programs please refer to Academic Programs in this catalog).

The campus houses the Glen Hubert Library, Osher Lifelong Learning Institute, and the Roz and Cal Kovens Conference Center, a state-of-the-art conference facility located on Biscayne Bay.
Apartment-style residential housing on the Biscayne Bay Campus accommodates almost 300. The Wolfe University Center is the focal point of all student activities including clubs and entertainment, student life, and dining facilities. The campus houses a Recreational Facility including an Olympic size pool, and also provides a Health and Wellness Center.

**BROWARD PINES CENTER**

Florida International University has brought higher education closer to home for thousands of South Broward residents through its Pines Center at the Academic Village in Pembroke Pines. Classes are held in a 90,000 square-foot facility that includes classrooms, computer labs, case study rooms, a student lounge and a 450-seat auditorium.

Select programs at the bachelor’s, master’s and doctoral level are being offered by the College of Arts and Sciences, College of Business Administration, College of Education, and the College of Engineering and Computing. For specific degree programs, please refer to the Broward Pines Center link on the University home page, as well as the relevant pages in this catalog. In addition to degree-seeking programs, the English Language Institute and University College offer non-credit courses.

Students attending the Pines Center benefit from computer labs and access to the resources of both the FIU libraries (Modesto A. Maidique Campus and Biscayne Bay Campus) and the Broward County Southwest Regional Library. The Broward Student Government Association sponsors social and cultural events that provide students with opportunities to enhance their experiences outside of the classroom.

**DOWNTOWN ON BRICKELL**

Opening Fall 2011 at 1101 Brickell Avenue, this new educational site houses graduate programs from the College of Business Administration and School of International and Public Affairs, as well as the Metropolitan Center. FIU Downtown on Brickell encompasses 32,000 square feet of space which includes classrooms, case study rooms, faculty and administrative offices, and dining facilities.
ACCREDITATIONS

All academic programs of Florida International University are approved by the Florida Board of Education, the FIU Board of Trustees and the Florida Board of Governors. Florida International University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate, baccalaureate, master’s, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call (404) 679-4500 for questions about the accreditation of Florida International University. SACS reaffirmed FIU’s accreditation on December 6, 2010. Degree programs at FIU are accredited or approved by the appropriate specialized accreditation agency, or are pursuing full accreditation or approval. To obtain information about the specialized accreditation agencies, their criteria and review process, contact the Chairperson/Director of the respective degree program. The professional accrediting agencies and the respective FIU degree programs are listed in alphabetical order below.

Anesthesiology Nursing
Council on Accreditation of Nurse Anesthesia Educational Programs (CoA-NA)
American Association of Nurse Anesthetists (AANA)

Architecture
National Architectural Accrediting Board (NAAB)

Art Education
National Association of Schools of Art and Design Commission on Accreditation (NASAD)

Art History
National Association of Schools of Art and Design Commission on Accreditation (NASAD)

Art Museums
American Association of Museums

Athletic Training

MINORS
A minor program is an arrangement of courses enabling a student to develop a degree of expertise and knowledge in an area of study in addition to his or her major academic program of study. To receive a minor, a student must also complete the requirements for a baccalaureate degree from the University. A minor is not interdisciplinary.

COLLEGE OF ARCHITECTURE AND THE ARTS

CERTIFICATES  
Certificate Programs are structured combinations of courses with a common base of interest from one or more disciplines into an area of concentration. Successful completion of a Certificate Program is entered on the student's transcript and records. Two types of certificates are awarded:  

ACADEMIC CERTIFICATE  
Awarded by an academic unit to a student at the time of awarding a bachelor's degree; or upon completion of the appropriate coursework to a student who already has a bachelor's degree.  
An academic certificate shall not be awarded to a student who does not possess either a bachelor's degree or does not complete a bachelor's degree program. An academic certificate is to be interdisciplinary in nature, to the greatest extent possible.  

PROFESSIONAL CERTIFICATE  
Awarded by an academic unit to an individual who completes the appropriate coursework in the area of concentration. The professional certificate does not need to be interdisciplinary or associated with a degree program.  
For details and course requirements, refer to the appropriate section in each College or School.  

COLLEGE OF ARCHITECTURE AND THE ARTS  
ACADEMIC CERTIFICATES IN:  
History and Theory of Architecture

Some degrees are offered fully online. For more specific information, please visit the program of interest at www.fiu.edu.
Undergraduate Education

ACADEMIC ADVISING CENTER

Florida International University is committed to helping students achieve their academic and personal goals through quality academic advising. Using a holistic approach to the student’s development, advising services provide students with information, guidance, and access to a network of campus resources in order to obtain maximum benefit from their educational experience. Students develop autonomy and decision-making skills, and are expected to assume increasing responsibility for seeking accurate and authoritative information and using it appropriately to make sound academic and life decisions. Service delivery is multi-faceted, combining educational and personal support to meet the various needs of diverse students.

The Academic Advising Center is responsible for the academic advising of students completing University Core Curriculum requirements and major pre-requisites as well as exploratory students. When admitted to the University, the student will meet with an advisor who will work with the student to develop an academic plan. Freshmen are required to see an advisor for at least two terms, after which continued advising is dependent on their academic performance. Freshmen in good standing are encouraged to continue seeing an advisor. Once a student has completed 60 credits and all appropriate prerequisites, he or she should officially declare a major. Students will also have access to faculty advisors and/or professional advisors in their major department.

Academic information is available in PC 249, Modesto A. Maidique Campus, ACI-180, Biscayne Bay Campus, and on our website: http://undergrad.fiu.edu/advising/.

CENTER FOR ACADEMIC SUCCESS

The Center for Academic Success houses the University Testing Center and University Learning Center, and provides a variety of academic support services to students at all levels.

UNIVERSITY TESTING CENTER

The University Testing Center coordinates and administers the ACCUPLACER, College-Level Examination Program (CLEP), HESI A² and placement testing (CPT) for freshmen. The Center also administers and provides information on other undergraduate and graduate admission tests, along with other professional and individualized distance learning examinations. Additional information is available by calling (305) 348-2441 (Modesto Maidique Campus) and (305) 919-5927 (Biscayne Bay Campus) or by visiting https://testing.fiu.edu.

PLACEMENT TESTING

Testing is available to students for placement into selected courses. Mandatory placement testing for college preparatory requirements is provided prior to Freshman Orientation and at other designated times during each semester. Students need to consult with an advisor in Undergraduate Education regarding any questions about test requirements.

CLAS

The College-Level Academic Skills requirement is part of Florida’s system of education accountability that satisfies the mandates of Florida Statutes. CLAS intends to ensure attainment of the college-level communication and mathematics skills that were identified by the faculties of community colleges and state universities.

Students in public institutions in Florida are required to meet the minimum requirements in essay writing, English language skills, reading and mathematics for the award of an Associate in Arts degree, for admission to upper-division status or no later than earning 96 credit hours. There are two exceptions to this rule: 1) anyone seeking an undergraduate degree from a Florida institution and who already has earned an accredited Bachelor’s degree; 2) anyone awarded an Associate in Arts degree from a Florida institution before September 1, 1982, and admitted to upper-level status at a Florida institution before August 1, 1984, is not required to satisfy the CLAS requirement.

The College-Level Academic Skills competencies can be satisfied by:

Successful CLAST exam scores taken prior to July 1, 2009. (Florida legislation repealed funding for the College-Level Academic Skills Test after June 30, 2009).

Exemption based on the SAT or EACT scores (or the equivalent scores on the original SAT, SAT I and ACT score scales). An SAT (beginning March 2005) score of 500 on the Critical Reading section qualifies for an exemption for reading; a score of 500 on the Writing section qualifies for an exemption for the essay and English language skills; and a score of 500 on the Math section qualifies for an exemption for mathematics. An EACT score of 21 on the Mathematics section qualifies for an exemption for mathematics; a score of 22 on the Reading section qualifies for an exemption for reading; and a score of 21 on the English section qualifies for an exemption for English language skills and essay writing.

Exemption based on the student’s GPA. To exempt the English language skills, reading, and essay sections of the College-Level Academic Skills requirement, the student must have earned a 2.5 grade point average in two courses for a minimum of six semester hours of credit. At least one course must have an ENC prefix and the other course must be designated as a Gordon Rule writing course, excluding ENC 1930 and courses with an SPC prefix.

To satisfy the Mathematics section of the College-Level Academic Skills requirement, the student must have earned a 2.5 grade point average in two courses for a minimum of six semester hours of credit from: any MAC course with the last three digits of 102 or higher; any MGF course with the last three digits of 202 or higher; any Gordon Rule statistics course; any mathematics course that has College Algebra (MAC X105) as a prerequisite. Experimental courses may not meet this criteria; contact the University Testing Center for clarification.

Credits earned in any of the above courses through an ACC approved credit-by-examination program (including AP, IB and CLEP) may be applied toward the CLAS requirement. Two credit-by-examination courses with appropriate scores may be used. If a combination of one credit-by-examination course and one college course is used, the course grade must meet or exceed the 2.5 GPA requirement.
The State Board of Education and Florida Statutes provide special consideration for students in public institutions who have a specific learning disability. Students may contact the Disability Resource Center for additional information. For disability and other waiver information go to http://testing.fiu.edu.

UNIVERSITY LEARNING CENTER
The University Learning Center is made up of academic assistance tutoring labs equipped to help students improve their academic skills and their performance in related courses. Tutoring areas include reading, mathematics, statistics, sciences, and learning/study skills. For additional information call (305) 348-2441 (Modesto A. Maidique Campus) and (305) 919-5927 (Biscayne Bay Campus) or visit the website at http://learningcenter.fiu.edu.

THE CENTER FOR THE ADVANCEMENT OF TEACHING
The Center for the Advancement of Teaching (CAT) is part of Undergraduate Education, but serves the entire university community. CAT seeks to recognize and cultivate learner-centered teaching at all levels of the university, and supports faculty, adjuncts, and graduate teaching assistants in all schools and departments. CAT provides a space for intellectual exchange about teaching and learning, promoting student success at FIU by supporting the faculty as they foster a culture of scholarly teaching. In addition to programming on teaching methodologies, research on learning, and evidence-based best practices, CAT offers a range of services, including individual consultations, faculty learning groups, mid-term reviews of student learning, teaching observations, assistance with teaching portfolios, new faculty mentoring, and collaboration on research projects related to teaching. CAT also develops workshops and departmental retreats tailored to individual departments and programs. The office is located in GL 154. For information or assistance, contact the director at (305) 348-4214 or (305) 348-3907.

STUDENT ATHLETE ACADEMIC CENTER
The Student Athlete Academic Center provides a range of academic support services for student athletes—including advising, tutoring, and monitoring of academic progress. The Center is located west of the Golden Panther Arena, at the Modesto A. Maidique Campus, and has hours of operation to meet the needs of the full-time student athlete. The Center is equipped with a computer laboratory, study carrels, and classrooms. It is staffed with advisors, tutors, and learning specialists. The unit works in conjunction with various university academic departments, as well as with other university support units to ensure the academic success of athletes. For information call (305) 348-6412.

GLOBAL LEARNING FOR GLOBAL CITIZENSHIP
Global learning is an educational process that fosters the knowledge, skills, and attitudes of global citizenship through active, team-based, and interdisciplinary exploration of essential questions and real-world problems. Through the process of global learning, all FIU undergraduates will acquire knowledge of the interrelatedness of local and global issues, the ability to analyze issues from multiple perspectives, and the willingness to engage in local, global, international, and intercultural problem solving. Students must take a minimum of two global learning (GL) designated courses prior to graduation. Freshmen entering FIU Summer B 2010 or later must take at least one GL foundations course as they are completing their UCC requirements and at least one upper-division discipline-specific GL course as they are completing their major requirements. Transfer students entering Fall 2011 or later who do not meet UCC requirements prior to entering FIU must take one GL foundations course and one upper-division discipline-specific course. Note: Transfer courses may not be used to meet this FIU requirement.

UNIVERSITY CORE CURRICULUM
Undergraduate education seeks to develop productive, creative, and responsible citizens who both shape society and lay the foundation for tomorrow. In addition to exploring areas of specialization, the university experience must provide a venue for investigating the origins and natures of cultures, ideas, and the physical universe and endow graduates with the ability to analyze critically, think sustainably, learn creatively, and express themselves clearly and cogently. Diversity and breadth of experience are essential characteristics of both education and success in our global community.

The University Core Curriculum (UCC) provides the broad, well-defined curriculum that enables graduates to think critically, analytically, and creatively, with a passion to learn and with the skills and ability to assemble, assess, incorporate, and synthesize new knowledge and information; organize and clearly express their knowledge and ideas; and determine the importance and relevance of new ideas through a synthesis of both broad and narrow contexts and the integration of seemingly disparate pieces into a meaningful whole.

The UCC rests upon the belief that a foundational curriculum, shared by students, fosters intellectual development and enhances personal, social, intellectual, and academic relations. Together with concentration in major fields of study, the UCC builds the base that makes future academic and professional excellence possible.

Global Learning Foundations Course (one, three-credit course required): Global learning foundations courses are indicated with a “GL” after the course title. These courses are interdisciplinary and include an integrated co-curricular activity. Note: Non-IDS global learning foundations courses that are 3000-level or above may also count as upper-division discipline-specific courses in consultation with your advisor.

First Year Experience (one, one-credit course required): The transition to a university environment is a unique one for first-time university students. FIU’s orientation course is designed to facilitate this transition.
The First Year Experience course provides a forum for integrating the FIU experience and for discussing issues promoting intellectual, personal, academic, social growth and success as a member of the University community. The course introduces students to University policies, procedures, and services; addresses academic and career choices; and enhances study and time-management skills. All students entering the University with fewer than 30 semester hours are required to take this one-credit course, SLS 1501 First-Year Experience.

English Composition (two, three-credit courses from either sequence required): A foundation in the critical analysis of issues and texts, both discursive and creative, and in argumentation and persuasion is essential in all university courses. English Composition provides this foundation by encouraging the mastery of written and oral communication models, including the essay and research paper.

For students entering FIU with 30 or fewer credits and for all first-time-in-college students, ENC 1101, Writing and Rhetoric I and ENC 1102, Writing and Rhetoric II are required.

For students entering FIU with more than 30 credits (who are not first-time-in-college students), ENC 2304, College Writing for Transfer Students, and one of the following: ENC 3314, Writing Across the Curriculum; or ENC 3311, Advanced Writing and Research; or ENC 3213, Professional and Technical Writing are acceptable.

Humanities With Writing (two, three-credit courses required, one of which must be a historically-oriented course): In these courses students strengthen the critical reading and writing skills needed to succeed within the University and beyond. Students interact analytically with, and respond critically to, primary and secondary texts in the humanities and learn to integrate the ideas and words of others into their own writing. By writing informed essays, students develop the ability to present ideas logically and sequentially and to provide balanced exposition and critical examination of complex events, positions, arguments, or texts.

In these courses students learn to use writing as a form of inquiry in reflecting critically upon central topics in the humanities, such as individual, moral, and social values; historical perspectives and events; culture and the arts; philosophy; and religious beliefs and practices. Students address themes centered on the traditions; shared values and myths; literary, artistic, historical, and philosophical traditions; cultural and common values which underlie contemporary societies and their historical antecedents.

(*indicates a course designated as being "historically-oriented")

Quantitative Reasoning (two, three-credit courses required, at least one of which must be in mathematics): The requirement aims at preparing students to master concepts and ideas in logic, inductive and deductive reasoning, and abstract and quantitative thinking. Students will become proficient in the art of reasoning critically, solving problems, and analyzing data.

*MAC 1147 Trigonometry (there is overlap between MAC 2147 and MAC 1114, and both taken together do not fulfill the UCC requirement).
*MGF 1106 Finite Mathematics
*MGF 1107 The Mathematics of Social Choice and Decision Making
*MAC 2147 Pre-Calculus
*MAC 2233 Calculus for Business
*MAC2311 Calculus I

IDS 3163 Global Supply Chain and Logistics – GL
IDS 3301 The Culture of Capitalism and Global Justice – GL

(*indicates a social science course)
**In fulfillment of requirements:**

- **Natural Science (two, three-credit courses required, one in the life sciences and one in the physical sciences, and two corresponding one-credit labs):** Our technologically dependent world requires an understanding of the processes that led us here. Learning the basic concepts and ideas of scientific fields provides contact with not just those fields but with how science is done. In these courses students study the scientific method through examination of the foundational theories of modern scientific thought. Students apply scientific principles and theories to problem solving, evaluate scientific statements, and incorporate new information within the context of what is already known.

  Emphasizing the essential connection between theory and experiment, the hands-on laboratory experience provides the context for testing scientific theories.

- **Life Sciences:**
  - BOT 1010&lab Introductory Botany

- **Societies & Identities (one, three-credit course required):** Students compare societies and cultures in local, national, or international contexts and in contemporary or historical perspective.

- **Arts Requirement (three credit hours required):** Art embodies human dreams, visions, and imagination and renders the human experience creatively in sound, movement, performance, design, language, color, shape, and space. Art responds critically to current events, changes in society, and the drama of human life.

  In fulfilling this requirement, students will become acquainted with the fundamental aspects of the arts while developing a capacity to understand, appreciate, or experience particular forms. Students address universal themes central to the cultural traditions of the past and present as expressed through the perspectives of the arts.

Additional UCC Information
1. Given that Engineering majors must take a significant number of physical science courses and that their accrediting agency requires that they take substantial course work for their major which leaves them with so little flexibility, students in some engineering majors will be allowed to fulfill the Natural Science requirement of the UCC by taking two physical science courses (with labs).
2. Transfer students who have successfully completed MAC 1105 (College Algebra) with a "C" or better at another institution prior to admission to FIU will be deemed to have completed one math course for purposes of the UCC.
3. Transfer students who have successfully completed one or both science courses without labs at another institution prior to admission to FIU will be allowed to fulfill the Natural Science requirement of the UCC.
4. Transfer students who have successfully completed MAC 1105 (College Algebra) with a "C" or better at another institution prior to admission to FIU will be deemed to have completed one math course for purposes of the UCC.
5. State Board of Education Rule 6A-10.030 (Gordon Rule) The State of Florida requires all public community colleges and universities to include intensive writing and mathematics in their curriculum to ensure that students have achieved substantial competency in these areas. This requirement must be fulfilled within the first two years of study.
6a. Writing Requirement (12 credits) Students must successfully complete twelve hours of writing courses with a grade of "C" or better. Six hours must be in composition courses (i.e., courses with the prefix ENC). The additional six hours must be taken in other courses in composition (with the ENC prefix) or in other approved intensive writing courses, which require demonstration of college level writing skills through multiple assignments. Students who matriculated prior to 1983 need only six credits of writing courses with an ENC prefix.
6b. Mathematics (6 credits) One course must be at or above College Algebra level. Students subject to Rule 6A.10.030 need six credits of mathematics, three of which can be a computer programming course, a statistics course, or PHI 2100, Introduction to Logic. A grade of 'C' or higher shall be considered successful completion of this requirement.

Students who matriculated prior to 1983 need only three credits of mathematics, but they must take one mathematics or statistics course.

ADDITIONAL POLICIES AND REQUIREMENTS
1. A student who has graduated from a Florida public community college with an Associate in Arts degree will have met the University Core Curriculum requirements.
2. A student who has met the General Education requirements (as noted on their transcript) of any institution in the State University System of Florida will have met the University Core Curriculum requirements.
3. A student who has earned a previous Baccalaureate degree from an accredited institution will have met the University Core Curriculum requirements.
4. A student who has taken the freshman and sophomore years in an accredited college other than a Florida public community college or an institution in the State University System of Florida may receive credit for courses meeting the University Core Curriculum requirements.
5. A student who has been admitted before completing an equivalent general education program must do so at the University prior to graduation.
6. Most departments require for admission to their degree programs certain freshman and sophomore common prerequisite courses in addition to the University Core Curriculum requirements. Applicants should consult the catalog section dealing with the program they wish to pursue to determine the nature and extent of the additional requirements.

Course Descriptions

Definition of Prefixes
IDS-Interdisciplinary Studies

IDS 3163 Global Supply Chains & Logistics – GL (3). Global supply chains and their interactions with all facets of business and society. Design issues and operation issues are investigated using simulation models and case studies.

IDS 3189 International Nutrition, Public Health and Economic Development – GL (3). This course will examine the impact of global public health, nutrition and economic development on the physical and political environment. Recommended also for non-majors.

IDS 3203 Sustainability Assessment of Energy Alternatives for World Communities – GL (3). An introduction to energy sources, needs and usage, technologies and their sustainability in world communities that include research concerning the present situation and identification of future solutions.

This course examines the interconnected relationship between humans and the structures we have created and our natural environment and the systems that underlie it in looking at global climate change.

IDS 3212 The Global Scientific Revolution and Its Impact on Quality of Life – GL (3). IDS 3212L The Global Scientific Revolution and Its Impact on Quality of Life Lab – GL (1). This course explores how scientific advances change the lives of communities globally and teach non-science majors basic concepts in energy and electronics that they use in their daily lives.

IDS 3214 Our Coastal Environment from the Bay of the World – GL (3). IDS 3214L Our Coastal Environment from the Bay of the World Lab – GL (1). Natural science principles applied to the world’s coastal and marine environments, with emphasis on human use of and interaction with those environments, using cases from Florida and around the globe.

IDS 3301 The Culture of Capitalism and Global Justice – GL (3). This course explores the culture of capitalism in world-historical perspective and in its implications for global justice.

IDS 3309 How We Know What We Know – GL (3). Information literacy merges with the critical perspective to help students understand and measure the diversity, authenticity, and credibility of information in academic or casual reading and writing. Written work meets the state composition requirement.

IDS 3315 Gaining Global Perspectives – GL (3). Students learn to socially locate themselves vis-à-vis others and how their perspectives affect perceiving and understanding others. Students acquire and apply new perspectives to see as others do.

IDS 3333 Diversity of Meaning: Language, Culture, and Gender in Society – GL (3). This course will explore the areas of language, gender and culture as they influence and affect diverse ways of knowing and meaning and making in real and virtual global networks.

IDS 3336 Artistic Expression in a Global Society – GL (3). Exploration of the interrelatedness of societies and culture through language, music and art are explored to appreciate how individuals convey thought and respond to events from various perspectives.

FOREIGN LANGUAGE REQUIREMENT (FLENT/FLEX)

In addition to the above University Core Curriculum requirements, any student who was admitted with a foreign language deficiency must successfully complete appropriate coursework in one foreign language prior to graduation. The selection of coursework will be based on a student’s level of proficiency in a foreign language. Students are encouraged to meet with an academic advisor to discuss options to meet this requirement including two years of foreign language in high school, credit-by-exam, transfer credit, and foreign credentials (TOEFL, completion of high school equivalent outside of the U.S. in a language other than English). A previously earned Baccalaureate degree from an accredited institution also meets this requirement.

TRANSFER AND TRANSITION SERVICES

Transfer and Transition Services (TTS) provides transfer students with the information and resources necessary for a successful transition to the University. A critical component of the transfer process is determining course equivalency. The State of Florida offers transfer course guarantees for students who earn the A.A. degree or meet General Education requirements from Florida public institutions. There are also transfer guarantees for students who transfer courses from private institutions in Florida whose courses are included in Florida’s Statewide Course Numbering System (SCNS). Transfer courses that do not fall under these agreements require an equivalency process that includes a thorough review of course content, and learning outcomes to determine comparability to courses at Florida International University.

TTS coordinates the course equivalency process for courses in the University Core Curriculum, as well as previous (FIU) curricula (Core Curriculum and General Education). TTS also coordinates equivalencies for credit-by-exam mechanisms and military education.

Each academic department is responsible for determining course equivalency for transfer courses that may be applicable to the student’s program, including upper-division requirements.

Transfer and Transition Services Contact Information:
PC 237, Modesto A. Maidique Campus, (305) 348-3844 http://undergrad.fiu.edu/transfer/

TRANSFER CREDIT

For purposes of clarity, transferability refers to the conditions under which the University accepts credits from other post-secondary institutions. Applicability of credit toward a degree refers to the prerogative of the respective academic division to count specific credit toward a student’s degree requirements. Normally, collegiate work will be considered for transfer credit only from post-secondary institutions that are fully accredited by a regional accrediting association or those institutions recognized by a national accrediting agency recognized by the U.S. Department of Education that participates in Florida’s Statewide Course Numbering System (SCNS) at the time the coursework was completed.

The Office of Admissions will evaluate the acceptability of total credits transferable to the University. Transfer credit will be applied as appropriate to a student’s degree program. The authority to apply such credit to the degree rests with Transfer and Transition Services for University Core Curriculum requirements, and the academic division of the student’s intended major for upper division and prerequisite requirements. If a student chooses to transfer to another academic division within the University, credit previously earned at another post-secondary institution will be re-evaluated and applied as appropriate to the student’s new degree program.

A maximum of 60 lower division semester hours taken at a two-year or a four-year institution may be counted toward a degree at the University. A maximum of 30 upper division semester hours taken at a four-year institution may be counted toward a degree at the University.

Lower division courses in excess of 60 semester hours may serve to meet specific course requirements for an FIU degree, but credit hours represented by these courses will
not reduce the number of credit hours to be completed at the University.

A grade of ‘D’ will be accepted for transfer credit, although it may not satisfy specific requirements. However, such a grade in coursework in the major field is subject to review and approval by the appropriate academic department.

Credit earned for military education will be transferred and evaluated in accordance with the recommendations of the American Council on Education (ACE). Credit earned in accredited post-secondary institutions outside of the U.S. will be considered on an individual basis and in consultation with the official evaluation of foreign education.

CREDIT-BY-EXAM

The academic programs of the University are planned in such a manner that students may complete some of their degree requirements through one or more accelerated mechanisms. Florida International University recognizes the following credit-by-exams: Advanced Placement (AP), Cambridge Advanced International Certificate of Education (AICE/A and AS-Level), Caribbean Advanced Proficiency Examinations (CAPE), College Level Examination Program (CLEP), DANTES Subject Standardized Tests (DSST), Excelsior College Examinations (ECE), and International Baccalaureate (IB).

The awarding of credit for AP, A and AS-Level, CLEP, DANTE/DSST, Excelsior, and IB follow the guidelines established by the Florida Board of Governors’ Articulation Coordinating Committee. These guidelines include, but are not limited to, the following:

1. A maximum of 45 semester hours may be granted for all credit-by-exams combined.
2. Credit awarded by exam may not duplicate other credit.
3. If duplicate credit exists, the exam yielding the most credit will be awarded.
4. Course equivalencies are included in the student’s unofficial transcript and degree audit.
5. There are no grades associated with credit-by-exam equivalencies.

A complete set of guidelines, as well as credit-by-exam equivalency tables, can be found on the Transfer and Transition Services website:
http://undergrad.fiu.edu/transfer.

ADDITIONAL CREDIT-BY-EXAMS

Florida International University recognizes additional forms of acceleration, including Defense Language Proficiency Test, German Abitur, and French and General Baccalaureate. These credit-by-exam mechanisms are evaluated on a case by case basis in consultation with University faculty. The application of credit for these exams is left to the discretion of the University.

Florida International University awards credit for Advanced Level Program completed through College Board, Puerto Rico and Latin America Office. The following three exams and scores are accepted: Pre-Calculus (Level II) with a score of 4 or 5, English with a score of 4 or 5, and Spanish with a score of 3, 4, or 5.

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP)

One credit-by-exam that is available to students while enrolled at the University is the College Level Examination Program. This examination program is designed to measure knowledge in certain subject areas of general education. Credit earned through CLEP examination may be equated to courses in the University Core Curriculum or lower-division electives. To register for an exam, go to https://testing.fiu.edu or contact the University Testing Center at (305) 348-2441 (Modesto A. Maidique Campus) and (305) 919-5927 (Biscayne Bay Campus).

CREDIT FOR NON-COLLEGE LEARNING

The awarding of credit for learning acquired outside the university or classroom experience is the prerogative of each academic department or program. Only degree-seeking students are eligible to receive this type of credit. The significant learning must be applicable to the degree program of the student, and should be discussed and appropriately documented at the time the desired program of study is initially discussed and decided with the student’s program advisor. A maximum of 6 credit hours will be awarded. Credit for learning may not be used to meet University Core Curriculum (UCC) requirements.

NATIONAL STUDENT EXCHANGE

National Student Exchange provides students with the opportunity to study at one of 200 colleges and universities in the United States, its territories, and Canada for one semester or academic year, at little or no more tuition cost than they now pay. Full credit is given for work satisfactorily completed on exchange. NSE offers the student the opportunity to live in a different geographic setting, explore a particular academic interest, and, of course, make new and lasting friendships.

In order to participate in the National Student Exchange, degree-seeking students must be enrolled full-time and have a 2.8 cumulative GPA. For further information contact Jamie Perez at (305) 348-1292 or PerezJa@fiu.edu, or visit the website at http://undergrad.fiu.edu/nse/.

INTERNATIONAL STUDENT EXCHANGE PROGRAM

The International Student Exchange (ISE) Program provides students with the opportunity to study abroad (during one or two semesters) at one of the various universities with which we have a student exchange agreement. Full credit is given for work satisfactorily completed during the exchange program as long as it has been pre-approved by an advisor. Grades are not transferred. The International Student Exchange Program offers the opportunity to live abroad, explore other languages and cultures, and become acquainted with new friends from all over the world. Students will be required to pay FIU tuition, insurance, housing, meals, and travel arrangements.

In order to participate in the ISE program, a student must be enrolled at FIU and have a 3.0 cumulative GPA.
For more information, please contact the Office of Education Abroad located in PC 113, (305) 348-1913, email: EducationAbroad@fiu.edu, or http://educationabroad.fiu.edu.

STUDY ABROAD PROGRAM

Each year FIU offers a number of Study Abroad Programs through the Office of Education Abroad, in coordination with different academic units. Most of these programs are under the direction of FIU faculty members who accompany the students abroad. Students receive FIU credit for these programs and scholarships are available. Program locations include Brazil, China, Spain, England, Czech Republic, Germany, Italy, Japan, and others. FIU also has exchange agreements with universities throughout the world, through which students can go for a semester and take classes at a partner university in the language of the host country. The Honors College also offers programs in Italy, Peru, and France.

For more information, please contact the Office of Education Abroad located in PC 113, (305) 348-1913, email: EducationAbroad@fiu.edu, or http://educationabroad.fiu.edu.

PRE-MEDICAL/PRE-HEALTH PROFESSIONS ADVISEMENT

Students interested in pursuing a career in one of the health professions [medicine (M.D./O.D.), dentistry, veterinary medicine, pharmacy, optometry, podiatry, physicians assistant, or chiropractic medicine] may contact the FIU Office of Pre-Health Professions Advising at Preprofc@fiu.edu prior to registration in their first semester of study for advising information. Students will need to be in frequent communication with the Office of Pre-Health Professions Advising during their academic careers. When nearing completion of their required professional prerequisite courses, students must contact the Office of Pre-Health Professions Advising to arrange for an interview with the Pre-Health Professions Advisement and Evaluation Committee. For those applying to professional Schools, the Office provides needed assistance with the application process and the Committee prepares an important letter of recommendation. Please visit the website of the Office of Pre-Health Professions Advising, at http://casgroup.fiu.edu/prehealthadvise/index.php, where you will find extensive information about the different career options within the health care professions, the pre-health curriculum, a description of the professional school application process and appropriate requirements for the different professional schools.

PRE-LAW ADVISEMENT

Students interested in receiving information on Law School/pre-professional education, on application procedures, testing, and references should contact the College of Arts and Sciences Advising Center (ECS 411 (305) 348-2978). Professional advisors in the CAS Advising Center will advise students who are seeking information about attending law school. Students are encouraged to visit: http://cas.fiu.edu/index.php/undergraduates/advisingc enters/pre-law-advising.

ACADEMIC LEARNING COMPACTS

The Florida Board of Governors has mandated that the public universities in Florida develop an Academic Learning Compact for each baccalaureate degree program that they offer, accessible through http://apa.fiu.edu/alc.html.

The Compacts identify the expected core student learning outcomes for degree program graduates in the areas of communication skills, content/discipline knowledge and skills, and critical thinking skills. Students should acquire these skills if they follow the prescribed course of study in their declared major. Students may be expected to participate in a number of activities associated with the Compacts such as answering embedded questions in scheduled exams, creating a portfolio, enrolling in a capstone course, or sitting for a specialized exam. The program or department will notify students of what procedures have been developed to measure the learning specified in the Academic Learning Compact in their baccalaureate program beyond course grades.
Honors College

The Honors College at Florida International University is a community of outstanding students, dedicated scholars, and committed teachers who work together in an atmosphere usually associated with small private colleges, using the resources of a major state university.

The Honors College provides a broad interdisciplinary curriculum of unique courses and the chance to work closely with expert faculty and distinguished members of the larger community. Preparedness for graduate or professional study and for employment are significantly enhanced by exclusive Honors College research and study abroad programs, as well as networking, service and internship opportunities. The Honors College experience includes living-learning communities, an emphasis on peer and faculty mentoring, community service, national conference participation, and a variety of active student organizations.

Students may pursue any major available at the University and at the same time complete the Honors curriculum. The curriculum emphasizes critical, integrative, and creative thinking; group and independent research; oral presentation; and close contact between students and faculty.

Committed to excellence, professors in the Honors College are carefully selected for their accomplishments as both teachers and scholars.

The College has special relationships with the university’s professional schools that offer students unique opportunities: a three-plus-three program with the College of Law allows eligible students to begin law school in lieu of their fourth year of undergraduate study, and an agreement with the College of Medicine guarantees Honors College students a personal interview, based on eligibility.

In addition to the interdisciplinary curriculum, Honors College students enjoy many other benefits:

- Transcript notation: “Graduated through the Honors College”
- Priority registration
- Honors College scholarships, including a free laptop program for qualified students
- Unique study abroad programs
- Leadership training
- The Honors College Advanced Research Program, pairing students and faculty mentors to conduct advanced research projects
- Career enrichment services with Honors-only job and internship opportunities
- Funding to attend national and international conferences
- Dedicated information technology centers and library study rooms
- Eligibility for membership in Honors College societies and the Honors Leadership Council
- Graduate-level library borrowing privileges
- Living-learning communities in housing
- Community partnerships for service learning

For more information about the Honors College, see the Honors Curriculum in this catalog or visit honors.fiu.edu.
University Libraries

Uniquely positioned at the intersection of information, technology, and innovation, the University Libraries engage with local and global partners to foster student-centered learning and to support internationally recognized research. The Libraries are wonderful gathering places to pursue scholarly research, to learn about and use information technology, to write, to study, and to draw on a rich collection of print and electronic resources. Here you will find just about everything you need in order to collaborate and create new knowledge for the 21st century: over 2 million volumes, thousands of DVDs, maps, manuscripts, rare books, electronic books, microfilms, and some 400 online databases containing millions of articles from tens of thousands of online journals, newspapers, government reports, and more. You can access many of these resources right from home by tapping into our online books, journals, newspapers, historical documents, photographs, and other materials. To help you with your research needs, our librarians will gladly assist you in person, by phone, by email, and by live chat, and spend as much time as you require showing you how to navigate the resources. The Libraries also offer wireless internet access, PDA access to the catalog, laptop checkout, late-night hours, document scanning to email, laser color printers, study rooms, group- and quiet-study- spaces, collaborative-learning areas, disability access, graduate-research carrels, and cafés. Have your computing questions answered at the University Technology Services desk and consult with skilled tutors at the Center for Excellence in Writing. The Libraries also house the world-renowned Everglades Digital Library, state-of-the-art Geographic Information Systems (GIS) labs, the Latin American and Caribbean Center, and the Special Collections. In addition, as an FIU student you have privileges at most other libraries in South Florida and all other Florida State University System libraries.

In keeping with FIU’s core value--student-centered service--the Libraries are redesigning and renovating several prime service areas as futuristic information commons sites, complete with ubiquitous wireless computing, small-group presentation rooms, flat-screen technology, self-serve checkout, flexible modular furniture, and many other features designed to accommodate the way you will collaborate, study, and use information throughout your university career and beyond.

Visit our various locations: the Green Library at Modesto A. Maidique Campus, the Hubert Library on the Biscayne Bay Campus, the Engineering Library Service Center, and virtually at http://library.fiu.edu.
University Museum

THE PATRICIA AND PHILLIP FROST ART MUSEUM

The Patricia & Phillip Frost Art Museum on the Modesto A. Maidique Campus has served as an arts resource for the university and surrounding communities in South Florida for over 30 years. The Frost Art Museum enriches and educates diverse audiences through the language of art with its collections of broad range of art from around the world and exhibitions and public programs which enhance the collections. The Museum is the repository of over 6,000 works of art. The collection includes a strong representation of American printmaking from the 1960s and 70s; paintings by important American artists including Hans Hofmann, William Merritt Chase and William Glackens; a growing number of artworks by contemporary Caribbean and Latin American artists. The non-Western collections include Pre-Columbian objects, Japanese netsukes and prints, and Benin bronzes and other African pieces. In addition, through the Betty Laird Perry Emerging Artist Awards, works by graduating art students at FIU are collected. An important part of the Frost collection is the Sculpture Park installed throughout the Maidique Campus.

The Frost was founded in 1977 as a gallery devoted to the display of the work of students in FIU’s Art & Art History Department five years after the opening of the University. As interest grew, it expanded to an active display space in an administrative building in the heart of campus. The Museum’s exhibition program along with associated public programs drew audiences from all of South Florida. In 2008, after 10 years of planning, it moved to its own dedicated, world-class museum building. Since its opening, The Museum has organized exhibitions of Modern Masters from the Smithsonian Institution; Taiwan Art; The Missing Peace: A Tribute to the Dalai Lama; Volf Roitman; Modernism from Venezuela; a Baroque Selection from Dutch and Flemish Masters; a Permanent Collection exhibition, and many others. The Frost Art Museum offers a robust series of changing exhibitions to the public throughout the year. Other, smaller changing galleries allow for the display of The Museum’s permanent collections, collaborative exhibitions with the Wolfsonian-FIU; video installations and site-specific works. Student and faculty exhibitions are an important component of The Museum's academic function. They present the work of student and faculty artists and alumni, many of whom have gone on to receive state and national recognition, including National Endowment for the Arts, MacArthur Foundation, Cintas Award, Guggenheim Fellowship Award and Florida Visual Artist grants and fellowships.

The Frost Art Museum presents a significant series of public programs in conjunction with the major exhibitions it borrows and organizes each year. The Steven & Dorothea Green Critics’ Lecture Series brings art world luminaries and renowned artists, critics, curators, designers and scholars to South Florida’s diverse audiences. Other on-going programs, such as Target Wednesday After-Hours, provide visitors the chance to engage with the contemporary and confront the controversial with talks, films, live music and art.

The Museum’s varied educational programs nurture and increase each participant’s knowledge of art for groups of all ages and backgrounds, including the culturally diverse FIU community and residents of and visitors to South Florida. More than 12,000 students from Miami-Dade County Public Schools participate in tours and hands-on activities at The Museum annually. The Museum also offers guided tours of the current exhibition and the Sculpture Park. Another aspect of The Museum’s education programs is the Graduate Certificate in Museum Studies, offered in conjunction with the Department of Art & Art History. This program prepares individuals for employment in museums, historic preservation, and collection management.

Please visit the museum’s website at http://thefrost.fiu.edu or call (305) 348-2890.
Student Affairs

The Division of Student Affairs seeks to enhance the academic mission of the University by promoting a vast array of educational, social, and cultural opportunities and programs. We believe that a student’s education takes place both inside and outside the classroom. We aim to provide an environment that supports the growth and development of our students by catering to their social, intellectual, emotional, and spiritual needs. From orientation to job interview skills, volunteer opportunities to multicultural programs, health care screenings to residential life, Student Affairs is here to help you make the most of your college experience.

The following are Student Affairs departments and programs:

CAMPUS LIFE

The Department of Campus Life includes the Student Government Association, Black Student Union, Council for Student Organizations (MMC), Student Organizations Council (BBC), Student Programming Council, Honors Council, Greek Organizations, Multifaith Council, Homecoming Council, and Panther Power (BBC). Location: GC 2240, Modesto A. Maidique Campus, (305) 348-2138. Web site: http://www.fiu.edu/~greeks/

Involved on Campus. Activities such as planning Homecoming events, Student Government, movies, athletic events, pep rallies, concerts, comedy shows, lecture series, multicultural theme weeks, and community service are a few of the fun and educational programs offered through the department. Students may form additional organizations and clubs that promote the University’s educational mission and the development of one’s personal attributes. Campus Life activities are curricular and cover all aspects of the educational experiences and personal growth of students. Over 210 registered organizations exist to enrich campus life and contribute to the social, cultural, and academic growth of students.

The Department of Campus Life includes the Student Government Association, Black Student Union, Council for Student Organizations (MMC), Student Organizations Council (BBC), Student Programming Council, Honors Council, Greek Organizations, Multifaith Council, Homecoming Council, and Panther Power (BBC). Location: GC 2240, Modesto A. Maidique Campus, (305) 348-2138; WUC 141, Biscayne Bay Campus, (305) 919-5804.

CHILDREN’S CREATIVE LEARNING CENTER

Established in 1975, the Children’s Creative Learning Center, an Educational Research Center for Child Development, is a SACS accredited, Gold Seal Program. The center, a department within the Division of Student Affairs, is located on the Modesto A. Maidique Campus and offers an array of programs for young children.

A full-day developmentally appropriate hands-on early education program is available for children of students, faculty, staff, alumni, and the neighboring community. The program serves children who have achieved bathroom independence between the ages of 2 ½ through five 5 years, Monday through Friday, from 7:45 a.m. to 6:00 p.m., with pick-up at 12:00 noon, 12:30 p.m., or after 3:30 p.m.

The center participates in the Florida Voluntary Pre-Kindergarten (VPK) Program for four-year-old children, and is available within the hours of the full-day program. Step Up For Students Kindergarten Scholarship is available for all low-income kindergarten families.

A part-time developmentally appropriate hands-on early Childhood Toddler program is available for children 2 to 2 ½ years of age for students, staff, faculty, alumni, and the neighboring community.

A part-time Edu-Care/Flex-Time program is available for students and faculty on campus for limited time periods offering a safe and nurturing setting for their 3 or 4-year-old child who has achieved bathroom independence. The program requires a minimum two hours/two days per week semester contracted time block between 8:45 a.m. to 5:00 p.m., Monday through Friday, and 5:00 to 8:00 p.m. Monday through Thursday.

Financial support is available for all programs for FIU Pell Grant eligible students in addition to the VPK and Kindergarten Scholarship. Center enrollment priority is given to children of FIU students. To request an admission form, stop by the center or call (305) 348-2143. Web site: http://www.fiu.edu/~children.

SORORITY AND FRATERNITY LIFE

Greek organizations—fraternities and sororities—contribute to the university by promoting leadership, scholarship, service, social activities, and brotherhood and sisterhood.

An Interfraternity Council governs men’s fraternities, a Multicultural Greek Council governs historically multicultural-based fraternities and sororities, a National Pan-Hellenic Council governs historically African-American fraternities and sororities, and the Panhellenic Council governs women’s social sororities. The Order of Omega is the honorary leadership society of fraternities and sororities that promotes leadership and scholarship among Greeks. Rho Lambda is the honor society that recognizes women for their leadership contributions to the Panhellenic Council and for high academic achievement. Formal recruitment periods. Membership Intake Processes are held Fall or Spring semester depending on the organization and council. For more information, please check our website.

Location: GC 2240, Modesto A. Maidique Campus, (305) 348-2138. Web site: http://www.fiu.edu/~greeks/.

STUDENT GOVERNMENT ASSOCIATION

The Student Government Association is comprised of representatives from all Schools and Colleges who are elected by the student body. There is a Student Government Council at both the Biscayne Bay Campus and Modesto A. Maidique Campus. SGA is responsible for overseeing and appropriating the Activity and Service (A&S) fees paid by all students each semester. These fees fund many of the campus life events, student activities, and clubs and organizations. SGA also acts as the liaison between the students and administrative areas of the University, specifically speaking, and lobbying on behalf of students.

Sorority and Fraternity Life

Greek organizations—fraternities and sororities—contribute to the university by promoting leadership, scholarship, service, social activities, and brotherhood and sisterhood.

An Interfraternity Council governs men’s fraternities, a Multicultural Greek Council governs historically multicultural-based fraternities and sororities, a National Pan-Hellenic Council governs historically African-American fraternities and sororities, and the Panhellenic Council governs women’s social sororities. The Order of Omega is the honorary leadership society of fraternities and sororities that promotes leadership and scholarship among Greeks. Rho Lambda is the honor society that recognizes women for their leadership contributions to the Panhellenic Council and for high academic achievement. Formal recruitment periods. Membership Intake Processes are held Fall or Spring semester depending on the organization and council. For more information, please check our website.

Location: GC 2240, Modesto A. Maidique Campus, (305) 348-2138. Web site: http://www.fiu.edu/~greeks/.
SGA members represent the student body on University-wide committees and task forces to ensure student representation at the administrative level. SGA meets regularly and students are highly encouraged to attend meetings and become involved in all aspects of Student Government.

Location: GC 211, Modesto A. Maidique Campus, (305) 348-2121; WUC 141, Biscayne Bay Campus, (305) 919-5680.

**CENTER FOR LEADERSHIP AND SERVICE**

The Center for Leadership and Service (CLS) provides students with developmental and experiential opportunities that foster leadership and community engagement, grounded in values and moral purpose. Through leadership education, service learning, advocacy, and volunteerism, students will become active global citizens on campus, in the community, and in the workplace.

Leadership education is both curricular (for credit) and co-curricular (non-credit). PAD 3431 Exploring Leadership is a three-credit introductory leadership course open to all students. SOW 4932 Service Learning examines social issues and develops a response through a service project. These courses are part of an academic certificate in Leadership Studies offered through Public Administration. Non-credit leadership development programs range from one-hour skill building workshops, to semester-based programs, to a year-long living/learning community on campus. All of these programs are interactive and experiential in nature and are offered at a variety of times to accommodate our diverse student population. Programs are developmental in nature, so students can begin with an entry-level program and progress to more advanced leadership training while at FIU. Consult the department web site for program descriptions and application details, [www.leadserve.fiu.edu](http://www.leadserve.fiu.edu).

CLS is also the central office for service development, by offering a clearinghouse and resource center for volunteer activities, service-learning, and advocacy for social issues. Three major service projects are sponsored by CLS. Alternative Break (AB) educates students about social issues and encourages them to make a difference by participating in direct service projects in communities throughout the country and abroad. Dance Marathon is a student-run philanthropy dedicated to raising money for the Children's Miracle Network. Students can serve on the planning committee or participate as dancers in the 25-hour fundraiser that benefits the Miami Children's Hospital Foundation. Relay for Life is the signature fundraising event for the American Cancer Society. A committee of FIU students organizes the overnight walk and thousands participate in the event to celebrate life and provide hope for those touched by this disease. By taking leadership roles in organizing and implementing these projects, students are able to practice and refine their leadership skills.

Students may also take on leadership roles by providing peer education. The LEAD Team is a student group that promotes and supports leadership development. The LEAD Team participates as program promoters and department ambassadors, group facilitators, classroom presenters, and consultants to student organizations.

The Center for Leadership and Service is dedicated to developing the leadership capacity and service ethic of all students, regardless of position or title.

Location: GC 242 Modesto A. Maidique Campus, (305) 348-6995; WUC 256, Biscayne Bay Campus, (305) 919-5360.

Web site: [http://www.leadserve.edu](http://www.leadserve.edu).

**MULTIFAITH COUNCIL**

The Multifaith Council serves student groups involved in a variety of activities. Professional representatives from various faiths are available for personal appointments. Individual denominations sponsor campus-wide programs including worship, study groups, social gatherings, and cultural events. Campus Ministry sponsors programs and activities which are non-denominational.

Location: GC 318, Modesto A. Maidique Campus, (305) 348-3902; CM 101, Biscayne Bay Campus, (305) 919-5247.

**CAREER SERVICES**

Career Services (CS) assists registered students at all University locations with career plans and employment needs across academic disciplines, and with all types of employers: business and industry, education, technology, government, science, construction, manufacturing, telecommunications, transportation, military and defense, and consumer products and services that may be for-profit or non-profit. CS works closely with the CS offices that are located in the School of Hospitality and Tourism Management, College of Business Administration, and College of Law. CS's high-tech and high-touch philosophy offers 24-7 services plus individualized attention through intake hours and one-on-one appointments.

CS encourages students to register with the office immediately after enrolling in classes—whether as a freshman, a transfer, or a graduate student. The office can help you identify a major, find an internship, or locate a career that is right for you. Get involved with Career Services. Our programs and services include:

- **CAREER DEVELOPMENT AND MANAGEMENT** - This area offers career interest tools assessments, group and individual appointments, as well as workshops for those desiring to identify their next educational and/or career path.

- **INTERNSHIPS AND COOPERATIVE EDUCATION** - We assist students in identifying and securing practical experience in their chosen major. Assignments include part-time as well as full-time employment. Internships and Cooperative Education often provide a salary and academic credit with assignments possible at local, national, or international levels. These experiences have been found to significantly increase the possibility of gaining full-time career employment at time of graduation.

- **EMPLOYMENT UPON GRADUATION** - Students are encouraged to become fully registered with CS, this allows you to take full advantage of the Campus Interview Program, Resume Referral Service, and Online Job Vacancies. You will also receive regular e-mails about networking opportunities and job fairs.

- **DELTA EPSILON IOTA** – An academic honor society dedicated to enhancing student leadership skills,
career development, and networking opportunities with employers. The society supports the mission, vision, and goals of the Career Services Office. Membership is open to undergraduate and graduate students across all academic units who meet the 3.3 GPA requirement and have earned at least 30 semester hours. CS also provides specialized workshops like business etiquette lunches/dinners, dress for success seminars, salary negotiating, interviewing effectively, and how to network. Other activities include resume critiques, practice interviews, and advance interviewing. The office has video conference capabilities for interviewing.

**DISABILITY RESOURCE CENTER**

Disability Resource Center provides information and assistance to students with disabilities who are in need of ADA accommodations. Services are available to students with the following: deaf/hard of hearing, blind or low vision, speech/language disability, orthopedic disability, specific learning disability, psychological, emotional, or behavioral disability, autism spectrum disorder, traumatic brain injury, or other health disabilities. Services include auxiliary aids and academic adjustments for qualified individuals and may include: classroom accommodations, assistive technology, note-takers, readers, ASL interpreters, adapted testing, priority registration, and referrals. Support and assistance in overcoming architectural, academic, attitudinal, and other barriers encountered are provided. Current documentation of a disability is required to establish accommodations and to receive services. Prior to the beginning of each semester, a request for accommodations must be provided by the student, resulting in the notification of the faculty.

Location: GC 190, Modesto A. Maidique Campus, (305) 348-3532; WUC 131, Biscayne Bay Campus, (305) 919-5345. TTY 1-800-955-8771.

**UNIVERSITY HEALTH SERVICES**

Good health is essential to your success while at the University and throughout your life. Therefore, the University Health Services utilizes funds collected through the student health fee to provide registered students with free or low-cost healthcare and health promotion services. Ambulatory care centers are available on each campus to serve students' primary health care needs in a convenient and patient-friendly environment.

**Some of the services are:**
- Immunizations
- Medical office visits with registered nurses, primary care nurse practitioners, and physicians
- Women’s clinical services: physical exams and diagnostic tests including pap smears, pregnancy tests, colposcopy, cryotherapy, and ultrasounds
- Family planning counseling
- Laboratory tests (blood, urine, and cultures)
- EKGs, vision, and hearing tests
- Pharmacy services which include over-the-counter products and prescription medications at competitive prices. You may have prescriptions filled from your health care provider even if not seen at one of the FIU health clinics
- Lifestyle workshops, lectures, and activities for groups or individuals are provided on a variety of topics such as: wellness, stress management, nutrition, fitness, sexual health (HIV/AIDS, STD, etc.), substance use/abuse prevention, preventive health issues/self-care, and aromatherapy
- Fitness assessment (weight, body composition, blood pressure/heart rate, flexibility, cardiovascular fitness)
- Health Education consultations on nutrition, fitness, smoking cessation, wellness, stress management, aromatherapy, and sexual health
- Massage therapy
- Acupuncture
- Anonymous HIV counseling and testing

**Important information before accessing our services:**
- Students must present a current, valid FIU photo ID at the time of the office visit.
- For your convenience, appointments are strongly recommended.
- If you need to cancel an appointment, you must call at least 24 hours prior to your appointment time.
- Payment is required at the time of service. Cash (At MMC only), checks, money orders, MasterCard/VISA/Discover credit cards, and the FIU debit card are accepted as forms of payment.
- After hours and emergency care is not offered at our facility. In case of emergency on either campus, call Public Safety (24 hours a day) at 305-348-5911.
- The student health fee does not cover diagnostic and therapeutic medical visits to outside physicians, clinics, or hospitals. Students are strongly encouraged to purchase supplemental health insurance. A health insurance policy is available at a low rate for students who take six or more credits a semester. See our website for further details about the current domestic insurance plan.
- For a complete list of our services and charges, visit our website at [www.studenthealth.fiu.edu](http://www.studenthealth.fiu.edu).

Location: University Health Services Complex (near the College of Law and Recreation Center), Modesto A. Maidique Campus, (305) 348-2401, Fax: (305) 348-6655; Health Care Center (HCWC Building located by parking lot 1-C), Biscayne Bay Campus; Wellness Center: (third floor of the Wolfe University Center), (305) 919-5620, Fax: (305) 919-5312.

**STUDENT MEDIA**

Student media at FIU include **The Beacon** newspaper, fiusm.com, and WRGP radio. **The Beacon** is an editorially independent publication produced by students and distributed free. The purpose of **The Beacon** is to keep the university community informed about campus news, events and activities; to serve as a forum for opinion and commentary concerning campus related topics; and to protect the interests of the University community and its component parts. It is published Monday, Wednesday, and Friday during the Fall and Spring terms, except during holiday breaks. It is also published eight times during the summer term. Students can work on the staff in news and features, photography, and/or advertising. No prior experience is required.
WRGP is FIU’s radio station located at 88.1, 95.3 (MMC), and 96.9 (BBC) FM. Its programming is an eclectic mix of the latest music on the cutting edge of the alternative scene, FIU sports play-by-play, and news. Programming also includes daily specialty shows that cover the music spectrum of metal to reggae, and in between Caribbean, hip-hop, rap, Latin rock, jazz, and classical mornings. The station operates 24 hours seven days a week. The station provides a mean for students to acquire experience in various disciplines related to the broadcast industry, including hands-on experience in a realistic, business-like setting encompassing teamwork and professional standards. Students can work in areas such as broadcasting, business, promotions, and/or engineering. Prior experience is not required.

Fiusm, is a multi-media website that incorporates all of student media. Not only can you read about an event, but you can also listen and watch it with fiusm's streaming video. The website is updated five days a week. fiusm accepts advertising.

Location: The Beacon, GC 210, Modesto A. Maidique Campus, (305) 348-2709; WUC 220, Biscayne Bay Campus, (305) 919-4722. WRGP, GC 319, Modesto A. Maidique Campus, (305) 348-3071; fiusm.com, GC 210, Modesto A. Maidique Campus.

THE DEPARTMENT OF HOUSING AND RESIDENTIAL LIFE

The Department of Housing and Residential Life provides housing for students at both the Modesto A. Maidique Campus and Biscayne Bay Campuses. There are six residential complexes five are located at the Modesto A. Maidique Campus and one on the Biscayne Bay Campus housing approximately 3,100 students on both campuses. Our student housing is designed to provide a comfortable living environment conducive to supporting students’ academic success. The facilities are located within walking distance to classrooms, faculty offices, labs, recreation facilities, and other student services. There are multiple room types which provide a variety of accommodations to meet students’ housing needs and budgets.

The campus residential community provides unique opportunities for personal growth and development, leadership experiences through student participation in programming and activities, and developing an appreciation of and sensitivity to differences. Residents have the opportunity to enjoy social and educational events that are sponsored by the Residence Hall Association and Resident Assistants. The residence halls feature several Living and Learning Communities that include: FYRST (First Year Residents Succeeding Together), FYRST Explore, FYRST Social Justice, Arts and Architecture, Honors Place, Honors Place 2, Honors Place on the Bay, Leaders in Residence, and a Law Community. Housing academic tutors known as the A-Team are also available to assist students with their academic tutoring needs.

All of the housing facilities have fast Ethernet connections. Unlimited access to the web, basic cable television, and utilities are included in the room rental rate. Each of the residence halls is staffed with both professional and paraprofessional personnel to ensure the facilities are safe and well maintained. For more information regarding services and accommodations, please visit our web page at http://www.housing.fiu.edu. Location: Housing Office, University Park Towers (UPT) 121, Modesto A. Maidique Campus, (305) 348-4190, Fax: (305) 348-4295; e-mail: housing@fiu.edu. Office of Residential Life, Panther Hall (PH) 126, Modesto A. Maidique Campus, (305) 348-3661, Fax: (305) 348-3674. On the Biscayne Bay Campus, the Bay Vista Housing Office is (305) 919-5587.

INTERNATIONAL STUDENT AND SCHOLAR SERVICES

The Office of International Student and Scholar Services (ISSS) assists international students and visiting researchers and scholars by providing advising services related to immigration, legal, personal, academic, cultural, social, and financial concerns.

The staff serves as a resource to the university community for cross-cultural concerns and advises and consults with the university community on matters pertaining to international students and visiting researchers and scholars. ISSS is also responsible for maintaining university compliance with the Student Exchange Visitor Information System (SEVIS) for the Department of Homeland Security (DHS).

All new and/or international transfer students MUST attend a MANDATORY orientation program before the start of their first semester and MUST report to the ISSS office no later than one week after the start of classes. The ISSS also offers social and cultural programs to assist students in adapting more effectively to the university community and to living in Miami. An active International Student Club on each campus collaborates with the department in organizing various social activities. Club programs enable students to participate in the international dimension of the university and provide opportunities for involvement in the greater Miami community.

Location: GC 355, Modesto A. Maidique Campus, (305) 348-2421; WUC 363, Biscayne Bay Campus, (305) 919-5813. Web site: http://isss.fiu.edu

MULTICULTURAL PROGRAM AND SERVICES

The Office of Multicultural Programs and Services (MPAS) provides retention-centered services for our diverse student body. MPAS offers students the personal, academic, social, and cultural support needed for the achievement of their educational goals. Staff members assist with leadership development, counseling, career and academic advisement, financial assistance, tutorials, and serve as liaisons to academic units and student support services University-wide. Student Support Services (SSSP), a TRIO program, also falls under the MPAS umbrella. This program is geared toward providing a cohort of first-generation, low income students with various support services to help them attain their bachelor’s degree. MPAS also houses two graduate assistant positions devoted to coordinating and promoting LGBT (Lesbian, Gay, Bisexual, and Transgender) initiatives and programming.

Student Organizations advised through MPAS include Alpha Kappa Alpha Sorority, Inc., Black Student Union,
Stonewall Pride Alliance, On Point Poetry, MALES, NAACP, and Black Female Development Circle, Inc. Location: GC 216, Modesto A. Maidique Campus, (305) 348-2436; WUC 253, Biscayne Bay Campus, (305) 919-5817; SSSP, GC 265, Modesto A. Maidique Campus, (305) 348-6424; WUC 253, Biscayne Bay Campus, (305) 919-5817.

AAA Tutorials (Assistance for Academic Achievement) is a free tutoring service available for all enrolled FIU students at both campuses. Location: GC 267, Modesto A. Maidique Campus, (305) 348-4109; WUC 253, Biscayne Bay Campus, (305) 919-5817.

OFFICE OF THE OMBUDSMAN

The Ombudsman Office acts as an impartial and confidential forum to assist students who have encountered problems or conflicts at the University, particularly problems or concerns not adequately addressed through normal channels. This may include correcting processes or procedures which hinder resolving the issue or are causing an inordinate delay. The Ombudsman may resolve problems through various methods, including investigation, mediation, or making referrals to the appropriate university department for review. The Ombudsman should be utilized in situations where all areas of appeal have been exhausted or proven unsuccessful.

For more information or services, please contact the Office of the Ombudsman at (305) 348-2797 located in Graham Center 219 at Modesto A. Maidique Campus, or located in WUC 325, Wolfe University Center, Biscayne Bay Campus, (305) 919-5800.

ORIENTATION AND COMMUTER STUDENT SERVICES

The Office of Orientation and Commuter Student Services provides resources, services, and programs to new students and the University’s commuter student population. The “Panther Preview” Orientation program is designed to assist new students with the transition to university life by introducing them to the vast array of resources available at FIU, providing time to work with an academic advisor, and giving them an opportunity to get to know their new classmates. New students meet with a Peer Advisor who introduces them to the campus surroundings and provides valuable insight into what it is like to be an FIU student. Students are also given the opportunity to receive their official FIU Student ID/ Panther Card, discover the variety of ways to get involved on campus, and learn how to use the online student registration system.

A mandatory two-day program for freshmen and a one day session for transfer students are held prior to the fall, spring, and summer semesters. A parent program is also offered during each freshman session to introduce parents to FIU and assist them with preparing to meet the challenges of parenting a college student. Information about registering for Orientation is e-mailed to newly admitted undergraduate students prior to the first term of enrollment.

The Commuter Center, located at Modesto A. Maidique Campus, assists students with obtaining information that will aid them in making a smooth transition to the University. A variety of services are available at the Center, including: off-campus housing information, campus maps, parking information, local telephone access, and child care information.

The office coordinates large-scale events such as Panther Camp, Parent and Family Weekend, and provides direction for the Panther Parents Association. Location: GC 112, Modesto A. Maidique Campus, (305) 348-6414; WUC 141, Biscayne Bay Campus, (305) 919-5804.

OFFICE OF STUDENT CONDUCT AND CONFLICT RESOLUTION

The mission of Student Conduct and Conflict Resolution is to promote concepts of respect, civility, fairness, and conflict resolution on campus by enforcing community standards (FIU policies, federal, state, and local laws) and holding students accountable for their behavior in a fair, yet developmental manner, through the involvement of the campus community and educational development of students.

Infringement of an academic nature should be directed to the Vice Provost for Academic Affairs. Complaints that are non-academic should be directed to the Office of Student Conduct and Conflict Resolution. The Office of Student Conduct and Conflict Resolution also:

- Provides student conduct record background checks for various agencies (Secret Service, FBI, CIA, State Department, DEA, Federal Marshals, Law Enforcement Agencies, Military, Graduate Schools, Law Schools, Dean Certifications, Florida Bar Examiners).
- Assists in the selection and training of Student Conduct Committee members and hearing officers.
- Manages admissions clearances – The university reserves the right to review the case of any student who has been involved in misconduct prior to admission to determine eligibility for admission.
- Administers the student conduct process. Holds students accountable for violations of the Student Code of Conduct.
- Provides educational programs for faculty, staff, and students regarding the student conduct process; ethics and integrity; conflict resolution; and dealing with disruptive students in the classroom.
- Provides mediation as a possible avenue to foster mutual respect and understanding when differences arise. Mediation through the Office of Student Conduct and Conflict Resolution is an informal, voluntary, and confidential way to resolve minor conflicts, disputes, or disagreements without going through formal charges or judicial proceedings.

Please refer to the Student Code of Conduct section in the FIU Student Handbook for more information regarding the student conduct process and procedure. The Office of Student Conduct and Conflict Resolution is located in GC 311 at the Modesto A. Maidique Campus, (305) 348-3938. Web site: [http://www.fiu.edu/~scrn](http://www.fiu.edu/~scrn).
UNIVERSITY CENTERS

The University Center on each campus provides vital services to students and the University community. The Graham Center (GC) at Modesto A. Maidique Campus and the Wolfe University Center (WUC) at Biscayne Bay Campus are the focal points for the university community to meet and interact in an educational and vibrant environment. Staff in the centers coordinate the scheduling of space and assist with the production of student and university sponsored events.

As the hub of university life, these centers house the offices of Student Government Association (SGA); Campus Life; Student Programming Council (SPC); Council of Student Organizations (CSO); Office of Sorority and Fraternity Life; and the Faculty Club.

In the Graham Center, you will find the Office of the Vice President for Student Affairs, Ombudsman Office, and other departments of the Division of Student Affairs that provide services to students like: Career Services, Center for Leadership and Service, Disability Resource Center, International Student and Scholar Services, Multi-faith Council, Office of Multicultural Programs and Services, Orientation and Commuter Student Services, Office of Pre-Collegiate Programs, Grants and McNair, Student Conduct and Conflict Resolution, and Women’s Center.

The Graham Center also offers the following services: event planning, audio visual-multimedia support, state-of-the-art computer labs, Lost and Found, ATMs, a satellite cashiering office, locker rentals, notary public service, vending machines, vending refunds, and Kaplan Test Preparation Center. Additionally, GC offers event facilities such as: meeting rooms, ballrooms, and auditoriums for lectures, banquets, receptions, and weddings. There is a classroom wing located on the second floor and lounges throughout the building. University members can enjoy entertainment and the arts by visiting the Student Art Gallery, the Porter Davis Game Room, The Beacon student newspaper, and the student radio station (WRGP).

The GC mini-mall offers a variety of food locations: a fresh food concept-serving all you care to eat- Chili’s Too, Recharge U convenience store, Jamba Juice, Pollo Tropical, Subway, Burger King, Sushi Maki, Einstein Bros. Bagels, and Bustelo coffee shop. Other retail venues include: Barnes and Noble Bookstore (with Starbucks Café), Gamestop, Santi’s Hair and Nail Salon, Waves Spa, Panther’s Dry Cleaners, and Toshiba Copy Center.

GC has LCD screens throughout the building highlighting university activities and events. Visit the GC virtual tour by going to: grahamcenter.fiu.edu/virtualtour.html. The administrative offices of the Graham Center are located at GC 1215 Modesto A. Maidique Campus, (305) 348-2297, and the web site is grahamcenter.fiu.edu.

The Wolfe University Center (WUC) is located at the heart of FIU’s Biscayne Bay Campus. It is home to the 300-seat Mary Ann Wolfe Theater, houses a state-of-the-art computer lounge, five large meeting rooms, and a recently renovated multi-purpose ballroom. A multi-purpose dining and catering facility, the student Fitness Center, and several comfortable study lounges can also be found in the WUC. It is also host to one of the most complete and professional team-building training programs in South Florida, the Team Ropes Adventure Challenge (TRAC). Tenants include Student Affairs Offices for Disability Resource Center, Multicultural Programs and Services, Career Services, International Student and Scholar Services, and Counseling and Psychological Services. University support offices include the Credit Union, the FIU One Card office, Panther Print and Mail, University Technology Services, and the Parking and Transportation Office. The Barnes and Noble University Bookstore is located on the first floor next to Panther Square.

Location: GC 2200, Modesto A. Maidique Campus, (305) 348-1506; WUC 256, Biscayne Bay Campus, (305) 919-5359.

The administrative offices of the Wolfe Center are located in WUC 325 at Biscayne Bay Campus, (305) 919-5800.

WOMEN’S CENTER

The Women’s Center at FIU provides numerous programs and services to support FIU women students in their personal, academic, and professional development. The Women’s Center collaborates and coordinates with other university departments and student organizations to meet the needs and enhance the lives of the varied female population on campus. Programs and services are open to the entire community, but focus on women and include confidential referrals, leadership, and volunteer opportunities. We educate and advocate for systematic changes that will improve the lives of women and men.

Our curriculum includes the following programs:
- Mentoring Partnerships Program
- Sisterhood Retreat
- Wild Succulent Women program series
- Women Who Lead Conference
- Take Back the Night
- Strong Women, Strong Girls student organization
- VOX, Voices for Planned Parenthood student organization

Location: GC 2200, Modesto A. Maidique Campus, (305) 348-1506; WUC second floor, Biscayne Bay Campus, (305) 919-5359.

PRE-COLLEGIATE PROGRAMS AND GRANTS

The Office of Pre-Collegiate Programs and Grants prepares, submits, and monitors external grant applications for the Division of Student Affairs. The office also researches and investigates potential grant opportunities, provides direction in the monitoring and evaluation of externally funded programs initiated by staff members, and serves as liaison with the University’s Sponsored Research Office.

This office develops partnerships with community and local educational agencies and acts as liaison with private and public agencies and organizations. Training is provided for division staff regarding development and management of external funding opportunities. Policies regarding grants and grant writing are formulated and implemented. Pre-Collegiate Programs and Grants also directs grant budgets and oversees budgeting of obtained grants.

Location: MARC 414, Modesto A. Maidique Campus, (305) 348-2446.
PRE-COLLEGIATE PROGRAMS

Pre-Collegiate Programs provide academic enrichment, career planning, financial aid guidance, and scholarship opportunities to promising underrepresented students at the middle and high school levels. The programs also expose students to the University environment through residential and non-residential programs and assists in facilitating the transition to college. In partnership with Miami-Dade County Public Schools, the following programs are offered on both campuses: College Reach Out, College Board Expanded Opportunity; Partners in Progress I and II; and South Florida Center of Excellence.

Location: GC 331, Modesto A. Maidique Campus, (305) 348-1742.

UPWARD BOUND

The Upward Bound pre-collegiate program is a federally funded project designed to prepare underserved high school students for college. Upward Bound provides participants with supplemental instruction in academic areas, counseling, life skills training, financial aid, and a summer residential experience.

Location: GC 331, Modesto A. Maidique Campus, (305) 348-1742.

Educational Talent Search

Educational Talent Search is a federal initiative to serve disadvantaged middle and high school students who need support to complete high school and to gain entry into a post secondary institution. The program provides services and activities that address the personal, academic, career, and cultural needs of each participant.

Location: WUC, 257, Biscayne Bay Campus, (305) 919-4223.

Upward Bound Math and Science

The focus of the Upward Bound Math Science program at FIU is to prepare low income potential first generation students to enter careers in biomedical science and engineering. To that end, the FIU UBMS provides academic and enrichment services in mathematics and the sciences that will ensure successful completion of their high school education and the eventual matriculation and graduation from a post secondary institution of higher education. A supplement to their academics, the UBMS program provides a wide range of services and activities that are of a personal, career, and cultural nature. The program has year-round and Summer components. The target high schools are North Miami, Booker T. Washington, Miami Central, Miami Northwestern, Miami Norland, and Miami Carol City.

Location: WUC 257, Biscayne Bay (305) 919-4045.

Ronald E. McNair Post Baccalaureate Achievement Program

The McNair Program is a federally funded project. The purpose of the McNair Program is to assist low-income, first generation college and/or under-represented minority college students to make the transition from their baccalaureate to doctoral studies. Participants have the opportunity to conduct scholarly research under the supervision of a faculty mentor from the Sciences, Engineer, and/or Mathematics Departments.

Location: MARC 414, Modesto A. Maidique Campus, (305) 348-7151.

COUNSELING AND PSYCHOLOGICAL SERVICES

Counseling and Psychological Services (CAPS) provides a variety of services and resources designed to help students achieve and maintain optimum mental health. Students can also strengthen and develop: coping skills; decision-making abilities; identification and management of stressors; and communications skills. In addition, psycho-educational workshops and seminars focusing on mental health issues are also available to the university community throughout the academic year. Students and the university community can utilize services in person or online.

Caps services include:

- Individual, group, and couples therapy for issues such as: anxiety, depression, stress, grief, and interpersonal and relationship problems
- In-person screenings for substance abuse and eating disorders
- Psychological and neurological testing
- Biofeedback
- Crisis intervention
- Psychiatric services
- Victim advocacy support services, such as:
  --Assistance in accessing community and university resources, and helping students understand the different options available to them during or after experiencing actual or threatened abuse or violence. This information is also available to students who may want resources for someone they know.
  --Help with issues related to relationship abuse, sexual assault, stalking, assault and battery, homicide of friend or relative, hate crimes, harassment, and re-emergence of problems as a result of a past abuse such as childhood sexual abuse.
  --Other services available (according to the wishes of the victim) are:
    - Safety planning
    - Understanding and navigating the criminal justice system
    - Assistance in making police reports (if desired)
    - Petitioning the court for an injunction for protection ("restraining order")
    - Finding legal assistance
    - Finding emergency safe shelter
    - Communicating with professors and/or other parties as requested by the victim
    - Help with university administrative procedures
    - Student conduct proceedings
    - Escort to appointments, hearings, and medical facilities
    - Help with other solutions that may be necessary

CAPS online programs include:

- Workshops for time management, anger management, and stress management
- Screenings for anxiety, depression, eating disorders, and bipolar disorder
• Student Bodies—a program for women that focuses on developing healthy eating and exercise habits
• PASS—a program designed to improve student academic and personal functioning
Location: UHSC 270, Modesto A. Maidique Campus, (305) 348-CAPS (2277); WUC 320, Biscayne Bay Campus, (305) 919-5305.
Web site: http://fiu.edu/~psychser
Victim services may also be accessed through a 24-hour crisis hotline: (305) 348-3000.
Web site: http://www.vac.fiu.edu

CAMPUS RECREATION SERVICES

Recreational sports programs and fitness facilities are available for Florida International University students, faculty, staff and alumni through the Offices of Recreation Services (MMC) and Campus Recreation (BBC). Funding for these services is primarily through student fees allocated by the FIU Student Government Association (SGA).

A variety of Intramural (IM) Sports are offered on each campus, including men's, women's and co-rec leagues in sports such as flag football, basketball, volleyball, softball and soccer, and tournaments for sports like racquetball, tennis, and golf. Individuals looking for a team are encouraged to register as “free agents”. Registration for Intramural Sports can be initiated via the web on the Campus Recreation Services website (see URL below).

The 50,000+ square foot MMC Recreation Center (RC) is equipped with state-of-the-art exercise and cardiovascular fitness equipment. In addition to free weights, the center provides resistance and selectorized equipment, steppers, upright and recumbent bicycles, treadmills, rowers, and ellipticals. A basketball gym, locker rooms and a Pro Shop are also available. The Rec Center is located west of the Health Services Complex.

Over 50 PantherFIT group fitness classes per week are scheduled in the RC. Low cost or free classes offered throughout the year include Pilates, ultimate abs, and Zumba, as well as specialty classes such as yoga, Spinning, and BodyPump. Fitness orientations, body composition evaluations, and personal training are also featured. Non-credit fitness workshops and First Aid/CPR/AED certifications are offered.

The BBC Fitness Center is located on the first floor of the Wolfe University Center (WUC), room 160. The 12,000 square foot Fitness Center features 21 cardiovascular machines with locker rooms and showers, nine flat screen televisions, a Bose sound system, an array of LifeFitness selectorized, and Hammer Strength fitness equipment. Additionally, there is a state-of-the-art aerobics studio with ballet bars and separate Bose sound system. Cardiovascular group exercise classes include yoga, hip hop dance, belly dancing, body sculpting, dance aerobics, and Zumba. Free massages are offered on Mondays.

The two campuses offer other facilities for recreational use. The Tennis Centers on each campus offer lighted courts, and tennis lessons are available. The BBC Aquatic Center and Panther Hall Pool provide on-campus swimming opportunities. At MMC, students have free access to nearby Tamiami Pool during lap swim hours. At MMC, the U.S. Century Bank Arena houses two indoor racquetball courts available on a reservation basis. A current, activated Panther photo ID is required for access to all recreation facilities and programs.

Other areas of interest include adventure recreation programs (offering trips in and out-of-state), sport clubs, Lose It Weight Loss Program, and special events.

Both recreation offices provide student employment opportunities as sports officials, customer service and weight room attendants, recreation facility supervisors, lifeguards, group fitness instructors, personal trainers, and office assistants.

Location:
MMC Recreation Services/Rec Center: (305) 348-2575
BBC Campus Recreation/Fitness Center: (305) 919-5678
MMC Recreation Center Membership Desk: 348-2951
MMC Panther Hall Pool: 348-1895
BBC Aquatic Center: 919-4549
IM sports: 348-1054 (MMC), 919-4595 (BBC)
Tennis Center: 348-6327 (MMC), 919-4595 (BBC)
MMC Racquetball reservations: 348-2900
Web site: http://www.recreation.fiu.edu
Intercollegiate Athletics

FIU Athletics has been a program of tremendous growth since its inception almost 40 years ago. FIU is a member of the National Collegiate Athletic Association (NCAA), and the Sun Belt Conference for 16 men’s and women’s athletic programs. The men’s soccer program is an affiliate member of Conference USA. FIU continues to elevate the athletics program and has reached new heights as the football program won its first Sun Belt Championship in 2010 after competing for only three years at the NCAA Division I level. In FIU’s first ever post season bowl appearance the football team won the 2010 Little Caesars Pizza Bowl. Programs and services in Intercollegiate Athletics provide an opportunity for student-athletes to develop their athletic skills and leadership abilities in an educational setting. Much emphasis is placed on the student as a student-athlete to ensure intellectual, emotional and social well being.

ATHLETICS TEAM MEMBERSHIP

Several of the FIU Athletic teams have won conference championships in recent seasons including baseball, football and tennis while many other student-athletes have garnered accolades across the sport programs. FIU’s intercollegiate sports programs for women include basketball, volleyball, soccer, golf, tennis, track, softball, cross-country, and swimming/diving. Men’s sports include basketball, football, soccer, baseball, track, and cross-country.

ATHLETIC FACILITIES

The Athletic Department utilizes eight facilities that serve as the sites for athletic, educational, and recreational activities.

Phase I of Alfonso Field at FIU Stadium was opened in Fall 2008. The stadium features over 17,000 permanent seats, 1,400 club seats, an upper concourse and 19 full service luxury suites. In addition to the suites the stadium features a 6,500 sq. ft. Stadium Club, which is a multi-purpose banquet hall that can be used for various events such as weddings, banquets, conferences and pre-game parties. The stadium is the home of our intercollegiate football program. During the fall, the facility is also used to host many Miami-Dade County Schools high school football games.

Located in the west end zone bleachers of Alfonso Field at Football Stadium is the R. Kirk Landon Field House. The R. Kirk Landon Field House is a 55,000 sq ft facility that houses the FIU intercollegiate football team, coaches, and weight training and ticket office staff. The University Credit Union Box Office is located at the west entrance to the field house and services all FIU sports. It also houses a 12,500 sq ft weight room that accommodates all FIU intercollegiate student-athletes.

The U.S. Century Bank Arena is home to our intercollegiate men’s and women’s basketball teams as well as our women’s volleyball team. It is a multi-purpose facility with a seating capacity for 5,150 and is the venue for our convocation and graduation ceremonies. The main floor can hold four volleyball courts and two basketball courts. The two auxiliary gyms can each hold one basketball court or a volleyball court. Also housed in the arena are seven classrooms and eight locker rooms. Construction is set to be completed December 2011 for the new expanded entrance to the U.S. Century Bank Arena. The grand entrance will add 11,000 square feet with new bathroom facilities, box office, meeting rooms, elevators, and concession area.

The Baseball Stadium is the home to our intercollegiate baseball team. The stadium has a seating capacity of 2,200, and offers a luxury suite with a capacity of 20 overlooking the field. The Baseball Stadium also has three covered batting cages located just outside the left field fence.

The FIU Soccer Stadium is the home of our intercollegiate men’s and women’s soccer programs. This lighted soccer stadium seats 1,500 and the dimensions of the field span 120 yards in length by 70 yards in width.

The FIU Tennis Center has twelve lighted courts and is home to the women’s tennis program. Six courts are open for daily recreational play.

The FIU Softball Stadium houses our intercollegiate softball program and seats 300. It is equipped with three covered batting cages, and three bullpen areas located outside the outfield walls.

FIU students are admitted to all regular season intercollegiate athletic home games free of charge. Presentation of a valid university identification card is required.

For additional information visit the athletic department’s website at fiusports.com or call the University Credit Union Box office at 348-4263 (FIU-GAME).
University College (UC)

FIU University College (UC) contains four major units: FIU Online, Academic Credit Programs, Non-credit Programs, and Osher Lifelong Learning Institute. Programs offered through University College extend the instructional and academic resources of the university by using innovative approaches including distance learning, flexible class scheduling, customized training and off-campus academic credit and non-credit programs. Local, state, national, and international communities are served with consistent, cost-effective, high quality and distinctive programs and services.

FIU ONLINE

FIU Online offers online academic credit courses and degree programs for traditional students, professionals and adult learners. Online course offerings are designed to minimize barriers to continuing your education by providing flexible and accessible courses and programs. FIU Online offers more than ten online undergraduate certificates in the area of Finance, International Bank Management, Business Writing, Entrepreneurship, and Women’s Studies among others. The undergraduate program offerings include Bachelor of Business Administration specializing in Finance, International Business, Management and Human Resource Management. Other undergraduate degrees offered are Bachelor of Public Administration, Bachelor of Science in Criminal Justice and Bachelor of Science in Nursing (RN to BSN).

Our graduate online degree programs are very competitive and students can choose from a Master in: Business Administration, Hospitality Management, Occupational Therapy, Construction Management and Criminal Justice.

FIU Online also offers non-credit online courses and programs.

For more information please visit http://www.online.fiu.edu.

ACADEMIC CREDIT PROGRAMS

University College oversees courses and programs for academic credit offered by schools and colleges that are delivered off-campus, on weekends, or in cohorts.

University College also works with public agencies or professional organizations that wish to contract with the University to provide credit courses and degree programs at the work site in order to meet employee training needs.

For more information on Academic Credit Programs please visit http://universitycollege.fiu.edu.

NON-CREDIT PROGRAMS

University College provides a variety of non-credit programs. For more information please visit http://universitycollege.fiu.edu.

OSHER LIFELONG LEARNING INSTITUTE

The Osher Lifelong Learning Institute offers personal enrichment courses for adult learners age 50-plus in areas such as the arts, literature, film, politics, music, languages, computers, and more. Cultural events and tours are also available. Lifelong learners are taught by experts in their fields and by FIU faculty. Classes are held at the Biscayne Bay Campus. For more information please visit http://olli.fiu.edu.
Undergraduate Admissions

Florida International University encourages and accepts applications from qualified applicants without regard to gender, physical handicap, cultural, racial, religious, or ethnic background or association.

APPLICATION PROCESS

Students interested in applying can do so via the following methods:

Application Online

Students with internet access can apply online by visiting FIU's website at http://admissions.fiu.edu for application and instructions. A valid credit card is required for submitting online applications. A $30.00 nonrefundable fee (U.S. dollar) will be charged for each online application. Applicants may also pay the $30 application fee by check, money order, or fee waiver to P.O. Box 659003, Miami, FL 33265-9003.

Paper Application

FIU uses a common institutional application form for all undergraduate programs. This application can be downloaded from http://admissions.fiu.edu. A $30.00 non-refundable application fee (U.S. dollars) made payable to Florida International University must accompany applications submitted.

All credentials and documents submitted to the Office of Undergraduate Admissions become the property of Florida International University. Originals will not be returned to the applicant or forwarded to another institution.

Admissions Tuition Deposit

An admissions deposit of $200 is required of all admitted students to secure their place in the class and is applied to the student’s tuition. The deposit is considered a prepayment on tuition and is non-refundable in accordance with the FIU Board of Trustees regulations. If a student chooses not to enroll after submitting the deposit, it is forfeited and administered in accordance with the applicable Board of Governors’ regulations or law.

FRESHMAN APPLICANTS

In addition to the application, the following credentials are required:

1. Official secondary school transcripts and appropriate test scores: Scholastic Aptitude Test (SAT) or the American College Test (ACT). All official transcripts, test scores, and any other required credentials must be received directly from the issuing agencies, and forwarded to P.O. Box 659003, Miami, FL 33265-9003. It is the applicant’s responsibility to initiate the request for credentials to the issuing agencies and to assure their receipt by the Office of Undergraduate Admissions.
2. Proof of graduation from an accredited secondary school must be submitted.
3. High School diplomas accepted for undergraduate degree-seeking admission to FIU must be completed at a secondary institution accredited by a regional accrediting body or at an institution accredited by a national accrediting agency recognized by the United States Department of Education.

4. Eighteen academic units in college preparatory courses are required as follows:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>4</td>
</tr>
<tr>
<td>Mathematics</td>
<td>4</td>
</tr>
<tr>
<td>Natural Science</td>
<td>3</td>
</tr>
<tr>
<td>Social Science</td>
<td>3</td>
</tr>
<tr>
<td>Foreign Languages</td>
<td>2</td>
</tr>
<tr>
<td>Academic Electives</td>
<td>2</td>
</tr>
</tbody>
</table>

1 Two units in the same foreign language are required.
2 Academic Electives are from the fields of mathematics, English, natural science, social science, and a foreign language. The academic grade point average will be computed only on the units listed above. Grades in honors courses, International Baccalaureate (IB), and advanced placement (AP) courses will be given additional weight.

Freshman admission decisions are made based on the student’s strong academic preparation. Competition for placement in the freshman class is the result of the quality and extent of the applicant pool.

Students who apply to majors in Theatre and Music, must meet University academic standards and receive the approval of the respective department through an audition. Students should contact the specific department for audition dates.

TRANSFER APPLICANTS

Degree seeking applicants with fewer than 60 semester hours of transfer credits must meet the same requirements as beginning freshmen. In addition, they must demonstrate satisfactory performance in their college work.

Applicants who receive an Associate in Arts (A.A.) degree from a Florida Public Community College or State University in Florida will be considered for admission without restriction except for published limited access programs within the University. We encourage all transfer applicants to apply.

Students transferring from independent Florida and out-of-state colleges into the University's upper division must have maintained a minimum 2.0 grade point average based upon a 4.0 scale.

Coursework transferred or accepted for credit toward an undergraduate degree must be completed at an institution accredited as degree-granting by a regional accrediting body or at an institution accredited as degree granting by a national accrediting agency recognized by the United States Department of Education that participates in the statewide course numbering system at the time the coursework was completed. Each academic department reserves the right to determine how transfer credits may be applied to satisfy the specific requirements for the major and/or degree. Students must contact their academic department to obtain any additional requirements needed for their program of study.

All applicants must meet the criteria published for limited access programs and should consult the specific college and major for requirements.

Applicants who meet the above admissions requirements, but have not completed the University's core curriculum requirements, or the prerequisites of their proposed major, may complete this college work at FIU, or at any other accredited institution. Students may also fulfill
general education requirements through the College Level Examination Program (CLEP).

Official transcripts from all previous post secondary institutions must be forwarded to the Office of Undergraduate Admissions. Students are responsible for initiating this request.

Transfer applicants from the FL public institutions (community/state colleges) are encouraged to visit FACTS.org for additional information regarding the transfer process, including, but not limited to, program graduation requirements, transfer agreements, A.A. transfer evaluation (degree/advising audit), and common prerequisites (Common Prerequisite Manual).

All students seeking admission to the University regardless of whether the student holds an A.A., should have completed two years of credit in one foreign language at the high school level or 8-10 credits in one foreign language at the college level (American Sign Language is acceptable). If a student is admitted to the University without this requirement, the credits must be completed prior to graduation.

Students who can demonstrate continuous enrollment in a degree program at a SUS institution or Florida Community College since Fall Term 1989 (continuous enrollment is defined by the state to be the completion of at least one course per academic year) can be exempt from this requirement. Students holding an A.A. degree from a Florida Community College or SUS institution prior to Fall Term 1989 will also be exempt.

Students, who are applying to majors in Theatre and Music, in addition to meeting university academic standards, must meet the approval of the respective department through an audition. Students should contact the department for audition dates.

Admission decisions will not be made before the application is completed and all supporting documents are on file in the Office of Undergraduate Admissions. Applications are kept on file for one year from the anticipated entrance date.

Admission to the University is a selective process and satisfying the general requirements does not guarantee acceptance.

LIMITED ACCESS PROGRAMS

A limited access program utilizes selective admission to limit program enrollment. Limited access status is justified where student demand exceeds available resources such as faculty, instructional facilities, equipment, or specific accrediting requirements. Criteria for selective admission include indicators of ability, performance, creativity, or talent to complete required work within the program. Florida community college transfer students with Associate in Arts degrees are given equal consideration with FIU students. Admission to such programs is governed by the Articulation Agreement and the Florida Board of Education rules.

The following current FIU programs have been designated as limited access:
- Accounting*
- Architecture
- Business Administration*
- Communication*
- Dietetics and Nutrition
- Health Services Administration*
- Hospitality Management*
- Music*
- Nursing
- Social Work*
- Theatre*

*Pending 2010 BOG approval

INTERNATIONAL APPLICANTS

International student applicants must meet the admission requirements of the University as described in the previous sections and comply with the following:

Academic Records

International University-level Transcripts require a course by course evaluation, with a calculated U.S. equivalent grade point average, through a member of the National Association of Credential Evaluation Services (NACES) Organization. Visit their website: http://www.naces.org/members.htm. Official evaluations, along with the international transcript(s), must be forwarded directly to FIU from the evaluation service. One exception to this policy exists: Chinese language transcripts from Tianjin University of Commerce will be evaluated by FIU staff for admission to the Bachelor of Science in Hospitality Management.

Proficiency in English

Applicants whose native language is not English and who have not taken any college level English courses, must present a minimum score of 500 paper-based and a minimum score of 173 computer-based or a 63 internet based (iBT) minimum score on the Test of English as a Foreign Language (TOEFL), or a minimum of 3 on the Advanced Placement International English Language Examination (APIEL). IELTS (International English Language Testing System), can also be submitted as proof of English Proficiency. The minimum for the IELTS is 5.0.

Declaration and Certification of Finances

Upon receipt of the application for admission, the Declaration and Certification of Finances will be mailed to the applicant. It must be completed and returned to the Office of Admissions. A Certificate of Eligibility (Form I-20A) will be issued once the applicant has been found admissible to the University, and the student has provided the bank/sponsor letter and the transfer release form (International students that are currently attending another U.S. institution must submit this form).

The University is required by immigration authorities to carefully check the financial resources of each applicant prior to issuing the Form I-20A. Therefore, it is important that applicants are aware of the cost of attending the University and have the necessary financial support for the period of enrollment. Applicants should refer to the Annual Estimate of Cost Chart in this catalog.

The total funds available for the student for the first or second academic year, or both, must equal the total estimate of institutional costs and living expenses. All items in the Declaration and Certification of Finances must be accurately answered to avoid unnecessary delay in processing. This document along with proof of sufficient funds must be received by the Office of Undergraduate Admissions two months prior to the anticipated entry date.

Refer to the Annual Estimate of Cost table for more
information. A married student should plan on an additional $6,000 in costs to cover the living expenses of a spouse.

A couple with children should anticipate further yearly additional costs of no less than $4,000 for each child.

**Medical Insurance**

The State of Florida requires that all international students maintain health insurance coverage to help defray the costs in case of catastrophic medical emergency. The policy must provide specific levels of coverage which have been established to ensure that the policy is adequate to provide for costs at U.S. hospitals, usually much higher than costs in many other parts of the world. In addition, a policy must have a claims agent in the United States who may be contacted by medical providers and who facilitates prompt payment of claims. The University has approved a plan which meets the state requirements and which meets the needs of most students; however, a student on F status may select alternate coverage provided it meets the state requirements for minimal coverage. A copy of these requirements is available at International Student and Scholar Services Office. Students are advised not to purchase insurance policies prior to arrival without verifying that the policies meet FIU/State University System (SUS) requirements. Students in J status are required by the United States Information Agency to maintain health insurance coverage for themselves and their dependents for the full length of their program. Florida International University requires students on J status sponsored by FIU to purchase the University approved medical insurance plan for themselves and their dependents. Compliance with the insurance regulation is required prior to registration.

**Priority Consideration**

Due to the additional processing time required for international students, application and supporting documents should be submitted as early as possible. We recommend the following time frames - February 1st if you are applying for the summer semester, April 1st if you are applying for the fall semester, and September 1st if you are applying for the spring semester.

If the application and supporting documents are not received within the appropriate time, the application for admissions will be considered for the following term.

**Tuition**

An international student is considered a non-resident and is assessed non-resident fees. Immigration regulations require an international student to attend school each fall and spring semester. An undergraduate student is required to take a minimum of twelve credit hours per semester. Please refer to the section on Student Fees and Student Accounts for more information.

**SCHOLARSHIPS**

FIU recognizes students who are academically, artistically, and athletically talented and encourages them to apply. The University awards several full and partial scholarships.

See Website for detailed scholarship information, [http://admissions.fiu.edu](http://admissions.fiu.edu).
University Undergraduate Rules and Regulations

CLASSIFICATION OF STUDENTS
The University classifies students as follows:

Degree-Seeking Students
This category includes students who have been admitted to a degree program, but have not completed the requirements for the degree.
- Freshmen - Students who have earned fewer than 30 semester hours.
- Sophomores - Students who have earned at least 30 semester hours but fewer than 60 semester hours.
- Juniors - Students who have earned at least 60 semester hours but fewer than 90 semester hours.
- Seniors - Students who have earned 90 or more semester hours but who have not earned a baccalaureate degree.

Non-Degree Seeking Students
Non-degree students may be either affiliated with a college or school or unaffiliated in their status. Unaffiliated students are limited to taking a total of fifteen credits at the University. Affiliated students must be approved by the appropriate college or school and must meet its specific requirements. Under no circumstances may more than 15 hours, taken as a non-degree seeking student, be applied to a degree program, if the student changes from non-degree seeking to degree-seeking status.

The following regulations apply to non-degree seeking students:
1. A $30.00 non-refundable application fee (U.S. dollars) made payable to Florida International University will be charged to each student’s account upon enrollment.
2. Students are not required to meet the usual admission requirements and are not officially admitted as regular students. Enrollment as a non-degree seeking student does not imply a right for future admission as a regular, degree-seeking student. Credit earned will not be counted toward a degree at the University unless such students subsequently apply for regular admission and are accepted as undergraduate students.
3. Registration is permitted on a space-available basis. Non-degree seeking students may not register during the official registration period for degree-seeking students.
4. No more than 15 undergraduate level semester hours earned as a non-degree seeking student may be counted toward a degree. The appropriate dean must approve the acceptance of such credit.
5. Applicants denied admission to the University will not be allowed to register as non-degree seeking students for a period of one year without obtaining admission into a formal Certificate Program or obtaining affiliated status from the appropriate academic department.
6. Immigration regulations prevent most foreign nationals from enrolling without being admitted into a formal degree or certificate program, depending on the type of visa that they have. International students should contact the Office of International Student and Scholar Services for further information.

Affiliated Students
Students applying for affiliated status as non-degree seeking students must be approved by the appropriate dean in accordance with criteria approved by that College or School’s Faculty Curriculum Committee.

Transient Students
This category includes students who are fully admitted and are actively pursuing a degree at another accredited two- or four-year institution and wish to take courses at FIU for a semester. Such students need to present evidence of their status from their home institution each semester before they will be allowed to register.

If the student is enrolled at a Florida public institution, the student may apply as a transient student through FACTS.org. Any student who is enrolled at a Florida private or any out-of-state educational institution may apply as a non-degree seeking student.

Certificate Students
This category includes students who have been accepted into a specific certificate program by the academic department responsible for that program. Certificate programs are subject to all University regulations.

COLLEGE/MAJOR CLASSIFICATION
Lower division students have a college designation of lower division with a major designation of their intended (pre) major (if indicated by the student). This designation does not imply subsequent admission to that degree program.

Degree-seeking upper division students admitted to an upper level degree program are classified according to the college or school and major of their degree program; and when applicable, to the college or school and major of their second major.

When admitted students reach a total of 60 or more credit hours (including transfer and current enrollment), they may apply for admission into an upper division major, provided they must achieve the competencies of the CLAS requirement. All degree-seeking undergraduates must be admitted into an upper division major prior to completing 75 credit hours, including transfer hours.

ACADEMIC DEGREE REQUIREMENTS

Bachelor Degree
The University will confer the bachelor degree when the following conditions have been met:
1. Recommended by the faculty of the college or the school awarding the degree.
2. Certified by the dean of the college or the school that all requirements of the degree being sought have been completed.
3. Completion of a minimum of 120 semester hours in acceptable coursework.
4. Completion of the last 30 credit hours at the University. Exceptions (normally not to exceed six hours) may be made in advance by the appropriate dean. In no case may the number of credits awarded...
Two Bachelor Degrees

Two bachelor degrees may be awarded simultaneously when the following conditions have been met:

1. Requirements for two majors have been completed as certified by the appropriate academic units.
2. A minimum of 30 appropriate semester hours in addition to the requirements of one degree has been earned.

A graduate from an accredited four-year institution who applies for admission to work toward a second bachelor degree must meet the requirements of the major department which shall include (but is not limited to) a minimum of 30 semester hours of coursework.

Two Majors for a Bachelor Degree

Any undergraduate student who elects to do so may carry two majors and work to fulfill the requirements of both concurrently. Upon successful completion of the requirements of two majors, the student will be awarded one degree and a notation denoting both majors will be entered on the transcript. A request for a second major form must be completed and turned into the appropriate academic unit for approval. The form may be downloaded at [http://registrar.fiu.edu](http://registrar.fiu.edu).

Minors and Certificate Programs

Students who have completed an approved minor as part of their bachelor degree program will have this notation as a part of the degree comment on their transcript.

Students who have completed an approved certificate program will have an appropriate notation placed on their transcript.

**Associate in Arts**

Students who satisfactorily complete 60 semester hours of acceptable college work with an overall GPA of 2.0 or higher, fulfill the University Core Curriculum requirements, achieve the competencies of the CLAS requirement and complete at least 20 credit hours in residence at the University may apply for the Associate in Arts degree through the Office of Undergraduate Education.

Students who transfer in 36 or more credits are not eligible for the degree. The Associate of Arts degree will not be awarded on completion of the baccalaureate degree. A notation will appear on the student’s transcript but no diploma will be issued.

**SUMMER ENROLLMENT REQUIREMENT**

All students entering FIU or any university within the State University System (SUS) of Florida with fewer than 60 credit hours are required to earn at least nine credit hours prior to graduation by attending one or more summer terms at a university in the SUS.

**ACADEMIC DEFINITION**

Program and Course Regulations

Credit Hour

The term credit hour as used refers to one hour of classwork, or the equivalent, each week for an entire academic term.

**Major**

An integral part of the bachelor degree is a major concentration of coursework in an approved academic discipline or area. The exact course and credit requirements and prerequisites for each major are outlined in the departmental program areas in the catalog.

**Electives**

Students may select courses from any academic area to complement their area or areas of study or to meet their interests in order to fulfill the credit hour requirements for the bachelor degree. Prerequisite course requirements should be considered in selecting elective courses. Students should refer to their academic program requirements concerning electives.

**Minor Program**

A minor program is an arrangement of courses that enables students to develop some degree of expertise in one area of study. A minor is awarded upon completion of the bachelor degree, but is not interdisciplinary in nature.

**Certificate Program**

A certificate program is a combination of courses with a common base or interest selected from one or more academic disciplines and so arranged as to form an area of academic concentration. Three types of certificates are awarded: academic, professional, and continuing studies. Students must apply and be admitted into the certificate program through the academic department.
Change of College/School or Major

A fully admitted undergraduate student may change majors, provided he or she meets the entrance requirements of the new program, by submitting a Request for Change of College/School or Major form. The form and instructions are available on line at http://registrar.fiu.edu.

EXCESS CREDIT SURCHARGE

Effective Fall semester 2009, all undergraduate students who enter or transfer to Florida International University are subject to the new statute [1009.286f.s.] that governs the number of credits a student can take before being assessed an excess credit surcharge. Students can accumulate up to 120% of credits towards their degree by paying normal tuition and fees. This is equivalent to 144 hours for students in a 120-hour degree program. After the 120% mark, students are subject to an additional 50% per-credit charge. Fees vary depending on the student’s classification as in-state or out of state. It is important to communicate closely with your undergraduate or your academic advisor in order to stay on track towards graduation and to avoid excess credit surcharges that may challenge you financially. Please be aware that courses in which a student receives grades of DR, WI, IN and F can count towards excess credit calculations.

More information regarding excess credit surcharges can be found on the registrar’s website: http://registrar.fiu.edu.

REGISTRATION

The following registration information is subject to change and students must verify the dates with the Office of the Registrar, PC 130, Modesto A. Maidique Campus; or ACI-100, Biscayne Bay Campus; or at the Pines Educational Center, (954) 438-8600 or visit the Registrar’s website for up to date information.

All degree seeking students registering for more than 18 credit hours during one semester must obtain the approval and the signature of the dean of their college or school. Registration for courses is as follows:

Official Registration is held during the preceding semester (check the Academic Calendar for the dates). Degree-seeking students are given an appointment day and time based on their classification, GPA, and credit hours completed. Students may also add/drop at this time.

Open Registration is held following Official Registration. There is no appointment day and time and registration is on a first-come, first-served basis; for degree-seeking students. Students who have not yet registered are encouraged to do so at this time. Students who have already registered may also add or drop courses during this period.

Registration Access

All students are able to retrieve their grades, registration appointment time and day; classroom assignments; registration holds (if any) and register/drop/add courses using the PantherSoft web-based system (http://my.fiu.edu). Students must use their PantherSoft ID and password in order to utilize the system.

New students must reset their passwords at http://myaccounts.fiu.edu in order to access their FIU accounts. Current students experiencing difficulties with accessing their FIU accounts may reset their passwords at http://myaccounts.fiu.edu.

IMMUNIZATION

As a prerequisite to registration, Florida International University requires all students to comply with the following immunization policy regulations from the Florida Board of Governors regarding measles, mumps, rubella, meningitis and hepatitis B immunity:

1. Measles, Mumps, Rubella:

   All students born after December 31, 1956, must present documented proof of immunity to measles (Rubeola) and German measles (Rubella), as described below:

   Acceptable Proof of Immunity consists of:

   a. Proof of two (2) vaccinations (doses) of MMR (Measles/Mumps/Rubella) received at least 28 days apart or two doses of measles and one Rubella
      - Vaccinations must have been received after your first birthday
      - Vaccinations must have been received in 1969 or later
   b. Proof of immunity by way of a blood test lab result (Measles and Rubella Titer)
   c. A written statement from a physician (M.D. or D.O. only) documenting a diagnosis of measles (Rubeola). Must include date of diagnosis, be signed by the physician and be on his/her official stationery. This is acceptable for measles only and does not apply to Rubella

Exemptions:

Students will be exempt from the pre-registration immunization requirement for measles, mumps, and rubella, only if they meet any one of the following three criteria:

2. Medical Exemption: To claim a medical exemption, a letter must be provided from the student’s doctor, signed on his/her stationery, stating the medical reason(s) why the student is not able to receive the measles and/or Rubella vaccine(s) and for how long — a permanent or temporary medical condition warranting exemption.
3. Religious Exemption: For details on how to claim religious exemption, please visit the University Health Services website.

To prevent delays in the ability to register for classes, all of the above documents requesting medical or religious exemptions must be received by the University Health Services at least four weeks prior to registration.

Temporary Deferments:

Temporary deferments are acceptable for the following conditions:

1. Documented pregnancy or fertility treatment
2. Documentation of breastfeeding
3. Documented illness

Deferment status requests must be submitted to the University Health Services at least four weeks prior to
registration and the request must be signed by a physician, nurse practitioner or registered nurse and be on his/her official stationery.

2. **Meningitis and Hepatitis B:**
   All students must present documented proof of vaccination/immunity to meningococcal meningitis and hepatitis B as described below:
   Acceptable Proof of Immunity consists of:
   a. Proof of one dose of meningitis vaccine and a total of three doses of hepatitis B vaccines
   b. Proof of immunity by way of a blood test lab result (applicable to hepatitis B only)
   c. A written statement from a physician (M.D. or D.O. only) documenting a diagnosis of hepatitis B. Must include date of diagnosis, be signed by the physician and be on his/her official stationery. This is acceptable for hepatitis B only and does not apply to meningococcal meningitis

**Exemptions:**
Students declining to receive vaccination for meningitis and/or hepatitis B must present a signed waiver of liability acknowledging that they have received and read information pertaining to the disease and despite knowledge of the risks have decided to waive receiving the vaccine (if a minor, the waiver of liability must be signed by the parent or guardian). The waiver of liability can be obtained by contacting the University Health Services department or by visiting the University Health Services website.

**Acceptable Forms of Documentation:**
The following documents are acceptable proof of immunity, provided that the dates are acceptable and the documents are signed and stamped by the health care provider:
- Health Department Records
- Childhood Immunization Records
- School Immunization Records
- Military Service Records
- Laboratory test results demonstrating immunity to the disease

**Can’t Find Your Immunization Documents?**
If the student is certain they have received all of the required or recommended doses of measles and/or Rubella and/or hepatitis B vaccine in the past but cannot obtain written documentation of the actual dates, a blood antibody titer test is recommended to determine immunity to these viral diseases. If students must register and cannot wait for the test results, they can safely receive an MMR vaccine prior to the registration process and a second dose after 28 days—assuming there are no medical contraindications to receiving the vaccine(s) as determined by the physician.

**Where can I get immunized?**
MMR, meningitis, and hepatitis B vaccines are available for a nominal charge at the FIU University Health Services clinics at both the Modesto A. Maidique Campus and Biscayne Bay Campus. For further information and additional locations, visit the University Health Services website and click the Immunization link.

**LATE REGISTRATION FEE**
Any student, degree-seeking or non-degree seeking, who initiates registration after the registration deadline is assessed a $100.00 late registration fee. Students may initiate late registration during the first week of classes.

**DROPPING AND ADDING COURSES**
The Official Drop/Add period runs throughout the first week of classes (check the Academic Calendar for specific dates). During this period a student may drop or add courses without financial penalty or initiate registration with financial penalty (the late registration fee). Students may also drop courses or withdraw from the University with no record of enrollment and without a tuition fee liability. If the tuition fee has already been paid, a refund will be generated by the Student Financials Office and processed accordingly.

Students who add classes for the first time during this drop/add period will be assessed the $100 late registration fee.

**LATE DROPS**
Courses officially dropped after the Drop/Add period and through the eleventh week of the term, (summer terms have different deadlines—check the Academic Calendar for specific dates), are recorded on the student’s transcript with a grade of ‘DR’ (dropped). The student is financially liable for all dropped courses. Non-attendance or non-payment will not constitute a drop.

A student may appeal the deadline for a late drop by submitting the Appeal to Drop/Withdraw form. A drop after the deadline will be approved only in the following exceptional circumstances:
- Death of a student or immediate family member (parent, spouse, child, sibling). Death certificate required.
- Involuntary call to military service. Copy of orders required.
- Illness of student of such severity or duration to preclude completion of courses. Confirmation by a physician required.

The deadline to submit appeals is six months after the end of the term in which the course was taken. The student must provide appropriate documentation. Upon approval of the appeal, the course instructor will designate whether the student was passing or failing the course at the time of the Appeal to Drop or Withdraw form was submitted.

**WITHDRAWAL FROM THE UNIVERSITY**
A currently registered student can withdraw from the University only during the first eleven weeks of the semester. In the Summer semester, withdrawal deadlines will be adjusted accordingly. A Withdrawal Form must be completed and submitted to the Office of the Registrar. Non-attendance or non-payment will not constitute a withdrawal. (Refer to the Academic Calendar for the deadline dates.)

The transcript of a student who drops all classes before or during the first week of classes will contain no record of enrollment and no tuition fee will be assessed. If the tuition has already been paid, a refund will be generated by the
Student Financials Office and processed accordingly. If a student officially withdraws from the University prior to the end of the fourth week of classes, a 25 percent refund, will be issued.

The transcript of a student who officially withdraws after the Drop/Add period and before the end of the eleventh week of the term will reflect a 'WI' for each course.

The transcript of a student who stops attending the University without officially withdrawing from the University will reflect an 'F0' grade for each course.

A student may appeal the deadline for a late withdrawal (from all courses) by submitting the Appeal to Drop/Withdraw form. A withdraw after the deadline will be approved only in the following exceptional circumstances:

- Death of a student or immediate family member (parent, spouse, child, sibling). Death certificate required.
- Involuntary call to military service. Copy of orders required.
- Illness of student of such severity or duration to preclude completion of courses. Confirmation by a physician required.

The deadline to submit appeals is six months after the end of term in which the course was taken. The student must provide appropriate documentation. Upon approval of the appeal, course instructors will designate whether the student was passing or failing the course.

RETURN OF FINANCIAL AID POLICY

Federal regulations mandate that the Financial Aid Office complies with the Return to Title IV Funds policy in which any student who drops all courses or officially withdraws before completing 60% attendance for the semester, may be liable to repay a portion of the Title IV aid that was disbursed. Title IV funds include the following financial aid programs: ACG, SMART, Pell, SEOG, Perkins Loan, Subsidized and Unsubsidized Stafford Loans, and PLUS Loans. The amount of the return is based on formulas established by the U.S. Department of Education. For additional information regarding the Return of Financial Aid Policy view the complete policy through the Financial Aid webpage.

DP Dropped after deadline with passing grade N/A
DF Dropped after deadline with failing grade 0.00
EM Examination N/A

IN is only a temporary symbol. It will revert to the default grade of an F after two consecutive terms if student has not met the terms and conditions. Note: All courses for which a student is officially registered at the end of the Drop/Add Period and for which a Letter Grade, a 'DF', or a 'WF' is received are calculated in the GPA.

HOW TO CALCULATE A GRADE-POINT-AVERAGE (GPA)

Grade Point Average (GPA) is calculated for all students. GPAs are calculated only for grades earned at FIU. There are two types of GPAs: Semester and Cumulative. The semester GPA is calculated using the courses taken in that semester. The cumulative GPA is a summary of all FIU courses taken over a student’s career. Remember, when a student’s career changes (i.e., undergraduate to graduate), the GPA calculation begins anew. Transfer course grades are not included in any GPA calculations. To calculate a GPA, one must know the course grade, the course credits or semester hours associated with that course, and the values associated with each grade assigned. See the Grading System list above for "Points Per Credit Hour" values.

To calculate a GPA, first multiply the number of course credits/semester hours for each course by the grade point values associated with the grade received in that course. Then add all of those totals together and divide that sum by the total number of course credits/semester hours. For a semester GPA use all regularly graded courses in that semester (plus P/F courses in which an F or U was earned), and for the cumulative GPA use all courses. Do not average semester GPAs in order to calculate the cumulative GPA.

Note: All GPAs are rounded to two decimal points.

Note: On the Grading System list above, some grades will not affect GPA, such as “P” (Satisfactory), “IN” (Incomplete) or “DR” (Dropped). Thus, do not include the credits for such graded courses in the calculation.

Here is an example of semester GPA calculation:

</tbody>
</table>
GRADING OPTIONS

The colleges and the schools make the determination of the grading option of each course. A course may be offered for a letter grade as listed above or Pass/Fail; or for an optional grade (if designated by a dept.) in which the student has a choice of either receiving a letter grade or pass/fail; or the student may choose to audit a course and an 'AU' grade will be recorded on the student's record. The grading option must be indicated at the time of registration. The grading option cannot be changed after the Drop/Add period (first week of classes). There are no exceptions to this deadline.

To register for an audit, the student must obtain the permission and signature of the instructor of the course to be audited. Once the course is registered for as ‘Audit’, the grading option cannot be changed.

INCOMPLETE GRADE

A grade of incomplete (IN) is a temporary symbol given at the discretion of the instructor for work not completed, because of serious interruption not caused by the student’s own negligence. An incomplete must be made up as quickly as possible but no longer than two consecutive semesters (including Summer semester) after the initial taking of the course or it will automatically default to an “F” grade. The student must not register again for the course to make up the incomplete. There is no extension to the two consecutive semester deadline.

Students who have incomplete grades on their records, must remove the incomplete by the end of the fourth week of the term in which they plan to graduate. Failure to do so will result in a cancellation of their graduation date. The student will need to reapply for graduation.

FORGIVENESS POLICY

The Forgiveness Policy is a method by which students may repeat a limited number of courses, provided the grade earned is less than a “C” to improve their grade point average (GPA). Only the grade received on the last repeat is used in the GPA calculation. Under the University’s forgiveness policy, students must file a Repeated Course Form with the Office of the Registrar. The form should be completed and submitted once the student has repeated the course and grades are posted. There is no time limit on the use of the forgiveness policy for grades; however, the forgiveness policy cannot be used once a degree is posted. All courses taken with the grades earned will be recorded on the student’s transcript. The repeated course form will not be processed if:

- The student receives a lower grade than their initial attempt.

Repeated courses will be appropriately designated with a transcript comment.

Undergraduate students may use the forgiveness policy a maximum of three times for the purpose of improving their GPA. The same course (prefix and number) may be repeated up to three times or the student may use the three opportunities to apply to three different courses. Only the final grade for the three courses repeated under the forgiveness policy will be counted in computing the student’s GPA. In order for a course to be considered as repeated and adjusted in the GPA, the course must be the same course with identical course prefix and course number and must be repeated at the University. Students who have used their three options under the forgiveness policy may still repeat courses; however, both the original grade and any additional grades received through repetitions of the course will be used in computing the GPA.

A course taken on a letter grade basis must be repeated on the same basis. Students will not be allowed additional credit or quality points for a repeated course unless the course is specifically designated as repeatable (independent study, studio courses, etc.). Students not using the forgiveness policy may still repeat a course. All attempts will apply to computation of the GPA but credit for one attempt will apply towards graduation. Students must check with the appropriate academic department to determine whether there are additional restrictions on repeating courses.

DEPARTMENTAL CREDIT BY EXAMINATION

Departmental credit by examination is available for certain courses. A student who has already gained knowledge of a subject offered at the University and who wishes to take an examination in lieu of taking the course should discuss the matter with his/her academic advisor and with the department offering the course.

Awarding departmental credit by examination is the prerogative of each academic unit. To receive credit by examination, a student must be a fully admitted degree-seeking student, register, and pay for the course. Once the student is awarded the departmental credit by examination, an ‘EM’ grade will be recorded on the transcript.

CHANGE OR CORRECTION OF GRADES

Once submitted, end-of-semester grades (except incompletes, which default at the end of two consecutive terms) are final. They are subject to change only through a Change of Grade form to correct an error in computation or transcription, or where part of the student’s work has been unintentionally overlooked.

FINAL WEEK OF THE SEMESTER

During the final week of the semester, classes meet for an extended period of time for various instructional purposes such as: final exams, lectures, group projects, and/or individual presentations.

FINAL GRADES

Final grades are available through the PantherSoft web-based system (http://my.fiu.edu).

DEAN’S LIST

Any fully admitted undergraduate student who earns a semester average of 3.5 or higher on nine or more semester credit hours of coursework for which grade...
points are earned, is placed on the semester Dean’s List. This achievement is noted on the student’s permanent academic record (transcript).

APPLICATION FOR GRADUATION

Students who plan to graduate are required to apply for graduation through the PantherSoft web-based system (http://my.fiu.edu).

This online application form must be submitted in accordance with deadlines published in the academic calendar. Students submitting the Application for Graduation after the deadline will graduate the following semester.

Students who do not graduate must re-apply for graduation and complete the remaining requirements needed to graduate.

ACADEMIC HONORS

Summa Cum Laude
To graduate Summa Cum Laude, a student must have earned a cumulative FIU GPA of 3.90 and higher.

Magna Cum Laude
To graduate magna Cum Laude, a student must have earned a cumulative FIU GPA of 3.70 - 3.899.

Cum Laude
To graduate Cum Laude, a student must have earned a cumulative FIU GPA of 3.50 - 3.699.

To graduate with the above honors, the student must have completed a minimum of 40 semester hours of coursework at FIU for which grade points (Pass/Fail does not apply) are earned at the university.

ACADEMIC WARNING, PROBATION, AND DISMISSAL

Warning
An undergraduate student whose cumulative GPA falls below a 2.0 will be placed on warning, indicating academic difficulty.

Probation
An undergraduate student on warning whose semester GPA falls below 2.0 will be placed on probation, indicating serious academic difficulty. The College/School of the student on probation may indicate the conditions which must be met in order to continue enrollment.

Dismissal
An undergraduate student on probation whose cumulative and semester GPAs fall below a 2.0 will automatically be dismissed from his/her program and the University. An undergraduate student will not be dismissed prior to attempting a minimum of 20 semester hours of coursework. The student has ten working days to appeal the dismissal decision. This appeal must be made in writing to the dean of the College or the School in which the student is admitted. The dismissal from the University is for a minimum of one year. After one year, the student may apply for re-admission (see Re-admission) to the University in the same or a different program, or register as a non-degree seeking student.

Dismissed students returning to the university are placed on academic probation.

RE-ADMISSION

An admitted degree-seeking student who has not enrolled in any course at the University for three (3) or more consecutive terms, excluding military withdrawals, will be required to apply for re-admission. The student must meet the University and program regulations in effect at the time of re-admission. Students must contact the Office of Admissions to apply for re-admission. Students must apply for readmission through the undergraduate admissions website at http://admissions.fiu.edu.

UNDERGRADUATE ACADEMIC AMNESTY

FIU undergraduate students who apply for re-admission (with a GPA below a 2.0) and have not been enrolled in any university or college for at least six calendar years may apply for academic amnesty. If re-admitted, students will begin with a new grade point average of 0.0. No grades previously earned will be included in the University grade point average, however, credit and GPA for previous University courses, in which a grade of “C” or better was earned may be applied toward a degree, subject to determination by the College of the student’s major. All prior courses attempted and grades received will remain on the student’s transcript. Admitted or re-admitted students may not petition for any retroactive change in their academic record utilizing this policy. Students applying for academic amnesty to a limited access program must meet the admission criteria of that program. Students must follow the regular re-admission application process and complete the amnesty form for consideration to be determined by the student’s academic dean. Re-admission applications and academic amnesty applications may be obtained on the admissions website at http://admissions.fiu.edu.

UNDERGRADUATE ACADEMIC SALVAGE

FIU undergraduate students who are academically dismissed from the University or who have a GPA below a 2.0, and who subsequently receive an Associate of Arts degree from another Florida public institution of higher learning may apply for academic salvage. If re-admitted, students will begin with a new FIU grade point average of 0.0. Students re-admitted under academic salvage will be credited with a maximum of 60 semester credit hours. Students must follow the regular re-admission application process and complete the Academic Salvage form for consideration by the student’s academic dean. Re-admission applications and academic salvage applications may be obtained on the admissions website at http://admissions.fiu.edu.

STUDENT RECORDS

Florida International University assures the confidentiality of student educational records in accordance with State University System rules and state, and federal laws including the Family Educational Rights and Privacy Act of 1974, as amended. Student academic records are
maintained in the Office of the Registrar and in the academic department of the student’s major. Students in some degree programs may be subject to background checks and/or drug testing prior to eligibility for internships or practicums. All currently enrolled and former students have the right to review their records to determine their content and accuracy.

RELEASE OF STUDENT INFORMATION FROM EDUCATION RECORDS

The disclosure or publication of student information is governed by policies of Florida International University and the Florida Board of Education of the State University System of Florida within the framework of State and Federal Laws, including the Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99).

A student’s consent is required for the disclosure or publication of any information which is a) personally identifiable and b) a part of the educational record. However, certain exceptions to that generality, both in types of information that can be disclosed and in access to that information, are allowed within the regulations of the Family Educational Rights and Privacy Act. The University may disclose information pertaining to the student to a parent/legal guardian as long as the parent/legal guardian submit both the FERPA form in which part B is filled out and signed along with proof that the child is a dependent.

Florida International University discloses education records without a student’s prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the University. Upon request, the University also discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

The University may disclose, without consent, “directory,” or public, information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, students are allowed to request that the school not disclose their directory information. Florida International University considers the following to be directory information items:

1. name, local and permanent address, and telephone number(s);
2. date and place of birth;
3. student classification and major and minor fields of study;
4. participation in officially recognized activities and sports;
5. weight and height of members of athletic teams;
6. dates of attendance, degrees and awards received;
7. the most recent previous educational agency or institution attended by the student; and
8. photographic image.

In order to prevent access to or release of Directory Information, students must request non-disclosure through their PantherSoft web-based system (http://my.fiu.edu) website prior to the first class meeting day of the semester. Access to, or release of Directory Information will be withheld until further written instruction is received from a student or the parents of a dependent student.

Students have a right to challenge the accuracy of their educational records and may file written requests to amend these records. The Office of the Registrar (PC 130) should be contacted for further information regarding the procedure to follow for questions or problems. For complete information regarding the policies outlined above, please contact: University Registrar Florida International University Modesto A. Maidique Campus - PC 130 Miami, Florida 33199

E-mail: Registrar@fiu.edu

PANTHER ID

The University has implemented an identification system—Panther ID. This identification number is the primary identification number for all students. Applicants and current students can retrieve this number by going to the PantherSoft web-based system (http://my.fiu.edu) website.

TRANSCRIPTS

The transcript is the complete student record of courses taken at the University, in addition to the number of transfer credits accepted. The GPA is calculated for all courses taken at the University after Fall Term 1975. Once a baccalaureate, master’s, or doctorate degree is earned, the GPA calculation starts again.

Students must request their transcript online. Transcripts will be mailed out the next business day. The transcript will not be released if the student has a University financial liability and/or a defaulted student loan. The University may charge a fee up to $10.00 per transcript.

CLASS ATTENDANCE

The university expects students to attend their classes in order to create an effective learning environment in which to master course content and satisfy performance objectives and learning outcomes as outlined by instructors.

Instructors may establish specific class attendance requirements and may consider attendance and participation in class in evaluating student performance. During the first week of class, instructors must inform students of any special requirements and articulate any penalties, including a failing grade that may result for non-attendance. This information should be clearly stated in the course syllabus.
In general, instructors must excuse students from classes due to their military obligations, jury duty, religious days, illness, serious family emergencies and/or participation in official university activities, i.e., athletic events, artistic performances, curricular activities. Instructors must afford students a reasonable amount of time to complete course work and/or assignments missed during their approved absence.

Only registered students appearing on an official course roster may attend a class at the university.

**POLICY STATEMENT WITH REFERENCE TO RELIGIOUS HOLYDAYS**

A faculty member who wishes to observe a religious holy day shall make arrangements to have another instructor conduct the class in his/her absence, if possible, or shall reschedule the class.

Because there are some classes and other functions where attendance may be considered essential, the following policy is in effect:

1. Each student shall, upon notifying his/her instructor, be excused from class to observe a religious holy day of his/her faith.
2. While the student will be held responsible for the material covered in his/her absence, each student shall be permitted a reasonable amount of time to make up any work missed.
3. No major test, major class event, or major University activity will be scheduled on a major religious holy day.
4. Professors and University administrators shall not arbitrarily penalize students who are absent from academic or social activities because of religious observances.

**VETERANS INFORMATION**

The Office of Veterans Affairs assists all veterans and their dependents who wish to receive VA educational benefits. The Office also provides personal counseling, fee deferments, tutorial assistance, and work-study jobs. The VA Office is located in PC 130, Modesto A. Maidique Campus; and in ACI-100, Biscayne Bay Campus.

Veterans who are planning to attend the University should contact the Office of Veterans Affairs two months prior to the anticipated date of entry. Such time is required to expedite the processing of paperwork for educational allowances from the Veterans Administration.

**Training Status**

<table>
<thead>
<tr>
<th>Status</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

**Rate of Payments/Number of Dependents**

For rate of monthly payment of educational allowances for veterans and dependents, please contact the Office of Veterans Affairs.

For additional information regarding other Veterans Educational Programs, contact the Office of Veterans Affairs at Modesto A. Maidique Campus, PC 130, (305) 348-2838.

**ENROLLMENT CERTIFICATION**

The Office of the Registrar is responsible for certification of student enrollment. Certification of enrollment cannot be processed if the student has a financial liability. Enrollment certifications for a current semester can only be done after the drop/add period ends.

**ENROLLMENT STATUS**

**Undergraduate:**

- **Full time:** 12 credits or more.
- **Half time:** 6 - 11 credits.
- **Less than half time:** 5 credits or less.

Enrollment status is for continuous enrollment for the semester in which the student attended. Reduction of course load will reflect the student’s status. Contact the Office of the Registrar for further details.

(Note: Enrollment status for Financial Aid recipients may differ on federal aid regulations.)

**FLORIDA RESIDENCY INFORMATION**

**Florida Student Definition**

For the purpose of assessing registration and tuition fees, a student shall be classified as a Florida or non-Florida Resident for tuition purposes.

To qualify as a Florida Resident for tuition purposes, the student or the parent/legal guardian of a dependent student, must:

1. Be a U.S. Citizen, Resident Alien, parolee, Cuban National, Vietnamese Refugee, or other legal alien so designated by the U.S. Immigration and Naturalization Service.
2. Have established a legal residence in this State and have maintained that legal residence for 12 consecutive months immediately prior to the start of the term in which the student is seeking Florida resident classification. The student’s residence in Florida must be a bona fide domiciliary rather than for the purpose of maintaining a mere temporary residence or abode, incident to enrollment in an institution of higher education, and should be demonstrated as indicated below (for dependent students as defined by IRS regulations, a parent or guardian must qualify).
3. Students claiming to be independent must meet one of the following:
   a) The student is 24 years of age or older by the first day of classes of the term for which residency status is sought; if student is under the age of 24, they must demonstrate earned income, through income tax forms, of a minimum of $11,500 in the prior year or present evidence of that amount or greater by means of contracts or appointment letters;
   b) The student is married;
   c) The student has children who receive more than half their support from the student;
   d) The student has other dependents who live with and receive more than half of their support from the student;
   e) The student is a Veteran of the United States Armed Forces or is currently serving on active duty in the United States Armed Forces for purposes other than training;
f) Both of the student's parents are deceased or the student is or was (until age 18) a ward/dependent of the court;
g) The student is working on a master's or doctoral degree during the term for which residency status is sought;
h) The student is classified as an independent by the financial aid office at the institution.

4. Submit the following documentation (or in the case of a dependent student, the parent must submit documentation), prior to the first day of classes for the term for which resident status is sought (late submissions will be considered for the following academic term):
   a) Documentation establishing legal residence in Florida (this document must be dated at least one year prior to the first day of classes of the term for which resident status is sought). The following documents will be considered in determining legal residence:
      (1) Declaration of domicile (recorded issue date will be the effective date on this document).
      (2) Proof of purchase of a home in Florida which the student occupies as his/her residence.
      (3) Proof that the student has maintained residence in the state for the preceding year (e.g., rent receipts, employment record).
   b) Documentation establishing legal domicile in Florida which is not temporary or merely incident to enrollment in a Florida institution of higher education. The following documents will be considered evidence of domicile even though no one of these criteria, if taken alone, will be considered conclusive evidence of domicile (these documents must be dated at least one year prior to the first day of classes of the term for which Florida resident status is sought):
      (1) Declaration of domicile (recorded issue date will be the effective date on this document).
      (2) Florida driver's license and/or Florida automobile registration.
      (3) Proof of real property ownership in Florida (e.g., deed, tax receipts).
      (4) Employment records or other employment related documentation (e.g., W-2, paycheck receipts), other than for employment normally provided on a temporary basis to students or other temporary employment.
      (5) Proof of membership in or affiliation with community or state organizations or significant connections to the State.
      (6) Proof of continuous presence in Florida during the period when not enrolled as a student.
      (7) Proof of former domicile in Florida and maintenance of significant connections while absent.
      (8) Proof of domicile in Florida of family.
      (9) Proof of reliance upon Florida sources of support.
      (10) Proof of domicile in Florida of family.
      (11) Proof of admission to a licensed practicing profession in Florida.
      (12) Proof of acceptance of permanent employment in Florida.
      (13) Proof of graduation from high school located in Florida.
      (14) Any other factors peculiar to the individual which tend to establish the necessary intent to make Florida a permanent home and that the individual is a bona fide Florida resident, including the age and general circumstances of the individual.
   c) No contrary evidence establishing residence elsewhere.
   d) Documentation of dependent/in-dependent status (IRS return or affidavit). A student might also qualify for Florida residency by one or more of the following criteria:
      1. Become a legal resident and be married to a person who has been a legal resident for the required twelve month period, or,
      2. Be a member of the Armed Forces on active duty stationed in Florida, or a spouse or dependent, or,
      3. Be a member of the full-time instructional or administrative staff of a state public school, state community college or state University in Florida, a spouse or dependent, or,
      4. Be a dependent and have lived five years with an adult relative who has established legal residence in Florida, or,
      5. Be a former student at a public institution of higher education who was properly classified as a resident who re-establishes domiciliary status and re-enrolls within a period of twelve months, or,
      6. Make a statement as to the length of residence in Florida and qualification under the above criteria.

OUT-OF-STATE NON-RESIDENT-FOR-TUITION-PURPOSES
RECLASSIFICATION TO IN-STATE RESIDENT-FOR-TUITION-PURPOSES

Effective July 1, 2009, Florida Statute 1009.21(6)(a) was amended to reflect significant changes in classifying students as residents or non-residents for the purpose of tuition assessment. Students are encouraged to read the full statute located on the University Registrar's website at: http://registrar.fiu.edu. The major changes pertain to the new requirements for establishing initial classification and the limited instances where non-resident status may be changed to resident status through the reclassification process. The following general principles apply to the classification and re-classification of resident status for tuition purposes (please refer to full statute for complete listing of program criteria as well as required documents for substantiating residency request):

To qualify as a resident for tuition purposes:
A person or, if that person is a dependent child, his or her parent or parents must have established legal residence in this state and must have maintained legal residence in this state for at least 12 consecutive months immediately prior to his or her initial enrollment in an institution of higher education.

To request reclassification of resident status:
   a) Except as otherwise provided in this section, a person who is classified as a nonresident for tuition purposes may become eligible for reclassification as a resident for tuition purposes if that person or, if that person is a dependent child, his or her parent presents clear and convincing documentation that supports
permanent legal residency in this state for at least 12 consecutive months rather than temporary residency for the purpose of pursuing an education, such as documentation of full-time permanent employment for the prior 12 months or the purchase of a home in this state and residence therein for the prior 12 months while not enrolled in an institution of higher education.

b) If a person who is a dependent child and his or her parent move to this state while such child is a high school student and the child graduates from a high school in this state, the child may become eligible for reclassification as a resident for tuition purposes when the parent submits evidence that the parent qualifies for permanent residency.

c) If a person who is a dependent child and his or her parent move to this state after such child graduates from high school, the child may become eligible for reclassification as a resident for tuition purposes after the parent submits evidence that he or she has established legal residence in the state and has maintained legal residence in the state for at least 12 consecutive months.

d) A person who is classified as a nonresident for tuition purposes and who marries a legal resident of the state or marries a person who becomes a legal resident of the state may, upon becoming a legal resident of the state, become eligible for reclassification as a resident for tuition purposes upon submitting evidence of his or her own legal residency in the state, evidence of his or her marriage to a person who is a legal resident of the state, and evidence of the spouse's legal residency in the state for at least 12 consecutive months immediately preceding the application for reclassification.

Appealing the Denial of Residency Reclassification

A student may once appeal the denial of a request to be reclassified from out-of-state status to in-state status for tuition purposes. The student will need to meet with a manager-level staff in the Office of the Registrar to discuss the decision and their options. The appeal must be provided in writing with accompanying documentation that might support reconsideration of the original decision. A committee will meet to review the appeal and its accompanying documentation. The committee will make a determination in the case and will notify the student in writing of its final decision within sixty days of the meeting.

TERM COURSES OFFERED

Listed next to certain courses in this catalog are the designations ‘F’, ‘S’, and ‘SS’. These designations indicate that the academic department normally offers these courses during the ‘F’ (Fall), ‘S’ (Spring), ‘SS’ (Summer) terms. Students should be aware that there are circumstances beyond the University’s control (low enrollments, financial constraints, or other extenuating situations) which may result in the courses not being offered as indicated. The University is not responsible for failure to offer a course as indicated.

COLLECTION AND USAGE OF SOCIAL SECURITY NUMBERS

In accordance with Florida law, the University collects social security numbers from its students for the following reasons:

- For use in processing admission applications for purposes of identification and verification of student records;
- For use in administering federal and state programs/loans, including verification of eligibility. These programs include, but are not limited to:
  - Financial Aid and other related loan programs;
  - Scholarship Programs, including Bright Futures; and
  - Veterans Administration benefits for qualified students
- For use in complying with IRS Reporting Requirements pertaining to the Hope Scholarship Credit and the Lifetime Learning Credit provided under federal legislation;
- For use in preparing Student Enrollment Reports required to be submitted to the National Student Loan Data System under Federal Law;
- For use in providing official student transcripts to authorized third parties (i.e. educational institutions and employers upon receipt of required releases) for student identification purposes;
- For enrollment verification and eligibility for health insurance coverage, auto insurance coverage, and benefits, as requested by students.
- For submitting reports to the Florida Board of Governors as required.

Please note that this is only a listing of the collection and use of social security numbers by the University in the admissions, registration and financial aid areas. All students are advised that social security numbers are confidential and may only be released in accordance with applicable law.
Tuition and Fees

FEES

The currently authorized fees for academic year 2011-2012 are:

<table>
<thead>
<tr>
<th>PER CREDIT HOUR FEES</th>
<th>Florida Resident</th>
<th>Non-Florida Resident</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate Tuition</td>
<td>$145.56</td>
<td>$558.86</td>
</tr>
<tr>
<td>Differential Tuition</td>
<td>$32.00</td>
<td>$32.00</td>
</tr>
<tr>
<td>Total Per Credit Hour Fees</td>
<td>$177.56</td>
<td>$590.86</td>
</tr>
</tbody>
</table>

SEASON FEES

<table>
<thead>
<tr>
<th>Florida Resident</th>
<th>Non-Florida Resident</th>

<td>$83.19</td>
</tr>
<tr>
<td>Parking</td>
<td>$82.42</td>
</tr>
</tbody>
</table>

Registration fees for course audits are the same as the above fees, except that no assessment will be made for the out-of-state portion.

FEE WAIVERS

Students using a fee waiver for part of the fee payment must pay their portion on or before the last day to pay fees.

State employees using the State employee fee waiver to pay their fees must register on or after the day established in the official University calendar for State employee registration. The State Employee Fee Waiver pays up to six credit hours of tuition and fees per term. Summer sessions A, B, and C are considered one term. State employees who register for more than six hours will be required to pay for the additional credit hours plus all per student related fees. A properly completed and approved waiver form must be presented at the Student Financials Office by the date published for the last day to pay fees. Fee Waivers will be processed only for those courses shown on the approved fee waiver request form presented at the time of registration. Only one fee waiver form per employee will be accepted each semester. The State employee fee waiver will not be accepted as payment for course registrations prior to the announced date for state employee registration. State Employee Fee Waivers do not cover Thesis, Dissertation, Internships, Directed Individual Study, Non Credit Courses, Sponsored Credit Programs, Certificate Programs, Field Experience, Practicum, or courses taken for audit grades.

Senior citizens fee waivers are available to persons 60 years of age or older who meet the requirements of Florida residency as defined in this catalog. The fee waiver allows qualified individuals to attend credit classes on an audit basis. Senior citizens using the fee waiver must register during the first week of classes. Senior citizens using the fee waiver must pay the photo ID fee during their first term in attendance and once per academic year thereafter.

Florida law requires that State employee fee waivers and senior citizen fee waivers be granted on a space available basis only; therefore, individuals using these waivers must comply with the procedures outlined in the schedule of classes for each semester. Refunds will not be given for employees who have registered and paid prior to the state employee registration day and wish to use the fee waiver.

Fee Payment

Fees may be paid at the Student Financials Office at Modesto A. Maidique Campus, PC 120, or at Biscayne Bay Campus ACI 140 or online through the MyFIU portal (https://my.fiu.edu). The on-line payment system accepts credit card payments of AMEX, DISCOVER and MASTERCARD only. At this time, we do not accept VISA for tuition and fee payments. Check payments may also be done through the on-line system. Night drop boxes outside the Student Financials Offices on either campus are available 24 hours a day for fee payments by check or money order through the last day to pay fees. The University is not responsible for cash left in the night drop or sent through the mail. Failure to pay fees by the established deadlines may cause you to be dropped from all courses or assessed a Late Payment Fee. See Fee Liability below.

Payment Plan

The payment plan will allow students to pay their current term's tuition and fees in two (2) installments. The first/initial installment payment which is equal to fifty (50%) of your total tuition and fees must be paid by the Last Day to Pay and the remaining balance will be due by the end of the seventh week of the term. There is a $15.00 service charge to sign up for the plan. Enrollment to the Payment Plan can be accomplished by going to the MyFIU portal (https://my.fiu.edu) and selecting “Payment Plan” in the Finances section.

Late Registration Fee

Students who register after the established deadline for registration will be subject to 100 late registration fee.

Late Payment Fee

Students who pay fees after the established deadline for payments will be subject to a $100 late payment fee. If applicable, this fee may be assessed in addition to the late registration fee described in the preceding section.

FLORIDA PREPAID TUITION PLAN STUDENTS

Students utilizing the Florida Prepaid Tuition Plan must pay their portion of the student fees not covered by the plan by the published last day to pay fees. If you are a financial aid recipient – the portion of the student fees will not be deducted from your financial aid award. Please contact the Student Financials Office to pay the balance due.

FINANCIAL AID RECIPIENTS

All financial aid recipients whose financial aid award meets or exceeds tuition, excluding Federal Work Study, will automatically receive a tuition deferment. If your financial
PantherSoft.

Students can view their “Anticipated Aid” online through PantherSoft.

**FEE LIABILITY**

Students are liable for all fees associated with all courses in which they are registered at the end of the drop/add period. The fee payment deadline is published in the official University calendar. If fees are not paid in full by the published dates, all courses for the term may be canceled.

**REINSTATEMENT OF CLASSES**

Appeals for reinstatement of registration for classes dropped for fiscal reasons must be filed in writing on the prescribed form with the Student Financials Office by the time specified on the cancellation notice. Reinstatement will be considered for all classes on the class schedule at the end of the drop/add period. Reinstatement cannot be requested selectively for certain classes. All reinstatement activity, including fee payment, must be completed by the date on the cancellation notice. All students whose registrations have been reinstated will be assessed a late payment fee. If the late registration fee is applicable it will also be assessed.

**PARKING RULES AND REGULATIONS**

All persons who park vehicles on the university’s campuses must register their vehicle(s) with the Department of Parking and Traffic, obtain a decal or permit, and display the decal or permit, as prescribed by the Parking Rules and Regulations. The University assumes no liability for vehicles parked or operated on University property. The issuance of a decal or permit does not guarantee a place to park.

**Parking and Access Fees**

All currently enrolled students will pay a Parking and Access Fee each semester. The fee will appear on the Student Fee Schedule.

Students must provide the following information to the Department of Parking and Traffic to obtain a parking decal: Panther ID, proof of current class registration, and current vehicle registration. All decals must be permanently affixed to the outside of the vehicle, either on the left side of the rear bumper or lower left corner, on the outside of the rear window. All decals are valid until the expiration date indicated on the decal or permit. A duplicate hang tag will be issued upon request for an additional charge of $10.00 + tax. This hang tag is valid only for the vehicle under which it is registered. Hang tags are available to persons who have purchased an original decal for the current semester or year. The hang tags are for additionally owned vehicles and for situations where the original decal must be replaced due to an accident, painting, etc.

**Housing**

All students in university housing complexes need to obtain a current semester housing sticker from the Department of Parking and Traffic. This sticker allows the vehicle to be parked legally in student housing areas. This sticker is valid for the current semester only. This housing sticker should be affixed to the left or right side of their current student decal.

**Disabled**

Any person who has been certified in accordance with Sections 320.084, 320.0848, or 320.0842, Florida Statutes, and has been issued a Disabled placard by the Department of Motor Vehicle Bureau shall obtain and display a university parking decal in the classification which would otherwise be appropriate.

**Towing and Impoundment**

The university may tow and impound any vehicle, which is found to be parked illegally or in violation of the parking rules and regulations.

**Rules and Regulations Pamphlets**

A copy of the University Parking Rules and Regulations is available at the department of Parking and Traffic located at Modesto A. Maidique Campus, Parking Garage One or Biscayne Bay Campus, Wolfe University Center, Room 131. It is the responsibility of each student to become familiar and comply with the University’s parking and traffic rules and regulations.

**Other Fees**

**Library Fines**

- Per book per library hour: $0.25
- Maximum fine per book: $10.00
- Lost book fine: $100.00

*Note:* These fees are subject to change as permitted by law. Additional fees may be added and special purpose fees may be assessed in some instances.

**CHECKS**

The University will accept personal checks for amounts due to the University. These checks must be in the exact amount due only. The Student Financials Office will not accept checks above the amount due, third party checks or checks for cash. State law requires that a service fee be assessed on a check returned unpaid by the bank for any reason. Service fees are based on the amount of the unpaid check. Checks for $0.01 - $50.00 are charged a $25.00 fee; $50.01 - $300.00, a $30.00 fee; $300.01 - $800.00, a $40.00 fee; and a fee of 5% of the amount of the check for all checks greater than $800.00. Checks returned by the bank can be redeemed only by cash, cashier’s checks, or money orders. A personal check will not be accepted to replace a dishonored check. If a check is returned from an on-line payment, returned check fines will also be charged as per the amounts indicated above.

Returned checks will be assigned to an agency for collection if not promptly paid. When an account has been assigned, the collection agency fee will be added to the University charges for collection at the current contract rate. Returned checks on student accounts will result in cancellation of classes and will require petition for reinstatement. See reinstatement of classes above.

The Student Financials Office will not accept a check on any student’s account which has had two previous dishonored checks.
REFUNDS

Refunds will be processed and mailed to the address shown on the Registrar's files to all students whose fee accounts show an overpayment after the last day to pay fees. Students now have the option to add a direct deposit account. Information is available on line in the Finances section (add a direct deposit link) of the MyFIU portal (https://my.fiu.edu). Students due a refund will not be required to submit a refund application to receive their refund, it will automatically be calculated. If there is an amount due to the university in the accounts receivable system, that amount will be deducted from any refund due.

Students who have completed registration and have paid all fees due and have completely withdrawn from the University prior to the end of the fourth week of classes are eligible for a refund of 25% of total fees paid.

In the following exceptional circumstances, a full refund of total fees paid will be made upon presentation of the proper documentation:

- Death of a student or immediate family member (parent, spouse, child or sibling). Death certificate required.
- Involuntary call to military service. Copy of orders required.
- Illness of student of such severity or duration to preclude completion of courses. Confirmation by a physician required.

Processing of refunds will begin after the end of the add/drop period for each semester.

Appeals for tuition refunds must be submitted in writing to the Office of the Registrar within one year after the end of the term for which the refund is requested. There are no exceptions to this policy. Refunds for financial aid recipients will be determined based on the “Return of Title IV Policy”. Please refer to “the award terms and condition booklet” for specific details.

REPEAT COURSE TUITION CHARGES

Repeated Attempts of Courses

The 1997 Legislature passed House Bill 1545 mandates that undergraduate students pay additional charges for the third time a student either takes or attempts the same college credit course. Any undergraduate course taken, beginning Fall 1997, and all courses taken after this date will be subject to the repeat surcharge. Attempted hours mean those hours dropped/withdrawn after the drop/add period or failed. Withdrawals, incompletes and dropped courses will be subject to the tuition surcharge, if they are fee liable. All students are included regardless of type of residency. Undergraduate courses are 1000 to 4000 level courses.

Exceptions:
- Any course work taken prior to Fall 1997.
- Credits earned through: cooperative education, military, waivers, audits, individualized study, courses that are repeated as a requirement of a major (except courses repeated more than 2 times to increase GPA or meet minimum course grade requirements), courses intended to continue over multiple semesters.
- Attempts taken at previous institutions prior to enrolling at FIU.
- Any non fee liable withdrawal of dropped course.
- Graduate level courses (courses at 5000 level or above).
- Effective Summer 2000, students who withdraw or fail a class due to extenuating circumstances and financial hardships may be granted an exception only once for each class.
- Students wishing to appeal the repeat surcharge may complete an “Appeal of Repeat Course Surcharge” form, which may be obtained in the Registrar's Office, PC 130.

EXCESS CREDIT SURCHARGE

Effective Fall semester 2009, all undergraduate students who enter or transfer to Florida International University are subject to the new statute [1009.286f.s.] that governs the number of credits a student can take before being assessed an excess credit surcharge. Students can accumulate up to 120% of credits towards their degree by paying normal tuition and fees. This is equivalent to 144 hours for students in a 120-hour degree program. After the 120% mark, students are subject to an additional 50% per-credit charge. Fees may vary depending on the student's classification as in-state or out of state. It is important to communicate closely with your undergraduate or your academic advisor in order to stay on track towards graduation and to avoid excess credit surcharges that may challenge you financially. Please be aware that courses in which a student receives grades of DR, WI, IN and F can count towards excess credit calculations.

More information regarding excess credit surcharges can be found on the registrar's website: http://registrar.fiu.edu/.

PAST DUE ACCOUNTS

Delinquent accounts are sufficient cause to prohibit registration, graduation, release of transcripts, or release of diplomas.

The University is not able to grant credit or time payments for any fees.

The University reserves the right to assign any past due account to an agency for collection. When an account has been assigned, the collection agency fee will be added to the University charges for collection at the current contract rate.

Deadlines

Students are reminded that deadlines are strictly enforced. The University is not able to grant credit or to extend the fee payment period beyond the time set in its official calendar. The University does not have the authority to waive late fees unless it has been determined that the University is primarily responsible for the delinquency or that extraordinary circumstances warrant such waiver. The University has no authority to extend deadlines for individual students beyond those set by the official calendar.
Financial Aid

WHAT IS FINANCIAL AID?

Financial aid is a source of financial support provided by federal, state and local governments, universities, community organizations, and private corporations to help students meet the cost of attending college. It includes gift-aid (grants and scholarships) and self-help aid (loans and student employment).

- Grants are awards based on financial need which do not have to be repaid.
- Scholarships are non-repayable awards based either on merit, special talent and/or financial need.
- Student loans are available to students and/or their parents at low interest rates (Fixed Direct Loans).
- Student employment allows students to earn money toward their education by working part-time while attending school.

APPLYING FOR ASSISTANCE

The Free Application for Federal Student Aid (FAFSA) is the form used annually to apply for most types of financial assistance. FIU’s school code 009635 is required when completing the FAFSA. Applications for financial assistance are available in January for the following academic year which begins in August. FIU’s annual priority deadline is March 1st. Applications completed after this deadline will be processed in order of completion.

For assistance in completing the FAFSA application, visit the 7 Steps to the FAFSA Application link on the front page of the Financial Aid website: http://finaid.fiu.edu.

The FAFSA is available on the Web:
- FAFSA web filers will require a Federal PIN (Personal Identification Number) to be used in lieu of student and parent signatures. Therefore, both student and parent will need to apply for a PIN. To obtain a Federal PIN link to: http://www.pin.ed.gov.
- Next to complete the FAFSA electronically on the Web, the web site address is: http://www.fafsa.gov.
- FAFSA Worksheets are available in the Financial Aid Office to assist students with the FAFSA on the Web format. To request a paper form of the FAFSA, students can call the Federal Processor at 1.800.4FED.AID.
- Using the Panther ID, students may check the “TO DO LIST” online for any required documents that are requested for file completion through PantherSoft my.fiu.edu. Most required documents for file completion are available through the Financial Aid Office web page under Required Forms at: www.finaid.fiu.edu.

ADMISSIONS

To be eligible for most financial aid programs, students must be admitted to a degree program. However, students should not wait until they are admitted to apply for assistance. Students who enroll in qualified Certificate Programs are only eligible for student loans.

SUMMER ASSISTANCE

To receive Summer assistance for 2012, the 2011-2012 FAFSA must be on file. Summer awards are automatically posted as long as there are no pending documents required and the student meets the preliminary review of Satisfactory Academic Progress (SAP).

TRANSFER STUDENT PROCEDURES

Financial aid cannot be transferred from one post-secondary institution to another during the academic year. Students planning to transfer in mid-year should complete the FAFSA using both their current institution and Florida International University (Federal School Code 009635) to ensure consideration for all applicable financial assistance.

ELIGIBILITY CRITERIA

To qualify for most need-based financial assistance, students must meet the following basic eligibility requirements:

- demonstrate financial need;
- be a U.S. citizen or eligible non-citizen;
- be registered with Selective Service, if required;
- not be in default on a loan, or owe a repayment on Title IV aid received at any institution;
- be enrolled at least half-time in an eligible program of study;
- Maintain Satisfactory Academic Progress; and
- Additional requirements may apply depending on the aid programs awarded.

DETERMINING FINANCIAL NEED

Financial need is defined as the difference between the estimated cost of attendance and the amount students and their families can reasonably be expected to contribute towards their educational expenses, expected family contribution (EFC). Need analysis is a federally mandated formula which measures, in an equitable and systematic way, how much students and their families can afford to pay towards their education. Income, assets (excluding their primary residence), family size, number of family members attending college and other items are evaluated to give a complete assessment of a family’s financial ability.

Cost of attendance minus EFC = Financial need

VIEWING YOUR FINANCIAL AID

Students can view application status and awards using their Panther ID through the PantherSoft my.fiu.edu or the Financial Aid webpage: www.finaid.fiu.edu -link to MY FINANCIAL AID.

AWARDING PROCEDURES

Award decisions for newly admitted students who complete their financial aid application will be issued annually in mid February with an Early Estimated Award Notice. A financial aid package may consist of a combination of grants, loans, and student employment.

All awards are offered based on full time enrollment. Full time enrollment for Undergraduate students is 12
credits and for Graduate students is 9 credits. Awards are then adjusted, if applicable, to actual enrollment after the drop/add period for each semester (Fall/Spring/Summer). Other sources of assistance such as merit awards and private and institutional scholarships will be taken into consideration when preparing the award. Award decisions for returning students who meet the **March 1st** priority deadline should expect to receive an award decision by June*.

*The Financial Aid Office reviews Spring 2012 grades to determine if **Satisfactory Academic Progress** has been met before an award determination is made for returning students.

**RETURN OF FINANCIAL AID POLICY**

Federal regulations mandate that the Financial Aid Office complies with the Return to Title IV Funds policy in which any student who fails to receive at least one completion grade in the semester, drops all courses or officially withdraws before completing 60% attendance for the semester, may be liable to repay all or a portion of the Title IV aid that was disbursed. Grades that affect Return to Title IV Funds are F, F0, IN, DR, WI. Title IV funds include the following financial aid programs: Pell Grant, SEOG, Perkins Loan, Subsidized and Unsubsidized Stafford Loans, and PLUS Loans. The amount of the return is based on formulas established by the U.S. Department of Education. For additional information regarding the Return of Financial Aid Policy view the complete policy through the Financial Aid webpage.

**FINANCIAL AID SERVICES**

- **Financial Aid Counseling**: A Financial Aid administrator is available on a walk-in basis to assist students with special problems, technical questions and exceptions.

- **Web Access**: Students may obtain information on the status of their application through the Financial Aid web page: [www.finaid.fiu.edu](http://www.finaid.fiu.edu) at MY FINANCIAL AID link or through [http://my.fiu.edu](http://my.fiu.edu).

- **LIVE CHAT**: Students can communicate on-line with Financial Aid representatives through PANTHERCHAT available through the Financial Aid webpage at: [www.finaid.fiu.edu](http://www.finaid.fiu.edu).

For additional information contact the Financial Aid Office by telephone at (305) 348-7272 or by visiting at Modesto A. Maidique Campus, PC 125 or Enrollment Services at the Biscayne Bay Campus, ACI 100.
General Information

HUMAN RESOURCES

The Division of Human Resources provides human resource management services for all employees in the academic and administrative areas including student employees, research and graduate assistants, college work study and temporary employees on all campuses. The division comprises the following areas: HR Administration, Recruitment Services, Compensation Administration, Employee and Labor Relations, Payroll and Employee Records, Benefits Administration, HR Management Systems, Talent Management and Development, Equal Opportunity Programs and Diversity, Employee Assistance Programs, Human Resources Relations, and Human Resources (Herbert Wertheim College of Medicine). It is through this office that new employees participate in the New Employee Experience (NEE) to gain knowledge of FIU’s past, present, and future for their individual career success and institutional impact.

The Modesto A. Maidique Campus (MMC) office is located in PC 224, (305) 348-2181. The Biscayne Bay Campus (BBC) office is located in LIB 322, (305) 348-5545. For additional information, visit the Division of Human Resources website at: www.fiu.edu/hr.

AMERICANS WITH DISABILITIES ACT (ADA)

The Director for Equal Opportunity Programs and Diversity is the University’s ADA Coordinator and has responsibility for ensuring access to employment, academic and public programs for persons with disabilities. The Disability Resource Center is responsible for student accommodations which include the provision of auxiliary aids and services to ensure access to academic programs.

EQUAL OPPORTUNITY PROGRAM

Florida International University is committed to equal opportunity and diversity for all Students, Employees and Applicants for employment. EOPD is responsible for the development, implementation and monitoring of diversity, equity and affirmative action programs, policies and procedures to ensure equal employment opportunity without regard to age, color, disability, marital status, national or ethnic origin, political affiliation, race, religion, sex (including pregnancy), sexual orientation, veteran status or gender information. This is accomplished by various programs, goals and initiatives:

- The University’s Affirmative Action Plan for Women and Minorities, and for Individuals with Disabilities and Veterans and the Florida Equity Accountability Plan;
- American with Disabilities Act (ADA)
- Diversity Initiatives
- External Partnerships
- Minority Scholarships
- Position Vacancy Announcements/Hiring Recruitment
- Internal and External investigations
- Training

The Director of the Office of Equal Opportunity Programs and Diversity is the campus Equity Officer responsible for concerns in all areas of discrimination and is also the Title IX Coordinator for the university responsible for FIU’s compliance efforts on gender discrimination, sexual harassment, retaliation, sexual assault, athletics equity and related civil rights investigations. The office is located on the MMC campus in PC 215, (305) 348-2785. For additional information, visit the Office of Equal Opportunity Programs website at: www.fiu.edu/~eop.

HIV/AIDS POLICY

Students and employees of the University who may become infected with the HIV/AIDS virus will not be excluded from enrollment or employment or restricted in their access to University services or facilities, unless individual medically-based judgments establish that exclusion or restriction is necessary for the welfare of the individual or for other members of the University community. The University has established an HIV/AIDS Committee which includes representatives from major University divisions and other staff as appropriate. The Committee is responsible for monitoring developments with regard to HIV/AIDS, acting upon and administering the University’s Policy on HIV/AIDS in specific cases, and coordinating the University’s efforts in educating the University community on the nature of the disease. In addition, the Committee will meet as needed to consider individual occurrences of the disease which require University action.

Persons who know or suspect they are HIV-positive are expected to seek expert medical advice and are obligated, ethically and legally, to conduct themselves responsibly for the protection of others.

The University has designated HIV/AIDS counselors on both campuses who are available to provide further information on this subject. The entire HIV/AIDS policy is located on the FIU Health Care and Wellness Center website: http://www.fiu.edu/~health/clinicalservices/HIVpolicy.htm.

Contact the Health Care and Wellness Center for more information at MMC (305) 348-3080 or at BBC, (305) 919-5620.

SEXUAL HARASSMENT, NONDISCRIMINATION, EDUCATIONAL EQUITY

All members of the University Community are entitled to study and work in an atmosphere free from illegal discrimination. Florida International University’s equal opportunity policy prohibits discrimination against students and employees on the basis of their race, color, creed, age, disability, sex (including sexual harassment), religion, marital status, national origin, or sexual orientation. Under the policy, it does not matter whether the discrimination was intended or not; the focus is on whether students or employees have been treated differently or subjected to intimidation, or a hostile or offensive environment as a result of their belonging to a protected class or having a protected status. Sexual harassment includes unwelcome physical contact of a sexual nature, overt or implied threats to induce performance of sexual favors, verbal...
harassment, use of sexually suggestive terms, or display or posting of sexually offensive pictures.

Any employee, applicant, or student who believes that he or she may be a victim of unlawful discrimination may file a complaint with the Office of Equal Opportunity Programs, PC 215, MMC (305) 348-2785.

DEPARTMENT OF PUBLIC SAFETY & UNIVERSITY POLICE DEPARTMENT

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act)

All postsecondary institutions, both public and private, that participate in federal Title IV student aid programs are required to comply with the Clery Act regulations. Although Clery Act compliance is an institutional responsibility, full compliance is a campus wide effort, and concerns all members of the Community. Policy statements must be developed and crime reports must be collected from a wide variety of campus security authorities.

These authorities include: Campus Police; Non–police security staff responsible for monitoring campus property; individuals and offices to which crimes should be reported; and Officials of the University with significant responsibility for student and campus activities.

• The University Campus Police publish an annual Campus Security Report every year by October 1st containing three years of campus crime statistics and specific campus security information including university policy statements.

• Disclose crime statistics for the FIU campuses and areas immediately adjacent to the campus and certain non-campus facilities and other remote university properties. The statistics must be gathered from campus police or security, local law enforcement and from other university officials such as deans, directors and department heads, who have significant responsibility for student and campus activities. The crime statistics may be found on the University Police website listed below.

• Provide “timely warning” notices of specific crimes that occurred on campus, or within the jurisdiction of the campus police (or those reported to the campus police in areas adjacent to the campuses of FIU).

• The FIU University Police Department is responsible for preparing and distributing the Campus Security Report. The Campus Police Department works with local police departments and all university departments to compile the information contained in the annual report.

The Public Safety Department encourages the FIU community to pick up a copy of the Campus Security Report as a guide for safe practices on and off campus.

The Campus Security Report is available on the University Police website (http://police.fiu.edu).

Florida’s Statewide Course Numbering System

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida’s Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and 28 participating non-public institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online Statewide Course Numbering System to obtain course descriptions and specific information about course transfer between participating Florida institutions. This information is at the SCNS website at http://scns.fldoe.org.

Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the Statewide Course Numbering System (SCNS). The list of course prefixes and numbers, along with their generic titles, is referred to as the “SCNS taxonomy.” Descriptions of the content of courses are referred to as “statewide course profiles.”

THE COURSE PREFIX

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or sub-category of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

GENERAL RULE FOR COURSE EQUIVALENCIES

Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions. (Exceptions are listed below.)

For example, a freshman composition skills course is offered by 56 different postsecondary institutions. Each institution uses “ENC_101” to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, “ENC” means “English Composition,” the century digit “1” represents “Freshman Composition,” the decade digit “0” represents “Freshman Composition Skills,” and the unit digit “1” represents “Freshman Composition Skills I.”

In the sciences and certain other areas, a “C” or “L” after the course number is known as a lab indicator. The “C” represents a combined lecture and laboratory course that meets in the same place at the same time. The “L” represents a laboratory course or the laboratory part of a course, having the same prefix and course number without a lab indicator, which meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at the community college is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent.

NOTE: Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on semester-term systems. For example, 4.0 quarter hours often transfers as 2.67 semester hours.

AUTHORITY FOR ACCEPTANCE OF EQUIVALENT COURSES

Section 1007.24(7), Florida Statutes, states:

Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions. Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions, and participating nonpublic postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.
EXCEPTIONS TO THE GENERAL RULE FOR EQUIVALENCY

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include varying topics courses that must be evaluated individually, or applied courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.

A. Courses not offered by the receiving institution.
B. For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course in question.
C. Courses in the 900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Thesis and Dissertations.
D. College preparatory and vocational preparatory courses.
E. Graduate courses.
F. Internships, apprenticeships, practica, clinical experiences and study abroad courses with numbers other than those ranging from 900-999.
G. Applied courses in the performing arts (Art, Dance, Interior Design, Music, and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (i.e., portfolio, audition, interview, etc.).

COURSES AT NONREGIONALLY ACCREDITED INSTITUTIONS

The Statewide Course Numbering System makes available on its home page (http://scns.fldoe.org) a report entitled “Courses at Nonregionally Accredited Institutions” that contains a comprehensive listing of all nonpublic institution courses in the SCNS inventory, as well as each course’s transfer level and transfer effective date. This report is updated monthly.

Questions about the Statewide Course Numbering System and appeals regarding course credit transfer decisions should be directed to Dr. Janie Valdes, Director, Transfer and Transition Services or the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling the Statewide Course Numbering System office at (850) 245-0427 or via the internet at http://scns.fldoe.org.
Special Course Directory

In addition to the regular courses listed in the catalog*, special courses may be offered using the State Wide Course Numbering System. The following table provides an inventory of course numbers by course type.

The College of Architecture and The Arts is comprised of seven departments - Architecture, Art and Art History, Communication Arts, Interior Design, Landscape Architecture, Music, and Theatre. The dynamics among the different disciplines make the college unique with programs that focus on art, design, and performance. The college occupies a unique position in South Florida where students can prepare for a career in architecture or the arts within a major research university. Instruction in the college is enriched by a distinguished faculty of artists, designers, and performers who add dimensions of applicable experience, current issues, and ongoing research to the traditional concepts of disciplines and professions within the college.

The college promotes exploration, discovery, and innovation among its different programs and is strongly committed to interdisciplinary education breaking new ground in art, design and performance. Its diverse programs emphasize urban engagement and are informed by current thinking and new technologies.

Developing connections with a wide range of programs and resources in the university, the college is dedicated to being engaged as a leader in art and design as well as in the performing arts in South Florida, the neighboring communities, and the nation. Collaborations with Fairchild Tropical Botanic Garden, the Metropolitan Center, the Wolfsonian-FIU, Florida Keys Land and Sea Trust at Crane Point, the Concert Association of Florida, and the Università degli Studi di Genova offer students the opportunity to expand their ingenuity with a variety of resources.

The fusion of essential disciplines with applied professions in the college provides both depth and liberty in learning. In the fields of architecture and art, the major emphases are on creative processes and studio work with a variety of supportive lectures and seminar programs. In art history, the emphasis is on scholarly study of the arts through time; lectures, seminars, and independent research are conducted on campus and in museums and libraries throughout the South Florida area. Music emphasizes skills and knowledge that are fundamental to the entire discipline: music theory, music history, performance, aural and keyboard training, orchestration, composition, conducting, and ensemble participation. Speech Communication focuses on developing skills essential for leadership, career development, and for understanding and interpreting events. Theatre majors study the arts that contribute to theatre production—acting, costuming, directing, design, playwriting, and theatre administration.

Admission to the College of Architecture and The Arts is selective and competitive. For information on the College of Architecture and The Arts, see http://carta.fiu.edu. Students seeking to major in any of the college’s departments must meet the requirements for admission to the university and the requirements for admission to the major by the respective department. Admission to the above referenced departments’ majors is competitive and is not guaranteed. Criteria for selective admission to the departments major include indicators of ability, performance, creativity, and/or talent to complete required work within the desired major. Admission to the department’s major will be offered based on space availability to those applicants judged by the respective Department Faculty Admissions Committee to have the greatest potential for successful completion of the program. Florida community college transfer students with Associate in Arts degrees are given equal consideration with FIU students.

Advising Center

Our advisors are here to assist you in the development of a meaningful educational plan that is compatible with your life goals. You can rely upon your academic advisors for information, assistance, and encouragement.

The goals of our advising team are to:

- Provide accurate and customized academic information.
- Educate students on how to plan effectively.
- Help students identify goals and develop education plans to reach them.
- Interpret and assure adherence to CARTA’s academic policies and procedures.
- Consult with students experiencing academic difficulty and assist them in identifying reasons for problems and possible solutions.
- Help students understand degree requirements.
- Assist students in the selection and scheduling of courses.

Undergraduate Programs

For students seeking to begin their professional design studies as undergraduates, the Departments of Architecture, Interior Design, and Landscape Architecture offer the Accelerated Master's programs which integrate pre-graduate coursework in a single curricular path (see appropriate section for each program on pages that follow). The College offers academic programs leading to undergraduate degrees in Art, Art History, Music, and Theatre.

Certificate Programs

The college offers academic programs leading to undergraduate certificates in History and Theory of Architecture and Landscape Architecture.

Minors

Minor programs of study are offered in art, art history, music, music composition (for music majors only), theatre, dance, and communication studies.
Architecture

Adam M. Drisin, Associate Professor and Chair
Alfredo Andia, Associate Professor
Malik Benjamin, Visiting Instructor
Claudia Busch, Instructor
Jaime Canavés, Professor
Jason R. Chandler, Associate Professor
Eric Goldemberg, Assistant Professor
Nikolay Nedev, Instructor
Marilys R. Nepomechie, Associate Professor
Elyse Newman, Associate Professor
Eric Peterson, Visiting Instructor
Gray Read, Associate Professor
Matthew Rice, Faculty Director, Genoa Program
David Rifkind, Assistant Professor
Camilo Rosales, Associate Professor
Thomas Spiegelhalter, Assistant Professor
John Stuart, Professor
Shahin Vassigh, Associate Professor

The Department of Architecture is dedicated to the education of future generations of ethical professionals, creative designers and informed citizens. We believe architecture to be a conceptually based intellectual endeavor and a form of critical inquiry that addresses the physical environment from the scale of the city to the scale of furniture. The Department is committed to producing skilled makers who are versed in professional skills and who are conceptual thinkers grounded in the broad intellectual and societal values that engender the production and reception of architecture. To realize these objectives, design is taught as a critical and creative enterprise. The Department of Architecture prepares students for professional practice in the discipline of architecture with emphasis placed upon six thematic areas: architectural design, history/theory, building technologies, digital technology, ethics and professional business practice, and general education.

The program maintains a commitment to excellence in teaching, creative activity, research and scholarship and seeks to attract a diverse student body with a variety of academic backgrounds, experiences and interests. Our student body and faculty reflect the diverse areas of knowledge that play a critical role in the making of the built environment and the establishment of successful design practices.

Miami is a fertile urban laboratory for the study of architecture. The great diversity of the region provides limitless possibilities for exploring historic architecture and urbanism, as well as unique and cutting edge new works by many of the world’s leading architects. At the same time, the challenges of rapid growth and urban development in Miami and the region have created an ideal crucible for the study of these timely issues. The program takes advantage of the fact that Miami is one of the principal academic and commercial gateways to Latin America and Europe.

For students seeking to begin their design studies as undergraduates, the Department offers the Accelerated Master of Architecture degree (M. Arch) which integrates pre-graduate and graduate coursework in a single curricular path and which may be taken over five or six years. The accelerated Master of Architecture path begins freshman year with two years of pre-graduate coursework 73 credit hours, students in good standing move directly to 102 credit hours of graduate coursework. The accelerated Master of Architecture degree path concludes with the conferral of the accredited professional Master's degree. Transition to graduate study occurs without the conferral of an undergraduate degree and no bachelor degree is awarded at any point.

Students who have completed the AA in Architectural Studies may apply for transfer admission into the third year of this degree program as junior year transfer students.

Applicants to the Department should plan for the financial aspects of a design education. This includes the costs associated with required access to a laptop computer, as well as the cost of software, travel and field trips, tools and equipment, and modeling supplies. Students in the program must have access to a laptop computer through purchase, lease or other arrangements. Students in the Department of Architecture are encouraged to participate in the Department’s study abroad semester during the fourth year. For further information contact the Department.

Admission Requirements

Application Deadline: February 1

The department admits students once a year to begin their course work in the fall semester; therefore, it is recommended that interested applicants meet with a member of the college’s Student Services and Advising Center during the Fall semester prior to the application deadline. Admission to the department is competitive and is not guaranteed. Admission will be offered based on space availability to those applicants judged by the Department Faculty Committee to have the greatest potential for successful completion of the program.

The department offers professional degrees in Architecture. The curriculum is composed of two years of foundational, undergraduate coursework followed by three (or four) years of focused graduate course work leading to the professional accredited Master of Architecture (M. Arch). The department does not award the pre-professional bachelors degree.

Undergraduate students may apply for admission into the first year or the third year of the program. Students of the program are considered undergraduate students until they have accumulated 120 credit hours; therefore, freshman and transfer applicants must apply to both FIU’s Undergraduate Admissions Office and to the department. Students accepted for admission in the first year or the third year of the department’s program, and who are in good academic standing with a cumulative 3.0 GPA at completion of 120 credit hours, are automatically converted to graduate student status.

First Year Admission Requirements

Applicants must meet the University’s admission requirements and submit a design portfolio – please refer to the Design Portfolio Requirements section.
**Third Year Transfer Student Admission Requirements**

Applicants for third year admission must meet the University’s admission requirements and submit a design portfolio — please refer to the Design Portfolio Requirements section. Students who have completed an AA in architectural studies must meet the following requirements: minimum cumulative GPA of 3.0; successful completion of the CLAS requirement; completed design studio courses 1 through 4 with a grade of ‘C’ or better; and be judged by the Faculty Admissions Committee to have passed a competitive portfolio review. Only grades of ‘C’ or higher (2.0 on a 4.0 grading scale) are accepted for transfer of applicable prerequisite and core courses from other institutions.

**Transfer Students:** University policy allows the transfer of 60 lower division credits. Additional upper-division transfer credits may be accepted. For most transfer students it will be necessary to take a certain number of undergraduate credits at FIU in order to achieve the minimum required to satisfy the degree requirements.

**Third Year Native Student Admission Requirements**

FIU undergraduate students who wish to change their major to architecture should check program requirements and be advised by the college’s undergraduate advisors well in advance of application for admission.

**Design Portfolio Requirements**

As part of each department’s admission review process, all students are required to submit a design portfolio demonstrating the candidate’s creative abilities as well as their level of design. The design portfolio is evaluated based on a candidate’s demonstrated sense of composition, attention to detail, graphic communication skills, expressive quality, and sense of space, accuracy, and observation. The design portfolio should be formatted on 8.5” x 11” sheets, bound or carefully packaged, with a maximum thickness of 3”. Applicants may also include 11” x 17” sheets provided they are folded to 8.5” x 11”. Design portfolios may include two-dimensional story boards (a sequence of still images that show a story), computer printouts, and photographs of small three-dimensional models/projects. The design portfolio cannot contain slides, videos, computer discs, or other formats that require electric power to view.

**First Year Design Portfolio Requirements**

All candidates’ design portfolios must include a one-page (maximum) statement outlining your intentions, aspirations, and purpose in pursuing a professional degree. In addition, all candidates’ design portfolios require three freehand drawings based on accurate observations: (1) a drawing of a stair or stairs, (2) a drawing of a bicycle or bicycles or a part of a bicycle or bicycles, and (3) a drawing of your own choice. These drawings may be in ink, pencil or charcoal. In addition to the three required freehand drawings, the first year design portfolio may contain reproductions of a two-or-three dimensional work.

**Third Year Transfer Portfolio Requirements**

All candidates’ design portfolios must include a one-page (maximum) statement outlining your intentions, aspirations, and purpose in pursuing a professional degree. The design portfolio should include no more than 10 examples of your design work executed within the past two years. Examples include, but are not limited to, studies of buildings that demonstrate your analytical ability. Recent art and/or design projects that an applicant completed in collaboration with others are acceptable as long as the example contains an explanation of the applicant’s role in the process. Portfolios may not contain samples of architectural or interior design construction documents either by hand or by computer.

**Student Work**

Student work submitted to the Department in satisfaction of course or degree requirements becomes the physical property of the Department. However, students retain all rights to the intellectual property of such work. This work may include papers, drawings, models, and other materials. The Department assumes no responsibility for safeguarding such materials. At its discretion, the Department may retain, return, or discard such materials. The Department will not normally discard the materials of current students without giving them a chance to reclaim them.

Students must petition the Department in writing for any deviation from the established policies.

**Progression Requirements**

No grade below a ‘C’ will be accepted for graduation in required courses or professional electives. Students must have a cumulative grade point average of 3.0 or higher at the conclusion of 120 credit hours to continue in the program.

**Undergraduate to Graduate Standing**

Students will be evaluated for matriculation to graduate status based upon their graduate GPA at the end of the spring semester of their 4th year (provided they have earned a minimum of 120 total credits). The criteria listed below must be satisfied:

1. A minimum of 120 earned credits (counting no more than 60 lower-division transfer credits),
2. 3.0 of higher GPA in graduate level coursework (5000 level of higher), and
3. Completion of undergraduate coursework.

**Master’s Project/Thesis Requirement**

Graduate students in all masters degree programs are required to undertake a master’s project or a master’s thesis as part of their course of study in the Department of Architecture.

**Study Abroad**

Study abroad is an important component of the Department of Architecture. Our study abroad center is located in Genoa, Italy. The Genoa center is ideally situated in the historic center of the city in a renovated former convent dating from the 13th century. During the semester abroad in Italy, students are afforded an opportunity to study those artistic, architectural, landscape
and interior spaces and artifacts that have long been acknowledged for their exceptional and enduring value to Western design culture.

**Accelerated Master of Architecture**

**Degree Program Hours: 175**

The accelerated Master of Architecture program provides a seamless course of study leading from undergraduate freshman year to the conferral of the Professional Master of Architecture degree (M. Arch). The Accelerated M. Arch is comprised of 175 credit hours of integrated pre-graduate and graduate coursework. The degree consists of 73 credit hours of pre-graduate coursework which is taken over two years and is followed by 102 credit hours of graduate coursework which can be completed in either three or four years. Students in the accelerated M. Arch program are awarded the professional Master's degree without first having to earn an undergraduate degree. As such, no Bachelor's degree is awarded.

The accelerated path provides the student with a solid base of knowledge in the discipline of architecture and a broadly based general education. The first two years of pre-graduate coursework are characterized by a broad interdisciplinary framework, with emphasis placed upon six thematic areas: general education studies, architectural design studies, architectural history & theory, building & digital technologies, and ethics & professional practice. The goal of the educational experience is to develop critical thinking and synthetic design abilities using creative problem solving, analytic skills and the capacity for speculative design. The program is committed to educating students to form independent design judgments for speculative design. The program is committed to creative problem solving, analytic skills and the capacity for speculative design. The program is committed to creative problem solving, analytic skills and the capacity for speculative design. The program is committed to creative problem solving, analytic skills and the capacity for speculative design. The program is committed to creative problem solving, analytic skills and the capacity for speculative design.

The fully integrated pre-graduate and graduate course of study covers the comprehensive knowledge and professional skills required for a professional career in the discipline of architecture. The program remains committed to design excellence by providing its students an unsurpassed professional education in architecture.

**NAAB Statement**

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

Florida International University, College of Architecture and The Arts, Department of Architecture offers the following NAAB-accredited degree programs:

- **M. Arch** (73 undergraduate credits + 102 graduate credits)
- **M. Arch** (pre-professional degree + 60 graduate credits)
- **M. Arch** (non-pre-professional degree + 105 graduate credits)

Next accreditation visit for all programs: 2017

**Pre-Graduate Level Course Requirements (73)**

Course requirements also include 38 credits of general education coursework.

Courses are selected from the following categories:

**Verbal Communication (9)**

- ENC 1101  Writing and Rhetoric I  3
- ENC 1102  Writing and Rhetoric II  3
- COM 3110  Business and Professional Communication  3

**Environmental Context (11)**

- MAC 2147  Pre-Calculus Math  4
- PHY 2053  Physics without Calculus I  4
- EVR 1017  The Global Environment and Society  3

**Cultural Context (9)**

- HUM 3306  History of Ideas  3
- PHI 2103  Critical Thinking  3
- PHI 2600  Introduction to Ethics  3

**Creative Context (9)**

- ARH 4450  Modern Art  3
- ARH 4470  Contemporary Art  3

**and one course selected from:**

- ART 2300C  Beginning Drawing  3
- ART 2500C  Beginning Painting  3
- ART 2750C  Beginning Ceramics  3

**Graduate Level Course Requirements (102)**

All accelerated M. Arch students must complete the following requirements or their equivalent. A minimum of 102 semester hours are required to graduate:

Certificate in the History and Theory of Architecture

The Architecture Department offers a certificate in the history and theory of architecture to students currently enrolled in any of the school’s programs at either the undergraduate or graduate level. In addition, motivated students in related areas of study throughout the university are permitted to pursue this certificate through written application to the Chair of the Architecture Department.

The certificate involves course work in the history and theory of architecture. These courses examine the scope of ideas generated in the discipline in order to reveal and explain the production and reception of architecture. This certificate program focuses upon the historical and theoretical circumstances within the discipline and considers the discipline of architecture through its distinct modes of thought and production and in relation to other spheres of cultural production such as art, technology and politics. By treating architecture as a historical and ideological production as well as a material production, the course work in this certificate program explores the important cultural forces that have conditioned the development and transformation of the discipline of architecture.

Certificate Requirements

The certificate requires 12 semester hours of course work in history and theory. Courses must be selected from the following approved courses or by written petition to the Chair of the Architecture Department.

Program Requirements

ARC 2701 History of Design from Antiquity to the Middle Ages
ARC 2702 History of Design from the Renaissance to the XIX Century
ARC 3243 Introduction to Design Theories
ARC 4030 Film and the Architecture of Modern Life
ARC 4227 Gender and Architecture
ARC 4730 Culture and Art in Italy
ARC 4752 Architectural History of the Americas
ARC 4754 Asian and African Architecture

ARC 4755 Architecture of the City
ARC 4783 History of Design from the XIX Century to Present
ARC 4910 Research Methods
ARC 4979 Architecture and Landscape
ARC 4905 Independent Study

Professional Certificate in Sustainable Construction

Yong X. Tao, Professor and Coordinator

This interdisciplinary Professional Certificate provides both traditional students and practicing professionals with a unique learning experience that enhances their design and management capabilities in the emerging field of sustainable building design and construction. The program focuses on an integrated system approach to apply basic engineering science/architectural principles to practical applications through interdisciplinary teamwork. Interested applicants must contact the Program Coordinator prior to registering for the program.

The Certificate will be awarded to a student who successfully demonstrates competency in:

Four Core Courses

EML 4460 Mechanical Engineering Systems and Energy Utilization 3
BCN 4570 Sustainable Approach to Construction 3
ARC 3937/5939 GreeN: Designing for Sustainability 3
CGN 4510 Sustainable Building Engineering 3

One Interdisciplinary Design Course

(registered under one of the following discipline courses)

EML 4905 Senior Design Project 3
BCN 4910 Senior Project 3
ARC 4114 Special Projects 3
CGN 4802 Senior Design Project 3

One Elective

(choose one of the following courses)

EML 4911 Undergraduate Research Projects 3
BCN 4911 Special Projects 3
CGN 4911 Undergraduate Research Projects 3
ARC 3622/5623 Design Ecology and Technology 3
IND 4627/5628 Sustainable Interior Design Practices 3

NOTE: The program is co-listed in the undergraduate program catalogs under both College of Engineering and Computing and College of Architecture and The Arts.

Course Descriptions

Definition of Prefixes

ARC-Architecture; HUM-Humanities
F-Fall semester offering; S-Spring semester offering; SS-Summer semester offering.

ARC 1001 Introduction to Design (3). A practical introduction to the professional, technical, and aesthetic aspects of architecture, interior design, landscape architecture, and environmental and urban systems.

ARC 1131 Design Graphics I (2). An introduction to the development of graphic skills for the conception and communication of design ideas. Subject areas emphasize
orthographic and presentation techniques. Corequisite: ARC 1301. (F)

ARC 1132 Design Graphics II (2). A continuation of Design Graphics I with the exploration of broader graphic tools of conceptual representation. Subject areas emphasize computer graphics and multiple media. Prerequisite: ARC 1131. Corequisite: ARC 1302 (S)

ARC 1171 Introduction to Computer Applications in Design 1 (3). A practical exploration to introductory computer applications appropriate to design disciplines.

ARC 1172 Introduction to Computer Applications in Design 2 (3). A continuation of introduction to computer applications in Design 1 with a broader exploration of introductory computer applications appropriate to design disciplines.

ARC 1190 Portfolio Design 1 (3). An introduction to creating, binding and reproducing graphic materials for presentation.

ARC 1191 Portfolio Design 2 (3). The second course in Portfolio Design. Students will develop their own portfolios using a variety of techniques. Prerequisite: Portfolio Design 1.

ARC 1213 Design Concepts 2 (3). A continuation of Design Concepts 1 with a broader exploration design principles, environmental and human factors, as well as the examination of design ideas.

ARC 1244 Introduction to Design 2 (3). A continuation of Introduction to Design 1 with broader explorations of professional, technical, and aesthetic aspects of architecture, interior design, landscape architecture, and urban systems. Prerequisite: ARC 1001.

ARC 1301 Design Studio 1 (4). An introduction to concepts, fundamental design elements, and systems of order that inform two and three-dimensional design. Corequisite: ARC 2701. (F)

ARC 1302 Design Studio 2 (4). A continuation of Design Studio 1 (ARC 1301). An introduction to principles of proportion and scale with an emphasis on the relationship between the body and three-dimensional space. The design process is emphasized. Prerequisites: ARC 1131, ARC 2701. Corequisite: ARC 2702. (S)

ARC 1461 Materials and Methods of Design (3). An introduction to materials and methods. In this course properties of materials and performance in a variety of light building, interior and environmental assemblies are explored. (F)

ARC 1930 Special Topics/Architectural Design I (4). An introduction to the basic perceptual, social, cultural, environmental and technical issues of architectural design. Basic architectural design projects.

ARC 2210 Design Concepts (3). Introduction to principles of design and perception, study of user's need for relationship with environmental and human factors. Examination of design ideas and their development. (S)

ARC 2303 Design Studio 3 (4). A continuation of Design Studio 2. Site, social, cultural and environmental issues are the generator for design projects with repetitive spatial and programmatic issues. Prerequisites: ARC 1302, ARC 1132, ARC 2702. Corequisites: ARC 1461, ARC 4058, ARC 4783. (F)

ARC 2304 Design Studio 4 (4). A continuation of Design Studio 3. Structure, material, design details, human factors and interior architecture are explored for small scale infill urban buildings project. Prerequisites: ARC 4058, ARC 4783. Corequisite: ARC 2580. (S)

ARC 2580 Structures and Systems (3). Analysis of structural elements, fundamental principles of statics and strengths of materials, including basic concepts such as force, moment, rigid body equilibrium and structural properties of areas.

ARC 2701 History of Design from Antiquity to the Middle Ages (3). Survey of architectural, interior, and landscape design from antiquity to the Middle Ages, including Western and non-Western traditions critical reading and writing course. Written work meets the state composition requirement. (F)

ARC 2702 History of Design from the Renaissance to the XIX Century (3). Survey of architectural, interior, and landscape design from the Renaissance to the XIX century, including Western and non-Western traditions. Critical reading and writing course. (S)

ARC 2931 Architectural Design 2 (4). Proportioning systems for architecture students stressing the understanding of human proportions in a three-dimensional space research on modulating techniques and integration of interior and exterior spaces. Prerequisite: ARC 1930.

ARC 3031 Miami in Film (3). How the natural and built environment of South Florida is portrayed in films.

ARC 3057 Computer Graphics in Design (3). An intensive hands-on introduction to software for processing text and graphics, as it relates to the field of graphic design. Various computer applications in design. Prerequisite: CGS 2060.

ARC 3181 Digital Fabrication (3). This course considers digital design and fabrication methodologies and techniques in architecture with an emphasis upon the use of laser cutting, cnc milling and 3d printing. Prerequisite: ARC 4058.

ARC 3182 Design and the Virtual Environment (3). Implementation of real-time, three-dimensional virtual reality technology into existing and proposed design works.

ARC 3192 Design Presentation Graphics (3). Exploration of design presentation techniques and portfolio design through the use of digital photography, digital illustration, desk top publishing and web page.

ARC 3220 Case Studies in Architecture (3). This course explores the vast array of decisions that create the architectural experience of outstanding built works.

ARC 3243 Introduction to Design Theories (3). Introduction to the environmental parameters, morphological concepts and ideological principles that generate form and meaning in architecture and landscape architecture. Prerequisites: ARC 2701 and ARC 2702. (F)
ARC 3310 Building Information Modeling (3). This course will familiarize students with numerous foundational concepts such as parametric modeling, assembly modeling, associativity generative and interactive drafting.

ARC 3380 Architecture and the Performing Arts (3). This seminar will consider what architects might learn from the performing arts, particularly how stagecraft can inform design for social spaces in the city.

ARC 3390 Urban Vertical Surface (3). The study of buildings' vertical surfaces will focus on analyzing the mechanisms of surfaces: wall section, the bay, frame, grid and their transformations.

ARC 3463 Materials and Methods of Construction II (3). A study of the types of construction and materials used in building interiors. How materials are properly installed and inspected, including the use of special equipment, in accordance to drawings, specifications, codes, standards, and agencies' recommendations. Prerequisite: ARC 1461. (S)

ARC 3485 Architectural Installations (3). During this course we will examine the traces of history of architectural fabrications and its relations to the visual arts, media, and technology.

ARC 3622 Design Ecology and Technology (3). This course explores the environmental impact of design decisions, their philosophical underpinnings and the role played by technology.

ARC 3741 Urban Architecture and the 20th Century (3). This course will examine debates on urban architecture surrounding the rise of Modernism in the 1920s and will follow those lines of thought into current discussion of architectural design in cities.

ARC 3775 Modern Architecture - Projects and Polemics (3). This seminar focuses on close readings of primary sources drawn from key works of architectural theory. The course also explores key historical text, architectural theory and criticism. Prerequisite: ARC 4783.

ARC 3797 Hotels: Miami and La Habana at Mid-Century (3). A study of mid-century modern hotels constructed in Miami/Miami Beach, Florida and La Habana, Cuba, just prior to the Cuban revolution.

ARC 3905 Solar Decathlon (3). Research based course to develop the architectural and engineering concepts for the solar decathlon house.

ARC 3919 Architectural Research Methods (3). Survey of research methods applicable to the study of the cultural, spatial, material and aesthetic implications of architecture. The emphasis of the course is on involvement in original research. (F)

ARC 3932 Special Topics Design Studio (4). An architectural design studio based on a particular aspect of architectural design under the direction of appropriate faculty.

ARC 3934 Special Topics (3). Coursework on a particular aspect of architecture under the direction of faculty in a classroom format.

ARC 3937 Green: Designing for Sustainability (3). This course will review established and emerging principles of sustainable design/construction and test strategies for their implementation in design practice. Prerequisite: Upper division standing.

ARC 4030 Film and the Architecture of Modern Life (3). Critical overview of social and spatial implications of film on architecture and design over the course of the 20th century.

ARC 4058 Fundamentals of Digital Design (3). Introduction to two dimensional and three dimensional computer-aided design. Focus upon skill and knowledge creation through the analysis and representation of case-studies. (F,S,SS)

ARC 4114 Special Projects (3). Will focus on the development of adequate drawing skills in relationship to the understanding of a building and a site through sketching, graphic analysis, measured drawings, rendering and presentation. The course consists of site visits and workshops.

ARC 4173 3D Computer Modeling (3). This course will explore computer modeling in architecture. Prerequisite: Program approval.

ARC 4174 Computer Rendering in Architecture (3). This course will explore three-dimensional rendering in architecture. Prerequisite: Program approval.

ARC 4183 Architecture and the Virtual Environment (3). Implementation of virtual reality technology in architectural representations of existing and proposed built environments for presentation and design research. Prerequisites: ARC 4173 and ARC 4174.

ARC 4185 Interactive Media (3). Presentation of digital images through an interactive and animated interface online or offline, as well as exploration of ideologies of interactive media.

ARC 4188 Visual Effects (3). Introduction of digital video and audio post-production techniques that add sound, text and visual effects to animations, as well as exploration of ideologies of digital animation.

ARC 4227 Gender and Architecture (3). A theoretical, visual and professional exploration of women's and men's roles, identities, and histories in public and private built environments.

ARC 4270C Professional Office Practice (3). Assignments in office administration, negotiation of contracts, fee structure, professional ethics, client and public relations. Business organization, procedure scheduling and task allocation within design professional practices. Prerequisite: Senior standing. (F)

ARC 4320 Architectural Design 5 (4). Integration of structure and construction techniques in the production of a small to mid-sized public project that incorporates basic consideration of site, structure, materials and assembly systems. Prerequisites: Admission to the major, ARC 2304, ARC 2580.

ARC 4321 Architectural Design 6 (4). Focus upon architectural housing typologies and related issues of inhabitation. Spatial, structural and assembly systems and
circuitory issues specific to housing as well as context are presented. Prerequisites: Admission to the major, ARC 4320, ARC 3243. Corequisite: ARC 3463.

ARC 4322 Architectural Design 7 (4). A flexible framework for appropriate investigations of complex spatial, programmatic, contextual, constructional, or ethical involved in the architectural design process. Prerequisites: ARC 4321, ARC 4553.

ARC 4323 Architectural Design 8 (4). A continuation of Design 7 with investigations of complex spatial, programmatic, contextual, constructional, or ethical issues involved in the architectural design process. Prerequisites: ARC 4321, ARC 4553.

ARC 4553 Structural Design (4). Exploration of structural specifications as outlined by appropriate codes and manuals to introduce structural analysis, loadings and structural elements commonly encountered in construction for architectural analysis and design. Prerequisites: ARC 2580 or BCN 2402, and PHY 2053, and MAC 2233 or MAC 1114 or MAC 2147. (SS)

ARC 4696 Basic Utilities and Housing (3). The study of the importance of basic utilities (such as roads, sewer and water supply systems) in housing planning and construction. A relative cost analysis. Health problems and sociological effects of lack of basic utilities. Innovative concepts to incorporate basic utilities to all housing projects in developing countries. Prerequisite: Permission of the instructor.

ARC 4730 Culture and Art in Italy (3). Course describes the evolution of culture and aesthetics and their immediate relationship with the creation of these works. Consists of site visits and class lectures.

ARC 4752 Architectural History of the Americas (3). Historical analysis of the development of built forms and styles in tropical and subtropical Americas. Investigating its socio-political and artistic context. Prerequisite: ARC 2701.

ARC 4754 Asian and African Architecture (3). This course is a comprehensive study of architectural forms, styles, and construction techniques in Asia and Africa. Prerequisites: ARC 4783, ARC 2702.

ARC 4755 The Architecture of the City (3). To analyze the layering that composes urban form and to offer a basis of historical and theoretical information in order to take advantage of particular experience. Different periods of urban history are presented.

ARC 4783 History of Design from the XIX Century to Present (3). Survey of architectural, interior, and landscape design from the XIX century to the present, including Western and non-Western traditions. Critical reading and writing course. (F)

ARC 4796 Social History of the Built Form (3). The art of urbanism, its roots in society, its techniques and aesthetics. Latest trends and theories. Real urbanism, the appropriate contemporary process to achieve the recovery of place in our society.

ARC 4799 The Architecture and Landscape Architecture of South Florida (3). Overview of the natural resources, cultural traditions and architectural precedents which have fomented the regionalist architecture and landscape architecture of South Florida. Prerequisite: Program approval. (SS)

ARC 4905 Independent Study (1-5). Specialized individual studies under supervision of faculty advisor. Consent of faculty advisor required. Prerequisite: Departmental approval. (F, S, SS)

ARC 4910 Research Methods (3). Survey of architectural research methods that use primary and secondary sources and materials to study historical and contemporary issues involved in the built environment. Prerequisite: ARC 2304. (F)

ARC 4940 Architecture Internship (3). Advanced issues in architecture practice learned through work experience with licensed professionals. Prerequisites: ARC 4270, ARC 3463, ARC 4553.

ARC 5035 Film and the Architecture of Modern Life (3). Critical overview of social and spatial implications of film on architecture and design over the course of the 20th century.

ARC 5036 Miami in Film (3). How the natural and built environment of South Florida is portrayed in films.

ARC 5037 Architecture and Video Media (3). This course will examine intersections between architecture and video media from critical historical and contemporary perspectives.

ARC 5075 Formative Studio (6). Introduction to concept development, spatial expression, and representational techniques in architecture. (F)

ARC 5076 Formative Studio 2 (6). A continuation of architectural design investigations begun in Formative Studio. Prerequisite: ARC 5075. (S)

ARC 5077 Formative Studio 3 (6). An architectural design studio that builds upon concepts and approaches presented in Formative Studio and Formative Studio 2. Prerequisite: ARC 5076.

ARC 5165 Graduate Digital Fabrication (3). This course considers digital design and fabrication methodologies and techniques in architecture with an emphasis upon the use of laser cutting, cnc milling and 3d printing at the graduate level. Prerequisite: ARC 4058.

ARC 5175 Contemporary Digital Strategies (3). Study of advanced digital techniques as generative tools for design and representation. Focus on surface and spatial modeling and parametric relationships. Prerequisites: ARC 4058, ARC 5176.

ARC 5176C Computer Practices in Design II (3). Advanced study in concepts, issues and methods in computer-aided architectural design. Prerequisites: ARC 4058 or equivalent. Corequisite: ARC 5362.

ARC 5177 Topology and Performance (3). Exploration of the relationship between form and performance through the use of animation and scripting techniques. Prerequisite: Program approval.

ARC 5184 Architecture and the Virtual Environment (3). Implementation of virtual reality technology in
architectural representations of existing and proposed built environments for presentation and design research. Prerequisites: ARC 4173, ARC 4174.

ARC 5186 Interactive Media (3). Presentation of digital images through an interactive and animated interface online or offline, as well as exploration of ideologies of interactive media.

ARC 5189 Visual Effects (3). Introduction of digital video and audio post-production techniques that add sound, text and visual effects to animations, as well as exploration of ideologies of digital animation.

ARC 5193 Design Presentation Graphics (3). Exploration of design presentation techniques and portfolio design through the use of digital photography, digital illustration, desk top publishing and web page.

ARC 5205 Advanced Design Theories (3). This seminar analyzes Western and non-Western examples of critical ideology through the investigation of key historical moments and current architectural theory and practice. (S)

ARC 5249 Introduction to Design Theories (3). Introduction to the environmental parameters, morphological concepts and ideological principles that generate form and meaning in architecture. Explorations of related spheres of cultural production will also be explored in lectures, readings, and student assignments. Corequisite: ARC 5075.

ARC 5311 Building Information Modeling (3). This course will familiarize students with numerous foundational concepts such as parametric modeling, assembly modeling, associativity generative and interactive drafting.

ARC 5329 Architectural Design 5 (6). Integration of structure and construction techniques in the production of a small to mid-sized public project that incorporates site considerations, materials and structure. Prerequisites: ARC 2304, ARC 2580 and admission to the major. (F)

ARC 5335 Architectural Design 6 (6). This studio focuses on housing and related components including the repetitive spatial and structural elements, circulation and contextual considerations. Prerequisite: ARC 3243, BCN 4561. (S)

ARC 5340 Architectural Design 7 (6). A flexible framework for appropriate investigations of complex spatial, programmatic, contextual, constructional and ethical issues involved in design projects. Course content varies with instructor. Prerequisites: ARC 4553, ARC 3463. (F)

ARC 5343 Architectural Design 8 (6). Architectural design explorations of site, building codes, community objectives will be undertaken through individual programming, process and design initiatives for a complex building project. (S)

ARC 5361 Integrated Comprehensive Design (6). Exploration of arch systems; structural, environmental, life-safety, assembly and enclosure on building form, content and expression. Students will assess and integrate systems into the design process. Corequisite: ARC 5483. (F)

ARC 5362 Architectural Design 9: Sustainable Practices (6). Exploration and application of sustainable practices emphasizing relation of site and environmental issues to architectural production and design methodology. Prerequisites: Graduate standing and ARC 5361. (S)

ARC 5370 Urban Development 1 (3). Introduction to the planning and management of urban development projects.

ARC 5371 Urban Development 2 (3). Advanced planning and management of urban development projects. Prerequisite: ARC 5370.

ARC 5381 Architecture and the Performing Arts (3). This seminar will consider what architects might learn from the performing arts, particularly how stagecraft can inform design for social spaces in the city.

ARC 5392 Urban Vertical Surface (3). Analysis of the mechanisms of surfaces: wall section, the bay, frame, grid, and their transformations.

ARC 5396 Case Studies in Architecture (3). The course explores the vast array of decisions that create the architectural experience of outstanding built works.

ARC 5467 Materials and Methods of Construction (3). Study of the types of construction and materials used in institutional, residential, and office building assemblies. How materials are installed and inspected, including the use of special equipment. Explorations of the theories and histories of construction will be explored.

ARC 5483 Integrated Building Systems (3). Exploration of arch systems integration and specifications in design and construction processes; structural, environmental, life-safety, assembly and enclosure systems are included. Corequisite: ARC 5361. (F)

ARC 5486 Architectural Installations (3). This course will examine the traces of history of architectural fabrications and its relations to the visual arts, media, and technology.

ARC 5554 Structural Design (3). Exploration of structural specifications as outlined by appropriate codes and manuals to introduce structural analysis, loadings and structural elements commonly encountered in construction for architectural analysis and design. Explorations of related and causal ideologies will be covered. Prerequisite: ARC 5582.

ARC 5555 Structural Design 2 (3). Continuation of analysis and design of structural systems. Focus upon reinforced concrete structures, foundation systems and an overview of indeterminate, tensile systems and tall buildings. Prerequisite: ARC 5554.

ARC 5582 Structures and Systems 1 (3). Analysis of structural elements, fundamental principles of statics and strengths of materials, including basic concepts such as force, moment, rigid body equilibrium and structural properties of areas. Corequisite: ARC 5076.

ARC 5612 Environmental Systems in Architecture 1 (3). This course considers thermal, electrical, mechanical and conveyance systems and their integration in the architectural design process. Prerequisite: ARC 2304.
ARC 5621 Environmental Systems in Architecture 2 (3). This course considers the role of acoustic and luminous behaviors in architecture and the architectural design process. Topics including daylighting, artificial lighting, electrical systems and acoustics. Prerequisite: ARC 2304.

ARC 5623 Design Ecology and Technology (3). This course explores the environmental impact of design decisions, their philosophical underpinnings and the role played by technology.

ARC 5711 History of Design Antiquity to Middle-Ages (3). Survey of architectural, interior, and landscape design from antiquity to the middle ages, including Western and non-Western traditions. Explorations of related and causal ideologies will be covered in lectures, readings, and student assignments. Corequisite: ARC 5075.

ARC 5733 History of Design Renaissance to XIX Century (3). Survey of architectural, interior, and landscape design from the Renaissance to the nineteenth century, including Western and non-Western traditions. Explorations of related and causal ideologies will be covered in lectures, readings, and student assignments. Corequisite: ARC 5076.

ARC 5734 Culture and Art in Italy (3). Course describes the evolution of culture and aesthetics and their immediate relationship with the creation of these works. Consists of site visits and class lectures. Additional readings and project for graduate students.

ARC 5744 History of Design from the XIX Century to Present (3). Survey of architectural, interior, and landscape design from the XIX century to the present, including Western and non-Western traditions. Explorations of related and causal ideologies will be covered in lecture.

ARC 5745 Urban Architecture and the 20th Century (3). The course will examine debates on urban architecture surrounding the rise of Modernism in the 1920s and will follow those lines of thought into current discussions of architectural design in cities.

ARC 5750 Architectural History of the Americas (3). Historical analysis of the development of built forms and styles in tropical and subtropical Americas, investigating its socio-political and artistic context. Prerequisite: Program approval.

ARC 5756 The Architecture of the City (3). To analyze the layering that composes Rome's urban form and to offer a necessary basis of historical and theoretical information in order to take advantage of the Roman experience. Different periods of history of Rome are presented in lectures and site visits. Additional readings and projects.

ARC 5770 Historiographic Methods in Architecture (3). Seminar course designed to introduce graduate students to historiographic methodologies in architecture through close readings of key texts. Prerequisite: Graduate standing.

ARC 5776 Modern Architecture - Projects and Polemics (3). This seminar focuses on close readings of primary sources drawn from key works of architectural theory. The course also explores key historical text, architectural theory and criticism. Prerequisite: ARC 5744.

ARC 5786 Urbanism: Social History of the Built Form (3). This course introduces students to historical analysis, theories, techniques and aesthetics as they relate to urban design.

ARC 5798 Hotels: Miami and La Habana at Mid-Century (3). A research-based, in-depth study of mid-century modern hotels constructed in Miami/Miami Beach, Florida and La Habana, Cuba just prior to the Cuban revolution.

ARC 5803 Preservation Architecture: Issues and Practices (3). This course explores issues and practices of architectural preservation as an integral concern of architecture.

ARC 5905 Solar Decathlon (1). Research based course to develop the architectural and engineering concepts for the solar decathlon house.

ARC 5933 Special Topics (1-6). Coursework on a particular aspect of architecture under the direction of faculty in a classroom format. Prerequisite: Program approval.

ARC 5935 Special Topics (3). Coursework on a particular aspect of architecture under the direction of faculty in a classroom format.

ARC 5936 Cejas Eminent Scholar Graduate Seminar (1-3). Seminar/workshop course taught by distinguished educators, scholars, and designers. Lectures, critical readings and discussions of thematic topics make up the course.

ARC 5938 Special Topics Design Studio (6). An architectural design studio based on a particular aspect of architectural design and relevant ideologies under the direction of appropriate faculty.

ARC 5939 GreeN: Designing for Sustainability (3). This course will review established and emerging principles of sustainable design/construction, and test strategies for their implementation in design practice. Prerequisite: Graduate standing.

ARC 5943 Pedagogy Seminar (3). Seminar course designed to train graduate teaching assistants, who lead discussion sections and evaluate undergraduate student assignments in the accompanying undergraduate history survey course.

Bachelor of Arts in Art

The Bachelor of Arts in Art program is designed for students who do not wish to become professional artists, but who ultimately desire to teach at a primary or secondary level, or those students wishing to enter the art market other capacities, such as working at galleries or museums. The BA in Art would also be the primary degree for those wishing to pursue a Masters of Art in Art Education, Museum Studies, or Arts Administration.

Degree Program Hours: Minimum 120

Bachelor of Arts in Art History

The Department of Art and Art History offers a BA in Art History that is designed to introduce methodologies and subjects of Art History from throughout the world. In addition to traditional European and American subjects from ancient to modern times, we offer a strong emphasis on Latin American art from Pre-Columbian to the present. The BA in Art History provides professional education as preparation for careers as art professionals and for further graduate study. The BA compliments our BFA degree program in art and provides significant interaction between artists and historians.

Remarks: Admission to the program requires completion of appropriate General Education Requirements, CORE, or UCC requirements, and the CLAS requirement.

Upper Division Requirements

ARH 3811  Seminar: Studies in the Methodology of Art 3
ARH 4450  Modern Art 3
ARH 4470  Contemporary Art 3
ARH Core: One course from each of these areas: Renaissance/ Baroque 3
19th Century 3
Non-Western & Pre-Columbian 3
Latin American 3
ART electives (5) 15
ART electives 3
ARH 4970  Art History Thesis 3

*Students have the option of taking a comprehensive exam instead of completing ARH 4970. In place of the 3 credits for ARH 4970, exam students will be required to take an additional ARH elective. The exam option, therefore, requires a total of 18 credits of ARH electives.

Electives 18

(At least 9 of these elective credits must be courses outside the Department of Art and Art History. Students are encouraged to take courses in the humanities that pertain to Art History)

Minor in Art (18 credit hours)

ARH Elective 3
ART 2300C or ART 2330C 3
Beginning Drawing/Beginning Figure Drawing 3
ART Studio Electives (4) 12
Total 18

Note: A minimum of 9 credits must be at FIU, and a minimum of 9 credits must be upper-division (3000-4000 level)

Minor in Art History (18 credit hours)

ARH 4450  Modern Art 3
ARH 4470  Contemporary Art 3
ART Studio Elective 3
ARH Electives (3) 9
Total 18

Note: A minimum of 9 credits must be at FIU, and a minimum of 9 credits must be upper-division (3000-4000 level)

Course Descriptions

Definition of Prefixes

ARH-Art History; ART-Art; IDS-Interdisciplinary Studies; PGY-Photography.

ARH 2000 Exploring Art (3). Offers an introductory, non-chronological approach to the understanding and appreciation of art.

ARH 2050 Art History Survey I (3). A broad survey of the visual arts and architecture from the Paleolithic Period through the Middle Ages.

ARH 2051 Art History Survey II (3). A broad survey of the visual arts and architecture from the Renaissance through the Modern Age.
ARH 3210 Early Christian and Byzantine Art (3). The art of the Byzantine Empire from the early Christian period and the foundation of Constantinople to the Ottoman conquest and afterward (300-1500 A.D.). Prerequisites: ARH 2050 or permission of the instructor.

ARH 3313 The Art of Renaissance Florence (3). Course to accompany student program in Florence will focus on all periods of Italian Renaissance Art with particular emphasis on Florentine Art.

ARH 3350 Baroque Art (3). European art of the 17th and early 18th centuries. Artists to be considered include Bernini, Caravaggio, Velazquez, Vermeer, Rembrandt, Rubens, Poussin, La Tour, and Watteau. Prerequisite: ARH 2051.

ARH 3511 Introduction to the Visual Arts of the African World (3). Examines the continuities between African arts and the arts of African Diaspora. It traces the visual arts from the earliest cave paintings in Africa to the latest Hip-Hop arts in the United States.

ARH 3676 Caribbean Art: Myth and Reality (3). A survey of the contemporary art of the Caribbean with a brief introduction to its early history and a discussion of its complex social structures from country to country.

ARH 3714 History of Photography of Architecture (3). The history of photography from 1839 to now with strong emphasis on the photography of architecture.

ARH 3811 Seminar: Studies in the Methodology of Art History (3). To introduce art history majors to the variety of methods scholars have adopted and developed for conveying their perspectives on art history, including aesthetics and art theory. Prerequisites: ARH 2050 and ARH 2051.

ARH 3873C Women in Latin American Art (3). Introduces women in Latin American art from its Pre-Columbian beginnings through the twentieth century. Emphasis will be on painting and sculpture of the twentieth century.

ARH 3930 Special Topics in Art History (3). Rotating special topics in art history. May be repeated with change of content. Prerequisites: ARH 2050 and ARH 2051 or permission of the instructor.

ARH 4014 History of Decorative Arts (3). A survey of the more important and influential periods in history in the production of ceramics, fabrics, glass, jewelry and silversmithing.

ARH 4131 Greek Art (3). The art of Greece from the Bronze Age through the Classical Period.

ARH 4151 Roman Art (3). The art of Ancient Rome from the early Iron Age through the late Roman Empire.

ARH 4254 Late Gothic Art in Italy (3). Examines major monuments and artists of late medieval Italy. Artists considered include Giotto, Duccio, Masaccio, Ghiberti, Brunelleschi, Donatello, Fra Angelico, Uccello, and Botticelli.

ARH 4312 Later Italian Renaissance (3). A study of the late 15th and 16th century Italian art, with emphasis on the High Renaissance and Mannerism. Artists to be considered include Leonardo da Vinci, Michelangelo, Raphael, Andrea del Sarto, Giorgione, Titian, Pontormo, and Parmigianino.

ARH 4413 Enlightenment and Romanticism (3). Examines the art of the European Enlightenment and Romantic movement from 1700 to 1848. Artists to be considered include Watteau, Greuze, David, Goya, Blake, Ingres, Gericault, Delacroix, and Friedrich. Prerequisites: ARH 2051 or permission of the instructor.

ARH 4414 19th Century Painting (3). A study of Neoclassicism, Romanticism, Realism, and Impressionism. Artists to be considered include David, Ingres, Gericault, Delacroix, Goya, Courbet, Manet, Degas, Monet, and Renoir.

ARH 4430 Art and Politics (3). An investigation into the interrelationship between art and political issues, with emphasis on the 19th and 20th centuries.

ARH 4433 Realism, Impressionism, and Post-Impressionism (3). Examines the widespread engagement with modern life in European art from 1848 to 1900. Artists considered include Courbet, Manet, Monet, Renoir, Degas, Seurat, Van Gogh, Gauguin, Cezanne, and Munch. Prerequisites: ARH 2051 or permission of the instructor.

ARH 4450 Modern Art (3). A survey of European and American art from 1890-1945. Prerequisites: ARH 2051 or permission of the instructor.

ARH 4470 Contemporary Art (3). A survey of art from 1945 to the present. Prerequisites: ARH 2051 or ARH 4450 or permission of the instructor.

ARH 4471 Post 1985 Art (3). Examines the changing roles of the arts within the current socio-political context of plurality, corporate sponsorship and mass communications.

ARH 4503 Art and Shamanism (3). An overview of shamanic art and performance since its origins to the present day. It includes a survey of shamanic practices in Siberia, Central Asia, and the Americas.

ARH 4504 Primitive Art (3). An introduction to the art of widely dissimilar groups from areas on the margin or beyond the cultural influences of Europe, the Near East, India, China, and Japan. Emphasis will be placed on African, Oceanic, and North American Indian Art.

ARH 4520 African Arts (3). A study of the visual arts in Africa from the ancient world to the present. It focuses on the historical transformation and regional variability in art forms and their meanings on the Continent.

ARH 4552 Art of China and Japan (3). An introduction to the art of China to the Ming Dynasty and of Japan through the 18th century. The emphasis will be on painting and sculpture, with some ceramics and architecture.

ARH 4600 North American Indian Art (3). A survey of native North American art history with emphasis on the post-contact period. The arts of the far North, Northwest Coast, Southwest, Plains and the Eastern Woodlands.

ARH 4610 American Art (3). A survey of American painting from the Colonial period to the eve of World War I. Artists to be studied include Copley, West, Cole, Whistler, Sargent, Homer, Henri, and Bellows.

ARH 4650 Pre-Columbian Art (3). A survey of Pre-Columbian Art from approximately 2000 BCE to 1500 CE of Mesoamerica, Intermediate area from Honduras to Colombia and the Andes.

ARH 4652 Pre-Columbian Art of the Andes (3). A survey of Andean Pre-Columbian art and architecture. Basic characteristics of technique, style and iconography in relation to Andean socioeconomic and cultural patterns.

ARH 4653 Mesoamerican Art History (3). A survey of Meso-American Pre-Columbian art and architecture from the Mexican and Mayan territories, 1500 BCE to the Conquest.

ARH 4662 The Art of Spain and Her Colonies (3). Explores art of Spain from 1492 through early 19th century, the encounter between Spain and the Americas after the Conquest, and the art of the colonies.

ARH 4670 20th Century Latin American Art (3). The art of Central and South America and the Caribbean of the 20th century.

ARH 4672 A History of Cuban Art (3). A survey of the visual arts in Cuba (sculpture, painting, and prints) with emphasis on the 20th century.

ARH 4710 History of Photography (3). A chronological examination of the work of the world’s most significant photographers, from photography’s invention in the 1830’s to the present.

ARH 4713 History of Photography Since 1945 (3). An examination of the most significant photographic works, critical concepts, and new trends which have arisen since WWII. Prerequisite: ARH 4710.

ARH 4844 Spanish Art (3). Explores the art of Spain from 1492 through the early 20th century. Includes painting, sculpture and architecture.

ARH 4871 Women and Art (3). Women in the history of art; past, present and future.

ARH 4905 Directed Studies (1-6). A group of students, with the approval of the art faculty, may select a master teacher of theory, research or criticism in selected areas as film, painting, sculpture, architecture, crafts, art history, multi-media art, etc. Arrangements must be made at least a semester before course is offered. May be repeated.

ARH 4910 Research (1-6). Art history, criticism, and theory in areas not covered by the present program and that the student wishes to study. Prerequisite: Permission of the instructor. May be repeated.

ARH 4941 Internship (1-6). Students will work under supervision of the Art department. Permission number is required before registering, 60 hours per semester minimum.

ARH 4970 Art History Thesis (3). Required for art history majors. Students will research a topic and prepare a serious quality paper. Prerequisite: ARH 3811.

ARH 5325 Graduate Art in Renaissance Florence (3). For study in Florence. Course examines art of Renaissance from its beginnings in Florence with on-site classes. Prerequisite: Graduate standing.

ARH 5362 Baroque Art (3). Baroque art and architecture of the 17th and 18th centuries in Europe. Slide lectures and discussions, advanced research required.

ARH 5440 Graduate Nineteenth Century Art (3). An advanced survey of 19th-century art in its social, political, and historical context. Includes French, English, Spanish artists. Prerequisite: Graduate standing.

ARH 5465 Modern Art (3). Offers a history of modern art from ca 1880 to 1940. It concentrates on the study of European and American avant-garde visual art movements with emphasis on their art in modern society. For graduate students.

ARH 5482 Graduate Contemporary Art (3). Course examines the visual arts in Europe and the U.S. from the 1960’s to the present with focus on major art movements, artists, and artwork. Prerequisite: Graduate standing.

ARH 5663 Graduate Art of Spain and Her Colonies (3). Course explores art of Spain from 1492 through early 19th century, the encounter between Spain and the Americas after the Conquest, and the art of the colonies. For graduate students.

ARH 5671 Seminar in 20th Century Latin American Art (3). This course will examine the art of the 20th century, in a seminar focusing on painting and sculpture in Europe and America from the end of the 19th century to the present day. For graduate students.

ARH 5675 Graduate History of Cuban Art (3). A study of visual arts of Cuba in the 20th century, within historical, social, and cultural context. Prerequisite: Graduate standing.

ARH 5677 Caribbean Art: Myth and Reality (3). A survey of the contemporary art of the Caribbean with a brief introduction to its early history and a discussion of its complex social structures from country to country.

ARH 5715 History of Photography (3). A chronological examination of the work of the world’s most significant photographers from photographic works and ideas from invention to the present. For graduate students.

ARH 5716 History of Photography Since 1945 (3). An examination of the most significant photographic works,
ARH 5717 History of Photography of Architecture (3). The history of photography from 1839 to now with strong emphasis on the photography of architecture.

ARH 5797 Museum Education (3). Course examines educational functions of a museum including interpretive principles and techniques, program design and community outreach.

ARH 5805 Critical Studies in the Visual Arts (3). Introduction to the methods and concerns of recent art history. Discussion of students' work in context of the contemporary art world. Prerequisites: ARH 4450 and ARH 4470. For graduate students.

ARH 5837 Exhibition Development (3). This course will examine the history, theory, and practical aspects of museum exhibitions, including exhibition planning, design, and interpretation.

ARH 5845 Graduate Spanish Art (3). Explores the art of Spain from 1492 through the early 20th century. Painting, sculpture and architecture covered in slide lectures.

ARH 5850 Introduction to Museum Studies: History and Philosophy of Museums (3). Introduces the wide range of topics and issues associated with different types of American museums. Museums are examined as cultural, political, and educational institutions. Prerequisite: Graduate standing.

ARH 5851 Museum Ethics, Policies and Procedures (3). The legal, ethical status of museums and the obligation to the public regarding their governance, policy making and financial planning. Includes theoretical and practical discussions with attention to museums. Prerequisites: Graduate standing or permission of the instructor.

ARH 5852 Museum Registration Methods (3). A course in museum registration is designed to provide museum studies students with competency in all areas of object care, registration and information management. Prerequisites: Graduate standing or permission of the instructor.

ARH 5853 Visual Arts Marketing (3). Students seeking an advanced degree in studio art will be able to appraise and present a portfolio to an appropriate organization. Prerequisite: Graduate standing.

ARH 5855 Curatorial Methods and Practices (3). This course examines museum history and theory; exhibit planning, design, and interpretation. Emphasis on contemporary art practices with room for the discussion of other disciplines.

ARH 5872 History of Women Artists (3). Surveys the history of women artists with some discussion of the history of images of women. For graduate students.

ARH 5874C Women in Latin American Art (3). Introduces women in Latin American art from its Pre-Columbian beginnings through the twentieth century. Emphasis will be on painting and sculpture of the twentieth century.

ARH 5896 Seminar in the History and Criticism of Art (3). Examines particular periods or subject areas in the history of art. Course content varies from semester to semester, and with a change in theme, the course may be repeated. Prerequisites: Graduate standing or permission of the instructor.

ARH 5897 Special Topics in Art History (3). Rotating special topics on the graduate level in art history. May be repeated with change of topic. Prerequisites: ARH 4450 and ARH 4470. For graduate students.

ARH 5907 Directed Studies (1-6). A group of students, with the approval of the art faculty may select a master teacher of theory, research or criticism in selected areas of film, painting, sculpture, architecture, crafts, art history, multi-media art, etc. Arrangements must be made at least a semester before course is offered. May be repeated. For graduate students.

ARH 5913 Research (1-6). Art history, criticism, and theory in areas not covered by the present that the student wishes to study. Prerequisite: Permission of the instructor. May be repeated. For graduate students.

ARH 5940 Internship Experience (3). Supervised work experience in approved institution. Prerequisite: Permission of the instructor. May be repeated.

ART 1201C 2D Design (3). Studio course introducing the basic art elements such as line, value, and color to develop the students vocabulary and awareness of two dimensional potential in various media.

ART 1203C 3D Design (3). Studio course introducing the basic elements inherent in three-dimensional works of art. Shape, mass, balance, proportion, and scale are elements which will be explored.

ART 2300C Beginning Drawing (3). An introduction to the fundamentals of drawing. The course equips the student with a variety of basic skills, approaches and concepts explored through a comprehensive range of media.

ART 2301C Drawing II (3). The course is designed for the student who has acquired basic drawing skills. It strengthens technical and conceptual skills while introducing more experimental approaches. Modes of personal expression are also developed. Prerequisite: ART 2300C.

ART 2330C Beginning Figure Drawing (3). Drawing from model. Student will study gesture, movement, form, volume, light, and other varied media.

ART 2400C Beginning Printmaking (3). Introduces the student to a number of processes. Explores primarily one of the following: etching, lithography or screen printing with excursions into relief collograph, monotype and color as appropriate.

ART 2401C Printmaking II (3). With a knowledge of basic intaglio and relief printing, the student will explore specific media such as etching, lithography, silk-screen and other experimental techniques.

ART 2500C Beginning Painting (3). Introduction to development of expression, through individual
understanding of tools, materials, technique, perception and vocabulary of painting.

ART 2701C Beginning Sculpture (3). Beginning sculpture students will be given assigned problems structured to study the forms in nature and the work of other sculptors.

ART 2705C Beginning Figure Sculpture (3). Introduction to figure sculpture. Basic studio course involving the study and rendering of the human figure using clay as the primary medium.

ART 2750C Beginning Ceramics (3). A beginning course for art and non-art majors that introduces the fundamentals of throwing and glaze applications.

ART 3115C Low Temperature Ceramics (3). An in-depth study of low-temperature clays and glazes, and exploration of a variety of glazing and firing techniques, including lustres, residual salt, raku, white and red earthenware, etc.

ART 3158C Small Scale Metal Fabrication and Castings (3). Introduction to the technical and conceptual understanding needed to cast and fabricate soft metals.

ART 3331C Figure Drawing II (3). Exploration of the live human figure as it determines our understanding of subject, theme, composition and meaning. Prerequisite: ART 2330C.

ART 3332C Figure Drawing III (3). Further exploration of the live human figure as it determines our understanding of subject, theme, composition and meaning. Prerequisite: ART 3331C.

ART 3402C Intermediate Printmaking (3). Exploration and expansion of experimental print processes as they relate to student's own imagery and acquired skills. Greater independence and personal direction.

ART 3504C Painting II (3). Intermediate painting requiring refinement of technique and personal expression. Frequent critiques of student work. Prerequisite: ART 2500C.

ART 3521C Painting III (3). Intermediate painting requiring further refinement of technical skill and personal expression. Frequent critiques of student work. Prerequisite: ART 3504C.

ART 3565C Fiber Based Painting (3). Introduces the technology of creating imagery on and with the use of clothing, thread, printmaking, ink, and photography.

ART 3593C Collage/Assemblage (3). Addresses content development issues as well as formal design and technical problems concerning collage and assemblages.

ART 3630C Introduction to Experimental Video Art (3). Introduction to basic practices of video media with emphasis on making video/audio work.

ART 3637C Digital Media Foundation (3). A dynamic, inter-disciplinary approach to the creation of video art and interactive media work.

ART 3638C Video Installation (3). Explores concepts, history, and methods for production of video artworks.

ART 3681C Introduction to Time Art (3). An introduction to the theory and practice of time based media.

ART 3682C Intermediate New Media (3). Development of new media and electronic art skills for intermediate students with experience in digital media. Prerequisite: ART 3681C.

ART 3702C Sculpture II (3). Intermediate sculpture is structured for the student who has acquired basic skills and is ready to test their creative abilities through individualized projects. Prerequisite: ART 2701C.

ART 3710C Sculpture III (3). This class is an extension of ART 3703. Students are expected to continue to develop and explore new ideas. Prerequisite: ART 3702C.

ART 3713C Figure Sculpture II (3). A basic sculpture class emphasizing anatomical study with 2 and 3 dimensional rendering in clay, training the student to observe and accurately model the human figure. Prerequisites: ART 2705C or permission of the instructor.

ART 3761C Ceramics II (3). Intermediate ceramics is designed for the student who has acquired the fundamental skills taught in basic ceramics. Projects are designed to advance technical skills and aesthetic growth. Prerequisite: ART 2750C.

ART 3763C Figure Sculpture III (3). Intermediate figure sculpture where students refine their two- and three dimensional renderings of the human figure. Prerequisites: ART 2701C or ART 3713C or the permission of the instructor.

ART 3782C Ceramics III (3). Concentrates on the development of technical skills in relationship to personal vision, with a view towards a consistent body of work. Prerequisite: ART 3761C.

ART 3789C World Ceramics (3). An introduction to clay through studio practice combined with the study of technical and aesthetic developments in ceramics with selected cultures and historical periods throughout the world.

ART 3809 Performance Art (3). A workshop on the theory and practice of performance art for the fine arts student. Focus on intersections with other visual arts media and social contexts. Not a course in dance, music or theater.

ART 3821 Visual Thinking I (3). A beginning studio based course with a strong theoretical component where concepts are examined through a variety of approaches and media. For visual arts majors only.

ART 3822 Visual Thinking II (3). An advanced studio based course with a strong theoretical component where concepts are examined through a variety of approaches and media. Prerequisite: ART 3821.

ART 3830C Color Theory (3). This course is designed to familiarize the student with the theory and principles of color as it relates to the arts. Lecture, demonstration, and application through assigned projects will be included.

ART 3837C Materials and Techniques (3). Instruction in the craft of painting. Demonstration and exercise in the
following will be included: color, pigments, ground, all major media, studio and equipment.

**ART 3843 Land Art/Earth Art and Coastal Environment** (3). Explores the history and practice of Land Art. Artistic practice entails collaborative projects that utilize multidisciplinary approaches to address environmental issues and the public role of art.

**ART 3850 FIU in New York** (3). A study of New York’s art world and contemporary artists in New York City.

**ART 3930 Special Topics in Studio Art** (3). Rotating special topics in studio art. May be repeated with change of content.

**ART 3949C Cooperative Education in Visual Arts** (3). A student majoring in visual arts may spend several semesters fully employed in industry in a capacity relating to the major. Prerequisite: Permission of the chairperson.

**ART 4114C Ceramics** (3). The advanced student will explore all aspects of expression in clay and glaze. Students will be expected to be mostly self-directed. Prerequisites: ART 3782C or permission of the instructor. May be repeated.

**ART 4153C Jewelry and Metalwork IV** (3). Advanced level work: enamel, raising, shell forming, granulation, niello, mokume, keumboo, reticulation, stone setting.

**ART 4154C Jewelry and Metalwork V** (3). Advanced level work and advanced techniques: enamel, raising, shell forming, fold forming, granulation, niello, mokume, keumboo, reticulation, and stone setting. Prerequisite: ART 4153C.

**ART 4156C Jewelry and Metalwork VI** (3). Pre-thesis, indepth study in some area related to metal smithing. Projects may include work for a commission, exhibition or developing new techniques/design concepts. Participation in BFA show. Prerequisite: ART 3152C.

**ART 4312C Drawing III** (3). Students at this level should have a proficient level of practice and conceptual skills. These skills are consolidated and further developed. There is a strong emphasis on self-directed study. Prerequisite: ART 2301C.

**ART 4313C Drawing IV** (3). Students are expected to possess an accomplished level of skill and a strong personal direction in order to focus on the development of a consistent body of personal work.

**ART 4314C Drawing V** (3). Advanced drawing toward coherent body of work. Prerequisite: ART 4313C.

**ART 4315C Drawing VI** (3). Drawing has to be BFA exhibition quality. Individual is engaged in a mature cohesive body of work. Prerequisite: ART 4314C.

**ART 4333C Figure Drawing IV** (3). Students are expected to possess a developed level of skill in drawing the figure and a strong personal direction. Prerequisite: ART 3332C.

**ART 4334C Figure Drawing V** (3). Consolidation of the focus direction established in ART 4333C. Advanced drawing further developing technical and conceptual skills. Prerequisite: ART 4333C.

**ART 4335C Figure Drawing VI** (3). Work produced at the pre-BFA exhibition level. A strong cohesive body of figure drawings executed with a clear personal vision. Prerequisite: ART 4334C.

**ART 4403C Printmaking IV** (3). Instructional emphasis will be toward individual solutions. Student expected to independently research technical problems. Prerequisite: ART 3402C.

**ART 4404C Printmaking V** (3). Student must be showing independence in initiating and executing projects. Self motivation, energy and purpose should be the focus. Prerequisite: ART 4403C.

**ART 4405C Printmaking VI** (3). Advanced student will produce BFA exhibition work. Prerequisite: ART 4404C.

**ART 4505C Painting IV** (3). Advanced painting with expectation of highly skilled technique and carefully evolved concerns that might continue into subsequent semesters. Prerequisite: ART 3521C.

**ART 4506C Painting V** (3). Advanced painting toward coherent body of work. Prerequisite: ART 4505C.

**ART 4524C Painting VI** (3). Advanced painting. BFA exhibition quality body of work expected at this level.

**ART 4532C Painting** (3). An advanced course concentrating on conceptual clarity and the realization of stylistic development. Group, individual criticism will be emphasized. May be repeated. Prerequisites: ART 2500C or equivalent. Suggested prerequisites: ART 4505C and ART 4506C.

**ART 4566C Fiber Based Painting II** (3). Covers fiber based techniques as applied to the context of contemporary art practices. Prerequisite: ART 3565C.

**ART 4618 Electronic Art** (3). An introduction to electronic media for art students. Computer and video as tools for the art making process. Not a course in programming or commercial computer graphics.

**ART 4636C Advanced Experimental Video Art** (3). Advanced aesthetic, conceptual, and technical aspects of visual electronic media. Prerequisite: ART 3630C.

**ART 4637 Independent Film Since 1960** (3). Examination of the structural and ideological attributes of narrative and documentary cinema, concentrating on alternatives to the studio system model. Viewing of selective history of independent film, and readings and discussions of theoretical texts.

**ART 4714C Figure Sculpture IV** (3). Advanced figure sculpture. Students develop skills in representational structure and anatomy from model and model-making techniques. Prerequisites: ART 3713C and ART 3763C or permission of the instructor.

**ART 4715C Figure Sculpture V** (3). Advanced figure sculpture continued. Student refines skills in representational structure and anatomy from model and mold-making techniques. Prerequisites: ART 3763C and ART 4714C or the permission of the instructor.

**ART 4716C Figure Sculpture VI** (3). Pre-thesis sculpture where students have refined their work to produce B.F.A. exhibition body of work. Prerequisite: ART 4715C.
ART 4732C Sculpture IV (3). First of a series of advanced classes which represent the beginning of a serious aesthetic commitment leading to a BFA degree. Prerequisite: ART 3710C.

ART 4734C Figure Sculpture (3). To develop skills in representational structure and anatomy from the model and learn mold-making techniques. May be repeated.

ART 4738C Methods and Materials of Mold Making and Casting (3). Methods and materials of mold making and casting is a studio course designed to provide instruction and "hands-on" experience in the use of a wide range of art mold making and casting materials.

ART 4741C Sculpture V (3). This class is an extension of ART 4705 and should be used to further advance previous efforts with the intention of producing major finished works. Prerequisite: ART 4732C.

ART 4742C Sculpture VI (3). The goal of this class is to bring fully developed ideas to a finished state in preparation for BFA thesis exhibition. Prerequisite: ART 4741C.

ART 4766C Ceramics IV (3). Focuses on the development of a well produced, accomplished body of work that reflects the individual's ideas. Prerequisite: ART 3782C.

ART 4783C Ceramics V (3). Concentrates on a single ongoing project personally defined by the student and explored within the larger context of art history and contemporary society. Prerequisite: ART 4766C.

ART 4785C Ceramics VI (3). Concentrates on further refinement of technical skills, development of a consistent and cohesive body of work and a clear articulation of artistic conception. Prerequisite: ART 4783C.

ART 4842C Installation Art (3). This special topics course explores the genre of installation and site-specific art through history and in terms of its ongoing influence on contemporary visual culture.

ART 4906C Directed Study (VAR). A group of students, with the approval of the art faculty, may select a master artist teacher and pursue a course of art study in selected areas such as graphic design, film, multimedia, environmental design, sound, etc. Arrangements must be made at least one semester before course is offered. Maybe repeated.

ART 4910C Research (1-6). Students may study or research an individual art project with an art faculty member. Complexity and amount of work will determine the number of credit hours granted. May be repeated.

ART 4945 Art Gallery and Display (1-3). The study and participation of all aspects of gallery operations, from daily operation to special exhibitions and events. Permission of the Gallery Director.

ART 4949C Cooperative Education in Visual Arts (3). See ART 3949C.

ART 4952C Thesis I (3). The course will expose students to fundamental issues and ideas current in the field of art. An inquiry into the structure of art and its relationship to society, knowledge, and the self. Prerequisites: 15-18 hours of studio major and permission of the instructor (portfolio review).

ART 4953C Thesis II (3). Studio work in student's major area with major professor, resulting in a student exhibit. Arrangements with major professor one semester before graduation. Written thesis required. Prerequisites: Fall and Spring only and ART 4952C.

ART 5135C Graduate Fibers (3). Graduate level studio course, explores issues of the fiber medium and its context in contemporary art practice. Prerequisite: Fiber Based Painting ART 5565C.

ART 5159C Jewelry and Metals (3). Advanced jewelry & metalwork. May be repeated. Prerequisites: Permission of the instructor or ART 4156C. For graduate students.

ART 5390C Drawing (3). Advanced drawing. May be repeated. Prerequisites: ART 4315C, or equivalent, or permission of the instructor. For graduate students.

ART 5391C Figure Drawing (3). Advanced figure drawing. May be repeated. Prerequisites: ART 4333C, or equivalent, or permission of the instructor. For graduate students.

ART 5408C Printmaking (3). Advanced printmaking. May be repeated. Prerequisites: ART 4404C, or equivalent or permission of the instructor. For graduate students.

ART 5580C Painting (3). Advanced painting. May be repeated. Prerequisites: ART 4524C or equivalent, or permission of the instructor. For graduate students.

ART 5685C Advanced Time Art (3). Advanced course to refine students' skills in electronic and digital media production. Students are required to produce a multidisciplinary project. Prerequisite: ART 3681C. For graduate students. May be repeated.

ART 5740C Sculpture (3). Advanced sculpture. May be repeated. Prerequisites: ART 4741C or equivalent, or permission of the instructor. For graduate students.

ART 5790C Ceramics (3). The graduate student will explore all aspects of expression in clay and glaze. Students will be expected to be mostly self-directed. Prerequisites: ART 4785C, or permission of the instructor. May be repeated. For graduate students.

ART 5792C Figure Sculpture (3). Advanced figure sculpture. May be repeated. Prerequisites: ART 4716C or permission of the instructor. For graduate students.

ART 5815C Graduate Seminar: Body and Art (3). Focuses on the relationship between the body, materials and space as used in art and exhibitions and examines the social conventions that order our understanding of these issues. Prerequisite: Graduate standing.

ART 5844C Installation Art (3). Explores the genre of installation art and site-specific art through history and provides a context for collaboration with the Wolfsonian Museum as both site and subject for art specific installation by students. Prerequisite: Permission of the instructor.

ART 5855 Graduate FIU in New York (3). A study of New York's art world and contemporary artists in New York City.
ART 5907C Directed Study (VAR). A course of study in a selected area under the supervision of an appropriate faculty member. Mandatory for MFA students in semester of graduation. Advanced approval by faculty and graduate advisory required (3cr). May be repeated.

ART 5910C Research (1-6). Graduate students may study or research an individual art project with an art faculty member. Complexity and amount of work will determine the number of credit hours granted. May be repeated.

ART 5930C Special Topics in Studio Art (3). Rotating special topics in studio arts. May be repeated with change of content. For graduate students.

ART 5938C Studio Art Pedagogy (1). Instruction in the principles and methods of teaching in the area of visual arts; specifically the application of these principles to the studio situation. Required for MFA students. Prerequisite: Graduate standing.

ART 5939C Graduate Art Seminar I (3). Graduate students will locate and discuss their own work within the context of the contemporary art world. Also, issues and practical concerns for the professional artist will be addressed, such as dealing with galleries, grant writing and business procedures. Required for MFA students. Prerequisite: Graduate standing.

IDS 3336 Artistic Expression in a Global Society – GL (3). Exploration of the interrelatedness of societies and culture through language, music and art are explored to appreciate how individuals convey thought and respond to events from various perspectives.

PGY 2110C Color Photography I (3). An introduction to color materials and processing. Frequent critiques of students’ work. Prerequisites: PGY 4412C or permission of the instructor.

PGY 2401C Photography I (3). Introduction to the practice of still photography. Includes dark room work and camera skills. Frequent critiques of student work.

PGY 2800C Beginning Digital Photography (3). Introduction to the practice of documentary digital photography. Includes basic digital camera skills, imaging software, ink jet printing and critiques.

PGY 3153C Color Photography II (3). Intermediate color photography requiring refinement of technique and personal vision. Frequent critiques. Prerequisite: PGY 2110C.

PGY 3410C Photography II (3). Intermediate photography requiring refinement of technical skills and personal vision. Frequent critiques. Prerequisite: PGY 2401C.

PGY 3411C Photography III (3). Continuing development of skills and personal portfolio projects. Frequent critiques. Prerequisite: PGY 3410C.

PGY 3822C Intermediate Digital Photography (3). Intermediate documentary digital photography, requiring refinement of technical skills and personal vision. Includes image enhancement, scanning, ink jet printing and critiques. Prerequisites: PGY 2800C or PGY 3410C or permission of the instructor.

PGY 4154C Color Photography III (3). Advanced color photography with an expectation of highly skilled technical and carefully evolved concerns that may continue in subsequent semesters. Prerequisite: PGY 3153C.

PGY 4155C Color Photography IV (3). Advanced color photography with portfolio and exhibition project for BFA exhibition. Prerequisite: PGY 4154C.

PGY 4412C Photography IV (3). Advanced photography with the expectation of highly skilled technique and a carefully evolved project that might continue into subsequent semesters. Prerequisite: PGY 3411C.

PGY 4413C Photography V Advanced (3). Advanced photography for project and portfolio continuation suitable for BFA exhibition. Prerequisite: PGY 4412C.

PGY 4440C Collaboration in Photography (3). An advanced photography course for majors and accomplished non-majors. Includes introduction to collaborative genres, slide/lectures, demonstrations, fieldwork and intensive critique of student’s work. Prerequisites: PGY 3410C and PGY 4412C.

PGY 4823C Advanced Digital Photography I (3). Advanced documentary digital photography with an expectation of highly skilled technical ability, evolved personal vision and aesthetic direction. Includes individual and group critiques. Prerequisites: PGY 3822C or permission of the instructor.

PGY 5425C Photography (3). Advanced photography. May be repeated. Prerequisites: PGY 4155C, or equivalent, or permission of the instructor. For graduate students.

PGY 5530C Color Photography (3). Advanced color photography. Prerequisites: PGY 4154C or permission of the instructor. For graduate students.

PGY 5649C Advanced Digital Photography II (3). Advanced documentary digital photography, requiring highly evolved technical skill and aesthetic direction. May be repeated. For graduate students who have completed prerequisites. Prerequisites: PGY 4823C or permission of the instructor.
Communication Arts

Joann Brown, Senior Instructor and Chair
Ellen Karsh, Instructor
Maria Ines Marino, Instructor
Kathleen Watson, Instructor

Adjunct Faculty
Alisa Karten
Steve Luscher
Lilliam Poms
Brian Siress

The Communication Arts Department is a center of excellence in teaching and service. The department currently serves over 1500 undergraduate students each semester in a variety of service course offerings in the areas of public speaking, business communication, intercultural communication, voice and diction, gender communication, and interpersonal communication. In addition to our diverse course offerings, the nationally recognized FIU Debate Team and FIU's Oral Presentation Lab are both housed within the department.

The department's instructional mission is to provide all students a high quality educational experience through innovative teaching that promotes active learning, course work that addresses the needs, interests and backgrounds of our diverse student population, and extra-curricular activities that enable students to develop communication skills in applied settings. Students enrolled in our courses can expect to develop skills essential for leadership, career development, and for understanding and interpreting events. They will learn how to advocate and critically debate ideas in social and political settings, to appreciate diverse communication styles, to work productively in task oriented groups, and to engage in rewarding interpersonal relationships.

Minor in Communication Studies

The Communication Studies minor addresses the ways in which people communicate in relationships and in public discourse. Through theory and application, the minor includes the study of the ways in which such processes relate to cultural, gender and racial issues. The degree consists of 15 credits. At least 12 credits must be completed at Florida International University. A grade of ‘C’ or higher is required in all courses in the minor.

Required courses for minor (15 credits)

Course Descriptions

Definition of Prefixes

COM-Communication; IDS-Interdisciplinary Studies; ORI-Oral Interpretation; SPC-Speech Communication

COM 2460 Introduction to Intercultural Communication (3). This course is an introduction to intercultural communication. It provides an overview to the unique relationship between communication and culture.

COM 3110 Business and Professional Communication (3). Identification of communication situations specific to business and the professions. Analysis of variables related to communication objectives and preparation of oral presentations and business correspondence.

COM 3120 Organizational Communication (3). Explores the role of communication in organizations, as well as the role of technology, corporate culture, leadership, teamwork, ethics, and diversity in effective communication among organizations.

COM 3135 Managerial Communication (3). Students examine effective communication in hiring and promoting, in conflict, in community interaction and in the internal communication of an organization.

COM 3150 Advanced Communication for Business (3). Advanced communication course that emphasizes the identification of communication situations specific to business and the professions. Analysis of variables related to advanced business communication. Prerequisite: Full admittance in the College of Business.

COM 3404 Nonverbal Communication (3). Study of nonlinguistic and paralinguistic aspects of communication, including personal space, body language, eye contact, touch, and paralanguage.

COM 3410 Cultural Communication Patterns of Asia (3). Increases cultural awareness by contrasting and comparing communication patterns between Asian and Western cultures.

COM 3461 Intercultural/Interracial Communication (3). Students develop the skills to build and maintain relationships across cultures by focusing on similarities and differences in communication behaviors, perceptions, language usage and social practices.

COM 4022 Healthcare Communication (3). This course will review health communication through an examination of theoretical frameworks, communication techniques, and technologies that promote the health of individuals and communities.

COM 4124 Organizational Change (3). This course introduces students to different concepts of organizational change management and provides strategies for mitigating organizational risks for any initiative.

COM 4310 Research Methods in Communication Arts (3). This course will introduce students to a range of social sciences and communication studies research methods (qualitative and quantitative).

COM 4417 Communication in Film (3). This course will examine the unique relationship between communication...
and film from the 1920s (the era of silent film) through today.

COM 4430 International Business Communication (3). This course will provide students with the theoretical and experiential framework for examining the meaning of communication in global business.

COM 4462 Conflict Management (3). Students will analyze conflict management concepts, principles, strategies and techniques, and examine the communication skills needed for productive conflict management or resolution.

COM 4620 Communication on Ethics (3). Students will examine conceptual perspectives for understanding and evaluating communication ethics in interpersonal relationships, small groups, organizations, and intercultural contexts.

COM 4510 Political Communication (3). This course examines the effect of both (free) political news and (paid) political advertising on politics in America.

COM 4900 Directed Independent Studies in Communication Arts (1-3). Specialized intensive study in a specific area of special interest to the student. Prerequisites: Permission of the instructor and the Department Chair.

COM 4930 Special Topics in Communication Arts (3). Intensive study for a small group of students in a particular topic, or limited number of topics not otherwise offered in the curriculum.

COM 4940 Internship in Communication Arts (1-6). On-the-job learning experiences at approved organizations allows interns to assist and observe all job functions and duties related to various aspects of communication within their respective industry.

COM 5108 Managerial Communication (3). A study of the communication competencies required for successful organizational leadership, including presentations, business writing, meeting management, and utilization of communication technologies.

COM 5415 Intercultural Communication (3). This course examines the role culture plays in communication by examining differences and similarities in communication behaviors between and among diverse cultures.

IDS 3336 Artistic Expression in a Global Society – GL (3). Exploration of the interrelatedness of societies and culture through language, music and art are explored to appreciate how individuals convey thought and respond to events from various perspectives.

ORI 3003 Intermediate Oral Interpretation (3). A continuation of the basic techniques of oral interpretation with emphasis on program development. Programs will include poetry, prose, and drama. Prerequisite: ORI 3000.

ORI 3005 Basic Oral Interpretation (3). Development of the voice as an instrument for expressive interpretation of literature.

SPC 2050 Voice and Diction (3). Effective voice production, articulation, acceptable pronunciation, accent reduction, intonation, rhythm and phrasing.

SPC 2065 Communication for Business (3). A communication course that emphasizes oral communication skills necessary for the business and professional communities. Concentration on interviewing, public speaking, problem-solving, and leadership skills.

SPC 2300 Fundamentals of Interpersonal Communication (3). Through an awareness of one’s self-concept students explore the role communication plays in maintaining healthy relationships in areas such as: romantic relationships, friendships, families.

SPC 2608 Public Speaking (3). Study of the principles of ethical and effective public speaking, with practice in the construction and delivery of original speeches before an audience.

SPC 3210 Communication Theory (3). Comprehensive introduction to the study of human communication processes including verbal and nonverbal modalities. Key historical and contemporary definitions and concepts in communication theory are reviewed.

SPC 3230 Rhetorical Communication: A Theory of Civil Discourse (3). Students will examine the way people build a persuasive argument through analysis of the history of rhetoric from Aristotle, Quintilian, and Gorgias, as it applied to various disciplines.

SPC 3301 Interpersonal Communication (3). Through an awareness of self-concept students explore the role communication plays in maintaining healthy relationships in areas such as: romantic relationships, friendships, families and colleagues.

SPC 3425 Small Group Communication (3). The study of group development, group roles, decision-making, leadership, power, and conflict management.

SPC 3540 Persuasion (3). A study of attitude formation and change are explored to identify how individuals process and act on information. Social influence theories/techniques and their ethical implications are examined.

SPC 3513 Argumentation and Debate (3). Lectures and activities concerned with audience-centered reasoning. Topics include: Nature of argument, analysis, reasoning, evidence, values, and building and refuting arguments. Prerequisites: SPC 2608 or permission of the instructor.

SPC 3514 Argumentation and Debate II (3). Study of all styles of formal and informal debate. Emphasis on construction and use of the brief, debate strategy and delivery. Prerequisites: SPC 2608, SPC 3513 and permission of the instructor.

SPC 3602 Advanced Public Speaking (3). Examines public speaking as a workplace activity and provides students with practical experience. Emphasis is placed on incorporating technology into the different types of speeches. Prerequisites: SPC 2608 or permission of the instructor.

SPC 3711 Gender and Communication (3). Using text and films, this course examines the different styles of verbal and non-verbal communication of men and women in various settings.
DAA 1100 Modern Dance Techniques I (3). Emphasis on oral communication and leadership skills that are essential for the business community.

Minor in Dance 15 credits

The Minor in Dance is designed to meet the needs of liberal arts students who wish to pursue dance for the purpose of increasing creative development, artistic awareness, and intercultural understanding.

Requirements for Minor

Six credits in dance technique courses
- DAA 1100 Modern Dance Technique I 3
- DAA 1341 African Diaspora Dance I 3

Six credits in dance theory courses
- DAN 2100 Introduction to Dance 3
- DAN 2140 Dance in Modern American Culture: 1895-Present 3

One three credit course in communication
- COM 3461 Intercultural Communication 3

Course Descriptions

Definition of Prefixes
DAA-Dance Activities; DAE-Dance Education; DAN-Dance Theory

DAA 1100 Modern Dance Techniques I (3).
Development of techniques and understanding of the art of contemporary dance includes theoretical component of studies in dance science or history. May be repeated.

DAA 1200 Ballet Techniques I (3).
Development of techniques and understanding of ballet, includes theoretical component of studies in dance science or history. May be repeated.

DAA 1341 African Diaspora Dance I (3).
An introductory course in African and African diaspora dance techniques. Includes readings and discussions of historical and cultural contexts of the dance. May be repeated.

DAA 1500 Jazz Dance Technique I (2).
Development of the dance techniques and understanding of jazz dance. May be repeated.

DAA 2104 Modern Dance Techniques II (3).
A continuation of techniques in modern dance with emphasis on increased complexity, musicality and readings in dance history. May be repeated. Prerequisites: DAA 1100 or permission of the instructor.

DAA 2204 Ballet Techniques II (3).
Continuation of Ballet Techniques I with increasing complexity in technical presentations. Emphasis on execution of movement, musicality and readings in ballet history. May be repeated. Prerequisites: DAA 1200 or permission of the instructor.

DAA 2333 African Diaspora Dance II (3).
A beginning/intermediate technique class in African and African diaspora influenced dance. Emphasis on increased complexity and musicality. Readings in African Dance and Culture. May be repeated. Prerequisite: Permission of the instructor.

DAA 2350 Spanish Dance I (3).
Explores the basics of theatre styles of Spanish dance. Readings and attendance at performance may be required. May be repeated.

DAA 2504 Jazz Dance Techniques II (2).
A continuation of Jazz I with emphasis on quickness and musicality when executing complex combinations of movements. May be repeated.

DAA 2520 Tap (2).
Designed for students interested in learning the skills and techniques of tap dancing. May be repeated.

DAA 2610 Dance Composition I (3).
Introduction course in dance composition. Improvisation, movement invention and basic choreographic forms are introduced and explored. Prerequisite: Permission of the instructor.

DAA 2611 Dance Composition II (3).
Choreographic devices are explored for movement invention and organized in choreographic forms. Solo and small group choreography emphasized. Prerequisites: DAA 2610 or permission of the instructor.

DAA 3094 Dance Studio (2).
An in-depth studio focus on specific dance genres to vary each semester. May be repeated.

DAA 3108 Modern Dance Techniques III (3).
A continuation of Modern Dance I and II with an emphasis on skills in movement style and phrasing necessary to perform modern dance repertoire. Prerequisites: DAA 2104 or permission of the instructor. May be repeated.

DAA 3208 Ballet III (3).
A continuation of Ballet I & II with an emphasis on developing strength & coordination in more complex movement. Additional work on phrasing, quality of movement, musicality and performance style. Prerequisites: DAA 2204 or permission of the instructor. May be repeated.

DAA 3224 Pointe Techniques (1-2).
Introduction of fundamentals for development of pointe techniques. May be repeated. Prerequisite: Permission of the instructor.

DAA 3340 African Diaspora Dance III (3).
An intermediate level technique class in African and African Diaspora influenced dance techniques. May be repeated. Prerequisites: DAA 2333 or permission of the instructor.

DAA 3345 Caribbean Dance (3).
Studio exploration of popular and traditional dance genres and rhythms of the Caribbean region. Includes discussions of historical and cultural context of the dances. May be repeated.

DAA 3346 Haitian Dance (3).
Explores through studio practice, discussion, and readings a variety of Haitian folkloric dance styles within their broader religious, historical, political, and cultural contexts. May be repeated.

DAA 3347 West African Dance (3).
A studio exploration of selected dance styles and rhythms attributed to the classical societies of Western Africa. Genres are discussed within broad cultural context. May be repeated.

DAA 3354 Spanish Dance II (3).
A continuation of Spanish Dance I stressing the development of musicality while working with rhythms associated with Spanish Dance. Readings and attendance at performances may be
required. May be repeated. Prerequisites: DAA 2350 or permission of the instructor.

DAA 3395 Cultural Dance Forms (3). An in-depth focus on specific cultural dance styles (Haitian, Afro-Cuban, etc.) to vary each semester. Studio course. May be repeated.

DAA 3508 Jazz Dance Techniques III (2). A continuation of jazz dance techniques and skills with increased emphasis on developing complex dance combinations and full routines. May be repeated.

DAA 3614 Dance Composition III (3). A further exploration of choreography for the group form. Students will be required to take a concept and complete a work for showing and critique. Prerequisites: DAA 2611 or permission of the instructor.

DAA 3654 Dance Repertory (1). The study and practice of works in repertory. May be repeated. Prerequisite: Permission of the instructor.

DAA 3655 Dance Repertory III (2). The continuation of study and practice of selected works of dance repertory. Prerequisite: Demonstration of competence is required. May be repeated.

DAA 3684 Dance Practicum (1). Dance studio explorations on varied topics. May include repertory, improvisations and technical experiences. Permission of the instructor. May be repeated.

DAA 4110 Modern Dance Techniques IV (3). Advanced modern dance techniques with the major focus on dance as an art form using the body as a medium of expression. Prerequisites: DAA 3108 or permission of the instructor. May be repeated.

DAA 4210 Ballet Techniques IV (3). Further development of strength and form with emphasis placed on perfecting the execution of the classical ballet techniques. Prerequisites: DAA 3208 or permission of the instructor. May be repeated.

DAA 4356 Spanish Dance III (3). A continuation of Spanish Dance II, stressing the development of musicality while working with rhythms associated with Spanish dance. Readings and attendance may be required. May be repeated. Prerequisite: DAA 3356.

DAA 4615 Dance Composition IV (3). Students work on extended choreographic projects with an eye toward developing material for their senior project. Prerequisites: DAA 3614 or permission of the instructor.

DAA 4656 Dance Repertory IV (2). The continuation of study and practice of selected works of dance repertory. Prerequisite: Demonstration of competence is required. May be repeated.

DAA 4905 Directed Study (3-12). Individual study by students under the direction of a faculty member. Topics vary; they are usually selected on an individual basis.

DAA 4930 Special Topics (3). Centers around topics of current interest to the field of dance. Topics vary from semester to semester.

DAA 5348 Advanced African Diaspora Dance (3). Advanced African Diaspora Dance is a studio class, which offers an extensive experience in all elements of Afro-Brazilian dance through the exploration of traditional and contemporary dance forms. Prerequisites: DAA 1341 or DAA 2333 or permission of the instructor.

DAA 3385 Building Community Through the Arts (3). Preparation for arts field experience in a variety of community settings. Students will gain an overall view of community-based art and curriculum design.

DAA 4302C Teaching Dance – Arts (3). Practical experience in creating and teaching arts based dance for specific age and developmental groups. Prerequisites: DAN 3714 or permission of the instructor.

DAN 1600 Music for Dance (3). Introductory course in relationships between dance and music. Musical forms, cultural influences and basic accompaniment practices will be covered. Prerequisite: Permission of the instructor.

DAN 2100 Introduction to Dance (3). An overview of dance from a variety of cultural and traditional perspectives. Through film, lecture, and movement, this course explores the diverse ways in which we organize and interpret our life experience as human beings through dance.

DAN 2140 Dance in Modern American Culture (3). Survey/lecture course that investigates dance as a cultural phenomenon in America; 1895-present.

DAN 2160 Entry Seminar (1). An introductory course for those considering majoring in dance: an exploration of curricular requirements; courses; aesthetics; and other relevant topics.

DAN 2500 Dance Production I (2). This course prepares dancers for all aspects of dance concert production including lighting, costuming, props, set designs, budget management, and publicity.

DAN 2580 Production Practicum I (1). Practical assignments in working on dance and theatre productions.

DAN 2602 Sound and Accompaniment for Dance (3). An introductory course for sound and accompaniment for dance. Students learn basic accompaniment techniques and how to develop and create original sound scores. Prerequisites: DAN 1600 or permission of the instructor.

DAN 3150 Contemporary Issues in Dance Aesthetics (3). Introduction to theoretical aspects of Dance as a form of art and discussion of contemporary dance, philosophy, and aesthetics. Prerequisite: Permission of the instructor.

DAN 3394 Dance and Culture of Latin America and the Caribbean (3). Team-taught interdisciplinary course offered as a summer institute focusing on Latin America and the Caribbean. Lecture, panels, and studio classes.

DAN 3504 Dance Production II (3). Continuation of theory and practice in elements of dance production.

DAN 3584 Production Practicum II (1). Practical experience in dance production.

DAN 3714 Dance Kinesiology (3). Concert dance is the referent model for studying and analyzing human movement. Anatomy, physiology and individual differences considered. Prerequisite: Permission of the instructor.
DAN 3724 Anatomy for Dance (3). An overview of the anatomy and physiology of the body explaining how certain anatomical structures and physiological processes interact to execute movement in a safe and effective manner.

DAN 3724L Anatomy for Dance Lab (1).

DAN 4125 Contemporary Issues in Choreography (3). Explores the complex historic and current social, political and cultural issues that contemporary choreographers reference in the creation of new works. Prerequisite: DAA 3614.

DAN 4136 Global Perspectives in Dance and Culture I: Theory (3). Cross-cultural, comparative survey of historic and contemporary world dance. Varied topics are explored within a broad cultural context. Team-taught, interdisciplinary methodology.

DAN 4137 Global Perspective in Dance and Culture II: Theory (3). Cross-cultural, comparative survey of historic and contemporary world dance. Exploration of varied historic and geographic regions of world culture.

DAN 4180 Senior Dance Seminar (2). Capstone course in which senior students articulate and plan senior thesis project. Prerequisites: DAN 4137 or permission of the instructor.

DAN 4396 Dance Ethnology (3). A special topics course which will study a specific dance culture from an historical, sociological and anthropological viewpoint. Topic will vary from semester to semester.

DAN 4905 Independent Study (3-12). Individual study by students under the direction of a faculty member. Topics vary; they are usually selected on an individual basis.

DAN 4910 Research (1-5). Supervised individual investigation of special research projects. Credit will vary with the nature and scope of the project. May be repeated.

DAN 4930 Special Topics (3-12). The course centers around topics of current interest or of special interest to students or instructors. Topics or focus may vary from semester to semester.

DAN 4940 Field Experience (3). Practical application in varied community settings utilizing knowledge's acquired in the dance major. Students design an outreach community-based project.

DAN 4970 Senior Thesis (1). Presentation of Senior Thesis project under the direction of faculty advisor. Prerequisite: DAN 4180.

DAN 5388 Dance Ethnology (3). A special topics course which will study a specific dance culture from an historical, sociological and anthropological viewpoint. Topic will vary from semester to semester.

DAN 5398 Latin American and Caribbean Dance and Culture (3). An intensive course offered through a Summer Institute focusing on Latin American and Caribbean dance and culture through seminars, performance techniques, and academic classes.

DAN 5399 Latin American and Caribbean Dance and Culture II (3). An intensive course focusing on Latin American and Caribbean dance and culture through seminars, performance technique, and academic classes.

DAN 5905 Independent Study (3-12). Individual study by students under the direction of a faculty member. Topics vary; they are usually selected on an individual basis.
Interior Design

Janine King, Associate Professor and Chair
Philip Abbott, Associate in Design
Katie Rothfield, Associate in Design
Sarah Sherman, Assistant Professor

Florida International University’s Department of Interior Design is situated within two very compelling conditions: the diverse international community within South Florida and the rich interdisciplinary environment in the College of Architecture and The Arts. This unique context inspires our interpretation of the interior design profession as an occupation that exercises many types of knowledge and operates within complex social, cultural, technological, and artistic settings.

FIU’s Department of Interior Design provides students with a value added education that consists of small student-to-faculty ratios, studio facilities where students have their own workspace, study abroad options, and computer and fabrication labs offering advanced technology. The Department of Interior Design is an ideal setting where students are actively involved in learning and exploring the current and future roles of the interior design profession within a global society. More particularly, this context challenges our students to critically investigate the diverse roles of interior design, and inspires us to explore new avenues of thought and attitudes toward why and how we make human environments.

The Accelerated Master of Interior Design (MID) program provides a seamless course of study leading from undergraduate freshman year to the conferral of the Professional Master of Interior Design degree. The Accelerated MID is comprised of 160 credit hours of integrated pre-graduate and graduate coursework. The degree consists of 73 credit hours of pre-graduate coursework taken over two years followed by 87 credits hours of graduate coursework. At the conclusion of 73 credit hours of pre-graduate study, students move directly to graduate study. A transition from undergraduate to graduate standing occurs during the fourth year after completion of 120 credits. Students must be in good standing with a minimum cumulative GPA of 3.0 or better. A Bachelor degree is not awarded at any point in the program.

Admission Requirements

Application Deadline: February 1

Undergraduate students may apply for admission into the first year or the third year of the program. The department admits students once a year to begin their course work in the Summer of the Fall semester; therefore, it is recommended that interested applicants meet with a member of the college’s Student Services and Advising Center during the Fall semester prior to the application deadline. Admission to the department is competitive and is not guaranteed. Admission will be offered based on space availability to those applicants judged by the Department Faculty Committee to have the greatest potential for successful completion of the program.

First Year Admission Requirements

Applicants must meet the University’s admission requirements and submit a design portfolio – please refer to the Design Portfolio Requirements section.

Third Year Transfer Student Admission Requirements

Applicants for third year admission must meet the University’s admission requirements and submit a design portfolio – please refer to the Design Portfolio Requirements section. Students who have completed an AA in interior design must meet the following requirements: minimum cumulative GPA of 3.0; successful completion of the CLAS requirement; completed design studio courses 1 through 4 with a grade of ‘C’ or better; and be judged by the Faculty Admissions Committee to have passed a competitive portfolio review. Only grades of ‘C’ or higher (2.0 on a 4.0 grading scale) are accepted for transfer of applicable prerequisite and core courses from other institutions. No grade below a ‘C’ will be accepted for graduation in required courses or required electives.

University policy only allows the transfer of 60 lower division credits. Additional upper-division transfer credits may be accepted. Thus, for most transfer students it will be necessary to take a certain number of undergraduate credits at FIU in order to achieve the minimum required to satisfy the degree requirements.

Third Year Native Student Admission Requirements

FIU undergraduate students who wish to change their major to Interior Design should check program requirements and be advised by the college’s undergraduate advisors well in advance of application for admission.

Design Portfolio Requirements

As part of each department’s admission review process, all students are required to submit a design portfolio demonstrating the candidate’s creative abilities as well as their level of design. The design portfolio is evaluated based on a candidate’s demonstrated sense of composition, attention to detail, graphic communication skills, expressive quality, and sense of space, accuracy, and observation. The design portfolio should be formatted on 8.5” x 11” sheets, bound or carefully packaged, with a maximum thickness of 3”. Applicants may also include 11” x 17” sheets provided they are folded to 8.5” x 11”. Design portfolios may include two-dimensional story boards (a sequence of still images that show a story), computer printouts, and photographs of small three-dimensional models/projects. The design portfolio cannot contain slides, videos, computer discs, or other formats that require electric power to view.

First Year Design Portfolio Requirements

All candidates’ design portfolios must include a one-page (maximum) statement outlining your intentions, aspirations, and purpose in pursuing a professional degree. In addition, all candidates’ design portfolios require three freehand drawings based on accurate observations: (1) a drawing of a stair or stairs, (2) a
drawing of a bicycle or bicycles or a part of a bicycle or bicycles, and (3) a drawing of your own choice. These drawings may be in ink, pencil or charcoal. In addition to the three required freehand drawings, the first year design portfolio may contain reproductions of a two-or-three dimensional work.

Third Year Design Portfolio Requirements
All candidates’ design portfolios must include a one-page (maximum) statement outlining your intentions, aspirations, and purpose in pursuing a professional degree. The design portfolio should include no more than 10 examples of your design work executed within the past two years. Examples include, but are not limited to, studies of buildings that demonstrate your analytical ability. Recent art and/or design projects that an applicant completed in collaboration with others are acceptable as long as the example contains an explanation of the applicant’s role in the process. Portfolios may not contain samples of architectural or interior design construction documents either by hand or by computer.

Student Work
Student work submitted to the department in satisfaction of course or degree requirements becomes the physical property of the department. However, students retain all rights to the intellectual property of such work. This work may include papers, drawings, models, and other materials. The department assumes no responsibility for safeguarding such materials. At its discretion, the department may retain, return, or discard such materials. The department will not normally discard the materials of current students without giving them a chance to reclaim them.

Students must petition the department in writing for any deviation from the established policies.

Study Abroad
Study abroad is an important component of the Department of Interior Design. Our study abroad center is located in Genoa, Italy. The Genoa center is ideally situated in the historic center of the city in a renovated former convent dating from the 13th century. During the semester abroad in Italy, students are afforded an opportunity to study those artistic, architectural, landscape and interior spaces and artifacts that have long been acknowledged for their exceptional and enduring value to Western design culture.

Accelerated Master of Interior Design Degree Program Hours: 160
The accelerated degree program consists of a two year pre-graduate foundation and a three year professional graduate program. The pre-graduate classes and studios focus on the interdisciplinary study of design, graphic communication, history/theory and technologies. The graduate curriculum focuses upon professional knowledge and skills required for an interior design career.

Pre-Graduate Preparation
Students should enroll in pre-graduate design courses the first semester they attend FIU or their progress through the curriculum will be prolonged. Seats in pre-graduate design courses are limited and cannot be guaranteed to all students.

Undergraduates admitted with fewer than 36 semester hours must meet all of the Department of Interior Design pre-foundation requirements.

Undergraduate to Gradate Standing
Students will be evaluated for matriculation to graduate status based upon their graduate GPA at the end of the spring semester of their 4th year (provided they have earned a minimum of 120 total credits). The criteria listed below must be satisfied:
1. A minimum of 120 credits earned credits (counting no more than 60 lower-division transfer credits),
2. 3.0 or higher GPA in graduate level coursework (5000 level or higher),
3. Completion of undergraduate coursework.

Course Descriptions

Definition of Prefixes

IND-Interior Design
F-Fall semester offering; S-Spring semester offering; SS-Summer semester offering.

IND 1932 Special Topics/Interior Design I (4). An introduction to the basic perceptual, social, cultural, environmental and technical issues of interior design. Basic interior design projects.

IND 2000 History of Interiors from Renaissance to 1917 (3). An analysis of the history of architectural interiors, furniture and decorative arts from the Renaissance Period to the early 20th century.

IND 3131 History of Modern Interior Design (3). Analysis of the 20th century architectural interiors, furniture and decorative arts from 1890-present. Prerequisites: ARC 2701, ARC 2702.

IND 3215 Interior Design 5 (4). Analysis, programming and design of commercial facilities including hospitality and retail. Students research the functions, and requirements of the project, design the interior spaces, develop architectural details and work on the selection of furniture and finishes. Corequisites: IND 3451C, IND 3423C. (F)

IND 3216 Interior Design 6 (4). Consideration and application of design criteria with an emphasis on planning and design of interior for the work environment. Students develop programs, work on space planning, as well as furniture selection, illumination and selected architectural details. Prerequisites: IND 3215, IND 3480. Corequisites: ARC 4270C or IND 4501. (S)

IND 3308 Visual Notation for Interior Design (3). Course will focus on technique, through exercise and assignments of varying degrees of complexity will explore and develop the range of skills necessary to develop confidence in drawing in interior design. Prerequisite: Program approval.

IND 3451C Interior Design Construction Drawing 1 (3). Development of Interior Design working drawings with emphasis on detailing and cabinetry. Prerequisites: ARC 1461, ARC 2580. Corequisites: IND 3215, IND 3480.

IND 3469 Computer Applications in Interior Design (3). Advanced application of computer tools used in interior design process and communication. Prerequisite: ARC 4058.

IND 3480 Sources, Materials, and Cost Estimating for Interiors (3). Sources and materials used by interior designers in the development of a design project. Materials available in the market for furniture finishes and equipment and its costs are analyzed. Prerequisites: ARC 1461 and ARC 2580. Corequisites: IND 3215, IND 3451C. (S)

IND 3511C Lighting Design (3). A fundamental course in lighting with emphasis on interaction with the design of an interior space. Prerequisites: IND 3215 or Architectural Design 5 (ARC 5329).

IND 3930 Special Topics Design Studio (4). An interior design studio based on a particular aspect of interior design under the direction of appropriate faculty.

IND 3936 Cejas Eminent Scholar Seminar (1-3). This is a seminar/workshop course taught by distinguished educators, scholars, and designers. Lectures, critical readings, and discussions of thematic topics make up the methodology of the course.

IND 4225 Interior Design 7 (4). Analysis of the human condition in design. Topics include the behavioral and environmental sciences, ergonomics, and ecology and their impact on design. Prerequisite: IND 3216. Corequisite: IND 4943C. (F)

IND 4226 Interior Design 8 (4). The final studio involves projects of increased scale and complexity. The studio emphasizes the diversity of aspects that integrate the design process from conceptual formulations and programming to the full development of the design thesis. Prerequisites: IND 4225 and IND 4943C. (S)

IND 4311 Color Theory (3). Use of color in the built environment including principal color systems, methods of color harmony, effects of visual phenomena, and various psychological, cultural and historical implications. Prerequisites: ARC 1132, ARC 2304.

IND 4441C Furniture Design (4). Introduction to the human factors, concepts, function, materials and techniques of furniture design. Prerequisite: ARC 4058.

IND 4501 Interior Design Practice (3). The student will be introduced to the specific skills necessary to succeed in the preparation of legal documents and specifications. Prerequisite: IND 3215.

IND 4627 Sustainable Interior Design Practices (3). Students study and apply knowledge of the theoretical, practical, and professional issues involved in designing sustainable interior environments. Prerequisite: IND 3215.
IND 4940 Interior Design Internship (3). Advanced issues in interior design practice learned through work experience with licensed professionals. Prerequisites: ARC 4270C or IND 4501, IND 3451C, IND 3480, IND 3511C.

IND 4943C Programming (3). Preparation of program for the final interior design studio project. Instruction on methods of information gathering, analysis, and evaluation. Environment and behavior theories will be explored. Prerequisite: IND 3216. Corequisite: IND 4225.

IND 5137 History of Design from the Renaissance to XIX Century (3). Survey of the architectural, interior and landscape design from the Renaissance to the XIX century, including western and non-western traditions.

IND 5138 History of Modern Interiors (3). An analysis of the history of architectural interiors, furniture and decorative arts from the Neo-Classical period to the present time.

IND 5164 History of 21st Century Furniture Design (3). Students will research and analyze the social, political, technical economic and theoretical forces that contribute to new movements in late 20th century and early 21st century furniture design.

IND 5235 Formative Studio 1 (6). Introduction to concept development, spatial expression, and representational techniques in architecture.

IND 5285 Design Foundations (3). The course is a rigorous introduction to design fundamentals. It builds a design language through lectures, practical exercises, exploring techniques, materials, skills, making and critical thinking. Prerequisite: Program approval.

IND 5319 Visual Notation for Interior Design (3). Course will develop drawing skills in multiple media, actively engaging in projects of drawing as a medium of investigation, documentation, memory, observation and presentation for interior design. Prerequisite: Program approval.

IND 5325 Color Theory and Application for the Built Environment (3). Use of color in the built environment including principal color systems, methods of color harmony, effects of visual phenomena, and various psychological, cultural and historical implications.

IND 5427 Interior Design Technology (3). Conceptual framework for design of building assemblies, understanding of construction technologies and properties of interior building materials. Construction drawings and specifications are produced. Prerequisite: Graduate standing.

IND 5428 Materials and Methods (3). Research and analysis of building materials and methods. Properties of materials and performance in a variety of light building, interior and environmental assemblies are investigated.

IND 5438 Lighting Design (3). Exploration of theories and applications of lighting design. Emphasis on studying research about interactions between light, people and articulation of interior space. Prerequisite: IND 6255.

IND 5445C Furniture Design (3). Providing a general overview of furniture design process, this design/build studio course teaches students about ergonomics, scale, space, structure and materiality related to furniture design.

IND 5446 Professional Practice and Entrepreneurship in Furniture Design (3). Learn about industry standards and entrepreneurial strategies that successful designers and furniture companies use when bringing new designs to different markets.

IND 5447C Advanced Furniture Design (6). Research, analyze and design furniture using wood, metals and plastics. Instruction will include advanced technical skills and emphasis on qualitative and conceptual aspects of design.

IND 5475 Computer Applications in Architecture (3). Study of computer software packages applicable to the architecture office environment, with particular emphasis on CAD software, graphics packages and desktop publishing.

IND 5477 Computer Applications in Interior Design II (3). Intermediate study of computer software applicable to the architecture and interior design office environment, with particular emphasis of CADD software, graphics packages and desktop publishing.

IND 5485 Innovations in Building Technology (3). Experimental approach to new materials and methods applicable to the field of construction. Field and laboratory exercises in the evaluation of technical support assemblies for buildings. Prerequisite: IND 5427. Corequisite: IND 6257C.

IND 5508 Professional Practice (3). Advanced study of office administration, contract negotiation, fee structure, professional ethics, client and public relations. Investigations and analysis of business organizations and project management. Prerequisite: Program approval.

IND 5615 Building Systems for Interior Designers (3). Study of building environmental systems and building performance issues that impact the design of building interiors and affect the health, safety, welfare, and performance of building occupants. Corequisite: IND 6255.

IND 5625 Interior Design Theories II (3). Overview of the environmental parameters, morphological concepts and ideological principles that generate form and meaning in interior design, architecture, and landscape architecture.

IND 5626 Project Programming (3). Students perform pre-design research and analysis aimed at programming the design of a specific facility. Students ultimately prepare a program of requirements for their master's project. Prerequisites: IND 5937, IND 6639. Corequisite: IND 6259C.

IND 5628 Sustainable Interior Design Practices (3). Analysis and application of theoretical, practical, and professional issues involved in designing sustainable interior environments. Prerequisite: IND 5615.
IND 5629 Computer Applications in Interior Design III (3). Students learn advanced techniques in digital design through using 3 dimensional modeling and rendering software within the design process.

IND 5645 Structures and Systems 1 (3). Study of physical science for structural design problems and for ecological systems. Review analyze and evaluate structural systems and building environmental systems.

IND 5937 Special Topics (3). Examination of the conceptual framework supporting the theory, and research applications in specialized area of interior design. Prerequisite: Program approval.

IND 5938 Cejas Eminent Scholar Seminar (1-3). This is a seminar/workshop course taught by distinguished educators, scholars, and designers. Lectures, critical readings, and discussions of thematic topics make up the methodology of the course.

IND 5948 Interior Design Graduate Internship (3). Advanced issues in professional practice learned through work experience with design professionals. Prerequisite: IND 6256.
**Landscape Architecture**

Roberto Rovira, Associate Professor and Chair  
Juan Antonio Bueno, Professor  
Marta Canavés, Associate in Design  
Gianno Feoli, Adjunct Professor  
Ebru Ozer, Assistant Professor

The Landscape Architecture Department focuses on the development of the basic knowledge, skills, and abilities appropriate to the practice of landscape architecture, with a special emphasis on tropical and sub-tropical landscapes. Our goal is to educate individuals who can serve and lead the community in the enhancement of the quality of life through the aesthetic, meaningful, and sustainable design of the physical environment.

For students seeking to begin their professional design studies as undergraduates, the Landscape Architecture Department offers the Accelerated Master of Landscape Architecture (MLA). The Accelerated Master of Landscape Architecture (MLA) program provides a seamless course of study leading from undergraduate freshman year to the conferral of the Master of Landscape Architecture professional degree. The Accelerated MLA is comprised of 155 credit hours of integrated pre-graduate and graduate coursework. The degree consists of 71 credit hours of pre-graduate coursework taken over two years followed by 84 credit hours of graduate coursework.

**Undergraduate to Graduate Standing**

Students will be evaluated for matriculation to graduate status based on their graduate GPA at the end of the spring semester of their 4th year (provided they have earned a minimum of 120 total credits). The criteria listed below must be satisfied:

1. A minimum of 120 earned credits (counting no more than 60 lower-division transfer credits),
2. 3.0 of higher GPA in graduate level coursework (5000 level of higher), and
3. Completion of undergraduate coursework.

A Bachelor degree is not awarded at any point in the program.

The department maintains close ties with the architecture, and interior design departments in the college, and with landscape architecture professionals. Professional advisory boards regularly review the curriculum to maintain program relevance.

Students applying to the Landscape Architecture Department should plan for the financial aspects of a design education. This includes the costs of computers, software, travel and field trips, tools and equipment, and modeling supplies. Students must also have continuing access to a laptop computer through purchase, lease or other arrangements. For further information contact the CARTA Student Services & Advising Center.

The first professional Master of Landscape Architecture (MLA) degree is fully accredited by The Landscape Architectural Accreditation Board (LAAB), an autonomous committee of the American Society of Landscape Architects. The Post-Professional Degree Master of Arts in Landscape Architecture (MALA) is intended for individuals with a professional undergraduate degree in landscape architecture who wish to undertake research, teach and pursue advanced study.

**Admission Requirements**

**Application Deadline:** February 1

The department admits students once a year to begin their course work in the fall semester; therefore, it is recommended that interested applicants meet with a member of the college’s Student Services and Advising Center during the Fall semester prior to the application deadline. Admission to the department is competitive and is not guaranteed. Admission will be offered based on space availability to those applicants judged by the Department Faculty Committee to have the greatest potential for successful completion of the program.

The department offers professional degrees in Landscape Architecture. The curriculum is composed of two years of foundational, undergraduate coursework followed by three (or four) years of focused graduate course work leading to the accredited Master of Landscape Architecture (MLA) professional degree. The department does not award the pre-professional bachelors degree.

Undergraduate students may apply for admission into the first year or the third year of the program. Students of the program are considered undergraduate students until they have accumulated 120 credit hours; therefore, freshman and transfer applicants must apply to both FIU’s Undergraduate Admissions Office and to the appropriate department.

**Undergraduate Admissions**
http://admissions.fiu.edu

**Department of Landscape Architecture**
http://soa.fiu.edu/land_architecture.htm

**First Year Admission Requirements**

Applicants must meet the University’s admission requirements and submit a design portfolio – please refer to the Design Portfolio Requirements section.

**Third Year Transfer Student Admission Requirements**

Applicants for third year admission must meet the University’s admission requirements and submit a design portfolio – please refer to the Design Portfolio Requirements section. Students who have completed an AA in architectural studies must meet the following requirements: minimum cumulative GPA of 3.0; successful completion of the CLAS requirement; completed design studio courses 1 through 4 with a grade of ‘C’ or better; and be judged by the Faculty Admissions Committee to have passed a competitive portfolio review. Only grades of ‘C’ or higher (2.0 on a 4.0 grading scale) are accepted for transfer of applicable prerequisite and core courses from other institutions. No grade below a ‘C’ will be accepted for graduation in required courses or required electives.

**Transfer Students:** University policy allows the transfer of 60 lower division credits. Additional upper-division transfer credits may be accepted. For most transfer students it will be necessary to take a certain number of undergraduate credits at FIU in order to achieve the minimum required to satisfy the degree requirements.
Third Year Native Student Admission Requirements

FIU undergraduate students who wish to change their major to landscape architecture should check program requirements and be advised by the college’s undergraduate advisors well in advance of application for admission. Departmental approval is required.

Design Portfolio Requirements

As part of the department’s admission review process, all students are required to submit a design portfolio demonstrating the candidate’s creative aptitudes as well as their level of design. The design portfolio is evaluated based on a candidate’s demonstrated sense of composition, attention to detail, graphic communication skills, expressive quality, and sense of space, accuracy, and observation. The design portfolio should be formatted on 8.5” x 11” sheets, bound or carefully packaged, with a maximum thickness of 3”. Applicants may also include 11” x 17” sheets provided they are folded to 8.5” x 11”. Design portfolios may include two-dimensional story boards (a sequence of still images that show a story), computer printouts, and photographs of small three-dimensional models/projects. The design portfolio cannot contain slides, videos, computer discs, or other formats that require electric power to view.

First Year Design Portfolio Requirements

All candidates’ design portfolios must include a one-page statement outlining your intentions, aspirations, and purpose in pursuing a professional degree in landscape architecture. In addition, all candidates’ design portfolios require three freehand drawings based on accurate observations: (1) a drawing of a stair or stairs, (2) a drawing of a bicycle or bicycles or a part of a bicycle or bicycles, and (3) a drawing of your own choice. These drawings may be in ink, pencil or charcoal. In addition to the three required freehand drawings, the first year design portfolio may contain reproductions of a two-or-three dimensional work.

Third Year Design Portfolio Requirements

All candidates’ design portfolios must include a one-page (maximum) statement outlining your intentions, aspirations, and purpose in pursuing a professional degree in landscape architecture. The design portfolio should include no more than 10 examples of your design work executed within the past two years. Examples include, but are not limited to, studies of buildings that demonstrate your analytical ability. Recent art and/or design projects that the applicant completed in collaboration with others are acceptable as long as the example contains an explanation of the applicant’s role in the process. Portfolios may not contain samples of architectural or interior design construction documents either by hand or by computer.

Ownership of Student Work

Student work submitted to the department in satisfaction of course or degree requirements becomes the physical property of the department. However, students retain all rights to the intellectual property of such work. This work may include papers, drawings, models, and other materials. The Landscape Architecture Department assumes no responsibility for safeguarding such materials. At its discretion, the department may retain, return, or discard such materials. The department will not normally discard the materials of current students without giving them a chance to reclaim them.

Students must petition the department in writing for any deviation from the established policies.

Study Abroad

Study abroad is an important component of the degree program. Our study abroad center is located in Genoa, Italy. The Genoa center is ideally situated in the historic center of the city in a renovated former convent dating from the 13th century. During the semester abroad option in Italy, students are afforded an opportunity to study those artistic, architectural, landscape and interior spaces and artifacts that have long been acknowledged for their exceptional and enduring value to Western design culture. Other travel options may be available. Departmental approval required for participation.

Accelerated Master of Landscape Architecture

Degree Program Hours: 155

The accelerated Master of Landscape Architecture program provides a seamless course of study leading from undergraduate freshman year to the conferral of the Professional Master of Landscape Architecture degree (MLA). The Accelerated MLA is comprised of 155 credit hours of integrated pre-graduate and graduate coursework. The degree consists of 71 credit hours of pre-graduate coursework taken over two years followed by 84 credit hours of graduate coursework.

Undergraduate to Graduate Standing

Students will be evaluated for matriculation to graduate status based upon their graduate GPA at the end of the spring semester of their 4th year (provided they have earned a minimum of 120 total credits). The criteria listed below must be satisfied:
1. A minimum of 120 earned credits (counting no more than 60 lower-division transfer credits)
2. 3.0 of higher GPA in graduate level coursework (5000 level of higher), and
3. Completion of undergraduate coursework.

No Bachelor degree is awarded in the accelerated MLA degree path.

The degree program emphasizes integrative learning shared with the architecture and interior design programs at the pre-graduate level through a 2-year foundational curriculum.

Graduates from the accelerated degree program have exceptional preparation for professional practice, and are superbly prepared for leadership within the profession.

It is the goal of the accelerated MLA track to educate individuals to serve and lead the community in the enhancement of the quality of life through the aesthetic, meaningful, and sustainable design of the physical environment. The program aims at developing critical thinking skills and provides specialized value-added
education to produce graduates that are skilled, articulate
and committed to advance the profession of landscape
architecture.

Pre-Graduate Preparation

Students should enroll in Lower Division design courses
the first semester they attend FIU or their progress
through the curriculum will be delayed. Seats for the Pre-
Graduate course of study are limited and cannot be
guaranteed to all students.

Progression Requirements

No grade below a ‘C’ will be accepted for graduation in
required courses or required electives.

Students must have a cumulative grade point average
of 3.0 or higher at the conclusion of 120 credit hours to
continue in the program.

Certificate in Landscape Architecture

The Certificate in Landscape Architecture offers students
the ability to explore the design, planning, and
management of regional landscapes. This program is
developed to serve undergraduate students within the
School of Architecture and in related fields such as
Environmental Science and Biological Sciences who
would like to seek to expand their academic experience
with this area of specialized study. Focused on landscape
design and development, the certificate seeks to extend
students’ skills, knowledge, and critical thinking about the
design, making, and managing of existing and built
landscape environments. Students who wish to earn the
Certificate in Landscape Architecture should contact a
School of Architecture undergraduate advisor in advance
of pursuing this course of study. Certificate Requirements
Students earning this certificate must accumulate 18 credit
hours with a satisfactory grade from the following list of
available courses.

Courses on the list may require prerequisites and/or program approval.

**Course Descriptions**

**Definition of Prefixes**
LAA-Landscape Architecture; URP-Urban and Regional Planning
F-Fall semester offering; S-Spring semester offering; SS-Summer semester offering.

LAA 3212 Landscape Documentation (3). Production of landscape construction documents, including drawings and project manual with bidding documents, contract documents and technical specifications on the computer. Prerequisites: LAA 3802, LAA 3420, ARC 4058 or equivalent.

LAA 3232 Theory of Planting Design (3). An introduction to the study of principles and methods related to the ecological, functional, and aesthetic use of vegetation in landscape architecture. Prerequisite: Program approval.

LAA 3248 Catalysts of the Urban Canvas (3). Seminar-based course exploring the relationship of focused landscape and architectural interventions in the evolution and development of the urban fabric and its physical context.

LAA 3333 Site Analysis and Design (3). Introduction to ecological, functional, and aesthetic considerations in site analysis, planning and design.

LAA 3341 Visual Notation in Landscape Architecture I (3). Course will focus on technique, through exercise and assignments of varying degrees of complexity to explore and develop a range of skills necessary to develop confidence in drawing landscape architecture. Prerequisite: Program approval.

LAA 3354C Landscape Architecture Design 6 (4). Development of design proposals applying principles and methods in landscape architecture within a tropical and sub-tropical context. Regional mid-sized to large scope scale projects. Prerequisites: LAA 3712, LAA 3802. Corequisites: LAA 3420, LAA 3602.

LAA 3372L Computer Applications in Landscape Architecture (3). Advanced study of computer software packages applicable to the architecture office environment, with particular emphasis on CAD software, graphics packages and desktop publishing. Prerequisite: Program approval.

LAA 3377C GIS Applications in Landscape Modeling (3). Introduction to modeling capabilities of GIS in the planning process addressing the natural and cultural characteristics of the landscape. Prerequisite: Program approval.

LAA 3420 Landscape Construction (3). Technical aspects of the design and specification of sitework, including materials, products, and methods of installation used in landscape construction. Prerequisites: LAA 3802, ARC 4058 or equivalent.

LAA 3430 Landscape Structures (3). Production of landscape construction details for structures and systems used in landscape architecture. Prerequisite: Program approval.

LAA 3602 South Florida Landscapes (3). Study of the structure, function, and change in the natural and cultural landscapes of tropical and subtropical regions. Prerequisite: Program approval.

LAA 3712 History of Landscape Architecture (3). Historical survey of the principal sites and traditions manifested in the evolution of landscape architecture and urban design from antiquity to the present. Prerequisites: ARC 2701, ARC 2702.

LAA 3802 Landscape Development (3). Technical aspects of the design and specification of earthwork, including materials, products, and methods of installation used in landscape development. Prerequisites: ARC 4058 or equivalent.

LAA 3905C Special Topics Design Studio (4). A landscape architectural design studio based on a particular aspect of landscape architectural design under the direction of appropriate faculty.

LAA 3936 Cejas Eminent Scholar Seminar (1-3). This is a seminar/workshop course taught by distinguished educators scholars, and designers. Lectures, critical readings, and discussions of thematic topics make up the methodology of the course.

LAA 4210 Professional Office Practice (3). An introduction in office administration, negotiation of contracts, fee structure, professional ethics, client and public relations. Business organization, procedure scheduling and task allocation. Prerequisite: Program approval.

LAA 4230 Theory of Landscape Architecture (3). Critical review of the environmental parameters, morphological concepts and ideological principles that generate form and meaning in landscape architecture. Prerequisite: Program approval.

LAA 4242 Modern Landscape Architecture (3). Critical review of the origins and development of modern and post modern expressions in landscape architecture.

LAA 4344 Italian Design and Culture (3). Course to develop practical facility with the Italian language for conducting everyday tasks, engaging socially and increasing the qualitative depth of the work to be accomplished in the course. Corequisites: LAA 4354C, LAA 4345.

LAA 4345 Landscape Architecture of the City (3). The study of urban landscape architecture in Genoa, Italy, with emphasis on analysis and representation using manual drawing, digital photography, and conceptual model. Corequisites: LAA 4344, LAA 4354C.

LAA 4354C Landscape Architecture Design 7 (4). Exploration of form, circulation and spatial contexts for the design of urban sites. Consideration of cultural and natural factors addressing intermediate to large scale complexity.
Prerequisites: LAA 3420, LAA 3602. Corequisite: LAA 4375C.

LAA 4355C Landscape Architecture Design 8 (4). Exploring contemporary landscape architecture issues through the design of projects varying in scale and complexity. Prerequisite: LAA 4354C. Corequisites: LAA 4210, LAA 3212.

LAA 4375C Computer Modeling (3). This course will explore computer modeling in landscape architecture. Prerequisite: Program approval.

LAA 4546 Tropical Landscapes (3). The study of the structure, function, and change in the natural and cultural landscapes of tropical and subtropical regions. Prerequisite: Program approval.

LAA 4940 Landscape Architecture Internship (3). Advanced issues in professional practice learned through work experience with a licensed practitioner. Prerequisites: LAA 3350C, LAA 3545C, LAA 4354C.

LAA 5233 Theory of Planting Design (3). Study of principles and methods related to the ecological, functional, and aesthetic use of vegetation in landscape architecture. Prerequisite: Program approval. (SS)

LAA 5235 Theory of Landscape Architecture (3). Critical review of the environmental parameters, morphological concepts and ideological principles that generate form and meaning in landscape architecture. Prerequisite: LAA 5716. (S)

LAA 5243 Regional Landscape Issues (3). Exploration of the landscape as cultural construct of social, economic, and scientific values relevant to regional issues of land use and management. Prerequisite: Program approval. (SS)

LAA 5249 Catalysts of the Urban Canvas (3). Seminar-based course exploring the relationship of focused landscape and architectural interventions in the evolution and development of the urban fabric and its physical context.

LAA 5331 Site Analysis and Design (3). Introduction to ecological, functional, and aesthetic considerations in site analysis, planning and design. Prerequisite: Program approval.

LAA 5346 Visual Notation in Landscape Architecture I (3). Course will develop drawing skills in multiple media, actively engaging in projects of drawing as a medium of investigation, documentation, memory, observation and presentation for landscape architecture. Prerequisite: Program approval.

LAA 5371 Computer Practices in Landscape Architecture 1 (3). Computer applications of graphics, modeling, and animation techniques used in landscape architecture. Prerequisite: Program approval. (SS)

LAA 5374 Computer Practices in Landscape Architecture 2 (3). Computer application of drafting and design techniques used in landscape architecture. Prerequisites: LAA 5371, Program approval. (F)

LAA 5378 GIS Applications in Landscape Modeling (3). Introduction to modeling capabilities of GIS in the environmental planning process addressing the natural and cultural characteristics of the landscape. Prerequisite: Program approval. (SS)

LAA 5422 Landscape Development (3). Technical aspects of the design and specification of earthwork, including materials, products, and methods of installation used in landscape development. Prerequisite: LAA 5371. (F)

LAA 5423 Landscape Construction (3). Technical aspects of the design and specification of sitework, including materials, products, and methods of installation used in landscape construction. Prerequisite: LAA 5422. (S)

LAA 5425 Landscape Documentation (3). Production of landscape documents including drawings and project manual, bidding documents, contract documents and technical specifications on the computer. Prerequisite: LAA 5423. (F)

LAA 5427 Landscape Structures (3). Production of landscape construction details for structures and systems used in landscape architecture. Prerequisite: LAA 5423. (F)

LAA 5540 Landscape Horticulture (3). Overview of horticultural management practices related to the growth, transport, installation, and maintenance of vegetative materials used in landscape architecture. Prerequisite: Program approval. (SS)

LAA 5541 South Florida Landscapes (3). Study of structure, function, and change in the natural and cultural landscapes of tropical and subtropical Florida. Prerequisite: Program approval. (S)

LAA 5605 Design Foundations (3). The course is a rigorous introduction to design fundamentals. It builds a design language through lectures, practical experiences, exploring techniques, materials, skills, making and critical thinking. Prerequisite: Program approval. Corequisites: LAA 5346 and LAA 5371.

LAA 5652 Formative Studio (6). Introduction to concept development, spatial expression, and representational techniques in landscape architecture. Prerequisite: LAA 5346 and LAA 5XXX Computer Applications in Landscape Architecture. (F)

LAA 5653 Landscape Architecture Graduate Design 1 (6). Application of landscape architecture principles and methods to site design in tropical and subtropical contexts. Prerequisite: LAA 5652. (S)

LAA 5715 History and Theory of Architecture (3). Overview of the history and theory of architecture and urban design from antiquity to the present. Prerequisite: Program approval. (SS)

LAA 5716 History of Landscape Architecture (3). Historical survey of the principal sites and traditions manifested in the evolution of landscape architecture and
urban design from antiquity to the present. Prerequisite: Program approval. (F)

**LAA 5905C Special Topics Design Studio (6).** A landscape architectural design studio based on a particular aspect of landscape architectural design and relevant ideologies under the direction of appropriate faculty.

**LAA 5938 Cejas Eminent Scholar Seminar (1-3).** This is a seminar/workshop course taught by distinguished educators, scholars, and designers. Lectures, critical readings, and discussions of thematic topics make up the methodology of the course.

**LAA 5940 Landscape Architecture Internship (3).** Advanced issues in professional practice learned through work experience with a licensed professional.

**URP 5316 Environmental and Urban Systems (3).** Overview of basic issues and principles of environmental and urban planning and design systems. Emphasis will be placed on multi-disciplinary linkages.

**URP 5912 Research Methods (3).** Methods of information search, data interpretation, and hypotheses formulation used in the field.
Music

Orlando J. García, Chair and Professor
John Augenblick, Associate Professor
Cathy Benedict, Assistant Professor
Barry Bernhardt, Instructor and Director of Marching Band
Jason Calloway, Instructor
Gary Campbell, Associate Professor
Robert Davidovici, Professor
David Dolata, Associate Professor
Robert B. Dundas, Associate Professor
Karen Fuller, Instructor
Joel Galand, Assistant Chair and Associate Professor
Kemal Gekic, Professor
James Hacker, Instructor
William Dan Hardin, Music Librarian
Fredrick Kaufman, Professor Emeritus
Michael Klotz, Instructor
Marcia Littley, Instructor
José López, Assistant Professor
Clair McElfresh, Professor Emeritus
Grzegorz Nowalk, Assistant Professor
Michael Orta, Associate Professor
Larry Jamie Ousley, Instructor
Catherine Rand, Assistant Professor
Misha Vitenson, Instructor
Kathleen L. Wilson, Professor

Freshman/Sophomore Admission
Freshman admission requires an audition and placement test in Music Theory. Contact the Department of Music at (305) 348-2896 for an audition appointment.

Transfer Admission
To qualify for admission to the program, FIU undergraduates must meet all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable into the program. Music students at the University come from a wide variety of academic backgrounds from Florida, other states and countries. Because of this diversity, the faculty of music gives basic preliminary examinations in order to assist the student to eliminate any deficiencies: 1. Music History - consisting of all periods of history. 2. Music Theory - consisting of sight-singing, melodic and harmonic dictation and written harmonization and analysis.

Common Prerequisite Courses and Equivalencies

<table>

Secondary Piano – Proficiency by examination¹

¹or MVXX111 & MVXX112 & MVXX121 & MVXX122 OR MVXX111r & MVXX112r & MVXX121r & MVXX122r and MVXX211 & MVXX221 as needed to achieve piano proficiency.

²Varies from Track to Track

PLEASE NOTE: Duplicate courses such as MVK X111r may be repeated up to 4 times.

MUN (Ensemble) and MVx (Applied Performance) requirements will transfer based on the required audition.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org. See Common Prerequisite Manual.

Common Requirements for All Baccalaureate Degrees in Music:

N.B. Students must earn a grade of "C" of better in all courses required for the major. A grade of "C-" or lower is not acceptable in any required course.

University Core Curriculum¹ 33

Music Theory
MUT 1111 Music Theory I 3
MUT 1112 Music Theory II 3
MUT 2116 Music Theory III 3
MUT 2117 Music Theory IV 3

Sight-singing
MUT 1221 Sight-singing I 1
MUT 1222 Sight-singing II 1
MUT 2226 Sight-singing III 1
MUT 2227 Sight-singing IV 1

Music History
MUH 3211 Music History Survey I 3
MUH 3212 Music History Survey II 3
MUH 3213 Music History Survey III 3
MUH 3214 Music History Survey IV² 3

Ethnomusicology
MUH 3514 Music of the World 3

Class Piano³
MVK 1111 Class Piano I 1

¹The 3-credit UCC Arts Requirement is waived for music majors, reducing their UCC credits to 33.

²Students in the Jazz Performance track may replace MUH 3213-3214 (Music History Survey III-IV) with MUH 2116 Evolution of Jazz and MUH 3813 History of Afro-Cuban Jazz.

³Students in the Jazz Performance track take Class Jazz Piano MVJ 3135 and 3136 instead of MVK 2121 and 2122. Jazz piano majors take four credits (two semesters) of Classical Applied Piano instead of Class Piano. With a passing grade on the Piano Proficiency Exam, Piano and Organ majors may substitute 4 four semesters of MUN 2510 Accompanying for Class Piano.
MVK 1112  Class Piano II  1
MVK 2121  Class Piano III  1
MVK 2122  Class Piano IV  1

Applied Lessons

at the junior/senior level

Total  82

Bachelor of Music
Degree Program Hours: 128

A Bachelor of Music degree is offered with an emphasis in
one or more of the following areas: Applied Music,
Composition, Jazz Studies, Music Technology, and Music
Education.

All entering students must provide evidence of
performance ability (vocal or instrumental) through an
audition. Contact the Department of Music at (305) 348-
2896 for more information or to schedule an audition.

Areas of Emphasis
The following are areas of emphasis for music students.
Admission to each area is by faculty approval.

Instrumental Performance

Required Courses
Music Theory
MUT 3611  Form and Analysis  3

Ensembles
One major ensemble every semester enrolled
in lessons  8

Major Applied Lessons
Four semesters; 3 credits each semester  12

Conducting
MUG 4302  Instrumental Conducting  1

Literature
MUL 4500  Symphonic Literature  3

Recitals
Junior Recital  1
Senior Recital  1

Electives
Academic Music Electives  5  6
Music Electives  11

Total  46

Vocal Performance
Required Courses
Music Theory
MUT 3611  Form and Analysis  3

Ensembles
For each semester of lower division applied voice,  4
1 cr. hour of “major choral ensemble” (MUN 1310 or MUN
1340) as assigned by Director of Choral Studies
For each semester of upper division applied voice,  4
1cr. hour of “major applied ensemble” (MUN 3313 or
MUN 3343) as assigned by the Director of Choral Studies

Major Applied Lessons
Four semesters; 3 credits each semester  12

Conducting
MUG 4202  Choral Conducting  1

Recitals
MVV 3970  Junior Recital  1
MVV 4971  Senior Recital  1

Diction for Singers
MUS 2201  Diction I  2
MUS 2202  Diction II  2

Vocal Pedagogy
MVV 3630  Vocal Pedagogy  2

Opera Workshop
MUO 4502  Opera Workshop per semester of upper
division applied voice  4

Literature
MUL 3600  Art Song Literature  3

Electives (chosen in consultation with area advisor)
Academic Music Electives  5  6
Music Electives  4

Total  46

Composition

Required Courses
Music Theory
MUT 3401  Counterpoint  3
MUT 3611  Form and Analysis  3
MUH 4311  Orchestration  3

Ensembles
Lower level – 4 credits  4
(1 per semester freshman and sophomore years to be
selected by principal instrument/voice area director)
Upper level – 4 credits  4

5 To be chosen in consultation with your academic advisor
from upper-division theory and history courses (e.g.,
Counterpoint, Orchestration, Jazz Theory, or graduate
courses with permission of the instructor).

6 To be chosen in consultation with your academic advisor
from upper-division MUT, MUL, or MUH courses.

4 Consult with your academic advisor for additional area
ensemble and chamber music requirements as mandated
by the FIU Department of Music Handbook.
(Junior and senior years 2 semesters of New Music Ensemble; others to be selected by principal instrument/voice area director)

Conducting
MUG 4202 Choral Conducting 1
or
MUG 4302 Instrumental Conducting 1

Principal Applied Lessons
Four semesters, 1 credit each semester 4

Composition
MUC 2221 Composition I 2
MUC 2222 Composition II 2
MUC 3231 Composition III 2
MUC 3232 Composition IV 2
MUC 4241 Composition V 2
MUC 4932 Composition Forum 4 semesters 4

Electronic Music
MUC 2301 Electronic Music Lab I 2
MUC 3302 Electronic Music Lab II 2

Recitals 7
MUS 4910 Research (Composition Recital) 1
Senior Recital 1

Total 46

Minor in Music Composition
A minor in Music Composition is available for students receiving the BM degree in areas of studies other than composition (e.g. jazz studies, applied, music education).
In order to receive credit for a minor in composition students must successfully complete the following:

Required Courses
Music Theory
MUT 3611 Form and Analysis 3
MUT 4311 Orchestration 3
MUT 3401 Counterpoint 3

Composition (beyond Basic Music Composition)
MUC 2221 Composition I 2
MUC 2222 Composition II 2

Electronic Music
MUC 2301 Electronic Music I 2
MUC 3302 Electronic Music II 2

Composition Forum
MUC 4932 Composition Forum (2 semesters) 2

Ensemble
MUN 2490 New Music Ensemble (1 semester) 1

Total 20

Jazz Performance
Required Courses
Music Theory
MUT 3170C Jazz Theory I 3
MUT 3171C Jazz Theory II 3
MUT 4353 Jazz Arranging 2
MUT 2641 Jazz Improvisation I 2
MUT 4643 Jazz Improvisation III 2

Ensembles
Two credits each semester 16

Major Applied Lessons
Four semesters major jazz applied lessons 12

Recitals
MVJ 3970 Junior Jazz Recital 1
MVJ 4971 Senior Jazz Applied Recital 1

Electives
Music Electives 4

Total 46

Piano Performance
Required Courses
Music Theory
MUT 3611 Form and Analysis 3

Music History
MUL 4400 Keyboard Literature I 3
MUL 4401 Keyboard Literature II 3

Ensembles
Major ensembles (2 semesters) 2
Ensembles assigned by Director of Piano Studies 6
MUN 2510 Accompanying (four semesters) 4
MUN 4513 Accompanying (four semesters) 4

Major Applied Lessons
Four semesters 3 credits each semester 12

Pedagogy
MVK 4640 Keyboard Pedagogy 2

MUL 4490 Organ Literature 3

Organ Performance

---

7 Composition students must present a 45 minute recital of their work and a 30 minute performance recital. A final oral exam administered after the composition recital must also be successfully completed. Composition students must earn a “B” or better in all theory, composition, and electronic music courses.

8 To be chosen in consultation with your academic advisor from upper-division MUH and MUT courses (e.g., Counterpoint, Orchestration, Jazz Theory, or graduate courses with permission of the instructor).
### Ensembles
- **Major Ensembles (6 semesters)** 6
- MUN 2510 Accompanying (4 semesters) 4
- MUN 4513 Accompanying (4 semesters) 4
- MUN 3463 Chamber Music (two semesters) 2

### Major Applied Lessons
- Four semesters 3 credits each semester 12

### Pedagogy
- MVK 4640 Keyboard Pedagogy 2

### Recitals
- MVK 3970 Junior Applied Recital 1
- MVK 4971 Senior Applied Recital 1

### Electives
- Academic Music Elective 3
- Music Electives 5

**Total** 46

### Music Technology

#### Required Courses
- **Music Technology**
  - MUC 2301 Electronic Music Lab I 2
  - MUC 3302 Electronic Music Lab II 2
  - MUC 3400 Electronic Music Lab III 2
  - MUC 4404 Electronic Music Lab IV 2
  - MUS 4910 Senior Research Project 4
  - MUM 4940 Senior Internship 9

### Ensembles
- Major ensemble for four semesters 4
- Upper division ensemble for two semesters to be determined by music technology advisor 2

### Principal Applied Lessons
- Two semesters, 2 credits each semester 4

### Physics of Music
- PHY 3465 Physics of Music 3

### Computer Science
- CS Electives selected in consultation with Advisor 6

### Electives
- Music Electives 6

### Music Education

(The Bachelor of Music: Major Music Education leads to K-12 Professional Teaching Certification in Music in the State of Florida.)

#### Required Courses
- **Choral Music Emphasis (6)**
  - MUG 4301 Choral Conducting 1
  - MVV 3630 Vocal Pedagogy 2
  - MUE 2346 Vocal Techniques 1
  - MUE 3411C Choral Methods 1
  - MVS 1116 Guitar Skills 12 1

**OR**

#### Instrumental Music Emphasis (6)
- MUG 4201 Instrumental Conducting 1
- MUE 2240 String Techniques 1
- MUE 2450 Woodwind Techniques 1
- MUE 2460 Brass Techniques 1
- MUE 2470 Percussion Techniques 1
- MUE 2346 Vocal Techniques 1

**AND**

Both choral and instrumental education tracks (40)

Principal Applied Upper Division Lessons 6

Music Education majors are required to enroll in 2 credits of applied lesson each semester NOT student teaching

Ensembles 7

Music Education majors are required to enroll in 1 ensemble each semester not student teaching

Senior Recital 1

RED 4325 Subject Area Reading 3
- TSL 4324 ESOL Methods K-12 3
- MUE 2040 Intro to Music Ed 2
- MUE 3340 Elementary Music Methods 3
- MUE 4341 Secondary Music Methods 3
- MUE 3395 Music in Special Education 3
- MUE 4940 Student Teaching 9

#### Bachelor of Arts

Degree Program Hours: 128

The Bachelor of Arts degree is a flexible research-based multidisciplinary degree. In consultation with faculty advisors, students craft a plan of study tailored to their own particular musical interests, which may also be combined with areas outside of music.

#### Required Courses
- Music Theory/History Electives 3
- Ensembles 2
- Basic Music Research and Bibliography 2
- Senior Research 4
- Cognate Area 12
- Electives 15

(Including any foreign language study necessary for completion of research.)

**Total** 38

### Entrance Requirements
1. Successful instrumental or vocal audition.
2. Students must pass the Fundamentals Course with a minimum grade of “C” or be placed into Theory I prior to taking any academic music courses.

### Exit Requirements
Successful completion of Senior Research Project

12 Guitar principals substitute additional Instrumental Techniques course in lieu of Guitar Skills.
Minor in Music

Students majoring in any other discipline may minor in music by successfully completing the following curriculum with a grade of "C" or better in each course. Half the credits taken for the Music Minor must be taken at FIU.

Required Courses

Music Theory chosen from: 6
MUT 2117 Theory IV
MUT 2116 Theory III
MUT 2112 Theory II
MUT 2111 Theory I
MUT 1101 Fundamentals of Music

Music History chosen from: MUH 3211 – MUH 3214
(Music History Survey I-IV) 3

IDS 3336 Artistic Expression in a Global Society – GL
(3). Exploration of the interrelatedness of societies and
culture through language, music and art are explored to
appreciate how individuals convey thought and respond to
events from various perspectives.

MUC 1101 Basic Music Composition (1). Elementary
principles of composition including the performance of
composition projects. Course includes calligraphy and
notation skills. Course may be repeated for credit.
Prerequisites: Freshman music majors; permission of the
instructor.

MUC 1342 Introduction to MIDI Technology (2). Introduction to the MIDI protocol and MIDI-based software, including music notation, sequencing, patch editing, ear training, and keyboard skills software. Prerequisites: Music major or permission of the instructor.

MUC 2221 Composition Seminar I (2). Creative writing utilizing 20th century compositional techniques in Impressionism, Neoclassicism, Post-Webern Serialism, Indeterminacy, Minimalism, Mixed, Multi and Inter-media, etc. Prerequisite: MUT 1112. Corequisite: MUT 2116.

MUC 2222 Composition Seminar II (2). Continuation of MUC 2221. Prerequisite: MUC 2221. Corequisite: MUT 2117.

MUC 2301 Electronic Music Lab I (2). Exploration of the electronic medium including the history of electronic music, digital studio techniques, analog studio techniques, digital synthesis and analog synthesis. Prerequisite: MUC 1342.

MUC 3231 Composition III (2). A continuation of Composition I to further the development of students compositional abilities through the writing of more evolved works with regard to duration, instrumentation. Prerequisites: MUC 2222 and admission to composition area.

MUC 3232 Composition IV (2). Continuation of MUC 3231. Prerequisite: MUC 3231.

MUC 3302 Electronic Music Lab II (2). A continuation of Electronic Music Lab I with an emphasis on advanced MIDI applications including samplers, digital sequencing, digital signal processing and interactive MIDI software. Includes one large composition project. Prerequisite: Electronic Music Lab I.

MUC 3400 Electronic Music Lab III (2). Special projects in advanced computer music programming focusing on sound synthesis. Includes two large composition projects. Can be repeated four times. Prerequisites: Electronic Music Lab II and permission of the instructor.

MUC 4241 Composition V (2). Continuation of MUC 3323. Prerequisite: MUC 3323.

MUC 4242 Composition VI (2). Continuation of MUC 4241. Prerequisite: MUC 4241.

MUC 4404 Electronic Music Lab IV (2). An advanced course in computer and electronic music providing students with hands-on experience with new hardware and software for the creation of music. Prerequisites: MUC 2301, MUC 3302.

MUC 4932 Composition Forum (1). Student composers' works are critiqued by faculty; topics of interest to composers are discussed. Required of all students taking Composition III and higher. Prerequisite: Admission to Composition Program.

MUC 5406 Electronic Music IV (2). An advanced course in computer music providing students hands-on experience with recently developed hardware and software for the creation of music. Prerequisite: MUC 3400.

MUC 5407 Electronic Music V (2). Students develop new hardware and/or software for uses related to musical composition. Prerequisite: MUC 5406.

MUC 5635 Computer Music Seminar I (3). Introduces students to the historical contributions of computer music
composers and engineers. Prerequisites: MUC 6305, MUC 6306. Corequisite: MUC 6405.

MUC 5636 Computer Music Seminar II (3). Introduces students to the compositional procedures used by computer music composers. Prerequisites: MUC 6305, MUC 6306, MUC 6405. Corequisite: MUC 5406.

MUC 5637 Computer Music Seminar III (3). Introduces students to the research technologies for making interactive sound projects including installations and exhibits. Prerequisites: MUC 6305, MUC 6306, MUC 6405, MUC 5406.

MUC 5935 Composition Forum (1). Student composers present their work for critique by faculty and topics relevant to composition are presented by faculty and guests. Prerequisite: Admission into the graduate composition program.

MUE 2040 Introduction to Music Education (2). This course will provide an overview to the basic principles of music education. Topics will include standards, history, philosophy, school organization, classroom management, and assessment.

MUE 2346 Vocal Techniques (1). This course is designed to give basic technical and pedagogical vocal skills necessary for both solo and choral settings.

MUE 2440C String Techniques (1). Class instruction of string instruments; tuning and care of instruments; teaching techniques, fingerings, bowings; violin, viola, cello, and double bass.

MUE 2450C Woodwind Techniques (1). Class instruction of woodwind instruments; tuning and care of instruments. Teaching techniques. Single reed instruments, double reed instruments, and flute. Class one hour, laboratory one hour.

MUE 2460C Brass Techniques (1). Class instruction of brass instruments; tuning and care of instruments. Teaching techniques. Piston and valve instruments, French horn, and trombone. Class one hour, laboratory one hour.

MUE 2470C Percussion Techniques (1). Class instruction of percussion instruments; sticking techniques; care of instruments; teaching techniques. Drum and mallet instruments. Class one hour, laboratory one hour.

MUE 3210 Content and Methods of Teaching Elementary Music (3). Provides content and methods of teaching elementary music as a mode of communication and creative expression to elementary students of diverse backgrounds. (F,S,SS)

MUE 3340 Elementary School Teaching Methods (3). Development of instructional skills, techniques, and strategies for elementary school classroom music for the music teacher. Laboratory and field work required.

MUE 3395 Music in Special Education (3). The study of musical experiences for students with disabilities in mainstreamed and self-contained special education music classes. Appropriate musical adaptations and modifications are emphasized. Prerequisites: Upper division music major, DEP 2000.

MUE 3411C Choral Methods (1). Designed to facilitate the development of skills, techniques, understandings, and professional dispositions which are necessary for leadership. Prerequisite: Permission of the instructor.

MUE 3921 Choral Conducting Workshop (3). The study of various topics related to choral literature, conducting and techniques. Prerequisite: Permission of the instructor.

MUE 3922 String Workshop (3). The study of various topics related to string literature, conducting and techniques. Prerequisite: Permission of the instructor.

MUE 3923 Instrumental Conducting Workshop (3). The study of various topics related to instrumental ensemble literature, conducting, and techniques. Prerequisite: Permission of the instructor.

MUE 3924 Jazz Workshop (3). The study of various topics related to jazz literature, conducting and techniques. Prerequisite: Permission of the instructor.

MUE 4094 Middle & Secondary School Vocal & Instrumental (3). Development of instructional skills and rehearsal technique, skills and strategies for teaching music in the middle school or senior high school. Laboratory and field work required. (F)

MUE 4480 Marching Band Techniques (3). A study of show design and concepts; marching band management and organizational procedures including booster organizations, inventory, handbooks, grading procedures and rehearsal fundamentals. Prerequisite: Permission of Instructor.

MUE 4940 Student Teaching in Music Education (9). Supervised teaching in an elementary and secondary school. Prerequisite: Admission to the program.

MUE 5485 Marching Band Techniques (3). A study of show design and concepts; marching band management and organizational procedures including booster organizations, inventory, handbooks, grading procedures, rehearsal techniques. Prerequisite: Permission of Instructor.

MUE 5921 Choral Conducting Workshop (3). The study of various topics related to choral literature, conducting and techniques. Prerequisite: Permission of the instructor.

MUE 5922 String Workshop (3). The study of various topics related to string literature, conducting and techniques. Prerequisite: Permission of the instructor.

MUE 5923 Instrumental Conducting Workshop (3). The study of various topics related to instrumental ensemble literature, conducting, and techniques. Prerequisite: Permission of the instructor.

MUE 5924 Jazz Workshop (3). The study of various topics related to jazz literature, conducting and techniques. Prerequisite: Permission of the instructor.

MUE 5928 Workshop in Music (3). Applications of materials and techniques in music in a laboratory or field setting.

MUG 4101 Basic Conducting (1). A basic conducting course to gain fundamental technique and interpretation. A prerequisite for both advanced instrumental and choral conducting.
MUG 4202 Choral Conducting (1). With a background in basic theory, and having performed in ensembles, the student will develop techniques of group conducting including madrigal, glee, choir, etc. A survey of choral literature will be included. Prerequisite: MUG 4101.

MUG 4302 Instrumental Conducting (1). With a background in basic theory, and having performed in ensembles, the student will develop a knowledge of baton technique, score reading, and interpretation. Prerequisite: MUG 4101. Corequisites: Orchestra or wind ensemble or both.

MUG 4303 Advanced Orchestral Conducting (3). Advanced study of orchestral conducting, including gesture, rehearsal techniques, interpretation, score analysis, and repertoire. Prerequisites: MUG 4302 and permission of the instructor.

MUG 5105 Advanced Conducting Techniques (1). An extension of form and analysis, with interpretation both in instrumental, and choral conducting. Twentieth-century scoring and symbol interpretation will be studied in depth, with actual conducting experience required.

MUG 5205 Graduate Applied Choral Conducting (2). Advanced study of choral conducting, including gesture, rehearsal techniques, and repertoire. Prerequisites: Graduate standing and permission of the instructor.

MUG 5307 Graduate Applied Wind Conducting (2). Advanced study of wind conducting, including gesture, rehearsal techniques, and repertoire. Prerequisites: Graduate standing and permission of the instructor.

MUG 5935 Conducting Seminar (1). An examination of the principal issues of conducting, emphasizing score reading and study, rehearsal, interpretation, and contemporary techniques. Prerequisites: Graduate standing and/or permission of the instructor.

MUH 1011 Music Appreciation (3). Lives and creations of great composers in various periods of history. A multimedia course.

MUH 1560 African American Music (3). Examines the historical influence and development of African American music from its African roots to its dominance in the American popular culture.

MUH 2010 Music History Overview (3). A survey of the main historical musical periods through a concise analysis of the main representatives of these periods and their milestone works.

MUH 2022 History of Rock Music (3). This course traces the historical origins, characteristics and stylistic developments of rock music from a musical and sociological perspective.

MUH 2051 World Music Cultures (for non-music majors) (3). This course provides an introductory survey of traditions and transformations of music in global perspective, exploring music both as a phenomenon of sound and a phenomenon of culture.

MUH 2116 Evolution of Jazz (3). A history course that surveys jazz styles from mid-19th century to the present. A sociological and musical look at jazz, the personalities and their experience.

MUH 2370 The History of The Beatles (3). This course traces the development of The Beatles from their beginnings to their solo work. The discussions begin in America with the Blues, Rockabilly and the birth of Rock 'n' Roll. The paramount role of The Beatles in the revolutionary decade of the 1960s will be explored in detail, both from a musical and sociological perspective.

MUH 3060 Latino Music in the United States (3). Survey of Latin American musical tradition brought through immigration. Examination of musical style and social context in lecture-discussion format with film and performance demonstrations.

MUH 3061 Music of Mexico and Central America (3). A survey of folk, popular and classical musical traditions in the region. Examination of musical style and social context in lecture-discussion format with film and performance demonstrations.

MUH 3062 Music of the Caribbean (3). Survey of folk, popular and classical musical traditions and their ongoing connection with Caribbean populations in the U.S. Class includes film and performance demonstrations.

MUH 3073, 5075 Women in Music (3). Introduces students to women musicians including performers, composers, and researchers in all genres.

MUH 3211 Music History Survey I (3). A survey of music from antiquity to 1600. Lectures on historical styles will be supplemented with recordings and musical analysis. Prerequisites: Music majors.

MUH 3212 Music History Survey II (3). A survey of music from 1600 to 1800. Lectures on historical styles will be supplemented with recordings, and musical analysis. Prerequisites: MUH 3211 or permission of the instructor.

MUH 3213 Music History Survey III (3). A survey of music from 1800 to 1945. Lectures on historical styles will be supplemented with recordings and musical analysis. Prerequisites: MUH 3211 and MUH 3212 or permission of the instructor.

MUH 3214 Music History Survey IV (3). The fourth semester of the music history sequence covers the history of music from 1945 to the present, and includes the detailed study of its literature through critical listening and analysis. Prerequisite: Music majors.

MUH 3541 Music of Latin America: Folklore and Beyond (3). An overview of the orchestral, chamber, solo, vocal, and electronic music from Latin America written in the 20th century and its relationship to the folk music of the region.
MUH 3570 Survey of Asian Music (3). Examines the major Asian musical traditions within the cultural framework of history, arts, and traditions.

MUH 3801 Jazz History (3). An in-depth study of jazz music from its inception to the present day. Specifically designed for music majors, in particular Jazz Studies students. Prerequisites: MUT 1112, MUT 1222.

MUH 3813 History of Afro-Cuban Jazz (3). A study of the history and evolution of Afro-Cuban Jazz, including Cuban popular music and traditional dance forms, folkloric music of African origin, influences from American popular music and early American Jazz, as well as other music from the Caribbean.

MUH 3912C Basic Music Research and Bibliography (2). This course will familiarize the student with major sources for research in music, develop the ability to research and write a term paper or thesis, and document those findings in a scholarly format. Prerequisite: Music majors.

MUH 4341 Music of the Baroque Period (3). Survey of the major genres, styles, and composers of the Baroque period within the wider context of Baroque aesthetics and culture. Introduction to Baroque performance practice. Prerequisites: MUH 3211, MUH 3212.

MUH 4680 Music History Seminar I (2). Emphasizes both historical and theoretical analysis. Scholarly work under faculty direction, develops written skills and research methods. Written project required. Prerequisites: MUH 3211, MUH 3212, and permission of the instructor.

MUH 4681 Music History Seminar II (2). Emphasizes both historical and theoretical analysis. Scholarly work under faculty direction, develops written skills and research methods. Written project required. Prerequisites: MUH 4680 or permission of the instructor.

MUH 4682 Music History Seminar III (2). Emphasizes both historical and theoretical analysis. Scholarly work under faculty direction, develops written skills and research methods. Written project required. Prerequisite: MUH 4681.

MUH 4683 Music History Seminar IV (2). Emphasizes both historical and theoretical analysis. Scholarly work under faculty direction, develops written skills and research methods. Written project required. Prerequisite: MUH 4682.

MUH 5057 Music of the World (3). Survey of folk, popular and classical musical traditions from around the world. Examination of musical style and social context with film and performance demonstrations.

MUH 5065 Latino Music in the United States (3). Survey of Latin American musical traditions brought through immigration. Examination of musical style and social context in lecture-discussion format with film and performance demonstrations.

MUH 5066 Music of Mexico and Central America (3). A survey of folk, popular and classical musical traditions in the region. Examination of musical style and social context in lecture-discussion format with film and performance demonstrations.

MUH 5075 Women in Music (3). Introduces students to women musicians including performers, composers, and researchers from all genres.

MUH 5219 Graduate Music History Survey I (1-3). Music history overview for entering graduate students. Prerequisite: Music history placement test.

MUH 5345 Musical Style and Practice in the Baroque Era (3). Detailed treatment of the genres, styles, and composers of the Baroque period within the wider context of Baroque aesthetics and culture. Exploration and application of Baroque performance practice.

MUH 5546 Music of the Americas (3). An exploration of the folk, popular, and art music of Latin America.

MUH 5575 Survey of Asian Music (3). Examines the major Asian musical traditions within the cultural framework of history, arts, and traditions.

MUH 5685 Graduate Music History Review I (1-3). Examination of music history achievements from Antiquity through the Renaissance. Musical structures and composers from these eras are studied through lectures supplemented by recordings and musical analysis. Prerequisites: Graduate standing and permission of the instructor.

MUH 5686 Graduate Music History Review II (1-3). Examination of music history achievements of the Baroque and Classical eras. Musical structures and composers from these eras are studied through lectures supplemented by recordings and musical analysis. Prerequisites: Graduate standing and permission of the instructor.

MUH 5687 Graduate Music History Review III (1-3). Examination of music history achievements from the Romantic era to the present. Musical structures and composers from these eras are studied through lectures supplemented by recordings and musical analysis. Prerequisites: Graduate standing and permission of the instructor.

MUH 5688 Graduate Music History Review IV (2). The fourth semester of the music history sequence covers the history of music from 1945 to the present, and includes the detailed study of its literature through critical listening and analysis. Prerequisite: Music majors.

MUH 5815 Jazz History: The Innovators (2). Advanced analysis of key jazz figures at the graduate level.

MUL 3551 Wind Literature (3). This course is a study of intermediate and advanced wind repertoire. Emphasis is placed on the history of wind music, and the music that creates the cornerstone of wind literature.
MUL 3600 Art Song Literature (3). A chronological survey of solo vocal literature from the Medieval period to the national schools of the contemporary era.

MUL 3470 The History and Repertoire of the String Quartet (2). The History and Repertoire of the String Quartet provides a broad-based overview of the origins of and literature for string quartet, through listening, discussion, analysis, and live performance.

MUL 4400 Keyboard Literature I (3). Study of solo works for the keyboard from historical beginnings to 1828. Performance practices and stylistic analysis will be emphasized, with illustrations of representative works. Prerequisites: MUH 3211, MUH 3212.

MUL 4401 Keyboard Literature II (3). Study of solo works for the keyboard from 1828 to the present. Performance practices and stylistic analysis will be emphasized, with illustrations of representative works. Prerequisite: MUL 4400.

MUL 4430 Guitar Literature (3). Survey of solo, chamber, and concerto guitar literature from the 16th century to the present. Repertoires will be examined from historical, analytical, pedagogical, and text-critical perspectives.

MUL 4490 Survey of Organ Literature (3). Survey of organ literature, history, performance practice, and organ design. Includes historic sound recordings. Prerequisite: Permission of instructor.

MUL 4500 Symphonic Literature (3). Survey of symphonic literature from the 17th century to present day. Analysis and illustrations of representative works. Prerequisites: MUH 3211 and MUH 3212.

MUL 4505 Keyboard Literature I (3). Study of solo works for the keyboard from historical beginnings to 1828. Performance practices and stylistic analysis will be emphasized, with illustrations of representative works.

MUL 4506 Keyboard Literature II (3). Study of solo works for the keyboard from 1828 to the present. Performance practices and stylistic analysis will be emphasized, with illustrations of representative works.

MUL 5405 Keyboard Literature I (3). Study of solo works for the keyboard from historical beginnings to 1828. Performance practices and stylistic analysis will be emphasized, with illustrations of representative works. Prerequisite: MUL 5405.

MUL 5455 Keyboard Literature II (3). Performance practices and stylistic analysis for the keyboard from historical beginnings to 1828. Prerequisites: MUL 5405.

MUL 5456 Wind Instrument Literature (3). The study and development of Wind Instrument Literature from ca. 1650 to the present day. Music appropriate for all levels of instruction from middle school through college level is included. Prerequisite: Advanced/graduate standing.

MUL 5495 Survey of Organ Literature (3). Survey of organ literature, history, performance practice and organ design. Includes historic sound recordings and in-class performance. Prerequisite: Permission of instructor.

MUL 5496 Organ Literature I (3). Survey of organ literature from antiquity to 1750 in the German, French, Italian schools.

MUL 5497 Organ Literature II (3). Survey of organ literature from 1750 to the present in the German, French, and American schools.

MUL 5505 Symphonic Literature (3). The study of the symphony and the symphonic tone poem from its origin in the Baroque period to the twentieth century. Prerequisites: Graduate standing in Music and permission of instructor.

MUL 5607 Vocal Literature I (2). A survey of solo vocal literature from the 17th century to the late 18th century. Emphasis will be placed on a discussion of ornamentation and performance-practice and comparisons of editions.

MUL 5609 Survey of Art Song Literature (3). An historical survey of the literature for solo voice from the medieval period to the national schools of the contemporary era.

MUL 5624 Vocal Literature II (2). The German Lied and its poetry. Emphasis will be placed on a study of the poets and their poetry, important facts of the composers’ lives and times and other musical and cultural developments. Prerequisite: Graduate standing.

MUL 5625 Vocal Literature III (2). The French Melodie. Emphasis will be placed on a study of the poets and their poetry, their styles and schools, the composers’ lives and times and other musical and cultural developments. Prerequisite: Graduate standing.

MUL 5626 Vocal Literature IV (2). Twentieth-century art song. Emphasis will be placed on the rise of the nationalist schools, the development of atonalism and other modern schools of thought.

MUL 5645 Choral Literature (3). A survey of sacred and secular choral literature from the Middle Ages to the present. Emphasis on stylistic analysis and performance practice for each style period. Includes score study, aural analysis of recorded performances and in-class performances. Prerequisite: Permission of the instructor.

MUL 5671 Opera Literature (3). A chronological survey of operatic literature from the 17th century to the present day. Emphasis placed on the historical milieu in which the operatic form evolved through the ages.
MUM 1401 Music Calligraphy (3). The correct procedures for music penmanship, the notation of notes and chords for music parts and scores.

MUM 3601 Audio Techniques I (3). Basic sound engineering, including the basic workings of P.A. equipment and the interplay between the various components.

MUM 3602 Audio Techniques II (3). Studio recording techniques, microphone placement, taping and mixing.

MUM 4301 Business of Music (3). Principles and practices of modern publishing techniques; copyright laws; wholesale and retail distribution of music. Performance rights; agreements and relations between producers, directors, performers, writers, personnel managers, and booking agents. Prerequisite: Permission of the instructor.

MUM 4302 Business of Music II (3). Continuation of principles and practices of modern publishing techniques; copyright laws; wholesale and retail distribution of music. Performance rights; agreements and relations between producer, directors, performers, writers, personnel managers, booking agents. Prerequisite: MUM 4301.

MUM 4803 Grant Writing for the Arts (2). Designed to familiarize the student with the fundamental tools and techniques in writing a successful grant proposal for the arts. Focuses on the basics of grant writing, where to find funding sources and grant evaluation procedures.

MUM 4940 Music Internship (VAR). Practical experience utilizing music theory, composition, and history in the commercial music industry. The precise nature of the work will be determined in consultation with an advisor. Prerequisite: MUM 4301 and permission of graduate advisor.

MUM 5705 Advanced Business of Music (3). Topics include strategic planning, employee development, and decision making. Also includes a study of publishing, collection agencies, creative unions, and contracts with composers and producers. Prerequisites: MUM 4301 and permission of graduate advisor.

MUM 5715 Performing Arts Production I (2). Focus on the various aspects of performing arts production. Students attend performances of every possible genre of performing arts and critique the production and the venue. Prerequisite: Permission of graduate advisor.

MUM 5725 Live Music Operations I (2). How promoters and producers project a profit margin and the ability to oversee a profit; considering overhead, scheduling, accommodations, concessions, sound and light. Prerequisite: Permission of the graduate advisor.

MUM 5726 Live Music Operations II (3). Continuation of MUM 5725. Live Music Operations I. Emphasis on promoters’, producers’, and managers’ ability to project a profit margin. An on-campus production is required as the final project. Prerequisites: MUM 5725 and permission of the graduate advisor.

MUM 5795 Music Production Laboratory I (1). Students are assigned to work in the production of 10-15 individual concert productions. The productions are varied and provide the students the opportunity to put in practice work learned in the classroom. Prerequisite: Permission of the graduate advisor.

MUM 5796 Music Production Laboratory II (1). A continuation of Music Production Lab I. Students are assigned to work in the production of 10-15 individual concert productions. Prerequisites: MUM 5795 and permission of the graduate advisor.

MUM 5797 Music Production Laboratory III (1). A continuation of Music Production Lab II. Students are assigned to work in the production of 10-15 individual concert productions. Prerequisites: MUM 5796 and permission of the graduate advisor.

MUM 5808 Grant Writing for the Arts (2). Designed to familiarize the student with the tools and techniques in writing a successful grant proposal. Focuses on the perspective of the arts manager/administrator in relation to grant writing and grant management.

MUM 5809 Music Production Seminar (3). Explores issues and practical applications in the management of music centers, arts organizations and arts centers. Includes examination of local arts centers, local arts councils, music venues, performing arts venues, arts organizations, and arts service organizations. Prerequisites: Graduate standing or permission of instructor.

MUM 5946 Performance Arts Internship (9). Interns assist and/or observe in all job functions and duties at an entertainment venue. Areas include: production management; design services; technical production; talent booking and casting; and creative show development. Prerequisite: Permission of graduate advisor.

MUN 1100, 4103, 5105 Golden Panther Band (3). A study and performance of pop, jazz, and rock musical selections for the instrumental medium. Students will demonstrate what they have learned by performing and through individualized playing examinations. Prerequisite: Permission of the instructor.

MUN 1120, 3123, 5125 Symphony Band (1). Concert Band ensemble for music majors on secondary instruments and non-music majors. Various types of concert band literature covered from differing grade levels. Course open to anyone who has previous experience playing a wind or percussion instrument.

MUN 1140, 4143, 5145 Symphonic Wind Ensemble (1). Readings and performances of wind ensemble music from the 18th century to the present. Open to wind and percussion instrumentalists. Prerequisite: Permission of conductor.

MUN 1210, 4213, 5215 Orchestra (1). An instrumental ensemble performing works from the symphonic repertory. Prerequisites: Previous experience and permission of conductor.

MUN 1310, 3313, 5315 Concert Choir (1). A choral ensemble performing music written and arranged for mixed voices. Prerequisite: Permission of the instructor.

MUN 1340, 3343, 5345 University Chorale (1). A mixed choir performing repertoire from Renaissance to Modern,
as well as multicultural works. Prerequisite: Permission of conductor.

MUN 1380, 3383, 4380, 5385 Master Chorale (1). A chorus performing a repertoire primarily from great choral works. Large orchestral accompaniment as well as various instrumental ensembles will be utilized. Prerequisite: Permission of conductor.

MUN 1430, 3433, 5435 University Brass Choir (1). A study and performance of literature written for the brass medium (trumpet, horn, trombone, euphonium, and tuba) from the pre-baroque, baroque, classical, romantic and contemporary periods. May be repeated. Prerequisite: Permission of the instructor.

MUN 1460, 3463, 5465 Chamber Music (1). Small ensemble in the performing of chamber music literature. Prerequisite: Permission of conductor.

MUN 1471 Collegium Musicum (1). Collegium Musicum provides a forum for the study and performance of the musical literature of the Medieval, Renaissance, and Baroque eras. Prerequisite: Permission of the instructor.

MUN 1481, 2482, 3484, 4486 Jazz Guitar Ensemble (1). Ensemble consists of five or more electric guitars performing arrangements, accompanied by bass and drums. Emphasis placed on sight reading, styles, phrasing, dynamics, ensemble blend, swing, etc.

MUN 1710, 3713, 5715 Studio Jazz Ensemble (1). An ensemble to provide creative professional-level experience in the contemporary popular idiom. Permission of conductor.

MUN 1790 Latin Jazz Ensemble (1). An ensemble to provide creative professional-level experience in the salsa/Latin jazz idiom. Prerequisite: Permission of the instructor.

MUN 2240, 4243, 5245 String Ensemble (1). Performance of orchestra literature for large string ensembles. Prerequisite: Permission of instructor.

MUN 2320, 4323, 5325 Women's Chorus (1). A choral ensemble performing music written or arranged for women's voices. Prerequisite: Permission of the instructor.

MUN 2330, 4333, 5335 Men's Chorus (1). A choral ensemble performing music written or arranged for men's voices. Prerequisite: Permission of the instructor.

MUN 2440, 4443, 5445 Percussion Ensemble (1). A study and performance of music literature characteristic of the percussion ensemble. Prerequisite: Permission of the instructor.

MUN 2450, 4453, 5455 Piano Ensemble (1). The presentation and performance of music literature characteristic of piano and pianos in ensemble.

MUN 2480, 4483, 5485 Guitar Ensemble (1). The presentation and performance of music literature characteristic of the Guitar Ensemble. Prerequisite: Permission of conductor.

MUN 2490, 4493, 5496 New Music Ensemble (1). A chamber group of varying instrumentation and size performing art music from the 20th century with emphasis on music from the past 20 years. Explores electronics, multimedia works, etc. Prerequisite: Permission of the instructor.

MUN 2820, 4823, 5826 Latin American Music Ensemble (1). Study and performance of one or more folk and/or popular musical styles from Latin America.

MUN 2510, 4513, 5515 Accompanying (1). Accompanying instrumental and vocal students in studio and recital situations.

MUN 2711, 4714, 5716 Jazz Combo Class (1). Harmonic practice, formal procedures, rhythmic and improvisational practices of jazz performance in the small group. Prerequisite: Permission of conductor.

MUN 3024 Laptop and Electronic Arts Ensemble (1). Explores new combinations of live electronics with acoustic instruments and other media by performing a diverse repertoire of music and new works. Repeatable. Prerequisite: MUC 1342.

MUN 3474 Collegium Musicum (1). Collegium Musicum provides a forum for the study and performance of the musical literature of the Medieval, Renaissance, and Baroque eras. Sources research and programming are an additional component. Prerequisite: Permission of the instructor.

MUN 3793, 5795 Latin Jazz Ensemble (1). An ensemble to provide professional-level experience in the salsa/Latin jazz idiom. May be repeated. Prerequisite: Permission of the instructor.

MUN 3890 Klezmer Ensemble (1). An ensemble for the study and performance of Jewish Folk Music (Klezmer music). Various forms of Klezmer music will be explored, and harmonic and melodic structure will be studied. Prerequisites: Music majors, by audition.

MUN 4784, 5785 Jazz Ensemble Rehearsal Techniques (1). An ensemble that provides its members a creative approach to jazz ensemble rehearsal techniques, literature, improvisation and related materials. Prerequisite: Permission of the instructor.

MUN 5477 Collegium Musicum (1). Collegium Musicum provides a forum for the study and performance of the musical literature of the Medieval, Renaissance, and Baroque eras. Participation in the composition of program notes and rehearsal direction are additional components. Prerequisite: Permission of the instructor.

MUO 1501, 4502, 5505 Opera Workshop (1). The presentation and performance of music literature indigenous to the opera stage. Prerequisite: Permission of director.

MUO 2001 Music Theater Workshop-Voice (2). Introduction to musical comedy performance; integration of dramatic, musical and movement components studied through work on selected scenes and songs. Particular emphasis on vocal training. Corequisite: TPP 3250.

MUO 3603 Elements of Stage Production (2). Aspects of technical theatre will be examined such as stage design and lighting, costumes and make-up, stage direction, prop construction, prompting, and Opera Theatre administration.
MUO 4503 Opera Theatre I (3). Culmination of opera courses with emphasis on accumulation of repertoire, systematic development of a role, and rehearsal procedures and discipline. Student may perform self-directed scenes. Permission of the instructor.

MUO 4504 Opera Theatre II (3). Continuation of Opera Theatre I. Student may participate in staged operatic production as performer or technical personnel. Prerequisites: MVV 4561, MVV 4451, and MVV 3931 or permission of the instructor.

MUR 3941, 5946 Organ Practicum (2). Study of practical aspects of organ performance as it pertains to employment within a sacred chamber music setting.

MUS 1010, 3040 Recital Attendance (0). Students attend concerts and recitals as a corequisite to applied music. Required of music majors each semester.

MUS 2201 Diction I (2). To develop skills in the proper enunciation of Italian, French and Latin diction as applied to singing in opera, oratorio, and art song.

MUS 2202 Diction II (2). Develop skills in the proper enunciation of English, German and Spanish language in the performance of art song, oratorio, and opera literature.

MUS 2211 English Diction (1). Develop the skills in the proper enunciation of the English language as used in opera, oratorio, and art song literature. Corequisites: All applied MVV.

MUS 2221 French Diction (1). Develop the skills in the proper enunciation of the French language as used by singers in opera, oratorio, and art song literature. Corequisites: All applied MVV.

MUS 2231 German Diction (1). Develop the skills in the proper enunciation of the German language as used by singers in opera, oratorio, and art song literature. Corequisites: All applied MVV.

MUS 2241 Italian Diction (1). Develop the skills in the proper enunciation of the Italian language as used by singers in opera, oratorio, and art song literature. Corequisites: All applied MVV.

MUS 2501 Introduction to Digital Audio Production (3). A project-oriented class with assignments in basic audio editing, plug-ins, and sound effects.

MUS 3331 Recording and Production in Pro Tools (3). A project-oriented class in audio recording and editing using the Pro Tools application. Prerequisite: MUS 2501.

MUS 3333 Sound Reinforcement (2). Students gain hands-on experience with the music technology required for recording, mixing, and processing digital signals. Prerequisite: MUC 1342.

MUS 3905, 5905 Directed Study (VAR). Designed to provide areas of exploration and specialization beyond the basic selected study programs, such as electronic music, religious music literature, sound techniques, etc. Prerequisite: Permission of the instructor.

MUS 3910, 4910, 5910 Research (VAR). Research composition or performance projects, under the guidance and direction of the music faculty. (May be repeated). Prerequisite: Permission of the instructor.

MUS 4650 Experimental Music and Arts (3). The history of interdisciplinary art created in the 20th century is covered, giving students from different areas the opportunity to create interdisciplinary works.

MUS 4949 Cooperative Education in Performing Arts (VAR). A student majoring in Performing Arts may spend several semesters fully employed in industry or government in a capacity relating to the major.

MUS 5205 Graduate Review Diction I (2). To review the rules and methods of correct pronunciation of Italian, French, and Latin lyric diction as applied to singing opera, oratorio, and art song.

MUS 5345 MIDI Technology (2). Introduction to MIDI technology including sequencing, notation, patch editing and a variety of other applications. Prerequisite: Graduate standing.

MUS 5512 Sound Reinforcement (2). Exploration of live music on location, dealing with commonly encountered acoustical problems and how to overcome them. Prerequisite: Permission of the graduate advisor.

MUS 5527 Laptop and Electronic Arts Ensemble (1). The Laptop and Electronic Arts Ensemble explores new combinations of live electronics with acoustic instruments and other media by performing a diverse repertoire of music and new works. Prerequisites: MUC 2301/MUC 6305.

MUS 5655 Expanding Artistic Expression (2). Focuses on expanding the horizons of the artistic vision of the student. Accomplished through a series of projects. Prerequisite: Permission of the graduate advisor.

MUS 5711 Music Bibliography (2). Library research methods and materials; documentation of research results in bibliographic style. Develops critical thinking and evaluative skills regarding sources of information, print and online. Prerequisite: Graduate standing.

MUS 5906 Thesis/Recital (1-6). For students working on a thesis or recital for MM in Music. To be completed under the supervision of a faculty member. Prerequisite: Graduate standing.

MUS 5971 Thesis (1-6). Research and/or performances towards completion of master's thesis work. Prerequisite: Permission of graduate area advisor.

MUT 1001 Fundamentals of Music (3). A beginning music theory course in the basic elements of music rhythms, meter notation, key signatures, scales, intervals, and triads.

MUT 1111 Music Theory I (3). This course is designed to promote and develop comprehensive musicianship in all disciplines of the musical art, analysis, composition, performance, and listening. Prerequisites: MUT 1001 or departmental placement test, or a score of 3 or better on the AP Music Theory Examination. Priority given to music majors and minors.
MUT 1112 Music Theory II (3). This course is designed to promote and develop comprehensive musicianship in all disciplines of the musical art, analysis, composition, performance, and listening. The second semester is a continuation of Theory I. Prerequisite: MUT 1111.

MUT 1221 Sightsinging I (1). Development of Basic Musicianship through aural perception, sightsinging, and ear training exercises.

MUT 1222 Sightsinging II (1). Development of Basic Musicianship through aural perception, sightsinging and ear training exercises. The second semester is a continuation of Sightsinging I. Prerequisites: MUT 1111, MUT 1221.

MUT 2116 Music Theory III (3). Continuation of Music Theory II. It seeks to promote and further develop comprehensive musicianship in all disciplines of the musical art, analysis, composition, performance, and listening. Prerequisite: MUT 1112.

MUT 2117 Music Theory IV (3). This course further develops those skills acquired in Music Theory III. Prerequisite: MUT 2116.

MUT 2226 Sightsinging III (1). Continuation of Sightsinging II through aural perception, sightsinging, and ear training exercises. Prerequisites: MUT 1112, MUT 2222.

MUT 2227 Sightsinging IV (1). Continuation of Sightsinging III through aural perception, sightsinging, and ear training exercises. Prerequisites: MUT 2226, MUT 2116.

MUT 2641 Jazz Improvisation I (2). A beginning course in Jazz improvisation that teaches fundamental aspects, chord structures and extensions, chord scales, melodic patterns, and tunes. Course will involve both theory and practical application. A concert will be held at conclusion of the term. Prerequisite: Permission of the instructor.

MUT 2642 Jazz Improvisation II (2). A follow-up course that both reinforces and extends all materials learned in Jazz Improvisation I. Course stresses more complex chord structures, scales, and tunes. A concert will be held at conclusion of the term. Prerequisite: MUT 2641.

MUT 3170C Jazz Theory I (3). This 3-credit course is designed to streamline the jazz curriculum by replacing 'Jazz Eartraining', 'Introduction to Jazz Studies', and 'Jazz Styles and Analysis'. It is a required course for all jazz performance majors. Prerequisites: MUT 2117, 2227. Corequisite: MUT 2641.

MUT 3171C Jazz Theory II (3). Advanced jazz theory/harmony and ear-training. This is a required course for all jazz performance majors. Prerequisite: MUT 3170C. Corequisite: MUT 2642.

MUT 3401 Counterpoint (3). A study of linear writing through species counterpoint. Two and three-part instrumental and vocal counterpoint of the 18th century: Canon, inventions, fugues. Emphasis will be placed on formal analysis. Prerequisites: MUT 2117, 2227.

MUT 3611 Form and Analysis (3). Study and analysis from the smaller forms of musical composition to multimovement forms. Prerequisites: MUT 2117, MUT 2227.

MUT 4141 Comprehensive Music Systems (3). An introduction to the applied techniques of recent comprehensive theoretical approaches to musical analysis. Prerequisites: MUT 3611 or permission of the instructor.

MUT 4311 Orchestration (3). With a background of basic theory, the student will explore the techniques of writing and arranging for instruments in performing organizations. Prerequisites: MUT 2117 and MUT 2227.

MUT 4312 Advanced Orchestration (3). A follow-up course to Orchestration that teaches students advanced techniques in scoring for orchestral instruments as utilized by composers of western art music from classical to present times. Prerequisites: MUT 4311 or permission of the instructor.

MUT 4353 Jazz Arranging (2). This course teaches the fundamental aspects of jazz arranging: instrumentation, transposition, section and ensemble writing, chord voicing, counterpoint, and form and analysis. The performance of an original arrangement is required as a final project. Prerequisite: MUT 2641.

MUT 4354 Advanced Jazz Arranging (2). Advanced arranging and orchestration techniques for large jazz ensemble. Prerequisite: MUT 4353.

MUT 4628 Atonal Analysis (3). A continuation of Music Theory IV, this course introduces students to the basic concepts and procedures for set-theoretic analysis of atonal and serial techniques used in 20th-century music. Prerequisites: MUT 2117, MUT 2227, or permission of the instructor.

MUT 4643 Jazz Improvisation III (2). A continuation of Jazz Improvisation II, this course teaches chromatic chords, advanced scales and progressions, patterns, repertoire. Individual and ensemble performance is required as a final project. Prerequisite: MUT 2642.

MUT 4664 Jazz Styles and Analysis II (2). An extensive study of the significant styles and performers in jazz history from its origins to the present. Includes instruction in layered listening, various analyses, and transcribing. Continuation of Jazz Styles and Analysis I. Prerequisites: Permission of the instructor.

MUT 5051 Graduate Theory Survey (1-3). Analytical, theoretical and aural skills required for successful graduate studies in music. Prerequisites: Placement exam or permission of the instructor.

MUT 5152 Comprehensive Musical Systems (3). Examination of various comprehensive theoretical systems utilized in the analysis of music. Prerequisites: Graduate standing or permission of the instructor.

MUT 5316 Advanced Orchestration (3). Examination of orchestration techniques utilized by composers from the Baroque era through current times. Prerequisites: Graduate standing or permission of the instructor.

MUT 5355 Advanced Jazz Arranging and Composition (2). Scores and recordings of various sized jazz ensembles are studied for technique and style. Students'
compositions and arrangements are performed. Topics include: forms, voicing techniques, instrumentation-live performance vs. recording session. Prerequisites: MUT 4353; MUT 4664.

MUT 5381 Arranging (3). A course in practical arranging for the public school teacher, including choral, band, and popular arranging. Prerequisites: MUT 2117 and MUT 2227.

MUT 5411 Modal Counterpoint (3). Develop skills necessary to write in the Renaissance style and to analyze the masterworks of Palestrina, Lassus, Victoria, and others. Prerequisites: Graduate standing in the Department of Music or permission of the instructor.

MUT 5486 Advanced Jazz Rehearsal Techniques (2). Study and practical application of complete preparation, programming, and rehearsing of small and large jazz ensembles. Students study scores and recordings of various jazz styles and rehearse school's ensembles. Prerequisites: MUN 4784; MUT 4643; MUT 4664.

MUT 5585 Musical Styles Through Strict Composition (3). This course is designed to develop basic compositional skills for writing works in all forms. Prerequisites: Graduate standing in the Department of Music or permission of the instructor.

MUT 5627 Schenkerian Analysis (3). Advanced studies in Schenkerian analysis of tonal music. Prerequisites: Graduate standing in the Department of Music or permission of the instructor.

MUT 5628 Atonal Analysis (3). Advanced studies in set theory and serial techniques of twentieth-century music. Prerequisites: Graduate standing in the Department of Music or permission of the instructor.

MUT 5629 Analytical Techniques (3). Examination and practice of various techniques utilized in the analysis of art music from the common practice period through the 20th century. Prerequisites: Placement exam or permission of the instructor.

MUT 5930 Special Topics (3). Examination of composers, compositional schools, or other areas of specialization and/or interest to the theory/composition faculty. Prerequisites: Graduate standing in the Department of Music or permission of the instructor.

MUT 5931 Advanced Jazz Techniques I (2). A comprehensive, theoretical study of topics related to jazz performance. Includes the nature of improvisation, advanced jazz harmony, theory of jazz improvisation, transcribing and analyzing solos of jazz masters. Prerequisite: MUT 4643.

MUT 5932 Advanced Jazz Techniques II (2). A continuing study of topics related to jazz performance. Includes analyzing solos of jazz masters, development of repertoire, style, and aesthetic concepts. Prerequisite: MUT 5646.

MUT 5746 Jazz Pedagogy (2). Materials, techniques, and philosophies related to teaching jazz. Includes preparation of courses, course outline and syllabi, lesson plans, lectures. Texts and other resources such as videos, recordings, periodicals, are examined. Prerequisites: MUT 5355.

MUT 5930 Special Topics (3). Examination of composers, compositional schools, or other areas of specialization and/or interest to the theory/composition faculty. Prerequisites: Graduate standing in Music and permission of instructor.

MVB 1211, 2221, 3231, 4241, 5251 Secondary Applied Trumpet (1). Individual instruction in applied music on trumpet as a secondary instrument. Prerequisite: Permission of the instructor.

MVB 1212, 2222, 3232, 4242, 5252 Secondary Applied French Horn (1). Individual instruction in applied music on French horn as a secondary instrument. Prerequisite: Permission of the instructor.

MVB 1213, 2223, 3233, 4243, 5253 Secondary Applied Trombone (1). Individual instruction in applied music on trombone as a secondary instrument. Prerequisite: Permission of the instructor.

MVB 1214, 2224, 3234, 4244, 5254 Secondary Applied Baritone Horn (1). Individual instruction in applied music on baritone horn as a secondary instrument. Prerequisite: Permission of the instructor.

MVB 1215, 2225, 3235, 4245, 5255 Secondary Applied Tuba (1). Individual instruction in applied music on tuba as a secondary instrument. Prerequisite: Permission of the instructor.

MVB 1311, 2321, 3331, 4341, 5351 Principal Applied Trumpet (2). Individual instruction in applied music on trumpet as a principal instrument. Music majors only.

MVB 1312, 2322, 3332, 4342, 5352 Principal Applied French Horn (2). Individual instruction in applied music on French horn as a principal instrument. Music majors only.

MVB 1313, 2323, 3333, 4343, 5353 Principal Applied Trombone (2). Individual instruction in applied music on applied trombone as a principal instrument. Music majors only.

MVB 1314, 2324, 3334, 4344, 5354 Principal Applied Baritone Horn (2). Individual instruction in applied music on baritone horn as a principal instrument. Music majors only.

MVB 1315, 2325, 3335, 4345, 5355 Principal Applied Tuba (2). Individual instruction in applied music on tuba as a principal instrument. Music majors only.

MVB 1411, 2421 Major Applied Trumpet (2). Individual instruction in applied music on trumpet as a major instrument. Music majors only.

MVB 1412, 2422 Major Applied French Horn (2). Individual instruction in applied music on French horn as a major instrument. Music majors only.

MVB 1413, 2423 Major Applied Trombone (2). Individual instruction in applied music on trombone as a major instrument. Music majors only.

MVB 1414, 2424 Major Applied Baritone Horn (2). Individual instruction in applied music on baritone horn as a major instrument. Music majors only.
MVB 1415, 2425 Major Applied Tuba (2). Individual instruction in applied music on tuba as a major instrument. Music majors only.

MVB 3431, 4441, 5451 Major Applied Trumpet (3). Individual instruction in applied music on trumpet as a major instrument. Music majors only.

MVB 3432, 4442, 5452 Major Applied French Horn (3). Individual instruction in applied music on French horn as a major instrument. Music majors only.

MVB 3433, 4443, 5453 Major Applied Trombone (3). Individual instruction in applied music on trombone as a major instrument. Music majors only.

MVB 3434, 4444, 5454 Major Applied Baritone Horn (3). Individual instruction in applied music on baritone horn as a major instrument. Music majors only.

MVB 3435, 4445, 5455 Major Applied Tuba (3). Individual instruction in applied music on tuba as a major instrument. Music majors only.

MVB 3970 Junior Recital - Brass (1). All music performance majors must present, during their junior year, at least one half of a public recital, and pass an oral examination on the music programmed. See areas of emphasis for specific requirements.

MVB 4971 Senior Recital - Brass (1). All music majors must present, before graduation, at least one half (full recital performance for majors) of a public recital, and pass an oral examination on the music programmed. See areas of emphasis for specific requirements.

MVJ 1013 Electric Guitar Techniques (2). The Electric Guitar Techniques specifically addresses the needs of guitar students working within the music technology area.

MVJ 1210, 2220, 3230, 4240, 5250 Secondary Jazz Piano (1). Individual instruction in applied jazz music on piano. Prerequisites: Preceding course in sequence or permission of the instructor.

MVJ 1213, 2223, 3233, 4243, 5253 Secondary Jazz Guitar (1). Individual instruction in applied jazz music on guitar. Prerequisites: Preceding course in sequence or permission of the instructor.

MVJ 1214, 2224, 3234, 4244, 5254 Secondary Jazz Bass (1). Individual instruction in applied jazz music on bass. Prerequisites: Preceding course in sequence or permission of the instructor.

MVJ 1215, 2225, 3235, 4245, 5255 Secondary Jazz Flute (1). Individual instruction in applied jazz music on flute. Prerequisites: Preceding course in sequence or permission of the instructor.

MVJ 1216, 2226, 3236, 4246, 5256 Secondary Jazz Saxophone (1). Individual instruction in applied jazz music on saxophone. Prerequisites: Preceding course in sequence or permission of the instructor.

MVJ 1217, 2227, 3237, 4247, 5257 Secondary Jazz Trumpet (1). Individual instruction in applied jazz music on trumpet. Prerequisites: Preceding course in sequence or permission of the instructor.

MVJ 1218, 2228, 3238, 4248, 5258 Secondary Jazz Trombone (1). Individual instruction in applied jazz music on trombone. Prerequisites: Preceding course in sequence or permission of the instructor.

MVJ 1219, 2229, 3239, 4249, 5259 Secondary Latin Jazz Percussion (1). Individual instruction in applied jazz music on percussion. Prerequisites: Preceding course in sequence or permission of the instructor.

MVJ 1310 Principal Applied Jazz Piano (2). Individual instruction in applied music on jazz piano as a principal level. Prerequisite: Music majors only.

MVJ 1311 Principal Applied Jazz Drums (2). Individual instruction in applied music on jazz drums as a principal instrument. Prerequisite: Music majors only.

MVJ 1312 Principal Applied Latin Jazz Percussion (2). Individual instruction in applied music on Latin jazz percussion as a principal instrument. Prerequisite: Music majors only.

MVJ 1313, 2323, 3333, 4343, 5353 Principal Applied Jazz Guitar (2). Individual instruction in applied jazz music on guitar. Prerequisites: Preceding course in sequence or permission of the instructor.

MVJ 1314, 2324, 3334, 4344, 5354 Principal Applied Jazz Bass (2). Individual instruction in applied jazz music on bass. Prerequisites: Preceding course in sequence or permission of the instructor.

MVJ 1316, 2326, 3336, 4346 Principal Applied Jazz Saxophone (2). Individual instruction in major instrument. An in-depth study of overall instrumental technique, styles, and other performance practices particularly relevant to jazz. Prerequisite: Audition.

MVJ 1317, 2327, 3337, 4347 Principal Applied Jazz Trumpet (2). Individual instruction in applied music on jazz trumpet at a principal level. Prerequisite: Music majors only.

MVJ 1318, 2328, 3338, 4348 Principal Applied Jazz Trombone (2). Individual instruction in applied music on jazz trombone at a principal level. Prerequisite: Music majors only.

MVJ 1410, 2420 Major Applied Jazz Piano (2). Individual instruction in applied music on jazz piano as a major level. Prerequisite: Music majors only.

MVJ 1411 Major Applied Jazz Drums (2). Individual instruction in applied music on jazz drums as a major instrument. Prerequisite: Music majors only.

MVJ 1413 Major Applied Jazz Guitar (2). Individual instruction in applied music on jazz guitar at a major level. Prerequisite: Music majors only.

MVJ 1414, 2424 Major Applied Jazz Bass (2). Individual instruction in applied music on jazz bass at a major level. Prerequisite: Music majors only.

MVJ 1416, 2426 Major Applied Jazz Saxophone (2). Individual instruction on major instrument. An in-depth study of overall instrumental technique, styles, and other performance practices particularly relevant to jazz. Prerequisite: Audition.
MVJ 1417, 2427 Major Applied Jazz Trumpet (2). Individual instruction in applied music on jazz trumpet at a major level. Prerequisite: Music majors only.

MVJ 1418, 2428 Major Applied Jazz Trombone (2). Individual instruction in applied music on jazz trombone at a major level. Prerequisite: Music majors only.

MVJ 2310, 3330, 4340 Principal Applied Jazz Piano (2). Individual instruction in applied music on jazz piano at a principal level. Prerequisite: Music majors only.

MVJ 2329, 3339, 4349, 5359 Principal Applied Jazz Drums (2). Individual instruction in applied music on jazz drums at a principal level. Prerequisite: Music majors only.

MVJ 2423 Major Applied Jazz Guitar (2). Individual instruction in applied music on jazz guitar at a major level. Prerequisite: Music majors only.

MVJ 2425 Major Applied Jazz Drums (2). Individual instruction on jazz drums at the applied level. Prerequisite: Audition.

MVJ 2429 Major Applied Jazz Latin Percussion (2). Individual instruction in applied music on jazz percussion as a major instrument. Prerequisite: Music majors only.

MVJ 3430, 4440 Major Applied Jazz Piano (3). Individual instruction in applied music on jazz piano as a major level. Prerequisite: Music majors only.

MVJ 3433, 4443 Major Applied Jazz Guitar (3). Individual instruction in applied music on jazz guitar at a major level. Prerequisite: Music majors only.

MVJ 3434, 4444 Major Applied Jazz Bass (3). Individual instruction in applied music on jazz bass at a major level. Prerequisite: Music majors only.

MVJ 3436, 4446, 5456 Major Applied Jazz Saxophone (3). Individual instruction on major instrument. An in-depth study of overall instrumental technique, styles, and other performance practices particularly relevant to jazz. Prerequisite: Audition.

MVJ 3435, 4445 Major Applied Jazz Drums (3). Individual instruction in applied music in the jazz idiom. Prerequisite: Audition.

MVJ 3437, 4447, 5457 Major Applied Jazz Trumpet (3). Individual instruction in applied music on jazz trumpet at a major level. Prerequisite: Music majors only.

MVJ 3438, 4448, 5458 Major Applied Jazz Trombone (3). Individual instruction in applied music on jazz trombone at a major level. Prerequisite: Music majors only.

MVJ 3439, 4449, 5459 Major Applied Jazz Latin Percussion (3). Individual instruction in applied music on jazz percussion as a major instrument. Prerequisite: Music majors only.

MVJ 3970 Junior Recital – Jazz (1). All music performance majors must present, during their junior year, at least one-half of a public recital, and pass an oral examination. See areas of emphasis for specific requirements. Prerequisite: Approval of director of Jazz Studies.

MVJ 4971 Senior Recital - Jazz (1). All music majors must present, before graduation, at least one half (full recital performance major) of a public recital, and pass an oral examination on the music programmed. See areas of emphasis for specific requirements.

MVJ 5150 Jazz Piano Techniques (1). Performance of basic jazz standards. Includes basic techniques of the instrument, chord voicing, comping, lead sheet realization for non-pianists. Prerequisites: Graduate standing or permission of the instructor.

MVJ 5350 Principal Applied Jazz: Keyboard (2). Individual advanced instruction on major instrument. An in-depth study of overall instrumental technique, eminent jazz styles, and other performance practices that are particularly relevant to jazz.

MVJ 5355 Principal Applied Jazz: Flute (2). Individual advanced instruction on major instrument. An in-depth study of overall instrumental technique, eminent jazz styles, and other performance practices that are particularly relevant to jazz.

MVJ 5356 Principal Applied Jazz: Saxophone (2). Individual advanced instruction on major instrument. An in-depth study of overall instrumental technique, eminent jazz styles, and other performance practices that are particularly relevant to jazz.

MVJ 5357 Principal Applied Jazz: Trumpet (2). Individual advanced instruction on major instrument. An in-depth study of overall instrumental technique, eminent jazz styles, and other performance practices that are particularly relevant to jazz.

MVJ 5358 Principal Applied Jazz: Trombone (2). Individual advanced instruction on major instrument. An in-depth study of overall instrumental technique, eminent jazz styles, and other performance practices that are particularly relevant to jazz.

MVJ 5450 Major Applied Jazz Piano (3). Individual instruction in applied music at the graduate level. Prerequisite: Audition.

MVJ 5453 Major Applied Jazz Guitar (3). Individual instruction on major instrument, focusing on the jazz idiom. An in-depth study of overall instrumental technique, eminent styles, and other performance practices that are particularly relevant to jazz and commercial performance. Prerequisite: Music Majors Only.

MVJ 5454 Major Applied Jazz Bass (3). Individual instruction on major instrument, focusing on the jazz idiom. An in-depth study of overall instrumental technique, eminent styles, and other performance practices that are particularly relevant to jazz and commercial performance. Prerequisite: Music Majors Only.

MVJ 5455 Major Applied Jazz Drums (3). Individual instruction in applied music at the graduate level. Prerequisite: Audition.

MVK 1111 Class Piano I (1). A course designed to teach piano skills and competencies to non-piano majors. This is a four-semester sequence for music majors. This course includes: keyboard familiarization, finger exercises and
techniques, transposing, and easy literature. Prerequisite: None. Music majors only.

MVK 1112 Class Piano II (1). A continuation of Class Piano I, MVK 1111. Prerequisite: MVK 1111. Music majors only.

MVK 1115 Keyboard Studies (1). Course designed to develop the composite keyboard skills and practical training for the piano major/principal to become a proficient sight-reader.

MVK 1211, 2221, 3231, 4241, 5251 Secondary Applied Piano (1). Individual instruction in applied music on piano as a secondary instrument. Prerequisite: Permission of the instructor.

MVK 1213, 2223, 3233, 4243, 5253 Secondary Applied Organ (1). Individual instruction in applied music on organ as a secondary instrument. Prerequisite: Permission of the instructor.

MVK 1311, 2321, 3331, 4341, 5351 Principal Applied Piano (2). Individual instruction in applied music on piano as a principal instrument. Music majors only.

MVK 1313, 2323, 3333, 4343, 5353 Principal Applied Organ (2). Individual instruction in applied music on organ as a principal instrument. Music majors only.

MVK 1411, 2421 Major Applied Piano (2). Individual instruction in applied music on piano as a major instrument. Music majors only.

MVK 1413, 2423 Major Applied Organ (2). Individual instruction in applied music on organ as a major instrument. Music majors only.

MVK 2121 Class Piano III (1). A continuation of Class Piano II. The course includes continued work in finger technique, scales and fingering, transposing, simple accompaniments to folk songs, sight reading cadences, and simple literature. Prerequisite: MVK 1112. Music majors only.

MVK 2122 Class Piano IV (1). A continuation of Class Piano III. Prerequisite: MVK 2121. Music majors only.

MVK 3130 Class Piano V (1). Further development of elementary keyboard techniques and musicianship: scales, harmonization, arpeggios, transposition, improvisation, sightreading, and simple literature. Prerequisites: MVK 2122 or by placement exam.

MVK 3131 Class Piano VI (1). A continuation of MVK 3130. Prerequisites: MVK 3130 or by placement exam.

MVK 3135 Class Jazz Piano I (1). Jazz piano techniques for non-piano majors. Prerequisite: MVK 2122. Corequisite: MUT 3170C.

MVK 3136 Class Jazz Piano II (1). Intermediate jazz piano techniques for non-piano majors. Prerequisite: MVK 3135. Corequisite: MUT 3171C.

MVK 3431, 4441, 5451 Major Applied Piano (3). Individual instruction in applied music on piano as a major instrument. Music majors only.

MVK 3433, 4443, 5453 Major Applied Organ (3). Individual instruction in applied music on organ as a major instrument. Music majors only.

MVK 3702 Ballet Accompanying (1). Training in the collaborative art form of Ballet accompaniment. Recognition of terminology/movement and appropriate musical accompaniment. Field observation, analysis and individual participation. Prerequisites: Piano majors and principals only.

MVK 3970 Junior Recital - Keyboard (1). All music performance majors must present, during their junior year, at least one half of a public recital, and pass an oral examination on the music programmed. See areas of emphasis for specific requirements.

MVK 4141 Class Piano VII (1). Further development of elementary keyboard techniques and musicianship: scales, harmonization, arpeggios, transposition, improvisation, sightreading, and simple literature. Prerequisites: MVK 3131 or by placement exam.

MVK 4142 Class Piano VIII (1). A continuation of MVK 4141. Prerequisites: MVK 4141 or by placement exam.

MVK 4971 Senior Recital - Keyboard (1). All music majors must present, before graduation, at least one half (full recital performance major) of a public recital, and pass an oral examination on the music programmed. See areas of emphasis for specific requirements.

MVK 5651 Piano Pedagogy (2). Survey of current piano teaching methods.

MVK 5605 Organ Pedagogy (2). An overview of historical and modern organ methods, pedagogies and supporting material.

MVK 5712 Survey of Dance Accompaniment (1). Survey of European dance tradition and musical accompaniment. Particular emphasis on the selection, improvisation/composition of musical accompaniment to Classical Ballet. Prerequisite: Graduate Piano Majors.

MVO 5651 Graduate Pedagogy (1). The development of teaching skills required by graduate assistants, including classroom skills, designing examinations, etc. Prerequisite: Graduate Assistants.

MVP 1211, 2221, 3231, 4241, 5251 Secondary Applied Percussion (1). Individual instruction in applied music on percussion as a secondary instrument. Prerequisite: Permission of the instructor.

MVP 1311, 2321, 3331, 4341, 5351 Principal Applied Percussion (2). Individual instruction in applied music on percussion as a principal instrument. Music majors only.

MVP 1411, 2421 Major Applied Percussion (2). Individual instruction in applied music on percussion as a major instrument. Music majors only.

MVP 3431, 4441, 5451 Major Applied Percussion (3). Individual instruction in applied music on percussion as a major instrument. Music majors only.

MVP 3970 Junior Recital - Percussion (1). All music performance majors must present, during their junior year, at least one half of a public recital, and pass an oral...
examination on the music programmed. See areas of emphasis for specific requirements.

**MVP 4971 Senior Recital - Percussion (1).** All music majors must present, before graduation, at least one half (full recital performance major) of a public recital, and pass an oral examination on the music programmed. See areas of emphasis for specific requirements.

**MVS 1116 Guitar Skills (1).** Emphasis on music reading and elementary techniques. Prerequisite: Permission of the instructor.

**MVS 1211, 2221, 3231, 4241, 5251 Secondary Applied Violin (1).** Individual instruction in applied music on violin as a secondary instrument. Prerequisite: Permission of the instructor.

**MVS 1212, 2222, 3232, 4242, 5252 Secondary Applied Viola (1).** Individual instruction in applied music on viola as a secondary instrument. Prerequisite: Permission of the instructor.

**MVS 1213, 2223, 3233, 4243, 5253 Secondary Applied Cello (1).** Individual instruction in applied music on cello as a secondary instrument. Prerequisite: Permission of the instructor.

**MVS 1214, 2224, 3234, 4244, 5254 Secondary Applied Double Bass (1).** Individual instruction in applied music on double bass as a secondary instrument. Prerequisite: Permission of the instructor.

**MVS 1215, 2225, 3235, 4245, 5255 Secondary Applied Harp (1).** Individual instruction in applied music on harp as a secondary instrument. Prerequisite: Permission of the instructor.

**MVS 1216, 2226, 3236, 4246, 5256 Secondary Applied Guitar (1).** Individual instruction in applied music on guitar as a secondary instrument. Prerequisite: Permission of the instructor.

**MVS 1311, 2321, 3331, 4341, 5351 Principal Applied Violin (2).** Individual instruction in applied music on violin as a principal instrument. Music majors only.

**MVS 1312, 2322, 3332, 4342, 5352 Principal Applied Viola (2).** Individual instruction in applied music on viola as a principal instrument. Music majors only.

**MVS 1313, 2323, 3333, 4343, 5353 Principal Applied Cello (2).** Individual instruction in applied music on cello as a principal instrument. Music majors only.

**MVS 1314, 2324, 3334, 4344, 5354 Principal Applied Double Bass (2).** Individual instruction in applied music on double bass as a principal instrument. Music majors only.

**MVS 1315, 2325, 3335, 4345, 5355 Principal Applied Harp (2).** Individual instruction in applied music on harp as a principal instrument. Music majors only.

**MVS 1316, 2326, 3336, 4346, 5356 Principal Applied Guitar (2).** Individual instruction in applied music on guitar as a principal instrument. Music majors only.

**MVS 1411, 2421 Major Applied Violin (2).** Individual instruction in applied music on violin as a major instrument. Music majors only.

**MVS 1412, 2422 Major Applied Viola (2).** Individual instruction in applied music on viola as a major instrument. Music majors only.

**MVS 1413, 2423 Major Applied Cello (2).** Individual instruction in applied music on cello as a major instrument. Music majors only.

**MVS 1414, 2424 Major Applied Double Bass (2).** Individual instruction in applied music on double bass as a major instrument. Music majors only.

**MVS 1415, 2425 Major Applied Harp (2).** Individual instruction in applied music on harp as a major instrument. Music majors only.

**MVS 1416, 2426 Major Applied Guitar (2).** Individual instruction in applied music on guitar as a major instrument. Music majors only.

**MVS 2226 Intermediate Guitar Skills (1).** Emphasis on techniques and styles such as calypso, folk, blues, classical, and jazz. Open to all FIU students. Prerequisite: MVS 1116.

**MVS 3431, 4441, 5451 Major Applied Violin (3).** Individual instruction in applied music on violin as a major instrument. Music majors only.

**MVS 3432, 4442, 5452 Major Applied Viola (3).** Individual instruction in applied music on viola as a major instrument. Music majors only.

**MVS 3433, 4443, 5453 Major Applied Cello (3).** Individual instruction in applied music on cello as a major instrument. Music majors only.

**MVS 3434, 4444, 5454 Major Applied Double Bass (3).** Individual instruction in applied music on double bass as a major instrument. Music majors only.

**MVS 3435, 4445, 5455 Major Applied Harp (3).** Individual instruction in applied music on harp as a major instrument. Music majors only.

**MVS 3436, 4446, 5456 Major Applied Guitar (3).** Individual instruction in applied music on guitar as a major instrument. Music majors only.

**MVS 3970 Junior Recital - String (1).** All music performance majors must present, during their junior year, at least one half of a public recital, and pass an oral examination on the music programmed. See areas of emphasis for specific requirements.

**MVS 4541, 5545 Orchestral Audition Repertoire (3).** This course prepares upper string players, primarily violinists, for professional auditions by coaching them intensively in the standard audition repertoire and by holding mock auditions. Prerequisite: Permission of the instructor.

**MVS 4971 Senior Recital - String (1).** All music majors must present, before graduation, at least one half (full recital performance major) of a public recital, and pass an oral examination on the music programmed. See areas of emphasis for specific requirements.

**MVV 1111 Voice Class (1).** Class instruction on voice designed to help the student in developing performance
skills and increased musical knowledge. Prerequisite: Permission of the instructor.

MVV 1211, 2221, 3231, 4241, 5251 Secondary Applied Voice (1). Individual instruction in applied music on voice as a secondary instrument. Prerequisite: Permission of the instructor.

MVV 1311, 2321, 3331, 4341, 5351 Principal Applied Voice (2). Individual instruction in applied music on trumpet as a principal instrument. Music majors only.

MVV 1411, 2421 Major Applied Voice (2). Individual instruction in applied music on voice as a major instrument. Music majors only.

MVV 2121 Intermediate Voice Class (1). Emphasis on sight-singing, tonal production, interpretation, and other vocal exercises. Particular attention is paid to vocal and acting improvisation. Prerequisite: MVV 1111.

MVV 3431, 4441, 5451 Major Applied Voice (3). Individual instruction in applied music on voice as a major instrument. Music majors only.

MVV 3630 Vocal Pedagogy (2). Research into various philosophies of vocal pedagogy with emphasis on the science of acoustics, anatomy, terminology, psychological factors which apply to the art of singing.

MVV 3970 Junior Recital - Voice (1). All music performance majors must present, during their junior year, at least one half of a public recital, and pass an oral examination on the music programmed. See areas of emphasis for specific requirements.

MVV 4551 Opera History Practicum (2). A performance course corequisite with History of Opera: MUL 4662 with emphasis on historical development and differentiation of operatic styles through characterization and musical interpretation. Includes ensemble experience.

MVV 4971 Senior Recital - Voice (1). All music majors must present, before graduation, at least one half (full recital performance major) of a public recital, and pass an oral examination on the music programmed. See areas of emphasis for specific requirements.

MVV 5651 Graduate Vocal Pedagogy I (2). An introduction to the history and development of vocal pedagogy for the graduate voice major. Emphasis will be placed on a study of the anatomy and acoustics of the human voice.

MVV 5652 Graduate Vocal Pedagogy II (2). Practical application of the principles of vocal technique in the studio. Emphasis will be placed on the psychological factors which apply to singing and the teaching of singing. Prerequisite: Graduate Vocal Pedagogy I.

MVW 1211, 2221, 3231, 4241, 5251 Secondary Applied Flute (1). Individual instruction in applied music on flute as a secondary instrument. Prerequisite: Permission of the instructor.

MVW 1212, 2222, 3232, 4242, 5252 Secondary Applied Oboe (1). Individual instruction in applied music on oboe as a secondary instrument. Prerequisite: Permission of the instructor.

MVW 1213, 2223, 3233, 4243, 5253 Secondary Applied Clarinet (1). Individual instruction in applied music on clarinet as a secondary instrument. Prerequisite: Permission of the instructor.

MVW 1214, 2224, 3234, 4244, 5254 Secondary Applied Bassoon (1). Individual instruction in applied music on bassoon as a secondary instrument. Prerequisite: Permission of the instructor.

MVW 1215, 2225, 3235, 4245, 5255 Secondary Applied Saxophone (1). Individual instruction in applied music on saxophone as a secondary instrument. Prerequisite: Permission of the instructor.

MVW 1311, 2321, 3331, 4341, 5351 Principal Applied Flute (2). Individual instruction in applied music on flute as a principal instrument. Music majors only.

MVW 1312, 2322, 3332, 4342, 5352 Principal Applied Oboe (2). Individual instruction in applied music on oboe as a principal instrument. Music majors only.

MVW 1313, 2323, 3333, 4343, 5353 Principal Applied Clarinet (2). Individual instruction in applied music on clarinet as a principal instrument. Music majors only.

MVW 1314, 2324, 3334, 4344, 5354 Principal Applied Bassoon (2). Individual instruction in applied music on bassoon as a principal instrument. Music majors only.

MVW 1315, 2325, 3335, 4345, 5355 Principal Applied Saxophone (2). Individual instruction in applied music on saxophone as a principal instrument. Music majors only.

MVW 1411, 2421 Major Applied Flute (2). Individual instruction in applied music on flute as a major instrument. Music majors only.

MVW 1412, 2422 Major Applied Oboe (2). Individual instruction in applied music on oboe as a major instrument. Music majors only.

MVW 1413, 2423 Major Applied Clarinet (2). Individual instruction in applied music on clarinet as a major instrument. Music majors only.

MVW 1414, 2424 Major Applied Bassoon (2). Individual instruction in applied music on bassoon as a major instrument. Music majors only.

MVW 1415, 2425 Major Applied Saxophone (2). Individual instruction in applied music on saxophone as a major instrument. Music majors only.

MVW 3431, 4441, 5451 Major Applied Flute (3). Individual instruction in applied music on flute as a major instrument. Music majors only.

MVW 3432, 4442, 5452 Major Applied Oboe (3). Individual instruction in applied music on oboe as a major instrument. Music majors only.

MVW 3433, 4443, 5453 Major Applied Clarinet (3). Individual instruction in applied music on clarinet as a major instrument. Music majors only.

MVW 3434, 4444, 5454 Major Applied Bassoon (3). Individual instruction in applied music on bassoon as a major instrument. Music majors only.
MVW 3435, 4445, 5455 Major Applied Saxophone (3).
Individual instruction in applied music on saxophone as a major instrument. Music majors only.

MVW 3970 Junior Recital - Woodwind (1). All music performance majors must present, during their junior year, at least one half of a public recital, and pass an oral examination on the music programmed. See areas of emphasis for specific requirements.

MVW 4971 Senior Recital - Woodwind (1). All music majors must present, before graduation, at least one half (full recital performance major) of a public recital, and pass an oral examination on the music programmed. See areas of emphasis for specific requirements.

Anthony Galaska, Assistant Professor
Geordan Gottlieb, Assistant Technical Director
Daniel Mitan, Lecturer
Marina Pareja, Lecturer
Celso Peruyera, Technical Director
Wayne Robinson, Associate Professor
Jennifer Smith, Associate Professor
Lesley-Ann Timlick, Associate Professor
Michael Yawney, Assistant Professor

Adjunct Faculty
Israel Garcia
Ivan Lopez
Stephen Neal

The goal of the Theatre Program is to provide intensive theatre training through classes and productions, conducted with professional theatre discipline and the highest possible aesthetic standards. In addition to completion of course work, theatre majors are required to participate in all major productions while the student is enrolled in the program.

B.A. candidates will complete the core theatre courses and select an additional 18 elective theatre credits from the approved list of theatre courses. B.F.A. candidates will complete their core theatre courses plus a specialization in either performance or design. In conjunction with specified courses in the College of Education the Department offers all of the courses required for the student to be eligible for teacher certification in Theatre Education.

The degree requirements represent a four year program. Upper division transfers must have their lower division preparation evaluated by the university and by the Department and will be advised accordingly.

An audition or portfolio review and/or interview is required of all candidates wanting to enter the theatre program. To qualify for full admission to the program, FIU undergraduates must have met all the lower division requirements, including CLAS, completion of 60 semester hours, and must be otherwise acceptable into the program.

Candidates for whom English is a second language must have a minimum TOEFL score of at least 550, plus an interview with department personnel to determine adequacy of their English writing and speaking skills.

Due to the high cost of producing theatrical productions lab fees are attached to many of our courses.

Bachelor of Arts in Theatre

Degree Program Hours (120)

Common Prerequisite Courses and Equivalencies
Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org. See Common Prerequisite Manual.

Bachelor of Fine Arts

Degree Program Hours: 128

Common Prerequisite Courses and Equivalencies
Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org. See Common Prerequisite Manual.

Course Descriptions

Definition of Prefixes
FIL-Film; THE-Theatre; TPA-Theatre Production and Administration; TPP-Theatre Performance and Performance Training F-Fall semester offering; S-Spring semester offering; SS-Summer semester offering.

FIL 3001 Introduction to Filmmaking (3). For the beginning student of filmmaking. Survey of the origins and development of cinematography as an art form. Presentation and technical analysis of selected films.

THE 1020 Introduction to Theatre for Majors (1). An orientation to the study, theory, and practice of theatre for freshman theatre majors. It provides the foundation for theatre study at more advanced levels. Prerequisite: Permission of the instructor. (F)

THE 2000 Theatre Appreciation (3). A study of theatre: process and product, introducing the past of theatre, its literature and traditions; and the means by which theatre is produced: acting, directing and visual design. (F,S)

THE 2820 Creative Dramatics (3). The study of informal drama activity with children. Techniques of improvisation, sense recall, music, and movement are employed.

THE 4110 Theatre History I – GL (3). The development of the theatre from its origins to the early 19th century. (F)

THE 4111 Theatre History II (3). The development of the theatre from early 19th century to the present. (S)

THE 4314 Classical Dramatic Literature (3). Intensive play reading and discussion of plays from the classical canon, including Greek, Roman, Medieval, Renaissance and Restoration dramas. Prerequisites: THE 1020 or THE 2000.

THE 4370 Modern Dramatic Literature (3). Intensive play reading and discussion from early modern through contemporary. (F)

THE 4760 Methods of Teaching Theatre (3). Theory and practice in developing skills as a high school director/teacher. Review texts and resource materials, develop a theatre education philosophy and practice teaching strategies. Prerequisite: Permission of the instructor.

THE 4916 Research (1-5). Supervised individual investigation of special research projects. Credit will vary with the nature and scope of the project. May be repeated.

THE 4930 Senior Seminar (2). Theories of theatre presentation. Reading, seminar presentations and discussions cover the theories of playwriting, dramatic forms, acting, directing, design and theatrical criticism. Prerequisite: Theatre major. (S)

THE 4950 Theatre Internship (1-6). Supervised internship in a professional company in acting, directing, stage management, design, technical theatre, or theatre management. Repeatable one time for credit. Prerequisite: Permission of the instructor.

THE 4971 Senior Projects (1). Final preparation and performance or presentation of a creative project in the student’s area of emphasis under the direction of a faculty advisor. Theatre majors only.

THE 4972 Senior Thesis (1). Research and writing of a thesis dealing with an aspect of theatre history and/or theory. Prerequisite: Permission of the advisor.

TPA 2001L Production Participation Lab (1). Students perform technical work on theatre productions. Required each term for theatre majors not taking a technical production course. Must be repeated for a total of 2 credits.

TPA 2010 Introduction to Design (3). An introduction to the concept of basic design elements and development of visual vocabulary as a prerequisite for Scenic, Lighting and Costume Design. Lecture and Laboratory. Prerequisite: TPA 2210. (F, S)

TPA 2210 Stagecraft I (3). An introduction to construction techniques used in stage. Direct experience with wood and metal working tools, blueprint reading, and various materials including wood, metal, plastics and fabrics. Lecture and laboratory. Prerequisite: Permission of advisor. (F,S)

TPA 2211 Stagecraft II (3). Advanced problems in the construction and movement of scenery, properties, and special effects. Prerequisite: TPA 2210.

TPA 2220 Stage Lighting (3). Familiarization with stage lighting equipment, purposes, and aesthetics of stage lighting; development of an approach to designing lighting; practical experience in the use of equipment. Lecture and laboratory.

TPA 2248 Stage Make-up (3). Facial analysis, color matching, makeup design and application techniques of makeup for the stage. Includes character analysis and history of makeup styles. Prerequisite: Permission of the instructor. (S)

TPA 2290L Technical Theatre Lab I (1). Supervised crew work in construction, painting, lighting, costume, and running major productions. Required of Theatre majors. (F,S)

TPA 2291L Technical Theatre Lab II (1). Supervised crew work. Required of Theatre majors. (F,S)

TPA 2292L Technical Theatre Lab III (1). Supervised crew work. Required of Theatre majors. (F,S)
TPA 2332 Costume Technology (3). Practical instruction in costume construction and care, along with theatrical wardrobe organization.

TPA 3002 Period Styles in Theatre Design (3). An introduction to period styles and ornament and how it applies to Theatre Design. Prerequisite: TPA 2010.

TPA 3040 Costume Design I (3). The theory and practice of designing stage costumes through play and character analysis, research, and translation of this information into effective stage costume designs. Prerequisites: TPA 3230 and permission of the instructor.

TPA 3060 Scenic Design I (3). Nontraditional approaches to the development of design elements for the stage. Prerequisite: TPA 2210.

TPA 3071 Stage Rendering (3). An introduction to the Techniques used in rendering scenery and costume design concepts. Recommended as preparation for TPA 3060.

TPA 3077 Scene Painting (3). A hands-on study of the basic techniques and processes used by scenic artists.

TPA 3230 Stage Costuming (3). Costume history and costume construction techniques, as well as the basics of the design process, fabric identification, and manipulation. Corequisites: TPA 2290L, TPA 2291L, TPA 2292L, or TPA 3293L. (F,S)

TPA 3293L Technical Theatre Lab IV (1). Supervised crew work. Required of Theatre majors. Prerequisite: TPA 2292L. (F,S)

TPA 3296 Advanced Technical Project I (2). Advanced practical projects in theatre design and technology in support of produced departmental productions. Projects are assigned to the student on the basis of emphasis and experience. Prerequisite: Permission of the instructor.

TPA 3930 Special Topics in Theatre (1-3). Lecture-lab studies in particular areas of theatre production, one area per semester, including stage management, prop making, sound design, special effects. May be repeated 3 times for up to 9 credits. Prerequisite: TPA 3040.

TPA 4041 Costume Design II (3). A continuation of Costume Design I, with increased emphasis on refining skills developed at first design level, plus developing a personal design style and more advanced construction skills. Prerequisite: TPA 3040.

TPA 4061 Scenic Design II (3). Advanced skills in setting the mood of, and creating movement through a theatrical space. Emphasis will be placed upon rendering Techniques and model making. Prerequisite: TPA 3060.

TPA 4221 Stage Lighting II (3). Advance work in lighting of the stage. Emphasis is on practical training and experience through drafting of light plots accompanied by discussion and evaluation. Prerequisite: TPA 2220.

TPA 4297 Advanced Technical Project II (2). Advanced practical projects in theatre design and technology in support of produced departmental productions. Projects are assigned to the student on the basis of emphasis and experience. Prerequisite: Permission of the instructor.

TPA 4298 Advanced Technical Project III (2). Advanced practical projects in theatre design and technology in support of produced departmental productions. Projects are assigned to the student on the basis of emphasis and experience. Prerequisite: Permission of the instructor.

TPA 4400 Stage and Theatre Management (3). A two part course introducing practical methods of stage management and aspects of theatre administration: marketing, budgeting, box office, fund raising.

TPA 4912 Portfolio I (1). Supervised individual investigation of special research projects in design and technology. Projects are designed to enhance the student's portfolio.

TPA 4913 Portfolio II (1). Supervised individual investigation of special research projects in design and technology. Projects are designed to further enhance the student's portfolio.

TPA 5025 Performance Lighting (2). An introduction to lighting for entertainment art's performances such as those presented at theme parks, concerts and outdoor performances. Prerequisite: Permission of graduate area advisor.

TPP 1110 Acting I (3). Introduction to acting process using Spolin-based improvisational approach. Includes the study, theory and practice of theatre as it relates to performance. Majors only. Corequisite: THE 1020 (F)

TPP 2100 Introduction to Acting (3). An introduction to the acting process. Self awareness, physical and vocal control, basic stage techniques and beginning scene work will be studied. Intended for the student with little or no acting experience. (F,S)

TPP 2111 Acting II (3). Stanislavsky techniques with an emphasis on making acting choices through rehearsal and text analysis. Scene work using the plays of Anton Chekhov. Majors only. Prerequisites: TPP 1110 and permission of the advisor. (S)

TPP 2112 Acting III (3). Continuation of scene study using Meisner technique. Majors only. Prerequisite: Permission of the instructor. (F)

TPP 2160 Theatre Voice and Movement I (3). Development of the actor's voice and body for the demands of clear performance. An exploration of proper vocal production and movement fundamentals. Prerequisite: Permission of the instructor. Corequisite: TPP 2112.

TPP 3113 Acting IV (3). Continuation of the development and training of acting skills with emphasis on transformational character choices. Scene work in modern styles from playwrights such as O'Neill, Williams, Fornes, and Lorca. Majors only. Prerequisites: TPP 2112 and permission of the instructor. (S)

TPP 3164 Theatre Voice and Movement III (3). Laban, Feldenkrais, and Neutral Mask will be studied to improve
self-use and body articulation. Emphasis on handling heightened texts such as Shakespeare. Prerequisite: Audition for B.F.A. program. Corequisite: TPP 4114. (F)

TPP 3165 Theatre Voice and Movement IV (3). Exploration of physical and vocal approaches to American Musical Theatre from 1920 to the present. Prerequisite: TPP 3164. (S)

TPP 3263 Film Acting for Non-Majors (3). An introduction to the acting process for film and TV. Emphasis on acting, directing and writing process behind and in front of the camera.

TPP 3265 Introduction to Acting for TV/Film (3). An introduction to the fundamentals of acting/directing for TV/Film through practical exercise and creative assignments.

TPP 3304 Playscript Analysis (3). Detailed playscript examination for directors, actors and designers, focusing on identification of those elements upon which successful theatre production depends. Prerequisite: Permission of the advisor. (F)

TPP 3310 Directing I (3). Basic principles of play direction; including problems of selecting, analyzing, casting, and rehearsing plays, script analysis. Prerequisite: TPP 2112. (F, S)

TPP 3530 Stage Combat I (3). A study of combat techniques for the stage including unarmed and rapier fighting.

TPP 3730 Dialects (3). A study of dialects common to western theatre. Prerequisites: TPP 3165 or permission of the advisor.

TPP 3923 Musical Theatre Workshop I (3). An introduction to Musical Comedy performance: integration of the dramatic, musical and movement components will be studied through work on selected scenes. Prerequisite: Permission of the advisor.

TPP 4114 Acting V (3). Classical styles of acting focusing on Shakespeare and the Restoration. BFA majors only. Prerequisites: TPP 3113 and permission of the instructor. Corequisite: TPP 3164. (F)

TPP 4117 Acting VI (3). A comprehensive course in the study of acting, writing and directing for the camera-documentary, dramatic scenes, commercials - offered in conjunction with Channel 17. BFA majors only. Prerequisites: TPP 4114 and permission of the instructor. Corequisite: TPP 3165. (S)

TPP 4195L Upper Division Production and Performance (1). Exploration of the acting process through rehearsal and performance of a play. Class must be repeated 3 times for 3 credits. Prerequisite: Permission of the instructor.

TPP 4224 Acting VII (3). Audition techniques through preparation and presentation of audition material. Includes an exploration of professional actor training and actor business protocol. BFA majors only. Prerequisites: TPP 4117, TPP 3165 and permission of the advisor. (F)

TPP 4253 Advanced Musical Theatre Studies (3). Prepares students to audition for all types of musical theatre productions. Class format is a master class. Prerequisites: BFA Student – TPP 3165.

TPP 4265 Acting VIII (3). Survey of techniques used in solo performance and one-actor productions, featuring practical application of these techniques to original materials. BFA majors only. Prerequisite: TPP 4224. (S)

TPP 4311 Directing II (3). A continued study of directing Techniques culminating in the preparation of a play for public performance. Prerequisites: TPP 3310 and permission of the advisor.

TPP 4531 Stage Combat (3). A study of combat techniques for the stage, including fencing, boxing, wrestling, and tumbling.

TPP 4532 Stage Combat II (3). Advanced study of combat techniques for the stage focusing on armed combat, including quarterstaff and broadsword.

TPP 4564 Mime (3). A movement course to teach the actor the physical skill of mime. This course will improve the students attention, strength, balance, dexterity and clarity.

TPP 4600 Playwriting I (3). Study of the theory and principles of writing plays for the stage. Practice in writing either the short or long play. May be repeated.

TPP 4601 Playwriting II (3). A continuation of the study of the theory and principle of writing plays for the stage. Actual practice in writing plays. Prerequisite: TPP 4600.

TPP 4920 Advanced Actor's Workshop I (3). This course will concentrate on the acting demands of a specific period, style, genre, or playwright. Prerequisites: TPP 4114 or permission of the advisor.

TPP 4930 Special Topics in Theatre Performance (1-3). Studio sessions covering selected topics of current interest in theatre performance. Prerequisite: Permission of the instructor.

TPP 5615 Graduate Playwriting Workshop I (3). A graduate course in playwriting focusing on structure, character development, conflict dialogue, and dramatic action. Students work through a series of exercises exploring different techniques leading to the development of a 10 minute play and a full length play. Students read and discuss scenes in class. Prerequisite: Permission of the instructor.

TPP 5616 Graduate Playwriting Workshop II (3). For graduate students in the Creative Writing program who wish to continue with a second playwriting class. Students work on exercises and scenes leading to the development of a full length play. Prerequisites: One course in playwriting or screenwriting.

TPP 5617 Graduate Playwriting Workshop III (3). A graduate course in playwriting focusing on the development of a full length play with special attention to structure, character development conflict, dialogue, and dramatic action. Students work through a series of scenes
leading to the development of a full length play.
Prerequisite: TPP 5616.

**Director, School of International And Public Affairs**  
John F. Stack

As the heart of a leading public research university, the College of Arts and Sciences plays a vital role in the intellectual, cultural and civic life of local, national and international communities. The College provides an educational foundation that prepares FIU students to be successful and engaged citizens in a global society. The College generates extensive scholarship that yields new knowledge, shapes how we teach and learn, and contributes to a more complete understanding of the world.

The College offers courses for all students at the University, from those taken to fulfill the requirements of the University’s Core Curriculum to required and elective courses for students who seek degrees from both the College and the University’s other colleges and schools. Many professional degree programs require courses in specific Arts and Sciences disciplines; these needs are carefully addressed. The College’s mission goes beyond offering introductory and service courses; it’s students by explore the full implications of the arts and sciences disciplines in historical and contemporary society. High quality undergraduate degree programs educate students in the fundamentals of each discipline. Graduate programs provide in-depth training for the best students and allow faculty members the opportunity to teach at the frontiers of their fields. Rigorous academic research, scholarship, and creative activity are integral components of faculty activities in all disciplines and are the heart of graduate education.

Characteristically, the liberal arts endeavor is to synthesize. Thus, in addition to traditional degree programs, the College coordinates special areas and interests through a number of certificate and interdisciplinary degree programs.

The College is composed of 17 departments and several interdisciplinary programs housed in three schools: School of Environment, Arts, and Society (SEAS), School of Integrated Science and Humanity (SISH), and School of International and Public Affairs (SIPA).

### Undergraduate Programs

The College offers departmental programs of study leading to Bachelor’s degrees in biological sciences, chemistry, criminal justice, earth sciences, economics, English, environmental studies, French, geography, geosciences, history, international relations, marine biology, mathematics, philosophy, physics, political science, Portuguese, psychology, public administration, religious studies, sociology and anthropology, Spanish, and statistics. The College also offers interdisciplinary programs leading to Bachelor’s degrees in Asian studies, liberal studies, and women’s studies.

Minor programs of study are offered in Asian studies, astronomy, biology, chemistry, criminal justice, economics, English, environmental studies, French language and culture, general translation studies, geography, geology, history, humanities, international relations, Italian language and culture, labor studies, marine biology, mathematical sciences, mathematics, meteorology, philosophy, physics, political science, Portuguese, psychology, public administration, religious studies, sociology and anthropology, Spanish language and culture, and statistics.

### Certificate Programs

### Admission Requirements

FIU freshmen and sophomore students may be coded with an “intended” major in the College upon earning 24 semester hours.

They may be fully admitted to the College if they have earned 60 semester hours, have a cumulative grade point average (GPA) of 2.0, and have satisfied the CLAS requirement. Full admission to the College is accomplished by filing the form “Request for Acceptance into Upper Division College/School.”

A transfer student having an Associate in Arts degree from a Florida community college or having completed the equivalent coursework at a four-year institution with a minimum of 60 semester hours earned, having a cumulative grade point average (GPA) of 2.0, and having satisfied the CLAS requirement may be admitted to a program in the College. Applicants must submit an Application for Admission to the University and must follow the regular University procedures. Applicants must be eligible for admission to the University before admission to the College.

All students are encouraged to seek advising as early as possible in the department/program of their choice.
even if they have not yet been fully admitted into that major.

**Admission Requirements for Secondary Education Majors in Arts and Sciences**

All students in the secondary education majors are required to have a minimum overall GPA of 2.5 for all lower division/transfer course work to be admitted to the College. In addition, these students are required to achieve the competencies of the CLAS requirement and pass the FTCE General Knowledge exam or the Praxis I.

All stated admission requirements are to be considered minimum. A student who meets these minimum requirements is not automatically assured admission. Program admission requirements are subject to change. It is the responsibility of the student to assure that he/she understands and has met the requirements.

**College Requirements for a Baccalaureate Degree**

Candidates to the Bachelor's degree must satisfy individual departmental requirements, and the following College requirements, in addition to the University-wide requirements listed elsewhere:

1. A minimum of 120 semester hours in acceptable coursework is required.
2. At least half of the upper division credits in any major must have been taken at FIU.
3. In the last 60 semester hours of enrollment, students must earn nine semester hours of elective credits through coursework outside the major, six of which are to be taken outside the department sponsoring the program.
4. Students must earn a grade of "C" or higher in all courses required for the major. A grade of "C-" or lower is not acceptable in any required course.
5. Of the total number of hours submitted for graduation, a minimum of 48 semester hours must be in upper division courses.
6. Students must demonstrate competency in a foreign language or in American Sign Language at the level of the second semester of a college language sequence. (High school courses cannot be used to fulfill this requirement.) This requirement may be met by successfully completing with a grade of 'C' or better (C- does not count): a) the second semester of a two-semester sequence basic language course or b) any second-year or third-year foreign language course. This requirement may also be fulfilled by presenting acceptable scores in the Advanced Placement Exam, the SAT II, the CLEP exam, or other approved instruments. Students should consult their advisors for more specific information.
7. One- and two-credit physical activity courses (with the prefixes PEL, PEM, PEN) cannot be included as part of the hours needed for graduation.

**Additional College Requirements for Secondary Education Majors**

**Student Teaching and Fingerprint Requirements**

State of Florida Certification requires all applicants to be fingerprinted and checked by state and local law enforcement agencies. Local public and private schools and systems may also require similar security procedures for field placements, student teaching and/or internships. Students with a CHR (criminal history record) should be prepared to promptly provide documentation of adjudication in order to facilitate review and determination of eligibility for placement in the district or school requested. Details regarding specific district requirements, deadlines and documentation are available in ZEB 220, Office of Field Experiences.

Given the unique nature of the teaching profession requiring mastery of cognitive skills, demonstration of appropriate interpersonal skills, and professional behavior, the faculty retains the right to “counsel out” of the program and/or to not recommend for internship placement any student whose level of interpersonal competence and professional behavior is considered incompatible with that required for effective functioning as a teacher.

**For all Teacher Prep and Counseling Field Experiences**

Online information and the student teaching application is available at [http://education.fiu.edu](http://education.fiu.edu). Online submission deadline for Fall placement is due February 1; for Spring placements the deadline is September 15. A set of hard copies is due to ZEB 220 for Fall placements by March 1; for Spring placements by October 1.

Students are required to take and pass the GK, Professional Education (Ped), and appropriate Subject Area Exam (SAE) before beginning student teaching placement. Students must provide evidence of passing scores on all required exams by the end of the semester immediately preceding the internship.

**Graduation Requirements**

Students in the secondary education majors must also meet the following graduation requirements: 1) earn a cumulative GPA of 2.5 or higher and 2) no grades of C- or less allowed.

All Students graduating from an Initial Teacher Preparation Program must pass prior to graduation the Florida Teacher Certification Exam. (which includes the Professional Education, the Subject Area, the General Knowledge Exams), and demonstrate successful completion of the Florida Educator Accomplished Practices. Students who fail one or more sections of the FTCE will not be cleared for graduation.

**College Requirements for a Minor**

Students wishing to earn a minor must satisfy individual departmental/program requirements and the following College requirements:

1. At least half of the courses used to fulfill the requirements must have been taken at FIU.
2. Earn a grade of "C" or higher in all courses required for the minor. A grade of "C-" or lower is not acceptable in any required course.

**Note:** The programs, policies, requirements, and regulations listed in this catalog are continually subject to review in order to serve the needs of the University’s various constituencies and to respond to the mandates of
the Florida Board of Education and the Florida Legislature. Changes may be made without advance notice. Please refer to the General Information section for the University’s policies, requirements, and regulations.

**Phi Beta Kappa**

The College of Arts and Sciences is home to the Epsilon chapter of Phi Beta Kappa, the nation’s most prestigious honor society. Established in 1776 at the College of William and Mary, this society is exclusively for arts and sciences majors who have studied broadly in a variety of its disciplines.

Membership is by invitation not by application. During the semester when students graduate, they are evaluated by the chapter to determine their eligibility. Summer graduates are considered during the succeeding fall semester. The chapter committee examines not only the student’s grade point average, but also the breadth and rigor of coursework in the arts and sciences. In particular, candidates need to demonstrate knowledge of mathematics and of a foreign language at least minimally appropriate for liberal education.

Students who wish further information on the requirements for membership should contact Professors Gene Rosenberg (Biological Sciences) or Leonard Keller (Chemistry/Liberal Studies).

**Labor Studies Minor**

The Minor in Labor Studies is an 18-credit course of study designed to offer degree-seeking students from a wide range of backgrounds an understanding of the major issues in the field. Labor studies as a discipline acknowledges insights which have emerged from decades of university-union cooperation in labor education and fulfills an academic need to study labor affairs apart from the traditional framework of industrial relations. According to this concept, Labor Studies is the academic examination of issues which confront people in their pursuit of their need for rewarding employment. The focus of inquiry is on workers as individuals, as members and/or leaders in their unions or associations, and as citizens of their communities.

**Requirements**

Minimum of 18 credit hours. Courses are to be selected in consultation with an advisor. A grade of “C” or better is required for all courses (“C-” is not acceptable). Other related courses may be accepted as electives pending approval by the Labor Center Academic Program Director.

**Required Courses: (12 hours)**

LBS 3001 Introduction to Labor Studies 3

A minimum of three courses (9 hours) to be chosen from the following: (additional courses from this list may be to fulfill electives).

LBS 4101 Theories of the Labor Movement 3
LBS 4154 Workers and Diversity 3
LBS 4210 Women And Work 3
LBS 4501 Labor Law 3
LBS 4900 Directed Study in Labor Studies 3
SYO 4370 Work and Society 3

**Electives: (6 hours)**

AMH 3270 Contemporary U.S. History 3
AMH 4500 United States Labor History 3
CPO 4053 Political Repression and Human Rights 3
ECO 2013 Principles of Macroeconomics 3
ECO 2023 Principles of Microeconomics 3
ECO 3101 Intermediate Microeconomics 3
ECO 4701 World Economy 3
ECP 4204 Theory of Labor Economics 3
INP 2002 Introductory Industrial/Organizational Psychology 3
INR 4501 Multinational Organizations 3
LBS 4401 Labor Contract Negotiations 3
LBS 4150 Contemporary Labor Issues 3
LBS 4260 Union Leadership and Administration 3
LBS 4461 Labor Dispute Resolution 3
LBS 4484 Classroom Conflict Resolution 3
LBS 4654 Comparative and International Labor Studies 3
LBS 4905/4930 Topics in Labor Studies 1-3
POS 3152 Urban Politics 3
POS 4071 Corporate Power and American Politics 3
WHO 4223 History of the Global Economy 3

For additional information, please contact Professor Dawn Addy, Director of the Labor Center.

**Course Descriptions**

**Definition of Prefixes**

LBS - Labor Studies

**LBS 3001 Introduction to Labor Studies (3).** History and development of labor, with emphasis on union development as a response to global industrialization and technological change. Includes the impact of "globalization" on jobs, the structure and function of worker organizations, the impact of technology, the struggle for working class and low-wage workers, and the impact of cross-national shifts of jobs and labor.

**LBS 3470 Labor Contract Administration (3).** Use of grievance procedure to administer a collective bargaining agreement. Identification, research, presentation and writing of grievance cases. Technical and legal role of union steward.

**LBS 3943 Internship in Labor Studies (3).** Practical training and experience in various aspects of labor organization policies, practices, and procedures through placement with a local labor organization. Reports and papers required. Prerequisite: Permission of the instructor.

**LBS 3949 Cooperative Education in Labor Studies (1-3).** One or two semesters of part or full-time work related to the major. Written reports and supervisor evaluations required. Prerequisite: Permission of Labor Studies Program.

**LBS 4101 Theories of the Labor Movement (3).** This course deals with theories which have attempted to explain the origins, developments, and functioning of the labor movement.

**LBS 4150 Contemporary Labor Issues (3).** Studies of contemporary labor issues selected from such areas as collective bargaining, arbitration, mediation, legislation,
regulated and administrative law, employment discrimination, and union grievances.

LBS 4154 Workers and Diversity (3). The theoretical debates surrounding the workforce participation of women and minorities as well as the historical position of these groups in the labor force are studied. Students explore social phenomena that contribute to the continuation of discriminatory practices and study and analyze the policies that attempt to address these issues. Prerequisites: Junior or Senior standing.

LBS 4210 Women And Work (3). The role of women in the workforce and issues for women in worker organizations with special emphasis examining the additional impact of race, class and sex on the economic and social standing of women at work.

LBS 4260 Union Leadership and Administration (3). Administration of labor organizations; labor policies and practices; legal requirements and financial administration of unions. Prerequisite: LBS 3001.

LBS 4401 Labor Contract Negotiations (3). A comprehensive study of collective bargaining with emphasis upon the private sector. Included will be negotiations and scope of contracts, day-to-day contract administration, and major bargaining issues.

LBS 4484 Classroom Conflict Resolution (3). Investigate conflict and violence, and help students to develop strategies to defuse them in the classroom.

LBS 4501 Labor Law (3). Studies the history and current functioning of labor law with special emphasis upon the private sector.

LBS 4610 Cross Cultural Dimensions of Latin American Labor Relations (3). A survey of the issues, techniques, and professional competencies required to effectively understand and contribute to furthering fluid and productive labor management relationships in the hemisphere.

LBS 4653 Labor Movements in Developing Countries (3). The role that unions play in developing or recently developed countries; the relationship between economic development strategies and union structure/strategy; role of unions in representing popular social sectors; special emphasis on Latin American and Asian labor movements.

LBS 4654 Comparative and International Labor Studies (3). A study of labor issues from a comparative and international perspective with emphasis upon the impact of international organizations on labor relations systems and a comparison among major labor relations models.

LBS 4900 Directed Study in Labor Studies (3). Supervised reading and/or field research and training.

LBS 4905/4930 Topics in Labor Studies (1-3). Selected topics or themes in Labor Studies. The themes will vary from semester to semester. With a change in content, course may be repeated.

LBS 4949 Cooperative Education in Labor Studies (1-3). One or two semesters of part or full-time work related to the major. Written reports and supervisor evaluations required. Prerequisite: Permission of Labor Studies Program.

LBS 5155 Workplace Diversity (3). Students examine the theoretical debates surrounding workforce participation of women and minorities; historical position of these groups in labor force; social phenomena that contribute to discriminatory practices and development of policies to eliminate discriminatory practices.

LBS 5215 Women in the Workplace (3). Students explore women’s changing role in the U.S. and global economy. Special attention is given to the role of race, class, and ethnicity within the context of gender and work.

LBS 5406 Collective Bargaining and Labor Relations (3). A comprehensive study of major issues and themes in American collective bargaining. Includes origins of collective bargaining, labor law, unionization, contract negotiations patterns in contract content, impact of external laws, public sector unions, grievance arbitration and interest arbitration. Prerequisite: Permission of the instructor.

LBS 5464 Labor Arbitration (3). Study of labor dispute resolution with emphasis on grievances, fact-finding, and arbitration.

LBS 5465 Introduction to Mediation (3). Examines the role of mediation in resolving civil, commercial, family, public and workshop disputes. Incorporates mediation principles and skills, different approaches to mediation, and current research in mediation. Prerequisite: Permission of the instructor.

LBS 5466 Family Mediation (3). Provides a comprehensive understanding of conflict resolution, power and balances, emotional and psychological issues, negotiation techniques as well as the development of practical skills in the field of family mediation. Prerequisite: Permission of the instructor.

LBS 5467 Civil Mediation (3). A comprehensive understanding of the field of civil mediation as well as the development of the practical skills to be a civil mediator. Prerequisite: Permission of the instructor.

LBS 5485 Fundamentals of Conflict Resolution (3). Survey of the major contemporary theories of organizational functioning and the management of conflict within and among organizations in a globalized world. Theories that center primarily within the fields of dispute resolution, sociology, and social interaction/group theory will be emphasized. Prerequisite: Permission of the instructor.

LBS 5486 The Dynamics of Conflict Management (3). Investigate conflict and violence, and help students to develop strategies to defuse them in the classroom.

LBS 5507 Labor and Employment Law (3). Familiarizes the student with the legal issues and rules regarding unionization of employees, the collective bargaining process, the relationship between the employee and
his/her union, and the administration of collective bargaining agreements. Examines the legal framework within which collective bargaining occurs and also familiarizes students with additional issues of rights in employment. Prerequisite: Permission of the instructor.

LBS 5658 Labor Movements and Economic Development (3). Relationships between unions and economic development strategies in developing/recently developed countries; emphasis on social movement unionism and unions in Latin America and Asia. Prerequisite: Permission of the instructor.

LBS 5930 Topics in Labor Studies (1-3). Selected topics or themes in Labor Studies. Themes will vary from semester to semester. With a change in content, course may be repeated. May include field work. Prerequisite: Graduate standing.

LBS 5931 Topics in the Philosophy and Methods of Conflict Research (3). Provides an examination of the philosophy, methods, and research in the field of conflict resolution. The particular content and orientation of the course may vary according to the particular focus examined. Prerequisite: Permission of the instructor.

LBS 6906 Directed Individual Study (3). Specialized intensive study in areas of interest to student. Student plans and carries out independent study project under the direction of faculty member. Topics must relate to content of Labor Studies or ADR. Prerequisite: Permission of the instructor.

LBS 6945 Internship Labor Studies / Alternative Dispute Resolutions (3). Practical training and experience in organization according to students needs and interests. Reports and papers required. Prerequisite: Permission of the instructor.

Interdisciplinary Courses

The College of Arts and Sciences has several interdisciplinary programs which are not based in a specific academic department. The courses offered by these programs therefore are not found in the departmental listings in the Catalog. For this reason, they are included here.

AFA 2004 Black Popular Cultures: Global Dimensions (3). In-depth examination of key issues including black popular cultures in global perspectives with a comparative focus on historical processes, race, racialization, gender, sexuality, language, religion, identify and other topics.

AFA 3153 African Civilization, Religion and Philosophy (3). An introductory level overview of Ancient African origins of Civilization, Religion and Philosophy. Prerequisites: AFA 2000 or approval of director.

AFA 4104 Teaching the African-American Experience (3). Teachers Institute which includes literature, culture, history, politics, and the arts designed to meet Florida State Teachers Certification requirements. Includes instruction on pedagogy, teaching methods and FCAT.

AFA 4241 The African Diaspora in Latin America (3). A survey within different and specific Latin American contexts, of the major characteristics of communities of African diaspora in Central America, the Spanish-speaking Caribbean, and South America.

AFA 4301 Topics in African World Visual Arts (3). An introductory level overview of Ancient African, African, and/or African Diaspora Visual aesthetics. It examines the values and ethics in hip hop culture and their relevance in advocacy and social policy.

AFA 4370 Global Hip Hop (3). Examines the global, transnational and Africana dimensions of Hip Hop.

AFA 4372 Race, Gender and Sexuality in Hip Hop – GL (3). Examination of racial, gender, and sexuality constructions within the context of Hip Hop Culture.

AFA 4905 Independent Study (0-6). Student-generated research projects in African and African Diaspora studies. Independent investigations, reports on individual and assigned readings with AADS core and affiliated faculty.

AFA 4930 African and African Diaspora Studies Theory (3). The nature, meaning and intent of intellectual production in Africa and the diaspora. Examines the works of key thinkers that have made visible some of the submerged or appropriated realities of African peoples.

AFA 4931 Special Topics in African and African Diaspora Studies (3). An examination of different features of African-New World Studies, not normally offered in the basic curriculum or otherwise offered. May be repeated.

AFA 4933 Special Topics in Black Transnationalism (3). A course designed to give groups of students special studies in the black experience transnationally. Prerequisite: AFA 2000.

AFA 4941 African and African Diaspora Studies Internship (0-6). Practical application in a supervised setting outside of the classroom of knowledge acquired in the classroom. Consent of faculty sponsor and program director required.

AFA 5302 Africana Visual Arts (3). A study of Africana, African, and/or African Diaspora Visual aesthetics. It
examines relationships between Africana Visual arts and other creative forms. Prerequisite: Graduate standing.

AFA 5341 Health Issues in the African World (3). Examination of the history of the biomedicine system and its relationship to African populations, and the evolution of this relationship with respect to disease in the contemporary world. The course is organized to promote awareness of the impact of culture, ethnicity, racism, class on public health research.

AFA 5932 Special Topics in African and African Diaspora Studies (3). An examination of different features of Continental Africa and the African Diaspora not normally offered in the basic curriculum or otherwise offered. May be repeated. Prerequisite: Graduate standing.

AFS 4200 African Drums I (3). A beginner hands-on course for students who are interested in West African music, dance, drum, performance, and culture.

AFS 4201 African Drums II (3). An advanced course on the complex arts of West African drums and drumming techniques that immerses students in the Malian and Senegalese polyrhythmic traditions, especially dundun and djelemba drums. Prerequisites: AFS 4200 or permission of the instructor.

EUS 4920 Colloquium: European Studies (3). Interdisciplinary course, co-taught by faculty from the humanities and social sciences, provides students a comprehensive picture on a subject relevant to modern Europe. Topics will vary.

IDS 4175 Experimental Arts (1-3). The study and creation of Experimental Performance artworks, involving a variety of media (media/sound, movement, visual arts, etc.). The evolution of performance art in the 20th century analyzed and discussed and new works are created by the students in the class. Prerequisite: Permission of the instructor.

IDS 5176 Experimental Arts (1-3). The study and creation of Experimental Artworks, involving media/sound, movement, visual art, etc. Students from different disciplines in the Arts have the opportunity to collaborate together and create new works. Prerequisite: Permission of the instructor.

ISC 1000 Great Ideas in Science (3). An introduction to the great ideas in science. Targeted to the non-science major. Study of the scientific method, origin of the universe, origin of life, evolution, among other topics. Corequisite: ISC 1000L.

ISC 1000L Great Ideas in Science Lab (1). An introduction to the great ideas in science. Targeted to the non-science major. Study of the scientific method, origin of the universe, origin of life, evolution, among other topics.

ISC 4947 Entrepreneurial Science Internship (1-20). Internship in a faculty laboratory with emphasis on finding commercial applications of the laboratory’s ongoing research. May be repeated. Prerequisite: ENT 4113.

ISS 3240 World Prospects and Issues (3). This course examines, from a multidisciplinary point of view, specific global issues such as food, population, and arms control.

The issues discussed may change from one semester to the next.

ISS 4165 Sustainable Communities Seminar (3). Explores theories and aspects of sustainable communities, and considers the concept in comparative-historical, local global, and critical perspective. Prerequisite: Permission of the instructor.

ISS 4234 Cultural Expressions of the Americas (3). This interdisciplinary course focuses on national, cultural, and racial identities, as well as the performance of race and gender, as expressed in cultural productions of the Americas.

ISS 4235 The Cultural Body in the Americas: Critical Issues in Intercultural Understanding (3). With a team taught interdisciplinary approach this course explores the diverse symbols, hierarchies, and meanings invoked through culturally constructed human bodies and body movement in the Americas.

ISS 5166 Sustainable Communities Seminar (3). Explores theories and aspects of sustainable communities, and considers the concept in comparative-historical, local global, and critical perspective. Prerequisite: Permission of the instructor.

ISS 5237 Latin American and Caribbean Cultural Expressions (3). This interdisciplinary course develops an interdisciplinary approach to the study of national, cultural, and racial identities, as expressed in cultural productions of the Latin America and the Caribbean.

ISS 5238 The Imaged Body: The Case of the Americas (3). With a team-taught interdisciplinary approach this course explores how identity, power and hierarchy are invoked and represented through the human body and body movement in the region of the Americas.

LAH 4460 Peoples, Culture and Politics of Haiti (3). An introduction to the cultures and history of the Haitian people from Africa to the New World. The students will become familiar to the life, cultures of the Indians of the Caribbean: Taino, Arawak and Caribs.

LAS 3002 Introduction to Latin American and Caribbean Studies (3). Interdisciplinary study of Latin America and the Caribbean, its key regions, historical periods, and concepts. Will alternately be taught in Spanish.

LAS 4950 Ritual, Religion and Shamanism in the Andes: Study Abroad in Ecuador (3). This intensive study abroad program in Ecuador focuses on the indigenous religion and shamanism in the Andes as it intersects with the discipline of art, music, dance, history, and the environment. Prerequisite: Undergraduate standing.

LAS 5120 Ecuador Abroad: Andean Shamanism, Religion, and Ritual (3). Offered in conjunction with the study abroad program in Ecuador and focuses on the indigenous spirituality and religion on the Andes. Field
experience includes community service, lectures, workshops. Prerequisite: Graduate standing.

**LAS 5955 Haiti Study Abroad (3).** Study abroad examination of Haitian Politics and Society. Part of Haitian Summer Institute. Prerequisite: Graduate standing.

**LIS 2005 Information and Internet Research (3).** Development of research skills as they apply to using both academic libraries and internet. Includes critical thinking skills in relation to the use and application of information.

**SLS 1501 First Year Experience (1).** A review of basic skills and competencies necessary to college success including time management, study skills, and academic policies/procedures. Includes mandated information.
The School of Environment, Arts and Society (SEAS) was launched in the Spring of 2010 to address the need for interdisciplinary approaches in understanding and solving environmental challenges that have profound implications for all of society.

An integral part of the College of Arts and Sciences, SEAS brings together faculty and students in the natural and social sciences with those in the humanities to study all aspects of these pressing challenges, identify solutions, educate current and future leaders, and inform the public. SEAS links environmental thinking and action at every level and provides Worlds Ahead research and teaching at the BA, MS, and PhD levels in the Departments of Biology, Earth and Environment, English, and Liberal Studies.

Drawing upon the resources of Miami’s unique coastal, inter-American and cosmopolitan locale, SEAS students and faculty are at the forefront of environmental research and are working towards ensuring a sustainable future for Florida, the country and the world. SEAS also houses premiere centers and programs to further its global mission, including the Southeast Environmental Research Center, the Marine Sciences Program, the Center for the Humanities in an Urban Environment, the Global Water for Sustainability Program, and the Agroecology Program.
The School of Integrated Science and Humanity will be a catalyst for strengthening, promoting, and contributing to innovative research and teaching in the areas addressing human health across the university and around the world.

SISH will
- be a premier school for multi-disciplinary research in the fields of basic biomedical and behavioral sciences.
- facilitate multidisciplinary research ranging from the fundamental sciences to the study of human nature.
- provide a focus for Arts & Science growth in the areas of human health, partnering with other units in FIU’s Academic Health Center.

SISH provides outreach to local, national, and international communities; disseminates research findings and promotes awareness and discussion of social and ethical issues in the human health, behavioral, and cognitive sciences; and provides leadership in creating partnerships that will expand local economic opportunities in the life sciences and centers.

The School's academic core is comprised of departments and centers offering innovative academic programs at the bachelor's, master's, and doctoral level: Chemistry & Biochemistry, Mathematics & Statistics, Physics, Philosophy, Psychology, and Women's Studies. SISH also incorporates centers and institutes focused on health-related issues, including the Center for Children and Families, International Forensic Research Institute, and Institute for Child Health & Development.

SISH provides a focus for planned growth in the college of Arts & Sciences as a component of FIU's Academic Health Center, in partnership with the Colleges of Medicine, Public Health, Nursing & Health Sciences, and Engineering & Computing.
School of International and Public Affairs (SIPA)

The School of International and Public Affairs was launched in the Spring of 2009 to fulfill a need for an interdisciplinary approach critical to the understanding of the globalized world of the 21st century.

SIPA will:
• educate and train globally competent leaders in the fields of international and public affairs;
• produce scholarship that advances the understanding of international issues while contributing to policy solutions;
• promote international dialogue that fosters greater mutual understanding throughout the world

An integral part of the College of Arts and Sciences, SIPA will centralize most of FIU’s internationally-oriented disciplines, providing cutting edge research, first-rate teaching, and innovative training. With more than 100 faculty and staff, SIPA offers innovative interdisciplinary research and teaching at the BA, MA, and PhD levels.

SIPA aspires to be recognized worldwide as a premier institution for research, education, and training in the fields of international and public affairs, as well as an essential resource for analysis and consulting for government, non-profit, and for-profit organizations alike. The School will seek accreditation by the prestigious Association of Professional Schools of International Affairs (APSIA).

SIPA will be housed in a world-class facility. Located at the center of the Modesto A. Maidique Campus, the SIPA building will be an architectural showpiece for the University and South Florida. A 500-seat auditorium, the centerpiece of the building, will be the largest and most technologically advanced academic space at the University. Arquitectonica, the award-winning, Miami-based firm with an international reputation for excellence and innovation, is responsible for the building’s stunning design. Construction of the new facility started in May of 2009 and should be completed by the Summer of 2010.
Asian Studies

Steven Heine, Director, Asian Studies
Affiliated Faculty:
Mahadev Bhat, Earth and Environment and Economics
Thomas Breslin, Politics and International Relations
Nathan Katz, Religious Studies

Paul Kowert, Politics and International Relations
Li Ma, Modern Languages
Matthew Marr, Global and Sociocultural Studies
Asuka Mashav, Modern Languages
Eric Messersmith, Asian Studies
Julie Zeng, Politics and International Relations

Bachelor of Arts in Asian Studies

The B.A. degree in Asian Studies is an interdisciplinary program that draws on faculty from the College of Arts and Sciences and other professional schools at FIU. The courses are coordinated by Asian Studies, which also sponsors workshops, lectures, cultural events, and study abroad programs.

Like the certificate program in Asian Studies, the bachelor’s program provides students with a rich learning experience about a fascinating and increasingly important region of the world, and is intended to enhance the student’s competitiveness upon graduation. The program provides a multidisciplinary approach covering the philosophy, religion, art history, language and literature of Asia as well as issues in history, politics, geography, sociology/anthropology, and international relations.

The B.A. has three tracks: International Political Economy of Asia, emphasizes social scientific studies involving economics, international relations, politics, and sociology; Asian Cultural Studies, emphasizes the humanities and arts disciplinary approaches; and East Asian Studies emphasizes advanced language studies by requiring six semesters of Chinese, Japanese, or other Asian language, which may be done with (a) six semesters in one Asian language, or (b) four semesters in one Asian language and two semesters in another Asian language (only 6 credits will be counted from the second language).

For further information please contact the Asian Studies office, located at SIPA 505, at asian@fiu.edu or at (305) 348-1914. Also, visit our website at http://asian.fiu.edu.

Lower Division Preparation

To qualify for admission to the program, FIU undergraduates must have met all the lower division requirements including CLAS or its equivalent, completed 60 semester hours, and be otherwise acceptable into the program.

Common Prerequisite Course Requirements

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org. See Common Prerequisite Manual.

Upper Division Program

The Major requires 36 hours of upper division coursework. It is designed to allow students to focus on Asian political economy or culture or East Asian languages.

Common Requirements (all tracks)

Language Requirements (6 credits)

Four Semesters of Chinese, Japanese, or other Asian Language.

Core Courses: (30 credits)

1. ASN 3410 – Intro to East Asia (3 credits)
2. 18 credits from the Asian Studies course list (9 credits in International Political Economy and 9 credits in Asian Cultural Studies).
3. 6 credits in main concentration. For International Political Economy and Asian Cultural Studies track this could include area studies and/or language courses; and for the East Asian Studies track this must be a third year in the first language or one year in a second language
4. 3 credits in a supervised research course (ASN 4510 or ASN 4390).
5. Students may receive credits through a Study Abroad courses or an Internship program

International Political Economy of Asia Track

Electives:

CHI 3440 Chinese for Business
CPO 3502 Politics of the Far East
CPO 3643 Russian Politics
CPO 4401 The Arab-Israeli Conflict
CPO 4507 Comparative Political Economy of Asia
CPO 4541 Politics of China
CPO 4553 Government Politics of Japan
ECO 4701 World Economy
ECO 4703 International Trade Theory and Policy
ECS 3003 Comparative Economic Systems
ECS 3200 Economics of Asia
ECS 3704 International Economics
FIN 3652 Asian Financial Markets and Institutions
GEA 3554 Geography Russia/Central Eurasia
GEA 3635 Population and Geog. Middle East
GEA 3705 Geography of Central Asia and the Caucasus
INR 3083 Contemporary International Problems
INR 3223 Japan and the US
INR 3224 International Relations of East Asia
INR 3226 International Relations of Central Asia and the Caucasus
INR 3227 International Relations of South Asia
INR 3262 International Relations of Russia and the Former USSR
INR 3274 International Relation of the Middle East
INR 3703 International Political Economy

Elective:

None
INR 4032 Asia and Latin America in World Affairs
INR 4082 Islam in International Relations
INR 4232 International Relations of China
INR 4521 Politics of Regional Integration
INR 4931 Topics in International Relations
ISS 3240 World Prospect and Issues
JPN 3140 Japanese for Business
LBS 4653 Labor Movements in Developing Countries
LBS 4654 Comp and International Labor Studies
MAN 4600 International Management
MAN 4661 Business in Asia
MAR 4156 International Marketing
SYD 3650 Sociology of Gender and Power in Asia
SYD 4610 Sociology of Middle East
SYO 4560 Comparative Sociology
SYP 3456 Societies in the World
SYP 4454 Globalization and Society

**Asian Cultural Studies Track Electives:**

AMH 4544 The United States and the Vietnam War
AML 4930 American Writers and the Orient
ANT 3241 Myth-Ritual-Mysticism
ARC 4754 Asian and African Architecture
ARH 4552 Art of China and Japan
ASH 3440 History of Japan
ASH 4300 East Asian Civilization and Culture
ASH 4404 History of Modern China
ASN 3403 Zen and the Art of Tea Ceremony
ASN 3410 Intro to East Asia
ASN 4404 Zen and the Art of Tea Ceremony II
COM 3410 Cultural Communication-Patterns of Asia
DAN 4136 Global Perspectives in Dance and Culture I
DAN 4137 Global Perspectives in Dance and Culture II
EDF 4954 Art Education Abroad in China
EVR 3402 Asian Environmental Issues
JPN 3500 Japanese Culture and Society
JPN 4930 Special Topics in Japanese
JPT 3521 Japanese Literature and Cinema
LIN 4624 Bilingualism and Language Policy
MUH 3514 Music of the World
MUH 3570 Survey of Asian Music
PEM 4401 Comp Analysis of Japanese Martial Arts
PET 3403 Intro to Martial Arts
PHH 3810 Philosophy of Buddhism
PHH 3840 Indian Philosophy
PHI 3762 Eastern Philosophy and Religious Thought
PHP 3840 Chinese and Japanese Philosophy
REL 3027 Meditation and Mystical Traditions
REL 3028 Sacred Places, Sacred Travels
REL 3123 Asian Religions in the Americas
REL 3145 Women and Religion
REL 3310 Intro to Asian Religions
REL 3313 Sources of Modern Asian Society
REL 3314 Religions of the Silk Road
REL 3330 Religions of India
REL 3340 Survey of Buddhism
REL 3399 The Art of Yoga and Meditation
REL 4311 Religious Classics of Asia
REL 4312 Jews of Asia
REL 4345 Zen Buddhism
REL 4351 Religion and Japanese Culture
SPW 4133 Eastern Thought and L.A. Literature: Octavio Paz
SPW 4470 Eastern Cultures and Travel Writing in Spanish Literature
Visit our website at [http://asian.fiu.edu](http://asian.fiu.edu) for a comprehensive list of electives.

**East Asian Studies Track Electives:**

CHI 1130 Chinese I
CHI 1131 Chinese II
CHI 2200 Intermediate Chinese
CHI 2201 Intermediate Chinese II
CHI 3440 Business Chinese
JPN 1130 Japanese I
JPN 1131 Japanese II
JPN 2200 Intermediate Japanese I
JPN 2201 Intermediate Japanese II
JPN 3140 Japanese for Business
JPN 3400 Advanced Japanese I
JPN 3401 Advanced Japanese II
JPN 3420 Japanese Through Technology
JPW 4130 Reading Japanese Literature
JPW 4131 Reading Japanese Non-Fiction
Visit our website at [http://asian.fiu.edu](http://asian.fiu.edu) for a comprehensive list of electives.

**Bachelor of Arts in Asian Studies with Honors**

The Honors track is designed for promising students who possess a strong desire for intellectual challenge and growth that focuses on their interest in Asia. The Honors track provides students with a more in-depth foundation in the traditional cultures and modern socio-economic societies of Asia; and further prepares them for advanced studies as well as for careers in the public and private sectors.

**Requirements**

a. To earn a B.A. with honors in Asian Studies, a student must maintain a 3.5 GPA in Asian Studies courses.

b. Candidates for the B.A. with honors in Asian Studies will complete the same requirements as the B.A. major with one exception. In addition to the 18 semester hours on the concentration of choice (i.e. international political economy of Asia, Asian cultural studies, or East Asian studies), students will take 3 additional semester hours of “Honors Thesis” (ASN 4970), during which the thesis or honors paper will be proposed, researched, written and defended orally.

c. In the semester prior to graduation, the student will enroll in “Honors Thesis” (ASN 4970) in which he or she will expand a term paper into an honors paper/thesis or will begin a thesis anew under the direction of an appropriate member of the Asian Studies or affiliated faculty.

d. When the thesis is approved by the faculty member, the coordinator of ASN 4911 will organize and schedule a defense of the honors paper/thesis, at which he or she will present the research and will
Students who completed at least 75-90 credits in the bachelor’s degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

A complete application requires:
- Current enrollment in BA program in Asian Studies at FIU
- Completion of 90 credits of undergraduate coursework
- Combined GRE score of 1000
- Overall GPA of 3.2
- One letter of recommendation
- Statement of purpose discussing interests in the field

Students should consult the graduate catalog and the Asian Studies website for a more comprehensive discussion of admission requirements [http://asian.fiu.edu](http://asian.fiu.edu).

The program gives students the opportunity to take up to 9 credits of graduate coursework in the second semester of their senior year that will count towards both the BA and the MA. Students may take up to three 5000-level or higher graduate courses in the second semester of their senior year and follow the regular MA curriculum after they earn their BA degree.

**Undergraduate Senior Year**
- Fall Semester – apply to the program by the end of the semester
- Spring Semester – take 12 credits, including 9 graduate credits in 5000-level or higher courses

**Graduate Program**
- Summer Semester – take 3 graduate credits (5000-level or higher)
- Fall Semester – take 9 graduate credits (5000-level or higher)
- Spring Semester – take 9 graduate credits (5000-level or higher, including thesis or master’s essay)

Students in the combined BA/MA program in Asian Studies must complete all other requirements for the MA degree in Asian Studies (please consult the graduate catalog and the Program’s online graduate handbook). Students in this program have up to a year to complete the master’s degree after receipt of the bachelor’s degree. Students who fail to meet this year post BA requirement or who elect to leave the combined program at any time and earn only the BA degree will have the same access requirements to regular graduate programs as any other student, but will not be able to use the 9 graduate credits in both the bachelor’s and master’s degrees.

**Minor in Asian Studies**
This program is designed with an interdisciplinary approach to Asian Studies. This minor supports specialized focuses such as area, comparative, or language studies. It prepares students interested in careers in international business, state or federal government, foreign affairs, and education, and more.

**Required Course: (3 credits)**
Students must choose one of the below courses in Asian Studies; students should consult with an advisor about current course offerings.

- ASN 4510 Dynamics of Asia
- ASN 4390 Modern Asia
- ASN 3410 Introduction to East Asia
- ASN 3403 Zen and the Art of Tea Ceremony
- ASN 3200 Asia Through Films

**Electives: (12 credits)**
Students must select 12 elective credits from interdisciplinary, upper division courses with emphasis on Asia. Students are encouraged to take language courses, participate in the study abroad programs, and internships.

For more information, contact the Asian Studies office, DM 300B. Email: asian@fiu.edu; phone: (305) 348-1914; website: [http://asian.fiu.edu](http://asian.fiu.edu).

**Course Descriptions**
**Definition of Prefixes**
ASN – Asian Studies, FLE - Foreign Language Education

ASN 2002 Introduction to Asian Societies (3). Overview of Asian societies, including their interaction and impact on modern times.

ASN 3015 South Asian Cultures (3). An overview of South Asian culture.
ASN 3016 Introduction to China (3). Examination of China, focusing on its culture, history, religion, and societal life.

ASN 3042 Asian Religions and the Arts (3). Examines the richly diverse and complex forms of art and artistic expression in the various Asian religions against the background of their respective cultural settings.

ASN 3200 Asia Through Films (3). Overview of Asian culture, history, and society through Asian cinema.

ASN 3403 Zen and the Art of Tea Ceremony (3). An introduction to the cultural traditions and social behavior of Asia that crosses the history, theory, and practice of Chado, or Way of Tea, a Zen-Buddhist inspired art.

ASN 3410 Introduction to East Asia – GL (3). An overview of East Asia from traditional to modern times including the interaction among Asian cultures as well as between Asia and the world.

ASN 3414 Cultures of East Asia (3). A survey of the major cultural expressions of the societies of traditional and modern China and Japan.

ASN 3931 Special Topics in Asian Studies (3). An examination of specific topics in Asian Studies. The content is to be determined by the instructor.

ASN 4390 Modern Asia (3). Focus on modernization and the transition from pre-modern, including elements such as westernization, industrialization, and the roles of capitalism, communism, and imperialism.

ASN 4404 Zen and the Art of the Tea Ceremony II (3). Theory, practice, aesthetics and cultural history of Chado, the Tea Ceremony of Zen Buddhism.

ASN 4510 Dynamics of Asia (3). An interdisciplinary study of the classical and contemporary periods in Asian civilizations, including tradition and modernization, culture and the arts, gender and diversity, and international relations. Content may vary from semester to semester. Course may be repeated.

ASN 4810 East Asian Texts in Translation (3). Reading and interpretation of classical sources from literature and religion in East Asia.

ASN 4911 Independent Research in Asian Studies (1-6). Topics selected to meet academic needs for students doing research in same special area in Asian Studies. Prerequisite: Permission of the instructor.

ASN 4941 Internship in Asian Studies (1-3). Students to intern in local, national, and overseas organizations with ties to Asia. The nature of the work to be determined in conjunction with the advisor. Prerequisite: Permission of the instructor.

ASN 4970 Honors Thesis (3). Writing and completion of undergraduate honors thesis. Prerequisites: Permission from the Program Director and senior standing.

ASN 5050 Methods in Asian Studies (3). An examination of interdisciplinary methods for studies of Asia covering premodern and modern, language and area studies, fieldwork and deskwork, and qualitative and quantitative approaches.

ASN 5120 Religion and Society in Japan (3). Examines the relation between religion and the state, the growth of new religious movements, the role of religion during times of war and conflict, issues of religious freedom and legality, the impact of religious institutions on gender and ethnicity.

ASN 5130 Zen and the Arts (3). Examines the history, theory, and practice of Chado (Way of Tea), a Zen inspired art that has had, and still exerts, a long-lasting influence on Japanese society.

ASN 5131 Zen and the Arts II (3). Theory, practice, aesthetics and cultural history of Chado the Tea Ceremony of Zen Buddhism.

ASN 5211 Asian Cultures and Influences (3). Examines diverse forms of Asian cultural manifestations and examples of self-expression, and the manner in which these styles have influenced modern Western movements (Transcendentalism and the Beats).

ASN 5306 Applying Asian Cultural Values in Business (3). Critical survey of traditional Asian values. Topics to include the way they have been applied to the world of entrepreneurship, cultural constructions of the Asian business community and philosophical approaches to the formation of entrepreneurial strategies.

ASN 5315 Topics in Modern Asia (3). Focus on modernization, or the transition from pre-modern (classical and medieval) to elements of the modern, including westernization, industrialization, and the roles of capitalism, communism, imperialism, and colonialism, as well as the impact of post-colonialism and post-modern society in Asia.

ASN 5605 Silk Road: Then and Now (3). Examination of the historical and contemporary significance of the Silk Road as an avenue for commercial and cultural exchange between East and West.

ASN 5815 Studies of Classical East Asian Texts (3). Advanced studies of classical East Asian readings from literature and religion, including interpretation and analysis from traditional and contemporary perspectives. Proficiency in Japanese and/or Chinese required. Prerequisite: Permission of the instructor.

ASN 5910 Independent Research in Asian Studies (1-6). Topics will be selected to meet academic needs for students doing research in some specialized area of Asian studies. Prerequisite: Permission of the instructor.

ASN 5932 Special Topics in Asian Studies (3). An examination of specific topics in Asian Studies. The content to be determined by instructor.

FLE 4853 Chinese Studies Pedagogy (3). Introduction to Chinese language pedagogy, providing knowledge and
tools for teaching Chinese language and culture in a
classroom, in a variety of pedagogical settings.
Prerequisite: Permission of the instructor.

FLE 5855 Pedagogical Methods for Chinese Language
(3). Introduction to Chinese language pedagogy, providing
knowledge and tools for teaching Chinese language and
culture in a classroom and a variety of pedagogical
settings. Prerequisite: Permission of the instructor.

Timothy M. Collins, Professor and Chairperson
M. Alejandro Barbieri, Associate Professor
Bradley C. Bennett, Professor
Charles Bigger, Professor
Kristin Bishop, Assistant Professor
Richard P. Brinn, Lecturer
Deron E. Burkepile, Assistant Professor
Chun-fan Chen, Associate Professor
Ligia Collado-Vides, Lecturer
Laurel S. Collins, Associate Professor
Maureen A. Donnelly, Professor and Associate Dean for Graduate Studies
Kenneth J. Feely, Assistant Professor
James W. Fourqurean, Professor
Javier Francisco-Ortega, Associate Professor
Evelyn E. Gaiser, Associate Professor
Miroslav Gantar, Lecturer and Research Scientist
Walter M. Goldberg, Professor
James B. Heffernan, Assistant Professor
Miroslav Gantar, Lecturer and Research Scientist
Sarah A. Heulin, Assistant Professor
Leung Kim, Associate Professor
Suzanne Koptur, Professor
Lidia Kos, Associate Professor and Graduate Program Director
Craig A. Layman, Assistant Professor
John C. Makemson, Professor and Director of Undergraduate Studies
DeEtta K. Mills, Lecturer
Kenneth E. Murray, Assistant Professor
Fernando G. Noriega, Associate Professor
Steven F. Oberbauer, Professor
Thomas R. Pitzer, Senior Instructor and Laboratory Coordinator
Jennifer H. Richards, Professor
Laurie L. Richardson, Professor
Gene Rosenberg, Lecturer and Associate Chairperson
Philip K. Stoddard, Professor
Jamie Theobald, Assistant Professor
Martin L. Tracey, Professor
Joel C. Trexler, Professor and Marine Sciences Program Director
Rebecca Vega-Thurber, Assistant Professor
Eric von Wettberg, Assistant Professor
Maureen Walter, Senior Instructor
Douglas Wartzok, Professor and Provost and Executive Vice President
Ophelia I. Weeks, Professor
Jeffrey D. Wells, Associate Professor
Daniel J. Wescott, Senior Lecturer

Bachelor of Science in Biological Sciences

Degree Program Hours: 120

Courses Required for the Degree Lower Division Program

Common Prerequisite Courses and Equivalencies

FIU Course(s) | Equivalent Course(s)
--- | ---
BSC 1010, BSC 1010L | BSCX010/X010L or BSCX010C or BSCX040/X040L or PCBX011C
BSC 1011, BSC 1011L | BSCX011/X011L or BSCX011C or BSCX041/X041L or CHMX045 or CHMX040 and CHMX041
CHM 1045, CHM 1045L | CHMX045/X045L or CHMX045C or CHMX040 and CHMX041
CHM 1046, CHM 1046L | CHMX046/X046L or CHMX046C
CHM 2210, CHM 2210L | CHMX210/X210L or CHMX210C
CHM 2211, CHM 2211L | CHMX211/X211L or CHMX211C
PHY 2048, PHY 2048L | PHYX048/X048L or PHY053/X053L
PHY 2049, PHY 2049L | PHYX049/X049L or PHY054/X054L
MAC 2311 | MACX311 or MACX233 or MACX253 or MACX081 or MACX241
MAC 2312 or STA 2122 and STA 3123 | MACX324 or STAX023 or STAX024 or STAX321

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org. See Common Prerequisite Manual.

Common Prerequisites

A grade of "C" or better required

MAC 2312 | Calculus II³
OR
STA 2122 | Intro to Statistics I³
STA 3123 | Intro to Statistics II³

¹ Organic chemistry sequence or physics sequence must be taken at the Lower Division.
Undergraduate Catalog 2011-2012

College of Arts and Sciences 157

\( ^2 \)Physics without Calculus I and II and corresponding labs can be substituted (PHY 2053 and PHY 2054).

\( ^3 \)Calculus I and Calculus II must be taken in the Lower Division. If Statistics I is taken, it must be taken in the Lower Division. Calculus I and Statistics I alone are not sufficient to meet the requirements for the degree. STA 3111 and STA 3112 may be substituted for STA 2122 and STA 3123.

To qualify for admission to the department, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable to the department.

**Upper Division Program**

**Required Courses**

1. PCB 3043 Ecology 3
2. PCB 3063 Genetics 3
3. PCB 4023 Cell Biology 3
4. PCB 4674 Evolution 3
5. BSC 4931 Senior Seminar 1
6. Distribution Requirement 12

One additional lecture course in each of the following areas:

A. Ecology
B. Organismal Diversity
C. Physiology/Biochemistry
D. Structure/Development
   (If a course satisfies the distribution requirement, the letter of the area that it satisfies is in brackets after the course description).

7. Biology Electives\(^2\) 2 lecture courses 6
8. Laboratory Requirement\(^2\) (Labs) 4
9. Electives outside major 9
10. A minimum of 48 credits must be earned in Upper Division courses.

\( ^1 \)Two upper division lecture courses (3000-level and above) to be chosen in consultation with a faculty advisor.

\( ^2 \)Laboratory requirement is met with any four upper division Biology labs offered with the required courses, courses that meet the distribution or Biology elective requirements.

Students interested in teacher certification should contact the College of Education at (305) 348-2768.

**Special Programs**

**Bachelor of Science in Marine Biology**

**Admission to the Program**

Students wishing to pursue the BS in Marine Biology must meet the same entry requirements as identified for admission to the BS in Biological Sciences.

Marine Biology Program activities and upper-division coursework will be concentrated at the Biscayne Bay Campus, although course requirements may be met elsewhere at FIU.

Continuity in academic advisement is an objective in this specialized degree program. Students in the BS Marine Biology Program will be advised by a dedicated Marine Biology Advising Office. Faculty in Biological Sciences, including Marine Biology faculty, also are available to provide academic and career advice for students in the Marine Biology Program.

**Courses Required for the Degree**

**Lower Division Program**

The lower Division component of the Marine Biology Bachelor of Science is identical to that of the BS in Biological Sciences, in which common prerequisites in Biological Sciences, Chemistry, Physics, Calculus, and Statistics must be met. All requirements for completion of the lower division in Biological Sciences apply to the BS in Marine Biology, including the grade of “C” or better in required courses, the lower division physics, calculus, and statistics requirements, options, and acceptable substitutions.

**Upper Division Program**

The upper-division requirements for the BS in Marine Biology include a selection of seven common requirements, one required laboratory, and a choice of four marine electives, including selections from among the physical sciences. The Biological Sciences Distribution Requirement does not apply to the BS in Marine Biology.

**Common Requirements**

- PCB 3043 Ecology 3
- PCB 3063 Genetics 3
- PCB 4023 Cell Biology 3
- PCB 4674 Evolution 3
- OCB 3043 Marine Biology and Oceanography 3
- OCB 3043L Marine Biology and Oceanography Lab 1
- OCP 3002 Physical Oceanography 3
- BSC 4931 Senior Seminar 1

**Upper-Division Electives**

Students are required to choose four from among the following upper-division Marine electives:

- BOT 4402C Marine Botany 3-4
- BOT 4404 Phycology 3
- BOT 5647 Ecology of Marine Vascular Plants 3
- GLY 4730 Marine Geology 3
- OCB 3264 Biology of Coral Reefs 3
- OCB 4004 Biological Oceanography at Sea I 3
- OCB 4005C Biological Oceanography at Sea II 4
- OCB 4070 Coastal Marine Conservation 3
- OCB 4303 Biology of Marine Mammals 3
- OCB 4632 Marine Microbial Ecology 3
- OCB 4633 Marine Community Ecology 3
- PCB 4467C Marine Protected Areas 3-4
- PCB 4723 Animal Physiology 3
- PCB 4724 Comparative Physiology 3
- PCB 4805 Endocrinology 3
- ZOO 3205C Invertebrate Zoology 4
- ZOO 4454 Fish Biology 3

Other courses as approved by the Marine Biology Advising Office may also be used.
Laboratory Requirement
The student is required to take OCB 3043L Marine Biology and Oceanography Lab, plus 3 laboratories of upper division required or elective courses.

Bachelor of Science with Honors in Biology

Admission to the Program
a. Permission of the department. Application should be made by letter to the Curriculum Committee from the applicant after completion of two semesters at the University and prior to two semesters before graduation. The letter should state the intended research problem and be countersigned by the Thesis Committee (advisor and mentor).
b. A minimum GPA of 3.5 in biology, chemistry, physics, geology, and mathematics courses.

Graduation Requirements
a. A minimum GPA of 3.5 in biology, chemistry, physics, geology, and mathematics courses.
b. Completion of the BS requirements in Biology and Honors Research Lab (BSC 4915L, 1 to 3 credits, and Honors Thesis (BSC 4970, 3 credits).
c. Completion of Honors research in collaboration with a two-person Honors Committee, the honors advisor and one other member. The honors advisor must be a tenured or tenure-earning member of the department. The research results must be written in the form of an honors thesis and approved by the Honors Committee.
d. Deposit two completed approved copies of the Honors Thesis with the Department’s Office: one copy to be kept in the department and the other to be deposited in the Library.
e. Presentation of the results of the Honors Research in a departmental seminar.

Bachelor of Science in Biological Sciences: Biology Education Major

The BS in Biological Sciences with Biology Education major is completing the approval and accreditation process with the Florida Board of Governors and the Florida Department of Education. Please speak with a College of Arts and Sciences advisor for detailed information.

Admission to the Program/Teacher Certification
This program prepares student interested in biology for teaching at the secondary level and for the Florida Teacher Certification Examination (FTCE). Students wishing to pursue the Biology Education major must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable to the Department of Biological Sciences. Additionally, students pursuing an education major must have a minimum overall GPA of 2.5 for all lower division/transfer course work and achieve the competencies of the CLAS requirement. Students in the Biology Education major may do this by passing the FTCE General Knowledge Exam or the Praxis I.

Note: Students with a CLAS exemption must pass the FTCE General Knowledge Exam prior to admission to the program. Please also note that students in the Biology Education major will have to pass the FTCE General Knowledge, Professional Educator, and Subject Area exams prior to graduation.

Lower Division Requirements

Common Prerequisites
A grade of "C" or better required

BSC 1010 General Biology I
BSC 1010L General Biology I Lab
BSC 1011 General Biology II
BSC 1011L General Biology II Lab
CHM 1045 General Chemistry I
CHM 1045L General Chemistry I Lab
CHM 1046 General Chemistry II
CHM 1046L General Chemistry II Lab
CHM 2210 Organic Chemistry I
CHM 2210L Organic Chemistry I Lab1
CHM 2211 Organic Chemistry II
CHM 2211L Organic Chemistry II Lab1
PHY 2048 Physics with Calculus I1,2
PHY 2048L General Physics Lab I1,2
PHY 2049 Physics with Calculus II1,2
PHY 2049L General Physics Lab II1,2
MAC 2311 Calculus I³
MAC 2312 Calculus II³

OR

STA 2122 Intro to Statistics I³
STA 3123 Intro to Statistics II³

1 Organic Chemistry sequence or Physics sequence must be taken at the Lower Division.
2 Physics without Calculus I and II (PHY 2053 and PHY 2054) can be substituted Physics with Calculus I and II.
3 Calculus I and II must be taken at the lower division. If Statistics I is taken it must be taken at the lower division. Both Statistics I and II are required to replace Calculus II only. STA 3111 and STA 3112 may be substituted for STA 2122 and STA 3123.

Upper Division Biology Education Program

Required Courses
PCB 3043 Ecology 3
PCB 3063 Genetics 3
PCB 4023 Cell Biology 3
PCB 4674 Evolution 3
BSC 4931 Senior Seminar 1
SCE 3813 Biology Education Seminar 1

Biology Education Upper Division Electives
Select one course each of the following areas:

A. Ecology 3
B. Organismal Diversity 3
C. Physiology/Biochemistry 3
D. Structure/Development 3

(If a course satisfies the distribution requirement, the letter of the area it satisfies is in brackets after the course description)
Biology Laboratory Requirement
Two Upper Division Labs 2

Education Requirements
SCE 4894 Nature of Math and Science 3
SCE 4194 Perspectives in Science and Math Education 3
SCE 4330 Secondary Science Teaching Methods 3
SCE 4944 Student Teaching 6
SCE 4931 Senior Seminar in Science Education 2
RED 4325 Subject Area Reading 3
TSL 4324 ESOL Issues and Strategies for Content Area Teachers 3

Minor in Biology
Required Courses
BSC 1010 and BSC 1011 with labs, and one upper division course (3000-level or above) in three of the following areas: A. Ecology, B. Organismal Diversity, C. Physiology/Biochemistry, or D. Structure/Development.

One of these elective courses must be at the 4000-level or higher and one must include a lab. Total upper division biology credits must number 10 or more. Grades of 'C' or better are required for all courses and labs. The following courses do not count as electives: Student Research Labs (BSC 3915, 4914, and 6916), Workshop Biology Labs (BSC 5928, PCB 5238, BSC 6926, etc.); Cooperative Education credits (BSC 3949), Physiology of Aging (PCB 3241), and any course for non-science majors (e.g., BOT 1010, PCB 2061, PCB 2099, MCB 2000, BSC 2023, EVR 3013, OCB 2003, and OCE 3014).

Minor in Marine Biology
Required Courses
Students must complete, with a grade of "C" or better, BSC 1010 and BSC 1011 with labs, OCB 3043 Marine Biology and Oceanography and OCB 3043L, and at least two courses from among the selection of upper-division Marine Electives that meet the BS in Marine Biology requirement.

Pre-Medical, Dental, Optometry, and Veterinary Curricula
Students who have fulfilled the requirements for the BS in Biology will also have satisfied the course requirements for admission to the above mentioned professional schools. Some professional schools may have additional course requirements. Interested students should consult the Pre-Medical Advisor for arranging a curriculum to enhance their potential to gain admission.

Course Descriptions
Note: Laboratories should be taken concurrently with or subsequent to lectures. Students should register for each separately.

Definition of Prefixes
BCH - Biochemistry; BOT - Botany; BSC - Biological Science; ENY - Entomology; IDS-Interdisciplinary Studies; MCB - Microbiology; OCB - Oceanography (Biological); PCB - Process Biology; SCE - Science Education; ZOO – Zoology

BCH 3033 General Biochemistry (3). BCH 3033L Biochemistry Lab (1). Chemistry of proteins, lipids, carbohydrates, and nucleic acids; principles of enzymology, metabolism, and bioenergetics. Prerequisites: Organic Chemistry CHM 2211 and General Biology I BSC 1010. [C]

BCH 5040 Introduction to Biochemical Research (3). Analysis of biochemical data and experimental design. Prerequisite: Graduate standing.

BCH 5134C Workshop in Chromatography Techniques (1). Workshop covers the theory and practice of chromatographic techniques to separate complex mixtures of biomolecules, including absorption, ion exchange, size exclusion and affinity chromatography. Prerequisite: Graduate status.

BCH 5411C Techniques in Molecular Evolution Research (5). Ribosomal genes from related organisms are amplified by polymerase chain reaction (PCR) and sequenced. Phylogenetic maps are made by computer from sequence data. Students may use material from their own research. Prerequisites: General Biochemistry BCH 3033 and Lab BCH 3033L, Molecular Biology PCB 4524 and Lab PCB 4524L or graduate status.

BOT 1010 Introductory Botany (3). BOT 1010L Introductory Botany Lab (1). A history of mankind’s study and use of plants, and a survey of plants of economic importance. Includes lab. No science prerequisite. (Lab fees assessed)

BOT 3014 Plant Life Histories (3). BOT 3014L Plant Life Histories Laboratory (1). Plant form, function, and reproduction: the lives of algae, fungi, bryophytes, ferns, gymnosperms, and flowering plants. This course is designed for majors and certificate students. Prerequisites: BSC 1011. Corequisite: Concurrent registration in lecture and lab. [B]

BOT 3154 Local Flora (3). BOT 3154L Local Flora Lab (1). Introduction to the taxonomy and ecology of common native, cultivated, and exotic plant species in southern Florida. Laboratory observation of the gross features of vascular plants and practice in the use of keys for identification. Basic ecology of principal plant communities of Southern Florida. Field trips. Prerequisites: Introductory Botany BOT 1010 or General Biology II BSC 1011. Corequisite: Concurrent registration in lecture and lab courses. [B]
BOT 3353 Morphology of Vascular Plants (3). BOT 3353L Morphology of Vascular Plants Lab (1). Origin and evolution of plants, especially vascular plants of tropical origin. Analysis of vascular plant anatomy and morphology, emphasizing the underlying principles of plant construction. Prerequisites: A course in General Biology or permission of the instructor. [D]

BOT 3434 Mycology (3). BOT 3434L Mycology Lab (1). An introduction to the taxonomy, genetics, and physiology of fungi with special emphasis on commercially important fungi and plant and animal pathogenic fungi. Prerequisites: General Biology I BSC 1010, General Biology II BSC 1011. [B]

BOT 3663 Tropical Botany (3). BOT 3663L Tropical Botany Lab (1). How environmental factors affect the distribution of vegetation, and the morphology and physiology of plants in the tropics. Emphasis on tropical plants of economic importance. Prerequisites: General Biology II BSC 1011 or equivalent. Corequisite: Concurrent registration in lecture and lab courses. [B]

BOT 3810 Economic Botany (3). The origins, domestication and uses of economically important plants. Prerequisites: BSC 1011 General Biology II, or BOT 1010 Introductory to Botany. [B]

BOT 4401 Plant Conservation Biology (3). Overview of the causes and consequences of local and global-scale human disturbances on plant diversity, including evaluation of strategies to mitigate these impacts. Prerequisite: PCB 3043.

BOT 4402C Marine Botany (3-4). Introduction to the taxonomy, biology of seaweeds, seagrass and mangroves, including species identification in the field and lab. Prerequisites: BSC 1011 or equivalent. [B]

BOT 4404 Phycology (3). BOT 4404L Phycology Lab (1). The biology of marine and freshwater algae, with an emphasis on structure, function, reproduction, classification, and ecology. Prerequisites: BSC 1010 General Biology I, BSC 1011 General Biology II. [B]

BOT 4601 General Plant Ecology (3). BOT 4601L General Plant Ecology Lab (1). An examination of the ecology of plants at the individual, population, and community levels. Prerequisites: PCB 3043 or permission of the instructor.

BOT 4684 Taxonomy of Tropical Plants (3). BOT 4684L Taxonomy of Tropical Plants Lab (1). Introduction to higher plant taxonomy, including nomenclature, modern systems of angiosperm classification, and angiosperm evolution. Emphasis on identification of tropical plant families and plants of economic importance. Prerequisites: Local Flora BOT 3154 or Tropical Botany BOT 3663 or permission of the instructor. [B]

BOT 5186C Advanced Marine Botany (3-4). Study of the taxonomy, biology, and ecology of seaweeds, seagrasses, and mangroves including a student research project. Prerequisites: BSC 1011 or equivalent.

BOT 5304C Workshop in Plant Morphology (2). Techniques to analyze plant form and experience with the diversity plant morphology; field work using the collections at Fairchild Tropical Gardens. Prerequisites: 2 botany courses or permission of the instructor.

BOT 5515 Biochemistry of Plant Natural Products (3). Aspects of primary and secondary plant metabolism will be covered including biosynthesis and degradation of natural products as well as their biological/pharmacological activity. Prerequisites: BCH 3033 General Biochemistry or CHM 4304 Biological Chemistry I. [C]

BOT 5575 Photobiology (3). BOT 5575L Photobiology Lab (1). The study of basic photochemical mechanisms as they occur in molecular biological processes such as photosynthesis, plant growth, animal vision, bioluminescence, and radiation damage. Prerequisite: Permission of the instructor. [C]

BOT 5602 The Functional Ecology of Tropical Plants (3). BOT 5602L The Functional Ecology of Tropical Plants Lab (1). The relationship of climate and soils to the distribution and function of the major plant groups of tropical regions. Prerequisites: Two courses in botany or permission of the instructor. [A]

BOT 5605 Plant Ecology (3). BOT 5605L Plant Ecology Lab (1). In-depth study of plant ecology at 3 levels: individual, population, and community. Laboratory and field exercises will examine lecture topics. Prerequisites: Ecology PCB 3043 or permission of the instructor. Corequisite: Concurrent registration in lecture and lab courses. [A]

BOT 5615 Workshop: Seed Conservation (1). Covers practical issues of seed conservation of tropical plants: longevity curves, seed germination protocols and seed conservation procedures. Prerequisites: Graduate students or permission of instructor.

BOT 5647 Ecology of Marine Vascular Plants (3). Biology and ecology of seagrasses and mangroves, with an emphasis on South Florida and Caribbean species. Physiological ecology, population and community ecology, and ecosystem processes. Prerequisite: Permission of the instructor. [A]

BOT 5648 Workshop on Aquatic Plants (1). Biology and identification of aquatic plants. Prerequisites: Graduate status or permission of the instructor.

BOT 5682 Florida Plant Communities (3). Two-week field trip to many diverse plant communities of the state. Ecological and environmental factors influencing plant distribution will be examined, contrasting vegetation among sites. Prerequisites: General Biology II BSC 1011 and Ecology PCB 3043 or permission of the instructor. [A]
BOT 5704 Botanical Terminology, Latin and Nomenclature (2). Course is divided into 3 parts: 1) Botanical Latin and its use; 2) Plant description terminology, and current descriptive standards; and 3) Botanical nomenclature, the ICBN, Phylocode, and others. Prerequisites: Plants Systematics (BOT 5725C) or Systematic Biology (BSC 5606), or approval of the Advisor.

BOT 5725C Plant Systematics (3). Theory and methods of classification of vascular plants using phylogenetic principles. Covers the integration of morphological and molecular characters. Prerequisites: Graduate students or permission of the instructor.

BOT 5727 Plant Genetics (3). Topics related to higher plants, including polyploid inheritance, self-incompatibility, cytoplasmic inheritance, mutable alleles, complex loci, genome analysis, recombination and mutagenesis. Prerequisites: General Biology I and II (BSC 1010 and 1011) and Genetics (PCB 3063).

BOT 5728 Plant Molecular Systematics (2). DNA markers for phylogenetic analysis of vascular plants, including description of laboratory methods, computerized analytical techniques and evolutionary interpretation. Prerequisites: Graduate status or permission of the instructor.

BOT 5728L Plant Molecular Systematics Laboratory (2). DNA markers for phylogenetic analysis of vascular plants, including description of laboratory methods, computerized analytical techniques and evolutionary interpretation. Prerequisites: Graduate status or permission of the instructor.

BOT 5728L Ethnobotany Workshop (1). Field methods in the study of plant use by traditional and modern societies. Examines botanical documentation, ethological description and experimental design. Prerequisites: Graduate status or permission of the instructor.

BOT 5816 Ethnobotany (3). Review the use and management of plants by indigenous people. Discuss emerging theories in ethnobotany, examine the role of ethnobotany in conservation and resource utilization. Prerequisites: Economic Botany BOT 3810, Tropical Botany BOT 3663, Cultural Ecology ANT 3403, or permission of the instructor.

BOT 5816L Ethnobotany Workshop (1). Field methods in the study of plant use by traditional and modern societies. Examines botanical documentation, ethological description and experimental design. Prerequisites: Graduate status or permission of the instructor.

BOT 5817 Field Ethnobotany (1-4). A 4-week field course that introduces students to tropical vegetation and its use by traditional cultures. Topics include tropical botany, diversity, ecology, and the relationship between plants and people. Course may be repeated. Prerequisites: BOT 5816 and BOT 5816L or permission of the instructor.

BOT 5852 Medical Botany (3). An examination of medicinal plants including the biology, chemistry, and pharmacology of botanical remedies, and their effects on human health. Prerequisites: Economic Botany or BOT 5816 or permission of the instructor.

BOT 5924 Workshop in Tropical Plant Families (3). An introduction to important spermatophyte families, including systematics, ecology, and conservation. Prerequisite: Permission of the instructor. [B]

BOT 5925 Workshop in the Biology of Southern Florida’s Native Trees (3). Distribution, floristic relationships, morphology, reproductive biology, taxonomy, and conservation of trees native to southern Florida. Prerequisites: Local Flora BOT 3154, Tropical Botany BOT 3663, or permission of the instructor. [B]

BOT 5928 Workshop on Grasses and Sedges of Southern Florida (1). The systematics, ecology, and identification of South Florida grasses and sedges. Prerequisites: Graduate status or permission of the instructor.

BSC 1010 General Biology I (3). BSC 1010L General Biology I Lab (1). Biomolecules, cells, energy flow, genetics, and physiology. Science background or Biology major recommended. Concurrent registration in both lecture and laboratory is required. Prerequisite or Corequisite: BSC 1010L. (Lab fees assessed)

BSC 1011 General Biology II (3). BSC 1011L General Biology Lab II (1). A survey of organismal biology with emphasis on botany and zoology. Science background or Biology major recommended. Concurrent registration in both lecture and laboratory is required. Prerequisite or Corequisite: BSC 1011L. (Lab fees assessed)

BSC 2023 Human Biology (3). BSC 2023L Human Biology Lab (1). Biological and general scientific principles governing human structure, function, health, and relationship to the planetary environment. For non-science majors. (Lab fees assessed)

BSC 3364 Research in Tropical Ecosystems (3). Biology, Earth Sciences and Environmental Studies faculty describe research in marine and terrestrial ecosystems, geology, conservation and education. Students discuss scientific ideas. [A]

BSC 3392 Science Concept Mapping: Biological Sciences (1). An introduction to the process of concept mapping and its application to the Biological Sciences. Topics include those included in standardized exams such as the MCAT and DAT. Prerequisites: BSC 1010 and BSC 1011.

BSC 3915, 4914 Student Research Lab I and II (1-12). Independent laboratory study in a project or projects of the student’s choice. Registration by consultation with instructor. May be repeated for additional credit.

BSC 3949 Cooperative Education in Biology (1-3). A student majoring in biological sciences may spend several terms employed in industry or government in a capacity relating to the major. Prerequisites: Permission of Co-op Education and major department.

BSC 4303 Biogeography (3). Current issues concerning geographic distribution of plants and animals. Prerequisites: Ecology PCB 3043 and Evolution PCB 4674. [A]

BSC 4304 Environments of the Past (3). The biogeography, diversity and ecology of ancient life is combined with the study of sediments and stable isotopes to interpret environmental changes of the past at the local to global scale. [A]
BSC 4361 Biodiversity of Tropical Islands (3). Current issues on evolution, diversification and conservation of flora and fauna on tropical islands. Prerequisites: Genetics PCB 3063, Ecology PCB 3043, and Evolution PCB 4674. [A]

BSC 4363 Biodiversity in the Caribbean Basin (3). Current issues on evolution, conservation, and diversification of biota of the Caribbean Basin. Prerequisites: BSC 1010, BSC 1011 General Biology I and II. [A]

BSC 4422 Biotechnology: Applications in Industry, Agriculture and Medicine (3). Biological, biochemical, ecological, engineering, entrepreneurial, and ethical aspects of biotechnology in industry, agriculture, and medicine. [D]

BSC 4434 Bioinformatics for Biologists (3). Introduction to bioinformatic resources/methods for biologists. Accessing, searching, retrieving, and analyzing data, including sequence alignment, phylogenetic analysis, and structure prediction. Prerequisites: BSC 1010, BSC 1011, PCB 3063. [B]

BSC 4443 Functional Genomics and Proteomics (3). Introduction to the importance of functional genomics and proteomics in biological research. Prerequisite: PCB 3063. [C]

BSC 4915L Honors Research (1-3). Laboratory and/or field study in consultation with an Honors Thesis advisor. Prerequisite: Admission into Honors in Biological Sciences Program.

BSC 4931 Senior Seminar (1). An exploration of various research works in biological sciences. Oral presentation by the students required. Prerequisite: Senior standing. Prerequisites or Corequisites: PCB 3043, PCB 3063, PCB 4023, and PCB 4674.

BSC 4934 Topics in Biology (1-3). An intensive study of a particular topic or limited number of topics not otherwise offered in the curriculum.

BSC 4970 Honors Thesis (3). Writing an Honors Thesis. Prerequisite: BSC 4915L.

BSC 5302 Ecosystems of the Past (3). Analysis of local to global change in environments through time using faunal distributions, biodiversity, biogeography, physical and chemical properties of sediments, and stable isotopes. [A]

BSC 5405C Environmental Instrumentation (3). Theory and techniques for measurement of environmental parameters of interest to field biologist. Prerequisite: Permission of the instructor. [C]

BSC 5406 Forensic Biology (3). Forensic applications of molecular biology including PCR, STR techniques and other laboratory methods and data interpretation. Prerequisite: Graduate status. [D]

BSC 5446 Advanced Functional Genomics and Proteomics (3). Analysis of Modern Strategies to understand fundamental biological aspects using advanced genomics and proteomic approaches. Prerequisites: PCB 3063 or equivalent.

BSC 5459 Advanced Bioinformatics for Biologists (3). Introduction to bioinformatic resources/methods for biology graduate students, accessing, searching, retrieving, and analyzing data, including an in-depth research project. Prerequisites: BSC 1010, BSC 1011, PCB 3063.

BSC 5926 Graduate Bioresource Workshop (1). This workshop is designed to introduce Biology graduate students to the various resources available for graduate teaching and research. Prerequisite: Graduate status.

BSC 5928 Workshop: Vertebrate Animal Research (1). Reviews the ethical, legal and practical guidelines for conducting research with live vertebrate animals. Required for students capturing, handling or collecting vertebrate animals in the course of research or teaching. Prerequisites: Graduate status or permission of the instructor.

BSC 5929 Workshop: Paleoecology of South Florida (2). Sampling, preparation, and identification of diatoms and foraminifera from a freshwater to marine transect, and application of ecology to interpreting past ecosystems.

BSC 5933 Current Topics in Tropical Biology (3). An intensive study of particular tropical biology topics not otherwise offered in the curriculum. Prerequisite: Permission of the instructor.

BSC 5936 Glaser Seminar: The Biology of Tomorrow (1). A series of lectures by an invited, internationally recognized authority in biological topics of current and future concern.

ENY 1004 General Entomology (3). ENY 1004L Entomology Lab (1). The morphology, systematics, physiology and ecology of the major insect orders, and introduction to basic field procedures. Prerequisite: General Biology II BSC 1011.

ENY 4060 Entomology (3). ENY 4060L Entomology Laboratory (1). Explorations of the morphology, physiology, behavior and metabolism of insects in the context of their evolutionary, environmental and economic significance. Prerequisites: General Biology I BS 1010, General Biology II BSC 1011, or permission of the instructor. [B]

IDS 3214 Our Coastal Environment from the Bay of the World – GL (3). Natural science principles applied to the world's coastal and marine environments, with emphasis on human use of and interaction with those environments, using cases from Florida and around the globe.

MCB 2000 Introductory Microbiology – GL (3). MCB 2000L Introductory Micro Lab (1). Basic concepts of microbes as pathogens, food spoilage and fermentative organisms. Microbial relationships to immunology, sanitation, pollution and geochemical cycling. Not applicable for majors in Biological Sciences. (Lab fees assessed)
MCB 3020 General Microbiology (3). MCB 3020L General Microbiology Lab (1). Introduction to the principles and techniques of microbiology, genetics, taxonomy, biochemistry and ecology of microorganisms. Prerequisites: Organic Chemistry I CHM 2210 and Organic Chemistry II CHM 2211; and General Biology I BSC 1010 and General Biology II BSC 1011; or permission of the instructor. [B]

MCB 4022 Diversity of Microbes (3). An introduction to the diversity of microbes to include the structural and functions dynamics and interactions as assessed by traditional or genetic methods. Prerequisites: MCB 3020 or instructor’s permission. [B]

MCB 4203 Microbial Pathogenicity (3). MCB 4203L Microbial Path Lab (1). Host-parasite relationships: physiology of bacterial, fungal and viral pathogens emphasizing mechanisms of pathogenicity and the host response. Prerequisite: General Microbiology MCB 3020. [C]

MCB 4404 Microbial Physiology (3). MCB 4404L Microbial Physiology Lab (1). Introduction to the study of physiological and metabolic activities of microorganisms and processes that affect them. Prerequisites: General Microbiology MCB 3020 and Lab MCB 3020L. [C]

MCB 4603 Microbial Ecology (3). MCB 4603L Microbial Ecology Lab (1). Principles and applications of microbial interactions with the environment: physical, chemical, and biological. Prerequisites: General Microbiology MCB 3020 and Lab MCB 3020L. [A]

MCB 4653 Food Microbiology (3). MCB 4653L Food Microbiology Lab (1). Public Health microbiology of water and sewage; microbiology of food preparation and spoilage; industrial aspects of microbiology; Prerequisites: General Microbiology MCB 3020 and Lab MCB 3020L. [A]

MCB 5116 Microbial Diversity (3). MCB 5116L Microbial Diversity Laboratory (1). Analysis of metabolic and morpho-logical diversity in bacteria in the context of bacterial systematics. Prerequisites: General Microbiology MCB 3020 and Lab MCB 3020L; additional course in microbiology or biochemistry. Corequisite: Concurrent registration in lecture and lab courses. [B]

MCB 5315C Workshop: Prokaryotic Cloning (2). Description of molecular genetic methods for manipulation of prokaryotic DNA. Prerequisites: PCB 3063 Genetics; BCH 3033 General Biochemistry; or CHM 4304 Biological Chemistry I or permission of the instructor. 

MCB 5405 Biology of Photosynthetic Bacteria (3). Study of the physiology and ecology of photosynthetic bacteria, including Blue-green algae (cyanobacteria), purple and green bacteria, and Halobacteria. [A]

MCB 5412 Advanced Microbial Physiology (3). Overview of microbial metabolic diversity, including prokaryotic metabolic pathways, stress responses, cell signaling, and metabolic regulation. Prerequisite: Permission of the instructor.

MCB 5453L Workshop: Prokaryotic Cell Signaling (1). Covers chemical signals used by prokaryotes for cell-to-cell communications. Prerequisites: MCB 3020 or permission of the instructor.

MCB 5605 Microbial Ecology (3). Principles and applications of microbial interactions with the environment. Current research areas are emphasized. Prerequisite: Graduate Level Standing.

OCB 2003 Introductory Marine Biology (3). OCB 2003L Introductory Marine Biology Lab (1). A survey of marine biological environments and zones, including the relationship of the physical and chemical environment to the distribution of marine plants and animals. (Lab fees assessed)

OCB 3043 Marine Biology and Oceanography (3). OCB 3043L Marine Biology and Oceanography Laboratory (1). An ecological approach to the biology of organisms in the marine environment with an emphasis on zonation and adaptation to the physical environment. Intended for biology majors or other science majors. Prerequisites: General Biology I BSC 1010 and General Biology II BSC 1011. [A]

OCB 3264 Biology of Coral Reefs (3). Biology and ecological relationships of reef plants and animals with emphasis on their role in reef construction or bioerosion; reef constructional environments symbiotic relationships and biogeography. Prerequisites: General Biology II BSC 1011 or Zoology. Ecology recommended. [A]

OCB 4004 Biological Oceanography at Sea I (3). An overview of current methods applied in biological oceanography including design of and working on research vessels and planning of research cruises. Prerequisite: OCB 3043.

OCB 4005C Biological Oceanography at Sea II (4). Experience in research at sea involving cruise planning, participation in a research cruise, and sample data analysis. Methods oriented lectures/seminars and participation in lab and shipboard work. Prerequisites: OCB 4004 or permission of the instructor.

OCB 4070 Coastal Marine Conservation (3). An overview of the basic subdisciplines - including science, governance, and policy - required for a detailed understanding of the most pressing problems threatening our coastal ecosystems. Prerequisites: OCB 3043 or PCB 3043. [A]

OCB 4303 Biology of Marine Mammals (3). A survey of marine mammals including evolution, systematics, morphology, physiology, behavior, population dynamics, ecology, conservation and theory relevant to these areas of biology. Prerequisites: BSC 1010 and 1011 and PCB 3043 or OCB 3043. [B]
OCB 4632 Marine Microbial Ecology (3). Diversity, ecology and physiology of marine viruses, bacteria and protozoa, their role in marine food webs and the biogeochemical cycling of carbon and nutrients, and the significance of microbial food webs for marine productivity. Prerequisites: BSC 1010, BSC 1011, OCB 3043. [A]

OCB 4633 Marine Community Ecology (3). A survey of the ecological patterns, processes, and interactions in marine environments with an emphasis on the ecology of different ecosystems and interactions among organisms. Prerequisite: PCB 3043. [A]

OCB 5006 Advanced Biological Oceanography at Sea I (3). An in-depth overview and critical discussion of current methods employed in biological oceanography including design of and working on research ships and planning of research cruises. Prerequisite: Permission of the instructor.

OCB 5067C Advanced Biological Oceanography at Sea II (4). A hands-on experience in research at sea involving cruise planning, participation in an offshore cruise on a research vessel, and subsequent sample analysis, data evaluation and research report. Prerequisites: OCB 5006 or permission of the instructor.

OCB 5575L Workshop: Aquatic Flow Cytometry (1). A practical introduction to theories and applications of flow cytometry in the analyses of aquatic microorganisms (bacteria, phytoplankton) and their physiology. Prerequisite: Permission of the instructor.

OCB 5636 Advanced Marine Microbial Ecology (3). Diversity, ecology and physiology of marine viruses, bacteria and protozoa, their role in marine food webs and the biogeochemical cycling of carbon and nutrients, and the significance of microbial food webs for marine productivity. Prerequisites: BSC 1010, BSC 1011, OCB 3043, or graduate standing.

OCB 5670L Techniques in Biological Oceanography (1). A laboratory course designed to acquaint the student with biological sampling techniques at sea. Shipboard experience will be required as part of the course. Prerequisites: Previous course in marine biology and permission of the instructor.

PCB 2061 Introductory Genetics (3). PCB 2061L Introductory Genetics Lab (1). Principles of Mendelian and molecular genetics with selected examples of applications such as genetic engineering and twin studies.

PCB 2099 Foundations of Human Physiology (3). PCB 2099L Foundations of Human Physiology Lab (1). Functional survey of the organ systems of the human body. Intended primarily for non-science majors. (Lab fees assessed)

PCB 3043 Ecology (3). PCB 3043L Ecology Lab (1). The basic principles governing the interaction of organisms and environment. Trophic structure and energetics, species diversity, evolution of populations, biogeochemical cycles. Prerequisites: General Biology I BSC 1010 and General Biology II BSC 1011. [A]

PCB 3063 Genetics (3). PCB 3063L Genetics Lab (1). Mendelian inheritance and introduction to molecular genetics. Prerequisites: BSC 1010 General Biology I. [D]

PCB 3241 Physiology of Aging (3). Introductory treatment of the physiology of organ systems with emphasis on the decline in organ function with aging and on the resultant limitations in physiological performance.

PCB 3374 Tropical Ecology (3). In-depth survey of tropical climatology, ecological processes characteristic of tropical habitats, and biodiversity and conservation of tropical regions. Prerequisite: PCB 3043. [A]

PCB 3702 Intermediate Human Physiology (3). PCB 3702L Intermediate Human Physiology Lab (1). Functions of the human body and the physio-chemical mechanisms responsible for each organ’s function. Prerequisites: General Biology I BSC 1010 or General Biology II BSC 1011. [C]

PCB 3703 Human Physiology I (3). PCB 3703L Human Physiology I Lab (1). Basic facts and concepts relating to the physiology of cells and nervous, muscular, and cardiovascular systems, with emphasis on regulatory mechanisms and abnormal physiology. Prerequisite: BSC 1010 General Biology I. Prerequisite or Corequisite: PCB 3703. [C]

PCB 3704 Human Physiology II (3). PCB 3704L Human Physiology II Lab (1). Physiology of respiratory, gastrointestinal, excretory, endocrine and reproductive systems. Continuation of PCB 3703. Prerequisite: BSC 1010 General Biology I. Prerequisite or Corequisite: PCB 3704. [C]

PCB 3711 Physiological Mechanisms (3). Biophysical and biochemical perspective; Integrative aspects of physiology are de-emphasized to accomplish a detailed, but introductory coverage of mechanisms. [C]

PCB 4023 Cell Biology (3). A structural and molecular analysis of cell function. Prerequisite: BSC 1010 General Biology I. CHM 1046 General Chemistry II. [C]

PCB 4023L Cell Biology Lab (1). Fundamentals of cell/histological identification and current techniques used to study cells. Prerequisite: PCB 3063.

PCB 4232 The Biology of Acquired Immune Deficiency Syndrome (AIDS) (3). An overview of Acquired Immune Deficiency Syndrome (AIDS) from biomedical and psychosocial perspectives. Prerequisites: General Biology I BSC 1010, General Biology II BSC 1011, General Chemistry I CHM 1045, and General Chemistry II CHM 1046. [A]

PCB 4233 Immunology (3). PCB 4233L Immunology Lab (1). Fundamentals of immunology including antibody structure, immunopathology, molecular recognition at cell surfaces and immunological aspects of cancer biology. Prerequisites: BSC 1010 General Biology I. [C]
PCB 4253 Developmental Biology (3). Comprehensive survey of principles of development and critical analysis of methods used to study these problems. Prerequisites: PCB 3063 Genetics or BCH 3033 or General Biochemistry. [D]

PCB 4301 Freshwater Ecology (3), PCB 4301L Freshwater Ecology Laboratory (2). Community-level analysis of marshes, lakes and rivers from theoretical and practical viewpoints, emphasizing quantitative description of community structure and function. Prerequisite: Ecology PCB 3043. Prerequisite or Corequisite: PCB 4301. [A]

PCB 4373 Amphibian Ecology (3). In-depth survey of the ecology of members of the vertebrate class Amphibia (caecilians, salamanders, and frogs). Prerequisite: PCB 3043. [A]

PCB 4414 Behavioral Ecology (3). Investigation of the adaptive significance of behavior. Synthesis and discussion of literature and theory pertaining to the strategies and tactics organisms use to survive and reproduce. Prerequisite: PCB 3043.

PCB 4442 Community Ecology (3). Dynamic and descriptive community ecology: interactions among >2 species, patterns in species co-occurrences across space and time. Terrestrial, aquatic, and marine examples and applications. Prerequisites: PCB 3043, MAC 2311. [A]

PCB 4452 Introduction to Wetland Ecology and Management (3). Principles of wetland ecology and their application to management of freshwater and estuarine wetlands. Prerequisites: PCB 3043 or permission of the instructor. [A]

PCB 4467C Marine Protected Areas – GL (1-4). Introduction to the theory and methods for the design and management of Marine Protected Areas. [A]

PCB 4514 Advanced Genetics (3). Advanced level treatment of topics such as meiotic disjunction-uniparental disomy, transcription & splicing -differential splicing, polymorphisms, chromatin organization, horizontal gene transfer, etc. Prerequisite: Genetics PCB 3063. [C]

PCB 4524 Molecular Biology (3), PCB 4524L Molecular Biology Lab (1). Advanced nucleic acid and protein biochemistry: biosynthesis of macro-molecules and molecular genetics. Prerequisites: PCB 3063 Genetics, BCH 3033 Biochemistry or CHM 4304 Biological Chemistry I. [C]

PCB 4553 General Population Genetics – GL (3). Analysis of gene and genotype frequencies in theoretical and real populations. Topics include genetic drift, mutation, and selection. Prerequisite: PCB 3063. [A]

PCB 4663 General Human Genetics (3). Examination of genetics as it applies to the normal and abnormal human condition. Includes topics such as genetic engineering, cloning, and human evolution. Prerequisite: PCB 3063. [D]

PCB 4673 Evolutionary Ecology (3), PCB 4673L Evolutionary Ecology Lab (1). Adaptation and interaction of plants and animals in natural and disturbed habitats. Prerequisites: PCB 3043 and PCB 3063. [A]

PCB 4674 Evolution (3). A study of the synthetic theory of evolution, its historic and experimental justification and the mechanisms of natural selection. Prerequisites: PCB 3063 Genetics, PCB 3043 Ecology. [B]

PCB 4723 Animal Physiology (3), PCB 4723L Animal Physiology Lab (1). Advanced study of physiological mechanisms employed by animals to maintain function of the organ systems and to interact with the environment. Prerequisites: BSC 1010, BSC 1011, and CHM 2211. [C]

PCB 4724 Comparative Physiology (3). PCB 4724L Comparative Physiology Lab I (1). Regulation of the internal environment: osmotic gastrointestinal, metabolic, circulatory and respiratory physiology. Prerequisites: General Biology I BSC 1010 and II BSC 1011 and Organic Chemistry I CHM 2210. [C]

PCB 4733 Human Systemic Physiology I (3), PCB 4733L Human Systemic Physiology Lab (1). Selected topics in human physiology with emphasis on topics of clinical significance. Prerequisites: BSC 1010 General Biology I. [C]

PCB 4734 Human Systemic Physiology II (3). Selected topics in human physiology with emphasis on topics of clinical significance. Prerequisites: BSC 1010 General Biology I. [C]

PCB 4805 Endocrinology (3). Biochemistry, physiology and anatomy of the endocrine systems of vertebrates and invertebrates. Steroid, peptide, and terpenoid hormones which control reproduction, growth, and other parameters. Prerequisites: General Biology II BSC 1011, Organic Chemistry II CHM 2211, and one physiology course. [C]

PCB 4805L Endocrinology Laboratory (1). A series of lab exercises and experiments designed to supplement lecture material in PCB 4805, and coordinated with that content. Prerequisites: General Biology I and II, permission of the instructor. Corequisite: PCB 4805.

PCB 5025 Molecular Biology Techniques Laboratory (3). Covers DNA and RNA extraction, digestion, electrophoresis, Southern analysis, RFLP analysis, PCR amplification, cloning and automated sequencing. Prerequisites: Graduate status or permission of the instructor.

PCB 5046 Advanced Plant Conservation Biology (3). Survey of the causes and consequences of anthropogenic disturbances on plant diversity at different spatial scales, including critical evaluation of strategies to mitigate these impacts. Prerequisites: PCB 3043 or graduate status.

PCB 5184 Workshop in Microtechnique (1). Laboratory techniques required for preparation of tissues for light microscopy-histological study. Prerequisites: Graduate status or permission of the instructor.

PCB 5195 Histocompatibility/Lab (3). PCB 5195L Histocompatibility/Lab (1). Chemistry and use of fixatives and dyes; histocompatibility emphasizes procedures used in research and pathology labs including techniques for enzymes, protein, carbohydrate, nucleic acids and lipids. Prerequisites: General Biochemistry BCH 3033.
PCB 5215 Workshop in Histo- and Immunocytochemistry (1). Laboratory techniques for preparation of paraffin-embedded and frozen sections; selected procedures to demonstrate the fundamentals of histochemical and immunocytochemical labeling methods. Prerequisites: Graduate status or permission of the instructor.

PCB 5235 Current Topics in Comparative Immunology (1). A weekly seminar/discussion course consisting of research presentations by students, faculty and visiting scientists in the area of comparative immunology. It is recommended for students with a research interest in the comparative study of mammalian and nonmammalian species or using alternative animal models. Prerequisite: Permission of the instructor.

PCB 5236 Immune Assessment (3). A review of the genetics and biochemistry of immune dysfunction with a focus on the methods used to evaluate adaptive and innate immunological function. Prerequisites: PCB 4233 or permission of the instructor.

PCB 5238 Marine Comparative Immunology Workshop (1). A workshop at the Keys Marine Lab to present general and unique research methodologies associated with the immunology of marine animals. Prerequisite: Permission of the instructor.

PCB 5239 Immunophysiology (3). Physiological and endocrine regulation of the vertebrate immune system. Prerequisite: Immunology PCB 4233.

PCB 5259 Topics in Developmental Biology (3). Molecular and cellular mechanisms in the development of plants and animals. Prerequisite: Permission of the instructor. [D]

PCB 5307 Limnology (3). PCB 5307L Limnology Lab (1). Chemical and physical properties of standing and flowing freshwater systems; ecophysiology and interactions of the fresh water flora and fauna in relation to abiotic factors; oligotrophic to eutrophic conditions. [A]

PCB 5327 Coastal Ecosystems and Modeling (3). Basics of ecology for coastal and wetland ecosystems. The theory and mechanisms of simulation modeling. Hands-on creation and application of computer models in ecological research. Prerequisites: Ecology PCB 3043 and Calculus I MAC 2311 or permission of the instructor. [A]

PCB 5356L Tropical Ecology Field Lab (3). Field course in Costa Rica with fieldwork in two or more diverse habitats (rainforest, and dry forest). Emphasis on diversity and interactions between species. Visits to selected sites of deforestation, conservation and restoration. [A]

PCB 5376 Animal Physiological Ecology (3). PCB 5376L Animal Physiological Ecology Laboratory (1). Evolution-oriented approach to physiological adaptations of animals living in diverse environments. Considers the inter-relationship between behavior, energetics, and integrative regulation of metabolism. Prerequisites: PCB 3043 Ecology, BCH 3033 General Biochemistry or CHM 4304 Biological Chemistry I. [C]

PCB 5405 Biochemical Ecology (3). Principles of chemical communication between diverse organisms and the importance of a variety of allelo-chemicals in community structure. Prerequisite: Permission of the instructor.

PCB 5407 Workshop: Microelectrodes in Microbial Ecology (1). Use of microelectrodes to measure chemical micro-environments and biological processes in natural samples. Hands-on experience with O2 and pH electrodes. Prerequisite: Permission of the instructor.

PCB 5415 Advanced Behavioral Ecology (3). In-depth investigation of the adaptive significance of behavior. Synthesis and discussion of literature and theory pertaining to the strategies and tactics organisms use to survive and reproduce. Prerequisites: Graduate status or permission of the instructor.

PCB 5418C Advanced Marine Protected Areas (1-4). Study of theory and methods for the design and management of Marine Protected Areas including a research project.

PCB 5423 Advanced Ecology: Populations and Communities (3). Advanced analysis of population and community ecology. Prerequisites: Ecology PCB 3043 or permission of the instructor or graduate status. [A]

PCB 5443 Advanced Ecology: Communities and Ecosystems (3). Advanced analysis of ecological principles pertaining to communities, ecosystems, and landscapes, with special emphasis on the South Florida and Caribbean region. Prerequisites: Ecology PCB 3043 or permission of the instructor or graduate status. [A]

PCB 5454 Advanced Ecology: Communities and Ecosystems (3). Advanced analysis of ecological principles pertaining to communities, ecosystems, and landscapes, with special emphasis on the South Florida and Caribbean region. Prerequisites: Ecology PCB 3043 or permission of the instructor or graduate status.

PCB 5596 Workshop: In Situ Hybridization (1). Analysis of gene expression by in situ hybridization techniques using whole mount and cry sectioned tissues. Prerequisites: Graduate status or permission of the instructor.

PCB 5615 Molecular and Organismal Evolution (3). The evolutionary relationships among nucleotides and proteins as well as the processes which yield these relationships. The possible molecular events leading to speciation. Prerequisites: PCB 3063.
PCB 5616 Applied Phylogenetics (3). Methods of phylogenetic analysis with focus on pragmatic applications to ecological and evolutionary studies. Hands-on experience with current computer programs for phylogenetic analysis. Prerequisites: Graduate status or permission of the instructor. [B]

PCB 5665 Human Genetics (3). Principles and techniques in the analysis of the human race. Prerequisite: Genetics PCB 3063. [D]

PCB 5677 Evolution and Development (3). The models and evidence for the interaction of development and evolution, using both plant and animal systems. Prerequisite: Permission of the instructor.

PCB 5685 Population Genetics (3). Advanced analysis of gene and genotype frequencies in theoretical populations and analysis of real data. Linkage equilibrium, drift, migration and selection are a few of the topics covered. Prerequisite: Genetics (PCB 3063). [A]

PCB 5686 Population Biology (3). PCB 5686L Population Biology Lab (1). Intrinsic properties of natural and theoretical populations and their dynamics and interactions, and responses to disturbance. Includes field problems and computer exercises. Prerequisites: Genetics PCB 3063 and Evolution PCB 4674, or permission of the instructor. [A]

PCB 5687 Evolutionary Ecology (3). PCB 5687L Evolutionary Ecology Lab (1). Adaptations and interactions of plants and animals in natural and disturbed habitats. Prerequisite: Ecology PCB 3043. [A]

PCB 5725 Membrane Signal Transduction (3). Hormones and neurotransmitters as extracellular messengers. Membrane receptors and mechanisms of signal transduction: membrane channels and enzymes, direct linkage and G-protein linkage. Second messengers. Prerequisites: BCH 3033 General Biochemistry or CHM 4304 Biological Chemistry I. [C]

PCB 5786 Membrane Physiology (3). Chemical and physical properties of the plasma membrane, its biosynthesis and functions in transport and signal transduction. Prerequisites: PHY 2048 Physics with Calculus I, PHY 2049 Physics with Calculus II, BCH 3033 General Biochemistry. [C]

PCB 5835 Neurophysiology (3). PCB 5835L Neurophysiology Lab (1). Comparative neurophysiology; physico-chemical mechanisms of resting and action potentials; synaptic transmission; neural coding and integration; sensory-motor function and neurophysiological basis of behavior. Prerequisites: Biochemistry BCH 3033 and Calculus I MAC 2311. [C]

SCE 3813 Biology Education Seminar (1). Theoretical and practical introduction to pedagogical elements such as Cooperative, Inquiry and Problem-Based Learning. Students will learn how to teach biology effectively in the modern classroom. Prerequisite: Permission of the instructor.

ZOO 3021 Comparative Zoology (3). ZOO 3021 Comparative Zoology Lab (1). Characteristics, evolutionary relationships and physiological adaptations of metazoan animal groups from porifera through the chordates. Prerequisites: General Biology I BSC 1010 and II BSC 1011 with Labs BSC 1010L and BSC 1011L. [B]

ZOO 3205C Invertebrate Zoology (4). Taxonomy, anatomy, development, physiology and ecology of major invertebrate groups, including terrestrial and aquatic phyla. Prerequisite: General Biology II BSC 1011. [B]

ZOO 3303V Vertebrate Zoology (3). ZOO 3303L Vertebrate Zoology Lab (1). Systematics, anatomy, physiology, development and ecology of vertebrate animals. Prerequisites: General Biology I BSC 1010 and II BSC 1011 with Labs BSC 1010L and BSC 1011L. [B]

ZOO 3327 Human Evolutionary Morphology (3). The major evolutionary adaptations that have led to the unique biocultural characteristics of the human species. Prerequisites: ZOO 3731. [D]

ZOO 3378C Forensic Osteology (4). A detailed examination of the human skeleton revealing such individual traits as sex, age, height, and race in order to assist law enforcement investigation in forensic identifications. Prerequisite: Permission of the instructor. [D]

ZOO 3603 Embryology (3). ZOO 3603L Embryology Lab (1). Animal morphogenesis. Laboratory must be taken with lecture. Prerequisites: General Biology I BSC 1010 and II BSC 1011 with Labs BSC 1010L and BSC 1011L. [D]

ZOO 3713C Comparative Vertebrate Anatomy (4). Study of the structural diversity and classification of vertebrates and the evolution of various organ systems. Dissection of a variety of vertebrate specimens to reveal relationships of the various organ systems. Prerequisites: General Biology I BSC 1010 and General Biology II BSC 1011. [D]

ZOO 3731 Human Anatomy (3). ZOO 3731L Human Anatomy Demonstration (1). Survey of organ systems of the human body with major emphasis on the skeletal, muscular, and peripheral nervous system. Guided examination of prosected human cadavers. Prerequisites: BSC 1011 or PCB 2099 or BSC 2023 or MCB 2000 or HSC 3549. Prerequisite or Corequisite: ZOO 3731. [D]

ZOO 3753 Histology (3). ZOO 3753L Histology Lab (1). Microscopic anatomy of cells, tissues and organs. Prerequisites: General Biology I BSC 1010 and Organic Chemistry I CHM 2210 and Organic Chemistry II CHM 2211. [D]

ZOO 4114 Principles of Paleobiology (3). Concepts and methods of paleobiology. Covers the nature of fossils, adaptation, systematics, evolutionary trends through time, global origination and extinction, paleoecology and paleobiogeography. Prerequisite: BSC 1011. [B]
ZOO 4234 General Parasitology (3). ZOO 4234L General Parasitology Lab (1). Modern concepts of biology, development, immunology and pathology of animal parasites. Prerequisite: General Biology I BSC 1010. Corequisite: Concurrent registration of lecture and lab course. [B]

ZOO 4377C Functional Vertebrate Morphology (4). The study of the diversity of anatomical structure in vertebrates and the relationship between form and function. Prerequisites: BSC 1011 General Biology II and BSC 1011L General Biology II Lab, or permission of the instructor. [D]

ZOO 4454 Fish Biology (3). Covers the systematics, anatomy, physiology, reproductive biology, and ecology of fish. Prerequisites: BSC 1010, BSC 1011, PCB 3043. [B]

ZOO 4462C Herpetology (4). Study of the biology of reptiles and amphibians with emphasis on the natural history and ecology of local species. Prerequisites: General Biology I BSC 1010 and II BSC 1011 and Ecology PCB 3043 or permission of the instructor. [B]

ZOO 4472 Ornithology (3). ZOO 4472L Ornithology Lab (2). Avian systematics, anatomy, physiology, behavior, ecology, evolution, and conservation. Labs teach visual and auditory identification, census techniques, banding, and taping. Field trips alternate Saturdays and at least one overnight weekend field trip. Prerequisites: General Biology I BSC 1010 and II BSC 1011. Corequisite: Concurrent registration of lecture with lab course. [B]

ZOO 4484 Primate Biology (3). ZOO 4484L Primate Biology Field Lab (1). Survey of the natural history of the prosimians, monkeys, and apes with special emphasis on primate anatomy, evolution, ecology, and behavior. Prerequisites: General Biology I BSC 1010 and II BSC 1011 or permission of the instructor. [B]

ZOO 4513 Animal Behavior (3). ZOO 4513L Animal Behavior Laboratory (2). Evolutionary approach to understanding the diversity of behavioral strategies. Ecological and physiological mechanisms of behavior will be emphasized. Prerequisites: BSC 1010 General Biology I, BSC 1011 General Biology II. [A]

ZOO 4733 Survey of Regional Anatomy (3). ZOO 4733L Survey of Regional Anatomy Lab (2). The regional anatomy of the human body as revealed by dissections, radiographs, models and videos. Prerequisites: General Biology II BSC 1011 with lab BSC 1011L, General Chemistry II CHM 1046 with lab CHM 1046L, and Physics II PHY 2054. (Lab fees assessed) [D]

ZOO 5265 Biology of Crustaceans (3). ZOO 5265L Biology of Crustaceans Laboratory (1). Morphology, physiology, systematics and evolution in crustaceans. [B]

ZOO 5371 Clinical Anatomy of the Trunk and Limbs (3). ZOO 5371L Clinical Anatomy of the Trunk and Limbs Lab (1). A detailed analysis of the anatomical foundations of kinesiology and physical rehabilitation. Special emphasis will be placed on the functional anatomy of the trunk, pectoral and pelvic limbs with clinical correlations to the major disorders commonly treated by physical and occupational therapists. Prerequisite: ZOO 3731 Human Anatomy or ZOO 4733 Survey of Regional Anatomy. Corequisite: ZOO 5371L Clinical Anatomy of the Trunk and Limbs Lab. [D]

ZOO 5376 Animal Design and Movement (4). Basic biomechanical and behavioral theories of how animals feed and move. Prerequisites: General Biology I BSC 1010 and II BSC 1011, Physics I PHY 2053 and II PHY 2054. [D]

ZOO 5424 Herpetology (3). ZOO 5424L Herpetology Laboratory (1). Biology of amphibians and reptiles from a systematic perspective. The three orders of living amphibians and the six living orders of reptiles are covered in detail. Prerequisites: General Biology I BSC 1010 and II BSC 1011 and Ecology PCB 3043, or permission of the instructor. [B]

ZOO 5456 Ichthyology (3). ZOO 5456L Ichthyology Lab (1). Systematics, structure, function, ecology, and evolution of fishes. Prerequisites: General Biology I BSC 1010, and II BSC 1011, and Ecology PCB 3043. Corequisite: Concurrent registration of lecture and lab course. [B]

ZOO 5732 Advanced Anatomy Demonstration (1-4). Dissection and demonstration of the human body with the emphasis on structure and function. May be repeated to a maximum of 8 credits. Prerequisites: ZOO 4733 with Lab ZOO 4733L or permission of the instructor. [D]

ZOO 5745 Advanced Neuroanatomy (3). In-depth knowledge of the embryonic development, structure, and function of the human nervous system with a great deal of clinical consideration. Prerequisites: Neuroscience ZOO 4743C or permission of the instructor. [D]

ZOO 5746 Comparative Neurobiology (4). Structure and function of neural systems at many levels including biophysical and cellular mechanisms, molecular processes, neural circuits, development, and anatomy. Prerequisites: General Biology I BSC 1010 and II BSC 1011, General Chemistry I CHM 1045 and II CHM 1046 and Physics PHY 2048; graduate standing or permission of the instructor. [C]
Chemistry and Biochemistry

David C. Chatfield, Associate Professor and Chairperson
Irina Agoulnik, Associate Professor, College of Medicine
Jose R. Almirall, Professor and Director of IFRI
David A. Becker, Associate Professor
John Berry, Assistant Professor
Yong Cai, Professor
Anthony P. DeCaprio, Associate Professor and Director of Forensic Science Certificate Program
Milagros Delgado, Lecturer and Coordinator of Laboratories at BBC
Kenneth G. Furton, Professor and Dean, College of Arts and Sciences
Piero R. Gardinali, Associate Professor
Palmer Graves, Associate Chair, Lecturer and Coordinator of General Chemistry Laboratories
Arthur W. Herriott, Professor Emeritus
Rudolf Jaffe, Professor and Director of SERC
Jeffrey A. Joens, Professor and Undergraduate Program Director
Konstantinos Kavallieratos, Associate Professor
Leonard S. Keller, Professor and Director of Liberal Studies
John T. Landrum, Professor and Associate Dean of Pre-Health Professional Advising
Watson J. Lees, Associate Professor
Fenfei Leng, Associate Professor
Joseph Lichter, Lecturer and Coordinator of Organic Chemistry Laboratories
Yuan Liu, Assistant Professor
Raymon Lopez de la Vega, Associate Professor
Bruce R. McCord, Professor
Alexander M. Mebel, Professor and Chemistry Graduate Program Director
Jaroslava Miksovska, Assistant Professor
Joong-ho Moon, Assistant Professor
Zaida Morales-Martinez, Professor Emerita
Kevin E. O'Shea, Professor
J. Martin E. Quirke, Professor
Kathleen S. Rein, Professor
Barry P. Rosen, Professor, College of Medicine
Uma Swamy, Lecturer and Coordinator of General Chemistry Laboratories
Xiaotang Wang, Associate Professor and Biochemistry Graduate Program Director
Stephen Winkle, Associate Professor
Stanislaw F. Wnuk, Professor

Bachelor of Science

Degree Program Hours: 120

The B.S. in Chemistry program is approved by the American Chemical Society and prepares the student for graduate study or a professional career as a chemist in industry, in government service, or in secondary school teaching. (Students interested in secondary teacher certification should contact the College of Education Advising Center at (305) 348-2768.)

¹The PHYX048/PHYX049 sequence is required for the Bachelor in Science degree. It is an option for the Bachelor in Arts degree.
²The PHYX053/PHYX054 sequence is not accepted for the Bachelor in Science degree.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

Common Prerequisites

| CHM 1045 | General Chemistry I | 3 |
| CHM 1045L | General Chemistry Lab I | 1 |
| CHM 1046 | General Chemistry II | 3 |
| CHM 1046L | General Chemistry Lab II | 1 |
| CHM 2210 | Organic Chemistry I¹ | 3 |
| CHM 2210L | Organic Chemistry I Lab¹ | 1 |
| CHM 2211 | Organic Chemistry II¹ | 3 |
| CHM 2211L | Organic Chemistry II Lab¹ | 1 |
| PHY 2048 | Physics with Calculus I¹ | 4 |
| PHY 2048L | Physics with Calculus I Lab¹ | 1 |
| PHY 2049 | Physics with Calculus II¹ | 4 |
| PHY 2049L | Physics with Calculus II Lab¹ | 1 |
| MAC 2311 | Calculus I | 4 |
| MAC 2312 | Calculus II | 4 |

¹Either the General Physics sequence or the Organic Chemistry Sequence must be taken at the lower division. Whichever is not taken must be taken before the degree is granted.

To qualify for acceptance into the upper division, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable to the program.

Upper Division Program: (60 total hours, 48 hours must be 3000 level and above)

The following courses are required:

| CHM 3120 | Intro to Analytical Chemistry | 3 |
| CHM 3120L | Intro to Analytical Chemistry Lab | 1 |
| CHM 3410 | Physical Chemistry I | 4 |
CHM 3410L Physical Chemistry I Lab 1
CHM 3411L Physical Chemistry II Lab 2
CHM 4130 Instrumental Analysis 3
CHM 4130L Instrumental Analysis Lab 1
CHM 4220 Advanced Organic Chemistry 3
CHM 4304 Biological Chemistry I 3
CHM 4230L Structure Determination Laboratory 1
or
CHM 4304L Biological Chemistry I Lab 1
CHM 4611 Advanced Inorganic Chemistry 3
CHM 4611L Advanced Inorganic Chemistry Laboratory 1
CHM 4910L Undergraduate Research in Chemistry 3
CHM 4930L Senior Seminar 1

One additional senior-level (4000) Chemistry course *

At least three additional credits to be chosen from the following list:
MAP 2302 Differential Equations 3
COP 2270 C for Engineers 3
MAC 2313 Multivariable Calculus 4

Students are required to take a nationally-normed chemistry examination in their last semester before graduation.

*CHM 4911L may not be used to satisfy this requirement.

Bachelor of Science in Chemistry with Honors

Admission to the Program
To be a candidate for the honors in chemistry degree a student must first:
1. Be admitted to the BS in Chemistry program with a lower division GPA of at least 3.5 in science and math courses, and an overall GPA of at least 3.2,
2. Have completed at least twelve semester hours of chemistry courses,
3. Have arranged to be sponsored by a tenured or tenure-earning faculty researcher, and
4. Submit a letter to the Chemistry Undergraduate Committee requesting permission to pursue the honors track course of study.
5. Note: Any exceptions to these admissions criteria must be approved by the Undergraduate Program Director.

Graduation Requirements
1. Completion of all requirements for the BS in Chemistry with a minimum GPA of 3.5 in science and math courses and overall GPA of 3.2.
2. Completion of an honors research project in collaboration with a faculty advisor. The results of the research project must be written in the form of an honors thesis which is written in American Chemical Society-style publication format. The student must register for Undergraduate Research (CHM 4910L) and receive a grade of “B” or better. The faculty advisor and the departmental Undergraduate Research Committee must judge the thesis as suitable in style and content for publication in an appropriate American Chemical Society journal.
3. Submission of two completed and approved copies of the Honors Thesis must be presented to the Chemistry Department office; one copy is to be kept in the department, and the second copy is to be housed in the University library.
4. The results of the research project must be presented orally to an audience of peers and faculty members from all science department honors programs. The presentation will be graded by the Undergraduate Research Committee, and the student must receive a score of 4 or 5 on a 5-point scale for his/her presentation.

Combined BS/MS in Chemistry
To be considered for admission to the combined bachelor’s/master’s degree program, students must have completed at least 75-90 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admission Requirements
• Current enrollment in the Bachelor of Science program in chemistry at FIU.
• Current GPA of 3.2 or higher.
• GRE general test score of 1000 (verbal and quantitative combined), with a minimum quantitative score of 550.
• Three letters of recommendation.
• Approval of the Chemistry Graduate Committee.

Completion Requirements
Completed Bachelor of Science degree in chemistry at FIU

Required:
• 9 credits (3 courses) selected from graduate chemistry core courses. Required courses must be completed with an average of “B” or higher, and only one course may receive a grade less than “B-”.
• Electives: 3 courses selected from the Chemistry Graduate Elective Offerings.
• 9 credits of Thesis Research and 2 credits of Thesis.
• 1 credit of Colloquium.
• Overlap: Up to 3 graduate level courses (9 credits) may be used to satisfy both the Bachelor's and Master's degree requirements.

Combined BS in Chemistry/MS in Forensic Science
To be considered for admission to the combined bachelor’s/master’s degree program, students must have completed at least 75-90 credits in the bachelor’s degree
program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admission Requirements

- Current enrollment in the Bachelor of Science program in chemistry at FIU.
- Current GPA of 3.2 or higher.
- GRE general test score of 1000 (verbal and quantitative combined), with a minimum quantitative score of 550.
- Three letters of recommendation.
- Approval of the Chemistry Graduate Committee.

Completion Requirements

Completed Bachelor of Science degree in chemistry at FIU

Required:

- BSC 5406 Forensic Biology
- CHS 5542 Forensic Chemistry
- CHS 5535 Forensic Analysis
- Required courses must be completed with an average of "B" or higher, and only one course may receive a grade of less than "B-".
- Electives: 5 courses selected from the Forensic Science Graduate Elective Offerings.
- 6 credits of Thesis Research and 1 credit of Thesis.
- 1 credit of Colloquium.
- Overlap: Up to 3 graduate level courses (9 credits) may be used to satisfy both the Bachelor's and Master's degree requirements.

Bachelor of Arts

Degree Program Hours: 120

This program is designed for students preparing for careers in medicine, pharmacy, dentistry, environmental studies, veterinary medicine, patent law, forensic science, secondary science education*. The BA in Chemistry program is organized into four alternative areas of concentration. Students may choose to follow the "Standard BA in Chemistry Concentration" or – in consultation with an advisor – choose a specific area of emphasis: the Biochemistry Concentration, the Environmental Chemistry Concentration, or the Forensic Chemistry Concentration. Each of the four options is described below.

*(Students interested in secondary teacher certification should contact the College of Education at (305) 348-2768.)

¹The PHYX048 PHYX049 sequence is required for the Bachelor in Science degree. It is an option for the Bachelor in Arts degree.

²The PHY053 PHYX054 sequence is not accepted for the Bachelor in Science degree.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

Common Prerequisites

| CHM 1045 | General Chemistry I 3 |
| CHM 1045L | General Chemistry Lab I 1 |
| CHM 1046 | General Chemistry II 3 |
| CHM 1046L | General Chemistry II Lab 1 |
| CHM 2210 | Organic Chemistry I¹ 3 |
| CHM 2210L | Organic Chemistry I Lab¹ 1 |
| CHM 2211 | Organic Chemistry II¹ 3 |
| CHM 2211L | Organic Chemistry II Lab¹ 1 |
| PHY 2048 | Physics with Calculus I³ 4 |
| PHY 2048L | Physics with Calculus I Lab¹ 1 |
| PHY 2049 | Physics with Calculus II³ 4 |
| PHY 2049L | Physics with Calculus II Lab¹ 1 |
| MAC 2311 | Calculus I 4 |
| MAC 2312 | Calculus II 4 |

¹Either the General Physics sequence or the Organic Chemistry sequence must be taken at the lower division. Whichever is not taken must be taken before the degree is granted.

²For the Bachelor of Arts degree, PHY 2053 and PHY 2054 may be substituted for PHY 2048 and PHY 2049.

Other Lower Division Courses Required for the Degree:

| BSC 1010 | General Biology I 3 |
| BSC 1010L | General Biology I Lab 1 |
To qualify for acceptance into the upper division, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable to the program.

Upper Division Program: (60 total hours, 48 hours must be 3000 level and above)

Upper Division Courses Required for All Concentrations

- CHM 3120 Intro to Analytical Chemistry 3
- CHM 3120L Intro to Analytical Chemistry Lab 1
- CHM 3400 Fundamentals of Physical Chemistry 3
- CHM 3400L Fundamentals of Physical Chemistry Lab 1
- CHM 4304 Biological Chemistry I 3
- CHM 4304L Biological Chemistry I Lab 1
- CHM 4930 Senior Seminar 1

Students are required to take a nationally-normed chemistry examination in their last semester before graduation.

Specific Courses by Concentration Standard BA-Chemistry Concentration

1. Choose from List 1 (Cognate Area Courses): Any one course*
   *Premed students should choose BSC 1011/B1011L
2. Choose from List 2 (Restricted Electives): Any two courses, one of which must include its corresponding lab.
3. One senior level chemistry elective: (CHM4XXX/CHM5XXX)**

**CHM 4910L or CHM 4911L may not be used to satisfy this requirement.

Biochemistry Concentration

This concentration is intended for students who desire a comprehensive background in chemistry but with emphasis in biological chemistry. The curriculum is designed to contain all of the courses necessary for entry into medical and dental school.
1. Choose from List 1 (Cognate Area Courses): BSC 1011/B1011L
2. Choose from List 2 (Restricted Electives): CHM 4300 & CHM 4230L or CHM 4307 & CHM 4307L and one other lecture course
3. One senior level chemistry elective: (CHM4XXX/CHM5XXX)** which is biomedically related.

**CHM 4910L or CHM 4911L may not be used to satisfy this requirement.

Environmental Chemistry Concentration

This concentration is intended for students who desire a comprehensive background in chemistry but with an interest in applying their expertise in chemistry to environmentally-related careers and issues.
1. Choose from List 1 (Cognate Area Courses): An environmentally-related course
2. Choose from List 2 (Restricted Electives): CHM 4130/4130L and one other lecture course
3. One senior level chemistry elective (CHM4XXX/CHM5XXX)** which is environment-mentally-related.

**CHM 4910L or CHM 4911L may not be used to satisfy this requirement.

Environmental Science Concentration

This concentration is intended for students who desire a comprehensive background in chemistry but with an interest in applying their expertise in chemistry to environmentally-related careers and issues.
1. Choose from List 1 (Cognate Area Courses): BSC 1011/B1011L
2. Choose from List 2 (Restricted Electives): CHM 4300 & CHM 4230L or CHM 4307 & CHM 4307L and one other lecture course
3. One senior level chemistry elective: (CHM4XXX/CHM5XXX)** which is biomedically related.

**CHM 4910L or CHM 4911L may not be used to satisfy this requirement.

Forensic Chemistry Concentration

This concentration is intended for students who desire a comprehensive background in chemistry but with an interest in applying their expertise in chemistry to a career in forensic science or criminalistics.
1. Choose from List 1 (Cognate Area Courses): CCJ 3024
2. Choose from List 2 (Restricted Electives): CHM 4130/4130L and one other lecture course
3. One senior level chemistry elective (CHM4XXX/CHM5XXX) or CHS4XXX/CHS5XXX)** with forensic emphasis.

**CHM 4910L or CHM 4911L may not be used to satisfy this requirement.

List 1 – Cognate Area Courses

- BSC 1011 General Biology II 3
- BSC 1011L Gen Biology II Lab 1
- CCJ 3024 The Criminal Justice System 3
- EVR 3011 Environmental Resources 3
- EVR 3013 Ecology of South Florida 3
- EVR 3013L Ecology of So Fl Lab 1
- EVR 4211 Water Resources 3
- EVR 4211L Water Resources Lab 1
- EVR 4231 Air Resources 3
- EVR 4310 Energy Resources 3
- EVR 4592 Soils & Ecosystems 3
- EVR 4592L Soils & Ecosystems Lab 1
- GLY 3202 Earth Materials 3
- GLY 3202L Earth Materials Lab 2
- GLY 4822 Intro to Hydrogeology 3
- OCE 3014 Oceanography 3

List 2 – Restricted Electives

- CHM 4220 Advanced Organic Chemistry 3
- CHM 4300 Bio-organic Chemistry 3
- CHM 4307 Biological Chemistry II 3
- CHM 3610 Fundamentals of Inorganic Chemistry 3
- CHM 3411* Physical Chemistry II 4
- CHM 4130 Instrumental Analysis 3
- CHM 4230L Structure Determination Lab 1
- CHM 4307L Biological Chemistry II Lab 1
- CHM 4611L Advanced Inorganic Chemistry Lab 1
- CHM 3411L Physical Chemistry II Lab 2
- EVR 4231 Air Resources 3

*CHM 3410 is a prerequisite of CHM 3411.

Chemical Education Major

This program prepares students interested in chemistry and science for teaching at the secondary level. Students are encouraged to participate in on-campus teaching experiences that parallel their coursework, available to freshman and sophomores. Interested students are encouraged to contact the department for additional details and information on teacher support programs.
Lower Division Preparation

Common Prerequisites as Detailed Under the BA Degree

Additional Lower Division Courses (4)
- BSC 1010 General Biology I 3
- BSC 1010L General Biology I Lab 1

Upper Division Program (60)
- CHM 3945 Chemical Education Seminar 1
- CHM 3120 Intro to Analytical Chemistry 3
- CHM 3120L Intro to Analytical Chemistry Lab 1
- CHM 3400 Fundamentals of Physical Chemistry 3
- CHM 3400L Fundamentals of Physical Chemistry Lab 1
- CHM 4304 Biological Chemistry I 3
- CHM 4304L Biological Chemistry I Lab 1
- CHM 4930 Senior Seminar 1
- CHS 4702 Inquiry Instruction in Chemistry 3

Chemical Education Major
List 1 – Elective
- BSC 1011 General Biology II 3
- BSC 1011L General Biology II Lab 1

List 2 – Restricted Electives
Select any two courses. One must include a lab. (7 hrs. min)
- CHM 4220 Advanced Organic Chemistry 3
- CHM 4300 Bio-organic Chemistry 3
- CHM 4307 Biological Chemistry II 3
- CHM 3610 Fundamentals of Inorganic Chemistry 3
- CHM 3411 Physical Chemistry II 4
- CHM 4130 Instrumental Analysis 3
- CHM 4230L Structure Determination Lab 1
- CHM 4130L Instrumental Analysis Lab 1
- CHM 4611L Advanced Inorganic Chemistry Lab 1
- CHM 3411L Physical Chemistry II Lab 2

Education Requirements
- SCE 4894 Nature of Math and Science 3
- SCE 4194 Perspectives in Science and Math Education 3
- SCE 4330 Secondary Science Teaching Methods 3
- SCE 4944 Student Teaching 6
- SCE 4931 Senior Seminar in Science Education 2
- RED 4325 Subject Area Reading 3
- TSL 4324 ESOL Issues and Strategies for Content Teachers 3

Out of Division Elective

Minor in Chemistry
The minor in chemistry requires at least 21 credits in chemistry to include:
- General Chemistry I & II (CHM 1045, 1045L, and 1046, 1046L) 8
- Introduction to Analytical Chemistry (CHM 3120, 3120L) 4
- Organic Chemistry I & II (CHM 2210, CHM 2210L, CHM 2211, CHM 2211L) 9

At least half of the credits to be counted towards the minor must be taken at the University.

Pre-Medical, Dentistry, Veterinary, Optometry Curricula
Students who have satisfied the requirements for either the BA or the BS degree in chemistry will also have satisfied the course requirements for admission to professional schools in the above areas. The BA in Chemistry degree (Biochemistry Concentration) includes additional course work relevant to the career objectives of the student. Interested students should consult the Premedical advisor at (305) 348-1515.

Cooperative Education
Students seeking the baccalaureate degree in chemistry may also take part in the Cooperative Education Program conducted in conjunction with the Department of Cooperative Education in the Division of Student Affairs. The student spends one or two semesters fully employed in an industrial or governmental chemistry laboratory. For further information consult the Department of Chemistry or the Department of Cooperative Education at (305) 348-4067.

Department Policy
The Department of Chemistry does not award credit for courses by examination; it does, however, award credit for AP Chemistry with a score of 3 or higher and with evidence of a suitable laboratory experience. The department does not award credit for life experience.

Course Descriptions
Note: Laboratories may not be taken prior to the corresponding course. Laboratories must be taken concurrently where noted. Students must register for the laboratory separately.

Definition of Prefixes
- CHM-Chemistry; CHS-Chemistry-Specialized; ISC-Interdisciplinary Natural Sciences; OCC-Chemical Oceanography
- F-Fall semester offering; S-Spring semester offering; SS-Summer semester offering.

CHM 1025 Fundamentals of Chemistry (2). Introduces students to basic mathematics required in chemistry, nature of matter, atomic structure, simple chemical reactions and stoichiometry.

CHM 1032 Chemistry and Society (3). CHM 1032L Chemistry and Society Lab (1). A course for non-science majors which introduces students to basic concepts in chemistry and applies those concepts to contemporary issues such as air/water pollution, energy and food production, drugs, nutrition, and toxic chemicals. Prerequisites: One year of high school or college algebra. (Lab fees assessed) (F,S,SS)

CHM 1033 Survey of Chemistry (4). CHM 1033L Survey of Chemistry Lab (1). General and organic chemistry for non-science majors only. Atoms and molecules, states of matter, equilibrium, kinetics, acids and bases and introduction to organic chemistry. Laboratory must be taken concurrently. Does not fulfill requirements for chemistry, biology or pre-med majors. Prerequisites: One
year of high school or college algebra. (Lab fees assessed) (S,SS)  

CHM 1045 General Chemistry I (3). CHM 1045L General Chemistry Lab I (1). Fundamental principles of general chemistry: states of matter, atomic structure, stoichiometry, chemical bonding, acid-base reactions, and gas laws. Concurrent registration in both lecture and laboratory is required. Prerequisites: Second year high school algebra or college algebra. (Lab fees assessed) (F, S, SS)  

CHM 1046 General Chemistry II (3). CHM 1046L General Chemistry Lab II (1). Continuation of General Chemistry I (CHM 1045). Fundamental principles of chemistry: thermodynamics, solutions, kinetics, equilibrium and electrochemistry. Concurrent registration in both lecture and laboratory is required. Prerequisites: CHM 1045 (with a “C” or better), CHM 1045L. (Lab fees assessed) (F, S, SS)  

CHM 2200 Survey of Organic Chemistry (3). CHM 2200L Survey of Organic Chemistry Lab (1). A basic one-semester survey course in organic chemistry for non-majors presenting a broad background in the reactions and structures of organic molecules. Does not fulfill requirements for chemistry, biology, or pre-med majors. Laboratory must be taken concurrently with the course. Prerequisites: CHM 1032, CHM 1032L, CHM 1033, CHM 1033L, or CHM 1046, CHM 1046L. (Lab fees assessed) (S)  

CHM 2210 Organic Chemistry I (4). CHM 2210L Organic Chemistry Lab I (1). An introduction to chemical bonding and atomic structure theory as it pertains to the chemistry of carbon compounds. Correlation between structure and reactivity of organic molecules followed by a systematic look at the various reaction types using reaction mechanisms as a tool for study. Concurrent registration in both lecture and laboratory is required. Prerequisites: CHM 1046 (with a “C” or better), CHM 1046L. (Lab fees assessed) (F, S, SS)  

CHM 2211 Organic Chemistry II (3). CHM 2211L Organic Chemistry Lab II (1). Continuation of CHM 2210, 2210L. Concurrent registration in lecture and laboratory is required. Prerequisites: CHM 2210 (with a “C” or better), 2210L. (Lab fees assessed) (F, S, SS)  

CHM 3120 Introduction to Analytical Chemistry (3). CHM 3120L Introduction to Analytical Chemistry Lab (1). Fundamentals of classical quantitative analysis. Topics include theory of precipitation, acid-base and oxidation-reduction reactions, as well as an introduction to spectrophotometric methods of analysis, ion-exchange techniques and complex formation. Laboratory must be taken concurrently with the lecture. Prerequisites: CHM 1046, (with a “C” or better) CHM 1046L. (F, S, SS)  

CHM 3400 Fundamentals of Physical Chemistry (3). CHM 3400L Fundamentals of Physical Chemistry Lab (1). Principles of physical chemistry. Topics include thermodynamics, equilibria, electrochemistry, and reaction kinetics. Laboratory must be taken concurrently with the course. Prerequisites: MAC 2311, 2312; PHY 2048, 2048L PHY 2049, 2049L, or PHY 2053, 2048L, and 2054, 2049L, CHM 3120, 3120L. (S)  

CHM 3410 Physical Chemistry I (4). CHM 3410L Physical Chemistry Lab I (1). Principles of thermodynamics, gas laws, kinetic theory of gases, chemical equilibrium, electrochemistry, and kinetics. Laboratory to be taken concurrently with the course. Prerequisites: MAC 2311, 2312; PHY 2048, 2048L PHY 2049, PHY 2049L, and CHM 3120, CHM 3120L. (F)  

CHM 3411 Physical Chemistry II (4). CHM 3411L Physical Chemistry Lab II (2). Introduction to quantum mechanics. The Schrodinger equation and its application to rotational, vibrational, and electronic spectroscopy, atomic and molecular structure, and bonding. Prerequisites: CHM 3410, 3410L. (S)  

CHM 3610 Fundamentals of Inorganic Chemistry (3). Fundamental principles of inorganic chemistry including atomic properties, valence and molecular orbital bonding, ionic solids, coordination chemistry and applications. Prerequisites: CHM 1046, CHM 1046L, CHM 2211, CHM 2211L.  

CHM 3945 Chemical Education Seminar (1). Inquiry chemistry instruction approach incorporating chemical education research. Includes scientific discourse, assessment, and the use of technology in instruction. Prerequisites: CHM 1045, CHM 1045L, CHM 1046, CHM 1046L.  

CHM 3949, CHM 4949 Cooperative Education in Chemistry (1-3). One semester of fulltime supervised work in an outside laboratory. Limited to students admitted to the University Coop Program. A written report and supervisor evaluation will be required of each student. (F, S)  

CHM 4090L Introduction to Scientific Glassblowing (1). Basic glassblowing operations with glass tubing and rod are taught. Emphasis is on making and repair of scientific glassware. No prerequisites.  

CHM 4130 Instrumental Analysis (3). CHM 4130L Instrumental Analysis Lab (1). Instrumental methods of chemical analysis, including electro-analytical methods, gas and liquid chromatography, mass spectrometry, x-ray fluorescence, and spectrophotometric methods. Prerequisites: CHM 3120, 3120L, CHM 2211, 2211L, CHM 3410, PHY 2048, 2048L, PHY 2049, 2049L, or permission of the instructor. (F, S)  

CHM 4220 Advanced Organic Chemistry (3). An intensive examination of the major areas of contemporary organic chemistry. Reactive intermediates, pericyclic reactions, molecular rearrangements, and modern synthetic methods are among the topics covered. Prerequisites: CHM 2211, 2211L. (F)  

CHM 4230L Structure Determination Lab (1). The qualitative analysis of organic compounds using modern spectroscopic, chromatographic and chemical methods. Prerequisites: CHM 2211, and 2211L. (F, S)  

CHM 4300 Bio-Organic Chemistry (3). Chemistry of naturally-occurring organic compounds of biological importance. The relationship between organic chemistry and the chemical reactions which constitute the living organism. Prerequisites: CHM 2211, and 2211L. (S)
CHM 4304 Biological Chemistry I (3). CHM 4304L Biological Chemistry I Lab (1). Structures and functions of nucleic acids and proteins and cellular processes such as metabolism, replication and transcription are examined from a chemistry perspective. Prerequisites: CHM 2211, CHM 3120, BSC 1011 or permission of the instructor. Corequisite: A semester of physical chemistry. Lecture is corequisite for lab. (F,S,SS)

CHM 4307 Biological Chemistry II (3). Continuation of Biological Chemistry I (CHM 4304). Further exploration of bio-organic reaction mechanisms. Chemistry DNA synthesis and repair. Chemistry of information transfer. Reactions of drugs. Prerequisite: Biological Chemistry I (CHM 4304). (S)

CHM 4307L Biological Chemistry Lab II (1). Continuation of Biological Chemistry Laboratory I. Experimental methods presented include NMR, enzyme inhibition assays, macromolecular thermodynamics, peptide sequencing, ligand binding assays, chromatography. Prerequisites: CHM 4304, CHM 4304L. Corequisite: CHM 4307.

CHM 4320L Research Techniques in Organic Chemistry (2). Practical instruction in the more advanced manipulations and procedures of the modern chemistry laboratory. Restricted to B.S. chemistry majors. Prerequisites: CHM 3120, CHM 2211, CHM 2211L, CHM 3410, and CHM 3411L.

CHM 4321 Protein Chemistry (3). Structures of proteins and how they are determined. Protein-small molecule, protein-protein, protein-DNA, protein membrane interactions and their functions. Prerequisites: CHM 2211, BSC 1011, a biochemistry course or permission of the instructor. Corequisites: CHM 3410 or permission of the instructor.

CHM 4611 Advanced Inorganic Chemistry (3). Atomic structure, periodicity, bonding and structure of inorganic compounds, solution chemistry, ligand field theory, organometallic chemistry, and specific chemistry of the elements. Prerequisites: CHM 3120, CHM 2211, and CHM 3411. (F)

CHM 4611L Advanced Inorganic Chemistry Lab (1). Synthesis, purification, and study of coordination and organometallic compounds. Prerequisite: CHM 3411. Corequisite: CHM 4611. (F)

CHM 4910L Undergraduate Research in Chemistry (3). The student works directly with a professor on a research project. Credit is assigned based on 4 hr/wk laboratory/library work per credit hour. A written report is required. Report must be submitted to the Undergraduate Research Committee for approval. For additional credits of undergraduate research student must register for CHM 4911L. (F,S,SS)

CHM 4911L Undergraduate Research 2 (1-20). Faculty directed research in chemistry. Credit is assigned based on 4 hr/wk laboratory/library work per credit hour. May be repeated. Prerequisite: CHM 4910L. (F,S,SS)

CHM 4930 Senior Seminar (1). Each student will make an oral presentation to faculty and other students enrolled in the seminar course. The subject of the seminar may be either a report of results of an independent study project or a survey of the recent literature on an assigned topic. (F,S)

CHM 4931 Special Topics (3). Covers selected topics in chemistry. Prerequisite: Permission of the instructor.

CHM 4933 Special Topics (3). Covers selected topics in chemistry. Prerequisite: Permission of the instructor.

CHM 4934 Special Topics (3). Covers selected topics in chemistry. Permission of the instructor.

CHM 5138 Advanced Mass Spectrometry (3). Intensive examination of the processes and techniques involved in creating, controlling and measuring ionic species by mass spectrometry. Theory of mass spectrometry, methods of ionization, instrumental designs, quantitative mass spectrometry, meta-stable ions, and tandem mass spectrometry. Prerequisites: CHM 4130, CHM 4130L or permission of the instructor.

CHM 5139C Mass Spectrometry Workshop (2). Basic description of processes and techniques involved in creating, controlling and measuring elemental or molecular ionic species by mass spectrometry techniques. WS designed to provide hands on experience. Prerequisite: CHM 4130.

CHM 5150 Graduate Analytical Methods (3). Analysis of analytical data, electrochemistry, spectro-analytical techniques, chromatography, survey of new analytical methods. Prerequisites: Graduate standing or permission of the instructor. (S)

CHM 5156 Advanced Chromatography (3). Intensive examination of the contemporary practice of chromatography including available chromatographic techniques, their selection and application. Prerequisites: CHM 4130 or permission of the instructor.

CHM 5165 Chemometrics and Sampling (3). Methods of evaluating analytical chemistry data. Planning sampling design for water, air and solids. Sample preparation and extraction techniques. Prerequisite: CHM 4130.

CHM 5225 Graduate Organic Chemistry (3). Advanced topics in organic chemistry. Structure of organic molecules, reaction mechanisms, organic synthesis, and natural product chemistry. Prerequisites: Graduate standing or permission of the instructor. (F)

CHM 5236 Spectroscopic Techniques and Structures Elucidation (3). Advanced techniques for the spectroscopic identification of organic compounds. Interpretation of spectral information for determination of structures of various classes of organic compounds. Prerequisites: CHM 4220 and CHM 4230L.

CHM 5250 Organic Synthesis (3). Use of classical and modern reactions in the design and construction of complex organic molecules including natural products. Some topics covered will be construction reactions, refuctionalization, stereochemistry and conformational analysis. Prerequisites: CHM 4220 or permission of the instructor.

CHM 5251 Organometallic Chemistry (3). Fundamentals and applications of organometallic chemistry. Structures and bonding, ligand types, organometallic reactions,
physical methods of characterization. Prerequisites: CHM 4611, CHM 3411.

CHM 5252 Asymmetric Synthesis (3). Recent advances in asymmetric synthesis for the selective design and construction of tetrahedral stereo-centers. Focus on principles of configuration in transition state assemblies. Prerequisite: CHM 4220.

CHM 5263 Physical Organic Chemistry (3). A series of topics will be discussed including molecular orbital theory as it pertains to organic molecules, kinetic and thermodynamic approaches to the study of reaction mechanisms, quantitative approaches to conformational analysis, etc. Prerequisites: CHM 4220 and physical chemistry or permission of the instructor.

CHM 5280 Natural Products Chemistry and Biosynthesis (3). Studies of the chemical origins (biosynthesis), properties, and synthesis of the various classes of naturally occurring compounds: terpenes, steroids, alkaloids, and acetogenins. Prerequisites: CHM 4220 or permission of the instructor.

CHM 5285 Marine Natural Products: Chemistry and Pharmacology/Toxicology (3). Identification, isolation, and characterization of toxic and other biologically active compounds from marine sources.

CHM 5302 Organic Chemistry of Nucleic Acids (3). Organic chemistry of ribose sugars, nucleoside heterocyclic bases, mechanism-based inhibitors of enzymes involve in nucleic acid metabolism, and chemical synthesis of DNA. Prerequisites: CHM 4220 or permission of the instructor.

CHM 5305 Graduate Biological Chemistry (3). Structures of biological molecules; Biochemical reaction mechanisms; Enzyme kinetics; Biomolecular thermodynamics; Biomolecular spectroscopy. Prerequisites: Graduate standing or permission of instructor.

CHM 5306 Special Topics in Biological Chemistry (3). Investigation of one or more areas of biologically related chemistry. Prerequisites: CHM 4304 or permission of the instructor.

CHM 5325 Physical Chemistry of Proteins (3). Protein structures, dynamics and functions. Use of spectroscopic methods. Thermodynamics of protein folding and ligand binding. Enzyme Kinetics. Prerequisites: Biological Chemistry and Physical Chemistry or permission of the instructor.

CHM 5351 Computer Modeling of Biological Molecules (3). Introduces use of computers in studying biological macromolecules. Simulations, visualization methods, software, databases. Prerequisites: CHM 3411, Biochemistry recommended.

CHM 5380 Special Topics in Organic Chemistry (VAR). An intensive examination of one or more areas selected by instructor and students. Prerequisites: CHM 4220 and physical chemistry or permission of the instructor.

CHM 5423 Atmospheric Chemistry (3). Chemical processes in atmospheres. Photochemistry, chemical kinetics, tropospheric and stratospheric chemical reactions, anthropogenic effects on the earth’s atmosphere and chemistry of planetary atmospheres. Prerequisites: CHM 3410, CHM 3411, or permission of the instructor.

CHM 5425 Graduate Physical Chemistry (4). Prequantum physics, the Schrodinger equation and its solutions, atoms and molecules, rotational, vibrational, and electronic spectroscopy. Prerequisites: Graduate standing or permission of the instructor.

CHM 5426 Graduate Physical Chemistry II (4). Gas laws; thermodynamics and equilibrium, electrochemistry, and chemical kinetics. Prerequisites: Graduate standing or permission of the instructor.

CHM 5440 Kinetics and Catalysis (3). Theory of elementary reactions, activated complex theory, mechanisms of complex reactions. Prerequisites: CHM 3411, MAP 2302.

CHM 5490 Physical Spectroscopy (3). Introduction to atomic and molecular quantum states, selection rules, and fundamental principles of spectroscopy. Introduction to group theory and to the theory of UV/visible, infrared, Raman, microwave, NMR, photoelectron, and mass spectrosocopies, and the applications of these methods to the determination of fundamental physical properties and the structure of organic and inorganic molecules. Prerequisite: Physical Chemistry.

CHM 5490L Physical Spectroscopy Lab (1). The theory of spectroscopy and the use of modern instrumentation to investigate molecular structure. Prerequisites: CHM 2211, 2211L. Corequisites: PHY 4604 or CHM 5490.

CHM 5503 Physical Chemistry of Nucleic Acids (3). Physical chemistry of nucleic acids including spectroscopic determination of structures of DNAs, RNAs, and DNA-protein complexes and thermodynamic and kinetic studies of nucleic acid-ligand complexes and nucleic acid structures. Prerequisites: CHM 4304 or permission of the instructor.

CHM 5506 Physical Biochemistry (3). Physical properties of bio-molecules, molecular conformation; thermodynamic, kinetic, and spectroscopic properties of biomolecules. Prerequisites: CHM 4304 or permission of the instructor.

CHM 5517 Solid State (3). Crystalline form of solids, lattice dynamics, metals, insulators, semiconductors, and dielectric materials. Prerequisites: CHM 5490 or PHY 4604.

CHM 5540 Group Theory In Chemistry (3). The fundamental theory is developed with emphasis given to representations. Specific applications covered, with emphasis on molecular orbital theory and spectroscopy. Prerequisite: CHM 3411.

CHM 5586 Computational Chemistry (3). Surveys computational methods for studying issues pertinent to organic and biological chemistry. Emphasis on developing an understanding of principles and putting methods to use. Includes methods for studying reaction thermodynamics, reaction mechanisms and NMR spectral properties. Prerequisites: CHM 3410, CHM 3411.

CHM 5650 Physical Inorganic Chemistry (3). Introduction to use of physical methods to determine the
structure of inorganic compounds. Prerequisite: CHM 4611 or permission of the instructor.

CHM 5681 Special Topics in Inorganic Chemistry (VAR). An intensive examination of one or more areas selected by instructor and students. Prerequisites: CHM 4611 or permission of the instructor.

CHM 5765 Aquatic Chemistry (3). Redox chemistry, chemistry of sediments, organic biogeochemistry, chemodynamics, and fates or organic pollutants in aqueous environments. Prerequisites: CHM 2211, CHM 4130, or permission of the instructor.

CHM 5931 Special Topics (3). A course covering selected special topics in chemistry.

CHM 5932 Special Topics (3). A course covering selected special topics in chemistry.

CHM 5934 Special Topics in Analytical Chemistry (VAR). An intensive examination of one or more areas selected by instructor and students. Prerequisites: CHM 4130 or permission of the instructor.

CHM 5936 Special Topics in Environmental Chemistry (3). An intensive examination of one or more areas selected by the instructor and students. Prerequisite: Permission of the instructor.

CHM 5938 Special Topics in Physical Chemistry (VAR). An intensive examination of one or more areas selected by instructor and students. Prerequisites: CHM 3411 or permission of the instructor.

CHS 3501 Survey of Forensic Science (3). A survey course introducing the principles and techniques of forensic science as they pertain to crime scene investigation and crime laboratory analysis.

CHS 3501L Survey of Forensic Science Laboratory (1). Laboratory course to accompany survey of forensic science lecture with emphasis on biological evidence. Topics include, CSI, DNA, toxicology, and serology. Corequisite: CHS 3501.

CHS 3511C Forensic Evidence (3). Introduces forensic science students to important aspects of the analysis of physical evidence including crime scene investigation techniques, professional practice and ethics, introduction to the law, and quality assurance. Prerequisites: CHM 1045, CHM 1045L, CHM 1046, CHM 1046L, CHM 2210, CHM 2210L, CHM 2211, CHM 2211L, CHM 3120, CHM 3120L, or permission of the instructor.

CHS 4100 Radiochemistry (2). CHS 4100L Radiochemical Techniques Lab (2). Production, isolation, methods of detection, counting statistics and estimation of radioisotopes. Applications to chemical, physical and biological problems. Laboratory must be taken concurrently with the course. Prerequisites: CHM 1045, 1046, 3120, 3120L; MAC 3411, 3412.

CHS 4503C Forensic Science (3). Modern instrumental methods of chemical analysis and their use in the administration of justice. Prerequisites: CHM 3120 and CHM 2211 or permission of the instructor. Corequisites: a semester of physical chemistry or permission of the instructor.

CHS 4503L Forensic Science Lab (1). Laboratory to accompany Forensic Science, CHS 4503C. Prerequisites: CHM 3120, CHM 3120L, CHM 2211, CHM 2211L or permission of the instructor.

CHS 4533C Forensic Biochemistry Applications (3). Forensic applications of biochemistry including metabolite analysis, DNA analysis and other laboratory methods and data interpretation. Prerequisites: BSC 1010, CHM 2211, CHM 4304, or BCH 3033.

CHS 4591 Forensic Science Internship (3). Internship in a forensic-science laboratory, contributing in a specific manner on an assigned problem. Twenty hrs/wk. Written report required. Open only to students in the Criminalistics Chemistry Program. Prerequisite: Senior standing.

CHS 4600 Marine Chemistry (3). A study of how the chemistry of marine systems operate and interact with biological, geological, and physical processes. Prerequisites: CHM 2211, CHM 2211L, CHM 3120, CHM 3120L or permission of the instructor.

CHS 4702 Inquiry Instruction in Chemistry (3). Inquiry chemistry instruction approach incorporating chemistry education research. Includes general topics, scientific discourse, assessment and technology use in teaching. Prerequisites: CHM 3945 or PHY 3012.

CHS 5502 Forensic Chemistry for Teachers (3). Incorporates concepts and techniques from the application of analytical chemistry, molecular biology, biochemistry, toxicology, and microscopy to forensic casework. Exposure to teaching resources in these areas and case study format of presentation. Open to education majors only. Prerequisites: CHM 3120, CHM 3120L, CHM 2211, and CHM 2211L or permission of the instructor.

CHS 5535 Forensic Analysis (3). An introduction to established chemical analysis techniques used in forensic science and new techniques under development. Prerequisites: CHM 3120, CHM 3120L, CHM 2211, CHM 2211L or permission of the instructor.

CHS 5535L Forensic Analysis Lab (1). Laboratory to accompany Forensic Analysis CHS 5535. Prerequisites: CHM 3120, CHM 3120L, CHM 2211, CHM 2211L or permission of the instructor.

CHS 5536 Forensic DNA Chemistry (3). Chemical basis for current methodologies of DNA analysis. DNA sequencing, PCR, STR, AFLP, mass spectrometry. Prerequisites: CHM 4304 or permission of the instructor.

CHS 5538C Chemistry and Analysis of Drugs (3). Introduction to the chemistry of drugs of abuse, including reactivity, synthesis and the principles of analysis from solid doses and from body fluids. Laboratory analysis through the determination of unknown samples. Prerequisites: CHM 4130, CHM 4130L, CHM 4304, CHM 4304L.

CHS 5539 Forensic Toxicology (3). Provides the basic concepts of forensic toxicology as it applies to drug and body fluid analysis. Prerequisites: CHM 2211L, CHM 3120+L, CHM 4304+L (BCH 3033+L) or permission of the instructor.

CHS 5542 Forensic Chemistry (3). Advanced analytical methods in Forensic Chemistry for application to
analysis of controlled substances, materials (i.e., paint, glass, and fibers), flammable and explosives residues with an emphasis on new methods and method development.

**CHS 5545 Chemistry and Analysis of Explosives (3).** Chemistry and reactivity, including thermochemistry, of modern industrial and military explosives with an emphasis on the analysis of explosives residues from post-blast debris and from samples of environmental interest. Prerequisites: CHM 4130, CHM 4130L.

**ISC 4041 Scientific Literature (1).** This course presents a perspective on the scientific literature and scientific documentation. Problems in using and searching the scientific literature will be specifically designed to meet the needs of various disciplines, e.g. chemistry, environmental science, physics, biology. Prerequisites: 16 semester hours of science.

**OCC 5050 Chemical Oceanography (3).** Interaction of chemical processes in marine systems with biological, geological, and physical processes. Prerequisites: Graduate standing or permission of the instructor.
Criminal Justice

Lisa Stolzenberg, Professor and Chair
Rosa Chang, Instructor
Ellen G. Cohn, Associate Professor
Stewart D’Alessio, Professor
Jamie Flexon, Assistant Professor
Rob Guerette, Associate Professor
Jon Gurney, Instructor
Suman Kakar, Associate Professor
Ramiro Martinez, Professor
Ryan Meldrum, Assistant Professor
Stephen Pires, Assistant Professor
Juan Saiz, Instructor
Luis Salas, Professor
Carleen Vincent, Instructor

Bachelor of Science in Criminal Justice

Degree Program Hours: 120

Lower Division Preparation

To qualify for admission to the program, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable into the program.

Common Prerequisite Courses and Equivalencies

<table>
<thead>
<tr>
<th>FIU Course(s)</th>
<th>Equivalent Course(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>None</td>
<td>None</td>
</tr>
</tbody>
</table>

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

Upper Division Program (60)

Students must complete 60 semester hours of coursework, including 24 semester hours of core courses, 12 semester hours of criminal justice electives, and 24 semester hours of general electives. Students must earn a grade of 'C' or higher in all core and criminal justice elective classes ('C-' is not acceptable). Students must satisfy the College of Arts and Sciences Foreign Language Requirement.

Core Courses: (24)

Eight courses are required for all criminal justice majors:

- CCJ 3011 Nature and Causes of Crime 3
- CCJ 3024 The Criminal Justice System 3
- CCJ 4700 Research Methods in Criminal Justice 3
- CCJ 4701 Measurement and Analysis in Criminal Justice 3
- CJI 4064 Criminal Justice and the Constitution 3
- DSC 4012 Global Terrorism 3
- CJE 4174 Comparative Criminal Justice Systems 3
- CCJ 4497 Criminal Justice and Public Policy 3

Criminal Justice Electives: (12)

Any four 3000 or 4000 level courses within criminal justice (with the prefixes CCJ, CJC, CJE, CJJ, CJL, DSC). Only six semester hours of CCJ 4940 (Internship in Criminal Justice) will count in this area.

General Electives: (24)

12 semester hours must be 3000 or 4000 level courses. Nine semester hours of electives must be taken outside of criminal justice. One- and two-credit physical activity courses (with the prefixes PEL, PEM, PEN) cannot be included as part of the hours needed for graduation. Independent study courses may not be taken outside of criminal justice.

Internships

Although it is not required, it is highly recommended that students without relevant work experience apply for an internship in a criminal justice agency. Student must be a criminal justice major, with an overall minimum GPA of 2.0, and senior standing or completion of all core classes. For information on the application process and course requirements, see [http://cj.fiu.edu](http://cj.fiu.edu).

Combined BS/MS Degree Program in Criminal Justice

The combined bachelor's/master's degree program is designed for superior undergraduate students who have the ability to pursue an accelerated program in criminal justice leading to the Master of Science in Criminal Justice. The main feature of the program is that up to 12 semester hours of approved graduate level criminal justice courses (i.e., course numbers of 5000 and higher) may be used as dual credit for both the undergraduate and graduate degree. All other requirements for both the bachelor's degree and the master's degree must be met.

To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

1. Completion of at least 24 hours at FIU (including at least 12 semester hours of Criminal Justice) with a GPA of 3.2 or better,
2. Obtain a letter of recommendation from a faculty member at FIU or a supervisor, and
3. Demonstrate graduate level writing competency by submitting an essay three to five pages in length that addresses personal and career goals.
Admission to the program will be determined jointly by the Program Director.

After admission into the accelerated program, students will:

1. Obtain approval by the Program Director of a proposed program of study to fulfill the requirements for both the B.S. and M.S. degrees, which may include up to 12 semester hours of approved graduate level course work as dual credit toward both degrees, and
2. Maintain a cumulative GPA of 3.2 or better in all course work, and a GPA of 3.2 or better in criminal justice course work.

Minor in Criminal Justice (15)

Students may select any five criminal justice classes (with the prefixes CCJ, CJC, CJE, CJJ, CJL, DSC). At least half of the credits to be counted towards the minor must be taken at FIU.

Course Descriptions

Definition of Prefixes

CCJ-Criminology and Criminal Justice; CJC-Corrections; CJE-Law Enforcement; CJJ-Juvenile Justice; CJL-Law and Process; DSC-Domestic Security

Focuses on the collection and dissemination of crime statistics, major theoretical approaches to the understanding of crime, and different types of crime and criminal behavior.

CCJ 3024 The Criminal Justice System (3).
An examination of the history, organization, and function of the criminal justice system, including police, courts, and corrections.

CCJ 3450 Criminal Justice Administration (3).
Application of organization and administration theories to the criminal justice system.

CCJ 3628 Homicide (3).
A comprehensive study of homicide in the United States through the examination of individual cases, typology construction, and models.

CCJ 3651 Drugs and Crime (3).
Examines the history and consequences of mind-altering drugs, and criminal behavior as it is affected by drugs, the legal response to substance abuse, treatment and prevention of substance abuse.

CCJ 3666 Victimology (3).
A comprehensive study of victimization, including the relationship between the victims and offenders, and their interaction with the criminal justice system.

CCJ 3934 Contemporary Issues in Criminal Justice (3).
An intensive examination of a contemporary topic in criminal justice. May be repeated for different topics.

CCJ 4007 Development of the Criminal Justice System (3).
A survey of the history and development of the criminal justice system from ancient to modern times, with a focus on understanding current criminal justice issues through a historical perspective.

CCJ 4032 Crime and the Media (3).
An examination of the role of the media in reporting crime and the extent to which media coverage of crime and the criminal justice system impacts the commission of crimes and the operation of the system.

CCJ 4361 Death Penalty (3).
An examination of the problems and issues related to the death penalty in the United States.

CCJ 4497 Criminal Justice and Public Policy (3).
Integrates material learned in the Criminal Justice curriculum and explores criminal justice policy issues. Assesses the consequences of criminal justice policies on the system and society. Corequisite: Senior standing in criminal justice.

CCJ 4641 Organized Crime (3).
Historical development of organized crime in the U.S.; defining “organized crime” from U.S. and international perspective; patterns of criminal activity; critique of police and prosecutorial efforts to curb organized crime.

CCJ 4644 White Collar Crime (3).
The nature of white-collar crime and its social control is examined including the definition, typologies, theories, law, policing, regulating, prosecuting, defending, and its adjudication.

CCJ 4662 Minorities, Crime, and Justice (3).
Examination of the role of minorities in crime and the criminal justice system.

CCJ 4663 Women, Crime and the Criminal Justice System (3).
Women as deviants, criminals, victims, and professionals in the criminal justice system.

CCJ 4700 Research Methods in Criminal Justice (3).
A study of basic methods used in criminal justice research. Emphasis on research designs, including experimental, quasi-experimental, and evaluation research. Measurement, sampling, questionnaire construction, and survey research are also covered.

CCJ 4701 Measurement and Analysis in Criminal Justice (3). This course explores the current knowledge, trends, and future directions in the measurement and analysis of crime and the criminal justice system.

CCJ 4910 Supervised Research (3).
Undergraduate students engage in research in criminal justice under the direction of a faculty member. Prerequisites: CCJ 4700, CCJ 4701.

CCJ 4940 Internship in Criminal Justice (3-12).
To provide an opportunity for the student to observe the criminal justice system in operation (Pass/Fail grading). Corequisites: Criminal Justice major, minimum overall 2.0 GPA, and senior standing or completion of core classes.

CCJ 5040 Comparative Crime and Criminal Justice Systems (3).
This course provides a cross-national survey of crime and criminal justice. Emphasis will be on crime rates, forms of criminality, police, courts, and corrections.

CCJ 5056 History of the American Criminal Justice System (3).
Focuses on the history and evolution of the American criminal justice system.

CCJ 5479 Seminar in Administration of Justice (3).
This course provides students with a critical understanding of the responses to crime. Emphasis is placed on theory
and research relating to the effectiveness of the criminal justice system.

CCJ 5489 Ethics in Criminal Justice (3). This course is designed to introduce students to ethical decision-making in the criminal justice system.

CCJ 5525 Seminar in Juvenile Delinquency (3). This course focuses on the nature, scope, and causes of delinquency and considers problems of assessment and measurement of delinquency.

CCJ 5669 Minorities in Justice Administration (3). This course focuses on current research and theories of racial, ethnic, and gender discrimination within America's criminal justice system.

CCJ 5935 Special Topics (3). An intensive analysis of a particular topic in criminal justice. May be repeated for different topics.

CJC 3010 Corrections (3). An overview of correctional philosophies, practices and procedures.

CJC 4166 Community Corrections (3). Surveys history, and current status of community correctional programs, including diversion, probation, parole, and other community programs for adult offenders.

CJC 4310 Institutional Corrections (3). Surveys history and current status of jails and adult prisons with emphasis on punishment rationales, institutional programs and procedures, inmates' social structures, correctional officers, and contemporary issues.

CJC 5320 Correctional Administration (3). The course focuses on current critical issues and problems in the administration and management of adjudicated offenders in correctional systems.

CJE 3110 Law Enforcement (3). Examines the origins, functions and operations of policing in urban America.

CJE 3444 Crime Prevention (3). Examines situational, social, and legislative approaches to the prevention of crime and delinquency. Emphasis on theories, implementation, and consequences of these approaches.

CJE 3610 Criminal Investigation (3). This course provides students with a basic understanding of the investigatory process. Analysis of problems encountered in interviewing, interrogating, evidence collection, and admissibility will be examined.

CJE 4144 Private Security (3). This course examines the role of private security in the prevention of crime against the assets of formal organizations and their employees.

CJE 4174 Comparative Criminal Justice Systems – GL (3). A comparative study of the major legal traditions (e.g., common law, civil law, socialist law) and analysis of the criminal justice system across the world, including police, courts, and corrections.

CJE 4410 Community Policing (3). Examines the historical, philosophical, and practical dimensions of the police and community collaboration to solve and prevent crime.

CJE 5024 Violent Crime & Criminal Behavior (3). This course deals with violent criminal behavior and the criminal justice system's reaction to violence.

CJE 5025 Police Administration (3). Analysis of the organization and administration of police departments and their effects on police behavior.

CJJ 3010 Juvenile Justice (3). Examines the nature and extent of delinquency in the United States and the system response to juvenile crime.

CJL 3410 Criminal Procedure (3). An in-depth study of the 4th through 8th Amendments of the Constitution, and their impact on the criminal justice process.

CJL 3512 The Courts (3). An overview of jurisdiction, policies, and procedures of courts in the administration of criminal justice.

CJL 4064 Criminal Justice and the Constitution (3). A case law study of constitutional issues related to the administration of criminal justice.

CJL 4074 Correctional Law (3). Legal problems from conviction to release: pre-sentence investigations, sentencing, probation and parole, incarceration, loss and restoration of civil rights.

CJL 4133 Criminal Evidence (3). A study of evidentiary principles and rules of evidence, and their application in a courtroom setting.

CJL 4412 Criminal Law (3). Examines the structure, function, and principles of criminal law, including the acts, mental state, and attendant circumstances that are necessary elements of crime.

CJL 5418 Law and Social Control (3). This course examines law as an instrument of social control. It explores the effectiveness of law in controlling criminal behavior and its impact on the criminal justice system.

CJL 5421 Legal Issues in Criminal Justice Administration (3). This course examines diverse and frequently debated legal topics from both legal and sociological perspectives.

CJL 5422 Advanced Seminar in Criminal Law and Procedure (3). This course presents an intensive study of case law and procedure as they relate to the administration of criminal justice.

DSC 4012 Global Terrorism – GL (3). Examines the nature and causes of terrorism and the national, regional and global effects of particular terrorist groups focusing on their collective behavior and objectives.
Earth and Environment

Rosemary Hickey-Vargas, Professor and Chairperson
Mahadev Bhat, Professor and Associate Chair
Elizabeth Anderson, Lecturer and Deputy Director, Global Water for Sustainability (GLOWS)
William Anderson, Associate Professor
Joseph Boyer, Associate Professor and Director, Southeast Environmental Research Center
David Bray, Professor
Laurel Collins, Associate Professor
Maria Donoso, Director, Global Water for Sustainability (GLOWS)
Grenville Draper, Professor
Jennifer Gebelein, Lecturer and CAS Deans Office
Michael Gross, Associate Professor
Stephen Haggerty, Distinguished Research Professor

Hong Liu, Assistant Professor
Jose Longoria, Professor
Andrew Macfarlane, Associate Professor and Graduate Director for Geosciences
Florentin Maurrasse, Professor
Michael McClain, Associate Professor
Assefa Melesse, Associate Professor
Fernando Miralles-Wilhelm, Associate Professor
Pallab Mozumder, Assistant Professor
Jeff Onsted, Assistant Professor
John Parker, Emeritus Professor
Tom Piske, Emeritus Lecturer
René Price, Associate Professor
Gary Rand, Professor
Rodolfo Rego, Visiting Instructor
Jennifer Rehage, Assistant Professor
James Riach, Lecturer
Edward Robinson, Research Associate
Mike Ross, Associate Professor
Gautam Sen, Professor
Raymond Scattone, Senior Lecturer and Undergraduate Program Director for Environmental Studies
Len Scinto, Assistant Professor
Neptune Srimal, Senior Lecturer
Michael Sukop, Associate Professor
Dean Whitman, Associate Professor and Undergraduate Program Director for Geosciences/Earth Science
Hugh Willoughby, Distinguished Research Professor
Keqi Zhang, Associate Professor
Ping Zhu, Assistant Professor

Affiliated Faculty

Patrick Belmont, Scientist, National Center for Earth-Surface Dynamics, University of Minnesota
Henry Briceno, Research Scientist, Southeastern Environmental Research Center
Kevin Cunningham, United States Geological Survey
Elvira Duran, National University of Mexico
Jennifer (Zhao Hui) Fu, FIU GIS-RS Center
Evelyn Gaiser, Biological Sciences
Daniel Gann, Research Associate, FIU GIS-RS Center

Jennifer Grimm, Environmental Coordinator, CAS-SEAS
Christopher Langevin, United States Geological Survey
Stewart Reed, US Department of Agriculture
Jay Sah, Research Scientist, Southeastern Environmental Research Center
Kateel Shetty, Research Scientist, Earth and Environment
Kevin Whelan, US Geological Survey

Knowledge of the Earth and its environments is essential for successful stewardship of our home planet. The mission of FIU Department of Earth and Environment is to be at the forefront of research and education on the dynamic interaction of Earth’s systems, the environment, and related societal issues. Programs in the Department address understanding and stewardship of the natural Earth. In addition, the department fosters understanding of the planet’s bounty, such as water, mineral, energy and agricultural resources. A third area of emphasis is environmental problems, both natural, such as earthquakes, volcanic eruptions and floods, and human-made, such as oil spills, ecosystem degradation and soil erosion. The Department of Earth and Environment has well-equipped facilities that allow students to understand the Earth and its environments and to prepare for professions with environmental and natural resource orientations.

Geoscience Programs

The Department offers a Bachelor of Sciences degree in Geosciences program with a choice of majors in the Geological Sciences and another in Atmospheric Sciences. These majors have been designed to prepare students to gain professional credentials such as the State of Florida Professional Geologist certification or the American Meteorological Society certification. A broader based, interdisciplinary BA program in Earth Sciences is also offered, including a major in Earth Science Education which leads to teacher certification in Florida. Also available are Minors in Geology and Meteorology. A grade of “C” or better is required for all required courses in the major and/or minor.

Bachelor of Science in Geosciences

Degree Program Hours: 120

[*Students may substitute Historical Geology from another institution.*]

Geological Sciences Major

This major is intended for students who wish to concentrate on the study of the solid Earth and hydrosphere. Prepares students for graduate work in geology or careers in management of resources and environment.

1. Choose four geoscience courses (with labs as necessary) from List 1 (13 credits)
2. Choose an additional 9 credits or more from either List 1 or List 2, at least three of which must be field experience.

List 1: Major-specific Courses

**Combined BS/MS in Geosciences**

The combined BS/MS degree program in Geosciences allows qualified students to earn both degrees in a shorter amount of time than typically required for earning degrees sequentially. The accelerated program is designed for highly qualified undergraduate students in the Earth Sciences, allowing them to complete their MS degree within approximately 2.5 years after starting their second year.

To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

**Admission Requirements**

- Current enrollment in the Bachelor of Science program in Geosciences at FIU.
- Completed at least 90 credits of coursework (including UCC and CLAS).
- Minimum GPA of 3.2.
- Minimum GRE (verbal + quantitative) score of 1000.
- Three letters of recommendation.
- Approval by the Earth Sciences Graduate Committee.

**General Requirements**

- Meet the requirements of both the BS and MS degree in Geosciences.

- **Overlap:** Up to 3 courses (9 credits) may be used in satisfying both the BS and MS degree requirements, which must be at the 5000-level or higher.

**Bachelor of Arts in Earth Sciences**

**Degree Program Hours: 120**

This program is for the student who requires a broad background in Earth Sciences for a career in science education or public or private administration dealing with Earth and environmental science issues.

**Common Prerequisite Courses and Equivalencies**

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites. For generic course substitutions/ equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: [http://facts.org](http://facts.org). See Common Prerequisite Manual. The Common Prerequisite Manual does not include a sheet for this program.

**Lower Division**

- CHM 1045 General Chemistry I
- CHM 1045L General Chemistry I Lab
- CHM 1046 General Chemistry II
- CHM 1046L General Chemistry II Lab
- GLY 1010 Introduction to Earth Science
- MAC 2311 Calculus I
- PHY 2053 Physics without Calculus I
- PHY 2048L General Physics Lab I
- PHY 2054 Physics without Calculus II
- PHY 2049L General Physics Lab II
- GLY 1100 Historical Geology
- GLY 1100L Historical Geology Lab
- GLY 1101 History of Life
- GLY 1101L History of Life Lab

**Upper Division**

- GLY 3202 Earth Materials 3
- GLY 3202L Earth Materials Lab 1
- OCE 3014 Oceanography 3
- GLY 3760C Geological Map Analysis 3
- GLY 4822 Introduction to Hydrogeology 3
- GLY 4511 Stratigraphy & 3
- GLY 4511L Stratigraphy Lab 1
- GLY 4300 Petrology & 3
- GLY 4300L Petrology Lab 1
- GLY 4400 Structural Geology & 3
- GLY 4400L Structural Geology Lab 1

**THREE of the following:**

- GLY 3760C Geological Map Analysis 3
- GLY 4822 Introduction to Hydrogeology 3
- GLY 4511 Stratigraphy & 3
- GLY 4511L Stratigraphy Lab 1
- GLY 4300 Petrology & 3
- GLY 4300L Petrology Lab 1
- GLY 4400 Structural Geology & 3
- GLY 4400L Structural Geology Lab 1

**ONE of the following (3-4):**

- EVR 3013 Ecology of South Florida 3
- EVR 3013L Ecology of South Florida Lab 1
- EVR 4211 Water Resources & 3
- EVR 4211L Water Resources Lab 1
EVR 4231  Air Resources  3
EVR 4310  Energy Resources  3
EVR 4592  Soils & Ecosystems &  3
EVR 4592L  Soils & Ecosystems Lab  1
GEO 3510  Earth Resources  3
GLY 3034  Natural Disasters  3

Additional Courses
Students take two approved 3000 or 4000 level courses in earth sciences/geoscience (excluding GLY 3039 Environmental Geology), other science departments, or the College of Engineering.

Earth Science Education Major
This program prepares students interested in Earth Sciences and science for teaching at the secondary level. Students are encouraged to participate in on-campus teaching experiences that parallel their coursework, available for freshman and sophomores. Interested students are encouraged to contact the department for additional details and information on teacher support programs.

Lower Division
Common Prerequisites as Detailed Under the BA Degree in Earth Sciences

Additional Lower Division Courses (4)
AST 2003  Solar System Astronomy  3
AST 2003L  Solar System Astronomy Lab  1

Upper Division
ESC 3050  Seminar in Earth Science Education  1
OCE 3014  Oceanography  3
GLY 3202  Earth Materials  3
GLY 3202L  Earth Materials Lab  1
GLY 4937  Senior Seminar in Geological Sciences  1

THREE of the following (10-12 credits):
GLY 3760C  Geological Map Analysis  3
GLY 4822  Introduction to Hydrogeology  3
GLY 4511  Stratigraphy &  3
GLY 4511L  Stratigraphy Lab  1
GLY 4300  Petrology &  3
GLY 4300L  Petrology Lab  1
GLY 4400  Structural Geology &  3
GLY 4400L  Structural Geology Lab  1

ONE of the following (3-4 credits):
EVR 3013  Ecology of South Florida &  3
EVR 3013L  Ecology of South Florida Lab  1
EVR 4211  Water Resources &  3
EVR 4211L  Water Resources Lab  1
EVR 4231  Air Resources  3
EVR 4310  Energy Resources  3
EVR 4592  Soils & Ecosystems &  3
EVR 4592L  Soils & Ecosystems Lab  1
GEO 3510  Earth Resources  3
GLY 3034  Natural Disasters  3

Additional Course
ESC 4052  Inquiry-Based Learning in the Earth Sciences  3

AND (23 credits)

Electives 9-12

BS/BA Honors Major in Geosciences
The Honors Major in Geosciences provides outstanding students with the opportunity to do original research under a faculty sponsor. To graduate with Honors, the student must carry out a research project, write up the project as an Honors Thesis, and present the results of the research in a Departmental seminar.

Admission to the Major
To be admitted to the major a student must:

- Have arranged to be sponsored by a faculty advisor.
- Have taken at least 14 hours of Geoscience/Earth Science courses with a GPA of at least 3.5; 6 hours must be at the 3000 level or above.
- Have an overall GPA of 3.5 or higher in 3000 and 4000 level classes.
- Exceptions to these criteria may be granted in special cases through appeal to the Earth Sciences Undergraduate Committee.

Graduation Requirements

- A minimum GPA of 3.5 in courses in 3000 and 4000 level classes.
- Completion of the B.S. requirements in Geosciences or B.A. requirements in Earth Sciences, including GLY 4989L (Honors Research, 3 credits) and GLY 4970 (Honors Thesis, 3 credits).
- Completion of Honors research in collaboration with Honors supervisor and presentation of a draft of the Honors thesis to the Earth Sciences Undergraduate Committee.
- Deposition of a completed approved copy of the Honors thesis with the Earth Sciences office.

Minor in Geology

Required courses
At least 17 hours of earth sciences/geoscience courses which must include the following: GLY 1010+1010L or GLY 3039+3039L, GLY 1100+1100L or GLY 1101+1101L, and GLY 3020+3020L. Additional earth sciences/geoscience courses must be taken at the 3000 or 4000 level.
Minor in Meteorology

This minor is intended for science/math/engineering majors who wish to develop an understanding of meteorology. Students from other majors who have math/science background and literacy can also take this minor. Calculus I or Business Calculus, and Physics I are pre- or co-requisites for General Meteorology. The minor consists of at least 16 credits of courses within the Department of Earth Sciences.

Required Courses: (10 credits)
MET 3003 General Meteorology 3
MET 4420 Physical Meteorology 3
or MET 3102 Physical Climatology 3
MET 3502 Synoptic Meteorology 3
MET 3502L Synoptic Meteorology Lab 1

Plus, any two of the following courses (6+ credits):
MET 4300 Severe Weather 3
MET 4532 Hurricanes 3
OCE 3014 Oceanography 3
OCE 3014L Oceanography Lab 1
MET 4400 Meteorological Instrumentation and Observations 3
MET 4301 Dynamic Meteorology I 3
MET 4302 Dynamic Meteorology II 3

Cooperative Education

Students seeking the baccalaureate degree in Geosciences/Earth Sciences may also take part in the Cooperative Education Program conducted with the Department of Cooperative Education in the Division of Student Affairs. The student spends one or two semesters fully employed in the private sector or a government agency. For further information consult the Department of Earth and Environment or the Department of Cooperative Education.

Environmental Studies Programs

These programs prepare students for work and involvement in environmental professions and issues. The Bachelor of Sciences in Environmental Studies degree emphasizes chemical and ecological aspects of environmental analysis. The Bachelor of Arts degree in Environmental Studies emphasizes the political, social and economic aspects of environmental issues. This is an interdisciplinary program that represents chemistry to anthropology, and may feature affiliated faculty from other departments in some courses. Note that the Department offers a Minor and a certificate program in Environmental Studies. A grade of "C" or better is required for all required courses in the major, minor and certificate.

Bachelor of Science in Environmental Studies

Degree Program Hours: 120

To qualify for admission to the program, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable into the program.

¹Requirement or option for FIU program.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites. For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: [http://facts.org](http://facts.org), See Common Prerequisite Manual.

Required Courses

Common Prerequisites

| BSC 1010 | General Biology I |
| BSC 1010L | General Biology I Lab |
| BSC 1011 | General Biology II |
| BSC 1011L | General Biology II Lab |
| CHM 1045 | General Chemistry I |
| CHM 1045L | General Chemistry I Lab |
| CHM 1046 | General Chemistry II |
| CHM 1046L | General Chemistry II Lab |
| GLY 1010 | Introduction to Earth Science |
| GLY 1010L | Introduction to Earth Science Lab |
| EVR 3010 | Energy Flow in Natural and Man-made Systems |
| PHY 2023 | Survey of General Physics |
| MAC 2147 | Pre-Calculus Mathematics |
| MAC 1105 | College Algebra |
| MAC 1114 | Trigonometry |

Lower or Upper Division Requirements

| ECO 2023 | Microeconomics |
| STA 3111 | Statistics I |
| STA 3112 | Statistics II |
| MAC 2311 | Calculus I |
| CHM 2200 | Survey of Organic Chemistry |
| CHM 2200L | Survey of Organic Chemistry Lab |
| CHM 2210 | Organic Chemistry I |
| CHM 2210L | Organic Chemistry I Lab |
Upper Division Program

Recommended Courses

ANT 3403 Cultural Ecology 3
ENC 3213 Professional and Technical Writing 3
POS 2042 American Government 3
or
POS 3424 Legislative Process 3
REL 3492 Earth Ethics 3

Required Courses

ECP 3302 Introduction to Environmental Economics 3
EVR 4352 U.S. Environmental Policy 3
or
POS 4035 Environmental Politics 3
EVR 4211 Water Resources 3
EVR 4211L Water Resources Lab 1
PCB 3043 Ecology 3
PCB 3043L Ecology Lab 1
CHM 3120 Analytical Chemistry and 3
CHM 3120L Analytical Chemistry Lab 1
or
EVR 4323 Restoration Ecology and 3
EVR 4323L Restoration Ecology Lab 1
EVR 4920 Environmental Studies Senior Seminar 1
EVR 4905 Independent Study 2

Two of the following four courses:
EVR 4026 Ecology of Biotic Resources 3
EVR 4231 Air Resources 3
EVR 4310 Energy Resources 3
EVR 4592 Soils and Ecosystems and 3
EVR 4592L Soils and Ecosystems Lab 1

2 Additional Environmental Courses (6 credits)

The student must take at least twelve additional credits in an approved area of specialization, such as resource management/policy, international environmental issues, agroecology, human ecology/environmental values, environmental education or environmental biology. Six of the 12 credits must be from EVR courses. Note: Minors may be substituted for an area of specialization.

Electives 16

Total semester hours 60

Bachelor of Arts in Environmental Studies

Degree Program Hours: 120

Lower Division Program

Recommended Courses

PSC 1515 Energy and the Natural Environment 3
To qualify for admission to the program, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable into the program.

Common Prerequisite Courses and Equivalencies

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org. See Common Prerequisite Manual. The Common Prerequisite Manual does not include a sheet for this program.

Common Prerequisites

ECO 2023 Principles of Microeconomics
BSC 1011/1011L Organismal Biology and Lab
One of the following:
CHM 1032/1032L Chemistry & Society and Lab
GLY 1010/1010L Introduction to Earth Sciences and Lab

To qualify for admission to the program, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable into the program.

Upper Division Program

Recommended Courses

ENC 3213 Professional & Technical Writing 3
POS 2042 American Government 3
STA 3112 Statistics II 3
POS 3424 Legislative Process 3

Required Courses: (35)

EVR 3010 Energy Flow in Natural and Man-made Systems 3
EVR 3011 Environmental Resources and Pollution 3
EVR 3011L Environmental Resources and Pollution Lab 1
EVR 4594 Analysis of South Florida Ecosystems 3
EVR 4596L Applied Field Ecology 2
EVR 4411 Population & Environment Issues 3
or
ANT 3403 Cultural Ecology 3
EVR 4352 US Environmental Policy 3
or
POS 4035 Environmental Politics 3
REL 3492 Earth Ethics 3
STA 3112 Statistics I 3
ECP 3302 Introduction to Environmental Economics 3
EVR 4411 Human Organization & Ecosystems Management 3
EVR 4905 Independent Study 2
EVR 4920 Environmental Studies Senior Seminar 1
EVR 4869L Environmental Problem Solving Lab 2

Area of Specialization Courses: (12)

The student must take at least twelve additional credits in an approved area of specialization, such as resource management/policy, international environmental issues, agroecology, human ecology/environmental values, environmental education or environmental biology. Six of the 12 credits must be from EVR courses. Note: Minors may be substituted for an area of specialization.

Electives 16

Total semester hours 60
Combined BS/MS or BA/MS in Environmental Studies

To be considered for admission to the combined bachelor’s/master’s degree program, students must have completed at least 75-90 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admission Requirements

- Current enrollment in the Bachelor’s Degree Program in EVR at FIU.
- Completed or enrolled in at least 90 undergraduate credit hours.
- Current GPA of 3.25 or higher.
- GRE combined score of 1000 (quantitative and verbal).

General Requirements

- Completed Bachelor’s Degree in EVR at FIU.
- EVR 5320 Environmental Resource Management can substitute for EVR 4023 Biotic Resources for BS majors and be taken as an elective/area of concentration by BA majors.
- BA and BS majors can take EVR 5355 Environmental Resource Policy instead of EVR 4352 US Environmental Policy.
- Two-Three graduate electives (6-9 credits) can be counted towards areas of concentration for BA majors, or as electives or resource courses for BS majors.
- Take one section of EVR Graduate Seminar for EVR 4920 Undergraduate Senior Seminar.
- Students are expected to have 12-18 graduate course credits by the time they receive the undergraduate degree.

Minor in Environmental Studies

Required Courses

1. Four of the following approved courses, including at least two of the first four.
   - EVR 4026 Ecology of Biotic Resources 3
   - EVR 4211 Water Resources 3
   - EVR 4231 Air Resources 3
   - EVR 4310 Energy Resources 3
   - EVR 4401 Conservation Biology 3
   - EVR 4323 Restoration Ecology 3

2. One of the following courses:
   - EVR 4415 Population and Environment Issues 3

EVR 4321 Sustainable Resource Development 3
EVR 4352 US Environmental Policy 3
Total Credits 15

Grades of ‘C’ or better required for all courses. A list of additional approved environmental science courses, subject to change, is available in the Department of Earth and Environment.

Cooperative Education

Students seeking the baccalaureate degree in environmental studies may also take part in the Cooperative Education Program conducted in conjunction with the Department of Cooperative Education in the Division of Student Affairs. The student spends one or two semesters fully employed in industry or a governmental agency. For further information consult the Department of Cooperative Education.

Environmental Internships

Students are highly encouraged to participate in an environmental internship while completing their program of study. Approved internships can satisfy students’ independent study requirements. Each year, during the Spring, the department will hold an internship and career fair in order to help guide students towards internships.

Course Descriptions

Note: A laboratory may not be taken prior to the corresponding lecture course. A laboratory must be taken concurrently where noted, but students must register for the laboratory separately.

Definition of Prefixes

ESC-Earth Sciences; EVR-Environmental Studies; EVS-Environmental Science; GEO-Geography: Systematic; GIS-Geography: Information Science; GLY-Geology; IDS-Interdisciplinary Studies; MET-Meteorology; OCE-Oceanography; OCP-Physical Oceanography; SWS-Soil and Water Sciences

ESC 3050 Seminar in Earth Science Education (1). Seminar covering theoretical and practical issues encountered in the teaching of Earth Sciences. Students will discuss experience gained as learning assistants. Prerequisites: GLY 1010 and GLY 1010L, GLY 1101 and GLY 1101L and permission of the instructor.

ESC 3930 Topics in Earth Sciences (1-5). Selected topics in the earth sciences.

ESC 4052 Inquiry-Based Learning in the Earth Sciences (3). Important concepts in the Earth Sciences covered using inquiry based learning techniques. Content delivery using laboratory exercises and technology. Prerequisite: Permission of the instructor.

ESC 5005 Earth Science Enrichment Activities for Teachers (1-2). Workshop presenting Earth Science enrichment activities to high school and middle school science teachers.
EVR 1001 Introduction to Environmental Sciences (3). A physical science course for non-science majors, emphasizing air and water pollution, water resources, solid waste management, and energy resources. (F,S, SS)

EVR 1001L Introduction to Environmental Sciences Lab (1). Laboratory analysis and field trips on topics and concepts covered in Introduction to Environmental Sciences. (F,S,SS)

EVR 1017 The Global Environment and Society (3). A broad introduction to the impact of social and economic processes on the global environment, including historical and comparative dimensions. (F, S, SS)

EVR 3003 Latin American Environmental Issues (3). An overview of historical and emerging environmental issues in Latin American countries. Themes covered include environmental history, urban pollution, tropical deforestation, and indigenous peoples. (F)

EVR 3010 Energy Flow in Natural and Man-made Systems (3). A course for non-science majors, examining energy use and efficiency, nuclear and renewable energy sources (including solar energy), and their environmental impacts. Prerequisites: College algebra or equivalent. (F,S)

EVR 3011 Environmental Resources and Pollution (3). A course for non-science majors, focusing on dynamics of pollution and environmental toxicology with emphasis on energy consumption and production, solid wastes, and air and water resources. (F,S)

EVR 3011L Environmental Science: Pollution Lab (1). Laboratory and field analysis of topics and concepts covered in EVR 3011. Corequisite: EVR 3011. (F,S)

EVR 3013 Ecology of South Florida (3). EVR 3013L Ecology of South Florida Lab (1). A course for non-science majors, offering an introduction to the ecology of South Florida through lectures and a series of field trips into several unique ecosystems, such as the Everglades, hardwood hammocks, and coastal regions. The course also deals with natural resource conservation, wildlife management, endangered species, and wilderness issues. (F,S,SS)

EVR 3029 The Everglades (3). An interdisciplinary examination of the Everglades system, including natural history, human history, esthetics, and politics/policy of restoration.

EVR 3402 Asian Environmental Issues (3). An overview of emerging environmental issues in Asian countries. Discussion of cultural, economic, and political systems of the region and their influence on the environment.

EVR 3931 Topics in Environmental Studies (3). An intensive analysis of a current environmental topic. Course may be repeated with change in content.

EVR 3949/EVR 4949 Cooperative Education in Environmental Studies (1-3). One semester of full-time supervised work in an outside laboratory taking part in the University Co-op Program. Limited to students admitted to the Co-op Program. A written report and supervisor evaluations will be required of each student. (F,S,SS)

EVR 4023 Coastal Resource Management (3). An introduction to the basic concepts, principles, and analytical tools used in the management of coastal resources.

EVR 4026 Ecology of Biotic Resources (3). The study of renewable natural resources of the earth’s biomes, particularly those of tropical forests, the factors influencing their productivity, conservation, and human use. Prerequisites: BSC 1010 and BSC 1011. (F)

EVR 4112 Climate Change Policy (3). Introduction to policies governing climate change mitigation. Examines the impetus for, specific mechanisms used to implement, and effectiveness of both national and international policies. Prerequisites: EVR 4352 or permission of the instructor.

EVR 4120 Natural Disasters and Society (3). Introduce basic concepts and analytical tools of societal responses in managing natural disasters.

EVR 4211 Water Resources (3). A seminar dealing with various aspects of water use, water pollution problems, chemistry and ecology of South Florida's waters. Ecology is recommended. Prerequisites: CHM 1045 and CHM 1046 or equivalent and general biology. (F)

EVR 4211L Water Resources Lab (1). Laboratory course on procedures currently suitable and widely accepted for physical, chemical, and biological methods in the examination of water. Prerequisites: CHM 1045 and CHM 1046 or equivalent and General Biology. (F)

EVR 4231 Air Resources (3). Common air pollutants - their sources and methods of control. Different legislative and administrative approaches will be studied. Prerequisites: CHM 1045 and CHM 1046 or equivalent.

EVR 4272 Agroecology (3). Application of ecological principles to modern farming systems to achieve goals of long term food production without depleting Earth's resources. Prerequisites: EVR 3013 or equivalent or permission of the instructor. (F)

EVR 4274 Sustainable Agriculture (3). Analysis of sustainability of modern agricultural systems under a variety of ecological economic and cultural settings. Familiarizes students with socioeconomic, urban policy, sustainable agriculture. Prerequisites: EVR 3013 or equivalent or permission of the instructor. (S)

EVR 4310 Energy Resources (3). Seminar dealing with power and energy production in modern society, fundamental energy relationships of industrial and domestic processes. Prerequisites: EVR 3010 or PHY 2023 or equivalent.

EVR 4321 Sustainable Resource Development (3). An overview of social, economic and ecological approaches to sustainable resource development. Examines various policies for harmonizing economic growth and environmental sustainability.

EVR 4323 Restoration Ecology (3). Principles and practices of environmental restoration, recreation and enhancement. Examines ecological theory that relates to restoration through case studies from southern Florida.
EVR 4323L Restoration Ecology Lab (1). This lab is to illustrate concepts and applications of ecological restoration theories through visitations to and participations in various ecological restoration sites in South Florida. Prerequisites: At least one class in the area of Ecology. Corequisite: EVR 4323. (S)

EVR 4351 U.S. Energy Policy (3). Policies governing the utilization of energy in the U.S. Focuses on the physical, political and social constraints that shape energy policy in this country. Prerequisites: EVR 3010 or permission of the instructor.

EVR 4352 U.S. Environmental Policy (3). Introduction to U.S. environmental policy. Reviews primary U.S. environmental legislation and the role of regulation. Prerequisites: EVR 3011 or permission of the instructor. (F,S)

EVR 4356 Coastal and Marine Environmental Policy (3). Examine policies that govern the utilization and protection of coastal and marine areas. Focus on the political, social, environmental and economic constraints that shape the policy process. (F)

EVR 4401 Conservation Biology (3). Applies modern theory from ecology and population genetics to conservation issues. Topics include population viability studies, reserve design, forms of rarity, and policy issues. Prerequisites: BSC 1010 and BSC 1011.

EVR 4411 Human Organizations and Ecosystem Management (3). Environmental aspects of organizational theory and strategic management in indigenous and other local communities, non-governmental organizations, governments, and the private sector are discussed. Prerequisite: An introductory Environmental Studies course. (F)

EVR 4415 Population and Environment Issues (3). Examines the history, current status and projected growth of the human population in relation to environmental issues. Prerequisites: College algebra, STA 3111 (or equivalent), EVR 3011 or permission of the instructor. (S)

EVR 4592 Soils and Ecosystems (3). A review of basic soil science concepts; analyses of basic physical and chemical properties of soils, emphasizing soils in South Florida ecosystems. Prerequisites: BSC 1010 and CHM 1045, or permission of the instructor.

EVR 4592L Soils and Ecosystems Lab (1). Laboratory exercises provide soil characterization techniques used in soil science and complement the lectures by carrying out experiments illustrating soil science concepts, soil formation, soil properties, and soil nutrients cycling. Prerequisites: CHM 1046, BSC 1011, CHM 3120 and their corresponding labs. Corequisite: EVR 4592.

EVR 4594 Analysis of South Florida Ecosystems (3). In-depth study, using case study approach of the major ecosystems of South Florida, the environmental issues facing them, and the management strategies employed to sustain their natural resources. Prerequisites: BSC 1011, BSC 1011L, EVR 3011. (F,S)

EVR 4596L Applied Field Ecology (2). Introduction to basic methodologies of applied field ecological research; builds ability to identify major plant and animal species and community assemblages in South Florida. Prerequisites: BSC 1011, BSC 1011L, EVR 3011. (F,S)

EVR 4869L Environmental Problem Solving Lab (2). Provides first-hand experience in solving environmental problems (problem definition, study design, data collection, analysis & reporting). Includes use of case study, social survey, computer modeling and GIS techniques. Prerequisites: STA 3111, ECO 2023, EVR 3010, and EVR 3011, or permission of the instructor. (F)

EVR 4905 Research and Independent Study (VAR). Student develops and carries out research project with guidance from professor. Permission of the instructor.

EVR 4920 Environmental Studies Senior Seminar (1). Series of talks by FIU and external experts addressing both development of professional skills and current environmental topics. Students prepare short presentations. For seniors only. (F,S)

EVR 4924 Environmental Education (3). Principles and methods of teaching sustainable living, personal and institutional, emphasizing S. Florida, using reading, discussion, projects and visits to local EE programs. Prerequisites: Two courses in environmental studies; or two courses, one each in biology, chemistry, environmental studies or science education.

EVR 4934 Special Topics (1-3). Advanced undergraduate level course dealing with selected environmental topics. Course may be repeated with change in content. (F,S)

EVR 5006 Environmental Science and Sustainability (3). Introductory environmental science course for graduate students in environmental studies and other disciplines. Emphasizes physical sciences and applications to environmental issues. (F)

EVR 5044 Advanced GIS and Environmental Data Analysis (3). Explores project planning, geospatial database design and implementation of analytical and display methods in GIS for organizing, querying, analyzing and presenting spatial data. Prerequisites: One of the following: EVR 5050, CGN 4321, CGN 5320, INR 4931, URS 6930.

EVR 5061 South Florida Ecology: Field Studies (3). Introduction to ecology of South Florida. Series of field trips to unique ecosystems (Everglades, hardwood hammocks, coastal regions). No science background required. Intended for teachers. Not intended for Environmental Studies graduate students. (F,S)

EVR 5065 Ecology of Costa Rican Rainforest (3). Intensive study of Central American tropical forest ecosystems conducted for two weeks in Costa Rica in sites ranging from lowland to high mountains. Primarily for teachers. Prerequisites: Graduate standing or permission of the instructor.

EVR 5066 Ecology of the Amazon Flooded Forest (3). Study of the ecology of the flooded forest with emphasis on the relationships between plants and animals and the annual flooding cycle. The course includes a two-week
field study at river camp in Peru. Prerequisites: Graduate standing or permission of the instructor.

EVR 5069 Wetland Ecology and Management (3). Principles of ecology and management as applied to freshwater and estuarine wetlands. Prerequisites: Undergraduate degree in science, or PCB 3043, or permission of the instructor.

EVR 5122 Natural Disasters and Social Vulnerability (3). Natural Disasters and Social Vulnerability course will introduce basic concepts and analytical tools of societal responses in managing natural disasters.

EVR 5219 Water Resources Assessment (3). Elements of hydrological cycle, hydrological processes and water resources assessment with emphasis on surface and groundwater water quantity and quality evaluation is central to the course.

EVR 5236 Air Pollution Dynamics (3). A course designed to give an understanding of the fates of atmospheric pollutants. Scavenging processes in the atmosphere; radiation, residence times, chemical reactions, global transport process, point source dispersion and modeling calculations. Prerequisites: EVS 3360 or EVR 4231.

EVR 5313 Renewable Energy Sources (3). An analysis of renewable energy sources and energy efficiency including wind, biomass, geothermal, hydroelectric, solid waste, solar heating, solar cooling, and solar electricity. Prerequisite: Permission of the instructor.

EVR 5320 Environmental Resource Management (3). The scientific and philosophical basis for the management of renewable and non-renewable energy, mineral, air, water, and biotic resources. Prerequisites: Graduate standing or permission of the instructor. (S)

EVR 5332 Integrated Solutions for Water in Environment and Development (3). Examines the theory and practice of integrated water resources management, focusing on science, policy, and socioeconomic themes evaluated through case studies from different regions of the world. Emphasis given to environmental elements.

EVR 5350 International Organizations & Environmental Politics (3). The role of international organizations in environmental politics and the process of their formation and change in response to environmental problems. Prerequisites: Graduate standing or permission of the instructor.

EVR 5353 International Energy Policy (3). Focuses on the distribution of global energy resources and related issues. A comparison of the energy policies of various countries serves as the basis for exploring alternative energy policy approaches. Prerequisites: EVR 5355 or permission of the instructor.

EVR 5355 Environmental Resource Policy (3). A survey of international and national environmental policy and the legal, economic, and administrative dimensions of international accords and selected U.S. law. Prerequisites: EVR 5320 or permission of the instructor. (F)

EVR 5409 Advanced Conservation Biology (3). Exploration of modern applications of ecology, genetics and evolutionary biology in the conservation biology. Policy aspects of biological conservation are also discussed. Prerequisites: BSC 1010 and BSC 1011.

EVR 5410 The Human Population and Earth’s Ecosystems (3). Explores the impact of the human population of Earth’s ecosystems. Reviews current population data at global, regional, and local scales. Includes study of specific South Florida carrying capacity issues.

EVR 5907 Research and Independent Study (VAR). The student works with a professor on a research project. Variable credit.

EVR 5935 Special Topics (VAR). A graduate-level course dealing with selected environmental topics. The content will not necessarily be the same each time the course is offered. (F,S)

EVR 5936 Topics in Environmental Studies (3). An analysis of several current environmental topics. Recommended for primary and secondary school teachers.

EVS 4164 Applied Environmental Geology (3). EVS 4164L Applied Environmental Geology Lab (1). A survey of the geological and geographical factors critical to man’s attempt to contend with the natural processes. Construction problems, sewers, waste disposal, dams, ground water, and terrain evaluation in relation to the nature of the underlying substratum. Principles illustrated from South Florida and the Caribbean region in particular. Study of the geological factors involved in future development and growth of these areas, and conservation methods in relation to the geology of these areas. Prerequisites: GLY 1010, GEO 2200, and a sound background in mathematics, physics, and chemistry. Laboratory must be taken concurrently with the course. (S in alternate years)

GEO 2200 Physical Geography (3). GEO 2200L Physical Geography Lab (1). Survey of the physical environment relevant to studies in regional geography and earth sciences. Natural evolution of landforms, and the interacting processes responsible for these features. Environmental modification and deterioration caused by human interaction. Effects of these changes: socioeconomic impact and geographic problems. Case studies illustrated from South Florida and the Caribbean region. (F in alternate years.)

GEO 3510 Earth Resources – GL (3). Geological occurrence, extraction and uses of mineral and energy resources, and associated global environmental, economic, social and political problems through time. (F,S,SS)

GEO 3510L Earth Resources Laboratory (1). Introduction to minerals and rocks used by society. Case studies of geologic, environmental and economic aspects of resource extraction and use. Corequisite: GEO 3510.
GLY 3754 Remote Sensing in the Earth Sciences (3). Remote sensing methods for the exploration and investigation of geologic processes and earth resources; airphoto interpretation, processing and analysis of multiband digital satellite imagery; GIS. Prerequisites: GLY 1010 or permission of the instructor. (F)

GLY 3759 Visualizing Our World With GIS (3). Visualization of geospatial data in the Earth Sciences with Geographic Information Systems. Topics include natural hazards, distribution of water, mineral, and energy resources, and urban sprawl. (SS)

GLY 3760C Geological Map Analysis (3). Laboratory course dealing with analysis of geological maps and sections; theory and method of interpretation of surface outcrops on maps. Properties of simple geological structures. Recommended to be taken prior to GLY 4400 and GLY 4791. Prerequisites: Trigonometry, Introduction to Earth Science or equivalent (e.g. MAC 2132, GLY 3039 or equivalents). (F)

GLY 3782 Geology Field Excursion (1-3). A one to three-week field excursion in a region of interest to demonstrate the occurrence, appearance and processes of various geological phenomena. Course may be repeated. Prerequisite: GLY 1010. (F, S, SS)

GLY 3820 Applied Hydrogeology of South Florida (2). Workshop introducing hydrogeology of South Florida, and laboratory and field techniques used to study groundwater. Prerequisites: One of the following: BSC 1010, CHM 1045, PHY 2053, GLY 1010.

GLY 3881 Environmental Geology Field Methods (3). Introduction to commonly used field methods in environmental geology including site evaluation, bore-hole geophysical and hydrogeological techniques, and topographic map skills. Prerequisites: GLY 1010 or GLY 3039.

GLY 3882 Environmental Geology Florida Keys Workshop (2). Workshop introducing environmental geology of the Florida Keys, Bay-Island-Reef transect. Prerequisites: One of the following: BSC 1010, CHM 1045, PHY 2053, GLY 1010, or equivalent. (SS)

GLY 3949/4949 Cooperative Education in Geology (1-3). One semester of full-time supervised work in an outside laboratory taking part in the University Co-op Program. Limited to students admitted to the Co-op Program. A written report and supervisor evaluations will be required for each student. (F, S, SS)

GLY 4036 Earth Sciences and Society (3). Explores the new directions of Earth Science studies and examines how they can enhance society’s ability to make wise decisions on resource development, waste disposal, natural hazards. Prerequisites: GLY 1010 or GLY 3039.

GLY 4300 Petrology (3). Origin, composition and classification of igneous, sedimentary, and metamorphic rocks. Observational, theoretical, and experimental studies of rocks. Prerequisite: GLY 3202. (S)

GLY 4300L Petrology Lab (1). Identification of rocks using macroscopic and microscopic techniques. Application of electron microprobe. Prerequisite: GLY 3202. (S)

GLY 4400 Structural Geology (3). GLY 4400L Structural Geology Lab (1). Faults, folds, fractures and other rock structures; their description and representation on maps and diagrams; mechanics of their formation. Prerequisites: GLY 1010 or equivalent; knowledge of trigonometry and algebra. (F)

GLY 4450 Environmental and Exploration Geophysics (3). Introduction to geophysical methods used in exploration and environmental geophysics. Seismic methods; potential fields; electrical and EM methods; ground penetrating radar; geophysical well logging. Prerequisites: GLY 1010 or 3039; MAC 2312; PHY 2049 or 2054; or permission of the instructor. Corequisite: GLY 4450L. (S)

GLY 4450L Environmental and Exploration Geophysics Laboratory (1). Acquisition and interpretation of exploration geophysical data. Seismic, gravity, magnetic, and geoelectrical methods; geophysical well logging. 4-5 field trips to sites in Dade County expected. Prerequisites: GLY 3760C or GLY 4400 or permission of the instructor. Corequisite: GLY 4450. (S)

GLY 4511 Stratigraphy (3). Stratigraphic principles applied to interpreting the rock record. Sediments, depositional environments and dynamics in the sedimentary record. Stratigraphic correlation and the development of the Geologic Time Scale. Prerequisite: GLY 3202. (F)

GLY 4511L Stratigraphy Lab (1). Laboratory analysis of rock facies and index fossils used in the interpretation of the geologic record. Prerequisite: GLY 3202L. (F)

GLY 4551 Sedimentology (3). GLY 4551L Sedimentology Lab (1). Sedimentary processes in the geological cycles, as illustrated in recent environments. Different groups of sedimentary rocks. Primary and secondary sedimentary structures. Physicochemical properties and diagenetic processes. Analytical techniques applied to modern sedimentology of both loose and lithified sediments. Prerequisites: Introduction to Earth Science or equivalent; Earth Materials and Stratigraphy and a sound background in mathematics and chemistry. Laboratory must be taken concurrently with course. (S)

GLY 4603 Paleobiology (3). GLY 4603L Paleobiology Lab (1). Development of life as traced through the fossil record. Survey of the main groups of animals commonly found as fossils. Theories of evolution and extinction. Study of the major fossil groups used in biostratigraphic zonation, and as paleoecologic indicators. Prerequisites: Physical and historical geology, general biology, or permission of the instructor.

GLY 4660 Paleoclimatology (3). Fossils, sedimentary rocks, taphonomy, and stable isotopes of oxygen and carbon are applied to interpreting local environmental changes and regional to global climate changes of the past.

GLY 4730 Marine Geology (3). GLY 4730L Marine Geology Lab (1). Survey of the main physiographic provinces of the ocean floor. Modern theories concerning the evolution of the crust; continental drift, seafloor spreading. Distribution and thickness of deep-sea sediments, and their relationship to the morphology and
evolution of the crust. Deep-sea mineral resources. Marine geology of the Caribbean from recent data. Sea-bed assessment of mineral resources in the Caribbean and neighboring region. Prerequisites: OCE 3014, GLY 1010, or permission of the instructor. Laboratory must be taken concurrently with course.

GLY 4791 Field Geology and Geologic Mapping (3-6). A three-to-six-week field instruction and practice in methods of constructing stratigraphic sections, structural cross sections and geologic mapping using topographic base maps, aerial photos, and surveying equipment. Prerequisites: GLY 4511 and GLY 4511L, GLY 4400 and GLY 4400L. (SS)

GLY 4812 Introduction to Ore Deposits (3). Major classes of metal deposits, their geologic settings and genetic theories, and case studies of great deposits. Environmental, economic and legal aspects of metal extraction, processing and use. Prerequisites: GLY 1010, GLY 1010L or GLY 3039, GLY 3039L. (S)

GLY 4822 Introduction to Hydrogeology (3). Principles of groundwater flow, determination of aquifer properties, geologic factors influencing groundwater flow and quality, legal/regulatory framework for hydrogeology. Prerequisites: One college-level course in physics, chemistry, geology, and calculus, or permission of the instructor. (S)

GLY 4822L Introduction to Hydrogeology Lab (1). Principles of groundwater flow, determination of aquifer properties, geologic factors influencing ground water flow and quality. Prerequisites: CHM 1045, GLY 1010, PHY 2053, MAC 2311, or equivalent. Corequisite: GLY 4822.

GLY 4823 Florida Geologic and Hydrologic Systems (3). Survey of geological formations of Florida and their relationship to hydrologic and mineral resources. Sedimentary facies in relation to their hydrologic properties. Prerequisites: GLY 4822 and GLY 4511 or permission of the instructor.

GLY 4910, GLY 4911 Undergraduate Research in Geology (VAR). Individual research under the supervision of a professor in the student’s field of specialization or interest. Subject may deal with laboratory work, field, and/or bibliographical work. Field research in the Caribbean is encouraged. Variable credit to a maximum of 10 credits. Permission of the student’s advisor is required. (F,S,SS)

GLY 4937 Senior Seminar in Geological Sciences (1). Geosciences topics are researched, presented and discussed by students. Students develop knowledge of current research trends and written and verbal science communication skills. Prerequisites: Senior standing in BS in Geosciences, Geological Sciences Major, or BA in Earth Sciences program.

GLY 4970 Geology Honors Thesis (3). Preparation of honors thesis and research seminar. Prerequisite: GLY 4989L.

GLY 4989L Geology Honors Research (1-3). Laboratory and/or field study in consultation with a faculty advisor. Prerequisite: Admission into Geology honors major.

GLY 5021 Earth Sciences for Teachers (3). Study of geological materials and processes, as covered in Introduction to Earth Science, but at a higher level and with additional assignments. Prerequisite: Permission of the instructor. Corequisite: GLY 5021L. (F,S,SS)

GLY 5021L Earth Sciences for Teachers Laboratory (1). Study of the properties of minerals and rocks; interpretation of topographic and geologic maps; study of the geology of Florida, including field trips. Prerequisite: Permission of the instructor. Corequisite: GLY 5021. (F,S,SS)

GLY 5060 Planet Earth: Dynamic Earth (1). Essentials of metamorphism, rock rheology, seismology, plate tectonics, plate boundaries, plate movement, continental rift and evolution of mountain belts.

GLY 5108 Paleoenvironments (3). Sedimentary environments, paleoecology of fossils, skeletal minerology, marine paleoenvironmental changes, global patterns of change through time. Prerequisite: Permission of the instructor.

GLY 5158 Florida Geology (3). Detailed lithostratigraphic and biostratigraphic analyses of Southeast Florida and their relationship to tectonics, paleoenvironments. Prerequisites: GLY 4511 and GLY 4511L. (S in alternate years)

GLY 5159 Planet Earth: South Florida (1). Geology, water resources and geologic environments of South Florida.

GLY 5245 Water-Rock Interaction (3). Survey of geochemical processes at the water-rock interface. Topics include absorption of inorganic and organic ions, colloid stability in groundwater, mineral dissolution and precipitation. Prerequisites: CHM 1046, MAC 3312, GLY 4822 or permission of the instructor.

GLY 5246 Geochemistry (3). GLY 5246L Geochemistry Lab (1). Origin of chemical elements and principles affecting their distribution in the solar system, solid earth and hydrosphere. Use of chemical data to solve geologic problems. Prerequisites: Introduction to Earth Science and General Chemistry. (F in alternate years)

GLY 5266 Stable Isotope Biogeochemistry (3). Application and theory of stable isotope approaches to biogeochemistry. Topics: Introduction to IRMS machines, C/N/O/H/S (biogeochem. processes), sampling/lab. prep., and recent advances. Prerequisites: One year of chemistry or permission of the instructor.

GLY 5283C Application of ICPES in Geochemistry (3). Determination of elemental abundances in rocks, soils, natural water using inductively coupled plasma emission spectroscopy (ICPES). Instrumental principles, sample selection and preparation methods and application of results to research. Prerequisites: CHM 1045, CHM 1046 or permission of the instructor. (S or SS)
GLY 5286 Research Instrumentation and Techniques in Geology (3). Survey of techniques and instrumentation used in geological research, including computing and data handling. Prerequisites: Graduate standing or permission of the instructor. Corequisite: GLY 5286L. (F)

GLY 5286L Research Instrumentation and Techniques in Geology Lab (1). Introduction to advanced instrumentation and analytical techniques in Geology, including computing and data processing. Prerequisites: Graduate standing or permission of the instructor. Corequisite: GLY 5286. (F)

GLY 5287C Scanning Electron Microscopy with EDS Analysis (3). Imaging and microanalysis of materials using SEM including EDS. Prerequisite: Permission of the instructor.

GLY 5288C Electron Microprobe Microanalysis with EDS Analysis (3). Imaging and analysis or geological and other materials using electron microprobe with EDS analysis. Prerequisite: Permission of the instructor.

GLY 5298 Topics in Geochemistry (3). Seminar covering current research in selected areas of low-temperature geochemistry; oceans and oceanic sediments; continental waters and sediments; hydrothermal systems. Prerequisites: GLY 5246 or permission of the instructor.

GLY 5322 Igneous Petrology and Geochemistry (3). Presentation and discussion of current topics in igneous petrology and geochemistry in a seminar format. Prerequisite: Permission of the instructor. (S) (F)

GLY 5329 Planet Earth: Solid Earth (1). Essentials of the formation and evolution of the crust mantle and core of the earth. Composition and physical properties. Generation of magmas, their geochemistry.

GLY 5335 Metamorphic Geology (3). Metamorphic mineralogy; characteristics of low, medium and high pressure metamorphic rocks; pressure-temperature determinations; metamorphic textures; modeling and determination of P-T-t paths. (F in alternate years)

GLY 5335L Metamorphic Geology Lab (1). Petrographic examination of metamorphic rocks. (F)

GLY 5346 Sedimentary Petrology (3). Systematic study of sedimentary rocks. Special emphasis on genetical aspects, geochemistry, paleontology, mineralogy, and microfarcies. Emphasizes microscopic study. Prerequisite: GLY 4551. Corequisite: GLY 5346L. (F in alternate years)

GLY 5346L Sedimentary Petrology Lab (1). Laboratory studies of sediments and sedimentary rocks with emphasis on microscopic analyses and geochemical techniques. Prerequisites: GLY 4551 and GLY 4551L. Corequisite: GLY 5346. (F in alternate years)

GLY 5408 Advanced Structural Geology (3). Advanced treatment of the theory of rock mechanics to solve problems of natural rock deformation. Prerequisites: GLY 4400, MAC 2313, or permission of the instructor. Corequisite: GLY 5408L. (S)

GLY 5408L Advanced Structural Geology Lab (1). Problem solving in theory of rock deformation.

GLY 5415 Caribbean Geology and Tectonics (3). Integration of geologic and geophysical data to understand the evolution and present tectonic configuration of the Caribbean area. Prerequisite: Permission of the instructor.

GLY 5425 Tectonics (3). Properties of the lithosphere; plate kinematics and continental drift; characteristics of plate boundaries; mountain belts; formation of sedimentary basins. Prerequisites: GLY 1010, 1100, 4400, 4300, 3202 or permission of the instructor. (S)

GLY 5457 Geophysical Data Analysis (3). Computer analysis and modeling of geophysical data and digital images. Statistical description of data, linear inverse theory, digital signal and image processing. Computer exercises with MATLAB. Prerequisites: GLY 4450, MAP 2302, MAS 3105, PHY 2048, PHY 2049 or permission of the instructor. Corequisite: GLY 5457L. (S)

GLY 5457L Analysis of Geophysical Data Lab (1). Field and laboratory applications of geophysical techniques. Computer aided analysis and three-dimensional modeling of gravity and magnetic data. Prerequisites: GLY 4450, PHY 2048, PHY 2049, MAC 2311, MAC 2312, MAP 2302. Corequisite: GLY 5457. (S)

GLY 5495 Seminar in Geophysics (2). Detailed investigation of current geophysical techniques, including topics on instrument design. Prerequisites: GLY 5457 or permission of the instructor. (F/S)

GLY 5497 Topics in Structural Geology and Tectonics (3). Selected advanced topics in structural geology and rock deformation. Latest advances in crustal tectonics. Prerequisite: GLY 5408. (F/S)

GLY 5593 Topics in Paleoclimatology (3). Broad concepts in paleoclimatology are reviewed and discussed. Topics include climate models, Quaternary climates, dating and pre-Quaternary climates. Prerequisite: Permission of the instructor.

GLY 5599 Seminar in Stratigraphy (3). Discussion of research projects and/or current literature in stratigraphic correlation as derived from sedimentologic principles and biozonation. Prerequisite: GLY 5346. (F)

GLY 5608 Advanced Paleontology I (3). Discussion of current literature and research projects on evolution, systematics functional morphology, with reports by members of the seminar. Prerequisites: GLY 4603 or permission of the instructor. (F)

GLY 5621 Caribbean Stratigraphic Micropaleontology (3). Microscopic study of biorstratigraphic type sections from the Caribbean area. Emphasis on planktonic foraminifera and radiolarians, paleoecologic and paleoclimatic interpretations. Prerequisites: GLY 4603 or permission of the instructor. (F)

GLY 5627 Workshop: Microfossil Paleoenvironments (2). Recent foraminifera and diatoms are sampled, prepared and identified from marine to freshwater facies. Taxon distributions are used to interpret paleoenvironments.
GLY 5628 Radiogenic Isotope Methods (3). Theory and practice of radiogenic isotope ratio measuring techniques. Use of class-100 clean room facilities, and introduction to thermal ionization mass spectrometry. Prerequisite: General Chemistry.

GLY 5655 Topics in Paleobiology (1-3). Various concepts in paleobiology are reviewed and discussed, based on readings of the literature, including journal articles and books. Prerequisite: Permission of the instructor.

GLY 5710 Watershed Hydrology (3). Hydrologic processes on watershed, water budgets, effects on water quality, field investigative methods using tracers and hydrometric measurements, hydrologic and hydrochemical models.

GLY 5754 Applied Remote Sensing in the Earth Sciences (3). Application of remote sensing and image analysis in the earth sciences; qualitative and quantitative satellite image and air photo interpretation. Emphasis is on use of computer processing packages. Prerequisites: GLY 1010 or permission of the instructor.

GLY 5758 GIS and Spatial Analysis for Earth Scientists (3). Application of GIS technology to spatial problems in the Earth Sciences. Topics include: spatial statistics, sampling theory, surface estimation, map algebra, and suitability modeling.

GLY 5785 Caribbean Shallow-Marine Environments (3). Field study of multiple tropical environments in the Caribbean area. Dynamic processes and coastal evolution in response to natural and human-induced changes.

GLY 5786 Advanced Field Excursion (1-6). A study of the geology of a selected region of the world followed by 10-12 day field trip in order to study the field relationships of the geologic features. Special emphasis is given to stratigraphic, structural and tectonic relationships of lithic masses; geological maps; seismic hazards; weathering of rocks; hydrologic cycle; slope stability; coastal processes; geophysical techniques. Course includes field trips in the South Florida region. Prerequisites: CHM 1045, GLY 1010, or permission of the instructor. (S,SS)

GLY 5808 Mining Geology (3). Application of theoretical models of ore formation to exploration and the use of geochemical and geophysical techniques in the search for ore deposits. Prerequisites: GLY 4300 and CHM 1046. (F/S)

GLY 5816 Economic Geology (3). Economically important metal deposits of sedimentary, igneous and hydrothermal origins and their geologic settings and characteristics. Prerequisites: GLY 1010, GLY 4300, CHM 1045, CHM 1046. (F)

GLY 5826 Hydrogeologic Modeling (3). Techniques used in modeling groundwater flow and solute transport in geologic systems. Case studies of significant aquifers. Prerequisites: GLY 5827, MAP 2302, or permission of the instructor. (S,SS)

GLY 5827 Hydrogeology (3). Physics of flow in geological media. Saturated and unsaturated flow, groundwater and the hydrologic cycle, estimating hydraulic parameters of aquifers, introduction to chemical transport. Prerequisites: GLY 1010, MAC 2312, and PHY 2053, or permission of the instructor. (F)

GLY 5827L Hydrogeology Lab (1). Laboratory, field, and computer exercises to complement GLY 5827. (F)

GLY 5828 Chemical Hydrogeology and Solute Transport (3). Quantitative analysis of hydrologic, geologic, and chemical factors controlling water quality and the transport and fate of organic and inorganic solutes in the subsurface. Prerequisite: GLY 5827. (S)

GLY 5834 Field Hydrogeology (3). Field methods in hydrogeology. Drilling, logging, wells, data loggers, hydraulic conductivity/transmissivity measurements, purging, field chemistry parameter measurements, sampling methods. Prerequisites: GLY 4822 or permission of the instructor.

GLY 5835 Introduction to Lattice Boltzmann Methods (3). The course will provide an introduction to Lattice Boltzmann methods for fluid dynamics simulation. Emphasis on multiphase fluids. Prerequisites: Programming Skills, graduate standing, permission of the instructor.

GLY 5875 Applications of Transmission Electron Microscopy (3). An introduction to theory and practical use of the JEOL JEM-1200EX II, Transmission Electron Microscope. Students will learn to prepare specimens and use for digital recording of publishable images. Prerequisites: Graduate standing or permission of the instructor.

GLY 5889 Geology for Environmental Scientists and Engineers (3). Characterization of rocks and rock masses; geological maps; seismic hazards; weathering of rocks; hydrologic cycle; slope stability; coastal processes; geophysical techniques. Course includes field trips in the South Florida region. Prerequisites: CHM 1045, GLY 1010, or permission of the instructor. (S)

GLY 5931 Graduate Seminar (1). Presentation or critical examination of current research problems in geology. A selection of topics is considered each term. Topics may also include individual research in the student’s field of investigation. Prerequisites: Graduate standing or permission of the instructor. (F,S,SS)

IDS 3189 International Nutrition, Public Health and Economic Development – GL (3). This course will examine the impact of global public health, nutrition and economic development on the physical and political environment. Recommended also for non-majors.

MET 3003 General Meteorology (3). A quantitative introduction to the Earth’s atmosphere. Topics include tropical and mid-latitude weather, clouds and convection, solar and infrared radiation, general circulation and climate, and an overview of meteorological dynamics. Prerequisites: PHY 2048 or PHY 2053 or permission of the instructor.

MET 3014 Meteorological Dynamics I (3). A first course in the motions of the Earth’s atmosphere. Topics include meteorological coordinates, atmospheric equations of motion, circulation and vorticity, balanced flows, boundary-layers and friction, and atmospheric waves. Prerequisites: MAC 2312, PHY 2048.

MET 3015 Meteorological Dynamics II (3). Second course in the motions of the Earth’s atmosphere. Topics
include two-dimensional Rossby waves, baroclinic instability, tropical dynamics, and general circulation. Prerequisites: MAC 2313, PHY 2048, or permission of the instructor.

MET 3102 Physical Climatology (3). Climate and its global distribution, the climate controls and processes, the influences of climate on the environment.

MET 3502 Synoptic Meteorology (3). Atmospheric fluid dynamics applied to mid-latitude weather systems. Four dimensional analysis of weather systems and forecasts. Prerequisite: MET 3003.

MET 3502L Synoptic Meteorology Laboratory (1). Development of diagnostic techniques for understanding of weather systems, using modern technological tools (e.g., we-based data, Doppler radar, satellite and real-time mesoscale models) to do weather forecasting. Prerequisite: MET 3003.

MET 4300 Severe Weather (3). Local wind systems, thunderstorms, squall lines, mesoscale convection systems, hurricanes, and their interactions with synoptic scale systems. Prerequisites: MET 3003.

MET 4301 Dynamic Meteorology I (3). Air motion in rotating coordinates, pressure forces, hydrostatic balance, energy balance, and momentum and mass conservation, circulation and vorticity. Prerequisites: PHY 2048, PHY 2049.

MET 4302 Dynamic Meteorology II (3). Physical mechanisms that control synoptic-scale air motion in mid-latitude, Rossby waves, mesoscale circulations, and general circulations. Prerequisites: PHY 2048, PHY 2049, MET 4301.

MET 4400 Meteorological Instrumentation and Observations (3). Calibration and operation of basic meteorological sensors used to measure temperature, atmospheric flow, pressure, and moisture, including satellite and radar. Prerequisites: PHY 2048, MET 3003.

MET 4410 Remote Sensing: Radar and Satellite Meteorology (3). An overview of satellite and radar remote sensing including the principles of atmospheric radiative transfer, the retrieval of atmospheric variables, and basic principles of interpretation. Prerequisites: PHY 2048 and PHY 2049.

MET 4420 Physical Meteorology (3). Solar and infrared radiation, first and second thermodynamic law, entropy, phase change, physics of moist air and aerosols, condensation, clouds and precipitation formation processes. Prerequisites: PHY 2048, PHY 2049, MET 3003.

MET 4532 Hurricanes (3). Hurricane formation, motion, and impacts for undergraduates and beginning graduate students in engineering, physical sciences and social sciences. Prerequisite: Permission of the instructor.

MET 4750 Calculations for the Atmospheric Sciences (3). Calculations in Meteorology with emphasis on use of M（a）Lab in dynamics, data analysis, and graphics. Prerequisites: MET 3003 and one other 3000 or 4000-level MET course.

MET 4910 Undergraduate Research in Meteorology (1-10). Individual research under the supervision of a professor in the student's field of interest. May involve observational, modeling, or bibliographic investigations. Variable credit up to 10 credits. Prerequisites: MET 3003, one other 3000 or 4000-level MET course, and permission of the instructor.

MET 4937 Senior Seminar in Atmospheric Science (1). Geoscience topics are researched, presented and discussed by students. Students develop knowledge of current research trends and written and verbal science communication skills. Prerequisites: Senior standing in BS in Geosciences, Atmospheric Science Major.

MET 4941 Internship in Meteorology (1-3). Practical meteorological work experience at a local media outlet, forecast office, or laboratory and supervised by a professor in the student's field of interest. May be repeated for credit. Prerequisites: MET 3003, one other 3000 or 4000-level MET course, and permission of the instructor.

MET 5016 Physics of Atmospheres I (3). A quantitative examination of atmospheric radiation, thermodynamics and clouds, with a brief introduction to dynamics and applications to weather and climate. Prerequisites: Senior or first-year graduate student in physical science, computer science, or engineering.

MET 5017 Physics of Atmospheres II (2). Continuing examination of atmospheric dynamics, waves and instabilities, with applications to models, weather and climate. Prerequisites: Senior or first-year graduate student in physical science, computer science, or engineering.

MET 5305 Boundary Layer Meteorology (3). General survey of boundary meteorology. Topics include atmospheric boundary layer, (ABL), role in exchange and circulation, use in interpreting wind, temperature, and moisture distribution, hurricane boundary layer wind, and turbulent structures. Prerequisites: PHY 2048 and PHY 2049.

MET 5311 Dynamic Meteorology I (3). To study atmospheric phenomena on a rotating planet. It intends to lead towards an understanding of the theories of the atmospheric motion by applying concepts of Math., thermodynamics, and dynamics. Prerequisites: PHY 2048, PHY 2049.

MET 5530 Hurricane Meteorology and Impacts (3). Hurricane formation, motion, and impacts on the graduate level. Adds critical reading of the scientific and disaster literatures and quantitative problem sets to the undergraduate experience. Prerequisite: Permission of the instructor.

MET 5412 Remote Sensing in Meteorology (3). An overview of satellite and radar remote sensing including the principles of atmospheric radiative transfer, the retrieval of atmospheric variables, and basic principles of interpretation. Prerequisites: PHY 2048 and PHY 2049.

OCE 2001 Introduction to Oceanography (3). The oceans, their nature and extent. Water of the oceans, chemical balance. Marine provinces, sediments and their relation to sea life and oceanic circulation, coastal
provinces, sediments and their relation to sea life and oceanic circulation, coastal and deep-ocean circulation. Waves, tides, tsunamis. One field trip expected. (F,S,SS)

**OCE 3014 Oceanography (3).** The ocean origin, physical properties, salinity, temperature, sound. Radiative properties, heat budget and climatic control. Tides, wind-driven motion-monsoon circulation. El Nino phenomenon. Subsurface water masses. Oceanic circulation and paleoclimates. (F,S,SS)

**OCE 3014L Oceanography Lab (1).** Laboratory investigation of the chemical and physical properties of seawater, ocean water motion and its effects. Corequisite: OCE 3014.

**OCP 3002 Physical Oceanography (3).** An in depth understanding of the physical properties of the ocean including morphology, chemistry, waves, tides, currents and its interactions with the atmosphere and coastline. Prerequisites: CHM 1045 and PHY 2048 or PHY 2053.

**SWS 4303 Soil Microbiology (3).** Examines biology of soil microorganisms and biologically-mediated chemical transformations occurring in soil ecosystems. Standard soil microbiology techniques will be emphasized. Prerequisites: MCB 3020 or instructor's permission.

**SWS 5305 Advanced Soil Resources Analysis (3).** A review of soil science concepts: analysis of physical and chemical properties of soils and nutrient cycling, emphasizing the soils of South Florida. Prerequisites: BSC 1010, BSC 1011, CHM 2210, CHM 2211; or permission of the instructor.
Economics

Cem Karayalcin, Professor and Chairperson
Mahadev Bhat, Associate Professor (joint appointment with Earth and Environment)
Prasad V. Bidarkota, Associate Professor
John H. Boyd III, Associate Professor
Jesse Bull, Associate Professor
Joel Carton, Lecturer
Irma de Alonso, Professor Emeritus
Alan Gummerson, Lecturer
Antonio Jorge, Professor Emeritus, Political Economy
Panagis Liossatos, Professor Emeritus
Pallab Mozumder, Associate Professor (joint appointment with Environmental Studies)
Mihaela Pintea, Associate Professor
Jorge Salazar-Carrillo, Professor and Director, Center for Economic Research and Education
Peter Thompson, Professor
Mira Wilkins, Professor
Maria Willumsen, Associate Professor

The major in economics provides the student with an understanding of economic problems and institutions, and with analytical tools to apply this knowledge to contemporary problems. The program is designed for the student desiring a career in business, government, international agencies, or multinational corporations; and for those planning graduate study in economics, business, law, public administration, urban studies, or international relations.

Bachelor of Arts

Degree Program Hours: 120

Lower Division Preparation

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

Common Prerequisites

| ECO 2013     | Principles of Macroeconomics |
| ECO 2023     | Principles of Microeconomics |

Courses required for the degree:

| MAC 2311     | Calculus I or Calculus for Business |
| STA 2122     | Introduction to Statistics I or Statistics for Business and Economics |

To qualify for admission to the program, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable into the program.

Upper Division Program: (60)

Required Courses for the Major: (18)

ECO 3410 and ECO 4421 each satisfy the FIU requirement in Computer Competency. ECO 4903 satisfies the requirement in Oral Competency.

Elective Courses for the Major: (15)

Five additional upper-division economics courses, of which at least two must be from the following list of courses which require an intermediate theory course as a prerequisite: ECO 4224, ECO 4401, ECO 4504, ECO 4703, ECO 4713, ECP 4031, ECP 3203, ECP 4204, ECP 4314, ECP 4403, ECO 4100, ECO 4237, ECS 4011, ECS 4014.

Electives: (27)

1This requirement can also be met by taking ECO 4933.

2The following courses cannot be used as Elective Courses for the Major: ECO 2013, ECO 2023, ECO 3041, ECO 3202, ECO 3949, ECO 4906, ECO 4949.

Combined BA/MA in Economics

The Bachelor of Arts/Master of Arts (BA/MA) degree in Economics program is designed for outstanding undergraduate students. It provides a strong base of knowledge and skills economics, and at the same time accelerates completion of the Master of Arts degree. Students may take advantage of the overlap of courses in the BA and MA programs to receive their MA degrees in a shorter period than it would otherwise be possible.

To be considered for admission to the combined bachelor’s/master’s degree program, students must have completed at least 75-90 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

The BA program in economics requires that students take 9 upper division elective courses. Students in the
BA/MA program would take elective courses that would satisfy both the BA and MA requirement.

To apply their GPA needs to be significantly above average (3.25). Students would also be required to maintain a high GPA (3.0) to remain in the program. The grade requirements for an MA in economics would apply to courses that are counted toward the MA degree.

**Admission Requirements**

- Current enrollment in the Bachelor’s degree program in economics at FIU.
- Completed Calculus I (MAC 2311) and Calculus II (MAC 2312) or equivalents.
- Current GPA of 3.25 or higher.
- Three letters of recommendation.
- Approval of the Graduate Committee.
- 1100 or higher on GRE.

**General Requirements**

Meet the requirements of both the BA and the MA degree in economics.

Overlap: Up to 4 courses (12 credits) may be used in satisfying both the Bachelor’s and Master’s degree requirements in economics.

**Minor in Economics: (18)**

**Required Courses for the Minor (12)**

- ECO 2013 Principles of Macroeconomics 3
- ECO 2023 Principles of Microeconomics 3
- ECO 3101 Intermediate Microeconomics 3
- ECO 3203 Intermediate Macroeconomics 3

**Elective Courses for the Minor: (6)**

Two Additional economics courses

1The following courses cannot be used as Elective Courses for the Minor: ECO 3041, ECO 3202, ECO 3949, ECO 4906, ECO 4949.

**Tracks in the Major**

Economic majors have the option of choosing their electives in economics in such a way as to satisfy the requirements for one or more specialized Tracks in the major. If the requirements for a Track are satisfied, the student’s transcript will show a major in economics with specialization in the Track.

- A core set of economics courses from which the student must successfully complete at least two;
- A secondary set of economics courses from which the student must successfully complete at least one.

One or more Tracks may not be offered in a given year. Majors in economics may choose among the following Tracks:

**Track in International Economics**

**Core Courses:**

- ECO 4703 International Trade Theory & Policy 3
- ECO 4713 International Macroeconomics 3

**Secondary Courses:**

- ECS 3003 Comparative Economic Systems 3

- ECO 4701 World Economy or ECO 5709 World Economy 3

**Track in the Economics of Public Policy**

**Core Courses:**

- ECO 4504 Public Finance 3
- ECP 4204 Theory of Labor Economics 3

**Secondary Courses:**

- ECP 3203 Introduction to Labor Economics 3
- ECO 3223 Money & Banking 3
- ECP 3302 Introduction to Environmental Economics 3
- ECP 3410 Introduction to Public Economics 3
- ECP 4314 Natural Resource Economics 3
- ECP 3451 Law & Economics 3

**Track in the Economics of Business and Industry**

**Core Courses:**

- ECP 4403 Industrial Organization 3
- ECO 4100 Managerial Economics 3
- ECO 4237 Money Interest & Capital 3
- ECO 4400 Economics of Strategy and Information 3

**Secondary Courses:**

- ECO 3223 Money and Banking 3
- ECO 4224 Issues in Money Banking 3
- ECP 3203 Introduction to Labor Economics 3

**Track in Economic Development**

**Core Courses:**

- ECS 4011 Development Economics I 3
- ECS 4014 Development Economics II 3

**Secondary Courses:**

- ECO 4703 International Trade Theory & Policy 3
- ECO 4713 International Macroeconomics 3
- ECP 4031 Cost-Benefit Analysis 3
- ECS 3013 Introduction to Economic Development 3
- ECS 3401 The Brazilian Economy 3
- ECS 3402 The Political Economy of South America 3
- ECS 3403 Economics of Latin America 3
- ECS 3404 Economic Integration/Latin America 3
- ECS 3430 The Economic Development of Cuba/Past & Present 3
- ECS 3431 Economics of the Caribbean Basin 3
- ECS 3432 Economic Integration/Caribbean 3
- ECS 3200 Economics of Asia 3

**Course Descriptions**

**Definition of Prefixes**

ECO-Economics; ECP-Economic Problems and Policy; ECS-Economic Systems and Development.

F-Fall semester offering; S-Spring semester offering; SS-Summer semester offering.

**ECO 1000 Introduction to Economics (3).** A one-semester introduction to economics. Includes microeconomics: the economics of individual units in the economy, like households and firms; and macroeconomics: the economics of aggregate problems like inflation, unemployment, and growth. Does not substitute for either ECO 2013 or ECO 2023.
ECO 2013 Principles of Macroeconomics (3). Introduction to economic analysis of the overall economy: national income accounting, unemployment, inflation, monetary and fiscal policies, budget deficits and debt, long-run growth. (F,S,SS)

ECO 2023 Principles of Microeconomics (3). Introduction to economic analysis of individual units—households and firms. Operation of markets; supply and demand analysis. (F,S,SS)

ECO 3041 Consumer Economics (3). Consumer behavior; advertising and other influences affecting demand. Patterns of consumer expenditure; effects of public policy on family incomes and consumption patterns. The consumer protection movement. Does not count as economics elective toward economics major. (F,S,SS)

ECO 3101 Intermediate Microeconomics (3). Analysis of markets, theory of firm, demand and production theories, general equilibrium, and welfare economics. Prerequisite: ECO 2023. (F,S)

ECO 3202 Applied Macroeconomics (3). Aggregate economic performance and business conditions analysis, nature and causes of economic expansions and recessions, inflation, balance of trade, balance of payments, and exchange rate problems, fiscal and monetary policies, short-run instability and long-run growth. Cannot be taken for credit concurrently with, or after taking ECO 3203. Prerequisite: ECO 2013. (F,S,SS)

ECO 3203 Intermediate Macroeconomics (3). Analysis of the aggregate economy in the long-run (full employment, economic growth, productivity) and the short-run (unemployment, business cycles); economic policy for short-run stability and long-run growth (monetary and fiscal policies, budget deficit, inflation, and debt); balance of payments and exchange rate. Prerequisite: ECO 3203. (F,S)

ECO 3223 Money and Banking (3). Elements of monetary theory; relationships between money, prices, production, and employment; factors determining money supply; history and principles of banking, with special references to the United States. Prerequisite: ECO 3203. (F,S)

ECO 3303 Development of Economic Thought (3). Evolution of economic theory and doctrine. Contributions to economic thought from ancient times to J. M. Keynes. Emphasis on institutional forces shaping the continuum of economic thinking. (S)

ECO 3304 Economic Forces and the Development of Western Ideas (3). Analyzes the emergence and evolution of western views and doctrines in light of the interaction of market forces, technology, and key events.

ECO 3410 Measurement and Analysis of Economic Activity (3). Covers statistical methods as applied in economics. Topics include estimation and hypothesis testing, analysis of variance, and single and multiple regression models. Prerequisites: STA 2023 or equivalent. Satisfies requirement in computer literacy. (F,S)

ECO 3933 Special Topics (3). A course designed to give students a particular topic or a limited number of topics not otherwise offered in the curriculum.

ECO 3949 Cooperative Education in Economics (1-3). A student majoring in Economics may spend one or two semesters fully employed in industry or government in a capacity relating to the major. Does not count as economics elective toward economics major.

ECO 4100 Managerial Economics (3). Economic analysis of problems managers of firms face, such as choosing production levels, deciding how much labor to hire, budgeting capital, and dealing with uncertainty. Prerequisites: ECO 3101, Calculus, and Statistics.

ECO 4237 Money, Interest, and Capital (3). Economic analysis of the asset markets and the effect of monetary policy; interest rates and intertemporal choice; asset pricing; efficient market hypothesis and economic behavior models in asset markets. Prerequisites: ECO 3101 and ECO 3203 or permission of the instructor.

ECO 4224 Issues in Money and Banking (3). Current controversies in the conduct of monetary policy; innovations in financial markets and instruments, and their impact on the targets and long-run goals of central banks. Prerequisites: ECO 3203 or ECO 3202.

ECO 4321 Radical Political Economy (3). The relationship between Marxist and orthodox economists. Attention given to the New Left and other current criticisms of capitalist economies. Multinational corporate policy, concentration of economic power, income distribution, and Third World development.

ECO 4400 Economics of Strategy and Information (3). Combines neoclassical economics with game theory and the economics of information to better understand markets in the real world. Prerequisites: Calculus and Intermediate Microeconomics or permission of instructor.

ECO 4401 Introduction to Mathematical Economics (3). Mathematical formulation of economic theory. Mathematical treatment of maximizing and optimizing behavior; applications to consumer and business firm theory, value, economic strategies, growth and stability. Emphasis on understanding of analytical techniques. Prerequisites: ECO 3101 or ECO 3203 (preferably both), and Calculus. (F,S)

ECO 4421 Introduction to Econometrics (3). Application of statistics and economic theory to formulating, estimating, and drawing inferences about relationships among economic variables. Coverage includes linear regression model, heteroscedasticity, serial correlation, multicollinearity, and simultaneous equations. Prerequisites: ECO 3101, ECO 3203, and ECO 3410, or permission of the instructor. Satisfies requirement in computer literacy. (F,S)

ECO 4504 Introduction to Public Finance (3). Describes the way resources are allocated in a market economy and the cases where markets fail. Analyzes government expenditure policy, principles of taxation, and the various taxes in use today. Prerequisite: ECO 3101. (S)

ECO 4622 Economic History of the United States (3). The growth of the American economy from colonial times to the present. Special emphasis on market forces, institutional arrangements, and policies contributing to this expansion. (F)

ECO 4701 World Economy (3). A broad overview of the international economy in historical perspective. Topics: economic demography, trade flows, capital movements, diffusion of technology, the emergence of transnational institutions. The student obtains a conception of how economic interdependence has developed.

ECO 4703 International Trade Theory and Policy (3). Causes and consequences of international trade; effects of tariffs and quotas; strategic trade and industrial policies; political economy of protectionism; international economic integration; factor movements; and multinational firms. Prerequisite: ECO 3101. (F)

ECO 4713 International Macroeconomics (3). Analysis of output, inflation, business cycles and economic policy in open economy settings; exchange rate regimes (fixed versus flexible exchange rate); fiscal, monetary, and exchange rate policies. Prerequisite: ECO 3203. (S)

ECO 4903 Undergraduate Seminar (3). Small class in which students will discuss readings, write research paper, and defend research and ideas orally. Satisfies SACS requirement in oral competency. Prerequisites: ECO 3101 and ECO 3203.

ECO 4906 Undergraduate Tutorial (1-6). Supervised readings, individual tutorial, and preparation of reports. Requires consent of faculty supervisor and Department Chairperson. Does not count as economics elective toward economics major.

ECO 4932, 4933 Topics in Theory (3,3). Study of a particular topic or a selected number of topics in economics theory not otherwise offered in the curriculum. Prerequisites: ECO 3101, ECO 3203, and MAC 2311 or permission of the instructor. (F,S)

ECO 4934 Special Topics (3). A course designed to give students a particular topic or a limited number of topics not otherwise offered in the curriculum. May be repeated for credit with permission of Department. Prerequisite: Permission of the instructor.

ECO 4949 Cooperative Education in Economics (1-3). A student majoring in economics may spend one or two semesters fully employed in industry or government in a capacity relating to the major. Does not count as economics elective toward economics major.

ECO 5206 Economics of Asia (3). Overview of the opportunities and challenges presented by the Asian-Pacific economies.

ECO 5709 The World Economy (3). Designed to give an overview of the crucial issues in the world economy. The course covers trade, capital, labor, and technology flows; transnational economic organizations; current economic crisis; global economic interdependence; and the nature and characteristics of international economic order. Required for MIB Program. (S)

ECO 5735 Multinational Corporations (3). Economic theory and multinational corporations. Economic effects. Consequences of nationalization. Spread of the multinational form. State-owned multinational corporations. Prerequisite: Permission of the instructor for undergraduates. (S)

ECO 5906 Advanced Individual Study (1-6). Supervised readings, individual tutorial, and preparation of report. Requires consent of faculty supervisor and Department Chairperson. Open to seniors and graduate students.

ECO 5945 Internship (3). Directed individual study which assists the student in using economic analysis in his employment. Prerequisite: Permission of the chair.

ECP 3143 Economics of Racism (3). Analysis and examination of the economic costs of racism to the individual and society. A perspective from mercantilism to the post industrial contemporary world; international racial aspects of development, income distribution and wealth.

ECP 3203 Introduction to Labor Economics (3). Basic introduction to supply and demand for labor. Discusses labor markets in both historical and institutional context emphasizing why certain patterns have occurred and contemporary institutions developed. Prerequisite: ECO 2023.

ECP 3254 Women, Men and Work in the USA (3). Analyzes the performance of women in comparison to men in the US labor market.

ECP 3302 Introduction to Environmental Economics (3). Economic principles applied to environmental problems. Relationship of market and non-market forces to environmental quality. Development of tools for policy analysis. Prerequisites: ECO 2023, or permission of the instructor. (F,S,SS)

ECP 3410 Introduction to Public Economics (3). An introduction to the applied economics of the public sector and the microeconomics of public policy making and administration.

ECP 3451 Law and Economics (3). The relationship of economic principles to law and the use of economic analysis to the study of legal problems. Topics include: property rights and contracts, and economic analysis of legal decision making. Prerequisites: ECO 2013 and ECO 2023 or equivalents.

ECP 3533 Health Systems Economics (3). Identification of health systems issues and basic instruments of health systems analysis including the market mechanism, insurance and cost-benefit analysis.

ECP 3613 Introduction to Urban Economics (3). Study of urban areas, their characteristics and economic functions. Topics include location decisions of firms and
households, economies of agglomeration, transportation, land use, zoning, urban growth and development policies, urban dimensions of economic and social problems, and the public sector in urban areas. (F)

ECP 4004 Seminar on Current Economic Topics (3).
Faculty and student discussion of contemporary economic and social issues.

ECP 4031 Cost-Benefit Analysis (3).
Covers cost-benefit analysis, cost-effectiveness analysis, benefit-risk analysis, risk-risk analysis, and systems analysis as applied in the government sector for public investment decisions. Prerequisites: ECO 3101 or equivalent.

ECP 4204 Theory of Labor Economics (3).
Neoclassical theory of labor demand and labor supply, human capital theory and critiques. Current programs of human resource development and income maintenance are discussed. Prerequisite: ECO 3101.

ECP 4314 Natural Resource Economics (3).
Natural resources and the economy; economics of renewable and nonrenewable resource harvesting and management; public policy options for influencing resource consumption and their environmental implications. Prerequisites: ECP 3203 and ECO 3101, or permission of the instructor.

ECP 4403 Industrial Organization (3).
Theory of the firm, market structure; business strategies and conduct. Topics include information and advertising, product durability, technical change, antitrust and trade policies, and regulation. Prerequisite: ECO 3101.

ECS 3003 Comparative Economic Systems (3).
Analysis of alternative economic systems. Emphasis on the contrast between market-oriented capitalist economies and Soviet-style planned economies, and on the process of transition from planned to market-oriented systems. Prerequisites: ENC 1101 and ENC 1102.

ECS 3013 Introduction to Economic Development (3).
Structural and institutional determinants of economic development; economic analysis and policy formation. Topics include theories of economic development, economic growth, income distribution, rural-urban migration, industry and agriculture, unemployment, education, international trade, economic reform, and the environment. Prerequisites: ECO 2013 and ECO 2023. (F,S)

ECS 3021 Women, Culture, and Economic Development – GL (3).
Analysis of problems facing women in developing countries, focusing on gender and cultural issues and their relationships to economic development. Prerequisites: ECO 2013 and ECO 2023 or permission of the instructor.

ECS 3200 Economics of Asia (3).
Economic analysis of the problems of poverty, malnutrition and income inequality in South Asia. Rural poverty and agricultural transformation. The East Asian Miracle. The Asian Crisis. Economic liberalization in Asia. Prerequisites: Macro and Micro Principles or permission of the instructor.

ECS 3401 The Brazilian Economy (3).
Examines the evolution of Brazilian economy, focusing on the process of its industrialization in the 20th century, the policies to achieve it, its impact on the socioeconomic environment and the adjustments of institutions to the structural changes in the economy. Prerequisites: ECO 2013 and ECO 2023.

ECS 3402 The Political Economy of South America (3).
An introduction to the political economy of the South American countries, with emphasis on the opening of the region’s economies, privatization and deregulation, debt crisis, foreign investment, poverty, income distribution, human resources, and regional trade agreements. Prerequisites: ECO 2013 and ECO 2023. (F)

ECS 3403 Economics of Latin America (3).
Study of current economic issues facing Latin American countries, including population growth, poverty, inequality, inflation, trade and balance of payment problems, economic reform, and regional integration. Prerequisites: ECO 2013 and ECO 2023. (S)

ECS 3404 Economic Integration/Latin America (3).
Analysis of the methods, meaning and implications of economics in Latin America. Designed to enable the student to appreciate the trend toward regionalism and economic cooperation.

ECS 3430 The Economic Development of Cuba/Past and Present (3).
Survey of the Cuban economy under capitalist and Marxist ideologies. Emphasis on the transition stage and on current policies of economic and social change. (F)

ECS 3431 Economics of the Caribbean Basin (3).
Survey of the economic systems of the major countries of the Caribbean. Special attention devoted to current problems of economic growth and social transformation. Prerequisite: ECO 2013.

ECS 3432 Economic Integration/Caribbean (3).
Analysis of the methods, meaning, and implications of economic integration in the Caribbean. Designed to enable the student to appreciate the trend toward regionalism and economic cooperation.

ECS 3704 International Economics (3).
Explorations of why nations trade, effects of trade on distribution, commercial policy, balance of payments adjustment; exchange rate determination, Eurocurrency markets, and international institutions. Prerequisites: ECO 2013 and ECO 2023.

ECS 4011 Development Economics I (3).

ECS 4014 Development Economics II (3).
Economic analysis of why some countries are rich and some are poor, why some countries grow fast and others do not. The role of ideas, infrastructure, R & D, and education play in economic growth. Prerequisites: ECO 3101 and ECO 3203 or permission of the instructor.

ECS 5005 Comparative Economic Systems (3).
A critical evaluation of the design, goals, and achievements of economic policies in capitalist and socialist economies.
Prerequisite: Permission of the instructor for undergraduates.

**ECS 5025 Economic Planning (3).** Analysis of planning methods in capitalist and socialist economies. Evaluation of macro and micro economic planning tools (input-output) and programming techniques. Theory and practice of economic development planning of agriculture, industrialization, foreign trade, and manpower. Prerequisites: Graduate standing or permission of the instructor.

**ECS 5406 Latin American Economies (3).** Economic theory and its applications to current economic issues of Latin America. Examines aggregate demand and supply, fiscal and monetary policies, international trade trends, and economic development. Taught in Spanish. May not be taken for credit towards a degree in Economics.

¹Six semester hours of English coursework in which the student is required to demonstrate college-level English skills through multiple assignments. Note: C or better is required for all coursework.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites. For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: [http://facts.org](http://facts.org). See Common Prerequisite Manual.

Common Prerequisites

ENC 1101  Writing and Rhetoric I
ENC 1102  Writing and Rhetoric II

Recommended Courses

ENG 2012  Approaches to Literature
AML 2010  Survey of American Literature I
AML 2022  Survey of American Literature II
ENL 2012  Survey of British Literature I
ENL 2022  Survey of British Literature II

To qualify for admission into the program, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise accepted into the program.

Upper Division Requirements

(36 hours in 3000- and 4000-level courses)

One course within each of the following seven areas or historical periods:

Medieval Literature (to 1500)
British Literature 1500-1660 or Shakespeare
British Literature 1660-1900
Modern British Literature (1900 to Present)
American Literature to 1860
American Literature from 1860
Multicultural Literature (African American, Jewish, literature of exile, etc.)

(Note: This list of periods/areas is not a list of course titles; students should visit the English Dept. office (or go online to [http://english.fiu.edu/advising](http://english.fiu.edu/advising)) for a list of courses which fulfill each period/area requirement.)
Linguistics: (One course, three hours):
LIN 3013  Introduction to Linguistics
LIN 4680  Modern English Grammar

Electives: (12)
Upper division electives in writing, film, literature, and/or linguistics. The English Department recognizes a continuing obligation to insure that its majors write well. The Chairperson may require any English major to take the appropriate composition course. English majors may choose to take a general program of English studies or may select one of the Department’s three areas of emphasis: literature, language and linguistics, or creative writing. Majors should choose their English courses and electives in consultation with their advisors, especially upon entering the program.

Additional Approved Electives: (24)
Students should consult with a departmental advisor.

Bachelor of Arts in English: English Education Major

The BA in English with English Education major is completing the approval and accreditation process with the Florida Board of Governors and the Florida Department of Education. Please speak with a College of Arts and Sciences advisor for detailed information.

UCC Courses: 36 hours

Common Prerequisites
ENC 1101  Writing and Rhetoric I
ENC 1102  Writing and Rhetoric II

Recommended:
ENG 2012  Approaches to Literature
DEP 2000  Human Growth and Development
Other UCC Courses: 24

Recommended Courses
SPC 2600  Public Speaking
ENL 2012  Survey of British Literature I
ENL 2022  Survey of British Literature II
AML 2010  Survey of American Literature I
AML 2022  Survey of American Literature II
LIT 2110  World Literature I
LIT 2120  World Literature II

English Major: 30 hours
In addition of the common prerequisites (ENC 1101 and ENC 1102), students must take the following courses:
- Medieval Literature (to 1500) 3
- British Literature 1500-1660 or Shakespeare 3
- British Literature 1660-1900 3
- Modern British Literature (1900 to Present) 3
- American Literature to 1860 3
- American Literature from 1860 3
- Multicultural Literature (African American, Jewish, literature of exile, etc.) 3
LIN 4680  Linguistics-Modern English Grammar 3
2 Upper division courses in composition or creative writing 6

Education Courses: 30 hours
EDG 3321  General Instructional Decision-Making 3

EEX 3071  Educational Needs of Students with Exceptionalities 3
TSL 3080  ESOL Principles and Practices I 3
LAE 3360  Managing the Secondary Language Arts Classroom 3
LAE 4335  Special Teaching Laboratory English 3
TSL 4081  ESOL Issues: Principles and Practices II 3
LAE 4464  Experiencing Adolescent Literature in the Middle School and Senior High School 3
LAE 4942  Student Teaching 6
RED 4325  Subject Area Reading 3

Combined BA/MA in Linguistics
To be considered for admission to the combined bachelor’s/master’s degree program, students must have completed at least 75-90 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admission Requirements
- Enrollment in undergraduate program in English, Spanish, French, or Portuguese at FIU.
- Must apply during the first semester of senior year with 90 credits completed.
- Must have completed LIN 3013/LIN 3010 General Linguistics, LIN 4680 Modern English Grammar, FRE 3780 French Phonetics, or SPN 3733 General Linguistics with a grade of “A”.
- Current GPA of 3.2 or higher.
- Two letters of faculty recommendation.
- A 2-4 page statement of purpose, explaining academic plans and goals.

Recommended Graduate Courses to Undergraduates
The following graduate courses are recommended to BA students. In order to complete their degree requirements, students may double-count up to 12 graduate credits of coursework toward the Bachelor’s and M.A. degrees:

A. English
LIN 5018  Introduction to Linguistics*
LIN 5501  English Syntax**
LIN 5107  History of the English Language***
LIN 5715  Language Acquisition
LIN 6602  Language Contact
LIN 5601  Sociolinguistics
LIN 5825  Pragmatics
LIN 5934  Special Topics in Linguistics
B. Spanish
LIN 5018 Introduction to Linguistics*
SPN 5705 The Structure of Spanish**
SPN 5845 History of the Language***
LIN 5604 Spanish in the United States
SPN 5736 Spanish as a Heritage Language: Acquisition and Development

*** Fulfills the ‘history course’ requirement of MA

M.A. Degree Requirements

1. Course Work (36 graduate credit hours)
   Core Courses: (a minimum of “B” is required in core courses)
   LIN 5018 Introduction to Linguistics
   LIN 5206 Phonetics
   LIN 6323 Phonology
   LIN 6510 Syntax I
   LIN 6805 Semantics
   
   One History Course:
   LIN 5107 History of the English Language
   LIN 5146 Historical and Comparative Linguistics
   SPN 5845 History of the Language
   FRE 5845 History of the Language I
   
   One Structure Course:
   LIN 5501 English Syntax
   SPN 5705 The Structure of Spanish
   FRE 5855 Structure of Modern French
   LIN 6572 Structure of a Non-Indo-European Language
   LIN 5574 Languages of the World
   LIN 5431 Morphology
   LIN 6520 Syntax II
   
   Electives: 5 LIN prefixed graduate courses

2. M.A. Comprehensive Exams
   In the final semester of studies, M.A. students must pass comprehensive exams in Syntax, Semantics, Phonetics, and Phonology.

3. Awarding of Degrees
   - The BA will be awarded as soon as all BA requirements of the designated undergraduate program are completed.
   - The MA will be awarded after all MA requirements of the Linguistics Program and the BA requirements are completed.

Minor in English

Students majoring in any other discipline may minor in English.

There are several advantages for obtaining this minor. First, students expand their knowledge of literature written in English, deepening the liberal arts portion of their undergraduate education. Second, in the courses that the Department of English offers, writing skills are emphasized, so students should learn to develop complex and sophisticated arguments through the analysis of literary work. The training students receive in these courses can prepare them for careers in which writing and editing are of the greatest significance, or in which critical thinking skills are valued.

Requirements
Fifteen hours in 3000 and 4000-level courses

Period Courses: (Two courses - Six hours)
1. One course in British literature before 1800
   or
   One course in American literature before 1860
2. One course in British literature after 1800
   or
   One course in American literature after 1860
   Note: In addition to these courses, the Department may designate specific courses each semester which will fulfill these requirements
3. Three courses (nine hours) at the 3000 and 4000-level in the Department of English.

Course Descriptions

Definition of Prefixes
AML-American Literature; CRW-Creative Writing; ENC-English Composition; ENG-English-General; ENL-English Literature; FIL-Film Studies; LIN-Linguistics; LIT-Literature

AML 2010 Survey of American Literature I (3). Students read and discuss major American works written between 1620 and 1865. Works will be considered in an historical context.

AML 2020 Survey of American Literature II (3). Students will read and discuss major American works written between 1865 and the present. Works will be examined in an historical context.
AML 2602 African-American Literature (3). Offers a survey of African-American literature spanning its genesis to the present. Includes units on major eras and major figures in the development of the literary traditions. May be repeated with different content.

AML 3004 American Folklore (3). An examination of the variety of American folklore from the very earliest expressions to the present. Prerequisites: ENC 1101 and ENC 1102.

AML 3032 The American Revolution in Literature (3). Study of writings created at the time of the American Revolution and those of later authors in order to evaluate how American writers have shaped our sense of the Revolution. Prerequisites: ENC 1101 and ENC 1102.

AML 3042 Texts and Contexts: American Literature 1492 to the Present (3). Survey of American fiction, poetry, and drama from 1492 to the present, that examines the interactions between literacy texts and social, cultural, or political currents. Prerequisite: ENC 1102.

AML 3111 American Fiction to 1900 (3). Study of representative fiction by American authors from the Colonial period to 1900. Authors may include Brown, Irving, Cooper, Hawthorne, Melville, Twain, Chopin, James, and others. Prerequisites: ENC 1101 and ENC 1102.

AML 3262 Modern Southern Short Story (3). The contributions of twentieth-century writers of the South to the short story genre. Includes the work of Faulkner, O'Connor, Welty and McCullers. Prerequisites: ENC 1101 and ENC 1102.

AML 3401 American Humor (3). This course examines the writings of American humorists from the beginnings to the present. Special attention is given to the writings of Twain and Thurber. Prerequisites: ENC 1101 and ENC 1102.

AML 3415 American Literature and the Tradition of Dissent (3). Explores selected texts to examine the interactions between texts and social, cultural, and political currents from colonial times through the present. Prerequisites: ENC 1101 and ENC 1102.

AML 4120 Modern American Fiction (3). Study of American novels and short stories written in the twentieth century. Among the writers to be read are John Barth, Alice Walker and Flannery O'Connor. Prerequisites: ENC 1101 and ENC 1102.

AML 4155 Modern American Poetry (3). Study of American poetry written in the twentieth century. Among the poets to be examined are Elizabeth Bishop, Gwendolyn Brooks and Richard Wilbur. Prerequisites: ENC 1101 and ENC 1102.

AML 4210 Colonial Literature (3). American Literature from the settlement of the continent through 1776. Prerequisites: ENC 1101 and ENC 1102.

AML 4213 Studies in Colonial and Early American Literature (3). Students read, discuss, and write about literature of the Colonial and Early American periods from the time of the Puritans through the period of the Early Republic. Prerequisites: ENC 1101 and ENC 1102.

AML 4221 Early National Literature (3). Examines the major literary works of the period 1776-1825. Prerequisites: ENC 1101 and ENC 1102.

AML 4223 Antebellum Literature (3). Examines the writings of the period 1825-1860, including such writers as Hawthorne, Poe, and Harriet Jacobs. Prerequisites: ENC 1101 and ENC 1102.

AML 4224 American Romanticism (3). An examination of the major American literary works of 1830-1860, including works by Melville, Poe, Whitman, Stowe, Dickinson, and Douglass.

AML 4245 Modernism and Post-Modernism in American Literature (3). The course provides working definitions of modernism and post-modernism and will consider how the writers of the twentieth century use those outlooks while addressing political, social, and personal issues. Prerequisites: ENC 1101 and ENC 1102.

AML 4263 Contemporary Southern Writers (3). Study of the literature of the modern South, its uniqueness and variety. Writers may include Tennessee Williams, Eudora Welty and William Faulkner. Prerequisites: ENC 1101 and ENC 1102.

AML 4300 Major American Writers (3). Each section of this course will consider the works of one, two, or three major American writers. The writers studied in this course will change from semester to semester. May be repeated with change of content. Prerequisites: ENC 1101 and ENC 1102.

AML 4306 Mark Twain (3). Study of the writings of American humorist and novelist Mark Twain including Roughing It, Innocents Abroad and Huckleberry Finn. Prerequisites: ENC 1101 and ENC 1102.

AML 4312 Hemingway, Fitzgerald and Faulkner (3). Analysis of the most important novels of Hemingway, Fitzgerald and Faulkner including The Sun Also Rises, The Great Gatsby and The Sound and the Fury. Prerequisites: ENC 1101 and ENC 1102.

AML 4503 Periods in American Literature (3). Individual sections will read and discuss works in the colonial, federal, antebellum, reconstruction, or modern periods. May be repeated with change of content. Prerequisites: ENC 1101 and ENC 1102.

AML 4564 Periods in American Literature: the Twenties (3). Provides in-depth consideration of the major themes and authors of the literature of 1920's America, including Fitzgerald, Hemingway, Anderson, and Lewis.

AML 4606 Studies in 19th-Century African American Literature (3). An examination of literary works written by African Americans during the 19th Century. May be repeated with change of content. Prerequisites: ENC 1101 and ENC 1102.

AML 4607 Studies in 20th-Century African American Literature (3). An examination of literary works written by African Americans during the 20th Century. May be repeated with change of content. Prerequisites: ENC 1101 and ENC 1102.
AML 4612 Literature of the Harlem Renaissance Period (3). An examination of the literary production of Americans of African descent during 1919-1940, including discussion of nationality and identity formation.

AML 4621 Major African American Writers (3). An examination of selected African American writers. May be repeated with change of content. Prerequisites: ENC 1101 and ENC 1102.

AML 4624 African American Women Writers (3). A study of the writings of African American women. May be repeated with change of content. Prerequisites: ENC 1101 and ENC 1102.

AML 4930 Special Topics in American Literature (3). An examination of different aspects of American literature. May be repeated with a change of content. Prerequisites: ENC 1101 and ENC 1102.

AML 5305 Major American Literary Figures (3). Each section will consider the lifework of several authors such as Hawthorne, Melville, Whitman, Twain, James, Faulkner, Mailer, Wright, Baldwin. May be repeated with change of content.

AML 5505 Periods in American Literature (3). The literature and criticism regarding one specified period of American literature, such as colonial, federal, transcendental, antebellum, or twentieth century. May be repeated with change of content. Prerequisite: Permission of the instructor.

CRW 2001 Introduction to Creative Writing (3). Beginning course designed to acquaint students with elementary critical vocabulary and writing skills necessary for the writing of poems and short fiction. Students may also be required to read and discuss published writing. Prerequisites: ENC 1101 and ENC 1102 or equivalent.

CRW 3111 Narrative Techniques (3). Analysis of and exercises in the elements of fiction: point of view, conflict, characterization, tone. Students will do various short assignments and one short story. Reading of published fiction will also be required. Prerequisite: CRW 2001.

CRW 3311 Poetic Techniques (3). Analysis of and exercises in poetic techniques. Students will write poems in which they employ one or more technical skills. Reading and discussion of published poems will be required. Prerequisite: CRW 2001.

CRW 4110 Writing Fiction (5). An intermediate course in writing fiction. May be repeated. Prerequisite: CRW 3111.

CRW 4310 Writing Poetry (5). An intermediate course in writing poetry. May be repeated. Prerequisite: CRW 3311.

CRW 4900 Independent Study in Creative Writing (3). Development and completion of an independent project in creative writing undertaken with the consent of the instructor. Prerequisite: CRW 2001.

CRW 4930 Special Topics in Creative Writing (1-5). A course designed to give students an opportunity to pursue special studies in aspects of creative writing not otherwise offered. May be repeated. Prerequisite: CRW 2001.

CRW 4931 Special Topics in Creative Writing (1-5). Gives students an opportunity to pursue special studies in aspects of creative writing not otherwise offered. May be repeated. Prerequisites: CRW 2001 and three hours of CRW on the 3000/4000 level.

ENC 1930 Essay Writing (3). A course in writing short descriptive, analytic, and argumentative essays. Does not fulfill core curriculum requirement. Students who have completed ENC 1101 or ENC 1102, or both, cannot receive credit for this course.

ENC 1101 Writing and Rhetoric I (3). The first in a two-course sequence introduces the principles of college-level writing and research. Students write for multiple rhetorical contexts, with emphasis on critical thinking and revision. Written work meets the state composition requirement.

ENC 1102 Writing and Rhetoric II (3). The second in a two-course sequence expands upon the writing and rhetorical strategies learned in ENC 1101 and furthers students abilities to write and research arguments. Written work meets the state composition requirement. Prerequisites: ENC 1101 or equivalent.

ENC 2304 College Writing for Transfer Students (3). A course in the techniques of written exposition, argumentation, and research. The course is a prerequisite for transfer students (entering with 30 or more credits) taking further ENC classes. Written work meets the state composition requirement. Prerequisite: Transfer student.

ENC 3213 Professional and Technical Writing (3). Principles and practices of effective workplace writing. Students learn audience analysis in order to become more effective writers. Genres include memos, business letters, proposals, and reports. Written work meets the state composition requirement. Prerequisites: ENC 1101, ENC 1102 or ENC 2304.

ENC 3311 Advanced Writing and Research (3). Provides instruction in the concepts and methods of critical response and argumentation, and in the formulation, analysis, and presentation of original research in extended academic papers. Written work meets the state composition requirement. Prerequisites: ENC 1101, ENC 1102, or equivalent.

ENC 3314 Writing Across the Curriculum (3). An interdisciplinary, upper division writing course in which students explore substance and style as they compose essays on subjects from various fields. Written work meets the state composition requirement. Prerequisites: ENC 1101 and ENC 1102.

ENC 3354 Writing as Social Action (3). Writing for academic and public settings. A significant part of the course will consist of students doing writing-related volunteer work in the community. Prerequisites: ENC 1101 and ENC 1102 or ENC 2304.

ENC 3363 Writing About the Environment (3). Analysis and evaluation of a variety of marine coastal-themed texts mainstream articles, scientific articles, and novels. As well as develop a researched advocacy campaign. Prerequisites: ENC 1101 and ENC 1102 or equivalents or ENC 2304.
ENC 3371 Rhetorical Theory and Practice (3). An overview of various rhetorical traditions in order to help students understand and improve their discourse practices at school, work, or in technological spaces. Prerequisites: ENC 1101 and ENC 1102 or ENC 2304.

ENC 3416 Writing and New Media (3). Provides intensive instruction on composing in new media formats with an eye on computer and network-based presentation, especially internet publication. Prerequisites: ENC 1101 and ENC 1102 or equivalent or ENC 2304.

ENC 3491 The Processes of Writing (3). Study of theoretical and practical aspects of one-to-one writing consultations. Students will learn the skills necessary to improve their writing and peer review skills. Prerequisite: Sophomore standing or above.

ENC 3492 Interdisciplinary Writing for Writing Fellows (3). For students who will become Peer Writing Fellows for Gordon Rule classes in various disciplines. Prerequisite: Permission of the instructor.

ENC 4241 Scientific Writing (3). Develops skills necessary to write laboratory reports, scientific proposals, articles, research reports, progress reports, and seminar presentations. Prerequisites: ENC 1101 and ENC 1102.

ENC 4260 Advanced Professional Writing (3). Advanced professional writing, which may include digital writing; reports, proposals, and grants; information design; technical editing; writing for journals; writing end-user documentation. Prerequisites: ENC 1101, ENC 1102.

ENC 4331 Writing, Rhetoric, and Community (3). Developing the necessary rhetorical and analytical skills in order to compose written works that reflect writer's concerns as member of a community.

ENC 4355 Writing About Film (3). Introduces students to writing critical reviews and analyses of film narrative. Prerequisites: ENC 1101 and ENC 1102.

ENC 4930 Special Topics in Composition (3). Allows students to refine nonfiction writing skills in a variety of genres. May be repeated. Prerequisites: ENC 1101, ENC 1102 or equivalent.

ENC 5235 Grant Writing (3). Focus on rhetorical context of grant writing and the application of rhetorical concepts to the discourse of grant writing.

ENG 2001 Modes of Inquiry (3). A research and report writing course. A final research project is required. Basic bibliographical tools, library use, and technical and scientific reporting will be the main subject matter, emphasizing style, structure, and tone in a variety of research modes.

ENG 2012 Approaches to Literature (3). In this course, students will study analysis of the meaning and artistry of literary texts. Students will read and interpret representative poems, short stories, and plays. Written work meets the state composition requirement.

ENG 2100 Introduction to Film (3). Introduces students to the basic artistic and compositional elements of film and the analysis of the relationship between technical and aesthetic aspects of film. Prerequisite: ENC 1101.

ENG 2850 Critical Reading: PreMed I (1). Designed for Pre-Medical or other Pre-Health profession students, the course strengthens the student's ability to read critically. Prerequisites: ENC 1101, permission of the instructor.

ENG 2851 Critical Reading: PreMed II (1). The course builds upon Critical Reading: PreMed I and further strengthens the student's reading and verbal skills. Prerequisites: ENG 2850, permission of the instructor.

ENG 2852 Critical Reading: PreMed III (1). Designed to be taken by Pre-Medical or other Pre-Health profession students. The course will related readings to current ethical and social issues confronting the health professions and society. Prerequisites: ENG 2851, permission of the instructor.

ENG 3138 The Movies (3). Viewing and discussion of films, with attention to cinematic ways of story-telling and to the popular film as an expression of cultural values. May be retaken for credit with change of content. Prerequisites: ENC 1101 and ENC 1102.

ENG 3930 Proseminar in English Studies (3). An introduction to literary studies, examining the history and structure of the discipline practiced in various kinds of formal analyses, critical writing, and literary research. Prerequisites: ENC 1101 and ENC 1102.

ENG 4013 History of Literary Criticism (3). A study of the major texts in literary criticism and theory from Plato to the present. Prerequisites: ENC 1101 and ENC 1102.

ENG 4022 Rhetoric and Poetics (3). Ancient and modern theory and practice in discussing the formal properties of elevated language. Prerequisites: ENC 1101 and ENC 1102.

ENG 4023 Semiotics and Narratology (3). This course studies Semiotics (the science of signs and sign system) and Narratology (theories about the nature of narratives) in an attempt to characterize the nature of how a story gets told/shown. Prerequisites: ENC 1101 and ENC 1102.

ENG 4043 Contemporary Literary Theory and Criticism (3). An examination of the works of recent literary theorists. Prerequisites: ENC 1101 and ENC 1102.

ENG 4121 History of the Film (3). Discussion, with examples, of the development of cinematic art, from its European and American beginnings to its place as a major world art form. Prerequisites: ENC 1101 and ENC 1102.

ENG 4132 Studies in the Film (3). Intensive examination of the work of a particular nation, group, or director. May also explore various film genres, e.g., documentary, horror, the Western. With change of content, may be retaken for credit. Prerequisites: ENC 1101 and ENC 1102.

ENG 4134 Women and Film (3). An examination of how women have been represented in dominant commercial films and how women filmmakers have responded to the appropriation of the image of women through alternative film narratives. Prerequisites: ENC 1101 and ENC 1102.
ENG 4135 The Rhetoric of Cinema (3). An examination of how films are constructed cinematically and narratively to involve audiences on aesthetic, intellectual and ideological levels. Prerequisites: ENC 1101 and ENC 1102.

ENG 4319 Film Humor and Comedy (3). Examines the nature of humor and comedy and its relation to film narrative. Films from all periods of cinematic history will be viewed. Prerequisites: ENC 1101 and ENC 1102.

ENG 4906 Independent Study (VAR). Individual conferences, assigned readings, and reports on independent investigations. By permission of the instructor. Prerequisites: ENC 1101 and ENC 1102.

ENG 4936 Honors Seminar (3). Designed specifically for honors students and other superior, highly motivated students. Seminar topics will vary from semester to semester. Prerequisites: ENC 1101 and ENC 1102.

ENG 4949 Cooperative Education in English (1-3). A student majoring in English may spend one or two semesters fully employed in industry or government in a capacity relating to the major. Prerequisite: Permission of Chairperson.

ENG 5950 Special Projects in English (1-3). Pursuit of projects involving relationship of profession to university and/or community and/or research issues in pedagogy, literature, or other areas. Prerequisites: Permission of the Graduate Director or Department Chair. Corequisite: Permission of the project supervisor.

ENL 2012 Survey of British Literature I (3). Students will read and discuss major British works written from the Anglo-Saxon period through 1750. Works will be examined within historical context.

ENL 2022 Survey of British Literature II (3). Students will read and discuss major British works written between 1750 and the present. The works will be examined in historical context.

ENL 3112 Development of the Novel: The 18th Century (3). A study of the development of the novel in England from Defoe and others to the Gothic novel. Prerequisites: ENC 1101 and ENC 1102.

ENL 3122 Development of the Novel: The 19th Century (3). A study of the development of the novel in England from Austen to Henry James, including Bronte, Eliot and Dickens. Prerequisites: ENC 1101 and ENC 1102.

ENL 3132 Development of the Novel: The 20th Century (3). A study of the development of the novel in England from Conrad to the present, including Lawrence, Woolf, and Joyce. Prerequisites: ENC 1101 and ENC 1102.

ENL 3261 19th Century British Women Novelists (3). Examines fiction written by women in the 19th century, including classical realist, gothic, sensation, working-class, and New Woman novels. Authors include Austen, Eliot, Bronte, and Gaskell. Prerequisites: ENC 1101 and ENC 1102.

ENL 3504 Texts and Contexts: British Literature to 1660 (3). Explores the development of British literature from its beginnings to 1660 through intensive study of selected texts; examines interactions between texts and social, cultural, or political currents. Prerequisites: ENC 1101 and ENC 1102.

ENL 3506 Texts and Contexts: British Literature Since 1660 (3). Explores the development of British literature of the last three centuries through intensive study of selected texts; examines interactions between texts and social, cultural, and political currents. Prerequisites: ENC 1101 and ENC 1102.

ENL 4161 Renaissance Drama (3). A study of non-Shakespearean drama of the English Renaissance including Jonson, Kyd, Marlowe and Webster. Prerequisites: ENC 1101 and ENC 1102.

ENL 4171 Restoration and 18th Century Drama (3). Representative plays from the period 1660-1800. May include plays by Dryden, Etherege, Wycherley, Otway, Congreve, Farquhar, Gay, Fielding, Goldsmith and Sheridan. Prerequisites: ENC 1101 and ENC 1102.

ENL 4210 Studies in Medieval Literature (3). Students will read, discuss and write about works of medieval English literature from Beowulf to Chaucer. Prerequisites: ENC 1101 and ENC 1102.

ENL 4212 Medieval Women Writers (3). The contributions of medieval women to literary history are examined. Among the writers to be studied are Margery Kemp and Marie de France. Prerequisites: ENC 1101 and ENC 1102.

ENL 4220 Renaissance: Prose and Poetry (3). A study of Renaissance poetry and prose to suggest their contributions to literary history, including More, Wyatt, Sidney, Donne, and Bacon. Prerequisites: ENC 1101 and ENC 1102.

ENL 4223 Studies in Renaissance Literature (3). Students will read, discuss Renaissance works excluding William Shakespeare. Prerequisites: ENC 1101 and ENC 1102.

ENL 4225 Spenser (3). Study of the works of one of the most important figures of the sixteenth century including The Faerie Queen, The Shepheards Calender and Amoretti. Prerequisites: ENC 1101 and ENC 1102.

ENL 4230 Studies in Restoration and 18th-Century Literature (3). An in-depth study of the major figures in English Literature from 1660 to 1800, a period of transition between the Renaissance and modern times. Some of the writers who will be studied are Dryden, Pope, Swift, Jonson, and Fielding. Prerequisites: ENC 1101 and ENC 1102.

ENL 4241 Romanticism I (3). Focuses on the first generation of Romantic writers, including Blake, Wordsworth, Wollstonecraft, and Coleridge. Prerequisites: ENC 1101 and ENC 1102.

ENL 4242 Romanticism II (3). Focuses on the second generation of Romantic writers including Byron, Keats, Shelley, and Wollstonecraft-Shelley. Prerequisites: ENC 1101 and ENC 1102.
ENL 4243 Studies in Romanticism (3). Examination of recurring themes and motifs in Romantic literature. Prerequisites: ENC 1101 and ENC 1102.

ENL 4251 Victorian Literature (3). Study of the poetry and prose of the Victorian Age (1832-1901). Among the authors to be read are Dickens, Eliot, Carlyle, Ruskin, Arnold, Tennyson and Browning. Prerequisites: ENC 1101 and ENC 1102.

ENL 4254 Late Victorian Fiction (3). An examination of the variety of fiction written from 1880-1901, some including Wells, Zangwill, Gissing and D'Arcy. Prerequisites: ENC 1101 and ENC 1102.

ENL 4260 Studies in 19th-Century British Literature (3). Students will read, discuss, and write about literary works produced by British Romantic and Victorian writers between the Age of Wordsworth and the death of Queen Victoria. Prerequisites: ENC 1101 and ENC 1102.

ENL 4273 Studies in Modern British Literature (3). This course focuses on the literature of the 20th Century, limiting itself to British writers, but including the various genres of the modern and post modern periods. Prerequisites: ENC 1101 and ENC 1102.

ENL 4274 Yeats and His Contemporaries (3). Studies the major works of William Butler Yeats and some of his contemporaries and associates. Prerequisites: ENC 1101 and ENC 1102.

ENL 4303 Major British Writers (3). Each section will consider the lifework of an author such as Chaucer, Spenser, Milton, Pope, Wordsworth, Dickens, Browning, Joyce, or others. May be repeated with change of content. Prerequisites: ENC 1101 and ENC 1102.

ENL 4311 Chaucer (3). Study of Geoffrey Chaucer’s contributions to English literary history. Among the works to be examined are The Canterbury Tales, The Parliament of Fowls and The Book of the Duchess. Prerequisites: ENC 1101 and ENC 1102.

ENL 4320 Shakespeare: Histories (3). Reading and informal dramatic interpretation of representative plays. Prerequisites: ENC 1101 and ENC 1102.

ENL 4321 Shakespeare: Comedies (3). Reading and informal dramatic interpretation of representative plays. Prerequisites: ENC 1101 and ENC 1102.

ENL 4322 Shakespeare: Tragedies (3). Reading and informal dramatic interpretation of representative plays. Prerequisites: ENC 1101 and ENC 1102.

ENL 4341 Milton (3). Study of the poetic and prose contributions of John Milton including the influence of the literature of antiquity on Milton, and his influence on subsequent poets. Prerequisites: ENC 1101 and ENC 1102.

ENL 4370 Virginia Woolf and Her Circle (3). Focusing on the works of Virginia Woolf. This course also explores how the members of the Bloomsburg Circle influenced this English novelist. Prerequisites: ENC 1101 and ENC 1102.

ENL 4412 Anglo-Jewish Literature: 19th Century to the Present (3). Fiction, essays, and poetry of Jewish writers in Britain and Ireland from 1800 to the present day. Authors may include Aguilera, Levy, Zangwill, Sinclair, Gershon, and others. Prerequisites: ENC 1101 and ENC 1102.

ENL 4503 Periods in English Literature (3). Individual sections will read a group of literary works from one specified period of English literature, such as the Medieval, Renaissance, Victorian, twentieth-century and contemporary periods. May be repeated with change of content. Prerequisites: ENC 1101 and ENC 1102.

ENL 4930 Special Topics in English Literature (3). An examination of the different aspects of English literature. May be repeated with change of content. Prerequisites: ENC 1101 and ENC 1102.

ENL 5220 Major British Literary Figures (3). Each section will consider the lifework of an author such as Chaucer, Spenser, Milton, Pope, Wordsworth, Dickens, Browning, Joyce, or others. May be repeated. Prerequisites: ENC 1101 and ENC 1102.

ENL 5505 Periods in English Literature (3). The literature and criticism regarding one specified period of English Literature, such as Medieval, Renaissance, Victorian, Twentieth Century, and Contemporary. May be repeated with change of period. Prerequisite: Permission of the instructor. Prerequisites: ENC 1101 and ENC 1102.

FIL 3006 Introduction to Film (3). The first required course for the Film Studies Certificate Program. Introduces students to cinema as an institution as well as its role as textual narrative. Provides students with an understanding of the ways films can be analyzed and understood. Prerequisite: Must be enrolled in Certificate Program. Prerequisites: ENC 1101 and ENC 1102.

FIL 4827 Czech Film / Karlovy Vary Film Festival (3). This course will cover the Czech Film industry from its inception in the 1920’s to the present day with side trips to the Karlovy Vary Film Festival in the Czech Republic and Barrondov Studios in Prague. Prerequisite: Permission of the instructor.

FIL 4940 Internship in Film Studies (1-12). Students enrolled in the Film Studies Certificate Program work at the FIU Film Society and related film activities on archival research as well as working on organizing various aspects of the FIU Miami Film Festival including the concurrent seminars. Prerequisites: Introduction to Film Studies and History of Film.

LIN 2002 Introduction to Language (3). The study of the nature of human language, its origins, and its relation to thinking behavior, and culture. An examination of the similarities and differences between spoken human languages, animal languages, and non verbal communication (including sign language); of language variation between dialects and between different historical stages of a language; and of writing systems.

LIN 2612 Black English (3). This course covers the varieties of Black English spoken in the Americas, the Caribbean, and West Africa. Focuses on the nature of these English varieties and their social uses within the community, literature, and educational system.
LIN 3013 General Linguistics (3). Study of the sounds, vocabulary, and sentence patterns of standard modern English. Other topics include meaning, social and regional dialects, language change, and style. Subsequent credit for LIN 3010 or SPN 3733 will not be granted.

LIN 3670 Grammatical Usage (3). The study of formal, traditional usage of English grammar and mechanics. Prerequisites: ENC 1101 and ENC 1102.

LIN 4122 Historical Linguistics (3). The study of linguistic methodology for determining historical and genetic relationships among languages. Prerequisites: Introductory course in Linguistics or permission of the instructor.

LIN 4214 Applied Phonetics (3). Study of sounds and suprasegmentals of English. Comparison of phonetics of standard English with African American English, Spanish influenced English and the phonetics of other languages. Applications of phonetics. Prerequisites: LIN 3010 or LIN 3013.

LIN 4321 General Phonology (3). The study of phonological processes in language and linguistic methodology for phonological analysis. Prerequisites: Introductory course in Linguistics or permission of the instructor.

LIN 4430 General Morphology and Syntax (3). The study of linguistic methodology for determining the morphological and syntactic structures of languages. Prerequisites: Introductory course in Linguistics or permission of the instructor.

LIN 4612 Black English (3). This course is a linguistic approach to the characteristics and functions of Black English and the current social controversies surrounding it. Prerequisite: Permission of the instructor.

LIN 4651 Gender and Language (3). Examines the evidence on a variety of questions regarding women and language, including women's speech in English and other languages, sexist language, and the relationship between language and societal attitudes towards women. Prerequisites: ENC 1101 and ENC 1102.

LIN 4680 Modern English Grammar (3). Practical study of syntax. Prerequisites: ENC 1101 and ENC 1102.

LIN 4801 Semantics (3). The study of the semantic structure of languages. The structures underlying the meanings of words and underlying syntactic structures. Prerequisites: Introductory course in Linguistics or permission of the instructor.

LIN 4905 Independent Study (VAR). This course is designed for students who wish to pursue specialized topics in advanced Linguistics: phonetics, phonology, morphology, syntax, semantics, psycholinguistics, historical linguistics, or language contact. Prerequisites: Introductory course in Linguistics or permission of the instructor.

LIN 5211 Applied Phonetics (3). Study of sounds and suprasegmentals of English. Comparison of phonetic features of English with those of other languages. Universal constraints and markedness in learning second/foreign language pronunciation. Prerequisites: LIN 3010, LIN 3013, or LIN 5018 or the equivalent.

LIT 2010 Introduction to Fiction (3). This course offers an introduction to the basic elements of prose fiction: symbolism, plot, imagery, structure, characterization, style, point of view. Prerequisite: ENC 1101.

LIT 2030 Introduction to Poetry (3). This course offers an introduction to the basic elements of poetry: imagery, figurative language, diction, style, tone, prosody. Prerequisite: ENC 1101.

LIT 2040 Introduction to Drama (3). This course will introduce the student to the basic elements of drama and its various forms, modes, and techniques. Students will read 10-12 plays by representative English, American, and European authors. Prerequisite: ENC 1101.

LIT 2110 World Literature I (3). Surveys the literature of many cultures from the beginning of written texts through the 16th century. Usually excludes British works.

LIT 2120 World Literature II (3). This course surveys the literature of Asia and Europe from the 17th century to the present. It gives attention to the themes and world views these works embody, as well as to their artistry.

LIT 3022 The Short Novel (3). An examination of the variety of short novels that have been written in the past three centuries. Short novels from Europe and the Americas are discussed. Prerequisites: ENC 1101 and ENC 1102.

LIT 3050 Forms of Satire (3). This course will discuss the history and the different forms of satire from the Romans to the present, including the works of Horace, Juvenal, Swift, and Byron. Prerequisites: ENC 1101 and ENC 1102.

LIT 3132 Arthurian Literature (3). The legend of King Arthur is examined both in the original medieval version and in the subsequent retelling. Prerequisites: ENC 1101 and ENC 1102.

LIT 3145 Continental Novel (3). A study of the works of the major European novelists of the 19th and 20th centuries. Some of the writers whose work are read in translation are Tolstoy, Mann, and Flaubert. Prerequisites: ENC 1101 and ENC 1102.

LIT 3170 Topics in Literature and Jewish Culture (3). An examination of literature by or about Jews in a variety of national, cultural, or historical contexts. May be repeated with change of content. Prerequisites: ENC 1101 and ENC 1102.

LIT 3190 Survey of Caribbean Literature (3). The narratives, poetry, and fiction from the beginning of the Caribbean literary tradition to the present time. Prerequisites: ENC 1101 and ENC 1102.
LIT 3200 Themes in Literature (3). Individual sections will read and discuss works relating to topics of current and enduring interest. Discussion of literature as it reflects the identities of men and women: their places in families in past, present, and future societies, in the natural world, and the cosmic order. May be repeated. Prerequisites: ENC 1101 and ENC 1102.

LIT 3331 Classics of Children’s Literature (3). An examination of literary texts that form part of the imaginative experience of children, as well as part of our literary heritage. Prerequisites: ENC 1101 and ENC 1102.

LIT 3383 Women in Literature (3). Students will examine the images of women created by European and American writers. The course will also explore the roles, historical and contemporary, of women writers. Prerequisites: ENC 1101 and ENC 1102.

LIT 3384 Caribbean Women Writers (3). Examination of the writings of Caribbean women. Prerequisites: ENC 1101 and ENC 1102.

LIT 3671 Global Issues in Literature – GL (3). Examination of aspects of story, author, character, and contexts affected by migration, exile, global trade, or other transnational forces. Prerequisites: ENC 1101 and ENC 1102 or equivalent.

LIT 3673 Migrant Stories: Literature of the Immigration Experience (3). Fiction, essays, poetry, and drama of immigrants to England and America. Course may focus on Jewish, Caribbean, or other groups, or comparative studies. Prerequisites: ENC 1101 and ENC 1102.

LIT 3674 Literature of the Jewish Immigration Experience (3). Fiction, essays, poetry, and drama of Jewish immigrants to English-speaking countries. Course may focus on the great wave, 1880-1920, or other periods. Authors may include Antin, Cahan, Lazarus, Yezierska, Zangwill and others. Prerequisites: ENC 1101 and ENC 1102.

LIT 3702 Major Literary Modes (3). Individual sections will read and discuss the literary expression of heroic, tragic, comic, satiric, mythic, realistic, or others formalized views of human existence. May be repeated with change of content. Prerequisites: ENC 1101 and ENC 1102.

LIT 3202 Morality and Justice in Literature (3). A study of the ways literary texts articulate the values of their society. Prerequisites: ENC 1101 and ENC 1102.

LIT 3930 Special Topics (3). A course designed to give students an opportunity to pursue special studies not otherwise offered. May be repeated with change of content. Prerequisites: ENC 1101 and ENC 1102.

LIT 4001 Major Literary Genres (3). Individual sections will read and discuss the form and development of novels, drama, poetry, short fiction, or such special forms as biographies, folksongs and tales, or essays, among other genres. May be repeated. Prerequisites: ENC 1101 and ENC 1102.

LIT 4041 17th Century Drama (3). A study of Western European drama of the seventeenth century including Calderon, Jonson, Tirso de Molina, Corneille, Racine, Wycherley, and Congreve. Prerequisites: ENC 1101 and ENC 1102.

LIT 4188 Regional Literature in English (3). Individual sections will discuss English writing in Ireland, Scotland, Wales, Canada, the Caribbean, India, sub-Saharan Africa, and Oceania, as well as distinctive regions in England and America. May be repeated. Prerequisites: ENC 1101 and ENC 1102.

LIT 4192 Major Caribbean Authors (3). Examines the literary achievements of major writers of the Caribbean region in the social, political, and cultural contexts of the English, French, and Dutch Caribbean. Prerequisites: ENC 1101 and ENC 1102.

LIT 4197 Global Asian Literature (3). Focus on issues of migration and identity in literature by writers of South and East Asian descent. Prerequisites: ENC 1101 and ENC 1102.

LIT 4224 Exile and Literature: An Interdisciplinary Approach (3). An interdisciplinary analysis of the phenomenon of exile through an exploration of several literary case studies with a respective text by a major exiled writer at its core.

LIT 4253 Literature of Exile: A Comparative Literary Approach (3). With its main focus on the creative process, the course explores the universal nature of the experience of exile through a comparative study of literary texts by artists from different countries.

LIT 4324 Classical Myth (3). An introduction to classical mythology through a selection of important genres from classical literature: epic, tragedy, collective poem. Works to be read in modern translation. Prerequisites: “C” or better in ENC 1101 and ENC 1102 or their equivalents.

LIT 4351 Major African Writers (3). Surveys a variety of literary texts relevant to life in post-colonial Africa. Prerequisites: ENC 1101 and ENC 1102.

LIT 4356 Literature of the Cuban Diaspora (3). A survey of literatures written by Cuban-Americans and other writers of the Cuban diaspora. Texts will be in English or English translations. Prerequisites: ENC 1101 and ENC 1102.

LIT 4364 Post-Totalitarian Literature (3). Covers the major literary works which have been published in the Czech Republic and Slovakia since the fall of Communism there in 1989. Prerequisite: Permission of the instructor.

LIT 4362 Women in Post Communist Eastern Europe (3). An examination of the role of women in Eastern Europe, particularly in the former Czechoslovakia, since the fall of Communism there in 1989. Prerequisites: ENC 1101 and ENC 1102.

LIT 4403 Literature Among the Arts and Sciences (3). Individual sections will relate the study of literature to other disciplines in the humanities, fine arts, the social and natural sciences. May be repeated. Prerequisites: ENC 1101 and ENC 1102.

LIT 4420 The Psychological Novel (3). This course concentrates on novels which explore the complexities of the human psyche. Prerequisites: ENC 1101 and ENC 1102.
LIT 4444 The South Seas in Fiction, Film, and Culture (3). Studies South Pacific scientific/anthropological, literary, and other cultural texts and artifacts in terms of interdisciplinary, international/global, and multicultural topics and approaches.

LIT 4536 Multi-cultural Working Class Women's Literature (3). Evaluates gender issues across cultural, race, and class lines. Examines impact of migration and assimilation on multi-ethnic literature.

LIT 4606 Literature of the Sea (3). Identifies patterns and variations among elements, such as plot, character, metaphor, and so on, in various modes, periods, and genres of literature of the sea.

LIT 4930 Special Topics (3). A course designed to give groups of students an opportunity to pursue special studies not otherwise offered. May be repeated. Prerequisites: ENC 1101 and ENC 1102.

LIT 4931 Special Topics in Women's Literature (3). An examination of different aspects of literature by women. May be repeated with a change of content. Prerequisites: ENC 1101 and ENC 1102.

LIT 4950 Czech Study Abroad (3). Covers the major literary movements and figures in the Czech Republic and Slovakia that have influenced the Western literary canon. The course is taught by FIU and Czech faculty. Prerequisite: Permission of the instructor.

LIT 5358 Black Literature and Literary/Cultural Theory (3). Examines 20C. black literary critical thought. Students interrogate cultural theories and literary texts from African, Caribbean, African-American, Black British and Afro-Brazilian communities. Prerequisite: Graduate standing.

LIT 5359 African Diaspora Women Writers (3). Study of black women writers from throughout the Diaspora from the early 19th century to present. Prerequisite: Graduate standing.

LIT 5934 Special Topics (3). A course designed to give groups of students an opportunity to pursue special studies not otherwise offered. May be repeated.

Bachelor of Arts in Geography

Degree Program Hours: 120

Common Prerequisite Courses and Equivalencies

<table>
<thead>
<tr>
<th>FIU Course(s)</th>
<th>Equivalent Course(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Two GEO courses</td>
<td>GEOXXXX¹ and GEOXXXX¹</td>
</tr>
</tbody>
</table>

¹Two introductory courses in Geography with GEO prefix.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/ equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org. See Common Prerequisite Manual.

Common Prerequisites: (6)
Two 2000-level GEO courses

Lower-Division Requirement: (3)
GEA 2000 World Regional Geography

Upper Division Program: (60)

Core Courses: (9 hours)
GEO 3421 Cultural Geography  
or GEO 3471 Political Geography  
or GEO 3502 Economic Geography  3
SYA 3300 Research Methods  3
SYG 4972 Senior Capstone Seminar  3

Department Electives: (18)
Six additional upper division courses as follows:
Three upper division GEO courses (at least one 4000-level)  9
Two upper division GEA courses  6
One upper division anthropology or sociology course  3

Other Electives: (33)
Within or outside the department, with advisor's approval. GIS course highly recommended.

Bachelor of Arts in Geography: Social Studies Education Major

The BA in Geography with Social Studies Education major is completing the approval and accreditation process with the Florida Board of Governors and the Florida Department of Education. Please speak with a College of Arts and Sciences advisor for detailed information.

This program prepares students interested in the social sciences for teaching Social Studies at the secondary level. The major incorporates current results from education research, effective curriculum materials, use of technology, and a global perspective in collaborative learning. Program requirements include field experiences and an internship. Interested students are encouraged to contact the department for additional details and information on teacher support programs.

Lower Division: (6 hours)
(SUS Common Prerequisites)
Two GEO 2000-level courses  6

Additional requirements for the degree (6 credits)
GEA 2000 World Regional Geography  3
POS 2042 American Government  3

Upper Division (30 credits total)
GEO 3421 Cultural Geography  
or GEO 3471 Political Geography  
or GEO 3502 Economic Geography  3
SYA 3300 Research Methods  3
Minor in Geography
A student majoring in another academic discipline earns a Minor in Geography by successfully completing approved coursework of 15 semester hours with a grade of 'C' or better.

Required Courses

Lower Division
GEO 2000 Introduction to Geography 3
GEO 3000 World Regional Geography 3

Upper Division
Three upper division geography courses, at least one with a GEO prefix and one with a GEA prefix 9
Geographic Information Systems (GIS) courses offered in any department also qualify.

Bachelor of Arts in Sociology/Anthropology

Degree Program Hours: 120

Lower-Division Required Courses
Students declaring a major in Anthropology/Sociology are required to declare either the Anthropology track or the Sociology track and to fulfill the requirements of the declared track: Anthropology track, Introduction to Anthropology (ANT 2000); Sociology track, Introduction to Sociology (SYG 2000). If a student has not taken the appropriate required course in the lower division, then the course will be required as part of the upper division program.

Students declaring a minor in Anthropology/Sociology do not declare a track and are not required, but recommended, to take either Introduction to Anthropology or Introduction to Sociology, or both.

Common Prerequisite Courses and Equivalencies

<table>

Major Department Electives: (15 hours)

Three additional upper division sociology courses 9
One upper division anthropology course 3
One upper division anthropology course 3
Other Electives: Within or outside the department, with advisor's approval.

Minor in Sociology and Anthropology

Students who minor in Sociology/Anthropology do not declare a disciplinary track. Students are not required, but are recommended, to take either ANT 2000 or SYG 2000, or both. The minor in Sociology/Anthropology requires completion of the following courses with a grade of "C" or better:

Upper Division (15 credits)

Theory
One of the following courses:
- ANT 3034 Anthropological Theories 3
- SYA 4010 Sociological Theories 3
- SYA 4011 Social Theory 3

General
Four additional upper division anthropology or sociology courses (3000-level or higher) 9

Combined Bachelor of Arts in Sociology-Anthropology/Master of Arts in Comparative Sociology

The combined BA/MA program allows qualified full time students to earn both degrees in a shorter time than would otherwise be possible. Entry to the program may affect eligibility for some types of financial aid and students are advised to investigate this issue before applying to the combined BA/MA program.

To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Students may count up to 12 hours of graduate courses toward both the BA and MA degrees. Hence the two degrees may be earned with a minimum of 144 hours instead of the 154 required if the degrees were pursued separately. Students in this program could choose a thesis or non-thesis MA option.

To enter the program the students apply and are accepted by the Department. They will also need to apply to the graduate program when they complete the first year, after receiving the BA degree.

Admission Requirements

Admission to the combined BA/MA program is competitive; meeting the minimum requirements will not guarantee admission. Entry to the program requires prior admission by the Department and approval by the College Dean. At the time of application to the Department the student must have:

- Overall undergraduate GPA of 3.5 or higher.
- Minimum GRE (verbal + quantitative) score of 1100.
- Successful completion of Senior Capstone course by the Spring semester of their Junior year.
- Completion of ANT 3034 (Anthropological Theories) and SYA 4010 (Sociological Theories).
- Completion or current registration in SYA 3300 (Research Methods).

Students are strongly recommended to take an introductory Statistics course during their junior year.

At least 15 hours in undergraduate sociology/anthropology courses in addition to the courses listed above.

A writing sample.

Letters of Recommendation from two faculty in the Department of Sociology/Anthropology.

A 2-4 page statement of purpose describing the student’s academic plans and longer-term career goals.

MA Courses taken during the student’s senior year:
- SYA 6018 Sociocultural Theories A
- SYA 6126 Sociocultural Theories B
- SYA 6305 Research Methods I
- SYA 6306 Research Methods II

Combined BA/MA Program Requirements

Each student must:

- Apply to combined program and be accepted.
- Complete all undergraduate major requirements.
- Complete twelve graduate hours (6000 level courses listed above) taken while the student is an undergraduate.
- Complete all MA requirements (with either thesis or non-thesis program).

Awarding of Degree

- The BA will be awarded when the BA requirements are completed.
- The MA will be awarded when the BA and MA requirements are completed.
Course Descriptions
Definition of Prefixes
ANG Anthropology Graduate; ANT-Anthropology; EVR-Environmental Studies; GEA-Geography: Regional Areas; GEO-Geography: Systemic; GIS-Geography: Information Science; IDS-Interdisciplinary Studies; SYA-Sociological Analysis; SYD-Sociology of Demography and Area Studies; SYG-Sociology: General; SYO-Social Organization; SYP-Social Processes
F-Fall semester offering; S-Spring semester offering; SS-Summer semester offering.

ANG 5093 Research Methods and Design (3). Logic and procedures in conceptualizing and conducting empirical social research. Emphasizes the relationship of research design and methods to theoretical perspectives. Prerequisites: Graduate standing or permission of the instructor.

ANG 5267 Environmental Anthropology (3). Theories of human adaptation, including environmental determinism, possibilism, cultural ecology, materialism, and evolutionary ecology. Credit for both ANT 3403 and ANT 5548 will not be granted. Prerequisites: Graduate standing or permission of the instructor. (SS)

ANG 5396 Representations of Africa and Africans in Films (3). Analyzes representations of Sub-Saharan Africa and Africans in various cinematic traditions (including documentaries) and examines these representations in socioeconomic and political contexts. Prerequisite: Permission of Instructor.

ANG 5397 Advanced African Diaspora Cultures and Performativity (3). Examines different approaches adopted by African diaspora scholars in social and cultural anthropology, and recent theoretical texts and debates in Performance Studies. Prerequisite: Permission of Instructor.

ANG 5496 Social Research and Analysis (3). A graduate overview of the scientific methods used in intercultural studies. Includes the philosophical basis of science, research design, and hypothesis testing using both secondary and original data. Students will conduct a research project in this course. Prerequisites: Graduate standing or permission of the instructor.

ANG 5905 Directed Individual Study (VAR). Supervised readings and/or field research and training. Prerequisite: Permission of the instructor.

ANG 5906 Directed Individual Studies (3). Supervised readings and/or field research and training.

ANG 5915 Directed Field Research (VAR). Permission of the instructor required.

ANT 2000 Introduction to Anthropology (3). This course surveys the four subfields of anthropology, including physical anthropology and human evolution, archaeology, cultural anthropology, and linguistics. Introduces basic anthropological theories and concepts.

ANT 3034 Anthropological Theories (3). This course examines the process of theory building and explanation in the social sciences, and outlines the historical and philosophical foundations of anthropological thought. Theorists and schools of thought reviewed include Darwin and evolution; Boas and historical particularism; Freud and culture and personality; and Malinowski and functionalism.

ANT 3212 World Ethnographies (3). Introduces students to ethnography, which is the art of writing culture. Teaches students to compare and contrast cultures through ethnographic reading, writing, and critiques. Prerequisites: ANT 2000 (Intro to Anthropology) or SYG 2000 (Intro to Sociology).

ANT 3241 Myth, Ritual, and Mysticism (3). Surveys anthropological approaches to the study of myth, ritual, and mysticism, as religious and symbolic systems. The social and psychological functions of myth and ritual in small-scale and complex societies will be compared.

ANT 3302 Anthropology of Sex and Gender (3). Cross-cultural ethnographic data will be utilized to examine the enculturation of sex roles, attitudes, and behavior; cultural definitions of maleness and femaleness; and varieties of human sexual awareness and response.

ANT 3304 Voices of Third World Women (3). Deals with the literature in the social sciences and humanities written by women of the Third World or others who have recorded their testimony.

ANT 3403 Cultural Ecology (3). Examines systems of interaction between humans and their environment; the roles of social, cultural, and psychological factors in the maintenance and disruption of ecosystems; and interrelations of technological and environmental changes.

ANT 3409 Anthropology of Contemporary American Society (3). The application of classical anthropological methods and concepts to the analysis of contemporary American culture. Investigation of a unique cultural scene will involve the student in field work and the preparation of an ethnographic report.

ANT 3442 Urban Anthropology (3). Anthropological study of urbanization and urban life styles, with particular emphasis on rural-urban migration and its impact on kinship groups, voluntary associations, and cultural values.

ANT 3451 Anthropology of Race and Ethnicity (3). Considers ethnicity and concepts of race in cross-cultural perspectives with emphasis on the historical and cultural and construction of identity, intercultural relationships, and social stratification.

ANT 3462 Medical Anthropology (3). A survey of basic concepts; examination of preliterate and non-western conceptions of physical and mental health and illness; emphasis on cultural systems approach to the study of illness and health care. Background in biology, medicine, or nursing helpful. Prerequisite: Permission of the instructor. (S)

ANT 3467 Food and Culture (3). Introduction to the anthropology of food: European conquest of the New World, theories of famine, the industrial food system, food and nationalism, the organic food movement.

ANT 3497 Introduction to Qualitative Research Methods (3). Introduction to qualitative data collection, analysis, and documentation. Fieldwork experiences
include observation, interviewing, and utilizing non-obtrusive measures. Prerequisites: SYA 3300 (Research Methods) and SYA 4010 (Sociological Theories).

ANT 3610 Language and Culture (3). Examines the relationship between language and culture, with emphasis on the linguistic structuring of perception and culture; speech styles and their relationship to the identities and inequalities associated with gender, class and ethnicity; and the politics of bilingualism and multilingual nations.

ANT 3780 Anthropology of Brazil (3). Anthropological perspective on Brazilian society and culture. Covers classic and contemporary studies of Brazil including such topics as race, ethnicity, national identity, regionalism, and social organization.

ANT 4164 Inca Civilization (3). A survey of Andean culture history with emphasis on Inca and pre-Inca civilizations. Includes discussion of peopling of South America, habitats, and the transition from foraging to village settlements, and the rise of indigenous empires.

ANT 4273 Law and Culture (3). A cross-cultural examination of the practical and theoretical relationships between the legal system and other aspects of culture and society.

ANT 4305 Coastal Cultures (3). Introduces students to the anthropological study of coastal and maritime societies, their folklore, and particular cultural adaptations by examining ethnographic examples from around the world.

ANT 4306 The Third World (3). An interdisciplinary, cross-cultural survey of the factors contributing to the emergence of the Third World. Significant political, economic, pan-national and pan-ethnic coalitions are analyzed.

ANT 4312 American Indian Ethnology (3). An examination of the socio-cultural patterns of selected American Indian groups as they existed in the indigenous state, prior to European contact.

ANT 4324 Mexico (3). An interdisciplinary examination of the major social, cultural, economic, and political factors contributing to the transformation from the Aztec empire to colonial society to modern Mexico. (F)

ANT 4328 Maya Civilization (3). A survey of the culture and intellectual achievements of the ancient Maya civilization of Mesoamerica. Course includes: history and social-political structure, archaeology, agriculture and city planning, mathematics, hiero-glyphics, astronomy, and calendars.

ANT 4330 Contemporary Maya Cultures (3). Studies the Maya cultures of Mexico and Central America from the Conquest to the present. Investigates the political, social, economic, religious, and cultural life of contemporary Maya peoples.

ANT 4332 Latin America (3). Examines cultures and societies of the Latin American region. Topics may include indigenous and peasant cultures, social movements, urban and global transformations, and class, gender and ethnicity.

ANT 4334 Contemporary Latin American Women (3). The lives of 20th century Latin American women and gender analysis along class and ethnic dimensions. Discussion of religion, family, gender roles, machismo, and women’s roles in socio-political change.

ANT 4340 Cultures of the Caribbean (3). Provides an overview of cultures and societies of the Caribbean and Circum-Caribbean region with a focus on local cultures and their historical transformations, transnationalism and globalization, and class, gender and ethnicity.

ANT 4343 Cuban Culture and Society (3). Examines the culture of contemporary Cuba, with emphasis on the Cuban Republic, the transformations associated with the 1959 revolution, the impact of international relations, and transnational Cuban communities.

ANT 4352 African Peoples and Cultures (3). This course includes a survey of the cultures and civilizations of Sub-Saharan Africa. It includes discussions of history, geography, sociopolitical structures, religion, art, music, and oral literature.

ANT 4360 - 4477 Area Studies (3). Surveys selected world areas with an emphasis on ethnicity, social stratification, and processes of social change and globalization. Areas to be studied may include: (1) North America; (2) South or Latin America; (3) the Caribbean; (4) Africa; and (5) Asia. Specific topics may vary. May be repeated for credit with change of topic.

ANT 4390 Explorations in Visual Anthropology (3). An examination of the use of film in anthropology, both as a method of ethnographic documentation and as a research technique for analyzing non-verbal modes of communication. Documentary films and cross-cultural data on paralanguage, kinesics, proxemics, and choreometrics will be reviewed and discussed.

ANT 4391 Anthropology Through Film (3). Explores key issues in anthropology through using visual media, including film and web-based materials. Cross-cultural comparisons highlight this medium's influence on local, national, and global cultures.

ANT 4396 Africa and Africans in Film (3). Analyzes representations of Sub-Saharan Africa and Africans in various cinematic traditions (including documentaries), and examines these representations in socioeconomic and political contexts. Prerequisite: Permission of instructor.

ANT 4397 African Diaspora Cultures and Performativity (3). Examines different approaches adopted by African diaspora studies scholars in social and cultural anthropology, and recent theoretical texts and debates in Performance Studies. Prerequisite: Permission of Instructor.

ANT 4406 Anthropology of War and Violence (3). The purpose of this course is to introduce the scientific study of human aggression and warfare from an evolutionary and cross-cultural perspective in order to gain a better understanding of the causes and consequences of such behavior, and to evaluate proposed options for the control of warfare.
ANT 4422 Kinship and Social Organization (3). Comparative study of kinship systems and the social organization in tribal, peasant, and industrial societies. Emphasis on the ethnographic record in anthropology. Prerequisites: ANT 2000 or permission of the instructor.

ANT 4461 Hallucinogens and Culture (3). Cross-cultural examination of the political, religious, and socio-cultural factors related to altered states of consciousness, including dreams and images. Applications to contemporary psychology are explored.

ANT 4473 Anthropology of Globalization – GL (3). Cross-cultural examination of globalization and of socioeconomic, environmental and political controversies surrounding this mega-trend, including the greening of the global economy.

ANT 4723 Education and Culture (3). A cross-cultural examination of educational and socialization processes, their functions in the larger society, and the value systems they transmit.

ANT 4905 Directed Individual Study (1-2). Supervised readings and/or field research and training. Prerequisite: Permission of the instructor.

ANT 4915 Directed Field Research (1-2). Permission of the instructor required.

ANT 4930 Topics in Anthropology (3). Special courses dealing with advanced topics in the major anthropological subdisciplines: (1) social and cultural anthropology, (2) applied anthropology, (3) physical anthropology, (4) linguistics, and (5) archaeology. Instruction by staff or visiting specialists. Topics to be announced. Instructor’s permission required. May be repeated.

ANT 4941 Holocaust Documentation Internship (3). History and significance of the Holocaust; issues in oral history; interviewing Holocaust survivors; transcribing and archiving interview data.

ANT 5318 American Culture and Society (3). Anthropological analysis of the cultures and subcultures of the United States, focusing on the social, ethnic, and regional organizations and their corresponding value and symbolic systems. Prerequisites: Graduate standing or permission of the instructor. (S)

EVR 4595 South Florida Environmental Conflicts (3). Research on environmental conflicts in South Florida. Theories of environmental conflicts, research design, semi-structured interview and survey methods, group research projects.

GEA 2000 World Regional Geography – GL (3). A systematic survey of the major regions and countries of the world, with regard to their physical, cultural, and political characteristics. Emphasis upon climate, natural resources, economic development, and population patterns.

GEA 3212 Geography of North America (G) (3). Geography of the countries of North America with emphasis on physical aspects, human migration and development, population, economic resources and culture.

GEA 3320 Population and Geography of the Caribbean (G) (3). Physical, cultural and political geography of the Caribbean; emphasis on population patterns, growth and ethnicity.

GEA 3400 Population and Geography of Latin America (G) (3). Introduction to the physical, cultural, and political geography of Latin America. Emphasis on population patterns and problems of population growth, systems of land use and tenure, economic development, natural resources, and agriculture.

GEA 3500 Population and Geography of Europe (G) (3). Introduction to the physical, cultural, and political geography of Europe emphasizing the evolution of the states and the geographical factors facilitating the integration movement.

GEA 3554 Geography of Russia and Central Eurasia (G) (3). A geographical analysis of the countries of the former Soviet Union. Emphasis on resources, population, union urbanization, and economic development.

GEA 3600 Population and Geography of Africa (G) (3). Examines the structure of pre-conquest society and covers colonialism’s effects on contemporary food production and ecological management. An overview of development issues in Africa.

GEA 3635 Population and Geography of the Middle East (G) (3). Introduction to the physical, cultural, and political geography of the Middle East. Emphasis on population patterns, natural resources, and economic development.

GEA 3705 Geography of Central Asia and the Caucasus (G) (3). Geography of the countries of the former Soviet Union in the Caucasus and the Central Asian regions. Emphasis on natural resources, environmental problems, ethnicity and population change, urbanization, and economic development.

GEA 4202 Geography of the Borderlands (G) (3). Examines the role of borders in human society. Comparative analysis of specific border zones. In-depth exploration of one borderland: society, culture, economics, and political processes.

GEA 4905 Independent Study (1-6). Directed independent research in regional geography. Requires prior approval by instructor.

GEA 4930 Topics in Geography (G) (3). Varies according to the instructor and semester. May be repeated with departmental permission.

GEO 2000 Introduction to Geography (3). Leading concepts of human and environmental geography. Physical, cultural, economic and political factors in the spatial patterns of natural and human systems.

GEO 3001 Geography of Global Change – GL (G) (3). Explores the geography of change in contemporary world economy, politics, culture, and environment. Mapping and spatial analysis aid in understanding global change and effects on specific places.

GEO 3110 Research Methods (3). Introduces students to the relationship between theory and social research and to methods for collecting and analyzing empirical data.

GEO 3421 Cultural Geography (G) (T1, T2) (3). The study of spatial variations among cultural groups and the
pertains to the nation-state. Factors instrumental to given to the organization of space, particularly as it Emphasis is economy, and government.

GEO 3471 Political Geography (G) (T2) (3). Emphasis is given to the organization of space, particularly as it pertains to the nation-state. Factors instrumental to determining the viability of states are included stressing unifying-repelling forces.

GEO 3502 Economic Geography – GL (G, IPE) (T1,T2) (3). Explores spatial facets of the economy at the international level, including trade, development, manufacturing, and technology.

GEO 3602 Urban Geography (G) (T1) (3). The study of spatial organization within and among urban settlements. Analysis of both the empirical and theoretical aspects of urbanism are covered, with an emphasis on current urban problems.

GEO 4354 Geography of the Global Food System – GL (G) (T2,T3) (3). Analyzes the spatial organization of the global food system and its importance to world economic development. Explores food security, trade, and environment.

GEO 4476 Political Ecology (G) (T1,T3) (3). Principles of human geography and political economy structure analyses and explanation of ecological problems. Emphasizes spatial aspects of society and environment interactions.

GEO 4477 Critical Geopolitics (G) (T2) (3). Explains to students new methods of critical geopolitical analysis and how they impact human political affairs across landscapes and territories. Allows students to develop analytical work and research in the field.

GEO 4607 Urban Environmental Geography (3). Ecology, sociology, and geography of metropolitan areas in the context of energy, matter, and sustainability, including the importance of humans in the urban environment. Prerequisite: Upper division standing.

GEO 4905 Independent Study (1-6). Directed independent research in systematic geography. Requires prior approval by instructor. (F,S,SS)

GEO 4930 Senior Geography Capstone Seminar (3). Synthesizes and builds upon the geography curriculum's components of inquiry, literacy, and in-depth study. Students write a research paper and present it orally to a department forum. Prerequisites: GEO 3502 or GEO 3421 or GEO 3471 and SYA 3300.

GEO 4940 Internship in Geography (G) (T1,T2,T3) (1-6). Introduces Geography majors and minors to real-world experience through internship in local, national, and overseas government, NGO, and private sector enterprises.

GEO 5415 Topics in Social Geography (G, IP) (3). Topics discussed include geographic aspects of population and ethnicity, with emphasis on sources and analysis of data and pertinent concepts. Prerequisites: GEA 2000 or permission of the instructor. (S)

GEO 5557 Globalization (3). Examines the transformation of the world economy and of global finance, the changing significance of sovereignty and territoriality, the effects of space-time compression on everyday life, and associated shifts in culture and identity.

GEO 5906 Directed Individual Studies (3). Supervised readings and/or field research and training.

GIS 2000 Mapping in Geography (3). Introduction to the history of cartography and map production. Descriptions of map errors, maps as science and as art. Also more technical map creation with aerial photography and satellite images.

GIS 3048 Applications of Geographic Information Systems (G) (3). Introduction to geographic spatial analysis using a variety of data.

GIS 5038 Remote Sensing (3). Satellite image and aerial photo interpretation and analysis fundamentals.

GIS 5620 Surveillance, Intelligence, and International Relations (3). This seminar focuses on the role of advanced technology in obtaining information via orbital or land-based surveillance systems on issues of international relations such as warfare and globalization. Prerequisites: Graduate standing or permission of the instructor.

GIS 5935 Topics in Geographic Information Systems (3). Geographic concepts are studied in a computer-based mapping environment. Both social and physical data are used. Students receive a background in spatial analysis and basic cartography.

IDS 3163 Global Supply Chains & Logistics – GL (3). Global supply chains and their interactions with all facets of business and society. Design issues and operation issues are investigated using simulation models and case studies.

IDS 3214 Our Coastal Environment from the Bay of the World – GL (3). Natural science principles applied to the world's coastal and marine environments, with emphasis on human use of and interaction with those environments, using cases from Florida and around the globe.

IDS 3315 Gaining Global Perspectives – GL (3). Students learn to socially locate themselves vis-à-vis others and how their perspectives affect perceiving and understanding others. Students acquire and apply new perspectives to see as others do.

SYA 3300 Research Methods (4). An introduction to the scientific method and its application to anthropological and sociological research. Topics include: formulation of research problems; research design; field methods and collection of data; hypothesis testing and interpretation of results. (F,S)

SYA 3949 Internship in Anthropology and Sociology (3). Working in an organization for the semester to acquire relevant professional experience related to the major. Prerequisites: Admission to major with 3.0 GPA and SYA 3300 and ANT 3034 or SYA 4010 or SYA 4011.

SYA 4010 Sociological Theories (3). Examines the emergence of sociology as the study of social relations. Compares and contrasts the work of selected theorists, with respect to their methodologies, treatment of the emergence and consequences of modern society, political sociology, conception of social class, and analysis of the
role of religion in society. The student is expected to gain in-depth knowledge of opposing theories, as well as an appreciation of the contingent nature of sociological theories. (F,S)

SYA 4011 Social Theory (3). An advanced analysis of classical and contemporary sociological theories, with particular attention paid to their conceptions of the nature of society, forms of social organization and social change, and relationships among the individual, groups, and society.

SYA 4352 GIS and Social Research (3). Applications of GIS in social research. Includes the relevance of critical perspectives on space, place, and cartography to GIS social research.

SYA 4353 GIS and Latin American Societies (3). Introduces geographic information systems (GIS) in the context of Latin American socio-spatial and environmental problems and transformations.

SYA 4450 Advanced Research Methods (3). Advanced topics in sociological research are explored. Focus will be on measurement and analysis issues, although topics related to sampling and data collection are also addressed. Prerequisites: SYA 3300 (Research Methods) and SYA 4010 (Sociological Theories).

SYA 4905 Directed Individual Study (VAR). Supervised readings and/or field research and training. Prerequisite: Permission of the instructor.

SYA 5135 Sociology of Knowledge (3). The study of the theoretical basis of knowledge and the inter-relatedness of knowledge and social factors, particularly as knowledge relates to institutional forms of behavior. (S)

SYA 5357 Graduate GIS and Latin American Societies (3). Introduces geographic information systems (GIS) in the context of Latin American socio-spatial and environmental problems and transformations.

SYA 5909 Directed Individual Study (VAR). Supervised readings and/or field research and training. Prerequisite: Permission of the instructor. (F,S,SS)

SYA 5941 Directed Field Research (VAR). Permission of the instructor required.

SYD 3600 Community and Society (3). The social group known as the community is identified and analyzed for its distinctive qualities. By distinguishing it from other social groups, its dominating force on the behavior of its members is isolated. Attention is given to the interaction of individuals and groups as they exist within the community.

SYD 3620 Sociology of Miami (3). Study of Miami and Dade County using sociological and anthropological techniques and theory, fieldwork assignments, readings and guest speakers.

SYD 3650 Sociology of Gender and Power in Asia (3). Examines cultural ideologies and systems of power in gender relations in contemporary Asia.

SYD 3804 Sociology of Gender (3). An examination of women’s and men’s roles, statuses, and life opportunities in society. Consideration of current theories of gender inequality.

SYD 3811 Sociology of Women (3). Examines the nature of the social construction of female gender identity in American society.

SYD 4237 Immigration and Refugees (3). Examines the causes and consequences of immigration and refugee flows. Focuses on sociological and anthropological issues.

SYD 4410 Urban Sociology (3). Study of the urban community, with particular attention to the problems associated with urban life. The development of urban societies is reviewed historically, and factors associated with this development are identified.

SYD 4451 Japanese Society in Global Perspective (3). Examine Japanese Society in comparative and global perspective, emphasizing issues such as social class gender, ethnicity, migration, state policy, and transnational culture.

SYD 4604 Cities and Sustainability: Latin America, Africa, and Asia in a Globalizing World (3). Focuses on challenges of environmental sustainability of poor cities in a globalizing world. Emphasizes methodological frameworks to analyze the roots of the problems and potential solutions. Prerequisites: SYG 2000 or ANT 2000 or EVR 1017 or permission of the instructor.

SYD 4606 World Jewish Communities (3). An overview of Jewish communities throughout the world. Analyze their origins, migrations, demographic and social characteristics. Covers Ashkenazi, Sephardi, and Oriental communities.

SYD 4610 Topics in Sociology (3). Special courses on the social structures and related problems of specific geographical and cultural areas. Topics may vary. May be repeated for credit with change of topics. Can be taken for credit no more than twice with any given instructor.

SYD 4621 Cubans in the U.S. (3). An overview of Cuban migration to the U.S. and the establishment of Cuban communities in this country. Emphasis on the development and dynamics of the enclave in Miami.

SYD 4630 Latin American and Caribbean Societies (3). Exploration of the types of social structures, statuses, and roles, and the resulting distributions of power and authority in the hemisphere.

SYD 4700 Sociology of Minorities/Race and Ethnic Relations (3). The study of social groups identified by racial or ethnic characteristics. Particular emphasis is given to the role of minorities in society, and the interactive process resulting from their contact with the majority. Social behaviors of minorities are reviewed and related to institutional structures and their accepted norms.

SYD 4702 Border Crossings: Race and Gender in Historical and Transnational Perspective (3). Examines the transnational, interrelated history of race and gender from the 16th century to the present. Prerequisites: SYG 2000 or ANT 2000.

SYD 4703 Depiction of Jews in Films (3). A comparison of films about Jewish communities from different parts of the world to analyze how Jewish communities interact with different societies.
SYD 4704 Seminar in Ethnicity (3). An upper-level seminar, stressing a comparative sociological approach to the study of two or more racial-ethnic groups. Emphasis on the interrelations of ethnic communities within the same society and the socio-political effects of these interrelations. Prerequisites: SYD 4700 or permission of the instructor.

SYD 4800 Sociological Theories of Gender (3). Examines theories of gender in classical and contemporary sociological theory. Prerequisites: SYA 4010 or permission of the instructor.

SYD 4802 Sociology of Sexual Minorities (3). Social construction and development of sexual and gender identities in Western societies and cross-culturally. Topics include various contemporary social issues regarding sexuality and minority status.

SYD 4820 Sociology of Men (3). Examines the nature of the social construction of male gender identity in American society.

SYD 5045 Population and Society (3). The study of the processes that determine the size and composition of human populations. Emphasis on demographic transition theory and the antecedents and consequences of differential growth rates throughout the world.

SYD 5607 Advanced World Jewish Communities (3). Overview of Jewish communities throughout the world. Analyzes their origins, migrations, demographic and social characteristics. Covers Ashkenazi, Sephardi, and Oriental communities. Prerequisite: Graduate Standing.

SYD 5656 Global Japan (3). An examination of the dynamics of contemporary social issues in Japan and Japan's role in a globalized society.

SYD 5708 Border Crossings: Race and Gender in Historical and Transnational Perspective (3). Examines the transnational, interrelated history of race and gender from the 16th century to the present.

SYG 2000 Introduction to Sociology (3). This course introduces the sociological perspective and method, and the basic areas of sociological interest such as socialization, sex roles, social groups, race and ethnic relations, deviance and social control, social stratification, and urban life.

SYG 2010 Social Problems (3). An introduction to the concept of a social problem and the approaches used to understand more fully the total dimensions of some specific problems. Special emphasis is given to clarifying one's understanding of the underlying nature of selected social problems, an analysis of those aspects amenable to remedy, and an inventory of the knowledge and skills available.

SYG 3002 Basic Ideas of Sociology (3). The course introduces the student to the ideas of community, authority, status, alienation, and the sacred, as used in sociological literature.

SYG 3320 Social Deviancy (Deviant Behavior) (3). The study of behavior that counters the culturally accepted norms or regularities. The social implications of deviancy are reviewed, and theoretical formulations regarding deviant behavior are analyzed.

SYG 4060 Sociology of Sexuality (3). Applies sociological perspectives to sexual attitudes and behavior, examining various world cultures. Topics include premarital and extramarital sex, sexual orientation, and prostitution.

SYG 4972 Senior Capstone Seminar (3). Synthesizes and builds upon the major curriculum's components of inquiry, literacy, and in-depth study. Students write a research paper and present it orally to a departmental forum. Satisfies SACS requirements in oral and computer competency. Prerequisites: SYA 3300 and ANT 3034 or SYA 4010.

SYO 3120 Marriage and the Family (3). Considers marriage and kinship, and their relationships with political, economic, cultural and social factors. Emphasizes the distinction between family and other social units, and the changing social arrangements and exceptions associated with family and gender roles.

SYO 3250 School and Society (3). A specialized course dealing with the place of schools (particularly public) in society, the import of social criteria for school personnel, and the influence of such criteria on educational processes within the school system (institution).

SYO 3400 Medical Sociology (3). An introductory overview of the social facets of health, disease, illness, and the organization/delivery of medical care and health care.

SYO 3401 Sociology of Health Behavior (3). Provides a sociological perspective on health behavior. Topics include health as a social construct; personal, familial, and social/cultural determinants of health behavior; and health care delivery.

SYO 3546 Sociology of Groups and Organizations (3). Introduction to the study of groups and organizations from a sociological perspective.

SYO 4300 Political Sociology (3). The underlying social conditions of political order, political process, and political behavior are explored. Examples are drawn from empirical and theoretical studies of power, elites, social class and socialization.

SYO 4370 Work and Society (3). Provides an overview of the relationships among labor, economic and social systems, and political economy. Topics include changing patterns of employment and unemployment, social class, industrial and service economies, and processes of globalization.

SYO 4410 Sociology of Mental Illness (3). Contemporary issues in mental health and illness from a sociological perspective. Includes differential prevalence, health, and illness behaviors, organization of care, social policy, and social control.

SYO 4420 Comparative Sociology of Health Care Systems (3). Health care policies, organization, and systems from a cross-national perspective, focusing on issues such as access, insurance, corporation, and spiraling costs.

SYO 4530 Social Inequality (3). Examines various forms of social stratification and political and economic systems. Topics may include the identities and inequalities
associated with class, ethnicity and gender; the relationships among social structure, ideology and the state; and social justice movements.

SYO 4550 Comparative Sociology (3). A cross-cultural and cross-national survey of sociological studies, with particular emphasis on theoretical and methodological issues. Examples will be drawn from studies on culture patterns, social structures, sexual mores, power relationships and the ethical implications of cross-national research.

SYO 4571 Organizations and Society (3). The course deals with the micro-sociological problems of the internal organization of bureaucracies; the relation between bureaucracy and personality; the macro-sociological problems of the emergence of the bureaucratic form; bureaucratization and contemporary life; general problems of affluence; meaningless activity; ways to beat the bureaucracy; and bureaucracy and atrocity.

SYP 3000 The Individual in Society (3). Introduction to the study of the individual as a social being, with emphasis on theoretical conceptions of the relationship between the individual and society, and structural and cultural constraints versus individual agency.

SYP 3300 Social Movements (3). An introduction to the study of social movements, with emphasis on their relationship with social inequalities, identities, political and cultural conflict, and state authority as organized at the national, subnational, and transnational levels. Topics may include a comparison of historical and contemporary social movements, local, national and transnational movements; and the relationship between mass media, public attitudes, and social action.

SYP 3456 Societies in the World – GL (3). An introduction to the study of local societies in worldwide perspective. Addresses local-global issues such as gender, social class, economy, politics, migration, and environmental destruction.

SYP 3520 Criminology (3). An introduction to the study of criminal behavior, its evidence in society, society’s reaction to the subjects involved, and the current state of theoretical thought on causality and treatment.

SYP 3530 Delinquency (3). An analysis of behavior which is extralegal, with major concentration on its appearance among young people (juveniles) and society’s response. Particular emphasis is given to the dynamic thrusts being made in establishing juvenile rights as a distinct part of human or civil rights.

SYP 3750 Sociology of Life Course (3). Introduction to the study of the life course from a sociological perspective. Life stages (birth to death) are examined as social constructions.

SYP 4410 Social Conflict (3). The study of conflict in society and its place in social relationships. A study of causes and resolutions, with particular emphasis on methods of resolution and their influence on social change.

SYP 4421 Science, Technology and Society (3). An introduction to the social, cultural, and political changes associated with the development of science and technology. Topics may include structural inequalities associated with differences in access to science and technology; ethical debates related to scientific and technological advances; and the relationship between technology and changing forms of communication, community, and social action.

SYP 4441 Sociology of World Development (3). An examination of the various theories concerning what is happening in the ‘under-developed world.’ The political, social, and economic events of these societies are subjected to sociological analysis.

SYP 4454 Globalization and Society (3). Examines the economic, political and social dimensions of globalization and the theories used to describe and account for globalization. Course material may focus on particular world regions and comparisons between or among world regions. Prerequisites: ANT 2000 or SYG 2000.

SYP 4464 Sociology of Disasters (3). Study of human response to disaster events, including political and economic factors influencing vulnerability. Examines how individuals and institutions make decisions at all levels of disaster response.

SYP 4562 Domestic Violence (3). Applies sociological perspectives to the topic of domestic violence. Analyzes cultural roots and social structures that promote and reinforce violence in intimate relationships. Prerequisites: SYG 2000 or ANT 2000.

SYP 4631 Sociology through Film (3). Popular and documentary films as data for the analysis of various sociological problems.

SYP 4730 Sociology of Aging (3). The social impact of aging on individual and group interaction patterns, particularly in the areas of retirement, family relations, community participation, and social services. Explores the major sociological theories of aging in light of current research.

SYP 4740 Sociology of Death (3). An introduction to ‘death’ as social phenomenon. Attention given to various approaches which systematically study death, with primary emphasis given to the sociological approach. Major attention is given to an exploration of attitudes toward death, and an assessment of the implications for the respective groups involved.

SYP 5447 Development and Post-Development (3). Examines theories and case studies concerning development and post-development in global perspective.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org. See Common Prerequisite Manual.

Common Prerequisites

Complete two of the following:

AFH 2000 African Civilizations
AMH 2041 Origins of American Civilization
AMH 2042 Modern American Civilization
AMH 2010 American History 1607-1850
AMH 2020 American History 1850-Present
EUH 2011 Western Civilization: Early European Civilization
EUH 2021 Western Civilization: Medieval to Modern Europe

Bachelor of Arts in History: Social Studies Education Major

The BA in History with Social Studies Education major is completing the approval and accreditation process with the Florida Board of Governors and the Florida Department of Education. Please speak with a College of Arts and Sciences advisor for detailed information.

This program prepares students interested in Social Studies and social sciences for teaching at the secondary level. The new degree incorporates current results from education research, effective curriculum materials, use of technology, and a global perspective in collaborative learning. Program requirements include field experiences and internship. Interested students are encouraged to contact the department for additional details and information on teacher support programs.
Lower Division: (6 credits)
(Common Prerequisites as Detailed Under the BA Degree in History)
WOH 2001  World Civilization 3
AMH 2042  Modern American Civilization 3

Additional requirements for the degree (6 credits)
GEA 2000  World Regional Geography 3
POS 2042  American Government 3

Upper Division (3000-4000 level – 30 credits total)
Latin American, Asian or African History [4] 3
Modern European History [2] 3
Medieval or Ancient History 3
American History [3] 3
HIS 4935  Senior Seminar 3
And
5 History Electives at 3000 or 4000 levels 15

And (30 credits)
EDP 3004  Educational Psychology 3
SSE 3346  Social Science Content and Pedagogy 3
SSE 4383  Perspectives in Social Science Education 3
SSE 4380  Developing a Global Perspective 3
SSE 4384  Special Teaching Lab 3
SSE 4942  Student Teaching 9
RED 4325  Subject Area Reading 3
TSL 4324  TESOL Issues and Strategies for Content Area Teachers 3

Combined BA/MA in History
This combined BA/MA degree program allows our highly qualified undergraduate students the opportunity to pursue a Master’s degree in History while they are completing their undergraduate studies.

To be considered for admission to the combined bachelor's/master’s degree program, students must have completed at least 75-90 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Students who pursue this track must complete all requirements for the undergraduate history major, including the prerequisites and the senior seminar, or capstone course. As part of their joint degree, students will enroll in three cross-listed courses at the 5000 level (9 credits). After completing all undergraduate credits, including the double counted courses, students will receive the B.A. In the summer following receipt of the B.A., they will take a minimum of three credit hours at the graduate level. In their final year, they will take 18 credit hours at the graduate level, including a two-semester Research Seminar (6 hours), Historical Methods (3 hours), and graduate seminars (9 hours). Students must complete all credits within a year of receiving the History B.A.

Entrance Requirements
1. Formal applicants must be in the first semester of their senior year, having 90 credits toward graduation. Please note that junior majors who are interested in pursuing this program should make their intentions known to the undergraduate and graduate advisors.
2. Applicants must have a 3.25 GPA overall and a 3.4 GPA in history courses taken at FIU.
3. Applicants must provide two letters of recommendation from tenured or tenure-earning FIU History Professors.
4. The History Department’s Graduate Committee will make the final decision regarding admission to the program.

Credit/Course Requirements

Senior Year
- In their senior year, students will complete three cross-listed History courses at the 5000 level (9 credits).
- In their fourth year, students will also complete the exit requirement for the undergraduate History major, the Senior Seminar, HIS 4935 (3 credits).
- Students must apply for graduation so that they will receive the B.A. at the end of their senior year.

Fifth Year
- In the summer after the senior year (between years 4 and 5), students will take at least three graduate credits. These can be taken in the form of a graduate independent study (HIS 5908), a public history internship (HIS 6942), or a dedicated graduate course.
- Those students who graduate in the fall semester will take a full load in the spring and then complete these credits the following summer. (3 credits)

During the fifth year, students will complete 18 hours of graduate level work, including the following:
One two-semester (6 credit hours) History Graduate Research Seminar 6
Graduate Methods Course, HIS 6059 3
Three Courses at the 5000 or 6000 level. 5000-level courses taken in the fifth year may not be cross-listed with 4000-level courses 9

All students MUST complete the M.A. credits within a year of receiving the B.A. in History at FIU.

Minor in History
Five general History courses (at the 3000 or 4000 level) 15 semester hours.
Teacher Certification

Students with a baccalaureate degree in History will be temporarily certified until they meet other requirements. One of these requirements is to complete specific courses required by the College of Education. Students who complete the Education Minor will fulfill these requirements; therefore, we encourage students to minor in Education (courses: EDF 3515; EDP 3004; EDG 3321; ESE 4343; SSE 4383) while they complete the requirements for our major.

Students interested in the Teacher Certification should contact the College of Education at (305) 348-2721.

Course Descriptions

Definition of Prefixes
AFH-African History; AMH-American History; ASH-Asian History; EUH-European History; HIS-General; LAH-Latin American History; WOH-World History

AFH 2000 African Civilizations (3). A survey of major historical themes and civilizations of Africa. Written work meets the state composition requirement.

AFH 4100 History of Africa I (3). African history from the origins of humanity to the nineteenth century. Topics include the rise of centralized societies, the Atlantic slave trade, early Christianity and Islam. [4]

AFH 4200 History of Africa II (3). African history from the nineteenth century to the present. Topics include European colonialism, the struggle for independence, and contemporary challenges. [4]

AFH 4342 History of West Africa (3). This course surveys the developments in the western region of Africa from the origins of agricultural societies about 5000 B.C. to the present. [4]

AFH 4405 History of East Africa (3). Surveys the developments in the eastern region of the continent from the origins of humanity in the Rift Valley to the 1994 genocide in Rwanda. [4]

AFH 4450 History of South Africa (3). Examines the development of the South African nation in terms of its African and European heritage from the early Khoisan societies through apartheid and Mandela’s election. [4]

AFH 5905 Readings in African History (3). An examination of historiographical traditions within African history. Topics will vary; with a change in theme, the course may be repeated. Prerequisite: Graduate standing.

AFH 5935 Topics in African History (3). An examination of specific themes in African history. Topics will vary. With a change in theme, the course may be repeated. Prerequisite: Graduate standing.

AMH 2010 American History, 1607-1850 (3). A survey of American history from the founding of Virginia to the ante-bellum era. Analysis of colonial America, the American Revolution, the Constitution, and the growth of a new republic.

AMH 2020 American History, 1850 to the Present (3). A survey of American history from before the Civil War to our own day. Analysis of the Civil War, Reconstruction, the Gilded Age, the move toward imperialism, and the problems of the 20th Century.

AMH 2041 Origins of American Civilization (3). Examines the origins of the United States from the first European settlements through the early republic. Topics include society, culture, politics and economics. Written work meets the state composition requirement.

AMH 2042 Modern American Civilization (3). Examines the development of the United States from the early republic to the present. Topics include society, culture, politics and economics. Written work meets the state composition requirement.

AMH 3012 American History, 1600-1763 (3). The American social colonial experience from the earliest settlements at Jamestown and Plymouth to the eve of the American Revolution. Particular emphasis will be placed on religion, social structure, politics, and slavery. [3]

AMH 3141 American History, 1790-1860 (3). An exploration of early national U.S. history, with particular attention to party politics, religious pluralism, sentimental culture, reform movements, and economic development. [3]

AMH 3270 Contemporary U.S. History (3). An examination of the major trends, forces and personalities that have shaped the recent American past. [3]

AMH 3317 America and the Movies (3). An examination of the social and cultural history of 20th century America through its movies. [3]

AMH 3331 American Intellectual History I (3). This course will trace the origins and development of the main ideas and intellectual themes of Anglo-American history during the colonial and early national period, 1600-1815. It will stress social ideas and popular concepts, and relate them to the formation of dominant American national characteristics. [3]

AMH 3332 American Intellectual History II (3). This course will emphasize the full flowering of individualistic liberalism in 19th Century American thought, and trace the implications of and reaction against this tradition down to the present. [3]

AMH 3341 United States Food History (3). History of food production and consumption in the United States from the 19th through the 20th centuries. Uses historical evidence to evaluate contemporary debates about food systems.

AMH 3444 The Great American West (3). The course will explore the meaning of the West for both the settlers and modern Americans. Using song, film, novels, art, etc., the course will examine the lives and values of the Indians, mountain men, farmers, ranchers, and cowboys. [3]

AMH 3560 History of Women in the United States (3). The changing dimensions of women’s lives from the colonial era of U.S. history to the present. The course will examine the changing economic, social, and political position of women as well as the development of feminist movement and organizations. [3]

AMH 3630 Environmental History of the United States (3). The interaction between humans and the natural world
in the U.S. from colonial contact to the present. Includes agriculture, environmentalism, natural resource use, Florida's environmental history.

AMH 3643 Early America in Fact, Film, and Fiction (3). Exploration of key topics in early American history by comparing traditional historical sources and interpretations with those found in historical films and fiction. Prerequisites: AMH 2041 or equivalent. [3]

AMH 4130 The American Revolution (3). An exploration of the nature of the Revolution from the beginning of the conflict in 1763 through the ratification of the Constitution in 1789. Discussion of the political and economic differences between the colonists and England, along with the meaning the war had to the different classes of Americans. [3]

AMH 4140 Age of Jefferson (3). A survey of Jeffersonian America (1790-1828) with emphasis on the origins of American politics, the emerging American economy, the rise of American nationalism, and Jeffersonian mind. [3]

AMH 4160 The Age of Jackson (3). A survey of Jacksonian America (1828-1850) with emphasis on the growth of political parties, the rise of American industry, the emergence of labor, slavery, and early reform movements. [3]

AMH 4170 Civil War and Reconstruction (3). The rise and sources of militant sectionalism in the United States, the war itself, and the restoration of the nation. [3]

AMH 4230 The Roaring Twenties and the Great Depression (3). A political, economic, social, and intellectual history of the 1920s and the great depression of the 1930s. [3]

AMH 4251 The Great Depression (3). This course deals with the experience of the American people in the Great Depression of the 1930s. It examines causes of the depression, government response, and effectiveness of response, as well as looking at the actual daily experience of people during the Depression and the changes it made in U.S. society. [3]

AMH 4373 Entrepreneurs in U.S. (3). Focusing on entrepreneurship, course covers American ideals (capitalism, individualism, upward mobility, the free market, independence) in historical context. Examines why these ideals have changed, colonial era to the present. [3]

AMH 4375 Technology and American Society (3). The history and impact of technology and innovation on American society, politics, and culture from the 18th century to the present. [3]

AMH 4400 Southern History (3). An examination of the main themes and social forces that have shaped the southern experience and the southern intellectual tradition in a distinctive way within the larger historical reality of colonial Anglo-America and the United States. The period covered is from initial exploration and settlement of Sir Walter Raleigh and John Smith to the present. [3]

AMH 4421 Florida Under Five Flags: Florida History from Precontact to 1877 (3). Overview of Florida from the fifteenth through nineteenth centuries. Examines the changing economic, social, and political position of the peninsula and provides an understanding of how Florida has been shaped by its geography and colonial experience. [3]

AMH 4500 United States Labor History (3). Transformations in the nature of work, the experience of the working class, and the development of the American labor movement, with special attention to issues of race, region, and gender. [3]

AMH 4540 US Military History from the Colonial Era to the Present (3). Examines the military heritage of the United States from the Colonial Wars until the present, focusing on the operational and strategic levels of warfare. [3]

AMH 4544 The United States and the Vietnam War (3). Emphasizes the cultural differences between the U.S. and Vietnam, and examines why and how the United States got involved in Vietnam and ended up fighting a major war in Southeast Asia. [3]

AMH 4561 Early American Women's History (3). Women in colonial and nineteenth-century America, including some or all of the following: colonialism, Native Americans, witch-craft, migration, slavery, industrialization, Civil War, lynching. [3]

AMH 4562 Modern American Women's History (3). History of women in the U.S. since the Civil War. Topics covered include reconstruction, workforce participation, suffrage, feminist theory, warfare, motherhood, women's liberation. [3]

AMH 4570 African-American History (3). Black society in the United States and its relation to the political, economic, social, and cultural history of America. [3]

AMH 4571 African American History from the 17th to the late 19th Centuries (3). Examines the experience of African Americans from the colonial period to the Reconstruction era. Topics include: slave cultures; development of free black communities; civil war. [3]

AMH 4573 African American History from the Late 19th Century to the Present (3). Examines the experience of African Americans from the emergence of Jim Crow to the Black Power Movement. Topics include the Great Migration, Marcus Garvey, the Civil Rights and Black Power Movements. [3]

AMH 4671 Race, Gender, Science in the Atlantic World – GL (3). Examines the ways in which scientists and physicians in the Atlantic World categorized, defined, and assigned meaning to racial and gendered differences. [3]

AMH 4914 South Florida History: Research (3). A history of South Florida from the Tequestas and Calusas to the present. The main focus is student research using primary sources including manuscript censuses, microfilmed newspapers and archives. [3]
AMH 4930 Topics in U.S. History (3). Selected topics or themes in U.S. history. The themes will vary from semester to semester. With a change in theme, the course may be repeated. (The theme will be announced in the yearly schedule.) [3]

AMH 5905 Readings in American History (3). Students read books from different historiographical traditions and with conflicting interpretations about an important subject in American history. Subjects will vary according to professors. Course may be repeated with departmental approval. Prerequisite: Graduate standing.

AMH 5935 Topics in American History (3). An examination of specific themes or topics in American history. The theme will vary from semester to semester. With a change in theme, the course may be repeated. (The theme will be announced in the yearly schedule.) Prerequisite: Graduate standing.

ASH 3222 History of the Middle East up to 1800 (3). Introduction to the history of the Middle East from the formation of Islam to the creation of Gunpowder Empires. [4]

ASH 3223 History of the Middle East 1800-present (3). Examines the major political and social developments in modern Middle Eastern history from 1800 to the present. [4]

ASH 3440 History of Japan (3). Survey of the history of Japan from the origins of Japanese civilization in the early centuries BCE to the contemporary era, with an in-depth focus on selected topics such as the transitions from classical to medieval and early modern to modern periods. [4]

ASH 3442 History of Modern Japan (3). Examination of Japan's transition to modernity and relevant historiographical debates on the topic. [4]

ASH 3450 Urban History of Japan (3). Introduction to the urban history of Asia. Emphasis on Tokyo. Topics include construction of space, power, identity, and historical developments as reflected in architecture. [4]

ASH 4300 East Asian Civilization and Culture (3). The historical developments of Chinese and Japanese civilizations and cultures from the earliest beginnings and classical period through the middle ages and eighteenth century as well as the modern era. [4]

ASH 4384 History of Women in Asia (3). Examines the history of women in Asia in relation to religious ideologies, philosophies, family roles, work roles, imperialism and nationalism, global feminism, and women's bodies. [4]

ASH 4404 History of China (3). Examines Chinese politics, ideas, economics and society from the 19th Century to the present. Impact of European imperialism, decline and fall of the Qing dynasty, Nationalist and Communist Revolutions, women, modernization, and democracy movement are covered. [4]

ASH 4453 History of Travel in Japan (3). History of Japan's cultural, social, political and religious history through the examination of travel and travel literature. [4]

ASH 4614 History of Women and Gender in the Modern Middle East (3). Examination of questions of feminism in the modern Middle East in relation to religion, law, colonialism, modernity, nationalism, and citizenship. [4]

ASH 5446 Pre-Modern Japan (3). Survey of key historiographical interpretations on the history of early modern Japan (1600-1868), including 'classics' and recent works that introduce new avenues of research.

ASH 5905 Readings in Asian History (3). Graduate reading seminar dedicated to issues of gender, identity, and authority in China, Japan, and other regions of Asia.

ASH 5930 Topics in Asian History (3). An examination of topics in Asian history such as gender, modernization, transnational encounters, or the intersection of culture and politics. Comparative approach emphasized.

EUH 2011 Western Civilization: Early European Civilization (3). Examines the earliest development of European Civilization; European thought and behavior in pre-classical, classical and post-classical periods. Written work meets the state composition requirement.

EUH 2021 Western Civilization: Medieval to Modern Europe (3). Examines key developments of European civilization from medieval to early modern times. Written work meets the state composition requirement.

EUH 2030 Western Civilization: Europe in the Modern Era (3). Examines key developments in the origins and nature of contemporary Europe, including social, political and industrial changes from the early modern period to the present. Written work meets the state composition requirement.

EUH 3120 Europe in the Central Middle Ages (3). Europe from the ninth to the twelfth centuries, analyzing the disintegration of the empire of Charlemagne and its replacement by nascent national states and by the supranational papal monarchy. [1]

EUH 3121 Europe in the Earlier Middle Ages (3). The disintegration of the Roman imperial unity and its replacement by Latin, Greek and Arabic cultural spheres, with particular emphasis on the Latin West. [1]

EUH 3122 Europe in the Later Middle Ages (3). The thirteenth throughout the fifteenth centuries as the prelude to the revolutionary transformations of early modernity e.g., secularization, industrialization, expansionism, scientism and democratization. [1]

EUH 3142 Renaissance and Reformation (3). A study of the development of humanism in Italy and Protestantism in Germany, and their impact on Europe in the Fourteenth, Fifteenth, and Sixteenth centuries. [2]

EUH 3161 Medieval Culture (3). Selected topics in the cultural history of Europe from 500 to 1500: epic and knightly romance; Christian theology and spirituality; scholastic philosophy; Romanesque and Gothic arts; the rise of literature in the vernacular; the culture of the layman; and the contribution of women. [1]

EUH 3205 Nineteenth-Century Europe 1815-1914 (3). This course will deal with the political, diplomatic, economic, social, and cultural history of Europe from 1815 until 1914. Special attention will be given to the Industrial Revolution. [2]
EUH 3245 European History, 1914-1945 (3). Europe in the era of the two World Wars, with special emphasis on communism and fascism. [2]

EUH 3282 European History, 1945 to Present (3). Europe since the Second World War examined in its political, diplomatic, social, economic, and cultural aspects. [2]

EUH 3400 Greek History (3). The origins of the Greek polis in Mycenaean times, its domination of civilization in the first millennium B.C., its transformation under Alexander and his successors. The political history, culture, values, and social dynamics of Greek civilization. [1]

EUH 3411 Ancient Rome (3). The formation of the Roman republic, its rise to domination in the Mediterranean, its transformation into the Roman Empire, and its final disintegration. The political history, culture, values, social dynamics, and enduring force of the Roman civilization. [1]

EUH 3570 Russian History (3). An overview of Russian History from the time of tribal Slavs until today. The course will focus especially on the changing conditions of the Russian peasantry and on the unique development of the Russian state. [2]

EUH 3576 The Russian Revolution and the Soviet Union (3). This course deals with Russia since 1917 and focuses particularly on the theory and practice of communism in the Soviet Union. The impact of communism on the lives of the people, whether in politics, economics, or culture, will be examined. [2]

EUH 3611 European Cultural and Intellectual History (3). This course will examine the development of the key ideas in European political and social theory, in conceptions of the natural world and of the individual which have come to dominate European culture in the last four hundred years. [2]

EUH 4025 Saints, Relics and Miracles in Medieval Europe (3). Synthetic view of medieval Europe through the lens of saints veneration. Topics include saints as patrons, miracles and magic, pilgrimage, bureaucratic canonization, gender and mysticism. [1]

EUH 4033 Nazism and the Holocaust (3). The history of the Third Reich and the Holocaust. The development of the German State and the emancipation of the Jews; the rise of racial antisemitism; Hitler and the emergence of Nazism as a political force; the 'Final Solution' and European and American responses. [2]

EUH 4123 Medieval Holy War (3). Analysis of the cross-cultural phenomenon of holy warfare or the sanctification and glorification of militarism in the Christian crusader movement and the Islamic jihad. [1]

EUH 4187 Topics in Medieval European History (3). Selected topics or themes in Medieval history. The themes will vary from semester to semester. With a change in content, the course may be repeated. (The theme will be announced in the yearly schedule). [1]

EUH 4200 Seventeenth Century Europe (3). A thematically-arranged study of social, political and artistic developments, in the 17th century. Concentrates on the 30 years war, absolutism, rural society, scientific revolution, and Baroque art. [2]

EUH 4286 Topics in European History (3). An examination of selected topics or themes in early modern and modern European history. The themes will vary from semester to semester. With a change in content, the course may be repeated. (The theme will be announced in the yearly schedule). [2]

EUH 4300 Byzantine History (3). A survey of the political, cultural, and social history of the Byzantine Empire from 284 to 1461, including Byzantium’s contributions to Christian theology, Roman law, and the culture of the Renaissance and eastern Europe. [1]

EUH 4312 History of Spain (3). A survey of Spanish history from the Reconquista through the Civil War, with particular emphasis on the Golden Age. [2]

EUH 4315 History of Modern Spain (3). Examines social and political history of Modern Spain from 1808 to transition to democracy in post-Franco era. Reading knowledge of Spanish required. Taught in English and Spanish. [2]

EUH 4401 History of Fifth Century Greece (3). An examination of the culture and history of Greece in the age of Herodotus and Thucydides, of Pericles, Aeschylus, Euripides, and Aristophanes. [1]

EUH 4408 The Age of Alexander The Great, 400-280 BC (3). Covers the life and times of Alexander the Great, 356-323 BC. Includes an analysis of the generations immediately before and after Alexander, to place him in context. Extensive use is made of limited primary sources for Alexander’s era. [1]

EUH 4414 Roman Provinces (3). Assessing the impact of the Roman Empire on its indigenous inhabitants, the transformation processes employed to create a homogenized Roman identity and the degree to which assimilation proved effective. [1]

EUH 4432 Between Empire & Renaissance: Italy in the “Middle Age” (3). The Italian peninsula between the age of Roman imperial dominance and the rebirth of Italian centrality during the “Renaissance.” Greek, Germanic, Muslim and Norman intervention and the political role of the Roman Church. [1]

EUH 4440 The Making of Medieval France (3). A survey of French history as a case study in state building from the Celtic period and the incorporation of the region into the Roman empire as Gaul to the reign of Philip Augustus. [1]

EUH 4451 History of Modern France, 1815-1968 (3). Survey of French history form the restoration through the student revolt of May 1968, with attention to questions of change and continuity in the French response to modernity. [2]

EUH 4453 The French Revolution and Napoleon (3). A study of French and European history from 1798 to 1815, with an emphasis on the political development of the Revolution, social groups within France, and the rise of Napoleon. [2]

EUH 4462 History of Modern Germany, 1815-1945 (3). A survey of German history from the unification movement...
through WWII. Topics discussed include Hitler’s relation to the German past, liberalism, modernization. [2]

EUH 4501 England to 1688 (3). A survey of ancient, medieval and early modern English history with attention to continental comparisons and contrasts. [1]

EUH 4520 England in the 18th Century (3). Exploring one of the greatest eras in English history, this course will cover the growth of the British empire, crown and Parliament, the industrial revolution, social problems and English culture. [2]

EUH 4521 Victorian Britain: Culture, Society and Empire (3). Examines key cultural, political, and social developments in nineteenth-century Britain and its empire while introducing students to landmark scholarship on gender, class, and race in the Victorian era. [2]

EUH 4542 Modern Britain, 1688-Present (3). A political, social, and cultural examination of Britain’s rise and fall as a global power. Topics include revolution, urbanization, industry, class society, empire, world wars, and decolonization. [2]

EUH 4563 The Habsburg Dynasty (3). History of Habsburg Dynasty from its medieval origins until the early 1700’s. Members of this family ruled over large portions of Europe as well as over territories around the world, including Florida. [1,2]

EUH 4600 Key Texts in Western Culture to the Renaissance (3). The history of Western Civilization from its beginning to the Renaissance, studied through particularly significant texts. [1]

EUH 4602 The Enlightenment (3). This course deals with the French Enlightenment of the Eighteenth Century, particularly with Voltaire, Diderot, and Rousseau. Impact of the Scientific and English Revolutions on Enlightenment. [2]

EUH 4606 Key Texts in Western Culture from the Reformation to the 20th Century (3). The history of Western Civilization from the Reformation to the present, studied through particularly significant texts. [2]

EUH 4610 Women and Gender in Europe, 1750-Present (3). Examines how women contributed to the development of modern European history. Also explores how ideas about gender and sexuality shaped, and were influenced by, the nature of politics, economics and culture. [2]

EUH 4613 Social History of Early Modern Europe (3). Examines European history 1300-1800 through discussion of various topics including: lords, peasants, demography, family life, education, witchcraft. [2]

EUH 4660 Modern Europe, 1789-Present (3). European history from the French Revolution until today, with special attention to liberalism, nationalism, socialism, communism, and fascism. The course will touch on the main points of the national histories of the various European states, from Britain to Russia. [2]

EUH 4675 History of Islam and Muslims in Europe (3). The history of interactions between Muslims and Europe from the Medieval Period to the period of European colonialism and decolonization.

EUH 4953 Czech History and Culture – Study Abroad (3). Covers the major historical forces and movements which have shaped this area of the world, especially in the last 150 years. The course is taught by FIU and Czech faculty. Prerequisite: Permission of the instructor. [2]

EUH 5905 Readings in European History (3). Students read books from different historiographical traditions and with conflicting interpretations about an important subject in European history. Subjects will vary according to professors. Course may be repeated with departmental approval. Prerequisite: Graduate standing.

EUH 5935 Topics in European History (3). An examination of specific themes or topics in European history. The theme will vary from semester to semester. With a change in theme, the course may be repeated. (The theme will be announced in the yearly schedule). Prerequisite: Graduate standing.

HIS 3051 Approaches to History (3). Examines thematic topics to introduce history majors to the methods, theories, and practices used by historians. Content varies. Prerequisites: History major standing (2 2000-level history courses or the equivalent).

HIS 3151 Archaeological Methods and Perspectives (3). Introduction to the history of archaeology, to archaeological methodology and theory, and to current issues in public archaeology, including cultural resource management.

HIS 3308 War and Society (3). An examination of the ways societies have organized themselves for external and internal wars. The course will also explore the changing conduct of war, the image of the warrior, and the ways in which military institutions have crystallized class structures.

HIS 3314 Women and Gender in Medieval Eurasia (3). Discusses the establishment of patriarchal structures in ancient Mesopotamia, and resistance to those structures in Islamic Central and West Asia, Christian Europe, and Confucian/Buddhist East Asia. [1,4]

HIS 3330 Great Archaeological Discoveries (3). Survey of important archaeological discoveries around the world and their implications for understanding the last 5,000 years of human history.

HIS 4052 Honors Historical Methods (3). Instruction in research skills, principles and methods of critical historical analysis and historiography. Includes exposure to variety of historical approaches. Prerequisite: Permission of the instructor.

HIS 4154 Archaeological Field Work (3-6). Archaeological field work and hands-on instruction in modern excavation practices. Post-finds analysis in the laboratory. Prerequisite: Permission of the instructor.

HIS 4281 Biography as History (3). Biography as an approach to history. Life stories as ways of examining different national or regional histories within a particular historical context. May be repeated with a change in content.

HIS 4311 History of Feminist Thought (3). American and European thinking about women's rights and identities from the Enlightenment to the present. Includes
HIS 4315 Gendered History of the Body (3). Explores the religious, philosophical, political and social construction of the body from a gender perspective.

HIS 4400 The Formation of Urban Society (3). A comparative study of the cultural, social, political and economic development of cities. Topics include: the ancient city, industrialization, immigration, poverty and urban planning.

HIS 4454 The History of Racial Theory in Europe and the United States (3). The literature produced by natural and social scientists on the question of race, the shifting notions of racial identity and difference, superiority and inferiority, and the political and social consequences of these ideas. [2,3]

HIS 4908 Independent Study (VAR). Individual conferences, assigned readings and reports on independent investigations, with the consent of the instructor.

HIS 4930 Special Topics (3). An examination of specific themes or topics in history. The theme will vary from semester to semester. With a change in content, the course may be repeated. (The theme will be announced in the yearly schedule).

HIS 4935 Senior Seminar (3). A seminar to be taken by all history majors, to provide experience in research, writing, and critical analysis.

HIS 4941 Internship in History (1-6). Students enrolled in this internship will gain hands-on experience in archives, libraries, museums, or public history projects. This experience will provide useful preparation for a number of careers or fields of study.

HIS 4973 Honors Thesis in History (3). Research and write an honors thesis under direction of faculty member. Prerequisite: Permission of the instructor.

HIS 5067 Public History (3). The theory, methods and practice of history in non-academic settings, including museums, national parks, governmental agencies, corporations, and community organizations. Prerequisite: Graduate Standing.

HIS 5084 Museum History (3). Examines key texts in the history of museums in modern Europe and the United States. Among issues it addresses are nationalism, imperialism, memory, and identity politics. Prerequisite: Graduate Standing.

HIS 5289 Comparative History (3). A study of specific topics in history that cut across regional, national, and chronological lines. The topics will change from semester to semester, and with a change in content, the course may be repeated. (The topic of the course will be announced in the yearly schedule). Prerequisite: Graduate standing.

HIS 5347 History of Social Thought (3). Examines the evolution of major currents in Western social thought from the nineteenth century to the present, emphasizing how these ideas have influenced historians’ work.

HIS 5908 Independent Study (VAR). Individual conferences, assigned readings and reports on independent investigations, with the consent of the instructor. Prerequisite: Graduate standing.

HIS 5910 Advanced Research Seminar (3). Small group sessions will analyze particular subject areas in history, with the consent of the instructor. Prerequisite: Graduate standing.

HIS 5930 Special Topics (3). An examination of specific themes or topics in history. The theme will vary from semester to semester, and with a change in content, the course may be repeated. (The theme will be announced in the yearly schedule). Prerequisite: Graduate standing.

HIS 5940 Supervised Teaching (1-3). The students will work under the close supervision of a regular member of the faculty in a mentorial fashion. The supervision will cover various aspects of course design and delivery in history. Prerequisite: Graduate standing.

LAH 2020 Latin American Civilization (3). An analysis of the underlying themes that have shaped the history of the Ibero-American areas from the time of initial contact to the present. Emphasis is given to cultural exchange and transformation. Written work meets the state composition requirement.

LAH 3132 The Formation of Latin America (3). An examination of Latin America in the colonial period, focusing on conquest, Indian relations, the landed estate, urban functions, labor, and socioeconomic organization from the 15th through the 18th Centuries. [4]

LAH 3200 Latin America: The National Period (3). Trends and major problems of Latin American nations from independence to the present. [4]

LAH 3450 Central America (3). An overview of Central American history from colonial times to the present, with emphasis on the period after the mid-Eighteenth Century. All five modern nations are dealt with in some detail, while the thematic focus is on social and economic history. [4]

LAH 3718 History of U.S.-Latin American Relations (3). Surveys the history of the social, economic and political relations between the U.S. and the countries of Central America, South America, and the Caribbean basin during the last two centuries. [4]

LAH 3740 Comparative History of Latin American Revolutions and Rebellions (3). Identifies the historical forces driving revolutionary change in Latin America. Causes of revolutions, directions of the revolutionary movements, and their political agendas. [4]

LAH 4433 Modern Mexico (3). An examination of the central themes of nation-building in Mexico from 1810 to the present: race, land, political authority, regionalism, dictatorship, and the Mexican Revolution. [4]

LAH 4471 Colonial Caribbean in Comparative Perspective (3). An overview of the Caribbean region from the fifteenth through the nineteenth centuries. Examines the changing economic, social, and political position of the area and provides an understanding of how the colonies have been shaped by their experiences. [4]

LAH 4482 Cuba: 18th—20th Centuries (3). The socioeconomic and political setting in Cuba since the mid-Eighteenth Century. [4]
LAH 4511 Argentina: 18th—20th Centuries (3). A survey of the social and political formation of the Argentine nation, starting with the colonial legacy and ending with the contemporary political situation. [4]

LAH 4600 History of Brazil (3). Origins of Portuguese rule and African slavery; crisis of colonialism and transition to independence; coffee, abolition, and the Brazilian Empire; Republican Brazil and the Revolution of 1930; postwar developments. [4]

LAH 4720 Family and Land in Latin American History (3). Evolution of land tenure in Latin American societies and its connections with the strategies and interests of elite families. [4]

LAH 4721 History of Women in Latin America (3). Examines women’s roles in indigenous societies, in the colonial period, during independence, and in the 19th century. Also explores women and slavery, populism and popular culture, and the rise of the feminist movement. [4]

LAH 4731 Latin American Environmental History (3). Examines how environmental factors have shaped historical processes in Latin America from the 15th through the 20th centuries. [4]

LAH 4734 Latin American History Through Film (3). Introduces students to central events in the history of colonial and modern Latin America through the use of films. Looks at central historical figures and focuses on critical issues of the period. [4]

LAH 4750 Law and Society in Latin American History (3). Social history of law and legal struggles by colonial Indians, black slaves, peasants, women and contemporary “colonos” (settlers). Its emphasis is on the prevalence of legal confrontations throughout Latin American history. [4]

LAH 4932 Topics in Latin American History (3). Selected topics or themes in Latin American history. The themes will vary from semester to semester. With a change in content, the course may be repeated. (The theme will be announced in the yearly schedule). [4]

LAH 5905 Readings in Latin American History (3). Students read books from different historiographical traditions and with conflicting interpretations about an important subject in Latin American history. Subjects will vary according to professors. Course may be repeated with departmental approval. Prerequisite: Graduate standing.

LAH 5935 Topics in Latin American History (3). An examination of specific themes or topics in Latin American history. The theme will vary from semester to semester. With a change in theme, the course may be repeated. (The theme will be announced in the yearly schedule). Prerequisite: Graduate standing.

WOH 2001 World Civilization (3). Comparative histories of major world civilizations, including China, India, the Muslim Middle East, Africa, Latin America, and the West. Emphasis on cultural characteristics and interactions. Written work meets the state composition requirement.

WOH 3282 Modern Jewish History (3). A survey of the major currents in modern Jewish History. The reaction to the Enlightenment, the American experience, the growth of the Eastern European Shtetl, the Holocaust and the birth of the State of Israel.

WOH 4230 The African Diaspora and the Atlantic Slave Trade (3). Topics include slavery in Africa and the Diaspora, as well as Diasporic religion, kinship, gender, sexuality, language, resistance and creolization. [4]

WOH 4301 The Modern African Diaspora (3). Topics include slave resistance, Black Nationalism, socialism, anti-colonialism, gender, religion, art and literature, race and medicine, and Afrocentrism. [4]

WOH 5236 The Transatlantic Slave Trade and the Making of African Diaspora, 1441-1807 (3). Topics include slavery and economy in Africa and the Diaspora, as well as Diasporic religion, kinship, gender, sexuality, language, oral tradition, resistance, and creolization. [4]

WOH 5237 The African Diaspora Since the End of the Slave Trade (3). Primary emphasis on history of social and intellectual movements. Topics include slave resistance, black nationalism, socialism, anti-colonialism, gender, art and literature, and Afrocentrism. [4]

WOH 5935 Topics in World History (3). An examination of specific themes in World History. Topics will vary with a change in theme, the course may be repeated. Prerequisites: Permission of the instructor or graduate standing.
Liberal Studies

Leonard Keller, Professor, Chemistry and Biochemistry and Director, Liberal Studies
Grenville Draper, Professor, Earth and Environment and Associate Director, Liberal Studies
Kenneth Rogerson, Professor and Chairperson, Philosophy and Associate Director, Liberal Studies, BBC
Kiriake Xerohemona, Lecturer, Philosophy and Graduate Program Director, Master of Arts in Liberal Studies

The Liberal Studies Program exposes the student to a wide range of courses offered by the College, while granting the opportunity to pursue an individualized program of studies under the Liberal Studies guidelines. These guidelines include six categories of courses: (1) Foundations of Liberal Studies, two broad-based courses chosen by the directors from the Social Sciences, Natural Sciences, or the Humanities; (2) Interdisciplinary Colloquia, two courses involving faculty from several departments of the College, and dealing with interdisciplinary topics; (3) Natural Sciences, two courses to expose the student to the scientific method and its application to problems in the sciences; (4) Humanities, two courses dealing with the analysis of literary, philosophical, religious, and historical topics or appreciation of works of art, music, and theatre; (5) Social Sciences, two courses to expose the student to the basic theories and methods of social scientists in the fields of economics, international relations, political science, psychology, sociology/anthropology, and environmental studies; (6) Artistic Creation, one course in studio art or studio music, creative writing, or theatre to allow the student to experiment with his or her own creativity, and to experience the work of the artist.

Students are free to choose any combination of courses within these guidelines. Under the advisement of the Director or Associate Director of Liberal Studies, the student will be encouraged to pursue a minor, a certificate, or a double major.

Bachelor of Arts

Degree Program Hours: 120

Lower Division Preparation

Common Prerequisite Courses and Equivalencies

<table>
<thead>
<tr>
<th>FIU Course(s)</th>
<th>Equivalent Course(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>None</td>
<td>None</td>
</tr>
</tbody>
</table>

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

Common Prerequisites

No specific courses required; all students transferring from Florida community colleges are encouraged to complete the Associate in Arts degree.

Recommended Courses: Arts and Sciences concentration recommended. To qualify for admission to the program, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable into the program.

Upper Division Program

Required Courses: (33 credits)

Courses offered by any of the units of the College of Arts and Sciences, chosen in accordance with academic guidelines of the Liberal Studies Program, to meet requirements in the four following areas:

- Natural Sciences 6
- Humanities 6
- Social Sciences 6
- Artistic Creation 3

Interdisciplinary Colloquia offered by the Liberal Studies Program 6

Foundations of Liberal Studies 6

All courses must be completed with a grade of “C” or better.

Electives: (27 credits)

The remaining hours will be taken as electives.

Combined BA/MA in Liberal Studies

The combined (4+1) Bachelor/Master of Arts in Liberal Studies offers outstanding undergraduate FIU students in Liberal Studies as well as in majors such as Philosophy the opportunity to earn a Masters degree in only one additional year beyond the BA degree.

The (4+1) program represents two distinct options:

1. Liberal Studies to MALS. This option allows students to complement the undergraduate major with graduate study in the same discipline as the undergraduate study.
2. Other majors such as Philosophy to MALS. This option allows students to complement the undergraduate major with graduate study in another area.

The goal is to attract outstanding students into the combined program so that they formally apply to the program in the first semester of their senior year (i.e., when they have completed 90 credit hours.) Interested students should speak with the undergraduate advisor as early as possible because careful selection of undergraduate courses in the sophomore and junior years will be essential for admission to the program.

To be considered for admission to the combined bachelor’s/master’s degree program, students must have completed at least 75-90 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to
Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Applicants to the accelerated program need a GPA of 3.20. Formal admission to the accelerated program will usually be in the first semester of the senior year. Students would be also required to maintain a GPA of at least 3.20 to remain in the program. Participation in this program allows the students to fulfill some graduate program requirements during their senior year. More specifically, students at the senior level may be allowed to earn up to 9 graduate credits that will count towards their MALs degree. Up to 3 graduate courses (9 credits) may be used to satisfy both the Bachelor and Masters degree requirements. All double counted courses must be at the 5000 level of higher. Courses to be allowed to be double counted must be approved by MALs. Before starting the graduate program students must have satisfied all general education and core requirements.

The curriculum for the (4+1) MALs will meet criteria identical to those of the MALs program. A student will not be eligible for assistantship funding before completing all requirements for the Bachelors degree. For double-counted courses, students must confirm with their graduate program advisor that he or she is taking the course for graduate credit. Graduates and undergraduates may have different workloads and grading criteria. The student must earn a grade of "B" or better for these courses to count towards the Masters requirements.

Admission Requirements

1. Current enrollment in a bachelor's degree in Philosophy or Liberal Studies.
2. Completion of at least 90 credits hours of coursework.
3. A current GPA of 3.20 or higher.
4. Application to the Department to enroll in the (4+1) MALs program that will include:
   - Three letters of recommendation
   - Personal statement [2-3 pages] describing goals and objectives in seeking a combined accelerated degree
   - A 8-25 page writing sample of satisfactory quality
5. On-line application to the University Graduate School for admission to the MALs program.
6. Positive evaluation by the undergraduate program director.
7. Approval of the graduate admissions committee.
8. In addition to the admission requirements of the (4+1) MALs program, students must meet all the admission requirements of the University Graduate School.

Completion Requirements

1. Completion of both the required courses for the BA (33 credits) and the required courses for the MALs (33 credits).

For the Liberal Studies-to-MALS option, either the 3 Great Ideas Seminars or 3 – 5000 or 6000 level courses in Natural Sciences, Humanities or Social Sciences may be used to satisfy both the Bachelors and Masters degree.

For other majors such as the Philosophy-to-MALS option, either 3 Great Ideas Seminars or 3 – 5000 or 6000 level courses in Natural Sciences, Humanities or Social Sciences may be used to satisfy both the Bachelors and Masters degree.

2. The Bachelor's degree must be awarded when the student completes the requirements for the degree. In other words, the Bachelor's degree must be awarded before the Master's degree.
3. Students in the (4+1) MALs program have up to one year to complete the Master's degree after receipt of the Bachelor's degree.
4. Students who fail to meet the one year post BA requirement or who elect to leave the (4+1) MALs program at any time and earn only the BA degree will have the same access requirements to a regular graduate program as any other student, but will not be able to use the 9 credits in both the Bachelor's and the Master's degrees.

Summary of Degree Requirements

Great Ideas Seminars: 9 hours (minimum*)
Interdisciplinary Concentration: 18 hours (minimum*)
Master's Essay or Master's Thesis: 3 hours or 6 hours
Total Hours: 33 hours (minimum*)

*33 hours of coursework are required of all (4+1) MALs students. However, a maximum of 3 hours are awarded for the “Master’s Essay” course as opposed to 6 hours for “Master’s Thesis” course. Students who choose the Essay option must complete either 4 Great Ideas Seminars or 21 hour Interdisciplinary Concentration.

Course Descriptions

Definition of Prefixes

IDS-Interdisciplinary Studies

IDS 2930 Faculty Scholars Seminar (1). Provides freshman Faculty Scholars the opportunity to participate in the interdisciplinary study of significant themes. May only be taken twice.

IDS 3930 Foundations of Liberal Studies (3). This will be a broad synthesis of knowledge and methods in the Arts and Sciences taught from the perspective of different disciplines. Specific topics will be announced in advance.

IDS 3949 Cooperative Education in Liberal Studies (3). A student majoring in Liberal Studies may spend one semester fully employed in industry in a capacity relating to the major. This course must be taken as an elective.

IDS 4905 Independent Study (VAR). Cross-disciplinary topics for individual study and research to be chosen by students in consultation with their faculty advisors. This course must be taken as an elective.

IDS 4920 Liberal Studies Colloquia (3). Individual sections will study, from an interdisciplinary perspective,
issues selected and presented jointly by College faculty. Specific topics will be announced in advance.

IDS 4930 Foundations of Liberal Studies (3). This will be a broad synthesis of knowledge and methods in the Arts and Sciences, taught from the perspective of different disciplines. Specific topics will be announced in advance.

IDS 4949 Cooperative Education in Liberal Studies (3). A student majoring in Liberal Studies may spend one semester fully employed in industry in a capacity relating to the major. This course must be taken as an elective.

Minor in Humanities (15 hours)

Bruce A. Harvey, Associate Professor, English, Director, Minor in Humanities
Marion Demos, Associate Professor, Modern Languages (Classics)
Rebecca Friedman, Associate Professor, History
Daniel R. Guernsey, Associate Professor, Art History
Joyce Peterson, Associate Professor, History
Kenneth Rogerson, Professor, Philosophy
Richard P. Sugg, Professor, English
Barbara Watts, Associate Professor, Art History

Students majoring in any other discipline may minor in Humanities.

The Humanities Minor course curriculum emphasizes the study of Classical culture and its continuities with our modern, global world. Whether learning about the ancient world, or building a foundational language base in Greek or Latin, or examining art and culture through a rich array of interdisciplinary courses, students who earn the Humanities Minor find it a fine complement to College of Arts and Sciences and professional-school majors.

Requirements

A. One of the following courses (3 hours):
   HUM 3214 Ancient Classical Culture and Civilization
   or
   HUM 4431 The Greek World
   or
   HUM 3432 The Roman World

B. Four additional HUM courses (including classical languages) (12 hours)

Course Descriptions

Definition of Prefixes
GRE-Classical Greek; GRW-Classical Greek Literature;
HUM-Humanities; LAT-Latin

GRE 1130 Classical Greek I (5). Emphasis on grammar, and on basic reading and writing skills. GRE 1131 Classical Greek II (5). Emphasis on grammar, and on basic reading and writing skills. Prerequisite: GRE 1130.

GRE 2200 Intermediate Classical Greek (3). Emphasis on grammar, and on acquiring intermediate reading and writing skills. Prerequisite: GRE 1131.

GRW 3210 Greek Prose Writers (3). Translation into English and grammatical analysis of selected texts of Classical prose writers, such as Plato, Aristotle, Xenophon, Thucydides and Plutarch. Prerequisites: Reading knowledge of Classical Greek or GRE 2200.

GRW 3390 Readings in Greek Literature (3). Translation into English and grammatical analysis of selected texts of ancient Greek authors, prose and verse, such as Plato, Plutarch and Homer. The topics will change from semester and with a change in content, the course may be repeated. Prerequisites: GRE 1131 or reading knowledge of Classical Greek.

HUM 2512 Art and Society (3). A study of the relationship between art and culture in different periods, including patronage, the role of the artist, and the relationship between art and economic, political, religious, and ideological forces.

HUM 2701 Study Abroad in the Humanities (1-9). Integrated study of painting, architecture, music, drama, dance, and philosophy. Attitudes and beliefs of societies as they are reflected in the arts.

HUM 3214 Ancient Classical Culture and Civilization (3). Explores the culture of the ancient Greek and Latin worlds from an interdisciplinary perspective and studies the varied conceptions of the individual, society, and nature. Written work meets the state composition requirement.

HUM 3231 Renaissance and Baroque Cultures (3). An in-depth examination of the cultural monuments of the Renaissance, Reformation, Counter-Reformation, and Baroque periods and of the forces that helped shape them.

HUM 3246 The Enlightenment and the Modern World (3). Explores the culture of the Enlightenment and the modern world from an interdisciplinary perspective and studies the varying conceptions of the individual, society, and nature.

HUM 3252 20th Century Culture and Civilization (3). The 20th century through the Vietnam war, as represented by the period’s creative and intellectual works in literature, art, history and philosophy - discussed from an interdisciplinary perspective.

HUM 3254 The Contemporary World (3). Significant creative and intellectual works, ideas and movements of the last twenty years surveyed and discussed from an interdisciplinary perspective.

HUM 3304 Values in Conflict (3). Philosophical, ethical, and religious foundations of Western civilization and significant challenges its value system has received from critical and revolutionary thought.

HUM 3306 History of Ideas (3). The historical development of fundamental concepts through an interdisciplinary cultural approach. Nature, freedom, beauty, virtue, alienation, and relativism are traced in literature, art, and philosophy including the social context of developing ideas. Written work meets the state composition requirement.

HUM 3325 Women, Culture and History (3). Examines women’s lives within various world cultures and historical periods. Examines the cultural meaning
attributed to women, women's lived experiences and historical contributions.

HUM 3432 The Roman World (3). An in-depth examination of selected cultural monuments and events of the Roman Republic and Empire and of the forces that helped shape them.

HUM 3435 The Medieval World (3). An in-depth examination of cultural monuments of the European Middle Ages and of the forces that helped shape them.

HUM 3514 Art in Context (3). Examines topics concerning art in the context of the history and culture of a particular society (May be repeated with a change in content.) Prerequisite: Junior standing.

HUM 3545 Art and Literature (3). A study of a period in the history of visual art as it relates to literature. Topics may include art and mythology, sacred and profane love in art and literature, painting and poetry, and the novel and art.

HUM 3562 Politics and the Arts (3). Explores arts and patronage in relation to the politics and ideologies of a given place and time. Topics vary. (May be repeated with a change in content.)

HUM 3591 Art and Technology (3). Explores the relationship between innovations in technology and artistic expression. Course theme is media based, and varies from semester to semester. (May be repeated with a change in content.)

HUM 3930 Female/Male: Women's Studies Seminar (3). An examination of specific topics in the humanities. The topics may vary from semester to semester. (May be repeated with a change in content.)

HUM 3939 Special Topics (3). An examination of specific topics in the humanities. The topics may vary from semester to semester. (May be repeated with a change in content.)

HUM 3949 Cooperative Education in Humanities (3). A student majoring in Humanities may spend one or two semesters fully employed in industry in a capacity relating to the major.

HUM 4248 The World of Dante and Giotto (3). Examines the culture of medieval Italy, with emphasis on the writings of Dante Alighieri and the paintings of Giotto di Bondone. Prerequisites: HUM 2512 or ARH 2050 or ARH 2051, or permission of the instructor.

HUM 4392 Human Concerns (3). Examines concerns important to the human condition, including varying conceptions of human nature, the relation of the individual to society, the quest for identity, the search for meaning through literature, art and social institutions. (May be repeated with a change in content.)

HUM 4431 The Greek World (3). An in-depth examination of selected cultural monuments and events of the Greek World in the Classical and Hellenistic periods and of the forces that helped shape them. (May be repeated with change in content.)

HUM 4491 Cultural Heritages and Cultural Changes (3). Focuses upon various cultures and their development, including such topics as: cultural evolution and revolution, ethnicity and pluralism, and subcultures and countercultures. (May be repeated with a change in content.)

HUM 4543 Literature and Philosophy (3). The interpretation of literature and philosophy from an interdisciplinary perspective. In addition to philosophical novels, poetry, and drama, the course may examine the philosophical scrutiny of literature.

HUM 4544 Literature and the Humanities (3). Literature from an interdisciplinary perspective. Literary texts are related to the cultural context of their production and the ideas surrounding them.

HUM 4555 Symbols and Myths (3). An in-depth examination of mythology and symbolic language within the cultural and psychodynamic forces that inform them. This course gives special emphasis to Classical myths.

HUM 4561 Ethics and the Humanities (3). Human values studied from an interdisciplinary perspective. Selected ethical issues are examined using philosophical, historical, or literary texts. The relationship between ethical values and cultural achievements is explored.

HUM 4580 Film Humanities (3). Studies the significance of film in Western culture: the language, semiotics and technique of films with the aid of appropriate cinematographical material.

HUM 4906 Independent Study (1-3). Directed independent research. Requires prior approval by instructor. (May be repeated with a change in content.)

HUM 4920 Humanities Seminar (3). Addresses a specific topic in-depth from a variety of perspectives. Topics will be announced in advance. (May be repeated with a change in content.)

HUM 5935 Graduate Seminar in Humanities (3). A specialized thematic topic offered at the Graduate level. Topics will vary and will be announced in advance. (May be repeated with a change in content.)

LAT 1130 Latin I (5). Emphasis on grammar and on acquiring basic reading and writing skills.

LAT 1131 Latin II (5). Emphasis on grammar and on acquiring reading and writing skills. Prerequisite: LAT 1130.

LAT 2200 Intermediate Latin (3). Emphasis on grammar and on acquiring basic reading and writing skills. Prerequisite: LAT 1131.

LAT 3202 Latin Prose Writers (3). Translation into English and grammatical analysis of selected texts of classical prose writers such as Cicero, Caesar and Livy. Prerequisites: Reading knowledge of Latin or LAT 2200.

LAT 3203 Readings in Latin Literature (3). Translation into English and grammatical analysis of selected texts of Latin authors, prose and verse, such as Cicero, Livy, Virgil and Horace. (May be repeated with a change in content.) Prerequisites: LAT 1131 or reading knowledge of Latin.

Electives

The balance of the 60 semester hour requirement for graduation may be chosen from any courses in the University approved by the student’s advisor. Remarks: The following courses are not acceptable for credit toward graduation, unless a student has passed the course before declaring a Mathematics major: MAC 2233, STA 1013, STA 2122, STA 3123, STA 2023, and QMB 3200 (College of Business Administration).

Combined BS in Mathematics/MS in Mathematical Sciences

This program will allow strong students in mathematics to complete a bachelor’s degree and a master’s degree in 5 years rather than the usual six. A minimum of 140 credits are required for graduation with both the bachelor’s and the master’s degree. In addition to fulfilling the requirements for the Bachelor’s degree in mathematics, these 140 credits include 30 graduate credits required for the Master’s of Science in Mathematical Sciences. A maximum of ten (10) graduate mathematics credits can be concurrently used toward the bachelor’s and master’s degrees.

To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admission Requirements

1. Current enrollment in a Bachelor’s degree program in mathematics.
2. Current overall GPA of at least 3.2 and GPA of at least 3.2 in upper division courses.
3. Completion of 90 undergraduate credit-hours.
4. A minimum combined (verbal and quantitative) GRE score of 1000 to be obtained before entering the MS phase of the program.
5. Approval of the graduate committee.

Bachelor of Arts in Mathematics: Mathematics Education Major

Degree Program Hours: 120

Lower Division Preparation

To qualify for admission to the program, a student must have met all the lower division requirements and must be otherwise acceptable into the program. In addition to the University Core Curriculum, Foreign Language, and Common Prerequisites, requirements include a minimum overall GPA of 2.5 for all lower-division/transfer coursework and achieve the competencies of the CLAS requirement, the General Knowledge Exam, or the Praxis.

¹a scientific programming course designed for computer science majors.
²one laboratory based science course designed for science majors.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

Common Prerequisites

| MAC 2311   | Calculus I   |
| MAC 2312   | Calculus II  |
| MAC 2313   | Calculus III |

MAP 2302 Differential Equations
COP 2250 Java Programming
COP 2210 Introduction to Programming
COP 2270 C for Engineers

Completion of one of the following courses with labs:

- BSC 1010 General Biology I
- BSC 1010L General Biology Lab I
- BSC 1011 General Biology II
- BSC 1011L General Biology Lab II
- BSC 1011L General Biology Lab II
- CHM 1045 General Chemistry I
- CHM 1045L General Chemistry Lab I
- CHM 1046 General Chemistry II
- CHM 1046L General Chemistry Lab II
- PHY 2048 Physics with Calculus I
- PHY 2048L Physics with Calculus Lab I
- PHY 2049 Physics with Calculus II
- PHY 2049L Physics with Calculus Lab II

Courses required for the degree:

Completion of one additional science course with lab from previous list, and

- MAD 2104 Discrete Math
- MAS 3105 Linear Algebra

Upper Division Math and Statistics Core: 23

- MAP 3103 Mathematical Modeling 3
- MAP 3103L Lab for Mathematical Modeling 1
- MAA 3200 Introduction to Advanced Mathematics 3
- MTG 3212 College Geometry 3
- MHF 3404 History of Mathematics 3
- MAS 4203 Number Theory 3
- MAT 4510 Problem Solving Seminar 3
- STA 4321 Introduction to Mathematical Statistics I 3

-or

- STA 3163 Statistical Methods I 3
- MAE 3894 Early Teaching Experience 1

Upper Division Education Core: 29

- MAE 4393 Nature of Math and Science 3
- MAE 4394 Perspectives in Math and Science Education 3
- MAE 3893 Mathematics Education Seminar 1
- RED 4325 Subject Area Reading 3
- MAE 3651 Learning Mathematics with Technology 3
- MAE 4330 Teaching and Learning Secondary Mathematics 4
- TSL 4324 ESOL Issues and Strategies for Content Area Teachers 3
- MAE 4942 Student Teaching 9

Minor in Mathematics

Required Courses

MAC 2311-2-3 Calculus I-I-III (or equivalent).

Plus four courses from those approved for the upper division program of the BS in Mathematics. MAP 2302 and MAP 3105 are included among these four courses.

A grade of ‘C’ or higher is necessary for the minor.

Remarks: Courses completed elsewhere may be applied to the Mathematics minor, with the approval of the department. However, at least 2 of the 4 courses noted above, excluding MAC 2311-2-3, must be completed at FIU.
Minor in Mathematical Sciences

Required Courses
MAC 2311-2-3, Calculus I,II,III (or equivalent).
Plus MAP 2302, MAS 3105, and two courses from the following list:

- COP 3337  Intermediate Programming  3
- COP 3402  Fundamentals of Computer Systems  3
- MAD 2104  Discrete Mathematics  3
- MAD 3401  Numerical Analysis  3
- MAD 3512  Introduction to the Theory of Algorithms 3
- MAT 4934  Senior Seminar  1
- MAP 4401  Advanced Differential Equations  3
- STA 3163-4  Statistical Methods I and II  3-3

A grade of 'C' or higher is necessary for the minor.
Remarks: Courses completed elsewhere may be applied to the Mathematical Sciences minor, with the approval of the department. However, at least 2 of the 4 courses noted above, excluding MAC 2311-2-3, must be completed at FIU.

Bachelor of Science in Statistics

Degree Program Hours: 120

Lower Division Preparation
To qualify for admission to the program, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable into the program.

¹a scientific programming course designed for computer science majors.
²two laboratory based science course designed for science majors.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: [http://facts.org](http://facts.org), See Common Prerequisite Manual.

Common Prerequisites

- COP 2210  Programming I  or COP 2270  C for Engineers
- MAC 2311  Calculus I
- MAC 2312  Calculus II
- MAC 2313  Multivariable Calculus
- STA 2XXX  Any introductory statistics course or consent of the department

Two of the following:
- BSC 1010  General Biology I
- BSC 1010L  General Biology Lab I
- BSC 1011  General Biology II
- BSC 1011L  General Biology Lab II
- BSC 2023  Human Biology
- BSC 2023L  Human Biology Lab
- CHM 1032  Chemistry & Society
- CHM 1032L  Chemistry & Society Lab
- CHM 1033  Survey of Chemistry
- CHM 1033L  Survey of Chemistry Lab
- CHM 1045  General Chemistry I
- CHM 1045L  General Chemistry Lab I
- CHM 1046  General Chemistry II
- CHM 1046L  General Chemistry Lab II
- PHY 2048  Physics with Calculus I
- PHY 2048L  General Physics Lab I
- PHY 2049  Physics with Calculus II
- PHY 2049L  General Physics Lab II

Courses required for the degree:

- MAS 3105  Linear Algebra

Upper Division Program

Required Courses: (33)

- STA 3163  Statistical Methods I  3
- STA 3164  Statistical Methods II  3
- STA 3951  Oral Presentations in Statistics  0
- STA 4321  Introduction to Mathematical Statistics I  3
- STA 4322  Introduction to Mathematical Statistics II  3
- STA 4202  Introduction to Design of Experiments  3
- STA 4234  Introduction to Regression Analysis  3
- STA 4664  Statistical Quality Control  3
- ENC 3213  Professional & Technical Writing  3

Six additional credit hours of approved statistics courses. Three additional credit hours in an approved statistics, mathematics, or computer science course. A grade of 'C' or higher in each of these courses is necessary for the major.
Electives

The balance of the 120 semester hour requirement for graduation may be chosen from any courses in the University approved by the student's advisor. Remarks: The student must consult his or her advisor to determine which courses, in addition to the required courses listed above, satisfy the requirements for a statistics major. The following courses are not acceptable for credit toward graduation, unless a student has passed the course before declaring a statistics major: MAC 2233, STA 1013, STA 2023, STA 3033, STA 3111, STA 3112, STA 2122, STA 3123, STA 3145 and QMB 3200 (College of Business Administration).

Combined BS/MS in Statistics

To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admission Requirements

- Current enrollment in the first semester of the senior year Bachelor's Degree Program in Statistics at FIU.
- Completed or enrolled in at least 90 undergraduate credits hours
- Current GPA of 3.25 of higher
- GRE combined score of at least 1000 (quantitative and verbal)

Courses and other General Requirements

Students enrolled in the program may count up to 9 hours as credits for both the undergraduate and graduate degree programs. These courses must be taken at least at the 5000 level and can be chosen from the following list (amongst others):

- STA 5206 Design of Experiments I
- STA 5236 Regression Analysis
- STA 5507 Nonparametric Methods
- STA 5666 Advanced Quality Control
- STA 5207 Topics in Design of Experiments
- STA 7707 Multivariate Methods I
- STA 7708 Multivariate Methods II

Students who count cross listed courses towards the degree will not get credit for both the 4000 level and the 5000 level course. In fact, the students will not be allowed to take both the courses.

In addition, as part of earning the MS degree the students are required to take the following core courses:

- STA 6244 Data Analysis I
- STA 6247 Data Analysis II
- STA 6326 Mathematical Statistics I
- STA 6327 Mathematical Statistics II

The BS/MS program is designed to be a continuous program. However, upon completion of all the requirements of the undergraduate degree, students will receive the BS degree. Students in this program have up to one year after receipt of the bachelor's degree to complete the MS degree. Students who fail to meet the post BS requirement or who elect to leave the combined program at any time earn only the BS degree will have the same access requirements to regular graduate programs as any other student but will not be able to use the 9 credits for both the bachelor's and master's degree.

Students enrolled in the program must maintain an overall GPA of 3.0 or higher and must get a minimum grade of “B” in all the core courses. Upon completion of the entire 4+1 program, students must have accumulated a minimum of 30 hours of credits at the graduate (5000+) level. In addition, to get the MS degree, the students will also be required to take a comprehensive examination or do a thesis. Students opting for the comprehensive exam will be required to take an additional 6 hours of credits at the graduate (5000+) level. All students enrolled in the program will be expected to attend the departmental seminars.

Minor in Statistics

Lower or Upper Division Preparation: (3 or 4)

- MAC 2312 Calculus II 4
- STA 2023 Statistics for Business and Economics 3
- STA 2122 Introduction to Statistics I 3
- STA 3111 Statistics I 3

Upper Division Program: (12)

Required Courses

- STA 3163 Statistical Methods I 3
- STA 3164 Statistical Methods II 3

Two additional courses from the following list:

- STA 3033 Introduction to Probability and Statistics for CS 3
- STA 4321 Introduction to Mathematical Statistics I 3
- STA 4322 Introduction to Mathematical Statistics II 3
- STA 4202 Introduction to Design of Experiments 3
- STA 4234 Introduction to Regression Analysis 3
- STA 4502 Introduction to Nonparametric Methods 3
- STA 4664 Statistical Quality Control 3

Remarks: No courses in statistics, mathematics or computer sciences can be applied to more than one minor in these disciplines, nor can courses used to satisfy major requirements be used towards minor requirements. In the case where a course is required for both a major in one area and a minor in another, the student should see his or
Certificate Program in Actuarial Studies

The department offers a certificate in Actuarial Studies. For further information refer to the Certificate section at the end of the College of Arts and Sciences’ section.

Course Descriptions

Definition of Prefixes

COT 5420 Theory of Computation I (3). Abstract models of computation; halting problem; decidability and undecidability; recursive function theory. Prerequisite: MAD 3512.

IDS 4174 Mathematics and Philosophy in Arts – GL (3). A panorama and a study of the global interrelation of mathematics, philosophy, and visual arts with emphasis on the evolution of the role of geometry in depicting the perspective in arts.

MAA 3200 Introduction to Advanced Mathematics (3). Topics include: naive set theory, functions, cardinality, sequences of real numbers and limits. Emphasis on formal proofs. Prerequisite: MAC 2313. (F)

MAA 4211 Advanced Calculus (3). An intense study of the foundations of calculus. Topics may include: the real number system, continuity, differentiation, Riemann-Stieltjes integration, and series of functions. Note: The student must complete MAA 3200 before attempting this course. Prerequisites: MAC 2313, MAS 3105 and MAA 3200. (S)

MAA 4212 Advanced Calculus II (3). A sequel to MAA 4211. Topics may include: theory of integration; analysis in several variables; and Fourier series. Prerequisite: MAA 4211.

MAA 4402 Complex Variables (3). An introduction to complex variables, beginning with the algebra and geometry of the complex number system. Topics include: complex functions; analytic functions; Cauchy’s theorem and its consequences; Taylor and Laurent series; residue calculus; evaluation of real integrals and summation of series; conformal mapping. Prerequisites: MAC 2313, and MAP 2302 or MAA 4211. (F)

MAA 5406 Complex Analysis (3). Harmonic functions, normal families, Riemann mapping theorem, univalent functions, infinite products and entire functions, elliptic functions, analytic continuation. Prerequisites: MAA 4211 and MAA 4402.

MAA 5616 Introduction to Real Analysis (3). Lebesgue Measure and Integral with applications to Integral Transforms. Prerequisites: MAS 3105, MAA 4211, MAP 4401 or MAA 4212.

MAC 1105 College Algebra (3). Operations on polynomials, rational expressions, radicals; lines, circles; inverse functions, exponential and logarithmic functions; systems of equations and inequalities. Students cannot receive credit for both this course and MAC 2147. Prerequisites: MAT 1033 or acceptable score in placement test. (F,S,SS)

MAC 1114 Trigonometry (3). Trigonometric functions, identities, conditional equations, polar coordinates, vectors, polar graphs, complex numbers, DeMoivre’s Theorem, conic sections. Student cannot receive credit for both this course and MAC 2147 Pre-calculus. Prerequisite: Grade of “C” or higher in College Algebra. (F,S,SS)

MAC 2147 Pre-calculus Mathematics (4). Topics to be covered include: functions, exponential and logarithmic functions, trigonometry and the basics of analytic geometry. Prerequisites: Two years of high school algebra and adequate placement test score. (F,S,SS)

MAC 2233 Calculus For Business (3). A one semester introduction to the basic notions of calculus. Specific topics include: Differential Calculus using polynomial, exponential and logarithmic functions, and its application to optimization; integral calculus with area and probability applications. Prerequisites: Grade of “C” or higher in College Algebra or Pre-calculus or adequate placement test score. (F,S,SS)

MAC 2241 Calculus 1 for Biology (4). Emphasis on applications to biological systems. Concepts of calculus will be developed together with solutions, techniques of both analytical and numerical nature. Prerequisite: MAC 2147.

MAC 2241L Lab for Calculus 1 for Biology (1). Review of numerical methods used in calculus 1 by students in QBIC program. Prerequisite: Permission of the department.

MAC 2242 Calculus 2 for Biology (4). A continuation of Calculus 1 for Biology. Covers calculus 2 concepts with emphasis on biological applications. A portion of the course deals with differential equations. Prerequisite: MAC 2241.

MAC 2242L Lab for Calculus 2 for Biology (1). Review of numerical methods in calculus 2 by students in QBIC program. Prerequisite: Permission of the department.

MAC 2311 Calculus I (4). Limits, derivatives and their formulas, applications of derivatives, introduction to antiderivatives, introduction to parametric curves. Prerequisites: Grade of “C” or higher in Trigonometry or Pre-calculus or adequate placement test score. (F,S,SS)

MAC 2312 Calculus II (4). Applications of the integral, integration techniques, improper integrals, Riemann sums, the integral, Fundamental Theorem of Calculus, infinite series, Taylor series, polar coordinates, parametric equations. Prerequisites: Grade of “C” or higher in Calculus I or AP Calculus credit. (F,S,SS)
MAC 2313 Multivariable Calculus (4). This course deals with the differential and integral calculus of real valued multivariable functions. The topics include: directional and partial derivatives, gradients, and their applications; differential calculus of vector valued functions; multiple, iterated, line, and surface integrals. Prerequisites: MAC 2312 or equivalent with a grade of 'C' or better. (F,S,SS)

MAD 1100 Mathematics for Information Technology (3). Introduction to discrete mathematical structures with emphasis on applications to information technology: binary numbers, logic, sets, functions, recursion, combinatorics, graph theory, Boolean algebra. Prerequisite: College Algebra.

MAD 2104 Discrete Mathematics (3). Sets, functions, relations, permutations, and combinations, propositional logic, matrix algebra, graphs and trees, Boolean algebra, switching circuits. (F,S,SS)

MAD 3305 Graph Theory (3). An introduction to the study of graphs. Topics include the following: paths and circuits, connectedness, trees, shortest paths, networks, planar graphs, the coloring of graphs, and directed graphs. Applications of graphs to computer science will be discussed. Prerequisites: COP 2210 or CGS 2420 and either MAC 2312 and MAD 2104. (F,S,SS)

MAD 3401 Numerical Analysis (3). Basic ideas and techniques of numerical analysis. Topics include: finite differences, interpolation, solution of equations, numerical integration and differentiation, applications, introduction to applied linear algebra. This course will make extensive laboratory use of the computer facility. Prerequisites: COP 2210 or CGS 2420 and MAC 2312. (F,S,SS)

MAD 3512 Theory of Algorithms (3). Strings, formal languages, finite state machines, Turing machines, primitive recursive and recursive functions, recursive unsolvability. Prerequisite: MAD 2104. Computer Science majors must also take COT 3420. (F,S,SS)

MAD 4203 Introduction to Combinatorics (3). A survey of the basic techniques of combinatorial mathematics. Topics will include the Pigeonhole Principle, Binomial Coefficients, Inclusion-Exclusion, Recurrence Relations, and Generating Functions. Prerequisites: MAC 2313 or both MAC 2312 and MAD 2104. (SS)

MAD 5405 Numerical Methods (3). Advanced ideas and techniques of numerical analysis for digital computation. Topics include: linear and non-linear systems, ordinary differential equations, continuous system modeling techniques, and languages. Prerequisites: MAS 3105 and MAP 2302.

MAE 3893 Mathematics Education Seminar (1). Provides students committed to Mathematics Education an early teaching experience and it will provide other students a low pressure opportunity to try out teaching. Prerequisite: MAC 2311.

MAE 3894 Early Teaching Experience (1). The goal of this course is to provide early in the program a unique opportunity for math education students to experience the tastes, the challenges, and the rewards involved in the teaching of math. Prerequisite: MAC 2311.

MAP 2302 Differential Equations (3). An introduction to differential equations and their applications, based upon a knowledge of calculus. Topics to include: initial value problems of the first order, numerical solutions, systems of differential equations, linear differential equations, Laplace transforms, series solutions. Prerequisite: MAC 2312 with a grade of 'C' or better. (F,S,SS)

MAP 3103 Mathematical Modeling and Applications (3). A course to provide an understanding of the use of mathematical models in the description of the real world. Basic principles in the philosophy of formal model building as well as specific models will be considered. Prerequisites: MAS 3105 and either MAC 2313 or MAP 2302.

MAP 3103L Lab for Mathematical Modeling (1). Lab sessions complement the course of mathematical modeling. Prerequisite: MAP 3103. "MATLAB" will be used. Prerequisite: MAP 2313. Corequisite: MAP 3103.

MAP 3104 Topics in Mathematical Modeling (3). A sequel to MAP 3103. In-depth study of techniques listed for MAP 3103. Prerequisite: MAP 3103.

MAP 3253 Mathematical Scientific Computation (3). To acquaint students with some mathematical programming skills involving numerical computation softwares like Mathematica, Matlab, scientific document processing LaTeX, and data analysis tool Excel. Prerequisites: MAC 2312, MAS 3105.

MAP 4401 Advanced Differential Equations (3). A second course in differential equations. Topics may include: Bessel functions and other special functions arising from classical differential equations, Sturm-Liouville problems, partial differential equations, transform techniques. Prerequisites: MAP 2302 and MAC 2313. (S)

MAP 4401L Lab for Advanced Differential Equations (1). Lab sessions complement the course of advanced differential equations (MAP 4401). Computer projects using "MATLAB" will be used. Prerequisites: MAP 2302, MAC 2313. Corequisite: MAP 4401.

MAP 4634 Quantitative Risk Management (3). Interdisciplinary course with a strong quantitative approach to the risk management process of small and big businesses. Prerequisites: MAC 2313, MAP 2302, MAS 3105.

MAP 5117 Mathematical and Statistical Modeling (3). Study of ecological, probabilistic, and various statistical models. Prerequisites: COP 2210, MAC 2313, MAS 3105; and STA 3033 or STA 3164 or STA 4322.

MAP 5204 Optimization and Linear Algebra (3). Vectors, Euclidean spaces, operations on matrices, rank, determinants, linear and quadratic programming, Kuhn-Tucker techniques for constrained optimization. Prerequisite: MAC 2313.

MAP 5236 Mathematical Techniques of Operations Research (3). This course surveys the mathematical methods used in operations research. Topics will be chosen from linear programming, dynamic programming, integer programming, network analysis, classical optimization techniques, and applications such as
MAP 5255 Mathematical Scientific Computation (3). Programming in Matlab, Graphics in Matlab, Creating GUIs in Matlab, Simulink. Prerequisites: MAC 2313, MAP 2302, MAS 3105.

MAP 5316 Ordinary Differential Equations (3). Existence and uniqueness theorem, matrix formulation, physical applications, regular singular points, autonomous systems, Laplace transform, special topics. Prerequisites: MAA 3200, MAA 4402 and MAS 3105.

MAP 5317 Advanced Differential Equations for Engineers (3). Topics may include Bessel Functions and other special functions arising from classical differential equations, Sturm-Liouville problems, partial differential equations, transform techniques. Credit may not be counted for both MAP 4401 and MAP 5317. Credit for MAP 5317 may not be applied toward the Master’s degree in Mathematical Sciences. Prerequisites: MAC 2313 and MAP 2302.

MAP 5326 Partial Differential Equations (3). Basic concepts of first and second order PDE’s, application to optics and wave fronts, Cauchy problem, Laplace equation, Green’s function, Dirichlet problem, heat equation. Prerequisite: MAA 4211.

MAP 5407 Methods of Applied Analysis (3). Convergence, fixed point theorems, application to finding roots of equations, normed function spaces, linear operators, applications to numerical integration, differential and integral equations. Prerequisites: MAA 4211, MAP 2302, and MAS 3105.

MAP 5415 Introduction to Fourier Analysis (3). Basic real analysis, and measure theory, LP spaces and convolution, the Fourier transform in L², Plancherel theorem, application to differential equations and wavelets. Prerequisites: Advanced Calculus, Linear Algebra.

MAP 5467 Stochastic Differential Equations and Applications (3). Review of measure theory, stochastic processes, Itô Integral and its properties, martingales and their generalizations, stochastic differential equations, diffusions. Applications to boundary value problems and finance. Prerequisites: MAS 3105, MAP 4401, MAA 4211, MAA 5616 or permission of instructor.

MAS 3105 Linear Algebra (3). An introduction to the topics in linear algebra most often used in applications. Topics include: matrices and their applications; simultaneous linear equations and elementary operations; linear dependence; vector spaces; rank and inverses; inner products and ‘best’ approximations; numerical solutions of simultaneous linear equations; eigen-values and eigenvectors; iterative methods for calculating eigenvalues; and systems of linear equations. Prerequisite: MAC 2312. (F,SS)

MAS 3931 Topics in Actuarial Mathematics (1). Topics related to calculus/linear algebra such as mono-tone sequences, least upper bound, complex arithmetic, solid analytic geometry, linear transformations. Mathematics involved in insurance. Prerequisite: Admission to Actuarial Studies Certificate program.

MAS 4203 Number Theory (3). Topics to be discussed are selected from the following: congruences, Diophantine equations, distribution of primes, primitive roots, quadratic reciprocity, and classical theorems of number theory. Prerequisites: MAA 3200 or MAS 3105 or MTG 3212. (SS)

MAS 4301 Algebraic Structures (3). An introduction to abstract mathematical structures of modern algebra. Fundamental concepts of groups, rings, and fields will be studied. Note: the student must complete MAA 3200 before attempting this course. Prerequisites: MAS 3105 and MAA 3200. (S)

MAS 4302 Topics in Algebraic Structures (3). A sequel to Algebraic Structures. Topics may include: a continuation of the study of groups, rings and/or fields; polynomial domains; Euclidean domains; and Galois theory. Prerequisite: MAS 4301.

MAS 5145 Applied Linear Algebra (3). Vector spaces and linear maps, solutions of linear systems, orthogonal projection and QR factorization, determinant and eigenvalues of a matrix. Prerequisites: MAS 3105 and MAA 3200.

MAS 5311 Graduate Algebra (3). A study of the basic material on groups, rings and vector spaces. Topics include the Jordan-Holder theorem, structure of modules over Euclidean domains and canonical forms of matrices. Prerequisites: MAS 4301 or equivalent.

MAS 5312 Galois Theory (3). Extension fields, ruler and compass constructions, fundamental theorem of Galois Theory, cyclotomic and cyclic extensions, solutions of equations by radicals, selected topics. Prerequisites: MAS 5311 or permission of the instructor.

MAT 1033 Intermediate Algebra (3). Serves as preparation for entry level mathematics courses. Topics include operations on algebraic expressions, solving equations and inequalities in one and two variables and graphing.

MAT 2949 Cooperative Education in Mathematical Sciences (1-3). One semester of full-time supervised work in an outside organization taking part in the University Coop program. A written report and supervisor evaluation will be required of each student. Prerequisites: Calculus I and COP 2210.

MAT 3905 Independent Study (VAR). Individual conferences, assigned readings, and reports on independent investigations.

MAT 3930 Special Topics (VAR). A course designed to give groups of students an opportunity to pursue special studies not otherwise offered.

MAT 3949 Cooperative Education in Mathematical Sciences (1-3). One semester of full-time supervised work in an outside organization taking part in the University Coop Program. Limited to students admitted to the Co-op Program. A written report and supervisor evaluation will be required of each student. Prerequisites: Calculus II and COP 2210.

MAT 4510 Problem Solving Seminar (3). To strengthen students ability in solving basic mathematics problems by teaching them more advanced techniques for dealing with challenging problems. Prerequisites: MAD 2104, MAC 3105.
MAT 4905 Independent Study (VAR). Individual conferences, assigned readings, and reports on independent investigations.

MAT 4930 Special Topics (VAR). A course designed to give groups of students an opportunity to pursue special studies not otherwise offered.

MAT 4934 Senior Mathematics Seminar (1). An exploration of research topics in the student's subfield. Coursework will include a written report, oral presentation, and departmental major field test. Prerequisite: Senior standing.

MAT 4943 Mathematical Sciences Internship (VAR). A special program to encourage students to get on-the-job experience in computer sciences, statistics, or mathematics in an industrial enterprise, governmental agency or other organization. Requirements: minimum grade of 'B' or higher in all courses in the major area, and approval by Departmental Internship Committee. Application is required at least one term in advance of registration for this course.

MAT 4949 Cooperative Education in Mathematical Sciences (1-3). One semester of full-time supervised work in an outside organization taking part in the University Coop Program. Limited to students admitted to the Co-op Program. A written report and supervisor evaluation will be required of each student. Prerequisites: Calculus II, a statistics course, and COP 2210.

MAT 5907 Independent Study (VAR). Individual conferences, assigned reading, and reports on independent investigations.

MAT 5921 Training in Mathematical Exposition (1). Students prepare and present supervised lectures on undergraduate mathematical topics to fellow students. Prerequisite: Graduate standing.

MAT 5970 Master's Research (1-6). Research toward preparation of master's project. Prerequisite: Permission of graduate committee.

MGF 1106 Finite Mathematics (3). Study of concepts and applications involving finite mathematical processes such as sets, combinatorial techniques, formal logic, discrete probability, linear systems, matrices, linear programming. Prerequisite: Working knowledge of high school algebra. (F,S,SS)

MGF 1107 The Mathematics of Social Choice and Decision Making (3). Voting systems and their desirable properties. Weighted voting systems, fair division procedures, apportionment methods and game theory.

MHF 3404 History of Mathematics – GL (3). Development of mathematical thought through the ages. Topics may include equation solving, trigonometry, astronomy, and calculus. Prerequisite: MAC 2312. (S)

MHF 4102 Axiomatic Set Theory (3). Axioms of set theory, order and well-foundedness, cardinal numbers, ordinal numbers, axiom of choice, special topics. Prerequisites: MAA 3200 or permission of the instructor. (S, alternate years)

MHF 4302 Mathematical Logic (3). A study of formal logical systems and their applications to the foundations of mathematics. Topics to be selected from the following: definition of mathematical proofs; set theory; analysis formalized with the predicate calculus; theorem of Godel and Church; recursive function theory; and idealized computers. Prerequisites: MAA 3200 or MAD 3512. (S, alternate years)

MHF 4401 Topics in the History of Modern Mathematics (3). Riemannian geometry, relativity and other topics at discretion of instructor. Prerequisites: MAC 2313, MAS 3105.

MHF 5107 Graduate Set Theory (3). Zermelo-Frankel axioms, ordinals and cardinals, Godel's constructible universe, large cardinals, forcing and the independence of the Continuum Hypothesis and the Axiom of Choice. Prerequisites: MHF 4102 or MAD 4211 or permission of the instructor.

MHF 5306 Graduate Mathematical Logic (3). First order languages, construction of models from constants, advanced construction of models, non-standard models, recursion theory, RE sets, Turing degrees, oracle construction. Prerequisites: MHF 4302 or permission of the instructor.

MTG 4254 Differential Geometry (3). Hypersurfaces in $\mathbb{R}^n$. Geodesics and curvature. Parametrisation of surfaces, abstract manifolds. Integration, surfaces with boundary, Stokes Theorem. Isometries and intrinsic geometry. Gauss-Bonnet Theorem. Prerequisites: MAC 2311, MAS 3105, MAP 2302 or permission of the instructor.

MTG 4261 Introduction to Algebraic Geometry (3). Introduction to the theory of affine and projective algebraic varieties over algebraically closed ground field. Various examples are discussed. Prerequisites: MAS 4301, MAA 4402.

MTG 4302 Topology (3). An introductory course in topology requiring a prerequisite knowledge of calculus. Topics to be discussed will be selected from the following: topological spaces, metric spaces, continuity, completeness, compactness, separation axioms, products spaces, subspaces, convergence, and homotopy theory. Prerequisites: MAC 2313, MAS 3105, and MAA 3200. (SS)
MTG 5265 Algebraic Geometry (3). Introduction to the theory of affine and projective schemes, coherent sheaves and sheaf cohomology. Application to studying algebraic varieties. Prerequisites: MAS 4301, MAA 4402.

MTG 5326 Introduction to Algebraic Topology (3). Classification of surfaces, fundamental group, homotopy type, Van Kampen theorem, simplicial complexes, introduction to homology theory. Prerequisites: MAS 4301 and MTG 4302.

STA 1013 Statistics for Social Services (3). This is an elementary course in statistics, covering graphical and numerical condensation of data as well as the most basic parametric and non-parametric methods. Emphasis is placed on the interpretation of statistical results, rather than on ways to analyze experimental data. Prerequisite: High school algebra.

STA 1061 Introduction to SPSSX for Data Analysis (1). Data coding and entry for use on the mainframe. How to input data, create variables, select subsets of data. Use procedures such as: LIST, FREQUENCIES, CROSSTABS, DESCRIPTIVES, MEANS and CORRELATIONS. Prerequisite: A course in statistics.

STA 1062 Introduction to SAS for Data Analysis (1). Data coding for entry use on the mainframe. SAS Data step to input data, create variables, select subsets of data, PROCs such as: PRINT, FORMAT, MEANS, FREQ, SUMMARY, TEST, CORR, UNI-VARIATE and PLOT. Prerequisite: A course in statistics.

STA 2023 Statistics for Business and Economics (3). Starting with an introduction to probability, the course provides an introduction to statistical techniques used in management science. It includes descriptive statistics, probability distributions, estimation and testing of hypotheses. Subsequent credit for STA 2122 or STA 3111 will not be granted. Prerequisite: High school algebra. (F,S,SS)

STA 2122 Introduction to Statistics I (3). A course in descriptive and inferential statistics. Topics include: probability distribution of discrete and continuous random variables. Sampling distributions. Large sample estimation and hypothesis testing for means and proportions. Prerequisite: High school algebra. (F,S,SS)

STA 3033 Introduction to Probability and Statistics for CS (3). Basic probability laws, probability distributions, basic sampling theory, point and interval estimation, tests of hypotheses, regression and correlation. Prerequisite: MAC 2312. (F,S,SS)

STA 3060L Statistics Laboratory (1). A laboratory course designed to illustrate important statistical concepts through experiments. Data are analyzed using statistical software packages. Prerequisite or Corequisite: A statistics course.

STA 3111 Statistics I (3). Descriptive statistics. Basic probability rules. Discrete and continuous probability distributions. Point and interval estimation, hypothesis testing based on a single sample. Comparison of two proportions using independent and large samples. Subsequent credit for STA 2122 or STA 2023 will not be granted. Prerequisite: High school algebra. (F,S,SS)

STA 3112 Statistics II (3). Estimation and hypothesis testing based on two samples. Analysis of Variance. Simple linear regression. Linear correlation. Analysis of categorical data. Non-parametric methods. Use of statistical software packages. Subsequent credit for STA 3123 will not be granted. Prerequisite: STA 3111. (F,S,SS)

STA 3123 Introduction to Statistics II (3). Small sample statistical inference for means and variances. T, chi-square and F distributions. Analysis of variance, regression, correlation, basic nonparametric tests, goodness of fit tests and tests of independence. Prerequisites: STA 2122 or STA 2023 or equivalent. (F,S,SS)

STA 3145 Statistics for the Health Professions (3). Statistical analysis with applications in the health sciences. Binomial and normal distributions. Inferences about means and proportions. Regression, correlation, goodness of fit tests. Prerequisite: High school algebra. (F,S,SS)

STA 3163-STA 3164 Statistical Methods I and II (3-3). This course presents tools for the analysis of data. Specific topics include: use of normal distribution, tests of means, variances and proportions; the analysis of variance and covariance (including contrasts and components of variance models), regression, correlation, sequential analysis, and non-parametric analysis. Prerequisites: A course in statistics, or MAC 2312, or high school equivalent. (F,S)

STA 3193 Statistics for Biology I (3). Graphical data analysis; probability distributions, estimation, test of hypothesis. Statistical models used in the biological sciences, and testing for distributional assumptions used with these models. Prerequisites: MAC 2312, BSC 1011 and permission of the instructor.

STA 3194 Statistics for Biology II (3). Analysis of variance, correlation, regression, discrete data analysis, analysis of covariance and non-parametric procedures. Introduction to design of experiments, bio assay, logistic regression and multivariate analysis. Prerequisites: STA 3193 and permission of the instructor.

STA 3905 Independent Study (1-6). Individual conferences, assigned readings, and reports on independent investigations.

STA 3930 Special Topics (1-6). A course designed to give groups of students an opportunity to pursue special studies not otherwise offered.

STA 3949 Cooperative Education in Statistics (1-3). One semester of either part-time or full-time work in an outside organization. Limited to students admitted to the Co-op program. A written report and supervisor evaluation are required of each student. Prerequisites: 2 courses in statistics and permission of Chairperson.

STA 3951 Oral Presentations in Statistics (0). Students are required to communicate orally all stages of a simple statistical analysis through a formal presentation in front of a group of faculty and students. Prerequisites: ENC 3213 and STA 3164 or equivalent. (F,S,SS)

STA 4102 Introduction to Statistical Computing (3). Data manipulation and statistical procedures using popular software, simulation, and statistical algorithms.
STA 4234 Introduction to Regression Analysis (3). A course in descriptive and inferential statistics for the Health Services Topics include probability distributions, point and interval estimation, hypothesis testing, regression and correlation, and contingency table analysis. Prerequisites: STA 1013 or equivalent college mathematics course.

STA 4182 Statistical Models (3). This is a specialized course in the use of statistical models to represent physical and social phenomena. The emphasis is on providing tools which will allow a researcher or analyst to gain some insight into phenomena being studied. An introductory knowledge of probability theory and random variables is assumed. Specific topics include: introduction to discrete and continuous probability distributions, transformation of variables, approximation of data by empirical distributions, central limit theorem, propagation of moments, Monte Carlo simulation, probability plotting, testing distributional assumptions. Prerequisites: STA 3033 or STA 4321.

STA 4202 Introduction to Design of Experiments (3). Completely randomized, randomized block, Latin square, factorial, nested and related designs. Multiple comparisons. Credit will not be given for both STA 4202 and STA 5206. Prerequisites: STA 3163 or STA 3112 or STA 3123 or STA 4322.

STA 4321-STA 4322 Introduction to Mathematical Statistics I and II (3-3). This course presents an introduction to the mathematics underlying the concepts of statistical analysis. It is based on a solid grounding in probability theory, and requires a knowledge of single and multivariable calculus. Specific topics include the following: basic probability concepts, random variables, probability densities, expectations, moment generating functions, sampling distributions, decision theory, estimation, hypothesis testing (parametric and non-parametric), regression, analysis of variance, and design of experiments. Prerequisite: MAC 2313. (F,S)

STA 4234 Introduction to Regression Analysis (3). Multiple and polynomial regression, residual analysis, model identification and other related topics. Credit will not be given for both STA 4234 and STA 5236. Prerequisites: STA 3112 or STA 3123 or STA 3164.

STA 4502 Introduction to Non-parametric Methods (3). Sign, Mann-Whitney U, Wilcoxon signed rank, Kruskal-Wallis, Friedman and other distribution-free tests. Rank correlation, contingency tables and other related topics. Credit for both STA 4502 and STA 5507 will not be granted. Prerequisite: A course in statistics.

STA 4603-STA 4604 Mathematical Techniques of Operations Research I and II (3-3). An introduction to those topics in mathematics associated with studies in operations research. Topics include the following: linear programming and related topics, dynamic programming, queuing theory, computer simulation, network analysis, inventory theory, decision theory, integer programming. Prerequisites: MAS 3105 and either STA 3033 or STA 4322.

STA 4664 Statistical Quality Control (3). This course presents the simple but powerful statistical techniques employed by industry to improve product quality and to reduce the cost of scrap. The course includes the use and construction of control charts (means, percentages, number defectives, ranges) and acceptance sampling plans (single and double). Standard sampling techniques such as MIL STD plans will be reviewed. Prerequisite: A course in statistics.

STA 4905 Independent Study (1-6). Individual conferences, assigned readings, and reports on independent investigations.

STA 4930 Special Topics (1-6). Designed to give students an opportunity to pursue special studies not otherwise offered. May be repeated.

STA 4949 Cooperative Education in Statistics (1-3). One semester of either part-time or full-time work, in an outside organization. Limited to students admitted to the Co-op program. A written report and supervisor evaluation are required of each student. Prerequisites: STA 3164, STA 4322 and permission of Chairperson.

STA 5065L SAS Data Analysis Lab (1). Entering data, descriptive statistics, graphing data, crosstabulations, t-tests, correlation and regression, and analysis of variance. Prerequisites: A statistics course and graduate standing or permission of the instructor.

STA 5105L SPSS Data Analysis Lab (1). Topics include: Entering data from various sources, data checking, descriptive statistics, graphing data, cross tabulations, tests, correlation and regression, ANOVA, and reliability. Prerequisites: A statistics course or concurrent enrollment in a statistics course, and graduate standing or permission of the instructor. (F,S,SS)

STA 5106 Intermediate Statistics I (3). Power, measures of assoc., measurement, ANOVA: one-way and factorial, between and within subjects expected mean squares, planned comparisons, a-priori contrasts, fixed, random, mixed models. This course may be of particular interest to behavioral sciences. Prerequisites: STA 3111 or STA 3123 or STA 3033; and graduate standing. (F)

STA 5107 Intermediate Statistics II (3). Correlation and regression both simple and multiple, general linear model, analysis of covariance, analysis of nominal data, analysis of categorical data. This course may be of particular interest to behavioral sciences. Prerequisite: Permission of the instructor. (S)

STA 5126-PSY 5206 Fundamentals of Design of Experiments (3). CRD and RCB designs. Latin square designs. Factorial, nested and nested-factorial experiments. Fixed, random and mixed models. Split-plot designs. Covariance analysis. Prerequisites: STA 3112 or STA 3123 or STA 3163 or STA 4322 or equivalent.

STA 5206 Design of Experiments I (3). Design and analysis of completely randomized block, Latin square factorial, nested experiments. Multiple comparisons. Credit for only one of three STA 4202, STA 5126, and STA 5206 courses will be granted. Prerequisites: STA 3033 or STA 3164 or STA 4322 or (STA 3163 and STA 4321).
STA 5207 Topics in Design of Experiments (3). This applied course in design of experiments covers topics such as split-plot design, confounding, fractional replication, incomplete block designs, and response surface designs. Prerequisite: STA 5206.

STA 5236 Regression Analysis (3). Simple, multiple and polynomial regression, analysis of residuals, model building and other related topics. Credit for both STA 4234 and STA 5236 will not be granted. Prerequisites: STA 3112 or STA 3123 or STA 3164, or STA 6167.

STA 5446-STA 5447 Probability Theory I and II (3-3). This course is designed to acquaint the student with the basic fundamentals of probability theory. It reviews the basic foundations of probability theory, covering such topics as discrete probability spaces, random walk, Markov Chains (transition matrix and ergodic properties), strong laws of probability, convergence theorems, and law of iterated logarithm. Prerequisite: MAC 2313.

STA 5507 Nonparametric Methods (3). Distribution-free tests: sign, Mann-Whitney U, Wilcoxon signed rank, Kruskal-Wallis, Friedman, etc. Rank correlation, contingency tables and other related topics. Credit for both STA 4502 and STA 5507 will not be granted. Prerequisite: A course in statistics.

STA 5666 Advanced Statistical Quality Control (3). Review of statistical methods useful in quality improvement. Statistical process control. Taguchi’s and Deming’s philosophies. Control charts. Process capability analysis. Acceptance sampling plans. Prerequisites: STA 3033 or STA 3163 or STA 4321 or equivalent.

STA 5676 Reliability Engineering (3). The course material is designed to give the student a basic understanding of the statistical and mathematical techniques which are used in engineering reliability analysis. A review will be made of the basic fundamental statistical techniques required. Subjects covered include: distributions used in reliability (exponential, binomial, extreme value, etc.); tests of hypotheses of failure rates; prediction of component reliability; system reliability prediction; and reliability apportionment. Prerequisite: STA 4322.

STA 5800 Stochastic Processes for Engineers (3). Probability and conditional probability distributions of a random variable, bivariate probability distributions, multiple random variables, stationary processes, Poisson and normal processes. Prerequisites: MAC 2313, MAP 2302, STA 3033.

STA 5826 Stochastic Processes (3). This course is intended to provide the student with the basic concepts of stochastic processes, and the use of such techniques in the analysis of systems. Subjects include: Markov Processes, queuing theory, renewal processes, birth and death processes, Poisson and Normal processes. Applications to system reliability analysis, behavioral science, and natural sciences will be stressed. Prerequisite: STA 5447.

STA 5906 Independent Study (1-6). Individual conferences, assigned reading, and reports on independent investigation.
Modern Languages

Required for the Major:

SPN 2201 Intermediate Spanish II

or

SPN 2341 Accelerated Intermediate Spanish for Native Speakers

To qualify for admission to the program, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable into the program.
Upper Division Program: (60)

Required Courses
Foreign Language  33 semester hours
Electives           27 semester hours

Students in the Teacher Preparation Program carry two majors: Modern Language and Modern Language Education and must request admission to both programs. (Students interested in teacher certification should contact the College of Education at (305) 348-2082.)

Requirements for all Modern Language Majors

All majors must have a designated faculty advisor, and all are required to take 33 semester hours in the Department of Modern Languages, with a grade of ‘C’ or higher.

Requirements for Spanish Majors

To undertake a major in Spanish, a student must demonstrate a proficiency in the language at the intermediate level. This may be done by an examination administered by the Department, or by completing SPN 2201 (non-native speakers) or SPN 2341 (native speakers).

Required credits for Major: (33)
(24 credits of Core Courses and 9 credits of electives)

Core Courses
SPN 3301  Review Grammar and Writing  3
or
SPN 3343  Advanced Spanish for Native Speakers  3
SPN 3422  Advanced Grammar and Composition  3
or
SPN 3423  Advanced Grammar and Composition II  3
SPW 3820  Peninsular Spanish Literature  3
SPW 3130  Spanish American Literature  3
SPN 4936  Senior Seminar  3
SPN 3733  General Linguistics (or equivalent)  3
One additional course in Spanish Linguistics  3
One additional course in Spanish or Spanish American Literature  3

(Students who have advanced proficiency in Spanish may replace the six language credits with electives in Spanish at the 3000 or 4000 level with the written permission of their advisors).

Elective Courses
Nine credits of electives in Spanish at the 3000 or 4000 level from a range of courses in Spanish/ Spanish American literature, Spanish linguistics, Hispanic culture, and Translation/ Interpretation.

SPN 3733  General Linguistics (or equivalent) is a prerequisite for other linguistics offerings.

Combined BA/MA in Spanish

To be considered for admission to the combined bachelor’s/master’s degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying.

Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admission Requirements

• Current enrollment in the BA in Spanish at FIU.
• Current GPA must be 3.5 or higher.
• Completed at least 90 credits of course work.
• Two letters of recommendation.
• A writing sample consisting of a research paper in Spanish of analytical nature – preferably a term paper or thesis – on a literary subject.
• A resume.
• A statement of purpose, addressing the candidate's goal and objectives in pursuing a master's degree in Spanish.
• Approval of the Spanish Graduate Committee.

Completion Requirements

Required Courses for the BA (33 credits)

SPN 3301  Review Grammar and Writing*  3
or
SPN 3343  Advanced Spanish for Native Speakers*  3
SPN 3422  Advanced Grammar and Composition  3
or
SPN 3423  Advanced Grammar and Composition II  3
SPW 3820  Peninsular Spanish Literature  3
SPW 3130  Spanish American Literature  3
SPN 4936  Senior Seminar  3
SPN 3733  General Linguistics (or equivalent)  3
One additional course in Spanish Linguistics  3
One additional course in Spanish or Spanish American Literature  3

*(Students who have advanced proficiency in Spanish may replace the six language credits with electives in Spanish at the 3000 or 4000 level with the written permission of their advisors).

Electives

Twelve credits of electives

Overlap

Nine credits will be taken at the 5000 or 6000 level and may be used to satisfy both the Bachelor’s and Master’s degree requirements.

Required Courses for the MA (33 credits)

SPW 5806  Methods of Literary Research  3
SPN 5705  The Structure of Spanish  3
One course in either Medieval Spanish Literature  3
or
Literature of the Golden Age  3
One course in Peninsular Spanish Literature of the 19th or the 20th centuries  3
Two courses in Spanish American Literature 6

Electives
Six graduate credits of electives, as follows: 3 in Spanish or Spanish American Literature, and 3 from one or more of the following areas: Spanish or Spanish American Literature, Linguistics, Translation/Interpretation, or Spanish American Culture.

Comprehensive Exams
The comprehensive examinations should be taken the semester immediately following the completion of all course work.

Requirements for French Majors: (33)

Language Courses:
Grammar (6)
FRE 3420 Review Grammar/Writing I (non-native or near-native speakers) 3
FRE 3421 Review Grammar Writing II 3
FRE 4422 Review Grammar/ Writing III 3

Conversation (3)
FRE 3410 Advanced French Conversation (non-native or near-native speakers) 3
FRE 3413 Communication Arts 3
FRE 3504 Language and Culture 3

Phonetics (3)
FRE 3780 French Phonetics 3

Advanced Courses:
Literature (at least nine credits)
FRW 3200 French Literature I 3
FRW 3201 French Literature II 3
FRW 3810 Literary Analysis 3

Two 3-credit literature courses (FRW) preferably taken in different literary periods or genres

Linguistics (3)
FRE 4503 La Francophonie 3
FRE 4840 History of the Language I 3
FRE 4841 History of the Language II 3
FRE 4850 Structure of Modern French 3

Civilization (6)
FRE 3504 Language and Culture 3
FRE 3500 History of French Society 3
FRE 4501 Contemporary French Society 3
FRE 4935 Senior Seminar (Civilization) 3

Elective (3)
French linguistics or literature 3

Requirements for Portuguese Majors: (33)

21 credits of core courses and 12 credits of electives
All majors in the Department of Modern Languages are required to take 33 semester hours in the Department. Twenty-one of these must be in Portuguese (POR or POW prefix) at a level of POR 3400 or above. The other 12 credits may be upper-division courses in a second language, linguistics, culture, or translation, with the approval of the advisor. Courses focusing on Brazil or Portugal offered by other departments may be counted toward the degree with approval of advisor and chairperson of the Department.

Requirements for Other Language Majors
Requirements for Other Language Majors A major in a language other than Spanish or French may take only 21 credits in the major target language, but completion of at least two semesters of a second foreign language is recommended. There is no fixed sequence of courses required, and a student may enroll in any course offered for majors, provided he or she meets the course prerequisites.

Combined BA/MA in Linguistics
To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admission Requirements
• Enrollment in undergraduate program in English, Spanish, French, or Portuguese at FIU.
• Must apply during the first semester of senior year with 90 credits completed.
• Must have completed LIN 3013/LIN 3010 General Linguistics, LIN 4680 Modern English Grammar, FRE 3780 French Phonetics, or SPN 3733 General Linguistics with a grade of "A".
• Current GPA of 3.2 or higher.
• Two letters of faculty recommendation.
• A 2-4 page statement of purpose, explaining academic plans and goals.

Recommended Graduate Courses to Undergraduates
The following graduate courses are recommended to BA students. In order to complete their degree requirements, students may double-count up to 12 graduate credits of coursework toward the Bachelor's and M.A. degrees:

A. English
LIN 5018 Introduction to Linguistics*
LIN 5501 English Syntax**
LIN 5107 History of the English Language***
LIN 5715 Language Acquisition
LIN 6602 Language Contact
LIN 5601 Sociolinguistics
LIN 5825 Pragmatics
LIN 5934 Special Topics in Linguistics
B. Spanish
LIN 5018 Introduction to Linguistics*
SPN 5705 The Structure of Spanish**
SPN 5845 History of the Language***
LIN 5604 Spanish in the United States
SPN 5736 Spanish as a Heritage Language: Acquisition and Development
LIN 5603 Language Planning: Linguistic Minority Issues
LIN 5601 Sociolinguistics
LIN 5720 Second Language Acquisition
LIN 5825 Pragmatics
LIN 5934 Special Topics in Linguistics

C. French
LIN 5018 Introduction to Linguistics*
FRE 5855 Structure of Modern French**
FRE 5845 History of the Language I***
FRE 5846 History of the Language II
FRE 5508 La Francophonie
FRE 5735 Special Topics in Linguistics
HAI 5235 Haitian Creole Seminar
LIN 5601 Sociolinguistics
LIN 5825 Pragmatics
LIN 5720 Second Language Acquisition
LIN 5934 Special Topics in Linguistics

D. Portuguese
LIN 5018 Introduction to Linguistics*
LIN 5601 Sociolinguistics
LIN 5825 Pragmatics
LIN 5720 Second Language Acquisition
LIN 5934 Special Topics in Linguistics

*MA core requirement – prerequisite to all other course requirements
** Fulfills the ’structure course’ requirement of MA
*** Fulfills the ’history course’ requirement of MA

M.A. Degree Requirements

1. **Course Work** (36 graduate credit hours)
   Core Courses: (a minimum of ”B” is required in core courses)
   LIN 5018 Introduction to Linguistics
   LIN 5206 Phonetics
   LIN 6323 Phonology
   LIN 6510 Syntax I
   LIN 6805 Semantics
   One History Course:
   LIN 5107 History of the English Language
   LIN 5146 Historical and Comparative Linguistics
   SPN 5845 History of the Language
   FRE 5845 History of the Language I
   LIN 5107 History of the English Language
   LIN 5146 Historical and Comparative Linguistics
   SPN 5845 History of the Language
   FRE 5845 History of the Language I
   One Structure Course:
   LIN 5501 English Syntax
   SPN 5705 The Structure of Spanish
   FRE 5855 Structure of Modern French
   LIN 6572 Structure of a Non-Indo-European Language
   LIN 5574 Languages of the World
   LIN 5431 Morphology
   LIN 6520 Syntax II
   Electives: 5 LIN prefixed graduate courses

2. **M.A. Comprehensive Exams**
   In the final semester of studies, M.A. students must pass comprehensive exams in Syntax, Semantics, Phonetics, and Phonology.

3. **Awarding of Degrees**
   - The BA will be awarded as soon as all BA requirements of the designated undergraduate program are completed.
   - The MA will be awarded after all MA requirements of the Linguistics Program and the BA requirements are completed.

**Minor in French Language and Culture**
A student majoring in another discipline may earn an academic minor in French Language and Culture by taking:
- 12 semester hours of course work in French language FRE 3410, FRE 3420/3421, FRE 3780;
- three semester hours in French Civilization and Culture FRE 3500 or FRE 4501;
- three semester hours of restricted electives courses in French linguistics, French Translation Skills or French Literature I.

**Minor in Portuguese**
A student majoring in another discipline may earn an academic minor in Portuguese by taking 12 semester hours of course work in the language at the level of POR 3420 or above, and six additional hours in Portuguese or in approved courses in a related discipline, such as linguistics or the civilization of Portuguese-speaking peoples.

**Minor in General Translation Studies**
In order to obtain an academic minor in General Translation Studies, a student takes 12 semester hours in translation/interpretation courses (FOT, FRT, or SPT prefix), with grades of B or better, and nine additional hours in courses of immediate relevance to the program, to be approved by the Director of the program. Normally these will be selected from among offerings in Political Science, Economics, International Relations, Sociology, Anthropology, Computer Science or Modern Languages. At least two of them should be taken outside of Modern Languages. Courses in basic and intermediate instruction shall not be counted for the minor.

**Minor in Spanish Language and Culture**
**Required Credits for Minor**
Fifteen credits of Core Courses and three credits of electives. Total: 18 semester hours.

**Core Courses**
- SPN 3301 Review Grammar and Writing 3
- or
- SPN 3343 Advanced Spanish for Native Speakers 3
- SPN 3733 General Linguistics (or equivalent) 3
Elective Courses

Three credits in Spanish at the 3000 or 4000 level in language, literature, culture, or translation/interpretation.

Students who have advanced proficiency in Spanish may replace SPN 3422 Advanced Grammar and Composition I or SPN 2341 Accelerated Intermediate Spanish for Native Speakers with another upper-level Spanish elective with the written permission of their advisors. SPN 3733 (or equivalent) is a prerequisite for other linguistics offerings.

Minor in Italian Language and Culture

A student majoring in another discipline may earn an academic minor in Italian Language and Culture. ITA 1130 and ITA 1131 (Beginning Italian I and II) are prerequisites. The minor consists of 18 credits of courses in Italian.

Basic Language Instruction

The department offers three-semester sequences of instruction in beginning and intermediate Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Portuguese, Spanish, Russian, and beginning instruction in other languages.

The courses in basic language instruction are designed primarily for persons wishing to acquire conversational ability in a foreign language; but they provide training in all four language skills listening, speaking, reading, and writing. Students are advised to consult the Departmental course listing for specific sections.

Course Descriptions

Definition of Prefixes

ABT-Arabic Culture; ARA-Arabic Language; CAT-Catalan Language; CHI-Chinese Language; CHT-Chinese Culture in Translation or Translation Skills; FIL-Film; FOL-Foreign Languages; FOT-Foreign Languages in Translation; FOW-Foreign Languages, Comparative Literature; FRE-French Language; FRT-French Translation; FRW-French Literature (Writing); GER-German Language; GET-German Translation; HAI-Haitian Creole Language; HBR-Hebrew; ITA-Italian Language; ITT-Italian Translation; JPN-Japanese Language; JPT-Japanese Culture in Translation of Translation Skills; JPW-Japanese Literature (Writings); LIN-Linguistics; POR-Portuguese Language; POW-Portuguese Literature (Writings); PRT-Portuguese Translation; RUS-Russian Language; SPN-Spanish Language; SPT-Spanish Translation; SWA-Swahili Language; WOL-Wolof Language; YOR-Yoruba Language.

(See English listing for additional Linguistics courses.)

ABT 3503 Arabic Language and Culture (3). Provides a general understanding of Arabic language and culture. Special emphasis on the language, the script, and the sounds of the language.

ARA 1130 Arabic I (5). Provides training in the acquisition and application of basic language skills.

ARA 1131 Arabic II (5). Provides training in the acquisition and application of basic language skills.

ARA 2200 Intermediate Arabic (3). Provides intermediate training in the acquisition and application of basic language skills. Prerequisites: One year prior study at college level or permission of the instructor.

ARA 2240 Intermediate Arabic Conversation (3). Continuation of the conversational skills learned in the first 2 semesters of the language sequence. Prerequisites: ARA 1130 and ARA 1131 or permission of the instructor.

CAT 5505 Introduction to Catalan Culture, Literature and Language (3). Catalan culture and society through literary and visual texts. Provides also an introduction to Catalan language. Prerequisite: Advanced level of Spanish.

CHI 1130 Chinese I (5). Provides training in the acquisition and application of basic language skills.

CHI 1131 Chinese II (5). Provides training in the acquisition and application of basic language skills.

CHI 2200 Intermediate Chinese (3). Provides intermediate training in the acquisition and application of basic language skills. Prerequisites: One year prior study at college level or permission of the instructor.

CHI 2201 Intermediate Chinese II (3). To improve students’ speaking, writing, listening, reading skills in Chinese. Students learn how to use useful expressions of experience and thought. Prerequisites: CHI 2200 or permission of the instructor.

CHI 3400 Intermediate Chinese Conversation (3). Focuses on conversation. Topics include time, numbers, shopping, clothing, food, transportation, education, culture, etc. Prerequisites: CHI 2200 or CHI 2201.

CHI 3410 Advanced Chinese I (3). Continuation of Intermediate Chinese II - beginning level of advanced training in the acquisition and application of four language skills in Chinese. Prerequisite: CHI 2201.

CHI 3440 Business Chinese (3). Introduces the culture, economy, and commerce of present-day China. Emphasis will be placed on various business situational dialogues and communicative writing.

CHI 4930 Special Topics in Chinese (3). Topics will be selected to meet academic needs for students doing research on Chinese language. May be repeated with change of content. Prerequisite: Permission of the instructor.
CHT 3502 Chinese Culture and Society (3). To give students successful knowledge and well-rounded understanding of the culture and society in China. Lecture will focus in topics such as business, history, sociology, and traditional culture.

FIL 4881 Hispanic Culture: Women and Film (3). Images and roles of Hispanic women in Latin America, Spain and the United States. Discussion, analysis, and writing. Course aims to enhance students’ understanding of women in Hispanic culture through films and readings.

FIL 5825 Spanish Film (3). The history of film in Spain and discussions of films by the most important 20th Century directors.

FIL 5846 Latin American Film (3). The study of 20th Century films and documentaries produced by leading Latin American directors. Films are examined in relation to Latin American Society and its literary creations.

FOL 1000 Elementary Foreign Language (3). Emphasis on oral skills, contemporary language and culture. Content oriented to students with specific professional or leisure interests. For languages not often taught. This course is not part of a series. No prerequisites.

FOL 3013 Language Skills for Professional Personnel (3). The course is geared to the special linguistic needs of community groups (medical, business, technical, etc.).

FOL 3732 Romance Linguistics (3). The common and distinctive Romance features. Survey of linguistic geography and internal/external influences.

FOL 3905 Independent Study (1-3). Project, field experience, readings, or apprenticeship.

FOL 3930 Special Topics (3). Readings and discussion of literary/linguistic topics to be determined by students and teacher.

FOL 3949 Cooperative Education in Modern Languages (3). A student majoring in one of the Humanities (English, History, Modern Languages, Visual Arts or Performing Arts) may spend one or two semesters fully employed in industry or government in a capacity relating to the major. Prerequisite: Permission of Cooperative Education Program and major department.

FOL 3955 Foreign Study (3-12). Study abroad credits. Individual cases will be evaluated for approval.

FOL 4905 Independent Study (1-3). Project, field experience, readings, or research.

FOL 4930 Special Topics (3). Independent readings, research, or project.

FOL 4935 Senior Seminar (3). Topics and approach to be determined by students and instructor.

FOL 4949 Cooperative Education in Modern Languages (3). A student majoring in one of the Humanities (English, History, Modern Languages, Visual Arts or Performing Arts) may spend one or two semesters fully employed in industry or government in a capacity related to the major. Prerequisites: Permission of Cooperative Education Program and major department.

FOL 4958 Foreign Study: Advanced Language Literature (3-12). Study abroad credits. Individual cases will be evaluated for approval.

FOL 5735 Romance Linguistics (3). The common and distinctive Romance features. Survey of linguistic geography and internal/external influences.

FOL 5906 Independent Study (1-3). Project, field experience, readings, or research.

FOL 5943 Foreign Language Teaching Methodology (3). Explores communicative approaches to foreign language teaching and learning. Prerequisite: Graduate standing.

FOL 5945 Foreign Exchange Internship (0). Foreign exchange students perform graduate research in the Department of Modern Languages and English as a corequisite to their assistantship in the Modern Languages Department. Prerequisite: Admission to the Foreign Exchange Program.

FOT 2120 Literature in Translation (3). Masterpieces of French literature in English. Comparative use of the original text. Discussion and interpretation.

FOT 3800 Translation/Interpretation Skills (3). Emphasis on basic principles and practice application.

FOT 3810 Creative Writing/Translation (3). Training through non-structured writing. Examination of various approaches to the problems and objectives of creative translation.

FOT 4130 European Literature in Translation (3). For students proficient in more than one foreign language. Content and focus to be determined by student and instructor.

FOT 4801 Professional Translation/Interpretation (3). Techniques and resources for professional translation and interpretation. Prerequisite: FOT 3800.

FOT 5125 Literature in Translation (3). Masterpieces of world literature. Open to students who are proficient in more than one language.

FOT 5805 Translation/Interpretation Arts (3). The language barrier and translation and interpretation. Types, modes, and quality of T/I: philological, linguistic, and socio-linguistic theories. History of T/I from Rome to date. The impact of T/I on Inter-American developments. Prerequisites: Graduate standing or permission of the instructor.

FOW 3520 Prose and Society (3). The dynamics of participation and alienation between prose writers and their environment.

FOW 3540 Bicultural Writings (3). Experiment in linguistic pluralism. Content and focus to be determined by the international community.

FOW 3580 Intellectual History (3). The interaction or dissociation among writers in a critical historical period. Study of primary sources and their contemporary evaluations.

FOW 3582 Literature of Reform (3). The consciousness of change in verbal art.
FOW 3584 Literature of Repression (3). The consciousness of constraints, their adoption and/or rejection in verbal art.

FOW 4152 European Literature in Translation (3). For students proficient in more than one foreign language. Content and focus to be determined by students and instructor.

FOW 4390 Genre Studies (3). Examination of a single literary form (e.g. short story, poetry), or the study of interaction between literary types (e.g. novel and drama).

FOW 4590 Creative Modes (3). Discussion of a single mode or a plurality of epoch styles such as classical/baroque, realism/surrealism. The peculiar/common features of expressive media.

FOW 4790 The Literary Generation (3). The real and apparent shared ideals of an artistic generation, its influence and range.

FOW 4810 Problems in Reading and Interpretation (3). The identification and appreciation of techniques for sensitive reading and discussion of literary texts.

FOW 5395 Genre Studies (3). Examination of a single literary form (e.g. short story, poetry), or the study of interaction between literary types (e.g. novel and drama).

FOW 5545 Bicultural Writings (3). Experiment in linguistic pluralism. Content and focus to be determined by the international community.

FOW 5587 Comparative Studies (3). Cross-over and distinctiveness in a multi-language problem, period, or aesthetic.

FOW 5934 Special Topics in Language/Literature (3). Content and objectives to be determined by students and teacher.

FOW 5938 Graduate Seminar (3). Topic and approach to be determined by students and instructor. (Approval of the Department required.)

FRE 1013 Language Skills for Professional Personnel (1-3). The course is geared to the special linguistic needs of community groups (medical, business, technical, etc.).

FRE 1115 Accelerated Basic French (5). Accelerated course for students who already have some basic knowledge of French. Encourages rapid acquisition by intensive exposure to the language. Prerequisites: At least one year of High School French or equivalent.

FRE 1130 French I (5). Course designed specifically for beginning university students with no previous language study. Emphasis on oral French and on acquiring basic language skills.

FRE 1131 French II (5). Emphasis on oral French and on acquiring basic language skills.

FRE 2200 Intermediate French (3). Provides intermediate training in the acquisition and application of basic language skills. Prerequisites: One year prior study at college level or permission of the instructor.

FRE 2241 Intermediate French Conversation (3). Development of oral skills through skits, debates, and hypothetical situations. Open to non-native speakers Prerequisites: One year prior study at college level or permission of the instructor.

FRE 2270 Foreign Study (3-12). Intermediate level. One semester full-time credit for foreign residence and study. Individual cases will be evaluated for approval.

FRE 2443 French for Business (3). Introduces the minor and non-major to the culture, economy, and commerce of modern-day France. Extensive practice in business writing and communication. Conducted in French. Prerequisite: FRE 1131.

FRE 3410 Advanced French Conversation (3). To develop oral proficiency skills and a greater awareness of French culture.

FRE 3413 Communication Arts (3). Develop communicative competence through intensive oral class work. Emphasis on ability to express ideas and appreciation of multiple aspects of French culture.

FRE 3420 Review Grammar/Writing I (3). Practice in contemporary usage through selected readings in culture and civilization. Development of writing and speaking ability in extemporaneous contexts. The course will be conducted exclusively in the target language.

FRE 3421 Review Grammar/Writing II (3). Instruction and practice in expository writing in French, with emphasis on organization, correct syntax, and vocabulary building. Prerequisite: FRE 3420 or permission of the instructor.

FRE 3441 Advanced Business French (3). Provides intermediate training in the acquisition and application of business skills from an applied language vantage point. Prerequisites: FRE 2200 or permission of the instructor.

FRE 3500 History of French Civilization (3). Open to any student who understands the target language. The development of a particular civilization. Emphasis on the evolution of a society, its ideas and its values. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRE 3504 Language and Culture (3). Emphasis on oral skill applied to contemporary culture, to enhance student’s knowledge and understanding of French way of life in Francophone world. Emphasis is also placed on acquisition and intensive practice of vocabulary and grammar. Prerequisites: FRE 3410 or FRE 3420 or permission of the instructor.

FRE 3740 Applied Linguistics (3). Examination of available linguistic materials for self-instruction. Problem solving in syntax and phonetics, through the application of modern/traditional methods.

FRE 3780 French Phonetics (3). An introductory course in French linguistics. Includes the International Phonetic Alphabet and a systematic inventory of all the sounds of French, with refinement exercises in the language laboratory.
FRE 3781 Intermediate French Phonetics (1).
Pronunciation of French for non-majors. Includes an introduction to the International Phonetic Alphabet and a systematic review of the sounds of French. Prerequisites: FRE 1130 and FRE 1131.

FRE 3820 Dialectology (3). Definition and analysis. Problem-solving in dialect classification.

FRE 4391 French Cinema (3). In-class viewing and discussion of selected French films to develop knowledge and understanding of this important aspect of French culture from beginnings to the present. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRE 4422 Review Grammar/Writing III (3). A study of various aspects of forms and styles, with emphasis on expository writing in French. Prerequisite: FRE 3421 or permission of the instructor.

FRE 4470 Foreign Study: Advanced Language/Literature (3-15). Full-semester credit for foreign residence and study/work. (Approval of Department required.)

FRE 4501 Contemporary French Society (3). Course designed primarily for French majors, advanced undergraduates and graduates. Examination of the cultural, ideological, socio-political and economic fabric of France from WWI to the present. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRE 4503 La Francophonie – GL (3). Analysis of the different varieties of French spoken outside of France. Includes Quebec French, African French, and French Creoles. Also examines the political alliance of Francophone countries. Credit will not be given for both FRE 4503 and FRE 5508. Prerequisite: Graduate standing.

FRE 4508 La Francophonie (3). Analysis of the different varieties of French spoken outside of France. Includes Quebec French, African French, and French Creoles. Also examines the political alliance of Francophone countries. Credit will not be given for both FRE 4503 and FRE 5508. Prerequisite: Graduate standing.

FRE 4501 Contemporary French Society (3). Course designed primarily for French majors, advanced undergraduates and graduates. Examination of the cultural, ideological, socio-political and economic fabric of France from WWI to the present. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRE 4508 La Francophonie (3). Analysis of the different varieties of French spoken outside of France. Includes Quebec French, African French, and French Creoles. Also examines the political alliance of Francophone countries. Credit will not be given for both FRE 4503 and FRE 5508. Prerequisite: Graduate standing.

FRE 5061 Language for Reading Knowledge II (3). Emphasis on translation of materials from the student's field of specialization. Prerequisites: FRE 5060 or equivalent.

FRE 5508 La Francophonie (3). Analysis of the different varieties of French spoken outside of France. Includes Quebec French, African French, and French Creoles. Also examines the political alliance of Francophone countries. Credit will not be given for both FRE 4503 and FRE 5508. Prerequisite: Graduate standing.

FRE 5735 Special Topics in Linguistics (3). Content to be determined by students and instructor. Prerequisite: Graduate standing.

FRE 5755 Old French Language (3). Introduction to the phonology, morphology, and syntax of the Old French language. Reading and analysis of the 12th and 13th century texts in their original. Comparison of major medieval dialects. Prerequisite: Graduate Standing.

FRE 5845 History of the Language I (3). The internal and external history of the French language from Latin to Old French. Examination of some of the first texts written in French. Credit will not be given for both FRE 4840 and FRE 5845. Prerequisite: Graduate standing.

FRE 5846 History of the Language II (3). External and internal history of the French language from 1400 to the present. Examination of first dictionaries and grammars of French. Survey of recent linguistic legislation concerning the French language. Credit will not be given for both FRE 4841 and FRE 5846. Prerequisite: Graduate standing.

FRE 5855 Structure of Modern French (3). Systematic study of the phonology, morphology, syntax, and lexicog of Modern French. Taught in English. Credit will not be given for both FRE 4850 and FRE 5855. Prerequisite: Graduate standing.

FRE 5908 Independent Study (1-3). Project, field experience, readings, or research. Prerequisite: Graduate standing.

FRT 3800 Basic Translation Exercises (3). Emphasis on basic principles and practice application. Prerequisite: FRE 3421.

FRT 4801 Professional Translation (3). Techniques and resources for professional translation. Prerequisite: FRT 3800.

FRT 5805 Translation/Interpretation Arts (3). Techniques of professional translation and interpretation. Prerequisite: FRT 4801.

FRW 3200 French Literature I (3). Close reading and analysis of prose and poetry from the Middle Ages to the 17th Century. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 3201 French Literature II (3). Close reading and analysis of French prose, theatre, and poetry, from the 18th to the 20th century. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.
FRW 3280 French 19th Century Novel (3). Four major novels by major 19th century novelists will be selected to illustrate the development of novelist techniques as well as of a different conception of the role of the novel that finally made it an important literary genre. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 3300 French Comedies (3). A study in French comedies from the 15th century to the 19th century, with special emphasis on Molière’s plays. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 3323 French 19th Century Drama (3). Plays will be chosen to illustrate various literary movements in 19th century French drama: Romanticism, Realism, Naturalism, and Symbolism. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 3370 French 19th and 20th Century Short Stories (3). Great short stories by Maupassant, Merimee, Flaubert, Camus, and Sartre will be studied to familiarize the student with literary criticism by a close reading and analysis of short texts. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 3532 French Romantic Literature (3). A study of French Romantic generation through the works of Lamartine, Hugo, de Musset, etc. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 3810 Literary Analysis (3). The identification and appreciation of techniques for sensitive reading and discussion of literary texts. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 3905 Independent Study (3). Project, field experience, readings, or apprenticeship. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 3930 Special Topics (3). Readings and discussion of literary/linguistic topics to be determined by students and instructor. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4123 Travel, Exile, and Cross-Cultural Encounters (3). Drawing on writings from the turn of the century to the present, explores the themes of exile and escape, of cultural and visual appropriations, the repetition and deconstruction of exotic clichés. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4212 French Classical Prose (3). Study of major works of 17th century French authors such as Descartes, Pascal, La Rochefoucauld, La Bruyere, etc. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4213 18th Century French Prose (3). Major works by the 18th century French philosophers that illustrate the evolution of socio-political and aesthetic thought leading to the French Revolution. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4272 French Novels from the Classical Period (3). A study of major 17th and 18th century French novels. Course conducted in French. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4281 French 20th Century Novel (3). A detailed analysis of modern novels, and a general examination of the intellectual currents which these novels illustrate or express (e.g. surrealism, existentialism, nou-veau roman, post-modernism. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4310 Seventeenth-Century French Drama (3). A study of French classical aesthetics through the plays of Corneille, Moliere, and Racine. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4324 French 20th Century Theatre (3). Focuses on the scope and variety of contemporary French theatre from Claudel, through existentialism and the theatre of the absurd, to Cixous and Cesaire. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4390 Genre Studies (3). Examination of a single literary form (e.g. short story, poetry), or the study of interaction between literary types (e.g. novel and drama). Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4410 French Medieval Literature (3). A study in different literary forms prevalent during the 12th and 15th centuries. Read in modern French; course will be conducted in French. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4420 Sixteenth-Century French Literature (3). A study of major authors of the French Renaissance, Rabelais, Ronsard, Montaigne, etc. Course conducted in French. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4583 Women Writers in French (3). Drawing on the writings of women authors in French, this course explores topics such as: the effects of narrative techniques on subject formation, the poetics of silence and of revolt, sexual difference versus cultural difference. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4590 Creative Modes (3). Discussion of a single mode or a plurality of epoch styles such as classical/baroque, realism/surrealism. The peculiar/common features of expressive media. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4750 Francophone Literature of Africa (3). Introduction to the Francophone literatures of Africa; study of a literary tradition in French, with special emphasis on post-World War II writers. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4751 Francophone Literature in the Caribbean (3). Introduction to the Francophone literature of the Caribbean; study of a literary tradition in French, with special emphasis on post-World War II writers. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4905 Independent Study (1-3). Project, field experience, readings, or research. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 4930 Special Topics (3). Independent readings, research, or project. Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.
FRW 5395 Genre Studies (3). Examination of a single literary form (e.g. short story, poetry), or the study of interaction between literary types (e.g. novel and drama). Prerequisites: FRE 3420 or FRE 3421 or permission of the instructor.

FRW 5934 Special Topics in Language Literature (3). Content and objectives to be determined by student and instructor. Prerequisite: Graduate standing.

FRW 5938 Graduate Seminar (3). Topic and approach to be determined by students and instructor. Prerequisite: Graduate standing.

GER 1130 German I (5). Provides training in the acquisition and application of basic language skills.

GER 1131 German II (5). Provides training in the acquisition and application of basic language skills.

GER 2200 Intermediate German (3). Provides intermediate training in the acquisition and application of basic language skills. Prerequisites: One year prior study at college level or permission of the instructor.

GER 2240 German Intermediate Conversation (3). This course is designed to help students maintain and increase their conversational ability in the language while unable to continue the regular sequence. May be repeated twice. Prerequisites: One year prior study at college level or permission of the instructor.

GER 3420 Review Grammar/Writing I (3). Practice in contemporary usage through selected readings in culture and civilization. Development of writing and speaking ability in extemporaneous contexts. The course will be conducted exclusively in the target language.

GER 4905 Independent Study (1-3). Project, field experience, readings, or research.

GER 4930 Special Topics (3). Independent readings, research, or project.

GER 5060 German for Reading Knowledge (3). Designed primarily for graduate students who wish to attain proficiency for M.A. or Ph.D. requirements. Open to any student who has no prior knowledge of the language.

GER 5061 German for Reading Knowledge (3). Emphasis on translation of materials from the student’s field of specialization. Prerequisites: GER 5060 or the equivalent.

GET 3100 Literature in Translation (3). Masterpieces in German literature in English. Comparative use of the original text. Discussion and interpretation.

HAI 1072 Haitian Creole for Medical and Legal Professionals (3). Course designed for healthcare and legal professionals with no previous training in Haitian Creole. Emphasis on medical and legal terms in daily conversation related to health, hygiene and law.

HAI 1130 Haitian Creole I (5). Course designed for students with no previous training in Haitian Creole. Emphasis on oral Haitian Creole and on acquiring basic language skills.

HAI 3213 Accelerated Haitian Creole (3). Emphasis on oral skills, contemporary language, and culture.

HAI 3214 Accelerated Intermediate Haitian Creole (3). Builds on accelerated course by continuing and expanding communicative activities. Prerequisites: Accelerated Haitian or permission of the instructor.

HAI 3370 Haiti: Study Abroad (3). Orientation to Haiti’s history, geography, religious practices, and social customs through classroom instruction, reading, and discussion, culminating in a two week tour of Haiti.

HAI 3500 Haiti: Language and Culture (3). Provides, from a multidisciplinary perspective, a general understanding of the Haitian culture and language.

HAI 5235 Haitian Creole Seminar (3). A study of the phonological and morpho-syntactic structures of Haitian Creole. Patterns of language usage and attitude. Prerequisite: Graduate standing.

HBR 1130 Hebrew I (5). Provides training in the acquisition and application of basic language skills.

HBR 1131 Hebrew II (5). Provides training in the acquisition and application of basic language skills.

HBR 2200 Intermediate Hebrew (3). Provides training in the acquisition and application of basic language skills. Prerequisites: One year prior study at college level or permission of the instructor.

ITA 1130 Italian I (5). Provides training in the acquisition and application of basic language skills.

ITA 1131 Italian II (5). Provides training in the acquisition and application of basic language skills.

ITA 2200 Intermediate Italian (3). Provides intermediate training in the acquisition and application of basic language skills. Prerequisites: One year prior study at college level or permission of the instructor.

ITA 2240 Italian Intermediate Conversation (3). This course is designed to help students maintain and increase their conversational ability in the language while unable to continue the regular sequence. May be repeated twice. Prerequisites: One year prior study at college level or permission of the instructor.

ITA 3392 Italian Cinema 1945-1970 (3). Studies the Italian Cinema from the end of the World War II (neorealism) until the early 70's (Comedy Italian Style). Prerequisites: ITA 3421, ITA 3403, ITA 3500 or permission of the instructor.

ITA 3403 La Commedia dell’Arte from Venetian Mask to Goldoni’s Theater (3). Studies the theatrical social and political tradition that lead to la Commedia dell’Arte and Goldoni’s Theater. Prerequisites: ITA 3410, ITA 3421 or permission of the instructor.

ITA 3410 Advanced Italian Conversation (3). Development of oral proficiency skills at an advanced level and of a greater awareness of Italian culture. Prerequisites: ITA 2200 and ITA 2240 or permission of the instructor.

ITA 3420 Review Grammar/Writing I (3). Practice in contemporary usage through selected readings in culture and civilization. Development of writing and speaking ability in extemporaneous contexts. The course will be conducted exclusively in the target language.
ITA 3421 Review Grammar/Writing II (3). Instruction and practice in expository writing in Italian, with emphasis on organization, correct syntax, and vocabulary building. Prerequisites: ITA 3420 or permission of the instructor.

ITA 3500 Italian Culture and Society (3). An overview of socio-cultural issues in Italy. Prerequisites: ITA 2200 and ITA 2240 or permission of the instructor.

ITA 4905 Independent Study (1-3). Project, field experience, readings, or research.

ITA 4930 Special Topics (3). Independent readings, research, or project.

ITT 3110 Literature in Translation (3). Masterpieces of Italian literature in English. Comparative use of the original text. Discussion and interpretation.

JPN 1130 Japanese I (5). Provides training in the acquisition and application of basic language skills.

JPN 1131 Japanese II (5). Provides training in the acquisition and application of basic language skills.

JPN 2110 Introduction to Kanji (3). This course introduces students to the fundamental structure of Kanji (Chinese characters), including a comprehensive review of Kana system. Prerequisite: JPN 1130.

JPN 2200 Intermediate Japanese I (3). Provides intermediate training in the acquisition and application of basic language skills. Prerequisites: One year prior study at college level or permission of the instructor.

JPN 2201 Intermediate Japanese II (3). To help students maintain and further improve their speaking, writing, listening, and reading skills in Japanese in more complex situations. Students learn how to use useful expressions of experience and thought in advanced level of Japanese. Prerequisite: JPN 2200.

JPN 3242 Intermediate Japanese Conversation (3). Complimentary course with Interm. JPN II. Provides conversation training for intermediate students through textbook dialogues, class discussions, and oral presentations. Prerequisite: JPN 2200.

JPN 3243 Advanced Japanese Composition (3). A writing-intensive course for advanced students. Provides composition training through analysis of Japanese as used in newspapers and short stories. Prerequisite: JPN 2201.

JPN 3400 Advanced Japanese I (3). Continuation of Intermediate JPN II which provides the beginning level of advanced training in the acquisition and application and application of the language skills. Prerequisites: JPN 2201 or equivalent.

JPN 3401 Advanced Japanese II (3). Continuation of Advanced Japanese I which provides advanced training in the acquisition and application of the language skills. Prerequisites: JPN 3400 or equivalent.

JPN 3420 Japanese through Technology (3). Provides training in the acquisition and application of the language skills in reading, listening and typing. Prerequisites: One year prior study at college level or permission of the instructor.

JPN 3500 Japanese Culture and Society (3). To give students sociocultural knowledge and well-rounded understanding of the culture and society in Japan. Students also have an opportunity to experience Japanese traditional arts including Japanese Calligraphy.

JPN 4930 Special Topics in Japanese (3). Topics will be selected to meet academic needs for studies doing research on Japanese language. Prerequisite: Permission of the instructor.

JPT 3521 Japanese Literature and Cinema (3). An introduction to modern Japanese literature and cinema which compares literary and cinematic approaches by focusing on Japanese society, culture and aesthetic sense.

JPW 4130 Reading Japanese Literature (3). Reading and analysis of selected literary texts in contemporary Japanese with an introduction to poetry (haiku and waka). Prerequisites: JPN 3401 or permission of instructor.

JPW 4131 Reading Japanese Non-Fiction (3). Advanced writing and reading of non-fictional text focusing on Japanese culture and society. Prerequisites: JPN 3401 or permission of instructor.

LIN 3010 General Linguistics (3). Examination and synthesis of the concepts and perspectives of major contributions to language theory. Equivalent to SPN 3733. Students who take SPN 3733 may not receive credit for LIN 3010 or LIN 3013.

LIN 3200 Phonetics (3). The application of phonetic theory and practice for speech refinement. Study of sound patterns in communication and creative activity. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

LIN 3610 Dialectology (3). Definition and analysis. Problem-solving in dialect classification. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

LIN 4326 Contrastive Phonology (3). For students proficient in more than one foreign language. Choice of languages to be determined by students and instructor. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

LIN 4433 Contrastive Morphology (3). For students proficient in more than one foreign language. Content and emphasis to be determined by students and instructor. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.
LIN 4620 Studies in Bilingualism (3). Readings and analysis of bilingual programs and binational goals. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

LIN 4624 Bilingualism and Language Policies (3). Linguistic diversity and language policies in North America. The sociolinguistic situation of selected heritage speakers, particularly Hispanic and Asian groups, and issues in bilingualism. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

LIN 4702 Applied Linguistics (3). Examination of available linguistic materials for self-instruction. Problem-solving in syntax and phonetics, through the application of modern/ traditional methods. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

LIN 4722 Problems in Language Learning (3). Primarily designed for prospective teachers, but open to all interested students. The course will aim to devise approaches to difficulties commonly experienced in syntax, usage, reading and comprehension. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

LIN 4931 Special Topics in Linguistics (3). Provides the opportunity for students and instructor to explore topics not included in the regular course offerings. Content to be determined.

LIN 5207C Acoustic Phonetics (3). Introduction to principles of acoustic and instrumental phonetics, including the physics of speech sounds and use of the sound spectrograph and other instruments. Prerequisites: LIN 3010, LIN 3013, or SPN 3733, or equivalent, plus one additional course in phonetics or phonology. Corequisite: One of the prerequisites may be counted as a corequisite.

LIN 5601 Sociolinguistics (3). Principles and theories of linguistic variation with special attention to correspondences between social and linguistic variables.

LIN 5603 Language Planning: Linguistic Minority Issues (3). Introduction to the field of language planning. Minority linguistic issues in developing and developed nations: official languages, endangered languages, and language as problem and/or resource.

LIN 5604 Spanish in the United States (3). An examination of the sociolinguistic research into Spanish in the U.S.: varieties of Spanish, language attitudes, language contact and change, and aspects of language use. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

LIN 5613 Dialectology (3). The geography of language variation: linguistic geography, atlases, national and regional studies. Dialectology within a modern sociolinguistic framework; research approaches.

LIN 5625 Studies in Bilingualism (3). Readings and analysis of bilingual programs and binational goals.

LIN 5720 Second Language Acquisition (3). Research, theories, and issues in second language acquisition. Topics include the Monitor Model, the role of the first language, motivation, age, individual differences, code-switching, and the environment; affective variables and attitudes.

LIN 5725 Seminar: Issues in Language Learning (3). Seminar in applied linguistics to serve as introduction to theory, research, and practice in language. Examines difficulties experienced in learning syntax, oral comprehension, usage, etc. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

LIN 5760 Research Methods in Language Variation (3). Research in sociolinguistics, dialectology, bilingualism: problem definition, instrument design, data collection and analysis, including sampling techniques and statistical procedures. Prerequisites: LIN 5601, LIN 5625, LIN 5613 or other course in variation.

LIN 5825 Pragmatics (3). Study of the relationships between language form, meaning, and use. Special emphasis on speech act theory. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

POR 1130 Portuguese I (5). Provides training in the acquisition and application of basic language skills.

POR 1131 Portuguese II (5). Provides training in the acquisition and application of basic language skills.

POR 2200 Intermediate Portuguese (3). Provides intermediate training in the acquisition and application of basic language skills. Prerequisites: POR 1131 or equivalent.

POR 2340 Portuguese for Heritage Speakers I (3). Begin development of written and oral skills for bilinguals educated outside a Portuguese-speaking country. Assumes fluent speaking ability but limited or no reading and writing skills.

POR 2341 Portuguese for Heritage Speakers II (3). Continued development of written and oral skills for bilinguals educated outside a Portuguese-speaking country.

POR 3202 Accelerated Portuguese I (5). Accelerated course for students fluent in Spanish. Encourages rapid acquisition by intensive exposure to the language through immersion activities, videos, and culture.

POR 3233 Accelerated Portuguese II (5). Accelerated course for students fluent in Spanish. Builds on Accelerated Portuguese I by continuing and expanding communicative activities. Prerequisites: POR 3202 or permission of the instructor.

POR 3244 Portuguese Intermediate Conversation (1). This course is designed to help students maintain and increase their conversational ability in the language while unable to continue the regular sequence. May be repeated twice. Prerequisite: Ability to speak basic Portuguese.

POR 3343 Advanced Portuguese for Heritage Speakers (3). Improvement of reading and writing skills through grammar review, composition, and literary readings for advanced heritage speakers of Portuguese.
POR 3400 Advanced Oral Communication (3). Development of oral skills through a variety of activities: Readings and recitations, public speaking, debate, skits, video production and drama. Open to native and non-native speakers. Prerequisite: Oral communication ability in Portuguese.

POR 3420 Review Grammar/Writing I (3). Practice in contemporary usage through selected readings in culture and civilization. Development of writing and speaking ability in extemporaneous contexts. The course will be conducted exclusively in the target language. Prerequisites: At least one year study of the language or permission of the instructor.

POR 3421 Review Grammar/Writing II (3). Examination of grammatical theory; discussion of the modern essay. Practice in the detection and correction of errors in usage. The course will focus on current international events as content for informal talks and compositions. Prerequisites: At least three semesters study of the language or permission of the instructor.

POR 3440 Portuguese for Business (3). Presents the special language needs for conducting business in Portuguese, with emphasis on the commerce and culture of modern Brazil. Practice in correspondence, documents, and presentations. Prerequisites: At least three semesters study of the language or permission of the instructor.

POR 3500 Luso-Brazilian Culture – GL (3). Open to any student who understands Portuguese. The development of Portuguese speaking civilizations, with emphasis on either Portugal or Brazil: history, art, music, daily life, impact on other cultures. Prerequisites: POR 3202 or POR 1130, POR 3233 or POR 1131.

POR 3930 Special Topics in Language Linguistics (3). Readings, research, and discussion of topics in Portuguese language or linguistics to be determined by students and instructor.

POR 4470 Foreign Study: Advanced Language Literature (VAR). Up to a full semester credit for foreign residence and study/work. (Approval of Department required)

POR 4480 Twentieth Century Brazilian Novel (3). Emphasis on a particular period and/or region, such as the northeast from 1930-1960: Jorge Amado, Raquel de Queiroz, Graciliano Ramos, Lins de Rego; or similar focus. Prerequisites: At least three semesters study of the language or permission of the instructor.

POW 3284 Brazilian Short Story (3). Short stories by major Brazilian authors serve to expand students’ reading ability, help them become familiar with modern Brazilian life, and learn to approach this literary form critically. Prerequisites: At least three semesters study of the language or permission of the instructor.

POW 4390 Brazilian Cinema (3). An examination of Brazilian films and culture from Cinema Novo to the present. Focuses on the northeast, urban society, magic and the Amazon. Taught in Portuguese.

POW 4701 Masterworks of Brazilian Literature (3). Readings from the most important authors of Brazil, in several genres, presented in a chronological framework. Authors include M. de Assis, M. de Andrade, M. Bandeira, C. Lispector, etc. Prerequisites: At least three semesters study of the language or permission of the instructor.

POW 4905 Independent Study (1-3). Project, field experience, readings, or research.

POW 4930 Special Topics (3). Independent readings, research, or project.

PRT 3401 Literature in Translation (3). Masterpieces of Portuguese literature in English. Comparative use of the original text. Discussion and interpretation.

PRT 3800 Portuguese Translation I (3). Review of theories and processes. Extensive practice in translating a variety of short texts, with emphasis on accuracy. Prerequisites: PRT 3810 or permission of the instructor.

PRT 3810 Introduction to Portuguese Translation and Interpretation (3). Fundamentals of translation processes, contrastive analysis of structures in Portuguese and English. Exercise in the accurate rendition of ideas from one language to the other. Prerequisite: Advanced knowledge of English and Portuguese.

PRT 3812 Portuguese Interpretation I (3). Beginning interpretation with emphasis on consecutive and sight translation. Memory development, note-taking, techniques of public speaking, accent reduction. Prerequisites: PRT 3810 or permission of the instructor.

PRT 4391 International Perspectives in Brazilian Cinema (3). Addresses cinema production in Brazil in an international context, with special emphasis on the post-Embrave era and international co-production.

PRT 4801 Portuguese Translation II (3). Translation of medium-length texts covering a range of specific topics and prose styles with attention to both accuracy and style. Prerequisites: PRT 3800 or permission of the instructor.

PRT 4802 Portuguese Translation III (3). Emphasis on technical and literary translation; development of special glossaries; stylistic and grammatical challenges. Prerequisites: PRT 4801 or permission of the instructor.

PRT 4813 Portuguese Interpretation II (3). Continued work with consecutive interpretation but emphasizes the simultaneous mode, including research and graded laboratory practice. Work with the speaking voice. Prerequisites: PRT 3812 or permission of the instructor.

PRT 4814 Portuguese Interpretation III (3). Simultaneous conference interpreting: extensive class and laboratory practice and field experience. Prerequisites: PRT 4813 or permission of the instructor.

RUS 1130 Russian I (5). Provides training in the acquisition and application of basic language skills.

RUS 1131 Russian II (5). Provides training in the acquisition and application of basic language skills.

RUS 2200 Intermediate Russian (3). Provides intermediate training in the acquisition and application of basic language skills. Prerequisites: One year prior study at college level or permission of the instructor.
SPN 1000 Elementary Spanish (3). Emphasis on oral skills, contemporary language and culture. Content oriented to students with specific professional or leisure interests. This course is not part of a series. No prerequisites.

SPN 1030 Elementary Spanish for Medical Personnel (5). Conversational elementary Spanish for medical personnel. Recommended for non-native speakers of Spanish who are in nursing or other health-related professions.

SPN 1130 Spanish I (5). Course designed specifically for beginning university students with no previous language study. Emphasis on oral Spanish and on acquiring basic language skills.

SPN 1131 Spanish II (5). Emphasis on oral Spanish and on acquiring basic language skills.

SPN 2200 Intermediate Spanish I (3). Provides intermediate training in the acquisition and application of basic language skills. Prerequisites: SPN 1131 or equivalent.

SPN 2201 Intermediate Spanish II (3). Last course of a four-semester sequence which implements a proficiency-oriented approach. Focuses on the development of listening and reading comprehension skills, and encourages maximum oral interaction and the practice of writing.

SPN 2210 Oral Communications Skills (3). Development of oral skills through skits, debates, and contextualized communication. Prerequisites: SPN 1131 or equivalent.

SPN 2233 Intermediate Readings in Spanish (3). Provides opportunities to develop fluency. Emphasis on selected literary and/or cultural readings; films and group activities intended to stimulate communication and enhance an understanding of Hispanic culture. Prerequisites: SPN 1131 or equivalent. Corequisite: SPN 2200 recommended.

SPN 2240 Intermediate Spanish Conversation (3). This course is designed to help students maintain and increase their ability in the language while unable to continue the regular sequence. May be repeated twice. Prerequisites: SPN 1131 or equivalent.

SPN 2270 Foreign Study (6). Intermediate level. One semester full-time credit for foreign residence and study. Individual cases will be evaluated for approval.

SPN 2330 Advanced Readings in Spanish (3). Further develops, at an advanced level, appropriate reading, oral, and writing skills. Emphasis on advanced cultural and literary readings by Spanish and Spanish American authors. Prerequisites: SPN 2233 or permission of instructor.

SPN 2340 Intermediate Spanish for Native Speakers (3). Improvement of spelling, grammar, vocabulary, reading, writing, and oral skills for Hispanic bilinguals educated in the U.S., with less than two years of formal training in Spanish but whose mother tongue is Spanish. Prerequisite: Ability to understand Spanish.

SPN 2341 Accelerated Intermediate Spanish for Native Speakers (3). Develop cultural and linguistic competence through intensive oral and written work. Emphasis will be given to reading and writing skills. Prerequisite: SPN 2340.

SPN 3013 Language Skills for Professional Personnel (3). The course is geared to the special linguistic needs of the community groups (medical, business, technical, etc.).

SPN 3031 Intermediate Spanish for Medical Personnel (3). Provides intermediate training in the acquisition and application of medical language skills. Prerequisites: SPN 1030 or permission of the instructor.

SPN 3301 Review Grammar and Writing (3). Practice in contemporary usage through selected readings in culture and civilization. Development of writing and speaking ability in extemporaneous contexts. The course will be conducted exclusively in the target language. For non-native speakers.

SPN 3343 Advanced Spanish for Native Speakers (3). Improvement of literacy skills through grammar review, composition, and selected readings of representative Hispanic writers, including Cuban, Puerto Rican, and Chicano authors. For U.S. Hispanic bilinguals with at least two years of formal training in Spanish. Prerequisites: SPN 2340 or permission of the instructor.

SPN 3401 Advanced Conversation (3). Improvement of oral proficiency and listening comprehension skills, correction of accent, vocabulary building. Use of small group conversation, pronunciation tapes, and varied outside readings.

SPN 3410 Advanced Oral Communication (3). Development of oral skills through a variety of speaking and conversational activities: public speaking, debate, drama, recitation. For native speakers and advanced non-natives. Prerequisite: Oral ability in Spanish.

SPN 3413 Communication Arts (3). Oral interpretation and dramatic reading. Original and non-original texts will be the content of the course. Study of shared modes of experience and their individual linguistic expression in an acquired language.

SPN 3422 Advanced Grammar and Composition I (3). To consolidate the student’s command of oral and written Spanish. Advanced readings of authentic materials. Preparation and documentation of written monographs. For natives and advanced non-natives. Prerequisites: SPN 2341, SPN 3301 or equivalent.

SPN 3423 Advanced Grammar and Composition II (3). Focuses on advanced writing and reading skills. Preparation and documentation of written monographs. Prerequisite: SPN 3422.

SPN 3440 Spanish Business Composition/Correspondence (3). Training in the special writing needs of business: letter-writing, memoranda, brochures, advertising, proposals, declarations, government documents, etc.

SPN 3702 Applied Linguistics (3). Examination of available linguistic materials for self-instruction. Problem-solving in syntax and phonetics, through the application of modern/traditional methods. Prerequisites: LIN 3010 or equivalent. (Conducted in Spanish).
SPN 3733 General Linguistics (3). Examination and synthesis of the concepts and perspectives of major contributions to language theory. (Conducted in Spanish.) Equivalent to LIN 3010. Students who take LIN 3010 may not receive credit for SPN 3733 or LIN 3013.

SPN 3780 Phonetics (3). The application of phonetic theory and practice for speech refinement. Study of sound patterns in communication and creative activity. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

SPN 3820 Dialectology (3). Definition and analysis. Problem-solving in dialect classification. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

SPN 4312 Introduction to Spanish Syntax (3). An introduction to Spanish syntax. Topics include an introduction to syntactic analysis and syntactic phenomena of Spanish. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

SPN 4470 Foreign Study: Advanced Language Literature (12). Full semester credit for foreign residence and study/work. (Approval of the Department required.)

SPN 4500 Spanish Culture (3). Open to any student who understands the target language. The development of a particular civilization. Emphasis on the evolution of a society, its ideas and its values.

SPN 4520 Spanish American Culture (3). Introduction to the major artistic and cultural phenomena in Latin America. Art, music, film, and literature will be discussed in their cultural context. Prerequisite: Ability to understand Spanish at advanced level.

SPN 4521 Topics on Latin American Culture (3). Study of the evolution of national identity in Latin America, from the 19th Century to the present.

SPN 4790 Contrastive Phonology (3). Contrasts in the sound systems of English and Spanish. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

SPN 4802 Contrastive Syntax (3). Contrasts in the grammatical systems of English and Spanish with emphasis on structures with equivalent meanings. Recommended for students of translation and interpretation. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent or permission of the instructor.

SPN 4822 Hispanic-American Socio-linguistics (3). Language and society in Latin America. Sociolinguistic theory followed by consideration of specific language problems in Spanish and Portuguese speaking areas of the Americas. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

SPN 4840 History of the Language (3). The internal and external history of language development. Examination of model texts from key periods of evolution. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

SPN 4905 Independent Study (1-3). Project, field experience, readings, or research.

SPN 4930 Special Topics in Linguistics (3). Provides the opportunity for students and instructor to explore topics not included in the regular course offerings. Content to be determined.

SPN 4936 Senior Seminar (3). Topic and approach to be determined by instructor. Required course for Spanish majors in their senior year. By permission of the instructor only. Prerequisites: Spanish majors in their senior year.

SPN 5060 Language for Reading Knowledge (3). Designed primarily for graduate students who wish to attain proficiency for M.A. or Ph.D. requirements. Open to any student who has no prior knowledge of the language.

SPN 5061 Language for Reading Knowledge (3). Emphasis on translation of materials from the student’s field of specialization. Prerequisites: SPN 5060 or the equivalent.

SPN 5515 Cultural Representations of the Spanish Civil War (3). Representations for the Spanish Civil War in literature, film, and the other arts.

SPN 5525 Spanish American Culture (3). A graduate survey of the major artistic phenomena in Latin America. Art, music, film, and literature will be discussed in their cultural context. Prerequisites: Graduate standing and permission of the instructor.

SPN 5536 Afro-Cuban Culture (3). Explores the role played by blacks in Cuban culture. Issues studied include: Afro-Cuban religions, languages, and music, as well as the Afro-Cuban presence in literature and the arts.

SPN 5539 Special Topics in Afro-Hispanic Culture (3). Close examination of various topics related to the culture of African diaspora groups in the Hispanic world.

SPN 5705 The Structure of Spanish (3). An introduction to Spanish linguistics. Topics include Spanish phonetics, phonology, morphology, and syntax. Students who have previously taken Syntactic Structures of Spanish and/or Sound Structure of Spanish will not receive credit for this course. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

SPN 5725 Syntactic Structures of Spanish and English (3). An in-depth study of syntactic structures in Spanish and English, with an emphasis on how linguistic theory can account for the similarities and differences between the two languages. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

SPN 5736 Spanish as a Heritage Language: Acquisition and Development (3). Examines applied linguistics research and practice concerning acquisition, retention and literacy development of Spanish as a minority or heritage language in the United States. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

SPN 5805 Morphological Structures of Spanish and English (3). A survey of the morphologies of Spanish and English. Topics include the difference between isolating and synthetic languages, rich vs. impoverished agreement, and syntactic ramifications of morphology. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

SPN 5807 Syntactic Structures of Spanish (3). The study of syntactic structures in Spanish, topics include different syntactic approaches to current issues in Spanish syntax. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.
SPN 5824 Dialectology of the Spanish Caribbean (3).
Study of varieties of Spanish used in the Caribbean area, including Miami-Cuban Spanish. The course will take historical and contemporary perspectives and will involve research among informants in South Florida. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

SPN 5845 History of the Language (3). Historical development of the Spanish language, primarily from the point of view of internal linguistic change. Spanish as an example of general processes of language development. Prerequisites: LIN 3010, LIN 3013, SPN 3733 or equivalent.

SPN 5908 Independent Study (1-3). Project, field experience, readings, or research.

SPT 3110 Literature in Translation (3). Masterpieces of Hispanic literature in English. Comparative use of the original text. Discussion and interpretation.

SPT 3800 Foundations to Translation Skills (3). Techniques of translation, in Spanish and English, applied to law, business, technology, and literature.

SPT 4400 African Presence in Latin American Literature (3). Studies a selection of relevant Latin American literary works (in translation) dealing with the effects of African culture in Spanish-American and Brazilian literatures.

SPT 4803 Practica in Legal Translation (3). Provides advanced training in translating most commonly used legal documents in both civil and criminal procedures.

SPT 4804 Practice in Legal Interpretation (3). Training in consecutive and simultaneous interpretation of both civil and criminal legal proceedings before Federal and State courts.

SPT 4805 Translation in Communication Media (3). Provide insight into the techniques of translation of advertising, public relations and publicity materials to be used in the mass media such as print and broadcasting.

SPT 4809 Practica in Medical Translation (3). Medical language. The translator and the medical world. Principles, techniques and methods of medical translation. Extensive practical exercises in translating routine medical documents from English to Spanish and vice versa.

SPT 4813 The Interpreter and Language (3). The interpreter as a linguistics expert. The stylistic levels of language. Legal jargon and street language in English and Spanish. Dialectal problems. Practical and ethical problems.

SPT 4814 Conference Interpreting (3). Interpreting for international conferences and for diplomacy. Intensive practice in simultaneous interpretation.

SPT 4830 Interpreting for Business (3). The principles and techniques of interpreting in the context of a bilingual (Spanish/English) business setting. Consecutive, simultaneous interpretation and sight translation of business matters.

SPT 4833 Advanced Practica in Medical Translation (3). Provides advanced training in the practice and theory of medical translation using the Internet as a fundamental tool. The course material is presented completely online and requires the student to become familiar with use of the internet as an essential instrument for investigation. Prerequisite: SPT 4809.

SPT 4940 Judicial Translation-Interpretation Internship (3). Students will spend a semester working in state and federal courts under the supervision of a professor, in order to practice in situations in which they have learned. Prerequisites: SPT 4804.

SPT 4941 Professional Translation-Interpretation Internship (3). Students will spend a semester working in state and federal courts under the supervision of a professor, in order to practice in situations in which they have learned. Prerequisites: SPT 4803, SPT 4804.

SPT 4942 Medical Interpreting (3). Training medical interpretation, including ethics, professional standards, and roles of the medical interpreter. Extensive practice with authentic materials.

SPT 5118 Literature in Translation (3). Masterpieces of world literature. Open to students who are proficient in more than one language.

SPT 5715 Hispanic Women Writers in Translation (3). Readings and analysis of Spanish and Spanish American women writers in translation. Emphasis on cultural and linguistic considerations involved in the translation of literary texts. Prerequisites: Graduate standing or permission of the instructor.

SPW 3130 Spanish American Literature (3). Close reading and analysis of prose, poetry and drama. Selections from Spanish American Literature. Prerequisites: SPN 3422 or equivalent and oral and written proficiency in Spanish.
SPW 3323 Garcia Lorca’s Theatre (3). Readings from representative plays by Spain’s finest dramatist of the 20th century, including his three well-known tragedies and a number of short comic plays. Discussion of such themes as social and individual justice and freedom; passion and repression; and the role of poetry in the theatre. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 3324 Contemporary Spanish Drama: Buero Vallejo (3). Chronological readings from plays written between 1949-1980. Emphasis on dramatic reading. An examination of the evolution of dramatic art in the contexts of censorship and freedom. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 3342 Twentieth Century Spanish Poets (3). Readings from selected poets of the 20th century, such as Antonio Machado, Miguel Hernandez, Damaso Alonso, and Rafael Alberti. Close examination of the poems representative of these poets, and their contribution to the development of Spanish poetry from the Generation of 1898 to the middle of the 20th century. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 3371 The Latin American Short Story (3). Readings from the 19th century authors and such 20th century masters as Borges, Cortazar, Cabrera Infante, Garcia Marquez, and Rulfo. Examination of short-story techniques and of such themes as social satire, the nature of reality, reason, and irrationality. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 3392 Cuban Culture Through Cinema (3). The evolution of popular culture in Cuba as expressed in films from the 1930s to the present.

SPW 3423 Masterworks of the Golden Age (3). Readings from selected masterpieces of the Spanish Renaissance and Baroque, such as La Celestina, Lazarillo de Tormes, and the short novels of Cervantes. Emphasis on satire and the representation of such human problems as freedom, poverty, and the rebellion of the individual. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 3520 Prose and Society (3). The dynamics of participation and alienation between prose writers and their environment. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 3604 Don Quijote (3). A careful reading and discussion of Cervantes’ Don Quijote, with particular attention to its multiple meanings in human terms, its innovative contributions to the novel in Europe, and the author’s use of irony, characterization, and humor. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 3720 The Generation of 98 (3). Based on the works of Azorin, Baroja, Ganivet, Machado, Maetzu, Unamuno, and Valle-Inclán. This course will emphasize the individual thrust each author makes to foster artistic revolution and human regeneration, within a society characterized by abulia and existentialist anxiety. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 3810 Literary Analysis (3). The identification and appreciation of techniques for sensitive reading and discussion of literary texts.

SPW 3820 Peninsular Spanish Literature (3). Close reading and analysis of prose, poetry, and drama. Selections from Spanish peninsular literature. Prerequisites: SPN 3422 or equivalent and oral and written proficiency in Spanish.

SPW 3930 Special Topics (3). Readings and discussion of literary/linguistic topics to be determined by students and instructor. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4133 Eastern Thought and Latin American Literature: The Age of Octavio Paz (3). An exploration of Eastern thought’s influence on Latin American literature since pre-Columbian times: emphasis on Octavio Paz and his contemporaries, in relation to 20th-century Western thought.

SPW 4263 The Spanish Novel of the Nineteenth Century (3). Within the context of literature and society, representative Spanish novels of the epoch will be studied. Special attention will be given to Galdos and Clarín. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4271 The Spanish Novel of the 20th Century (3). A study of the genre in Spain before and after the Civil War. Emphasis will be on predominant narrative tendencies. Representative authors will be discussed, such as Cela, Lafont, Sender, Matute, Medio, and others. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4280 Spanish American Novel I (3). A view of Spanish American narrative from Colonial times to the turn-of-the-century with focus on the development of literary trends and movements. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4281 Spanish American Novel II (3). Study of Spanish America’s outstanding novelists: Güiraldes, Carpenter, Cortázár, Fuentes, Vargas Llosa, Donoso, and García Márques. Considers their works in relation to Spanish American themes. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4300 Modern Spanish Drama (3). Examines the production of major Spanish playwrights from the middle of the 18th century to the present. Analyzes the social functions theatre has fulfilled in different periods, its intended audiences, and the poetics the authors represent. Prerequisites: SPW 3820 or SPW 3130.

SPW 4304 Latin American Theatre (3). A view of Latin American theatre from the 19th century to the present. Representative works of the most renowned dramatists will be examined, with emphasis on the works of Usigili, Triana, Márques Wolff, and Díaz. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4334 Golden Age Poetry (3). Selected readings from the major lyric poets of the 16th and 17th centuries. Special attention to the problems of contemporary readings of classical texts. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.
SPW 4341 19TH- and 20TH- Century Traditions in Spanish Poetry (3). Examines major traditions and styles in 19th- and 20th-century Spanish peninsular poetry. Prerequisites: At least one course in Spanish or Spanish American literature.

SPW 4343 Poetry of Garcia Lorca (3). Chronological examination of the major works of Spain’s greatest poet. Special attention to the lyric and dramatic features. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4344 Modern Spanish Poetry: The Avant-Garde (3). Analysis of the significance of the avant-garde as well as vanguard poetry during Spain’s Silver Age. Contrast Spanish avant-garde poetry with modernism. Discuss F.G. Lorca and the Generation of 1927. Prerequisites: Advanced knowledge of Spanish language. At least one course in Spanish literature (level 3 or higher).

SPW 4351 Spanish American Poetry I (3). A view of Spanish American poetry from the Pre-Colonial period until 1850. Representative works of the most renowned poets will be examined, with emphasis on Ercilla, Sor Juana, Bello, Heredia, and Avellaneda. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4352 Spanish American Poetry II (3). A view of Spanish American poetry from 1850 to the present. Representative works of the important poets will be examined, and special attention will be given to Lezama Lima, Parra, Paz, and Vallejo. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4364 The Spanish American Essay (3). A study of the ideologica and intellectual forces that have shaped the Spanish American thought, as expressed in the works of representative authors such as Rodo, Mallesa, Martinez Estrada, Paz, Manach, and others. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4384 Spanish-American Literature Before Independence (3). Studies Spanish-American literature prior to Independence providing a general understanding of the development of literature from the Conquest to the Enlightenment. Prerequisites: SPW 3130 & SPW 3820 or permission of the instructor.

SPW 4390 Genre Studies (3). Examination of a single literary form (e.g. short story, poetry), or the study of interaction between literary types (e.g. novel and drama). Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4391 Contemporary Spanish Cinema (3). Cinematographic modes of representing reality in the Spain of the post-Franco era. Focuses on class, race, gender, culture, aesthetics, and ideology.

SPW 4397 Tradition and Modernity in Latin American Cinema (3). Survey of Latin American film. Topics include: relations between cinema and the state, ideology, national identity, class, race and ethnicity, gender, and political memory.

SPW 4420 Quevedo’s Satire (3). An introduction to the literary world of Spain’s great baroque poet, who created modern satire in Spanish. Prerequisite: A good understanding of Spanish. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4424 Golden Age Drama (3). Close readings from the finest plays written in Spain’s Golden Age by Lope de Vega, Calderon, Tirso, and others, including the Don Juan theme. An examination of theatre as stylized conformity and as protest literature in a highly controlled society. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4440 18th Century Spanish Literature (3). Examines the most relevant poetry and prose produced by 18th century Spanish writers. Prerequisites: SPW 3130 and SPW 3820.

SPW 4470 Eastern Cultures and Travel Writing in Spanish Literature (3). Studies the formation and influence of Asia in 19th century Spanish and Spanish-American literary discourse.

SPW 4580 El Dorado in Hispanic Literature and Film (3). The Age of Discovery and Conquest in Hispanic literature and film. Considers the works of Columbus, Cadeza de Vaca and Lope de Aguirre in contrast with contemporary reconstructions of their lives. Prerequisites: SPW 3130 or permission of the instructor.

SPW 4590 Creative Modes (3). Discussion of a single mode or a plurality of epoch styles such as classical/baroque, realism/surrealism. The peculiar/common features of expressive media. Prerequisites: SPW 3130 or SPW 3820 or permission of the instructor.

SPW 4930 Special Topics (3). Independent readings, research, or project.

SPW 5135 Spanish American Literature for Teachers (3). Overview of major trends in Spanish American literature. Especially designed for school teachers and majors in modern language education. Not for M.A. or Ph.D. Spanish majors. Prerequisite: Permission of the instructor.

SPW 5155 Comparative Studies (3). Cross-over and distinctiveness in a multi-language problem, period, or aesthetic.

SPW 5225 Textual Reading and Analysis (3). Studies how texts are constructed, the role played by Poetics and Rhetoric in their formulation, and the context in which they were produced. Prerequisite: Graduate standing.

SPW 5237 The Traditional Spanish American Novel (3). Study and analysis of the traditional Spanish novel as a form of art, from 19th century Lizardi’s El periquillo sarniento, to 1950. The novels and authors studied are representative of ‘costumbrioso’, ‘romanticismo’, ‘naturalismo’, ‘modernismo’, and ‘criollismo’.

SPW 5277 Twentieth Century Spanish Narrative (3). Analysis of the Spanish novel from Ferlosio’s El Jarama to the present. The perspective will be focused within historical, social, and artistic context. Representative authors such as Cela, Martin Santos, Umbral, Delibes, Benet, Goytisolo, and others will be included.
SPW 5286 Contemporary Spanish American Novel (3). A study of the Spanish American Novel from 1950. The course will intensively and extensively focus on the novelists who are best known for their innovations, defining and analyzing the qualities which give originality and newness both in themes and language.

SPW 5346 Poetry of Jorge Guillen (3). Selected readings from the five volumes of Aire nuestro. Emphasis on the techniques of close reading and explication. Related selections from Guillen's literary criticism.

SPW 5348 Avant-Garde Spanish Poetry: From Creacionismo to Lorca (3). Analysis of the significance of the avant-garde as well as vanguard poetry during Spain's Silver Age. Contrast Spanish avant-garde poetry with modernism. Discuss F.G. Lorca and the Generation of 1927. Prerequisites: Graduate status. Advanced knowledge of Spanish language. At least one course in Spanish literature (level 4 or higher).

SPW 5349 Modern Spanish Poetry: The 19TH and 20TH Centuries (3). A complete examination of the 19th- and 20th century Spanish peninsular poetry and related critical studies. Prerequisite: Graduate students status.

SPW 5359 Graduate Seminar: Poetry of Pablo Neruda (3). Chronological examination of the major works of Chile’s Nobel Laureate. Related readings from Neruda’s Memories. Emphasis on the poet’s linguistic and aesthetic innovations.

SPW 5387 Women and Poetry (3). Women as poets and the poeticized. Close reading of Peninsular and Latin American texts, 16th - 20th Century. Students examine the contributions of women and how they have been represented in poetry. Prerequisites: 4000 or 5000 level course in Hispanic Poetry.

SPW 5388 Travel Writing and Cultures in Spanish Literatures (3). Studies Spanish and Spanish American travel literature and representation of otherness through different literary critical approaches.

SPW 5396 History of Cuban Cinema (3). Overview of Cuban Cinema, from its origins to the present.

SPW 5398 Africanism in Spanish Literature and Film (3). Studies the literary and artistic production generated by Spanish relationship with African cultures, as well as Afro-Spanish literature.

SPW 5405 Medieval Spanish Literature (3). Readings in Medieval literature of Spain including the epic, the learned poetry of the XIlth and XIVth Centuries, and the literature of Juan II’s court. Prerequisites: Graduate standing or permission of the instructor.

SPW 5407 The Renaissance in Spain (3). Readings in the literature and cultural expressions of the Spanish Renaissance. Prerequisites: Graduate standing or permission of the instructor.

SPW 5408 Colonial Latin American Literature (3). The most important and representative literary works of Colonial Latin America from the Cronicas to Lizardi. Prerequisites: Upper level and graduate standing.

SPW 5425 Quevedo: Poetry (3). Close reading of selected poems by Spain’s greatest baroque poet and creator of modern Spanish satire, including poems on love, death, and metaphysical concerns, and a wide range of humorous poems.

SPW 5426 Quevedo: Prose Satire (3). Close reading of selected satires in prose by Spain’s greatest baroque satirist and creator of modern Spanish satire. Includes Quevedo’s picaresque novel El Buscon, and his Suenos, or Visions of Hell.

SPW 5428 Theatre in Calderon and Lope (3). The creation of verbal theatrical technique in the Baroque masters Calderon de la Barca and Lope de Vega.

SPW 5436 Poetry Writing in Spanish (3). Readings from Spanish and Latin American texts; description and recreation of traditional and experimental metrics. Students will exchange critiques of original poems. Prerequisites: sample of unpublished poems; word processing literacy; permission of the instructor.

SPW 5475 19th Century Latin American Literature (3). A study of the main literary works of Spanish speaking 19th Century Latin America: Romanticism, Realism, Naturalism and Modernism. Prerequisites: Upper level and graduate standing.

SPW 5486 Modern Spanish Women Writers (3). Analysis of narrative works by Spain’s most representative women writers from the 19th century to the present. Emphasis on the novel. Includes works by Pardo Bazan, Matute, Laforet, Martin Gaite. Prerequisites: Graduate standing or permission of the instructor.

SPW 5515 Advanced Studies in Hispanic Folklore (3). Studies the oral literary and linguistic tradition of the Hispanic world. Prerequisites: Graduate standing or permission of the instructor.

SPW 5535 Spanish Romanticism (3). Study of Spanish Romanticism through the analysis of major literary figures of the movement: Larra, Zornila, Espronceda, Castro and Beccquer. Prerequisite: Graduate standing.

SPW 5546 Hispanic Neoclassicism (3). Study of major Spanish and Spanish-American Neoclassic writers: Cadalso, Moratin, Jovellanos, Carrio de la Vandera, mier and Lizardi. Prerequisite: Graduate Standing.

SPW 5556 Spanish Realism and Naturalism (3). Readings in Spanish XIXth Century Novel of Realism and Naturalism including Alarcon, Perez Galdos, Pardo Bazan, Clarin and Blasco Ibanez. Prerequisites: Graduate standing or permission of the instructor.

SPW 5575 Spanish American Modernism (3). An in-depth study of prose and poetry of one of the most important periods of Spanish American literature, focusing on Marti, Dario, Najera, Casals, Silva, Valencia, Lugones, and Herrera y Reissig.
SPW 5585 Learning Technology in Spanish Pedagogy and Research (3). Exploration of the role of technology in today’s language and literature learning environment. Overview of the WWW, Network-based communication, and electronic databases related to Hispanic language and literature. Prerequisite: Graduate standing or advanced undergraduate with permission of the instructor.

SPW 5595 Magical Realism and Typologies of Non-Realist Fiction (3). Theories of magical realism, fantastic and non-realism fiction, focusing on narrative technique. Authors may include Onetti, Borges, Cortázar, Asturias, Carpentier, Rufio, Márquez, Allende or others. Prerequisites: Graduate standing or permission of the instructor.

SPW 5606 Cervantes (3). A comprehensive introduction to the masterpieces of Cervantes as the creator of the modern novel, and to critical theories about his art.

SPW 5727 Hispanic Noventaiochism (3). Studies in narrative tendencies at turn of the century in Spanish and Spanish American literary production.

SPW 5729 Major Writers of the Generation of ’98 (3). Study of the social and political circumstances of Spain at the turn of the XIX Century, and analysis of the work of Ganivet, Azorin, Baroja, Machado, Maeztu, Unamuno and Valle-Inclan. Prerequisites: Graduate standing or permission of the instructor.

SPW 5735 Hispanic Literature of the United States (3). Readings in the literature of Hispanics in the United States. Prerequisites: Graduate standing or permission of the instructor.

SPW 5756 Mexico in Poetry (3). Close reading of modern poets; discussion of essays on Theory and Practice. Students examine national representation in Myth, symbol and metaphor. Prerequisites: 4,000 or 5,000 level course in Culture of Literature.

SPW 5776 Black Literature in Latin America (3). An examination of the different genres in Latin American literature focusing on the life of Afro-Hispanics, from the beginning of this literary tradition to the present time. Prerequisite: Graduate standing.

SPW 5781 The Representation of Women in Spanish Literature and Film (3). Study of cinematographic adaptations of Spanish novels, plays and short stories. Analyzes the representation of the female subject in both literary and filmic works. Prerequisites: Graduate standing or permission of the instructor.

SPW 5786 Spanish American Women Writers (3). Through a selection of poems, plays and novels, this course studies Spanish American women’s production from Independence to the present times. Prerequisite: Graduate students only.

SPW 5806 Methods of Literary Research (3). Introduction to bibliography, methods of research, the composition of essays, rhetoric, and the presentation of documentation. Theory of literary criticism, and its practical application to texts in Spanish.

SPW 5934 Special Topics in Language/Literature (3). Content and objectives to be determined by student and instructor.

SWA 1130 Swahili I (5). Beginning course in spoken and written language for students with limited or no knowledge of the language and culture.

SWA 1131 Swahili II (5). Second semester of beginning course in spoken and written Swahili language. Prerequisites: SWA 1130 or permission of the instructor.

WOL 1130 Wolof I (5). Introductory course to the Wolof language and culture for students with no prior knowledge of the language.

WOL 1170 Introduction to Wolof Language and Culture (3). An introduction to Wolof language and culture, and development of communication skills for practice in the field during summer abroad program in Senegal and The Gambia. Corequisite: Participation on the study abroad program in Senegal and The Gambia.

YOR 1130 Yoruba I (5). Beginning course in spoken and written Yoruba language for students with limited or no knowledge of the language and culture.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org. See Common Prerequisite Manual.

Common Prerequisites

No specific courses are required; transfer students are encouraged to complete the Associate of Arts degree.

Philosophy encompasses a broad range of topics and methods of inquiry: Socratic questioning of the extent and nature of human knowledge, probing the rational basis of moral and political thought, confrontation with fundamental questions of value and meaning, analysis of basic concepts underlying theoretical and practical thought, reflection on the human existential situation, and exploring the structure of reasoning itself. The great philosophers are studied both for historical understanding and contemporary significance.

Philosophy majors may choose one of three tracks. The General Track is designed to serve students with a broad interest in philosophy. The Professional Track is designed for students considering philosophy as a professional discipline. It is especially appropriate for those considering graduate study in philosophy and those with an interest in a thorough and systematic study of the full range of philosophical thought.

Degree Requirements

The following requirements apply to all three tracks. (i) any course taken to fulfill a requirement for the major may not be taken with the “pass/fail” option and must be passed with a grade of “C” or better, (ii) no more than 6 (six) hours of Independent Study may be used to fulfill major requirements, (iii) at most, one of PHI 2100 (Introduction to Logic) or PHI 2103 (Critical Thinking), or their equivalents, may be used to fulfill major requirements, and at most six other hours of lower division philosophy courses may be counted toward the degree, (iv) after completing at least 24 hours of philosophy courses, all majors are required to take the one hour course PHI 4911 (Research Paper).

In addition to fulfilling the requirements of the major, the College of Arts and Sciences has a number of requirements which are listed in the University’s Catalog at the beginning of the Arts and Sciences section. Among these requirements is demonstrated competence in a foreign language at the level of second semester of a college language sequence. The Philosophy Department allows a maximum of 15 hours of philosophy transfer credit for a major (6 hours for a minor) subject to the following restrictions: at most one of PHI 2100 (Introduction to Logic), PHI 2103 (Critical Thinking), or their equivalents may be used to fulfill major requirements, and be counted toward the degree. Such transfer credit can only be awarded by a philosophy advisor, and students who wish to apply for it are advised to discuss their course of studies with an advisor early in their career at FIU.

The General Track: (34 Semester Hours Required)

The General Track is designed to serve students with a broad interest in philosophy. One three-hour Logic course is required, selected from PHI 2100, PHI 2103, PHI 4130, or PHI 4161. The remaining 31 hours may include any philosophy courses (except that the requirements applying to all three tracks must be met). Students are strongly encouraged to discuss their course selections with their advisor. After completing at least 24 hours of philosophy courses, all majors are required to take the one hour course PHI 4911 (Research Paper).

The Professional Track: (34 Semester Hours Required)

The Professional Track is designed for students considering philosophy as a professional discipline. It is especially appropriate for those considering graduate work in philosophy and those with an interest in a thorough and systematic study of the full range of philosophical thought. The College of Arts & Sciences requires demonstrated competence in a foreign language at the level of second semester of a college language sequence. While a specific foreign language is not required for the major, students considering graduate school should seriously consider sufficient course work in German, French, Latin, or Greek so that they achieve fluency in the language. After completing at least 24 hours of philosophy courses, all majors are required to take the one hour course PHI 4911 (Research Paper). Receiving a ‘C’ or better in 34 semester hours of upper division philosophy courses
distributed as follows will fulfill the requirements for this track:

- Logic/Probability\(^1\) 3
- Epistemology/Metaphysics 6
- Value Theory 6
- History of Philosophy\(^2\) 9
- Non-Western Philosophy 3
- Other Philosophy Courses 3
- Philosophy Seminar 3
- Research Paper 1

(see department for list of courses which satisfy these requirements)

\(^1\)Neither PHI 2100 nor PHI 2103 fulfills the Logic/Probability requirement for this track; however, one may be included as a Philosophy elective.

\(^2\)Must include 3 hours in the area of Ancient Philosophy.

The Specialized Track:
(34 Semester Hours Required)

The Specialized Track is designed for students who are interested in philosophical reflection on a specific discipline or area such as law, religion, or psychology. It is especially appropriate for pre-law students and for dual majors who are interested in the relationship between philosophy and their other major discipline. An approved Individualized Plan of Study will meet the requirements for this track. Such plans are designed by the Philosophy advisor in consultation with the student so that they can be tailored to the student’s specific interests and goals. Students pursuing the Specialized Track must secure prior written approval of their course selections from their advisor. The proposed course selections must present a clear, focused, and coherent plan of study. The Philosophy Program Brochure (available in the Department on either campus) includes several models of such plans of study, including Pre-Law Studies, Western Philosophy and Its Historical Context, Social and Political Philosophy, Philosophy and Religious Thought, Philosophy and Difference, Philosophy and Psychology, and Philosophy and the Arts. Each such plan must include 34 semester hours, and the courses taken in accord with the plan must be passed with a grade of ‘C’ or better. One three-hour Logic course is required, selected from PHI 2100, PHI 2103, PHI 4130, or PHI 4161. After completing at least 24 hours of philosophy courses, all majors are required to take the one hour course PHI 4911 (Research Paper). With the prior written approval of a Philosophy advisor, up to nine semester hours from other programs may be counted toward the 34 hour major. However, only six hours credited toward the major requirements of another major program may be counted.

Bachelor of Arts in Philosophy with Honors

A policy for Philosophy majors who wish to exercise the Thesis Option within the Honors College: This option is open only to Honors Program students who are Philosophy majors and who must apply for it during the spring semester of the Junior year. To receive Honors via the Thesis Option:

- students must enroll in one three-credit Honors Thesis Independent Study course in Philosophy in each of the Fall and Spring semesters of their Senior year,

- be approved by both their Thesis Advisor (who directs the independent studies) and the Departmental Chairperson.

Eligible students may apply for the Thesis Option by submitting an Honors Thesis Proposal to the department Chairperson provided they have met the following minimal conditions:

1. they must have a cumulative FIU GPA of at least 3.5,

2. they must have completed (by the end of that semester) at least five upper division philosophy courses,

3. they must have completed (by the end of that semester) at least one upper division philosophy course in the area in which they intend to write their Thesis, and

4. they must have identified a faculty member who would be willing to supervise the Thesis and the two three-credit independent study courses which are associated with it.

Students considering pursuing the Thesis Option should read the recommendations regarding Independent Study in the Philosophy Brochure.

Combined BA/MA in Liberal Studies

The combined (4+1) Bachelor/Master of Arts in Liberal Studies offers outstanding undergraduate FIU students in majors such as Philosophy and Liberal Studies the opportunity to earn a Masters degree in only one additional year beyond the BA degree. Many Philosophy and Liberal Studies majors earn minors, complete second majors, or do certificate programs because they have broad interests and have a tendency for cross-disciplinary and interdisciplinary inquiry. An accelerated MALS program seems the perfect vehicle to pursue such interests.

The (4+1) program represents two distinct options:

1. Liberal Studies to MALS. This option allows students to complement the undergraduate major with graduate study in the same discipline as the undergraduate study.

2. Other majors such as Philosophy to MALS. This option allows students to complement the undergraduate major with graduate study in another area.

The goal is to attract outstanding students into the combined program so that they formally apply to the program in the first semester of their senior year (i.e., when they have completed 90 credit hours.) Interested students should speak with the undergraduate advisor as early as possible because careful selection of undergraduate courses in the sophomore and junior years will be essential for admission to the program.

To be considered for admission to the combined bachelor’s/master’s degree program, students must have completed at least 75-90 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree...
program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Applicants to the accelerated program need a GPA of 3.20. Formal admission to the accelerated program will usually be in the first semester of the senior year. Students would be also required to maintain a GPA of at least 3.20 to remain in the program. Participation in this program allows the students to fulfill some graduate program requirements during their senior year. More specifically, students at the senior level may be allowed to earn up to 9 graduate credits that will count towards their MALS degree. Up to 3 graduate courses (9 credits) may be used to satisfy both the Bachelor and Masters degree requirements. All double counted courses must be at the 5000 level of higher. Courses to be allowed to be double counted must be approved by MALS. Before starting the graduate program students must have satisfied all general education and core requirements.

The curriculum for the (4+1) MALS will meet criteria identical to those of the MALS program. A student will not be eligible for assistantship funding before completing all requirements for the Bachelors degree. For double-counted courses, students must confirm with their graduate program advisor that he or she is taking the course for graduate credit. Graduates and undergraduates may have different workloads and grading criteria. The student must earn a grade of ”B” or better for these courses to count towards the Masters requirements.

Admission Requirements
1. Current enrollment in a bachelors degree in Philosophy or Liberal Studies.
2. Completion of at least 90 credits hours of coursework.
3. A current GPA of 3.20 or higher.
4. Application to the Department to enroll in the (4+1) MALS program that will include
   - Three letters of recommendation
   - Personal statement [2-3 pages] describing goals and objectives in seeking a combined accelerated degree
   - A 8-25 page writing sample of satisfactory quality
5. On-line application to the University Graduate School for admission to the MALS program.
6. Positive evaluation by the undergraduate program director.
7. Approval of the graduate admissions committee.
8. In addition to the admission requirements of the (4+1) MALS program, students must meet all the admission requirements of the University Graduate School.

Completion Requirements
1. Completion of both the required courses for the BA (33 credits and the required courses for the MALS (33 credits).

- For the Liberal Studies-to-MALS option, either the 3 Great Ideas Seminars or 3 – 5000 or 6000 level courses in Natural Sciences, Humanities or Social Sciences may be used to satisfy both the Bachelors and Masters degree.
- For other majors such as the Philosophy-to-MALS option, either 3 Great Ideas Seminars or 3 – 5000 or 6000 level courses in Natural Sciences, Humanities or Social Sciences may be used to satisfy both the Bachelors and Masters degree.

2. The bachelor’s degree must be awarded when the student completes the requirements for the degree. In other words, the bachelor’s degree must be awarded before the master’s degree.
3. Students in the (4+1) MALS program have up to a year to complete the Master’s degree after receipt of the bachelor’s degree.
4. Students who fail to meet the one year post BA requirement or who elect to leave the (4+1) MALS program at any time and earn only the BA degree will have the same access requirements to a regular graduate program as any other student, but will not be able to use the 9 credits in both the bachelor’s and the master’s degrees.

Summary of Degree Requirements
- Great Ideas Seminars: 9 hours (minimum*)
- Interdisciplinary Concentration: 18 hours (minimum*)
- Master’s Essay or Master’s Thesis: 3 hours or 6 hours
- Total Hours: 33 hours or 36 hours
*33 hours of coursework are required of all (4+1) MALS students. However, a maximum of 3 hours are awarded for the “Master’s Essay” course as opposed to 6 hours for “Master’s Thesis” course. Students who choose the Essay option must complete either 4 Great Ideas Seminars or 21 hour Interdisciplinary Concentration.

The Philosophy Minor
A student majoring in another academic discipline can earn an academic minor in Philosophy by taking 15 hours in philosophy (PHH, PHI, PHM, and PHP prefixes) and earning a “C” or better. Only three hours may be earned in lower division (1000 and 2000 level) courses.

Course Descriptions
Definition of Prefixes
GRE-Ancient Greek; PHH-Philosophy, History of; PHI-Philosophy; PHM-Philosophy of Man and Society; PHP-Philosophers and Schools.

GRE 3050 Introduction to Ancient Greek (3). Introduces the Greek language of the New Testament, and other works of the ancient period to enhance the understanding of translated texts. A portion of the Gospel of John is studied.

PHH 2063 Classics in Philosophy: An Introduction to the History of Philosophy (3). Introduces the history of philosophy by examining the works of such philosophical giants as Plato, Aristotle, Descartes, and Kant. Written work meets the state composition requirement.
PHH 3042 Latin American Philosophy (3). This course will examine the development of Latin American thought, with particular attention to the 19th and 20th centuries. It will consider the traditions and initiatives of prominent Latin American philosophers in the light of problems such as personal and cultural identity.

PHH 3100 Ancient Philosophy (3). The basic concerns and teachings of representative philosophers and schools of thought, particularly in the Greek and Roman cultural settings, and linkages to their past and future are emphasized in this course.

PHH 3200 Medieval Philosophy (3). The basic concerns and teachings of representative philosophers and schools of thought in the cultural settings of the Middle Ages, and linkages to their past and future are emphasized in this course.

PHH 3401 Sixteenth and Seventeenth Century Philosophy (3). The basic concerns and teachings of representative European Continental philosophers of the 16th and 17th centuries (esp. Descartes, Pascal, Leibniz, and Spinoza) are emphasized in this course.

PHH 3402 British Empiricism (3). The basic concerns and teachings of representative British Empiricists of the 17th & 18th centuries (esp. Locke, Berkeley, and Hume) are emphasized in this course.

PHH 3420 Early Modern Philosophy (3). The basic concerns and teachings of representative philosophers and schools of thought in the period from the Renaissance to Kant and the linkages to their past and future are emphasized in this course.

PHH 3440 Late Modern Philosophy (3). The basic concerns and teachings of representative philosophers and schools of thought in the period from Kant to Nietzsche and the linkages to their past and future are emphasized in this course.

PHH 3602 Twentieth Century British Philosophy (3). Examines the development of 20th century British philosophy, with special attention to the justification for its aims, methods, and central concerns (e.g. knowledge, appearance and reality, memory, and the value of philosophy).

PHH 3700 American Philosophy (3). This course will examine the development of American philosophical thought, with particular attention to the 19th and 20th centuries. It will consider the traditions and initiatives of the prominent American philosophers, in the light of problems such as the relationship between theory and practice.

PHH 3810 Philosophy of Buddhism (3). Examines the central philosophy of Buddhism dealing with: 1) the question of reality and appearance, 2) the theories of causation, 3) the relation of these views to Buddhist soteriology (realism, idealism, dialectics, Hwa-yen).

PHH 3840 Indian Philosophy (3). Metaphysical, epistemological and ethical theories within such major Indian philosophical systems as philosophical Buddhism, Gains, Samkhya dualism, and Vedanta transcendentalism are examined.

PHH 4600 Twentieth Century Philosophy (3). The basic concerns and teachings of representative philosophers and schools of thought in the cultural settings of the present century, and linkages to past and emerging generations are emphasized in this course.

PHH 4930 A Major Philosopher (3). This course will examine in detail the works of a major figure in the history of philosophy. Prerequisite: Permission of the instructor. Course may be repeated on a different philosopher. (S)

PHI 2011 Philosophical Analysis: An Introduction to the Problems of Philosophy (3). This course introduces both the tools of philosophical thinking and some of their applications to fundamental topics such as knowledge, value, meaning, and human society. Written work meets the state composition requirement.

PHI 2100 Introduction to Logic (3). This introductory course in logical thinking and argumentation will treat both practical and theoretical approaches to understanding human communications and solving problems. Students will be introduced to inductive and deductive logic, fallacies, and the role of logic in scientific explanation and popular expression.

PHI 2101 Philosophical Logic (3). This course studies the propositional and predicate calculus and such topics as necessary truth, entailment, the ontological implications of logic, and the justification of deduction and induction.

PHI 2103 Critical Thinking (3). A course in practical reasoning designed to sharpen abilities at analyzing, evaluating, and constructing arguments.

PHI 2600 Introduction to Ethics (3). Explores philosophical accounts of morality, including the rational justification of commitment to the moral life, and theories of duty, obligation, and virtue. Written work meets the state composition requirement.

PHI 3073 African Philosophy (3). An analysis of the metaphysical, epistemic, ethical, and political thoughts constituting the African world views and cultural settings.

PHI 3300 Epistemology (3). The viewpoints of various philosophers and schools of thought regarding types of knowledge, certitude, and creativity are the main emphases of this introductory course. The meaning of truth and truthfulness is analyzed from both the classical and the contemporary perspectives.

PHI 3320 Philosophy of Mind (3). An inquiry into the concept of mind and subsidiary concepts such as sensation, perception, desire, emotion, intention, volition, imagination, and intellect. The course will address the problem of the relation of mind and body and such topics as the concept of a person, the nature of intentional action, and the nature of consciousness.

PHI 3400 Philosophy of Science (3). The philosophic background of scientific method will be examined. Attention will be given to the philosophical consequences of conceptual change in the sciences. Such topics as the growth and unity of science, explanation and prediction, and the role of science in society will be explored.
PHI 3420 Philosophy of Social Science (3). An inquiry into philosophical questions raised by the social sciences. Topics include forms of social explanation, the nature of rationality, and the status of values in social science.

PHI 3454 Philosophy of Biology (3). Examines the philosophical problems raised by the theory of evolution in 3 parts: external challenges to the theory, internal disputes about key concepts, controversies about applications theory.

PHI 3500 Metaphysics (3). This introductory course examines basic metaphysical questions regarding the nature of reality, as well as the meaning of these questions for the relationship of persons with their world. Fundamental texts from classical and contemporary philosophers will be considered.

PHI 3601 Ethics (3). What is intrinsically good? What ought one to do? How are moral claims justified? Competing views of major philosophers are considered.

PHI 3640 Environmental Ethics – GL (3). Examines philosophical and ethical perspectives on human interaction with the natural world. Course designated as a Global Learning course.

PHI 3638 Contemporary Ethical Issues (3). After a review of basic questions regarding ethics, this course considers special ethical problems in contemporary society from the perspective of one or more philosophers or systems of ethics. Topics will be selected and announced in advance.

PHI 3700 Philosophy of Religion (3). This course investigates whether or not religious beliefs can be rationally justified. Such topics as the nature of God, the problem of evil, religious experience, and the relationship of faith to reason will be explored.

PHI 3762 Eastern Philosophical and Religious Thought (3). This introductory course examines the development of philosophical and religious thought in the East from ancient to modern times. Hinduism, Buddhism, Confucianism, Taoism, and other major viewpoints will be considered, in themselves and in comparison with Western forms of thought.

PHI 3800 Philosophy of Art (3). An introduction to problems in Philosophy of Art, with emphasis on those problems which are especially relevant to appreciation and criticism in the arts. Typical problems include the relation between form and content, truth and falsity in art, the nature of emotion in art and of the aesthetic response, as well as the nature of art itself. This course will include a study of selections from the writings of major thinkers and the consideration of those works of art which are relevant to this study.

PHI 3880 Philosophy Through Film (3). Offers a thorough investigation into several philosophical issues through the medium of film. Close readings of individual films will accompany the study of key philosophical texts.

PHI 4130 Symbolic Logic (3). This course provides an introduction to symbolic logic. Emphasis is upon both the formal techniques of analysis of argument and upon the theoretical aspects of formal logic.

PHI 4161 Philosophy and Probability (3). An introduction to the philosophical applications of elementary probability theory. Topics include mathematical probability, rational decision making, the foundations of science, and Pascal’s wager.

PHI 4220 Philosophy of Language (3). The subject matter concerns the relations between language, thought, and the world. Topics to be studied include reference, meaning, speech acts, and propositional attitudes. Also to be considered are the implications of claims here for issues in other areas of philosophy.

PHI 4222 Philosophy of Dialogue (3). This course examines the meaning, the foundations, the limitations of dialogue, and the dialogical structure of expression and human relationships based on the philosophy of Martin Buber. It includes a philosophical analysis of the dialogical principle and the application of its insights to the problems of human living and knowing.

PHI 4230 Language and Paradox (3). An inquiry into the nature of semantic paradoxes, including analysis of their significance, examination of proposed solutions, and investigation of the relationship between paradoxes, language, and truth.

PHI 4321 Topics in the Philosophy of Mind (3). This course examines selected issues in the philosophy of mind. Topics include the nature and value of the passions, self and self-deception, theory of action, etc. May be repeated.

PHI 4370 Topics in Epistemology (3). Study of a focused topics in epistemology (such as: a priori knowledge and justification; certainty; or skepticism). This course may be repeated.

PHI 4541 Philosophy of Time (3). An analysis of the nature of time. Topics include the “passage” of time, the asymmetry between past and future, Zeno’s paradoxes, and philosophical implications of the special theory of relativity.

PHI 4633 Biomedical Ethics (3). After examining the foundations of ethics, this course will consider the human and ethical dimensions of current issues in the life sciences, such as the meaning of human living and suffering, ethics of genetic control, death and dying, personal responsibility in the medical and counseling professions.

PHI 4764 Religious Experience (3). An introduction to philosophical thought about religious experiences. After a brief survey of the major types of religious experiences, issues about their nature and cognitive status are examined.

PHI 4882 Philosophy in Literature (3). Philosophical implications of selected works and the impact of philosophical concepts such as the self, death, identity, alienation, responsibility, freedom, and the absurd.

PHI 4884 Philosophy of Film (3). An investigation into the distinctly philosophical issues that arise when studying film. In particular, questions surrounding narration, authorship and genre will be considered.
PHI 4910 Independent Research (1-6). Topics will be selected to meet the academic needs of the individual student. Prerequisite: Permission of the instructor.

PHI 4911 Research Paper (1). Based on previous course work, a research paper will be expanded and revised. Deepened knowledge of the specific topic will be developed, and oral and written skills improved. Prerequisites: 24 hours of PHH, PHI, PHM, or PHP. Corequisite: Philosophy major PHIL10BA.

PHI 4930 Special Topics (3). In-depth study of topics of special interest in philosophy.

PHI 4935 Philosophy Seminar (3). This seminar is designed for majors and other qualified students approved by the Department, and will be guided by one or more faculty members. Topic will be selected and announced in advance. The number of participants will be limited.

PHI 5934 Special Topics (3). Topics will be selected to meet the academic needs of groups of students.

PHM 3040 Philosophical Anthropology (3). This course attempts to interpret philosophically scientific perspectives concerning the nature of man and the human condition. It seeks to elucidate the basic qualities that make man what he is and distinguish him from other beings.

PHM 3200 Social and Political Philosophy (3). The nature of society and the state, authority of society and the state over the individual, political obligation, legitimacy of government, and idea of social contract are considered.

PHM 3400 Philosophy of Law (3). After an analysis of the nature of law and judicial reasoning in the light of fundamental alternative interpretations, basic topics of legal philosophy will be considered, such as freedom and rights, responsibility and punishment, rule of law and civil disobedience, legality and justice.

PHM 3500 Philosophy of History (3). After exploring the definitions, dimensions and interrelations of philosophy and history, students will examine major philosophies of history. The social responsibility of the historical narrative and the philosophical assumptions of historiographies will be discussed.

PHM 4020 Love and Sexuality (3). This course analyzes the nature and meaning of love and sexuality, and studies the basic problems in human sexual living, such as love and the man-woman relationship, the formation of sexual union, and attitudes toward love and sexuality in contemporary society.

PHM 4050 Philosophy of Death (3). This course analyzes the meaning of death and man's attitude towards death and the dying. It examines how philosophy can share in the new confrontation between man and his death, and shows the ways philosophical thinking contributes to the discovery of an authentic attitude towards the phenomenon of death as part of human living.

PHM 4123 Philosophy and Feminism (3). A conceptual analysis of alternative feminist views. Topics include the goals of the feminist movement, sexist theories on women's nature, sexual stereotypes and androgyny, the nature of oppression, sexism, racism and homophobia.

PHM 4360 Topics in Political Philosophy (3). Examines a selected topic in political philosophy, such as: justice, democracy, liberty, or an important thinker. May be repeated. Prerequisites: PHM 3200 or permission of the instructor.

PHM 4430 Topics in Philosophy of Law (3). Examines a focused topic in philosophy of law, such as: punishment, legislation of morality, the rule of law, or an important thinker. May be repeated.

PHP 3840 Chinese and Japanese Philosophy (3). Metaphysical and ethical theories of the three main philosophical systems of China, namely, Classical and neo-Confucianism, Taoism, and Chinese Buddhism are examined. For Japanese philosophy, Shintoism is included.

PHP 4510 Marxism (3). This course examines the philosophic insights of Marx and the main trends (anthropological, social, existential) in contemporary Marxism. It includes an analysis of the Marxist interpretation of alienation, work, and human authenticity.

PHP 4782 Phenomenology (3). This course analyzes the method, the basic philosophical insights and the applications of 20th century phenomenology. It includes the phenomenological analysis of knowing as well as basic questions regarding the nature of reality together with the study of fundamental texts from Husserl, Heidegger, and Merleau-Ponty.

PHP 4784 Analytic Philosophy (3). This course examines the 20th century Anglo-American tradition of approaching philosophic problems by the methods of linguistic analysis. It will include study of techniques of linguistic analysis and an evaluation of their adequacy in dealing with meaning and truth, the mind-body problem, and free will.

PHP 4786 Existentialism (3). This course examines the origin, basic philosophical insights, and influence of the mainstreams of modern existentialism. It includes the study of fundamental texts of Kierkegaard, Nietzsche, Sartre, Jaspers, and Camus.

PHP 4789 Contemporary French Philosophy (3). Main trends (hermeneutics, postmodernism, deconstruction) in twentieth century French philosophy, with emphasis on seminal thinkers, e.g., Levinas, Derrida, Ricoeur, Foucault, Irigaray.

Bachelor of Science

Degree Program Hours: 120

The B.S. program in Physics prepares students for careers as professional physicists in industry, government, or graduate study in physics, engineering, or material science. It also prepares students for teaching careers. Students interested in teacher certification should contact the College of Education.

Approved electives in experimental or theoretical physics 6

Electives (Physics or Non-Physics) 16

Bachelor of Science with Honors in Physics

The Honors program in Physics provides outstanding students with the opportunity to do original research with a faculty sponsor. To graduate with Honors, the student must carry out a research project, write up the project as an Honors Thesis, and present the research results in a departmental seminar.

Admission to the Program

To be admitted to the track, a student must:

- Be admitted to the BS Physics program with a lower division GPA of at least 3.5 in science and math courses and an overall GPA of at least 3.2.
- Have completed at least 12 hours of physics courses.
- Have arranged to be sponsored by a faculty researcher.
Submit a letter to the Physics Department requesting permission to pursue the honors course of study.

Graduation Requirements
1. Completion of all requirements for the BS Physics degree with a minimum GPA of 3.5 in science and math courses and overall GPA of 3.2.
2. Completion of honors research project in collaboration with a faculty advisor. The results of the research project must be written in the form of an honors thesis which is written in American Physical Society-style publication format. The faculty advisor and curriculum committee must judge the thesis as suitable in style and content.
3. Submission of two completed and approved copies of the Honors Thesis must be presented to the Physics department office; one copy is to be kept in the department and the second copy is to be housed in the University library.
4. The results of the research project must be presented orally to an audience of peers and faculty members in a departmental seminar.

Bachelor of Arts
Degree Program Hours: 120
This program prepares students interested in physics and planning to enter professional schools in business, education, journalism, law, and medicine, and for liberal arts students desiring a strong background in physical science but with career objectives in other areas. The flexible program offers the opportunity for parallel studies in another discipline and/or pre-professional preparation. Students may choose to follow the standard B.A. or choose a specific area of emphasis: the Biophysics Concentration, the Business Concentration, or the Entrepreneurship Concentration. Students wishing to pursue careers as professional physicists or graduate study in physics should seek the Bachelor of Science degree in physics.

Lower Division Preparation for all areas of Concentration
Common Prerequisite Courses and Equivalencies

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org. See Common Prerequisite Manual.

Required Courses: (30)

CHM 4304L Biological Chemistry I Lab 1
PCB 3063 Genetics 3
PCB 3063L Genetics Lab 1
PCB 3702 Intermediate Human Physiology 3
PCB 3702L Intermediate Human Physiology Lab 1

Business Concentration
This program prepares students interested in physics and
planning to enter business and business management
careers. Concentrates on the basics of business
administration and on gaining a thorough understanding of
electronics, lasers, computers and other tools of the
physicist.

Entrepreneurship Concentration
This program provides students with a strong background
in physics as well as the skill set for starting and growing
new high-tech business ventures. The curriculum
encourages “hands on” interdisciplinary research in the
form of an independent study course and an
entrepreneurial science internship. It also provides the
flexibility to tailor coursework to science and technology
entrepreneurial activities. Graduates of this program will
be well equipped to create their own high-tech jobs within
existing companies as well as their own startup ventures.

Physics Education Track

This program prepares students interested in physics and science for teaching at the secondary level. Students are encouraged to participate in on-campus teaching experiences that parallel their coursework, available for freshman and sophomores. Interested students are encouraged to contact the department for additional details and information on teacher support programs.

Cooperative Education

Students seeking the baccalaureate degree in physics may also take part in the Cooperative Education Program conducted in conjunction with Career Planning & Placement. The student spends several semesters fully employed in an industrial or governmental physics laboratory. For further information consult the Department of Physics or Career Planning & Placement.

Course Descriptions

Definition of Prefixes
AST-Astronomy; ENU-Engineering; Nuclear; MET-Meteorology; PHY-Physics; PHZ-Physics; PSC-Physical Sciences
F-Fall semester offering; S-Spring semester offering; SS-Summer semester offering.

AST 2003 Solar System Astronomy (3). General principles of Astronomy with emphasis on the structure and evolution of the Solar System, the laws of planetary motion, and the physical aspects of the sun, planets, and interplanetary debris. (F,S,SS)

AST 2003L Solar System Astronomy Laboratory (1). Laboratory section of AST 2003. Outdoor observing of the moon, planets and indoor exercises including celestial positions and time, the moon's orbit, planetary motions, comparative planetology. Corequisite: AST 2003. (Lab fees assessed) (F,S,SS)

AST 2004 Stellar Astronomy (3). General principles of Astronomy with emphasis on the structure and evolution of stars, stellar systems, galaxies and the universe. Topics include stellar birth and death, neutron stars and black holes, galactic distances and the expansion of the universe. (F,S,SS)

AST 2004L Stellar Astronomy Laboratory (1). Laboratory section of AST 2004. Outdoor observing of stars, constellations, binary and variable stars, star clusters, nebulae and indoor exercises including radiative properties of the stars, spectra, stellar and galactic distances, Hubble's Law. Corequisite: AST 2004. (Lab fees assessed) (F,S,SS)

AST 2037 Intelligent Life in the Universe (3). Examines the possibility of extraterrestrial life in terms of the probability of the existence of planets in other solar systems, the conditions necessary for life, and means of communication. (F or S)

AST 3213 Modern Astrophysics (3). An introduction to the structure of stars and galaxies and the evolution of the universe as a whole. Topics will include atomic spectra, stellar classifications, galactic structure, and cosmology. Prerequisites: PHY 2048, 2049. (F or S)

AST 3722 Observational Astronomy (3). Observational astronomical techniques from radio to x-rays including CCD Imaging, Photometry, and Spectroscopy.

AST 5215 Stellar Astrophysics (3). Topics in Stellar Astrophysics, in greater detail and depth than similar topics in AST 3213. Emphasis on current stellar structure, evolution models and the underlying observational data. Prerequisites: PHY 3107, PHY 3513, PHY 4324, PHY 4222 or equivalent. (F or S)

AST 5405 Extragalactic Astrophysics (3). Topics in extragalactic astrophysics, in greater detail and depth than similar topics in AST 3213. Emphasis on galactic structure and evolution, quasars and cosmology. Prerequisites: PHY 3107, PHY 3513, PHY 4324, PHY 4222 or equivalent. (F or S)

AST 5507 Celestial Mechanics (3). Principles of classical Newtonian mechanics applied to the motions of planets, satellites, and interplanetary space probes. Prerequisites: PHY 4222 or equivalent. (F or S)

ENU 4101 Introduction to Nuclear Reactors (3). An elementary course in nuclear fission reactor theory and power plant operation. An overview of the relevant nuclear processes and their application to reactor design. Prerequisites: PHY 2048, PHY 2049.

MET 2010 Meteorology and Atmospheric Physics (3). Physics of the Earth's atmosphere and weather including energy and heat transfer, radiation, temperature and pressure changes and the development of storms, atmospheric optical effects, and weather forecasting. Prerequisite: High school algebra. (F,S)

MET 2010L Meteorology and Atmospheric Physics Laboratory (1). Practical weather analysis including fronts, local severe weather, hurricanes, also elementary analyses and interpretation of weather maps, satellite imagery, radar data. Corequisite: MET 2010. (F,S)

PHY 1020 Understanding the Physical World (3). A course to introduce non-science majors to the basic principles of the physical world with emphasis on understanding common devices, biological and medical applications, natural phenomena and sports. Prerequisite: one year high school or college algebra. (F,S)

PHY 1020L Understanding the Physical World Laboratory (1). Laboratory section of Understanding the Physical World. (F,S)

PHY 1033 First-Year Physics Seminar (1). Introduces activities, members, research and facilities of the Physics Department, curriculum choices, and physics career options to freshmen through group discussions and faculty seminars. Repeatable for credit.

PHY 1037 Quarks, Superstrings, and Black Holes (3). Introduction to physics in the modern era for nonscientists. Topics include quantum mechanics, relativity, fundamental forces, and unification theory.

PHY 1037L Quarks, Superstrings, and Black Holes Laboratory (1). Laboratory to accompany Quarks, Superstrings, and Black Holes.
PHY 2023 Survey of General Physics (3). Units, quantities, Newton's laws, work, momentum, fluids, heat, gas laws, waves, charge and current, electric fields, circuits, light, atomic and nuclear physics. Prerequisites: Algebra, trigonometry (high school). (F,S,SS)

PHY 2048 Physics with Calculus I (4). First in physics with calculus sequence. Covers kinematics, Newton's Laws, conservations laws, gravitation, fluids, sound, and thermodynamics. PHZ 2102 strongly recommended for problem solving skills. Calculus I (MAC 2311 or equivalent) should be taken prior to or concurrent with this course. Prerequisite or Corequisite: MAC 2311 or equivalent.

PHY 2049 Physics with Calculus II (4). Second in basic physics with calculus sequence. Covers electricity and magnetism, field theory, geometrical and wave optics. PHZ 2103 strongly recommended for problem solving skills. Calculus II (MAC 2312 or equivalent) should be taken prior to or concurrent with this course. Prerequisites: PHY 2048. Prerequisite or Corequisite: MAC 2312. (F,S,SS)

PHY 2048L, PHY 2049L General Physics Laboratory I, II (1,1). Laboratory sections of PHY 2048, PHY 2049, PHY 2053, PHY 2054. Prerequisites or Corequisites: PHY 2048, PHY 2049, PHY 2053, PHY 2054. (Lab fees assessed) (F,S,SS)

PHY 2053 Physics without Calculus I (4). First in physics without calculus sequence. Covers kinematics, Newtonian mechanics, properties of fluids, thermodynamics, and wave motion. PHY 2065 strongly recommended for problem solving skill. Trigonometry (MAC 1114 or equivalent) should be taken prior to or concurrently with this course.

PHY 2054 Physics without Calculus II (4). Second in basic physics without calculus sequence. Covers electricity and magnetism, geometrical and wave optics and the structure of matter. PHY 2166 strongly recommended for problem solving skills. Prerequisite: PHY 2053. (F,S,SS)

PHY 2055 Problem Solving in Physics without Calculus I (1). Supplemental course for Physics 2053 that teaches problem solving skills and reinforces concepts learned in the lecture. Corequisite: PHY 2053.

PHY 2166 Problem Solving in Physics without Calculus II (1). Supplemental course for Physics 2054 that teaches problem solving skills and reinforces concepts learned in the lecture. Corequisite: PHY 2053.

PHY 3016 Modern Physics I (3). Recent developments in physics are discussed. Subject matter includes: review of classical physics, special relativity, four-vectors, wave-particle duality, the hydrogen atom, many electron atoms, nuclear instrumentation, nuclear structure, nuclear reactions, elementary particles, introduction to quantum mechanics, and solid state physics. Prerequisites: PHY 2049 and MAC 2312. (F)

PHY 3017 Modern Physics II (3). Recent developments in physics are discussed. Subject matter includes: review of classical physics, special relativity, four-vectors, wave-particle duality, the hydrogen atom, many electron atoms, nuclear instrumentation, nuclear structure, nuclear reactions, elementary particles, introduction to quantum mechanics, and solid state physics. Prerequisite: PHY 2049. (S)

PHY 3106L, PHY 3107L Modern Physics Laboratory I and II (1,1). Laboratory courses to accompany Modern Physics I and II consisting of experiments in atomic and nuclear physics. Pre- or Corequisites: PHY 3106 and PHY 3107. (F) (Modern Physics Lab I); (S) (Modern Physics Lab II).

PHY 3272 Physics of Space Flight (3). Basic physics is used to describe the motions of space craft, with a discussion of various types of propulsion systems, including chemical methods, nuclear systems, electric and photon propulsion. Prerequisite: PHY 2049.

PHY 3424 Optics (3). General formulation of geometrical optics including matrix techniques, interference phenomena, and the theory of Fraunhofer and Fresnel diffraction are among the topics covered. Prerequisites: PHY 2048, PHY 2049.

PHY 3465 Physics of Music (3). Provides an understanding of the physics behind sound, sound reproduction and electronics that are necessary for musicians to understand to take full advantage of modern electronic and musical equipment.

PHY 3513 Thermodynamics (3). Fundamental principles of thermodynamics, the first, second, and third laws, free energy, entropy, the chemical potential, phase rule and its applications. Prerequisites: PHY 2049, MAC 2313. Corequisite: MAC 2313. (F)

PHY 3722 Electronics (3). Solid state theory and the theory of circuits, circuit operation and design in lecture and laboratory sessions. Prerequisites: PHY 2048, PHY 2049.

PHY 3949, PHY 4949 Cooperative Education in Physics (1-3). One semester of full-time supervised work in an outside laboratory taking part in the University Co-op Program. Limited to students admitted to the Co-op Program. A written report and supervisor evaluation will be required of each student. (F,S,SS)

PHY 4134 Widely Applied Physics I (3). Applications of Physics principles to a diverse set of phenomena. Topics include material science, computers and electronics, nuclear physics and energy, astrophysics, aeronautics and space flight, communication technology, and medical physics and imaging. Prerequisite: PHY 3107.

PHY 4135 Widely Applied Physics II (3). Second of a two-course sequence. Will investigate materials science, nanotechnology, computers and electronics, nuclear physics and energy, astrophysics, aeronautics and space flight, communications technology, meteorology, and medical physics and imaging. Course will focus on Chaos, Optical and Wireless Communications, High Temperature Superconductors. Prerequisite: PHY 3107.
PHY 4221, PHY 4222 Intermediate Classical Mechanics I & II (3,3). Laws of motion, statics of particles and rigid bodies, motion of particles in one, two, and three dimensions, systems of particles, rigid bodies in a plane, central forces. Accelerated reference systems, rigid body in three dimensions, generalized coordinates, Lagrangian and Hamiltonian formulations of mechanics, vibrating systems, and normal coordinates. Prerequisites: MAC 2313, PHY 2048, PHY 2049. (F) (Intermediate Classical Mechanics I); (S) (Intermediate Classical Mechanics II)

PHY 4323 Intermediate Electromagnetism I (3). The theory of electromagnetic fields and waves is developed from basic principles. Vector calculus, Coulomb’s law, Gauss’s Law, electrostatic potential, dielectrics, solutions to Laplace’s and Poisson’s equations, magnetic induction, vector potential, magnetic materials, Maxwell’s equations, and propagation of waves in space and various media are discussed. Prerequisites: PHY 2049, MAC 2313. Prerequisite or Corequisite: MAP 2302. (F)

PHY 4324 Intermediate Electromagnetism II (3). The theory of electromagnetic fields and waves is developed from basic principles. Vector calculus, Coulomb’s law, Gauss’s Law, electrostatic potential, dielectrics, solutions to Laplace’s and Poisson’s equations, magnetic induction, vector potential, magnetic materials, Maxwell’s equations, and propagation of waves in space and various media are discussed. Prerequisites: MAC 2313, PHY 2048 and PHY 2049. (S)

PHY 4604 Quantum Mechanics I (3). A comprehensive introduction to quantum mechanics. Wave mechanics applied to standard one dimensional problems and the hydrogen atom. Prerequisites: PHY 3107 or permission of the instructor and MAP 2302, MAC 2313, and PHY 2049. (F)

PHY 4605 Quantum Mechanics II (3). General matrix formalism, angular momentum, symmetries, perturbation theory and variational methods, an introduction to relativistic theory and theory of fields. Prerequisite: PHY 4604. (S)

PHY 4752C Introduction to Scientific Instrumentation (3). The student learns to set up and operate such standard pieces of laboratory apparatus as bridges, amplifiers, oscilloscopes, frequency counters, flowmeters, and thermocouple circuits utilizing chart recorders. A background in general physics is required.

PHY 4821L Senior Physics Lab (3). Advanced laboratory topics are treated. Modern physics laboratory equipment is used and the student is introduced to current laboratory practice. Prerequisites: PHY 2049, PHY 3107L, MAC 2313. (S)

PHY 4905, PHY 4906, PHY 4907 Independent Study (3). The student works under the supervision of a faculty member on subject matter of mutual interest. Instructor’s permission is required.

PHY 4936, PHY 4937, PHY 4938 Special Topics (VAR). A study of topics of special physics interest.

PHY 5115 Mathematical Physics I (3). Methods of solution for problems in mathematical physics: Variational principles, complex variables, partial differential equations, integral equations, and transforms. Prerequisites: MAC 2313, MAP 2302. (F)

PHY 5116 Mathematical Physics II (3). Additional solution methods in mathematical physics: Perturbation methods, Laplace’s and Poisson’s Equations, waves, special functions, vector fields, vector waves. Prerequisite: PHY 5115. (S)

PHY 5141 Intermediate Modern Physics I (3). Prepares advanced undergraduate and beginning graduate students to start research in atomic, molecular, or optical physics. Topics may be adapted to students’ research interests. Prerequisite: Permission of the instructor.

PHY 5142 Intermediate Modern Physics II (3). Continuation of advanced undergraduate and beginning graduate student research preparation in atomic, molecular, optical or nuclear physics. Topics may be adapted to students’ research interests. Prerequisite: PHY 5141.

PHY 5156C Physics Modeling II (4). Expanding the modeling guided-inquiry approach in Physics Modeling I to topics beyond mechanics such as electricity, magnetism, light, or modern physics. May be repeated for credit. Prerequisites: PHZ 5155C and permission of the instructor.

PHY 5235 Nonlinear Dynamics and Chaos (3). Introduction to the universal behavior of classical systems described by nonlinear equations. Prerequisites: PHY 4222, MAA 4211. (F or S)

PHY 5240 Advanced Classical Mechanics (3). Advanced formulations of the equations of motion and their applications: the central field problem, rigid body dynamics, oscillations and continuous systems. Prerequisite: PHY 4222. (F)

PHY 5346 Advanced Electromagnetic Theory I (3). Advanced treatment of classical electromagnetism: Electrostatics, Green’s function, Laplace’s equation, multipole expansion, magnetostatics, Maxwell’s equations, waves. Prerequisite: PHY 4324. (F)

PHY 5347 Advanced Electromagnetic Theory II (3). Additional topics in classical electromagnetism: Wave guides, radiating and diffracting systems, Kirchoff’s integral for diffraction, covariant formulation of field equations. Prerequisite: PHY 5346. (S)

PHY 5446 Laser Physics (3). Principles of lasers and laser applications, including atom-field interactions, stimulated emission and dipole oscillators, optical resonators and electromagnetic modes, semi-classical laser theory, and specific laser systems. Prerequisite: PHY 4605. (F or S)
PHY 5466 The Physics of Music (3). Provides music technology majors a physical understanding of sound, sound generation and reproduction. Concentrates mainly on physical principles and less on calculation. Prerequisite: Permission of the instructor.

PHY 5667 Nonperturbative Quantum Field Theory (3). Euclidean QFT, renormalization group, local gauge symmetry, lattice regularization, Wilson action, fermion fields, expansion schemes, numerical algorithms, hadron properties, recent developments. Prerequisite: PHY 4605.

PHY 5930 Seminar in Physics (1-3). A series of specialized lectures/seminars on selected topics in Physics/Astro-Physics. Prerequisite: Permission of the department.

PHY 5936 Special Topics Research (1-10). Participation in an original investigation in theoretical or experimental physics/astro-physics under direct faculty supervision. Prerequisite: Permission of the instructor.

PHY 5937, PHY 5938 Seminar in Special Topics (3). Seminar work under the supervision of a faculty member on subject material of mutual interest.

PHY 5940 Physics Graduate Teaching Workshop (1). The teaching of physics laboratories. Includes practice of lab experiments, use and adjustment of lab equipment and explanation of departmental grading policy. Supplemented by outside lectures on university policies. (F)

PHZ 2102 Problem Solving in Physics I (1). Supplemental course for Physics 2048 that teaches problem solving skills and reinforces concepts learned in the lecture. Corequisite: PHY 2048.

PHZ 2103 Problem Solving in Physics II (1). Supplemental course for Physics 2049 that teaches problem solving skills and reinforces concepts learned in the lecture. Corequisite: PHY 2049.

PHZ 3422 Nanoscience and Nanotechnology (3). Introduction to the emerging nanoscience and nanotechnology, physical/chemical understanding of nanomaterials and nanostructures, basic skills and techniques for nanofabrication and characterization. Prerequisite: PHY 2049.

PHZ 4390 Nuclear and Particle Physics (3). Basics of Nuclear and Particle Physics, Nuclear forces, quarkgluon structure of hadrons, deep-inelastic scattering, qcd, nuclear and particle astrophysics, formation of quark-gluon plasma. Prerequisite: PHY 4604.

PHZ 4404 Introduction to Solid State Physics (3). Covers crystal structure, thermal properties, and survey of recent development in condensed matter physics. For upper division physics or engineering majors. Prerequisite: PHY 2049.

PHZ 4710 Introduction to Biophysics (3). Physical investigation of biological molecules with special reference to structure and function of protein, biomembranes and visual receptors. Prerequisites: PHY 3107 or CHM 3411.

PHZ 5130 Theoretical Treatment of Experimental Data (3). Statistical analysis of physical processes and statistical tests, with particular emphasis on instrumentation-related problems. Mathematical modeling and computer simulation. Prerequisites: Undergraduate statistics course or equivalent, or permission of the instructor.

PHZ 5155C Physics Modeling I (4). An inquiry physics-teaching approach incorporating physics education research. Emphasis on basics models in mechanics, scientific discourse, and student learning assessment. May be repeated for credit. Prerequisite: Permission of the instructor.

PHZ 5156 Computational Physics I (3). Physical systems by means of computer simulation. Monte Carlo, molecular dynamics, percolation, random systems, chaos, criticality, gauge fields. Prerequisites: PHY 5115 and PHY 5116.

PHZ 5234 Atomic and Molecular Collision Phenomena (3). Investigation of atomic and molecular collision phenomena: Kinetic theory, elastic scattering, inelastic scattering, excitation and ionization, heavy particle collisions. Prerequisites: PHY 4605 and PHY 4222. (F or S)

PHZ 5304 Advanced Nuclear Physics (3). Fundamental properties of nuclei, nuclear forces, nuclear models, radioactivity, weak processes and nuclear reactions. Prerequisite: PHY 4604. Corequisite: PHY 4605. (F or S)

PHZ 5340 Particle Interactions and Detection (3). Subatomic particle detectors and the utilization of physics in practical instrumentation applications in medical physics. The course will include laboratory exercises using various detectors. Prerequisites: PHY 3107 or permission of the instructor.

PHZ 5370 Nanoscience (3). Overview of the nanoscience with emphasis on physical properties, such as electrical, magnetic and optical properties, of nanomaterials. Prerequisites: PHY 3106, PHY 3107.

PHZ 5405 Solid State Physics (3). Crystalline form of solids, lattice dynamics, metals, insulators, semiconductors, crystalline surfaces, and amorphous materials. Prerequisites: PHY 3107 or CHM 3411. (F or S)

PHZ 5505 Low Energy Plasma Physics (3). The investigation of the kinetics of rarefied gases and thermal plasmas: Phase space, random currents, orbit theory, plasma sheaths, radiation, the pinch effect. Prerequisites: PHY 3513, PHY 4324, and PHY 4222.
PHZ 5506 Plasma Physics (3). An introduction to plasma fundamentals, the Boltzmann equation, the hydro-dynamic equations, orbit theory, the interaction of electromagnetic waves with plasmas, the pinch effect and instabilities. Prerequisite: PHY 2049.

PHZ 5606 Special Relativity (3). A detailed study of special relativity: Lorentz transformations, relativistic electrodynamics. Prerequisite: PHY 3107.

PHZ 5607 General Relativity (3). General relativity using differential geometry and tensor analysis. Topics include Einstein’s field equations and their solutions, applications and observational tests. Black Holes and cosmology are also discussed. Prerequisites: PHY 4222 and PHY 4605.

PHZ 5705 Biomedical Physics (3). Physics principles applied to biology and medicine; transport through cell membranes, biochemical signaling, thermodynamics, neurons, biomechanics, biofluid flow, bioelectrical signals. Prerequisite: PHY 3107.

PHZ 5730 Biophysical Effects of Radiation (3). Biological effects resulting from interactions of radiation and matter for scientifically, technically, and medically oriented students. Prerequisite: PHY 3107.

PHZ 5732 Clinical and Medical Dosimetry (3). Practical patient dosimetry problems in radiation oncology. Irregular field calculations, two-and three-dimensional treatment planning, isodose distribution, dose rate brachytherapy planning. Prerequisite: PHY 3107.

PHZ 5734 Nuclear Medicine Physics (3). The nuclear physics principles of diagnostic and therapeutic applications of radionuclides, radiation beams, with lab activities in facility design, instrumentation essentials, quality assurance. Prerequisite: PHY 3107.

PHZ 5736 Therapeutic Radiological Physics (3). Production, application, and measurement of electromagnetic radiation and particle beams in therapeutic practice. Conceptual, instrumental, and methodological aspects of therapeutic radiology. Prerequisite: PHY 3107.

PHZ 5945 Clinical Experience in Medical Physics (3). Arranged through the Physics Department at local institutions e.g. hospitals, treatment centers, etc., this course places students in clinical medical physics facilities. Prerequisite: PHY 3107.

PSC 4813 Modeling Instruction (3). Inquiry physics instruction approach incorporating physics education research. Includes basic models in mechanics, scientific discourse, and assessment. Includes use of technology in content delivery. Prerequisite: PHY 3012.

PSC 4814 Advanced Modeling Instruction (3). Extends modeling guided inquiry approach to topics including electricity and magnetism, light, and/or modern physics. Includes use of technology in content delivery. May be repeated for credit. Prerequisite: PSC 4813.
Politics and International Relations

Richard S. Olson, Professor and Chairperson
Majid Al-Khalili, Lecturer and Undergraduate Advisor, International Relations
Adrian Ang, Assistant Professor
Clair Apodaca, Associate Professor
Astrid Arrarás, Lecturer
Kenneth Boodhoo, Professor Emeritus
Thomas A. Breslin, Professor
John F. Clark, Professor
Ronald Cox, Associate Professor

Christopher Warren, Associate Professor
Gregory B. Wolfe, Professor Emeritus
Jin Zeng, Assistant Professor

Bachelor of Arts in International Relations

Degree Program Hours: 120

Lower Division Preparation

Students may begin taking courses in the Department at any time and may declare their intention to major in International Relations after completing 24 semester hours of the University core curriculum requirements. To qualify for admission to the program, FIU students must have met all lower division requirements including CLAS, 60 semester hours, and a minimum 2.0 grade point average.

Common Prerequisite Courses and Equivalencies

<table>
<thead>
<tr>
<th>FIU Course(s)</th>

<tbody>
<tr>
<td>None</td>
<td>None</td>
</tr>
</tbody>
</table>

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: [http://facts.org](http://facts.org), See Common Prerequisite Manual.

Common Prerequisites

None

Required for the degree:

INR 2001 Introduction to International Relations

Upper Division Program

International Relations majors must complete a minimum 33 semester hours of course work in the department with a grade of ‘C’ or better.

Core Requirement: (3)

Take one of the following courses:

- GEA 2000 World Regional Geography
- CPO 2002 Introduction to Comparative Politics
- REL 3308 Studies in World Religion
- SYP 3456 Societies of the World
- ECS 3003 Comparative Economic Systems
- WOH 2001 World Civilization
- EVR 1017 Global Environment & Society

Group I Courses for the Major: (12)

In addition to the Core Requirement, INR majors must take at least one course (3 sem. hrs.) from each of the following divisions in Group I:

A. International Law/International Organizations (IL)
B. Foreign Policy/Security Studies (FP)
C. International Political Economy (IPE)
D. A fourth course from among the following:
   1). An Additional INR-prefixed Group I course
   2). Comparative Politics courses
   3). Economics courses

2). Comparative Politics courses

- CPO 3010 Comparative Politics: Theory and Practice
- CPO 3055 Authorization Politics
- CPO 4034 The Politics of Development & Underdevelopment
- CPO 4053 Political Repression & Human Rights
- CPO 4057 Political Violence and Revolution
- CPO 4062 Comparative Judicial Politics
- CPO 4725 Comparative Electoral Behavior
- CPO 4742 Comparative Political Economy
- CPO 4930 Topics in Comparative Politics

3). Economics courses

- ECS 3021 Women, Culture, and Economic Development
- ECO 4703 International Trade Theory and Policy
- ECO 4733 Multinational Corporation
4). Geography courses
GEO 3001  Geography of Global Change
GEO 3502  Economic Geography
GEO 3471  Political Geography
GEO 4354  Geography of the Global Food System
GEO 4476  Political Ecology
GEO 4477  Critical Geopolitics

5). History courses
EUH 3245  European History, 1914 – 1945
EUH 3282  European History, 1945 – Present
LAH 3718  History of US – Latin American Relations

6). Sociology and Anthropology courses
ANT 4306  The Third World
SYD 4237  Immigration & Refugees
SYP 4441  Sociology of World Development
SYP 4454  Globalization and Society

Group II Courses for the Major: (12)
INR majors must also take at least four courses (12 sem. hrs.) in Group II, including at least one from each of the following divisions:

A. Area Studies (AS)
B. Issues and Problems in International Relations (IP)
C. Second AS or IP course
D. One course from among the following:
   1. Geography courses
      GEA 3320  Population and Geography of the Caribbean
      GEA 3400  Population and Geography of Latin America
      GEA 3500  Population and Geography of Europe
      GEA 3554  Geography of Russia and Central Asia
      GEA 3600  Population and Geography of Africa
      GEA 3635  Population and Geography of the Middle East
      GEA 3705  Geography of Central Asia and the Caucasus
   2. Religious Studies courses
      REL 3310  Introduction to Asian Religions
      REL 3330  Religions of India
      REL 3362  Islamic Faith and Society
      REL 3383  Religions of the Caribbean
      REL 4370  African Religions
   3. Economics courses
      ECS 3200  Economics of Asia
      ECS 3401  The Brazilian Economy
      ECS 3402  The Political Economy of South America
      ECS 3403  Economics of Latin America
      ECS 3431  Economics of the Caribbean Basis
   4. Anthropology or Sociology courses
      ANT 3780  Anthropology of Brazil
      ANT 4324  Mexico
      ANT 4332  Latin America
      ANT 4340  Cultures of the Caribbean Basin
      ANT 4352  African Peoples and Cultures
      SYD 3650  Sociology of Gender and Power in Asia
      SYD 4610  Japanese Society in Global Perspective
      SYD 4630  Latin American and Caribbean Societies
   5. Comparative Politics courses
      CPO 3103  Politics of Western Europe
      CPO 3204  African Politics
      CPO 3304  Politics of Latin America
      CPO 3403  Politics of the Middle East
      CPO 3643  Russian Politics
      CPO 4303  Politics of South America
      CPO 3423  Politics of the Caribbean
      CPO 4333  Politics of Central America
      CPO 4340  Politics of Mexico
      CPO 4360  Cuban Politics
      CPO 4401  The Arab-Israeli Conflict
      CPO 4461  Politics of Eastern Europe
      CPO 4507  Comparative Political Economics of Asia
      CPO 4541  Politics of China
      CPO 4553  Government and Politics of Japan
      CPO 4955  Politics of the Czech Republic: Study Abroad

6). Environmental Studies course
EVR 3402  Asian Environmental Issues

Note: INR 4943 Internship in International Affairs can count as the fourth Group II course as long as the student has completed one course from each of the three divisions, above.

Exit Requirements: (6)
INR 4013  Development of International Relations
INR 4603  Theories of International Relations

Electives
Students are encouraged to double major or pursue a minor in related fields such as political science, economics, geography, modern languages, history, sociology/anthropology, or business. We recommend that students take introductory courses in economics and gain fluency in at least one foreign language. Students may also consider appropriate academic certificates such as those in Latin American and Caribbean Studies, Asian Studies, African and African Diaspora Studies, and European Studies.

Combined BA in International Relations/MA in International Studies
The combined BA/MA degree program allows highly qualified undergraduate students to pursue an accelerated MA degree in International Studies. Students accepted into this program will be able to complete the MA degree as much as one year sooner than would otherwise be possible. Students accepted into the International Relations Honors Track are particularly encouraged to apply for this program.

To be considered for admission to the combined bachelor’s/master’s degree program, students must have completed at least 75-90 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Upon conferral of the bachelor’s degree, the
student will be granted graduate status and be eligible for
ggraduate assistantships. Only 5000-level or higher
courses, and no more than the number of credits specified
by the program catalog, may be applied toward both
degrees.

To be accepted into the combined BA/MA degree
program, students must submit an MA program application
by March 15 in their junior year (to apply, students must
already have completed 75 credits in their undergraduate
degree program). A complete application requires:
- Current enrollment in BA program in International
  Relations at FIU
- GRE score of 1000 or above
- GPA of 3.5 or above
- Two letters of recommendation
- Statement of purpose discussing research interests

All components of the application must be complete by the
March 15 application deadline. Students should consult
the graduate catalog and the Politics and International
Relations Department website for a more comprehensive
discussion of admission requirements. Students in the
combined BA/MA degree program must apply for their
undergraduate degree as soon as possible after having
satisfied the degree requirements.

The program gives students the opportunity to take up
to 9 credits of graduate coursework in their senior year
that will count towards both the BA and the MA. Successful completion of the BA/MA program will
therefore require a total of 147 credit hours. Students will
take three 5000 level graduate courses in their senior year
and follow the regular MA curriculum after they earn their
BA degree. A typical course of study is as follows:

Undergraduate Junior Year: apply to the program
(March 15 deadline)

Undergraduate Senior Year
Fall Semester – take 12 credits, including one 5000-level
course
Spring Semester – take 12 credits, including two 5000
level courses

Graduate Program
Summer – take 3 graduate credits (5000-level or higher)
Fall – take 9 graduate credits (5000-level or higher)
Spring – take 9 graduate credits (5000-level or higher)
Summer – take 6 graduate credits (thesis or
comprehensive examination preparation)

Students in the combined BA/MA program in International
Studies must complete all other requirements for the MA
degree in International Studies (please consult the
graduate catalog and the Politics and International
Relations Department’s online graduate handbook.

Minor in International Relations
A student majoring in another academic discipline earns a
Minor in International Relations by successfully completing
approved course work of 18 semester hours in the
Department of Politics and International Relations with a
grade of ‘C’ or better.

This program must include:
- INR 2001 Introduction to International Relations
- One “outside INR major” course to be taken from among:
  - GEA 2000 World Regional Geography

Honors Track in International Relations
Students with a least 18 credits in International Relations
and a 3.5 GPA in their major courses are eligible to apply
for the Honors Track. Those accepted may then take INR
4937 (Honors Seminar I) and INR 4970 (Honors Thesis) to
fulfill the requirements for the Track. Completion of the
Honors Track is recognized on students’ transcripts upon
graduation.

Bachelor of Arts in Political Science
Degree Program Hours: 120

The major in Political Science provides a broad education
that will equip students for a wide variety of careers. The
program for majors is designed to (1) encourage analysis
of political theories, institutions, and processes within the
broader context of the social sciences; (2) increase
appreciation of political science as a discipline; (3) develop
a continuing and responsible interest in political
participation and public affairs; (4) provide the opportunity
to acquire a fundamental understanding of political
science as a basis for citizenship, a career in government,
or professional study and service; and (5) stimulate
interest in graduate studies in various fields and
disciplines.

The curriculum is designed to not only expose students
to the various areas of Political Science but also to allow
reasonable specialization. Students are encouraged to
create a blend of courses that fits their interests and they
should work with the Political Science undergraduate
advisor in selecting courses.

To qualify for admission to the program, FIU
undergraduates must have met all the lower division
requirements including CLAS, 60 semester hours, and a
minimum 2.0 Grade Point Average.

Curriculum for Political Science Majors
Students should obtain and read the Political Science
Advising Guide, available online via the Political Science
portion of the Department of Politics and International
Relations website. A minimum of 30 credits of upper
division work (3000 level and above) is required for a
major in Political Science. A maximum of 6 of those credits
may be in independent study and internship courses.

In addition, two 2000 level courses are required for a
student to meet the department’s prerequisite
requirements for majors as well as the state mandated
“Common Prerequisites” (see below). These courses

CPO 2002 Introduction to Comparative Politics
REL 3308 Studies in World Religion
SYP 3456 Societies of the World
ECS 3003 Comparative Economic Systems
WOH 2001 World Civilization
EVR 1017 Global Environment & Society
should be taken as early as possible in preparation for upper division work in the major. POS 2042-American Government (or its equivalent) is required of all Political Science majors. This course will also meet one of the two state mandated Common Prerequisites. The second Common Prerequisite may be fulfilled by taking either CPO 2002 Introduction to Comparative Politics, or INR 2001 Introduction to International Relations (or their equivalents). These requirements can normally be met through course work at the community college level or taken at FIU. Students should be mindful of the further requirement of the College of Arts and Sciences that a minimum of 48 upper division credits (3000 level and above) is necessary for graduation. Students also need to pass 9 hours in upper division courses outside Political Science and must satisfy the College of Arts and Sciences Foreign Language Requirement.

No specific upper division courses are required. Rather, courses in Political Science must be distributed so that four courses meet the Breadth Requirement and six other courses meet the Political Science Electives Requirement.

The student must earn a grade of ‘C’ or better in all Political Science courses to be credited toward the major. A grade of ‘C-’ will not fulfill the requirements of the major. Students choosing to major in Political Science must officially declare their major by completing applicable state mandated Common Prerequisites. The second Common Prerequisite may be fulfilled by taking either CPO 2002 or INR 2001, or POS 2042 and one of the following two courses:

- CPO 2002 Introduction to Comparative Politics (or its equivalent)
- INR 2001 Introduction to International Relations (or its equivalent)

These courses do not count toward the 30 credits of upper division work required for the major.

**Requirements for a Major**

I. **Breadth Requirement (12 credits)**

This is designed to acquaint all majors with the four general fields of Political Science. One three semester hour course must be taken in each of the following subfields, for a total of 12 semester hours. These courses may not include special topics courses, independent study, or internship.

- **American Politics**: Any one 3000 level or above course with a POS prefix. (3 credits)
- **Comparative Politics**: Any one 3000 level or above course with a CPO prefix. (3 credits)
- **International Politics**: Any one 3000 level or above course with an INR prefix. (3 credits)
- **Political Theory**: Any one 3000 level or above course with a POT prefix. (3 credits)

II. **Political Science Electives Requirement (18 credits)**

Six upper division courses with POS, CPO, INR, or POT prefixes, for a total of 18 credits. No more than 6 credits in independent study and/or internship can be applied toward the Political Science Electives Requirement.

**Bachelor of Arts in Political Science: Social Studies Education Major**

The BA in Political Science with Social Studies Education major is completing the approval and accreditation process with the Florida Board of Governors and the Florida Department of Education. Please speak with a College of Arts and Sciences advisor for detailed information.

This program prepares students interested in Social Studies and social sciences for teaching at the secondary level. The major incorporates current results from education research, effective curriculum materials, use of technology, and a global perspective in collaborative learning. Program requirements include field experiences and an internship. Interested students are encouraged to contact the department for additional details and information on teacher support programs.

**Lower Division (6 credits)**

(Common Prerequisites as Detailed Under the BA Degree in Political Science)

- POS 2042 American Government 3
- INR 2001 Introduction to International Relations 3
- CPO 2002 Introduction to Comparative Politics 3

**Additional Lower Division Courses (3 credits)**

- GEA 2000 World Regional Geography 3

**Upper Division (30 credits total)**

- POS 3413 Presidency 3
- POS 3424 Legislative Process 3
- CPO 3103 Politics of Western Europe 3
- CPO 3304 Latin American Politics 3
- POT 3103 Ancient and Medieval Political Theory 3
- INR 3102 American Foreign Policy 3
- POS 3XXX/4XXX Elective 3
- CPO 3XXX/4XXX Elective 3
Two Political Science Electives at 3000 level or higher for 3 credits each.

**Combined BA/MA in Political Science**

To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

**Admission Requirements**

1. Students must have completed 75-90 credit hours.
2. Students must have been admitted to the College of Arts and Sciences and must have satisfied the CLAS requirement.
3. A 3.5 GPA overall in college work, and a 3.75 GPA in Political Science courses taken at FIU are required.
4. Three letters of recommendation, at least two of which must be from FIU Political Science faculty, are required.
5. Students must meet admissions requirements for the MA in Political Science.
6. Finally, a favorable decision into the 4+1 program by the Political Science graduate committee is required.
7. Students will be awarded the B.A. degree upon completion of the B.A. requirements, prior to completing the requirements for the M.A. degree.

**Common Prerequisites (2 courses/6 credits)**

The common prerequisites are required introductory courses for the undergraduate major and should be among the first Political Science courses taken.

**Two Common Prerequisite courses are required:**

- **POS** 2042 American Government (or its equivalent) must be completed by all majors.
- **OR**
  - **INR** 2001 American Politics (or its equivalent) must be completed by all majors.

Some transfer students will have already taken these or equivalent courses at other institutions, and should not repeat them at FIU. Students with questions about course equivalencies should contact the Political Science undergraduate advisor.

**Breadth Requirement (5 courses/15 credits)**

The Breadth Requirement is intended to expose majors to each of the five major sub-fields of Political Science. Complete one course in each of the following five breadth areas (may be completed in any order).

**American Politics (AP)** – Choose one of five:
- **POS** 3064 Federalism
- **POS** 3152 Urban Politics
- **POS** 3413 The Presidency
- **POS** 3424 Legislative Process
- **POS** 3443 Political Parties

**Judicial Politics (JP)** – Choose one of three:
- **POS** 3283 Judicial Process
- **POS** 3603 Constitutional Law: Powers
- **POS** 3604 Constitutional Law: Limits

**Comparative Politics (CP)** – Choose one of eight:
- **CPO** 3010 Com. Pol.: Theory and Practice
- **CPO** 3055 Authoritarian Politics
- **CPO** 3103 Politics of Western Europe
- **CPO** 3502 Politics of the Far East
- **CPO** 3204 African Politics
- **CPO** 3304 Latin American Politics
- **CPO** 3403 Politics of the Middle East
- **CPO** 3643 Russian Politics

**International Politics (IP)**
- **INR** 3102 American Foreign Policy

**Political Theory (PT)** – Choose one of five:
- **POT** 3013 Anc. & Med. Pol. Th.
- **POT** 3054 Modern Political Theory
- **POT** 3064 Contemporary Political Theory
- **POT** 3204 American Political Thought
- **POT** 3302 Political Ideologies

**Political Science Graduate/Undergraduate Electives Requirement (5 courses/15 credits)**

Students in the 4+1 program will take five 3-credit Political Science courses to satisfy this requirement. **Three of these courses (9 credit hours) must be 5000-level graduate courses.** The other two courses must be 3000 or 4000-level Political Science classes. Students must be advised by the departmental Graduate Program Director before enrolling in these 5000-level courses.

The 9 hours of graduate credit taken to satisfy the undergraduate Political Science major requirement will also count as 9 credit hours toward the 30 hours of graduate courses required for the M.A. degree.

**M.A. Courses**

A total of 30 hours of graduate-level courses is required for the successful completion of the M.A. degree. Nine of
these 30 hours will have been completed at the undergraduate level by students in the 4+1 program.

Required Core Graduate Courses
POS 5706 Research Methodology
POS 5716 Foundations of Political Science
POS 6976 Research Seminar (to be taken during last term)

Secondary Core Graduate Courses – Choose three of the following:
CPO 5091 Seminar in Comparative Politics
INR 5007 Seminar in International Politics
POS 5045 Seminar in American Politics
POT 5007 Seminar in Political Theory

Electives – Four courses (12 credit hours)
Any 5000 or 6000 level Political Science courses. Two courses (6 credit hours) may be taken from outside the Department, with prior approval from the Graduate Director.

Research Project
A final research project must be completed in POS 6976 under the supervision of a Politics and International Relations faculty member. MA candidates are required to formally present the results of their research to faculty and peers at the end of the semester. The MA project will be evaluated by a three-member faculty panel.

Minor in Political Science (18 credits)

Lower Division Requirement (3 credits)
POS 2042 American Government (or its equivalent)

Upper Division Requirement (15 credits)
Any five upper division (3000 level and above) courses selected from at least two of the following course prefixes: CPO, INR, POS, or POT, not including independent study or internship courses.

All courses for the minor must be passed with a 'C' or better grade. A grade of 'C-' in a course will not fulfill the requirements of the minor. Students should select specific courses in consultation with their major advisor and the Political Science undergraduate advisor. Students must apply for a minor by completing a Request for Minor Form and have it signed by their Major and Minor Advisors.

Pre-Law Students
The Department of Politics and International Relations recognizes the interests and needs of the undergraduate Political Science major who plans to attend law school. The basic skills important to such students include how to (1) think logically, (2) read critically, and (3) write and present clearly and correctly.

These skills are developed in a number of disciplines. Beyond these basic skills, the department encourages interested majors to acquire a broad background in Political Science or International Relations rather than to select only courses that deal with public law. The department publishes a pre-law handbook that addresses general questions for majors interested in pre-law, and the department’s pre-law advisor will counsel majors students on specific concerns.

In selecting electives, Political Science and International Relations majors should remember that the LSAT, as well as law schools requires the ability to read with comprehension concepts and logic and to express oneself with clarity and precision. Whether or not a given major will benefit from a particular elective is a question best answered by the student in close consultation with an advisor. Courses in History, Philosophy, Economics, Sociology, Psychology, Math, and English will probably all give relevant skills to majors interested in pre-law. Breadth of preparation is important. Whether a particular course in logic, writing or another area is the best choice can only be answered on an individual basis.

Public Affairs Internships
The Department is committed to providing opportunities for practical experiences in governmental and nongovernmental agencies. Four categories of internships are open to qualified students:
1. Judicial Internships (Prerequisites: POS 3283-Judicial Process or equivalent)
2. Legislative Internships (Prerequisites: POS 3424-Legislative Process or equivalent)
3. Campaign Internships (In election year). (Prerequisites: POS 3443-Political Parties, or POS 4233-Public Opinion)
4. Washington Center Internships (administered through the Washington Center, an organization providing opportunities for semester length programs of internship and coursework in Washington, D.C. See http://www.twc.edu for further information).

Standards for enrollment as an intern student include:
Enrollment is by permission of the instructor only. A student wishing to enroll as a public affairs intern should consult with the appropriate faculty member early in the preceding semester and receive written permission to enroll. A 3.0 GPA is required.

A Political Science major may count a maximum of six credit hours in internships toward his/her major.

All public affairs internships in Political Science will be on a Pass/Fail basis.

For further information on internships, contact the Political Science undergraduate advisor.

Upper Division Transfer Credit
Students will generally receive transfer credit for junior and senior level courses in Political Science with a grade of 'C' or higher. While a student may transfer up to 30 credits of upper division work, the department will only accept 15 credits towards the Political Science curriculum. All decisions to recognize transfer credit rest with the department undergraduate advisor or chairperson.

Undergraduate Advising
The Department of Politics and International Relations maintains a Political Science Undergraduate Advisor available to answer student questions regarding degree requirements, transfer credit, and graduation. All new majors and minors should make an appointment to meet with the Undergraduate Advisor in advance of their enrollment in the program. Prior to registering for their final semester of courses, graduating seniors should absolutely meet with the Political Science Undergraduate Advisor for a graduation check to review their records. Appointments for undergraduate advising are available through the
department faculty are willing to meet with students to discuss their academic work, the prospects of graduate studies, and career planning.

Course Descriptions
Definition of Prefixes
ASN-Asian Studies; CPO-Comparative Politics; INR-International Relations; POS-Political Science; POT-Political Theory; PUP-Public Policy

Courses that meet the Breadth Requirements for the major are identified by subfield following the course title: (AP) American Politics; (JP) Judicial Politics; (CP) Comparative Politics; (IP) International Politics; and (PT) Political Theory.
F-Fall semester offering; S-Spring semester offering; SS-Summer semester offering.

ASN 5171 International Relations of Contemporary China (3). Survey of the dynamic interaction between external and internal factors on China's international relations.

CPO 2002 Introduction to Comparative Politics (3). Analysis of major theories of comparative politics including development, state building, institutions, patterns of political interaction and comparative elites. Focus on Latin America and the Third World.

CPO 3010 Comparative Politics: Theory and Practice – GL (CP) (3). Examines major theories and methods of comparative politics, focusing on divergent political systems (Democracy, Authoritarianism, Totalitarianism). Countries/regions studied vary with instructor.

CPO 3055 Authoritarian Politics (CP) (3). The purpose of this course is to identify the conceptual and empirical characteristics of authoritarian regimes. An ideal typical authoritarian regime will be established, followed by case study analyses of modern authoritarian systems, like those of Brazil, Mexico, and Portugal. The course is designed to analyze the circumstances giving rise to non-totalitarian modern dictatorships, their political dynamics, and their survival capability.

CPO 3103 Politics of Western Europe (CP) (3). Studies of political systems of the major European countries on a comparative basis. Attention is focused on such factors as political party systems, the cabinet form of government, and the politics of the Common Market. Considers the implications of the impact of mass society on these nations. Enables the students to better understand the nations which have supplied many of the theoretical foundations of modern politics.

CPO 3104 Politics of the European Union (3). Traces the development of the governmental forms and structures in the evolution of the European Union and compares them to governmental structures in other regional and global multinational organizations.

CPO 3204 African Politics (CP) (3). Compares the politics of Sub-Saharan Africa, and the Republic of South Africa and addresses questions of economic development, the colonial legacy, and the impact of traditional social patterns.

CPO 3304 Politics of Latin America (CP) (3). This course analyzes the multiple structures, processes, and groups which are relevant to an understanding of Latin American political economy. Of special interest are the political impacts of land and wealth inequality and economic dependency. The dynamics of Latin American politics are considered, with an emphasis on the role of the military and the church. Alternate strategies for modernizing the region are considered.

CPO 3403 Politics of the Middle East (CP) (3). This course will focus on the social, cultural, and political aspects of the Middle East region. Through an understanding and an interweaving of these complex facets, a student should gain a foundation and background for comprehension of the contemporary conflict which pervades this mercurial region.

CPO 3502 Politics of the Far East (CP) (3). An intensive examination of the major political institutions of China, Japan, and Korea. A critical analysis of changing aspects of traditional relationships in Far Eastern political culture and major reform movements in contemporary Far Eastern politics. Allows the student to better understand nations whose political development will be an important factor in global development.

CPO 3643 Russian Politics (CP) (3). Examines the political structure and institutions of Russia. Attention is paid to the historical and cultural aspects of the structure and use of power.

CPO 4034 The Politics of Development and Underdevelopment (3). This course is an analysis of the causes of development and underdevelopment in Third and Fourth World countries. It includes an analysis of major theoretical approaches to understanding development problems, as well as an analysis of the roles of major national and non-national actors.

CPO 4053 Political Repression and Human Rights (3). Examination of domestic factors resulting in political repression and violations of human rights. American, European, and South American examples will be used.

CPO 4057 Political Violence and Revolution – GL (3). An examination of major historical instances and modern expressions of political violence; discussion of revolution from a comparative perspective. Attention will focus on the social origin and political determinants of such events.

CPO 4062 Comparative Judicial Politics (3). An examination of the various modes of dispute settlement and rule adjudication cross-culturally. Emphasis is on the similarities and differences of judicial behavior, judicial decision-making, judicial recruitment, and judicial powers in cross-national analysis.

CPO 4072 Comparative Electoral Behavior (3). Public opinion, voting choice, and electoral patterns from a comparative and historical perspective. Attention will focus on West Europe and Latin America. Differences from North American trends and patterns will also be detailed.
CPO 4303 Politics of South America (3). A cross-national discussion of the political systems and cultures of the Latin American nations, with special emphasis on the larger countries. Attention is given to the role of the military and to the problem of violence. Designed to give the student an overview of the political life of the nations with whom we share this hemisphere.

CPO 4323 Politics of the Caribbean (3). Studies the political system of the major British, French, Dutch, and Spanish areas in the Caribbean basin. Attention is focused on such factors as political party democracies in a nonindustrial setting. The paradoxes between modernity and tradition throughout the developing Caribbean, and the relationship between politics, economics, and culture are discussed. The student is helped to understand the dynamics of change in an important area of the world and to compare those dynamics with change in his own country.

CPO 4333 Politics of Central America (3). This course analyzes the historical and contemporary political dynamics of the five countries of Central America. Special attention is given to problems of development and modernization within the context of the region’s economic dependence on the United States. Special attention is given to the problem of political restraints on the modernization process and to those regional arrangements which have been created to solve the area’s problems. The student will develop a better understanding of a region which has close ties to the United States.

CPO 4340 Politics of Mexico (3). This course analyzes the structure and process of the Mexican political system from four perspectives: 1) Mexico’s revolutionary heritage; 2) its formal governmental structure; 3) formal political relations; and 4) the structure and process of Mexican political economy.

CPO 4360 Cuban Politics (3). Examines the course of twentieth century Cuban politics. The course is subdivided into five parts covering the three periods of relatively stable politics and the two major revolutions.

CPO 4401 The Arab-Israeli Conflict (3). This course provides the student with an introduction to the political roots of the Middle East conflict, and examines the dilemmas of finding a solution by focusing on the domestic and international constraints imposed upon the major actors.

CPO 4404 Iraq: Politics and Society (3). Surveys the development of politics and society in Iraq over the past century to the present.

CPO 4461 Politics of Eastern Europe (3). An examination of the historical and contemporary political dynamics of the countries of Eastern Europe. Special attention is given to the process of “democratization” and the effort to move towards a liberal-democratic, capitalist order.

CPO 4507 Comparative Political Economics of Asia (3). Introduction to the political economy of East and Southeast Asia. Course is segmented into three parts: overview of Asia Pacific; survey of specific countries; and trends and transformations.

CPO 4541 Politics of China (3). This course introduces students to China’s political history from 1840 and analyzes politics in the People’s Republic of China with special emphasis on political and economic development, socio-economic and political conflict, ideology, and foreign policy.

CPO 4553 Government and Politics of Japan (3). Introduction to Japanese politics. Special attention is given to the Japanese variant of democracy, the capitalist state, and foreign policy.

CPO 4725 Comparative Genocide (3). A comparative analysis of the pre-conditions and processes associated with major cases of 20th century genocide, including Armenia, Germany, Cambodia, Bosnia, and Rwanda.

CPO 4726 Ethnicity and Nationalism (3). Surveys and systematically compares multi-ethnic and multi-national states, politically, socially, and economically. Investigates integration, assimilation, coexistence, and stratification. (F)

CPO 4741 Comparative Political Economy (3). Examines the theoretical approaches used to assess the relationship between political institutions and private economic interests in advanced, industrial countries and the less developed world.

CPO 4930 Topics in Comparative Politics (3). An intensive examination of a topic in comparative politics. Subject matter varies according to the instructor. Topic to be announced in advance.

CPO 4955 Politics of the Czech Republic: Study Abroad (3). Examination of Czech political system, its history and current constitutional structure. Course is taught by FIU and Czech faculty with significant study abroad component.

CPO 4956 Constitutional Politics of the Czech Republic: Study Abroad (3). An examination of the development of individual rights in the Czech Republic in a study abroad setting. Particular attention to issues of liberty and equality.

CPO 4957 Czech Republic in the Global Arena: Study Abroad (3). Examination of the global political environment of the Czech Republic. Special attention to external factors, internal demands and the political, economic and social forces that impact foreign policy decisions.

CPO 5036 Politics of Development (3). This course examines divergent explanations for development and underdevelopment. Of central importance are the concepts and theories which emphasize the political dimensions of development, including theory and concept, processes of development, and actors in the development process.

CPO 5091 Seminar in Comparative Politics (3). A foundation in the development of the field of comparative politics and in the major schools of thought that have molded the perspectives on comparative political analysis.

CPO 5325 Politics of the Caribbean (3). Examines the structural and institutional aspects of the politics of the Caribbean in both domestic and international contexts. Prerequisite: Graduate standing.
CPO 5934 Topics in Comparative Politics (3). A rigorous examination of a topic in comparative politics. Subject matter varies according to instructor. Topic will be announced in advance.

CPO 5936 Seminar in Comparative Political Parties (3). Students read and discuss major works on parties by conservative, liberal, and Marxist authors.

INR 2001 Introduction to International Relations (3). Introduction to the interactions among international actors: states, international organizations, and transnational groups. Concepts such as power and national interest will be introduced. (F,S,SS)

INR 3030 Diplomacy (FP) (3). Covers theory and practice of diplomacy, including negotiation, conflict resolution, ethics and human rights, and economic diplomacy. Examines both diplomatic history and contemporary foreign policy problems.

INR 3043 Population and Society (G, IP) (3). Introduction to basic demographic concepts: fertility, mortality, migration, urbanization. Discussion of economic development, modernization and population change. Examination of sources of data and background information including censuses and vital statistics, and their utilization. (F)

INR 3045 The Global Challenge of Refugees and Migrants (IP) (3). Examines political and economic challenges stemming from the international movement of refugees and economic migrants. Emphasizes the role of state power, organizations and law in structuring responses.

INR 3061 Conflict, Security and Peace Studies in INR (FP) (3). Introduces students to basic theoretical arguments and empirical cases on security, peace and strategic studies. Examines the evolution of conflict resolution and post-conflict reconstruction.

INR 3081 Contemporary International Problems (IP) (3). Examines selected world and regional issues and problems. Topics vary according to the instructor. (F,S,SS)

INR 3102 American Foreign Policy (FP) (3). An examination of the legal, administrative, and political structure by which American foreign policies are formulated and implemented. Includes a discussion of the objectives and consequences of United States foreign policy in selected regional, social-economic, and ideological areas. Enables the student to understand the procedures by which foreign policy is made and implemented in the United States. (F, S)

INR 3214 International Relations of Europe (AS) (3). An examination of the international, social, economic, and political life of contemporary Europe. Emphasis given to international organizations and the trend toward economic and political integration. (F,S)

INR 3223 Japan and the United States (AS,FP) (3). Examines the international relationship between two of the most powerful and economically significant states of this and the next century and the international problems they must face together.

INR 3224 International Relations of East Asia (AS) (3). Examines strategic and economic aspects of international relations among China, Japan, North Korea, and other nations of East Asia.

INR 3226 International Relations of Central Asia and the Caucasus (AS) (3). Analysis of international relations of Central Asia and the Caucasus, domestic and external sources of region’s foreign policy and its geopolitical, geoeconomic and geocultural dynamics.

INR 3227 International Relations of South Asia (AS) (3). Examines international relations of Indian subcontinent. Looks at basic patterns of international, political, economic, cultural, and ideological relations of the region.

INR 3243 International Relations of Latin America (AS) (3). An examination of international, social, economic, and political life of Latin America. Emphasis given to the role of international organizations; regionalism; and the trend toward economic integration. (F,S,SS)

INR 3246 International Relations of the Caribbean (AS) (3). An examination of the international social, economic, and political life of the Caribbean. Includes English, Spanish, and French speaking regions. (F,S)

INR 3252 International Relations of North Africa (AS) (3). An examination of the social, political and economic structure of North Africa and the manner in which its historical development has conditioned international relations within and external to the region. (F)

INR 3253 International Relations of Sub-Saharan Africa (AS) (3). An analysis of the international relations of sub-Saharan African nations with one another and with other, non-African nations. Examines the effects of such international relationships on development, politics, and social change in sub-Saharan Africa.

INR 3262 International Relations of Russia and the Former USSR (AS) (3). Analysis of the international relations of countries of the former USSR, covering the Soviet and post-Soviet eras. Emphasis on Russia, Muslim Central Asia, and their impact on the international system. (F)

INR 3274 International Relations of the Middle East (AS) (3). An examination of the international social, economic, and political life of the Middle East. The role of oil in the region will receive special attention. (F,S)

INR 3303 Foreign Policymaking (FP) (3). Introduces and explores models of foreign policymaking, applied to international strategic, economic, and social problems.

INR 3331 European Foreign and Security Policy (FP) (3). Familiarizes students with European foreign policies and security institutions in the context of European integration. Addresses areas of security and defense, trade and development cooperation.

INR 3403 International Law (IL) (3). Introduction to the legal concepts, framework, and institutions which play a role in international relations theory and practice. (F,S,SS)
INR 3502 International Organizations (IL) (3). The study of international political, economic, and social organizations and their impact upon the relations between nations. Emphasis on the constitution, voting, membership, security and operation of such organizations, and the settling of international disputes through these bodies. (F,S,SS)

INR 3703 International Political Economy (IPE) (3). Explores the important concepts, theories, and contending approaches used in the study of international political economy.

INR 4013 Development of International Relations Thought (3). The nature and characteristics of international relations from antiquity to the end of the First World War. Examination of the religio-philosophical, socioeconomic and political ideas and systems associated with them. Study of select historical occurrences and patterns of social change and their interaction with the dynamics of international relations. Prerequisite: INR 2001.

INR 4031 The Media and International Relations (IP) (3). Explores the impact of print and visual media on the practice of International Relations. Examines how the media and their technologies determine the outcome of International Relations.

INR 4032 Asia and Latin America in World Affairs (AS) (3). Examines the linkages between Asia and Latin America, their roles in world affairs, the domestic sources of foreign policies of states in the two regions, as well as the international issues confronting the two areas.

INR 4054 World Resources and World Order (IP) (3). An examination of the impact of the quantity and distribution of the world’s resources upon the relations between nations. The availability of mineral resources and food, in particular, will receive attention; and an assessment will be made of the international economic and political implications deriving there from. (F,S)

INR 4076 International Relations of Drug Trafficking (3). Examines international drug trafficking and its foreign and domestic policy implications. Deals with supply and demand reduction, and international cooperation in suppressing trafficking.

INR 4077 International Relations & Women’s Human Rights (IP) (3). Identifies and explains global human rights issues that affect women’s lives. Examines existing international legal instruments that allow women to have basic rights recognized. Fulfills SACS oral competency requirement.

INR 4082 Islam in International Relations (IP) (3). Analysis of the role of Islam in shaping the dynamics of contemporary international relations. Emphasis on ideological, cultural and political role, Islamic movements and states and relations with the West. (S)

INR 4084 Ethnicity in World Politics (3). This course examines the political dimensions of ethnic conflict from a comparative perspective. It evaluates the dynamics of ethnic conflict in Western Europe, Africa, Latin America, and the United States, through a series of case studies.

INR 4085 Women and Men in International Relations (IP) (3). Surveys the differential roles of women and men in international relations, gender based politics at a global scale, and constructions of proper womanhood and manhood in transnational politics.

INR 4091 Ethical Problems in International Relations (IP) (3). Explores several approaches to the international ethical problems posed by intervention, human rights abuses, nuclear threats, global economic privation and other international phenomena. Prerequisite: INR 2001.

INR 4204 Comparative Foreign Policy (3). This course is an analysis of the development of the foreign policymaking process in the United States, Britain, France, West Germany, and Italy. Particular attention is directed to the domestic and international factors which affect the making of foreign policy.

INR 4232 International Relations of China (AS) (3). An examination of the development of China’s international relations in the 20th century. Special attention to the development of institutional mechanisms for diplomacy and to problems of integrating domestic and foreign policies. (S)

INR 4273 The International Relations of Iran and the Persian Gulf (3). Study of the contemporary international relations of Iran and the Persian Gulf since the Islamic Revolution in 1979, relations with the Middle East, Eurasia, the Western World and the United States.

INR 4335 Strategic Studies and National Security (FP) (3). The role of force in international relations is examined. The use and control of force in theory and practice is analyzed. Special attention is paid to contemporary national security issues. (F,S)

INR 4350 International Environmental Politics (3). Addresses environmental politics from an international perspective. Ecological problems and issues are becoming international, environmental problems are crossing national borders, and public attitudes Prerequisites: Introduction to International Relations and Introduction to Environmental Science (recommended).

INR 4404 International Protection of Human Rights (IL, IP) (3). Development of the concern of the international community with the rights of individuals and groups and the institutional mechanisms which have been set up for their protection. (F)

INR 4408 Topics in International Law (IL, IP) (3). An intensive examination of selected topics in international law and relations among nations. Topics will vary according to the interests of the instructor and the students. (F)

INR 4411 International Humanitarian Law (IP) (3). Provides students with conceptual, legal, and critical understanding of major issues of International Humanitarian Law. Allows students to develop analytical work and research in this field. Prerequisite: INR 3403.

INR 4412 International Law of the Sea (3). Introduction to the legal and political foundations of the law of the sea. Emphasis on rule of law of the sea treaties, efforts to conserve marine environment, and the resolution of maritime disputes.
INR 4436 International Negotiation (FP, IP) (3). Introduces students to the main components of international negotiations analysis. Surveys the various stages of a negotiation process and examines key. Applies theory to practice by considering and analyzing a set case of studies.

INR 4501 Multinational Organizations (3). The course examines contemporary international politics through an analysis of inter-governmental and non-governmental actors. It emphasizes the prominent role played by increasing levels of transnational relations, interdependence, and global dominance in world politics.

INR 4521 Politics of Regional Integration (3). Examines regional economic blocs - European Union, NAFTA and Pacific Rim. Forces influencing regional integration and effects on global trade are studied.

INR 4603 Theories of International Relations (3). Analysis and conceptualization of the forces and conditions which influence relations among nations. Emphasis is on the provision of an analytical basis for the study of international relations. Prerequisites: INR 2001 or permission of the instructor. (F,S,SS)

INR 4707 The Political Economy of China (3). An introduction to the key issues in contemporary Chinese political economy and its development in a globalized society.

INR 4905 Independent Study (VAR). Directed independent research. Requires prior approval by instructor. (F,S,SS)

INR 4926 Model United Nations (3). Students participate in a UN simulation. Attention is given to the workings of the UN, negotiating skills, and critical international issues. Prerequisite: Permission of the instructor.

INR 4931 Topics in International Relations (3). Varies according to the instructor. (F,S,SS)

INR 4933 Topics in International Politics (3). An intensive examination of a topic in international politics. Subject matter varies according to the instructor. Topic to be announced in advance.

INR 4937 Honors Seminar 1: Advanced Writings in International Relations (3). Instruction on the steps in research and writings including formulation of the research question, research design, argumentation and bibliography assembly on a theme in International Relations. Prerequisite: INR 2001. (F)

INR 4943 Internship in International Affairs (IP) (1-6). Work 10-15 hours a week with a consulate, business, bank, private voluntary organization, governmental agency or consulting firm for professional experience in international affairs. Prerequisite: INR 2001. (F,S,SS)

INR 4949 Cooperative Education in Social Sciences (3). A student majoring in one of the Social Sciences (Economics, International Relations, Political Science, Sociology, or Psychology) may spend one or two semesters fully employed in industry or government in a capacity relating to the major. Prerequisites: Permission of Cooperative Education Program and major department. (F,S,SS)

INR 4970 Honors Thesis (3). Under the direction of an appropriate faculty member, students research and write an honors thesis. Prerequisite: INR 4937. (F,S,SS)

INR 5007 Seminar in International Politics (3). An advanced graduate course designed to give students a specialized knowledge of the classics in international politics. The course traces the development of international politics from Thucydides to the present.

INR 5012 Global Issues and Human Rights (IP) (3). Identification, articulation and clarification of global issues that affect Human Rights and the global strategies used to challenge and overcome obstacles. Prerequisite: Graduate standing.

INR 5017 Approaches to Area Studies (3).Provides students the necessary tools to approach global issues from the comparative perspective of how they play out in different regions of the world.

INR 5036 Politics of Globalization (3). Intensive examination of state and global institutions that have shaped the process of economic globalization. Topics include impact on sovereignty, human rights, labor and agenda-setting of large and small nation-states.

INR 5062 War, Peace and Conflict Resolution in INR (FP) (3). Explores the genesis of interstate conflict, the evolution of crisis, the outbreak of war and peace. Analyzes conflict resolution and post-conflict reconstruction processes in international relations.

INR 5072 The Media and International Relations (IP) (3). Explores impact of visual and print media on practice and theory of international relations. Encourages students to question how representation of international relations issues are produced by everyday media culture. Prerequisite: Graduate standing.

INR 5086 Islam in International Relations (IP) (3). Analysis of the role of Islam in shaping the dynamics of contemporary international relations. Emphasis on the ideological, cultural, and political role of Islamic movements and states, and their relations with the West. (F)

INR 5087 Ethnicity and the Politics of Development (3). This course examines the conceptual and substantive dimensions of ethnicity in the context of world politics and political development. The course will highlight ethnicity and ethnic groups as critical factors in North-South politics.

INR 5088 Feminism and International Relations (IP) (3). Familiarizes students with major theoretical traditions of feminist thinking and surveys feminist literature in the subfields of security studies, political economy, and global governance. Prerequisites: Graduate standing or permission of the instructor.

INR 5105 American Foreign Policy (3). Compares different perspectives in foreign policy analysis. Provides a comprehensive understanding of major issues in U.S. policy.
INR 5255 Seminar in African Development (AS) (3). Examines political, economic, and social development in Sub-Saharan Africa in an international context. Introduces students to sources for research in African international development. Prerequisite: Graduate standing.

INR 5275 International Relations of the Middle East (AS) (3). Focuses on IR of the contemporary Middle East, the foreign policy of major regional states, regional conflicts, and the US and other great powers’ involvement, and dynamics of social and religious movements and revolutions. Prerequisites: Graduate standing or permission of the instructor.

INR 5276 Graduate Seminar The International Relations of Iran and the Persian Gulf (3). Study of the contemporary international relations of Iran and the Persian Gulf since the Islamic Revolution in 1979, relations with the Middle East, Eurasia, the Western World and the United States.

INR 5315 Foreign Policy Analysis (FP) (3). Comparative examination of theories of foreign policy making, emphasizing the international, domestic, and organizational contexts in which national policies are formulated and enacted. Prerequisites: Graduate standing or permission of the instructor. (F)

INR 5352 Environment and Security (IP) (3). Examines the relationship between environmental issues and international security. Surveys such topics as resource scarcity, environmental degradation, and deforestation and their implications for national and regional security. Considers such topics as international environmental law, and international environmental regimes.

INR 5409 International Law I (IL) (3). Role of international law in the relations of states; nature, development, theory, sources of law; international personality; jurisdiction, including territory and nationality; dispute settlement. (F)

INR 5507 International Organizations I (IL) (3). Study of international organizations and their role in international relations. Emphasis on their legal status, rule-making capacities and role in dispute settlement and maintenance of peace. (S)

INR 5543 International Political Economy of East Asia (3). Introduction to the international political economy of East Asia with a focus on different paradigms that explain the rise and fall of the economy of a number of states in East Asia.

INR 5544 The New Asian Century (AS) (3). Critically examines Asian regional identity, Asia’s role in the modern world economy, national and regional institution building, new security challenges, and the legacy of the past. Prerequisites: Graduate standing or permission of the instructor.

INR 5607 International Relations and Development (IP) (3). An analysis and conceptualization of the process of development as it takes place in the international context. Special attention given to the role of international organizations in promoting development and the manner in which differences in developmental levels conditions international relations. (S)

INR 5609 Contemporary Dynamics of International Relations (IP) (3). Surveys the 20th century’s large events and important tendencies decade by decade, as registered by intellectual and policy elites at the time.

INR 5615 Research Design in International Relations (3). Introduces graduate students to the principles of formulating and defending a compelling research design, gathering and analyzing evidence, and producing scholarship.

INR 5906 Independent Study (VAR). Directed independent research. Requires prior approval by instructor. (F,S,SS)

INR 5934 Topics in International Politics (3). A rigorous examination in international politics. Subject matter varies according to instructor. Topic to be announced.

INR 5935 Topics in International Relations (3). Varies according to the instructor. Prerequisites: Graduate standing or permission of the instructor.

INR 5943 Internship in International Relations (1-6). Permits student to gain direct experience with analysis and conduct of international affairs. Work required for internship must be determined in consultation with instructor. Prerequisites: Graduate standing and permission of the instructor.

INR 5945 Graduate Pedagogy (1). The development of teaching skills required by graduate assistants, including classroom skills, designing examinations, etc. Prerequisite: Graduate Assistants.

POS 2042 American Government (3). Power distribution and policy-making in U.S. Topics include political change; role of majorities; minorities; media, elections in U.S. politics; national institutions; and Florida state and local government.

POS 2690 Law, Politics and Society (3). Introduction to the role of law in American life. Topics include law as a tool for social control, dispute settlement and social change; the tension between rights and community; and the rule of law.

POS 3064 Federalism and Intergovernmental Relations (AP) (3). An introduction to modern theories of federalism, with an emphasis on how federalism has evolved in the United States. Constitutional structures and intergovernmental relations may also be emphasized.

POS 3152 Urban Politics (AP) (3). An examination of the processes by which social conflicts in American urban areas are represented and regulated. Emphasis is placed on how urban problems are identified; and the way proposed solutions are formulated, legitimated, and administered by urban policy-making processes. Includes a discussion of urban political culture. Enables the student to understand major problems confronting communities in urban areas.

POS 3258 International Relations on Film (IP) (3). Features popular films to analyze, interpret, conceptualize, and critique crucial aspects, issues, and events of international relations practice.
POS 3283 The Judicial Process (JP) (3). An introduction to the study of public law. Examines the relationship between politics and judicial structure and process. Emphasizes the judicial system as a particular kind of policy-making system, and evaluates its strengths and weaknesses from a policy-making perspective.

POS 3413 The Presidency (AP) (3). An examination of the various interpretations of the Presidency. Attention is directed to the role of the President in a technocratic society. Enables the student to understand one of the most visible political institutions.

POS 3424 The Legislative Process (AP) (3). Examines the context and process of legislative decision-making, including the impact of elections, groups, bureaucracies, and the norms of legislative behavior. Evaluates legislatures in light of various theories of representation and conflict-management.

POS 3443 Political Parties (AP) (3). Studies the internal structure, political functions, and behavior of modern political parties. Attention is given to the relationships between political parties and various economic, ethnic, and regional interest. Enables the student to understand the problems of expressing and structuring political demands to facilitate or obstruct governmental decision making.

POS 3603 Constitutional Law: Powers (JP) (3). An examination of the basic principles of American government, as defined through constitutional law. Focus will be on the nature of the union, federalism, national government powers, separation of powers, state government powers, and powers of the respective branches of government.

POS 3604 Constitutional Law: Limitations (JP) (3). An examination of the limitations on government as defined by the Supreme Court through constitutional law. Focus will be on the limitations of government with respect to the rights of the individual, of groups, and of the states. Particular attention will be paid to civil rights, civil liberties, the rights of the accused, political rights, and economic liberties.

POS 3703 Methods of Political Analysis (3). An introduction to the principal concepts and techniques of data collection and organization in political science. Includes practical exercise in data collection and organization. Highly recommended for those planning graduate study.

POS 4034 Political Change in America (3). Analysis of theories of political change in America and their application to major political movements from the 1960's to the present.

POS 4035 Environmental Politics (3). Examines the interaction between interest groups, advocacy groups, and political institutions in U.S. environmental politics, and the resulting policies and effects.

POS 4071 Corporate Power and American Politics (3). An examination of the formal and informal linkages between the private and public sectors and the sets of relationships which govern each. Particular attention is devoted to the exploration of the political role of business and the close but uneasy relationship between private enterprise and democracy.

POS 4072 Women in Politics (3). Examines the various roles that women play in politics, their actions and effectiveness, and the manner in which politics affects women. Special attention to policies that affect women.

POS 4073 The Military and the Citizen (3). Examines the U.S. military as a basic governmental institution, its relationship to civilians/citizens, and its post World War II history.

POS 4074 Latino Politics (3). Presents an overview of the role of Hispanics in the U.S. political system. It explores the historical and socio-economic dimensions of Latino politics.

POS 4122 State Government and Politics (3). A study of the political processes, structure, and development of state systems. This course attempts to provide the student with an understanding of the basic structure of state government and political processes.

POS 4152 Conflict and Change in American Cities (3). A study of social conflict in American cities. Emphasis is on how urban problems are identified and proposed solutions are formulated, legitimized and administered by policy-making processes.

POS 4154 Topics in Urban Politics and Policy (3). An intensive examination of a topic in urban politics and policy. Subject matter varies according to instructor. Topic will be announced in advance.

POS 4173 Politics in the American South (3). An examination of the politics of the American South with particular attention to the role of political parties, the Civil Rights movement, and the impact of Reconstruction.

POS 4182 Florida Politics (3). Provides analysis of the state and county politics of Florida. Special emphasis is placed on the regionalism inherent to politics in the state.

POS 4188 Miami Politics (3). Examines the politics of Miami-Dade County. Topics include functioning of Metro government, theories of political power, politics of ethnicity and class, growth politics, and political corruption.

POS 4205 American Political Culture (3). Examines American political culture and the forces that shape it. Specific focus on competing theories, and the role of political socialization, ideology, the economy, media, and schooling.

POS 4233 Public Opinion (3). Examines the social and psychological factors shaping contemporary American public opinion. Emphasis on the collection and analysis of data from opinion polls.
POS 4284 Judicial Behavior (3). An examination of various approaches, theories, and findings on the behavior of judicial actors, particularly as it relates to judicial decision-making. The focus of the course will be on judges, lawyers, prosecutors, and other relevant actors in the judicial process.

POS 4314 American Ethnic Politics (3). This course examines American ethnic politics from conceptual and substantive perspectives. Special attention is devoted to the theoretical dynamics of ethnicity as well as an intensive investigation of Irish, Italian, Jewish, and Black ethnic politics.

POS 4463 Interest Group Politics (3). An examination of the various types of voluntary associations which seek to influence the political process. Special attention is given to the role of private power in a pluralist system. Enables the student to understand the ambivalent American attitude towards pressure groups and lobbying activities in the legislative and administrative arenas.

POS 4605 Gender Justice (3). The development of gender law in the U.S. and legal strategies by which courts both initiate and respond to demands for social change. Emphasis on various legal definitions of justice and equality.

POS 4606 The U.S. Supreme Court (3). Intensive study of the U.S. Supreme Court, its internal processes, decision-making, personalities, and the impact of its decisions. Relationships with other federal branches and participants are also examined.

POS 4622 Race and Law in the U.S. (3). Examines U.S. legal development of racial issues by focusing on political, economic and social rights from founding to contemporary times. Underlying theme asks whether courts are appropriate agents of social change.

POS 4627 Equality and the Constitution (3). An examination of the Supreme Court's interpretations of the Constitution in relation to social and political equality. Questions of equal justice pertaining to race, alienage, gender, sexual orientation, political representation, and economic status are explored.

POS 4684 Politics of Voting Rights (3). Analyzes the development of the right to vote in the United States. Major emphasis is on Supreme Court decisions and federal laws.

POS 4784 Analytic Writing in Political Science (3). Develops and refines skills necessary for effective written communication. Focus on inductive research and analysis process. For professions where analytic and writing skills are expected and valued.

POS 4905 Independent Study (3). Designed for advanced students who wish to pursue specialized topics in political science. Arrangements must be made with instructor during the prior semester.

POS 4930 Topics in Public Law (3). An intensive examination of a topic dealing with public law. Subject matter varies according to instructor. Topic will be announced in advance.

POS 4931 Topics in Politics (3). An intensive examination of a topic in politics. Subject matter varies according to instructor. Topic will be announced in advance.

POS 4935 Honors Seminar (3). A rigorous examination of a political topic designed for advanced political science majors. Subject matter varies according to instructor. Topic to be announced in advance.

POS 4941 Legislative Internship (1-20). An opportunity for the student to participate in a selected policy area within one of the communities of South Florida. The nature of the work to be accomplished in connection with the internship will be worked out between the student and advisor.

POS 4944 Judicial Internship (1-20). An opportunity for the student to participate in a selected policy area within one of the communities of South Florida. The nature of the work to be accomplished in connection with the internship will be worked out between the student and advisor.

POS 4945 Executive Internship (1-12). An opportunity for students to engage in policy or constituent work in a chief executive's setting. Assignment will be individually tailored to the student's interest and background. Prerequisites: POS 3152, POS 3413, or POS 3443 or equivalent.

POS 5045 Seminar in American Politics (3). The advanced study of U.S. politics. Students read and discuss the major works and theories concerning American politics and government.

POS 5146 Seminar in Urban Politics (3). Examination of processes by which urban areas are governed. Emphasis is on conflicts over structures, power, policy and the politics of ethnicity and class.

POS 5158 Topics in Politics (3). Subject matter varies according to instructor.

POS 5208 Seminar in Political Behavior (3). Analyzes the literature in political behavior. Special emphasis is on voting, socialization, attitudes, partisanship, campaigning, the media, and political participation in the developed democracies. Prerequisite: Seminar in Political Science Methodology.

POS 5326 Seminar in Class Analysis (3). The theoretical and empirical issues associated with class divisions in contemporary societies. Theoretical debates regarding definitional problems of class identity and empirical case studies highlighting class conflict and stratification.

POS 5447 Seminar in U.S. Political Parties (3). Students read and discuss the major works and theories on U.S. Political Parties.

POS 5638 Topics in Public Law (3). A rigorous examination of a topic in public law. Subject matter varies according to instructor. Topic will be announced in advance.
POS 5702 Teaching Political Science (1). Introduces graduate students to the pedagogical and practical aspects of teaching political science. Topics will include selecting books, writing a syllabus, lecturing, running discussion groups, and testing and grading. Covers professional ethics, and student rights and responsibilities.

POS 5706 Methodology (3). This course is an introduction to the principal concepts and techniques of quantitative and non-quantitative methodology in the Social Sciences. It is designed to familiarize the student with the language and format of quantitative and non-quantitative applications in order to permit students to deal effectively with the literature of their field.

POS 5716 Foundations of Political Science (3). Prepares students for the advanced study of politics. Areas of study include history of Political Science as a discipline, comparison of classical and modern sciences of politics and realpolitik, epistemological foundations.

POS 5785 Writing Professionally in Political Science (3). Focus on inductive research process. Refines technical skills for effective written communication. Best practice examples for preparing briefing papers, articles, books, and grant applications.

POS 5909 Independent Study (3). Designed for advanced students who wish to pursue specialized topics in political science. Arrangements must be made with instructor during prior semester.

POS 5932 Topics in Urban Politics (3). An extensive examination of the processes by which social conflicts in American urban areas are represented and regulated. Emphasis is on the ways in which urban problems are identified and proposed solutions formulated, legitimized, and administered by urban policy-making processes, includes a discussion of urban political culture. Enables the student to understand the major problems confronting communities in urban areas.

POT 2002 Introduction to Political Theory (3). Introduction to various ways of thinking about the political. Includes an examination of explanations offered for political phenomena and an analysis of political prescriptions. Special attention given to assumptions underlying political beliefs.

POT 3013 Ancient and Medieval Political Theory (PT) (3). A study of the major political philosophers of the ancient and medieval periods. Primary emphasis is given to the Greek experience. The nature of political theory as a tradition of discourse is examined. Written work meets the state composition requirement.

POT 3054 Modern Political Theory (PT) (3). An analysis of the thought of the great political thinkers since Machiavelli, culminating with the nineteenth century theorists. Basic themes and ideas common to all these political theorists will be discussed in detail. The problem of ‘modernity’ will receive special attention.

POT 3064 Contemporary Political Theory (PT) (3). An overview of the major conceptual frameworks used by political theorists to describe, explain, and evaluate political behavior and processes. Stress is placed on political theory, not only as a basis for inquiry, but also as a base for political action. This course enables the student to develop analytical abilities with which to interpret the political events of his or her time.

POT 3204 American Political Thought (PT) (3). An examination of American political thought from its 17th century origins to the contemporary period. The continuities and discontinuities in the development of American political ideas since colonial times will receive special attention.

POT 3302 Political Ideologies – GL (PT) (3). An analysis of modern political ideologies since the French Revolution, including liberalism, conservatism, and socialism. Particular emphasis will be given to Marxism. The contemporary link between ideology and totalitarianism will be examined.

POT 3304 Feminist Political Theory (3). Provides a fundamental understanding of feminist political theory since 1950 with an emphasis on U.S. thought. Concepts explored include equality, equity, and representation.

POT 4309 Sex, Power and Politics (3). Theories are examined that explain differences between women’s and men’s power in the political arena. Their internal consistency and “fit” with reality are also explored.

POT 4311 Problems of Democracy (3). Examines various theories and critiques of democracy in modern political thought with an emphasis on contemporary problems in democratic theory and practice. Prerequisite: POS 2042.

POT 4344 Class, Race and Sports (3). Examines the political structure of organized sports with a concentration on issues of class and race. Theories explore the relationship between owners, players and fans in modern sports.

POT 4621 Theories of Justice (3). An analysis of major theories of justice from Plato to the present. Emphasis on the implications of theory for U.S. constitutional law, the role of judges, and the nature of the good society.

POT 4830 Topics in Political Theory (3). An intensive examination of a topic in political theory. Subject matter varies according to instructor. Topic will be announced in advance.

POT 5007 Seminar in Political Theory (3). An examination of writings from a diverse list of some of the major political theorists in the western tradition from antiquity to the present.

POT 5307 Feminist Political Theory (3). Examines feminist political theory in the second half of the twentieth century with the focus on the work of U.S. scholars.

POT 5615 Political Theory and Modernity in a Transnational Perspective (3). Explores and critically evaluates late modern (20th and 21st century) social and political theories central to the thought and practice of international politics.
POT 5934 Topics in Political Theory (3). An intensive examination of selected topics dealing with political theory. Subjects will vary, depending upon the desires of students and faculty. Allows the student to choose topics of particular interest to him or her.

PUP 5934 Topics in Public Policy (3). A rigorous examination of a topic in public policy. Subject matter varies according to instructor. Topic will be announced in advance.

¹Or any other lower level Psychology class within the Psychology Inventory (i.e., CLP, DEP, EAB, EXP, INP, PCO, PPE, and PSB prefixes)

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

Common Prerequisites

BSC 2023 Human Biology
PSY 2012 Introduction to Psychology
DEP 2000 Human Growth and Development
DEP 2001 Psychology of Infancy and Childhood
CLP 2001 Personal Adjustment
INP 2002 Introductory Industrial/Organizational Psychology
SOP 2772 Psychology of Sexual Behavior
STA 2122 Introduction to Statistics I
STA 3111 Statistics I

To qualify for admission to the program, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable into the program.

Upper Division Program

I. Coursework for the Major: 36 credit hours are required (grade of “C” or better required). Students must complete the Research Sequence (12 credits), Area Requirements (15 credits), Psychology Electives (9 credits), and Upper Division General Electives (24 credits).

A. Research Sequence: (12 credit hours total). Students must take these three courses in the following order.

   Note: Because the three courses in this component of the program must be taken in sequence, the first course (STA 3123 or STA 3112) should be taken no later than the first semester of the junior year.

   Note: COP 2210 is recommended for students planning to enter graduate school.

B. PSY 3213 Research Methods in Psychology | 4 |

   (Prerequisites: STA 3123 or STA 3112)

C. Advanced laboratory or field experience | 5 |

   (Prerequisites: STA 3123 and PSY 3213 or STA 3112 and PSY 3123)

Students may choose from the following senior lectures and labs. All students must register for both the lecture and the laboratory.

3. Required Psychology Course Electives: (9 credit hours)
Any psychology course taken for a letter grade can be used to fulfill the requirement for electives. These courses must be upper level (3000 or 4000) courses. Students must have at least 36 credits hours in total of upper division hours for the psychology major.

4. Electives to Complete the requirement of 60 credit hours: (24 credit hours). At least 9 credit hours of upper division electives outside Psychology. The remaining 15 credit hours may be upper division Psychology electives. Students may, with the permission of the instructor, take PSY 4900, 4914, and PSY 4916, which are given Pass/Fail grades. These courses cannot count in the category of Required Psychology Electives, but they can be used as additional credit towards graduation. Please Note: (1) The student is strongly urged to contact the Psychology Department for advisement in curriculum planning; (2) Psychology majors are allowed to transfer a maximum of ten upper division semester credit hours toward the psychology degree.

Bachelor's Degree with Honors
Application must be made, and departmental approval granted, to undertake an independent project which must be approved by and carried out under the supervision of a member of the Department. Upon completion of the study, a satisfactory oral defense of the work must be presented to a Department committee.

Note: The Bachelor’s degree offered in this program is a liberal arts degree and not a professional degree. While it is possible to concentrate courses in one’s area of interest, it is not possible at the present time to obtain a ‘professional specialization’ at the undergraduate level in psychology.

Minor in Psychology
A Minor in Psychology requires 15 upper division semester hours of approved psychology credits. Students seeking the minor must meet with a psychology faculty member for advisement and should file with the Psychology Department a written notice of intention to minor in psychology. A grade of ‘C’ or higher is required in all courses counted toward the minor.

Course Descriptions
Definition of Prefixes
CLP-Clinical Psychology; CYP-Community Psychology; DEP-Developmental Psychology; EAB- Experimental Analysis of Behavior; EXP-Experimental Psychology; INP-Industrial and Applied Psychology; LIN- Linguistics; PCO-Psychology for Counseling; PPE-Psychology of Personality; PSB-Psychobiology; PSY-Psychology; SOP-Social Psychology

CLP 2001 Personal Adjustment (3). Study of personal adjustment in the social and occupational life of the individual. Emphasis on interpersonal aspects of effective behavior.

CLP 4134 Childhood Psychopathology (3). Various forms of abnormal behavior in infancy, childhood, and adolescence are examined within the context of traditional and contemporary psychological theory. Problems of differential diagnosis and forms of remediation are discussed. Prerequisite: PSY 2012.

CLP 4146 Abnormal Psychology (3). Various forms of behavior pathology are examined in the light of traditional and current concepts of mental health and illness. Problems of diagnosis and treatment are discussed. The role of social mores is examined.

CLP 4314 Psychology of Health and Illness – GL (3). Course provides an overview of the field of health psychology and behavioral medicine with an emphasis on psychological, social, cultural, and global factors affecting health and health care/policy. Prerequisite: PSY 2012.
CLP 4315 Experimental Health Psychology Lecture (2). CLP 4315L Experimental Health Psychology Lab (3). The methodological tools to design, conduct, analyze, and interpret a study of some aspect of health and illness. Lectures provide an overview of theory in health psychology and labs provide opportunities to operationalize theories and constructs in psychology. Prerequisites: Students must register for both CLP 4315 and 4315L, PSY 2012, STA 2122/3123 and PSY 3213.

CLP 4374 Psychotherapy (3). Current approaches to the treatment and improvement of psychological disorders are critically surveyed. Emphasis is placed on the examination of the various techniques of psychotherapy and behavior therapy. Broader strategies of prevention and mental health promotion like consultation, counseling, and programmed agency services are also studied.

CLP 4444 Personality Disorders (3). Studies personality disorders according to current concepts of mental health and illness. Emphasis given to current theoretical and diagnostic categories. Prerequisite: CLP 4146.

CLP 5166 Advanced Abnormal Psychology (3). Advanced study of the causes, psychopathology manifestations, and social and personal consequences of behavior disturbance. Emphasis is placed on the critical examination of current research on the biological, psychological, and social aspects of these disorders. Clinical approaches to diagnosis, course, and prognosis in the contemporary mental health context (including ‘practicum’ assignments if feasible) are covered.

CLP 5169 Proseminar in Developmental Psychopathology (3). A comprehensive review of topics in developmental psychopathology including history, scope, methods, individual and contextual influences, developmental course, long-term outcomes, and resilience. Prerequisites: Graduate standing or permission of the instructor.

CLP 5175 Personality Dynamics (3). A review of different approaches to the study of personality. Prerequisites: Successful completion of a course in theories of personality, or equivalent. Permission of the instructor.

CLP 5185 Current Issues in Mental Health (3). A critical, intensive examination of selected, important issues in mental health. Emphasis is given to the empirical study of contemporary problems related to the making of mental patients; planning, programming, and administering mental health services; political, ethical, and legal constraints on the operation of mental health facilities; interdisciplinary cooperation among helping and human service professionals; and evaluation of preventive care and treatment services. Prerequisites: Abnormal Psychology or permission of the instructor.

CLP 5470 Evidenced-based Intervention in Child and Adolescent Psychology I (3). Examination of evidenced-based psychotherapies and interventions for children and adolescents. Also looks at clinical practice and research guidelines. Prerequisite: Graduate standing.

CLP 5483 Evidenced-based Intervention in Child and Adolescent Psychology II (3). This course provides an in-depth examination and critical analysis of the current research and evidenced-based psychotherapies and interventions for children and adolescents. Prerequisites: Graduate standing, CLP 5470.

CLP 5931 Ethical Code in Psychological Practice (3). Ethical principles, rules, procedures of Psychologists. Clinical application and incorporation of the principles into professional interactions. Ethical reasoning is emphasized.

CYP 3003 Introduction to Community Psychology (3). An introduction to the issues and scope of Community Psychology. Students will be exposed to the development of Community Psychology as a growing discipline. Particular emphasis will be placed on the role of the community psychologist as an agent of social change.

CYP 4953 Community Psychology Field Experiences I (5). Students will be organized into task-oriented teams or will work independently in the community, for the purpose of becoming familiar with various community institutions and developing an action plan for assisting institutions in implementing change. Prerequisite: CLP 5470. (Lab fees assessed)

CYP 5534 Groups as Agents of Change (3). Theory and practice in utilizing groups as agents of change or development in communities and organizations. Didactic presentation and structured exercises focus on relevant issues. Students design and implement problem-focused interventions, using class as client system.

CYP 5954 Community Psychology Field Experiences II (5). Same orientation and description as Field Experience I. Students in this course will be able to pursue their work with community institutions in more depth. Prerequisite: Students enrolled in this course must have completed Community Psychology Field Experiences I.

DEP 2000 Human Growth and Development: Introductory Developmental Psychology (3). An introductory study of the development of personality, intelligence, and motivation, from childhood to adulthood. Emphasis is on development of cognitive systems through social learning. The full life span of human growth and development will be considered.

DEP 2001 Psychology of Infancy and Childhood (3). An introduction to human development focusing on infancy and childhood. Particular attention will be devoted to intellectual, personality, and social development. Consideration will be given to both theoretical and empirical perspectives.

DEP 3115 Development in Infancy: The Basis of Human Knowledge (3). Provides a comprehensive review of current methods, theories, and findings in cognitive and perceptual development in the first year of life. Special emphasis on the bases of knowledge; object and event perception, memory, and imitation.

DEP 3305 Psychology of Adolescence (3). An examination of psychological, sociological and biological factors contributing to the changes from childhood to adolescence and from adolescence to young adulthood.
DEP 3404 Psychology of Adulthood (3). The transition from youth to middle age is studied. Focus is on changing roles in family, work, and societal settings, as these factors influence personality and other aspects of psychological function.

DEP 3620 Positive Adult Development: Theory and Research (3). To provide an introduction to theory, research, and practice in the positive adult.

DEP 4014 Psychology of Parenting & Parenthood (3). An intensive examination of the reciprocal influences of parents on the development of their children and of children on the adult development of their mothers and fathers.

DEP 4032 Life-Span Cognitive Development (3). Course covers all facets of cognitive growth, change, and decline from infancy through adulthood, and old age. Prerequisites: DEP 2000, DEP 2001, DEP 4164, or DEP 4464.

DEP 4044 Psychology of Moral Development (3). A review of psychological theories and research concerning the development of moral attitudes and behavior.

DEP 4046 Psychology of Adoption (3). An advanced undergraduate seminar involving intensive reading and discussion of the research literature on adoptive families, adoptive parenting, and adoptee outcome. Prerequisite: Senior standing.

DEP 4116 Current Issues in Cognitive and Perceptual Development in Infancy (3). An advanced undergraduate seminar that provides an in-depth analysis of current issues, methods, research, and theory of cognitive, perceptual, and social development during the first year of life. May be repeated. Prerequisites: One developmental psychology course, statistics (STA 3123), and research methods (PSY 3213).

DEP 4164 Children's Learning (3). Learning in infancy and childhood, with particular emphasis on simple conditioning, discrimination shifts, mediation, transposition, observational, and concept learning. Prerequisite: Students enrolling in this course should have completed successfully at least one prior course in developmental psychology.

DEP 4321 Development of Sexual Identity: A Life Span Approach (3). Reviews developmental and clinical theory and research on sexual identity across the life span, emphasizing the influence of personal change, close relationships, and community factors. Prerequisite: PSY 2012.

DEP 4324 Psychology of Identity Development (3). An introduction to psychological theory, research, and application in the area of identity development.

DEP 4407 Current Issues in Aging (3). A focus on current issues having both theoretical and applied relevance to the psychology of older adulthood. Students are required to make several field trips outside of class during the semester.

DEP 4464 Psychology of Aging (3). An examination of the factors that contribute to the psychological profile characterizing old age. Biological and sociological components are considered, and their impact on perceptual, cognitive, and personality processes is analyzed.

DEP 4704 Developmental Psychology: Lecture (2), DEP 4704L Developmental Psychology Laboratory (3). Lecture/Laboratory observation exercises illustrative of the concepts and research techniques used in developmental psychology. Particular emphasis is given to cognitive and social-cognitive development. This course is for seniors who have completed PSY 3213, one developmental psychology course, and STA 3123. (Lab fees assessed)

DEP 4720 Psychosocial Developmental Interventions in Field Settings (2). An advanced senior laboratory in the implementation of psychosocial developmental school based interventions in field settings. The focus is on interventions that target promoting positive youth development in at-risk youth. Prerequisite: PSY 3213. Corequisite: Needs to be taken simultaneously with 3 cr. lab course.

DEP 4720L Psychosocial Developmental Interventions in Field Settings Lab (3). An advanced senior laboratory in the implementation of psychosocial developmental school based interventions in field settings. The focus is on interventions that target promoting positive youth development in at-risk youth. Prerequisite: PSY 4941, Ind. Field Exp. Corequisite: Needs to be taken simultaneously with 2 cr. lecture course.

DEP 4937 Integrating Research and Theory in Developmental Science (3). An advanced undergraduate seminar that integrates research in the lab with readings and discussion of current issues, theory, and methods in developmental science. May be repeated. Prerequisites: One developmental psychology course, one statistics (STA 3123) course. Permission of instructor. Corequisites: PSY 4916 or PSY 4914.

DEP 5056 Issues in Life-Span Developmental Psychology: Infancy through Old Age (3). A survey in depth of theories, issues, methods, and data in life-span developmental psychology through the entire age range. Prerequisites: DEP 2001 or DEP 4464, or their equivalents, are recommended.

DEP 5058 Biological Basis of Behavior Development (3). Introduction to theory and research underlying behavioral development. Covers such pre-and post-natal determinants as evolution, genetics, neuroendocrines, as well as social development, behavioral ecology, and sociobiology. Prerequisites: Graduate standing or permission of the instructor. Corequisite: Proseminar courses.

DEP 5068 Applied Life Span Developmental Psychology (3). This course is designed to acquaint the student with various applications in life-span developmental psychology. An overview of general issues and areas of application is offered, and specific applications are considered. Prerequisites: Graduate standing or permission of the instructor.
DEP 5099 Pro-seminar in Infancy, Childhood, and Adolescence (3). Provides a comprehensive review of issues in perceptual, cognitive, social, emotional, and personality development from infancy through adolescence. Prerequisites: Graduate standing or permission of the instructor. Corequisite: Pro-seminars.

DEP 5118 Current Issues in Cognitive and Perceptual Development in Infancy (3). Provides an in-depth analysis of current issues, methods, research and theory of cognitive and perceptual development during the first year of life. Special emphasis on object and event perception, memory, and imitation. Prerequisites: Two courses in developmental psychology - any level recommended.

DEP 5185 Emotional Learning & Its Reversal (3). Theoretical analysis and methodological issues in the study of emotional learning. Prerequisites: Graduate standing or permission of the instructor.

DEP 5315 Pro-seminar in Parent-Child Relations (3). Provides an overview of key issues in parent-child relations including culture, socialization/genetics, fatherhood, timing, adoption, work, effects of children on parents, and parent training. Prerequisites: Graduate standing or permission of the instructor.

DEP 5344 Psychology of Moral Development (3). An introduction to the literature on moral development. Review and discussion of recent developments in this area. Prerequisites: Graduate standing or permission of the instructor.

DEP 5405 Pro-seminar in Psychology of Adulthood and Aging (3). A comprehensive review of topics in adulthood and aging including: biological changes, social processes, work, family, cognition, memory, personality, and psychopathology. Prerequisites: Graduate standing or permission of the instructor.

DEP 5408 Theoretical Perspectives in Developmental Psychology (3). The focus of this course is on the major paradigms, models, and theories that have been influential in developmental psychology, both historically and contemporaneously. Meta-theoretical issues, paradigmatic influences, and specific theories are considered. Prerequisites: Graduate standing or permission of the instructor.

DEP 5525 Research Seminar in Psychosocial Development (1). This course is designed to develop research skills and competencies in the area of psychosocial development. The emphasis of the course is on involvement in original research. Prerequisite: Permission of the instructor. Corequisites: Senior undergraduate or graduate standing.

DEP 5796 Methods of Developmental Research (3). Survey of issues and methods at all stages of life-span developmental research including theory, methods, design, and data reduction. Prerequisites: Graduate standing or permission of the instructor. Corequisite: pro-seminars.

DEP 5936 Theory and Research Experience in Developmental Science (3). An advanced seminar that integrates research in the lab with readings and discussion of current issues, theory, and methods in developmental science. May be repeated. Prerequisites: Graduate standing and permission of instructor. Corequisites: Independent research in a developmental lab (PSY 5918 or PSY 6971).

EAB 3002 Introduction to the Experimental Analysis of Behavior (3). An introduction to and survey of the principles, methods, theories, and applications of the experimental analysis of behavior. Prerequisites: PSY 2012.

EAB 3765 The Application of Behavior Analysis to Child Behavior Problems (3). The applications of the theories and methods of behavior analysis to various childhood behavior disorders including anxiety and phobia, attention deficit disorders, autism and obesity. Prerequisite: EAB 3002.

EAB 4034 Advanced Behavior Analysis (2). EAB 4034L Advanced Behavior Analysis Lab (3). Strategies and tactics in the scientific approach to behavioral research, both basic and applied. Both lecture and laboratory sessions are involved. Prerequisites: EAB 3002, PSY 3213. Corequisite: EAB 4034L.

EAB 4794 Principles and Theories of Behavior Modification (3). Studies different approaches to the modification of problem behavior, through the application of learning principles and theories. Prerequisite: EAB 3002.

EAB 5098 Pro-seminar in the Experimental Analysis of Behavior (3). An advanced survey of the principles of respondent and operant conditioning and the bases of action in both social and non-social settings. Prerequisites: EAB 3002, EAB 4034, or equivalents.

EAB 5655 Advanced Methods of Behavior Change (3). An intensive study of selected methods of modifying human behavior, emphasizing the applications of the principles of respondent and operant conditioning, as well as those derived from modern social learning theories. Practice and role playing opportunities are provided in behavior therapy, relaxation therapy, behavior modification, biofeedback or similar behavioral approaches. Prerequisites: EAB 4794, CLP 4374, CYP 4144; enrollment in an authorized program; equivalent background; or permission of the instructor.

EAB 5797 Single-Case Research Methods (3). Intensive study of designs, strategies, and methods of single-case behavioral research. Prerequisites: Graduate standing or permission of the instructor.

EXP 3304 Motivation and Emotion (3). Introduces several perspectives from learning theory, perception, and personality theory to explore ways in which people move through their physical and social environment.
EXP 3523 Memory and Memory Improvement (3). This introduction to human memory considers the topics from a number of points of view. The following issues are addressed: the nature of memory and its phenomena; the capabilities and limitations of an ordinary and an extraordinary memory; and the skills that can aid an ordinary memory.

EXP 4005 Advanced Experimental Psychology (2).
EXP 4005L Advanced Experimental Psychology Lab (3). Lecture and laboratory course investigating experimental research in the fundamental processes of human behavior. Includes perceptual, cognitive, and linguistic processes. Prerequisites: PSY 3213 and STA 3123. (Lab fees assessed)

EXP 4204 Sensation and Perception (3). Basic concepts in sensation and perception are explored, with an emphasis on models of peripheral and central neural processing. Topics such as receptor function, brightness and color vision, movement and object perception, perceptual memory and pattern recognition are considered. Psychophysical techniques, such as subjective magnitude estimation and signal detection theory, are covered. (Lab fees assessed)

EXP 4214C Human Perception: Lecture (2), and Laboratory (3). Lectures concern the methods researchers use to learn about the phenomena of sensation and perception. Laboratory exercises allow students to apply these methods and to experience the perceptual phenomena under investigation. Prerequisites: PSY 3213 and STA 3123.

EXP 4404 Human Learning and Remembering: Lecture (2), and EXP 4404L Laboratory (3). Lectures concern the research and theoretical contributions to the understanding of human learning and remembering; and laboratory exercises illustrative of the concepts and techniques used in conducting experimental studies of human learning and remembering. Prerequisites: PSY 3213 and STA 3123. (Lab fees assessed)

EXP 4604 Cognitive Processes (3). Investigation of the mental processing underlying experiences and behavior. Topics include: games, puzzles, and problems; intuitive and creative thought; conceptualization, reasoning and clinical diagnosis; choices and decisions; conceptions of time and space; and thought in abnormal or altered states of consciousness.

EXP 4934 Current Experimental Theories (3). The stress in this course is on current specific theories determining the nature and direction of the research and interest in several important areas such as psychophysics, learning and remembering, developmental patterns and motivation, personality, etc. Topics to be covered will be announced at the beginning of the academic year. May be taken twice for credit toward the major.

EXP 5099 Pro-seminar in Experimental Psychology (3). Provides a comprehensive review of current research and theory in areas such as learning, memory, cognition, sensation, and perception. Prerequisites: Graduate standing or permission of the instructor.

EXP 5406 Theories of Learning (3). The major theoretical systems of learning are covered, with the intent of determining how well each accounts for the phenomena of learning. Emphasis is placed on exploring the controversial issues raised by extant theories, and the experimental resolution of these theoretical controversies. The impact of theory on current thinking about learning is considered.

EXP 5508 Applied Cognitive Psychology (3). Covers the basic theories of cognitive psychology perception, attention, memory, learning, knowledge, with emphasis on application to real-world problems. Prerequisite: Graduate Standing.

EXP 5527 Memory and Consciousness (3). The relation of memory and consciousness is explored with emphasis on issues of current research and theoretical work from both a cognitive and a neuropsychological perspective. Prerequisite: Graduate standing.

EXP 5667 Cognitive Neuroscience (3). Investigation of the relation between mind and brain. Discuss literature from both patient studies and from the growing research in neuroimaging. Prerequisite: Graduate standing.

INP 2002 Introductory Industrial/Organizational Psychology (3). Introduction to the study of behavior in the work environment. Illustrative topics included formal and informal organization, work motivation, satisfaction and performance, leadership, job analysis, selection and performance evaluation, training, and development.

INP 4055 Industrial/Organizational Psychology Lecture (2). INP 4055L Industrial/Organizational Psychology Laboratory (3). Students gain experience with the use of psychometric instruments in the areas of job analysis, personnel selection, performance appraisal, job satisfaction, criteria analysis, and management training and development. Prerequisites: PSY 3213; STA 3123; and INP 2002 or INP 4203, or Personnel Management. (Lab fees assessed)

INP 4203 Personnel Psychology (3). Techniques and procedures applicable to the selection, placement, utilization, and evaluation of personnel in organizations are considered. The emphasis will be on empirical procedures, rather than the management function in the personnel area. Topics such as quantitative methods and models for selection, criteria analysis, performance appraisal, management training, and job satisfaction are discussed. Prior course in statistics strongly recommended.

INP 4313 Organizational Psychology (3). Focuses on the “organizational” topics associated with the field of industrial/organizational psychology. Includes, leadership, team effectiveness, work and family issues.

INP 5095 Proseminar in Industrial Psychology (3). Provides coverage of industrial and personnel psychology topics such as job analysis, personnel recruitment and selection, legal aspects of employment, performance appraisal, and training design and evaluation. Prerequisites: Acceptance to Master’s or Ph.D. program in Psychology.
INP 5136 Psychology of Legal Consultation (3).
Practice in basic non-clinical areas in which psychologists assist attorneys, including jury selection, surveys, and simulations. Prerequisites: SOP 6098 or equivalent.

INP 6611 Organizational Stress (3).
This seminar examines conceptualizations, causes, consequences, and correlates, of stress, strain, and coping in the workshop. Prerequisite: Graduate standing.

LIN 4705 Psychology of Language and Cognition (3).
Investigation of the psychological processes underlying language. Attention will be devoted to speech perception, comprehension, written language, and the biological basis of language abilities. Prerequisite: PSY 2012.

LIN 4710 Language Acquisition (3).
An examination of the way children acquire language, based on experimental findings from contemporary linguistics, psycholinguistics, and behavioral theory.

LIN 5701 Psychology of Language (3).
An overview of the psychology of language and the psychological ‘reality’ of linguistic structure. Behavioristic vs. cognitive views of psycholinguistics are examined. Consideration is given to the biological bases of language and thought, language acquisition, and language pathology. Prerequisite: Permission of instructor.

PCO 5251 Couples and Family Systems (3).
An overview of theory, research, and treatment issues related to couples and family systems. The course covers relevant techniques, training, and professional issues. Prerequisite: Graduate standing.

PCO 5252 Theory and Techniques in Couples and Marital Therapy (3).
An overview of the theories and techniques used in couples and marital therapy with an examination of treatment approaches and evidence-based practice. Consideration of clinical issues and problems.

PCO 5253 Theory and Techniques in Family Therapy (3).
An examination of the major theories and techniques used in family therapy with an in-depth exploration of the skills and strategies used for treating clinical issues from multiple perspectives.

PCO 5311 Theory, Treatment, and Research of Addictive Behavior (3).
An overview of theory, treatment, and research findings pertaining to the process and development of addictive behavior. This course covers treatment issues related to substance abuse disorders. Prerequisite: Graduate standing.

PCO 5750 Contemporary Issues in Family Life and Process (3).
An examination of selected issues that are faced during the development and life cycle of the family. Family intergenerational history and sociocultural factors will be explored.

PPE 3003 Theories of Personality (3).
An examination of various theories of personality. Consideration is given to traditional and contemporary approaches to personality development.

PPE 3502 Psychology of Consciousness (3).
Normal and altered states of human consciousness are analyzed from the perceptual and neuro-psychological viewpoint. Broad topic areas include physiologically determined levels of arousal, from deep sleep to intense excitement; selective attention; perceptual plasticity; illusions; sensory deprivation; biofeedback; psychosomatic disease; hypnotism and suggestibility; as well as a critical treatment of the phenomena of parapsychology.

PPE 3670 Psychology of Myth (3).
Mythology is studied from various psychological viewpoints. The process of Myth. Creation and the role of ritual in psychological enhancement are emphasized. Course focuses on classical mythology.

PPE 4104 Humanistic Psychology (3).
Studies the methodology, research, and findings of the humanistic orientation in psychology. Topics such as counseling, encounter groups, higher consciousness, biofeedback, intentional communities, education, mysticism, and religion are examined from the humanistic viewpoint. Prerequisite: Prior completion of a course in Theories of Personality is recommended.

PPE 4325C Differential Psychology: Lecture (2), and Laboratory (3).
Lectures and laboratory field experiences in the principles and methods underlying the administration, construction, and evaluation of psychological tests. Practice in the administration and interpretation of selected psychological tests. Prerequisites: STA 3123 or an equivalent introductory course in statistics, and PSY 3213.(Lab fees assessed)

PPE 4514 Psychology of Dreams and Dreaming (3).
An in-depth examination of the most important psychological theories of dream function and of the use of dreams in different therapeutic approaches. The current research on the physiology and psychology of sleep is also evaluated. Prerequisites: Theories of Personality or its equivalent. PPE 4930 Topics in Personality (VAR). Special topics will be announced in advance.

PSB 4002 Introductory Bio-Psychology (3).
A study of the more important psychobiologic correlates of behavior in basic psychological phenomena.

PSB 4240 Neuropsychology (3).
The relation of brain to cognition and behavior. An introduction to the study of the effects of brain damage on psychological processes.

PSB 4250 Animal Cognition (3).
Issues and concepts relating to the evaluation of cognitive abilities in animals. Examines theoretical, methodological and philosophical issues and problems in the study of animal cognition.

PSY 2012 Introductory Psychology (3).
Psychological principles underlying the basic processes of sensation, perception, cognition, learning, memory, life-span developmental, social behavior, personality, abnormal behavior, and psychotherapy.

PSY 3213 Research Methods in Psychology (4).
Basic methods in contemporary psychology. Emphasis on the role of methodology and experimentation in subfields of psychology. Students evaluate different designs and conduct original research projects. Prerequisites: STA 3112 or STA 3123. (Lab fees assessed)
PSY 3930 Psychology of Humor (3). A study of the development of sense of humor in comedians and audiences; its expression in the production and appreciation of comedy, etc.; its psycho-physiologic-social correlates; its effect in maintaining well-being and preventing illness; and its role in human relations.

PSY 4024 Seminar in Research and Careers in Psychology (3). Prepares students to enter careers in Scientific Psychology; towards preparation for graduate school; to assist in participation in research; and to know about options in Psychology. Prerequisite: PSY 2012. Corequisites: PSY 4914 or PSY 4916 or permission of instructor.

PSY 4302 Psychological Testing (3). An introduction to the rationale underlying the use of psychological tests. Topics include basic test terminology, test administration, interpreting standard scores, reliability, validity, tests of intelligence, interest inventories, personality tests, the ethics of testing, and the fairness of tests for different segments of the population. Prerequisites: STA 3123 or equivalent.

PSY 4801 Metatheory in Psychology (3). Issues related to the meta-theoretical foundation of psychology, and history and systems of psychology.

PSY 4900 Independent Readings in Psychology (VAR). Limited to qualified students who have permission from a faculty member and who present a plan of study including area and objectives. Students enrolled in this course are expected to have regularly scheduled meetings with their faculty advisor, and to submit a written report of their study. Offered for Pass/Fail only. Prerequisite: Permission of instructor.

PSY 4914 Honors Research Project (VAR). Limited to qualified seniors seeking honors in psychology. Students must submit a research plan and have a research advisor’s approval of the research project prior to enrollment in the course. A written report of the research in the A.P.A. publication style must be submitted for evaluation before credit will be awarded. Offered for Pass/Fail only. Prerequisite: Permission of instructor.

PSY 4916 Independent Research in Psychology (VAR). Limited to qualified students who have permission from a faculty member and who present a written proposal for research. Students enrolled in this course are expected to have regularly scheduled meetings with their faculty advisor, and to submit a written report of their research. Prerequisite: Permission of instructor.

PSY 4930 Special Topics in Psychology (3). Special topics will be announced in advance. Prerequisite: Permission of instructor.

PSY 4931 Senior Seminar in Psychology (2). An advanced seminar for seniors. Analysis of major contemporary trends in psychological theory and research. Prerequisite: Permission of instructor.

PSY 4932 Psychology of Human Communication (2). PSY 4932L Psychology of Human Communication Lab (3). This course covers psychological theory, research and application in the area of human communication. Prerequisites: STA 3123, PSY 3213. (Lab fees assessed)

PSY 4941 Independent Field Experiences in Psychology (VAR). Limited to qualified students who have permission from a faculty member and who present a plan of study including area and objectives. Students enrolled in this course are expected to have regularly scheduled meetings with their faculty advisor, and to submit a written report of their experiences. Prerequisite: Permission of instructor.

PSY 5216 Proseminar: History and Systems of Psychology (3). An examination of the historical foundations of modern psychology and survey of current systems and schools of psychology. Prerequisites: Graduate standing or permission of the instructor.

PSY 5246C Multivariate Analysis in Applied Psychological Research (3). Covers basic techniques of multivariate analysis, emphasizing the rationale and applications to psychological research. Includes multiple regression, Hotelling’s T², MANOVA, principal component analysis, and factor analysis. Prerequisites: STA 3123 or equivalent; linear algebra recommended.

PSY 5908 Directed Individual Study (VAR). Under the supervision of an instructor in the graduate degree program, the graduate student delves individually into a topic of mutual interest which requires intensive and profound analysis and which is not available in a formal offering. May be repeated once. Prerequisite: Permission of the instructor.

PSY 5917 Psychology Research Proseminar (3). Specialized research and presentation to faculty members in his or her major research area. Seminar style. This course is intended as a core course for the masters program in psychology. Prerequisite: Full graduate admission.

PSY 5918 Supervised Research (VAR). Research apprenticeship under the direction of a research professor or a thesis advisor. Prerequisite: Full graduate admission.

PSY 5930 - Qualitative Research Methods in Development Psychology (3). Review recent developments in qualitative research methods. The focus will be on the application of these methods to research on human development. The interpretation of qualitative and quantitative methods will be stressed.

PSY 5939 Special Topics in Psychology (3). Special topics will be announced in advance.

SOP 2772 Psychology of Sexual Behavior (3). An examination of the nature, development, decline, and disorders of sexual behaviors, primarily from the perspectives of normal adjustment and interpersonal relations. Discussion also addresses love, intimacy, and similar emotionally charged socio-psychological topics. Modern and popular treatment approaches - including the 'new sex therapies' are critically evaluated.
SOP 3004 Introductory Social Psychology (3).
Introduction to the study of the relationship of the individual to social systems, including topics such as social behavior, attitude development and change, social conflict, group processes, mass phenomena, and communication.

SOP 3015 Social and Personality Development (3).
This course provides a survey of social and personality development throughout the life cycle. Emphasis will be placed on the interaction between psychological and environmental variables in life-span development changes.

SOP 3742 Psychology of Women (3).
An examination of women from various perspectives, such as biological, anthropological, mythological, religious, historical, legal, sociological, and psychoanalytical points of view. Discussions of ways in which these various perspectives influence the psychological development of contemporary women.

SOP 3932 Psychology of Drugs and Drug Abuse (3).
This course will cover some basic information about the nature and effects of drugs abused, the social and personal dynamics involved in the phenomena of drug abuse and the various rehabilitation programs currently being employed to combat drug abuse.

SOP 4050 Social Psychology in Latin America (3).
Upper division seminar on Social Psychology in Latin America. The course will provide the student with the opportunity to survey the literature and research in social psychology from different countries in Latin America and to compare that material with on-going research and literature in the United States. Prerequisites: SOP 3004 and reading knowledge of Spanish.

SOP 4214C Experimental Social Psychology: Lecture (2), and Laboratory (3).
The primary purpose of this course is to have students conduct actual social psychological experiments. Lecture material will be secondary to (and in the interest of) allowing students to execute representative experiments in areas such as attitude measurement and change, group structure, and communication, etc. Prerequisites: PSY 3213 and STA 3123. (Lab fees assessed)

SOP 4414 Attitudes and Social Behavior (3).
A review of classic and contemporary social psychological research on attitudes and persuasion. Emphasis will be placed on using persuasion processes to ameliorate social problems. Prerequisite: PSY 3213.

SOP 4522 Social Motivation (3).
Focuses upon those sources of human motivation that are a consequence of man’s social-interpersonal environment and his striving to obtain valued goals. Topics discussed include test-taking anxiety, alienation and affiliation motivation, internal vs. external orientation, achievement motivation, etc. The measurement of social motives and their roots and consequences for behavior are discussed.

SOP 4525 Small Group Behavior (3).
Introduction to the study of the structure and function of groups, emphasizing the behavior of individuals as affected by the group. The course focuses on experimental evidence concerning such topics as social facilitation, group decision making, phases in group development, physical factors in group behavior, etc.; rather than upon student experience in sensitivity or encounter training.

SOP 4645 Consumer Psychology (3).
This course addresses the psychological components contributing to satisfaction and dissatisfaction in buying and selling transactions. The consequences of such transactions, as they affect the environment in which we live as well as society in general, are examined. The interface between business, labor, government, and the consumer as all four groups are involved in consumer affairs is analyzed objectively.

SOP 4649 Experimental Consumer Psychology: Lecture (2), and Laboratory (3).
Using the interactive workshop and objective observational methods, students will be required to conduct original research projects related to solving consumer affairs problems. Laboratory requirements include both on-and off-campus work. The former emphasizes techniques and evaluation. The latter is necessary for the gathering of data. Prerequisites: PSY 3213 and STA 3123. (Lab fees assessed)

SOP 4712 Environmental Psychology (3).
An introduction to the study of human-environment transactions, with an emphasis on applications of physiological, psychological, and social theories.

SOP 4714C Environment and Behavior: Lecture (2), SOP 4714L Laboratory (3).
Students gain experience with laboratory and field techniques used in the study of the reciprocal relationship between the physical environment and human behavior. Prerequisites: PSY 3213 or permission of the instructor. (Lab fees assessed)

SOP 4731 Global Psychology: Cross Cultural Perspectives on Psychological Research and Theories (3).
Examination of cultural contexts informing human behavior and psychological well internationally. Students will examine psychology research through direct application to global phenomena. Prerequisite: PSY 2012.

SOP 4774 Female Sexuality (3).
Psychological and behavioral aspects of women’s sexuality will be explored, including: anatomy, sexual functioning, pregnancy/childbirth, Sexual orientation, sexual variations, sexual assault/abuse, and relationships. Prerequisites: PSY 2012 (Intro to Psychology) or WST 3015 (Intro to Women’s Studies).

SOP 4842 Legal Psychology (3).
Particular emphasis will be given to interpersonal courtroom processes. Topics considered include scientific jury selection, proxemics, persuasive argumentation, witness demeanor, eyewitness testimony, and similar influences upon juror decision making.
SOP 5058 Proseminar in Social Psychology (3). An in-depth examination of the role of social psychology in the social sciences and the major substantive problems as they relate to contemporary societal issues. Minimum prerequisite: An introductory course in social psychology or its equivalent.

SOP 5081 Psychological Influences On Health and Illness (3). Provides a comprehensive review of theory, research, and interventions in the field of health psychology. Prerequisites: Graduate standing or permission of the instructor.

SOP 5316 Theories and Methods of Cross-Cultural Research (3). An intensive analysis of contemporary theories and methods of cross-cultural research in psychology including topics such as: culture as a research treatment, differential incidence of personality traits, the use of ethnographies, ‘etic’ vs. ‘emic’ distinction. Prerequisites: Graduate standing or permission of the instructor.

SOP 5616 Social Psychology of Organizations (3). The application of concepts and theories from social psychology and sociology to the organizational setting. Emphasis would be on role theory, value formation and the operation of norms, including their development and enforcement. Formal and informal organization structure, power and authority concepts, and leadership theories will be covered. Communication processes and networks and their effects on task accomplishment and satisfaction will be included.
Public Administration

Meredith Newman, Professor and Chair
Mohamad Alkadry, Associate Professor and MPA Coordinator
Shaoming Cheng, Assistant Professor
Howard Frank, Professor
Emel Ganapati, Assistant Professor
Sukumar Ganapati, Associate Professor
Jean-Claude Garcia-Zamor, Professor
Hai Guo, Assistant Professor
Milena Neshkova, Assistant Professor
Valerie L. Patterson, Clinical Associate Professor
Keith Revell, Associate Professor
Allan Rosenbaum, Professor and PhD Coordinator
Jue Wang, Assistant Professor

Bachelor of Public Administration

Degree Program Hours: 120

The Bachelor of Public Administration (BPA) degree is offered for students interested in beginning a public service career upon completion of their undergraduate work and for those who wish to continue in public administration at the graduate level.

Admission Requirements

A student must complete an Associate in Arts degree at a Florida public community college or have earned 60 semester hours of college credit at any other accredited institution at an acceptable performance level to be considered for admission.

Students with an Associate in Science degree or 60 semester hours will be accepted, but must complete the University's Core Curriculum (UCC) requirements before the bachelor's degree can be awarded.

To qualify for admission to the program, FIU undergraduates must have completed 60 semester hours, including all CLAS requirements, and have an overall GPA of 2.0 or better.

Common Prerequisite Courses and Equivalencies

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org. See Common Prerequisite Manual.

Common Prerequisite

POS 2041/2042 American Government

Lower Division Preparation

It is recommended that applicants complete the Associate in Arts degree (60 semester hours) in the lower division and the University Core Curriculum (UCC) requirements. It is required that students complete a course in American Government. Three credits in History, and three credits in Public Administration are recommended.

Upper Division Program

Students must complete 60 credit hours at the 3000 level or greater.

Students must complete the following requirements:

1. Twelve core courses. (36 credits)
2. Four courses (12 credits) in an administrative area of concentration to be taken within or outside the Program, with prior permission from the advisor.
3. A three credit seminar, PAD 4934 (Integrative Seminar in Public Administration).
4. Students must earn a grade of 'C' or higher in each of the 12 core courses, in the concentration electives, and in the general electives. A 'C-' is not acceptable and must be repeated.

Students are strongly encouraged to enroll in PAD 3003, PAD 4704, and PAD 4723 during the first 24 hours of upper-division coursework.

Core Courses: (36)

- PAD 3003 Introduction to Public Administration 3
- PAD 3034 Policy Development and Implementation 3
- PAD 3802 Introduction to Urban and Regional Studies 3
- PAD 4704 Applied Statistics for Policy and Management 3
- PAD 4723 Applied Research Methods for Policy and Management 3
- PAD 3804 Government and Administration of Metropolitan Areas 3
- PAD 4223 Public Sector Budgeting 3
- PAD 4712 IT and E-government for Public Managers 3
- PAD 4141 Citizen Participation and Community Empowerment 3
- PAD 3438 Communication Skills for Policy and Management 3
- PAD 4046 Values, Ethics, and Conflict Resolution 3
- PAD 4934 Integrative Seminar 3

Concentration Electives: (12)

Students are required to take 12 credits of upper-division coursework from the following departments: Public Administration; Global and Sociocultural Studies; Criminal Justice; and Politics and International Relations, with no more than six hours from any one of these programs. These courses may constitute part of a minor or a certificate program in another department. Such a minor or certificate program must be pre-approved by the undergraduate advisor and be relevant to the chosen administrative area of concentration.

General Electives: (12)

Students are required to take 12 hours of upper-division courses. Students may petition the undergraduate advisor for inclusion of lower division credit. Students with no relevant public or nonprofit experience are encouraged to register for an appropriate internship (PAD 4940) for elective credits.
Minor in Public Administration

A five-course minor in Public Administration is available to baccalaureate degree-seeking students who are interested in careers in public service. The courses that comprise this minor will provide students with the opportunity to develop specialized skills in such areas as urban administration, organizational change, personnel management, and budgeting and financial management.

Requirements

Fifteen semester hours in Public Administration. Classes are to be selected from the following course list:

- PAD 3033 Administrators and the Legislative Process 3
- PAD 3034 Policy Development and Implementation 3
- PAD 3430 Personal Growth and Organizational Development 3
- PAD 3804 Government and Administration of Metropolitan Areas 3
- PAD 3834 International Comparative Administration 3
- PAD 4046 Values, Ethics, and Conflict Resolution 3
- PAD 4140 Introduction to Management of Public and Nonprofit Organizations 3
- PAD 4712 IT and E-Government 3
- PAD 4442 Public Relations 3
- PAD 4301 Planning, Performance, and Accountability 3
- PAD 4141 Citizen Participation 3
- PAD 3802 Introduction to Urban and Regional Studies 3
- PAD 3251C Applied Economics for Public Managers 3
- PAD 4103 Politics of Administrative Organization 3
- PAD 4223 Public Sector Budgeting 3
- PAD 4414 Personnel Skills for Administrators 3
- PAD 4432 Administrative Leadership and Behavior 3
- PAD 4603 Administrative Law 3

Criminal Justice and Health Services majors cannot use core courses towards their minor.

You may choose other courses from the list provided in the Undergraduate Catalog; however, the following five courses are highly recommended to complete your minor:

- PAD 4223 Public Sector Budgeting
- PAD 4414 Personnel Skills for Administrators
- PAD 3804 Government and Administration of Metropolitan Areas

Students must contact the department from which the student wishes to receive the minor when they apply for graduation. This will ensure that the minor will be posted on the transcript.

Combined BPA/MPA Degree Program

The combined BPA/MPA degree program offered by the Department of Public Administration allows qualified students to earn both degrees in a shorter amount of time than typically required for earning degrees sequentially. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships.

Admissions Requirements to the Combined Degree Program

1. Overall GPA of 3.2 or better.
2. Obtain a letter of recommendation from a faculty member at FIU or from a supervisor.
3. Submission of a current resume.
4. Demonstrate graduate level writing competency by submitting a letter-of-intent not to exceed three double-spaced pages explaining how earning the Master’s of Public Administration is consistent with long-term career goals.
5. The applicant should apply to the combined program after having completed at least 75 credit hours but no more than 90 credit hours in the BPA program.

Courses Counted Toward both Degree Programs

Students accepted into the combined degree program may count no more than 4 of the master’s courses (maximum of 12 credits) listed below toward satisfying both the BPA and MPA degree requirements:

Either:

- PAD 6053 Political, Social and Economic Context of Public Administration 3
- PAD 6701 Quantitative Methods in Public Administration 3

must be among the four double-counted courses:

- PAD 6142 Management of Non-Profit Organizations 3
- PAD 6209 Financial Management in Public and Nonprofit Organizations (Prerequisite: PAD 6227) 3
- PAD 6227 Public Finance and the Budgetary Process 3
- PAD 6306 Policy Analysis and Planning 3
- PAD 6417 Human Resource Policy and Management 3
- PAD 6434 Leadership and Decision-making 3
- PAD 6710 IT and E-Government 3
- PAD 6726 Applied Research Methods for Accountability in Public and Non-Profit Organizations (Prerequisite: PAD 6701) 3

With advisor approval, these graduate courses can be substituted for any of the required or elective bachelor’s in public administration courses listed in the program catalog, with the exception of PAD 4934 Integrative Seminar, which must be taken by all BPA majors.

Students accepted into the accelerate BPA/MPA degree program must complete all of the requirements of the MPA to receive their graduate degree.

Course Descriptions

Definition of Prefixes

PAD—Public Administration; URS—Urban and Regional Studies

PAD 3003 Introduction to Public Administration (3).

The course will provide an overview of the field of public administration by focusing on its development and importance in modern government operations. The course will also review operation of government at local, state, and federal levels.
PAD 3033 Administrators and the Legislative Process (3). A study of executive-legislative interactions; the impact of legislation and legislative processes on administrative policy decision-making and implementation; the influence of administration on the legislative process.

PAD 3034 Policy Development and Implementation – GL (3). Examines the formulation, implementation, and evaluation of governmental efforts at federal, state, and local levels.

PAD 3251C Applied Economics for Public Managers (3). This course provides an introduction to the applied economics of the public sector and the microeconomics of public policy making and administration. It also provides an introduction to cost-benefit & cost-effectiveness analyses.

PAD 3430 Personal Growth and Organizational Development (3). The administrator as a person. Development of interpersonal skills. Self evaluation and career planning. Training and education for the public service sector.

PAD 3431 Exploring Leadership: Yourself, Your Organization and Your Community (3). This course is an interactive exploration of personal leadership development through current theories and models of leadership from three perspectives including individual, group, and society.

PAD 3438 Communication Skills for Policy and Management (3). Designed to enable students to develop oral and written skills required to communicate effectively in organizational and public policy settings.

PAD 3802 Introduction to Urban and Regional Studies – GL (3). An integrated approach to the problems and prospects of metropolitan areas with emphasis on economic, political, social and administrative facets of the urban setting.

PAD 3804 Government and Administration of Metropolitan Areas (3). An intensive analysis of administrative problems in large complex urban areas encompassing many political entities. Examines overlapping relations among municipalities with special attention given to Miami-Dade County as well as current trends in public management and future directions for change.

PAD 3834 International Comparative Administration (3). This course is an introduction to a wide range of scholarly and practical ‘applied’ interests. Emphasis is on institution-building and development administration, particularly within the Third World countries.

PAD 4046 Values, Ethics, and Conflict Resolution (3). Theories of value: ethical systems and their influence on administration, behavior and process; the administrator as an ethical actor; value conflict and resolution; the philosophical basis of American thought.

PAD 4103 Politics of Administrative Organization (3). The role of political processes in relationship to public organizations and the types of intra- and inter-organizational politics which are unique to public organizations. Effects of these political processes upon organizational performance and their role in promoting or inhibiting organizational change.

PAD 4140 Introduction to Management of Public and Nonprofit Organizations (3). This course addresses fundamental theories and principles of management in public and nonprofit organizations.

PAD 4141 Citizen Participation and Community Empowerment (3). Seminar is for public management students who want to help citizens learn from one another and strengthen the capacity of citizens to solve problems. Political, public administration, sociological, and organizational perspectives will be covered.

PAD 4201 Fiscal Analysis for Public and Nonprofit Service (3). This course is designed to provide the basics of pricing and financial management applicable to public and nonprofit organizations.

PAD 4223 Public Sector Budgeting (3). The theory and practice of various approaches to budgeting, including line-item, performance, PPBS budgeting. Special emphasis on the role of the budget in shaping the program and performance and policy direction of public organizations.

PAD 4301 Planning Performance and Accountability (3). Provides an introduction to the analysis and evaluation of public policies and programs. The main tools and techniques of policy analysis will be discussed. Students will apply techniques to selected policy problems.

PAD 4414 Personnel Skills for Administrators (3). The general nature of public personnel administration; the development of the civil service system; concepts and issues currently applicable at the federal, state, and local levels of government.

PAD 4432 Administrative Leadership and Behavior (3). Designed to expose students to a systematically related set of concepts for diagnosing human behavior in organizations; and to establish a positive value for the analysis of problems involving people, structure, environment, task technology, and situational climate.

PAD 4442 Public Relations for Public Managers (3). Surveys the government mass communication media relationship and then concentrates on the ways in which public managers handle media relations. Emphasis is placed on questions of information handling unique to public organizations.

PAD 4603 Administrative Law (3). Surveys the principles of law from the perspective of the public administrator; administrative procedure; procedural due process; delegation of legislative power; regulatory administration; conflict-of-interest statutes, etc.

PAD 4704 Applied Statistics for Policy & Management (3). The intent of this course is to familiarize students with the basic approaches to social research as applied in public and service settings. Emphasis will be placed on techniques for organizing and presenting data for policy and management decision-making. Prerequisites: PAD 4713 or equivalent.

PAD 4712 IT and E-government for Public Managers (3). Surveys personal and societal value assumptions in the context of the technological society. Examines
organizational societal value structures, and the ways in which technology creates rapid change and new alternatives in values. Interrelationship of the past, present, and future is explored.

PAD 4713 Computer Applications for Urban Services (3). The study of computer applications for administrative analysis of financial and program data with emphasis on design, interface, and data structures.

PAD 4723 Applied Research Methods for Policy & Management (3). Research design, sampling, critical evaluation, basic research ethics, experiments and quasi experiments, reliability and validity surveys, design-implementation, qualitative and quantitative methods, secondary analysis evaluation and presentation.

PAD 4905 Independent Study in Public Administration (1-6). (Normally 3 credit hours) Individual conferences, supervised readings; reports on personal investigations; and similar undertakings. Prerequisites: Senior standing and approval of the faculty member supervising the independent study.

PAD 4934 Integrative Seminar in Public Administration (3). The terminal course of the program. Students will integrate coursework and theory into the analysis of a public policy or public management problem and produce a final seminar paper. Prerequisites: Successful completion of required courses and a total of at least 108 credits.

PAD 4940 Public Administration Internship (3-6). (Normally 3 credit hours) Supervised work experience in a public or quasi-public organization. Involves a variety of professional and technical job duties depending on the agency. Prerequisites: Successful completion of required courses in public administration and approval of internship coordinator.

PAD 4949 Cooperative Education (3). Supervised work experience in public or quasi-public organization. Placement is made through the Office of Cooperative Education. Prerequisites: Completion of required courses in public administration and consent of Chair required.

PAD 5041 Values and Technology in Modern Society (3). Surveys personal and societal value assumptions in the context of the technological society. Examines organizational-societal value structures, and the ways in which technology creates rapid change and new alternatives in values. Also interrelationship of the past, present and future is explored, through futurism and forecasting techniques.

PAD 5043 Government and Minority Group Relations (3). Explores the pressing contemporary issue of the relationship between government and minorities. Examines the clash between established institutional values and minority group values, and surveys remedial programs aimed at dealing with the problem. Comparative case studies will be used to analyze public agencies' internal relations with minorities (recruiting, selection, etc.), as well as their different responses to the minority groups they serve.

PAD 5256 Public Economics and Cost Benefit Analysis (3). This course provides the quantitative and qualitative tools and case material to solve allocation problems in the public sector. Applied microeconomic theory, welfare economics, and market and government failure are analyzed as are the public alternatives available. Cost-benefit analysis, the ethics of applied practice, and the important skills of communicating with decision makers are included.

PAD 5416 Social Equity and Human Resource Management (3). The course deals with the human resource management issues arising from equity and affirmative action requirements in the workplace.

PAD 5427 Collective Bargaining in the Public Sector (3). The course deals with the nature and implications of collective bargaining for managers and employees in (and students of) public organizations. The course emphasizes similarities and differences between the private and public sectors, as they apply to collective bargaining.

PAD 5435 Administration and the Role of Women (3). The course is designed for women and men who are interested in moving into management positions, or who have done so and want to broaden their understanding of the changing role of women. Classes will allow for experimental as well as academic exploration of the issues. The course will also explore design, implementation, and evaluation of affirmative action programs.

PAD 5443 The Public Administrator and Media Relations (3). Surveys the government-mass communication media relationship, and then concentrates on the ways in which public managers handle media relations. Emphasis throughout is placed on questions of information-handling unique to public organizations, involving, for example, adherence to Florida's Sunshine Law and the Federal Freedom of Information Act.

PAD 5460 Productivity Improvement (3). Provides measures to improve organizational and worker productivity using applied behavioral science.

PAD 5616 Contracting and Managing Third Party Governments (3). Analyzes the legal foundations, administrative and economic characteristics of government instrumentality's as they are used to pursue public policy. Analyzes how and why different combinations of instrumentality's are used in different policy areas.

PAD 5660C Applied Legal Context of Public Administrators (3). An overview of constraints and latitude the legal system grants to public administrators and managers. Provides the applied legal information required to make effective decisions in the public sector.

PAD 5661C Management of Court-Agency Relations (3). Examines applied judicial-administrative relations with particular emphasis on administrative policymaking. Covers the legal, environmental, and political factors that influence administrative strategies of policy and program compliance.

PAD 5805 Economic Development and Urban Revitalization (3). This course is an interdisciplinary examination of research and practice in contemporary economic development, with emphasis on successful implementation in a variety of settings.
PAD 5934 Contemporary Issues in Public Administration (3). An analysis of major conceptual issues currently facing public administrators. May be repeated for credit.

URP 5426 Emergency Management and Planning (3). This course focuses on the concepts, processes, and techniques associated with developing and implementing emergency management plans in public, nonprofit, and health organizations.

URS 3005 Service Learning: Social Change and Contemporary Social Issues (3). Examines volunteerism in America, provides study and experience of the Urban Community, promotes critical thinking, citizenship and social responsibility.

URS 4931 Current Topics in Urban and Regional Studies (3). In-depth exploration of current, critical topics in the urban arena. Emphasis on multidisciplinary approaches to local issues impacted by increased globalization and competition among cities and regions. May be repeated for credit.

URS 5645 Strategic Planning in Public and Non-Profit Organizations (3). This course exposes students to the concepts associated with strategic planning of public and nonprofit organizations and provides them with practical experience in their use.

URS 5647 Continuous Quality Improvement (3). This course provides an in-depth exposure to the concepts, principles, and techniques associated with continuous quality improvement (CQI) applied to public, nonprofit, and health organizations.

¹All Florida College System students are encouraged to take several religion courses with the REL prefix. All are encouraged to complete the Associate in Arts degree.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: [http://facts.orgh](http://facts.orgh). See Common Prerequisite Manual.

Common Prerequisites

No specific courses required; all students are encouraged to complete the Associate in Arts degree.

To qualify for admission to the program, FLU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, and must be otherwise acceptable in the program.

Recommended Courses: Religion, Philosophy, History and Anthropology.

Upper Division Program: (60)

Required Areas

The Religious Studies major serves as a basis for students who wish to pursue the study of religion or theology as a career, for students preparing for a career in counseling, education, business, law or medicine, or for students who wish to undertake a dual major in a related field of study. The major is designed to allow students to focus either on comparative topics in a critical approach to understanding religious phenomena and their relation to society in a broader cultural context or on the theory and practice of a specific religious tradition in its historical setting.

Required Courses

The major in religious studies requires 36 credit hours with a grade of 'C' or better.

1. Foundation Course (3 credits), a course that introduces students to the world's great religious traditions as well as various multicultural approaches and interdisciplinary approaches in the study of religion:
REL 3308 Studies in World Religions

2. Area Courses (12 credits), one course in each of the following areas in order to develop an awareness of the breadth of the field and provide a foundation for more specialized studies:
   - Abrahamic Religions [1]
   - Asian Religions [2]
   - Indigenous and Other Religious Traditions [3]
   - Society, Culture and Ethics [4]

(If a course satisfies the distribution requirement, the corresponding number of the area that it satisfies is in brackets after the course description).

3. Focus Courses (18 credits), including at least 12 or more credits in Religious Studies and up to 6 credits in related studies, aimed at building in depth knowledge of a particular area, theme or tradition. Related studies are selected from courses in Art History, English, History, Humanities, International Relations, Philosophy, Psychology, Sociology/Anthropology, or other appropriate departments.

4. Capstone Course (3 credits), a senior or capstone seminar covering advanced methodology in the study of religion:
REL 4030 Methods in the Study of Religion

General Electives: 24

The College of Arts and Sciences requires for the bachelor's degree that a student take at least nine hours outside the major discipline, of which six hours must be taken outside the major department. Remarks: Students select their required courses in Religious Studies with the approval of the Undergraduate Program Director. Students are also encouraged to consider a dual major i.e., simultaneously to meet the requirements of two academic majors. The Department serves the community and professional groups by offering courses off campus. For further information concerning these courses consult the department.

Minor in Religious Studies

A student majoring in another academic discipline can earn an academic minor in Religious Studies by taking at least fifteen credits of REL courses. These may be REL 2011 or any upper division courses (3000 or 4000 level). Students are encouraged to take REL 3308, Studies in World Religions, as one of these courses.
Honors Track in Religious Studies (B.A)

Requirements:

a. To earn the B.A. with Honors in Religious Studies, a student must maintain a 3.5 GPA in religious studies courses.

b. Candidates for the B.A. with Honors in Religious Studies will complete the same requirements as for the B.A. major with one exception: among the “Focus Courses” 21-semester hours of course work will be taken plus 3 semester hours of “Religious Studies Research,” during which a thesis or honors paper will be proposed, researched, written and defended orally.

c. In the semester prior to graduation, the student will enroll in “Religious Studies Research” (REL 4912), in which he/she will expand a term paper into an honors paper/thesis, or will begin a thesis anew, under the direction of an appropriate member of the Religious Studies faculty.

d. When the thesis is approved by the faculty member, the coordinator of REL 4912 will organize and schedule a defense of the honors paper/thesis, at which the student will present his/her research and respond to questions from faculty and students. This requirement will be deemed to have been met upon a majority positive vote of faculty.

e. The honors paper/baccalaureate thesis normally would be approximately 25-35 pages, must be presented according to FIU regulations (available in the department office), and will be deposited in the FIU Library. The honors paper/thesis must demonstrate that the student has mastered skills in defining a topic, research and expository writing, as well as oral skills required for the presentation and defense of the honors paper/thesis.

Combined BA/MA in Religious Studies

To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admission Requirements

- Current enrollment in the Bachelor’s Degree program in Religious Studies, or any humanities major that allows at least 12 hours of electives.
- Current GPA must be 3.4 or higher.
- Two letters of recommendation.
- Approval of the Graduate Committee.

- Submission of acceptable writing sample, complete with bibliography, to Turnitin.com.

Graduation Requirements

Completed BA at FIU including,
REL 4931 Religious Studies Seminar
REL 6935 Seminar in Sacred Texts
REL 6013 Modern Analysis of Religion

Six additional hours of graduate credit in Religious Studies (for majors, graduate level enrollment in six hours of Focus Courses) must also be taken as Graduate courses.

Required:

- A four course track, either in one religious tradition, or one theme across religious traditions, approved by the Graduate Director.
- The two graduate seminars taken in the senior year of the BA as well as the Focus courses taken at the Graduate level (limit 12 hours double-counted).
- Six credits of electives selected from the Religious Studies Graduate Course Offerings.
- Six hours of thesis, or six additional hours from the Religious Studies Graduate Course Offerings.
- All courses must be completed with a grade of “B” or above.

Course Descriptions

Definition of Prefixes
GRE-Ancient Greek; HBR-Biblical Hebrew; REL-Religion; SRK – Sanskrit Language

GRE 3050 New Testament Greek I (3). Introduces the Greek language of the New Testament, and other works of the ancient period to enhance the understanding of translated texts. A portion of the Gospel of John is studied.

[1]

HBR 3100 Biblical Hebrew I (3). Introduces the language of the Hebrew Scriptures, portions of which are read in class.

[1]

HBR 3101 Biblical Hebrew II (3). A continuation of Biblical Hebrew I. Prerequisite: Biblical Hebrew I. [1]

REL 1200 Introduction to Christian Scripture (3). Examines the origins and themes of the Christian Bible using literary, historical, and archaeological approaches. Explores inter-religious dialogue between Christianity and Judaism on shared scripture.

REL 2011 Religion: Analysis and Interpretation (3). Introduces methods of critical reflection on religion and some of their applications to fundamental topics such as knowledge, value, the sacred, the individual and human society. Written work meets the state composition requirement.

REL 2624 From Bible to Talmud (3). An introduction to early Judaism from the end of the biblical period to the completion of Talmud that surveys the history and issues shaping this crucial period of development.

REL 2936, 4936 Special Topics (1-6). In-depth study of topics of special interest in religion. [1,2,3,4]
REL 3012 Religious Myth and Ritual (3). Examines the roots, functions, content and meaning of myth and ritual in religion. [4]

REL 3020 Meditation and Spiritual Development (3). An examination of the varieties of meditation, meditation and health, meditation in religious traditions. [2]

REL 3021 Magic and Ecstasy in New Religions (3). Examines the role of magic, ecstatic religious experience, and the supernatural in contemporary religion. [3]

REL 3022 Ritual in Religion and Culture (3). Examines ritual and its roots, functions, analysis, and meaning, both in religious contexts and as it is assimilated and adapted in the wider culture. [4]

REL 3024 Religions, Life and Vegetarianism (3). Examines views of life and respect for life in religion, and the relationship of vegetarianism to these. [2]

REL 3026 Folk Religions in Asia and the World (3). Movements in folk or popular religions in relation to the official dimension of the major traditions, including the role of ghosts and spirits, visions and dreams, and healing and prophecy. [2]

REL 3027 Meditation and the Mystical Traditions (3). The history, philosophy, and cultural impact of the role of meditation in various mystical traditions, including movements such as Kabbalah, Neo-Platonism, Sufism, Yoga, Tantra, Taoism, and Zen Buddhism. [1,2,3]

REL 3028 Sacred Places, Sacred Travels (3). The role of worship associated with sacred and ritual travel, with emphasis on Asia and Latin America and the syncretism between indigenous rights and the major religious traditions. [1,2,3]

REL 3029 Christian Mysticism (3). Historical and theological analysis of the sources, tradition and contemporary manifestations of Christian Mysticism. [1]

REL 3091 Joseph Campbell and the Power of Myth (3). Examines the nature of myth, particularly from the perspective of mythologist Joseph Campbell, and focuses on his contribution to the study of myth. [1]

REL 3100 Introduction to Religion and Culture (3). This course explores both the ways religion uses culture to express its basic concerns and the ways that culture and lifestyle reflect religious perspectives. Attention will be given to traditional and popular expressions of American culture. [4]

REL 3110 Religion and Television (3). Examines the interaction of religion and television; television as a vehicle for religious programming, news, and values; and religion as a dynamic influence on the medium. [1,2,4]

REL 3111 Religion in Film (3). Students examine religious themes, images, symbols and characters in various feature and short films, a specific method of critical analysis, and the religious and societal effects of contemporary films. [1,2,4]

REL 3112 Religion and Literature (3). Literary texts engaging central religious and spiritual themes are used to explore the multicultural and transnational study of religions. Specific topics may vary from year to year. [4]

REL 3120 Religion in America (3). Historical survey of the development and influence of religions in the U.S. with emphasis on the unique role of religion in American culture. [1,2,3]

REL 3123 Asian Religions in the Americas (3). This course examines the arrival, diffusion, and cultural impact of Asian religions, such as Hinduism, Buddhism, and New religions, in North and South America. [2]

REL 3127 Church and State (3). Explores the separation of church and state in the United States, reviewing its historical background and studying contemporary cases involving religious freedom. [1,4]

REL 3131 Sects and Cults (3). Explores the human tendency to generate new and synthetic Religious movements and examines a variety of these global sects and cults. [1,2,3]

REL 3139 African-American Religious Movements (3). Analysis of the history, beliefs and practices of select key African-American religious movements, such as “storefront” churches and the Nation of Islam. [1]

REL 3140 Contemporary Global Spirituality (3). Traditional and secular spiritualities. Applications to professions: entrepreneurship, management, health care, counseling, arts, education, warriorship.

REL 3142 Sacred, Selfhood and Society (3). The interaction between traditional and contemporary religious and psychological approaches to understanding the self and realizing authentic selfhood in relation to society. [4]

REL 3145 Women and Religion (3). Explores the involvement, portrayal, and roles of women in religion, from early goddess religions through the cult of Mary to contemporary feminist theology. [4]

REL 3148 Violence and the Sacred (3). The role of religion in the inspiration, justification, avoidance, or constraint of various forms of overt or covert violence. Addresses relevant social issues. [4]

REL 3154 Gender, Religion, and Nature (3). Explores the role of gender in religious, philosophical, and scientific discourses and examines the relationship between gender construction and environmental issues. [4]

REL 3160 Science and Religion (3). The methods, assumptions, goals of religion will be compared with those of the natural and human sciences. Specific issues, such as evolution, sociobiology, and the new astronomy will be considered to illustrate similarities and differences between the two approaches. [4]

REL 3162 Religious Healers and Mediums (3). Religious studies scholarship using sociological method/theory to explore major themes in premodern, modern and postmodern religion, with special focus on religious ritual for healing and afterlife. [1,2,3,4]

REL 3170 Ethics in World Religion (3). Examines the nature of ethics in its relationship to various faith orientations around the world and surveys specific ethical problems in world religions. [4]

REL 3172 Reproductive Ethics (3). Surveys U.S. religion on family, surrogacy, artificial insemination and in vitro fertilization, contraception, abortion, and fetal hazards in the workplace. [4]

REL 3179 AIDS, Ethics and Religion (3). Examines ethical issues in AIDS as framed by churches, by persons with AIDS (PWA) networks, and by AIDS workers. [4]

REL 3180 Medical and Bioethics (3). A survey of religious treatment of ethical issues in health care and medical research. [4]

REL 3194 The Holocaust (3). Examines different aspects of the Holocaust as well as issues and events that led to and arose from the World War II Experience. Special attention is given to Jewish-Christian relations, thought and ethics before, during and after the Holocaust. [1]

REL 3197 Topics in Race and Religion (3). Examines the role of religion in specific historical events such as the US civil rights movement, the rise/fall of S. African apartheid, or the subjugation of the Amerindians. [4]

REL 3207 Jesus and the Dead Sea Scrolls (3). Explores the new light shed on the life of Jesus and the early Christian movement by the discovery of the Dead Sea Scrolls. [1]

REL 3209 The Dead Sea Scrolls (3). Surveys scholarship on the Dead Sea Scrolls, including their significance for the study of the Bible and the history of Judaism and Christianity. [1]

REL 3220 Moses, Priests and Prophets (3). In-depth study of selected portions of the Hebrew scriptures, paying close attention to the history of ancient Israel. Will be taught from a range of Jewish and/or Christian perspectives. [1]

REL 3250 Jesus and the Early Christians (3). Examines the life of Jesus and the New Testament documents; what we know about Jesus, how we know it, and how and why early Christianity spread so rapidly. [1]

REL 3270 Biblical Theology (3). Explores the ideas of God, man, redemption, ethics, and the after-life, tracing each through its development from earliest Hebrew thought to the rise of post-biblical Judaism and Christianity. [1]

REL 3280 Biblical Archaeology (3). Explores the nature, goals and methods of biblical archaeology. A survey of the most important sites and finds that have given us a new understanding of the world of the Bible. [1]

REL 3282 Archaeology of Israel (3). Introduction to the archaeology of the land of Israel as it relates to biblical history. Visits to major excavations will be combined with special lectures on the most significant finds of each site. [1]

REL 3308 Studies in World Religions (3). Examines the origins, teachings, and practices of selected world religions. The specific religions selected for examination may vary from semester to semester.

REL 3310 Introduction to Asian Religions (3). The great traditions which originated in India and China – Brahmanism, Hinduism, Buddhism, Jainism, Sikhism, Confucianism, Taoism – are explored in the cultural and social contexts. Special attention is paid to how these religions contribute to the construction of social identities, as well as to the interaction between religions and their artistic expressions in painting, architecture, poetry and drama. [2]

REL 3313 Sources of Modern Asian Society (3). Is the contemporary period a replay of ancient relo-cultural patterns, or does it pose unique challenges? Explores how classical Hinduism, Confucianism, and Buddhism affect modern India, the “Tigers”, Sri Lanka and Japan. [2]

REL 3314 Religion on the Silk Road (3). The historical meeting point of religions east and west, on the Silk Road that linked China with Central Asia, the Middle East, and Greco Roman culture. [1,2]

REL 3316 Healing in Asian Religions (3). Survey of varieties of healing techniques utilized in Asian Religions.

REL 3318 Chinese Religion and Culture (3). An in-depth study of the various ways that the religious and cultural traditions of China have influenced the nation's intellectual and cultural history. [2]

REL 3320 Moses, Jesus, Muhammad (3). The lives of Moses, Jesus, Muhammad and the communities they founded. Each religion's teachings are explored to reveal in what ways they are similar and in what ways unique. [1]

REL 3325 Religions of Classical Mythology (3). Examines the beliefs and practices of ancient Egyptian, Semitic, Greek, and Germanic religions, their influences on later civilization and religious thought, and the possible continuing insights offered by each. [1]

REL 3330 Religions of India (3). The myriad religions of India, from prehistoric origins to contemporary politicized Hinduism. Schismatic movements (Buddhism, Jainism) and “Indianized” extrinsic religions (Judaism, Christianity, Islam, Zoroastrianism). [2]

REL 3333 Classical Hinduism (3). A study of the development of classical Hinduism from its prehistoric roots, its classical textual and philosophic formulations to the theisms of the early medieval period. [2]

REL 3336 Introduction to Jainism (3). An introduction to Jain history and origins. Special focus will be placed on concepts of reality, the ascetic life, multiple dimensions of truth, non-violence and conflict resolution.

REL 3337 The Goddess in India (3). Images of the Goddess, known as Devi or Shakti, have been traced back to the third millennium BCE. Scrutiny of the evolution of Goddess worship in India is theological in character, philosophical in content, and legendary in tradition. [2]

REL 3340 Survey of Buddhism (3). The course will explore the central themes of the main schools of Buddhism developed in India, Tibet, China, Japan, and Korea. The themes will be examined from religious, historical, and philosophical points of view. [2]
REL 3342 Zen and the Tea Ceremony (3). Theory, practice, aesthetics and cultural history of Chado, the tea ceremony of Zen Buddhism. [2]

REL 3343 Buddhist Literatures (3). Selected non-canonical Buddhist genres, traditional and modern. Readings might include Tibetan tantric hagiographics or songs, Tales of Genji, Nohard Kabuki, pilgrim narrations, women’s enlightenment songs, meditation manuals. [2]

REL 3344 Tibetan Buddhism (3). Tibetan Buddhism is an amalgam of Indian Mahayana Buddhism, Tantric Buddhism, and indigenous Shamanism. It developed unique symbolism, rituals, spiritual practices and social organization. [2]

REL 3349 Indian Buddhism (3). The origin and development of Buddhism in India and South - Southeast Asia. Context, life and teachings of the Buddha, Schools of thought and social institutions. [2]

REL 3362 Islamic Faith and Society (3). A survey of the main facets of Islamic religion and societies from the time of Muhammad to the present. [1]

REL 3380 Native American Religions (3). An introduction to Native American religions, including myths, rituals, shamanic practices, and beliefs. Attention will be given to contemporary issues of tribal cultures of South Florida. [3]

REL 3383 Religions of the Caribbean (3). Developments, beliefs, rituals, and symbolic system of religious traditions of the Caribbean. Religion and society in Caribbean history. [3]

REL 3392 Jewish Mysticism (3). An overview of the history and philosophy of Kabbalah and an exploration of selected practices and techniques of Jewish mysticism. [1]

REL 3398 Rhythms of the Sacred (3). Explores how music has been a powerful and essential part of mystical experience in the world’s religious traditions, how it becomes religion and how religion influences music. [1,2,3]

REL 3399 The Art of Yoga and Meditation: Theory and Practicum (3). Through a concentrated study of yoga asanas (postures), mantras (sacred chants), meditation techniques, pranayama (breath control) and philosophical and religious scriptures, students engage in questioning, analysis, and application. Largely a participatory, studio course. [2]

REL 3443 Liberation Theologies (3). A survey of the major themes in and methodological distinctiveness of Latin American, African American and Feminist Liberation Theologies. [1]

REL 3490 Behind the Da Vinci Code (3). Dan Brown’s The Da Vinci Code is the starting point to examine whether there are secrets behind the history of Christianity as it is usually taught. Topics include gnosticism, knights templar, freemasons. [1,4]

REL 3492 Earth Ethics (3). This course will explore resources from philosophy and religion that could contribute to a solution of the current environmental crisis. Ethical issues of the environment will especially be examined in the light of these resources. [4]

REL 3505 Introduction to Christianity (3). Introduces the basic beliefs and practices of Christianity in their historical and modern forms, including both common and distinctive elements of Catholicism, Protestantism, and Eastern Orthodoxy. [1]

REL 3510 Early Christianity (3). This course will survey the first development of Christian thought and practice from its beginnings as a primitive church to its establishment as a major faith in the Middle Ages. It will then consider the relevance of this early experience for modern movements of this faith. [1]

REL 3520 Saints, Witches, and Cathedrals (3). Cathedrals and crusades through religious schisms and wars to Third World Christianity and women priests: select survey of major trends in Christianity. [1]

REL 3530 Protestantism (3). Surveys Protestantism from the Reformation to the present, including the formation of Protestant theology, the relationship of Protestantism to culture and contemporary developments. [1]

REL 3532 Reformation (3). The lives and thoughts of the leaders of the Protestant Reformation will be the focus of this course. Significant attention will be given to the personal experiences and theological perspectives that directed the actions of such persons as Luther, Calvin, and Zwingli, as well as the movements they founded. [1]

REL 3551 Mary and Jesus (3). Biblical scholarship and theological traditions regarding Jesus of Nazareth and Mary, his mother. [1]

REL 3564 Modern Catholicism (3). Surveys Catholicism from Vatican Council II to the present, including developments in liturgy, theology, and the relationship of the Church to the world. [1]

REL 3583 World Christianity (3). Surveys forms of Christianity and their growth patterns in Latin America, Asia, and Africa. [1]

REL 3593 Women in the Early Christian Church (3). Examines the roles of women in the New Testament, including ministry, missionary work, and local variations on women’s roles. [1]

REL 3601 The Ethics of Judaism (3). Examines Jewish approaches to ethical issues. Takes into account both traditional and nontraditional approaches which claim, in some way, to be authentically Jewish. [1]

REL 3607 Judaism (3). An introduction to Judaism, following a brief historical overview. Lectures and discussions will focus on the themes of Text, Time, Space, People, and Memory in classical and contemporary manifestations. [1]

REL 3625 Introduction to Talmud (3). Through close readings (in English translation) of specific Talmudic texts, this course introduces students to the Talmud - the magnum opus of Rabbinic Judaism. [1]

REL 3627 Kabbalah and the Bible (3). Study of the basic categories of Kabbalah as an esoteric doctrine and evaluation its unique interpretation of selected Biblical texts within the historical context of the Sephardic Jewish experience. [1]
REL 3630 American Judaism (3). Orthodox, Conservative, Reform, and other forms of American Judaism, and the impact of the Holocaust, Zionism, and anti-Semitism on American Jewry. [1]

REL 3671 Jews, Sex, and Gender (3). Deals with the central issues and debates surrounding gender, sex, and the body in Jewish thought and practice. Covers the wide range of texts and responses to these issues in Jewish history. [1,4]

REL 3672 Religion and Society in Israel (3). Conquest, domination and exile are major themes in Israel’s history. Responses to these experiences—assimilation, Zionism, and the secular state—are examined. [1]

REL 3690 Hasidic Thought (3). Analysis of the popular Jewish mystical pietistic movement that began in 18th century Eastern Europe, revolutionizing Jewish society, culture, and thought up to the present day. [1]

REL 3695 The Golden Age of Sephardic Jewry (3). The religious life of the Sephardic Jews as it emerged during the Golden Age of Spain in dialogue with Christians and Muslims, and as it developed throughout the Sephardic diaspora. Among the figures to be studied are Judaic philosophers, legalists and mystics, such as Maimonides, Judah Halevi, Ibn Ezra and Moses de Leon. [1]

REL 3949 Cooperative Education in Religion (3). A student majoring in Religious Studies may spend one or two semesters fully employed in industry, government, or other appropriate institutional setting in a capacity relating to the major. Permission of Cooperative Education and major department. [1,2,3,4]

REL 4030 Methods in the Study of Religion (3). This course examines a number of the most important methods used in the academic study of religion, together with representative examples of the use of these methods. Prerequisites: Religious Studies major status or permission of the instructor.

REL 4093 Muslim Ideas of War: A Perspective for National Security (3). Examines the historical and religious and renewal movements. [1]

REL 4097 The Prophets and Israel (3). Studies the historical setting, teachings, significance, and later interpretations of Christianity’s founder and its foremost interpreter. [1]

REL 4193 Holocaust Memorials (3). Examines the contemporary religious, moral, and cultural impact of the Holocaust through the analysis of selected memorial forms: memoirs, theology, fiction, cinema, monuments, museums, and the arts. [1]

REL 4198 Religious Fundamentalism: A Viewpoint for National Security (3). Survey the evolution of Fundamentalism from its inception to our time as it began to encompass a wider umbrella of global organizations with a focus on the three Abrahamic traditions. [1]

REL 4205 Current Methods in Sacred Texts (3). This course introduces sacred texts and the methods and tools of their study, including translations, historical studies, hermeneutics, and the use of secondary resources. Prerequisite: Religious Studies major status or permission of the instructor. [1,2,3]

REL 4224 The Prophets and Israel (3). Examines the setting of the prophets in the history of Israel, their contributions to biblical religion, and their use in later religious and renewal movements. [1]

REL 4251 Jesus and Paul (3). Examines the historical settings, teachings, significance, and later interpretations of Christianity’s founder and its foremost interpreter. [1]

REL 4311 Religious Classics of Asia (3). Classical religious texts of Asian traditions. Content may vary. Course may be repeated with change in content. [2]

REL 4312 Jews of Asia (3). Surveys the history, culture, and literature of the Jews of Asia, with emphasis on the Cochin Jews, the Bene Israel of Bombay and environs, the ‘Baghdadis’ of Indian port cities, and the Chinese Jews of Kaifeng. [1,2]

REL 4335 Modern Hinduisms (3). Precursors to modern Hinduisms from ancient and classical sources; Bengali renaissance; Hinduism and politics from Gandhi to Vishwa Hindu Parishad; meditation; utopianism; gender; syncretisms. [2]

REL 4345 Zen Buddhism (3). This course explores Zen (Ch’an) Buddhism in its historical, theoretical, and practical dimensions with a specific aim of examining the theme that the Buddha mind can be actualized by awakening to one’s own Buddha-nature. [2]

REL 4351 Religion and Japanese Culture (3). The impact of the traditional religions, Shinto and Buddhism, on the intellectual and cultural history of Japan, especially literature and art, from the ancient and classical through the modern periods. [2]

REL 4361 Women in Islam (3). Provides students with an understanding of the position of women in Islam through an examination of traditional and contemporary understandings of key religious texts. [1]
REL 4364 Interpreting the Quran: Gender and Jihad (3). Introduces students to the history, interpretation and translation of the Quran through a close examination of passages related to issues of gender and jihad. [1]

REL 4366 Voice of the Prophet (3). Familiarizes students with the position and history of prophetic traditions (Hadith) in Islam. [1]

REL 4370 African Religions (3). Critical analysis of the beliefs, myths, symbols, and rituals of traditional African religion, African Christianity, and African Islam, and exploration of their place and function in African societies. [3]

REL 4381 Native Religions of Latin America (3). Focuses on the relationship in Native Religions of L.A. between geography, environment and religious worldview and attitudes. Some attention to contemporary native issues and relations with states and other religions. [3]

REL 4382 Latin American Women and Religions in the Americas (3). Examines Latinas’ participation in the history of religions in the Americas in order to explain the impact of women’s religious experiences in cultural, social and political realms. [1]

REL 4420 Contemporary Religious Thought (3). A survey of major figures in contemporary theology for the purpose of understanding their thought and its application to current issues in religion and society. [1]

REL 4425 Contemporary Issues in Christian Theology (3). Examines contemporary efforts to reflect on traditional topics in Christian theology, such as God and human nature, and explores the role of theology in addressing selected social and cultural issues. [1]

REL 4441 Religion and the Contemporary World (3). An examination of reflection by religious thinkers and others who employ religious perspectives, concerning select conceptual issues of critical importance in the contemporary world. [1]

REL 4461 Topics in the Philosophy of Religion (3). Examines a specific topic in the philosophy of religion, such as faith and reason, religious experience, or an important thinker. It may be repeated with permission of the instructor. [4]

REL 4481 Contemporary Latin American Religious Thought (3). The major trends of religious thought in Latin America and their impact on the society of the area will be investigated. Special reference will be made to Post-Vatican II theology and to very recent theologies of liberation. [1]

REL 4610 Jews of Arab Lands in the Middle Ages (3). An examination of Jewish culture from the rise of Islam in the 7th century to the end of the Middle Ages. [1]

REL 4613 The Modernization of Judaism (3). Explores the ways in which religious beliefs and traditional concepts of Jewish self identity have changed as a result of emancipation and the participation of Jews in the modern Western world. [1]

REL 4623 Peace, War, and Kabbalah (3). Study the basic categories of Kabbalah as an esoteric doctrine and evaluate its unique approach to war and peace within the historical context of the Sephardic Jewish experience. [1]

REL 4626 Jewish Sephardic Thought (3). The main Sephardic and Oriental thinkers. Includes philosophers, mystics, and rabbincs. [1]

REL 4694 Kabbalah and Sexuality (3). Exploration of the theme of sexuality within the context of Kabbalistic texts. Study of the basic categories of Kabbalah as an esoteric doctrine of the Jewish faith. [1]

REL 4697 Sephardic Jewry Colloquium (3). Study with leading scholars of Sephardic and Oriental Jewry. This course will be taught in conjunction with the Sephardic annual lecture series highlighting new research on this Jewry. [1]

REL 4910 Independent Research (1-6). Topics will be selected to meet the academic needs of the individual student. Prerequisite: Permission of the instructor. [1,2,3,4]

REL 4912 Research Seminar in Religious Studies (3). Working on a variety of individual research projects, students explore research issues and methods. Research projects must be approved in advance. Course may be repeated. Prerequisite: Permission of the instructor. [1,2,3,4]

REL 4931 Religious Studies Seminar (3). This seminar is designed for majors and other qualified students approved by the Department. The specific topic will be selected and announced in advance. The number of participants will be limited. [1,2,3,4]

REL 4937 Special Topics (3). In-depth study of topics of special interest in religious studies. [1,2,3,4]

REL 4941 Internship Seminar (3). Students work 5 hours a week in religious institutions; complete individualized group readings; write on individual assignments; discuss group readings in context of group experiences. [1,2,3,4]

REL 4943 Independent Study on Sephardic Jewry (1-6). For advanced students who possess proven significant knowledge of the field of Sephardic and Oriental Jewry, to engage in a guided research on the topic of their choice within the field. Prerequisites: REL 4610, REL 3695, SYD 4606. [1]

REL 4944 Internship in Sephardic Jewish Organization (1-3). Work and study with the leadership of and research one of the Sephardic and Oriental communities in Florida. Serves as a field study in which the classroom learning comes alive. Prerequisites: REL 4610, REL 3695, SYD 4606. [1]

REL 4949 Cooperative Education in Religion (3). A student majoring in Religious Studies may spend several semesters fully employed in industry, government, or other appropriate institutional setting in a capacity relating to the major. Permission of Cooperative Education and major department. [1,2,3,4]
REL 5018 Religion, Literature, and Critical Theory (3).
Examines intersections between world religions and contemporary literature in light of modern theories of interpretation. Themes explored include scriptural re-readings and spiritual journeys. Prerequisites: Graduate standing or permission of the instructor.

REL 5023 Religious Ritual (3).
Examines the critical relationship of ritual, religious practice and belief, and culture, while introducing the principles and methods of ritual studies. Prerequisites: Graduate standing or permission of the instructor.

REL 5025 Myth and Religion (3).
Investigates the role, function, and meaning of myth in religious experience and practice through an examination of specific myths, mythic patterns, and critical theories. Prerequisites: Graduate standing or permission of the instructor.

REL 5038 Advanced Fieldwork in Religious Studies (3).
Techniques of ethnography used in Religious Studies beginning with research design and including participant observation, interviews, surveys.

REL 5106 Religions, Latino/as and Immigration (3).
The course will analyze the relationships between the complex phenomenon of Latinos/as immigration and religions. This area of study necessarily demands an interdisciplinary approach including gender.

REL 5122 African-American Religion (3).
Survey of development of African-American Religions with emphasis on North American experience during slavery, Jim Crow and contemporary eras. Prerequisites: Graduate standing or permission of the instructor.

REL 5125 Religion and Public Life (3).
Examines the relationship of religion and government in the United States, with focus on the First Amendment and issues of separation of church and state. Prerequisite: Graduate standing or permission of the instructor.

REL 5137 North American Religion (3).
Historical examination of religious groups and influences in North America, focusing on their contributions and cultural impact. Prerequisites: Graduate standing or permission of the instructor.

REL 5138 Sects, Cults, and New Religions (3).
Explores and critically analyzes the multiplicity of new American religious movements and the unique combination of factors that has encouraged them. Prerequisites: Graduate standing or permission of the instructor.

REL 5143 Latinas and Religion in the Americas (3).
This course will review the practices, beliefs, social and political activism, and theological and biblical reflections of Latinas in the Americas from a historical perspective to modern day.

REL 5144 Women and Religion (3).
Examines the influence of religion on social construction of gender and the definition of woman’s nature and role, with a focus on Western developments. Prerequisites: Graduate standing or permission of the instructor.

REL 5149 Religion, Violence, and Conflict (3).
Is religion peaceful or violent? Theoretical analysis of the role of religion in violent, social and political conflicts, such as the Crusades, the Arab-Israeli conflict, and the Haitian Revolution. Prerequisites: Graduate standing or permission of the instructor.

REL 5165 Science and Religion (3).
Surveys the interaction between science and religion from conflict models to integration; special attention to specific natural sciences including cosmology and biology. Prerequisites: Graduate standing or permission of the instructor.

REL 5182 Religions and Ethics (3).
Investigation of methods, resources for ethics in world religions, and some examples of issues. Prerequisites: Graduate standing or permission of the instructor.

Traces various religions’ accommodation to and rejection of both new scientific research on sexuality and new economic and social trends. Prerequisites: Graduate standing or permission of the instructor.

REL 5184 Sexuality, Religion and Social Change (3).
Traces various religions’ accommodation to and rejection of both new scientific research on sexuality and new economic and social trends. Prerequisites: Graduate standing or permission of the instructor.

REL 5208 Studies of the Dead Sea Scrolls (3).
Overview of the Dead Sea Scrolls explores the new techniques being used in their study. Prerequisites: Graduate standing or permission of the instructor.

REL 5211 Bible I: The Hebrew Scriptures (3).
Extensive reading in the Hebrew Scriptures how the various texts of the Hebrew Scriptures came to be written, and how they can be interpreted - both within the context of faith communities and within the cultural contexts out of which the texts were written. Prerequisites: Graduate standing or permission of the instructor.

REL 5232 Hebrew Exegesis I (3).
Provides a comprehensive survey of the fundamentals of the language of the Hebrew Bible designed to equip the student for the task of exegesis. Prerequisites: Graduate standing or permission of the instructor.

REL 5233 Hebrew Exegesis II (3).
A continuation of Hebrew Exegesis I emphasizing the reading of select passages of the Hebrew Bible to develop skills in translation and interpretation. Prerequisites: REL 5232 and graduate standing.

REL 5242 New Testament and Qumran (3).
Detailed investigation of the possible contacts between the New Testament and Qumran in such areas as Biblical Exegesis, Apocalypticism, Eschatology, and Messianism. Prerequisite: Graduate standing.
REL 5244 Bible II: The New Testament (3). History, theology, and interpretation methods of the New Testament. Prerequisites: Graduate standing or permission of the instructor.

REL 5262 New Testament Greek Exegesis I (3). A detailed overview of the principles of Greek grammar that shows the student how to use Greek in the study of the New Testament. Prerequisite: Graduate standing.

REL 5263 New Testament Greek Exegesis II (3). Careful reading of selected passages of the New Testament and early Christian literature designed to develop skills in translation and interpretation. Prerequisites: REL 5262 and graduate standing.

REL 5331 Religions of India (3). Topics include: religion in prehistoric and ancient India, classical Hindu texts and schismatic movements, medieval theism, the acculturation of extrinsic religions, Hindu-Muslim-Sikh syncretism, and the modern period. Prerequisites: Graduate standing or permission of the instructor.

REL 5334 Studies in Diaspora Hinduisms (3). Research methods and theory in the study of Hinduisms in the Diaspora, with a special focus on Hindu institutions in Florida.

REL 5338 Classical Hinduism (3). A study of the textual and philosophic traditions of classical India, as well as theoretical and methodological issues pertinent to their study. Prerequisites: REL 3330 or REL 3333 or REL 5331.

REL 5346 Seminar on Buddhism (3). The central doctrines and rituals of the Buddhist tradition, including the views on causality, mindfulness, monasticism, salvation, purity, and ethics in the Theravada, Tantric, and Zen schools. Prerequisites: Graduate standing or permission of the instructor.

REL 5352 Religions of East Asia (3). The history, philosophy, and cultural impact of the major religious traditions of East Asia, including Confucianism, Taoism, Buddhism, Shinto, and syncretic folk religions. Prerequisites: Graduate standing or permission of the instructor.

REL 5360 Classical Arabic (3). Introduces the grammar and vocabulary of classical Arabic necessary for developing the ability to read classical texts.

REL 5365 Advanced Interpretation of the Quran: Gender and Jihad (3). History, interpretation and translation of the Quran through a close examination of passages related to issues of gender and jihad.

REL 5368 Voice of the Prophet (3). Familiarizes students with the position and history of prophetic traditions (Hadith) in Islam.

REL 5372 The Globalizing of African Spirituality (3). Intensive investigation of select forms of traditional spirituality in sub-Saharan Africa, including ritual, sacrifice, and spirit possession, and Africanized Christian and Islamic devotion. Prerequisites: Graduate standing or permission of the instructor.

REL 5384 Rasta, Vodou, Santeria (3). Critical, sociological and phenomenological analysis of the history, beliefs, rituals, and social significance of Rastafarianism, Vodou, and Santeria on the Caribbean and the United States. Prerequisites: Graduate standing or permission of the instructor.

REL 5385 Native American Religions (3). An advanced study of Native American religions and the methods employed to investigate them. Attention will be given to traditional and contemporary expressions. Prerequisites: Graduate standing or permission of the instructor.

REL 5386 Latinas’ Religious Experience (3). Focus on the diversity of religious experiences among women born and educated in Latin cultures such as: Brazil, Haiti and Hispanic American, including Hispanic in the U.S.

REL 5387 Native Religions of Latin America (3). Focuses on major culture areas, history of tribes, changes in religious practice through contact with Christianity.

REL 5394 Jewish Mystical Texts (3). A study of the major movements and figures in the development of Jewish mysticism through its significant texts, from biblical times up to the present. Prerequisites: Graduate standing or permission of the instructor.

REL 5397 Yoga Theory and Practicum (3). An in-depth graduate seminar addressing theory and practice of the eight limbs of yoga. Includes critical analysis of Patanjali’s text, the Yoga Sutras.

REL 5435 Feminist Theory and Religion (3). Surveys the development of feminist work in religion based in general feminist theory; includes work in major world religions. Prerequisite: Graduate status.

REL 5462 Religion and Philosophy (3). Examines the use of philosophical reasoning to justify religious belief or its rejection. Such topics as natural theology, atheism and fideism will be examined. Prerequisites: Graduate standing or permission of the instructor.

REL 5488 Theology and Liberation Movements (3). Comparison of Latin American, feminist, and African American theologies of liberation, including methods, social analysis, social location, interlocutor, ecclesiology, theology, eschatology and use of scripture. Prerequisites: Graduate standing or permission of the instructor.

REL 5495 Inter-religious Dialogue (3). The intellectual basis, the classical formulations, and the contemporary practice of interreligious dialogue in a variety of cultural settings. Prerequisites: Graduate standing or permission of the instructor.

REL 5501 History of Christianity I (3). Christianity from its origins to the Middle Ages. Doctrinal and organizational development of the church and characteristic aspects of its spiritual life. Prerequisites: Graduate standing or permission of the instructor.

REL 5502 Saints, Witches and Missionaries (3). Survey of movements, reforms, divisions, and major ideas within institutional Christianity, 1400 to the present. Prerequisites: Graduate standing or permission of the instructor.
REL 5515 History of Early Christianity (3). Origin and growth of Christianity from the first to the fifth century, and the adaptation of its message to the Greco-Roman world. Prerequisites: Graduate standing or permission of the instructor.

REL 5565 Modern Catholicism (3). Theology and liturgical practice in the Roman Catholic Church from Trent (16th C) to the present, with primary and secondary sources. Prerequisites: Graduate standing or permission of the instructor.

REL 5605 Studies in Judaism (3). Historical overview of Jewish belief and practice, with special consideration of Jewish ritual life. Prerequisites: Graduate standing or permission of the instructor.

REL 5606 Rabbinic Judaism (3). The theology and ideologies of the 1700-year period in the history of Judaism known as Rabbinic Judaism. Prerequisites: Graduate standing or permission of the instructor.

REL 5614 Ancient Judaism (3). The history, literature and characteristic institutions of Judaism from the Persian period to Amorica times. Attention given to developments in the land of Israel and the diaspora. Prerequisites: Graduate standing or permission of the instructor.

REL 5615 Medieval Judaism (3). The works of major thinkers in Medieval Judaism, including Maimonides, Nahmanides, Halevi, Luzatto, and such topics as Jewish mysticism (Kabbalah) and Hasidism. Prerequisites: Graduate standing or permission of the instructor.

REL 5616 Religion, Culture and Politics in Israel (3). Exploration of the history of modern Israel. Discussion of issues, state and religion, ethnic and denominational tensions, democratic characters of the state and the Israeli-Palestinian conflict.

REL 5617 Jews and Muslims in the Middle Ages (3). Study of Jewish culture from the rise of Islam in the 7th century -- usually considered the start of Jewish Medieval Era -- to the end of the Middle Ages.

REL 5618 Modern Judaism (3). Explores the ways in which religious beliefs and traditional concepts of Jewish self identity have changed as a result of emancipation and the participation of Jews in the modern Western world. Prerequisites: Graduate standing or permission of the instructor.

REL 5619 Holocaust Representations: Religion and Remembrance (3). Examines the symbolic and cultural representations of the Holocaust through its religious/theological discourse and its remembrance. Implications for Jewish life and thought are also explored. Prerequisites: Graduate standing or permission of the instructor.

REL 5620 Kabbalah and Gender (3). Exploration of the theme of Gender within the context of Jewish mysticism. Analysis of central Kabbalistic texts pertaining to the issue of gender and sexuality.

REL 5628 Jewish Thought and Thinkers (3). The principal of Sephardic and oriental thinkers since the Middle Ages; includes philosophers, rabbinitics.

REL 5629 Kabbalah, Peace and War (3). Study of the basic categories of Kabbalah as an esoteric doctrine and evaluate its unique approach to peace and war within the historical context of the Jewish mystical experience.

REL 5698 Sephardic and Oriental Jewry Colloquium (3). In depth examination of important issues in the study of Sephardic and Oriental Jewry.

REL 5907 Independent Study in Sephardic and Oriental Jewry (1-6). For advanced students who possess proven significant knowledge of the field of Sephardic and Oriental Jewry, to engage in a guided research on the topic of their choice within the field. Prerequisites: REL 4610, REL 5617, REL 3695, SYD 4606.

REL 5911 Independent Research (1-5). Topics are selected to meet the academic needs of the individual student. Prerequisites: Permission of the instructor is required.

REL 5934 Graduate Pedagogy (1-3). Advanced work in Religious Studies pedagogy, including classroom teaching, assignment development and grading, and seminar discussion of pedagogical issues.

REL 5937 Special Topics (3). Topics will be selected to meet the academic needs of groups of students.

REL 5945 Internship in Sephardic and Oriental Jewry (1-3). Work and study with the leadership of and research one of the Sephardic and Oriental communities in Florida. This serves as field study in which the classroom learning comes alive. Prerequisites: REL 4610, REL 5617, REL 3695, SYD 4606.

SRK 2100 Sanskrit I – Basic Sanskrit (3). Basic Sanskrit skills including Devanagiri alphabet; fundamentals of oral communication; grammar; use of dictionary; history of Sanskrit languages and literature. [2]

SRK 2101 Sanskrit II – Parinian Sanskrit (3). Basic elementary Sanskrit alphabet and phonetics, grammar and syntax, formation and understanding of simple sentences common Sanskrit terms used in Hindu literature relationship to other languages. Prerequisite: SRK 2100. [2]

SRK 3202 Sanskrit III – Epic Sanskrit (3). Reading and literary analysis of representative Sanskrit epic literature. The Bhagavad Gita will be the focus of attention. Prerequisite: SRK 2101. [2]

SRK 3203 Sanskrit IV – Sanskrit Composition (3). Advanced aspects of poetic structures and literary styles of Sanskrit literature. Foci will be the Panchatantra and the works of Kalidasa. Prerequisite: SRK 3202. [2]

Bachelor of Arts in Women's Studies

This major provides an opportunity to study how women's lives have been shaped by historical, political, economic, literary, social, and cultural contexts, and the meaning of gender difference in diverse societies and cultures. The courses are coordinated by the Women's Studies Center, and are open to women and men alike. This field of studyexplores sex-based bias throughout society- in the workplace, in school, and at home. Equal importance is given to the intersection of gender identities with nationality, race, ethnicity, class, age, and sexual orientation. Students may formulate a program of study consonant with their interests and goals. The major is an excellent preparation for graduate study in most fields and for careers in both the public and private sectors. A background in women's studies develops critical thinking skills and offers knowledge relevant to understanding the contemporary world.
For further information and/or to seek academic advising for the women's studies major, visit the Women's Studies Center in DM-212 or call (305) 348-2408 or send email to: wstudies@fiu.edu. We welcome your inquiry.

**Lower Division Preparation**

To qualify for admission to the program, FIU undergraduates must have met all the lower division requirements including CLAS or its equivalent, completed 60 semester hours, and be otherwise acceptable into the program.

**Common Prerequisite Courses and Equivalencies**

<table>

¹All Florida College System students are encouraged to complete the Associate in Arts degree.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: [http://facts.org](http://facts.org), See Common Prerequisite Manual.

**Upper Division Program**

The major requires 30 hours of upper division coursework. Students who elect to major in women's studies are strongly encouraged to declare a minor in another area of concentration or a double major. The major requires a core concentration of four courses and six electives for a total of 10 courses. Any core concentration course that is not taken for the core requirement may be taken as an elective. Refer to full course descriptions below or in the program sections of this catalog related to the course prefix.

All students must take one course in the major that develops computer competency and one that develops oral competency. Courses that fulfill these requirements will be noted in each semester's Women's Studies course flyer. These courses will constitute part of the 30-credit requirement, and they may be core courses or electives.

Genre and topic courses are offered regularly and new courses are periodically added to the curriculum. The elective selection may include one course on ethnicity, class, sexuality, or race that is not specifically a women's studies course. Student programs are coordinated with designated faculty advisors. The program also offers an academic certificate in women's studies. For further information refer to the certificate page at the end of the College of Arts and Sciences section.

**Upper Division Requirements**

Core Concentration: (Four courses; twelve hours/one course from each of the following four categories)

**Course Descriptions**

**Definition of Prefixes**

WST – Women’s Studies

WST 3015 Introduction to Women’s Studies (3).
Considers the interdisciplinary study of women in today’s world. Focuses on women through the life course and examines the debates on women’s studies in the university.
WST 3105 Gender Issues Across the Globe – GL (3).
Exploration of issues of women and gender globally. Focus on experiences and inequalities related to gender, as well as efforts to combat inequalities.

WST 3641 Gay and Lesbian Across Societies (3).
Introduction to gay and lesbian life in the United States and abroad, focusing on historical antecedents to the contemporary gay and lesbian movement, religion, health issues, lifestyle, and the arts.

WST 4252 Border Crossing: Race and Gender in Historical and Transnational Perspective (3).
Examines the transnational, interrelated history of race and gender from the 16th century to the present.

WST 4272 History of Women and Gender in the Modern Middle East (3).
Examination questions of feminism in the modern Middle East in relation to religion, law, colonialism, modernity, nationalism, and citizenship.

WST 4504 Feminist Theory (3).
This course explores how women are viewed theoretically across the social sciences and humanities. Topics such as multiculturalism, cross-nationalism and post-modernism are addressed.

WST 4614 Gender and Sport in American Society (3).
Focuses on sport and gender relations and examines gender issues in American sports and the role class, gender, race play.

WST 4642 Representation of Homo-eroticism in Arab Literature and Culture (3).
The representation of homo-eroticism within Arab literature and culture.

WST 4905 Independent Study (1-3).
Supervised readings course designed for advanced students who wish to pursue specialized topics in women’s studies. Arrangements must be made with faculty member during prior semester. Prerequisite: Permission of the instructor.

WST 4930 Special Topics (3).
Selected topics in Women’s Studies. Subject of course varies with instructor.

WST 4931 Women in Leadership (3).
Examines the foundation for theoretical leadership models and provides a forum for students to examine their own leadership style.

WST 4940 Women’s Studies Internship (1-3).
Supervised work experience in organization agency or business focused on women and/or girls. Prerequisites: One women’s studies course and permission of the director.

WST 5253 Border Crossing: Race and Gender in Historical and Transnational Perspective (3).
Examines the transnational, interrelated history of race and gender from the 16th century to the present.

WST 5507 Feminist Theory (3).
Theories, issues and major paradigms underlying feminist scholarship. Development of women’s studies as a discipline. Emphasis on multicultural approaches and perspectives. Prerequisites: One WST course or permission of the instructor.

WST 5905 Independent Study (1-6).
Supervised readings course designed for advanced and graduate students who wish to pursue specialized topics in women’s studies. Arrangements must be made with faculty member during prior semester. Prerequisite: Permission of the instructor.

WST 5935 Special Topics (3).
Selected topics in women's studies. Subject of course varies with instructor. Prerequisites: One women’s studies course or permission of the instructor.

WST 5936 Women in Leadership (3).
Examines the foundation for theoretical leadership models and provides a forum for students to examine their own leadership style.

WST 5946 Women’s Studies Internship (1-3).
Supervised work experience in organization, agency, or business focused on women and/or girls. Prerequisites: BA in women’s studies or other discipline and permission from the Women’s Studies director.
Certificate Programs

Certificates

Certificate Programs are structured combinations of courses with a common base of interest from one or more disciplines into an area of concentration.

Successful completion of a Certificate Program is entered on the student’s transcript and records. Two types of certificates are awarded:

Academic Certificate

Awarded by an academic unit to a student at the time of awarding a bachelor’s degree; or upon completion of the appropriate coursework to a student who already has a bachelor’s degree.

An academic certificate shall not be awarded to a student who does not possess either a bachelor’s degree or does not complete a bachelor’s degree program. An academic certificate, to the greatest extent possible, is to be interdisciplinary in nature.

Professional Certificate

Awarded by an academic unit to an individual who completes the appropriate coursework in the area of concentration. The professional certificate does not need to be interdisciplinary or associated with a degree program. For details and course requirements, refer to the appropriate certificate director or academic department.

Academic Certificates in:

- Actuarial Studies
- African and African Diaspora Studies
- Agroecology
- American Studies
- Ancient Mediterranean Civilization
- Asian Studies
- Asian Globalization and Latin America
- Biodiversity Conservation and Management
- Chinese Studies
- Coastal and Marine Affairs
- Comparative Immunology
- Cuban and Cuban-American Studies
- Environmental Studies
- Ethnic Studies
- European Studies
- Exile Studies
- Film Studies
- Forensic Science
- Gerontological Studies
- Japanese Studies
- Judaic Studies
- Labor Studies
- Languages and Cultures of North Africa
- Latin American and Caribbean Studies
- Law, Ethics and Society
- Linguistics Studies
- Middle East and Central Asian Studies
- National Security Studies
- Post-baccalaureate Undergraduate Premedical
- Pre-Modern Cultures
- Public Policy Studies
- South and Southeast Asia Area Studies
- Study of Sephardic and Oriental Jewry
- Study of Spirituality

Women’s Studies

Professional Certificates in:

- Legal Translation and Court Interpreting
- Portuguese Interpretation Studies
- Portuguese Language and Brazilian Culture Studies
- Portuguese Translation Studies
- Professional Language
- Professional Leadership Studies
- Translation Studies
- Urban Affairs

Certificate Program in Actuarial Studies

Coordinating Committee

Hassan Zahedi, Director, Statistics
Julian Edward, Mathematics
Steve Hudson, Mathematics

The Certificate in Actuarial Studies is designed to provide a focus for those students who are interested in pursuing a career in the actuarial sciences. The primary emphasis of the Certificate program is on the mathematical and statistical background that forms the foundation of the work in this area.

The program is most obviously suitable for those students who are majoring in Mathematics or Statistics. It would also be valuable for those who wish eventually to enter the actuarial field, but choose to major in an allied discipline, such as Business or Computer Science. In addition, it allows access to persons in the community who are currently working in this area and wish to develop or upgrade their skills.

Upon completion of the following requirements, a student may apply for the Certificate in Actuarial Studies. The Certificate will be awarded at the time of awarding a Bachelor’s degree, or upon completion of this work if the student already has a Bachelor’s degree.

Statistics and Mathematics Required Courses: (20)

- a) MAC 2311 Calculus I
- b) MAC 2312 Calculus II
- c) MAC 2313 Calculus III
- d) MAS 3105 Linear Algebra
- e) MAT 3930 Special Topics
- f) STA 4321 Mathematical Statistics I
- g) STA 3930 Special Topics

Four options from the following list: (12)

- a) STA 4322 Mathematical Statistics II
- b) MAD 3401 Numerical Analysis
- c) STA 4603 Mathematical Techniques of Operations
- d) STA 4234 Introduction to Regression Analysis
- e) ECO 2013 Principles of Macro-Economics
- f) ECO 2023 Principles of Micro-Economics
- g) ECO 4237 Money, Interest, and Capital
- h) ACG 2021 Accounting for Decisions
- i) ACG 3024 Accounting for Managers and Investors
An overall average of ‘B’ (3.0 GPA) or better in the 32 semester-hours of coursework listed above, with a grade of ‘C’ or better in each course. A minimum of 12 of these semester-hours must be earned in courses taken at the University.

Certificate in African and African Diaspora Studies

Faculty:

Jean Muteba Rahier, Associate Professor, Global and Sociocultural Studies and Director, African and African Diaspora Studies
Pascale Bécel, Associate Professor and Chair, Modern Languages
Steven R. Blevins, Assistant Professor, English
Jean-Robert Cadély, Associate Professor, Modern Languages and African and African Diaspora Studies
John Clark, Professor, Politics and International Relations
Alexandra Cornelius-Diallo, Assistant Professor, History and African and African Diaspora Studies
Caroline Faria, Assistant Professor, Global and Sociocultural Studies
Mohamed Farouk, Associate Professor, College of Education
Véronique Helenon, Assistant Professor, History and African and African Diaspora Studies
Tométro Hopkins, Associate Professor, English
Alexander Lichtenstein, Associate Professor, History and Director, African and African Diaspora Studies Graduate Programs
Andrea Mantell-Seidel, Associate Professor, Dance and Director of Academic Programs, Latin American and Caribbean Center
Assefa Melesse, Associate Professor, Earth and Environment
April Merleaux, Assistant Professor, History
Aurora Morcillo, Associate Professor, Women's Studies and History
Roderick Paul Neumann, Professor and Chairperson, Global and Sociocultural Studies
Ulrich Oslender, Assistant Professor, Global and Sociocultural Studies
Vrushali Patil, Assistant Professor, Global and Sociocultural Studies and Women's Studies
Valerie Patterson, Clinical Associate Professor, Public Administration
Joyce Peterson, Associate Professor, History
Andrea Queeley, Assistant Professor, African and African Diaspora Studies and Global and Sociocultural Studies
Heather Russell, Associate Professor, English
Vicky Silvera, Head, Special Collection, Library
Augusto Soledade, Assistant Professor, Dance
Linda Spears-Bunton, Associate Professor, College of Education
Dionne Stephens, Assistant Professor, Psychology and African and African Diaspora Studies
Alex Stepick III, Professor, Global and Sociocultural Studies
Juan Torres-Pou, Assistant Professor, Modern Languages
Chantalle Verna, Assistant Professor, History and Politics and International Relations
Donna Weir-Soley, Associate Professor, English
Kirsten Wood, Associate Professor, History
Albert Wuaku, Assistant Professor, Religious Studies

African and African Diaspora Studies (AADS) encompass the study and research of peoples of Sub-Saharan Africa and their experiences, and on communities of the African diaspora both in continental Africa and elsewhere in the Americas, Europe, Asia, and Australia. It also involves the dissemination of knowledge about continental African peoples and diasporic Africans internationally. Housed within the College of Arts and Sciences, the African and African Diaspora Studies Certificate provides students with an interdisciplinary approach to the study of the global, economic, cultural, and historical experiences of people of African descent. The Certificate complements students’ work in their major fields of study at the undergraduate level while fostering greater understanding of traditionally marginalized topics.

Thanks to the diversity of areas of research interests of the core and affiliate AADS faculty, students may choose courses that will allow them to focus more specifically on either U.S. born African Americans, Continental Africans, or communities of the African diaspora internationally. Students might also choose courses that will bring them to learn about all three or any other combination of these areas.

The Certificate places a strong emphasis on African and African diasporic cultural expressions in all their regional, temporal, and socioeconomic diversities. It offers coordinated insights into the ongoing challenges black communities face locally and internationally. It also focuses on the ways in which continental African and African diasporic communities and individuals have developed political and creative strategies for survival in the midst of, and resistance to, racism and political, economic, and social oppression.

General Requirements (15)

Students complete 15 credit hours of study from disciplines as diverse as geography, history, international relations, journalism, sociology, anthropology, literature, music and political science. The core requirement is AFA 2004 Black Popular Cultures, Global Dimensions. This required course should be taken at the start of the Certificate Program. The other 12 credits must come from each of two lists, one comprising the Arts and Humanities, and the other the Social Sciences. The program director may approve other courses upon request. Students requesting an exception must present a syllabus for the course they would like to enroll in. Not all courses are offered every semester.

Required Core Courses: (3)

AFA 2004 Black Popular Cultures, Global Dimensions
Arts and Humanities Courses: (3-9 credits)

AFA 3153 African Civilization, Religion and Philosophy
AFA 4104 Teaching the African American Experience
AFA 4930 African and African Diaspora Studies Theory
AFA 4931 Special Topics in African and African Diaspora Studies
AFA 4933 Special Topics in Black Experience
AFA 4301 African Visual Arts
AFA 4372 Hip Hop Race, Gender & Sex
AFA 4351 Hip Hop Entrepreneurship
AFA 4370 Global Hip Hop
AFA 4340 Health in African World
AFA 4905 African and African Diaspora Studies Independent Study
AFH 4100 History of Africa I
AFH 4200 History of Africa II
AFH 4342 History of West Africa
AFH 4405 History of East Africa
AFH 4450 History of South Africa
AFS 4200 African Drum I
AFS 4201 African Drum II
AMH 4570 African American History
AMH 4571 African American History from the 17th to the late 19th Centuries
AMH 4573 African-American History from the late 19th Century to the Present
AML 2602 African American Literature
AML 4606 Studies in 19th Century African-American Literature
AML 4607 Studies in 20th Century African-American Literature
AML 4624 African American Women Writers
AML 4621 Major African American Writers
DAA 3345 Caribbean Dance
DAA 3346 Haitian Dance
DAA 3347 West African Dance
DAN 4396 Dance Ethnology
FRW 4750 Francophone Literature of Africa
FRW 4751 Francophone Literature in the Caribbean
HAI 3500 Hait: Language and Culture
HAI 3213 Accelerated Haitian Creole
HAI 3214 Accelerated Intermediate Haitian Creole
HAI 3370 Haiti: Study Abroad
HIS 4454 The History of Racial Theory in Europe and the United States
LIN 2612 Black English
LIN 4612 Black English
LIT 4351 Major African Writers
PHI 3073 African Philosophy
REL 3139 African American Religious Movements
REL 4370 African Religions
SPT 4400 African Presence in Latin American Literature
WOH 4230 The African Diaspora and the Atlantic Slave Trade
WOH 4301 The Modern African Diaspora

Social Sciences Courses: (3-9 Credits)

ANT 4352 African Peoples and Cultures
ANT 4396 Representations of Africa and Africans in Films

Agroecology Certificate Program

Mahadev Bhat, Chair, Earth and Environment
Krish Jayachandran, Earth and Environment
Assefa Melesse, Earth and Environment
Suzanne Koptur, Biological Sciences
Gail Hollander, Politics and International Relations

This interdisciplinary program is aimed at providing students with an opportunity to learn problems and issues that emerge from the interface between agriculture, natural ecosystems and urban areas. Students will gain an appreciation of how traditional agricultural production systems will influence the quality of natural ecosystems and human environment, and also what ecological and developmental pressure that agriculture comes under from the human system. The program will emphasize natural and economic services that are provided by large agricultural areas interspersed between urban and natural areas. Students will learn structural changes that are necessary within agriculture in order to make it ecologically sustainable and community supported. The program includes farm- and field-level experiential learning through internships, field demonstrations and minor experiments. This is a collaborative effort between Florida International University, US Department of Agriculture (USDA), Archbold Biological Station’s MacArthur Agro-Ecology Research Center (MAERC) and Miami Dade College (MDC).

Requirements

Prescribed Courses and Other Requirements:
The Agroecology Certificate Program requires successful completion of the following four categories of course work, with a total of 17-18 credit hours:
1. Introductory ecology requirement: Take any one of the following:
   - PCB 3043+L Ecology plus Lab 4
   - EVR 3013+L Ecology of South Florida 4
   - Other ecology equivalent with a lab 4

2. Agroecology core requirement:
   - EVR 4274 Sustainable Agriculture 3
   - EVR 4272 Agroecology 3

3. Agricultural internship or problem analysis: Take any one of the following:
   - EVR 4XXX Environmental GIS 3
   - BSC 4914 Student Research Lab 2
   - BSC 4914 Student Research Lab 2
   - BSC 3949 Cooperative Education in Biology 2
   - BSC 4915L Honors Research 2
As part of the above courses, student must complete a farm-, field-or lab-based internship that may involve working on farms, carrying out agro-ecological field observations, carrying out agricultural science lab experiments, conducting geo-spatial modeling, or conducting agriculture-related socio-economic analysis. Student will produce a report based on the internship experience. Students also will have the option of doing internship or conducting agroecology science experiments at USDA’s Agricultural Research Service, Miami and MAERC.

4. General agricultural/environmental science and social studies electives:
   Take any two
   - EVR 4592 Soils and Ecosystems 3
   - EVR 3010 Introduction to Environmental Science: Energy Flows 3
   - EVR 3013 Ecology of South Florida 3
   - EVR 4XXX Environmental GIS 3
   - EVR 4869L Environmental Problem Solving 2
   - EVR 4026 Biotic Resources 3
   - EVR 4211 Water Resources 3
   - EVR 4310 Energy Resources 3
   - EVR 4321 Sustainable Resource Development 3
   - EVR 4323 Restoration Ecology 3
   - EVR 4401 Conservation Biology 3
   - EVR 4352 U.S. Environmental Policy 3
   - EVR 4415 Population and Environment 3
   - ECP 3302 Environmental Economics 3
   - ECP 4314 Natural Resource Economics 3
   - GEO 3510 Earth Resources 3
   - GEO 4476 Political Ecology 3
   - GEO 4354 Geography/Global Food System 3
   - GLY 3039 Environmental Geology 3
   - ENY 1004 General Entomology 3
   - ENY 4060 Advanced Entomology 3
   - MCB 3020 General Microbiology 3
   - MCB 3020L General Microbiology Lab 2
   - MCB 4603 Microbial Ecology 3
   - MCB 4653 Food Microbiology 3
   - PCB 2061 Introductory Genetics 3
   - PCB 4301 Freshwater Ecology 3
   - MCB 2000 Introductory Microbiology 3
   - BOT 3014 Plant Life Histories 3
   - BOT 3154 Local Flora 3
   - BOT 3663 Tropical Botany 3
   - BOT 3810 Economic Botany 3
   - BOT 4503 Plant Physiology 3
   - BSC 4422 Biotechnology: Applications in Industry, Agriculture and Medicines 3
   - INR 3043 Population and Society 3
   - INR 4054 World Resources, World Order 3
   - INR 4350 International Environmental Politics 3

The Certificate Committee will consider other courses toward the elective requirement on a case-by-case basis. Up to two courses taken at Miami Dade College or other colleges in the relevant areas of agricultural sciences, horticulture, ecology, and environmental sciences will count toward the ecology course requirement and general agricultural/environmental science elective requirement.

---

**American Studies Certificate Program**

**Richard Olson, Director, Politics and International Relations**

**Coordinating Committee**

Gisela Casines, English
Carol Damian, Art History
Kevin Hill, Politics and International Relations
Darden Pyron, History

The American Studies Certificate Program provides the opportunity for students to examine the nature of American civilization through an interdisciplinary study of American history, literature, culture, and thought. The program provides a grounding in American literature and American history, a sampling of how each discipline approaches the study of American civilization, and an opportunity to follow the approaches of political science, anthropology, philosophy, and religion. Through a seminar in American studies, students will apply the insights of the various disciplines to problems of their own choosing.

The Certificate in American Studies is awarded with a bachelor’s degree, or upon completion of Certificate requirements, to a student who already possesses that degree.

**Requirements**

**General Requirements**

A total of seven courses chosen among the prescribed certification courses with a grade of ‘C’ or higher.

**Specific Requirements**

- AML 2010 Survey of American Literature I 3
- AML 2020 Survey of American Literature II 3

**Two consecutive semesters chosen from the following:**

- AMH 3012 American History 1600-1763 3
- AMH 2010 American History, 1607-1850 3
- AMH 2020 American History, 1850 to the Present 3

**Two electives chosen from the following:**

- ANT 3409 Anthropology of Contemporary Society 3
- PHH 3700 American Philosophy 3
- POT 3204 American Political Thought 3
- REL 3100 Religion and Culture 3

An appropriate American Literature course.
An appropriate American History course.

---

**Ancient Mediterranean Civilization Certificate Program**

**Marian Demos, Director, MOL/Humanities**

**Coordinating Committee**

Gwyn Davies, History
Marian Demos, Humanities
Erik Larson, Religious Studies
Darden Pyron, History
Paul Warren, Philosophy
The Ancient Mediterranean Civilization Certificate Program is an eighteen credit-hour course of study intended to enable students to gain an interdisciplinary concentration in various aspects of the Ancient Mediterranean. It is designed to enhance undergraduates' understanding of the ancient Mediterranean region, primarily (but not exclusively), the cultures of Rome, Greece, and Judaea, and to complement the student’s major course of study, especially in Anthropology, English, History, Humanities, Philosophy, Religious Studies, and Visual Arts.

Courses are to be chosen from the following list in consultation with the approval of an advisor. A grade of C or better is required for all courses (C- is not acceptable). This listing should be understood as a partial list. Students should consult with an advisor of the certificate program about current course offerings.

**Requirements**

1. All students are required to demonstrate ability in at least one Classical Language (Classical or New Testament Greek, Latin, Biblical Hebrew or other ancient language with Director's approve.)

**Testament Greek**

GRE 1130 Classical Greek I 5
GRE 1131 Classical Greek II 5

**New Testament Greek**

GRE 3041 New Testament Greek II 3
GRE 3050 New Testament Greek I 3

**Biblical Hebrew**

HBR 3100 Biblical Hebrew I 3
HBR 3101 Biblical Hebrew II 3

**Latin**

LAT 1130 Latin I 5
LAT 1131 Latin II 5

2. At least 18 semester hours from the following certificate program course listing, or others approved by the certificate program advisor. Students must take one Foundation course, one course from each of three fields (Culture, History, and Religion) and two courses from any field. A maximum of 5 credits may be applied towards the certificate from language classes (see section.

**Foundation Classes**

HUM 3214 Ancient Classical Culture & Civilization
or
EUH 2011 Western Civilization: Early European Civilization

**Culture**

HUM 3432 The Roman World
HUM 4431 The Greek World
PHH 3100 Ancient Philosophy
POT 3013 Ancient and Medieval Political Thought
ARH 3210 Early Christian and Byzantine Art
ARH 4131 Greek Art
ARH 4151 Roman Art

**History**

EUH 3400 Greek History
EUH 3411 Ancient Rome
EUH 4300 Byzantine History

EUH 4401 History of Fifth Century Greece
EUH 4408 Age of Alexander the Great

**Religion**

REL 3209 The Dead Sea Scrolls
REL 3220 Moses, Priests and Prophets

**Asian Studies Certificate Program**

Steven Heine, *Director, Asian Studies*

**Coordinating Committee**

Pascale Becel, *Modern Languages*
Nathan Katz, *Religious Studies*
Naoko Komura, *Modern Languages*
Paul Kowert, *Politics and International Relations*
Li Ma, *Modern Languages*
Matthew Marr, *Global and Sociocultural Studies*
Asuka Mashav, *Modern Languages*
Eric Messersmith, *Asian Studies*

The certificate in Asian studies provides students with a rich learning experience about a fascinating and increasingly important region of the world, and is intended to enhance the student’s competitiveness upon graduation. The program provides a multidisciplinary approach covering the philosophy, religion, art history, language and literature of Asia as well as issues in history, politics, geography, sociology/anthropology, and international relations.

Asian Studies offers courses in humanities/fine arts and social sciences/professions that cover the regions of East, South, and Central Asia, as well as pan-regional or comparative studies.

**Requirements**

The Asian Studies certificate requires a total of eighteen credits and includes the following:

a) Two semesters or equivalent of an Asian language (e.g. Chinese or Japanese); six credits of language courses may be applied to the certificate.
The Asian Globalization and Latin America Certificate is an eighteen credit course of study designed to offer both pre and post-baccalaureate students as well as degree-seeking students specializing in various disciplines with regards to the Globalization of Asia and Latin America.

The certificate focuses on the language and culture of both Asia and Latin America (specifically Chinese, Japanese, Portuguese and Spanish), while allowing the student to specialize in such fields as Anthropology, Business, Dance, Fine Arts, History, International Relations, Music, Philosophy, and Religion as related to the regions. Students may apply towards the certificate up to 6 credits of language instruction from language courses taken at FIU or from study abroad (see advisors).

For all students, the certificate represents a way to gain specialized knowledge of integrative, transregional issues in relation to Asia and Latin America. For students pursuing a degree, the certificate should be understood as a complement to the student’s major area of study. Non-degree seeking students can use the certificate as a demonstration of their understanding of the regions and their global phenomena through language, culture and other areas.

### Prescribed Courses and Other Requirements

Students are required to take 18 credits. Courses are to be chosen from the following list in consultation with and approval of the advisor. A grade of 'C' or better is required for all courses. These courses represent a partial list; students should consult with an advisor for the certificate program about current course offerings and a full list of courses accepted for the certificate.

### Humanities/Fine Arts (at least 3 credits)

### Study Abroad

Students are encouraged to earn credits through a study abroad (summer travel) or student exchange (one or two semesters travel) program with a university in Asia. Several programs are offered. Students may earn three to six credits for study abroad and up to fifteen credits for student exchange. Please inquire with the Director or with the Office of Education Abroad about international programs.

For more information, contact the Asian Studies office, SIPA 505. Email: asian@fiu.edu; phone: (305) 348-1914; website: [http://asian.fiu.edu](http://asian.fiu.edu).
an advisor for the certificate program about current course offerings and a full list of courses accepted for the certificate.

1. Language (6 credits)
All students are required to demonstrate proficiency (two semesters) in one language group and familiarity (one semester) in the other. Students already demonstrating proficiency in an Asian or Latin American language may be exempt from this requirement. This requirement may be satisfied through examination (see advisors), course work, or by completing one of the following sequences:

Group A: Chinese & Japanese:
CHI 3132 Chinese I 5
CHI 3133 Chinese II 5
CHI 3202 Intermediate Chinese 3
JPN 1130 Japanese I 5
JPN 1131 Japanese II 5
JPN 2200 Intermediate Japanese 3

Group B: Portuguese & Spanish:
POR 1130 Portuguese I 5
POR 1131 Portuguese II 5
POR 2200 Intermediate Portuguese 3
or
POR 3202 Accelerated Portuguese I 5
POR 3233 Accelerated Portuguese II 5
SPN 1130 Spanish I 5
SPN 1131 Spanish II 5
SPN 2200 Intermediate Spanish 3

2. Area Studies (12 credits)
Courses are to be chosen from the following certificate program course listing, or others approved by the certificate program advisor. Students must take courses distributed across three regional areas: A) Asian Studies; B) Latin America Studies; and C) Global Studies.

Area A: Asian Studies Courses (6 credits)
A minimum of 6 credit-hours must be taken from this list. The following core courses fulfill certificate requirements. These courses represent a partial list; students should consult with an advisor for the certificate program about current course offerings and a full list of courses accepted for the certificate. A maximum of two tutorial or Independent Study courses may be taken only with professors whose area of research is Asian Studies, and only with approval from the advisor.

The Certificate in Asian Globalization and Latin America requires study in three different regional areas. These fields represent courses in Language & Literature, Philosophy & Religion, Sociology & Anthropology and Environmental Studies, History, Political Science and International Relations & Geography, Economics & Finance, and Fine Arts. All courses acceptable towards the certificate deal with some aspect of Asia, Latin America, and/or transregional issues. The combination of courses allows for the student to gain broad-based, multidisciplinary expertise within a specialization on Asian globalization and Latin America.

Biodiversity Conservation and Management Certificate Program

Joel Heinen, Director, Earth and Environment

The Undergraduate Certificate in Biodiversity Conservation and Management draws on areas of strength within the Department of Earth and Environment and the Department of Biological Sciences (College of Arts and Sciences) to provide students with specialized knowledge about managing and conserving the earth’s biological resources. It is designed for students who seek careers in agencies that manage and conserve biological resources, for people in the private sector who seek specialized knowledge in this area, for educators seeking advanced training, or for others interested in the topic. The certificate is managed by the Department of Earth and Environment and the Biodiversity and Conservation Certificate Committee.

Admission Requirements
Students must be enrolled in, or have an earned bachelor’s degree with a minimum of 2.00. Students should have completed a minimum of 2 courses in general biology and one course in ecology as a prerequisite to the program.
Program Requirements
Students are required to take 18 credit hours of course work outlined below. Other related courses may be approved subject to consideration by the program director and committee on a case by case basis.

1. Foundational
   EVR 4401 Conservation Biology 3

2. Biological Conservation Sciences 9 credits total
   Take three courses from this list:
   BOT 4401 Plant Conservation Biology 3
   EVR 4323 Restoration Ecology 3
   EVR 4272 Agroecology 3
   OCB 4070 Coastal Marine Conservation 3
   EVR 4xxx Invasive Species Ecology and Management 3
   EVR 4592 Soils and Ecosystems 3
   PCB 4452 Introduction to Wetland Ecology and Management 3

3. Integrated Biological Resources Management 6 credits total
   Take two courses from this list:
   EVR 4274 Sustainable Agriculture 3
   EVR 4026 Ecology of Biotic Resources 3
   EVR 4411 Human Organizations and Ecosystem Management 3
   PCB 4467 Marine Protected Areas 1-4
   BOT 3810 Economic Botany 3

Chinese Studies Certificate Program
Steven Heine, Director, Asian Studies

Coordinating Committee
Thomas Breslin, Politics and International Relations
David Chang, Art Education
Li Ma, Assistant Director, Chinese Cultural Programs
Julie Zeng, Politics and International Relations

This certificate program offers an 18-credit sequence of courses and is intended to provide students with a rich learning experience about a fascinating and increasingly important region of the world, and is intended to enhance the student’s competitiveness upon graduation. The program focuses on language studies requiring two years of Chinese and provides a multidisciplinary approach covering the philosophy, religion, art history, and literature of China as well as issues in history, politics, geography, sociology/anthropology, and international relations.

Requirements
Language Requirement: (up to 12 credits)
Students are required to obtain two years or equivalent of Chinese language.

Elective Courses: (6 credits)
All students are to choose from the courses listed below with the approval of the Director with a “C” or better. Students may select ASN 4911 for 1-6 credits of Independent Study. These courses represent a partial list; students should consult with an advisor for the certificate program about current course offerings and a full list of courses accepted for the certificate.

Humanities/Fine Arts
AML 4930 American Writers and the Orient
ARH 4552 Art of China and Japan
ASN 4510 Dynamics of Asia

INR 4232 International Relations of China
MAN 4600 International Management
SYD 3650 Gender and Power in Asia
SYD 4610 Sociology of Asia

In addition to the courses listed here, relevant special topics, study abroad credits, area studies or comparative studies courses may also be applied. Students are encouraged to earn credits through study abroad in China or through internships.

For more information, contact the Asian Studies office, SIPA 505. Email: asian@fiu.edu; phone: (305) 348-1914; website: http://asian.fiu.edu.

Coastal and Marine Affairs Certificate Program
Peter Craumer, Director, Global and Sociocultural Studies

Coordinating Committee
John Berry, Chemistry and Biochemistry
Hugh Gladwin, Global and Sociocultural Studies
Bruce Harvey, English
Michael Heithaus, Biological Sciences
Diann Newman, Hospitality Management
Juliet Pinto, Journalism

The purpose of the certificate in Coastal and Marine Affairs is to provide students with a broad multidisciplinary approach to the subject that includes courses not only from the sciences, but also the social sciences, humanities, arts, and the professional schools. In addition to the courses listed below, new courses are being added to support this theme as the Biscayne Bay Campus develops a new coastal environmental focus. Students should consult with the certificate director to
identify new courses which may also be used to satisfy these requirements.

**Course Requirements**

The certificate requires a total of 18 credit hours, from the following list:

**Core Science courses: (at least 3 credits)**
- OCB 2003 Introductory Marine Biology 3
- OCB 2003L Introductory Marine Biology Lab 1
- OCB 3043 Marine Biology and Oceanography 3
- OCB 3043L Marine Biology and Oceanography Lab 1
- OCE 2001 Introduction to Oceanography 3
- OCE 3014 Oceanography 3
- OCE 3014L Oceanography Lab 1
- OCP 3002 Physical Oceanography 3

**Core Policy and Law Courses: (at least 3 credits)**
- EVR 4356 Coastal and Marine Environmental Policy 3
- HFT 3692 Ocean and Coastal Law for the Hospitality Industry 3
- INR 4412 International Law of the Sea 3

**Other Primary Courses: (at least 3 credits)**
- ANT 4305 Coastal Cultures 3
- ART 3843 Land Art/Earth Art and Coastal Environment 3
- ENC 3363 Writing About the Environment 3
- LIT 4606 Literature of the Sea 3
- LIT 4444 The South Seas in Fiction, Film and Culture 3
- HFT 4708 Coastal and Marine Tourism 3
- OCB 3264 Biology of Coral Reefs 3
- OCB 4303 Biology of Marine Mammals 3
- OCB 4070 Coastal Marine Conservation 3

**Electives: (from 0 to 6 credits)**
- EVR 1001 Introduction to Environmental Sciences 3
- EVR 1001L Introduction to Environmental Sciences Lab 1
- EVR 1017 Global Environment and Society 3
- EVR 3013 Ecology of South Florida 3
- EVR 3013L Ecology of South Florida Lab 1
- GEA 2000 World Regional Geography 3
- GLY 1010 Introduction to Earth Science 3
- GLY 1010L Introduction to Earth Science Lab 1
- HFT 3701 Sustainable Tourism Practices 3
- HFT 3770 Cruise Line Operations and Management 3
- JOU 3314 Environmental Journalism 3
- PHI 3640 Environmental Ethics 3
- SOP 4712 Environmental Psychology 3

No more than 9 credits total in biology, chemistry, and earth sciences may be used to satisfy the certificate requirements.

Courses that are not on this list may be substituted with permission of the certificate director.

**Comparative Immunology Certificate Program**

**Charles H. Bigger, Director, Biological Sciences**

**Coordinating Committee**
- Sylvia Smith, Biological Sciences

This academic certificate provides students with in-depth training in the interdisciplinary research field of Comparative Immunology. In general, Comparative Immunology is the study of the immune responses and defenses of animals other than humans. Research areas include studies in domesticated animal health, the use of animal models for human biomedical research, and the hunt for natural products of biomedical interest. Additionally, in recent years, there has been an increasing interest and concern raised about wild life (terrestrial and aquatic) health and diseases. This field also includes the integration of immunology, endocrinology, and neuroscience.

**Requirements**

**Prerequisite Courses**
- BSC 1010 General Biology I 3
- BSC 1010L General Biology Lab I 1
- BSC 1011 General Biology II 3
- BSC 1011L General Biology Lab II 1
- CHM 1045 General Chemistry I 3
- CHM 1045L General Chemistry Lab I 1
- CHM 1046 General Chemistry II 3
- CHM 1046L General Chemistry Lab II 1

Total credits required: 20 semester hours

**Required Courses**
- PCB 4233 Immunology 3
- PCB 4233L Immunology Lab 1
- PCB 5238 Marine Comparative Immunology Workshop 1
- PCB 6236 Comparative Immunology 3
- MLS 5515 Advanced Diagnostic Immunology 3
- MLS 5937 Current Topics in Comparative Immunology 3

(Students enroll for three semesters)

Choice of one: 3 credits required
- PCB 6237 Immunogenetics
- PCB 5754 Comparative Pathology
- MLS 6180 Immunopathology

Three credits in a Comparative Immunology Lab in one of the following courses:
- MLS 4905/6905 Independent Study
- MLS 4910/6910 Directed Independent Research
- BSC 4914/6916 Student Research Laboratory

**Cuban and Cuban American Studies Certificate Program**

The Cuban and Cuban American Studies Certificate Program provides an opportunity for students to integrate scholarship about Cuba and Cuban American issues from a variety of disciplines into a comprehensive program of study. The program builds on the strengths of numerous Cubanists teaching at FIU and allows students to benefit from expertise on matters ranging from the Cuban American exile experience to the impact of Cuba on the world.

Interdisciplinary in nature, the program consists of courses from various departments, including Art and Art History, Economics, English, History, International Relations, Modern Languages, Music, Political Science, Religious Studies, Sociology and Anthropology, Theatre
and Dance. Students are required to choose courses from four of the various departments to complete the certificate. All degree seeking students enrolled at FIU qualify for the certificate, which will be awarded upon graduation. It is also available to non-degree seeking students who hold a B.A. from an accredited institution. Courses at the five-thousand and six-thousand level qualify for the program. However, undergraduates should consult with the professor prior to taking such courses. One independent study course may be submitted to count towards the certificate provided that the final paper is of thematic relevance. A working knowledge of Spanish is recommended.

Requirements

Students will be required to take LAH 4482 Cuba: 18th-20th Centuries as well as five other courses from four different departments for a total of 18 credits. Courses applicable for the certificate are listed every semester in the University’s course schedule. To inquire if a specific course meets the certificate requirements please contact an advisor at the Cuban Research Institute.

Students interested in the certificate program should contact the Cuban Research Institute at (305) 348-1991, or e-mail cri@fiu.edu.

The following courses fulfill certificate requirements. These courses represent a partial list; students should consult with the certificate program advisor about current course offerings.

**Anthropology**
- ANT 4211: Area Studies: Afro-Cuban Religions
- ANT 4343: Cuban Culture and Society

**Art and Art History**
- ARH 4672: History of Cuban Art

**Economics**
- ECS 3430: The Economic Development of Cuba/Past and Present
- ECS 3431: Economics of the Caribbean Basin
- ECS 3432: Economic Integration / Caribbean

**English**
- LIT 4356: Literature of the Cuban Diaspora

**History**
- AMH 4421: Florida Under Five Flags: Florida History from Pre-contact to 1877
- AMH 4914: South Florida History: Research
- LAH 3740: Comparative History of Latin American Rebellions and Revolutions
- LAH 4471: Colonial Caribbean in Comparative Perspectives
- LAH 4482: Cuba: 18th –20th Centuries
- LAH 5905: Readings in Latin American History: Cuba 1898-1960
- LAH 5935: Topics in Latin American History: Colonial Caribbean in Comparative Perspectives Cuba 18th- 20th Centuries Slave Trade/African Diaspora

**International Relations**
- INR 3045: The Global Challenge of Refugees and Migrants
- INR 3243: International Relations of Latin America
- INR 3246: International Relations of the Caribbean
- INR 4931: Topics in International Relations: Cuba in the World
- INR 5935: Topics in International Relations: Cuba in the World

**Modern Languages**
- FOL 4930: Special Topics: Hispanic Culture in the U.S.
- LIN 5604: Spanish in the United States
- SPN 5536: Afro-Cuban Culture
- SPN 5539: Special Topics in Afro-Hispanic Culture
- SPN 5824: Dialectology of the Spanish Caribbean
- SPN 6535: Hispanic Culture in the U.S.
- SPW 5934: Special Topics in Language/Literature: Novela Cubana 1900-1950
- SPW 6367: Prose and Poetry of Jose Marti
- SPW 6389: Cuban Novel and Short Story
- SPW 6775: Literature of the Spanish Caribbean

**Music**
- MUH 3541: Music of Latin America: Folklore and Beyond
- MUH 5546: Music of the Americas

**Political Science**
- CPO 4057: Political Violence and Revolution
- CPO 4323: Politics of the Caribbean
- CPO 4360: Cuban Politics
- CPO 5325: Politics of the Caribbean
- POS 4074: Latino Politics
- POS 4188: Miami Politics
- POS 4314: American Ethnic Politics
- POS 4931: Topics in Politics: Florida Politics

**Religious Studies**
- REL 3383: Caribbean Religions

**Sociology**
- SYD 3620: Sociology of Miami
- SYD 4621: Cubans in the U.S.

**Theatre and Dance**
- DAA 2333: African Diaspora Dance II
- DAN 3394: Latin American Caribbean Dance and Culture

**Environmental Studies Certificate Program**

Pat Houle, Director, Earth and Environment

Coordinating Committee
- Mahadev Bhat, Earth and Environment/Economics
- Kevin Hill, Politics and International Relations
- Suzanne Koptur, Biology
- Rod Neumann, Politics and International Relations
- Laura Ogden, Global and Sociocultural Studies
- Raymond Scattone, Earth and Environment

The Certificate Program in Environmental Studies is designed to provide students in various majors with the unique perspective of interdisciplinary ecological education to both enrich and expand the breadth of their primary training. The Certificate seeks to provide participants with an analytic basis for understanding the milieu of local and global environmental problems and processes.
The program requires no prerequisite and is complementary to majors in all disciplines and schools at the University. This certificate is appropriate also for persons who already have a degree but would like to increase their knowledge of contemporary environmental issues.

Requirements

The curriculum for the Environmental Studies Certificate consists of six courses (18-20 credits).

I. Two Environmental Science Courses:
EVR 3011/L Environmental Pollution and Lab
EVR 3013/L Ecology of South Florida and Lab

Students with science backgrounds should take instead two environmental science courses from the following:

- EVR 4026 Biotic Resources
- EVR 4211/L Water Resources and Lab
- EVR 4231 Air Resources
- EVR 4310 Energy Resources

II. Two additional Environmental Social Sciences courses from the following:

- ANT 3403 Cultural Ecology
- GEO 3421 Cultural Geography
- ECP 3302 Environmental Economics
- EVR 4415 Population and Environment Issues
- EVR 4352 U.S. Environmental Policy
- PUP 3206 International Law and the Environment
- POS 4035 Environmental Politics
- REL 3492 Earth Ethics

III. Two additional Environmental Electives from the following (students should check with the Director of the certificate for additional classes that may be used to satisfy the elective component):

- AMH 4930 Environmental History
- ANT 3403 Cultural Ecology
- ANT 4552 Primate Behavior and Ecology
- ANG 5267 Environmental Anthropology
- BOT 3014 Plant Life Histories
- BOT 3154 Local Flora & Lab
- BSC 5825 Wildlife Biology
- ECP 3302 Introduction to Environmental Economics
- ECP 4314 Natural Resource Economics
- ENY 4060 Advanced Entomology & Lab
- EVR 3010 Energy Flows in Natural and Man-Made Systems
- EVR 3013 Ecology of South Florida & Lab
- EVR 4026 Biotic Resources
- EVR 4211 Water Resources
- EVR 4231 Air Resources
- EVR 4310 Energy Resources
- EVR 4321 Sustainable Resource Development
- EVR 4323 Restoration Ecology
- EVR 4351 U.S. Energy Policy
- EVR 4352 U.S. Environmental Policy
- EVR 4401 Conservation Biology
- EVR 4415 Population and Environment Issues
- EVR 4905 Independent Study
- EVR 4934 Special Topics
- EVR 5061 South Florida Ecology
- EVR 5065 Ecology of Costa Rican Rainforest
- EVR 6067 Tropical Forest Conservation
- EVR 6300 Topics in Urban Ecology
- EVR 5313 Renewable Energy Sources
- EVR 5320 Environmental Resource Management
- EVR 5353 International Energy Policy
- EVR 5355 Environmental Resource Policy
- EVR 6406 U.S. Endangered Species Management
- EVR 5410 Human Population & Earth's Ecosystem
- EVR 5907 Research and Independent Study
- EVR 5935 Special Topics
- EVR 5936 Topics in Environmental Studies
- GEO 3510 Earth Resources
- GEO 3421 Cultural Geography
- GLY 3039 Environmental Geology & Lab
- HFT 3701 Sustainable Tourism
- INR 3043 Population and Society
- INR 4054 World Resources, World Order
- INR 4350 International Environmental Politics
- LIT 4930 Literature and the Environment
- MCB 4603 Microbial Ecology
- PCB 3043 Ecology & Lab
- PHI 3640 Environmental Ethics
- PUP 3206 International Law and the Environment
- POS 4035 Environmental Politics
- REL 3492 Earth Ethics
- SOP 4712 Environmental Psychology
- SYP 4421 Science, Technology and Society
- ZOO 4462C Herpetology

Total Credit Hours: 18-20

Ethnic Studies Certificate Program

David K. Twigg, Interim Director, Institute for Public Policy and Citizenship Studies

Coordinating Committee

Ralph S. Clem, Politics and International Relations
Anthony P. Maingot, Global and Sociocultural Studies
Mark D. Szuchman, History

The College of Arts and Sciences offers the student a program in ethnic studies, in recognition of the place ethnic studies enjoys in the social sciences and humanities, and the importance of ethnic studies in today’s world. The Program seeks to establish a proper balance between its academic goals and objectives and the ongoing concerns of the University’s local and international constituencies. The Program contains four specialized areas: Black Studies, Jewish Studies, Cuban Studies, and Comparative Studies.

The Certificate in Ethnic Studies is awarded with a bachelor’s degree or upon completion of Certificate requirements, to a student who already possesses that degree. The Certificate will specify the area of concentration chosen by the student.

A student may acquire the Certificate in Ethnic Studies by fulfilling the following requirements:

General Requirements: A minimum of six courses with a grade ‘C’ or higher.

Courses in both the ‘Core’ and ‘Specialized’ areas (indicated below) must be taken from at least two different departments.

A maximum of one course in a relevant language will be accepted.
A maximum of two courses of independent study will be accepted.

The Program Director must approve the student’s overall plan and all special topics courses must be approved by Certificate advisors in each area.

The Program is especially eager to encourage programs of study abroad and field work in general. Credit for such programs will be awarded on an individual basis after evaluation by the Director and the Coordinating Committee, but in no case will it consist of more than three courses towards the Certificate.

Requirements

Specific Requirements

A core of a minimum of two to three courses in a theoretical and conceptual nature in the area of ethnic studies.

A minimum of three to four specialized courses in one of the four distinct areas: Black Studies, Jewish Studies, Cuban Studies, Comparative Studies.

European Studies Certificate

Rebecca Friedman, Director, History

Coordinating Committee

Pascale Becel, Modern Languages
Christine Gudorf, Religious Studies

Tatiana Kostadinova, Politics and International Relations
Felice Lifshitz, History
Jonathan Mogul, The Wolfsonian-FIU Museum
Joseph Patrouch, History
David Rifkind, Architecture
Renée Silverman, Modern Languages
Oren Stier, Religious Studies
Markus Thiel, Politics and International Relations
Mira Wilkins, Economics

The aim of the European Studies Certificate is to enable students to obtain an interdisciplinary concentration in various aspects of Europe. It is designed to enhance a student’s understanding of European politics, society, and culture, drawing on a broad range of courses in the arts and sciences and thereby to complement the student’s major course of study. The certificate is also available to non-degree-seeking students. Students interested in the program should contact the Director.

Certificate Requirements:

The program requires 15 credit hours (5 courses) from at least three departments, distributed as follows:

Language requirement: (3 credits)

One course in a European language at the intermediate level or above (2000 or higher)

Breadth requirement: (9 credits)

Three courses, at 3000 level or above, at least one of which must be in the social sciences and one in the humanities, from an approved list published in the term schedule and available from the Certificate Director. These include courses from the Departments of Economics, English, Environmental Studies, History, Honors College, Humanities, International Relations, Modern Languages, Philosophy, Political Science, Religion, School of Nursing, and Art and Art History. Courses not on the list but containing substantial European content may be accepted at the discretion of the Director.

Exit Requirement: (3 credits)

Interdisciplinary colloquium (EUS 4920) to be taken during the student’s senior year, that will focus on a broad European topic. In it, each student will be expected to complete a major research project.

Exile Studies Certificate Program

Asher Z. Milbauer, Director and Professor, English

Coordinating Committee

Gisela Casines, Associate Dean, College of Arts and Sciences
Uva de Aragon, Associate Director, Cuban Research Institute
Andy Groff, Reference Librarian, Humanities
Peter Hargitai, Instructor/Translator, English
Tommetro Hopkins, Associate Professor, Linguistics Program and English
Kenneth Johnson, Associate Professor, English
Richard Schwartz, Professor Emeritus, English
Mark Szuchman, Professor, History
The Exile Studies Certificate Program will provide grounds for entry into the field of otherness through the reading of literary texts created by authors from around the world and suggest venues for comprehension of human differences and commonalities. Literature, as one of the most important forms of human activity, synthesizes and particularizes the rich often traumatic experiences of transplantation. It “has often acted as a sort of deep bridge across geographical borders, cultural mentalities, and ideological divides.” Studying the works of transplanted writers through the lenses of scholarly disciplines such as social sciences, arts and humanities, students in the Exile Studies Certificate Program explore the far-reaching universal implications of the phenomenon of exile.

The curriculum for the Exile Studies Certificate consists of six courses (18 credits).

**Core Requirements**
- LIT 4224 Exile and Literature: An Interdisciplinary Approach 3
- LIT 4253 The Literature of Exile: A Comparative Literary Approach 3
- Independent Studies: Supervised Research in any relevant academic department 3

**Elective Breadth Requirements**

### Literature: (3 credits)
- AML 4300 Major American Writers 3
- AML 4503 Periods in American Literature 3
- AML 4930 Special Topics in American Literature 3
- AML 5305 Major American Literary Figures 3
- ENG 4121 History of the Film 3
- ENG 4132 Studies in the Film 3
- ENL 4242 Romanticism II 3
- ENL 4303 Major British Writers 3
- ENL 4320 Shakespeare: Histories 3
- ENL 4341 Milton 3
- ENL 4412 Anglo-Jewish Literature: 19th Century to the Present 3
- ENL 4503 Periods in English Literature 3
- ENL 4930 Special Topics in English Literature 3

- REL 3695 The Golden Age of Sephardic Jewry 3
- REL 4224 The Prophets and Israel 3

#### History
- AMH 3331 American Intellectual History I 3
- AMH 3332 American Intellectual History II 3
- AMH 4930 Topics in U.S. History 3
- EUH 3576 The Russian Revolution and the Soviet Union 3
- EUH 3611 European Cultural and Intellectual History 3
- EUH 4033 Nazism and the Holocaust 3
- EUH 4462 History of Modern Germany, 1815-1945 3
- HIS 3308 War and Society 3
- WOH 3281 Jewish History to 1750 3
- WOH 3282 Modern Jewish History 3
- WOH 4230 The African Diaspora and the Atlantic Slave Trade 3
- WOH 4301 The Modern African Diaspora 3
- LAH 4471 Colonial Caribbean in Comparative Perspective 3
Arts/Humanities (3 credits)

Art and Art History
- ARH 4430 Art and Politics 3
- ARH 4610 American Art 3
- ARH 4470 Contemporary Art 3

Architecture
- ARC 3031 Miami in Film 3
- ARC 3741 Urban Architecture and the 20th Century 3
- ARC 3797 Hotels: Miami and La Habana at Mid-Century 3
- ARC 4030 Film and the Architecture of Modern Life 3
- ARC 4752 Architectural History of the Americas 3
- ARC 4755 The Architecture of the City 3

Theatre
- THE 4110 Theatre History I 3
- THE 4111 Theatre History II 3
- THE 4314 Classical Dramatic Literature 3
- THE 4370 Modern Dramatic Literature 3

Music
- MUH 3019 History of Popular Music in the U.S. 3
- MUH 3514 Music of the World 3

Linguistics
- LIN 4624 Bilingualism and Language Policies 3
- LIN 4722 Problems in Language Learning 3
- LIN 4710 Language Acquisition 3
- LIN 5601 Sociolinguistics 3
- LIN 5720 Second Language Acquisition 3
- LIN 5825 Pragmatics 3

Graduate Linguistics courses require the permission of the instructor.

Humanities
- GRW 3390 Readings in Greek Literature 3
- HUM 2512 Art and Society 3
- HUM 3514 Art in Context 3
- HUM 3545 Art and Literature 3
- HUM 3562 Politics and the Arts 3
- HUM 4544 Literature and the Humanities 3
- HUM 4491 Cultural Heritages and Cultural Changes 3
- LAT 3203 Readings in Latin Literature 3

Film Studies Certificate Program

The Film Studies Certificate Program enables students to obtain an interdisciplinary concentration in film studies. The certificate program will enable students to study this important field in a rigorous systematic fashion. Film is the major art form and communication medium that transmits culture, influences society, and both reflects and shapes human conduct. Furthermore, film links diverse cultures through depiction of national societies and through language exposure. The Certificate in Film Studies will therefore give recognition to a significant medium that generates innovative theoretical, historical, literary and creative methodologies. The certificate will enhance interdisciplinary connections among Modern Languages, English, Sociology, Anthropology, Architecture, Visual Arts, History, Religious Studies and other departments. Students will have a unique opportunity to access new films, film archives, film makers, internships and related benefits. This certificate will complement studies in other fields and enable students to obtain an intellectual background in the theories and methodologies of film culture. Moreover, it will enhance students’ visual literacy and competency.

This program will require 18 credit-hours (6 courses) from the following certificate course listing, or others approved by the certificate program advisor. These courses should be understood as a partial list; students should consult with the advisor of the certificate program about current course offerings. Students are required to take a minimum of two courses from departments other than English.

Requirements

- FIL 3006 Introduction to Film Studies
- ENG 4121 History of Film

Twelve (12) elective credits from the following partial list:

- ARC 4030 Film and the Architecture of Modern Life 3
- ENC 4355 Writing About Film 3
- ENG 3138 The Movies 3
- ENG 4319 Film Humor and Comedy 3
- ENG 4132 Studies in the Film 3
- ENG 4134 Women and Film 3
- ENG 4135 The Rhetoric of Cinema 3
- FIL 4940 Internship in Film Studies 1-12
- ENG 6935 Special Topics in College Pedagogy (when film is the topic) 3
- CRW 5620 Advanced Screenwriting Workshop 5
- AMH 3317 America and the Movies 3
- LAH 4734 Latin American History Through Film 3
- HUM 4580 Film and the Humanities 3
- FIL 5825 Spanish Film 3
- FIL 5846 Latin American Film 3
- FRE 4391 French Cinema 3
- POW 4390 Brazilian Cinema 3
- SPW 4391 Contemporary Spanish Cinema 3
- SPW 4580 El Dorado in Hispanic Literature and Film 3
- SPW 5781 The Representation of Women in Spanish Literature and Film 3
- SPW 6495 The Latin American Experience Through Literature and Film 3
- REL 3111 Religion in Film 3
- SYP 4631 Sociology Through Film 3
- ARH 4905 Directed Studies (when offered as film studies) 1-6
- ARH 5907 Directed Studies (when offered as film studies) 1-6
- FIL 3001 Introduction to Film-Making 3
- FIL 3201C Film Technique I 3
- FIL 4204 Film Technique II 3

Forensic Science Certificate Program

Anthony P. DeCaprio, Director, Chemistry/IFRI

Coordinating Committee
- Jose R. Almirall, Chemistry/IFRI
- W. Clinton Terry, Criminal Justice
- Daniel J. Wescott, Biological Sciences
The field of forensic science is interdisciplinary and requires significant training in the natural sciences. The prerequisite for the forensic science core courses and internship are as follows: 1 calculus course, 1 statistics course, 1 general biology course, 2 physics courses with labs, 2 general chemistry courses with labs, 2 organic chemistry courses with labs and 1 analytical chemistry course with laboratory. Upon completion of the following courses, a student may apply for a certificate in Forensic Science. The certificate will be awarded at the time of graduation with a student already possesses a bachelor’s degree. The program consists of 18 credits detailed below.

Requirements

**Required Courses: (15)**

- CHS 3501 Survey of Forensic Science 3
- CHS 4533C Forensic Biochem Appl 3
- CHM 4130 Instrumental Analysis 3
- CHS 4535 Forensic Analysis 3
- CHS 5539 Forensic Toxicology 3
- BSC 5406 Forensic Biology 3
- CHS 4591 Forensic Science Internship 3
- CHS 6946 Graduate Forensic Internship 3

**Elective courses: (3 credits) chosen from the following list:**

- PCB 4524 Molecular Biology 3
- PCB 4524L Molecular Biology Lab 1
- BOT 1010 Introductory Botany 3
- CHM 4130 Instrumental Analysis 3
- CHM 4130L Instrumental Analysis Lab 2
- CHS 4503L Forensic Science Lab 1
- CHS 5539 Forensic Toxicology 3
- CCJ 3024 The Criminal Justice System 3
- CJE 3110 Law Enforcement 3
- CJI 3410 Criminal Procedure 3
- GLY 3039 Environmental Geology 3
- SOP 4842 Legal Psychology 3
- STA 5666 Advanced Statistical Quality Control 3

*A total of 19 additional semester hours that provide greater depth in the student’s area of specialization are required as part of the upper division requirements for the bachelors degree in chemistry, biology or other natural science.

---

**Gerontological Studies Certificate Programs**

Pamela Elfenbein, The Center on Aging

Coordinating Committee

Joan Erber, Psychology
Kenneth Johnson, English
Nancy S. Wellman, Dietetics and Nutrition

The Certificate Program in Gerontological Studies seeks to meet these needs by providing a multidisciplinary approach to the study of aging. The Certificate in Gerontological Studies is awarded with a bachelor’s degree, or on completion of Certificate requirements when a student already possesses a bachelor’s degree. Interested students should meet with the director early to plan an individualized program to meet the student’s educational or occupational goals.

Certificate Requirements: (17-18)

1. A minimum of six courses, three required courses and three elective courses, must be completed with a grade of ‘C’ or higher in each course.
2. Courses must be taken from at least three different disciplines.
3. Electives must be taken from two different categories listed below.
4. Up to two gerontologically relevant courses taken elsewhere may be accepted by the director.
5. Students should contact the director during registration for a list of certificate courses offered each semester.

**Required Courses: (9 credits)**

- DEP 4464 Psychology of Aging 3
- SYP 4730 Sociology of Aging 3
- PCB 3241 Physiology of Aging 3

**Elective Courses: (8-9 credits)**

**Aging in the Context of the Life-Span**

- DEP 2000 Human Growth and Development 3
- DEP 4407 Current Issues in Aging 3
- FAD 2230 Family Life Cycle 3
- FAD 5450 Human Sexuality 3

**Death and Dying**

- SYP 4740 Sociology of Death 3
Students wishing to take an independent research project or an independent practicum in gerontology should: First obtain the collaboration of a faculty sponsor; and second, obtain the approval of the Certificate Director prior to beginning the project by submitting a one-page proposal. Credit will be obtained under the appropriate independent study course in the faculty advisor’s department. Also, special topics and other courses that have gerontological relevance may be acceptable for credit with permission of the Director.

Japanese Studies Certificate Program

Steven Heine, Director, Asian Studies  
Asuka Mashav, Associate Director, Modern Languages  

Coordinating Committee  
Naoko Komura, Modern Languages  
Paul Kowert, Politics and International Relations  
Matthew Marr, Global and Sociocultural Studies  
Eric Messersmith, Asian Studies  

The certificate in Japanese Studies is an 18-credit program that provides students with intensive studies of Japanese language in relation to the culture and society of Japan and East Asia. This program is available to students who are enrolled in the Asian Studies major or certificate programs, as well as students who wish to develop a more specialized focus on Japan.

As with other Asian Studies programs students are encouraged to earn credits through study abroad or student exchange programs for travel and study in Japan in addition to internship opportunities with Japan related organizations in South Florida.

Requirements  
Language Requirements: (4 semesters)  
Students must complete two full years (four semesters) or equivalent of Japanese language. If students test out of some portion of this requirement then they must complete additional credits in studies of Japanese and/or East Asia society and culture.

Electives: (6 credits)

Two courses in Japanese or East Asian area studies (history, religion, economics, international relations, etc.) must be completed. For a list of electives please consult the list provided with the Asian Studies major in this catalog. However, some courses in that list may not be applicable for this certificate. Therefore, students should consult with an advisor for the certificate program to get approval for specific courses.

For more information, contact the Asian Studies office, SIPA 505. Email: asian@fiu.edu; phone: (305) 348-1914; website: http://asian.fiu.edu.

The Certificate in Judaic Studies is an eighteen credit interdisciplinary program, rooted in the humanities, fine arts and social sciences. The program is available to degree-seeking students and independently to non-degree-seeking students who already have a B.A. The Judaic Studies Program at FIU awards the Certificate. Courses are offered at FIU’s Modesto A. Maidique and Biscayne Bay campuses. The Certificate in Judaic Studies provides students with a multidisciplinary
The Judaic Studies Certificate requires 18 credits and includes the following:

a) Students must demonstrate a competency in the Hebrew language, at least at the HBR 1130 level, either through course work or equivalent. Up to ten credit hours of Hebrew language courses may be applied toward the Certificate. Another relevant language such as Yiddish or Arabic may be substituted.

b) Eighteen (18) credits from the coursework listed below with at least three (3) credits in the Concentration in Pre-Modern History and Religion and three (3) credits in the Concentration in Modern Religion and Society.

In addition to the courses listed below, relevant special topics, area studies or comparative studies courses may also be applied. All courses must be approved by the director, and all must be passed with "C" or better.

Students are encouraged to attend lectures and workshops sponsored by the Judaic Studies Program.

Labor Studies Certificate Program

Dawn Addy, Labor Studies
Emily Eisenhauer, Labor Studies
Nora Femenia, Labor Studies
Bruce Nissen, Labor Studies
Carol Stepick, Labor Studies
Noah Warman, Labor Studies
Jorge Zumaeta, Labor Studies

The Certificate in Labor Studies is an 18 credit course of study designed to offer degree-seeking students from a wide range of backgrounds an understanding of the major issues in the field. Courses must be taken from at least two disciplines other than Labor Studies. The Certificate is also appropriate for students who already have a degree and would like to acquire additional knowledge about various facets of the field of Labor Studies within the global work environment. Labor Studies as a discipline acknowledges insights which have emerged from decades of university-union cooperation in labor education and fulfills an academic need to study labor affairs apart from the traditional framework of industrial relations. According to this concept, Labor Studies is the academic examination of issues which confront people in the pursuit of their need for rewarding employment. The focus of inquiry is on workers as individuals, as members and/or leaders in their unions or associations, and as citizens of their communities.

Courses must be taken from at least two disciplines in addition to Labor Studies. Minimum of 18 credit hours for certificate. Courses are to be selected in consultation with advisor. A grade of C is not acceptable.

Requirements

Required Courses: (12 hours)

The Certificate in Languages and Cultures of North Africa provides students with a broad knowledge, giving them cultural keys for a better understanding of the Arab World in its global interactions. One cannot really understand a culture without being exposed to the languages that are shaping it and one cannot really understand the political dynamics of Arab societies without knowing their cultural foundations. An expertise in Arabic language and/or French is the cornerstone of the certificate. It is designed with an interdisciplinary and transnational perspective, taking into account the complex dynamics between North Africa and the Arab diaspora in Europe and in the US. With particular emphasis on languages and culture, the certificate exposes students to North Africa through history, political science, gender studies, diaspora studies, literature and cinema.

Requirements

The Certificate in Languages and Cultures of North Africa requires a total of 21 credits (for students with no prior knowledge of the selected language) or a minimum of 18 credits (for students with prior knowledge of the selected language) and includes the following:

Core Language Requirement:

Four semester sequence of language: (12 credits maximum to count toward the certificate). If students test out of some portion of this requirement then they must complete additional credits as approved by the certificate director.

Latin American and Caribbean Studies Certificate Program

Cristina Eguizábal, LACC Director
Lisel Picard, LACC Acting Associate Director
Andrea Seidel, LACC Senior Graduate Program Director
Astrid Arrarás, LACC Graduate Program Director

LACC Academic Advisory Committee
Maria Aysa-Lastra, Global and Sociocultural Studies
Liliana Goldin, Global and Sociocultural Studies
Barry Levitt, Politics and International Relations
Felix Martin, Politics and International Relations
Juan Martinez, Art and Art History
Aurora Morcillo, History

Offered through the Latin American and Caribbean Center (LACC), this certificate provides an interdisciplinary approach to the study of Latin America and the Caribbean. The certificate may be awarded to both degree and non-degree seeking students who complete the requirements. For students pursuing a degree, the certificate is a complement to the student's discipline or major area of studies. For non-degree seeking students, the certificate provides a means for understanding more about Latin America and the Caribbean without pursuing a longer degree program.

Certificate Requirements

1. At total of 18 credit hours of undergraduate course work with a grade of 'C' or higher. Courses must come from the approved Latin American and Caribbean Studies course listing or be approved by the certificate advisor. Courses may include those in the student’s departmental major, but must also be selected from at least two disciplines outside the student’s departmental major.

2. Students are required to take a two-course language sequence at FIU in Spanish, Portuguese, Haitian Creole, or French at the student's tested level. Tests are administered through a proficiency examination in FIU’s Department of Modern Languages or in LACC. Up to six language credits may be counted towards the fulfillment of the 18 credit hours.

3. A student may elect to focus on a country, region, or topic for the undergraduate certificate or pursue a broader selection of courses in a variety of disciplines. A country, regional, or topical area of concentration (such as Cuban studies, migration, political science, international business, etc.) may be declared for the undergraduate certificate. At least three courses with significant (100% content on the approved course
listing) Latin America or Caribbean content must be completed to obtain a concentration. Students may also petition to create their own concentration, provided there are sufficient courses.

Courses approved for the Latin American and Caribbean Studies Certificate are posted each semester on the FIU Class Schedule at http://lacc.fiu.edu/catalog/ (Under "Special Programs and Certificate Programs" select "Latin American & Caribbean Studies"). All courses listed from 2000 through 4000 series may be applied to the certificate. Approved courses are also posted each semester outside LACC (DM 353) or are available from the certificate advisor.

Students interested in pursuing a Latin American and Caribbean Studies Certificate should contact the certificate advisor at (305) 348-2894 for an appointment or email lacccert@fiu.edu.

Law, Ethics and Society Certificate Program
Kenneth Rogerson, Director
Coordinating Committee
Christopher Grau, Philosophy
Kenneth Henley, Philosophy and Religion

This program offers a course of studies in the broad field of normative or value issues. The program seeks to develop a curriculum which will study these issues from a variety of perspectives. From philosophy we offer courses in ethical theory, social and political theory and various applied ethical courses-courses in medical ethics, business ethics, environmental ethics and so on. From political science the student sees how normative issues are considered in law and politics. In this context it is appropriate to have courses dealing with constitutional interpretation of rulings like affirmative action, environmental regulation and the like. From sociology and anthropology the student takes courses dealing with how values are incorporated in our society and how such values compare to other societies around the world.

Requirements

Required Courses:
1. The certificate requires six (3 credit) courses from the following lists.
2. Two core (starred) courses are required.
3. Of the six courses, including core courses, at least one course must be taken from each of the following categories—Ethics, Law, and Society

Law
PHM 3400 Philosophy of Law*

Ethics
PHI 3601 Ethics*
PHI 3638 Contemporary Ethical Issues*
PHI 4633 Biomedical Ethics

Society
POT 3302 Political Ideologies
SYG 3320 Social Deviancy
SYG 2010 Social Problems
ANT 3302 Anthropology of Sex and Gender
CPO 4057 Political Violence and Revolution
PAD 4046 Public Values, Ethics and Morality in a Changing Environment
PAD 5041 Values and Technology in Modern Society
POT 3054 Modern Political Theory

Legal Translation and Court Interpreting Certificate Program
Erik Camayd-Freixas, Director
DM-491A; (305) 348-6222; Erik.Camayd@fiu.edu

This professional certificate program provides a theoretical basis and practical experience to prepare the student for the field of General Interpreting, with emphasis on Court Interpreting. Whereas translation courses are language-specific (English < > Spanish), all our interpretation courses are language-neutral (English < > Any Language). This curriculum offers both preparatory and professional development training for interpreting in the legal, medical, and business settings, and focuses on preparation for taking state and national interpreter certification exams. Each course offers intensive practice in sight translation, consecutive, and simultaneous interpretation. Through its academic track, it offers complementary studies for the practitioner who wants to strengthen his or her competence in the field. The program consists of 27 semester credit hours.

Requirements

Prerequisites
ENC 3200 Business Letters and Reports 3
SPN 3302 Review Grammar and Writing 3
Others by approval. No credits allowed.
A minimum of one course from each of the following groups:

**Introductory Courses**
- LIN 3010 General Linguistics 3
- LIN 3013 General Linguistics 3
- LIN 5018 Introduction to Linguistics 3

**Structure Courses**
- LIN 4680 Modern English Grammar 3
- FRE 4800 French Morphology 3
- SPN 4802 Contrastive Syntax 3
- LIN 5501 English Syntax 3

**Four additional courses:** (12)
In addition to the required courses stated above, all students must complete an additional four courses totaling twelve credits. Any course with an LIN prefix fulfills this requirement with the exception of LIN 3670 - Grammatical Usage. Linguistics courses with FOL, FRE, POR, and SPN prefixes also fulfill this requirement. Permission must be received from the Program Director to take courses with these prefixes. PHI 4221 (Philosophy of Language), PHI 4222 (Philosophy of Dialogue) and MHF 4302 (Mathematical Logic) also fulfill this requirement.

In addition to the requirements noted above, all of the requirements for obtaining a bachelor's degree from the University must be met, or the student must already possess a bachelor's degree.

With the advice of the Coordinating Committee, the student is encouraged to attain some degree of proficiency in a language other than his or her native language.

A Coordinating Committee representing various fields will advise students and grant the Certificate.

### Linguistics Studies Certificate Program

**Coordinating Committee**
- Melissa Baralt, Modern Languages
- Jean-Robert Cadely, Modern Languages
- Phillip Carter, English
- Tometro Hopkins, English
- Peter Machonis, Modern Languages
- Ana Roca, Modern Languages
- Ellen Thompson, English
- Feryal Yavas, English
- Mehmet Yavas, English

In addition to an M.A. in Linguistics, the Linguistics Program at Florida International University offers a Certificate acknowledging that a student has demonstrated competence in course work pertaining to the study of linguistics. This Certificate is designed to meet the needs of those who have a general interest in linguistics studies, as well as those for whom work in linguistics would assist in career planning or advancement. Both undergraduate and graduate students are eligible to earn the certificate.

A student can acquire a Certificate in Linguistic Studies by successfully completing at least six courses in linguistics or linguistics-related courses, totaling eighteen credit hours. Students should consult a Certificate advisor in selecting courses.

**Requirements**

All students must complete one introductory course and one structure course from the courses listed below for a total of six credit hours:

<table>

### Middle East and Central Asian Studies Certificate Program

**Director, Middle East Studies**

Mohiaddin Mesbahi

**Coordinating Committee**
- Majid Al-Khalili, Politics and International Relations
- Peter Craumer, Global and Sociocultural Studies
- Shlomi Dinar, Politics and International Relations
- Russell Lucas, Politics and International Relations
- Maria del Mar Logrono, History
- Charles MacDonald, Politics and International Relations
- Aisha Musa, Religious Studies
- Benjamin Smith, Global and Sociocultural Studies

The Middle East is the most significant and consequential region shaping contemporary world politics and dynamics. Strong knowledge of the Middle East is a major asset to graduates seeking employment in governmental institutions and the private sector, or going on to graduate school and into academia. The Middle East and Central Asian Certificate, which is offered through Middle East Studies (MES) at Florida International University, provides students with the opportunity for a rich multidisciplinary learning experience, with a choice of courses in the fields of international relations, geography, history, political science, religious studies, sociology/anthropology, and modern languages, among others. The program defines the ‘Middle East’ broadly, encompassing the study of adjacent regions including Central Asia and the larger Muslim world. Two semesters of Arabic or another
regional language are required. The 18 hour Certificate may be awarded both to undergraduate students and to students who have already earned a Bachelor's degree and successfully completed the requirements.

Certificate Requirements

A total of 18 credit hours of undergraduate course work from three categories of courses listed below with a grade of “C” or higher.

1) Core Requirements at FIU: (6 credits)

One of the following courses (3 credits):
- INR 3274 International Relations of the Middle East
- GEA 3635 Population and Geography of the Middle East
- CPO 3403 Politics of the Middle East
- ASH 3223 History of the Middle East 1800-Present

One of the following courses (3 credits):
- INR 4082 Islam in International Relations
- REL 3362 Islamic Faith and Society
- REL 4366 Voice of the Prophet
- REL 4364 Interpreting the Quran: Gender & Jihad

Note: In addition to the two core courses selected from each category above, students may choose to take additional courses from this list as “Electives”. These courses are thus listed below as part of the “Electives”.

2) Language Requirement at FIU: (up to 6 credits)

Students are required to obtain two semesters or the equivalent of a Middle Eastern language. Exemption from this requirement may be obtained through a proficiency examination administered by the FIU Department of Modern Languages or Middle East Studies (MES). Note: Students exempted from the language requirement, however, should take 6 credits from other fields to fulfill the 18 credits required to receive the Certificate.

3) Elective Courses at FIU: (6 credits)

All students are to choose two courses (6 credits) from the courses listed below:
- ANT 4930 Topics: People of the Middle East
- ABT 3503 Arabic Language and Culture
- CPO 3403 Politics of the Middle East
- CPO 4930 Topics: Arab-Politics and Society
- CPO 4401 The Arab-Israeli Conflict
- EUH 4123 Medieval Holy War
- EVR 3402 Asian Environmental Issues
- GEA 3554 Geography of Russia and Central Eurasia
- GEA 3635 Population and Geography of the Middle East
- GEA 3705 Geography of Central Asia and the Caucasus
- ASH 3222 History of the Middle East up to 1800
- ASH 3223 History of the Middle East 1800 – Present
- HIS 3314 Women and Gender in Medieval Eurasia
- HIS 4930 Topics: History of Modern Middle East and the Caucasus
- INR 3226 International Relations of Central Asia and the Caucasus
- INR 3252 International Relations of North Africa
- INR 3262 International Relations of Russia and the Former USSR
- INR 3274 International Relations of the Middle East
- INR 4082 Islam in International Relations
- REL 3320 Moses, Jesus, Muhammad
- REL 3362 Islamic Faith and Society
- REL 3672 Religion and Society in Israel
- REL 4361 Women in Islam
- REL 4312 Jews of Asia
- REL 4610 Jews of Arab Lands in the Middle Ages
- REL 4366 Voice of the Prophet
- REL 4937 Special Topics: Muslim Ideas of War
- REL 4364 Interpreting the Quran: Gender & Jihad

In addition to the courses listed above, new courses (as they become available), relevant special topics, independent study, study abroad credits, and area studies or comparative studies courses may also be applied with the prior approval of the certificate program director. Students must consult the list of eligible courses announced at the beginning of the academic year or semester through the MES.

Dual Certificate Agreement with the American University in Dubai (AUD)

Students in FIU's Certificate program can take the opportunity of obtaining a Dual Certificate offered by FIU and the American University in Dubai (AUD). To obtain the Dual Certificate, students will need to spend one full term at AUD.

For more information contact Middle East Studies (MES) at the School of International and Public Affairs, SIPA 501. Email: mesc@fiu.edu; phone (305) 348-1792.

National Security Studies Certificate Program

David K. Twigg, Interim Director, Institute for Public Policy and Citizenship Studies

Coordinating Committee
- John Boyd, Economics
- Ralph S. Clem, Politics and International Relations
- Edward Glab, College of Business
- Christine Gudorf, Religious Studies
- Steven Heine, Religious Studies and History
- Paul Kowert, Politics and International Relations
- Mohiaddin Mesbahi, Politics and International Relations
- Richard Olson, Politics and International Relations
- Luis Salas, Criminal Justice
- Richard Tardanico, Global and Sociocultural Studies
- Victor Uribe, History

Offered through the Jack D. Gordon Institute for Public Policy and Citizenship Studies, the certificate may be awarded to both degree and non-degree seeking students who complete the requirements. For students pursuing a degree, the certificate is a complement to a student’s discipline or major area of studies. For non-degree seeking students, the certificate provides a means for
understanding more about national security in the 21st century.

Certificate Requirements

1. A total of 18 credit hours of undergraduate course work with a grade of C or higher. Courses must come from the approved UCNSS course listing or be approved by the certificate advisor. Courses may include those in the student’s departmental major, but must also be selected from at least two disciplines outside the student’s departmental major. With the approval of the Director, courses other than those listed herein may be substituted on a case by case basis.

2. A two-course introductory language sequence at FIU with a grade of C or higher. Exemption from this requirement may be obtained through a proficiency examination administered by the FIU Department of Modern Languages. Language courses may not be counted toward the fulfillment of requirement #1 above.

Note: Intermediate-high on the ACTFL exam (1-plus on the US government scale) can normally be attained by students with two undergraduate semesters of basic language instruction and at least one undergraduate semester of intermediate (3000/4000) instruction. Attainment of the required language proficiency is the responsibility of the student, and extra courses to achieve the required proficiency level must be taken outside the UCNSS curriculum.

Skill Requirement: (3 credit hours)
POS 4784 Analytic Writing

Core Requirement: (6 credit hours)
Select one of the following courses:
GIS 3048 Applications of Geographic Information Systems
SYA 3300 Research Methods

Select one of the following courses:
INR 3061 Conflict, Security and Peace Studies in IR
INR 3102 American Foreign Policy
INR 3303 Foreign Policymaking
INR 4335 Strategic Studies & Security Studies

National Security Studies: (3 credit hours)
Select one of the following courses:

Criminal Justice
CJE 3110 Law Enforcement
CCJ 4641 Organized Crime
CCJ 4661 Terrorism and Violence in Criminal Justice
CJE 4174 Comparative Criminal Justice Systems
CJL 4064 Criminal Justice and the Constitution

Economics

Portuguese Interpretation Studies Certificate Program

John B. Jensen, Modern Languages

Coordinating Committee
John B. Jensen, Modern Languages
Erik Camayd-Freixas, Modern Languages
Augusta Vono, Modern Languages

The Portuguese Interpretation Studies professional certificate offers sequences of courses designed to help prepare bilingual speakers to work professionally in the field of Portuguese-English and English-Portuguese interpretation (oral translation). Courses provide both the theoretical bases for the work and extensive practice. Because classes are small and most class work is individualized, the program is intended to meet the needs of both students with no prior experience and of working professionals.

Requirements

Language Preparation:
The language competence required for success in the program is such that students must have either native Portuguese with near-native English, or the reverse, with native English and near-native Portuguese. In either case, students are expected to have strong formal study of both languages and a period of residence where each is the national language. Students may need to enhance their formal knowledge of one or both of their languages through specific course work, upon advice from the program Director. It is not anticipated that students whose only contact with the second language has been in the classroom will be sufficiently prepared to undertake the Certificate.

Core Courses (12):
PRT 3810 Introduction to Portuguese Translation and Interpretation 3
PRT 3812 Portuguese Interpretation I 3
PRT 4813 Portuguese Interpretation II 3
PRT 4814 Portuguese Interpretation III 3

Electives (6):
At least one of the two courses must be from the language area; the second course may be in either language or culture/social studies. Other courses may also be acceptable upon approval.

Language
POR 3400 Advanced Oral Portuguese 3
SPC 2050 Voice and Diction 3
SPC 2608 Public Speaking 3
LIN 3010 General Linguistics 3
LIN 5211 Applied Phonetics [pre: LIN 3010] 3
SPT 4806 Oral Skills for Interpreters 3

Culture/Social Studies
POR 3500 Luso-Brazilian Culture 3
LAH 4600 History of Brazil 3
LAH 2020 Latin American Civilization 3
AMH 2041 Origins of American Civilization 3
AMH 2042 Modern American Civilization 3
LAH 3718 History of US-Latin American Relations 3

A grade of “C” or better is required in all courses (C- is not acceptable).

Students who wish to complete both the Translation Certificate and the Interpretation Certificate may count PRT 3810 and ONE Cultural/Social Studies course toward both certificates.

Portuguese Language and Brazilian Culture Studies Certificate Program

Nicola Gavioli, Modern Languages
Augusta Vono, Modern Languages

This certificate is offered as an alternative to the regular Portuguese language major in the Department. The certificate supplements existing, related certificate programs, such as those in Portuguese Translation Studies, Portuguese Interpretation Studies, Latin American and Caribbean Studies, and the Professional Language Certificate Programs.

We hope to be able to equip students who have majors, minors in other departments with highly satisfactory competence in Portuguese and a very positive understanding of the culture of Brazil, in order to aid them in whatever endeavors they should pursue.

Our program offers some special features for majors, minors, and certificate students: A regular summer-time study abroad in Belo Horizonte, Brazil; the opportunity to obtain a proficiency certificate administered by the Brazilian Ministry of Education and Culture--FIU is one of only three authorized examination centers in the United States; an active Brazilian Club; and a nascent Resource Center offering an excellent collection of books and other learning materials.

Required Credits

Minimum of 18 credits. Students who come into the program without previous Portuguese study may take up to 25 required credits, depending on the language track they choose and any exemptions they receive for prior knowledge. See below for details. All courses must have a grade of "B-" or higher to qualify.

Required Courses

I. Basic Language: (9 or 10 credits)

<table>

3. One additional elective course, chosen from among the following departmental offerings: (3 credits)
POR 3440   Business Portuguese  3
POR 3500   Luso-Brazilian Culture  3
POR 4480   Twentieth Century Brazilian Novel  3
POW 4701   Masterworks of Brazilian Literature  3
PRT 3810   Introduction to Portuguese Translation and Interpretation  3

4. One additional elective course, chosen from among the following out-of-department offerings: (3 credits)
LAH 2020   Latin American Civilization  3
LAH 4600   History of Brazil  3
ECS 3401   The Brazilian Economy (two prerequisites required)  3
LIN 3013   General Linguistics  3

Note: Students who come into the program fluent in Portuguese may be exempted from all or a part of the Basic Language sequence by interview and examination. Any student so exempted will not be required to make up all of the credits in other courses, except that the minimum number of credits taken for the Certificate must be 18 hours. Students who take the Heritage sequence, rather than the regular beginning or accelerated courses, will have only 9 credits of language required, subject to further reduction by exemption.

Substitutions for the above courses will be considered only under special circumstances, such as a course not being available. Such substitutions must be authorized in writing by a memorandum in the student's file signed by the program director or advisor.

Portuguese Translation Studies Certificate Program

John B. Jensen, Modern Languages

Coordinating Committee
Erik Camayd-Freixas, Modern Languages
Augusta Vono, Modern Languages

The Portuguese Translation Studies professional certificate offers sequences of courses designed to help prepare bilingual speakers work professionally in the fields of Portuguese-English and English-Portuguese translation (that is, written documents). Courses provide both the theoretical bases for the work and extensive practice. Because classes are small and most class work is individualized, the program is intended to meet the needs of both students with no prior experience and of working professionals.

Requirements

Language Preparation:
The language competence required for success in the program is such that students must have either native Portuguese with near-native English, or the reverse, with native English and near-native Portuguese. In either case, students are expected to have strong formal study of both languages and a period of residence where each is the national language. Students may need to enhance their formal knowledge of one or both of their languages through specific course work, upon advice from the program Director. It is not anticipated that students whose only contact with the second language has been in the classroom will be sufficiently prepared to undertake the Certificate.

Core Courses (12):
PRT 3810   Introduction to Translation and Interpretation  3
PRT 3800   Portuguese Translation I  3
PRT 4801   Portuguese Translation II  3
PRT 4802   Portuguese Translation III  3

Electives (6):
At least one of the two courses must be from the language area; the second course may be in language, or culture/social studies. Other courses may also be acceptable upon approval.

Language
POR 3440   Portuguese for Business  3
POR 3421   Review Grammar and Writing II  3
ENC 4260   Advanced Professional Writing  3
ENC 3213   Professional and Technical Writing  3
CRW 2001   Introduction to Creative Writing  3
LIN 3010 I  Introduction to General Linguistics  3

Culture/Social Studies
POR 3500   Luso-Brazilian Culture  3
LAH 4600   History of Brazil  3

AMH 2042   Modern American Civilization  3
LAH 3718   History of US-Latin American Relations  3

A grade of “C” or better is required in all courses (C- is not acceptable).
Students who wish to complete both the Translation Certificate and the Interpretation Certificate may count PRT 3810 and ONE Cultural/Social Studies course toward both certificates.

Post-baccalaureate Undergraduate Premedical Certificate

John T. Landrum, Director, Pre-Health Professions
Advising and Professor, Chemistry and Biochemistry

Steering Committee
Michael Brown, Assistant Professor, Biomedical Engineering
Bruce Dunlap, Professor, Chemistry and Biochemistry
Kenton Harris, Assistant Dean, College of Arts and Sciences, Philosophy
Jeffrey Joens, Professor, Chemistry and Biochemistry
Caroline Simpson, Associate Professor, Physics

The certificate consists of a minimum of 15 credits of upper division premedical coursework, as well as up to an additional 35 credits of prerequisite coursework depending on the academic background of the student. It is designed to enable students to take the coursework required for medical school admission, to facilitate success on the
MCAT exam, and due to its interdisciplinary nature, enhance understanding of medical issues.

Admissions Requirements

Any student already holding a BA or BS degree is eligible to apply for this certificate program. Through the Pre-Health Professions Advising Center, a wide variety of student services and opportunities are available to the students in this program as they are for the traditional FIU premedical students.

Prerequisite(s):

The following courses are required for admissions to medical school and to many other health professional schools. They are also prerequisites for course work required by this certificate program. Once enrolled in the Post-baccalaureate Undergraduate Premedical Certificate Program, any of these courses not already completed must be taken at FIU. A grade of “C” or better is required in all courses (“C-” is not acceptable).

- CHM 1045 General Chemistry I 3
- CHM 1045L General Chemistry Lab I 1
- CHM 1046 General Chemistry II 3
- CHM 1046L General Chemistry Lab II 1
- BSC 1010 General Biology I 3
- BSC 1010L General Biology Lab I 1
- BSC 1011 General Biology II 3
- BSC 1011L General Biology Lab II 1
- PHY 2053 Physics without Calculus I 4
- or PHY 2048 Physics with Calculus I 4
- PHY 2048L General Physics Lab I 1
- PHY 2054 Physics without Calculus II 4
- or PHY 2049 Physics with Calculus II 4
- PHY 2049L General Physics Lab II 1
- CHM 2210 Organic Chemistry I 4
- CHM 2210L Organic Chemistry Lab I 1
- CHM 2211 Organic Chemistry II 3
- CHM 2211L Organic Chemistry Lab II 1
- BCH 3033 General Biochemistry 3
- CHM 4304 Biological Chemistry I 3
- PCB 3063 Genetics 3
- PCB 4023 Cell Biology 3
- One Physiology Course at the 3000 level or higher with the approval of the Certificate Program Director. 3

Elective Courses (3 credits):

Must complete ONE of the following. A grade of “C” or better is required in all courses (“C-” is not acceptable).

- REL 3180 Medical and Bioethics 3
- PHI 4633 Biomedical Ethics 3
- ANT 3462 Medical Anthropology 3
- SYO 3400 Medical Sociology 3

Additional Requirements

To remain in the Post-baccalaureate Undergraduate Premedical Certificate Program students must maintain a 3.0 overall/institutional GPA or higher. To be awarded the Post-baccalaureate Undergraduate Premedical Certificate the student must achieve a minimum overall GPA of 3.0.

Pre-Modern Cultures Certificate

Gwyn Davies, Director, History

Steering Committee
N. David Cook, History
Carol Damian, Art and Art History
Steven Heine, Religious Studies
Kathryn McKinley, English
Joseph Patrouch, History

The Pre-Modern Cultures Certificate Program is an eighteen credit course of study intended to enable students to gain an interdisciplinary concentration in various aspects of pre-modern culture (before 1700 CE). It is designed to enhance an undergraduate’s understanding of the pre-modern cultures of the globe, and particularly to complement that student’s major courses of study in fields such as Anthropology, English, History, Humanities, Modern Languages, Philosophy, Religious Studies and Visual Arts by familiarizing them with additional disciplinary approaches. The Certificate permits the in-depth exploration of one cultural area during Pre-Modernity, while developing a familiarity with analogous eras in other parts of the world, thus providing the student with both trans-temporal and cross-cultural comparative perspectives.

Courses are to be chosen from the following list in consultation with and approval of a member of the Steering Committee or other faculty advisor. A grade of “C” or better is required for all courses (“C-” is not acceptable). This listing should be understood as a partial list. Students should consult with an advisor for the certificate program about current course offerings.

At least 18 semester hours from the following certificate program course listing, or others approved by the certificate program advisor. Students must take one Introductory Core class. The five remaining courses are to be drawn from the disciplinary Concentration Areas. Of the total six courses counted towards the certificate, four must be from a base region and two from the comparative region. The regions are defined as Africa, Asia, Europe, Latin America and North America. Up to two courses which deal with the entire World may be counted toward fulfillment of either the base or comparative region requirement. For example, one course of study might include pre-modern courses distributed as two World, two Asia, and two Latin America, while another might include pre-modern courses distributed as four Europe and two World. The steering committee will occasionally offer special comparative courses, some team-taught, which will substitute for any Core or Concentration Area course. Students may substitute a maximum of two independent studies for Concentration Area classes with the written approval of the Program Director. Special topics and other relevant courses (for example Study Abroad Programs or participation in archaeological digs) may be substituted with the written approval of the Program Director. Students are strongly encouraged to study relevant languages.

Requirements

Introductory Core Courses: (18)
- LIT 2110 World Literature
- AMH 2041 Origins of American Civilization

Professional Language Certificate Program
John Jensen, Modern Languages
Coordinating Committee
Maida Watson, Modern Languages

The Professional Language Certificate is a fifteen-credit course of study designed to offer both pre- and post-
baccalaureate students, as well as degree-seeking students, specialization in foreign languages applicable to various professional endeavors. The certificate program is divided into separate tracks specified by language and application.

For all students, the certificate represents a way to gain specialized language knowledge. For students pursuing a degree, the certificate should be understood as a complement to the student's major area of study. Non-degree seeking students can use the certificate as a demonstration of their proficiency in specific foreign languages in their professional contexts.

Total credits Required in One Track: 15 semester hours. A grade of "C" or better is required for all courses (C- is not acceptable).

**Requirements**

**Spanish for Business Track**

**Prerequisite Courses:** Before entering the certificate program, the student must have completed the following course or demonstrated an equivalent language proficiency through examination.

SPN 2200  Intermediate Spanish 3  
(Non-native speakers)

**I. Required Courses:** At least 15 semester hours of courses from the following certificate program course listing, or others approved by the certificate program advisor.

- SPN 2201  Intermediate Spanish II 3  
  (Non-native speakers)  
- SPN 2340  Intermediate Spanish for Native Speakers 3  
- SPN 3301  Review Grammar/Writing 3  
  (Non-native speakers)  
- SPN 2341  Accelerated Intermediate Spanish for Native Speakers 3  
- SPN 3440  Spanish Business Composition/Correspondence 3

**II. Elective Courses:** With program advisor's approval, a maximum of 6 credits may be taken from the following lists, with no more than 3 credits from Section A and 3 credits from Section B. This is a partial list: depending upon specific course content, other courses in International Business, Finance, Marketing, etc., may apply. Students consult the certificate advisor regarding additional courses.

**Section A (maximum of 3 credits)**

- SPN 3422  Advanced Grammar and Composition I 3  
- SPN 4520  Spanish American Culture 3  
- SPN 4500  Spanish Culture 3  
- SPT 4807  Practica in Business Translation 3

**Section B (maximum of 3 credits)**

- ECS 3402  The Political Economy of South America 3  
- ECS 3403  Economics of Latin America 3  
- FIN 4604  International Financial Management 3  
- MAN 4600  International Management 3  
- MAN 4660  Business in Latin America 3

**Portuguese for Business Track**

**Prerequisite Courses:** Before entering the certificate program, the student must have completed one of the following courses or demonstrated an equivalent language proficiency through examination.

- POR 1131  Portuguese II 5  
- POR 3202  Accelerated Portuguese I 5

**I. Required Courses:** Courses are to be chosen from the following list in consultation with and approval of the advisor.

- POR 2200  Intermediate Portuguese 3  
- POR 3233  Accelerated Portuguese II 5  
- POR 3420  Review Grammar/Writing 3  
- POR 3440  Portuguese for Business 3

**II. Elective Courses:** With program advisor's approval, a maximum of 6 credits may be taken from the following lists, with no more than 3 credits from Section A and 3 credits from Section B. This is a partial list: depending upon specific course content, other courses in International Business, Finance, Marketing, etc., may apply. Students consult the certificate advisor regarding additional courses.

**Section A (maximum of 3 credits)**

- POR 3400  Advanced Oral Communication 3  
- POR 3500  Luso-Brazilian Culture 3  
- PRT 3810  Introduction to Translation and Interpretation 3

**Section B (maximum of 3 credits)**

- ECS 3401  The Brazilian Economy 3  
- ECS 3402  The Political Economy of South America 3  
- FIN 4604  International Financial Management 3  
- MAN 4600  International Management 3  
- MAN 4660  Business in Latin America 3

**Certificate in Professional Leadership Studies**

**Coordinating Committee**

Meredith Newman, Chair, Public Administration  
Bevery Dalrymple, Co-Director, Center for Leadership & Service  
Barbara Anderson, Health Sciences  
Gloria Deckard, Health Policy and Management  
Keith Revell, Public Administration  
Mary Helen Hayden, Social Work  
Galen Kroeck, Business  
Diann Newman, Hospitality Management

Recent studies by the Center for Creative Leadership have concluded that leadership is evolving and approaches focusing on flexibility, collaboration, crossing boundaries and collective leadership are expected to become a high priority. This emerging view of leadership as an inclusive and collective networked activity occurring throughout organizations stresses the need for all students to develop their leadership capacity as they prepare for their future careers and community roles.

The Certificate in Leadership Studies prepares students for this changing nature of leadership through
coursework and practice that emphasizes relationship building, change management, global dynamics, intercultural understanding and collaboration.

The goal of this certificate program is to foster leadership in the FIU student body by encouraging a consideration of leadership from multiple perspectives and contexts. Through involvement with the campus and community, students will become engaged in their own professional leadership education and development.

**Requirements**

The Certificate Program requires completion of 18 credit hours of coursework. Students must earn a "C" or better in courses for the Certificate.

All students are required to take 3 core courses (9 credits) which include an introductory course, values and ethics course, and a global perspectives course. Students fulfill the remaining 9 credits by taking 3 electives consistent with their academic and career objectives, one of which must be in Public Administration and one from another area in the School of International and Public Affairs (SIPA).

**Required Courses: (9 credits)**

**Public Policy Studies Certificate Program**

David K. Twigg, *Interim Director, Institute for Public Policy and Citizenship Studies*

**Coordinating Committee:**

Harvey A. Averch, *Public Administration*
J. Scott Briar, *Social Work*
Lisandro O. Perez, *Global and Sociocultural Studies*
Raul Moncarz, *Economics*
Rebecca A. Salokar, *Politics and International Relations*

The academic Certificate Program in Public Policy Studies is an interdisciplinary certificate program. It provides degree-seeking students with a critical understanding of how public policy is created, how it is implemented, and how it transforms daily life.

Besides providing the students with a wide range of interdisciplinary perspectives on public policy, the certificate program also provides students with practical experience by placing them in internships with public and political organizations in South Florida, Tallahassee, and Washington, D.C. For those students looking for careers in public policy, this experience could well be crucial.

**Requirements**

The certificate program requires completion of 21 semester hours of college credit. POS 2042 American Government is recommended as a prerequisite course. All students must then complete a common core of coursework by selecting one course from each of the following three core course categories for a total of nine hours. Then, the student must fulfill the requirements of one of the three internship tracks: Federal Policy, (12 hours), State Policy (12 hours), or Local Policy (12 hours).

**Core Courses: (9)**

1) Select one of the following three hour courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>

<td>Principles of Microeconomics</td>
<td>3</td>
</tr>
</tbody>
</table>
ECO 3011  Economics and Society - Macro    3
ECO 2013  Principles of Macroeconomics    3

2) Select one of the following three hour courses:
   POS 3424  The Legislative Process    3
   PAD 3033  Administrators and the Legislative Process    3
   PAD 4223  Public Sector Budgeting    3

3) Select one of the following three (3) semester hour Certificate Courses listed below. Students are encouraged to take a public policy issues course in their major, if it is offered, to satisfy this requirement.

Certificate Courses

The following courses fulfill certificate requirements for core courses and those exercising the Local Policy track. This is a partial list. The student should consult with the IPPCS about current course offerings. Other courses may be substituted upon approval of the IPPCS. Transfer students may only transfer up to two courses from institutions previously attended. The program is intended to expand student options, and complement other certificate programs.

Biology
BSC 5825  Wildlife Biology

- SYO 3250 School and Society
- SYO 4571 Organizations and Society
- SYP 3520 Criminology
- SYP 3530 Delinquency
- SYP 4730 Sociology of Aging

**Public Policy Tracks**

**Federal Policy (Intern Semester - 12 hours)**
This internship is offered during the summer and involves the student taking an internship with a governmental, nongovernmental, or political organization in the nation's capital. The specifics of the internship are agreed upon by the student and the IPPCS advisor and the student receives six semester hours of credit. The student attends an intensive two week course at FIU before leaving for the internship. While in Washington, all FIU interns are required to attend a course designed to inform them of the workings of public policy on the national and international levels: students receive three hours of credit for a seminar in Washington. Students are responsible for their own room and board, although the Institute assists as much as possible in arranging housing and financial aid. The Washington, D.C. internship option is worth a total of 12 semester hours.

- PUP 4004 Public Policy: U.S. (Cross-listed with PAD 3034 Public Policy and its Administration (Pre-internship Seminar))
- PAD 4024 Concepts and Issues in Public Administration (Cross-listed with PUP 4931 Topics in Public Policy: Federal Policy Making, to be offered in Washington, D.C.)

Students are to register for the internship, field study or independent study course in their department (e.g., PAD 4940, POS 4944, POS 4941)

**State Policy (Intern Semester - 12 hours)**
Students with senior status are placed in nonpaying internships in State of Florida government agencies. Advisors from the IPPCS work with students to determine which agency is most suitable, depending upon the student's interests. This internship is held during the Spring Term in order to coincide with the State's legislative session. Students attend an intensive two week introductory course at FIU before leaving for Tallahassee. While in Tallahassee, in addition to their internship responsibilities, which are worth six semester hours, students attend a once a week seminar with other interns. This class will be coordinated by the IPPCS and features guest lecturers from governmental and political organizations. Although the students are responsible for their own room and board, the Institute helps to arrange housing and assists in the application for financial aid. The Tallahassee Internship option is worth a total of 12 semester hours.

- PUP 4004 Public Policy: U.S. (Crosslisted with PAD 3034: Public Policy and its Administration (Pre-Internship Seminar))
PAD 4024 Concepts and Issues in Public Administration 3
(Crosslisted with POS 4122 State Government & Politics (Seminar), to be offered in Tallahassee.)

Supervised Spring Internship in Tallahassee 6

Students are to register for the internship, field study or independent study course in their department (e.g., PAD 4940, POS 4944, POS 4941)

Local Policy (Intern Semester - 12 hours)

This option may be the most viable for those who want to earn the certificate, but who are unable to leave South Florida for an internship. This option is designed to be as flexible as possible. The nature of this option is worked out between the student and the IPPCS advisor. The student receives three credit hours for whichever courses are completed, including a local internship. Courses must be taken in at least two different disciplines, at least one being outside the student's departmental major. Core courses may not count toward the fulfillment of these requirements.

PUP 4004 Public Policy: U.S. 3
Cross-listed with PAD 3034: Public Policy and its Administration (students may enroll in the regular semester course or a pre-internship seminar)

Urban Policy Elective 3

Students may select one of the following:

SYD 4410 Urban Sociology 3
POS 3152 Urban Politics 3
POS 3283 The Judicial Process 3
or

One of the following: (3)
POS 4941 Legislative Internship 3
PAD 4940 Public Administration Internship 3
POS 4944 Judicial Internship 3

Certificate Course Elective (3)

South and Southeast Asia Area Studies

Certificate Program

Steven Heine, Director, Asian Studies
Nathan Katz, Religious Studies

Coordinating Committee
Mahadev Bhat, Earth and Environment
Krishnan Dandapani, Finance, CBA
Vrushali Patil, Women’s Studies and Global and Sociocultural Studies
Andrea Seidel, Theatre and Dance

This certificate program offers an 18-credit sequence of courses and is intended to provide students with a rich learning experience about an increasingly important region of the world, and is intended to enhance the student’s competitiveness upon graduation. The program provides a multidisciplinary approach covering issues in geography, history, politics, religion, sociology/anthropology, and international relations

Prescribed Courses and Other Requirements

All students are to choose from the courses listed below with the approval of the Director with a grade of C or better. These courses represent a partial list; students should consult with an advisor for the certificate program about current course offerings and a full list of courses accepted for the certificate.

ASH 4384 History of Women in Asia
EUI 4520 England in the 18th Century
ECS 3021 Women, Culture, and Economic Development
ECS 3200 Economics of Asia
EVR 3402 Asian Environmental Issues
FIN 3652 Asian Financial Markets and Institutions
INR 3081 Contemporary International Problems
INR 4082 Islam in International Relations
LIT 4197 Global Asian Literature
PHH 3810 Philosophy of Buddhism
PHH 3840 Indian Philosophy
REL 3026 Folk Religions in Asia and the World
REL 3310 Introduction to Asian Religions
REL 3330 Religions of India
REL 4312 Jews of Asia
REL 3340 Survey of Buddhism
SYA 3810 Gender and Power in Asia

In addition to the courses listed above, relevant special topics, independent study, study abroad credits, and area studies or comparative studies courses may also be applied.

Language: There is no specific language requirement to be met, although it is recommended.

For more information, contact the Asian Studies office, SIPA 505. Email: asian@fiu.edu; phone: (305) 348-1914; website: http://asian.fiu.edu.

Certificate Program for the Study of Sephardic and Oriental Jewry

Zion Zohar, Director and Chair
(Religious Studies, Sephardic/Oriental Studies)
Joyce Peterson, Steering Committee
Ronald Fisher, Psychology
Rebecca Friedman, History
Abraham Lavender, Global and Sociocultural Studies
Asher Milbauer, English
Meri-Jane Rochelson, English

The President Navon Program for the Study of Sephardic and Oriental Jewry provides academic training in Sephardic and Oriental Jewish Studies and offers lectures and seminars by FIU faculty and other locally, nationally, and internationally renowned scholars and artists. Our outreach programs encourage close ties and cooperation between the academic and lay communities locally, nationally, and internationally.

The President Navon Program for Sephardic and Oriental Jewry is based at the Biscayne Bay Campus. However, courses are offered at both of FIU’s Biscayne Bay and Modesto A. Maidique Campuses.

The certificate in Sephardic and Oriental Studies is an interdisciplinary program within the College of Arts and
Sciences, with an emphasis in the humanities and social sciences. The program is offered to students currently enrolled in Bachelor's degree programs as well as to those who already have a Bachelor's degree in any field of study.

Requirements: (18 credits)
The Sephardic Studies certificate requires a total of 18 credits distributed among the following categories:

A. Courses in Sephardic and Oriental Studies
Students must take at least 3 of the following classes (9 credits)
REL 4610 Jews of Arab Lands in the Middle Ages 3
REL 3695 The Golden Age of Sephardic Jewry 3
SYD 4606 World Jewish Communities 3
REL 4697 Sephardic Jewry Colloquium 3
REL 4626 Jewish Sephardic Thought 3
REL 4312 Jews of Asia 3
REL 3627 Kabbalah and the Bible 3
REL 4623 Peace, War, and Kabbalah 3
REL 4694 Kabbalah and Sexuality 3
REL 3392 Jewish Mysticism 3
EUH 4312 History of Spain 3

The remaining courses should be taken from the courses listed in all the categories mentioned below.

B. General Courses in Jewish Culture and Society
LIT 3170 Topics in Literature and Jewish Culture 3
AMM 4300 Major American Writers 3
ENL 4412 Anglo-Jewish Literature: 19th Century to the Present 3
REL 3630 American Judaism 3
REL 4613 The Modernization of Judaism 3
WOH 3282 Modern Jewish History 3
REL 3220 Moses, Priests, and Prophets 3
REL 3270 Biblical Theology 3
REL 3320 Moses, Jesus, Muhammad 3
INR 3274 International Relations of the Middle East 3
GEA 3635 Population and Geography of the Middle East 3
REL 3625 Introduction to Talmud 3
REL 3607 Judaism 3
PHH 3260 Medieval Philosophy 3
REL 3601 The Ethics of Judaism 3
REL 3672 Religion and Society in Israel 3
SYD 4703 Depiction of Jews in Film 3

Additional courses may appear from semester to semester.
The Director or the Director’s delegate in the Sephardic and Oriental Jewry program must approve all courses taken for the certificate.
All courses credited to the certificate must be passed with a grade of "C" or better.

C. Independent Study and Internship
Students may earn up to 6 credits towards the certificate through one of the following methods:
REL 4943 Independent Study on Sephardic Jewry 1-6
REL 4944 Internship in Sephardic Jewish Organization 1-3

Students wishing to take an independent study or internship must have permission from the Director of the program or the Director’s delegate, and a clear plan of study before enrolling in the class. The Director of the program may approve courses by faculty outside the program. The Director can also provide additional information on the study abroad options.

D. Languages
Though it is not mandatory for this certificate, students are encouraged to take a class or demonstrate a competency (through examination) in the following languages.

HBR 1130 Hebrew I 5
HBR 1131 Hebrew II 5
HBR 2200 Intermediate Hebrew 3
ARA 1130 Arabic I 5
ARA 1131 Arabic II 5
ARA 2200 Intermediate Arabic 3

Certificate Program in the Study of Spirituality
Nathan Katz, Director
Constance Bates, Management and International Business
Whitney Bauman, Religious Studies
Robert Dollinger, College of Medicine
Steven Heine, Religious Studies and History
Andrea Mantell-Seidel, Religious Studies and Dance
Kalai Mathee, College of Medicine
Clifford Perry, College of Business Administration
Nestor Torres, Music

The School of International and Public Affairs Undergraduate Certificate Program in the Study of Spirituality is designed for health science and nursing students, pre-med, pre-law, psychology, nursing, fine and performing arts, education majors, and students in other relevant disciplines, for whom such a credential would be of professional or personal value.

In its traditional contexts in the world’s religious traditions, spirituality involves those philosophies and practices leading to experiences of transcendence described as ‘union with a Higher Reality or with Nature’, ‘discipleship’, ‘enlightenment’, closeness to God, or ‘egolessness'. In recent times, these principles of spirituality – the intimate connections between mind and body, the relativeness of discursive knowledge, techniques and conceptions about a non-material order – have been applied to various professions and such human endeavors as the health sciences, education, psychotherapy, the performing, visual and literary arts, entrepreneurship, and so on.

The Undergraduate Certificate Program in the Study of Spirituality grounds students in these traditional forms of spirituality through a foundation course, REL 3027 Meditation and Mystical Traditions and is offered regularly, often on-line, by the Department of Religious Studies. It serves as a grounding in the methods pertinent for the study of spirituality, as well as literacy in the world’s traditions of spirituality.

The certificate will include five additional courses in both traditional and "applied" spirituality selected according to a student’s professional goals or personal interests, in consultation with a Program Director.
ensure a multidisciplinary approach, no more than half of a student's program may come from any one department.

**College of Architecture and The Arts**

**Art and Art History**
- ARH 3210 Early Christian and Byzantine Art
- ARH 4504 Primitive Art

**Dance**
- DAN 3764 The Art of Yoga & Meditation

- SOW 5109 Crises in the Lives of Women

**Translation Studies Certificate Program**

*Erik Camayd-Freixas, Director*

*DM-491A; (305) 348-6222; Erik.Camayd@fiu.edu*

This professional certificate is designed to train students in the techniques and skills needed for the translation (English < > Spanish) of texts, documents, and general correspondence. It also provides the background and introductory professional courses needed for future study or work in the field of translation. The program consists of 27 semester hours.

Through its academic track, the certificate program offers complementary studies for the practitioner who wants to strengthen his or her competence in this field.
Requirements

Prerequisites
ENC 3200 Business Letters and Reports 3
SPN 3302 Review Grammar and Writing 3
Others by approval. No credits allowed.

Core Courses: (6)
SPT 3800 Foundations of Translation 3
SPT 3812 Foundations of Interpreting 3

Required Courses (Select 5): (15)
FOT 3810 Creative Writing Translation 3
SPT 4803 Practica in Legal Translation 3
SPT 4805 Translation in Communication Media 3
SPT 4807 Practica in Business Translation 3
SPT 4808 Practica in Technological Translation 3
SPT 4820 Computer Aided Translation 3
SPT 4941 Professional T/I Internship 3

Free Electives
Two Courses from the following:
ACG 2021 Accounting for Decisions 3
COP 2172 Programming in BASIC 3
ECO 2023 Principles Microeconomics 3
ECO 2013 Principles Macroeconomics 3
HUN 2201 Principles of Nutrition 3
INR 3403 International Law 3
JOU 3100 News Reporting 3
MAN 4602 International Business 3
MAN 4701 Business and Society 3
HSC 3537 Medical Terminology 3
HIM 3437 Fundamentals of Medical Science 3
RTV 3301 Broadcasting for Reporting (Prerequisite JOU 3343L) 3
SYG 3002 The Basic Ideas of Society 3

In addition to these subjects, the free electives may be chosen from the offerings in the departments of Global and Sociocultural Studies, Communication, Computing and Information Sciences, Economics, Politics and International Relations, and Modern Languages by securing the approval of the Director of the Program.

Certificate in Urban Affairs

The certificate program requires completion of 15 credit hours of course work. Students are encouraged to take introductory courses in microeconomics and political science before enrolling in the program. All students are required to take a common introductory course—Introduction to Urban and Regional Studies—and two other core courses. Then students fulfill certificate requirements by taking two electives consistent with their academic and career objectives.

Requirements

Required Course: (3)
PAD 3802 Introduction to Urban and Regional Studies 3

Core Courses: (6)
Students must take two of the following four courses:
POS 3142 Urban Politics 3
ECP 3613 Introduction to Urban Economics 3

SYD 4610 Urban Sociology 3
URP 5313 Introduction to Urban Planning and Growth Management 3

Electives
Students must take two courses from the following list to complete certificate requirements:

College of Business
MAN 4065 Business Ethics 3
MAN 4102 Women and Men in Management 3
MAN 4120 Managing Virtual Teams 3
MAN 4701 Business and Society 3
MAN 4731 Modern Business History 3
MAN 4742 Environmental Management 3

Architecture and The Arts
ARC 4058 Fundamentals of Digital Design 3
LAA 5715 Architectural History and Theory 3

Economics
ECP 3123 Economics of Poverty 3
ECP 4143 Economics of Racism 3

Education
EDF 3521 Education in History 3
EDF 3723 Schooling in America 3

Dietetics and Nutrition
DIE 3317 Dietetics and Community Health 3
HUN 3191 World Nutrition 3

Department of Policy and Management
CCJ 3011 The Nature and Causes of Crime 3
CJE 4410 Police and the Community 3
HSA 3111 Health and Social Service Delivery Systems 3
PAD 3804 Government and Administration of Metropolitan Areas 3
URS 4112 Computer Applications for Urban Services 3
URS 5505 Economic Development and Urban Revitalization 3

Politics and International Relations
POS 4074 Latino Politics 3
POS 4122 State Government and Politics 3
POS 4152 Conflict and Change in American Cities 3
POS 4154 Topics in Urban Politics and Policy 3
POS 4314 American Ethnic Politics 3

Global and Sociocultural Studies
ANT 3442 Urban Anthropology 3
SYD 3620 Miami: An Urban Laboratory 3
SYG 2010 Social Problems 3

Women’s Studies Certificate Program

Core Faculty:
Laurie Shrage, Director, Women’s Studies and Professor of Philosophy
Dawn Addy, Director, Center for Labor Research and Studies/Women’s Studies
Maya Boutaghou, Assistant Professor, Women’s Studies/Modern Languages
Aurora Morcillo, Associate Professor of Women’s Studies/History
Vrushali Patil, Assistant Professor, Women’s
The Women’s Studies Undergraduate Certificate provides an opportunity for students to integrate scholarship about women and gender differences from a variety of disciplines into a coherent program of study. The Certificate Program includes a core of required courses central to an understanding of gender issues in a social and historical context. The courses provide a basic grounding in Women’s Studies that should be useful in many majors and in preparation for graduate study and professional training. The core courses are supplemented by a variety of electives to be chosen according to the student’s specific interests. Students may enroll in the Certificate Program or take courses as electives. See: http://casgroup.fiu.edu/wstudies and click on “Academics”.

The program also offers a Bachelor of Arts in Women’s Studies. For information about the major, refer to the Women’s Studies section in the Arts and Sciences undergraduate major section.

The Center is located in DM 212, Modesto A. Maidique Campus, (305) 348-2408. Students may contact the Women’s Studies Center at the above location, or by email: wstudies@fiu.edu. To contact the Director or an advisor, go to: http://casgroup.fiu.edu/wstudies and click on “People”.

Requirements

All students entering the undergraduate certificate program in Spring 2004 will have to fulfill the requirements for the new core concentration. All students admitted as certificate earners before the Spring 2004 semester will need to fulfill the old core concentration requirements. A student may acquire the Certificate in Women’s Studies by fulfilling the following requirements:

- **Suzanna Rose**, Director, School of Integrated Science and Humanity, College of Arts and Science, and Professor, Psychology
- **Affiliated Faculty:**
  - Irma de Alonso, Economics
  - Clair Apodaca, Politics and International Relations
  - Maria Aysa, Global and Sociocultural Studies
  - Joan Baker, English
  - Ginette Ba-Curry, English
  - Lynne Barrett, English
  - Whitney Bauman, Religious Studies
  - Pascale Bècèl, Modern Languages
  - Michelle Beer, Philosophy
  - Ana Maria Bidegain, Religious Studies
  - Steven Blevins, English
  - Kristine Burns, Music
  - Cynthia Chinelly, English
  - Cyra Akila Choudhury, Law
  - Ellen Cohn, Criminal Justice
  - Carol Damian, Art and Art History and Frost Museum
  - Yesim Darici, Physics
  - Debra Dean, English
  - Alexandra Diallo, History and African and African Diaspora Studies
  - Denise Duhamel, English
  - Asia Eaton, Psychology and Business
  - Cristina Eguizabal, LACC
  - Joyce Elam, Business Administration
  - Juliet Erazo, Global and Sociocultural Studies
  - Caroline Faria, Global and Sociocultural Studies
  - Rebecca Friedman, History
  - Jose Gabilondo, Law
  - Marin Gillis, College of Medicine
  - Hugh Gladwin, Global and Sociocultural Studies
  - María Asunción Gómez, Modern Languages
  - Aya Gruber, Law
  - Christine Gudorf, Religious Studies
  - Kimberly Harrison, English
  - Marilyn Hoder-Salmon, English
  - Gail Hollander, Global and Sociocultural Studies
  - Tometro Hopkins, English
  - Cecile Houry, Honors College
  - Sherry Johnson, History
  - Tara Kai, English
  - Jack Kelban, Management and International Business
  - Suzanne Koptur, Biological Sciences
  - Tatiana Kostadinova, Politics and International Relations
  - Abe Lavender, Global and Sociocultural Studies
  - Mary Levitt, Psychology
  - Felice Lifshitz, History
  - Maria del Mar Lograno, History
  - Oscar Loya, Women’s Studies
  - Ana Luszczynska, English
  - Sarah Mahler, Global and Sociocultural Studies
  - Peggy Maisel, Law
  - Jennifer Matey, Philosophy
  - Kathleen McCormack, English
  - Marilyn Montgomery, Education
  - Michaela Moura-Kocoglu, Women’s Studies
  - Aisha Musa, Religious Studies
  - Glenda Musoba, Education
  - Juan Odio, Criminal Justice
  - Veronica Owles, Women’s Studies
  - Anna Pasztor, Computing and Information Sciences
  - Joseph Patrouch, History
  - Valerie Patterson, Public Administration
  - Linnea Pearson, Religious Studies
  - Joyce Peterson, History
  - Mary Lou Pfeiffer, Honors College
  - Bianca Premo, History
  - Patricia Price, Global and Sociocultural Studies
  - Ana Roca, Modern Languages
  - Meri-Jane Rochelson, English
  - Heather Russell, English
  - Rebecca Salokar, Politics and International Relations
  - Renne Silverman, Modern Languages
  - Linda Spears-Bunton, Education
  - Dionne Stephens, Psychology
  - Judith Stiehm, Politics and International Relations
  - Andrew Strycharski, English
  - John Stuart, Architecture
  - James Sutton, English
  - Juan Torres-Pou, Modern Languages
  - Nan Van Den Bergh, Social Work
  - Gisela Vega, Student Affairs
  - Chantalle Verna, History
  - Mercedes Vigon, International Media Center
  - Ophelia Weeks, Biology
  - Barbara Weitz, English
  - Kirsten Wood, History
Three required Core Courses from the following:

I. WST 3015  Introduction to Women's Studies
or WST 3641/ IDS 4920  Gay and Lesbian Across Societies
or PHM 4123  Philosophy and Feminism

II. SOP 3742  Psychology of Women
or SYD 3804  Sociology of Gender
or ECS 3021  Women Culture and Economic Development

III. ANT 3302  Anthropology of Sex and Gender
or AMH 3560  History of Women in the U.S.
or EUH 4312  History of Modern Spain from a Gender Perspective

IV. REL 3145  Women and Religion
or LIT 3383  Women in Literature (or any English elective listed below)
or WST 4504  Feminist Theory

Three electives from the following list:

Women’s Studies:
WST 3015  Introduction to Women’s Studies
WST 3641  Gay and Lesbian Across Societies
WST 4504  Feminist Theory
WST 4905  Independent Study
WST 4930  Special Topics
WST 4940  Internship
WST 5507  Feminist Theory
WST 5946  Internship
WST 5905  Independent Study
WST 5935  Special Topics

African and African Diaspora Studies:
AFA 4930/5005  AADS Theory

History:
AMH 3560  History of Women in the United States
AMH 4561  Early American Women’s History
AMH 4562  Modern American Women’s History
AMH 4930  Topics in US History: Early American Women’s History
AMH 5905  Readings in Am. History: Women and Gender in the U.S.
ASH 4384  History of Women in Asia
EUH 3181  Medieval Culture
EUH 3576  Russian Revolution/Soviet Union: Gender, Politics & Society
EUH 4025  Saints, Relics, & Miracles in Medieval Europe
EUH 4286  Top In Europ. Hist: The Spanish Civil War
EUH 4312/5935  History of Women in Modern Spain
EUH 4610  Women and Gender in Europe, 1750 to Present
EUH 5905  Read. in Europ. Hist: Saints in Europe & the Americas

Economics:
ECP 3254  Women, Men & Work in the USA
ECS 3021  Women, Culture and Economic Development

English:
AML 3415  Am. Lit. & Tradition of Dissent: Rehearsing Feminism
AML 4300/5305  Maj. Am. Lit. Fig.: Cather, Chopin, Wharton

Bray, David B., Ph.D. (Brown University), Professor, Earth and Environment

Breslin, Thomas A., Ph.D. (University of Virginia), Professor, Politics and International Relations

Brinn, Richard, Ph.D. (University of Sao Paulo State), Lecturer, Biological Sciences

Brookes, David T., Ph.D. (Rutgers University), Assistant Professor, Physics

Brown, Jerald B., Ph.D. (Cornell University), Associate Professor, Global and Sociocultural Studies

Bruk-Lee, Valentina, Ph.D. (University of South Florida), Assistant Professor, Psychology

Bull, Jesse L., Ph.D. (University of California-San Diego), Assistant Professor, Economics

Burkepile, Deron E., Ph.D. (Georgia Institute of Technology), Assistant Professor, Biological Sciences

Byrnes, Patrick J., M.P.A. (Florida International University), Instructor, Criminal Justice

Cadely, Jean-Robert J., Ph.D. (Universite du Quebec-Montreal), Associate Professor, Modern Languages

Cadle, Nathaniel E., Ph.D. (University of North Carolina-Hill), Assistant Professor, English

Cai, Yong, Ph.D. (Nankai University, China), Professor, Chemistry and Biochemistry and Southeast Environmental Research Center

Camayd-Freixas, Erik, Ph.D. (Harvard University), Professor, Modern Languages

Cao, Chongsheng, Ph.D. (University of California-Irvine), Associate Professor, Mathematics and Statistics

Carton, Joel D., Ph.D. (University of Oregon), Lecturer Economics

Casines, Gisela P., Ph.D. (University of Florida), Associate Professor, English and Associate Dean, College of Arts and Sciences

Castells, Ricardo E., Ph.D. (Duke University), Professor, Modern Languages

Chapagain, Prem P., Ph.D. (Florida International University), Assistant Professor, Physics

Charman, Stephen D., Ph.D. (Iowa State University), Assistant Professor, Psychology

Chatfield, David C., Ph.D. (University of Minnesota), Associate Professor and Chairperson, Chemistry and Biochemistry

Chen, Chun-Fan, Ph.D. (University of Michigan), Associate Professor, Biological Sciences

Chen, Z. Sherman, Ph.D. (University of Texas-Dallas), Associate Professor, Mathematics and Statistics

Cheng, Shaoming, Ph.D. (George Mason University), Assistant Professor, Public Administration

Chernela, Janet, Ph.D. (Columbia University), Professor Emerita, Global and Sociocultural Studies

Chinelly, Cynthia C., M.F.A. (University of Arkansas), Senior Lecturer, English

Chisik, Richard, Ph.D. (Northwestern University), Associate Professor, Economics

Chung, Bongkil, Ph.D. (Michigan State University), Professor, Philosophy

Cigales, Maricel, Ph.D. (Florida International University), Instructor and Associate Chairperson, Psychology

Clark, John F., Ph.D. (University of Virginia), Professor, Politics and International Relations

Clem, Ralph, Ph.D. (Columbia University), Professor Emeritus, Global and Sociocultural Studies

Clement, Bradford, Ph.D. (Columbia University), Professor, Earth and Environment

Cohn, Ellen G., Ph.D. (University of Cambridge), Associate Professor, Criminal Justice

Collado-Vides, Claudia Maria, Ph.D. (National University of Mexico), Lecturer, Biological Sciences

Collins, Laurel S., Ph.D. (Yale University), Associate Professor, Earth and Environment and Biological Sciences

Collins, Timothy M., Ph.D. (Yale University), Professor, Biological Sciences

Cook, N. David, Ph.D. (University of Texas-Austin), Professor, History

Cornelius-Diallo, Alexandra, Ph.D. (Washington University), Assistant Professor, History and African and African Diaspora Studies

Cox, Ronald W., Ph.D. (University of Wisconsin), Associate Professor, Politics and International Relations

Craemer, Peter R., Ph.D. (Columbia University), Associate Professor, Global and Sociocultural Studies

Creeden, Michael K., M.F.A. (Florida International University), Instructor, English

Crosby, James, Ph.D. (Yale University), Professor Emeritus, Modern Languages

D'Alessio, Stewart J., Ph.D. (Florida State University), Professor, Criminal Justice

Darici, Yesim, Ph.D. (University of Missouri), Associate Professor, Physics

Daruwala, Maneck H., Ph.D. (University of Rochester), Associate Professor, English

Davies, Gwyn, Ph.D. (University College, London), Associate Professor, History

de Alonso, Irma, Ph.D. (University of York, England), Professor Emerita, Economics

De Caprio, Anthony P., Ph.D. (Albany Medical College), Associate Professor, Chemistry and Biochemistry

De Carli, Laura, Ph.D. (University of California-Los Angeles), Associate Professor, Mathematics and Statistics

Dean, Debra L., M.F.A. (University of Oregon), Assistant Professor, English

Debrix, Francois, Ph.D. (Purdue University), Associate Professor, Politics and International Relations

Delgado, Milagros P., Ph.D. (University of Miami), Lecturer, Chemistry and Biochemistry

Demos, Marian, Ph.D. (Harvard University), Associate Professor, Humanities and Modern Languages

DePalo, Kathryn A., Ph.D. (Florida International University), Instructor, Politics and International Relations

Dick, Anthony S., Ph.D. (Temple University), Assistant Professor, Psychology

Dick, Shannon Pruden, Ph.D. (Temple University), Assistant Professor, Psychology

Dickson, Vernon G., Ph.D. (Arizona State University), Assistant Professor, English
Dinar, Shlomi, Ph.D. (The Johns Hopkins University), Associate Professor, Politics and International Relations
Donnelly, Maureen A., Ph.D. (University of Miami), Professor, Biological Sciences and Associate Dean, College of Arts and Sciences
Draghici, Tedi C., Ph.D. (Michigan State University), Associate Professor, Mathematics and Statistics
Draper, Grenville, Ph.D. (University of the West Indies, Jamaica), Professor, Earth and Environment
Dufresne, John L., M.F.A. (University of Arkansas), Professor, English
Duhamel, Denise L., M.F.A. (Sarah Lawrence College), Professor, English
Dulanto, Andrea C., M.F.A. (Florida International University), Instructor, English
Dunn, Marvin, Ph.D. (University of Tennessee), Associate Professor Emeritus, Psychology
Edward, Julian K., Ph.D. (Massachusetts Institute of Technology), Professor, Mathematics and Statistics
Eguizabal, Cristina, Ph.D. (Universite de Paris III, Sorbonne Nouvelle), Professor, Politics and International Relations and Director, Latin American and Caribbean Center
Elmore, Darrel R., Ph.D. (Arizona State University), Lecturer, English
Erazo, Juliet S., Ph.D. (University of Michigan), Assistant Professor, Global and Sociocultural Studies
Erber, Joan T., Ph.D. (St. Louis University), Professor, Psychology
Fatovic, Clement M., Ph.D. (Cornell University), Associate Professor, Politics and International Relations
Fiebig, Rudolf, Ph.D. (University of Munster, Germany), Professor, Physics
Finley, Gordon E., Ph.D. (Harvard University), Professor, Psychology
Fisher, Ronald P., Ph.D. (Ohio State University), Professor, Psychology
Fjellman, Stephen, Ph.D. (Stanford University), Professor Emeritus, Global and Sociocultural Studies
Flexon, Jamie L., Ph.D. (State University of New York at Albany), Assistant Professor, Criminal Justice
Fourquarean, James W., Ph.D. (University of Virginia), Professor, Biological Sciences and Southeast Environmental Research Center
Fox, Dominika, M.S. (University of Miami), Instructor, Mathematics and Statistics
Francisco-Ortega, Javier, Ph.D. (University of Birmingham, Great Britain), Associate Professor, Biological Sciences
Frank, Howard A., Ph.D. (Florida State University), Professor, Public Administration
Frazier, Leslie D., Ph.D. (Syracuse University), Associate Professor, Psychology
Friedman, Rebecca, Ph.D. (University of Michigan), Associate Professor, History
Furton, Kenneth G., Ph.D. (Wayne State University), Professor, Chemistry and Biochemistry and Dean, College of Arts and Sciences
Gaiser, Evelyn E., Ph.D. (University of Georgia), Associate Professor, Biological Sciences and Southeast Environmental Research Center
Gamarr, Eduardo, Ph.D. (University of Pittsburgh), Professor, Politics and International Relations
Ganapati, Nazife Emel, Ph.D. (University of Southern California), Assistant Professor, Public Administration
Ganapati, Sukumar, Ph.D. (University of Southern California), Associate Professor, Public Administration
Gantar, Miroslav, Ph.D. (University of Novi Sad, Yugoslavia), Instructor, Biological Sciences
Garcia, Maria A., M.A. (University of Miami), Senior Instructor, Modern Languages
Garcia, Myriam, M.A. (Florida International University), Instructor, Modern Languages
Garcia-Zamor, Jean-Claude, Ph.D. (New York University), Professor, Public Administration
Gardinali, Piero R., Ph.D. (Texas A&M University), Associate Professor, Chemistry and Biochemistry and Southeast Environmental Research Center
Geoge, Florence, Ph.D. (University of South Florida), Assistant Professor, Mathematics and Statistics
Gerstman, Bernard S., Ph.D. (Princeton University), Professor, Physics
Gewirtz, Jacob L., Ph.D. (University of Iowa), Professor, Psychology
Ghai, Gauri, Ph.D. (Iowa State University), Associate Professor, Mathematics and Statistics
Gibbs, Jenna M., Ph.D. (University of California-Los Angeles), Assistant Professor, History
Gillespie, Michael P., Ph.D. (University of Wisconsin), Professor, English
Gillespie, Paula F., Ph.D. (University of Wisconsin), Associate Professor, English and Director, Center for Excellence in Writing
Girard, Chris S., Ph.D. (University of Wisconsin), Associate Professor, Global and Sociocultural Studies
Gladwin, Hugh, Ph.D. (Stanford University), Associate Professor, Global and Sociocultural Studies and Director, Institute for Public Opinion Research
Goldberg, Walter M., Ph.D. (University of Miami), Professor, Biological Sciences
Golden, Andrew P., M.F.A. (Florida International University), Instructor, English
Goldin, Liliana, Ph.D. (State University of New York at Albany), Professor, Global and Sociocultural Studies
Gomez, Maria Asuncion, Ph.D. (Rutgers University), Associate Professor, Modern Languages
Gomez, Ramon, M.S. (University of Miami), Senior Instructor, Mathematics and Statistics
Gorman, Susan J., Ph.D. (University of Maryland), Senior Instructor, Mathematics and Statistics
Gould, Harry D., Ph.D. (The Johns Hopkins University), Assistant Professor, Politics and International Relations
Grantcharov, Gueo, Ph.D. (Sofia University, Bulgaria), Associate Professor, Mathematics and Statistics
Graves, A. Palmer, Ph.D. (University of Oklahoma), Senior Lecturer and Associate Chairperson, Chemistry and Biochemistry
Grenier, Guillermo J., Ph.D. (University of New Mexico), Professor, Global and Sociocultural Studies
Gross, Michael R., Ph.D. (Pennsylvania State University), Associate Professor, Earth and Environment
Gruenewald, Jeffrey A., Ph.D. (Michigan State University), Assistant Professor, Criminal Justice
Gudorf, Christine E., Ph.D. (Columbia University), Professor, Religious Studies
Guerette, Rob T., Ph.D. (University of North Carolina, Charlotte), Associate Professor, Criminal Justice
Gulati, Sneh, Ph.D. (University of South Carolina), Professor and Associate Chair, Mathematics and Statistics
Gummerson, Alan, Ph.D. (University of Wisconsin), Senior Lecturer, Economics
Guo, Hai, Ph.D. (Georgia State University), Assistant Professor, Public Administration
Guo, Lei, Ph.D. (University of Vanderbilt), Assistant Professor, Physics
Guo, Sheng, Ph.D. (University of Chicago), Assistant Professor, Economics
Hardy, Kenneth, Ph.D. (Tulane University), Professor Emeritus, Physics
Hargitai, Peter J., M.F.A. (University of Massachusetts), Senior Lecturer, English
Harris, Kenton S., Ph.D. (University of Miami), Lecturer, Philosophy and Assistant Dean, College of Arts and Sciences
Harrison, Kimberly L., Ph.D. (Louisiana State University), Associate Professor, English
Harvey, Bruce A., Ph.D. (Stanford University), Associate Professor, English and Associate Director, School of Environment, Arts, and Society
Hauptli, Bruce, Ph.D. (Washington University), Professor, Philosophy
Hefferman, James B., Ph.D. (Arizona State University), Assistant Professor, Biological Sciences and Southeast Environmental Research Center
Heine, Steven, Ph.D. (Temple University), Professor, Religious Studies; Director, Asian Studies Program; and Associate Director, School of International and Public Affairs
Heinen, Joel T., Ph.D. (University of Michigan), Professor, Earth and Environment
Heithaus, Michael R., Ph.D. (Simon Fraser University, Canada), Associate Professor, Biological Sciences and Director, School of Environment, Arts, and Society
Heinen, Veronique A., Ph.D. (Centre d’Etudes Africaines, France), Assistant Professor, History
Henley, Kenneth I., Ph.D. (University of Virginia), Professor, Philosophy
Herriott, Arthur, Ph.D. (University of Florida), Professor, Chemistry and Biochemistry
Hickey-Vargas, Rosemary L., Ph.D. (Massachusetts Institute of Technology) Professor and Chairperson, Earth and Environment
Hill, Kevin A., Ph.D. (University of Florida), Associate Professor, Politics and International Relations
Hoder-Salmon, Marilyn, Ph.D. (University of New Mexico), Lecturer, English
Hollander, Gail M., Ph.D. (University of Iowa), Associate Professor, Global and Sociocultural Studies
Hopkins, Tometro, Ph.D. (Indiana University), Associate Professor, English
Houle, Patricia A., M.S. (Florida International University), Instructor, Earth and Environment
Huang, Kai, Ph.D. (Michigan State University), Assistant Professor, Mathematics and Statistics
Huchingson, James, Ph.D. (Emory University), Professor Emeritus, Religious Studies
Hudson, Steven, Ph.D. (University of Chicago), Associate Professor, Mathematics and Statistics
Iotov, Mirroslov T., Ph.D. (Sofia University, Bulgaria), Assistant Professor, Mathematics and Statistics
Jaccard, James J., Ph.D. (University of Illinois), Professor, Psychology
Jaffe, Rudolf, Ph.D. (Indiana University), Professor, Chemistry and Biochemistry and Southeast Environmental Research Center
Jayachandran, Krishnaswamy, Ph.D. (Kansas State University), Associate Professor, Earth and Environment and Southeast Environmental Research Program
Jensen, John B., Ph.D. (Harvard University), Professor, Modern Languages
Jiang, Haiyan, Ph.D. (University of Utah), Assistant Professor, Earth and Environment
Joens, Jeffrey A., Ph.D. (Indiana University), Professor, Chemistry and Biochemistry
Johnson, Kenneth E., Ph.D. (Brown University), Associate Professor, English
Johnson, Paulette, Ph.D. (Kansas State University), Lecturer, Mathematics and Statistics and Director of Statistical Consulting
Johnson, M. Sherry, Ph.D. (University of Florida), Associate Professor, History
Jorge, Antonio, Ph.D. (Universidad de Villanueva, Cuba), Professor Emeritus, Economics, Politics and International Relations and Global and Sociocultural Studies
Juan-Navarro, Santiago, Ph.D. (Columbia University), Professor, Modern Languages
Kafkoulis, George, Ph.D. (California Institute of Technology), Associate Professor, Mathematics and Statistics
Kakar Sirpal, Suman, Ph.D. (University of Florida), Associate Professor, Criminal Justice
Kaminsky, Howard, Ph.D. (University of Chicago), Professor Emeritus, History
Karayalcin, Ali Cem, Ph.D. (Columbia University), Professor and Chairperson, Economics
Katz, Nathan, Ph.D. (Temple University), Professor, Religious Studies
Kavallieratos, Konstantinos, Ph.D. (Yale University), Associate Professor, Chemistry and Biochemistry
Keller, Leonard S., Ph.D. (Yale University), Professor, Chemistry and Biochemistry and Director, Liberal Studies Program
Kibria, Golam M., Ph.D. (University of Western Ontario), Associate Professor, Mathematics and Statistics
Kim, Leong, Ph.D. (Rutgers University), Associate Professor, Biological Sciences
Kincaid, A. Douglas, Ph.D. (The Johns Hopkins University), Associate Professor, Global and Sociocultural Studies
Komura Birtwell, Naoko, M.Ed. (University of Massachusetts-Lowell), Instructor, Modern Languages
Koptur, Suzanne, Ph.D. (University of California-Berkeley), Professor, Biological Sciences
Kostadinova, Tatiana P., Ph.D. (Florida State University), Associate Professor, Politics and International Relations
Kouemou, Solange P., Ph.D. (University Louis Pasteur, Strasbourg, France), Instructor, Mathematics and Statistics
Kovacs, George, Ph.D. (University of Louvain), Professor, Philosophy
Kowert, Paul A., Ph.D. (Cornell University), Associate Professor, Politics and International Relations
Kramer, Laird H., Ph.D. (Duke University), Associate Professor, Physics
Kriegel, Lara H., Ph.D. (The Johns Hopkins University), Associate Professor, History
Kurtines, William M., Ph.D. (The Johns Hopkins University), Professor, Psychology
Landrum, John T., Ph.D. (University of Southern California), Professor, Chemistry and Biochemistry and Director, Office of Pre-Health Professions Advising
Larson, Erik W., Ph.D. (New York University), Associate Professor and Chairperson, Religious Studies
Lauren, Benjamin S., M.A. (Florida State University), Instructor, English
Lavender, Abraham D., Ph.D. (University of Maryland), Professor, Global and Sociocultural Studies
Layman, Craig A., Ph.D. (Texas A&M University), Assistant Professor, Biological Sciences
Leatherman, Stephen P., Ph.D. (University of Virginia), Eminent Scholar, Earth and Environment
Leckband, Mark A., Ph.D. (Purdue University) Associate Professor, Mathematics and Statistics
Lee, David, Ph.D. (Rutgers University), Professor, Biological Sciences
Lee, Jungmin, Ph.D. (University of Texas), Assistant Professor, Economics
Lees, Watson J., Ph.D. (Harvard University), Associate Professor, Chemistry and Biochemistry
Leness, Thomas G., Ph.D. (Columbia University), Associate Professor, Mathematics and Statistics
Leng, Fenfei, Ph.D. (University of Mississippi), Associate Professor, Chemistry and Biochemistry
Levitt, Barry Steven, Ph.D. (University of North Carolina-Chapel Hill), Assistant Professor, Politics and International Relations
Levitt, Mary J., Ph.D. (Syracuse University), Professor and Chairperson, Psychology
Li, Bao Qin, Ph.D. (University of Maryland), Professor and Chairperson, Mathematics and Statistics
Li, Wenzhi, Ph.D. (Chinese Academy of Sciences), Associate Professor, Physics
Li, Xiaosheng, Ph.D. (University of California-Los Angeles), Assistant Professor, Mathematics and Statistics
Lichtenstein, Alexander C., Ph.D. (University of Pennsylvania), Associate Professor, History
Lichter, Joseph, Ph.D. (Emory University), Instructor, Chemistry and Biochemistry
Lickliter, Robert, Ph.D. (University of California-Davis), Professor, Psychology
Lifshitz, Felice, Ph.D. (Columbia University), Professor, History
Liossatos, Panagis S., Ph.D. (University of Pennsylvania), Professor Emeritus, Economics
Lipartito, Kenneth J., Ph.D. (The Johns Hopkins University), Professor and Chairperson, History
Liu, Hong, Ph.D. (Florida International University), Assistant Professor, Earth and Environment
Liu, Yuan, Ph.D. (University of Rochester), Assistant Professor, Chemistry and Biochemistry
Logroño-Narbona, Maria del Mar, Ph.D. (University of California-Santa Barbara), Assistant Professor, History
Longoria, Jose F., Ph.D. (University of Texas-Dallas), Professor, Earth and Environment
Lopez, Tania Cepero, M.A. (Florida International University), Instructor, English
Lopez de la Vega, Ramon, Ph.D. (University of Miami), Associate Professor, Chemistry and Biochemistry
Lowery, Shearon A., Ph.D. (Washington State University), Associate Professor, Global and Sociocultural Studies
Lucas, Russell E., Ph.D. (Georgetown University), Associate Professor, Politics and International Relations
Luszczynska, Ana G., Ph.D. (State University of New York-Buffalo), Assistant Professor, English
Ma, Li, M.A. (University of Miami), Instructor, Modern Languages
MacDonald, Charles G., Ph.D. (University of Virginia), Professor, Politics and International Relations
MacFarlane, Andrew W., Ph.D. (Harvard University), Associate Professor, Earth and Environment
Machonis, Peter A., Ph.D. (Pennsylvania State University), Professor, Modern Languages
Mahler, Sarah J., Ph.D. (Columbia University), Associate Professor, Global and Sociocultural Studies
Maingot, Anthony, Ph.D. (University of Florida), Professor Emeritus, Global and Sociocultural Studies
Makemson, John C., Ph.D. (Washington State University), Professor, Biological Sciences
Malloy, Lindsay C., Ph.D. (University of California-Irvine), Assistant Professor, Psychology
Mantell-Seidel, Andrea M., D.A. (New York University), Professor, Religious Studies
Marcus, Phillip L., Ph.D. (Harvard University), Professor, English
Markowitz, Peter E., Ph.D. (College of William and Mary), Professor, Physics
Marr, Matthew David, Ph.D. (University of California-Los Angeles), Assistant Professor, Global and Sociocultural Studies
Martin, Felix E., Ph.D. (Columbia University), Associate Professor, Politics and International Relations
Martin, Kathleen R., Ph.D. (Bryn Mawr College), Associate Professor, Global and Sociocultural Studies
Martinez, Ramiro, Jr., Ph.D. (Ohio State University), Professor, Criminal Justice
Mashav, Asuka, M.A. (Florida State University), Instructor, Modern Languages
Matey, Jennifer J., Ph.D. (State University of New York-Stony Brook), Assistant Professor, Philosophy
Maurrasse, Florentin, Ph.D. (Columbia University), Professor, Earth and Environment
Maxwell, Jr., Oren V., Ph.D. (State University of New York-Stony Brook), Professor, Physics
McClain, Michael, Ph.D. (University of Washington), Associate Professor, Earth and Environment
McCord, Bruce R., Ph.D. (University of Wisconsin), Professor, Chemistry and Biochemistry
McCormack, Kathleen, Ph.D. (University of Miami), Professor, English
McGrath, Campbell, M.F.A. (Columbia University), Patricia and Phillip Frost Professor in English
McGuckian, Dane, M.S. (Florida International University), Instructor, Mathematics and Statistics
McIntire, Carmela Pinto, Ph.D. (Michigan State University), Associate Professor, English
Mebel, Alexander M., Ph.D. (Kurnakov’s Institute of General and Inorganic Chemistry, Russian Academy of Science), Associate Professor, Chemistry and Biochemistry
Meldrum, Ryan C., Ph.D. (Florida State University), Assistant Professor, Criminal Justice
Melesse, Assefa M., Ph.D. (University of Florida), Associate Professor, Earth and Environment
Merleaux, April R. (Yale University) Assistant Professor, History
Messbahi, Mohiaddin S., Ph.D. (University of Miami), Associate Professor, Politics and International Relations
Messersmith, Eric T., Ph.D. (University of Miami), Lecturer, Asian Studies
Meziani, Abdelhamid, Ph.D. (Rutgers University), Professor, Mathematics and Statistics
Mi, Jie, Ph.D. (University of Pittsburgh), Professor, Mathematics and Statistics
Michel, Jesse S., Ph.D. (Wayne State University), Assistant Professor, Psychology
Mikosvka, Jaroslava, Ph.D. (Charles University, Prague), Assistant Professor, Chemistry and Biochemistry
Milbauer, Asher Z., Ph.D. (University of Washington-Seattle), Professor, English
Mills, De Etta Kay, Ph.D. (George Mason University), Lecturer, Biological Sciences
Mintz, Stephan, Ph.D. (The Johns Hopkins University), Professor, Physics
Miralles-Wilhelm, Fernando, Ph.D. (Massachusetts Institute of Technology), Associate Professor, Earth and Environment
Moon, Joong-Ho, Ph.D. (POSTECH, Pochang, Korea), Assistant Professor, Chemistry and Biochemistry
Morcillo, Aurora, Ph.D. (University of New Mexico), Associate Professor, History and Women’s Studies
Moran, Gary, Ph.D. (Katholieke University, Nijmegen, Netherlands), Professor Emeritus, Psychology
Moreno, Dario, Ph.D. (University of Southern California), Associate Professor, Politics and International Relations
Morrow, Betty, Ph.D. (University of Miami), Professor Emerita, Global and Sociocultural Studies
Mozumder, Pallab, Ph.D. (University of New Mexico), Assistant Professor, Earth and Environment and the International Hurricane Center
Murray, Kenneth E., Ph.D. (University of Colorado), Assistant Professor, Biological Sciences
Nadel, Richard, M.S. (Northwestern University), Instructor, Mathematics and Statistics
Narayanan, Rajamani S., Ph.D. (University of California-Davis), Associate Professor, Physics
Nelson, Brian, Ph.D. (University of California-Riverside), Associate Professor Emeritus, Politics and International Relations
Neshkova, Milena I., Ph.D. (Indiana University), Assistant Professor, Public Administration
Neumann, Roderick P., Ph.D. (University of California Berkeley), Professor and Chairperson, Global and Sociocultural Studies
Newman, Meredith A., Ph.D. (Deakin University), Professor and Chairperson, Public Administration
Noriega, Fernando G., Ph.D. (Universidad Nacional La Plata, Argentina), Associate Professor, Biological Sciences
Northup, Lesley, Ph.D. (Catholic University), Associate Professor, Religious Studies and Interim Dean, Honors College
Oberbauer, Steven F., Ph.D. (Duke University), Professor, Biological Sciences
Ogden, Laura A., Ph.D. (University of Florida), Associate Professor, Global and Sociocultural Studies
Olson, Richard S., Ph.D. (University of Oregon), Professor and Chairperson, Politics and International Relations
Onsted, Jeffrey A., Ph.D. (University of California-Santa Barbara), Assistant Professor, Earth and Environment and Global and Sociocultural Studies
Onuf, Nicholas, Ph.D. (The Johns Hopkins University), Professor Emeritus, Politics and International Relations
O’Shea, Kevin E., Ph.D. (University of California-Los Angeles), Professor, Chemistry and Biochemistry and Interim Dean, University Graduate School
Oslander, Ulrich, Ph.D. (University of Glasgow), Assistant Professor, Global and Sociocultural Studies
Parker, Janat, Ph.D. (University of California-Berkeley), Professor Emerita, Psychology
Parker, John, Ph.D. (University of California-Berkeley), Professor Emeritus, Earth and Environment and Chemistry and Biochemistry
Patil, Vrushali B., Ph.D. (University of Maryland), Assistant Professor, Global and Sociocultural Studies and Women’s Studies
Patrouch, Joseph F., Ph.D. (University of California-Berkeley), Associate Professor, History
Patterson, Valerie L., Ph.D. (Florida International University), Assistant Professor, Public Administration
Pearl, Jason H., Ph.D. (Boston University) Assistant Professor, English
Pearson, Madga Novelli, M.A. (Universia’ Ca’ Foscari, Venice, Italy), Instructor, Modern Languages
Pelham, William E., Jr., Ph.D. (State University of New York-Stony Brook), Professor, Psychology
Perez, Lisandro, Ph.D. (University of Florida), Professor, Global and Sociocultural Studies
Perez-Stable, Marifeli, Ph.D. (State University of New York-Stony Brook), Professor and Associate Chairperson, Global and Sociocultural Studies
Peterson, Brian, Ph.D. (University of Wisconsin-Madison), Associate Professor, History
Peterson, Joyce, Ph.D. (University of Wisconsin-Madison), Associate Professor, History
Petitt, Jeremy W., Ph.D. (Florida State University), Associate Professor, Psychology
Piggush, Yvette R. (University of Chicago), Assistant Professor, English

Mission Statement
The College of Business Administration exists to create enduring educational value for our students, for our alumni, and for the business, professional, and academic communities we serve:

For our students—whom we prepare to succeed in a rapidly changing, technology-driven global business environment;

For our alumni—to whom we provide opportunities for continuing professional development and a legacy that appreciates as our excellence grows;

For the business and professional communities—to whom we offer knowledgeable graduates, educational programs, research, and collaborative projects;

For the academic community—to whom we bring new knowledge through high-quality research and the development of future scholars.

Our vision is to create a College of Business Administration that is distinguished among urban public business schools as a center for global business education, technology, and research. Our most noteworthy teaching and research expertise lies in the business arenas linking South Florida, Latin America, and the world economy.

The College offers undergraduate, graduate, professional education, customized training, and executive education programs to enterprises around the world. While continuing to meet the needs of students in the South Florida community, we are intensifying our educational service delivery to international students and enterprises, especially those in Latin America.

In all of our programs, we strive to instill in students a profound understanding of the changing nature of international business in an integrated and digital global economy. We ensure they are well versed in the impact information technology is having on how enterprises are organized and managed and on how products and services are created and marketed. We provide them with a solid grasp of business processes, the ability to think critically and to solve problems ethically, and the sense to conduct oneself with integrity and within the context of social and environmental responsibility. We foster their commitment to lifelong learning in a dynamic, complex, and competitive world.

Our faculty engage in basic and applied research and in instructional development to contribute not only to the general knowledge base in the field of business but also to the ways in which this knowledge is created and shared. The College boasts a state-of-the-art information technology infrastructure that enables us to provide leading-edge instruction and research, including online course delivery. At the same time, our IT investment supports our ongoing curricular innovation in related fields like enterprise-wide computing and logistics.

Organization
The College is organized into the Alvah H. Chapman, Jr. Graduate School of Business, the R. Kirk Landon Undergraduate School of Business, the School of Accounting and the Departments of Decision Sciences and Information Systems, Finance, Management and International Business, and Marketing.

The College also houses several centers of excellence dedicated to teaching, research, and service. These include the Jerome Bain Real Estate Institute, the Ryder Center for Supply Chain Systems, the Knight Ridder Center for Excellence in Management, the Office of Professional Education, the Office of Executive Education, the Global Center for Entrepreneurship and Innovation, and the Center for International Business Education and Research.

Degree Programs
Through its Landon Undergraduate School, the College of Business Administration (CBA) offers academic programs leading to the undergraduate degrees of Bachelor of Business Administration (BBA) and Bachelor of Accounting (BACC). Through its Chapman Graduate School, CBA offers graduate degrees of Master of Accounting (MACC), Master of Business Administration (MBA), Master of International Business (MIB), Master of Science in Finance (MSF), Master of Science in Management with a track in Information Systems (MSMIS), Master of Science in Taxation (MST), Executive Master of Science in Taxation (EMST), Master of Science in Human Resources Management (MSHRM), and Doctor of Philosophy in Business Administration (Ph.D.).
R. Kirk Landon Undergraduate School of Business

Undergraduate Degree Programs
Professional BBA Programs (PBBA)

In addition to traditional academic programs leading to the undergraduate degrees of Bachelor of Business Administration (BBA) and Bachelor of Accounting (BACC) the College offers three innovative undergraduate programs that enable students to pursue their career full-time. These programs, referred to as the PBBA Weekend program, the PBBA Sunrise program, and the PBBA Online Program consist of a series of lock-step courses that lead to a Bachelor of Business Administration (BBA) degree with a Management major in a concentrated time span. Each class admitted to these programs proceeds through the curriculum as a group. Students in the PBBA Weekend Program attend classes on Saturday only and complete their degree requirements in 21 months. Students in the PBBA Sunrise Program attend early-morning, 90-minute classes three times per week followed by extensive use of online learning. Students in the cohort-based PBBA Online Program take all courses in the online learning environment. This technology-assisted learning enables students in the Sunrise and Online programs to complete their degree requirements in 18 months. All three PBBA programs charge tuition plus additional fees for value-added services and are limited to a select number of students. For additional information, including admission requirements, please contact the program manager (305) 348-4052, email: ProfessionalBBA@fiu.edu or visit http://business.fiu.edu.

Undergraduate Majors

Major programs leading to the Bachelor’s degree are offered in Accounting, Finance, International Business, Management, Human Resource Management, Management Information Systems, Marketing, and Real Estate. Also offered within the management major are tracks in the following areas: Entrepreneurship, Green Management, and Leadership and Change Management. Students are encouraged to visit the undergraduate student services website for additional information and assistance: http://business.fiu.edu.

Undergraduate Double and Triple Majors

Students in the CBA have the ability to graduate with a double or triple business major. Students may take any combination of the 8 majors. The process of admitting a student to a double or triple major is as follows:

1. The student must complete the second or triple major form. The student must be fully admitted to the primary major at the time the second or triple major request is submitted.
2. Upon admission to the double or triple major, the student may apply up to a maximum of three (3) major courses (9 semester hours) from the primary major’s major course requirements to the second major. A maximum of three (3) major courses (9 semester hours) from the primary and secondary major course requirements may be applied to the triple major.

Special note for Accounting students: When a student declares accounting as a double or triple major, accounting is always considered the “primary major”.

Special note for students taking International Business Honors as a second or triple major:
- BUL 4310 Legal Environment of Business may be taken instead of INR 3403 if the student is a CBA double or triple major.
- ECO 3202 Applied Macroeconomics may be taken instead of ECO 3203 Intermediate Macroeconomics if the student is a CBA double or triple major.

Undergraduate Minors

The College offers several minors for undergraduate, non-business students: a minor in Business, a minor in Marketing, and a minor in Entrepreneurship. For admission to the Business and Entrepreneurship minors, students need a 3.0 GPA; for the Marketing, students need a 2.5 GPA. All minor students must be fully admitted to their major in another college. Business majors are not eligible for a minor.

Students opting for a minor in business must complete the following five courses at Florida International University and obtain a minimum grade of “C” in each of the five courses (15 credit-hours):

- ACG 3024 Accounting for Managers and Investors
- FIN 3140 Personal Financial Management
- MAR 3023 Marketing Management
- MAN 3025 Organization and Management
- CGS 3300 Introduction to Information System

All courses counting towards the minor must be taken at FIU.

The minor in Entrepreneurship is discussed in the “Management and International Business” section of this catalog; the minor in Marketing is discussed in the “Marketing” section of this catalog.

Undergraduate Degree Programs

Admission Requirements

Applicants to the College of Business Administration must submit an Application for Admission to the University and follow regular University admission procedures. Applicants must meet the University’s requirements for admission before being eligible for admission to the College. To be eligible for acceptance into an undergraduate program in the College of Business Administration, students must have:

1. Completed 60 semester hours of course work or have completed the Associate in Arts degree or its equivalent;
2. Satisfied general University requirements for admission, including, the University’s Core Curriculum requirements;
3. Met the University’s lower division requirements, including CLAS;
4. Completed all of the seven pre-core courses or their equivalent;
5. Achieved a minimum grade point average of 3.0 or higher. Upper level business courses taken are not included in this GPA computation;
6. If applicant is an international student whose native language is not English, have achieved a minimum score of 500 on the paper-based TOEFL, 173 on the
computer-based TOEFL. [International applicants should study the “General Admission” requirements for foreign students in the “Admissions” section of this catalog.]

In addition, students who expect to earn a Bachelor’s degree in the College within the equivalent of two years should have completed the following as part of the 60 semester hours of lower-division course work: six credit hours of accounting; six credit-hours of economics; four credit-hours of calculus; three credit-hours of business statistics; and three credit-hours of computer applications.

**Admission Deadlines**

Students applying for admission to the CBA must submit all admission forms and documentation by the following deadlines.

- Fall admissions: June 1
- Spring admissions: October 1
- Summer admissions: March 1

Space within the College of Business is limited; students are strongly advised to apply early. The CBA reserves the right to close admissions earlier than the above dates.

**Readmission**

Students who have been admitted into an undergraduate program in the College, but who have not enrolled in any course at the University for two or more consecutive semesters (excluding summer) must complete an application for readmission. Students eligible for readmission are subject to the University’s and the College’s degree program’s regulations in effect at the time of readmission.

**Program of Study**

Once accepted into an undergraduate program in the College, students must complete a formal “Program of Study” before the end of their first semester of course work. To make a program counseling appointment, students should log into the Advising website at [business.fiu.edu](http://business.fiu.edu), click on undergraduate student, and make an appointment with an advisor. During these appointments, the College’s advisors will help students complete their formal “Program of Study”. Any questions about course work and degree requirements will be resolved in establishing this official “Program of Study”.

**Upper-division Transfer**

Students may be able to transfer previously-earned credit towards upper-division study in the College if 1) the credit was designated as junior or senior level at an accredited, four-year, upper-level institution, and 2) the student earned a grade of “C” or higher, or the credit can be validated by some acceptable measure to verify its equivalence. Students wishing to transfer to the college must be in good standing at their previous school or college.

**Change of Major**

Students who wish to change from a major in another college or school within the university to a new major within the College of Business Administration must meet the degree requirements in effect at the time of the change of major.

**Computer Literacy Requirement**

Before students can enroll in CGS 3300 (or ACG 4401), they must demonstrate computer literacy proficiency. They can meet this requirement by completing CGS 2100 – Introduction to Micro-computers or an equivalent course and receiving a grade of “C” or higher in the course.

**Residency Requirement**

Students must complete the last 30 semester hours of course work at the University to qualify for an undergraduate degree.

**Study Abroad**

The maximum number of credit-hours allowed to undergraduate students for participating in a study-abroad program is six (6).

**Additional Policies**

1. Undergraduate students majoring in subjects outside the College of Business will not be permitted to apply more than 30 semester hours of business courses toward their degree.
2. Undergraduate students who register for any graduate business course must be formally admitted to a graduate degree program at the university following the university’s admission procedures.
3. Faculty has the discretion to administratively drop students who do not attend the first class of a course.

**Undergraduate Degree Program Requirements**

In general, students who can earn a bachelor’s degree from the College of Business Administration will have completed professional work that includes:

1. Pre-core courses as necessary;
2. Required courses designed to provide students with a common body of knowledge that includes:
   a. Concepts and processes in the production, financing and marketing of goods and services in a business enterprise or organization, both domestically and internationally;
   b. The economic and legal environments of and the ethical, social, and political influences on profit and non-profit organizations;
   c. Concepts and applications in accounting, quantitative methods, computers and management information systems;
   d. Organizational theory and behavior and interpersonal communication;
   e. Administrative and decision-making processes in climates of uncertainty, including policy analysis at the highest management levels.
3. Required courses in major;
4. Approved upper division business elective courses.

**Academic Standards**

To earn an undergraduate degree from the College of Business Administration, all students must:

1. Earn a grade of “C” or higher in all major courses and in core courses within their major area of study.
2. Satisfy the requirements of their respective programs of study and satisfy all university requirements for graduation.

The College adheres strictly to the university’s dismissal policy.

Students should be sure to read and understand Florida International University’s policies regarding “Academic Warnings, Probation, and Dismissals” as described in the “General Information” section of this catalog. These policies apply to all students in the College of Business Administration.

In addition to satisfying the degree requirements specified in the university’s “General Information” section of the catalog, students in the College of Business Administration must have completed the following course work:

**Pre-Core Courses (3 credit-hours each)**

<table>

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

**Business Core Courses (30 Credit-hours)**

The business core courses listed below are required for all undergraduate students in the College of Business Administration. Listed with them are the prerequisites (where applicable) for each of the business core courses.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit-Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CGS 3300</td>
<td>Introduction to Information Systems*</td>
<td>3</td>
</tr>
</tbody>
</table>

*These courses should not be taken by students majoring in Accounting. Instead, Accounting majors must take ACG 4401 Accounting Information Systems and BUL 4320 Business Law.

**NOTE:** Students admitted before Fall 2011 can take either COM 3150, Advanced Communication for Business or COM 3110, Business and Professional Communication.

**Prerequisite Requirements**

Prerequisite course requirements for entry into upper level courses will be enforced. Students will be administratively dropped from courses when they lack the required prerequisite course or courses. With the implementation of Panthersoft, the College will begin enforcing prerequisites at the time of registration.

**Note:** The programs, policies, requirements, and regulations listed in this catalog are subject to continual review in order to meet the needs of the University’s various publics and to respond to the mandates of the Florida Board of Education and the Florida Legislature. Changes may be made without advance notice. Please refer to the “General Information” section of this catalog for the university’s policies, requirements, and regulations.

Purpose

Our mission as a School of Accounting in an internationally-focused public research university is to:

- Foster an environment of intellectual curiosity, diversity of thought, and integrity;
- Provide a diverse student body with excellence in accounting education in order to succeed as business professionals and leaders as well as valued members of society;
- Prepare students for advancement in the accounting profession through specialized masters programs that strengthen professional competencies;
- Serve the academic community through scholarly research, colloquia, and the training of future accounting educators;
- Promote opportunities for professional development, lifelong learning and networking for our alumni and accounting professionals in the local, national and global community.

Bachelor of Accounting (BACC)

The objective of the BACC program is to prepare students for positions in public, private sector, corporate, and governmental accounting. To qualify for positions in public accounting, students must take the CPA examination, which, in Florida, requires an additional 30 credit-hours beyond the BACC degree.

The Bachelor of Accounting program also prepares students to pursue advanced degrees in accounting, business, or law.

Degree Program Requirements (120 credit-hours)

Lower Division/Pre-Core

The “General Information” section in this catalog describes the lower division requirements. The Business Pre-Core requirements are listed in the first section of this “College of Business Administration” chapter. Students must complete all lower division and Business Pre-core requirements no later than the first semester of their third year of undergraduate study.

Upper Division/Business Core

The College’s Business Core Requirements are listed in the first section of this “College of Business Administration” chapter.

Accounting Electives (6 hours) and upper division electives (6 hours)

All accounting courses must be taken at Florida International University. Courses from other universities are not transferable unless approved in advance by the Director of the School of Accounting.

Academic Standards and Policies

1. Students must earn a minimum grade of ‘C’ in all 4000 level accounting, business law, and tax courses.
2. Students not achieving a grade of ‘C’ or better in two enrollments in any course will be dropped automatically from the Accounting program. In extenuating circumstances, students may be able to continue in the program after filing a written appeal to the Continuation and Retention Committee. Appeals should be addressed to the Director, School of Accounting. A student may have no more than three re-enrollments.
3. Students who wish to take more than two accounting and tax courses in one semester must file a formal request to do so with the Continuation and Retention Committee.
4. Prerequisites for all accounting and tax courses are strictly enforced.
5. The course, ACG 4101 Financial Accounting, requires successful completion of an entrance exam as a prerequisite: Students may take the entrance exam no more than three times. If a student fails to pass the exam after three attempts, they will be required to seek another major outside the School of Accounting.

6. Students taking accounting and tax courses are expected to seek counsel from an academic advisor before registering.

7. Students who work more than 20 hours per week are urged to discuss the composition of their schedule and number of courses they should take with an academic advisor before registering.

Purpose

The purpose of the Department of Decision Sciences and Information Systems is to provide students with the knowledge and ability to design, develop, and implement information systems that will help enterprises solve their problems effectively. Students will be given a solid foundation in the design, use, and management of databases, enterprise systems, telecommunications technology, information security, and electronic commerce systems. The department offers courses in management information systems, management science, and production and operations management, and business statistics at both the graduate and undergraduate levels.

Management Information Systems Major

Undergraduate business students can opt to major in Management Information Systems (MIS). This major provides students with the background they need to give informational support for decision-making, design databases and systems including electronic commerce systems and data communications systems, and understand the project management aspects in organizations.

Graduates will be prepared for entry-level positions in MIS, either in user- or system-oriented departments.

Degree Program Requirements (120 credit hours)

Lower-Division/Business Pre-Core          60 hours
Upper-Division/Business Core          30 hours
Major Courses          24 hours
Business Electives            6 hours

Upper-Division/Business Pre-Core

The “General Information” section in this catalog describes the lower division requirements. The Business Pre-Core requirements are listed in the first section of this “College of Business Administration” chapter. Students must complete all lower division and Business Pre-Core requirements no later than the first semester of their third year of undergraduate study.

Upper Division/Business Core

The College’s Business Core Requirements are listed in the first section of this “College of Business Administration” chapter.

Major Courses (3 credit-hours each)

ISM 3153           Enterprise Information Systems
ISM 4400           Management Support Systems
ISM 4220           Business Data Communications
ISM 4210           Data Base Applications
ISM 4054           Introduction to Web Management
ISM 4113           Systems Analysis and Design
ISM 4151           Systems Management
ISM 4323           Information Security Management

Upper Division Business Electives

Students may take two business electives among the following courses:

ISM 3430           Organizational Impacts
ISM 4949           Cooperative Education in MIS II

or

Additional courses offered by the department

or

All electives outside the College of Business must receive the approval of the Department Chair. A list of approved courses is available from CBA advisors.

Academic Standard

The Department of Decision Sciences and Information Systems requires that students receive a grade of “C” or higher in all major courses, and a passing grade in business electives in order to remain in the degree program.

Certificate in Business Intelligence (CBI)

The Certificate in Business Intelligence is designed for those who are interested in acquiring expertise and skills
in the emerging area of business intelligence. Business intelligence (BI) is a term that refers to the set of technologies, tools and procedures used to collect, store, and share data to perform data analysis, produce reports and improve decision-making. This certificate is designed to help students acquire the expertise and set of skills needed to successfully manage and deliver BI, and to provide students an understanding of the business domain where BI is applicable.

The core program consists of following four required and two electives undergraduate business courses. Students who receive a grade of “C” or higher in all courses, will be presented with a Certificate in Business Intelligence.

The four required courses are:
QMB 3200      Applications of Quantitative Methods in Business
ISM 4210       Data Base Applications
ISM 4400       Management Support System
ISM 4402       Business Intelligence and Reporting

The two elective courses for the Certificate in Business Intelligence should be chosen from the following:
MAR 4503  Consumer Behavior
MAR 4860  Customer Relationship Management
MAR 4613  Managing Marketing Information
MAR 4620  Tools for Managing Marketing Information
ISM 4054  Introduction to Web Management
FIN 3403  Financial Management
FIN 4502  Securities Analysis
FIN 4594  Financial Software Applications

Certificate in Project Management (CPM)
The Certificate in Project Management is designed for those who are interested in acquiring expertise and skills in the growing discipline of project management. Since project is the basic unit through which companies organize and manage their business activities, project management skills translate directly to success for business professionals in all fields. Therefore, this certificate is designed to be open to all to help them acquire the set of basic expertise and skills to be able to effectively manage projects upon completion of the certificate.

The core program consists of following four required and two electives undergraduate business courses. Students who receive a grade of “C” or higher in each of the courses, will be presented with a Certificate in Project Management.

The four required courses are:
MAN 4504  Operations Management
MAN 4583  Productivity and Project Management
ISM 4113  System Analysis and Design
ISM 3153  Enterprise Information Systems

The two elective courses for the Certificate in Project Management should be chosen from the following:
ISM 4151  Systems Management
MAN 4711  Business-Community Leadership
MAN 4301  Human Resource Management
MAN 4164  Leadership
MAN 4064  Crisis Management
Finance and Real Estate

Purpose

The Department of Finance and Real Estate seeks to provide students with solid theoretical and practical knowledge in the areas of banking, corporate finance, investments, portfolio management, financial risk management, financial engineering, financial institutions, markets, and international finance.

The Department of Finance and Real Estate also offers an undergraduate major in Real Estate. Real Estate students are provided with a comprehensive exposure to the real estate industry with an emphasis on international real estate, the quantification of real estate decisions, the financing of real estate, and the financial markets that support real estate activities. Many students combine both real estate and finance majors by earning a double major in real estate and finance.

Finance Major

Undergraduate business students can opt to pursue a Finance major. Those who do so graduate prepared to enter positions in corporations, financial institutions, brokerage firms, investment banks, and government. They also are prepared for post-graduate studies in all areas of business.

Finance Major Learning Objectives

1. Identify the functions of financial markets and institutions and examine their impact on the level of interest rates and interest rate differentials.
2. Investigate advanced time value of money concepts and extend these concepts to mortgage mathematics, commercial mathematics, and capital budgeting.
3. Explore the international integration of financial markets and analyze implications for financial managers.
4. Examine the nature of the commercial banking business. Ascertain the measures of bank return and risk performance and how they are applied to bank valuation decisions and management performance assessment.
5. Identify and analyze derivative instruments and strategies used by investors and corporations to hedge financial risks. Emphasis will be placed on identification of financial risk and designing optimal risk management strategies.
6. Determine and analyze the appropriate measures of risk and return for various financial instruments. Understand the mechanics and regulation of financial securities exchanges.

Degree Program Requirements
(120 credit-hours)

| Lower-Division/Business Pre-Core | 60 hours |
| Upper-Division/Business Core     | 30 hours |
| Major Courses                   | 21 hours |
| Upper Division Business Electives| 9 hours  |

Lower Division/Pre-Business Core

The “General Information” section in this catalog describes the lower division requirements. The Business Pre-Core requirements are listed in the first section of this “College of Business Administration” chapter. Students must complete all lower division and Business Pre-Core requirements no later than the first semester of their third year of undergraduate study.

Upper Division/Business Core

The College’s Business Core Requirements are listed in the first section of this College of Business Administration chapter. To be eligible to take any of the major courses, including all the electives in the Department of Finance and Real Estate, students must have earned a grade of “C” or higher in FIN 3403 or its equivalent. All electives outside the College of Business must receive the approval of the Department Chair.

Upper Division Business Electives

All electives outside the College of Business must receive the approval of the Department Chair. A list of approved courses is available from CBA Advising.
Major Courses (3 credit-hours each)
FIN 4604 International Finance
FIN 4303 Financial Markets and Institutions
FIN 4604 International Finance or
FIN 4634 International Banking
FIN xxxx Finance Elective or
REE xxxx Real Estate Elective

Real Estate Major
Undergraduate business students can opt to pursue a Real Estate major. Students graduating with a degree in real estate are prepared to work in various positions with financial institutions, commercial brokerage firms, mortgage companies, investment management entities, appraisal firms, property management companies, and residential brokerage firms. Some students opt for entrepreneurial activities associated with the investment in and management of real property.

Real Estate Major Learning Objectives
1. Develop a conceptual understanding of the functions of real estate markets, real estate practices, and real estate institutions.
2. Familiarize students with the nature of the legal environment of real estate.
3. Appraise the real estate development opportunities in the commercial real estate markets for residential, warehouse, retail, and industrial properties.
4. Develop student’s analytical skills to solve specific problems or issues related to the analysis or real estate financing alternatives.

Degree Program Requirements
(120 credit-hours)
Lower-Division/Business Pre-Core 60 hours
Upper-Division/Business Core 30 hours
Major Courses 21 hours
Upper Division Business Electives 9 hours

Lower Division/Pre-Business Core
The “General Information” section in this catalog describes the lower division requirements. The Business Pre-Core requirements are listed in the first section of this “College of Business Administration” chapter. Students must complete all lower division and Business Pre-Core requirements no later than the first semester of their third year of undergraduate study.

Upper Division/Business Core
The College’s Business Core Requirements are listed in the first section of this “College of Business Administration” chapter.

Upper Division Business Electives
All electives outside the College of Business must receive the approval of the Department Chair. A list of approved courses is available from CBA Advising.

Major Courses (3 credit-hours each)
REE 3043 Real Estate Principles
REE 4204 Real Estate Finance
REE 4303 Real Estate Investment
REE 4433 Legal Environment of Real Estate
REE 4956 International Real Estate

Academic Standard
The Department of Finance and Real Estate requires that students fulfill the following requirements in order to remain in a degree program:

a. receive a grade of "C" or higher in each of the courses in their major
b. receive a grade of "C" or higher in the core course (FIN 3403)
c. earn a grade of "C" or higher in each Upper Division business elective

It is also strongly recommended that Finance majors join the Financial Management Association Student Chapter and participate actively in its events.

To improve the learning experience, to assure learning and to ensure employers of the quality of a graduate with a Finance or Real Estate major, all Finance and Real Estate majors will take a comprehensive examination of their knowledge and skills toward the end of their course of study.

Certificate in Banking (CIB)
The Certificate in Banking is designed to train current and future bankers, as well as those who simply want to earn a Certificate with or without also pursuing an academic degree. The core program consists of four undergraduate Finance courses. Students who receive a grade of “C” or higher in all courses, both prerequisite and core, will have earned and will be presented with a Certificate in Banking. Students wishing to participate in more than one certificate program MAY NOT use the same course(s) to satisfy the requirements. When necessary, appropriate substitute courses will be designated by the program’s coordinator. A grade of “C” or higher is required in each course.
Prerequisites: FIN 3403 (Financial Management), ACG 2021 (Accounting for Decisions), and ECO 2013 (Principles of Macro Economics), FIN 3414 (Intermediate Finance), and FIN 4502 (Securities Analysis), in addition to a minimum GPA of 2.75.

2. FIN 4303 Financial Markets and Institutions: Financial markets and the role of financial intermediaries in these markets. Emphasis will be upon the objectives and policies of financial intermediaries within the constraints of law and regulatory authorities.
3. FIN 4324 Commercial Bank Management: The management of bank assets and liabilities; specialized banking, functions; and the role of the commercial bank in financing business.
4. FIN 4345 Credit Analysis and Loan Evaluation: Topics to include: introduction to commercial lending; secured lending; accounts receivable financing and factoring; inventory financing; introduction to lending vehicles; short term lending; domestic taxation; consolidations; forecasting and intermediate term cash flow lending; term loan agreements/covenants; subordinations and guarantees; foreign exchange; international transactions and leasing.

or

FIN 4663 Global Private Banking: This course seeks to provide the students with an understanding of the nature of the global private banking, its role in preserving, augmenting and protecting wealth and how it is shaped by a sometimes-controversial need for confidentiality.

Certificate in International Bank Management (CIBM)

The Certificate in International Bank Management is designed to train current and future bankers in the field of international banking policies and practices. It provides current banking professionals with an understanding of the interrelationships between domestic and international banking. The core program consists of four undergraduate Finance courses. Students who receive a grade of "C" or higher in all courses, both prerequisite and core, will have earned and will be presented with a Certificate in International Bank Management. Students wishing to participate in more than one certificate program MAY NOT use the same course(s) to satisfy the requirements. When necessary, appropriate substitute courses will be designated by the program's coordinator. A grade of "C" or higher is required in each course.

Prerequisites: FIN 3403 (Financial Management), ACG 2021 (Accounting for Decisions), and ECO 2013 (Principles of Macro Economics), FIN 3414 (Intermediate Finance), and FIN 4502 (Securities Analysis), in addition to a minimum GPA of 2.75

and

and

3. FIN 4634 International Banking: Introductory survey of issues that deal with international aspects of banking. The course provides an overview of the structure and operation of the international banking function, the services offered, supporting documentation, and measures to improve the efficiency and effectiveness of the international banking organization. The purpose of the course is to acquaint the students with the daily activities in international banking.

and

4. FIN 4324 Commercial Bank Management: The management of bank assets and liabilities; specialized banking, functions; and the role of the commercial bank in financing business.

or

FIN 4345 Credit Analysis and Loan Evaluation: Topics to include: introduction to commercial lending; secured lending; accounts receivable financing and factoring; inventory financing; introduction to lending vehicles; short term lending; domestic taxation; consolidations; forecasting and intermediate term cash flow lending; term loan agreements/covenants; subordinations and guarantees; foreign exchange; international transactions and leasing.

or

FIN 4663 Global Private Banking: This course seeks to provide the students with an understanding of the nature of the global private banking, its role in preserving, augmenting and protecting wealth and how it is shaped by a sometimes-controversial need for confidentiality.

Purpose
The Department of Management and International Business seeks to provide undergraduate students with courses that emphasize the most current knowledge in the profession. A dedicated faculty with expertise in strategic management, change management, human resource management, organizational behavior and international business prepares our students for successful management careers in the global business arena. Our graduates are armed with a clear understanding of the management field, a broad intellectual framework for managing in an the evolving marketplace, the ability to lead and work within teams, computer literacy, and solid communication skills.

Management Major
Undergraduate students can select a general Management Major, a Human Resource Management Major, an International Business Major, a Management Major with an Entrepreneurship Track or a Management Major with a Green Management Track or a Management Major with a Leadership and Change Management Track.

The Department also offers internship opportunities to undergraduate students through the University’s Career Services Office (GC 230). To qualify for academic credit in these activities, students must have a 2.75 GPA, junior or senior standing, and approval from the Department Chair.

For more information, please visit our departmental webpage: [http://management.fiu.edu](http://management.fiu.edu).

Degree Program Requirements
(120 credit-hours)

- Lower-Division/Business Pre-Core: 60 hours
- Upper-Division/Business Core: 30 hours
- Major Courses: 21 hours
- Upper Division Business Electives: 9 hours

Lower Division/Business Pre-Core
The “General Information” section in this catalog describes the Lower Division requirements. The Business Pre-Core requirements are listed in the first section of the “College of Business Administration” pages in this catalog.

Upper Division/Business Core
The College’s Business Core Requirements are listed in the first section of the “College of Business Administration” chapter.

Upper Division Business Electives
All electives outside the College of Business must receive the approval of the Department Chair. A list of approved courses is available from College advisors.

Major Courses (3 credit-hours each)

Students should note that not all courses with a MAN prefix are actually management courses. Therefore, they should consult with a College advisor to confirm that their program of study reflects the degree requirements.

This major is designed for students interested in a general management major, with additional tracks in Entrepreneurship, Green Management, and Leadership and Change Management. To fulfill this major, students must meet their basic requirements of 60 hours of Lower Division credit-hours, 30 credit-hours of Business Core courses and 9 credit-hours of Upper Division Business Electives. They must also take 21 credits from the following:

1. General Management: All required
   - MAN 3025 Management and Organization
   - MAN 4151 Organizational Behavior
MAN 4720  Strategic Management

2. Professional Responsibility: One of the following is required
   MAN 4065  Business Ethics
   MAN 4102  Managing Diversity
   MAN 4672  International Business Regulation and Ethics
   MAN 4701  Business in Society
   MAN 4707  Managing Organizational Reputation
   MAN 4711  Business-Community Leadership

3. International Business: One course required
   MAN 4602  International Business

4. Human Resources: One course required
   MAN 4301  Human Resource Management

5. Business Management: One course required
   ENT 4113  Entrepreneurship
   MAN 4600  International Management
   MAN 4802  Small Business Management
   MAN 4864  Family Owned Business

6. Electives: Two (2) additional 4000 level courses are required. Courses must be chosen from the list below. Courses taken to satisfy the requirements listed in #2 or #5 above cannot be used to satisfy this requirement:
   ENT 4113  Entrepreneurship
   MAN 4054  Managing Innovation
   MAN 4064  Crisis Management
   MAN 4065  Business Ethics
   MAN 4102  Managing Diversity
   MAN 4120  Managing Virtual Teams
   MAN 4152  Facilitating Activities for Teambuilding
   MAN 4164  Leadership
   MAN 4201  Organizational Theory
   MAN 4294  Creativity and Innovation
   MAN 4320  Recruitment and Staffing
   MAN 4322  Human Resource Information Systems
   MAN 4330  Compensation and Benefits
   MAN 4350  Training and Development
   MAN 4410  Union-Management Relations
   plus
   MAN 4102  Managing Diversity
   or
   BUL 4540  Employment Law
   or
   MAN 4610  International Human Resources

International Business

Degree Program Requirements (120 credit-hours)

This major provides students with an intensive, in-depth study of the international dimensions of business. To fulfill this major, students must meet their basic requirements of 60 hours of Lower Division credit-hours and 30 credit-hours of Business Core courses and 9 credit-hours of upper division business electives. In addition, they must take 21 credits as follows:
   MAN 4301  Human Resource Management
   MAN 4320  Recruitment and Staffing
   MAN 4322  Human Resource Information Systems
   MAN 4330  Compensation and Benefits
   MAN 4350  Training and Development
   MAN 4410  Union-Management Relations
   plus
   MAN 4102  Managing Diversity
   or
   BUL 4540  Employment Law
   or
   MAN 4610  International Human Resources

   Required Courses
   FIN 4604  International Finance
   MAN 4600  International Management
   MAN 4602  International Business
   MAR 4156  International Marketing
   and
   Either:
   ACG 4251  International Accounting
   or
   MAN 4633  MNC Strategy
   plus
   Either:
   Two elective courses (6 credit-hours) from the electives list below.
   Or
   One elective course (3 credit-hours) and one area studies course (3 credit-hours) (listed below):

   Electives:
   FIN 4633  International Capital Markets
FIN 4634  International Banking
ENT 4704  International Entrepreneurship
MAN 4203  Leadership in Multilateral Institutions
MAN 4442  International Business Negotiations
MAN 4610  International Human Resources
MAN 4613  International Risk Assessment
MAN 4672  IB Regulation and Ethics
MAN 4673  Trade Policy and Business
MAN 4712  IB Business-Government Relations
REE 4956  International Real Estate
MAR 4144  Export Marketing
TRA 4721  Global Logistics

International Business Honors Program

The undergraduate International Business Honors (IBH) program engages high-performing, demanding and motivated students in a highly innovative and challenging learning community. With a unique combination of business courses, regional studies courses and a foundation in the humanities supported by the Honors College, the International Business Honors program students are in a position to master the skills needed to make a mark in today’s ultra competitive and quickly evolving global business world.

Students in the International Business Honors program must seek admission to the Honors College (http://business.fiu.edu/landon/ibhonors.cfm) and declare at the College of Business Administration that they wish to major in International Business Honors. The program emphasizes the development of critical thinking and writing abilities not only through traditional coursework, but also through providing a rich learning environment based on interaction with global business managers and leaders, study abroad and internship opportunities, and a senior year writing project. Upon completion of degree requirements (see http://business.fiu.edu/landon/ibhonors.cfm), students will receive a BBA degree in International Business with Honors.

Students interested in participating in the International Business Honors program should contact the program’s director at (305) 348-2791, or consult the program’s website at http://business.fiu.edu/landon/ibhonors.cfm.

IB Honors Course Requirements

Sixty credits of upper division course work are required for the degree. Completion of a senior thesis, as developed in the IB Honors Project Seminar and through an independent study with a faculty advisor, is required for graduation. Similarly, the student must receive a passing evaluation on the community service requirement. Courses with an asterisk (*) require a grade of ‘B’ or higher.

Required Courses

Business Core: IB Honors majors are required to complete 30 credit hours in the following courses (IBH section choice must receive Program Director approval):

<table>

Entrepreneurship Programs

The Eugenio Pino and Family Global Entrepreneurship Center, founded in 2003 at Florida International University, facilitates all entrepreneurial activities at FIU, which includes academic programs. The Center’s programs provide campus-wide awareness of entrepreneurship as an approach to life that enhances and transcends traditional academic experiences. It is woven into the fabric of FIU through activities and courses across the university. The multi-dimensional nature of the program allows it to address the unique entrepreneurial needs of one of the nation’s largest ethnically diverse academic institutions, located in one of America’s most entrepreneurial and dynamic international cities, Miami.

Whether in the arts, sciences, business, engineering, or humanities, entrepreneurship at FIU adds value to every discipline and enhances the creativity and innovation of student, faculty, staff, and alumni. The Center encourages all majors to enroll in entrepreneurship courses. For more information, visit www.entrepreneurship.fiu.edu.

Entrepreneurship Track

The Entrepreneurship Track is designed for business students interested in developing new business initiatives and in acquiring self-reliance in the business world. Students must take seven of the following courses (21 credit-hours) and receive a minimum grade of “C” in each course.

Four Required Courses (12 credit hours):
- ENT 4113 Entrepreneurship
- GEB 4110 Business Plan Development
- MAN 4151 Organizational Behavior
- MAN 4301 Human Resource Management

PLUS three of the following courses (9 credit-hours):
- AMH 4373 Entrepreneurs in the US
- AMH 4375 Technology and American Society
- ENT 4604 Product Development and Innovation
- ENT 4704 International Entrepreneurship
- GEB 4153 Social & Nonprofit Entrepreneurship
- MAN 4932 Professional Development Module
- HFT 4292C Entrepreneurship in Hospitality & Tourism
- MAN 4054 Managing Innovation
- MAN 4164 Leadership
- MAN 4294 Creativity and Innovation
- MAN 4707 Managing Organizational Reputations
- MAN 4802 Small Business Management
- MAN 4864 Family-Owned Businesses
- MAR 4025 Marketing of Small Business Enterprises

Green Management Track

Going green is part of the challenge of managing the interface between organizations and their social, economic, political, technological and ecological environments. Courses in this track build valuable skills in business-community leadership, global environmental and stakeholder management, ethics and innovative project design.

Students must take seven of the following courses (21 credit-hours) and receive a grade of “C” or higher in each course.

A. Two Required Green Core Courses (6 credit-hours)
- MAN 4787 Green Management
- MAN 4742 Environmental Management

B. Management Tools: Two Courses Required (6 credit-hours)
- MAN 4054 Managing Innovation
- MAN 4064 Crisis Management
- MAN 4120 Managing Virtual Teams
- MAN 4151 Organizational Behavior
- MAN 4152 Facilitating Activities for Teambuilding
- MAN 4164 Leadership
- MAN 4301 Human Resource Management
- MAN 4583 Productivity and Project Management
MAN 4741 Managing Change in Organizations

C. Social Environment: One Course Required (3 credit-hours)
MAN 4065 Business Ethics
MAN 4672 International Business Regulation and Ethics
MAN 4701 Business in Society
MAN 4711 Business-Community Leadership
MAN 4948 Service Learning
PHI 3640 Environmental Ethics
REL 3492 Earth Ethics

D. Business, Ecology and Policy: One Course Required (3 credit-hours)
ARC 3622 Design Ecology and Technology
ECP 3302 Introduction to Environmental Economics
EVR 4356 Coastal and Marine Environmental Policy
EVR 4411 Human Organizations and Ecosystem Management
GEO 3510 Earth Resources
HFT 3701 Sustainable Tourism Practices
MAN 4600 International Management
MAN 4602 International Business
MAN 4712 International Business-Government Regulations

E. Sustainability Elective: One Course Required (3 credit-hours) NOTE: Courses taken to satisfy the requirements listed in B or D above can NOT be used to satisfy this requirement.
ARC 3622 Design Ecology and Technology
ECP 3302 Introduction to Environmental Economics
EVR 4356 Coastal and Marine Environmental Policy
EVR 4411 Human Organizations and Ecosystem Management
GEO 3510 Earth Resources
HFT 3701 Sustainable Tourism Practices
MAN 4600 International Management
MAN 4602 International Business
MAN 4712 International Business-Government Regulations

Leadership and Change Management Track
The Leadership and Change Management track, designed for high-performing students, offers a selection of courses designed to develop key skills necessary for future success in organizational leadership roles. Increasingly in demand among employers, these skills include leading groups and teams, managing change in organizations, managing organizational reputations, crisis/emergency management, and navigating ethical challenges in today’s complex business environment.

Academic Standards
Students are required to obtain a minimum grade of “C” in each of the seven (7) track courses to successfully complete track requirements.

Courses Required
Seven courses are required to complete the track. All students must complete the first four courses, as well as selections from the three menus below.
MAN 4151 Organizational Behavior
MAN 4164 Leadership
MAN 4707 Managing Organizational Reputations
MAN 4741 Managing Change in Organizations

Professional Responsibility – One of the following four:
MAN 4065 Business Ethics
MAN 4102 Managing Diversity
MAN 4672 International Business Regulation and Ethics
MAN 4701 Business in Society
MAN 4711 Business-Community Leadership

Crisis/Disaster Management – One of the following two:
MAN 4064 Crisis Management
MAN 4702 Emergency and Disaster Management

Track Electives – One of the following eleven:
ENT 4113 Entrepreneurship
MAN 4054 Managing Innovation
MAN 4064 Crisis Management
MAN 4065 Business Ethics
MAN 4102 Managing Diversity
MAN 4203 Leadership in Multilateral Organizations
MAN 4294 Creativity and Innovation
MAN 4672 International Business Regulation and Ethics
MAN 4701 Business in Society
MAN 4702 Emergency and Disaster Management
MAN 4711 Business-Community Leadership

Entrepreneurship Minor for Non-Business Students
Non-business students wishing to earn a minor in Entrepreneurship must have a minimum GPA of 3.0 to be admitted to the minor and complete five of the following courses (15 credit-hours) with a grade of “C” or higher in each course.
ENT 4113 Entrepreneurship (or cross-listed course)
GEB 4110 Business Plan Development (or cross-listed course)

PLUS three of the following courses (9 credit-hours):
ACG 3024 Accounting for Managers and Investors
AMH 4373 Entrepreneurs in the US
AMH 4375 Technology and American Society
ENT 4604 Product Development and Innovation (or cross-listed course)
ENT 4704 International Entrepreneurship
GEB 4153 Social & Nonprofit Entrepreneurship
MAN 4932 Professional Development Module
Entrepreneurship Certificate

Non-business students wishing to earn a certificate in entrepreneurship must have a GPA of 3.0 or higher to apply for the certificate program and complete six of the following courses (18 credit-hours) with a grade of “C” or higher in each course.

ENT 4113 Entrepreneurship (or cross-listed course)
GEB 4110 Business Plan Development (or cross-listed course)

PLUS four of the following courses (12 credit-hours):
ACG 3024 Accounting for Managers and Investors
AMH 4373 Entrepreneurs in the US
AMH 4375 Technology and American Society
GEB 2011 Introduction to Business
ENT 4604 Product Development and Innovation (or cross-listed course)
ENT 4704 International Entrepreneurship
MAN 4932 Professional Development Module
GEB 4153 Social & Nonprofit Entrepreneurship
HFT 3203 Fundamentals of Management in the Hospitality Industry
HFT 4292C Entrepreneurship in Hospitality & Tourism
MAN 3025 Organization and Management
MAN 4802 Small Business Management
MAN 4864 Family-Owned Businesses
MAR 4025 Marketing of Small Business Enterprises

Academic Standard

The Department of Management and International Business requires that students fulfill the following requirements in order to remain in a degree program:

(a) receive a grade of “C” or higher in each of the courses in their major
(b) receive a grade of “C” or higher in each of the core management courses (MAN 3025 and MAN 4720)
(c) earn a grade of “C” or higher in each Upper Division business elective.
Marketing

Walfried M. Lassar, Professor and Chair, Ryder
Professor; Director, Ryder Center for Supply Chain Management
Alexandra Aguirre-Rodriguez, Assistant Professor

John Tsalikis, Associate Professor and BMI Marketing Professor

Participating Adjunct Faculty
Elisabeth Beristain

Purpose
Mission
The mission of the undergraduate marketing major is to train graduates who are valued and actively recruited by the business community for their skills.

Curriculum Educational Objectives
1. Identify and analyze the core factors that need to be examined for understanding consumer behavior, market segments, distributor behavior, and competitor behavior, and recognize the appropriate market research methods that need to be used.
2. Recognize the characteristics of an ethical, professional marketer with appropriate etiquette and image.
3. Identify appropriate personal selling approaches and techniques given specific consumer and business market contexts.
4. Analyze a company's marketing strategy and recognize appropriate and inappropriate marketing alternatives.
5. Evaluate the strategic components for an effective strategy in export-import business development, sales and customer relationship management, international distribution and retailing.

Marketing Major
Students who decide to major in marketing will be given a broad foundation in marketing concepts, and practice in their contemporary contexts. Students will have opportunities to pursue greater depth of understanding in select areas of the discipline:

Degree Program Requirements (120 credit-hours)
Lower-Division/Business Pre-Core 60 hours
Upper-Division/Business Core 30 hours
Major Courses 21 hours
Upper Division Electives 9 hours

Lower Division/Pre-Business Core
The “General Information” section in this catalog describes the lower division requirements. The Business Pre-Core requirements are listed in the first section of this “College of Business Administration” chapter. Students must complete all lower division and Business Pre-Core requirements no later than the first semester of their third year of undergraduate study. No exceptions will be made.

Upper Division/Business Core
The College’s Business Core Requirements are listed in the first section of this “College of Business Administration” chapter.

Major Courses (3 credit-hours each)
Undergraduate students majoring in marketing must complete 21 credit hours of 4000-level marketing course work, of which the following 15 credit-hours are required:
MAR 4354 Marketing Yourself in Today’s Competitive Job Market
MAR 4620 Tools for Managing Marketing Information
MAR 4503 Consumer Behavior
MAR 4613 Managing Marketing Information
MAR 4804 Marketing Strategy

Students can fulfill their other credit-hours with classes from the list below; however, they must consult with a Marketing faculty advisor before selecting their other courses: It is important that marketing majors complete MAR 4354, MAR 4620, MAR 4613, and MAR 4503 before they take their electives:
MAR 4025 Marketing of Small Business Enterprises
MAR 4144 Export Marketing
MAR 4156 International Marketing
MAR 4203 Marketing Channels
MAR 4231 Retail Marketing
MAR 4232 Current Issues in Retail Marketing
MAR 4323 Integrated Marketing Communication
MAR 4333 Promotional Strategy
MAR 4334 Advertising Campaign Management
MAR 4400 Personal Selling
MAR 4403 Sales Management
MAR 4643 Decision Making and Negotiations
MAR 4803 Cases in Marketing Management
MAR 4941 Marketing Internship
MAR 4949 Cooperative Education in Marketing
MAR 4733 e-Marketing

Upper Division Business Electives
All electives outside the College of Business must receive the approval of the Department Chair. A list of approved courses is available from CBA Advising.

Logistics Track
The Ryder Center for Logistics offers a logistics track to undergraduates pursuing their Bachelor of Business
Administration. Students who opt to take a logistics track will study a wide range of topics, including distribution channels, materials planning, purchasing, warehousing, inventory management, transportation, global sourcing and logistics, and strategic logistics management.

Degree Program Requirements
(120 credit-hours)
Lower-Division/Business Pre-Core 60 hours
Upper-Division/Business Core 30 hours
Major/Track Courses 21 hours
Electives 9 hours

Lower Division/Pre-Business Core
The “General Information” section in this catalog describes the lower division requirements. The Business Pre-Core requirements are listed in the first section of this “College of Business Administration” chapter. Students must complete all lower division and Business Pre-Core requirements no later than the first semester of their third year of undergraduate study.

Upper Division/Business Core
The College’s Business Core Requirements are listed in the first section of this “College of Business Administration” chapter.

Track Courses (3 credit-hours each)
TRA 4012 Principles of Transportation
TRA 4203 Principles of Logistics
TRA 4214 Logistics Strategy

Electives: please consult with your advisor about recommended electives. Students may choose three upper division business electives to acquire a concentration as indicated below.

Example of a Sales Management Concentration
MAR 4400 Personal Selling
MAR 4403 Sales Management
MAR 4643 Decision Making and Negotiations
MAR 4860 Customer Relationship Management

Example of an Export/Import Concentration
MAR 4144 Export Marketing
TRA 4721 Global Logistics
MAR 4203 Marketing Channels
TRA 4202 Logistics Technology

Example of a Distribution Management Concentration
MAR 4231 Retail Marketing
TRA 4721 Global Logistics
MAR 4203 Marketing Channels
TRA 4202 Logistics Technology

Marketing Minor
Qualified undergraduate students who are not business majors and who have a 2.5 cumulative GPA must apply to the College of Business Administration to request a minor in Marketing.

To earn a minor in Marketing, students must complete 15 credit-hours of course work and receive a grade of "C" or higher in each of the following courses:

Required Courses
MAR 3023  Marketing Management

In addition, students must select and complete any three senior (4000) level marketing (MAR) classes:

MAR 4025  Marketing of Small Business Enterprises
MAR 4144  Export Marketing
MAR 4156  International Marketing
MAR 4203  Marketing Channels
MAR 4231  Retail Marketing
MAR 4232  Current Issues in Retail Marketing
MAR 4323  Integrated Marketing Communications
MAR 4333  Promotional Strategy
MAR 4334  Advertising Campaign Management
MAR 4400  Personal Selling
MAR 4403  Sales Management
MAR 4613  Marketing Research
MAR 4620  Tools for Managing Marketing Information
MAR 4643  Decision Making and Negotiations
MAR 4733  e-Marketing
MAR 4803  Cases in Marketing Management
MAR 4804  Marketing Strategy
MAR 4860  Customer Relationship Management

Certificate in Export-Import Management
This certificate program is open to all undergraduate business students in the College of Business Administration who desire to pursue careers in export-import related industries. It is designed to enhance an undergraduate’s knowledge and skills essential in managing export-import businesses. It is especially appropriate for those students who are considering:

- a career in an export management company (EMC) that represents manufacturers in their export-import activities in the global market.
- a career in a freight forwarding company that specializes in export-import operations, including customs clearance, shipping tariffs and schedules, and traffic operations.
- a career in the export department of a manufacturer that manages the firm’s overseas marketing and sales operations.
- a career in an international logistics company that manages a client’s global supply chain operations, including transportation, warehousing, inventory, and customer service.
- a career in starting and operating a family-owned export-import business that trades goods and products across borders.

To earn a certificate in export-import management, students need to complete the following six courses (18 credit hours) with a minimum overall GPA of 2.75 and no individual course grade below a "C":

Required Courses (12 credit hours)
MAR 3023  Marketing Management 3
MAR 4613  Managing Marketing Information 3
MAR 4144  Export Marketing 3
MAR 4156  International Marketing 3

Required Electives (two of the following, 6 credit hours)
MAR 4643  Decision Making and Negotiations 3
In order to apply for this certificate program, students should be currently enrolled in a Bachelor of Business Administration at FIU with an overall GPA of at least a 2.75. Students who have already completed a Bachelor's in Business Administration can also enter the program with permission.

Certificate in Retail Marketing and Management

To apply for the certificate program in Retail Marketing and Management, one should either be a student currently pursuing a Bachelor's in Business Administration degree at FIU, with a minimum overall GPA of 2.75, or have already completed a Bachelor's in Business Administration degree.

The certificate program will require participants to complete 18 credits or 6 courses.

Students should complete the following six courses with a minimum overall "B" average (3.0 GPA) and no individual course grade below a "C".

Business Core Courses
MAN 3025 Organization and Management 3
FIN 3403 Financial Management 3
CGS 3300 Introduction to Information Systems 3

Marketing Courses
MAR 3023 Marketing Management 3
MAR 4231 Retail Marketing 3
MAR 4941 Marketing Internship 3

Additional Requirements

In addition to the above six courses, students must complete the additional requirements as listed below:
1. Retail Seminar at Florida International University
2. Corporate Tour

Certificate in Sales and Customer Relationship Management

In order to apply for this certificate program, students should be currently enrolled in a Bachelor's degree program in Business Administration at FIU, with an overall GPA of at least a 2.75. Exceptional students who are earning Bachelor's degree from outside the College of Business and are interested in sales careers may gain admission to the certificate program by permission of the Chair, Department of Marketing; exceptional students must have a minimum GPA of 2.75.

The certificate program will require participants to complete 18 credits or 6 courses.

Other than that the overall GPA is at least a 2.75 and the student is currently pursuing a bachelor's degree, there are no other prerequisites to the program. Students should complete the following six courses with a minimum overall 'B' average (3.0 GPA) and no individual course below a "C".

Required Courses
MAR 3023 Marketing Management 3
Course Descriptions

Definition of Prefixes

F - Fall semester offering; S - Spring semester offering; SS - Summer semester offering.

Departmental or School/College Prefixes:
AC – School of Accounting
BA – College of Business Administration
DS – Decision Sciences and Information Systems
FI – Finance
MA – Management and International Business
ME – Marketing
RE – Real Estate

ACG 2021 Accounting for Decisions (AC) (3).
Accounting concepts and analysis essential to determining the income and financial position of a business enterprise. Prerequisites: ECO 2023, or equivalent and sophomore standing.

ACG 3024 Accounting for Managers and Investors (AC) (3). Introduction to the principles used in measuring organization activities. For non-business majors only.

ACG 3301 Accounting for Planning and Control (AC) (3). Use of accounting concepts, analysis, and financial data to aid in the evaluation of the business enterprise; and to aid management in its planning, organizing, and controlling functions. Prerequisites: ACG 2021 or equivalent with a grade of ‘C’ or higher.

ACG 4101 Financial Accounting I (AC) (3). Underlying concepts and ethical, regulatory and business environment of financial reporting with emphasis on measurement, analysis and interpretation of income, cash flows and financial position. Prerequisites: MAC 2233, ACG 3301 or equivalent with “C” or higher, successful completion of entrance exam and junior standing.

ACG 4111 Financial Accounting II (AC) (3). Underlying concepts and ethical, regulatory, and business environment of financial reporting with emphasis on measurement, analysis and interpretation of financial position. Prerequisites: ACG 4101 or equivalent with grade of ‘C’ or higher.

ACG 4201 Financial Accounting III (AC) (3). Underlying concepts and ethical, regulatory and business environment of financial reporting, with emphasis on accounting for partnerships, international corporations, and business combinations. Prerequisites: ACG 4111 or equivalent with a grade of ‘C’ or higher.

ACG 4251 International Accounting (AC) (3). Comparative analysis of accounting concepts and practices in different countries; international accounting standards; problems of accounting for multinational corporations, including transfers of funds and income measurement; and the role of accounting in national economic development. Prerequisites: CGS 2100 or equivalent, ACG 3301 with a grade of ‘C’ or higher.

ACG 4311 Applied Accounting Concepts (AC) (3). Intensive study and application of new topic(s) as a response to current developments in the fields of financial accounting, auditing/assurance, business valuation, and accounting information systems. Prerequisites: ACG 4401 or equivalent with a grade of ‘C’ or higher.

ACG 4341 Management Accounting (AC) (3). Determination and control of production costs; job order and process systems; actual and standard costs; budgetary control; performance measurement; ethics; short-run decision models. Prerequisites: ACG 4101 or equivalent with a grade of ‘C’ or higher.

ACG 4353 Advanced Management Accounting (AC) (3). Discuss defects in traditional cost management systems, highlight today’s leading edge practices including ERP, and show how to design systems benefiting a wide range of organizations. Prerequisites: ACG 4111, ACG 4341, ACG 4401 or equivalents with grades of “C” or higher.

ACG 4401 Accounting Information Systems (AC) (3). The study of the concepts and terminology of accounting information systems and the use of IT to and decision making in accounting and auditing. Prerequisites: CGS 2060 or CGS 2100 or equivalent with “C” or higher, successful completion of entrance exam and junior standing.

ACG 4481 Small Business Accounting Staff (3). Live client clinic providing business and accounting services to low income and minorities seeking to start small businesses or non-profit corporations and weekly seminars on relevant topics. Prerequisites: ACG 4101 and TAX 4011.

ACG 4501 Governmental and Institutional Accounting (AC) (3). Budgeting, accounting, and reporting standards and practices for government and other not-for-profit entities. Prerequisites: ACG 4111 or equivalent with grade of “C” or higher.

ACG 4651 Auditing (AC) (3). Standards and procedures of auditing financial information, ethics and responsibilities of auditors, collection and documentation of audit evidence, and public and international auditing standards. Prerequisites: Must be taken in the last semester of the student’s program. ACG 4111 or equivalent with a grade of ‘C’ or higher.

ACG 4671 Operational Auditing (AC) (3). Examines operational auditing as a professional discipline for testing and evaluating totality of planning and operating controls; particular attention to development, selling and implementation of recommendations for operating improvement and cost containment. Prerequisites: ACG 4111 or equivalent with grade of “C” or higher.
ACG 4692 Accounting Information Presentation (AC) (3). Seminar in the development and presentation of oral and written information as required by authoritative standards and pronouncements in accounting and auditing. Prerequisites: ACG 4651 and ACG 4341 or equivalents with grades of 'C' or higher.

ACG 4821 Accounting and Social Responsibility (AC) (3). Ethical and social responsibilities of accountants with emphasis on professional ethics in corporate, government and public accounting structure and practices and their effects on employees, environment and community. Prerequisites: ACG 4341, ACG 4651 or equivalents with grades of 'C' or higher.

ACG 4901 Independent Study in Accounting (AC) (1-3). Individual conferences, supervised readings, and reports on personal investigations.

ACG 4931 Special Topics in Accounting (AC) (1-3). For groups of students who wish an intense study of a particular topic or a limited number of topics not otherwise offered in the curriculum. Prerequisite: Permission of the Director of the School of Accounting.

ACG 4940 Accounting Internship (3). Practical application in a clinical setting of knowledge acquired in the classroom. Prerequisites: ACG 4101, permission of the instructor and Director of School of Accounting.

BUL 4310 The Legal Environment of Business (AC) (3). The course includes issues such as: Contracts, Torts, Legal/Political/Economic aspects of Ethics and the Law, U.C.C., Antitrust Law, Employment Law, Administrative Law, Securities Law, and International Business Law topics. Prerequisite: Students must be fully admitted to College of Business.

BUL 4320 Business Law I (AC) (3). Substantive issues and principles of business law, including: the American legal system, torts, contracts, Uniform Commercial Code sales, property law, credit and secured transactions, and ethical issues in business law. Prerequisites: MAC 2233, ACG 3301 or equivalent with "C" or higher, successful completion of entrance exam and junior standing.

BUL 4321 Business Law II (AC) (3). Substantive issues and principles of law including agency, partnership and corporation law, commercial paper, antitrust, employment, administrative, environmental and computer law; ethical issues in business law. Prerequisite: "C" or better in BUL 4320.

BUL 4540 Employment Law (AC) (3). Legal and regulatory issues to include: the ADA, privacy issues, sexual harassment, race, gender, religion, age, and other areas of discrimination. Also OSHA, ERISA, workers' compensation, regulations affecting job performance evaluation.

BUL 4650 Special Topics in Business Law (AC) (1-6). Intensive study for groups of students of a particular topic, or a limited number of topics, not otherwise offered in the curriculum. Prerequisite: Permission of the Director of the School of Accounting.

BUL 4904 Independent Study in Business Law (AC) (1-6). Individual conferences; supervised readings; reports on personal investigations. Prerequisite: Permission of the Director of the School of Accounting.

CGS 3300 Introduction to Information Systems (DS) (3). Survey major information systems (I.S.) problems in organizations. Brief study of basic computer concepts; I.S. development cycle; relation of I.S. and decision-making; microcomputer database, spreadsheet and word-processing business applications. Prerequisites: CGS 2060 or CGS 2100 or equivalent.

ENT 1000 Introduction to Entrepreneurship (3). Introduction to how to start and run a new enterprise. How to write business plans. Obtaining loans, copyrights, permits, and other resources. Tools and experience that can be utilized professionally.

ENT 4113 Entrepreneurship (MA) (3). An introduction to the general theories, principles, concepts and practices of entrepreneurship. Developing business plans. Heavy emphasis is placed on lecture, readings, case studies and group projects.

ENT 4604 Product Development and Innovation (3). Students will develop a theoretical and practical understanding of product development, including actions and methods appropriate in each phase using estimations, spreadsheets and geometric models.

ENT 4704 International Entrepreneurship (3). This course provides a foundation in international entrepreneurship, focusing on the experiences of small as well as large entrepreneurial firms. Cross-national and cross-cultural business practices are analyzed. Prerequisite: ENT 4113.

FIN 3105 Personal Investment Management (FI) (3). An introductory course to acquaint individuals with basic principles of investments. Topics include the buying and selling of stocks, bonds, and commodities. The operation of markets and planning for risks and returns.

FIN 3140 Personal Financial Management (FI) (3). An introductory course to help individuals achieve their personal financial goals. Topics include personal budgeting, taxes, credit, major expenses, insurance, investments, and retirement planning.

FIN 3403 Financial Management (FI) (3). A study of financial decision making in the corporate form of enterprise. An analysis of the sources and uses of funds. Emphasis is placed on working capital management; capital budgeting techniques; short and long term financing; and capital structure and the value of the firm. Prerequisites: A grade of "C" or higher in STA 2023 and ACG 2021 or ACG 3024 or equivalent.

FIN 3414 Intermediate Finance (FI) (3). Advanced theories and applications underlying financial decision making. Topics may include valuation of assets and liabilities, advanced time value, mortgage math, commercial loans, capital budgeting, cost of capital, capital structure, dividend policy, restructuring, mergers and acquisition, bankruptcy, cash management, and agency theory. Prerequisites: A grade of "C" or higher in FIN 3403 or equivalent.
FIN 3560 Student Managed Investment Fund I (3). Course will cover the application of financial software, institutional financial data systems in the investment selection process and move further develop investment skills to invest real money portfolio. Prerequisites: FIN 3403, 2.75 GPA or greater, and instructor approval required.

FIN 3561 Student Managed Investment Fund II (3). Course will involve practical applications of finance skills to the management of a portfolio of real money and analysis of actual equities for purchase by the FIU Student Managed Investment Fund. Prerequisites: FIN 3560, 2.75 GPA or greater, and instructor approval required.

FIN 3652 Asian Financial Markets and Institutions (FI) (3). The course provides students, who are interested in Asia, an exposure to Asian financial market practices and institutional framework. The materials discussed provide a basic framework for the non-finance student to understand the basic concepts and tools of financial markets and institutions, and the specific intricacies of the various Asian countries and their institutional practices.

FIN 4303 Financial Markets and Institutions (FI) (3). Financial markets and the role of financial intermediaries in these markets. Emphasis will be upon the objectives and policies of financial intermediaries within the constraints of law and regulatory authorities. Prerequisites: A grade of "C" or higher in FIN 3403 or equivalent.

FIN 4345 Credit Analysis and Loan Evaluation (FI) (3). Topics to include: introduction to commercial lending; secured lending; accounts receivable financing and factoring; inventory financing; introduction to lending vehicles; short term lending; domestic taxation; consolidations; forecasting and intermediate term cash flow lending; term loan agreements/covenants; subordinations and guarantees; foreign exchange; international transactions and leasing. Prerequisites: A grade of "C" or higher in FIN 3403 or equivalent.

FIN 4412 Working Capital Management (FI) (3). Liquidity analysis; inventory, credit, and payables mgmt.; collection concentration, and disbursement systems; cash forecasting; short-term investing, borrowing, and risk mgmt.; treasury info systems. Prerequisites: A grade of "C" or higher in FIN 3414 or equivalent.

FIN 4435 Capital Budgeting Techniques and Applications (FI) (3). The application of contemporary theory and techniques to the problem of long term resource allocation. A review of capital budgeting techniques and the implications the investment and management of capital have toward the goal of maximizing the value of the firm. Prerequisites: A grade of "C" or higher in FIN 3414 or equivalent.

FIN 4443 Policies for Financial Management (FI) (3). The process of securing and allocating funds within the organization, with emphasis on the relevant financial decision-making and policy aspects. Prerequisites: A grade of "C" or higher in FIN 3414 or equivalent.

FIN 4461 Financial Statement Analysis (FI) (3). This course explores methods of deriving information from financial statements, including both published documents and privately prepared reports that would be of interest to lenders and investors. Extensive use is made of computer assisted financial planning forecasting models. Prerequisites: A grade of "C" or higher in FIN 3403 or equivalent.

FIN 4486 Financial Risk Management-Financial Engineering (FI) (3). A survey of financial instruments used for financial risk management, including forwards, futures, options and swaps. Emphasis is on identification of financial risks and designing optimal risk management program. Prerequisites: A grade of "C" or higher in FIN 3414 and FIN 4502. Corequisites: A grade of "C" or higher in FIN 4303, FIN 4324, and FIN 4604.

FIN 4502 Securities Analysis (FI) (3). The examination of the determinants of the values of common and preferred stocks, bonds, and warrants. The timing of security purchases and sales and an introduction to portfolio construction techniques. Prerequisites: A grade of "C" or higher in FIN 3403 or equivalent.

FIN 4514 Portfolio Analysis and Management (FI) (3). Financial theories will be applied to the construction of portfolios. Portfolio management techniques will be analyzed in regard to the goals of individuals, corporations, and various financial institutions. Prerequisites: A grade of "C" or higher in FIN 4502 or equivalent.

FIN 4556 Behavioral Finance (FI) (3). Behavioral Finance studies human behavior and decision-making under conditions of uncertain risk, greed and loss. It applies research from psychology, sociology and anthropology to human behavior in markets.

FIN 4594 Financial Software Applications (3). Use of Reuters, Bloomberg, and Excel, to solve financial problems. Explore how markets operate with trading simulations and software. Prerequisites: A grade of "C" or higher in FIN 4502 or permission of the instructor.

FIN 4604 International Financial Management – GL (FI,MA) (3). Capital budgeting operational analysis and financial decisions in the multinational context. Working capital management and intra firm fund transfers. Measurement and evaluation of the risk of internationally diversified assets. Prerequisites: A grade of "C" or higher in FIN 3403 or equivalent.

FIN 4633 International Capital Markets (FI) (3). The world’s major non-U.S. stock exchanges; international diversification and the international capital asset pricing model; foreign exchange markets and Euro-currency markets. Prerequisites: A grade of "C" or higher in FIN 3403 or equivalent.

FIN 4634 International Banking – GL (FI) (3). Objective of course is to provide student with an understanding of nature of international banking and the major cultural, economic, social, and legal environments in which international banking operates. Prerequisites: A grade of "C" or higher in FIN 3403 or equivalent.
FIN 4651 Latin American Financial Markets and Institutions (FI) (3). This course examines the Latin American financial climate and especially financial markets and institutions. Topics include evolution of the money and capital markets, regulation, banking innovations, the role of foreign banking, integration and globalization of banking. Prerequisites: A grade of “C” or higher in FIN 3403 or equivalent.

FIN 4663 Global Private Banking (3). This course seeks to provide the students with an understanding of the nature of the global private banking, its role in preserving, augmenting and protecting wealth and how it is shaped by a sometimes-controversial need for confidentiality. Prerequisites: A grade of “C” or higher in FIN 3403 or equivalent.

FIN 4702 Entrepreneurial Finance (3). This course will be focused on the financial management within and surrounding entrepreneurial firms, which will be examined at all phases of their life cycles, from idea generation to venture launch. Prerequisites: A grade of “C” or higher in ENT 4113 or equivalent.

FIN 4744 Financial Crime (3). The course provides a solid understanding of the crimes committed in financial markets. The origin and development of financial crimes will be covered. The foundation of the course will be based upon a study of the following: identity theft, mortgage fraud, money laundering, foreign exchange crimes, check cashing and wire transfer companies, capital flight issues, tax evasion, import duty fraud, insurance fraud, underground economy, insider trading, terrorist financing, Hawala banking, international trade-based money laundering, and illegal offshore center activity. Also the role of all domestic and international regulatory/enforcement agencies in detecting and preventing financial crimes will be discussed. Prerequisites: A grade of “C” or higher in FIN 3403 or equivalent.

FIN 4904 Independent Study in Finance (FI) (1-6). Individual conferences, supervised readings, reports on personal investigations. Consent of faculty tutor and Department Chairperson required.

FIN 4934 Special Topics in Finance (FI) (1-6). For groups of students who desire an intensive study of a particular topic or a limited number of topics not otherwise offered in the curriculum. Consent of faculty supervisor and Department Chairperson required.

FIN 4941 Finance Internship (FI) (1-3). Part-time supervised work in a selected bank or other organization in the area of finance. Prerequisites: At least 9 hours of finance with grades of “C” or higher, consent of instructor, and department chairperson.

FIN 4949 Cooperative Education in Finance (FI) (3). Semesters of full-time classroom study are alternated with semesters of full-time remunerated employment which closely relates to the student’s area of academic study. Carefully designed and monitored work assignments are intended to develop the student’s understanding of the relationship between theory and practice in an authentic work environment. Prerequisite: Approval of Chairperson.

GEB 2011 Introduction to Business (MA) (3). Introduction to the business world, including the functions of business and management. Examination of the free enterprise system, forms of business ownership and the role of business in society.

GEB 2935 Professional Skills: Career and Leadership Development (MA) (1). Course will respond to the need for students to make sound career decisions. Students will be able to prepare for success in a changing work environment and to use the skills introduced to cope with career decision-making.

GEB 3003 Career Development for Today’s Competitive Job Market (3). A systematic approach to career development; assists students in identifying and evaluating their interests, skills, and values. Students will acquire career information while exploring academic and career employment options. Prerequisite: Students must have completed a minimum of 60 credit hours.

GEB 4110 Business Plan Development (3). Takes students through the process of initiating a business venture. Provides students with tools to develop a new business, evaluate business models and analyze entrepreneurial issues. Prerequisite: ENT 4113.

GEB 4153 Social Entrepreneurship (3). This course explores opportunities for social entrepreneurship—addressing societal needs via the creation of innovative nonprofit or for-profit social purpose organizations. Prerequisite: Students must have completed a minimum of 60 credit hours.

HIM 4656 Health Information Systems Management (3). This course explores the structure, acquisition and use of medical information by health care organizations. Prerequisite: CGS 3300.

IDS 3163 Global Supply Chains & Logistics – GL (3). Global supply chains and their interactions with all facets of business and society. Design issues and operation issues are investigated using simulation models and case studies.

ISM 3012 Introduction to Decision and Information Systems (DS) (3). Understanding how computer systems can be used to improve decision making. Includes applications and impacts of IS, databases, decision support systems, production planning and control systems, and resource allocation systems. Not available to business majors.

ISM 3130 Implementing Enterprise Systems (DS) (3). This course focuses on Enterprise Systems functionality and Implementation System architecture, process re-engineering, implementation methodologies and tools, and system configurations are assigned. Prerequisites: ISM 3153 or equivalent.
ISM 3153 Enterprise Information Systems (DS) (3). Designed to provide the students with a comprehensive understanding of Enterprise Information Systems (EIS) and how these systems are able to achieve companies’ information and process integration. The implications of EIS on companies’ organizational structure, processes, and people’s working practices are discussed. Technical aspects of Enterprise Systems such as networks/ architecture, system administration and security, communication interfaces, and application development/tools are discussed. The course also introduces the student to Enterprise Systems Integration, Web-Enabled Enterprise Systems, Customer Relationships Management, Data Warehousing, and E-commerce concepts/tools. Hands-on experience with an Enterprise System is provided.

ISM 3949 Cooperative Education in Management Information Systems I (DS) (1-3). A program enabling MIS majors to work in jobs significantly related to their major area and career goals. Placement must be approved by instructor.

ISM 4054 Introduction to Web Management (DS) (3). Designed to mesh current thinking relative to the development and effective use of web sites in organizations. Topics include the understanding or major web related hardware and software available, and how to manage and use them in organizations. During the course, students will create a commercial web site for a desired known corporation. Prerequisites: CGS 3300 or equivalent.

ISM 4113 Systems Analysis and Design (DS) (3). Topics include: information systems concepts; the structure, design, and development of the data base; and techniques and procedures used in the analysis and design of systems projects. Prerequisites: CGS 3300 or equivalent.

ISM 4151 Systems Management (DS) (3). An in-depth, case-oriented, study of the problems encountered in the management of systems projects. Analyst-user conflicts, communication problems within the systems department, computer evaluation and selection techniques, computer negotiations and contracts, and project management are covered in detail. Where appropriate, field study investigating a topical area will be carried out by each student. Prerequisite: CGS 3300. Prerequisites or Corequisites: ISM 3153, ISM 4400, ISM 4220, ISM 4210, ISM 4054, ISM 4113, ISM 4323.

ISM 4210 Data Base Applications (DS) (3). Application of the data base technology and concepts to organization problems. Includes DBMS components; hierarchic, network and relational approaches to DBMS design. Hands on experience with a DBMS. Prerequisites: CGS 3300 or equivalent.

ISM 4211 Database Systems and Physical Design (3). Trains students on managerial activities performed by a database administrator and on efficient performance of a database. Topics include: physical design, database server architecture, capacity planning, and storage structure. Prerequisites: ISM 4210 or equivalent.

ISM 4220 Business Data Communications (DS) (3). Application of telecommunication technology and concepts to organizational problems. Includes components of telecommunication network, management of a network, and issues related to installing and managing inter-organizational systems.

ISM 4323 Information Security Management (3). Managing information security problems: includes attack methods, detection and prevention techniques, cryptography, firewalls and intrusion detection systems, security policies and risk management, and incident response.

ISM 4340 Organizational Impacts of Information Systems (DS) (3). Investigation of the human and organizational factors relevant to design and implementation of information systems in complex organizations. Prerequisites: MAN 3025 and CGS 3300 or equivalents.

ISM 4400 Management Support Systems (DS) (3). Understanding of how Decision Support Systems (DSS) and Expert Systems (ES) support decision making in organizations. Includes architecture of a DSS/ES and how these systems are developed. Hands-on experience with DSS tools. Prerequisites: CGS 3300 or equivalent.

ISM 4402 Business Intelligence and Reporting (3). A broad overview of managerial, strategic and technical issues associated with BI and reporting techniques. Gather, analyze, understand information processed from business data. Prerequisites: CGS 3300 or equivalent.

ISM 4949 Cooperative Education in Management Information Systems II (DS) (1-3). A continuation of ISM 3949. A program enabling MIS majors to work in jobs significantly related to their major area and career goals. Placement must be approved by instructor. Prerequisites: CGS 3300 or equivalent.

MAN 3025 Organization and Management (MA) (3). An analysis of organizations and the management processes of planning, organizing, directing, and controlling in the context of socio-technical systems. Individual, group, intergroup, and organizational responses to various environments and technologies are studied, as are pertinent techniques of manpower management. Prerequisite: Students must have completed a minimum of 60 credit hours. (F,S,SS)

MAN 3061 Business, Ethics and Environment (MA) (1). Examines personal values and ethics, role of business as a social institution corporate citizenship, creation of ethical work climates, ethics in a global economy and emerging issues. Prerequisite: Students must have completed a minimum of 60 credit hours.

MAN 3550 Managerial Decision Making (DS) (3). This course concentrates on practical decision problems for the manager in an organization. Topics include decision-making theory, linear programming and extensions, Markov Chains, queuing, simulation, and decision support systems. Use of computer packages. Prerequisites: College Algebra, STA 2023 or the equivalent, and QMB 3200.
MAN 3949 Management Internship I (MA) (3). A special program enabling management majors to work in jobs significantly related to their major area and career goals. Specific placement must be approved by the Department Chairperson prior to enrollment. Prerequisites: Qualification for Internship Program; 2.75 GPA; and junior standing; permission from the department chair.

MAN 4054 Managing Innovation (3). Addresses managing creative people, projects and departments. Emphasis is on motivating, evaluating, and rewarding creative people, and creating an environment that enhances innovation productivity. Prerequisite: Students must have completed a minimum of 60 credit hours.

MAN 4064 Crisis Management (MA) (3). Examines the dilemmas of managerial responsibility that occur when organizations face crisis because of disasters or other unexpected circumstances. Emphasis is placed on how to avoid or minimize the organizational or environmental damage a crisis can cause. Prerequisites: A grade of “C” or higher in MAN 3025 or equivalent.

MAN 4065 Business Ethics (MA) (3). The application of ethical theory to business management. A review of ethical systems, and examples, theoretical and practical of ethical theory to business management. A review of MAN 4065 Business Ethics (MA) (3). The application of ethical theory to business management. A review of ethical systems, and examples, theoretical and practical of institutionalizing ethics in organizations. Case analysis used, and written projects required. Prerequisite: Students must have completed a minimum of 60 credit hours. (F,S)

MAN 4102 Managing Diversity (MA) (3). Examines how workforce diversity can lead to competitive advantage and ethical, fair-minded decision making. Includes topics of gender, race, ethnicity, and other areas of diversity. Covers perception and stereotyping, sexual harassment, the “glass ceiling,” and legal issues. Prerequisite: Students must have completed a minimum of 60 credit hours. (F,S)

MAN 4120 Managing Virtual Teams (MA) (3). Centers on the analysis of selected concepts in intergroup relations and introduces the strategies, tools and techniques necessary for success in virtual team environments. Prerequisites: A grade of “C” or higher in MAN 3025 or equivalent.

MAN 4151 Organizational Behavior (MA) (3). An analysis of selected concepts in behavioral science, their interaction and application to management. Topics include perception, motivation, and group behavior. Prerequisites: A grade of “C” or higher in MAN 3025 or equivalent. (F,S)

MAN 4152 Facilitating Activities for Teambuilding (3). This experimental and web-assisted course will teach students to facilitate activities to improve group communication, trust, decision-making, problem solving and interpersonal skills. Prerequisites: A grade of “C” or higher in MAN 3025 or equivalent.

MAN 4164 Leadership (3). Designed to provide a clear understanding of current thinking in the area of leadership. Topics include general leadership issues such as leader integrity and authenticity, managing people and effecting change and chairing effective meetings. Use of technology is leading effective global teams is emphasized. Prerequisite: Senior standing. Students must have completed a minimum of 90 credit hours.

MAN 4201 Organization Theory (MA) (3). A comparative analysis of various theories of organization (including the classical, biological, economic, and Cyert-March models); and of their treatment of fundamental structure; conflict communications; group and individual behavior; and decision-making. Primary emphasis on developing an integrated philosophy of organization and management. Prerequisites: A grade of “C” or higher in MAN 3025 or equivalent.

MAN 4203 Leadership in Multilateral Organizations (3). Designed to provide the undergraduate IB student with a clear understanding of current thinking in the area of leadership in multinational firms and coordination of multilateral work activities. Prerequisites: A grade of “C” or higher in MAN 4602 or equivalent.

MAN 4294 Creativity and Innovation (3). Explores techniques for inventing new things or making things better. These techniques include brainstorming, how to get new ideas, how to evaluate ideas, and how to select ideas for implementation. Prerequisite: Students must have completed a minimum of 60 credit hours.

MAN 4301 Human Resource Management (MA) (3). Attention is focused on the theory and practice of modern personnel management as related to other management functions. Topics include: selection; training; job and performance evaluation; and incentive schemes. Special attention is given to human resource management and development at various organizational levels. Prerequisites: A grade of “C” or higher in MAN 3025 or equivalent. (F,S,SS)

MAN 4320 Recruitment and Staffing (MA) (3). In-depth study of the personnel staffing function. Includes an analysis of objectives, techniques, and procedures for forecasting manpower needs, recruiting candidates, and selecting employees. Prerequisites: A grade of “C” or higher in MAN 4301 or equivalent. (F,S)

MAN 4322 Human Resource Information Systems (MA) (3). A survey of personnel reporting requirements; assessment of information needs; manpower planning; and development of integrated personnel systems. Prerequisites: A grade of “C” or higher in MAN 4301 or equivalent.

MAN 4330 Compensation and Benefits (MA) (3). Presents the theories and techniques used by management in the areas of work measurement, wage incentives, and job evaluation. Prerequisites: A grade of “C” or higher in MAN 4301 or equivalent.

MAN 4410 Union-Management Relations (MA) (3). Examination of current issues and problems facing unions and management, with emphasis on unfair labor practices, contract administration, and arbitration. Prerequisites: A grade of “C” or higher in MAN 4301 or equivalent.
MAN 4442 International Business Negotiations (3). Developing expertise in negotiations across cultural borders, working with various suppliers, developing multicultural project teams and sensitivity, and developing counter proposals. Prerequisites: A grade of "C" or higher in MAN 4602 or equivalent.

MAN 4504 Operations Management (DS) (3). Concepts in design, analysis, and control of operating systems. Facility location and layout, work standards, maintenance, quality control, MRP, planning and scheduling applied to production and service systems. Prerequisites: QMB 3200 or equivalent.

MAN 4523 Production Information Systems (DS) (3). A study of the special problems associated with the development of information systems capable of supporting the production function of an organization. Review of information systems approaches to inventory control and work processing management. Prerequisites: CGS 3300 and MAN 4504 or equivalent, or consent of instructor.

MAN 4583 Productivity and Project Management (DS) (3). Methods and cases to measure, evaluate, plan and improve productivity in business and service organizations; also methods on how to manage projects. Prerequisite: Senior standing in the College.

MAN 4600 International Management (MA) (3). Examines the functions of management in the international firms (e.g., leadership, motivation, communication, human resource development) and issues related to adapting managerial practice to "local" environments. Prerequisites: A grade of "C" or higher in MAN 4602 or equivalent. (F,S)

MAN 4602 International Business (MA) (3). Examines the political, economic, legal and cultural international business environment and related institutions impacting global firms; covers international issues in all functional business areas. Prerequisites: ECO 2013, ECO 2023, students must have completed a minimum of 60 credit hours. (F,S,SS)

MAN 4610 International Human Resources (MA) (3). Compares global human resource systems with emphasis on the reasons HR differences exist. The HR functions of selection, training, compensation and performance management are compared in different countries and cultures. Focuses on both expatriate assignment and foreign HR operations. Prerequisites: A grade of "C" or higher in MAN 4301 or equivalent.

MAN 4613 International Risk Assessment (MA) (3). Introduces the types of risk confronting businesses operating internationally. Critiques specific techniques used to assess risk and relate the results to management decision making. Prerequisites: A grade of "C" or higher in MAN 4602 or equivalent.

MAN 4633 MNC Strategy (MA) (3). Study of the concept and process of MNC strategy. Involves considering the competitive and political structure of the global market, logic of the multinational enterprise, and nature of organizations. Prerequisites: A grade of "C" or higher in MAN 4602 or equivalent. (F,S)

MAN 4660 Business in Latin America (MA) (3). Examines the Latin American business climate and U.S. Latin American Business linkages. Topics include exporting to Latin America, regional economic integration, and examinations of individual countries. Prerequisites: A grade of "C" or higher in MAN 4602 or equivalent.

MAN 4661 Business in Asia (3). Comprehensive overview of culture and management in major East and Southeast Asian economies. Includes a brief survey examination of the Asian business environment. Prerequisites: A grade of "C" or higher in MAN 4602 or equivalent.

MAN 4662 Business in Europe (3). Investigates and shows how a unique combination of cultures and environments, despite great social and military conflicts, now compete among the top world economies. Prerequisites: A grade of "C" or higher in MAN 4602 or equivalent.

MAN 4663 Business in the Caribbean (3). Introduces students to various business practices and environments as they relate to countries in the Caribbean region including cultural, economic, political and legal factors. Prerequisites: A grade of "C" or higher in MAN 4602 or equivalent.

MAN 4664 Business in Africa (3). Examination of the opportunity/challenges of conducting business in the African business environment; includes country/regional analysis of cultural, social, economic, legal and political issues. Prerequisite: A grade of "C" or higher in MAN 4602.

MAN 4671 Special Topics in International Business (MA) (3). For groups of students who wish to study intensively a particular topic, or a limited number of topics, in international business, not offered elsewhere in the curriculum. Prerequisites: Faculty sponsor and permission of Chairperson, students must have completed a minimum of 60 credit hours.

MAN 4672 International Business Regulation and Ethics (3). Provides a transactional approach to the international regulation and ethical frameworks in which firms conduct business in the global economy. Prerequisites: A grade of "C" or higher in MAN 4602 or equivalent.

MAN 4673 Trade Policy and Business (3). Examines the multilateral trading system, its rules and practices and its relevance to U.S. business. Attention will focus also on the political dynamics of international trade policy and application. Prerequisites: A grade of "C" or higher in MAN 4602 or equivalent.

MAN 4690 Independent Study in International Business (MA) (3). Individual conferences; supervised readings; reports on personal investigations. Prerequisites: Faculty sponsor and written permission of Chairperson and Dean, students must have completed a minimum of 60 credit hours.
MAN 4701 Business in Society (ME) (3). A conceptual and practical overview of the role of business in contemporary society. Explores the social context of economic systems, examines the concept of business legitimacy, and looks at responsible management in a global, hi-tech economy. Prerequisites: A grade of “C” or higher in MAN 3025 or equivalent.

MAN 4702 Emergency and Disaster Management (MA) (3). Organizational response to emergencies and disasters. Preparing for and responding to external crisis such as hurricane, floods, fires, etc. Prerequisite: Students must have completed a minimum of 60 credit hours.

MAN 4707 Managing Organizational Reputations (3). Examines the importance of organizational reputation. Emphasizes ways organizations can create and maintain reputations for integrity, consistency and quality that will insure viability. Prerequisites: A grade of “C” or higher in MAN 3025 or equivalent.

MAN 4711 Business-Community Leadership (MA) (3). Examines the role of the company as a community citizen, focusing on methods business leaders can contribute to strengthening the social fabric of their communities to achieve benefits for both the community and the firm. Prerequisite: Students must have completed a minimum of 60 credit hours.

MAN 4712 International Business – Government Relations (3). The main objective of this course is to impart a broad understanding of the relationships between business and government in the international marketplace. Prerequisites: A grade of “C” or higher in MAN 4602 or equivalent.

MAN 4720 Strategic Management – GL (MA) (3). Capstone integration of real organizational situations. Decision making applied to business/corporate level strategy concepts, firm performance and global citizenship. Prerequisite: Completion of all core requirements. Must be taken in last academic semester of senior year. Student must have completed the minimum of 90 credit hours. (F,S,SS)

MAN 4735 Modern Business History (MA) (3). An examination of the history of the corporation in the United States since the Civil War, up to, and including, the development of the multinational corporation. An examination of the social and economic forces operative in the development of the corporate form. A full exploration of the current power of the corporate form and legal and other, efforts to limit this power. Prerequisites: A grade of “C” or higher in MAN 3025 or equivalent or consent of the Instructor.

MAN 4741 Managing Change in Organizations (MA) (3). Emphasizes organizational challenges associated with internal change and examines the importance of change management strategies for organizational policy formation. Explores the impact of change on employee morale, firm performance, and management response capability. Prerequisites: A grade of “C” or higher in MAN 3025 or equivalent.

MAN 4742 Environmental Management (MA) (3). Examines opportunities and risks of the social, legal, political and ecological environments. Analyzes sustainability - management's development of proactive green management strategies. Prerequisite: Student must have completed a minimum of 60 credit hours.

MAN 4787 Green Management (3). Examines successes/failures of green projects and presents guidelines for effective green management. Course includes project analysis and an experiential learning module with a local organization. Prerequisite: Students must have completed a minimum of 90 credit hours.

MAN 4802 Small Business Management (MA) (3). The organization and operation of the small business: accounting, finance, production, and marketing subsystems. The use of analytical approach. Problems of manpower management and information flow. Possible use of EDP, case studies. Prerequisites: A grade of “C” or higher in MAN 3025 or equivalent.

MAN 4864 Family Owned Business (3). Addresses the special issues facing family-owned and managed firms and gives an appreciation for the dynamics in such firms and how to be professional managers in such organizations. Prerequisite: Students must have completed a minimum of 60 credit hours.

MAN 4930 Special Topics in Management (MA) (1-6). Intensive study of a particular topic or a limited number of topics not otherwise offered in the curriculum. Faculty sponsor and written permission of Chairperson and Dean required. Grading option.

MAN 4932 Professional Development Module (3). This course presents techniques for outstanding presentation, business planning, analytical and critical thinking skills. The course includes significant focus on business ethics, entrepreneurial dynamics, economics issues, and international business. Prerequisite: Students must have completed a minimum of 60 credit hours.

MAN 4946 International Business Internship (MA) (3). Supervised work in a selected organization in the area of international business. Prerequisites: Permission of the instructor and department chairperson, students must have completed a minimum of 60 credit hours.

MAN 4948 Service Learning (MA) (3). The integration of classroom theory with experimental learning in community service. Participation, development, and management of community service projects, especially those associated with the business community. Prerequisite: Students must have completed a minimum of 60 credit hours.

MAN 4949 Management Internship II (MA) (3). Continuation of MAN 3949. Prerequisites: Qualification for Internship Program; 2.75 GPA; senior standing; and permission of Department Chair. Students must complete a minimum of 90 credit hours.

MAN 4956 Study Abroad in International Business (3). Designed as an integrated program of learning conducted in foreign business environments. It develops an understanding among economic, political, and cultural factors in various countries. Prerequisites: A grade of “C” or higher in MAN 4602 or equivalent.
MAN 4970 International Business Honors Project Seminar (3). Seminar that explores recent themes in international business. Designed to help IB Honors students develop a thesis and methodology. Prerequisites: A grade of "C" or higher in MAN 4602, MAN 4600, IDH 3006 or equivalents.

MAR 3023 Marketing Management (ME) (3). A descriptive study emphasizing the functions and institutions common to marketing systems. Prerequisites: Junior standing or permission of department.

MAR 4025 Marketing of Small Business Enterprises (ME) (3). Designed to develop an understanding of the principles and practices which contribute to the successful marketing operation of a small business enterprise, this course deals with marketing policies, techniques, and applications to aid the entrepreneur in this field. Prerequisites: MAR 3023 or equivalent.

MAR 4071 Current Issues in Marketing I (ME) (3). Intensive study of various topic areas in marketing. Course emphasizes student reading and research, with oral and written reports. Students electing to take this seminar may take no more than 3 credit hours of independent study in marketing. Prerequisites: MAR 3023 or equivalent.

MAR 4144 Export Marketing (ME) (3). The course emphasizes practical approaches to export marketing, including marketing strategies by individual firms to serve foreign markets. Operational methods of identifying, establishing, and consolidating export markets are discussed, with particular attention to the needs of the smaller business. Prerequisites: MAR 3023 or equivalent.

MAR 4156 International Marketing (ME) (3). The course studies the information required by marketing managers to assist in satisfying the needs of consumers internationally. Special emphasis will be given to the constraints of the international environment. Prerequisites: MAR 3023 or equivalent.

MAR 4203 Marketing Channels (ME) (3). The course focuses upon institutions, functions, and flows within channels of distribution; and their integration into channels systems. Wholesaling and physical activity are emphasized. Prerequisites: MAR 3023 or equivalent.

MAR 4231 Retail Marketing (ME) (3). An examination of the role of retailing in the marketing system. Attention is concentrated on fundamentals for successful retail management. The course emphasizes basic marketing principles and procedures, including merchandising; markup-markdown; pricing; stock-turn; and sales and stock planning. Prerequisites: MAR 3023 or equivalent.

MAR 4232 Current Issues in Retail Marketing (ME) (3). An intensive look at topics of current importance in retailing, from planning, buying and store management perspectives. Course emphasizes interaction with business executives and a practical learning approach. Prerequisites: MAR 4231 or equivalent.

MAR 4323 Integrated Marketing Communication (ME) (3). A broad introduction to the field of integrated marketing communications and how it fits into the marketing plan. Discussion of objective setting, budgeting, and media planning, as well as the strategic planning and evaluation of advertising media, sales promotion, public relations, direct marketing, personal selling and marketing communications on the internet. Prerequisites: MAR 3023 or equivalent.

MAR 4333 Promotional Strategy (ME) (3). The course deals with problems of decision-making in the areas of marketing communication methods, with primary emphasis on advertising. Prerequisites: MAR 3023 or equivalent.

MAR 4334 Advertising Campaign Management (ME) (3). Strategic approaches to managing advertising campaigns, including selection of approaches; market research; consumer target markets; media; advertisements; development and control of budgets. Prerequisites: MAR 4323 or equivalent or consent of Instructor.

MAR 4354 Marketing Yourself in Today's Competitive Job Market (ME) (3). This class introduces students to the importance of their professional image, including a winning attitude, effective communication, interviews, appointments, office protocol, etiquette in global arenas, presentation skills, team building, and negotiations, among other topics. This course is required for all marketing majors. Prerequisites: MAR 3023 or equivalent.

MAR 4400 Personal Selling (ME) (3). The development of effective salesmen/customer relationships is emphasized. Selection, training, and motivation of the sales force, and the relationship between personal selling and the other elements of marketing strategy are analyzed. Prerequisite: MAR 3023.

MAR 4403 Sales Management (ME) (3). Analysis of field sales management with emphasis on the role of personal selling in the marketing mix, building an effective organization, and controlling and evaluating the sales force. Prerequisites: MAR 3023 or equivalent.

MAR 4503 Consumer Behavior (ME) (3). The course offers an introduction to the analysis of the consumer, as the basis for the development of the marketing mix.

MAR 4613 Managing Marketing Information (ME) (3). An examination of the marketing research process and its role in aiding decision-making. Emphasis is placed on evaluation and utilization of research information in making marketing decisions. Prerequisites: MAR 3023, QMB 3200 or equivalents or permission of the instructor.

MAR 4620 Tools for Managing Marketing Information (ME) (3). This course presents students with a thorough grounding in approaches and calculations used in the field of marketing, including product mix/pricing/volume relationships, market share concepts, media math, cross tabs, and retail calculations. Prerequisites: MAR 3023, MAR 4613 or equivalents.
MAR 4643 Decision Making and Negotiations (3). The course explores individual and group level judgment and decision-making and methods for de-biasing these processes. It also presents techniques for maximizing one's negotiating effectiveness. Prerequisites: MAR 3023 or equivalent.

MAR 4733 e-Marketing (ME) (3). This introductory course in electronic marketing explores how the Internet has revolutionized the buying and selling of goods and services in the marketplace. Topics covered include b2b and b2c electronic commerce, Internet user characteristics, net product, pricing, and distribution, relationship marketing through online strategies, and the legal and ethical challenges of e-marketing. This course emphasizes hands-on learning.

MAR 4803 Cases in Marketing Management (ME) (3). An analytic approach to the performance of marketing management. The elements of marketing mix as the focus of decision-making in marketing are studied, and the case method of instruction is employed. Prerequisites: MAR 4503, MAR 4613 or equivalents.

MAR 4804 Marketing Strategy (ME) (3). An analysis of marketing strategy, including situation analysis, target strategy, positioning strategy, and planning. Course emphasizes the use of cases. Prerequisites: MAR 4503, MAR 4613.

MAR 4860 Customer Relationship Management (ME) (3). Customer Relationship Management (CRM) is becoming an important strategic tool in consumer goods, firms, financial, health and tourist services, business-to-business firms, and in all of eMarketing. Prerequisites: MAR 3023 or equivalent.

MAR 4907 Independent Study in Marketing (ME) (3). Individual conferences; supervised reading; reports on personal investigations. Consent of faculty supervisor and Department Chairperson required.

MAR 4907L Independent Study: Marketing Research Practicum (3). This course offers an opportunity to apply marketing knowledge within the context of a consumer research setting. The intention is to be an introductory experience to a marketing research lab. Prerequisites: MAR 4620 or equivalent.

MAR 4933 Special Topics in Marketing (ME) (1-6). For groups of students desiring intensive study of a particular topic or a limited number of topics, not otherwise offered in the curriculum. Consent of faculty supervisor and Department Chairperson required.

MAR 4941 Marketing Internship (ME) (1-6). Full-time supervised work in a selected organization. Prerequisites: At least 12 hours in marketing; consent of instructor and Department Chairperson.

MAR 4942C The General Motors Marketing Internship (GMMI) Project (ME) (3). To give students the opportunity to gain extensive real-world business experience by preparing and executing an actual hands-on marketing program, which is typically not available in the average classroom. Prerequisites: MAR 3023 or equivalent.

MAR 4949 Cooperative Education in Marketing (ME) (3). Open to marketing majors who have been admitted to the Cooperative Education Program, with consent of Chairperson. Full-time supervised work with a participating organization in marketing. Report to the organization and a paper to the Chairperson are required.

QMB 3003 Quantitative Foundations of Business Administration (DS) (3). Elements and extensive applications of the following quantitative tools to Accounting, Finance, Economics, Marketing, Management and Production: Algebra review, sets, combinatorics, matrices, linear and non-linear functions, derivatives and integrals with a view towards optimization. Case studies. Open only to Business Administration majors. Prerequisite: College Algebra.

QMB 3200 Application of Quantitative Methods in Business (DS) (3). Inference and modeling for business decisions under uncertainty. Topics covered include survey sampling, confidence intervals and hypothesis testing for mean(s), variance(s), and proportion(s), chi-square test for independence and goodness of fit, correlation, linear regression, time series, and analysis of variance. Use of computer packages to solve real business problems. Prerequisite: STA 2023 or equivalent.

QMB 4680 Simulation of Management Systems (DS) (3). Exploration of basic concepts in computer simulation of systems. Application of these concepts to a variety of managerial problems. Discussion of waiting line models, continuous simulation models; heuristic methods; and management games. Presentation of several computer programs and languages for simulation. Exposure to the operation and analysis of some simulation models. Prerequisites: CGS 3300 or equivalent.

QMB 4700 Principles of Operations Research I (DS) (3). Application of deterministic operations research models (such as linear and non-linear programming, networks, dynamic programming, and branch and bound techniques) to managerial problems of allocation, planning, and scheduling.

QMB 4905 Independent Study in Decision Sciences (DS) (1-6). Individual conferences; supervised readings; reports on personal investigations. Consent of instructor, Department Chairperson and Dean required. P/F only.

QMB 4930 Special Topics in Decision Sciences (DS) (1-6). For students who wish an intensive study of a particular topic or a limited number of topics not otherwise offered in the curriculum. Consent of instructor and Department Chairperson required. Grading option.

REE 3043 Real Estate Principles (FI) (3). Introduction to the nature, principles, and fundamental practices of the real estate industry. The completion of this course and REE 4433, meets the FREC educational requirement for real estate licensing.

REE 4103 Appraisal of Real Estate (FI) (3). Valuation and appraisal framework applied to residential and income producing property; role of computers; valuation theory and process as a guide to business decisions.
REE 4204 Real Estate Finance (FI) (3). Financial analysis and structuring of real estate projects; traditional and creative concepts and mechanisms for construction and permanent financing; portfolio problems; governmental programs; money and mortgage market analysis; computers and financial models. Prerequisites: A grade of "C" or higher in REE 3043 or FIN 3403 or permission of the instructor.

REE 4303 Real Estate Investment (FI) (3). Advanced concepts of acquisition, ownership, and disposition of investment property; taxation and tax shelter; cash flow projection; analysis of specific types of investment property; utilization of computers as a decision-making tool; models of real estate investment analysis; case analysis and policy formulation. Prerequisites: A grade of "C" or higher in REE 3043 or FIN 3403 or equivalents or permission of instructor.

REE 4433 Legal Environment of Real Estate (FI) (3). The legal environment of real estate as it relates to buying, financing and selling of real property. The completion of this course and REE 3043, meets the FREC educational requirement for real estate licensing. Prerequisites: A grade of "C" or higher in REE 3043 or equivalent or permission of instructor.

REE 4504 Real Estate Management (FI) (3). Theories and techniques of professional management of real estate including such topics as creating a management plan; merchandising space; economics of alternates; market analysis; the maintenance process; owner-tenant manager relations; operating budgets; tax consideration; and ethics. (on demand)

REE 4733 Real Estate Land Planning (FI) (3). Theories of city growth and structure, operations of the real estate market in land allocation; current practices in real estate land planning. (on demand)

REE 4754 Real Estate and Regional Development Policy (FI) (3). A capstone course in integrating all the aspects of real estate and regional development learned in previous courses, projects, cases, and field trips. Prerequisite: Permission of the instructor. (on demand)

REE 4814 Real Estate Marketing (FI) (3). Techniques of selecting, training, and compensating sales personnel; obtaining and controlling listings; process and methods involved in the selling of real estate; promotion activities; including advertising and public relations; growth problems; professionalism; and ethics. (on demand)

REE 4905 Independent Study in Real Estate (FI) (1-6). Individual conferences; supervised readings; reports on personal investigations. Consent of faculty tutor, Department Chairperson, and Dean required.

REE 4930 Special Topics in Real Estate (FI) (1-6). For groups of students desiring intensive study of a particular topic or a limited number of topics, not otherwise offered in the curriculum. Consent of faculty tutor and Department Chairperson required.

REE 4956 International Real Estate – GL (FI) (3). Focus on characteristics of international real estate environment include: inbound and outbound transactions, accounting practice, tax law, legal constraint, global strategic plan, foreign exchange, global financing, and cultural issues. Prerequisites: A grade of "C" or higher in REE 3043 or FIN 3403 or equivalents or permission of instructor.

RMI 4124 Health Insurance (3). Economics of Health Insurance types of coverage; marketing, underwriting, claims adjustment and administration. Private and social insurance programs. Regulations.

RMI 4200 Property and Liability Insurance (3). Fundamentals and legal environment of property and liability insurance. Major P-L insurance lines including fire, marine, automobile, worker’s compensation, homeowner’s and liability; functions of P-L insurers.

RMI 4220 Casualty Insurance (3). A broad concept of casualty insurance, including a thorough review of basic policies; dailies; underwriting losses; multiple line and comprehensive forms. Subjects covered include personal liability insurance, boiler and machinery insurance, air insurance, inland and ocean marine insurance, workmen's compensation, and surety.

RMI 4405 Insurance Law (3). Legal environment and essentials of insurance law. Legal and non-legal liabilities. Regulation of insurance in Florida.

RMI 4935 Special Topics in Insurance (1-6). Intensive study for groups of students of a particular topic or a limited number of topics, not otherwise offered in the Curriculum. Consent of faculty supervisor and Department Chairperson required.

STA 2023 Statistics for Business and Economics (MS) (3). The use of statistical tools in management; introduction of probability, descriptive statistics, and statistical inference as included.

TAX 4001 Income Tax Accounting (AC) (3). A survey of federal income taxation with emphasis on taxation of individuals and corporations, and the ethics of income tax accounting. Prerequisites: MAC 2233, ACG 3301 or equivalent with "C" or higher, successful completion of entrance exam and junior standing.

TAX 4011 Taxation of Corporations and Partnerships (AC) (3). An in-depth study of income taxation of corporations and partnerships, including tax planning. Prerequisites: TAX 4001 and ACG 4101 or equivalent with a grade of "C" or higher.

TAX 4901 Independent Study in Taxation (AC) (1-3). Individual conferences, supervised readings, and reports on personal investigations. Prerequisite: Permission of the Director of the School of Accounting.
TAX 4931 Special Topics in Taxation (AC) (1-3). For groups of students wishing an intensive study of a particular topic(s) not otherwise offered in the curriculum. Prerequisite: Permission of the Director of the School of Accounting.

TRA 4012 Principles of Transportation (ME) (3). Overview of transportation systems. Topics include: a survey of transportation modes (including rail, motor, water, air, and pipelines), management issues (market entry, pricing, competitive responses, service levels, capital structure, traffic management) and global perspectives.

TRA 4202 Logistics Technology (ME) (3). The use of information technology in logistics: EDI, data bases, Internet, decision support systems for logistics, and commercial logistics software. The application of quantitative models in logistics. Prerequisite: TRA 4203.

TRA 4203 Principles of Logistics (ME) (3). Overview of the logistics functions within a firm and in the context of integrated vertical systems. Topics include: customer service, information flow, inventory control, materials management, order processing, packaging, physical distribution, purchasing, transportation, warehousing, and supply chain management.

TRA 4214 Logistics Strategy (ME) (3). Study of logistics policy and strategy, computer simulation of logistics systems under various market conditions, and integration of the logistics function with marketing, production, and finance functions. Case and simulation exercises to illustrate logistics. Prerequisites: TRA 4203, TRA 4202.

TRA 4411 Airport Management (ME) (3). Application of management principles to airport operation, with emphasis on unique characteristics of airport finance; government relations and regulations; airline relations and interdependence.

TRA 4721 Global Logistics (ME) (3). Logistics activities of multinational firms, international transportation systems, global sourcing, customer service, faculty location, inventory management, customs issues, export-import activities and the role of governments.

TRA 4936 Special Topics in Transportation (ME) (1-6). For groups of students desiring intensive study of a particular topic or a limited number of topics, not otherwise offered in the curriculum. Consent of faculty supervisor and Department Chairperson required.
College of Business Administration

Executive Dean: Joyce J. Elam
Senior Associate Dean: Christos Koulamas
Associate Dean, Academic Affairs and Undergraduate Programs: Clifford R. Perry
Associate Dean, International Programs: Jerry Haar
Assistant Dean, Advancement, Alumni, and Corporate Relations: Annabelle Rojas
Assistant Dean, Accreditation: Deanne Butchey
Associate Director, Undergraduate Advising: Kelly G. Ferguson
Director, School of Accounting: Ruth Ann McEwen
Assistant Director, School of Accounting: Teresita Brunken
Director, Ph.D. Programs: Arun Prakash
Director, Executive and Professional MBA Programs: Sarah Perez
Director, BBA+ Programs: Clifford R. Perry
Director, Center for International Business Education & Research (CiBER): Mary Ann Von Glinow
Director, Jerome Bain Real Estate Institute: William Hardin
Director of Marketing, Communications, and Recruiting: Luis Casas
Director, Finance and Administration: Claudio Pico
Director, Career Services: Barry Shiflett
Director, Technology Center: Manoel Oliveira

Department Chairs:
- Decision Sciences and Information Systems: Christos Koulamas
- Finance and Real Estate: Chun-Hao Chang
- Management and International Business: K. Galen Kroeck
- Marketing: Walfried M. Lassar

Faculty
- Aguirre-Rodriguez, Alexandra, Ph.D. (University of Illinois at Urbana-Champaign), Assistant Professor, Marketing
- Alvarez-Ortiz, Cecilia M., Ph.D. (Florida International University), Lecturer, Marketing
- Anderson, Gary, Ph.D. (University of Illinois), Associate Professor, Finance and Real Estate
- Armagan, Sungu, Ph.D. (The University of Utah), Lecturer, Management and International Business
- Barber, Joel, Ph.D. (University of Arizona), Associate Professor, Finance and Real Estate
- Barua, Abhijit, Ph.D. (Louisiana State University), Assistant Professor, Accounting
- Bates, Constance S., D.B.A. (Indiana University), Associate Professor, Management and International Business
- Batra, Dinesh, Ph.D. (Indiana University), Professor and Knight Ridder Center Research Fellow, Decision Sciences and Information Systems
- Becerra-Fernandez, Irma, Ph.D. (Florida International University), Professor, Decision Sciences and Information Systems and Vice Provost for Academic Affairs
- Beristain, Elizabeth, M.A. (University of Michigan), Participating Faculty
- Birrittella, Timothy Dugan, M.B.A. (Baruch College, C.U.N.Y.), Senior Instructor, Marketing
- Borkowski, Nancy, D.B.A. (Nova Southeastern University), Clinical Associate Professor, Decision Sciences and Information Systems and Faculty Director, Healthcare Management MBA Program
- Brown, Kevin W., M.S. (Florida International University), Participating Faculty, Management and International Business
- Brunken, Teresita, M.S.T. (Florida International University), Participating Faculty
- Burnett, Meredith, Ph.D. (University of Maryland), Assistant Professor, Management and International Business
- Butchey, Deanne, Ph.D. (Florida International University), Senior Lecturer, Finance and Real Estate and Assistant Dean, Accreditation
- Carmenate, Jimmy, M.Acc. (Florida International University), Participating Faculty
- Cartaya, Eric, M.B.A. (Florida International University), Instructor, Management and International Business
- Chacar, Aya, Ph.D. (UCLA), Associate Professor and Knight Ridder Research Fellow, Management and International Business
- Chang, Chun-Hao, Ph.D. (Northwestern University), Professor and Chair, Finance and Real Estate and Faculty Director, MSF Programs
- Chang, Lucia, Ph.D. (University of Texas at Austin), Professor Emeritus, Accounting
- Chen, Min, Ph.D. (Northwestern University), Clinical Assistant Professor, Finance and Real Estate
- Chen, Yi-Ju, D.B.A. (Argosy University), Lecturer, Marketing
- Chen, Yunhao, M.B.A. (University of Minnesota), Assistant Professor, Accounting
- Chou, Wen-Hsiu, Ph.D. (University of Wisconsin, Milwaukee), Assistant Professor, Finance and Real Estate
- Clemmons, Susan, Ph.D. (Florida International University), Participating Faculty, Decision Sciences and Information Systems
- Cousins, Karlene, Ph.D. (Georgia State University), Associate Professor, Decision Sciences and Information Systems
- Cox, John, M.Acc. (Florida International University), Participating Faculty, Accounting
- Daigler, Robert T., Ph.D. (University of Oklahoma), Professor and Knight Ridder Center Research Fellow, Finance and Real Estate
- Dandapani, Krishnan, Ph.D. (Pennsylvania State University), Professor, Finance and Real Estate
- de la Torre, Jose, D.B.A. (Harvard University), Professor Emeritus, Management and International Business
- Deckard, Gloria, Ph.D. (University of Missouri), Associate Professor, Decision Sciences and Information Systems
- Desai, Renu, Ph.D. (University of Central Florida), Assistant Professor, Accounting
- Dickson, Peter R., Ph.D. (University of Florida), Professor and Ryder Eminent Scholar Chair in Global Logistics Management, Marketing
- Dittenhofer, Mort, Ph.D. (American University), Professor Emeritus, Accounting
Drakatos, Stylianos, Ph.D. (Florida International University), Participating Faculty, Decision Sciences and Information Systems

Dupoyet, Brice, Ph.D. (University of Washington), Associate Professor, Finance and Real Estate and FIBA (Florida International Bankers Association) Professor

Dutta, Kaushik, Ph.D. (Georgia Institute of Technology), Associate Professor, Decision Sciences and Information Systems

Elam, Joyce, J., Ph.D. (University of Texas-Austin), Professor, Decision Sciences and Information Systems, James L. Knight Eminent Scholar in Management Information Systems, and Executive Dean

Elias, Desiree, M.Acc. (Florida International University), Participating Faculty, Accounting

Ellis, S. Christopher, M.B.A. (Florida International University), Instructor, Decision Sciences and Information Systems

Farrow, Dana L., Ph.D. (University of Rochester), Professor, Management and International Business

Gelman, Wendy, J.D. (University of Miami), Senior Instructor, Accounting

Gilbert, G. Ronald, Ph.D. (University of Southern California), Clinical Professor, Management and International Business

Gomez, Carolina, Ph.D. (University of North Carolina), Associate Professor, Management and International Business

Gooden, Doreen, D.B.A. (Nova Southeastern University), Lecturer, Management and International Business and Coordinator of Study Abroad Programs

Goodrich, Jonathan N., Ph.D. (State University of New York at Buffalo), Professor, Marketing

Gray, C. Delano, M.S. (New York University), CIA, CBA, CFE, CFSA, Instructor, Accounting

Greenberg, Barnett A., D.B.A. (University of Colorado), Professor, Marketing

Gupta, Sushil K., Ph.D. (University of Delhi), Professor and Knight Ridder Center Research Fellow, Decision Sciences and Information Systems

Haar, Jerry, Ph.D. (Columbia University), Clinical Professor, Management and International Business and Associate Dean, International Programs

Hamid, Shahid, Ph.D. (University of Maryland), Professor, Finance and Real Estate

Hardin, William, Ph.D. (Georgia State University), Professor, Finance and Real Estate; Director, Jerome Bain Real Estate Institute; Director, Real Estate Program; Faculty Director, MS in International Real Estate and Knight Ridder Center Research Fellow

Henry, Kenneth, M. Acc. (Florida International University), Clinical Assistant Professor, Accounting

Hiller, Nathan J., Ph.D. (Pennsylvania State University), Assistant Professor, Management and International Business

Jiang, Xiaojian, Ph.D. (University of Houston), Assistant Professor, Finance and Real Estate

Johnson, Ken H., D.B.A. (University of Alabama), Associate Professor and Knight Ridder Research Fellow, Finance and Real Estate

Kaleem, Faisal, M.S. (Florida International University), Participating Faculty, Decision Sciences and Information Systems

Kang, Qiang, Ph.D. (University of Pennsylvania), Visiting Assistant Professor, Finance and Real Estate

Kerbel, Marcos, M.B.A. (Georgia State University), Participating Adjunct Faculty, Finance and Real Estate

Keys, James D., M.B.A. M.S.F. (Florida International University), Instructor, Finance and Real Estate

Kim, Jung Hoon, Ph.D. (University of California, Berkeley), Assistant Professor, Accounting

Kleban, John, M.B.A. (University of Toledo), Participating Faculty, Management and International Business

Klonarides, Geraldine, M.B.A. (Florida International University), Participating Faculty, Decision Sciences and Information Systems

Klonarides, Gerard, M.B.A. (Laverne University), Participating Faculty, Management and International Business

Kroock, K. Galen, Ph.D. (University of Akron), Professor and Chair, Management and International Business and Faculty Director, MSHRM Program

Kumar, Kuldeep, Ph.D. (McMaster University, Hamilton, Canada), Professor, Decision Sciences and Information Systems

Kundu, Sumit, Ph.D. (Rutgers University), Professor and Knight Ridder Center Research Fellow, Management and International Business

Kyparisis, George J., D.Sc. (George Washington University), Professor and Knight Ridder Center Research Fellow, Decision Sciences and Information Systems

Lasaga, Manuel, Ph.D. (University of Pennsylvania), Visiting Clinical Professor, Finance and Real Estate

Lassar, Walfrid M., Ph.D. (University of Southern California), Professor and Chair, Marketing; Ryder Professor and Faculty Director, Executive MBA; Director, Ryder Center for Supply Chain Management

Lawrence, Edward R., Ph.D. (University of Nebraska), Assistant Professor, Finance and Real Estate

Leckband, Mary, Ph.D. (Florida International University), Participating Faculty, Management and International Business

Lee, Ronald M., Ph.D. (University of Pennsylvania), Professor, Decision Sciences and Information Systems

Li, Tiger, Ph.D. (Michigan State University), Associate Professor, Marketing

Lin, Stephen W., Ph.D. (University of Manchester), CPA, Associate Professor and Morrison, Brown, Argiz, and Farra, LLP Professor, Accounting

Lorenzo, Victor, M.S. (Florida International University), Participating Faculty, Accounting

Luytjes, Martin C., M.B.A. (Florida International University), Participating Faculty, Management and International Business

Lynch, Antoinette I., Ph.D. (University of South Florida), Assistant Professor, Accounting
Magnusen, Karl O., Ph.D. (Columbia University), Professor Emeritus, Management and International Business
Maidique, Modesto A., Ph.D. (Massachusetts Institute of Technology), Professor, Management and International Business; FIU President Emeritus; Executive Director, Center for Leadership and Alva H. Chapman Eminent Scholar Chair in Leadership
Maiga, Adam, Ph.D. (University of Memphis), Assistant Professor, Accounting
Martinez, Deisell, Ph.D. (University of Miami), Visiting Assistant Professor, Decision Sciences and Information Systems
Martinez, Laureano, M.B.A. (Fordham University, N.Y.) Participating Adjunct Faculty, Finance and Real Estate
McEwen, Ruth Ann, Ph.D. (Georgia Institute of Technology), Professor and Director, Accounting
McGee, Robert, Ph.D. (University of Bradford), Associate Professor, Accounting
Melbourne, Louis, M.B.A. (Florida International University), Instructor, Management and International Business
Milian, Jonathan, Ph.D. (University of Chicago), Assistant Professor, Accounting
Miniard, Paul, Ph.D. (University of Florida), Professor, Marketing and Knight Ridder Eminent Scholar Chair in Global Marketing
Mishra, Suchismita, Ph.D. (University of Nebraska-Lincoln), Associate Professor, Finance and Real Estate and Knight Ridder Center Research Fellow
Miyazaki, Anthony, Ph.D. (University of South Carolina), Associate Professor and Knight Ridder Center Research Fellow, Marketing
Moncarz, Raul, Ph.D. (Florida State University), Professor Emeritus, Finance and Real Estate
Most, Kenneth S., Ph.D. (University of Florida), CPA, F.C.A., Professor Emeritus, Accounting
Moysidis, Anastasios, M.S.F. (Florida International University), Instructor, Finance and Real Estate
Munro, Michael S., M.B.A. (Stanford University), Instructor, Marketing
Newbury, William, Ph.D. (New York University), Associate Professor, Management and International Business and Knight Ridder Center Research Fellow
Oliveira, Manoel, Ph.D. (Florida International University), Lecturer, Decision Sciences and Information Systems and Director of Technology Center
Parhizgari, Ali M., Ph.D. (University of Maryland), Professor and Ingersoll Rand International Business Professor, Finance and Real Estate
Paul, Karen, Ph.D. (Emory University), Professor, Management and International Business
Perry, Clifford R., Ph.D. (Purdue University), Distinguished Executive Professor, Management and International Business; Associate Dean, Landon Undergraduate School of Business and Director, BBA + Programs
Petrova, Stoyanka, Ph.D. (Florida International University), Participating Adjunct Faculty, Decision Sciences and Information Systems
Pomeranz, Felix, Ph.D. (University of Birmingham), CPA, CSP, CFE, Professor Emeritus, Accounting
Prakash, Arun, Ph.D. (University of Oregon), Professor and Knight Ridder Center Research Fellow, Finance and Real Estate and Director, Ph.D. Programs
Pujol, Juan, M.B.A. (Florida International University), Participating Faculty, Management and International Business
Qiang, Kang, Ph.D. (University of Pennsylvania), Visiting Assistant Professor, Finance and Real Estate
Raghuananand, Kannan, Ph.D. (University of Iowa), Professor and Ryder Eminent Scholar Chair in Business Leadership, Accounting
Rama, Dasaratha V., Ph.D. (University of Iowa), Professor and Knight Ridder Center Research Fellow, Accounting and Decision Sciences and Information Systems
Rauseo, Nancy, D.B.A. (Nova Southeastern University), Lecturer, Marketing
Rodriguez, Leonardo, D.B.A. (Florida State University), Professor Emeritus, Marketing and Management and International Business
Roomes, Donald, M.B.A. (Florida International University), Assistant Professor, Accounting
Romano, Dario, Ph.D. (Florida International University), Assistant Professor, Management and International Business
Roussakis, Emmanuel, Ph.D. (Catholic University of Louvain), Participating Adjunct Faculty, Finance and Real Estate
Sabet, Badi, M.B.A. (Niagara University), Participating Adjunct Faculty, Finance and Real Estate
Sanchez, Juan, Ph.D. (University of South Florida), Professor and Knight Ridder Byron Harless Eminent Scholar Chair in Management, Management and International Business
Sbaraglia, Andrew, Ph.D. (Pennsylvania State University), Assistant Professor, Accounting
Schneper, William D., Ph.D. (The Wharton School, University of Pennsylvania), Assistant Professor, Management and International Business and Faculty Director, International Business Honors Program
Seaton, Bruce, Ph.D. (Washington University), Associate Professor and Knight Ridder Center Research Fellow, Marketing
Shepherd, Philip, Ph.D. (Vanderbilt University), Associate Professor, Management and International Business
Silverblatt, Ronnie, Ph.D. (Georgia State University), Associate Professor, Management and International Business
Simon, Helen, D.B.A. (Nova Southeastern University), Senior Instructor, Finance and Real Estate and Director, State Farm Financial Literacy Lab
Sin, Thant, Ph.D. (Florida International University), Participating Faculty, Decision Sciences and Information Systems
Smith, Larry A., Ph.D. (University of Florida), Clinical Associate Professor, Decision Sciences and Information Systems
Soffe, Robert, J.D. (Rutgers University), Participating Faculty, Management and International Business
Sonnier, Blaise M., Ph.D. (Grenoble Ecole de Management), Assistant Professor, Accounting
Surysekar, Krishnamurthy, Ph.D. (University of Maryland), Associate Professor, Accounting
Tarangelo, Thomas J., J.D. (University of Florida), Lecturer, Accounting
Taylor, Kimberly, Ph.D. (University of Pennsylvania), Associate Professor and Macy's Retailing Professor, Marketing

Tremblay, Monica, Ph.D. (University of South Florida), Assistant Professor, Decision Sciences and Information Systems

Tsaliikis, John, Ph.D. (University of Mississippi), Associate Professor and BMI Marketing Professor, Marketing

Vander Meer, Debra, Ph.D. (Georgia Institute of Technology), Assistant Professor, Decision Sciences and Information Systems

Vidaver-Cohen, Deborah V., Ph.D. (Columbia University), Associate Professor, Management and International Business

Von Glinow, Mary Ann, Ph.D. (The Ohio State University), Professor, Management and International Business; Director, CIBER and Knight Ridder Eminent Scholar Chair in International Management

Vulcheva, Maria, Ph.D. (Emory University), Assistant Professor, Accounting

Wang, Changjiang (John), M.S. (Texas Tech University), Assistant Professor, Accounting

Wernick, David, M.A. (Florida International University), Senior Lecturer, Management and International Business

Westermann, Kim, Ph.D. (Bentley University), Assistant Professor, Accounting

Wheatley, Clark, Ph.D. (Virginia Polytechnic Institute), CPA, Associate Professor; Accounting and Faculty Director, Corporate Online MBA Program

Wilson, David, M.P.P. (University of Maryland), Participating Faculty, Management and International Business

Wishart, Nicole, Ph.D. (Florida International University), Senior Instructor, Decision Sciences and Information Systems

Wrieden, John A., J.D. (George Mason University), Distinguished Senior Lecturer, Accounting

Wu, Zhonghua, Ph.D. (University of Wisconsin – Madison), Assistant Professor, Finance and Real Estate

Xia, Weidong, Ph.D. (University of Pittsburgh), Associate Professor, Decision Sciences and Information Systems

Yap, Andrew, M.B.A. (Florida International University), Participating Faculty, Management and International Business

Zanakis, Steve H., Ph.D. (Pennsylvania State University), Professor, Decision Sciences and Information Systems

Zdanowicz, John S., Ph.D. (Michigan State University), Professor, Finance and Real Estate
The College of Education at Florida International University is one in which candidates, faculty, and staff embrace the shared experiences of a diverse, international, professional-learning community. The College, therefore, strives to facilitate diverse learning environments where knowledge becomes the means to foster goal attainment for all those involved in the learning process. This process necessitates the highest ethical standards, while emphasizing inquiry as the means-ends connection to enhancing reflective intelligence in a changing social, political, cultural and technological world.

The College of Education is charged to prepare professionals who have the knowledge, abilities, and dispositions to facilitate and enhance learning and development within diverse settings. Consequently, the College promotes and facilitates the discovery, development, documentation, assessment, and dissemination of knowledge related to teaching and learning by developing professional partnerships in the larger community that foster significant educational, social, economic and political change. Our mission supports:

- Programs that reflect curricula that reflect sound theory and best practice.
- Highly qualified and diverse students and graduates.
- Highly qualified and diverse faculty active in teaching, research and service.
- Effective and ethical governance and organizational structure within an environment of open communication among faculty, administrators, staff, students and community.
- Collaborative and mutually beneficial partnerships with schools and other organizations.
- Visibility and impact at local, state, national and international levels.
- Continuous improvement of the College.

The College offers instructional programs at the undergraduate and graduate levels, engages in research and program development activities, and provides field services to the educational community. The conceptual framework guiding education curricula and programs in the College is grounded in three core outcomes central to the vision faculty have of professional educators graduating from the College’s programs: stewards of the discipline, reflective inquirers, and mindful educators.

The College, housed in the Sanford and Dolores Ziff Education Building (ZEB) at Florida International University—Modesto A. Maidique Campus, is accredited by the National Council for the Accreditation of Teacher Education, the Florida Department of Education, and the State University System.

To support its mission, the College is organized into two departments:

- Leadership and Professional Studies
- Teaching and Learning

Bachelor of Science degree programs are offered in the following specialties:

Art Education
Early Childhood Education with ESOL Endorsement
Elementary Education with ESOL Endorsement
Recreation and Sport Management
Physical Education
Special Education

The following programs are offered in collaboration with the College of Arts and Sciences, please refer to the Arts and Sciences section of the catalog for complete information:

- English Education
- Mathematics Education
- Science Education
- Social Studies Education

Applicants to the College of Education programs should carefully examine the choices of major concentrations and program objectives. Because there are occasional revisions of College of Education curriculum during the academic year, some curriculum changes may not be reflected in the current catalog. Prospective students are advised to contact appropriate advisors to ask for current information regarding specific programs of interest.

General advisement is done in the Advising Center. For an appointment call (305) 348-2768 for Modesto A. Maidique Campus. Broward residents may call (954) 355-5622 for the Broward Program. Additional information is available on the FIU website at [http://education.fiu.edu](http://education.fiu.edu) Specific program advisement is available by prearranged personal appointment with advisors at all locations.

Note: The programs, policies, requirements, and regulations listed in this catalog are continually subject to review in order to serve the needs of the University’s various publics and to respond to the mandates of the State University System and the Florida Legislature. Changes may be made without advanced notice. Please refer to the General Information section for the University’s policies, requirements, and regulations.

### Bachelor of Science Programs

Undergraduate students will complete at least 60 semester hours of upper-division credits, including a residency requirement of 30 semester hours prior to graduation at the University. Before formal admission to the University, a student may be approved to take 15 credits as a non-degree seeking student which, if
applicable to the major field of study and approved by an advisor, may be applied to the degree program.

**Professional Training Option (PTO)**

**Education Minor and Alternative Certification Program**

Students must apply for the PTO: Alternate Certification or Education Minor program in the College Advising Center. Students who complete the entire program will have their transcripts endorsed as having successfully completed the Professional Training Option (PTO).

**Education Minor**

Students with arts and sciences majors in the following areas, Art, English, Math, Modern Languages, Music, Sciences, and Social Studies can also complete a 18-21 credit minor in education or an alternative certification program that follows the curriculum below:

**Education Core (15 credits)**

**Undergraduate Admission Requirements**

College of Education program standards are intended to insure that students have the breadth and depth of background needed for successful upper-division work in education. All students in initial teacher preparation programs are required to have a minimum overall GPA of 2.5 for all lower division/transfer course work to be admitted to the College. In addition, these students are required to achieve the competencies of the CLAS requirement and pass the FTCE General Knowledge exam or the Praxis I.

All stated admission requirements are to be considered minimum. A student who meets these minimum requirements is not automatically assured admission. Program admission requirements are subject to change. It is the responsibility of the student to assure that he/she understands and has met the requirements.

**Lower Division Curriculum Requirements**

Students applying for the college upper division programs must have completed all of the following:

- University Core Requirements
- Foreign Language Requirements
- Common pre-requisites for disciplines

(Refer to specific program requirements)

**Common Prerequisite Courses and Equivalencies**

<table>
<thead>
<tr>
<th>FIU Course(s)</th>

<td>EMEX040</td>
</tr>
</tbody>
</table>

¹In addition to EDFX085, a minimum of 6 semester hours with an international or diversity focus is required. Eligible courses will be determined by the community college or university where the student is currently earning the Associate in Arts or baccalaureate degree. Foreign language courses may be used to meet this requirement.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: [http://facts.org](http://facts.org), See Common Prerequisite Manual.

**Common Prerequisites**

<table>

<td>3</td>
</tr>
</tbody>
</table>

¹Requires field experience of 15 clock hours outside of class time.

In addition to EDF 2085, students must take six credit hours with an international or diversity focus in lower division. See individual programs for specific major prerequisite courses.

**Upper-Division Requirements Professional Studies Core: (9)**

Every teacher education student must enroll in the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDF 4604</td>
<td>Cultural and Social Foundations of Education</td>
<td>3</td>
</tr>
<tr>
<td>EDG 3321</td>
<td>General Instructional Decision Making</td>
<td>3</td>
</tr>
<tr>
<td>EDP 3004</td>
<td>Educational Psychology</td>
<td>3</td>
</tr>
</tbody>
</table>

Subsequent special teaching laboratories and courses build on these core courses to extend and refine knowledge skills, and dispositions. All teacher education programs include one semester of student teaching in a
public or approved non-public school. Student teaching requires the student to spend the entire school day of a complete semester on site. A student is not allowed to be employed while student teaching.

Upon the successful completion of all program requirements, the Bachelor of Science degree is awarded. The student is eligible to apply for a State of Florida Teaching Certificate in the field of specialization if the student has completed a College of Education State-approved program with a required 2.5 GPA.

**Undergraduate Grading Policies**

Undergraduate students must have a minimum overall grade point average (GPA) of 2.5 in order to graduate. A grade of C- or less is not acceptable toward graduation in any required program of study course in the College of Education, any college/program prerequisite or any Gordon writing/math requirements meeting General Education or lower division core requirements. Furthermore, students will not be approved for student teaching with a grade of C- in any required program of study course or with less than a minimum GPA of 2.5 in their field of specialization. Specific undergraduate programs may have higher grading criteria. Students applying for State of Florida Teacher Certification must present a GPA of 2.5 or higher in their teaching major.

All stated admission requirements are to be considered minimum. A student who meets these minimum requirements is not automatically assured admission. Program admission requirements are subject to change. It is the responsibility of the student to assure that he/she understands and has met the requirements.

**Certification Only Students**

Students choosing to pursue course work leading toward State of Florida Teacher Certification (rather than a second degree) are considered Non-Degree Seeking Students and must abide by all policies and limitations set forth for non-degree seeking students. State of Florida certification requirements are considered to be minimum requirements. It may be necessary to register for additional prerequisite courses to enroll in a desired course. Students who register for a course but have not completed the prerequisite course(s) will be administratively dropped from the class.

**Student Teaching and Fingerprint Requirements**

State of Florida Certification requires all applicants to be fingerprinted and checked by state and local law enforcement agencies. Local public and private schools and systems may also require similar security procedures for field placements, student teaching and/or internships. Students with a CHR (criminal history record) should be prepared to promptly provide documentation of adjudication in order to facilitate review and determination of eligibility for placement in the district or school requested. Details regarding specific district requirements, deadlines and documentation are available in ZEB 220, Office of Field Experiences.

**Given the unique nature of the teaching profession requiring mastery of cognitive skills, demonstration of appropriate interpersonal skills, and professional behavior, the faculty retains the right to “counsel out” of the program and/or not to recommend for internship placement any student whose level of interpersonal competence and professional behavior is considered incompatible with that required for effective functioning as a teacher.**

**For all Teacher Prep and Counseling Field Experiences**

Online information and the student teaching application is available at [http://education.fiu.edu](http://education.fiu.edu). Online submission deadline for Fall placement is due February 1; application for Spring placement for Elementary, Early Childhood and ESE majors is due June 1; for all other Spring placements the deadline is September 15. A set of hard copies is due to ZEB 220 for Fall placements by March 1; for Spring placement for Elementary, Early Childhood, and ESE majors is due July 1; for all other majors is due October 1.

Students are required to take and pass the GK, Professional Education (Ped), and appropriate Subject Area Exam (SAE) before beginning student teaching placement. Students must provide evidence of passing scores on all required exams by the end of the semester immediately preceding the internship.

**Graduation Requirements**

- Cumulative GPA of 2.5 or higher
- No grades of C- or less

All Students graduating from an Initial Teacher Preparation Program must pass the Florida Teacher Certification Exam prior to graduation. (This includes the Professional Education, the Subject Area, the General Knowledge Exams), and demonstrate successful completion of the Florida Educator Accomplished Practices. Students who fail one or more sections of the FTCE will not be cleared for graduation.

**Master of Arts in Teaching (MAT) Degree**

Students who hold a bachelors degree in a field other than education and wish to teach may want to consider pursuing the MAT degree. Admission to these degree programs include fulfillment of the CLAS, or the General Knowledge Exam, or the Praxis I, without alternatives. After July 1, 2002, this requirement may be waived for students with a BS degree and a score of 1000 on the GRE. New graduation requirements for these Alternate Master's Programs include the following:

- Overall GPA of 3.0
- Passing scores on all three (FTCE) sections of the Florida Teacher Certification Exam. (Professional Education, Subject Area, and General Knowledge)
- Successful demonstration of all Florida Educator Accomplished Practices.

Note: If a student receives passing scores on the CLAST prior to July 1, 2002, they do not have to pass the new General Knowledge test. Students who fail one or more sections of the FTCE will not be cleared for graduation.

See specific program information and faculty advisor for additional information.

**TaskStream Requirement**

Beginning in Fall 2008, all students enrolled in the College of Education will be required to subscribe and maintain a TaskStream account throughout their FIU career so that they can generate and maintain a portfolio of their work in the college.
TaskStream is a web-based electronic portfolio application that allows students to upload and share selected work via the world wide web. TaskStream also has tools which allow students to create standards-based lesson plans, evaluation rubrics, and entire instructional units. All students are required to upload onto TaskStream critical assignments in courses that serve as artifacts of their demonstration of the College's unit outcomes, Florida Educator Accomplished Practices, and other specialized program standards.

The department of Leadership and Professional Studies offers programs and courses for students interested in working in a wide range of organizational, urban/multicultural/international contexts of education and training. Academic preparation focuses on such areas as educational leadership, urban education, management, psychology, policy development and analysis, adult education, human resources development, research/evaluation, counselor education, school psychology, higher education administration, recreation therapy and recreation and sport management. In addition, the department provides the core undergraduate and graduate curricula in the historical, cultural, social, philosophical, and psychological foundations of education. The department is substantially directed towards granting master’s and doctoral level degrees, but it also offers an undergraduate degree in Recreation and Sport Management. Department faculty are recognized as national/international scholars, exemplify outstanding teaching practices, and are committed to taking a leadership role in the provision of professional services and the process of community engagement. They are worlds ahead in its commitment to serving and maximizing student learning, engaging in the discovery and dissemination of new knowledge, and encouraging a creative and innovative spirit among our students. Community engagement plays a pivotal role in the programs and sponsored-research projects implemented through the department, where critical problems confronting our communities are identified and addressed.

¹In addition to EDFX085, a minimum of 6 semester hours with an international or diversity focus is required. Eligible courses will be determined by the community college or university where the student is currently earning the Associate in Arts or baccalaureate degree. Foreign language courses may be used to meet this requirement.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

Common Prerequisites

| EDF 1005     | Introduction to Education¹ | 3 |
| EDF 2085     | Teaching Diverse Populations¹ | 3 |
| EME 2040     | Introduction to Educational Technology or acceptable substitute | 3 |

¹Requires field experience of 15 clock hours outside of class time.

In addition to EDF 2085, students must take six credit hours with an international or diversity focus in lower division. See individual programs for specific major prerequisite courses.

Field Experience

Most courses offered by the department require observation and participation in selected schools. The course descriptions identify the courses which require in school classroom experiences guided by the directing classroom teacher and a College of Education faculty
member.
All stated admission requirements are to be considered minimums. A student who meets these minimum requirements is not automatically assured admission.
Program admission requirements are subject to change. It is the responsibility of the student to assure that he/she has met the requirements.

Graduation Requirements
In the College of Education, all undergraduate students are required to meet the following requirements before they can graduate from their respective teacher education programs.
1. An overall GPA of 2.5
2. Successful demonstration of all the Florida Educator Accomplished Practices – pre-professional level
3. Passing scores on the three tests that make up the Florida Teacher Certification Exam.

Recreation Management Certificate Program
This is a professional certification program, which does not require an interdisciplinary relationship. However, given the interdisciplinary nature of the Recreation Management program, students will have exposure to various fields of study (e.g., marketing, strategic planning, management, human resource management, law & liability, etc.).

Courses and Requirements: (18)
LEI 3402 Program Development in Recreation and Sports 3
LEI 3524 Human Resource Management 3
LEI 3542 Principles of Parks, Recreation and Sports Management 3
LEI 3630 Care, Maintenance and Design 3
LEI 3800 Liability and Law in Leisure, Recreation and Sports 3
LEI 4560 Leisure Service Marketing 3

Bachelor of Science in Recreation and Sport Management
Degree Program Hours: 120
The Recreation and Sport Management undergraduate curriculum offers professional preparation programs designed to prepare students for employment in park, recreation, sport management or recreational therapy delivery systems. The program is oriented towards direct services, supervisory, and management employment opportunities. A student may elect to gain competencies in Parks Management, Recreation and Sport Management or Recreational Therapy.

Lower Division Preparation
To qualify for admission into the program, students must meet all published admission requirements which include: program prerequisites, General Education/Gordon Rule, GPA = 2.0, and CLAS. Students who do not meet the College admission requirements may request a formal review by: (a) writing an admission appeal letter to the Department requesting a review of the applicant’s records and indicating the reason(s) special consideration should be granted to the applicant; (b) forwarding three letters of recommendation; and (c) participating in a formal interview with departmental/program faculty or representatives.

Required Core Courses: (33)
LEI 3001 Leisure and Recreation in America 3
LEI 3707 Inclusive Recreation Services 3
LEI 3542 Principles of Parks, Recreation and Sport Management 3
LEI 3800 Liability and Law in Leisure, Recreation & Sports 3
ACG 3024 Financial Accounting for Managers 3
or
PAD 4223 Public Sector Budgeting 3
LEI 4940 Internship 9
LEI 4941 Internship II 9

Recreation and Sport Management Track: (27)
LEI 3402 Program Development in Recreation and Sports 3
LEI 3524 Human Resource Management in Parks and Recreation 3
LEI 3630 Care, Maintenance and Design 3
LEI 4560 Leisure Services Marketing 3
LEI 4590 Seminar in Parks, Recreation and Sport Management 3
MAR 3023 Marketing Management 3
PET 4251 Sociology of Sport 3
Advisor approved electives 6

Parks Management Track: (27)
LEI 3402 Program Development in Recreation and Sports 3
LEI 3630 Care, Maintenance and Design 3
Two Environmental Science Courses and Labs1 6-8
Two Environmental Social Science Courses1 6
Two Environmental Electives1 6
Advisor approved electives 1-3
1the above six courses qualify you for an Environmental Studies Certificate.

Recreational Therapy Track Courses (27)
CLP 4146 Abnormal Psychology 3
LEI 3703 Introduction to Therapeutic Recreation 3
LEI 3724 Therapeutic Recreation & Facilitation Techniques 3
LEI 4705 Programming for Therapeutic Recreation 3
LEI 4711 Client Assessment, Evaluation and Documentation in Therapeutic 3
LEI 4720 Recreation Problems, Issues, and Concepts in Therapeutic Recreation 3
PET 3351 Exercise Physiology 3
Electives 6

Required Prerequisites-Recreational Therapy Track:
PET 3325C Anatomy for the Exercise and Sports Sciences 3
PET 3325L Anatomy for the Exercise and Sports Sciences Lab 1
CGS 2060 Introduction to Microcomputers 3
DEP 2000 Human Growth and Development: Introductory Developmental Psychology 3

Required Corequisites for Recreational Therapy:
The student must have completed a minimum of 18 semester hours from three of the following six areas: adaptive physical education, biological/physical science, human services, psychology, sociology, or special
education. All internships must be done under the supervision of a full time Certified Therapeutic Recreation Specialist (CTRS).

**Program for Vocational-Technical Teacher Education Certification**

The College offers Vocational-Technical Teacher certification courses at the initial, professional, and advanced levels for local school district compliance in the areas of Vocational Industrial Education, Family and Consumer Sciences Education, Health Occupations Education, Public Service and Occupational Specialists. Courses for Endorsements are offered in Work Experience, Diversified Cooperative Training, and Vocational Education for Speakers of Other Languages (VESOL). Courses for renewal/recency of Professional Teaching and Vocational Administration and Supervision certificates are also offered. Persons seeking initial, Professional and Advanced Vocational Administration and Supervision certification, are encouraged to seek a statement of eligibility from the Florida Department of Education for degreed persons, and local school district vocational certification office for non-degreed teachers where they are teaching or intend to teach prior to taking courses at the university.
Teaching and Learning

General Program Information

The Department of Teaching and Learning offers programs that meet the academic needs of teaching professionals throughout their careers. State of Florida teacher certification requirements are met for most programs leading to a Bachelor of Science degree in a variety of content areas. Programs are designed to bridge the theory to practice gap by engaging students in field experiences in schools and other environments. Undergraduate programs culminate with a one-semester student teaching experience.

The Department of Teaching and Learning offers undergraduate programs leading to the Bachelor of Science degree in early childhood education, elementary education, physical education, special education, and selected secondary school subject areas of specialization. Some secondary education programs are offered through the College of Arts and Sciences in collaboration with the College of Education. State of Florida certification requirements are met for all programs preparing early childhood, elementary, secondary (6-12) teachers and K-12 teachers in art education, physical education, and special education. All teacher preparation programs are accredited by the National Council for the Accreditation of Teacher Education (NCATE) and approved by the State of Florida Department of Education.

Undergraduate initial teacher preparation programs are as follows:

Early Childhood Education:
Prekindergarten/Primary Education: Age 3 to Grade 3 (ESOL Endorsement)

Elementary Education: Grades K-6 (ESOL Endorsement)

General Education: Grades K - 12
Art Education
Physical Education
Special Education: Exceptional Student Education (ESOL Endorsement)

The following programs are offered in collaboration with the College of Arts and Sciences; please refer to the Arts and Sciences section of the catalog for complete information:

   English Education
   Mathematics Education
   Science Education
   Social Studies Education

Upon admission to the University and to the College, each student is assigned an advisor in the selected teaching field. Upon successful completion of the work specified in the program of study, the student is awarded the Bachelor of Science Degree with a major in a specified subject matter area or level of schooling is eligible for regular teacher certification in the State of Florida.

Admission Requirements: Undergraduate Initial Teacher Preparation Programs

To qualify for admission to the programs, undergraduate candidates must have met all the lower division requirements including: 60 credit hours of lower-division courses, all general education requirements, lower-division GPA of 2.5 or higher, and achieve the
competencies of the CLAS requirement, or the General Knowledge Exam, or the Praxis I.

All stated admission requirements are to be considered minimum. A student who meets these minimum requirements is not automatically assured admission. Program admission requirements are subject to change. It is the responsibility of the student to assure that he/she has met the requirements.

Field Experiences

Most courses offered by the department require observation and participation in selected schools. The course descriptions identify the courses which require in-school classroom experiences guided by the directing classroom teacher and a College of Education faculty member.

The student teaching assignments are fulfilled in designated field centers. This experience is on a full-time basis for one semester. Permission to student-teach is contingent upon successful completion of all other requirements specified in the program of study. Students may be assigned to do their student teaching during either the Fall or Spring semesters of their senior year. There is no student teaching during the Summer semester.

Application for student teaching is the responsibility of the student. Information can be obtained online at the website: http://education.fiu.edu. Students must come in person to the Office of Field Experiences in ZEB 220 to be registered and be provided necessary documentation. Deadline dates are July 1 for Spring student teaching and March 1 for Fall placement.

All stated admission requirements are to be considered minimums. A student who meets these minimum requirements is not automatically assured admission. Program admission requirements are subject to change. It is the responsibility of the student to assure that he/she has met the requirements.

Graduation Requirements

In the College of Education, all undergraduate students in initial certification programs are required to meet the following before they can graduate from their respective teacher education programs.

1. An overall GPA of 2.5
2. Successful demonstration of all the Florida Educator Accomplished Practices - pre-professional level
3. Passing scores on the three tests that make up the Florida Teacher Certification Exam.

For students who passed the CLAST prior to July 1, 2002. The General Knowledge Test will not be required. All admission and graduation information described above pertains to students entering all of the initial teacher preparation programs that follow.

Other Programs:

Early Childhood Education: Early Childhood Development Track Program (not a Teacher preparation program)
Exercise and Sports Sciences
Physical Education: Sport and Fitness Studies Track Education Minor and Alternative Certification (not a degree program)

Bachelor of Science in Early Childhood Education: (Prekindergarten/Primary Education: Age 3 through Grade 3 & ESOL Endorsement)

Degree Track Hours: 129

The Bachelor of Science in Early Childhood Education with ESOL Endorsement is an initial teacher preparation program designed to train future teachers of students from preK-3 to grade 3. The program is designed to provide students with general knowledge of teaching and pedagogical practices, as well as specific knowledge relevant to working in the early childhood education field.

Lower Division: (60)

See the general information section, admission and graduation requirements, and new general education requirements (45 hours).

Upper Division Program: (69)

Minimal acceptable grade is a "C"

Foundations: 12 hours

**Special Methods and Student Teaching**

Students must complete the 14 semester hours of foundations courses, and all core courses before enrolling in 4000-level Special Teaching Lab courses. ARE 4316 and ARE 4341 must be taken before ARE 4940.

Applications to student teach are due in the office of the Director of Student Teaching by July 1 for Spring semester placement.
Bachelor of Science in Physical Education: Grades K-12 (120)

This program is designed for individuals who wish to become certified to teach physical education in the elementary and middle, and secondary schools. Upon successful completion of the program and the requirements specified by the Florida Department of Education, degree recipients are eligible for regular teacher certification in the State of Florida.

Lower Division Program Requirements:

- Anatomy and Physiology I with Lab 3-4
- Skills and Practices Courses in Physical Activities 4-5
- Conditioning, Fitness and Wellness 3

Lower-Division Common Education Prerequisites:

- EDF 1005 Introduction to Education 3
- EDF 2085 Teaching Diverse Populations 3
- EME 2040 Introduction to Educational Technology, or acceptable substitute 3

*Requires field experience of 15 clock hours outside of class time.

In addition to EDF 2085, students must take six credit hours with an international diversity focus in lower division. All required courses must be completed with a grade of ‘C’ or higher.

Upper Division Program: (61)

Professional Education: (18)

- EDF 4604 Cultural and Social Foundations of Education 3
- EDG 3321 General Instructional Decision Making 3
- EDP 3004 Educational Psychology 3
- RED 4325 Reading in the Content Area 3
- TSL 4234 ESOL Issues and Strategies for Content Teachers 3
- ESE 4343 Classroom Management 3

Subject Matter Specialization: (46)

- DAE 3371 Dance in the Elementary School 3
- PEO 4041 Games & Gymnastics in the Elementary School 3
- PET 3310 Kinesiology 3
- PET 3351 Exercise Physiology 3
- PET 3640 Adapted Physical Education 3

- PET 4622 Athletic Injuries 3
- PET 4050 Motor Learning and Development 4
- PET 4442 Physical Education in the Secondary School 3
- PEP 4102 Applied Concepts of Fitness and Health 3
- PET 4401 Administration of Physical Education and Sport 3
- PET 4929 Student Teaching Seminar 3
- PET 4945 Student Teaching Grades 6-12 (or PET 4944 or PET 4943) 9

Bachelor of Science in Special Education, Exceptional Student Education and ESOL Endorsement

Degree Program Hours: 127

The undergraduate special education, exceptional student education (ESE) program utilizes a field-centered preparation model leading to approval for State of Florida Certification in Exceptional Student Education with ESOL Endorsement.

The special education, exceptional student education (ESE) program recognizes that students with disabilities are entitled to a free and appropriate public education, that all students are to be educated in the least restrictive yet most enabling environment and are to access the general education curriculum the greatest extent possible. Special educators also provide services to preschool children and adults.

Given this context, the undergraduate ESE program emphasizes the development of the following competencies to be demonstrated in both the University and field settings:

1. Identifying and accessing students with exceptionalities.
2. Implementing appropriate individual educational plans to meet student needs.
3. Delivering appropriate instruction for children with exceptionalities in the least restrictive environment.
5. Planning for inclusion and collaboration with parents and other education personnel.
6. Working with students with disabilities from culturally and linguistically diverse backgrounds.

Diagnostic-prescriptive teaching and management skills are to be demonstrated with students with mild disabilities who range in age from infancy to adulthood, and who represent multicultural, multilingual backgrounds. The Florida Education of Speakers of Other Languages (ESOL) competencies are met throughout program coursework.

Admission Requirements

To qualify for admission to the program, undergraduates must have met all the lower division requirements including CLAS, and have a 2.5 GPA or above.

The undergraduate ESE program is offered in a sequence. Although, there is flexibility in the schedule, there are many courses that have to be taken at a certain time in the program. In addition, senior block (the semester prior to student teaching) and student teaching are offered ONLY at Fall and Spring semesters. It is imperative that students work closely with their advisors to take courses in the appropriate sequence. Faculty will advise students on special education program course sequence prior to official acceptance. Please consult an ESE advisor for additional information.

Graduation Requirements

Graduation requirements include successful demonstration of the Florida Educator Accomplished Practices, GPA 2.5 or above and passing scores on all three sections of the Florida Teacher Certification Exam.
Exceptional Student Education (67)

Upper Division: Professional Studies Common Core
EDP 3004 Educational Psychology 3
EFD 4604 Cultural and Social Foundations of Education 3
EDG 3321 General Instructional Decision Making 3

Upper Division: Program Content Courses
TSL 3080 ESOL Issues: Principles and Practices I 3
TSL 4081 ESOL Issues: Principles and Practices II 3
EEX 3764 Instructional and Assistive Technology in Special Education 3
EEX 4240 Literacy in Special Education 3
EEX 3070 Teaching Students with Exceptionalities in Inclusive Settings 3
SPA 3000 Acquisition of Speech and Language Skills 3
EEX 3221 Assessment of Students with Exceptionalities 3
EEX 4601 Behavioral Approaches to Learning and Classroom Management I 3
RED 4150 Teaching Beginning Literacy 3
RED 4325 Subject Area Reading 3
MAE 4310 Teaching Elementary Math 3
SCE 4310 Content and Methods of Teaching Elementary Science 3
SSE 4312 Content and Methods of Teaching Elementary Social Studies 3
EEX 3066 Instructional Practices in Exceptional Student Education I 3
EEX 4067 Instructional Practices in Exceptional Student Education II 3
EEX 4833 Supervised Practicum in Special Education 1
EEX 4861 Student Teaching 9
EEX 4936 Student Teaching Seminar 3

Note: The following courses within the undergraduate program require a total of 10 to 20 hours of field placement per semester during school hours. EEX 3012, EEX 3070, RED 4150, RED 4325, MAE 4310, TSL 3080, and TSL 4081. In addition the semester prior to student teaching along with class attendance at the University, students must take EEX 4833 which requires 120 hours of field placement (20 hours per week for 6 weeks or 15 hours for 8 weeks. EEX 4861, student teaching, required full-time placement in the field. Permission to student teach is contingent upon satisfactory completion of all requirements specified in the program. Applications to student teaching must be filed in the Office of Field Experiences by the date indicated in the student teaching office preceding the Student Teaching semester: March 1st for Fall placement and July 1st for Spring placements. Please confirm this due date with your advisor. The due date is subject to change.

All stated admission requirements are to be considered minimal. A student who meets these minimum requirements is not automatically assured admission. Program admission requirements are subject to change. It is the responsibility of the student to assure that he/she has met the requirements.

Non-Teacher Certification Programs

Bachelor of Science (B.S.) in Early Childhood Education

Early Childhood Development Track

Degree Program Hours: 120

The Early Childhood Development Track focuses on understanding of learning and development during the early childhood years. Students will learn about the cognitive, language, and social/emotional development of young children within the context of family and community studies. Students will also learn about general and early education practices and curricula. (NOTE: This track does not result in a teacher certification.)

Admission Requirements

In order to be admitted into the Early Childhood Development Track, students must (a) achieve the competencies of the CLAS requirement, (b) have 60 semester hours or an A.A. degree from a FL public institution, (c) have a minimum 2.5 GPA, and (d) meet the general requirements of Florida International University.

Upper Division Program: (60)

The Early Childhood Development Track requires students to take a total of 60 upper division credit hours in professional education and early childhood development.

A. Professional Education Courses: (30 hours)

1. Foundations (12 hours)
EDG 3321 General Instructional Decision Making 3
EDP 3004 Educational Psychology 3
EDF 4604 Cultural and Social Foundations of Education 3

2. Teaching Methods and Curriculum (min 9 hours)
Choose three (3) advisor-approved teaching methods and curriculum courses, such as
ARE 3313 Content and Methods of Teaching Elementary Art 3
EEX 3070 Teaching Students with Exceptionalities in Inclusive Settings 3
HLP 3722 Content and Methods of Teaching Elementary Health and Physical Education 3
MAE 4310 Content and Methods of Teaching Elementary Math 3
SCE 4310 Content and Methods of Teaching Elementary Science 3
TSL 3080 ESOL Principles and Practices I 3

3. Early Childhood Education (min 9 hours)
Select three (3) advisor-approved early childhood education courses, such as
ECE 3204 Issues in Early Childhood Education 3
ECE 4005 Early Childhood Educational Programs 3
ECE 4204 Early Childhood Curriculum 3
LAE 4405 Children’s Literature 3

B. Early Development Courses (21 hours)

1. Child Development (min 9 hours)
EDP 3273 Child Development 3
Select two additional advisor-approved child development courses, such as
EDP 4274  Early Social and Emotional Development  3
EDP 4275  Assessment, Evaluation, and Diagnosis of the Young Child  3

2. Family & Community Studies (min 6 hours)
Select two (2) advisor-approved courses in family and community studies, such as:
EEC 3400  Family Literacy and the Young Child  3
EEC 3403  Special Needs of Children and their Families  3
EEC 3408  Community and the Young Child  3

3. Literacy/Language/Reading Development (min 6 hours)
Select two (2) advisor-approved literacy/language/reading development courses, such as:
RED 3313  Language and Literacy Development  3
RED 4100  Emergent Literacy  3
RED 4150  Teaching Beginning Literacy  3

C. Elective Courses: (9 hours)
Select up to three (3) advisor-approved elective courses in the area of early childhood learning and development. Elective courses may be used to take additional courses in any of the areas listed above.

Bachelor of Science in Physical Education: Sport and Fitness Studies Track
The undergraduate sport and fitness studies track prepares individuals for positions in physical activity and fitness settings. These areas typically include but are not limited to coaching, directing fitness activities, administering youth and senior activity programs, and serving special needs populations. The core program emphasizes the development of the knowledge, skills and dispositions of students to succeed in physical activity and exercise settings that are non-school based. Program electives allow students to pursue and develop areas of interest. (NOTE: This track does not result in a teacher certification.)

Lower Division Preparation
To qualify for admission into the program, students must meet all College of Education published admission requirements which include: program prerequisites, Core Curriculum requirements, 2.5 GPA, and CLAS.

Upper Division Program: 60 (or 61) credits

Required Core Courses: 48 (or 49) credits
PEM 4103  Advanced Personal Training  3
PEO 4004  Principles of Coaching  3
PEP 4102  Applied Concepts of Fitness  3
PET 3020  Foundations of Physical Education  3
PET 3640  Adapted Physical Education  3
PET 3310  Kinesiology  3
PET 3351  Exercise Physiology  3
PET 4050  Motor Learning and Development  4
or
PET 4207  Considerations in Youth Sports  3
APK 4400  Sport Psychology  3
PET 4251  Sociology of Sport  3
PET 4401  Administration of Sport  3
PET 4622  Athletic Injuries  3
PET 4929  Senior Seminar in PE  3
PET 4946  Sport and Fitness Internship  9

Advisor approved electives: (12)
All electives must be approved by an advisor prior to enrollment.

Professional Training Option (PTO) Education Minor and Alternative Certification Program
Students must apply for the PTO: Alternate Certification or Education Minor program in the College Advising Center. Students who complete the entire program will have their transcripts endorsed as having successfully completed the Professional Training Option (PTO).

Education Minor
Students with arts and sciences majors in the following areas, Art, English, Math, Modern Languages, Music, Sciences, and Social Studies may complete a 18-21 credit minor in education or an alternative certification program that follows the curriculum below:
(NOTE: Some of the courses may be taken at the undergraduate or graduate level depending on the student’s educational career goals.)

Education Core: (15 credits)
EDF 4604  Cultural and Social Foundations of Education  3
EDP 3004/5053  Educational Psychology  3
EDG 3321/5414  Instructional Decision Making  3
ESE 4343C/5344  Secondary Classroom Management  3
or
EDF 3251  Classroom Management  3
RED 5147  Developmental Reading  3
or
RED 4325  Subject Area Reading  3
or
RED 5339  Subject Area Reading  3

Special Methods: Subject Area Specific (3-6 credits)
English 6-12/TEASOL
LAE 4335/5336C  Special Teaching Lab: English  3
Mathematics
MAE 4330  Teaching and Learning Secondary Mathematics  4

Earth Science/Physics/Chemistry/Biology
SCE 4330  Secondary Science Teaching Methods  3

Social Studies
SSE 4384  Special Teaching Lab: Social Studies  3

French/Spanish
FLE 4314/5142  Methods of Teaching Modern Languages in Elementary School  3
FLE 4375/5371  Methods of Teaching Modern Languages at the Secondary Level  3

Art Education
ARE 4316  Special Teaching Lab: Art K-5  3
ARE 4341  Special Teaching Lab: Art 6-12  3

Music Education
MUE 3340  Elementary Music Methods  3
MUE 4341  Secondary Music Methods  3
Course Descriptions

ADE 4274 Organizational Training and Development (3). Describes role of employee training/development in a variety of organizations. History/current trends and issues/future directions noted. Training and development in specific organizations emphasized.

ADE 4384 The Adult Learner (3). Identifies the characteristics and evolving development of adults. Reviews the primary learning theories and analyzes those most applicable for adults as learners.

APK 4400 Sport Psychology (3). Concepts related to the psychological aspects surrounding sport performance will be discussed. Required course in the Undergraduate Sport Management Track. Prerequisite: Upper division status. (S)

ARE 3313 Experiencing Art in the Elementary Schools (3). Knowledge and skills for the development and implementation of art experiences in the elementary curriculum for the elementary classroom teacher. Lab fee required.

ARE 4316 Special Teaching Laboratory: Art in Grades K-6 (3). Development of instructional skills, techniques, and strategies for teaching art in the elementary school. Laboratory and field participation required. Lab fee required.

ARE 4341 Special Teaching Laboratory: Art in Grades 7-12 (3). Development of instructional skills, techniques, and strategies for teaching art in the middle and senior high school. Laboratory and field participation required. Lab fee required.

ARE 4459 New Media - Crafts in the Classroom (3). Understand the role and evolution of crafts in the schools, their function in child development, planning, assessment and basic production techniques with various media. Lab fee required.

ARE 4848 Concepts in Art Education (3). Understand philosophies and events that influenced the development of Art Education and the application of Discipline-Based Art Education and Aesthetic Education to the classroom. (F, SS)

ARE 4920 Advanced Workshop in Art Education - Technology for the Visual Arts Educators (3). Production and application of materials and techniques in art education, in laboratory or field setting. Lab fee required.

ARE 4925 Advanced Workshop in Art Education (3). Production and application of materials and techniques in art education, in a laboratory of field setting. Lab fee required.

ARE 4926 Advanced Workshop in Art Education (3). Production and application of materials and techniques in art education, in laboratory or field setting. Lab fee required.

ARE 4927 Advanced Workshop in Art Education (3). Production and application of materials and techniques in art education, in laboratory or field setting. Lab fee required.

ARE 4928 Advanced Workshop in Art Education (3). Production and application of materials and techniques in art education, in laboratory or field setting. Lab fee required.

ARE 4929 Advanced Workshop in Art Education (3). Production and application of materials and techniques in art education, in laboratory or field setting. Lab fee required.

ARE 4940 Student Teaching in Art (9). Supervised teaching in an elementary and secondary school. (S)

CHD 3220 Child Development: Infancy and Early Childhood (3). Systematic study of total developmental process in the child from conception through early childhood emphasizing the effects of home and family environment. Includes observational experiences. (AR)

CHD 4210 Middle Childhood and Adolescent Development (3). Extension of the study of developmental patterns of children, with emphasis on physical, intellectual, social, and emotional maturation through adolescence. Analysis of environmental and home influences. (AR)

DAE 3300 Dance in the Elementary, Middle, and Secondary School (3). Includes content and methods for teaching dance in grades K-12. Emphasis on structured multicultural dance forms including folk and square dance, social dance, and line dancing, field experience required (20 hours). Prerequisite: Dance Departments. (AR)

DAE 3320 Dance in the Elementary and Middle School (3). The study of the scope, structure, and sequence of the dance program for grades K-8. Emphasis on educational dance and simple forms of folk and square dance. Field and laboratory experiences required. (F)
DAE 3940 Supervised Teaching in Dance (3-9). Practical application in a clinical setting of knowledge acquired in the classroom. Hours may vary.

EBD 4212 Behavioral Approaches to Learning and Classroom Management II (3). Advanced behavior management techniques to include application of theories, crisis intervention, legal issues, and counseling skills. Prerequisites: EEX 2010, 3202, SPA 3000, EEX 3221, EEX 4601. (F)

EBD 4243 Strategies for Teaching Students with Emotional Handicaps (3). Instructional strategies and specialized approaches for teaching emotionally handicapped. Must be taken concurrently with EBD 4244, EBD 4212, and EEX 4833 as 'the senior block' and requires extensive field work. Prerequisite: All junior-level courses. Corequisites: EBD 4212, EBD 4244, EEX 4833. (F, S, SS)

EBD 4244 Curriculum for Teaching Students with Emotional Handicaps (3). Concepts and skills using various curricular models designed for students with emotional handicaps. For program students, this course must be taken concurrently with EBD 4244 and EBD 4212 as the Senior Block. Prerequisites: All junior level courses. (F)

ECT 3004 Foundations of Vocational Education (3). History of vocational legislation, principles and practices on the national, state, and local levels. (SS)

ECT 3183C Course Planning (3). Knowledge of work analysis, planning, and organizing of vocational content for instruction. (SS)

ECT 3367 Testing and Measurements in Vocational Education Subjects (3). Knowledge and skill in developing cognitive, effective and performance standards, tests, and measurements in vocational laboratory settings. Prerequisite: ECT 3183C. (SS)

ECT 3463 Instructional Materials in Vocational Industrial Education (3). Evaluation of existing instructional materials and the planning and development of individualized instructional materials. (S)

ECT 3815C Vocational Education Laboratory Management and Safety (3). Knowledge and skill in analyzing, planning, organizing and controlling laboratory environments and students’ safe learning activities. (F)

ECT 4644 Emerging Emphasis in Career Education (3). A knowledge of current trends and issues in reference to developing and integrating career education into current elementary and secondary educational programs. (AR)

ECT 4693 Technical Applications in Occupational Areas (3). The incorporation of new technical knowledge and skills of an occupational area into existing vocational education courses of study. Prerequisite: ECT 4905. (F)

ECT 4905 Directed Study in Vocational/Technical Education (1-3). Identification, research, and reporting on a special problem of interest to the student. Subject to approval of program advisor. (F, S, SS)

ECT 4920 Group Training and Development (3). Knowledge and skills necessary to design, prepare, conduct, and evaluate group training and development programs. Prerequisite: Permission of the instructor. (S, all)

ECT 4931 Special Topics (1-4). Knowledge of recent developments related to problems, practices, programs, and methodologies in organizational setting. Prerequisite: Permission of the instructor. (AR)

ECT 4940 Professional Problems in Vocational and Technical Education (3). Knowledge of institutional structure, organization, policies, and roles of school personnel, with actual teaching experience in area of specialization. (S)

ECT 4941 Student Teaching: Vocational Industrial Education and Technical Education (9). Utilization of instructional knowledge, attitudes, and skills in a variety of instructional situations in the vocational educational setting. (F, S)

ECT 4946 Field Experience: Technical Updating (3). The identification and acquisition of current technical knowledge and skills in an occupational area. Prerequisite: Vocational certification. (F, S, SS)

ECT 4949 Occupational Experiences (3-9). Occupational skill developed via field based work-experience in industry, business, or a government agency in the occupation in which the student is preparing to teach. (F, S, SS)

ECW 4103 Instructional Strategies and Evaluation in Vocational and Technical Education (3). Knowledge and skill in analyzing, planning, developing, executing and evaluation classroom and laboratory teaching and learning activities. For non-degree certification only. (AR)

ECW 4284 Occupational Safety and Health (OSHA) (3). Knowledge of the history, implications, and applications of the Occupational Safety and Health Act of 1970. For vocational and technical teachers, industrial employees, and management personnel. (AR)

ECW 4310 Planning and Operating HOE Programs (3). An intermediate course that develops an understanding of health occupation education as well as skills and knowledge needed by health care professionals to plan and develop health occupations programs. Approved for “special methods of teaching health occupations education.” Prerequisite: ECT 3183C. (AR)

ECW 4311 Special Teaching Lab in HOE Programs (3). An intermediate course that develops knowledge of institutional structure, policies and roles of school personnel combined with field and actual teaching experiences. (AR)

ECW 4312 Instructional Strategies and Evaluation in HOE Programs (3). An intermediate course that focuses on the development of skills and knowledge needed to analyze, plan, develop, execute and evaluate classroom and laboratory teaching and learning activities in health occupations education. Approved for “special methods of teaching health occupations education.” Prerequisite ECT 3183C. (AR)

ECW 4564 Teaching Limited English Proficient Students in Vocational Education (3). Knowledge of the history, principles, and practices, as well as skill in analyzing, planning, developing, executing, and evaluating classroom and laboratory teaching and learning activities for limited English proficient students. Meets META requirement. (F)
EDE 3302 Issues in Elementary Education (3).
Provides discussion of classroom management, discipline, school-community relations, and school law required of undergraduate elementary education majors while student teaching. Prerequisite: Successful completion of all program requirements for student teaching. Corequisite: EDE 4936. (F,S)

EDE 3303 Issues in Secondary Education (3).
Provides discussion of classroom management, discipline, school-community relations, and school law required of undergraduate secondary education majors while student teaching. Corequisite: EDE 4936. (F,S)

EDE 4936 Senior Seminar in Elementary Education (3).
Provides experience in an elementary school where the student assumes all teaching responsibilities for a minimum of ten weeks. Required of undergraduate elementary education majors as culmination of program. Prerequisite: Successful completion of all program requirements. Corequisite: EDE 4936. (F,S)

EDF 1005 Introduction to Education (3).
Introductory survey course designed to review education and teaching in America from multiple perspectives. Required of lower division education majors. Prerequisite to admission in teacher education programs. Field experience required. (F,S,SS)

EDF 2085 Teaching Diverse Populations (3).
Introductory course designed to present the theories and realities of teaching diverse populations. Prerequisite to admission in teacher education programs. Field experience required. (F,S,SS)

EDF 2930 Teaching as a Profession (3).
An introductory seminar to introduce students to the opportunities available in the teaching profession.

EDF 3251 Classroom Management (3).
Provides teachers understanding, skills, and dispositions for successful classroom management. Prerequisite: EDP 3004. Corequisite: EDG 3321. (F,S,SS)

EDF 3430 Measurement and Evaluation in the Classroom (3).
Basic concepts in educational measurement, utilizing measurement in instruction, construction of teacher-made tests and other classroom assessments, portfolio and performance assessment, interpretation of standardized test scores. Required in all Teacher Ed Programs.

EDF 3515 Philosophical and Historical Foundations of Education (3).
Initial experience in professional and pedagogical studies for persons preparing for PK-12 classrooms as well as other school personnel. Special attention will be given to the exploration of, and the implications for, educational praxis. Field experience required. (F,S,SS)

EDF 3521 Education in History (3).
An examination of the concepts of childhood, and process of social initiation in differing historical America contexts. This course examines the transformation of the American public school system as it reflects the social, political and economic character of the development of the nation from 1620 to the present. Students will read commentaries and primary sources and explore and consider the relationships between education and national policies. Satisfies the Societies and Identities requirement of the University Core Curriculum.

EDF 4490C Understanding Educational Research (3).
Evaluation and utilization of research results, evaluating the appropriateness of research design, sampling, measurement, data collection/analysis, and inferences for answering research questions.

EDF 4604 Cultural and Social Foundations of Education – GL (3).
Examines the cultural and social realities of teaching and learning in the U.S. Questions of class, race, ethnicity, gender and language are discussed in relation to effective school, teacher, and student performance. Prerequisites: EDG 3321 and EDG 3321L, EDF 3515, EDP 3004, and senior standing. Field experience required. (F,S,SS)

EDG 3321 General Instructional Decision-Making (3).
Instructional decisions facing classroom teachers including HOTS, multiple intelligence, learning styles, technology, theory and models of instruction. Corequisite: EDG 2930. (AR)

EDG 3321L General Instructional Decision-Making Laboratory (3).
Lab builds on theory and work class concepts through video simulations, feedback, field work, and interaction. Corequisite: EDG 3321. (F,S,SS)

EDG 3322 General Teaching Lab II: Multicultural Education (3).
Provides discussion of classroom management, discipline, school-community relations, and school law required of undergraduate multicultural students. (AR)

EDG 4702 Educational Psychology of Multicultural Students (3).
Introduction to principles and procedures utilized in teaching students from multicultural communities. Prerequisites: Associate degree equivalent and Educational Psychology. Corequisite: EDG 4703. (AR)

EDG 4703 Educational Psychology Supervised Field Experience with Multicultural Students (3).
Demonstration of competencies learned throughout study program in educational psychology of multicultural students. Prerequisite: Associate degree of equivalent. (AR)
EDP 3004 Educational Psychology (3). Application of principles for understanding individual differences, learning, adjustment, classroom environments, and assessment to instructional and educational issues. Challenges of diversity and teacher effectiveness are addressed. Field experience required. (F,S,SS)

EDP 3273 Child Development (3). Examination of child growth and development from conception to age of 8. Prerequisite: EDP 3004.

EDP 4274 Early Social and Emotional Development (3). Personality, social and emotional development in early childhood. Prerequisite: EDP 3273.

EDP 4275 Assessment, Evaluation, and Diagnosis of the Young Child (3). Intellectual, emotional and personality assessment of young children. Prerequisite: EDP 3273.

EEC 3204 Issues in Early Childhood Education (3). Introduces issues related to schooling of children age three through grade 3. This course has a field component. Students should apply to Field Experiences Office of COE to be placed in a school.

EEC 3315 Play and the Development of Social Competence (3). To examine the role of play behaviors as they relate to social competence and academic development in the early years.

EEC 3400 Family Literacy and the Young Child (3). This course will provide an understanding of family literacy within the context of language and culture and introduce students to school and home based literacy methods.

EEC 3403 Special Needs of Children and their Families (3). Focus on understanding family problems, children’s behavior and intervention methods.

EEC 3408 Communities, Families and Young Children (3). This course will focus on the varying cultural contexts of young children and the influences these environmental elements have on child development.

EEC 4005 Early Childhood Education Programs (3). Philosophy and theories of early childhood education programs; physical, emotional, social and cognitive development. Provides strategies for working with parents and evaluating programs. This course has a field component. Students should apply to Field Experiences Office of COE to be placed in a school.

EEC 4204 Curriculum and Instruction in Early Childhood Education (3). Knowledge of curriculum and instructional skills in kindergarten and primary grades. This course has a field component. Students should apply to Field Experiences Office of COE to be placed in a school.

EEC 4211 Integrated Math and Science in Early Childhood (3). This course prepares pre-service teachers to understand developmentally appropriate practices in Math and Science for young children and apply them to real-world integrated settings.

EEC 4266 Curriculum Programs—Infancy (3). Comprehensive knowledge of curricula and educational programs for infants and toddlers. Prerequisites: EDG 3321, EDG 3321L. Corequisites: EEC 4940. (AR)

EEC 4267 Curriculum Programs—Preschooler (3). Comprehensive knowledge of curricula and educational programs for preschoolers. Prerequisites: EDG 3321, EDG 3321L. (AR)

EEC 4301 Trends in Early Childhood Education (3). Knowledge of critical issues; skill in assessing programs; application of child development principles to study of young children. Prerequisites: EDG 3321, EDG 3321L. (AR)

EEC 4524 Development and Administration of Early Childhood Programs (3). Knowledge and skills to prepare administrators of programs for young children. Prerequisite: Background in Early Childhood Education. (AR)

EEC 4704 The Education and Development of Young Children (3). Knowledge of infant, toddler and young child’s physical, intellectual, social and emotional development and educational enhancement. Prerequisites: EDG 3321, EDG 3321L. Corequisites: EEC 4940. (AR)

EEC 4943 Student Teaching (9). Required of undergraduate early childhood majors as culmination of program. Provides experience in a prekindergarten, kindergarten or in the primary grades in an elementary school where student assumes all teaching responsibilities for a minimum of ten weeks. Corequisite: EDF 4604. Prerequisite: Successful completion of all program requirements. (F,S)

EEX 3012 Educational Needs of Students with Exceptionalities (3). Significant concepts in relation to the educational needs of students with exceptionalities. Field experience required.

EEX 3066 Instructional Practices in Exceptional Student Education I (3). This course includes the theoretical basis and principles of appropriate instructional practices for students with mild disabilities, IEP planning, and curriculum development. Prerequisites: EXX 3070, EXX 3221, SPA 3000. (F,S,SS)

EEX 3070 Teaching Students with Exceptionalities in Inclusive Settings (3). Focuses on the foundations of inclusive education, characteristics of students with disabilities, instructional strategies, and collaboration among educators and parents. 10 field hours required. (F,S,SS)

EEX 3280 Personal Foundations and Transitional Services for Individuals with Disabilities (3). Biological conditions affecting learning and their personal and social consequences including employability and transitional skills for adulthood. Field experience required.

EEX 3221 Assessment of Students with Exceptionalities (3). Basic assessment concepts and application to appropriate test selection, administration, scoring, and interpretation. Informal and formal techniques employed for purposes of gathering data for instructional planning. Prerequisites: EXX 3070, EXX 3280. Lab fee required. (F,S,SS)
EEX 3231C Assessments of Infants and Young Children with Disabilities (3). This course will familiarize students to methods and instruments to assess infants and young children with disabilities. Students learn to use assessment data to plan interventions and instruction. Prerequisite: EDP 3273.

EEX 3764 Instructional and Assistive Technology in Special Education (3). Provides teachers of students with disabilities instructional and assistive technology skills that enhance student learning and increase access to the general education curriculum. Prerequisite: EEX 3070.

EEX 4067 Instructional Practices in Exceptional Student Education II (3). This course includes the principles of effective instructional practices and strategies for students with mild disabilities, and requires implementation of those strategies in the field. Prerequisites: EEX 3066, EEX 3070, EEX 3221, SPA 3000. Corequisite: EEX 4833. (F,S)

EEX 4070 Children with Exceptionalities in Inclusive Settings (3). Characteristics of students with mild disabilities and techniques of identifying, assessing, managing and instructing them in general education settings. (F)

EEX 4094 Nature and Needs of Students with Autism Spectrum Disorders (3). This course is designed to meet the following state requirements related to the education of students with ASD: Nature of autism and Field-based experience with students with autism (20 hours).

EEX 4240 Literacy in Special Education (3). This course provides a theoretical and practical framework for understanding issues related to teaching, reading and language arts to students with exceptionalities. Prerequisites: SPA 3000, RED 4150, RED 4311. (F,S)

EEX 4291 Instructional Strategies and Assessment for Students with Autism Spectrum Disorders (3). Students will become familiar with current formal and informal assessments used in diagnosis and instructional planning, and educational strategies for students with ASD.

EEX 4601 Behavioral Approaches to Learning and Classroom Management I (3). Introductory course in applied behavior analysis for those planning to teach students with exceptionalities. Provides concepts and skills necessary for application of operant conditioning principles. Prerequisites: EEX 3280, SPA 3000, EEX 3221. (F,S,SS)

EEX 4603 Positive Behavior Supports for Students with Autism Spectrum Disorders (3). Students will develop an understanding, skills, and dispositions needed to develop and implement positive behavior support plans and to design behavioral management techniques for students with ASD.

EEX 4761 Assistive Technology and Communication Systems for Students with Autism Disorders (3). Explore research and strategies used in integrating technology in classroom and develop strategies and procedures for appropriate alternative/augmentative communication systems for students with autism.

EEX 4833 Practicum in Special Education (1). The practicum in Special Education provides opportunity for an intensive and integrated experience in the classroom under the close supervision of master teachers and university personnel. Corequisite: Senior status. (F,S) *120 hours of field experience required.

EEX 4861 Student Teaching (9). A field experience for program majors in Special Education providing opportunities to demonstrate competencies learned throughout the program. Prerequisite: Completion of all program requirements. Full admission as a degree-seeking student in the undergraduate special education program. (F,S)

EEX 4905 Directed Study in Special Education (1-6). Concepts or competencies contracted between an undergraduate student and faculty member in accordance with the student’s individual needs. (F,S,SS)

EEX 4936 Student Teaching Seminar in Special Education (3). Seminar required of students enrolled in the Bachelor’s and Modified Master’s programs in Special Education. The purpose is to support, encourage and guide students through the transition from ‘learning how to teach’ to independent teaching. Prerequisite: All program courses. Corequisites: EEX 4861 and EEX 6862. (F,S)

ELD 4144 Strategies for Teaching Students with Learning Disabilities (3). Instructional strategies and specialized approaches to teaching students with learning disabilities. For program students, the course must be taken concurrently with ELD 4230, EBD 4212, and EEX 4810 as the senior block, and requires extensive field work. Prerequisite: All junior level courses. (F)

ELD 4230 Curriculum for Teaching Students with Learning Disabilities (3). Designed to familiarize students with the terminology, characteristics, curriculum models, specialized curriculum, and instructional materials for students with learning disabilities. Field experiences required. Must be taken concurrently with Senior Block with ELD 4144 and EBD 4212. Prerequisites: All junior level courses. (F)

EME 2040 Introduction to Educational Technology (3). Introduction to the use of educational technology. Examination of productivity tools, interactive multimedia, communications, educational software, instructional applications and ethical, legal, social, and professional issues.

EME 3402 Computers for Teachers (3). An introductory course focusing on instructional uses of computers in precollege education. Designed to provide skills in using computers as a classroom tool. (F,S,SS)

EME 4103 Production and Use of Audio/Visual Media (3). Knowledge and skill in selecting and producing audiovisual media. Emphasis is placed on student production of audio and visual materials and equipment use. (AR)
EMR 4221 Curriculum for Teaching Students with Mental Retardation (3). Significant concepts and skills needed for educational planning, programming and placement decisions for students with mental retardation during school years. Field experiences required. Must be taken concurrently in Senior Block with EMR 4362 and EBD 4212. Prerequisites: All junior level courses. (F)

EMR 4362 Strategies for Teaching Students with Mental Retardation (3). Familiarizes students with the instructional strategies and specialized approaches for teaching the mentally retarded. Must be taken concurrently with EMR 4221, EBD 4212, and EEX 4833, as the Senior Block. Requires extensive field work. Prerequisite: All junior-level courses. (F,S,SS)

ESE 4322C Secondary Classroom Management (3). Provides students with the theoretical and practical approaches for dealing with the problems of classroom management within the goals, materials, and teaching strategies that form secondary classrooms.

EVT 4502 Introduction to Vocational Special Needs Education (3). Knowledge of historical developments, legislation, instructional strategies, and program alternatives required to instruct special needs students in vocationally related environments. (S)

EVT 4942C Internship: Training and Development (3). Knowledge and skills in training and development in non-public school settings. Prerequisites: Admission to Organizational Training Certificate Program and permission of the instructor. (F,S,SS)

EVT 4990C Credit by Examination (3-9). Technical knowledge and skills in an occupational area such as trade, industry, health and technology, as certified by recognized professional examinations such as the National Occupational Competency Test. Credits cannot be used in lieu of upper division professional program courses. (AR)

FAD 3253 Parenting (3). Overview of changing concepts of parenthood and childhood. Explores contemporary issues concerning parenting with emphasis on maximizing human potential of parents and children. Open to non-majors. Recommended prerequisite: DEP 2001. (AR)

FAD 4340 Family Development: Adulthood and Aging (3). Extension of the study of developmental patterns with emphasis on physical, intellectual, social, and emotional influences with particular emphasis on the family and/or family substitute. Graduate students will have additional requirements. (AR)

FLE 4151 Bilingual School Curriculum and Organization (3). Development of a theoretical understanding of the nature of bilingualism, a rationale for bilingual education, and a set of principles and skills for organizing, bilingual-bicultural curriculum experiences in the elementary school. Prerequisite: EDG 3321. (AR)

FLE 4314 Methods of Teaching Foreign Languages in the Elementary School (3). Development of instructional skills, techniques and strategies for teaching modern languages in the elementary school. (F)

FLE 4375 Methods of Teaching Modern Language at the Secondary Level (3). Development of instructional skills, techniques, and strategies for teaching modern languages in the junior and senior high school. Prerequisite: EDG 3321. Field experience required. Minimum prerequisite or corequisite of 14 hours in subject matter specialization. (F)

FLE 4871 Teaching Spanish to Speakers of Spanish (3). Development of understandings and teaching skills needed in presenting integrated non-official language arts programs which would consider factors of languages and cultures in contrast. Prerequisites: EDG 3321 and Spanish proficiency. (AR)

FLE 4872 Teaching Spanish as a Second Language (3). Development of instructional skills, techniques, and strategies for teaching Spanish to non-native speakers of Spanish in the elementary school. Prerequisites: EDG 3321 and Spanish proficiency. (AR)

FLE 4942 Student Teaching (9). Supervised teaching in a junior or senior high school. Prerequisites: EDG 3321, RED 4325, appropriate Special Teaching Laboratory, appropriate number of hours in subject matter specialization, and admission to the program. (S)

HEE 3302 Curriculum Development in Vocational Home Economics (3). Development, adaptation, and evaluation of curriculum for vocational home economics content in a variety of educational settings. Subject to approval of the instructor. (F)

HEE 4104 Instruction in Vocational Home Economics (3). Application of educational principles, practices, and techniques to the teaching of vocational home economics in varied educational settings. Subject to approval of the instructor. (F)

HEE 4941 Student Teaching in Home Economics (9). Utilization of instructional knowledge, attitudes, and skills in vocational home economics instructional settings. Prerequisites: HEE 3302, HEE 4104, HEE 4944. (S)

HEE 4944 Special Teaching Laboratory: Home Economics (3). Acquisition of knowledge of educational institutions, and utilization of planning tools and teaching skills within areas of home economics in selected educational settings. Prerequisites: HEE 3302, HEE 4104. (S)

HHD 4420 Home Furnishings and Equipment (4). Principles involved in the construction, selection, operation, and care of furnishings and equipment and their relationship to their environmental use. (AR)

HLP 3722 Content and Methods of Teaching Elementary Health and Physical Education (3). Provide content and methods needed to understand and teach health and physical education to elementary students of diverse backgrounds. (F,S,SS)

HME 4230 Management of Personal and Family Resources (3). Application of management principles to personal and family decisions including human and nonhuman resources. Opportunity for community observation of management decisions made by persons of various ethnic groups and/or life styles and an analysis of the effect of these decisions on family relationships and personal success. (AR)
LEI 3334 Classroom Management in the Middle/Secondary English Classrooms (1). Designed to provide students with the theoretical and practical principles to deal with the problems of classroom management within the concept of goals, materials, and teaching strategies that form the English language arts. Prerequisites: EDG 3321, and LAE 4335. (F, S)

LEI 3360 Managing the Secondary Language Arts Classroom (3). This course will teach the pre-service educators how to manage a language arts classroom including safety issues, state statutes, and procedures for optimizing the learning environment.

LEI 4314 Teaching Elementary Language Arts (3). Required of undergraduate elementary education majors. Provides knowledge and skill in developing communication enhancement through language arts activities. Prerequisites: EDG 3321, EDG 3321L. Corequisites: EDE 4940, EDE 4941, EDE 4942 or EEX 4905.

LEI 4335 Special Teaching Laboratory English (3). Development of instructional skills, techniques, and strategies for teaching English in the middle school and senior high school. Prerequisite: EDG 3321. Field experience required. Prerequisite of 24 hours required in English courses beyond lower division English prerequisites for this program. Requires 2-4 hours/week field work. (F)

LAE 4405 Children’s Literature – GL (3). Focuses on the exploration of children's literature and its integration into the early childhood curriculum from a global perspective. (F, S)

LAE 4463 Multicultural Perspectives in Teaching Language and Literature for Young Adolescents (3). Designed to provide students with a theoretical and practical basis for teaching and reading multicultural literature in the secondary school. (S)

LAE 4464 Experiencing Adolescent Literature in the Middle School and Senior High School (3). An examination of the most familiar types of literature found in the middle and secondary school English curriculum today, and the development of strategies for organizing and providing a variety of literary experiences of students who differ in intellectual abilities and literary tastes. (F, S)

LAE 4851 Teaching English as a Second Language (3). Development of instructional skills, techniques, and strategies for teaching English as a second language in the elementary school. Prerequisites: EDG 3321 and English proficiency. (AR)

LAE 4942 Student Teaching (6). Supervised teaching in a middle school or senior high school. Prerequisites: EDG 3321, RED 4325, appropriate Special Teaching Laboratory, appropriate number of hours in subject matter specialization, and admission to the program. (S)

LEI 2162 Leisure in Your Life (3). Examines the significance of leisure in contemporary life. Topics include work-leisure relationships, the benefits and costs of leisure, and leisure’s role in promoting human growth and development.

LEI 3001 Leisure and Recreation in America (3). An introduction to the fundamental concepts of leisure and recreation and their roles in American culture. The class will be structured around a lecture-discussion format. (F)

LEI 3165C Taboo Leisure Habits in American Society (3). Course explores leisure past times that are forbidden by law, custom, or belief. Students will examine the negative aspects of leisure. Ex. Substance abuse, harmful sex, gambling and gang activity.

LEI 3402 Program Development in Recreation & Sports (3). Development of objectives, planning, implementation and administration of recreation and sport programs. (S)

LEI 3524 Human Resource Management in Parks and Recreation (3). After a study of human interaction in a management setting, students will demonstrate competencies necessary for hiring staff, conducting group dynamics and communicating to the public. (S)

LEI 3542 Principles of Parks, Recreation and Sport Management (3). An exploration of the field of recreation, parks and sport, including career areas, management responsibilities and supervisory levels and principles and theory. (F)

LEI 3624 Turf Grass Management (3). A practical approach to the care and maintenance of special grasses such as those found on golf courses and other recreational facilities. (AR)

LEI 3630 Care, Maintenance and Design (3). A study of procedures for maintaining outdoor facilities. Students will be expected to display competence in proper maintenance of areas normally found in parks and recreation centers. (F)

LEI 3703 Introduction to Therapeutic Recreation (3). History, philosophy and current principles of therapeutic recreation processes and application. Emphasis will be given to role of therapeutic recreation services. (F)

LEI 3707 Inclusive Recreation Services (3). Course is designed to provide Parks and Recreation Management majors with opportunities to enhance knowledge of the characteristics and leisure needs of individuals with disabilities and knowledge of accessibility issues.

LEI 3723 Recreational Therapy for Cognitive & Psychosocial Disabilities: Conditions (2-3). Provides “hands on” experience, as well as in-depth examination of medical aspects of disabling conditions in activity interventions for individuals with cognitive and psychosocial disabilities. Prerequisite: LEI 3703. (S)

LEI 3724 Therapeutic Recreation and Facilities Techniques (3). Designed to provide “hands on” experience, as well as in-depth examination of medical aspects of disabling conditions in activity interventions for individuals with physical disabilities in a variety of activity interventions. Prerequisite: LEI 3703. (F)

LEI 3800 Liability and Law in Leisure, Recreation and Sports (3). Legal issues related to leisure service management including legal foundations, legal liability, land use policy, employment regulations, handicapped services, and current issues. (S)
LEI 3860C Computer Applications for Recreation and Sport Management (3). Introduction to computer applications useful in Recreation and Sport Management. Includes standard office, internet, and specialized recreation and sport management software.

LEI 4268C Adventure Education (3). Teaches the philosophy, history, application of adventure education; features high and low ropes activities, problem solving, leadership, team-building development, adventure-based curriculum and resources.

LEI 4438 Recreational Sports Programming (3). Principles and practices in recreational sports programming for universities and institutions including intramurals, recreation facilities, budgets, rules, tournaments, liability, and special programs.

LEI 4543 Recreation and Sports Facility Management (3). This course is designed to provide the student with an overview of the concepts and practices involved in managing recreation and sports facilities.

LEI 4560 Leisure Services Marketing (3). Application of service marketing principles and practices to both the public and private leisure service industry to improve both effectiveness and efficiency of operations. (S)

LEI 4590 Seminar in Parks and Recreation Sport Management (3). A discussion of current problems, issues and trends in parks, and sport recreation management, which will help the student develop those competencies necessary to deal with everyday aspects of particular programs. (F)

LEI 4705 Programming for Therapeutic Recreation (3). Principles and practices in planning and implementing programs in therapeutic recreation settings. Special emphasis will be placed on a systematic approach through problem-solving techniques. (S)

LEI 4711 Client Assessment, Evaluation and Documentation in Therapeutic Recreation (3). An overview of the theory, concepts and techniques used in client assessment, evaluation and documentation for therapeutic recreation treatment. (S)

LEI 4813 Orientation to Recreation and Leisure (3). The purpose of this course is to introduce students to a historical overview of recreation and leisure, analyze contemporary theory related to the relationship between work and leisure, examine leisure trends, and examine broad components of leisure education and counseling in the delivery of recreational therapy services. (F)

LEI 4842 Private and Commercial Recreation & Sports Management (3). Identification, development, operation and impact of profit-oriented recreation and sport-related enterprises. (AR)

LEI 4931 Special Topics: Leisure Service Management (1-3). Analyzes and utilizes recent developments related to problems, practices, contemporary issues, practices and methodologies in Leisure Service Management. Permission of the instructor. (F,S,SS)

LEI 4940 Internship I (9). An on-the-job training program designed to enable students to develop those competencies which can only be gained from practical experience. (F,S,SS)

LEI 4941 Internship II (9). Advanced undergraduate supervised internship in a parks and recreation or recreational therapy organizations. Prerequisites: LEI 4940 and permission of the instructor. (F,S,SS)

MAE 3651 Learning Mathematics with Technology (3). Use innovative software and graphing calculators for students to experience learning mathematics with technology. Revisit topics of school mathematics with a problem solving approach. Corequisite: Calculus I. (F,S)

MAE 4310 Content and Methods of Teaching Elementary Mathematics (3). Provides content and methods needed to understand and teach all five areas of mathematics to elementary students of diverse backgrounds. Prerequisites: Three courses at college algebra and above. Field work required. (F,S,SS)

MAE 4320 Special Teaching Lab: Middle School Mathematics (3). This course is required in the baccalaureate program for those who plan to teach middle school mathematics. It provides the knowledge and skills for functioning in a mathematics classroom. Prerequisites: Senior standing, MAE 3651, MAC 3311, STA 3163, MAS 3105.

MAE 4330 Teaching and Learning Secondary Mathematics (4). Development of instructional skills, techniques, and strategies for teaching mathematics in the middle school and senior high school. Field experience required. Minimum prerequisites or corequisites of 24 hours in subject matter specialization, including COP 2210, MAS 3105, MAS 4203, MTG 3212, STA 3164, and approved electives; permission of the instructor required. (F)

MAE 4393 Nature of Math and Science (3). Students in this course will consider how the practices, problems, and purposes of math and science are intrinsically social and what that implies about teaching and learning.

MAE 4394 Perspectives on Mathematics and Science Education – GL (3). This course will help students to develop understanding of theoretical frameworks and multiple perspectives underpinning mathematics and science education.

MAE 4942 Student Teaching (9). Supervised teaching in a middle school or senior high school. Prerequisites: Appropriate Special Teaching Laboratory, appropriate number of hours in subject matter specialization, and admission to the program. (S)

PEL 1211 Skills and Practice: Softball (2). Designed to develop skills and knowledge of softball. Emphasis is on teaching methods of related physical activities. This course can be used to meet degree requirements for Physical Education and is open to non-majors. (FS)

PEL 1341 Skills and Practice: Tennis (2). Course to include knowledge and instruction of fundamental skills in tennis, rules, techniques, and playing strategy. This course will not count towards graduation except for Physical Education majors.
PEL 1421 Team Handball (1). Students will learn basic skills and teaching strategies involved in the sport of team handball. This course requires students to be physically active.

PEL 1441 Skills and Practice: Racquetball and Tennis (2). Designed to develop skills and knowledge of racquetball and tennis. Emphasis is on teaching methods of these physical activities. This course is a requirement for Physical Education majors and is open to non-majors. (S)

PEL 1511 Skills and Practice: Soccer (2). Presents basic techniques, tactical considerations, and several theoretical aspects of the game. Emphasis is on developing fitness through participation. This course will not count towards graduation except for Physical Education majors.

PEL 2321 Skills and Practice: Volleyball (2). Designed to develop skills and knowledge of volleyball. Emphasis is on volleyball teaching methods. This course is a requirement for Physical Education majors and is open to non-majors. (SS)

PEL 2621 Skills and Practice: Basketball (2). Designed to develop basic skills and knowledge of basketball. Emphasis is on development of skill, participation, fitness, and knowledge of basketball as a recreational activity. This course will not count toward graduation except for Physical Education majors.

PEM 1104 Conditioning for Recreational Sports (1). Sports aerobics and other workout methods will be practiced to improve strength, flexibility, muscular endurance and skill level in various recreational sports. Sports participation will follow the training. Verify graduation with advisor. (F,S,SS)

PEM 1141 Aerobic Fitness (1). Provides students with the skills and knowledge necessary to achieve and maintain a desirable state of aerobic fitness. Verify graduation with advisor. (F,S,SS)

PEM 1404 Aikido (1). The study of the art of Aikido and redirecting forces to achieve their neutralization. An application of similar principles for self-defense.

PEM 1405 Judo Self Defense (1). Students will be taught physical and mental techniques to defend themselves from personal attack. This course is repeatable. Verify graduation credit with advisor. (F,S)

PEM 1441 Karate (1). Basic techniques and advanced applications of karate techniques will be taught. The class goal will be certification in rank levels to qualified students, beginners to advanced. This course is repeatable. Verify graduation credit with advisor. (F,S)

PEM 1461 Fencing (1). The technical art and skill of fencing will be introduced and physically practiced. The skills include but are not limited to lunging, parrying, offensive and defensive actions. This course is repeatable.

PEM 2101 Foundations of Fitness (3). Concepts related to the evaluation, development, and maintenance of fitness, including principles of training, weight control and stress reduction. Verify graduation credit with advisor. (F,S,SS)

PEM 2131 Weight Training (1). Exercise using various strength training equipment to improve muscular endurance, strength, and flexibility. Verify graduation credit with advisor. (F,S,SS)

PEM 3437C Competitive Olympic Judo 1 (3). This course will enable a judo practitioner, yellow/orange belt to obtain the necessary skills and strategies to compete in a local and state level competition. Prerequisite: PEM 1405 (3 credits). Corequisite: PET 3403 Introduction to Martial Arts.

PEM 3438C Competitive Olympic Judo 2 (3). This course will enable a judo practitioner green/blue belt to obtain the necessary skills and strategies to compete in a state and regional level competition. Prerequisites: PEM 3437C Competitive Judo 1 and PET 3403 Intro to Martial Arts. Corequisite: APK 4400 Sports Psychology.

PEM 4103 Advanced Personal Training (3). This class is designed to prepare students for the National Strength Professionals Associations Certified Conditioning Specialist Examination. Prerequisites: PET 3351 or its equivalent.

PEM 4401 Comprehensive Analysis of Japanese Martial Arts (3). An in-depth study of the evolution within the ideology and technology of the Japanese Martial Arts in the context of its origins, styles, organizations, and founders to its present role in society. Prerequisites: PET 3403. Corequisite: PEM 1XXX.

 PEN 1121 Beginning Swimming (1). The course will cover the beginning swimming skills as described in the certified American Red Cross beginning swimmers program. This course will not count towards graduation except for Physical Education majors.

 PEN 1122 Intermediate Swimming (1). The course will cover the intermediate swimming skills as described in the certified American Red Cross intermediate swimmers program. This course will not count towards graduation except for Physical Education majors. Prerequisites: PEN 1121 or permission of the instructor.

 PEN 2113 Life Saving (2). Successful completion of this course will lead to American Red Cross swimming certification in life saving. This course will not count towards graduation except for Physical Education majors. Prerequisite: Completion of intermediate swimming skills.

 PEN 2132 Scuba Diving Lab (1). The lab enables divers to acquire and refine the skills needed to increase scuba proficiency. This lab is required for students taking Basic, Advanced, Rescue, or Leadership Scuba Diving. Repeatable. Verify graduation credit with advisor. Prerequisites: PEN 2136, PEN 3137, PEN 3138, or PEN 4135.

 PEN 2136 Basic Scuba Diving (2). This course provides students with basic scuba knowledge and skills including diving physiology, underwater skills, safety, preparation and equipment care. Lab required. Verify graduation credit with advisor. Corequisite: PEN 2132.

 PEN 2137 Advanced Scuba Diving (3). An advanced course for students with Basic Scuba training and certification. Includes advanced dive safety, underwater navigation, search and rescue techniques, etc. Lab required. Verify graduation credit with advisor. Prerequisite: PEN 2136.
PEN 2138 Scuba Rescue Diving (3). Provides skill and knowledge to prevent and manage diving risks, problems and emergencies. Includes search and rescue, first aid, CPR, oxygen administration. Lab required. Verify graduation credit with advisor. Prerequisites: PEN 2137 or permission of the instructor. Corequisite: PEN 2136L.

PEN 4135 Scuba Diving Leadership (3). Prepares advanced divers for professional roles as divemaster and assistant instructor. Requires teaching, supervision and trip planning. Lab required. Verify graduation credit with advisor. Prerequisites: PEN 2137, PEN 3138.

PEO 3012 Officiating Basketball (3). Students will examine the philosophies, mechanics and rules necessary for officiating basketball, from youth to intercollegiate levels.

PEO 4004 Principles and Practices of Coaching (3). Prepares students to examine the organization, philosophies, and skills necessary for coaching sports in diverse educational environments. (SS)

PEO 4041 Games in the Elementary and Middle School (3). The study of the scope, structure, and sequence of games in Grades K-5. Emphasis on educational games and skill progressions for selected sports. Field experience required. (SS)

PEP 3205 Gymnastics in the Elementary and Middle School (3). The study of the scope, structure, and sequence of the gymnastics program in grades K-5. Emphasis on educational gymnastics and simple formal gymnastics. (S)

PEP 4102 Applied Concepts of Fitness and Health (3). Content and methods for teaching activity/theory classes in which the primary emphasis is the development of fitness. (S)

PEP 4111 Health/Fitness Instruction (3). Knowledge and skills to evaluate one’s fitness level and to design exercise and health enhancement programs for healthy individuals. Prerequisite: PET 3351. (F)

PEP 4114 Exercise Prescription (3). Knowledge and skills necessary to prescribe and lead exercises for persons with medical limitations especially cardiovascular and related diseases. Prerequisites: PET 3351 and PET 4384. (S)

PEQ 2115 Water Safety Instructor (2). Successful completion of this course will lead to American Red Cross swimming certification as Water Safety Instructor. This course will not count towards graduation except for Physical Education majors. Prerequisite: Red Cross certification in life saving.

PEQ 2230 Beginning Sailing (1). Designed to develop skills and knowledge of sailing. Emphasis is on actual in water experiences and development of sailing as life time pursuit.

PEQ 2232 Advanced Sailing (1). Designed to further skills and knowledge of sailing. Emphasis is on actual in water experiences and development of sailing as life time pursuit.

PEQ 2250 Beginning Kayaking (1). Designed to develop skills and knowledge of kayaking. Emphasis is on actual in water experiences and development of kayaking as life time pursuit.

PEQ 3126 Adapted Aquatics (2). Develops competencies in adapted aquatic programs and services. May be used for adapted physical education endorsement. (AR)

PET 3020 Foundations of Physical Education (3). Examines the philosophical, historical, sociological and psychological foundations of physical education and sport. (Field experience required). (F)

PET 3351 Exercise Physiology (3). Immediate physiological responses to exercise and the long-term adaptations that occur as a result of training. (F,S,SS)

PET 3403 Introduction to Martial Arts (3). This course provides an understanding of the differences-similarities of martial arts. The student will have an understanding of its country of origin and its cultural influences on modern society. Corequisites: PEM 1405 and PEM 1XXX.

PET 3640 Adapted Physical Education (3). Knowledge of scientific factors and develop and implement physical education programs for special populations. Laboratory and Field Experience required. (SS)

PET 3730 Physical Education in the Middle School (3). The study of the scope, structure, and sequence of the middle school physical education curriculum. Emphasis on teaching strategies, and curriculum development. Field experience required. (S)

PET 4050 Motor Learning and Development (4). Examination of the developmental aspects of movement and the factors influencing the acquisition and performance of motor skills. (F)

PET 4094 Advanced Concepts in Strength and Conditioning (3). The course is designed to prepare students for the NSCA’s Certified Strength and Conditioning Specialist examination.

PET 4207 Considerations in Youth Sports (3). This course investigates and evaluates youth sport programs within the community. The psychological, social and physical development of youth will be of central focus to this course.

PET 4251 Sociology of Sport (3). Basic principles of the sociological bases of sport will be presented and discussed. Required course in the Undergraduate Sport Management track. (SS)

PET 4354 Advanced Exercise Physiology (3). Provides a detailed examination of the acute and chronic responses to exercise and training. Particular attention is given to responses at the systems and cellular level. Prerequisite: PET 3351.

PET 4384 Exercise Test Technology (3). Knowledge and skills required to conduct an ECG monitored graded exercise test. Prerequisite: PET 3351. (F)

PET 4401 Administration of Physical Education & Sport (3). An analysis of the organizational and administrative aspects of interscholastic & intercollegiate physical education and sport programs. (F)

PET 4442 Physical Education in the Secondary School (3). Methods, philosophy, and curriculum for physical education in the urban, culturally diverse secondary school. Field experiences required in addition to class work. (F)
PET 4510 Evaluation in Physical Education (3). Develops student competencies in motor skill testing, grading, and analysis of written and psychomotor test scores necessary for successful teaching in physical education. (SS)

PET 4550 Evaluation in Exercise Physiology (3). Prepares students to utilize and select or construct appropriate instruments for the assessment of fitness. Prerequisite: PET 3351. (F)

PET 4554 Comprehensive Conditioning of Elite Athletes (3). The course prepares a student to develop a comprehensive conditioning program including metabolic, speed, flexibility, plyometric and resistance training. Current practices of strength and conditioning coaches will be examined. Prerequisite: PET 3351.

PET 4622 Athletic Injuries (3). Students will demonstrate knowledge of the proper care and prevention of athletic injuries through the application of acceptable training techniques. (F,S,SS)

PET 4622L Athletic Injuries Lab (1). The practical skill of athletic injury taping for prevention and management of athletic injuries. Corequisite: PET 4622. (F,S,SS)

PET 4644 Therapeutic Applications of Martial Arts (3). Provides an understanding of the therapeutic applications of Martial Arts for the enhancement of an individual's wellbeing and pro-social behavior. Prerequisites: PET 4711 Teaching Martial Arts, PET 3403 Introduction to Martial Arts, PEM 1405 Judo Self-Defense and PEM 1404 Aikido.

PET 4691 Exercise Testing and Prescription of Special Populations (3). The course prepares a student to test and prescribe exercise programs for selected populations groups. Prerequisite: PET 3351.

PET 4711 Teaching Martial Arts (3). Students will develop skills in classroom management, teaching methods, applying specific knowledge of martial arts, conducting tournaments and seminars for the K-12 age group. Prerequisites: PET 3403 or PET 4644. Corequisites: PEM 1405 or PEM 1XXX.

PET 4929 Senior Seminar in Physical Education (3). Required of undergraduate physical education majors in the K-12 programs while student teaching. Provides discussion of current issues and topics related to teaching physical education. Prerequisite: Successful completion of all program requirements. Corequisites: PET 4945 or PET 4944 or PET 4943. (F,S)

PET 4940 Internship in Exercise Physiology: Undergraduate (3). Supervised clinical experience designed to offer the student experience in graded exercise testing and exercise leadership. Prerequisites: PET 3351 and PET 4384, or PEP 4111 or PET 4094. (F,S,SS)

PET 4943 Student Teaching Grades K-12 (9). Supervised teaching in an elementary and high school. Nine weeks of the student teaching experience will be in area of concentration.

PET 4944 Student Teaching: Grades K-8 (9). Supervised teaching in an elementary school. Corequisite: PET 4929. (F,S)

PET 4945 Student Teaching: Grades 6-12 (9). Supervised teaching in a middle or secondary school. Corequisite: PET 4929. (F,S)

PET 4946 Sport and Fitness Internship (3-9). Supervised field experience in an approved sport or recreational setting. Prerequisites: Completion of required program and elective courses. (F,S,SS)

RED 3313 Language and Literacy Development (3). Introduces linguistic elements of English, language development, emergent literacy, and their impact on L1 and L2 students. Part of Block I.

RED 4100 Emergent Literacy (3). Focuses on young children’s process of constructing meaning through literacy from a variety of disciplinary perspectives (Psychology, Linguistics, Education) and analyzes the significant implications for classroom practices. Prerequisite: RED 3313.

RED 4110 Content and Methods of Teaching Literacy in Schools (3). Provides content and methods needed to understand and teach a quality literacy program that meets the needs of all children. Prerequisites: RED 3313, RED 4150, RED 4311.

RED 4150 Content and Methods of Teaching Beginning Literacy (3). Provides content and methods needed to understand and teach beginning literacy to elementary students of diverse backgrounds and abilities. Prerequisites: RED 3313 or SPA 3000, EEX 5106 or EEX 6106. Field work required. (F,S,SS)

RED 4311 Content and Methods of Teaching Intermediate Literacy (3). Provides content and methods needed to understand and teach transitional literacy to elementary students of diverse backgrounds and abilities. Prerequisites: RED 3313 or SPA 3000, RED 4150.

RED 4325 Subject Area Reading (3). Skills, techniques and strategies for reading in content areas. Field work required. (F,S,SS)

SCE 4194 Perspectives in Science and Math Education – GL (3). This course will help students to develop understanding of theoretical frameworks and multiple perspectives underpinning mathematics and science education.

SCE 4310 Content and Methods of Teaching Elementary Science (3). Provides content and methods needed to understand and teach science and technology to elementary students of diverse backgrounds. Prerequisite: Three lower-division science courses, one with a lab. Lab fee required.

SCE 4330 Secondary Science Teaching Methods (3). Development of instructional skills, techniques and strategies for teaching biological and physical sciences in senior high schools. Field experience required. Minimum prerequisite or corequisite of 16-20 hours in subject matter specialization.

SCE 4894 Nature of Math and Science (3). Students in this course will consider how the practices, problems, and purposes of math and science are intrinsically social and the implications of teaching.
SCE 4931 Senior Seminar in Science Education (2). This course will address reflection on teaching; assessing based on established learning theory; and expertise with the legal and ethical standards of secondary schools. Prerequisite: SCE 4330. Corequisite: SCE 4944.

SCE 4944 Student Teaching (6-9). Supervised teaching in a middle school or senior high school. Prerequisites: RED 4325, appropriate Special Teaching Laboratory, and appropriate number of hours in subject matter specialization. (F,S)

SPA 2612 American Sign Language for Teachers I (4). Introductory training in basic ASL signs and historical and cultural information about the “deaf culture” for teachers. Two hrs/wk of lab required. (AR)

SPA 2613 American Sign Language for Teachers II (4). Intermediate training in ASL signs and additional information about “deaf culture” for teachers. Two hrs/wk of lab required. Prerequisite: SPA 2612. (AR)

SPA 3000 Acquisition of Speech and Language Skills (3). Knowledge of normal acquisition of speech, language, and literacy. Includes overview of major speech/language delays and disorders, plus intervention strategies for teachers and parents.

SSE 3346 Social Science Content and Pedagogy (3). This course introduces students to terminology, concepts, and applications across the disciplines of the social sciences and education.

SSE 4118 EEC Social Studies (3). Develops skills, understandings, and dispositions for teaching social studies to young children from diverse cultural backgrounds. This course has a field component. Students should apply to Field Experiences Office of COE to be placed in a school. (S,SS)

SSE 4304 Teaching Early Childhood Social Studies (3). Introduces preservice early childhood teachers to the changing nature of Social Studies within the early childhood curriculum. Prerequisite: Block 3.

SSE 4312 Content and Methods of Teaching Elementary Social Studies (3). Provides content and methods needed to understand and teach Social Studies from a global, multi-ethnic perspective to elementary students of diverse backgrounds. (F,S,SS)

SSE 4383 Perspectives in Social Science Education (3). This course explores in-depth social science content using various pedagogical methods based on an understanding of the various social science disciplines. Prerequisite: SSE 3346.

SSE 4384 Special Teaching Laboratory: Social Studies (3). Development of instructional skills, techniques, and strategies for teaching social studies in the middle school and senior high school. Prerequisite: Field experience required. (F)

SSE 4936 Social Science Education for Reflective Practice (1). Using students’ experiences interning in the secondary social studies classroom. This course will help beginning teachers meet the various challenges of a classroom teacher. Prerequisites: SSE 3346, SSE 4383.

SSE 4942 Student Teaching (9). Supervised teaching in a middle school or senior high school. Prerequisites: RED 4325, appropriate Special Teaching Laboratory, appropriate number of hours in subject matter specialization, and admission to the program. (S)

TSL 3080 ESOL Principles and Practices I (3). Introduces issues, principles and practices of teaching English to speakers of other languages to develop the conceptual understandings that form the foundation of knowledge necessary to successfully meet the needs of linguistically and culturally diverse students. Prerequisite: Completion of block I. For all elementary, early childhood, special education, and English education majors.

TSL 4081 ESOL Issues: Principles and Practices II (3). Provides understandings, skills, and disposition needed to select, evaluate, and apply TESOL strategies in elementary classrooms. Part of Block IV. Prerequisites: Block I, II, III. For all elementary, early childhood, special education, and English education majors.

TSL 4140 Curriculum and Materials Development in ESOL (3). Applications of ESOL theories, principles, and current research in the development of curriculum and materials; required for area of concentration in TESOL and for the Florida Add-on ESOL Endorsement. (S)

TSL 4324 ESOL Issues and Strategies for Content Area Teachers (3). Analysis, application and adaptation of ESOL methods and materials to enhance instruction for linguistically and culturally diverse students. Fulfills META requirements.

TSL 4340 ESOL Methods for Grades K-12 (3). Development of instructional skills, techniques and strategies for teaching English to non-native speakers in grades K-12; required for area of concentration in TESOL and for the Florida Add-on ESOL Endorsement. (F,S)

TSL 4441 Testing and Evaluation in ESOL (3). Develops the knowledge necessary to select, adapt and design assessment instructions and testing techniques appropriate for language minority students in the ESOL classroom. Prerequisite: TSL 4340.

Faculty

Akens, Catherine, Ed.D. (Florida International University), Assistant Professor (Courtesy Appointment), Higher Education, Leadership and Professional Studies

Baez, Benjamin, Ph.D. (Syracuse University), Associate Professor, Higher Education, Leadership and Professional Studies

Bang, Hyejin “Jina”, Ph.D. (University of Minnesota), Assistant Professor, Sports Management, Leadership and Professional Studies

Barantovich, Martha, Ph.D. (Florida International University), Instructor, Social Foundations of Education, Leadership and Professional Studies

Barbetta, Patricia, Ph.D. (Ohio State University), Associate Dean of Graduate Studies and Associate Professor, Special Education, Teaching and Learning

Blanchard, Joy, Ph.D. (University of Georgia), Assistant Professor, Higher Education, Leadership and Professional Studies

Blanton, Linda P., Ed.D. (Indiana University), Professor, Special Education, Teaching and Learning

Bleiker, Charles, Ph.D. (Stanford University), Associate Professor, Early Childhood Education, Teaching and Learning

Bliss, Leonard, Ph.D. (Syracuse University), Professor, Statistics and Research Design, Leadership and Professional Studies

Bliss, Linda, Ph.D. (University of North Carolina-Greensboro), Visiting Coordinator of Graduate Studies, Office of Graduate Studies

Brewe, Eric T., Ph.D. (Arizona State University), Assistant Professor, Science Education, Teaching and Learning

Chang, David Y., M.F.A., M.S. (Florida International University), Professor, Art Education, Teaching and Learning

Cistone, Peter J., Ph.D. (Pennsylvania State University), Professor, Educational Leadership, Leadership and Professional Studies

Cohen, Judith, Ed.D. (Florida International University), Director of Field Experiences

Cole, Kimberly, Ph.D. (University of South Florida), Assistant Dean, Budget and Operations

Cramer, Elizabeth D., Ph.D. (University of Miami), Associate Professor, Special Education and Reading, Teaching and Learning

DeFrancesco, Charmaine, Ph.D. (Florida State University), Chair and Associate Professor, Movement Science, Sport Psychology, Teaching and Learning

Dinehart, Laura, Ph.D. (University of Miami), Assistant Professor, Early Childhood Education, Teaching and Learning

Dottin, Erskine S., Ph.D. (Miami University, Oxford, OH), Professor, Educational Foundations, Leadership and Professional Studies

Dwyer, Eric, Ph.D. (University of Texas), Associate Professor, TESOL, Modern Language Education, Teaching and Learning

Ellison, Helen, Ed.D. (Florida International University), Assistant Professor (Courtesy Appointment), Higher Education, Leadership and Professional Studies

Farouk, Mohammed K., Ed.D. (West Virginia University), Associate Professor, Social Studies/Global Education, Teaching and Learning

Fernandez, Maria L., Ph.D. (University of Georgia), Associate Chair and Associate Professor, Mathematics Education, Teaching and Learning

Fine, Joyce, Ed.D. (Florida International University), Associate Professor, Literacy Education, Teaching and Learning

Frank, Eva, MS (Florida International University), Instructor, Physical Education, Teaching and Learning

Garcia, Delia C., Ed.D. (Florida International University), Dean and Associate Professor, Urban Education, Leadership and Professional Studies

Gonzalez, Roger Geertz, Ph.D. (Pennsylvania State University), Assistant Professor, Higher Education, Leadership and Professional Studies

Gregg, Gail, Ph.D. (Florida State University), Associate Professor, English Education, Teaching and Learning

Hasson, Deborah J., Ph.D. (Florida International University), Visiting Assistant Dean, Community Engagement

Jones, Rosa L., DSW (Howard University), Associate Professor (Courtesy Appointment), Higher Education, Leadership and Professional Studies

Kenny, Maureen, Ph.D. (Nova-Southeastern University), Professor, Counselor Education, Leadership and Professional Studies

Landorf, Hilary, Ph.D. (New York University), Associate Professor, Social Studies Education, Teaching and Learning, and International/Intercultural Education, Leadership and Professional Studies

Lazarus, Philip J., Ph.D. (University of Florida), Associate Professor, Leadership and Professional Studies

Lisman, Peter, Ph.D. (University of Miami), Instructor, Physical Education, Teaching and Learning

Lovett, Maria, Ph.D. (University of Illinois at Urbana-Champaign), Visiting Assistant Professor, Learning Technologies, Teaching and Learning

Lucas, Teresa, Ph.D. (Florida State University), Senior Instructor, TESOL, Modern Language Education, Teaching and Learning

Lunsford, Larry, Ph.D. (University of Pittsburgh), Assistant Professor (Courtesy Appointment), Higher Education, Leadership and Professional Studies

McEachern, Adriana, Ph.D. (University of Florida), Associate Dean of Academic Affairs and Accreditation and Associate Professor, Counselor Education,
Leadership and Professional Studies

McKenney, Alexis, Ed.D. (University of Georgia),
Interim Chair and Associate Professor, Recreation and Leisure Studies, Leadership and Professional Studies

Mendoza, Alicia, Ed.D. (University of Miami), Associate Professor, Elementary Education, Teaching and Learning

Miller, Lynne D., Ph.D. (University of Arizona),
Associate Professor, Literacy Education, Teaching and Learning

Montgomery, Marilyn, Ph.D. (Texas Tech University),
Associate Professor, Counselor Education, Leadership and Professional Studies

Musoba, Glenda Droogsma, Ph.D. (Indiana University),
Assistant Professor, Higher Education, Leadership and Professional Studies

O'Brien, George E., Ph.D. (University of Iowa),
Associate Professor, Science Education, Teaching and Learning

Pelaez, Martha, Ph.D. (Florida International University),
Professor, Educational Psychology, Leadership and Professional Studies

Perez-Prado, Aixa, Ph.D. (Florida State University),
Instructor, TESOL, Teaching and Learning

Perkins, Kyle, Ph.D. (University of Michigan), Professor,
TESOL, Teaching and Learning

Reio, Thomas, Ph.D. (Virginia Polytechnic Institute and State University),
Associate Professor, Adult Education and Human Resource Development, Leadership and Professional Studies

Ritzi, William M., M.S. (Florida International University),
Senior Instructor, Art Education, Teaching and Learning

Robbins, Helen, M.S. (Florida International University),
Instructor, Reading Education, Language/Literacy/Culture, Teaching and Learning

Rocco, Tonette (Ohio State University),
Associate Professor, Adult Education and Human Resource Development, Leadership and Professional Studies

Sanders-Reio, Joanne, Ph.D. (University of Maryland),
Instructor, Educational Psychology, Leadership and Professional Studies

Self-Rand, Patsy A., Ph.D. (University of Virginia),
Instructor, Literacy Education, Teaching and Learning

Senokossoff, Gwyn, Ph.D. (University of South Florida),
Assistant Professor, Literacy Education, Teaching and Learning

Spears-Bunton, Linda, Ed.D. (University of Kentucky),
Associate Professor, English Education, Teaching and Learning

Thirunarayanan, M.O., Ph.D. (Arizona State University),
Associate Professor, Learning Technologies, Teaching and Learning

Tsalkikis, Maria, Ed.D. (Florida International University),
Visiting Instructor, Literacy Education, Teaching and Learning

Valle-Riestra, Diana, Ph.D. (University of Miami),
Assistant Professor, Early Childhood/Special Education, Teaching and Learning

Vazquez, Maria, Ed.D. (Nova Southeastern), Literacy Education, Teaching and Learning

Vos, Robert, Ed.D. (Rutgers University), Associate Professor, Learning Technologies, Teaching and Learning

Weinstein, Marc G.
Associate Professor, Adult Education and Human Resource Development, Leadership and Professional Studies

Whiddon, Melody, Ph.D. (Florida International University),
Visiting Instructor, Educational Psychology, Leadership and Professional Studies

Wolff, Robert M., Ph.D. (Ohio State University),
Professor, Recreation and Sport Management, Leadership and Professional Studies

Wynne, Joan, Ph.D. (Georgia State University), Visiting Associate Professor, Leadership and Professional Studies

Yribarren, Lynn, Ed.D. (Florida International University),
Instructor, Literacy Education, Teaching and Learning

Professor Emeritus

Fain, Stephen M., Ed.D. (Teachers College, Columbia University),
Professor, Leadership and Professional Studies

Gavilan, Marisal, Ed.D. (University of Tennessee),
Associate Professor, Educational Psychology and Bilingual Education/ESL, Leadership and Professional Studies

Rosenberg, Howard, Ed.D. (Teachers College, Columbia),
Associate Professor, Special Education, Teaching and Learning

Slater, Judith J., Ed.D. (University of Florida),
Associate Professor, Leadership and Professional Studies

Smith, Douglas H., Ph.D. (Ohio State University),
Professor, Adult Education and Human Resource Development, Leadership and Professional Studies
College of Engineering and Computing

Associate Dean for Research and Graduate Studies
TBA

The College of Engineering and Computing is committed to educate professionals who can serve industry and the community at large in a wide variety of fields, as well as conduct innovative basic and applied research that meets the technical needs of industry and government, improves the quality of life, and contributes to the economic viability of Florida, the Nation, and the world.

The College of Engineering and Computing consists of one school, the School of Computing and Information Sciences, and five academic departments: Biomedical Engineering, Civil and Environmental Engineering, Construction Management, Electrical and Computer Engineering, and Mechanical and Materials Engineering. These academic departments offer programs leading to the Master of Science and Doctor of Philosophy degrees.

The College has two institutes and thirteen centers supporting its academic and research programs. The institutes are the Advanced Materials Engineering Research Institute (AMERI) and the Telecommunications and Information Technology Institute (IT2). The centers are the Bioinformatics Research Group (BioRG), Center for Advanced Distributed Systems Engineering, Center for Advanced Technology and Education (CATE), Center for Diversity in Engineering (CDE), Center for Emerging Manufacturing Technology for Advanced Information Processing and High-Confidence Systems, Center for the Study of Matter at Extreme Conditions (CeSMEC), Distributed Multimedia Information Systems Laboratory, Engineering Manufacturing Center (EMC), Eugenio Pino and Family Global Entrepreneurship Center, High Performance Database Research Center and the Lehman Center for Transportation Research (LCTR). Two major university centers, the Applied Research Center (ARC) and International Hurricane Research Center (IHRC) work very closely with the College of Engineering and Computing with many joint appointments at the faculty level.

The College has created an open-access Motorola Nanofabrication Research Facility to conduct research in nanoelectronics, bio/nanosensors and nanomaterials. In addition, the FIU College of Engineering and Computing has developed many collaborations with the industry and hospitals in Florida and across the nation.

Bachelor of Science degree programs in the College of Engineering and Computing are offered in the following fields of study:
- Biomedical Engineering
- Civil Engineering
- Computer Engineering
- Computer Science
- Electrical Engineering
- Environmental Engineering
- Information Technology (also B.A.)
- Mechanical Engineering
- Construction Management

Undergraduate Professional Certificates are available in:
- Heating, Ventilation and Air Conditioning Design
- Materials Engineering
- Robotics Engineering
- Sustainable Construction

The programs of the College are directed towards the practical use of scientific, engineering, and technical principles to meet the objectives of industry, business, government, and the public.

The College provides each student with the opportunity to develop a high level of technical skills and to obtain an education which will prepare him or her for a rewarding career and personal growth.

Underlying the programs of the College is a recognition that the growing impact of technology upon the quality of life is increasing and that the proper application of technology is critical to meeting current and emerging human needs.

The College faculty is actively engaged with business, industry and government. Faculty members also participate in a variety of basic and applied research projects in areas such as energy, transportation, solid waste disposal, biomedical devices and instrumentation, computer engineering, artificial intelligence, manufacturing, robotics, telecommunications, microelectronics, structural systems, biotechnology, systems modeling, information technology, environmental sciences and engineering, image processing engineering education, etc. Undergraduate students are given the opportunity to participate in many of these research projects.

Educational Objectives for Computer Science

The computer science program is designed to give our students an outstanding education. To illustrate the excellence of our program, please note the educational objectives below that are met in our program.
1. To provide our graduates with a broad-based education that will form the basis for personal growth and life-long learning.
2. To provide our graduates with a quality technical education that will equip them for productive careers in the field of Computer Science.
3. To provide our graduates with the communication skills and social and ethical awareness requisite for the effective and responsible practice of their professions.
4. To prepare students for BS level careers or continued graduate education.
5. To maintain a diverse student population and actively promote an environment in which students from all groups, including the traditionally under-represented, may successfully pursue the study of Computer Science.
6. To maintain a qualified and dedicated faculty who actively pursue excellence in teaching.

Educational Objectives for Engineering

All engineering programs in the college are designed to give our students an outstanding education. To illustrate the excellence of our program, please note the educational objectives below that are met in every Engineering program.
1. Develop within our graduates a basic foundation in the fundamental areas of engineering and to provide
the technical proficiency needed for the professional practice of engineering.

Our graduates will be able to:
A. Design a system, component, or process to meet desired needs related to the major technical areas encompassed by engineering.
B. Design and conduct experiments and analyze and interpret data related to at least two of the major technical areas encompassed in engineering.
C. Identify, formulate, and solve a wide range of engineering problems.
D. Apply knowledge of mathematics, science and engineering to solve a wide range of engineering problems.
E. Utilize the techniques, skills, and modern scientific tools necessary for contemporary engineering practice.

2. Develop within our graduates the ability to communicate their ideas effectively within the technical community and to the general public.

Our graduates will demonstrate an acceptable level of proficiency in:
A. Written communication
B. Oral communication
C. Working with others as part of a multidisciplinary team.

3. Prepare our graduates to take their places in society as responsible citizens.

Our graduates will demonstrate an appreciation for and an understanding of:
1. Contemporary issues facing society as a whole.
2. The local and global historical, social, economic, and political context and impact of engineering solutions to societal problems.

4. Provide our graduates with the basis for, and instill within them an appreciation for enthusiasm for life-long scientific inquiry, learning and creativity.

Our graduates will:
A. Understand that graduation is but a beginning step in the development of professional engineering competency.
B. Appreciate the need for life-long learning to maintain and enhance the professional practice of engineering.
C. Be equipped with the basic knowledge and approach to learning that will allow them to benefit from continued scientific inquiry and learning.

5. Foster within our graduates the development of an understanding for the need to maintain the highest ethical standards in their personal and professional lives.

Our graduates will:
A. Demonstrate an understanding of professional integrity and ethical responsibilities.
B. Demonstrate an understanding of professional responsibility issues as they relate to public interest, health, and safety.

Educational Objectives for Construction Management

The construction management program is designed to give our students an outstanding education. To illustrate the excellence of our program, please note the educational objectives below that are met in our program.

1. To educate undergraduate construction management majors through a program of academic learning designed to provide the management and technical knowledge required for entry level professional positions in the construction industry.
   A. Have a good understanding of principles of management.
   B. Have knowledge of economics, accounting and business law.
   C. Have knowledge of building codes and standards.
   D. Have technical knowledge and ability to identify and understand civil, electrical, mechanical and structural systems.

2. To furnish the graduate construction management majors an advanced level of education designed to provide the management and analytical knowledge required for managerial positions in the construction industry.
   A. Have ability to analyze construction problems.
   B. Have knowledge to solve construction problems.
   C. Have ability to plan, estimate and schedule construction projects.
   D. Have ability to manage construction projects and processes.

3. Develop within our graduates the ability to communicate their ideas effectively within the technical community and to the general public. Our graduates will have an acceptable level of proficiency in:
   A. Written communication
   B. Oral communication
   C. Working with others as part of a multidisciplinary team.

4. Foster within our graduates the development of an understanding for the need to maintain the highest ethical standards in their personal and professional lives.

Our graduates will:
A. Demonstrate an understanding of professional integrity and ethical responsibilities.
B. Demonstrate an understanding of professional responsibility issues as they relate to public interest, health, and safety.

Educational Objectives for Information Technology

1. To provide our graduates with a broad-based education that will form the basis for personal growth and life-long learning.
2. To provide our graduates with a quality technical education that will equip them for productive careers in the field of Information Technology.
3. To provide our graduates with the communication skills and social and ethical awareness requisite for the effective and responsible practice of their professions.
4. To maintain a diverse student population and actively promote an environment in which students from all groups, including the traditionally under-represented, may successfully pursue the study of Information Technology.
5. To maintain a qualified and dedicated faculty who actively pursue excellence in teaching.
6. To maintain a qualified and dedicated faculty who actively pursue excellence in teaching.

**Accreditation for Computer Science**

The School of Computing and Information Sciences offers curricula leading to the degree of Bachelor of Science in Computer Science, Bachelor of Arts and Bachelor of Science in Information Technology. The Bachelor of Science in Computer Science is accredited by the Computing Accreditation Commission, ABET, Inc., 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, Telephone: (410) 347-7700.

**Accreditation for Engineering**

The Engineering Accreditation Commission of ABET, Inc., accredits engineering programs on a nationwide basis. Students wishing more information about accreditation should consult their respective departmental office or the Office of the Dean. The following baccalaureate engineering programs in the college are currently accredited by the Engineering Accreditation Commission of ABET, Inc., 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, Telephone: (410) 347-7700: Biomedical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Environmental Engineering, Industrial and Systems Engineering and Mechanical Engineering.

**Accreditation for Construction Management**

The American Council for Construction Education (ACCE) accredits construction management programs on a nationwide basis. The baccalaureate construction management program in the College is accredited by the ACCE.

The subjects basic to all fields of engineering are generally studied while the student is in the first two years of undergraduate study in a pre-engineering curriculum. Specialized or departmental courses are taken in the third or fourth years with additional interspersed mathematics and humanistic-social studies. To earn a bachelors degree in engineering, a student must complete the approved curriculum requirements, and must have a cumulative GPA of at least 2.0 on all engineering courses taken at the University.

The engineering programs include a strong engineering core foundation designed to prepare the prospective engineer not only with a broad base of fundamental courses in mathematics, sciences and technical knowledge, but also with a solid cultural background in humanities, social sciences and English. In addition to the core subjects, the student must complete an engineering discipline specialization under the direction of the respective academic department.

**Admission Preparation**

Prospective students who are considering engineering should follow an academic program to meet engineering prerequisites. The student planning to transfer to the engineering program as a junior should follow a pre-engineering program in the first two years of college work. Many courses required by the engineering curriculum are specialized in their content and students need to select lower division courses with care. The normal maximum number of credits transferred from a community college is 60 semester credits.

Freshman admission to the University is determined by the admission standards of the lower division. The admitted freshmen should discuss their future program intentions with their lower division academic advisor and plan their lower level course selections towards their engineering program goals. The freshman should have had high school preparation of considerable depth and breadth. Specifically, students admitted to the lower division interested in engineering should have preparation in mathematics (algebra, geometry, trigonometry, analytical geometry, or pre-calculus) and chemistry. Physics and introduction to computers are recommended, but not required. Admitted freshmen students planning to major in an engineering program should contact an advisor in their respective discipline as early as possible.

**Engineering Admission Policy**

The admission policy for freshmen and transfer students are different and the policies may vary in each department. (Refer to the Admission Policy in the department of your choice.)

**FIU Freshmen**

Students seeking admission to an undergraduate degree program will be admitted by the Admissions Office if the following criteria are met:

a. All general admission requirements of the University are satisfied.
b. In order to be admitted into upper division Engineering, a student must earn a grade of 'C' or higher in all Calculus courses, Differential Equations, Physics I with Calculus, Physics II with Calculus, and Chemistry I. Consult the department for details.

**Transfer Students**

All transfer students must meet the general University requirement for admission and must achieve the competencies of the CLAS requirement. There is a two step process in the evaluation of transfer credits.

a. The Office of Admissions will make a preliminary evaluation of the student's background for general compliance and determination of applicable Core Curriculum courses taken.
b. The specific department will determine the exact transfer of applicable credit. The departmental evaluation is the final word in this matter.
c. FIU adheres to the Board of Education Articulation Agreement between the Universities and Community Colleges of the State of Florida. Therefore, transfer of credit from Florida Community Colleges is facilitated.

Preference is given to Associate of Arts degree holders from Florida Community Colleges. For holders of other degrees, it is suggested that application is made about three months prior to the beginning of the term.
For specific course requirements, see the departmental sections, shown later in the catalog.

**College of Engineering and Computing Dismissal Policy**

A student who has been dismissed from the University for the first time may see his/her advisor to begin the appeal procedure. The advisor will determine if the student is eligible to appeal the dismissal or if there is a way to lift the dismissal. If the student is eligible, he or she must make an appointment to see the chairperson or associate chairperson. The student must bring a letter stating when he or she was dismissed the first time and what he or she is going to do to ensure that he or she is not dismissed a second time. The student must also sign an agreement stating that he or she understands that the department will not allow a second reinstatement if the student is dismissed again. If the chairperson determines that the student is worthy of reinstatement, he or she will prepare and sign a memo for the Dean’s consideration stating the conditions for the student to be reinstated (the student will be readmitted on academic, probation). If the student does not meet these conditions, he or she will be dismissed a second and final time from the program.

Any student who is dismissed a second time from FIU will not be readmitted under any circumstances. Institutional policy is that students may appeal to the Dean’s Office, but only a first dismissal appeal is considered in the College of Engineering and Computing; a second dismissal appeal will not be accepted.

The College of Engineering and Computing will uphold the following institutional policies:

**Academic Salvage**

A student who is dismissed and subsequently receives an AA degree from another Florida public institution of higher learning can appeal to the department and may be readmitted to the program. The student’s GPA will be recalculated.

**Academic Amnesty**

After 6 years of NOT taking courses at any College or University, an FIU undergraduate may reapply to the program. If readmitted, a student’s FIU GPA will be set at 0.0. However, credit for previous University courses in which the student received a minimum grade of “C” may be applied toward the degree, (not the GPA), subject to determination by the department through which the student is attempting to earn the degree.

For more information or to find out if you are eligible, see your advisor.

**Transfer of Courses to Engineering Programs**

Courses from ABET-accredited universities will be transferred under the discretion of the engineering department. Course equivalencies will be determined solely by the department advisor, associate chairperson, or chairperson. Any other faculty member in the Department, College, or University cannot officially grant transfer credits under any circumstances.

Courses from non-ABET accredited programs (including foreign institutions) will only be accepted as long as all of the following requirements are met:

- The College/University is recognized and accredited by the appropriate governing bodies (to be determined by our office of admissions)
- For courses that are not offered directly from the student’s Engineering department at FIU, a memo must be obtained by the student from the appropriate FIU department stating that the course is equivalent to the required course at FIU.
- Any engineering course considered for transfer must be a 100% engineering science course at FIU. If the course is partially or completely designated as an engineering design course at FIU, it cannot be transferred. All transferred engineering courses must have the consent of the chairperson or associate chairperson of the student’s department.
- The student must earn the equivalent grade to what is required in the courses here at FIU (i.e., if a department requires a “C” in Physics, then the student must have a grade equivalent to a “C” at their university of origin).
- Technology credits and life experience credits will not be accepted as engineering credits under any circumstances.

**Academic Support Services**

The area of academic support services is responsible for the coordination of academic advising and student services activities for the College of Engineering and Computing. This area is also responsible for keeping students informed of educational opportunities such as scholarships, tuition waivers, internships, Co-op studies and campus resources; serves as a liaison between the academic departments and the student support services university wide and facilitates the registration process in order to make sure that the students adhere to the college guidelines.

A student who has been accepted to a degree program in the College must obtain and consult an advisor prior to the first class enrollment. An advisor may be seen by contacting the Department in which an academic major is desired. Continued contact (at least once per semester) with the advisor is required to review progress and select courses for each succeeding semester. Such contact is required until an approved program of study is completed.

**Cooperative Education**

A Cooperative Education (Co-op) Program is conducted by the College in conjunction with the Department of Cooperative Education in the Division of Student Affairs. In this program, students spend alternate semesters in school full-time and fully employed in industry in a technical position directly related to their major. Students receive full pay for their work in industry.

Placement in Co-op positions is arranged by the Co-op Department and includes both local and national industrial, business and governmental agencies. Co-op students typically agree to spend at least three work periods in industry.

Applicants for the program are evaluated by the College and should contact the appropriate chairperson. Based on three work periods, students should enter the program during the first semester of the junior year. Inquiries from lower-division students, prior to transfer to
the University are encouraged since work may be arranged immediately upon enrollment. The Co-op program also offers the Parallel Co-op whereby a student might alternate work and study during the same semester by attending the University part-time and working part-time in industry.

In addition to the university wide scholarships the College of Engineering and Computing offers scholarships as listed below: Most are restricted to students who are United States citizens or permanent residents.

Apply for these scholarships on our website www.eng.fiu.edu/html2002/index.htm.

Biomedical Engineering Excellence Scholarship – Biomedical Engineer – Merit-based scholarship is now available for FIU Undergraduates as well as transfer students with at least 60 credit hours. There are several $5,000 scholarships for an allocation of $1,250 over a period of four semesters. 3.0 GPA is required for eligibility and retaining of the award, which is student's SAT score and a written statement will also be considered for the award. Before receiving the scholarship, students must declare Biomedical Engineering as their major. For more information, please call (305) 446-6095

Kimley Horn and Associates Inc. Scholarship Civil Engineer: Senior undergraduate or Graduate Civil Engineering students. Member of a recognized minority group, Award: $500 per academic year. Scholarship applications are available at the College of Engineering website (www.eng.fiu.edu).

Leonard Kauffman Endowed Scholarship: Undergraduate junior or senior Industrial and Systems Engineering. This is a one time award of $500. There are two awards per academic year. Scholarship applications are available at the College of Engineering and Computing website (www.eng.fiu.edu).

HNTB Scholarship in Civil Engineering – Civil Engineering: Undergraduate or Graduate Civil Engineering students. Award: $500 per academic year. Scholarship applications are available at the College of Engineering and Computing website (www.eng.fiu.edu).

Sergio Martinez Endowed Scholarship: Undergraduate junior or first semester senior Industrial and Systems Engineering. This is a one time award of $500. There is one award per academic year. Scholarship applications are available at the College of Engineering and Computing website (www.eng.fiu.edu).

Randall L. Nida Memorial/Cordis Corporation Scholarship – Industrial and Systems Engineering: Undergraduate student in Industrial and Systems Engineering, U.S. Citizen, Award: $1,000 per academic year.

CSEM Scholarship – Industrial and Systems Engineering: Eligibility requirements: U.S. citizen, permanent resident, or refugee at time of application. Be admitted to FIU or have submitted application for admission (in any program offered by the Department of Industrial and Systems Engineering). Attend FIU full-time (12 credits/semester undergraduate, 9 credits/semester graduate). Financial need for undergraduate students by submitted FAFSA. For graduate students by providing most recent tax return.

Association of Professional Estimators Bruce Morris Undergraduate Scholarship – Construction Management – A $1,000 scholarship is awarded annually to a student enrolled in the Construction Management program who is considering pursuing a career in South Florida. Scholarship applications are available at the CM Department website (www.cm.fiu.edu).

Catalfumo Construction Undergraduate Scholarship – Construction Management – Three scholarships of $4,000 each are awarded to students enrolled in the Construction Management program who are considering pursuing their careers in South Florida. Scholarship applications are available at the CM Department website (www.cm.fiu.edu).

Catalfumo Construction Graduate Fellowship – Construction Management – An $18,000 graduate fellowship is awarded each year to a graduate student enrolled in the Construction Management program who is considering pursuing a career in South Florida. Scholarship applications are available at the CM Department website (www.cm.fiu.edu).

Centex Construction Undergraduate Scholarship – Construction Management – A $1,000 scholarship is awarded annually to a student enrolled in the Construction Management program who is considering pursuing a career in South Florida. Scholarship applications are available at the CM Department website (www.cm.fiu.edu).

Consul Tech Scholarship in Civil Engineering – Civil Engineer – Undergraduate or Graduate Civil Engineering students. Award: $1,000 per academic year. Scholarship applications are available at the College Engineering website (www.eng.fiu.edu). 3.00 GPA. A Summer internship will also be awarded to scholarship recipient.

COSCAN Scholarship – Construction Management Two $1,000 scholarships are awarded annually to students enrolled in the Construction Management program who are considering pursuing their careers in South Florida. 2.5 GPA. Scholarship applications are available at the CM Department website (www.cm.fiu.edu).

Marlin Engineering Scholarship in Civil Engineering – Civil Engineer – Two $1,500 scholarships are awarded to undergraduate students enrolled in the Civil Engineering program each year. Scholarship applications are available at the College of Engineering and Computing website (www.eng.fiu.edu).

American Bankers Insurance Group Inc. Scholarship – Industrial and Systems Engineering: $1,000 per academic year. Full-time undergraduate student in Industrial and Systems Engineering, Junior year standing at time of award, U.S. citizen or permanent resident, Minimum of 3.0 GPA, Internship may be offered as part of award.

Construction Association of South Florida Scholarship: Scholarships are awarded annually to students enrolled in construction schools throughout the country who are considering pursuing their careers in South Florida. Selections are conducted by the Scholarship committee on behalf of the membership and board of directors. Scholarship applications are available at the CM Department website (www.cm.fiu.edu).

Condotte-American/MDX: Requirements are a CM major, financial need, leadership, etc. Applications available at CM Department. Applications normally due by mid April, award of scholarship for next academic year made in July. Amount of scholarship is currently $1,500 for one academic year, and not automatically renewable. Scholarship applications are available at the CM Department website (www.cm.fiu.edu).
Southern Gear Scholarship – Mechanical or Industrial Engineer: Up to $1,000 per academic year / unmet need U.S. Citizens or Permanent Residents. Resident of Miami Dade County All levels. Minimum 3.0 GPA. Scholarship applications are available at the College of Engineering and Computing website (www.eng.fiu.edu).

Turner Construction Undergraduate Scholarship – Construction Management – a $5,000 scholarship is awarded each year annually to a student enrolled in the Construction Management program. Scholarship applications are available at the CM Department website (www.cm.fiu.edu).

Turner Construction Graduate Scholarship – Construction Management – a $5,000 graduate scholarship is awarded each year annually to a graduate student enrolled in the Construction Management program. Scholarship applications are available at the CM Department website (www.cm.fiu.edu).

Please note that in most cases, neither the college nor the department administer the scholarship funds listed below nor do they select the recipients. Additionally we need the contact info for these scholarship opportunities/applications.

Building Officials & Inspectors: Requirements are a CM major, financial need, leadership, etc. Applications are available at CM Department. Applications due by September 13, 2009. Amount of scholarship is $1,000, not automatically renewable.

Associated General Contractors of America Scholarship: Requirements are for a full time student. Applications are available online or from the Department. Applications are available in July and must normally be submitted by November 01. Award amounts are $2,000 annually for undergraduate students, renewable up to $8,000 total, and $7,500 annually for graduate students. Graduate student scholarship is not renewable.

ASHRAE Scholarships – Mechanical Engineering: Scholarships are available to undergraduate engineering, engineering technology and graduate students enrolled full-time in a curriculum approved by the Accreditation Board for Engineering and Technology (ABET) or other accrediting agency recognized by ASHRAE.

SAE Scholarships – Mechanical Engineering: Money is available for both undergraduate and graduate engineering students through generous contributions from various corporations and universities. These scholarships are funded through the SAE Foundation.

ASME Scholarship – Mechanical Engineering: Through the efforts of the ASME Board of Governors, ASME Foundation, the ASME Auxiliary, ASME Councils on Education, Engineering and Member Affairs, over $500,000 is awarded annually in low-interest student loans, scholarships and fellowships.

Astronaut Scholarship – Mechanical Engineering: Scholarship candidates must be nominated by faculty or staff, and they must be a junior, senior, or graduate student at one of a select group of schools. Students may not apply directly for the scholarship.

FGLSAMP – Florida Georgia Louis Stokes Alliance for Minority Participation (Legislature): Undergraduate, full time students in the areas of Physics, Biology, Computer Science, Mathematics, Chemistry, Engineering, minimum GPA 2.75, must be a U.S. citizen or resident.

Hispanic College Fund, Inc. – Must be a U.S. citizen of Hispanic background residing in the fifty states or Puerto Rico. Must be pursuing a bachelor’s degree in business, computer science, engineering or business-related major.

Non-Residents and International Undergraduate Students – For more detailed information on these scholarships, applicants should contact the Office of Admissions, PC 140 Modesto A. Maidique Campus, (305) 348-4100.

FMI – Florida Mexico Institute – Out of state tuition waivers – Students Who Are Eligible: Students who have been admitted or who meet admission requirements to any university or community college of the public education system of the state of Florida. Preference will be given to graduate students. Mexican citizens studying in Florida with student visas. Students who make a commitment to return to Mexico after the completion of their studies for a length of time equal to their exemption period, as required by the scholarship program.

Academic Requirements: GPA (3.0) and SAT, ACT, CLAS, GRE, GMAT and/or TOEFL scores appropriate for admission to Florida community colleges and universities. Proof of test scores must accompany applications. Evidence of good academic standing for all previous and current levels of study, as well as a sufficiently good record to be admitted to intended educational program of study. Since this is a merit scholarship program, the level of academic achievement is important.

FCI – Florida Caribbean Institute – Out of state tuition waivers: The Florida Caribbean Institute (FCI) is a state-funded program co-directed by Florida International University and Daytona Beach Community College. Its purpose is to expand cultural, educational and commercial ties between the state of Florida and the countries of the Caribbean Basin. FCI offers out-of-state tuition waivers for qualified Caribbean students to attend any of Florida’s public universities or community colleges. It also pursues exchange programs and sister university relationships between members of the Florida State University System and counterparts in the Caribbean, including the University of the West Indies (Jamaica and Trinidad campuses) and institutions in the Dominican Republic. In addition, and FCI scholarship program makes it possible for Florida school teachers to attend FUI’s Haitian Summer Institute.

Non-Florida Residence Scholarship Award

Dean’s Merit Scholarship – For residents and nonresidents. Must be a full-time student in junior standing with a minimum GPA of 3.5. All engineering disciplines welcomed.

Student Organizations and Clubs

Student organizations and clubs enrich the campus in so many ways. They provide an outlet for learning outside the classroom, for meeting other people, for sharing interests, for broadening one’s horizons, for developing life, work & leadership skills, for gaining experience, and for engaging students as citizens of the campus community. At FIU College of Engineering and Computing, we follow the philosophy that education is not something to be confined to the classroom. Students grow intellectually and socially by engaging in a broad range of activities. One of the best ways to start this exploration is by participating in student organizations. Our campus has deep traditions of active involvement and student leadership, and student organizations play a significant role in helping to nourish those traditions. By participating in these groups, students...
not only enrich their own experiences, but those of their peers, and that is the ideal of shared learning. Listed are some of our currently active student organizations and clubs.

ACE – Association of Cuban-American Engineers
AGC – Associated General Contractors of America
APM – Alpha Pi Mu – Industrial Engineering Honor Society
ASCE – American Society of Civil Engineers
ASHRAE – American Society of Heating, Refrigeration & A/C Engineers
ASM/TMS – American Society of Metals, Minerals Metal and Materials (Triple M)
ASME – American Society of Mechanical Engineers
BMES – Biomedical Engineering Society
ESC – Engineering Student Council
EWB – Engineers Without Borders
FEA – Florida Engineering Society
FWEA – Florida Water Environment Association
HKN – ETA KAPPA NU – Electrical Engineering Honor Society
IEEE – Institute of Electrical and Electronics Engineers
IIE – Institute of Industrial Engineers
INFORMS – Institute for Operations Research and Management Science
ITE – Institute of Transportation Engineers
MAES – Mexican-American Engineers & Scientists
NSBE – National Society of Black Engineers
PI TAU SIGMA – Honorary Mechanical Engineering Fraternity
OMEGA RHO – The International Honor Society of Operations Research and the Management Sciences
SAE – Society of Automotive Engineers
SLX – SIGMA LAMBDA CHI – International Construction Honor Society
SHPE – Society of Hispanic Professional Engineers
SWE – Society of Women Engineers
XE – CHI EPSILON – National Civil Engineering Honor Society
TBPi – TAU BETA PI – National Engineering Honor Society
TXA – TAU CHI ALPHA – National Environmental Honor Society

Women in Engineering
For over 100 years women have been working in the field of Engineering. The long list of Nobel Laureates would inspire anyone to become an Engineer. At FIU 22% of our undergraduate student are women which exceeds the national average of 19%. 25% of our graduate students are women which exceeds the national average of 21% and 24% of our PhD students are women exceeding the national average of 19%. FIU produces over three times the national average of female engineers. We are working along with major corporations such as Motorola to set up student internships, Co-op programs and joint research. The FIU College of Engineering and Computing is proud to announce that for the second time in two years Motorola has awarded the college a grant of $10,000 in support of the “Motorola Women in Engineering” program. Motorola is committed to the promotion of aspiring professional women engineers in our community. Please visit our website at http://www.fiu.edu/mwie for more information.

International Students
Florida International University (FIU) is a multicultural environment where differences in culture are not only welcome but required. We pride ourselves in the fact that 19% of our students are International. This allows all FIU students to be more culturally knowledgeable and prepared for global challenges in the work place. There are 313 international students from over 80 different countries in the College of Engineering and Computing. The International Student and Scholar Services provide information and services to international students. It also provides helpful tips on registration, the cashiers office and even travel. Please visit our website at www.fiu.edu for more information.

General Requirements for a Baccalaureate Degree
In order to obtain a Bachelor’s degree from the College, each student must satisfy the following minimum requirements:
1. Obtain the minimum number of semester credits required by the specific program. Specific requirements are described in the sections devoted to the various departments in the College.
2. Complete at least 35 semester credits in the upper-division at FIU.
3. Attain a minimum grade point average of 2.0 in all courses taken at the University.
4. Satisfy the core curriculum requirements of the State of Florida for the Bachelor’s degree.
5. Satisfy the particular requirements for his or her own major and all University requirements for graduation.

Scientific Laboratory Fee
Scientific laboratory fees are assessed for certain courses where laboratory classes are part of the curriculum. Specific information on scientific laboratory fees may be obtained from the academic departments or University Financial Services.

Prerequisites
Students must have met the prerequisites and corequisites to register for any course. Otherwise, the student will be dropped from the course before the end of the term, resulting in a grade of ‘DR’ or ‘DF’. Students should refer to the Catalog or see an advisor to determine course prerequisites.

Course Repeats
This varies depending upon the particular program. For more information consult your advisor.

Policies, Requirements, and Regulations
The University, the Graduate School, and the College of Engineering and Computing have a set of guidelines to protect the student’s rights and to ensure a timely graduation. Students must become familiar with all university, Graduate School, and College’s graduate procedures. These procedures are described in the University’s Student Handbook.

The programs, policies, requirements and regulations listed in the catalog are continually subject to review to
serve the needs of the University’s various publics, and to respond to the mandates of the FIU Board of Trustees and the Florida Legislature. Changes may be made without advance notice.

Florida International and the College adhere to opportunity practices, which conform to all laws against discrimination and are committed to non-discrimination with respect to race, color, creed, age, handicap, sex, marital status, or nationality. Additionally, the University is committed to the principle of taking positive steps necessary to achieve the equalization of educational and employment opportunities.

**Department-Specific Information**
Please refer to your selected department in this catalog for additional information, or call the department:
Biomedical Engineering (305) 348-6950
Civil and Environmental Engineering (305) 348-2824
Construction Management (305) 348-3172
Electrical and Computer Engineering (305) 348-2807
Industrial and Systems Engineering (305) 348-3491
Mechanical and Materials Engineering (305) 348-2569
School of Computing and Information Sciences (305) 348-2744

**Important Contact Information**
Web site: [http://www.eng.fiu.edu](http://www.eng.fiu.edu)
Admissions (305) 348-2363
College of Engineering and Computing – Undergraduate Admissions (305) 348-1635
Campus Resources (305) 348-2973
Career Services (305) 348-1281
Financial Aid (305) 348-2489
Graduate School (305) 348-2455
International Student Services (305) 348-1913
Registrar’s Office (305) 348-2320
Scholarships (305) 348-1869
Tuition Waivers (305) 348-1869

**Profession Certificate in Sustainable Construction**
This interdisciplinary Professional Certificate provides both traditional students and practicing professionals with a unique learning experience that enhances their design and management capabilities in the emerging field of sustainable building design and construction. The program focuses on an integrated system approach to apply basic engineering science/architectural principles to practical applications through interdisciplinary teamwork. Interested applicants must contact the Program Coordinator prior to registering for the program.

The Certificate will be awarded to a student who successfully demonstrates competency in:

**Four Core Courses**
- EML 4460 Mechanical Engineering Systems and Energy Utilization 3
- BCN 4570 Sustainable Approach to Construction 3
- ARC 3937/5939 GreeN: Designing for Sustainability 3
- CGN 4510 Sustainable Building Engineering 3

**One Interdisciplinary Design Course** *(registered under one of the following discipline courses)*
- EML 4905 Senior Design Project 3

**One Elective** *(choose one of the following courses)*
- EML 4911 Undergraduate Research Projects 3
- BCN 4911 Special Projects 3
- CGN 4911 Undergraduate Research Projects 3
- ARC 3622/5623 Design Ecology and Technology 3
- IND 4627/5628 Sustainable Interior Design Practices 3

**NOTE:** The program is co-listed in the undergraduate program catalogs under both College of Engineering and Computing and College of Architecture and The Arts.

**Center for Diversity in Engineering and Computing**

**Gustavo Roig**, Director and Professor, Electrical and Computer Engineering
**Berrin Tansel**, Associate Director
**Lourdes Barouh**, Executive Secretary
**Francisco Fins**, Program Coordinator
**Jorge Nosti**, Program Coordinator
**Beatriz Oria**, Program Specialist
**Rebecca Ramos**, Program Coordinator
**Katina Vallina**, Program Specialist

South Florida’s distinction as a multi-cultured, multi-lingual region has long been a diverse source of talent for FIU, particularly in the College of Engineering and Computing. In response to the challenge of attracting this diverse community to science and engineering, the College of Engineering and Computing has created a special center for Diversity in Engineering and Computing.

By building sound foundations in sciences and mathematics, the Center helps to prepare young students to deal with the rigors of higher-level education, and Engineering and Computing in particular. Currently the Center is actively engaged in a number of special programs as a service to the community and the University:

**Florida Action for Minorities in Engineering (FLAME)**
This is a cooperative program between Miami Coral Park Senior High School and Florida International University aimed at introducing the profession of engineering to high school students, and to identify, select, enroll and retain minority students in the engineering field. Senior High School students also registered for dual enrollment classes at FIU.

**Florida/Georgia Louis Stokes Alliance for Minority Participation (FGLSAMP)** This is a National Science Foundation funded program in association with Florida Agricultural and Mechanical University (FAMU), the leading institution. This program focuses on engineering, math chemistry, biology, physics, and computer science undergraduate students. Participants receive scholarships, during the entire academic year based on high GPA and being a full time student. Opportunities for summer internships are available.

**Junior Engineering Technical Society (JETS)** *(TEAMS)* The JETS Test of Engineering Aptitude, Mathematics and Science *(TEAMS)* is an academic problem-solving competition, that serves all public and private high schools within our geographical area with
focus on a one day activity at Florida International University.

(UNITE) A collaborative effort between Florida International University, the U.S. Army, and the Junior Engineering Technical Society. The JETS UNITE Program’s goal is to increase the number of underrepresented students in the field of engineering, to improve the performance of the students in their SAT/ACT exams, develop resourceful, self-motivated well rounded graduates who will be responsible and well adjusted citizens.

ENLACE/Miami The Children Trust This program is funded by The Children Trust and provide after school and summer programs for 650 children (ages 7-17) residing in the Sweetwater, Doral and West Kendall areas. The after school program will offer literacy support through individualized software-based increasing intervention, social skills development, and health fitness education. The summer program will offer students the unique opportunity to attend classes at a university campus.

GEAR UP Homestead The GEAR UP Homestead project assists a maximum number of students living within the Homestead area achieve a college career, while implementing a self-sustaining system to continuously duplicate the process. Homestead Florida is faced with serious issues that require assistance from other communities, such as poverty, lack of jobs, and problems related to disadvantaged societies. Fortunately, with the development of the GEAR UP Homestead Partnership Plan as well as the aide to public, private and governmental institutions, the targeted cohort students of the Homestead area will be able to reach their maximum potential through a college education. Partners such as the US Department of Education will supply a vast portion of the resources needed to perform this project. Aspira, a non-profit organization, is dedicated to creating leadership through education for those who are disenfranchised, or socially and economically disadvantaged. Another important team player is the Non-Violence Program of Miami, contributing the idea that knowledge is the best weapon against violence, and motivating young people to engage in positive action to make our communities safer.

The GEAR UP project is made of several components that contribute to a wider reach into insuring that a maximum result is gained by everyone involved. Among these components are in-school tutoring and assistance programs. The Summer Enrichment Program offers an alternative way of spending those long summer days. The teacher training Development Program, as well as PRISM (Program of Industry Supported Mentorship)’s enrich teachers with the right preparation to confront all kinds of situations. Perhaps the most important aspect that will contribute to the outcome of the child is the parental influence and family involvement into their success. In a fast-paced and demanding society, this is often a difficult threshold to cross. Parent Involvement Program (PIP) encourages parents to have a positive active role in their child’s every day awareness of the future. Education begins in the home and ends in the child’s decision to instill a safe and productive future. The powerful drive needed to assist the process of growth and awareness is the very reason for the existence of programs such as GEAR UP.

The mission of the partnership addresses the needs of the student by bringing the necessary awareness and readiness for a successful college education. To succeed such advancement, GEAR UP has established a mission, goals, objectives and outcomes that will serve as the foundation for a successful program. The dedication of the partnership as well as a Vision Statement that clearly unifies the community to serve its future provides an inspiration: that the education of today paves the road towards tomorrow’s success.

Research and Development Centers

Advanced Materials Engineering Research Institute (AMERI)
W. Kinzy Jones, Director and Professor, Mechanical and Materials Engineering

The Advanced Materials Engineering Research Institute provides an open access equipment infrastructure to support materials research and engineering over a broad range of technology and capabilities. The Institute provides analytical instrumentation, materials characterization, and process development laboratories to support faculty and industry in the development and characterization of new materials over the continuum from the nanoscale to bulk materials.

The analytical Instrumentation Laboratory contains two field emission scanning electron microscope (FESEM), a 200 kev Transmission Electron Microscope (TEM), Atomic Force Microscope (AFM), X-ray diffraction, thermal (DSC, TGA, DMA, dilatometer flush diffusion, and mechanical testing (uniaxial/biaxial Instron). Process Development laboratories for ceramic processing (sol-gel, tape casting, milling), and thermal processing (air, vacuum, hydrogen, controlled atmosphere furnaces) are available to support faculty and student researchers.

The Institute consists of the Motorola Nanofabrication Facility, which is supported by a class 100 clean room and nanofabrication capabilities including e-beam lithography and optical photolithography. Fabrication of nano/micro electromechanical systems (N/MENS) can be accomplished by a combination of nanolithography, focused ion beam (FIB) micro machining, nano imprinting, reactive ion etching, and thin film deposition by a variety of techniques (e-beam, sputtering, filament evaporation, cvd).

In addition to supporting research within the graduate program in materials science within the Department of Mechanical and Materials Engineering, the Institute supports faculty across all departments (physics, chemistry, geology, biology, electrical and computer engineering and biomedical engineering) in materials based research.

Research and Support Staff
W. Kinzy Jones, Director and Professor, Mechanical and Materials Engineering
Arvind Agarwal, Associate Professor, Mechanical and Materials Engineering
Jiuhua Chen, Associate Professor, Mechanical and Materials Engineering
Wonbong Choi, Associate Professor Mechanical and Materials Engineering
Chenzhong Li, Assistant Professor, Biomedical Engineering
Wenzhi Li, Assistant Professor, Physics
Norman Munroe, Associate Professor, Mechanical and Materials Engineering
Roberto Panepucci, Assistant Professor, Electrical and Computer Engineering
Surendra Saxena, Professor, Mechanical and Materials Engineering
Yuriy Vlasov, Research Engineer
Chunlei (Peggy) Wang, Associate Professor, Mechanical and Materials Engineering
Kuang-Hsi Wu, Professor, Mechanical and Materials Engineering
Yesim Darici, Associate Professor, Physics
Watson Lees, Associate Professor, Chemistry
Kevin O’Shea, Professor, Chemistry
Yanqing Liu, Research Engineer

Applied Research Center (ARC)

John R. Proni, Ph.D., Executive Director
David Roelant, Ph.D., Associate Director of Research for Environment & Water
George Philippidis, Ph.D., Associate Director of Research for Energy
Jerry Miller, Associate Director of Security, Policy and Technologies
Richard Burton, PMP, Associate Director of Business Programs
Gloria Dingeldein, Associate Director of Grants
Leonel Lagos, Ph.D., PMP, Director of Diversity and Workforce Development & Training

ARC is the one of only three major environmental technology test and evaluation centers in the U.S. ARC has tested over 250 new, commercial technologies in order to assess and improve their effectiveness prior to deployment across the country. Several States including Texas have implemented ARC’s rigorous environmental technology testing methodology. ARC is a leading university research program in waste management and pollution prevention, with $1-2M per year of funding and has certification in hazardous waste management. ARC currently assists DOE in the cleanup of the Nuclear Weapons Complex by developing technologies to remediate contaminated soil and groundwater plumes; technologies to clean and dismantle contaminated nuclear facilities; and those to characterize, retrieve and treat radioactive and mixed wastes. Water research focuses on advanced groundwater and surface water modeling for clients worldwide including contaminated sites across the U.S. such as the Everglades. 1000 students to date have had “hands on” research mentoring and training at ARC in the water and environmental area. In collaboration with ARC’s Security, Policy and Technologies scientists ARC has supported the U.S. Army by developing, fabricating and demonstrating several environmental technologies across Latin America (e.g., wetlands design and construction, mobile water purification systems). More on ARC’s Environmental and Water research can be found at www.arc.fiu.edu/environment&water.

Renewable Energy and Biofuels – The country’s over-reliance on imported oil and increasing concern about global warming necessitate the development of domestic renewable energy and fuel sources and the adoption of energy efficiency and conservation steps. In light of the country’s urgent need for enhanced energy security and reduced greenhouse gas emissions, ARC is developing technologies covering the full spectrum of sustainable energy resources from solar and wind to biomass, biofuels, and fuel cell systems. Capitalizing on the national emphasis on clean and renewable energy, ARC has enhanced its research and technology development activities in various energy fields and has created an affiliate center, the Center for Energy and Technology of the Americas (CETA) to promote energy integration and technology transfer within the Western Hemisphere. ARC is developing technologies for production of sustainable biofuels: (1) Ethanol from cellulosic biomass, such as sugarcane bagasse and wood waste, using biochemical and thermochemical processes, and (2) Biodiesel from non-edible oils (jatropha) and from native algae. In the areas of hydrogen and fuels cells, ARC investigates the production of hydrogen from biomass via gasification and biologically by microorganisms, while looking for ways to manufacture cost-competitive high temperature PEM fuel cells. ARC possesses pilot-scale facilities for biomass gasification and biodiesel production, which serve the needs of the public and private sectors for testing and demonstrating new technologies. Moreover, in collaboration with FIU’s Business School, the ARC has formed the Energy Business Forum (EBF), which promotes the development on new energy markets and their integration into the existing fossil energy infrastructure. The EBF has been organizing stakeholder conferences to facilitate dialogue, exchange of ideas and partnerships.
**Security, Policy and Technologies** – ARC conducts advanced research in security policy; renewable energy technologies and other security/defense technologies. ARC’s scientist and engineers conduct a variety of research work applicable for the DOD, DHS and other private entities involved in security and defense issues. ARC’s researchers have linguistic and cultural skills needed to implement solutions in the field. Our mission is to solve international problems in the field through integration of technology and policy development in three areas—Applied Technologies, Security and Stability Studies, and Security Technologies.

**Applied Technologies** focuses on researching, demonstrating, validating and implementing renewable energy and environmental technologies in the field in order to develop sustainable solutions in the following areas: 1) Rural electrification, 2) Biomass gasification for thermal and electrical energy production, 3) Constructed wetlands as a treatment for waste water, 4) Solar-power and solar-powered water purification systems, 5) Micro-hydro electric generation, 6) Bio-fuels production and use (“field to fuel”) and 7) International Waste-to-Energy solutions.

**Security and Stability Studies** addresses security and policy research throughout Latin America and the Caribbean. Using a “network of experts approach”, a multidisciplinary group of collaborative experts from more than 30 universities throughout the hemisphere, focus on emerging security threats throughout the world. ARC sponsors colloquia, conferences and research on stability and security issues, and delivers analytical reports that combine economic, geopolitical, social and scientific analysis, as well as recommendations to our clients.

**Security Technologies** (formerly Defense Technologies) is an expanding area of research that includes research in development and implementation of security technologies in the fields of acoustic systems, sensor systems, mobile platform robotics, artificial intelligence and information technology, detection systems, advanced power systems for remote sensors and development/applications of UAVs. During the past three years, the Center has conducted research on twelve projects with an overall value of more than $4M. Clients such as AFOSR, AFRL, ARO, MDA, DARPA, and NRO have partnered with ARC on research, which includes: integration of sensors and imaging systems into autonomous monitoring technologies, such as remote ground stations and unmanned aerial vehicles (UAVs) and unmanned ground vehicles (UGVs); Computational Fluid Dynamics analyses and experimental research for micro-channel nozzle flow for space vehicle thrusters, hypersonic flow for Scramjets, model verification of ice formation on wings, and micro-channel cooling of electronic components; and numerical simulation of micro-bubble drag reduction for applications in naval ships and submarines.

**Workforce Development and Training** – The DOE-FIU Science and Technology Workforce Development program is an innovative program to create a “pipeline” of FIU STEM (science, technology, engineering, and math) underrepresented students specifically trained and mentored to enter the DOE workforce in technical areas of need. The main objective of the program is to provide a unique integration of FIU course work, DOE field work, and “hands on” training and mentoring at ARC. It is envisioned that once our DOE Fellows graduate from this program they will enter DOE-EM’s Professional Development Corps Program and/or work for DOE’s contractor firms. To date, a total of 33 FIU underrepresented students have joined the program. The students are officially inducted into the program and vested the name of DOE Fellows in a special Induction Ceremony celebrated during the Fall semester. DOE Fellows also have internship opportunities at DOE National Laboratories and DOE sites around the country. Since the program’s initiation in 2007, a total of 14 DOE Fellows have participated in research internships at Oak Ridge National Laboratory, Idaho National Laboratory, Pacific Northwest National Laboratory, and DOE-HQ in Washington DC. In addition, our DOE Fellows directly support DOE contractors performing environmental remediation around the DOE Complex. Furthermore, this program enables undergraduate students to pursue the M.S. and Ph.D. degrees by providing Research Assistantships. So far, a total of 10 DOE Fellows have obtained B.S. degrees and have transitioned to M.S. programs at FIU.

ARC is committed to the education and development of FIU students and has developed a Student Steering Committee (SSC) that oversees the academic and research progress of each student. This committee also conducts interviews and evaluates applicants for the program. ARC is working closely with federal, state agencies, community colleges and other universities to provide training in alternative energy areas such as: solar, biomass, nuclear and weathering. This Energy Systems Training Network under the Florida Energy Systems Consortium (FESC) will help to develop a 21st century “green workforce”.

**Doing Business with the Applied Research Center** – ARC’s employees are drawn from a wide segment of the commercial, government, and academic arenas to collectively utilize their experience and expertise to support the needs of FIU’s clients. Our operating philosophy recognizes and accommodates the critical performance characteristics of government and commercial activities, while exercising the benefit of its cost structure in a way that serves both client interests and those of the University and its students. Our staff is fully engaged in the project and program activities assigned. The critical difference in the ARC’s structure is the project management and administrative processes and structures that have been put in place to serve its clients. The Center has executed work for federal agencies, state and local governments, and commercial entities, in large part through task-based contracts. For instance, in working with the U.S. Department of Defense, the Center has acted as both the prime contractor and as a sub-contractor/consultant for commercial partners, serving to streamline the process.

For more information on FIU’s ARC, please visit [www.arc.fiu.edu](http://www.arc.fiu.edu) or email us at arc@arc.fiu.edu or call 305-348-4238.

**Bioinformatics Research Center (BioRG)**

*Giri Narasimhan, Director and Professor, School of Computing and Information Sciences*

The mission of this research group is to work on problems from the fields of Bioinformatics and Biotechnology. The
group's research projects includes Pattern Discovery in sequences and structures, micro-array data analysis, primer design, probe design, phylogenetic analysis, image processing, image analysis, and more. The group builds on tools and techniques from Algorithms, Data Mining, Computational Statistics, Neural Networks, and Image Processing.

Center for Advanced Distributed Systems Engineering

Xudong He, Director and Professor, School of Computing and Information Sciences

Another of our research efforts is the Center for Advanced Distributed System Engineering (CADSE). Its mission is to establish a streamlined research, technology exploration and advanced training program in the field of distributed and Internet-based computing. The Center's R&D cover both theoretical and practical aspects of distributed software engineering, i.e. using engineering methods and technologies to tackle development problems of complex, reliable, and/or real-time distributed systems.

Center for Advanced Technology and Education (CATE)

Malek Adjouadi, Director and Associate Professor, Joint Appointment with Biomedical Engineering and Electrical and Computer Engineering

The vision of the NSF-CATE center at FIU is to foster a cross-disciplinary research and educational program as a catalyst for our undergraduates and graduates alike to develop their creative thinking by bringing in synergy the fields of applied information (signal and image) processing, neuroscience and assistive technology research. The CATE center focuses on new methodologies that (1) will enhance analysis and interpretation of signals and images in real-world applications; (2) will meet the impending needs in neuroscience as we elicit both the functional mapping of the brain, and the causality of key brain disorders; and (3) will result in new Human-Computer Interface (HCI) prototypes that address effectively the issue of Universal Accessibility, focusing on visual impairment and motor disability. Experimental results, as observed through clinical means or through system design evaluations and feasibility studies serve as means to redefine or re-evaluate our theoretical premises. The strong collaboration we have secured with our industry partners generates joint programs, student internships, clinical rotations, joint faculty appointments, and shared use of modern equipment and infrastructure. The overall mission of the CATE Center is thus to create a unified infrastructure to synergize imaging/signal processing research, while fostering an environment that supports cross-disciplinary initiatives in order to produce new scientific specialties relying on combinations of specific technologies, medicine, and computation. This environment as set is apt to ensure the anticipated success in meeting our students' educational needs and research goals all the way to the Ph.D. level.

Research Areas

- Image and Signal Processing and Computer Vision
- Real-Time Assistive Systems and Human-Computer Interfaces
- Neuroscience: - EEG Brain Research – Functional Brain Mapping
- Biomedical Applications in Flow Cytometry and Confocal Microscopy
- Robotics for Motion Planning and Automated Guidance
- Parallel and Distributed Processing

Sponsors

- National Science Foundation (NSF)
- Office of Naval Research (ONR)
- Miami Children’s Hospital
- Beckman-Coulter Inc.

Faculty

Malek Adjouadi, Director and Professor, Joint Appointment with Biomedical Engineering and Electrical and Computer Engineering

Armando Barreto, Director of the Digital Signal Processing Laboratory, Associate Professor, Joint Appointment with Biomedical Engineering and Electrical and Computer Engineering

Ana Pasztor, Professor, School of Computer Science

Gustavo Roig, Director, Center for Diversity in Engineering

Research Partners

Prasanna Jayakar, Director, Neuroscience Center, Miami Children’s Hospital

Arthur Karshmer, Professor and Chair, Information Technology, University of South Florida

Rafael Delgado, Executive Vice President and Director of Software Systems, Intelligent Hearing Systems, Miami

Gustavo Rey, Neuropsychologist, Miami Children's Hospital

Coordinator, Student Recruitment

Stephanie Strange, College of Engineering and Computing, Assistant Director of Recruitment and Retention

Research and Support Staff

Mercedes, Cabrerizo, Ph.D., Ware Foundation Research Fellow

Melvin Ayala, Manager, CATE Center

Mango Guillen, Postdoctoral Fellow, MRI Research for Pediatric Epilepsy

Maria Tito, Postdoctoral Fellow, Subural EEG Research in Epilepsy

Lu Wang, Postdoctoral Fellow, Automated Book Reader for the Blind

Mouncef Lahlou, Webmasters

Doctoral Students:

Melvin Ayala, Javier Delgado, Yu Chen, Mohamed Gorawala, Ana Guzman, Mouncef Lahlou, Jin Wang, You Xiaozhen, Mildred Zabawa, Mark Rossman, Feng Gui

Master’s Students:

Anas Salah Eddin, Gabriel Lizarraga
Partners
- The Brain Institute, Miami Children’s Hospital
- Beckman-Coulter Inc.
- The Ware Foundation
- Intelligent Hearing Systems
- American Epilepsy Society
- Children’s National Medical Center

Related Laboratories and Facilities of the CATE Infrastructure

With major funding from the National Science Foundation and the Office of Naval Research, the CATE center has helped establish the following laboratories.

1. EEG Brain Research Laboratory. Funded by NSFMRI – Housed within the Neuroscience Center at Miami Children’s Hospital.
2. Web-Design Laboratory. Funded jointly by ONR and NSF-MII – Housed within the Engineering Information Center Facility.
3. The Computer Training Laboratory – Housed in Graham Center with the Office of Multicultural Services.

Center of Emerging Technology for Advanced Information Processing and High-Confidence Systems (CREST)

Naphtali Rishe, Director and Professor, School of Computing and Information Sciences

The CREST center focuses on the following research areas: High-confidence reactive software systems, multidimensional-multimodal data modeling and query research, assistive technology research based on the design and development of real-time assistive systems, and advanced information processing with neuroscience applications. This multidisciplinary research and educational center serves as a resource for the education of underrepresented minority students as well as a driving force to increase diversity in graduate education, especially at the Ph.D. level in computer science and engineering.

Center for the Study of Matter at Extreme Conditions (CeSMEC)

Surendra Saxena, Director and Professor, School of Mechanical and Materials Engineering
Jiuhua Chen, Deputy Director and Associate Professor, School of Mechanical and Materials Engineering
Andriy Durygin, Research Coordinator
Vadym Drozd, Research Assistant Professor
Helene Couvy, Research Assistant Professor

CeSMEC’s mission is to study the behavior of materials at high pressures and temperatures. The range of research activities includes the study of planetary interiors and of matter at extreme industrial conditions.

CeSMEC is one of few facilities in the country where pressures are created to many million atmospheres and temperatures to several thousand degrees; the material is studied under such conditions with x-ray and ectoscopic techniques.

All materials are subject to three fundamental variables – the variables of temperatures, chemical composition, and pressure. Modern science has vigorously used only the first two variables in exploring nature and creating several amenities of modern civilization. Pressure, the third fundamental variable altering all states of matter, has been for years a relatively minor esoteric sub-field.

The creation of this center is providing FIU’s graduate students and faculty the opportunity to perform fundamental and applied research in high-pressure physics, high-pressure chemistry, and materials science.

Recent additions of a Hydrogen-Storage Materials Research Facility and a Microplasma Diamond Growing Laboratory, researcher can perform synthesis of novel materials for a variety of industrial applications.

Distributed Multimedia Information Systems Laboratory

Shu-Ching Chen, Director and Professor, School of Computing and Information Sciences

Another of our research efforts is the Distributed Multimedia Information System Laboratory (DMIS). It’s mission is to conduct leading edge research in multimedia database systems, data mining, networking and wireless, GIS and Intelligent Transportation Systems. Other research areas of this effort include Multimedia Communications and Networking, Digital Library, 3D Animation, and Distributed Computing.

Division of Corporate and Global Programs

Jainendra Nivlakha, Director

The Division of Corporate and Global Programs (DCGP) is the organization unit within the College of Engineering and Computing that is responsible for managing the engineering programs offered under the rubric of Executive Engineering Education. The DCGP is managed by a director reporting to the Dean of Engineering & Computing. The director and staff of the DCGP work with department chairs, center directors and faculty members to identify corporate and global partners; develop, promote and manage Executive Engineering Programs; and identify new opportunities and new markets for all programs that are offered by the College of Engineering. Various categories of programs in which the DCGP-division is involved include the following:

Global Programs

The global programs focus on the demonstrated education and training needs of selected industrial sector(s) in the host country. These programs are offered in collaboration with a sponsor which is a reputed university or institution that can support the delivery of the program by providing appropriate infrastructure facilities like classrooms, library and computer laboratories. The programs are designed in consultation with the faculty of the sponsor and the industry representatives in the host country. The goal of the global programs is to complement the existing academic programs offered by the sponsoring institution.
Global Programs

- Corporate Programs
- Certificate Programs
- Weekend Programs
- International Student Transfer Programs

The international student transfer program (Dual Degree Program) allows undergraduate students from foreign universities to complete approximately 75% of their curriculum at home institution and the remaining 25% at FIU, and receive their undergraduate degree from both institutions. An articulation agreement ascertain the student’s ability to transfer courses taken at home institution to FIU such that FIU’s core curriculum and other undergraduate program requirements are met.

Corporate Programs

The Corporate Programs are designed for an individual corporation leading to an academic degree, certificate or short-term executive development program. The programs are delivered on site and the program delivery is supported by providing infrastructure facilities. Corporate programs are designed to meet the specific educational and training needs of the corporate clients. Currently, we offer “Lean Six Sigma” certification program every semester, and are evaluating the feasibility of offering the “Black Belt” program in the future. We also offer “Nanotechnology Workshop” for our corporate clients.

Engineering Information Center (EIC)

Hernan Bormey, Director

Create a technology that will help save lives or create your own website, simulate an electronic circuit, design a bridge, or just browse the Internet. The possibilities are endless at the Engineering Information Center.

The EIC helps faculty, scientists, researchers, and students to conduct cutting edge research and work on system designs, networking, scientific visualization, 3D Modeling, simulations, virtual reality, computer animation, and other computer and software applications.

The Center manages an array of Novell, Windows, and UNIX network servers that provide faculty, staff and students with the capacity to share valuable resources; therefore, fostering an atmosphere where collaboration and instruction grow with a synergy that is unique. Beyond the college community, the EIC participates in sponsoring special outreach programs for the Miami-Dade County Public Schools by exposing young minds to latest technologies.

The EIC is also home to The Graphic Simulation Laboratory with focus on Scientific Visualization, 3D Computer Modeling, and Virtual Reality, which have helped researchers to develop a wide array of technologies, strategies, and information designs. GSL has collaborated with NASA, The Center for Super Computing Applications, National Science Foundation, Computational Science Institute, Shodor Organization, Macromedia, and Kellogg Foundation, just to mention a few. From hardware to software support to 3D modeling of a heart valve, the EIC delivers exceptional services with a personal touch.

Engineering Manufacturing Center (EMC)

Cesar Levy, Director, Chairperson and Professor, Mechanical and Materials Engineering
Mario Sanchez, Senior Engineer and Manager
Richard Zicarelli, Coordinator

The Engineering Manufacturing Center provides technical expertise in manufacturing to anyone in need of assistance. Typically the Center supports researchers, graduate and undergraduate students with projects requiring high-precision quality fabrication and requiring expert technical guidance. Undergraduate engineering students represent the largest group served. Students of all academic departments benefit directly through help with class projects, such as Senior Design (capstone) courses, critical components of all ABET accredited Engineering programs in the College. Other major undergraduate projects supported include the Mini-Baja, Mini-Submarine and Robot Competitions. Graduate students regularly request fabrication assistance with experimental devices, tools and fixtures. The Center’s main facility supports the College’s academic departments’ general fabrication needs, including equipment repair, assembly, fixturing, installation, etc. An auxiliary EMC-supervised machine shop is available for student hands-on project work.

The Center also provides technical services to the outside community such as entrepreneurial consulting in product design and development and sub-contract fabrication work. Companies served by the EMC range from entrepreneurial to the well-established, some of which include aerospace, automotive, marine, medical and consumer product manufacturers. The Center runs state-of-the-art CAD/CAM software and operates a diverse array of rapid prototyping equipment combined with CNC capabilities providing a wide variety of fabrication processes. In addition, the Center can perform inspection, measurement and reverse engineering capabilities through its automated measurement equipment.

For more information, contact the EMC by calling Mr. Richard Zicarelli (305-348-655) or Mr. Mario Sanchez (sanchezm@fiu.edu), or refer to the center’s website at http://www.eng.fiu.edu/emc/.

Eugenio Pino and Family Global Entrepreneurship Center

Alan L. Carsrud, Executive Director

The Eugenio Pino and Family Global Entrepreneurship Center at Florida International University, founded in 2003 with a grant from the Kauffman Foundation of Kansas City, facilitates all entrepreneurial activities at FIU. The Center provides campus-wide awareness of entrepreneurship as an approach to life that enhances and transcends traditional academic experiences. It is woven into the fabric of the university through entrepreneurial activities and courses across the university. The multi-dimensional nature of the Center allows it to address the unique entrepreneurial needs of one of the nation's largest ethnically diverse academic institutions, located in one of America’s most entrepreneurial and dynamic international cities, Miami. In 2004 the Center was named for Eugenio
FEEDS Programs

Mercy Rueda Schoot, Director

The Florida Engineering Education Delivery System (FEEDS) is a statewide distance learning system providing access to graduate and undergraduate level engineering courses and programs to individual students anywhere and anytime, whether it is at home or the workplace. Courses are delivered through one or more of the following methods: CD-Rom, streaming video over the Internet; and fully on-line.

FEEDS offers engineering students and professionals with work and family responsibilities the flexibility to take courses around their busy schedules. It also provides convenience to those who are not within driving distance of an academic institution. It allows them to continue their professional development, which plays an important role in the growth of high technology industries.

Currently, students can select the necessary courses from FIU via distance learning to obtain a Master’s degree in Civil Engineering, Environmental Engineering, Construction Management and Engineering Management and a bachelor’s degree in Construction Management.

A student taking a course through FEEDS must meet the same requirements as the student on campus and will earn the same credit as if he/she were to attend classes on campus. A student need not be enrolled in a graduate or undergraduate degree program in order to take a course. However, a student who intends to seek admission to a program should be aware that no more than six (6) graduate or fifteen (15) undergraduate credits are allowed to be transferred into a program.

High Performance Database Research Center

Naphtali Rishe, Director and Professor, School of Computing and Information Sciences

One of our research efforts is the High-Performance Database Research Center (HPDRC). HPDRC conducts research on such theoretical and applied issues as Internet-distributed heterogeneous databases, database design methodologies, database design tools, information analysis, multi-media databases, database languages, data compression, spatial databases, and data visualization. The Center also designs specific database systems for highly complex applications.

International Hurricane Research Center (IHRC)

Stephen P. Leatherman, Director
Kegi Zhang, Laboratory for Coastal Research, Co-Director
Shahid Hamid, Laboratory for Insurance, Financial and Economic Research, Director
Arindam Gan Chowdhury, Laboratory for Wind Engineering Research, Director and Assistant Professor, Civil and Environmental Engineering

Dario Moreno, Laboratory for Social Science Research, Director

Serving the state of Florida, the IHRC is a Type I interdisciplinary research center focused on the mitigation of hurricane damage to people, the economy, and the built and natural environments. This designation makes the IHRC Florida’s official hurricane research center for 11 universities comprising the state university system.

The citizens of the U.S. East and Gulf Coasts and Caribbean Islands are severely impacted by hurricanes, and IHRC promotes an interdisciplinary, large-scale disaster research agenda to address this vulnerability. Disciplines such as architecture, business, economics, engineering, finance, geosciences, insurance, political science, sociology, and urban planning are involved in a long-term, integrated research program that helps Florida, the nation, and its regional neighbors to mitigate hurricane exposure.

The Center developed as a result of a public-private partnership between the We Will Rebuild Foundation, an organization formed to spearhead the rebuilding of Dade County in 1992 after Hurricane Andrew, and FIU. The IHRC works in conjunction with the National Hurricane Center, which is also located at the FIU Modesto A. Maidique Campus in West Miami-Dade.

Lehman Center for Transportation Research (LCTR)

L. David Shen, P.E., T.E. Director and Professor, Civil and Environmental Engineering
Fang Zhao, P.E. Deputy Director, Interim Chair, and Professor, Civil and Environmental Engineering
Sylvan C. Jolibois, Jr., Deputy Director and Associate Professor, Civil and Environmental Engineering
Albert Gan, Deputy Director and Associate Professor, Civil and Environmental Engineering
Favian Cevallos, Transit Program Director

The Lehman Center for Transportation Research (LCTR) at Florida International University was established in 1993 in honor of Congressman Bill Lehman and his tireless efforts to make South Florida a better place for all of us. The center’s vision is to become a ‘state-of-the-art’ transportation research and training facility. LCTR is committed to serve and benefit our society by conducting research to improve mobility, hence the quality of life issues, develop partnerships in the transportation industry, and educate a multidisciplinary workforce to plan, design, manage and implement transportation systems.

Faculty, staff and students at LCTR are involved in research related to the planning, design, operation and maintenance of transportation systems, including intelligent transportation systems, public transportation, highway transportation, aviation, and freight; as well as public policy, air pollution, and the application of geographic information systems and other advanced technologies such as artificial neural networks and scientific visualization in transportation. Future plans include networking with the public and private industry to collaborate on transportation related research. In addition, applied research will be conducted on, but not limited to intelligent vehicle and highway systems.
Motorola Nanofabrication Research Facility

W. Kinzy Jones, Director and Professor, Mechanical and Materials Engineering
Neal Ricks, Lab Manager

The first centralized facility of its kind in Florida, the Motorola Nanofabrication Research Facility is an open-access initiative in support of nano-scale devices, systems and materials research that encompasses a broad range of technologies and capabilities. The facility provides nanofabrication, analytical instrumentation, materials characterization and process-development laboratories for students, faculty and industrial researchers. This $15 million Research Facility is an integral part of the Advanced Materials Engineering Research Institute (AMERI), FIU’s broader materials research program.

Harnessing the synergy inherent in the study and development of nanoscale technologies, the facility boasts:

- Specialized equipment required to develop new fabrication techniques unique to the creation of functional materials and devices that are no greater than 100 nanometers (1,000 times smaller than the diameter of a human hair);
- A full complement of standard semiconductor processing equipment to leverage the capabilities of robust and proven techniques; and
- State-of-the-art analytical tools to study, and characterize these nano-sized devices, as well as the materials and processes used to make them.

The Nanotechnology Faculty Team

Arvind Agarwal, Associate Professor, Mechanical and Materials Engineering
Wonbong Choi, Associate Professor, Mechanical and Materials Engineering
George Dulikravich, Professor, Mechanical and Materials Engineering
Grover Larkins, Professor, Electrical and Computer Engineering
Watson Lees, Associate Professor, Chemistry
Chenzhong Li, Assistant Professor, Biomedical Engineering
Wenzhi Li, Assistant Professor, Physics
Anthony McGoron, Associate Professor and Interim Chair, Biomedical Engineering
Roberto Panepucci, Assistant Professor, Electrical and Computer Engineering
Surendra Saxena, Professor, Mechanical and Materials Engineering
Frank Urban, Associate Professor, Electrical and Computer Engineering
Yuriy Vlasov, Research Engineer
Chunlei (Peggy) Wang, Associate Professor, Mechanical and Materials Engineering

Structures and Construction Laboratory

Amir Mirmiran, Director and Dean
Nakin Suksawang, Deputy Director
Edgar Polo, Lab Manager

Structures and Construction Laboratory (SCL) is established to provide hands-on educational experience for students; to research and development of innovative hurricane-resistant and durable construction materials, structural systems and components; to serve the construction industry; to contribute to the engineering community in South Florida, and to advance the safety, durability, and economy of our civil infrastructure.

The Structures and Construction Laboratory was built through the help of a consortium of 21 industry partners who donated materials, services, and cash in excess of $250,000. It is one of the largest facilities in the State of Florida and is equipped with a full-scale structural testing system (FSST). The FSST consists of a 15 ft tall testing frame that stands above a 35 ft × 65 ft strong concrete floor with 4 ft thickness and 100,000 lbs capacity tie-downs on a 3 ft × 6 ft pattern. The steel frame is capable of testing full-scale structural members, such as a 65 ft bridge girder. The applied load is replicated using a fatigue rated tension/compression actuator that is capable of performing cyclic loading. In addition to the FSST, the SCL is also equipped with other material testing systems, including a universal testing machine, compression machine, and small-scale load frames.

Telecommunications and Information Technology Institute

Niki Pissinou, Director and Professor, School of Computing and Information Sciences

Florida International University (FIU) recognizes the need to nurture highly trained personnel for the nation’s industry and business, develop research to support the rapidly expanding high-tech industry and become proactive in technology transfer. Thus, ensuring continued economic growth and prosperity. In order to fully meet today’s technological demands, FIU has established the Telecommunications and Information Technology Institute (IT²). IT² promotes advanced multi-disciplinary education and research focused on telecommunications and information technologies. IT²’s mission is to:

1) Deliver high quality telecommunications and information technology education and training.
2) Conduct and promote research to enhance Florida’s role as a leader in telecommunications and information technology.
3) Offer training that is needed to foster business development and workforce preparedness.
4) Promote technology transfer to enhance the enabling technologies of the telecommunication and information technology industries.

In fulfilling its mission, IT² promotes multidisciplinary collaboration and serves as the catalyst to promote intellectual cross-fertilization among disciplines. This effort results in the synergistic enhancement of teaching and research, so critical in the telecommunications and information technology fields, where disciplinary barriers are falling and lines are blurred. An objective of the Institute is to infuse telecommunications and information technology content into the curriculum at all appropriate levels. To fill the urgent demand of industry, the institute is developing interdisciplinary telecommunication programs that provide certificate programs, Bachelors, Masters and Ph.D. degrees.

IT² constitutes an infrastructure that is viable for cutting edge research activities. Researchers at the institute
conduct funded research and development targeted at solving complex problems conducive to the early identification of high impact opportunities. Of particular importance to the institute’s research efforts is the emerging global wireless, optical and personal communications infrastructure and the ability to represent, store and access information to perform a variety of information related tasks. To provide an effective forum for original research results and to foster communication among researchers industry leaders can collaborate on education, training, and re-engineering the telecommunications workforce of the future. The alliance provides effective ways to educate the workforce of the 21st century. In accordance, the institute provides technical assistance and applied research services to transfer acquired knowledge and technologies to the commercial sector. The IT² team can work with industrial organizations to tap into some technological innovation that drive the industry to its strategic advantage. For more information, contact Dr. Niki Pissinou, the director of the Telecommunications and Information Technology Institute, at (305) 348-3987 or visit our website at www.it2.fiu.edu.

Prasanna Jayakar, Research Professor, Miami Children’s Hospital
Chenzhong Li, Assistant Professor
Wei-Chiang Lin, Associate Professor and Graduate Program Director
Anthony McGoron, Associate Professor and Undergraduate Program Director
Sharan Ramaswamy, Assistant Professor
Nikolaos Tsoukias, Associate Professor

The mission of the Department of Biomedical Engineering is to integrate academia, clinical medicine, and the biomedical industry:

- In the education and training of the next generation of biomedical engineers;
- In research and development activities leading to innovations in medical technology;
- In transfer of that medical technology to commercialization and clinical implementation; and
- In the continuing development of biomedical engineering as a profession, its impact on the delivery of health care, and its role in the sustainability and growth of the local and national economies.

The Department of Biomedical Engineering at Florida International University offers a curriculum designed to give the student a thorough understanding of the basic laws of science and simultaneously to stimulate and develop creative and innovative thinking, a professional attitude, economic judgment, and environmental consciousness. The aim is to develop the student’s potential to the fullest, to prepare the student for superior performance as a biomedical engineer, and to provide the student with the fundamental principles necessary for pursuing advanced study in the diverse fields of engineering, science, and business.

The undergraduate Biomedical Engineering Program at FIU provides an education that is at the interface of engineering and biology, with an emphasis on engineering living systems down to the cellular and molecular levels, and adequately prepares graduates for a wide range of career opportunities.

The objectives of the undergraduate Biomedical Engineering Program at FIU are the following:

1. To produce graduates that continue in one or both of the following:
   a. Advanced study in engineering, medicine, or the sciences
   b. Professional practice as a biomedical engineer in industry
2. To produce graduates whose careers demonstrate proficiency in one or more of the following:
   a. Clinical application of biomedical engineering tools
   b. Product development, manufacturing, and commercialization in the biomedical industry
   c. Participation in diverse teams
   d. Biomedical engineering research
3. To produce graduates who have a proper sense of professional responsibilities, service to community, leadership, ethics, and means of effective communication.

Bachelor of Science in Biomedical Engineering

Degree Program Hours: 128

¹OR MACX281, MACX282, MACX283
²OR CHSX440 Chemistry for Engineers

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: [http://facts.org](http://facts.org), See Common Prerequisite Manual.

Common Prerequisites

MAC 2311   Calculus I
MAC 2312   Calculus II
MAC 2313   Multivariable Calculus
MAP 2302   Differential Equations
PHY 2048   Physics I w/ Calc
PHY 2048L  General Physics I Lab
PHY 2049   Physics II w/ Calc
PHY 2049L  General Physics II Lab
CHM 1045   General Chemistry I
CHM 1045L  Gen Chem I Lab
CHM 1046   General Chemistry II
CHM 1046L  Gen Chem II Lab
BSC 1010   General Biology I
BSC 1010L  Gen Biology I Lab
CHM 2210   Organic Chemistry I
CHM 2210L  Organic Chemistry I Lab
CHM 2211   Organic Chemistry II
CHM 2211L  Organic Chemistry II Lab
Lower Division Preparation
Lower division requirements include at least 60 hours of pre-engineering credits (see the Undergraduate Studies portion of this catalog for specific requirements). These courses include the common prerequisites listed above. A minimum grade of “C” is required in all writing courses, and in all of the common prerequisite courses listed above. In addition, a minimum GPA of 2.5 is required for all of the common prerequisite courses listed above.

In addition, all students must meet the University Foreign Language Requirement, must achieve the competencies of the CLAS requirement, and must meet all of the state and university requirements for graduation.

Biomedical Engineering Curriculum
The BS curriculum weaves a strong life science foundation with multidisciplinary engineering fundamentals, towards an emphasis, at the advanced stages of the curriculum, of engineering living systems at the tissue, cellular and molecular level.

Life Science Courses
BCH 3033 General Biochemistry
BCH 3033L General Biochemistry Lab

Biomedical Engineering Courses
EGN 1100 Intro to Engineering 2
STA 3033 Intro Probability Statistics 3
EIN 3235 Evaluation of Engineering Data 3
BME 2740 BME Modeling and Simulation 3
BME 3721 BME Data Evaluation Principles 3
BME 3403 Eng Analysis Biological Systems I 3
BME 3404 Eng Analysis Biological Systems II 3
EEL 3110 Circuit Analysis 3
EEL 3110L Circuits Lab 1
EGM 3503 Applied Mechanics 4
BME 3632 BME Transport 3
BME 4011 Clinical Rotations 1
BME 4050L BME Lab I 1
BME 4051L BME Lab II 1
BME 4100 Biomaterials Science 3
BME 4332 Cell and Tissue Engineering 3
EEL 4202C Med Instrument Design 4
BME 4800 Design Biomedical Systems and Devices 3
BME 4900 Design Project Organization 1
BME 4908 Senior Design Project 3
BME 4930 Undergraduate Seminar 0
BME electives (4 courses) 12

Students must maintain a cumulative GPA of at least 2.0 in all Biomedical Engineering courses.

Biomedical Engineering Program Requirements - Freshman to Senior

First Semester: (17)
MAC 2311 Calculus I 4
CHM 1045 General Chemistry I 3
CHM 1045L General Chemistry I Lab 1
ENC 1101 Writing and Rhetoric I 3
EIN 1100 Intro to Engineering 2
SLS 1501 Freshman Experience 1
Societies and Identities 3

Second Semester: (18)
MAC 2312 Calculus II 4
CHM 1046 General Chemistry II 3
CHM 1046L General Chemistry II Lab 1
PHY 2048 General Physics I Lab 1
ENC 1102 Writing and Rhetoric II 3
Art 3

Third Semester: (16)
MAC 2313 Multi-variable Calculus 4
CHM 2210 Organic Chemistry I 3
CHM 2210L Organic Chemistry I Lab 1
BSC 1010 General Biology I 3
BSC 1010L Gen Biology I Lab 1
PHY 2049 Physics II w/ Calc 3
PHY 2049L Physics II Lab 1

Fourth Semester: (16)
MAP 2302 Differential Equations 3
STA 3033 Intro Probability Statistics 3
CHM 2211 Organic Chemistry II 3
CHM 2211L Organic Chemistry II Lab 1
BME 2740 BME Modeling & Simulation 3
Humanities 3

Fifth Semester: (17)
BCH 3033 General Biochemistry 3
BCH 3033L Gen Biochemistry Lab 1
BME 3721 BME Data Evaluation Principles 3
BME 3403 Eng Analysis Biological Systems I 3
EEL 3110 Circuit Analysis 3
EEL 3110L Circuits Lab 1
Foundations of Social Inquiry 3

Sixth Semester: (15)
BME 3404 Eng Analysis Biological Systems II 3
EGM 3503 Applied Mechanics 4
EEE 4202C Medical Inst Design 4
BME 4011 Clinical Rotations 1
BME Elective 3

Seventh Semester: (17)
BME 4050L BME Lab I 1
BME 3632 BME Transport 3
BME 4100 Biomaterials Science 3
BME 4090 Design Project Organization 1
BME 4800 Design Biomedical Systems and Devices 3
BME Elective 3
Humanities/Historical 3

Eighth Semester: (13)
BME 4051L Biomed Lab II 1
BME 4908 Senior Design Project 3
BME 4332 Cell & Tissue Engineering 3
BME Elective 3
BME Elective 3
BME 4930 Undergraduate Seminar 0

Minor in Biomedical Engineering
The minor requires 21 credit hours consisting of the following courses:
BSC 1010 General Biology I 3
BSC 1010L General Biology I Lab 1
BME 3403 Eng Analysis Biological Systems I 3
BME 3404 Eng Analysis Biological Systems II 3
BME 4011 Clinical Rotations I 1
EEE 4202C Med Instrumentation Design 4
BME 4800 Design Biomedical Systems and Devices 3
Biomedical Engineering Elective 3

Students majoring in electrical or mechanical engineering may apply the Minor towards a five-year accelerated combined degree program with the Master's degree in biomedical engineering.

Minor in Biomedical Engineering for Non-Engineering Majors

This minor program is designed for students who desire skills in addition to those developed in the basic sciences and is especially intended for biology and chemistry majors.

For admission to the minor, students need (1) To be fully admitted to their major; (2) To have a GPA ≥ 3.0.

To successfully complete the minor, a grade of “C” or better is required in all courses. The minor requires a minimum of 22 credit hours consisting of the following courses:

- MAC 2313 Multivariable Calculus
- MAP 3202 Differential Equations
- BME 3404 Engineering Analysis of Biological Systems II
- EGM 3503 Applied Mechanics
- BME 3632 BME Transport
- 2 BME Electives

Electives: The electives allow for the student to tailor their emphasis of study and must be one of the following two-course sequences:

- EEL 3110 Circuit Analysis
- EEE 4202C Med Instrumentation Design
- or
- BME 4100 Biomaterials Science
- and
- BME 4332 Cell and Tissue Engineering

Five Year Accelerated Combined BS/MS Degree Programs

This five-year program seamlessly combines a baccalaureate degree in biomedical, mechanical or electrical engineering with the Master's in biomedical engineering. To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships.

Students enrolled in the combined degree program could count up to three BME graduate courses for both the BSBME electives and the MSEM electives, for a total saving of 9 credit hours. The following is a list of eligible BME graduate courses:

- BME 5005 Applied Biomedical Engineering Principles 3
- BME 5036 Biotransport Processes 3
- BME 5105 Intermediate Biomaterials Science 3
- BME 5316 Molecular Bioprocess Engineering 3
- BME 5340 Introduction to Cardiovascular Engineering 3
- BME 5560 Biomedical Engineering Optics 3
- BME 5573 Nanomedicine 3

The combined BSBME/MSEM program has been designed to be a continuous program. During this combined BSBME/MSEM program, upon completion of all the requirements of the BSBME program, students will receive their BSBME degree. Students may elect to permanently leave the combined program and earn only the BSBME degree. Students who elect to leave the
combined program and earn only the BS degree will have the same access requirements to regular graduate programs as any other student, but will not be able to use the 9 credit hours in both the BS-BME and MSEM degrees.

For each of the graduate courses counted as credits for both BS-BME and MSEM degrees, a minimum grade of "B" is required. Only graduate courses with formal lecture can be counted for both degrees. The students are responsible for confirming the eligibility of each course with their undergraduate advisors.

Students interested in the combined program should consult with their undergraduate advisor on their eligibility to the program. The student should also meet the MSEM Program Director to learn about the graduate program and available tracks/courses before completing the application form and submitting it to their undergraduate advisor. Final decision for admission to the MSEM program will be made by the University Graduate School upon recommendations by the Engineering Management program director. Applicants will be notified by the Engineering Management Program and the University Graduate School of the decision on their applications.

### Course Descriptions

#### Definition of Prefixes

BME-Biomedical Engineering; EEE-Engineering: Electrical and Electronics; EEL-Electrical Engineering

**BME 2740 Biomedical Engineering Modeling and Simulation (3).** Computer modeling of biomedical applications. Extensive use of Matlab and Simulink for modeling and analysis of biomedical phenomena. Prerequisite: BSC 1010 (with a grade of “C” or better). Corequisites: MAP 2302, (EGN 1002 or EGN 1100).

**BME 3403 Engineering Analysis of Biological Systems I (3).** A quantitative, model approach to physiological systems at the cellular and tissue level. Thermodynamic, biochemical and biophysical principles of the cell, general system anatomy and functionality. Prerequisites: BME 2740, PHY 2049 (with a grade of “C” or better). Corequisites: (BCH 3033 or CHM 4304).

**BME 3404 Engineering Analysis of Biological Systems II (3).** Quantitative description of physiological systems at the integrative systems level. Includes engineering analysis relating design to organ function. Prerequisite: BME 3403, (BCH 3033 or CHM 4304).

**BME 3632 Biomedical Engineering Transport (3).** Basic principles of heat, mass, and fluid transport. Derivation of basic equations, and simplification techniques. Applications to physiological systems, artificial organs, and pharmacokinetics. Prerequisites: BME 2740, EGM 3503, CHM 1046 (with a grade of “C” or better), MAP 2302 (with a grade of “C” or better), PHY 2049 (with a grade of “C” or better). Corequisite: MAC 2313.

**BME 3721 Biomedical Engineering Data Evaluation Principles (3).** Design and analysis of clinical and biomedical experiments. Statistical process control and measuring performance relevant to medical device industry. Prerequisites: (STA 3033 or EIN 3235).

**BME 4007 Principles of Bioengineering – GL (3).** Medical instrumentation and design, regulations for medical devices, application of computers in medicine, biomaterials, biocommunications, artificial implants; clinical engineering. Prerequisites: BME 3403 or permission of the instructor.

**BME 4011 Clinical Rotations for Biomedical Engineering (1).** Observational and participatory rotations through various divisions and laboratories at BME’s clinical partners. Prerequisites: BME 3403 or permission of the instructor. Corequisites: EEE 4202C, BME 4304.

**BME 4050L Biomedical Engineering Lab I (1).** Design, implementation and analysis of biomedical experiments, including biomechanics, tissue mechanics, fluid transport, cardiovascular hemodynamics and materials for artificial organs and implants. Prerequisites: BME 3721, EEL 3003 or EEL 3110. Corequisites: BME 3632, BME 4100.

**BME 4051L Biomedical Engineering Lab II (1).** Design, implementation and analysis of biomedical experiments, including bio-signal data acquisition, processing and analysis, mass transport and medical image processing and interpretation. Prerequisites: BME 3721, EEL 3003 or EEL 3110, BME 3404. Corequisite: BME 3632.

**BME 4090 Design Project Organization (1).** Organization for capstone project, project feasibility study, proposal writing, oral communications, professional ethics, project management. Prerequisite: EEE 4202C. Corequisite: BME 4800.

**BME 4100 Biomaterials Science (3).** Materials used in prosthesis for skin and soft tissue, vascular implant devices, bone repair, and artificial joints. Structure-property relationships for biological tissue. Prerequisite: EGM 3503. Corequisite: BME 3404.

**BME 4211 Orthopedic Biomechanics (3).** Introduction to the fundamentals of human musculoskeletal physiology and anatomy and computation of mechanical forces as it applies to orthopaedic biomechanics. Prerequisite: BME 4100.

**BME 4230 Biomechanics of Cardiovascular Systems (3).** Functional cardiovascular physiology and anatomy; analysis and computation of cardiovascular flow; constitutive properties of tissue; coronary and systemic circulation; flow and stress considerations in cardiovascular assist devices. Prerequisites: BME 3632, BME 3404, and BME 4100.

**BME 4260 Engineering Hemodynamics (3).** Fluid mechanics of the circulatory system, rheology of blood, lubrication mechanics. Prerequisites: BME 3632, BME 3404.

**BME 4311 Molecular Engineering (3).** An introductory biochemical engineering course addressing the use of enzyme kinetics, bioreactors, bioseparations and bioprocessing in the biomedical, biopharmaceutical, and biotechnology industries. Prerequisites: BCH 3033, BME 3632.

**BME 4332 Cell and Tissue Engineering (3).** Physiology of cell growth and in vitro cultivation with basic techniques in biotechnology. Analysis of fundamental processes and engineering approaches on in vitro models for tissue growth. Prerequisites: MAC 2313 (with a grade of “C” or better), BME 3632, BME 4100.
BME 4531 Medical Imaging (3). Fundamentals of major imaging modalities including x-ray radiology, x-ray computed tomography, ultrasonography, magnetic resonance imaging, nuclear imaging (PET and SPECT), and optical imaging. Prerequisites: PHY 2049 and BME 2740.

BME 4562 Introduction to Biomedical Engineering Principles (3). Fundamentals of biomedical optics, covering optical spectroscopy, polarimetry, and interferometry. Engineering principles used in optical diagnostics, biosensing and therapeutics. Prerequisites: PHY 2049 and BME 3403.

BME 4730 Analysis of Self-Regulation and Homeostasis in Biosystems (3). Application of quantitative analysis methods to the study of self regulation processes that result in homeostatic conditions in biosystems with special emphasis on processes found in the human body. Prerequisites: BME 3404, EEE 4202C.

BME 4800 Design of Biomedical Systems and Devices (3). Mechanical design and material choices of various biomedical systems and devices such as cardiovascular assist devices, total artificial heart, pulmonary assist devices, total hip prosthesis and other orthopedic devices. Prerequisites: BME 3721, BME 4011. Corequisite: BME 3632.

BME 4908 Senior Design Project (3). Customer needs; design requirements; biocompatibility; regulatory, ethical, societal, and environmental considerations; creativity; project management; prototype construction and testing; final report and presentation. Prerequisite: BME 4090.

BME 4912 Undergraduate Research in Biomedical Engineering (1-3). Participate in supervised research activities on current biomedical engineering topics under the direction of a BME faculty member.

BME 4930 Undergraduate Seminar (0). The course consists of oral presentations made by guests, faculty and students on current topics and research activities in Biomedical Engineering.

BME 4931 BME Special Topics/Projects (1-3). Individual conferences, assigned readings, and reports on independent investigations selected by students and professor with approval of the advisor. Prerequisite: Permission of the instructor.

BME 4949 Biomedical Engineering CO-OP (1-3). Engineering practice in biomedical applications at an industrial partner's site. Intern will be hired through a cooperative agreement to conduct collaborative research with supervision of advisor.

BME 5005 Applied Biomedical Engineering Principles (3). Biomedical engineering applications to instrumentation, transport phenomena, mechanics, materials and imaging. Prerequisite: Permission of the instructor.

BME 5105 Intermediate Biomaterials Science (3). Materials used in prosthesis for skin and soft tissue, vascular implant devices, bone repair, and artificial joints. Structure-property relationships for biological tissue. Prerequisite: Permission of the instructor.

BME 5316 Molecular Bioprocess Engineering (3). Use of enzyme kinetics, bioreactor design, bioseparations and bioprocessing in the biomedical, biopharmaceutical, and biotechnology industries. Prerequisites: BCH 3033, BME 3632.

BME 5340 Introduction to Cardiovascular Engineering (3). Quantitative cardiovascular physiology, engineering applied to cardiovascular system: mechanics, materials, transport, and design.

BME 5350 Radiological Engineering and Clinical Dosimetry (3). Quantities for describing the interaction of radiation fields with biological systems. Absorption of radiant energy by biological systems. Applications to clinical dosimetry and radiation safety procedures. Prerequisite: Permission of the instructor.

BME 5358L Clinical Rotation in Radiation Oncology (3). Practical calibration of radiation therapy instruments, dose calculation and planning of radiation treatment under supervision of certified medical physicist. Prerequisite: BME 5505C.

BME 5505C Engineering Foundation of Medical Imaging Instrument (3). Engineering basis of medical imaging systems, including radiology, X-Ray CT, SPECT, PET, MRI, and laser and ultrasound based imaging, as well as instrument quality assurance procedures. Prerequisite: Permission of the instructor.

BME 5560 Biomedical Engineering Optics (3). Introduction to physical and geometrical optics of biomedical optical devices. Design of optical microscopes, endoscopes, fiber optic delivery systems, spectrometers, fluorometers, and cytometers. Prerequisites: Calculus, Differential Equations, Chemistry, and Physics.

BME 5573 Nanomedicine (3). Nano-scale tools and nanomaterials that result in new medical products and applications with special emphasis on imaging, diagnosis, drug delivery, regenerative medicine as well as new biomaterials. Prerequisites: BME 5105 or permission of the instructor.

BME 5726 Protein Engineering (3). Cloning, expressing and purifying proteins, and E. coli and yeast expression systems. Design of proteins for specific end uses. Prerequisite: Permission of the instructor.

BME 5731 Analysis of Physiological Control Systems (3). Quantitative analysis methods and modeling of the self-regulation processes that result in homeostatic conditions in physiological systems with special emphasis on processes found in the human body. Prerequisites: Permission of the instructor, EEL 3003 or EEL 3110, BME 3404.

BME 5803 Biomedical Device Design and Ethics (3). User inputs; regulatory, ethical, societal, and environmental considerations; creativity; project management; prototype construction and testing; project feasibility; writing and oral communication. Prerequisite: Permission of the instructor.
BME 5941 Biomedical Engineering Internship (1-3).
Engineering practice in biomedical applications at an
industrial partner's site. Intern will be hired through
cooperative agreement to conduct collaborative research
with supervision of advisor.

EEE 4202C Medical Instrumentation Design (4).
Concepts of transducers and instrumentation systems;
origins of biopotentials; electrical safety; therapeutic and
prosthetic devices. Prerequisites: EEL 3003 or EEL 3110
or EEL 3111.

EEE 5261 Bioelectrical Models (3). Engineering models
for electrical behavior of nerve and muscle cells,
electrode-tissue junctions, volume conduction in tissue
and the nervous system as an electrical network.
Prerequisites: EEE 4202C or permission of the instructor.

EEE 5275 Bioradiation Engineering (3). Spectrum of
radiation sources, types of fields, properties of living
tissue, mechanisms of field propagation in tissue.
Applications in imaging and therapy, hazards and safety.
Prerequisites: EEL 4410 or permission of the instructor.

EEL 4510 Introduction to Digital Signal Processing (3).
effects of finite register length in digital filters. Engineering
applications of digital filters. Prerequisites: EEL 3514 or
permission of the instructor. Corequisites: EEE 4314 or
permission of the instructor.

EEL 5820 Digital Image Processing (3). Image
Fundamentals, Image Transforms, Image Enhancement,
Edge Detection, Image Segmentation, Texture Analysis,
Image Restoration, and Image Compression.
Prerequisites: EEL 3135 and knowledge of any
programming language (FORTRAN, Pascal, C). (F)
Civil and Environmental Engineering

Atorod Azizinamini, Ph.D., P.E., Professor and Chair
Caesar Abi Shdid, Ph.D., P.E., Senior Instructor and Director of External Programs
Anna Bernardo Bricker, Ph.D., Instructor and Environmental Lab Manager

L. David Shen, Ph.D., P.E., T.E., Professor, Director

Civil and Environmental Engineering Mission Statement

The mission of the Department of Civil & Environmental Engineering (CEE) is to teach, conduct research and serve the community through professional development and technology transfer. The CEE pursues excellent teaching by providing quality education that will enable its graduates to demonstrate their technical proficiency, their ability to communicate effectively, their responsible citizenship, their lifelong learning, and their ethical behavior in their career and professional practice. The CEE also encourages activities that enrich the student potential for career and professional achievement and leadership. The CEE is committed to providing graduates who improve the quality of life, meet the needs of industry and government, and contribute to the economic competitiveness of Florida and the nation. The CEE strives to attain a level of research and scholarly productivity befitting a major research university and warranting national and international recognition for excellence.

Bachelor of Science in Civil Engineering

Program Educational Objectives

The Department of Civil and Environmental Engineering of Florida International University offers the Program in Civil Engineering with three main objectives that broadly describe the professional and career accomplishments that our graduates are prepared to achieve. These three objectives are:

Objective 1:
Graduates will obtain jobs for which a civil engineering degree is used or required, or enter graduate study.

Objective 2:
Within the first years of graduation, graduates will make progress towards obtaining professional registration, special licensing, or certification.

Objective 3:
Graduates will update and expand their knowledge through practice, educational venues or graduate study.

Degree Program Hours: Minimum 129

The Civil Engineering curriculum provides a program of interrelated technical areas of Civil Engineering with their fundamental core subjects of the engineering program. The technical interdisciplinary courses are in the areas of construction, geotechnical, environmental, structural, surveying, transportation, and water resources engineering.

Civil engineers play an essential role in serving people and the environmental needs of society. These needs relate to shelter, mobility, water, air and development of land and physical facilities.

The academic program is designed to meet the State of Florida’s articulation policy as well as to satisfy criteria outlined by the Accreditation Board for Engineering and Technology (ABET), among others.

Lower Division Preparation

To qualify for admission to the upper division program, FIU undergraduates must have met all the lower division requirements (see the Undergraduate Studies portion of this catalog for specific requirements) including completion of at least 60 semester hours of pre-engineering courses which include Engineering Drawing (required unless previously taken and does not count towards the 129 credits required for graduation), Computer Tools for CE, Calculus I & II, Multivariable Calculus, Differential Equations, Chemistry I & II and Labs, Physics I with Calculus and Lab, Physics II with Calculus, and Introduction to Earth Sciences and Lab, all with a grade of ‘C’ or better. See the example semester by semester program in the following pages.

Effective pursuit of engineering studies requires careful attention to both the sequence and the type of courses taken. It is therefore important, and the college requires, that each student plan a curriculum with the departmental faculty advisor. All students must comply with the University Core Curriculum Requirements for the University as well as comply with departmental requirements for Social Science, Humanities, Arts and English. Students may find that some courses satisfy both requirements; therefore, it is important to contact the department advisor for assistance. The department requires a minimum of 15 semester hours in the area of Humanities, Arts and Social Science. The student should refer to the semester by semester program for a list of approved courses. Requirements also include Engineering Drawing with CAD application (unless previously taken), Engineering Economy and Ethics and Legal Aspects. All transfer students should refer to the General Information section of this catalog to determine if they have met the requirements for Humanities, Social Science, and English at their previous institution. Students who transfer from a State of Florida community college with an Associate of Arts degree must fulfill departmental requirements for Social Science, Arts and Humanities.

A minimum grade of ‘C’ is required in all writing, physics, chemistry, and mathematics courses.

A minimum grade of ‘C’ is required of all Civil Engineering courses and prerequisite courses.

Students who have been dismissed for the first time from the University due to low grades may appeal to the Dean for reinstatement. A second dismissal will result in no possibility of reinstatement.

Other Requirements

Students must achieve the competencies of the CLAS requirement, must have a minimum 2.0 GPA, must complete all required classes, and must otherwise meet all of the state and university requirements in order to graduate.

Students who enter the university with fewer than 60 transferred credits must take 9 summer credits. Refer to the appropriate sections in the Catalog’s for more information.

Courses are to be taken in the proper sequence. Any course taken without the required prerequisites and corequisites will be dropped automatically before the end of the term, resulting in a ‘DR’ or ‘DF’.

Upper Division Course Objectives

The program of study encourages the development of a broadly educated civil engineering graduate, who can succeed as a productive engineer with continued professional growth. The courses listed as requirements for the BS degree not only provide the students with mathematical and scientific knowledge, but also include other essential areas necessary for a successful engineering career. The courses have been designed to increase student competence in written and oral communication skills as well as to develop critical thinking and creative problem solving strategies. Course projects are designed to teach engineering science fundamentals and their applications while providing enriching opportunities for laboratory and computer-based experiences. Furthermore, students are supplied with an understanding of the economic, social, ethical and professional responsibilities of engineers in our society and are encouraged to include sustainable development in all project designs.

Foreign Language Requirement

Students must meet the University Foreign Language Requirement. Refer to the appropriate sections in the Catalog’s General Information for Admission and Registration and Records.

Upper Division Program

The basic upper division requirements for the BSCE degree are as follows:

**Applied Mathematics** (3)
- STA 3033 Intro to Probability and Statistics 3
  or
- EIN 3235 Evaluation of Engineering Data 3

**Engineering Sciences** (17)
- CWR 3201 Fluid Mechanics 3
- CWR 3201L Fluid Mechanics Laboratory 1
- EEL 3003 Electrical Engineering I (Non EE) 3
- EGM 3520 Engineering Mechanics of Materials 3
- EGM 3520L Materials Testing Lab 1

Note: Students may be eligible to select some graduate level civil engineering technical electives as approved by the instructor and the undergraduate advisor.

### Professional Graduation Requirement

Civil Engineering students must take and pass CGN 4980 (FE Seminar). Transfer students, or students holding an engineering degree or its equivalent, showing evidence of passing the state FE (EIT) examination will have this requirement waived.

### Civil Engineering Program

Students may have a different sequence of courses as arranged with their advisor. For complete program information, students should refer to the Program Summary Sheet available at the Department.

<td>3</td>
</tr>
<tr>
<td>CES 5715</td>
<td>Prestressed Concrete Design</td>
<td>3</td>
</tr>
<tr>
<td>CES 5587</td>
<td>Topics in Wind Engineering</td>
<td>3</td>
</tr>
<tr>
<td>EGM 5421</td>
<td>Structural Dynamics</td>
<td>3</td>
</tr>
</tbody>
</table>
Suggested Electives for Water Resources Engineering Option**
CWR 5235 Open Channel Hydraulics 3
CWR 5251 Environmental Hydraulics 3
ENV 4401 Water Supply Engineering 3

Suggested Electives for Geotechnical Engineering Option**
CEG 4012 Geotechnical Engineering II 4
CEG 4126 Fundamentals of Pavement Design 3
CEG 5065 Geotechnical Dynamics 3

Suggested Electives for Environmental Engineering Option**
ENV 4101 Elements of Atmospheric Pollution 3
ENV 4330 Hazardous Waste Site Assessment 3
ENV 4351 Solid and Hazardous Waste Management 3
ENV 4401 Water Supply Engineering 3
ENV 4513 Chemistry for Environmental Engineers 3
ENV 4551 Sewerage and Wastewater Treatment 3

Suggested Electives for Construction Engineering Option**
CCE 4001 Heavy Construction 3
CGN 4930 Special Topics in Civil Engineering 1-4
CCE 5035 Construction Engineering Management 3
CCE 5036 Adv Project Planning for Civil Engineers 3
CCE 5505 Computer integrated Construction Engineering 3

Suggested Electives for Transportation Engineering Option**
CGN 4321 GIS Applications in Civil & Environmental Engineering 3
TTE 4203 Highway Capacity Analysis 3
TTE 4804 Geometric Design of Highways 3
TTE 5007 Transportation Systems in Developing Nations 3
TTE 5215 Fundamentals of Traffic Engineering 3

**All recommended and other technical electives must be approved by the advisor and must concentrate on relevant applications of civil engineering design. Selection of a proper sequence would allow the student to specialize within a focus area of interest (e.g., structural, geotechnical, construction, water, environmental, or transportation).

Bachelor of Science in Environmental Engineering
Program Educational Objectives
The Department of Civil and Environmental Engineering of Florida International University offers the Program in Environmental Engineering with three main objectives that broadly describe the professional and career accomplishments that our graduates are prepared to achieve. These three objectives are:

Objective 1: Graduates will obtain jobs for which an environmental engineering degree is used or required, or enter graduate study.

Objective 2: Within the first years of graduation, graduates will make progress towards obtaining professional registration, special licensing, or certification.

Objective 3: Graduates will update and expand their knowledge through practice, educational venues or graduate study.

¹PHYX049L does not count toward the degree at FIU.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: [http://facts.org](http://facts.org), See Common Prerequisite Manual.

Common Prerequisites

- CHM 1045 General Chemistry I
- CHM 1045L General Chemistry Lab I
- CHM 1046 General Chemistry II
- CHM 1046L General Chemistry Lab II
- MAC 2311 Calculus I
- MAC 2312 Calculus II
- MAC 2313 Multivariable Calculus
- MAP 2302 Differential Equations
- PHY 2048 Physics with Calculus
- PHY 2048L General Physics Lab I
- PHY 2049 Physics with Calculus II

Additional lower-division courses required for the degree:

- BSC 1010 General Biology I
- BSC 1010L General Biology Lab I

Degree Program Hours: 127

The Environmental Engineering curriculum provides a background of interrelated subdisciplines of Environmental Engineering and related science subjects with the fundamental core subjects of the engineering program. The technical interdisciplinary courses are in the areas of biology, geology, chemistry, ecology, atmospheric sciences, geotechnical engineering, urban planning, water resources engineering, pollution prevention and waste management. Environmental engineers play an essential role in serving people and the environmental needs of
society. These needs relate to water, air and development of land and physical facilities.

The academic program is designed to meet the State of Florida's articulation policy as well as to satisfy criteria outlined by the Accreditation Board for Engineering and Technology (ABET).

Lower Division Preparation

The lower division requirements include at least 60 semester hours of pre-engineering courses (as specified in the Undergraduate Studies portion of the University catalog) which include the common prerequisites listed above, Engineering Drawing (required unless previously taken and does not count towards the 127 credits required for graduation), and Computer Tools for CE.

All students must comply with the University Core Curriculum Requirements for the University as well as comply with departmental requirements for Social Science, Humanities, Arts and English. Students may find that some courses satisfy both requirements; therefore it is important to contact the department advisor for assistance. The department requires a minimum of 15 semester hours in the area of Humanities, Arts and Social Science.

A minimum grade of ‘C’ is required in all writing courses, physics, chemistry, biology, and mathematics courses. A minimum grade of ‘C’ is required of all Environmental Engineering courses and prerequisite courses.

In addition, all students must meet the University Foreign Language Requirement, must achieve the competencies of the CLAS requirement, and must meet all of the state and university requirements for graduation.

Upper Division Program

The upper division program of study encourages the development of a broadly educated environmental engineering graduate, who can succeed as a productive engineer with continued professional growth. The courses listed as requirements for the BS degree not only provide the students with mathematical and scientific knowledge, but also include other essentials necessary for a successful engineering career. The courses have been designed to increase student competence in written and oral communication skills as well as develop critical thinking and creative problem solving strategies. Course projects are designed to teach engineering science fundamentals and their applications while providing enriching opportunities for laboratory and computer-based experiences. Furthermore, students are supplied with an understanding of the economic, social and ethical responsibilities of engineers in our society and are encouraged to include sustainable development in all project designs.

The basic upper division requirements for the BSENVE degree are as follows:

Professional Graduation Requirement

Environmental Engineering students must take and pass CGN 4980 (FE Seminar). Transfer students, or students holding an engineering degree or its equivalent, showing evidence of passing the state FE (EIT) examination will have this requirement waived.

Course & Credit Hours Listing

The curriculum includes a sequence of courses which complies with the ABET requirements for mathematics and basic sciences, engineering science, engineering design, and general engineering degree requirements including humanities and social sciences. A typical nine semester sequence is shown below. Students may complete the program, by specific selection of science and technical elective courses, as arranged with the undergraduate program advisor and based on personal interests in a specialization area.

First Semester: (13)

**Eighth Semester: (13)**

| ENV 4101 | Elements of Atmospheric Pollution | 3 |
| ENV 4401 | Water Supply Engineering | 3 |
| ENV 4551 | Sewerage and Wastewater Treatment | 3 |
| ENV 4005L | Environmental Laboratory II | 1 |
| CWR 3103 | Water Resources Engineering | 3 |

**Ninth Semester: (12)**

| ENV 4891 | Environmental Engineering Senior Design Project | 3 |
| ENV | Technical Elective | 3 |
| ENV | Technical Elective | 3 |
| ENV | Technical Elective | 3 |

*One Science Elective should be in Earth Sciences and the other should be in Biological Sciences. Electives must be selected from the following:

**Earth Science electives: (one required)**

| GLY 1010/L | Introduction to Earth Sciences | 4 |
| GLY 2072/L | Earth Climate and Global Change | 4 |
| GLY 3039/L | Environmental Geology | 4 |
| GLY 3202/L | Earth Materials | 4 |
| GLY 4822/L | Hydrogeology | 4 |
| MET 2010/L | Meteorology & Atmospheric Physics | 4 |

**Biological Science electives (one required):**

| MCB 2000/L | Introductory Microbiology | 4 |
| OCB 2003/L | Introductory Marine Biology | 4 |
| PCB 3043/L | Ecology | 4 |
| EVR 3013/L | Ecology of South Florida | 4 |

**ENV technical electives must be selected from the following:**

| CEG 4011 | Geotechnical Engineering | 3 |
| CGN 4321 | GIS Applications in Civil Environmental Engineering | 3 |
| CGN 4510 | Sustainable Building Engineering | 3 |

CWR 5235 | Open Channel Hydraulics | 3 |
CWR 5251 | Environmental Hydraulics | 3 |
ENV 4330 | Hazardous Waste Site Assessment | 3 |
ENV 5007 | Environmental Planning | 3 |
ENV 5008 | Appropriate Tech for Dev Countries | 3 |
ENV 5062 | Environmental Health | 3 |
ENV 4560 | Reactor Design | 3 |
ENV 4024 | Bioremediation Engineering | 3 |
ENV 4930 | Special Topics in Environmental Engineering | 3 |
ENV 5002C | Fundamentals for Environmental Engineering | 3 |
ENV 5126 | Particulate Air Pollution Control | 3 |
ENV 5127 | Gaseous Air Pollution Control | 3 |
ENV 5104 | Indoor Air Quality | 3 |
ENV 5666 | Water Quality Management | 3 |
EVR 3010 | Energy Flow in Natural and Man-made Systems | 3 |
EVR 4321 | Sustainable Resource Development | 3 |
EVR 4592 | Soils and Ecosystems | 3 |
EVR 4026 | Ecology of Biotic Resources | 3 |
EVR 4323 | Restoration Ecology | 3 |
PHC 5409 | Public Health Behavior Change Theory and Practice | 3 |
PHC 5415 | Public Health in Minority/Urban Population | 3 |

All recommended and other technical electives must be approved by the advisor and must concentrate on relevant applications of environmental engineering design. Selection of a proper sequence would allow the student to specialize within a focus area of interest (e.g., air, water, or land resources).

**Combined BS/MS in Civil Engineering**

Students who pursue a BS degree in Civil Engineering and have completed 75-90 credits and have at least a 3.3 GPA on both overall and upper division courses may apply to enroll in the combined BS/MS program in Civil Engineering upon recommendation from three CEE faculty members. In addition to the admission requirements of the combined BS/MS program, students must meet all the admission requirements of both the department and the University Graduate School. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships.

Students enrolled in the program may count up to nine credit hours of CEE graduate courses as credits for both the BS and MS degrees. The combined BS/MS program has been designed to be a continuous program. However, upon completion of all the requirements of the undergraduate program, students will receive their BS degrees. Students in this program have up to one year to complete the master’s degree after receipt of the bachelor’s degree. Students who fail to meet this one year post BS requirement or who elect to leave the combined program at any time and earn only the BS degree will have the same access requirements to regular graduate programs as any other student, but will not be able to use...
the nine credits in both the bachelor's and master's degrees.

For each of the graduate courses counted as credits for both BS and MS degree, a minimum grade of B is required. All double counted courses must be at 5000 level or higher. Students enrolled in the program may count up to nine credit hours of CEE graduate courses toward the elective engineering BS requirements as well as toward the MS degree. Only graduate courses with formal lectures can be counted for both degrees. The students are responsible for confirming the eligibility of each course with the Undergraduate Advisor.

Students interested in the program should consult with the Undergraduate Advisor on their eligibility for the program. The students should also meet the Graduate Program Director to learn about the graduate program and available courses before completing the application form and submitting it to the Undergraduate Advisor. Applicants will be notified by the department and the University Graduate School of the decision on their applications.

Undergraduate students enrolled in the program are encouraged to seek employment with a department faculty to work as student assistants on sponsored research projects. The students will be eligible for graduate assistantships upon full admission into the graduate school.

**Combined BS/MS in Environmental Engineering**

Students who pursue a BS degree in Environmental Engineering or Civil Engineering and have completed 75-90 credits and have at least a 3.3 GPA on both overall and upper division courses may apply to enroll in the combined BS/MS program in Environmental Engineering upon recommendation from three CEE faculty members. In addition to the admission requirements of the combined BS/MS program, students must meet all the admission requirements of both the department and the University Graduate School. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships.

Students enrolled in the program may count up to nine credit hours of CEE graduate courses as credits for both the BS and MS degrees. The combined BS/MS program has been designed to be a continuous program. However, upon completion of all the requirements of the undergraduate program, students will receive their BS degrees. Students in this program have up to one year to complete the master's degree after receipt of the bachelor's degree. Students who fail to meet this one year post BS requirement or who elect to leave the combined program at any time and earn only the BS degree will have the same access requirements to regular graduate programs as any other student, but will not be able to use the nine credits in both the bachelor's and master's degrees.

For each of the graduate courses counted as credits for both BS and MS degree, a minimum grade of B is required. All double counted courses must be at 5000 level or higher. Students enrolled in the program may count up to nine credit hours of CEE graduate courses toward the elective engineering BS requirements as well as toward the MS degree. Only graduate courses with formal lectures can be counted for both degrees. The students are responsible for confirming the eligibility of each course with the Undergraduate Advisor.

Students interested in the program should consult with the Undergraduate Advisor on their eligibility for the program. The students should also meet the Graduate Program Director to learn about the graduate program and available courses before completing the application form and submitting it to the Undergraduate Advisor. Applicants will be notified by the department and the University Graduate School of the decision on their applications.

Undergraduate students enrolled in the program are encouraged to seek employment with a department faculty to work as student assistants on sponsored research projects. The students will be eligible for graduate assistantships upon full admission into the graduate school.

**Combined BS/MBA Program**

Students, who pursue a BS degree and are in their first semester of the senior year, with at least a 3.3 GPA on both overall and upper division courses may, upon recommendation from three CEE faculty members, apply to enroll in the combined BS/MBA program. To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees. In addition to the admission requirements of the University Graduate School and those of the College of Business Administration.

The MBA curriculum at the Chapman Graduate School of business consists of 9 credit hours of pre-core courses, 31 credit hours of core courses, 3 credit hours of professional development seminars, and 12 credit hours of elective courses, for a total of 55 credit hours.

The pre-core of 9 credit hours may be considered for waiver based on prior course work or exemption exams. An evaluation will be conducted at the time of admission to determine eligibility for a waiver by the MBA program graduate advisor.

In addition, students can count up to three CEE graduate courses as credits for both the BS electives and the MBA electives, for a total savings of 9 credit hours. The following is a list of eligible CEE graduate courses:
The combined BS/MBA program has been designed to be a continuous program. During this combined BS/MBA program, upon completion of all requirements of the undergraduate program, students will receive their BS degrees. Students may also elect to permanently leave the combined program at any time and earn only the BS degree. Students who elect to leave the combined program and earn only the BS degree will have the same access requirements to regular graduate programs as any other student, but will not be able to use the 9 credits in both the BS and MBA degrees.

For each of the graduate courses counted as credits for both BS and MBA degrees, a minimum grade of “B” is required. Students are responsible for confirming the eligibility of each course with the undergraduate advisor. Students interested in the program should consult with the undergraduate advisor on their eligibility to the program. The students should also meet the MBA graduate program advisor to learn about the graduate program and available courses before completing the application form and submitting it to the undergraduate advisor. Final decision for admission to the MBA program will be made by the University Graduate School upon recommendation by the College of Business Administration. Applicants will be notified by the department and the University Graduate School of the decision on their applications.

**Course Descriptions**

**Definition of Prefixes**

CCE-Civil Construction Engineering; CEG-Engineering, General; CES-Civil Engineering Structures; CGN-Civil Engineering; CWR-Civil Water Resources; EGM-Engineering, Mechanics; EGN-Engineering, General; ENV-Engineering, Environmental; SUR-Surveying and Related Areas; TTE-Transportation and Traffic Engineering

**CCE 4001 Heavy Construction** (3). Contractor’s organization, contracts, services, safety, planning and scheduling. Equipment and their economics. Special project applications, coffer-dams, dewatering, river diversions, tunneling. Prerequisites: CES 4702 and CEG 4011.

**CCE 4031 Project Planning for Civil Engineers** (3). Introduction to techniques for planning activities, operations, finance, budget, workforce, quality, safety. Utilize case studies as learning tools for students aspiring to superintendent positions. Prerequisites: CES 3100 and CEG 4011.

**CCE 5035 Construction Engineering Management** (3). Course will cover construction organization, planning and implementation; impact and feasibility studies; contractual subjects; liability and performance; the responsibility of owner, contractor and engineer. Prerequisites: CES 3100 or equivalent and CEG 4011 or equivalent.

**CCE 5036 Advanced Project Planning for Civil Engineers** (3). Advanced techniques and methods for planning activities, operations, finance, budget, workforce, quality, safety. Utilize case studies as learning tools for students aspiring to management positions. Prerequisite: CCE 4031 or equivalent.

**CCE 5405 Advanced Heavy Construction Techniques** (3). Heavy construction methods and procedures involved in large construction projects such as bridges, cofferdams, tunnels, and other structures. Selection of equipment based on productivity and economics. Prerequisite: CCE 4001.

**CCE 5505 Computer Integrated Construction Engineering** (3). Course covers the discussion of available software related to construction engineering topics; knowledge based expert systems and their relevance to construction engineering planning and management. Prerequisite: CCE 4031 or equivalent.

**CEG 4011 Geotechnical Engineering I** (3). Engineering 3 geology, soil properties; stresses in soils; failures; criteria; consolidation and settlement; compaction, soil improvement and slope stabilization. Prerequisites: GLY 1010 and GLY 1010L, CWR 3201 and CWR 3201L, EGM 3520, and EGM 3520L.

**CEG 4011L Soil Testing Laboratory** (1). Laboratory experiments to identify and test behavior of soils and rocks. Prerequisites: CWR 3201, CWR 3201L, EGM 3520, EGM 3520L. Corequisite: CEG 4011. (Lab fees assessed).
CEG 4012 Geotechnical Engineering II (4). Principles of foundation analysis and design: site improvement for bearing and settlement, spread footings, mat foundations, retaining walls, cofferdams, piles, shafts, caissons, tunnels, and vibration control. Computer applications. Prerequisites: CEG 4011 and CEG 4011L.

CEG 4126 Fundamentals of Pavement Design (3). This course is designed to provide the student with a basic understanding of the fundamental principles underlying pavement structural analysis and design. Asphalt Institute, Portland Cement Association and AASHTO methods will be covered. Prerequisites: CEG 4011, CEG 4011L, TTE 4201.

CES 3100 Structural Analysis (3). To introduce the student to the basic concepts and principles of structural theory relating to statically determinate beams, arches, trusses and rigid frames, including deflection techniques. Prerequisite: EGM 3520 and EGM 3520L.

CES 4320 Introduction to the Design of Highway Bridges (3). The course covers the different types of modern highway bridges, and systematically analyzes all the components of the superstructures. Design procedures are based on AASHTO codes and specialized software. Prerequisites: CEG 4011, CES 4605, CES 4702.

CES 4600 Introduction to the Design of Tall Buildings (3). The course reviews the different modern high-rise structural systems, a simple analysis of wind and seismic loading to efficiently design very tall buildings. Prerequisites: CEG 4011, CES 4702.

CES 4605 Steel Design (3). The analysis and design of structural elements and connections for buildings, bridges, and specialized structures utilizing structural steel. Both elastic and plastic designs are considered. Prerequisite: CES 3100.

CES 4702 Reinforced Concrete Design (3). The analysis and design of reinforced concrete beams, columns, slabs, retaining walls and footings; with emphasis corresponding to present ACI Building Code. Introduction to prestressed concrete is given. Prerequisite: CES 3100 with a grade of ‘C’ or better.

CES 5106 Advanced Structural Analysis (3). Extension of the fundamental topics of structural analysis with emphasis on energy methods and methods best suited for nonprismatic members. Prerequisite: CES 3100.

CES 5325 Design of Highway Bridges (3). Structural analysis and design for highway bridge systems which includes design criteria, standards of practice and AASHTO specifications for designing super-structures and substructure elements of various types of bridges. Prerequisites: CES 4605, CES 5715, and CEG 4011.

CES 5587 Topics in Wind Engineering (3). The course will cover the nature of wind related to wind-structure interaction and design loads for extreme winds, tornadoes and hurricanes. Prerequisites: CES 3100 and CWR 3201.

CGN 2420 Computer Tools for Engineers (3). Introduction to common civil engineering software such as MathCad, VBA, and others. Prerequisites: MAC 2312 and PHY 2048.

CGN 3949 Co-Op Work Experience (1-3). Supervised full-time work experience in engineering field. Limited to students admitted to the Co-op program with consent of advisor. Evaluation and reports required.

CGN 4321 GIS Applications in Civil and Environmental Engineering (3). Introduction to the basics of geographic information systems and their applications in civil and environmental engineering, landscape architecture, and other related fields. Prerequisites: TTE 4201 or ENV 3001 or CWR 3103 or the equivalents.

CGN 4510 Sustainable Building Engineering (3). Introduces to the students to the basic concepts of designing building materials and complimentary systems in such a way that the enclosures control heat, air and moisture so that a durable, energy efficient, healthy building is provided without using excess materials and energy. Students from different backgrounds will learn principles and methodologies to enhance the environmental performance of buildings, including all applicable regulatory and sustainability frameworks. Prerequisite: Junior standing.

CGN 4802 Civil Engineering Senior Design Project (3). Mandatory course for all senior students, to experience the design of a practical project by utilizing knowledge learned from previous courses for presenting a solution. Done under the supervision of a faculty member and professional engineer. Prerequisites: CEG 4011, CEG 4011L, TTE 4201, CES 4702.

CGN 4911 Undergraduate Research Experience (1-3). Participate in research activities in the areas of structures, geotechnical, transportation, construction and environmental engineering. Prerequisite: Permission of a faculty advisor.

CGN 4930 Special Topics in Civil Engineering (1-4). A course designed to give groups of students an opportunity to pursue special studies not otherwise offered.

CGN 4949 Co-Op Work Experience (1-3). Supervised full-time work experience in engineering field. Limited to students admitted to the Co-op program with consent of advisor. Evaluation and report required.

CGN 4980 Civil Engineering Seminar (1). Basic principles and applications of civil engineering, including structural, transportation, environmental, geotechnical, construction, and water resources engineering for civil engineering students. Prerequisites: EGM 3520, EGM 3520L, CWR 3201, CWR 3201L, EIN 3354, EEL 3003, EGN 2030 and STA 3033 or EIN 3235.

CWR 3103 Water Resources Engineering (3). Hydrologic and hydraulic engineering fundamentals: hydrologic cycle, hyetographs, hydrographs, frequency analysis, pipe systems, turbomachinery, open channels, structures, and groundwater. Prerequisites: CWR 3201, CWR 3201L, STA 3033 or EIN 3235.

CWR 3201 Fluid Mechanics (3). A study of the properties of fluids and their behavior at rest and in motion. Continuity, momentum, and energy principles of fluid flow. Prerequisites: MAP 2302, EGN 3321. Corequisite: CWR 3201L.

CWR 5140C Ecohydrology (3). Hydrology of ecosystems, interaction between the hydrologic cycle and vegetative processes. Prerequisite: Permission of the instructor.

CWR 5305 Surface Hydrology (3). Principles of Hydrology with a particular focus on surficial processes of interest to engineering design. Emphasizes applications to flood prevention and mitigation and stormwater management issues. Prerequisites: CWR 3201, CWR 3103 (or equivalent).

CWR 5535C Advanced Modeling Applications in Water Resources Engineering (3). Complex model applications in hydrology, hydraulics, hydrosystems engineering and environmental interconnections. Prerequisite: Permission of the instructor.

EGM 3520 Engineering Mechanics of Materials (3). Analysis of axial, torsional, bending, combined stresses, and strains. Plotting of shear, moment and deflection diagram with calculus applications and interpretations. Prerequisites: CGN 2420, MAC 2313, MAP 2302 and EGN 3311 with a grade of ‘C’ or better.

EGM 3520L Materials Testing Laboratory (1). Introduction to measurements of basic mechanical properties of materials. Experiments include axial tension, compression, torsion, flexure, and the response of simple structural elements. Prerequisites or Corequisites: EGM 3520, MAC 2312 and EGN 3311. (Lab fees assessed).

EGM 5111 Experimental Stress Analysis (3). Course covers the necessary theory and techniques of experimental stress analysis and the primary methods employed: brittle coating, strain gauges, photo-elasticity and Moire. Prerequisites: EGM 3520, EGM 5653.

EGM 5351 Finite Element Methods in Mechanics (3). Matrix techniques and variational methods in solid mechanics; single element, assemblage and generalized theory; non-linear analysis; applications in structural and soil mechanics, torsion, heat conduction and hydro-elasticity, etc. Prerequisite: CES 5106.

EGM 5421 Structural Dynamics (3). Fundamentals of free, forced, and transient vibration of singles and multidegree of freedom structures, including damping of lumped and distributed parameters systems. Graduate students have to do a project. Prerequisite: CES 3100 and MAP 2302.

EGN 1110C Engineering Drawing (3). Introduction to elementary design concepts in engineering, principles of drawing, descriptive geometry, pictorials and perspectives and their computer graphics counterpart.

EGN 2030 Ethics and Legal Aspects in Engineering (1). Codes of ethics, professional responsibilities and rights, law and engineering, contracts, torts, evidence.

EGN 3311 Statics (3). Forces on particles, equilibrium of forces, moments, couples, centroids, section properties, and load analysis of structures. Prerequisites: MAC 2312 and PHY 2048. Corequisite: MAC 2313.

ENV 3001 Introduction to Environmental Engineering – GL (3). Introduction to environmental engineering problems; water and wastewater treatment, air pollution, noise, solid and hazardous wastes. Prerequisites: CHM 1046 and CHM 1046L, PHY 2049, MAC 2312 and permission of undergraduate advisor. Corequisite: ENV 3001L.

ENV 3001L Environmental Laboratory I (1). A corequisite to ENV 3001. Practical applications of the theory learned in the course and experience in detecting and measuring some environmental problems. Prerequisites: CHM 1046 and CHM 1046L, MAC 2312 and permission of undergraduate advisor. Corequisite: ENV 3001. (Lab fees assessed).

ENV 3949 Co-Op Work Experience (3). Supervised full-time work experience in engineering field. Limited to students admitted to the Co-op program with consent of advisor.

ENV 4005L Environmental Laboratory II (1). Laboratory experiments on applications of environmental engineering concepts related with air, water, land and environmental health involving data collection, analysis and interpretation. Prerequisites: ENV 3001L, CWR 3201L, and permission of the instructor.

ENV 4024 Bioremediation Engineering (3). Biotransformation of sub-surface contaminants in gaining recognition as a viable treatment tool. This course provides students with quantitative methods required to design bioremediation systems. Prerequisites: ENV 3001 and ENV 3001L.

ENV 4101 Elements of Atmospheric Pollution (3). The air pollution problem, causes, sources, and effects. Historical development. Physical, political, and economic factors in its control. Prerequisites: CWR 3201 and CWR 3201L or EML 3126 and 3126L, ENV 3001 and ENV 3001L.

ENV 4330 Hazardous Waste Site Assessment (3). Generation, transport, treatment and disposal of hazardous waste; risk assessment and treatment of contaminated media. Prerequisites: One year of General Chemistry and ENV 4351.

ENV 4351 Solid and Hazardous Waste Management (3). Sources, amounts and characteristics of solid wastes; municipal collection systems; method of disposal; energetic consideration in the recovery and recycle of wastes. Prerequisites: PHY 2049, and CHM 1046 and CHM 1046L.

ENV 4401 Water Supply Engineering (3). Quantity, quality, treatment, and distribution of drinking water. Prerequisites: CWR 3201, CWR 3201L, ENV 3001, ENV 3001L.
ENV 4401L Water Laboratory (1). Laboratory exercises in the physical, chemical, and bacteriological quality of potable water. Prerequisites: CWR 3201, ENV 3001 and ENV 3001L. Corequisite: ENV 4401. (Lab fees assessed).

ENV 4513 Chemistry for Environmental Engineers (3). A practical basis for applying microbial and physiochemical principles to understand reactions occurring in natural and engineered systems including water/wastewater treatment processes. Prerequisites: CHM 1046 and CHM 1046L.

ENV 4513 Chemistry for Environmental Engineers (3). A practical basis for applying microbial and physiochemical principles to understand reactions occurring in natural and engineered systems including water/wastewater treatment processes. Prerequisites: CHM 1046 and CHM 1046L.

ENV 4551 Sewerage and Wastewater Treatment (3). Collection and transportation of wastewater, design of sanitary and storm sewers. Physical, chemical, and biological principles of wastewater treatment. Prerequisites: CWR 3201, CWR 3201L, ENV 3001, ENV 3001L.

ENV 4551L Wastewater Laboratory (1). Laboratory exercises in the physical, chemical, and bacteriological quality of raw and treated wastewaters. Prerequisites: CWR 3201 and CRW 3201L, ENV 3001 and ENV 3001L, Corequisite: ENV 4551. (Lab fees assessed).

ENV 4560 Reactor Design (3). A theoretical and practical basis for reaction kinetics to understand multi-phase reactions, analysis and design of batch and continuous flow reactors.

ENV 4891 Environmental Engineering Senior Design Project (3). Team design project involving applications of fundamental environmental engineering concepts to project design, specifications, contracts and implementation. Emphasis on written and oral communication. Prerequisites: ENV 4401, ENV 4551, and CWR 3103.

ENV 4910 Undergraduate Research Experience (1-3). Participate in research activities in the areas of air, land and water systems and associated environmental health impacts. Prerequisites: Permission of a faculty advisor.

ENV 4930 Special Topics in Environmental Engineering (1-4). A course designed to give groups of students an opportunity to pursue special studies not otherwise offered.

ENV 4949 Co-Op Work Experience (3). Supervised full-time work experience in engineering field. Limited to students admitted to the Co-op program with consent of advisor. Evaluation and reports required.

SUR 2101C Surveying (3). Computations and field procedures associated with the measurement of distances and angles using tape, level, transit, EDMs, and total station. Laboratory is included with field measurements. Prerequisite: EGN 1110C.

TTE 4201 Transportation and Traffic Engineering (3). Transportation characteristics; transportation planning, traffic control devices, intersection design, network design, research. Prerequisites: STA 3033 or EIN 3235, EGN 3321, and SUR 2101C.

TTE 4203 Highway Capacity Analysis (3). Procedures involved in the capacity analysis of interrupted and uninterrupted flow highway facilities. Applications of highway capacity analysis software. Prerequisite: TTE 4201.

TTE 4804 Geometric Design of Highways (3). Parameters governing geometric design of highways; curve superelevation, widening of highway curves, intersection design; highway interchanges, use of AASHTO design guidelines. Prerequisite: TTE 4201.

TTE 4930C Transportation Seminar (1-3). Oral presentations made by students, guests, and faculty members on current topics and research activities in traffic and transportation engineering. Prerequisite: TTE 4201.
Construction Management

Irtishad U. Ahmad, Ph.D., P.E., Professor and Chairperson
Ronald A. Baier, P.E., Senior Instructor and Undergraduate Advisor
Mehmet Emre Bayraktar, Ph.D., Assistant Professor
José Faria, Ph.D., PMP, Instructor
Eugene D. Farmer, A.I.A., NCARB, LEED-AP BD+C, Associate Professor and Undergraduate Program Director
José D. Mitrani, P.E., CPC, CGC, Associate Professor
Ayman A. Morad, Ph.D., Instructor
Wallied Orabi, Ph.D., Assistant Professor
Yimin Zhu, Ph.D., CCE, Associate Professor and Graduate Program Director

Bachelor of Science in Construction Management

Degree Program Hours: 125

The undergraduate program in Construction Management is nationally accredited by the American Council for Construction Education. Its goal is to provide students with the knowledge and skills required for entry level supervisory or managerial positions in the construction industry. Graduates usually find employment as project managers, project schedulers, cost estimators, quality controllers or in managing their own construction firms. Opportunities for employment or advancement exist in all areas of the construction industry including land development, home building, public building, industrialized building systems, commercial, industrial, marine and highway heavy construction, underwater and space age facilities, material and equipment sales and installations, and construction product research, development and sales.

Honorary and Professional Organizations

Sigma Lambda Chi: Sigma Lambda Chi is the national honor society for students in Construction. The purpose of Sigma Lambda Chi is to recognize students in Construction Management for outstanding scholastic achievement. The organization provides a service to the students by inviting guest lecturers, sponsoring student tutoring and undertaking a variety of service projects.

Student Chapter of the Associated General Contractors of America: The AGC is a national student organization sponsored by the Associated General Contractors. Its purpose is to increase student awareness of the construction industry, promote fellowship and professionalism and to provide service to the Department, University and Community. Membership is open to all Construction related majors. Activities include sponsoring guest lecturers, attendance at local, regional and national AGC meetings and conferences, and undertaking a variety of service projects.

Student Chapter of the National Association of Women in Construction: This national student organization is sponsored by the National Association of Women in Construction. Its purpose is to promote knowledge of the construction industry and fellowship within the student body. Activities include monthly meetings with guest lecturers, field trips and a variety of service projects. The FIU student chapter of NAWIC was the first such chapter established in the United States. Membership is open to all construction related majors.

Program of Study

The four year program leading to a Bachelor of Science in Construction Management is for students who are interested in preparing for professional careers in construction management, operations, and related areas in the construction industry.

The Lower Division courses, i.e. Freshman and Sophomore levels, are selected to provide easy transfer for community college graduates. With proper planning, full time transfer students with an A.A. degree are able to complete the four year degree program in four remaining semesters at the University. Prospective community college transfer students should contact an advisor for program information and Lower Division transfer requirements.

Students already working full or part time, many with trades or construction licenses, are generally able to plan their program around job commitments and responsibilities. Faculty advisors are on hand days and evenings to assist students in course selection and scheduling.

Admission

The Department of Construction Management encourages applications for admission from qualified students from all cultural, racial, religious or ethnic groups, regardless of gender.

Grade Point Average

Admission into the undergraduate program requires a minimum 2.0 grade point average. Students transferring from another university or community college should review the Florida International University Undergraduate Catalog for university policies, application procedures, and financial aid information. Prior to or upon admission, transfer students should also contact a Construction Management advisor to review transcripts and determine allowable transfer credits.

Transfer Credits

No grade below a ‘C’ in any required course is acceptable for transfer into the program. Lower Division courses (courses at the 1000 or 2000 level) designated as equivalent by the statewide course numbering system will be accepted by the Department as fulfilling the Upper Division requirements. Credits from these Lower Division courses may be used to offset Upper Division core credit requirements. Other 1000 and 2000 level courses
designated as equivalent by a department advisor may be accepted by the Department as fulfilling Upper Division requirements. When equivalent Lower Division courses are used to fulfill Upper Division course requirements a student will be required to complete an equal number of 3000 level (or above) credits from approved Departmental electives. Transfer credits above the 60 semester credit hours accepted from the community college system will not reduce the number of credit hours to be completed in the Upper Division, including electives, to earn a degree.

University Core Curriculum Requirements

Students entering the university with less than 36 semester credit hours will be required to meet the requirements of the University Core Curriculum, in addition to the Department Lower Division Core. Students should review the General Core Requirements in the undergraduate catalog.

Non Degree-Seeking

Students wishing to enroll in courses during the application process may do so as a non-degree seeking, special student. Students must consult an advisor for approval and complete a non-degree seeking enrollment waiver. Without this waiver and advisor approval, there is no guarantee that the courses taken will subsequently be accepted for graduation. No more than 15 semester credits of work taken as a non-degree seeking can be applied towards graduation. Students taking courses under the special student designation should consult other sections of this catalog for their pertinent regulations concerning the special student status.

General Regulations

Normal Loads

Students taking a minimum of 12 semester credit hours per semester are considered full time students. Students taking under 12 hours are considered part time and should be aware that certain university privileges and benefits may not be applicable to part time students. It is not recommended that students take more than 18 credit hours per term. Special exceptions may be made, at the option of the Department, in the case of students with a grade point average of 3.0 or greater. Students that meet this criteria wishing to take over 18 semester credit hours must have the approval of both the Chairperson of the Department and the Dean of the College of Engineering and Computing prior to registering.

Grades

The Department of Construction Management requires a minimum grade of 'C' or better in all required courses and electives. This includes those required courses transferred from other institutions.

Grade of Incomplete

A grade of 'I' (Incomplete) may be granted, at the option of the instructor, to a student who, due to serious, documented, and verifiable extenuating circumstances beyond his/her control is unable to complete the work required to obtain a grade for a course. Students wishing to receive an incomplete must meet with their professor and sign an agreement outlining what work must be completed to receive the final grade and when this work is due. Failure of the student to either complete the work required by the agreement or not meet the deadline prescribed in the agreement will result in the grade reverting to a grade of “F” (failing grade).

Independent Study

Students who wish to enroll in an independent study course must have the prior written approval of both the instructor and the Department Chairperson. Independent Study courses can not be substituted for required Lower or Upper Division departmental core courses or for elective courses.

Minor in Business

Construction Management students take courses in the College of Business Administration that may be applied towards a minor in Business, Marketing, or Entrepreneurship. Students interested in pursuing one of these options should consult the appropriate section of the catalog for details.

Credit By Examination

The Department does not generally offer credit by examination. A student with outstanding, exceptional and documented skills in a particular subject as well as an outstanding academic record may request credit by examination, and it is the option of the Department Faculty and the Department Chairperson whether to grant the request.

Credit For Non-College Learning

The Department does not award credit for non-college learning (life work experience).

Student Work

The Department reserves the right to retain any and all student work for the purposes of record, exhibition or instruction.

Normal Academic Progress

The student will have maintained normal academic progress when the student earns a minimum grade point average of 2.0 for all work attempted during a term, and an overall minimum of 2.0.

Course Sequence and Prerequisites

Course prerequisites are clearly indicated in this catalog and on the Undergraduate Program sheets, available in the Department office. In the event of a conflict between the program sheet and the catalog, the catalog requirements will prevail. It is the student’s responsibility to ascertain that required prerequisites have been taken and passed prior to registering for a course. Failure to comply with prerequisite requirements may result in the student being dropped from a class.

Probation or Dismissal

Students who do not make satisfactory academic progress may be excluded from further registration. Students dismissed from the University for academic reasons will normally not be allowed to re-enroll for one year.

Class Attendance

Class attendance may be required and may be used for grade determination at the option of the instructor.
Graduation

In order to be eligible to graduate, the student must meet all University and Departmental requirements. The program of studies consists of a minimum of 60 Lower Division semester credit hours and 65 Upper Division semester credit hours for a minimum total of 125 semester credit hours. The waiving of any required course shall not reduce the minimum of 125 semester credit hours required for graduation. A student entering as a freshman or with less than 36 transfer credit hours must have successfully completed the University Core Curriculum with minimum acceptable grades as determined by Undergraduate Studies (see catalog for additional information). In addition, all required Lower Division and Upper Division Construction Management courses and electives must be completed with a grade of 'C' or better. In order to graduate, a student must also have a minimum grade point average of 2.0, have achieve the competencies of the CLAS requirement, and have met the foreign language requirement.

Students should contact an advisor at least one semester prior to their projected graduation and request a review of his or her file. At the start of the final semester the student is required to complete an Application for Graduation. (See catalog for additional information on graduation procedures and scheduling.) If for any reason a student fails to graduate in the semester after applying for graduation, they must reapply.

It is the student’s responsibility to ascertain that all requirements for graduation have been met.

Foreign Language Requirement

Students must meet the University Foreign Language Requirement. Refer to the appropriate sections in the Catalog’s General Information for Admission and Registration and Records.

Undergraduate Curriculum

The following courses comprise the undergraduate curriculum leading to a degree of Bachelor of Science in Construction Management. Except for the Environmental Control courses, and Structural Design II and III, those numbered 'I' shall be taken before courses numbered 'II'. Some credits of the Lower Division Core can be used to satisfy University Core requirements.

University Requirements

First time students or transfer students with less than 36 credit hours must meet the University’s core requirements as outlined in this catalog.

1 Consult the Department of Construction Management advisor for approved lower division courses to satisfy these requirements.
Business-Mangement Elective

One 3000 or 4000 level 3 credit business/management elective, selected in consultation with the undergraduate advisor of the department, is required.

Sample Program of Study

The following is a sample program of study for a student seeking to earn a degree of Bachelor of Science in Construction Management. The reader is reminded that all students entering a university in the State University System with fewer than 60 credit hours are required to earn at least nine credit hours prior to graduation by attending one or more summer terms at a state university.

Bachelor of Science in Construction Management

Degree Program Hours: 125

Undergraduate Program

The following analysis assumes that the student enters the university from high school or with less than 36 credits and no foreign language experience.

First Semester: (16)

ENC 1101  Writing and Rhetoric I  3
SLS 1501  First Year Experience  1
MAC 2233  Calculus For Business  3
ECO 2013  Principles of Macroeconomics  3
or
ECO 2023  Principles of Microeconomics  3
SPC 2608  Public Speaking  3
(1) Societies and Identities  3

Second Semester: (14)

ENC 1102  Writing and Rhetoric II  3
GLY 1010  Introduction to Earth Science  3
GLY 1010L  Introduction to Earth Science Lab  1
(1) Humanities-History (GR)  3
(1) Life Science  3
(1) Life Science Lab  1

Third Semester: (18)

ACG 3024  Accounting for Managers  3
BCN 1013  Principles of Construction Management  3
BCN 1272  Plans Interpretation  3
BCN 2210  Construction Materials and Methods  3
(1) Humanities-Other (GR)  3
BCN 3761  Construction Documentation and Communication  3

Fourth Semester: (17)

PHY 2053  Physics w/o Calculus  4
PHY 2048L  General Physics Lab  1
STA 2023  Statistics for Business and Economics  3
BCN 2253  Building Construction Drawing  3
BCN 2280  Construction Surveying  3
BUL 4320  Business Law  3

Fifth Semester: (15)

BCN 2402  Structural Design I  3
BCN 3240  Construction Equipment  3
BCN 3762  Building Codes and Quality Control  3
BCN 3730  Construction Safety  3
BCN 3611  Construction Estimating I  3

Sixth Semester: (18)

BCN 3720  Construction Scheduling I  3
BCN 3727  Construction Sitework  3
BCN 3740  Legal Aspects of Construction  3
BCN 3753  Financial Management of Construction Organizations  3
BCN 4612  Construction Estimating II  3
BCN 4431  Structural Design II  3

Seventh Semester: (15)

BCN 4462  Structural Design III  3
BCN 4465  Temporary Structures  3
BCN 4703  Management of Construction Projects  3
BCN 4724  Construction Scheduling II  3
BCN 4561  Environmental Control in Buildings I  3

Eighth Semester: (12)

BCN 3640  Economic Planning for Construction  3
BCN 4564  Environmental Control in Buildings II  3
BCN 4910  Senior Project  3
Upper Division Business Elective  3

Minor in Construction Management

The Department offers an undergraduate minor in Construction Management for students in other disciplines. For admission to the minor, students need to be fully admitted to their major and must have a 2.25 GPA. Students opting for a minor in Construction Management must complete the following courses:

BCN 1272  Plans Interpretation
BCN 3611  Construction Estimating I
BCN 3720  Construction Scheduling I
BCN 3730  Construction Safety
BCN 3762  Building Codes and Quality Control
BCN 4703  Management of Construction Projects

Note: Required prerequisites must be taken for all courses in the minor.

Course Descriptions

Definition of Prefixes

BCN-Construction.

BCN 1013 Principles of Construction Management (3). Covers the construction industry with emphasis on the principles of construction management.

BCN 1251 Building Construction Drawing (3). The laboratory application of Methods and Materials of Construction I. Students study plans, elevations, sections, and details appropriate to light construction.

BCN 1272 Plans Interpretation (3). Building construction plans interpretation of working drawings for residential, commercial building, and civil construction.

BCN 2210 Construction Materials and Methods (3). A study of the origins, production and uses of construction materials such as concrete, steel, aluminum, wood, brick, and stone. A combination of structural and non-structural, interior and exterior materials and assemblies will be examined.

BCN 2253 Building Construction Drawing (3). Prepare action plans, elevations and sections appropriate to general construction using computer assisted drafting techniques. Prerequisite: BCN 1272.

BCN 2280 Construction Surveying (3). Principles and practices of surveying as it applies to building construction.

BCN 2402 Structural Design I (3). Mechanics of rigid bodies. Topics include forces, moments, equilibrium, loads, reactions, determination of internal forces, solution of frames and trusses, and shear and moment diagrams. Prerequisites: MAC 2147 or MAC 1114, PHY 2053, 2048L.

BCN 3240 Construction Equipment (3). Methods, procedures, and equipment used in residential, commercial, and heavy construction. Equipping the construction plant. Production value analysis. Work effectiveness studies.

BCN 3640 Economic Planning for Construction (3). Nature of construction costs, funding sources and arrangements, capital requirements, bonding, insurance, risk and contingency evaluation, general office operations, and bidding procedures.

BCN 3720 Construction Scheduling I (3). The application of the Critical Path Method and Program Evaluation Review Technique to construction planning, scheduled vs. actual job expenditures. Cost forecasting. Development of unit prices from field data. Laboratory is included, which consists of computer applications. Prerequisite: BCN 3611.

BCN 3727 Construction Sitework (3). Exposition and critical analysis of practical and sequential aspects of converting raw land to finished product. Course will define various steps and discuss techniques of accomplishment. Prerequisites: GLY 1010, GLY 1010L, BCN 1272, BCN 3240.

BCN 3730 Construction Safety (3). Introduces occupational safety hazards associated with the construction industry. Emphasis placed on recognition, evaluation, and control of safety hazards particularly as they relate to the Occupational Safety and Health Act.

BCN 3740 Legal Aspects of Construction (3). Legal and business aspects of engineering contracts and specifications in the construction industry. Analysis, study of precedents, and application of contract clauses, including changes, changed conditions, termination, disputes, payments, risk and insurance, inspection, liquidated damages, and technical requirements. Prerequisites: BUL 4320 and BCN 1013.

BCN 3753 Financial Management of Construction Organizations (3). Accounting for construction operations; labor, materials, equipment, and overhead costs. Money management, depreciation, taxes, loans, profit/losses analysis. Prerequisites: ACG 3024 or equivalent.

BCN 3761 Construction Documentation and Communication (3). Obtaining, writing, and transmitting construction documentation for technical and legal requirements for construction projects. Course stresses the development of verbal and written communication skills.

BCN 3762 Building Codes and Quality Control (3). Study of building codes required by local, county, and state levels and their relation to quality control. Prerequisite: BCN 1013, BCN 2210.

BCN 3949 Construction Management Internship (1). Supervised work experience in construction management. Evaluation and reports required. Prerequisites: Consent of advisor and Department Chairperson.

BCN 4431 Structural Design II (3). Basic strength of materials and introduction to the material properties, allowable stresses, applicable codes and standards for the design of metal structures. Prerequisites: BCN 2210, BCN 2402, PHY 2053, PHY 2048L.

BCN 4462 Structural Design III (3). Introduction to the material properties, allowable stresses, applicable codes and standards for the design of reinforced concrete, prestressed concrete and reinforced masonry structures. Prerequisites: BCN 4431.

BCN 4465 Temporary Structures in Construction (3). Material properties, allowable stresses, applicable codes and standards for timber structures and the theory and practice of the planning, design, erection and maintenance of temporary structures. Prerequisites: BCN 4431.

BCN 4561 Environmental Control in Buildings I (3). A study of concepts and systems for providing optimum thermal, lighting, plumbing, and acoustical conditions, in both commercial and residential buildings.

BCN 4564 Environmental Control in Buildings II (3). Concepts and practices of electrical systems in the construction of residential and commercial buildings, including code provisions and cost estimates. Prerequisites: PHY 2053 and PHY 2048L.

BCN 4570 Sustainable Approach to Construction (3). This course presents a study of the concepts and techniques of sustainable construction. An in depth review of sustainable materials and construction techniques will be covered.
BCN 4612 Construction Cost Estimating II (3). Quantity take-offs and pricing, marketing policies and the application of microcomputers in construction estimating. Prerequisites: BCN 3240, BCN 3611 and BCN 3727.

BCN 4703 Management of Construction Projects (3). Organization and management theory elements of leadership and human supervision, organization, office operations, labor relations, safety, and work improvement, as they relate to project field operations. Prerequisites: BCN 3762, BCN 3740, BCN 3730.

BCN 4724 Construction Scheduling II (3). The application of advanced computerized planning, scheduling, and simulation techniques to construction operations, processes, and control. Prerequisites: BCN 3720 and BCN 3611.

BCN 4794 Quality Control in Construction (3). Quality control as governed by the job inspector, contractor superintendent, architect-engineer, building official, and governmental agencies and requirements. Prerequisites: BCN 3762 or equivalent.

BCN 4905 Directed Independent Studies (VAR). Specialized intensive study in an area of special interest to the student. Prerequisites: Permission of the instructor and the Department Chair.

BCN 4906 Special Topics (3). For a group of students who wish an intensive study of a topic not otherwise offered in the University. Prerequisites: Permission of the instructor and the Department Chair.

BCN 4910 Senior Project (3). This course requires the senior level construction management student to work on a project designed to integrate the knowledge acquired in multiple topics within the undergraduate curriculum. Prerequisites: All BCN courses except 3640, 3753, and 4564.

Bachelor of Science in Electrical Engineering

Program Educational Objectives

The Electrical Engineering Educational Objectives are:

1. Depth: To provide students with an understanding of the fundamental knowledge necessary for the practice of, or for advanced study in electrical engineering including its scientific principles, rigorous analysis, and creative design,

2. Breadth: To provide students with the broad education necessary for productive careers, or for the pursuit of graduate education, including knowledge of important current issues in engineering with emphasis on electrical engineering,

3. Professionalism: To develop skills for clear communication and responsible team work, and to instill professional attitudes and ethics, so that students are prepared for the complex global work environment,

4. Educational Renewal: To prepare students with an ability to continually renew their education in a rapidly developing discipline, including recognition of the importance of lifelong learning.

Program Educational Outcomes

a) an ability to apply knowledge of mathematics, science, and engineering
b) an ability to design and conduct experiments, as well as to analyze and interpret data
c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political ethical, health and safety, manufacturability, and sustainability
d) an ability to function on multi-disciplinary teams
e) an ability to identify, formulate, and solve engineering problems
f) an understanding of professional and ethical responsibility
g) an ability to communicate effectively
h) the broad education necessary to understand the impact of engineering solution in a global, economic, environmental, and societal context
i) a recognition of the need for and an ability to engage in life-long learning
j) a knowledge of contemporary issues
k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice
l) an ability to apply probability and statistics, including applications to electrical engineering program
m) an ability to apply knowledge of advanced math (D.E., Linear Algebra, Complex Variables, Discrete Mathematics)

Degree Program Hours: 129

Students applying to Electrical Engineering should have good communication skills in English (verbal and written) and exhibit logical thinking, creativity, imagination, and persistence. They should have proven academic background in mathematics, chemistry, engineering drawing and physics. Missing courses may be taken at FIU, with advisor approval.

At the undergraduate level, the basic required program of instruction in fundamental theory and laboratory practice is balanced by a broad range of electives in such fields as computers, communication systems, control systems, power systems, and bio-engineering. Students, with the counsel and guidance of faculty advisers, design their electives program around their own special interest.

Any course taken without the required prerequisites and corequisites will be dropped automatically before the end of the term, resulting in a grade of “DR” or “DF”. The student will not be eligible for a refund.

Students must earn a minimum grade of “C-” and a minimum GPA of 2.0 in all EEE and EEL courses required for graduation.

Students, who have been dismissed for the first time from the University due to low grades, may appeal to the department for reinstatement. A second dismissal results in no possibility of reinstatement.

Lower Division Preparation

Lower division requirements include at least 60 credit hours of pre-engineering courses (see the Undergraduate Studies portion of this catalog for specific requirements). These courses include high level programming language (EEL 2880 for Freshman and students who are transferring in without C programming), common prerequisite courses, 2 semesters of English composition and 2 other Gordon rule writing courses, and Engineering Graphics or CAD (unless previously taken in high school). A minimum grade of "C" is required in all writing courses, all calculus courses, differential equations, both physics classes, and chemistry. In addition, both transfer students and FIU freshman must take a combination of social sciences and humanities that fulfill the FIU University Core Curriculum requirements and those topics also complement the goals and objectives of the College of Engineering and Computing (including economic, environmental, political, and/or social issues. See semester-by-semester sample program for courses that fulfill this requirement). Students who have not satisfactorily met the social science/humanities requirements will be required to take additional (advanced) humanities/social science course(s).

In addition students may transfer a pre-approved engineering Statics course if it meets the proper prerequisites for the course (speak to an FIU engineering advisor to see if your community college offers an acceptable statics course). Students must make up any missing prerequisites before they will be allowed to begin taking certain engineering courses (see the course listing on the following page for the complete list of required courses. Required pre/corequisites are listed in the section on Course Descriptions).

Other Requirements

Students must meet the University Foreign Language Requirement, must achieve the competencies of the CLAS requirement, must have a minimum 2.0 GPA, must complete all required classes, and must otherwise meet all of the state and university requirements in order to graduate. Students who enter the university with fewer than 60 transferred credits must take 9 summer credits. Also see the Undergraduate Studies portion of this catalog for additional information.

Upper Division Program

The program includes Statics, Dynamics, Materials in Engineering, Signals and Systems, Engineering Economy, Probability and Statistics, Advanced Humanities/Social Science and the following:

Undergraduate Catalog 2011-2012 College of Engineering and Computing 483
## Electrical Engineering Program Freshman to Senior

### First Semester: (17)
- CHM 1045 General Chemistry I 3
- CHM 1045L General Chemistry I Lab 1
- EGN 1101 Engineering Orientation 2
- ENC 1101 Writing and Rhetoric I 3
- MAC 2311 Calculus I 4
- SLS 1501 Freshman Experience 1
- EGN 1033 Technology, Humans, and Society 3

### Second Semester: (17)
- CRW 2001 Creative Writing 3
  or
- MUH 1011 Music Appreciation 3
  or
- MUH 2116 Evolution of Jazz 3
  or
- TPP 2100 Introduction to Acting 3
  or
- THE 2000 Theatre Appreciation 3
- ENC 1102 Writing and Rhetoric II 3
- MAC 2312 Calculus II 4
- PHY 2048 Physics with Calculus I 4
- EEL 2880 Applied Software Techniques in Engineering 3

### Third Semester: (18)
- MAC 2313 Multivariable Calculus 4
- PHY 2049 Physics with Calculus II 4
- PHY 2049L General Physics Lab II 1
- EIN 3235 Evaluation of Engineering Data I 3
- MAP 2302 Differential Equations 3
- EEL 3120 Introduction to Linear Systems 3

### Fourth Semester: (17)
- EEL 3135 Signals and Systems 3
- EEL 3110 Circuits Analysis 3
- EEL 3111 Circuits I 3
- EEL 3712 Logic Design I 3
- EEL 3712L Logic Design Lab I 1
- EIN 3354 Engineering Economy 3
- Humanities and Writing I 3

### Fifth Semester: (18)
- ECO 2013 Macroeconomics 3
  or
- ECO 2023 Microeconomics 3
  or
- INP 2002 Introductory Industrial/Organization Psychology 3
  or
- INR 2001 Intro to International Relations 3
  or
- GEO 2000 Intro to Geography 3
  or
- SYG 2101 Social Problems 3
- EEE 3396 Intro to Solid State Devices 3
- EEL 4709C Computer Design 3
- EEL 3514 Communication Systems 3
- EEL 4410 Introduction to Fields and Waves 3
- Humanities and Writings II 3

### Sixth Semester: (17)
- EEE 3303 Electronics I 3
- EEE 3303L Electronics Lab I 1
- EEL 3657 Control Systems I 3
- EEL 4213 Power Systems I 3
- EEL 4213L Energy Conversion Lab 1
- EEL 4740 Embedded Computing Systems 3
- EGN 3311 Statics 3

### Seventh Semester: (13)
- EGN 3321 Dynamics 3
- EEE 4304 Electronics II 3
- EEE 4304L Integrated Circuits Lab 1
- EEL 4920 Senior Design I: Ethics, Communication, and Constraints 2
- EEL 4611 Systems Lab 1
- EE Elective 3

### Eighth Semester: (9)
- EEL 4921C Senior Design II: Project Implementation 2
- EEE 4314 Integrated Circuits and Systems 3
- EEE 4314L Integrated Circuits Lab 1
- EE Elective II (same specialization as EE Elective I) 3
  *Humanities and Writing I & II: Choose 2 from the following ARC 2701, HUM 3306, PHI 2600, WOH 2001, EUH 2030, AMH 2042. At least 1 of the courses must have a history component.

### Combined BS/MS in Electrical Engineering

Students who pursue a BSEE degree and are in their first semester of the senior year, with at least a 3.3 GPA on both overall and upper division courses may apply to the department to enroll in the combined BS/MS program. To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees. Upon completion of all the requirements of the combined BS/MS program, students must meet the admission requirements of the University Graduate School.

Students enrolled in the program may count up to six hours of ECE graduate courses as credits for both the BS and MS degrees. The combined BS/MS program has been designed to be a continuous program. During this combined BS/MS program, upon completion of all the requirements of the undergraduate program, students will receive their BS degree. Students in this program have up to one year to complete the master’s degree after receipt of the bachelor’s degree. Students who fail to meet this one year post BS requirement or who elect to leave the combined program at any time and earn only the BS degree will have the same access requirements to regular graduate programs as any other students, but will not be able to use the six credits in both the bachelor's and master’s degrees.
For each of the graduate courses counted as credits for both BS and MS degree, a minimum grade of “B” is required. Students enrolled in the program may count up to six credit hours of EE graduate courses toward the elective engineering BSEE requirements as well as toward the MSEE degree. Only graduate courses with formal lectures can be counted for both degrees. Students are responsible for confirming the eligibility of each course with the undergraduate advisor.

Students interested in the program should consult with the undergraduate advisor regarding their eligibility to the program. They should also meet the graduate advisor to learn about the graduate program and available courses before completing the application form and submitting it to the undergraduate advisor. Applicants will be notified by the department and the University Graduate School of the decision on their applications.

**Combined BS in Electrical Engineering/MS in Biomedical Engineering**

The Electrical Engineering Department and the Biomedical Engineering Department at FIU offer a 5 year, 150 credit combined BS/MS degree program. Students who wish to be admitted must have completed at least 90 credits toward their BS degree and have earned at least a 3.25 GPA in those courses required for a BS in Electrical Engineering with a minor in Biomedical Engineering. All requirements for the electrical engineering program applies to the combined BS/MS program. See an advisor and/or the Biomedical Engineering section of this catalog for more details.

**Combined BS in Electrical Engineering/MS in Engineering Management (BSEE/MSEM)**

Students, who are pursuing a Bachelor of Science degree in Electrical Engineering and have completed at least 75-90 credits with a minimum of a 3.3 overall GPA may, upon recommendation from three ECE faculty members, apply to enroll in the combined BSEE/MSEM program. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. In addition to the admission requirements of the MSEM program, students must meet all the admission requirements of the University Graduate School.

Students enrolled in the combined degree program could count up to two Electrical Engineering graduate courses for both the BSEE electives and the MSEM electives, for a total saving of 6 credit hours. A minimum grade of “B” is required graduate courses counted as credits for both BSEE and MSEM degrees. Only 5000-level or higher courses may be applied toward both degrees. Only graduate courses with formal lecture can be counted for both degrees.

The combined BSEE/MSEM program has been designed to be a continuous program. Students will receive their BSEE degree upon completion of all the requirements of the BSEE program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from his/her bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships.

Students may elect to permanently leave the combined program and earn only the BSEE degree. Students who elect to leave the combined program and earn only the BS degree will have the same access requirements to regular graduate programs as any other student but will not be able to use the 6 credit hours in both the BSEE and MSEM degrees.

Students interested in the combined program should consult with their undergraduate advisor on their eligibility to the program. The student should also meet the MSEM Program Director to learn about the graduate program and available tracks/courses before completing the application form and submitting it to their undergraduate advisor. Final decision for admission to the MSEM program will be made by the University Graduate School upon recommendation by the Engineering Management program director. Applicants will be notified by the Engineering Management Program and the University Graduate School of the decision on their applications.

**Combined BS in Electrical Engineering/MS in Telecommunications and Networking**

Students who pursue a BS degree and are in their first semester of the senior year, with at least a 3.3 GPA on both overall and upper division courses may apply to enroll in the combined BS/MS program. To be considered for admission to the combined bachelor’s/master’s degree program, students must have completed at least 75-90 credits in the bachelor’s degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor’s degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees. In addition to the admission requirements of the combined BS/MS program, students must meet all the admission requirements of the University Graduate School.

Students enrolled in the program may count up to six credit hours of Telecommunications and Networking graduate courses as credits for both the BS and MS degrees. The combined BS/MS program is a continuous program and upon completion of all the requirements of the undergraduate program, students will receive their BS degree. Students in this program have one year to complete the master’s degree after receipt of the bachelor’s degree. Students who fail to meet this one year post B.S. requirement or who elect to leave the combined program at any time and earn only the BS degree will have thereafter the same access requirements to regular graduate programs as any other student, but will not be
able to use the six credits in both the bachelor’s and master’s degrees.

For each of the graduate courses counted as credits for both BS and MS degree, a minimum grade of “B” is required. Students enrolled in the program may count up to six credit hours of Telecommunications and Networking graduate courses toward the elective BSEE requirements as well as toward the MS in Telecommunications and Networking degree. Only graduate courses with formal lectures can be counted for both degrees. The students are responsible for confirming the eligibility of each course with the undergraduate advisor.

Students interested in the program should consult with the undergraduate advisor on their eligibility to the program. The students should also meet the graduate advisor to learn about the graduate program and available courses before completing the application form and submitting it to the undergraduate advisor. Applicants will be notified by the department and the University Graduate School of the decision on their applications.

**Bachelor of Science in Computer Engineering**

**Program Educational Objectives**

The Computer Engineering Educational Objectives are:

1. That our graduates are employed as computer engineers, or in another profession using their computer engineering skills,
2. That our graduates stay current in their field of expertise,
3. That our graduates attain supervisory/leadership positions in their respective organizations.

**Program Educational Outcomes**

a) an ability to apply knowledge of mathematics, science, and engineering
b) an ability to design and conduct experiments, as well as to analyze and interpret data
c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political ethical, health and safety, manufacturability, and sustainability
d) an ability to function on multi-disciplinary teams
e) an ability to identify, formulate, and solve engineering problems
f) an understanding of professional and ethical responsibility
g) an ability to communicate effectively
h) the broad education necessary to understand the impact of engineering solution in a global, economic, environmental, and societal context
i) a recognition of the need for and an ability to engage in life-long learning
j) a knowledge of contemporary issues
k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice
l) an ability to apply probability and statistics, including applications to computer engineering program
m) an ability to apply knowledge of advanced math (Discrete Mathematics, D.E., Linear Algebra, Complex Variables)

**Common Prerequisite Courses and Equivalencies**

¹OR MAC X281, MAC X282, MAC X283
²OR CHSX440 Chemistry for Engineers

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

**Common Prerequisites**

- CHM 1045 General Chemistry I
- CHM 1045L General Chemistry Lab I
- MAC 2311 Calculus I
- MAC 2312 Calculus II
- MAC 2313 Multivariable Calculus
- MAP 2302 Differential Equations
- PHY 2048 Physics with Calculus I
- PHY 2049 Physics with Calculus II
- PHY 2049L General Physics Lab II

**Additional lower division courses required:**

- MAD 3401 Numerical Analysis (may be substituted for MAC 2313)
- MAD 2104 Discrete Mathematics

**PHY 2048L is not a requirement for this program.**

**Degree Program Hours: 128**

Any course taken without the required prerequisites and corequisites will be automatically dropped before the end of the term, resulting in a grade of “DR” or “DF”.

Students must earn a minimum grade of “C” in all calculus, physics, chemistry and differential equations classes. Students must earn at least a “C-” in all CEN, COP, as well as EEE and EEL courses required for graduation.

Also, a student must have a minimum GPA of 2.0 in all EEE and EEL courses. Computer Engineering students must take either Multivariable Calculus or Numerical Analysis and receive a minimum grade of “C”.

Students, who have been dismissed for the first time from the University due to low grades, may appeal to the department for reinstatement. A second dismissal results in no possibility of reinstatement.

Sections titled “Other Requirements” and “Lower Division Preparation” in the Electrical Engineering section are also requirements for the Computer Engineering students. Knowledge of “C” is required as a prerequisite for the computer software curriculum and Discrete Math.
Upper Division Program

The upper division program includes Discrete Math, Probability & Statistics, Engineering Economy, Signals and Systems, and the following:

**Computer Software Curriculum: (12)**
- EEL 2880: Applied Software Techniques in Engineering 3
- COP 3337: Computer Programming II 3
- COP 3530: Data Structures 3
- COP 4610: Operating Systems Principles 3

**Electrical Engineering Curriculum: (22)**
- EEL 3110: Circuits Analysis 3
- EEL 3110L: Circuits Lab 1
- EEE 3303: Electronics I 3
- EEE 3303L: Electronics I Lab 1
- EEL 3514: Communication Systems 3
- EEL 3657: Control Systems I 3
- EEE 4343: Introduction to Digital Electronics 3
- EEE 4314: Integrated Circuits and Systems 3
- EEE 4314L: Integrated Circuits Lab 1
- EEL 4611L: Systems Lab 1

**Computer Hardware Curriculum: (28)**
- EEL 3712: Logic Design I 3
- EEL 3712L: Logic Design I Lab 1
- EEL 4920: Senior Design I: Ethics, Communications and Constraints 2
- EEL 4921C: Senior Design II: Project Implementation 2
- EEL 4799C: Computer Design 3
- EEL 4746: Microcomputers I 3
- EEL 4746L: Microcomputers I Lab 1
- EEL 4747C: Microcomputers II 4
- EEL 4740: Embedded Computing Systems 3

**Areas of Specialization**

Computer Engineering students must choose an area of specialization from the following list and take the corresponding courses as their Elective I and Elective II.

**Hardware-Software Integration**
- EEL 4714: Introduction to Hardware Description Languages (HDL) 3
- EEL 4410: System-on-a-Chip Design Methodologies 3

**Signal and Image Processing**
- EEL 4510: Introduction to Digital Signal Processing 3
- EEL 4798: Special Topics (cross-listed with EEL 5820 Image Processing) 3

**Instrumentation and Filter Design**
- EEL 4202C: Medical Instrumentation Design 4
- EEL 4140: Filter Design 3

**Software Engineering**
- CEN 4010: Software Engineering I 3
- COP 4604: Advanced Unix Programming 3
- COP 4226: Advanced Windows Programming 3
- COP 4338: Programming III 3

**Networking**
- TCN 4211: Telecommunication Networks 3
- TCN 4212: Telecommunication Network Analysis and Design 3

**Computer Engineering Program**

**Freshman to Senior**

**First Semester: (17)**
- CHM 1045: General Chemistry I 3
- CHM 1045L: Gen. Chemistry Lab I 1
- EGN 1002: Engineering Orientation 2
- ENC 1101: Writing and Rhetoric I 3
- MAC 2311: Calculus I 4
- SLS 1501: First Year Experience 1
- EGN 1033: Technology, Humans, and Society 3

**Second Semester: (17)**
- ENC 1102: Writing and Rhetoric II 3
- MAC 2312: Calculus II 4
- PHY 2048: Physics with Calculus I 4
- EEL 2880: Applied Software Techniques in Engineering 3
- CRW 2001: Creative Writing 3
- MUH 1011: Music Appreciation 3
- MUH 2116: Evolution of Jazz 3
- THE 2000: Theatre Appreciation 3
- TPP 2100: Introduction to Acting 3

**Third Semester: (17)**
- MAD 2104: Discrete Math 3
- MAP 2302: Differential Equations 3
- PHY 2049: Physics with Calculus II 4
- PHY 2049L: General Physics Lab II 1
- COP 3337: Intermediate Programming 3
- EIN 3235: Evaluation of Engineering Data I 3

**Fourth Semester: (17)**
- EEL 3110: Circuits Analysis 3
- EEL 3110L: Circuits Lab 1
- EEL 3712: Logic Design I 3
- EEL 3712L: Logic Design I Lab 1
- EEL 4740: Embedded Computing Systems 3
- COP 3530: Data Structures 3

**Fifth Semester: (16)**
- EIN 3354: Engineering Economy 3
- EEL 3135: Signals and Systems 3
- EEE 3303: Electronics I 3
- EEE 3303L: Electronics I Lab 1
- Humanities and Writing I* 3
- COP 4610: Operating Systems 3

**Sixth Semester: (15 or 16)**
- MAC 2313: Multivariable Calculus 4
- MAD 3401: Numerical Analysis 3
- EEL 3514: Communication Systems 3
- EEL 4709: Computer Design 3
- EEE 4343: Introduction to Digital Electronics 3
- ECO 2013: Macroeconomics 3
- ECO 2023: Microeconomics 3
- INP 2002: Introductory Industrial/Organization Psychology 3
- INR 2001: Intro to International Relations 3
have a history component.

The students must complete at least 1 of the courses listed below:
- ARC 2701
- HUM 3306
- PHI 2600
- WOH 2001

**EEE 4314L Integrated Circuits Lab**

**3 credits**

- **EEE 4314 Integrated Circuits and Systems**
  - **3 credits**

**Eighth Semester:**

- **EEL 4746L Microcomputers I Lab**
  - **1 credit**

**Specialization Elective I**

**3 credits**

**Humanities and Writing II**

**3 credits**

**Combined BS in Computer Engineering/MS in Engineering Management (BScpE/MSEM)**

Students who have completed a minimum of 90 hours towards their Bachelors of Science degree in Computer Engineering and have earned at least a 3.3 GPA on both overall and upper division courses may, upon recommendation from three ECE faculty members, apply to enroll in the combined BScpE/MSEM program. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. In addition to the admission requirements of the MSEM program, students must meet all the admission requirements of the University Graduate School.

Students enrolled in the combined degree program could count up to two Electrical Engineering graduate courses for both the BScpE electives and the MSEM electives, for a total saving of 6 credit hours. A minimum grade of "B" is required graduate courses counted as credits for both BScpE and MSEM degrees. Only 5000-level or higher courses may be applied toward both degrees. Only graduate courses with formal lecture can be counted for both degrees.

**Combined BS in Computer Engineering/MSEM**

Students who are pursuing a Bachelor of Science degree in Computer Engineering and have completed at least 75-90 credits with a minimum of 3.3 overall GPA may, upon recommendation from three ECE faculty members, apply to enroll in the combined BScpE/MSEM program. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. In addition to the admission requirements of the MSEM program, students must meet all the admission requirements of the University Graduate School.

Students enrolled in the combined degree program could count up to two Electrical Engineering graduate courses for both the BScpE electives and the MSEM electives, for a total saving of 6 credit hours. A minimum grade of "B" is required graduate courses counted as credits for both BScpE and MSEM degrees. Only 5000-level or higher courses may be applied toward both degrees. Only graduate courses with formal lecture can be counted for both degrees.

The combined BScpE/MSEM program has been designed to be a continuous program. Students will receive their BScpE degree upon completion of all the requirements of the BScpE program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be considered for admission to the BScpE program. A student admitted to the combined degree program will be considered for admission to the BScpE program. A student admitted to the combined degree program will be considered for admission to the BScpE program. A student admitted to the combined degree program will be considered for admission to the BScpE program.

Students may elect to permanently leave the combined program and earn only the BScpE degree. Students who elect to leave the combined program and earn only the BScpE degree will have the same access requirements to regular graduate programs as any other student but will not be able to use the 6 credit hours in both the BScpE and MSEM degrees.

Students interested in the combined program should consult with their undergraduate advisor on their eligibility.
to the program. The student should also meet the MSEM Program Director to learn about the graduate program and available tracks/courses before completing the application form and submitting it to their undergraduate advisor. Final decision for admission to the MSEM program will be made by the University Graduate School upon recommendation by the Engineering Management program director. Applicants will be notified by the Engineering Management Program and the University Graduate School of the decision on their applications.

---

**Course Descriptions**

**Definition of Prefixes**
- CDA - Computer Design/Architecture; EGN - Engineering: General; EEE - Engineering: Electrical and Electronics; EEL - Engineering: Electrical; TCN – Telecommunications/Networks
- F - Fall semester offering; S - Spring semester offering; SS - Summer semester offering.

**CDA 4400 Computer Hardware Analysis (3).** The study of hardware functions of a basic computer. Topics include logic elements, arithmetic logic units, control units, memory devices, organization and I/O devices (for non-EE majors only). Prerequisites: CDA 4101 and MAD 2104.

**EGN 1002 Engineering Orientation (2).** Introduction to aspects of the engineering profession. Computer tools and basic engineering science. Team-based engineering projects. (F,S)

**EEE 3303 Electronics I (3).** Introductory course dealing with basic electronic devices such as diodes, BJTs, FETs, Op-Amps, and their circuit applications. Prerequisites: EEL 3111 or EEL 3110, EEE 3396. Corequisite: EEE 3303L. (F,S)

**EEE 3303L Electronics I Laboratory (1).** Design, build and test electronic circuits that use diodes, BJTs, FETs and Op-Amps. Prerequisite: EEL 3110L. Corequisite: EEE 3303. (F,SS)

**EEE 3396 Introduction to Solid State Devices (3).** Introduction to the physics of semiconductors; charge carrier statistics and charge transport in crystalline solids. Basic operations of solid state devices including p-n junction diode, the bipolar junction transistor and field effect transistors. Prerequisites: PHY 2049, EGN 3365, EIN 3235. Corequisites: EEL 3111, MAP 2302. (F,S)

**EEE 4202C Medical Instrumentation Design (4).** Concepts of transducers and instrumentation systems; origins of bio-potentials; electrical safety; therapeutic and prosthetic devices. Prerequisites: EEL 3003 or EEL 3110 or EEL 3111.

**EEE 4304 Electronics II (3).** Second course in electronics with particular emphasis on equivalent circuit representation and analysis of electronic analog circuits and systems, their frequency response and behavior under feedback control. Prerequisites: EEL 3112 and EEE 3303. Corequisite: EEL 4304L. (F,S)

**EEE 4304L Electronics II Laboratory (1).** Design and measurement experiments of advanced electronics, including applications of integrated circuits. Prerequisite: EEE 3303L. Corequisite: EEL 4304. (F,S)

**EEE 4314 Integrated Circuits and Systems (3).** Continuation of Electronics II with major emphasis on applications of integrated circuits and design of analog, control, communication and digital electronic systems. Prerequisites: EEL 4304 or EEL 4343. Corequisite: EEE 4314L. (F,S,SS)

**EEE 4314L Integrated Circuits Laboratory (1).** Laboratory experiments in integrated circuits. Includes design of filters, analog systems, A/D and D/A systems. Prerequisites: EEE 3303L (for CpE majors) or EEE 4304L (for EE majors). Corequisite: EEE 4314. (F,S,SS)

**EEE 4343 Introduction to Digital Electronics (3).** This course focuses on digital electronics. BJT as a switch, CMOS and other advanced logic-gate circuits, data converters, switched capacitor filters, semiconductor memories. Prerequisite: EEE 3303.

**EEE 4410 System-on-a-Chip and Design Methodologies (3).** Study of FPGA based System-on-a-Chip (SoC) design by understanding the essentials of FPGA and VLSI, including fabrication, circuits, interconnect, logic design, and system architectures. Prerequisites: EEE 4343, EEL 4709C, or permission of the instructor.

**EEL 2880 Applied Software Techniques in Engineering (3).** Engineering problem solving process, overview of a generalized computing system, software development, real-life engineering applications, computational implications. (F,S)

**EEL 3003 Electrical Engineering I (3).** For non-EE majors. Basic principles of DC and AC circuit analysis, electronic devices and amplifiers, digital circuits, and power systems. Prerequisites: MAC 2312, PHY 2049. Corequisite: MAP 2302. (F,S,SS)

**EEL 3110 Circuit Analysis (3).** Introductory circuit analysis dealing with DC, AC, and transient electrical circuit analysis and the general excitation of circuits using the Laplace transform. Not for Electrical Engineering majors. Prerequisites: MAC 2312, PHY 2049, (EGN 1002 or EGN 1100). Corequisites: MAP 2302, EEL 2880, and EEL 3110L.

**EEL 3110L Circuits Lab (1).** This lab introduces basic test equipment: oscilloscopes, multimeters, power supplies, function generator, etc., and uses this equipment in various experiments on resistors, capacitors, and inductors. Prerequisite: PHY 2049L. Corequisites: EEL 3111 or EEL 3110. (F,S)

**EEL 3111 Circuits I (3).** Introductory circuits course dealing with DC, AC and transient electrical circuit analysis, involving passive elements such as resistors, capacitors, inductors, transformers, etc. Prerequisites: MAC 2312, PHY 2049, (EGN 1002 or EGN 1100). Corequisites: MAP 2302, EEL 2880, and EEL 3110L. (F,S)

**EEL 3112 Circuits II (3).** Application of operational methods to the solution of electrical circuits. Effect of poles and zeroes on the response. Transfer function of electrical networks. Laplace and Fourier transforms; network parameters. Prerequisites: MAP 2302, EEL 3111, and EEL 3135. (S,SS)
EEL 3120 Introduction to Linear Systems in Engineering (3). Introductory course on linear systems, deals with the use of linear algebra to analyze resistive and dynamic electric circuits. Prerequisites: MAC 2312, PHY 2049, EGN 1002.

EEL 3135 Signals and Systems (3). Use of Fourier analysis in electrical and electronic systems. Introduction to probability theory, linear algebra and complex variables. Prerequisite: MAP 2302. (F,S)

EEL 3160 Computer Applications in Electrical Engineering (3). Interactive techniques of computers to simulate and design electrical engineering circuits and systems. Prerequisite: Permission of the instructor.

EEL 3514 Communication Systems (3). An introductory course in the field of analog communication systems. Transmitters, receivers, and different modulation and demodulation techniques are studied. A basic treatment of noise is also included. Prerequisites: (EEL 3112 or EEL 3110), EEL 3135, EIN 3235. (F,S)

EEL 3657 Control Systems I (3). Analysis of linear time-invariant feedback control systems. System modeling, time and frequency-domain response, stability and accuracy. Analysis by use of Root-Locus, Bode plots, Nyquist diagram. Prerequisites: EEL 3112 or EEL 3110 and EEL 3135. (F,SS)

EEL 3712 Logic Design I (3). Boolean Algebra. Binary number systems. Combinational logic design using SSI, MSI and LSI. Sequential logic design. Corequisites: EEL 3712L, EEL 3111 or EEL 3110. (S,SS)

EEL 3712L Logic Design I Lab (1). Laboratory experiments, using gates, combinational networks, SSI, MSI, LSI. Sequential logic design. Corequisites: EEL 3110L and EEL 3712. (S,SS)

EEL 4006 Development of Dynamic Web Sites (3). Techniques for the development of dynamic web sites, which will generate individualized web pages, according to data supplied by the user or retrieved from data stores available to the web server. Prerequisites: EEL 2880 or permission of instructor.

EEL 4015 Electrical Design in Buildings I (3). Application of electrical codes and regulations. Design of loads, circuits, surge protectors, feeders, panels, and breakers. Prerequisites: EEL 3111 or EEL 3110.

EEL 4016 Electrical Design in Buildings II (3). Electrical design of industrial buildings, size and design of distribution rooms, switchboards, transformers, bus ducts, motor control centers, starters, voltage drop calculations, lighting distribution. Prerequisite: EEL 4015.

EEL 4140 Filter Design (3). Approximation techniques. Active RC second order modules. Low pass filters, bandpass filters, high pass filters, notch filters are studied in detail. Sensitivity and high order filters. Design and laboratory implementation. Prerequisite: EEL 4015.

EEL 4213 Power Systems I (3). Introductory course to power systems components; transformers, induction machines, synchronous machines, direct current machines, and special machines. Prerequisite: EEL 4410. Corequisites: EEL 3112 and EEL 4213L. (F,SS)

EEL 4213L Energy Conversion Lab (1). Operation, testing, and applications of energy conversion machines including AC and DC motors and generators. Experiments on magnetic circuits and transformers. Prerequisite: EEL 4410. Corequisite: EEL 4213. (F,SS)

EEL 4214 Power Systems II (3). Transmission line models, the bus admittance matrix, load flow studies and solution techniques, economic dispatch with and without losses, computer applications related to power system operations. Prerequisite: EEL 4213.

EEL 4215 Power Systems III (3). Short circuit calculations, symmetrical and unsymmetrical fault analysis, transient stability and dynamic studies as well as power system control. Computer applications. Prerequisite: EEL 4213.

EEL 4241 Power Electronics (3). Power semiconductor devices, power supplies, DC choppers, AC voltage controller, power inverter, AC and DC drives. Prerequisites: EEL 4213 and EEL 4304.

EEL 4410 Introduction to Fields and Waves (3). Electric and magnetic fields. The relation between field and circuit theory: waves and wave polarization, reflection, refraction, and diffraction. Electromagnetic effects in high-speed digital systems. Prerequisites: MAC 2313 and EEL 3111. (F,SS)

EEL 4461C Antennas (3). Introduction to linear antennas, linear arrays and aperture antennas. Far field pattern calculation and measurement techniques. Prerequisites: EEL 3514 or permission of the instructor.

EEL 4510 Introduction to Digital Signal Processing (3). Modeling of DSP systems, Z transform, Algorithms for convolution, correlation functions, DFT, and FFT computation. Digital filters design, engineering applications. Prerequisites: EEL 3514 or permission of the instructor.

EEL 4515 Advanced Communication Systems (3). Advanced senior level course designed for those students who desire to enhance their engineering knowledge in communication systems. State-of-the-art techniques in FM, digital communication, phase locked loops, noise treatment, threshold improvement, etc. Prerequisites: EEL 3514, EEL 4304 or permission of the instructor.

EEL 4611 Control Systems II (3). Design by Root-Locus, Bode plot, and Guillin-Truxal approach; characteristics of some typical industrial controllers and sensors. Computer simulation and other modern topics are included. Prerequisites: EEL 3657 or permission of the instructor.

EEL 4611L Systems Laboratory (1). Laboratory experiments in various systems. Includes position and velocity control systems, zeroth order, first order, and second order systems. Communication Systems. Prerequisites: EEL 3514, EEL 3657. (S,F)

EEL 4709C Computer Design (3). Computer architecture, arithmetic units, RAM, DRAM, ROM, disk, CPU, memory systems, data, input/output devices. Distributed and centralized control. Prerequisites: EEL 3712, EEL 3712L, EIN 3235. (F,SS)
EEL 4714 Introduction to Hardware Description Languages (HDL) (3). Introduction to Hardware Description Languages (HDL) such as VHDL, Verilog in the design of Digital Systems. These software designed systems will be implemented with CPLD and FPGA hardware units. Prerequisites: EEL 3712 or permission of the instructor.

EEL 4740 Embedded Computing Systems (3). Principles of embedded computing systems: architecture, hardware/software components, interfacing, hardware/software co-design, and communication issues. Prerequisite: EEL 4709C.

EEL 4746L Microcomputers I Laboratory (1). Hands-on design experience with microcomputer systems and applications including buses, interfaces, and in-circuit emulation. Prerequisite: EEL 4709C. Corequisite: EEL 4746. (F)

EEL 4747C Microcomputers II (4). Design of interfacing schemes of microcomputers such as video, disk, etc., and state-of-the-art hardware and software features of advanced micro-processors’ architectures, real-time systems, hardware-software trade-offs. Prerequisites: EEL 4746 or permission of the instructor.

EEL 4798 Special Topics in Computer Engineering (1-3). Special topics in computer engineering not covered in other courses. Prerequisite: Permission of the instructor.

EEL 4905 Individual Problems in Electrical Engineering (1-3). Selected problems or projects in the student’s major field of electrical engineering. It can be extended to a maximum of six hours. Student works independently with a minor advisement from designated faculty member. Prerequisites: Senior level and permission of the instructor.

EEL 4920 Senior Design I: Ethics, Communications, and Constraints (2). Professional ethics, oral communications, project feasibility study, proposal writing, system design methodology, human factors, intellectual property, liability and schedules. Prerequisites: EEE 3303, EEL 3514, EEL 3657. Corequisites: EEL 4213 or EEL 4746. (S,F,SS)

EEL 4921C Senior Design II: Project Implementation (2). Design of a complete EE or CpE system including use of design methodology, formulation specifications, alternative solutions, feasibility, economic, reliability, safety ethics, and social impact. Prerequisite: EEL 4920. (S,F,SS)

EEL 4930 Special Topics in Electrical Engineering (1-3). Special topics in electrical engineering not covered in other courses. Prerequisite: Permission of the instructor.

EEL 4949 Co-Op Work Experience (1-3). Practical Co-op engineering work under approved industrial supervision.

TCN 4081 Telecommunication Network Security (3). Introduction and overview of security issues for engineering applications. Topics include design, implementation and management of security in networks. Prerequisites: CNT 4403 or permission of the instructor.

TCN 4211 Telecommunication Networks (3). Underlying engineering principles of computer and digital networks. Topics include physical, link and network layers; telecommunication and switching technologies. Prerequisites: EEL 3514 or permission of the instructor.

TCN 4212 Telecommunication Network Analysis and Design (3). The principle and practice of telecommunication and computer networks with emphasis on telecommunication network protocols, datagram services, routing and QoS. Prerequisites: EEL 3514 or permission of instructor.

TCN 4431 Principles of Network Management and Control Standards (3). Problems, principles and technologies in network management. General challenges in management of modern data and telecommunication networks. Prerequisites: EEL 3514 or permission of the instructor.

Course Descriptions

Definition of Prefixes
EGN - Engineering General; EIN - Engineering: Industrial;
ESI - Engineering: Systems Industrial; IDS - Interdisciplinary Studies.
F - Fall semester offering; S - Spring semester offering; SS - Summer semester offering.

EGN 3124 Computer Assisted Drawing and Design (3).
Application of computer assisted design technology to product design, feasibility study and production drawing.
(F,S,SS)

EGN 5435 Product Modeling (3).
Life cycle product data, geometry and form features, product information models and modeling techniques, product modeling systems, and product data standards. Prerequisites: EGN 3124 or equivalent.

EGN 5620 Enterprise Systems Configuration (3).
Enterprise systems overview; major enterprise functions; standard operation procedures; system configuration and parameters; master data; user interfaces and reports; and hands-on experience. Prerequisite: Permission of the instructor.

EGN 5621 Enterprise Systems Collaboration (3).
Collaborative engineering and environment; decision processes; changes management; virtual enterprise operation systems; and hands-on experience with a commercial enterprise operation system. Prerequisite: EGN 5622.

EGN 5622 Enterprise Systems Integration (3).
Enterprise architectures; workflow modeling and design; systems integration methodology; vertical and horizontal integration; master data analysis and integration; and hands-on experience. Prerequisite: EGN 5620.

EGN 5623 Enterprise Systems Optimization (3).
Supply networks overview; interactive supply network planning; optimal systems and process design; optimization techniques and heuristics; master and transaction data transfer; and hands-on experience. Prerequisite: EGN 5622.

EIN 1396C Basic Industrial Shop and Manufacturing Practices (3).
Fundamentals of basic capabilities and requirements for a modern shop or industrial manufacturing facilities. Rudiments of safety requirements, wood technology, metal technology and plastic technology.

EIN 2100 Introduction to Industrial and Systems Engineering (1).
A historic review of ISE origins, definition of role, functions and contributions of the IE in industry. Professional development opportunities. Practice communication skills. Seminars.

EIN 3235 Evaluation of Engineering Data I (3).
Analysis of industrial data and subsequent characterization of industrial processes. Prerequisite: MAC 2312. (F,S,SS)

EIN 3331 Quality Control (3).
Modern concepts for managing the quality function of industry to maximize customer satisfaction at minimum quality cost. The economics of quality, process control, organization, quality improvement, and vendor quality. Prerequisite: EIN 3235. (S,SS)

EIN 3354 Engineering Economy (3).
Basic methods of engineering economic analysis including equivalence, value measurement, interest relationships and decision support theory and techniques as applied to capital projects. (F,S,SS)

EIN 3365 Facilities Planning and Materials Handling (3).
Application of methods and work measurement principles to the design of work stations. Integration of work stations with storage and material handling systems to optimize productivity. Prerequisites: EGN 3124 and ESI 3321. (F)

EIN 3390 Manufacturing Processes (2).
Study of interrelationships among materials, design and processing and their impact on workplace design, productivity and process analysis. Prerequisite: EGN 3365. Corequisite: EIN 3390L. (F,S,SS)

EIN 3390L Manufacturing Processes Laboratory (1).
Experiments are conducted using the machines, equipment and tools in the laboratory to provide students with hands-on experience on product design, process planning, fabrication and quality assurance. Corequisite: EIN 3390. (Lab fees assessed). (F,S,SS)

EIN 3600 Industrial Automation (2).
Basic concepts of industrial automation and robotics. Performance characteristics, criteria for use, planning, selection, and implementation of computer automated equipment. Open to non-majors. Prerequisite: ESI 3161. Corequisite: EIN 3600L. (F)

EIN 3600L Industrial Automation Lab (1).
Experiments in the use of CNC machines and robots demonstrating performance characteristics of CNC equipment and robotic arms. Corequisite: EIN 3600. (Lab fees assessed). (F)

EIN 3949 Industrial Engineering Co-Op (1-3).
Enter level work experience as an Industrial Engineering intern. Jointly supervised by IE and industry personnel. Written report required. Student must obtain approval from IE faculty and sign up for course before starting work. Prerequisite: Approval of advisor. (F,S,SS)
EIN 4102 Collective Bargaining in Industrial Systems (3). A comprehensive study of collective bargaining with emphasis upon the private sector. Included will be negotiations and scope of contracts, day-to-day contract administration, and major bargaining issues. Prerequisite: Senior Standing (SS)

EIN 4103 Fundamentals of Engineering Regulation (3). A survey of the legal and regulatory requirements encountered by engineers. Included will be patents, antitrust, safety environmental, compliance, labor laws, product liability and global issues. Prerequisite: Senior standing.

EIN 4104 Introduction to Engineering Management (3). Organization of engineering systems including production and service organizations. Inputs of human skills, capital, technology, and managerial activities to produce useful products and services. Prerequisite: Permission of advisor.

EIN 4116 Industrial Information Systems (3). The integration of information flows and data bases with the production planning and control systems into productive and manageable systems. Prerequisite: Programming language. (S)

EIN 4122 Industrial Marketing (3). The performance of business activity that directs the flow of goods and services from producer to industrial user. Covers new product development, marketing research, sales engineering, pricing, distribution, and promotion. (F)

EIN 4214 Safety in Engineering (3). Introduces occupational safety and health hazards associated with mechanical systems, materials handling, electrical systems, and chemical processes. Illustrates controls through engineering revision, safeguarding, and personal protective equipment. Emphasis placed on recognition, evaluation and control of occupational safety and health hazards. Prerequisites: EIN 4314 or permission of the instructor. (S)

EIN 4220 Introduction to Total Quality Management (3). Fundamentals of TQM and its historical development. Integration of QC and management tools, QFD, Benchmarking for scientific management. Prerequisite: Permission of advisor.

EIN 4243 Human Factors Engineering (2). Examination of the ways to fit jobs and objects better to the nature and capacity of the human being. Lectures will review man's performance capability, singly and in groups, in interacting with his work environment. Stresses the practical application of human factors principles. Prerequisite: EIN 4314. Corequisite: EIN 4243L. (F)

EIN 4243L Human Factors in Engineering and Design Laboratory (1). Experiments are conducted which measure human factors indicators and differences by age, sex, and race, as well as physiological and anatomical differences. Corequisite: EIN 4243. (Lab fees assessed). (F)

EIN 4261 Industrial Hygiene (3). A continuation of Safety in Industry. An introduction to OSHA regulations on health hazards. Noise, radiation, and dust problems in industry. Special hazards with solvents, asbestos, lead, silica, and other chemicals. OSHA compliance procedures. Prerequisite: Senior standing. (S)

EIN 4314 Work Design and Industrial Ergonomics (2). The analysis, design, and maintenance of work methods. Study of time standards, including Pre-Determined time standards and statistical work sampling. Prerequisites: EGN 3124, EIN 3235 or equivalent. Corequisite: EIN 4314L. (S)

EIN 4314L Work Design and Industrial Ergonomics Laboratory (1). Experiments in the different Work Design techniques including Performance Sampling, Time Studies, Pre-Determined Time Systems and Workplace Design. Corequisite: EIN 4314. (Lab fees assessed). (S)

EIN 4326 Industrial Research and Development (3). Research and development for new product strategies, technological assessment, patent and product liability, and sales engineering. An independent study product will be required by each student. Prerequisite: Senior status.

EIN 4328 Introduction to Engineering Entrepreneurship (3). Fundamentals of engineering entrepreneurship; entrepreneurial process, identification of opportunities, starting and managing the venture, and development of business plans.

EIN 4333 Productivity Planning (3). The improvement of productivity as a functional activity of the enterprise. Productivity definitions, measurement, methodologies, and reporting systems. Prerequisites: EIN 4314, ESI 3161, and statistics.

EIN 4334 Production Planning and Control (3). Production systems, demand forecasting, capacity planning, master production planning, material requirements planning, shop floor control, and assembly line balancing. Prerequisites: EIN 3354 and ESI 3321. (S)

EIN 4351 Introduction to Industrial Financial Decisions (3). Fundamental concepts of industrial financial decisions, financial planning and analysis tools, justification for industrial capital investments, and intermediate and long-term financing options. Prerequisite: EIN 3354.

EIN 4387 Technology Assessment (3). Development of systematic efforts to anticipate impacts on society that may occur when a technology is introduced, extended, or modified. Prerequisites: Senior standing in Engineering, ESI 3161 and Statistics.

EIN 4389 Technological Forecasting (3). Emphasis on forecasting future trends and specific developments in the area of capabilities and needs. Prerequisites: Senior standing in Engineering and EIN 4334.

EIN 4440 Introduction to Technology Entrepreneurship (3). An introduction to theories, concepts, and practices of entrepreneurship. Students will produce feasibility analyses, learn to develop and analyze new ventures, and be introduced to business plans.

EIN 4441 Engineering Business Plan Development (3). This course is designed to help students develop an effective implementation plan for a new business venture. Prerequisites: ENT 4113 or EIN 4440.

EIN 4451 Lean Production Systems (3). Design and analysis of lean manufacturing systems, small lot production, setup-time reduction, continuous improvement, six-sigma, push and pull manufacturing, production planning and scheduling. Prerequisites: ESI 3321, EIN 3235.

EIN 4933 Special Topics in Industrial Engineering (2-3). Permits in-depth study in areas relating to specific student interests, recent advances, and problems in industrial technology or systems. Prerequisites: Senior standing, consent of faculty advisor and approval of department chairman.

EIN 4941 Undergraduate Industrial and Systems Engineering Internship (1). To provide undergraduate students with work experience under approved industrial supervision. Prerequisite: Department chairperson’s approval.

EIN 4949 Co-op Work Experience (1-3). Practical Co-op work experience under approved industrial supervision. Written report required at the conclusion of the work assignment. Prerequisite: Permission of department chairperson.

EIN 5016 Regulatory Aspects of Engineering (3). A survey of the legal and regulatory requirements encountered by engineers. Included OSH Act, NIOSH, ADA, EEOC, Worker’s Compensation and Product Liability. (SS)

EIN 5160 Management of Innovation and Technology (3). The course provides an integrated view of management of technology. The combination of theory and practice addresses the challenges of globalization, time compression, and technology integration. Prerequisite: Permission of instructor.

EIN 5226 Total Quality Management for Engineers (3). Fundamentals of TQM and its historical development. Integration of QC and management tools, QFD, benchmarking, experimental design for scientific management. (F,S)

EIN 5244 Cognitive Engineering (3). Advanced topics in human factors and cognitive engineering. Theoretical aspects of applied situation awareness and decision making, and applications in a variety of engineering domains. Prerequisite: EIN 4243.

EIN 5249 Occupational Biomechanics (3). Study of the theoretical fundamentals for the mechanics of the body. The link system of the body and kinematic aspects of body movement including applications of biomechanics to work systems. Prerequisites: EIN 4314 Work Design and Industrial Ergonomics or equivalent. (S)

EIN 5256 Usability Engineering (3). The usability aspects of software systems design and testing. The theory of interface design for usability and the methods and techniques for designing and testing technology interfaces. Prerequisite: Permission of Instructor.

EIN 5322 Engineering Management (3). Organization of engineering systems including production and service organizations. Inputs of human skills, capital, technology, and managerial activities to produce useful products and services. (F,S)

EIN 5332 Quality Engineering (3). This course examines quality control from an engineering standpoint. It covers ways to meet the challenge of designing high-quality products and processes at low cost. Prerequisites: EIN 3331 or equivalent. (S)

EIN 5346 Logistics Engineering (3). Concepts and tools for effective design and management of supply chain systems. Includes logistics strategies, inventory management, customer service, supply chain integration and logistics network design. Prerequisite: Consent of Instructor.

EIN 5359 Industrial Financial Decisions (3). The use of financial techniques and data in planning, controlling and coordinating industrial activities. This course will familiarize the student with accounting concepts and analytical methods. Prerequisite: EIN 3354. (SS)

EIN 5367 Design of Production Systems (3). The design of an industrial enterprise including feasibility, plant layout, equipment specifications, auxiliary services, economics and scheduling. Prerequisite: EIN 3665.

EIN 5392 Design and Implementation of Discrete Manufacturing Systems (3). Methodology and techniques for design, planning and implementation of discrete production systems including process/machine selections, material handling and inspection technologies, cell control, etc. Prerequisites: Graduate or seniors with EIN 3365, EIN 3390, and ESI 3523 or equivalent.

EIN 5605 Robotic Assembly Cell (3). Concepts of robot manipulation and sensing, part design for robotic assembly, planning manipulator trajectories, machine vision, robot programming language, cell control, and material transfer. Prerequisite: EIN 3600.

ESI 1622 Introduction to Engineering Software Applications (3). Hands-on experience with software packages such as Autocad, MS Word, Excel, PowerPoint, Access, Windows XP, and industrial applications of the Internet. Prerequisite: High school students in dual enrollment programs.

ESI 3161 Software Tools for ISE (3). Basic concepts of microprocessors; an overview of computer architecture, local area networks, micromainframe linking, and operating systems as they apply to industrial systems.

ESI 3321 Operations Research I: Deterministic Models (3). Modeling principles with emphasis on linear programming and extensions. The simplex procedure and its application through computer software packages. The analysis and interpretation of results in decision making. Prerequisites: MAC 2312, permission of the instructor. (F)
ESI 3523 Simulation Models of Industrial Systems (2). Simulation methodology, design of simulation experiments, implementation of simulation effort through computer software. Application to the solution of industrial and service system problems. Prerequisites: COP 2270 or equivalent, ESI 3161, ESI 3321 and EIN 3235 or equivalent. Corequisite: ESI 3523L. (S)

ESI 3523L Simulation Models of Industrial System Laboratory (1). Simulation Modeling on a microcomputer. Analyze and validate design models using both a general purpose programming language and a special-purpose simulation language. Corequisite: ESI 3523. (S)

ESI 4244 Evaluation of Engineering Data II (3). Application of statistical analysis in engineering practice, design of engineering experiments, and decision making. Study of prediction, tolerance intervals. Use of computer tools. Prerequisites: EIN 3235 or equivalent.

ESI 4317 Computer Algorithms for Operations Research (3). Discussion and implementation of a collection of computer algorithms essential for the O.R. researcher and consultant. This collection of algorithms includes both deterministic and stochastic models. Computer exercises. Prerequisites: ESI 3321 or equivalent. (S)

ESI 4322 Operations Research II: Stochastic Models (3). Modeling principles with emphasis on applications of Markov Chains, queuing models, systems reliability, Bayesian decision analysis. Prerequisites: ESI 3321, EIN 3235 or equivalent. (S)

ESI 4452 Project Management Systems Design (3). Project planning, scheduling and control using activity network logic. System development techniques and strategies. Prerequisite: Permission of the instructor. (F)

ESI 4554 ISE Systems Design (3). To integrate all prior ISE required courses into a cohesive and consistent professional philosophy. Prerequisite: Permission of instructor. (S)

ESI 4556 Industrial and Systems Engineering in the Office (3). Paperwork reduction, overhead and expense cost containment, and white collar productivity through office automation and systems analysis.

ESI 5522 Simulation Models of Engineering Systems (3). Simulation Methodology; design and implementation of models of engineering systems using computer software; case studies. Prerequisites: STA 3033 or EIN 3235 or equivalent and COP 3175 or equivalent.

ESI 5456 Productivity Management in the Global Organization (3). Analysis of productivity management strategies. Major issues in performance and productivity management, domestic and global outsourcing, international labor standards and trade policies. Prerequisites: EIN 4214 or equivalent.

ESI 5602 Engineering Data Representation and Modeling (3). The course will cover the life cycle of designing, developing, and implementing engineering database systems by applying the IDEFLx methodology. Prerequisite: Permission of Instructor.

IDS 3163 Global Supply Chains & Logistics – GL (3). Global supply chains and their interactions with all facets of business and society. Design issues and operation issues are investigated using simulation models and case studies.

Mechanical and Materials Engineering

Department Mission Statement

The Mechanical and Materials Engineering Department at Florida International University (FIU) offers a curriculum designed to give the student a thorough understanding of the basic laws of science and simultaneously to stimulate and develop creative thinking, a professional attitude, economic judgment and environmental consciousness. The aim is to develop the student's potential to the fullest, to prepare the student for superior performance as a mechanical engineer, and to provide the student with the fundamental principles necessary for pursuing advanced study in the diverse fields of engineering, science and business.

The Mechanical Engineering Program Educational Objectives listed below will graduate students who:

1. Are prepared for professional practice in entry-level engineering positions or to enroll in further engineering degree programs
2. Are prepared for successful careers and possible leadership positions as a result of teaming, communication and problem-solving skills learned in our program
3. At all stages of their careers, will be engaged in activities that demonstrate a commitment to and a desire for ongoing personal and professional growth and learning.

The Program Outcomes listed below have been established based on the Mechanical Engineering Program Educational Objectives. At the time of the graduation, a Mechanical Engineering student should have:

- Ability to apply knowledge of mathematics including statistics, multivariable calculus and differential equations, science including physics, and engineering
- Ability to design and conduct experiments, as well as to analyze and interpret data
- Ability to design a system, component, or process to meet desired needs
- Ability to function on multi-disciplinary teams
- Ability to identify, formulate, and solve engineering problems
- Understanding of professional and ethical responsibility
- Ability to communicate effectively
- Broad education necessary to understand the impact of engineering solutions in a global and societal context
- Recognition of the need for, and an ability to engage in, lifelong learning
- Knowledge of contemporary issues
- Ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Based on the goals set above the academic program provides a well-balanced curriculum in the following major areas of Mechanical Engineering:

- Fluid/Thermal Science
- Mechanics and Materials
- Design, Robotics and Manufacturing

Further specializations in any of the following areas may be obtained by the proper choice of electives:

- Energy Systems
- Heating, Ventilation, and Air Conditioning
- Mechanics and Material Sciences
- Manufacturing and Automation Systems
- Robotics and Mechatronics
- Mechanical Design
- Computer-Aided Engineering
- Multidisciplinary Design Optimization
- Multidisciplinary Computational Analysis
- Finite Element Analysis
- Environmental and Waste Management

A Bachelor's degree in Mechanical Engineering provides students with the background suitable for immediate employment in engineering industries, as well as excellent preparation for graduate studies in engineering, medicine, law, or business administration.

### Degree Program Hours: 128

The qualifications for admissions to the Department of Mechanical and Materials Engineering are the same as for admission to the School of Engineering.

The academic program is designed to satisfy the criteria outlined by the Accreditation Board for Engineering and Technology (ABET), as well as to meet the State of Florida's articulation policy. Entering freshmen at FIU should seek advisement from the Undergraduate Studies Office as well as from the Mechanical and Materials Engineering Department's office of advisement.

### Lower Division Preparation

Lower division requirements include at least 60 hours of pre-engineering credits (see the Undergraduate Studies portion of this catalog for specific requirements). These courses include Calculus I, II, III, Differential Equations, Analysis of Engineering Systems, Chemistry I and Lab, Calculus based Physics I & II and labs. (Introduction to CAD for Mechanical Engineers is a required prerequisite unless previously taken in high school). A minimum grade of a “C” is required in every course of the Mechanical Engineering curriculum. In addition, transfer students, who have not completed their core curriculum at the transfer institution, and FIU freshman must take the FIU University Core Curriculum Requirements, whose topics also complement the goals and objectives of the College of Engineering and Computing (including economic, environmental, political, and/or social issues. See semester-by-semester sample program for courses that fulfill this requirement). Students must make up any missing prerequisites before they will be allowed to begin taking certain engineering courses (see course listing for required pre-/co-requisites).

### Other Requirements

Students must meet the University Foreign Language Requirement. Students must achieve the competencies of the CLAS requirement. Students who enter the university with fewer than 36 semester hours must satisfy a summer residency requirement by taking a minimum of 9 credit hours during the summer semester while at FIU. Students must meet all of the state and university requirements in order to graduate.

The minimum requirements for graduation in Mechanical Engineering consist of two parts: 1) Mathematics, Basic Sciences, Humanities and Social Science requirements, and 2) Engineering Sciences, Engineering Design, Laboratory and Elective requirements.

¹These courses are four contact hours to include a one hour non-credit tutorial.

²The Senior Design Project is taken in two consecutive semesters during the senior year. During the first semester of his/her senior year, the student must register for EML 4551 Ethics and Design Project Organization. The senior project begins during this course. The next semester the student must register for EML 4905 to complete the project.

³Approved Design Electives are:
Students failing to maintain an overall GPA of 2.0 will be placed on probation, suspension, or dismissed from the University.

Students who are dismissed for the first time from the University due to low grades may appeal to the Dean for reinstatement. A second dismissal results in no possibility of reinstatement.

Laboratories

Over and above the laboratory requirements in Physics and Chemistry, the program consists of six semester hours of required engineering laboratory work. The students are assigned two hours of laboratory work (one hour in Instrumentation and Measurement Lab and one hour in Mechanical Lab) which are specifically devoted to solving design problems using experimental methods. The laboratory experience includes the following areas:

- Machining
- Circuits
- Fluid Mechanics
- Mechanics of Materials and Materials Testing
- Applications in Fluid and Thermal Science
- Instrumentation and Measurement.

The elective areas offer the following additional laboratories:

- Air Conditioning and Refrigeration
- Biomedical Engineering
- Material Sciences
- Computer-Aided Design
- Computer-Integrated Manufacturing.

Electives

Three concentrations available within the Mechanical Engineering program with some of their elective offerings are listed below.

Fluids/Thermal Sciences and Energy Systems

- EAS 4712 Aerodynamic Shape Design 3
- EGM 4350 Finite Element Analysis in Mechanical Design 3
- EGM 4370 Introduction to Meshfree and Alternative Methods in Mechanical Engineering 3
- EML 3450 Energy Systems 3
- EML 4419 Propulsion Systems 3
- EML 4421 Internal Combustion Engines 3
- EML 4525 Mechanical Design Synthesis and Analysis 3
- EML 4601 Principles of Refrigerating and Air Conditioning 3
- EML 4601L Refrigeration and A/C Lab 1
- EML 4603 Air Conditioning Design 3
- EML 4608C Mechanical Systems in Environmental Control 3
- EML 4702 Fluid Dynamics 3
- EML 4711 Gas Dynamics 3
- EML 4721 Intro to Computational Thermo Fluids 3
- EML 5103 Intermediate Thermodynamics 3
- EML 5104 Classical Thermodynamics 3
- EML 5152 Intermediate Heat Transfer 3

- EML 5606C Advanced Refrigeration and A/C Systems 3
- EML 5615C CAD in Air Conditioning 3
- EML 5708 Advanced Design of Thermal and Fluid Systems 3
- EML 5709 Intermediate Fluid Mechanics 3

Mechanics, Materials and Design

- EAS 4200 Introduction to Design and Analysis of Aerospace Structures 3
- EGM 4610 Introduction to Continuum Mechanics 3
- EGM 4350 Finite Element Analysis in Mechanical Design 3
- EGM 4370 Introduction to Meshfree and Alternative Methods in Mechanical Engineering 3
- EGM 5315 Intermediate Analysis of Mechanical Systems 3
- EGM 5615 Synthesis of Engineering Mechanics 3
- EGN 5367 Industrial Materials and Engineering Design 3
- EMA 3066 Polymer Science and Engineering 3
- EMA 4121 Physical Metallurgy 3
- EMA 4121L Materials Laboratory 1
- EMA 4223 Mechanical Metallurgy 3
- EMA 5295 Principles of Composite Materials 3
- EMA 4121L Materials Laboratory 1
- EMA 4223 Mechanical Metallurgy 3
- EMA 5295 Principles of Composite Materials 3
- EMA 5507C Analytical Techniques of Material Sciences 3
- EMA 5935 Advanced Topics in Materials Engineering 3
- EML 3301C Instrumentation 3
- EML 4220 Mechanical Vibrations 3
- EML 4260 Dynamics of Machinery 3
- EML 4525 Mechanical Design Synthesis and Analysis 3
- EML 4535 Mechanical Computer-Aided Design 3
- EML 4561 Introduction to Electronic Packaging 3
- EML 5125 Classical Dynamics 3
- EML 5385 Identification Techniques of Mechanical Systems 3
- EML 5530 Intermediate CAD/CAE 3
- EML 5562 Advanced Electronic Packaging 3

Design, Robotics and Manufacturing

- EAS 4200 Introduction to Design and Analysis of Aerospace Structures 3
- EML 4220 Mechanical Vibrations 3
- EML 4535 Mechanical Computer-Aided Design 3
- EML 4561 Introduction to Electronic Packaging 3
- EML 4840 Robot Design 3
- EML 4823 Introduction to Sensors and Signal Processing 3
- EML 5562 Advanced Electronic Packaging 3
- EML 5808 Control Technology for Robotic Systems 3
- EML 5509 Mechanical Design Optimization 3

Students are required to complete nine credit hours of technical electives, three of which are approved design credits.

Students with special needs may take other elective courses (not listed above) with permission of the Mechanical Engineering Advisor. Students are not restricted to these four concentration areas but may choose courses, with the advisor’s consent, that will form

The qualifications for admissions to the Department of Mechanical and Materials Engineering are the same as for admission to the College of Engineering and Computing. The academic program is designed to satisfy the criteria outlined by the Accreditation Board for Engineering and Technology (ABET), as well as to meet the State of Florida's articulation policy. Entering freshmen at FIU should seek advisement from the Undergraduate Studies Office as well as from the Mechanical and Materials Engineering Department's office of advisement. As of Fall Semester 2011, students will no longer be accepted into this track.

Lower Division Preparation

Lower division requirements include at least 60 hours of pre-engineering credits (see the Undergraduate Studies portion of this catalog for specific requirements). These courses include Calculus I, II, III, Differential Equations, Analysis of Engineering Systems, Chemistry I and Lab, Calculus based Physics I & II and labs, 2 semesters of English and 2 other Gordon rule writing courses. (Engineering Graphics or 3D-CAD is a required prerequisite unless previously taken in high school). A minimum grade of a "C" is required in all writing courses, all calculus courses, Differential Equations, Analysis of Engineering Systems, both Physics classes, and Chemistry. In addition, both transfer students and FIU Freshman must take a combination of social sciences and humanities that fulfill the state general education requirements, the FIU University Core Curriculum Requirements, whose topics also complement the goals and objectives of the College of Engineering and Computing (including economic, environmental, political, and/or social issues. See semester-by-semester sample program for courses that fulfill this requirement). Students must make up any missing prerequisites before they will be allowed to begin taking certain engineering courses (see course listing for required pre-/co-requisites).

Other Requirements

Students must meet the University Foreign Language Requirement. Students must achieve the competencies of the CLAS requirement. Students who enter the university with fewer than 36 semester hours must satisfy a summer residency requirement by taking a minimum of 9 credit hours during the summer semester while at FIU. Students must meet all of the state and university requirements in order to graduate.

The minimum requirements for graduation in ME with Aerospace Engineering Track consist of three parts: 1) Mathematics, Basic Sciences, Humanities and Social Science requirements, 2) Engineering Sciences, Engineering Design, Laboratory, and 3) Elective requirements, if any. Students may apply for the track in their junior year.

**Mechanical Engineering with Aerospace Engineering Track**

Engineering Science, Engineering Design, Laboratory and Elective semester credit hour requirements:

- **EGN 1100** Introduction to Engineering
- **EGM 3311** Analysis of Engineering Systems
- **EML 2030** Software for Mechanical Design
- **EGN 3311** Statics
- **EGN 3321** Dynamics
- **EGN 3365** Materials in Engineering
- **EMA 3702** Mechanics and Material Science
- **EMA 3702L** Mechanics and Materials Science Lab
- **EGM 3311** Analysis of Engineering Systems
- **EML 3126** Transport Phenomena
- **EML 3126L** Transport Phenomena Lab
- **EAS 4105** Intro to Flight Mechanics
- **EAS 4712** Aerodynamic Shape Design
- **EGN 3343** Thermodynamics
- **EML 3222** System Dynamics
- **EML 4806** Modeling and Control of Robots
- **EIN 3354** Engineering Economy
- **EGM 5615** Synthesis of Engineering Mechanics
- **EAS 4200** Introduction to Design and Analysis of Aerospace Structures
- **EML 4804** Introduction to Mechatronics
- **EML 4140** Heat Transfer
- **EML 4711** Gas Dynamics
- **EGM 4350** Finite Element Analysis in Mechanical Engineering
- **EML 4721** Intro to Comput. Thermo-Fluids
- **EAS 4712** Aerodynamic Shape Design
- **EML 4419** Propulsion Systems
- **EIN 3390** Manufacturing Processes
- **EIN 3390L** Manufacturing Processes Lab
- **EEL 3110** Circuits Analysis
- **EEL 3110L** Circuits Lab
- **EML 3301L** Instrumentation & Measurement Lab
- **EML 4906L** Mechanical Lab
- **EML 3500** Mechanical Design I
- **EML 4501** Mechanical Design II
- **EML 4551** Ethics and Design Project Organization
- **EML 4905** Senior Design Project

1These courses are four contact hours to include a one-hour non-credit tutorial.
2The Senior Design Project is taken in two consecutive semesters during the senior year. During the first semester of his/her senior year, the student must register for EML 4551 Ethics and Design Project Organization. The senior project begins during this course. The next semester the student must register for EML 4905 to complete the project. Projects must be completed in the Aerospace Engineering Field.

Students must achieve a grade of "C" or better in each of the engineering courses to satisfy BSME degree requirements. This "major GPA" is computed in the manner of the overall GPA. Students failing to maintain an overall GPA of 2.0 will be placed on probation, or dismissed from the program.
Students who are dismissed for the first time from the University due to low grades may appeal to the Dean for reinstatement. A second dismissal results in no possibility of reinstatement.

**Laboratories**

Over and above the laboratory requirements in Physics and Chemistry, the program consists of six semester hours of required Engineering laboratory work. The students are assigned two hours of laboratory work (one hour in Instrumentation and Measurement Lab and one hour in Mechanical Lab) which are specifically devoted to solving design problems using experimental methods. The laboratory experience includes the following areas: Machining, Circuits, Fluid Mechanics, Mechanics of Materials, and Materials Testing, Applications in Fluid and Thermal Science, Gas Dynamics and Instrumentation and Measurement.

Courses listed below may be taken as elective courses for the BSME with Aerospace Engineering Track.

**Mechanical Engineering Program with Aerospace Engineering Track**

**Requirements—Freshman to Senior**

The first four (4) semesters of this track follows exactly the first four (4) semesters of the regular BSME program. From the fifth semester on this track diverges from the regular BSME program.

**First Semester:** (17)
- MAC 2311 Calculus I 4
- CHM 1045 General Chemistry I 3
- CHM 1045L General Chemistry I Lab 1
- ENC 1101 Writing and Rhetoric I 3
- MUH 2116 Evolution of Jazz 3
- TPP 2100 Introduction to Acting 3
- THE 2000 Theatre Appreciation 3
- CRW 2001 Creative Writing 3
- MUH 1011 Music Appreciation 3
- EGN 1100 Introduction to Engineering 2
- SLS 1501 First Year Experience 1

**Second Semester:** (18)
- MAC 2312 Calculus II 4
- PHY 2048 Physics I with Calculus 4
- PHY 2048L General Physics I Lab 1
- ENC 1102 Writing and Rhetoric II 3
- EGN 3365 Materials in Eng 3
- EGN 1033 Technology, Humans, and Society 3

**Third Semester:** (18)
- MAC 2313 Multivariable Calculus 4
- PHY 2049 Physics with Calculus II 4
- PHY 2049L General Physics II Lab 1
- EML 3222 Fluid Dynamics 3
- EML 3222L Fluid Dynamics Lab 1
- MAP 2302 Differential Equations 3
- EML 3321 Dynamics 3
- EML 3343 Thermodynamics I 3
- EIN 3390 Manufacturing Processes 2
- EIN 3390L Manufacturing Processes Lab 1
- Humanities with Writing* 3

**Fourth Semester:** (15)
- MAP 2302 Differential Equations 3
- EGN 3321 Dynamics 3
- EML 3343 Thermodynamics I 3
- EIN 3390 Manufacturing Processes 2
- EIN 3390L Manufacturing Processes Lab 1
- Humanities with Writing* 3

**Fifth Semester:** (17)
- EGM 3311 Analysis of Engineering Systems 3
- EML 3126 Transport Phenomena 3
- EML 3126L Transport Phenomena Lab 1
- EMA 3702 Mechanics and Materials Science 3
- EEL 3110 Circuits Analysis 3
- EEL 3110L Circuits Lab 1
- EML 3222 Systems Dynamics 3

**Sixth Semester:** (17)
- EML 4140 Heat Transfer 3
- EAS 4105 Intro to Flight Mechanics 3
- EML 3500 Mechanical Design I 3
- EML 3501L Instrumentation and Measurement Lab 1
- EIN 3354 Engineering Economy 3
- EGM 5615 Synthesis of Engineering Mechanics 3
- EAS 4200 Introduction to Design and Analysis of Aerospace Structures 3
- EMA 3702L Mechanics and Materials Science Lab 1

- HUM 3306 History of Ideas 3
- WOH 2001 World Civilization 3
- EUH 2030 Western Civilization-Europe in the
Combined BS/MS Program

Students, who pursue a BS degree and are in their first semester of the senior year, with at least a 3.25 GPA on both overall and upper division courses may apply to enroll in the combined BS/MS program. To be considered for admission to the combined bachelor’s/master’s degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees. Students must also submit an on-line application to the University Graduate School for admission to the MS program. Students applying to the combined program are not required to pay the application fee. In addition to the admission requirements of the combined BS/MS program, students must meet all the admission requirements of the University Graduate School.

Students enrolled in the program may count up to six credit hours of MME graduate courses as credits for both the BS and MS degrees. The combined BS/MS program has been designed to be a continuous program. During this combined BS/MS program, upon completion of all the requirements of the undergraduate program, students will receive their BS degrees. Students in this program have up to three major semesters to complete the master’s degree after receipt of the bachelor’s degree. Students who fail to meet this three-major-semester post BS requirement or who elect to leave the combined program at any time and earn only the BS degree will have the same access requirements to regular graduate programs as any other student, but will not be able to use the six credits in both the bachelor’s and master’s degrees.

For each of the graduate courses counted as credits for both BS and MS degree, a minimum grade of “B” is required. Students enrolled in the program may count up to six credit hours of MME graduate courses toward the elective engineering BS requirements as well as toward the MS degree. Only graduate courses with formal lectures can be counted for both degrees. The students are responsible for confirming the eligibility of each course with the undergraduate advisor.

Students interested in the program should consult with the undergraduate advisor on their eligibility to the program. The students should also meet the graduate advisor to learn about the graduate program and available courses before completing the application form and submitting it to the undergraduate advisor. Applicants will be notified by the department and the University Graduate School of the decision on their applications.

 Combined BS/MBA Program

Students who pursue a BS degree and are in their first semester of the senior year, with at least a 3.3 GPA on both overall and upper division courses may, upon recommendation from three MME faculty members, apply to the department to enroll in the combined BS/MBA program.

To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor’s degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees. In addition to the admission requirements of the combined BS/MBA program, students must meet all the admission requirements of the University Graduate School and those of the College of Business Administration.

The MBA curriculum at the Chapman Graduate School of business consists of 9 credit hours of pre-core courses, 31 credit hours of core courses, 3 credit hours of professional development seminars, and 12 credit hours of elective courses, for a total of 55 credit hours.

The pre-core of 9 credit hours may be considered for waiver based on prior course work or exemption exams. An evaluation will be conducted at the time of admission to determine eligibility for a waiver by the MBA program graduate advisor.

In addition, students can count up to three MME graduate courses as credits for both the BS electives and MBA electives, for a total savings of 9 credit hours. The following is a list of eligible MME graduate courses:

- EML 5927 Professional Development and Leadership for Mechanical Engineers
- EML 5555 Special Projects in Mechanical Engineering Design and Business Development*
- EML 6908 Independent Studies*

*These courses should have management, decision making and/or cost estimating components.

The combined BS/MBA program has been designed to be a continuous program. During this combined BS/MBA program, upon completion of all the requirements of the undergraduate program, students will receive their BS degree. Students may also elect to permanently leave the combined program at any time and earn only the BS degree. Students who elect to leave the combined program and earn only the BS degree will have the same access requirements to regular graduate programs as any other student, but will not be able to use the 9 credit hours in both the BS and MBA degrees.

For each of the graduate courses counted as credits for both BS and MBA degrees, a minimum grade of “B” is
required. Students are responsible for confirming the eligibility of each course with the undergraduate advisor.

Students interested in the program should consult with the undergraduate advisor on their eligibility to the program. The students should also meet the MBA program graduate advisor to learn about the graduate program and available courses before completing the application form and submitting it to the undergraduate advisor. Final decision for admission to the MBA program will be made by the University Graduate School upon recommendation by the College of Business Administration. Applicants will be notified by the department and the University Graduate School of the decision on their applications.

**Combined BS in Mechanical Engineering/MS in Engineering Management (BSME/MSEM)**

Students who pursue a BS degree and have completed 75–90 credits in the undergraduate program of Mechanical Engineering with an overall GPA of 3.2 or higher may, upon recommendation from three faculty members, apply to the department to enroll in the combined BSME/MSEM program. Students must also submit an online application to the University Graduate School for admission to the MSEM program. In addition to the admission requirements of the MSEM program, students must meet all the admission requirements of the University Graduate School.

Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor’s degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships.

Students enrolled in the combined degree program could count up to three Mechanical Engineering graduate courses for both the BSME electives and the MSEM electives, for a total saving of 9 credit hours. The following is a list of eligible Mechanical Engineering graduate courses:

- EGM 5346: Computational Engineering Analysis
- EGM 5354: Finite Element Method Applications in ME
- EGM 5615: Synthesis of Engineering Mechanics
- EML 5103: Intermediate Thermodynamics
- EML 5152: Intermediate Heat Transfer
- EML 5505: Smart Machine Design and Development
- EML 5509: Mechanical Design Optimization
- EML 5530: Intermediate CAD/CAE
- EML 5606C: Advanced Refrigeration and AC Systems
- EML 5709: Intermediate Fluid Mechanics

The combined BSME/MSEM program has been designed to be a continuous program. During this combined BSME/MSEM program, upon completion of all the requirements of the BSME program, students will receive their BSME degree. Students may elect to permanently leave the combined program and earn only the BSME degree. Students who elect to leave the combined program and earn only the BS degree will have the same access requirements to regular graduate programs as any other student, but will not be able to use the 9 credit hours in both the BSME and MSEM degrees.

For each of the graduate courses counted as credits for both BSME and MSEM degrees, a minimum grade of "B" is required. Only graduate courses with formal lecture can be counted for both degrees. The students are responsible for confirming the eligibility of each course with their undergraduate advisors.

Students interested in the combined program should consult with their undergraduate advisor on their eligibility to the program. The student should also meet the MSEM Program Director to learn about the graduate program and available tracks/courses before completing the application form and submitting it to their undergraduate advisor. Final decision for admission to the MSEM program will be made by the University Graduate School upon recommendation by the Engineering Management program director. Applicants will be notified by the Engineering Management Program and the University Graduate School of the decision on their applications.

**Minor in Energy Systems**

Fully enrolled non-mechanical engineering undergraduate students, who have at least a junior status with a cumulative FIU Grade Point Average of 2.0 or better, may apply to the Department of Mechanical and Materials Engineering to request a minor in Energy Systems. To earn a minor in Energy Systems students must complete the 16 credit hours work listed below with a minimum grade of "C" in each course.

- EGN 3311: Statics $^1$ 3
- EGN 3321: Dynamics $^1$ 3
- EGN 3343: Thermodynamics $^1$ 3
- EML 3126: Transport Phenomena $^1$ 3
- EML 3126L: Transport Phenomena Lab $^1$ 1
- EML 4140: Heat Transfer 3

$^1$Students who have taken equivalent course/courses will be exempted from taking these courses. However, they need to select courses from the following list to satisfy the minimum requirement of 15 credit hours for the minor:

- EML 3101: Thermodynamics II 3
- EML 4706: Design of Thermal and Fluid Systems 3
- EML 4601: Principles of Refrigerating and Air Conditioning 3
- EML 4601L: Refrigeration and A/C Lab 1
- EML 4721: Introduction to Computational Thermofluids 3

**Minor in Aerospace Engineering**

Fully enrolled non-Mechanical Engineering undergraduate students, who have at least a junior status with a cumulative FIU Grade Point Average of 2.2 or better, may apply to the Department of Mechanical and Materials Engineering to request a minor in Aerospace Engineering. To earn a minor in Aerospace Engineering students must complete the 16 credit hours work listed below with a minimum grade of "C" in each course.

- EGM 4311: Statics $^1$ 3
- EGM 4321: Dynamics $^1$ 3
- EGM 4343: Thermodynamics $^1$ 3
- EML 4326: Transport Phenomena $^1$ 3
- EML 4326L: Transport Phenomena Lab $^1$ 1
- EML 5410: Transport Phenomena Lab $^1$ 1
- EML 5412: Transport Phenomena Lab $^1$ 1
- EML 5415: Transport Phenomena Lab $^1$ 1
- EML 5417: Transport Phenomena Lab $^1$ 1
EAS 4105 Introduction to Flight Mechanics 3
EGM 5615 Synthesis of Engineering Mechanics 3
or
EAS 4200 Introduction to Design and Analysis of Aerospace Structures 3
EMA 3702L Mechanics and Materials Science Lab 1
EML 4419 Propulsion Systems 3
EML 4711 Gas Dynamics 3
and
EGM 4350 Finite Elements in Mechanical Engineering 3
or
EML 4721 Introduction to Computational Thermo Fluids 3
or
EAS 4712 Aerodynamic Shape Design 3

All non-Mechanical Engineering students will have to meet the pre-requisite requirements for the above-listed courses. Students who have taken any equivalent course(s) to those listed above will be exempt from taking the course(s) again. However, they will need to select courses from the following list to satisfy the minimum requirement of 15 credit hours for the minor:

EMA 5295 Principles of Composite Materials 3
EML 4702 Fluid Dynamics 3
EML 4220 Mechanical Vibrations 3
EML 5125 Classical Dynamics 3
EML 5509 Mechanical Design Optimization 3

Minor in Engineering Science
Fully enrolled non-mechanical engineering undergraduate students, who have at least a junior status with a cumulative FIU Grade Point Average of 2.0 or better, may apply to the Department of Mechanical and Materials Engineering to request a minor in Engineering Science. To earn a minor in Engineering Sciences students must complete the 16 credit hours listed below with a minimum grade of “C” in each course.

EGN 3311 Statics¹ 3
EGN 3321 Dynamics¹ 3
EGN 3365 Materials in Engineering 3
EMA 3702 Mechanics and Materials Science¹ 3
and
EMA 3702L Mechanics and Materials Science Lab¹ 1
or
EML 3126 Transport Phenomena 1 3
EML 3126L Transport Phenomena Lab¹ 1
EGN 3343 Thermodynamics ² 3

¹Students who have taken equivalent course/courses will be exempt from taking these courses. However, they will need to select courses from the following list to satisfy the minimum requirement of 15 credit hours for the minor:

EML 3222 System Dynamics 3
EML 3500 Mechanical Design I 3
EML 3101 Thermodynamics 3
EML 4140 Heat Transfer 3

Minor in Mechanical Design
Fully enrolled non-mechanical engineering undergraduate students, who have at least a junior status with a cumulative FIU Grade Point Average of 2.0 or better, may apply to the Department of Mechanical and Materials Engineering to request a minor in Mechanical Design. To earn a minor in Mechanical Design students must complete the 16 credit hours listed below with a minimum grade of “C” in each course.

EGN 3311 Statics¹ 3
EGN 3365 Materials in Engineering¹ 3
EMA 3702 Mechanics and Materials Science 3
and
EMA 3702L Mechanics and Materials Science Lab 1
EML 3500 Mechanical Design I 3
EML 4501 Mechanical Design II 3

¹Students who have taken equivalent course/courses will be exempted from taking these courses. However, they need to select courses from the following list to satisfy the minimum requirement of 15 credit hours for the minor:

EML 3036 Simulation Software for Mechanical Engineers 3
EGM 4350 Finite Element Analysis in Mechanical Design 3
EML 4804 Introduction to Mechatronics 3
EML 4806 Modeling and Control of Robots 3

Minor in Robotics and Mechatronics
Fully enrolled non-mechanical engineering undergraduate students, who have at least a junior status with a cumulative FIU Grade Point Average of 2.0 or better, may apply to the Department of Mechanical and Materials Engineering to request a minor in Robotics and Mechatronics. To earn a minor in Robotics and Mechatronics students must complete the 16 credit hours listed below with a minimum grade of “C” in each course.

EGN 3311 Statics¹ 3
EGN 3321 Dynamics¹ 3
EML 3301L Instrumentation and Measurement Lab 1
EMA 3702 Mechanics and Materials Science 3
EML 4804 Introduction to Mechatronics 3
EML 4806 Modeling and Control of Robots 3

¹Students who have taken equivalent course/courses will be exempted from taking these courses. However, they need to select courses from the following list to satisfy the minimum requirement of 15 credit hours for the minor:

EML 3036 Simulation Software for Mechanical Engineers 3
EML 4312 Automatic Control Theory 3
EML 4840 Robot Design 3
EML 4535 Mechanical Computer Aided Design 3

Professional Certificate Programs
The Professional Certificate Programs provide both traditional students and practicing professionals with learning experiences that enhance their design capabilities in these concentration areas: (1) Heating, Ventilating and Air Conditioning Design, (2) Robotics Engineering, (3) Materials Engineering, and (4) Aerospace Engineering.
Each of the certificate programs focuses on both basic engineering science and practical applications of system design. Interested applicants must contact the department
chairperson or the coordinator of the specific certificate program prior to registering for the program. The certificate will be awarded to students who successfully pass each of the listed group of five courses with a minimum grade of "C" or better in the selected concentration area:

**Professional Certificate in Heating, Ventilating and Air Conditioning Design**

Yiding Cao, Professor and Coordinator

- EGN 3343 Thermodynamics I 3
- EIN 3354 Engineering Economy 3
- EML 4601 Principles of Refrigerating and Air Conditioning 3
- EML 4603 Air Conditioning Design 3
- EML 4608C Mechanical Systems in Environmental Control 3

Some of these courses may require additional prerequisites or permission of the program coordinator.

**Professional Certificate in Materials Engineering**

W. Kinzy Jones, Professor and Coordinator

- EGN 3365 Materials Engineering 3
- EGM 4521C Materials Science I 3
- EGM 4522C Materials Science II 3
- EMA 5015 Introduction to Nanomaterials Engineering 3
- EML 4911 Undergraduate Research Experience 3

**Professional Certificate in Robotics Engineering**

Sabri Tosunoglu, Associate Professor and Coordinator

- EML 4804 Introduction to Mechatronics 3
- EML 4806 Modeling and Control of Robots 3
- EML 4840 Robot Design 3
- EML 4823 Introduction to Sensors and Signal Processing 3
- EML 4911 Undergraduate Research Experience 3

Some of these courses may require additional prerequisites or permission of the program coordinator.

**Professional Certificate in Aerospace Engineering**

Cesar Levy, Professor and Coordinator

- EAS 4105 Introduction to Flight Mechanics 3
- EAS 4200 Introduction to Design and Analysis of Aerospace Structures 3
- EMA 3702L Mechanics and Materials Science Lab 1
- EML 4419 Propulsion Systems 3
- EML 4711 Gas Dynamics 3
  - or
- EGM 4350 Finite Elements in Mechanical Engineering 3
  - or
- EML 4721 Introduction to Computational Thermo Fluids 3
  - or

EAS 4712 Aerodynamic Shape Design 3

Some of these courses may require additional prerequisites or permission of the program coordinator.

**Course Descriptions**

**Definition of Prefixes**

EAS-Engineering: Aerospace; ECH-Engineering: Chemical; EGM-Engineering: Mechanics; EGN-Engineering: General; EIN - Engineering: Industrial; EMA-Engineering: Materials; EMC-Engineering: Mechanical and Chemical; EML-Engineering: Mechanical

**EAS 4105 Introduction to Flight Mechanics (3).** An introductory level course on the fundamentals of aerospace engineering with emphasis on aerodynamics and airplane performance. Prerequisite: EML 3126.

**EAS 4200 Introduction to Design and Analysis of Aerospace Structures (3).** Principles of aircraft design and analysis. Prerequisites: EML 3036, MAP 2302 or EGM 3311, EMA 3702, EML 4140.

**EAS 4712 Aerodynamic Shape Design (3).** Conceptual formulations, analytical descriptions and numerical integration algorithms for inverse shape design and optimized shape design of 2D and 3D aerodynamic configurations. Prerequisites: EML 3126, EML 4140. Corequisite: EML 3036.

**EAS 5124 Aerodynamics and Flight Mechanics (3).** Fundamentals of aerodynamics, definition of aerodynamic shapes, analysis of aerodynamic forces, airplane performance, and flight stability and control. Prerequisites: ESN 3231, EML 3126, EGN 3343.

**EAS 5221 Design and Analysis of Aerospace Structures (3).** Fundamental principles of aircraft design and analysis. Advanced computational methods used for analysis of aerospace structures. Prerequisites: EML 3032, MAP 2302 or EGM 3311, EMA 3702, EML 4140.

**ECH 3704 Principles of Industrial Electrochemistry (3).** This course provides a discussion of the basic principles underlying various electrochemical processes. The emphasis is on theoretical principles involved in plating, refining, winning; aqueous and fused salts, primary, secondary and fuel cells. Prerequisite: CHM 1045.

**ECH 4706 Engineering Application of Electrochemistry (3).** The application of the electrochemical engineering principles to the analysis of industrial processes. Emphasis is placed on electrolysis in aqueous solutions and in fused salts; electrodeposition, electrowinning, and refining; electrochemical power systems. Prerequisite: CHM 1045.

**ECH 4826 Corrosion Control (3).** Various forms of corrosion, including pitting, stress, crevice, galvanic and microbial induced corrosion, are presented. The problems of material selection, failure analyses and corrosion control are discussed. Prerequisite: EGN 3365.

**EGM 3311 Analysis of Engineering Systems (3).** Statistics and probability analysis of materials and fluids experiments, structural and fluid system modeling and analysis using lumped parameters; numerical methods to find solutions. Prerequisites: MAC 2312 and EML 2032.

EGM 4350 Finite Element Analysis in Mechanical Engineering (3). Finite Element Analysis is developed as a means to determine stress and deformation levels as well as temperature and heat flux levels in solids. Application by means of commercial software. Prerequisites: EGM 3311 and EMA 3702. Corequisite: EML 4140.

EGM 4370 Introduction to Meshfree and Alternative Methods in Mechanical Engineering (3). Course covers the alternative methods of engineering analysis with a special focus on meshfree method with distance fields in mechanical engineering. Prerequisites: EML 3036, (MAP 2302 or EGM 3311), or permission of the instructor.

EGM 4521C Material Science I (3). Course provides a more in-depth understanding of principles that determine material properties. Topics include structure, effects of thermodynamics, phase and kinetics on microstructural development. Prerequisite: EGN 3365.

EGM 4522C Materials Science II (3). Mechanical properties of materials, including strengthening plasticity and fracture. Introduction into ceramic and polymer materials systems. Prerequisite: EGN 3365.

EGM 4610 Introduction to Continuum Mechanics (3). Introduction to modern continuum mechanics, mathematical preliminaries, stress and equilibrium, deformations and compatibility, constitutive equations, balance laws, problem solution strategies. Prerequisite: EMA 3702.

EGM 5315 Intermediate Analysis of Mechanical Systems (3). First course at the graduate level in the analysis of mechanical systems. Modeling of the system and analytical and numerical methods of solution of the governing equations will be studied. Fluid and thermodynamic systems will be emphasized in this course. Prerequisites: EGM 3311, MAP 2302, or permission of the instructor.

EGM 5346 Computational Engineering Analysis (3). Application of computational methods to mechanical engineering problems of translational, rotational, control, thermal and fluid systems employing linear/nonlinear system elements. Prerequisites: EML 2032, MAP 2302, EML 3222, or permission of the instructor.

EGM 5354 Finite Element Method Applications in Mechanical Engineering (3). Utilize the finite element method to solve problems in heat transfer, fluid dynamics, diffusion, acoustics, vibrations, and electromagnetism, as well as the coupled interaction of these phenomena. Prerequisites: EML 2032, EMA 3702, and EML 4140.

EGM 5371 Meshfree and Alternative Methods in Mechanical Engineering (3). Course covers the alternative methods in engineering analysis with a special focus on meshfree method with distance fields in mechanical engineering. Prerequisites: EML 3036, (MAP 2302 or EGM 3311), EGM 5354, or permission of the instructor.

EGM 5615 Synthesis of Engineering Mechanics (3). Unified approach to the analysis of continuous media using constitutive equations, mechanical behavior of materials and their usefulness in handling failure theories and composite materials. Prerequisites: MAP 2302 or EGM 3311, and EMA 3702.

EGM 5935 Review of Topics in Mechanical Engineering (4). To prepare qualified candidates to take the Mechanical Engineering PE written examination. Reviewed courses include: Thermodynamics, Fluid Mechanics, Mechanics of Materials, Mechanical Design and Heat Transfer.

EGN 1033 Technology, Humans, and Society – GL (3). The course examines technology development and its impact on cultures, politics and human life to envision appropriate use of technology for a sustainable future through global learning approaches.

EGN 1100 Introduction to Engineering (2). This course will provide a broad exposure, “birdseye” view, of the engineering profession to entering freshmen.

EGN 1110C Engineering Drawing (3). Laboratory experiences in the principles and practice of idea development and expression through free hand sketching and conventional instrument drafting. A beginning course for students with no prior drafting experience.

EGN 3311 Statics (3). Forces on particles, and two and three dimensional rigid bodies, equilibrium of forces, moments, couples, centroids, section properties, and load analysis of structures; vector approach is utilized. Prerequisites: MAC 2312 and PHY 2048. Corequisite: MAC 2313.

EGN 3321 Dynamics (3). Study of the motion of particles and rigid bodies, conservation of energy and momentum. A vector approach is utilized. Prerequisite: EGN 3311.

EGN 3343 Thermodynamics I (3). Fundamental concepts of basic thermodynamics including first and second law topics, equations of state and general thermodynamic relationships. Prerequisites: MAC 2312, PHY 2048, and CHM 1045.

EGN 3365 Materials in Engineering (3). A study of materials used in engineering. Includes atomic structure phase diagrams and reactions within solid materials. Prerequisites: CHM 1045, MAC 2311 and PHY 2048.

EGN 5367 Industrial Materials and Engineering Design (3). Industrial materials, material selection, and engineering design process, including synthesis, analysis, optimization, and evaluation.

EIN 1396C Basic Industrial Shop and Manufacturing Practices (3). Fundamentals of basic capabilities and requirements for a modern shop or industrial manufacturing facilities. Rudiments of safety requirements, wood technology, metal technology and plastic technology.
EIN 3390 Manufacturing Processes (2). Study of interrelationships among materials, design and processing and their impact on workplace design, productivity and process analysis. Prerequisite: EGN 3365. Corequisite: EIN 3390L. (F,S,SS)

EIN 3390L Manufacturing Processes Laboratory (1). Experiments are conducted using the machines, equipment and tools in the laboratory to provide students with hands-on experience on product design, process planning, fabrication and quality assurance. Corequisite: EIN 3390. (Lab fees assessed). (F,S,SS)

EMA 3066 Polymer Science and Engineering (3). Introduction to molecular structure; property relationships; preparation, processing and applications of macromolecular materials. Prerequisite: EGN 3365.

EMA 3702 Mechanics and Materials Science (3). A mid-level course addressing the selection of engineering materials based on static and dynamic loadings, environmental analysis and the experimental analysis of mechanical systems. Emphasis on metals and composite materials. Prerequisites: EGN 3311 and Upper division level course addressing the selection of engineering materials. Prerequisites: EGN 3365 and EMA 3702.

EMA 4121 Physical Metallurgy (3). Correlation of properties; structural, mechanical, and thermal history and service behavior of various metals and their alloys. Prerequisite: EGN 3365.

EMA 4121L Materials Laboratory (1). Laboratory techniques in materials, including metallography, mechanical testing, heat treatment and non-destructive testing techniques. Prerequisite: EGN 3365.

EMA 4223 Mechanical Metallurgy (3). Fundamentals of plastic deformation of crystalline solids: elementary theory of statics and dynamics of dislocations; applications to deformation of single crystals and polycrystals; fracture of metals. Prerequisites: EGN 3365 and EMA 3702.

EMA 5001 Physical Properties of Materials (3). The physical properties of materials, including the influence of structure on properties, thermodynamics of solids and phase transformations and kinetics on microstructural development. Prerequisite: EGM 4521C.

EMA 5015 Introduction to Nanomaterials Engineering (3). The science and engineering of nanomaterials, the fabrication, behavior, and characterization of the nano-size particles and materials. Prerequisites: EGN 3365, EGM 3311.

EMA 5016 Nanoelectronic Materials (3). Course provides an understanding of nanotechnology based on materials engineering. Topics include energy bands in semiconductors, MOSFET scaling, materials processing and other applications. Prerequisite: EGN 3365.

EMA 5017 Nanoparticle Technology (3). An interdisciplinary overview of the nanoparticle engineering. Synthesis of nanoparticles, nanoparticle growth and transport, characterization methods, and applications. Prerequisites: EGN 3365 or permission of the instructor.

EMA 5018 Nanoscale Modeling of Materials (3). Overview of computational nanotechnology. Modeling, simulation and design of nanomaterials. Energy minimization, molecular dynamics and advanced multiscale numerical techniques. Prerequisites: EGN 3365 or permission of the instructor.

EMA 5019 Advanced Mechanical Properties of Materials (3). Advanced treatment of the mechanical behavior of solids; examines crystal plasticity, dislocations, point defects and grain boundaries, creep and fatigue behavior, fracture. Prerequisite: EGN 3365.

EMA 5104 Advanced Mechanical Properties of Materials (3). Synthesis of ceramics, inorganic glasses and their microstructure as related to physical properties. Prerequisites: EGN 3365 or permission of the instructor.

EMA 5200 Nanomechanics and Nanotribology (3). Mechanical and tribological properties at nano-scale length, fundamentals of nanoindentation and nanoDMA, application of nanoindentation for hard, soft, natural and biological materials. Prerequisites: EGN 3365 or permission of the instructor.

EMA 5295 Principles of Composite Materials (3). The mechanical behavior of composite materials used in the automotive, aircraft and sporting goods industries. Material and laminar properties; design of composites; failure analysis; and environmental effects. Prerequisites: EGM 5615 or permission of the instructor.

EMA 5326 Corrosion Science and Engineering (3). Electrochemical principles of corrosion, methods of corrosion control and measurement. Prerequisites: EGN 3365 or permission of the instructor.

EMA 5507C Analytical Techniques of Materials Sciences (3). Fundamental theories and techniques of the analytical methods for materials including: X-ray diffraction, scanning and transmission electron microscopy, thermal and surface analysis, and vacuum systems. Prerequisite: EGN 3365.

EMA 5605 Fundamentals of Materials Processing (3). Extraction of materials from the minerals using pyro, hydro and electro techniques. Fundamentals of solidification process. Prerequisites: EGM 4521C or permission of the instructor.

EMA 5646 Ceramic Processing (3). Introduction to the science of ceramic processing, with emphasis on theoretical fundamentals and current state-of-the-art processing. Prerequisite: EMA 5140.
EMA 5935 Advanced Topics in Materials Engineering (3). Topics include thermodynamics of solids, principles of physical metallurgy, including phase transformation and diffusion and analytical methods in materials engineering. Prerequisites: EGN 3343 and EGN 3365.

EML 1051C Introduction to Solar Energy Utilization (3). Solar energy principles, technologies, and applications as source of heat and electricity (Thermal and Photovoltaics); energy analysis, projects/products design and construction, and lab investigation. Prerequisite: High school students in dual enrollment.

EML 1533 Introduction to CAD for Mechanical Engineers (3). Introduction to technical graphical visualization and communication for mechanical design; knowledge and skills to use a software package to create multi-view and 3-D Drawings using ANSI standards.

EML 2030 Software for Mechanical Design (3). Students will use software to develop solid models and a mathematical software package to solve mechanical engineering problems. A programming language will be used to define input parameters. Prerequisites: EGN 1100 or EML 3006. Corequisite: MAC 2313.

EML 2032 Programming for Mechanical Engineers (3). Operation of computers and programming languages for mechanical design. C++ will be used to develop programs for mechanical design problems. Introduction to Visual Basic and Fortran 90 environments.

EML 3006 Concepts of Engineering (2). Provide a broad exposure, "birdseye" view, of the engineering profession to junior and senior transfer students. To be completed within two terms after admission to the ME program.

EML 3036 Simulation Software for Mechanical Engineers (3). Commercial software to reinforce the concepts of stress, deformation, fluid flow, rigid body dynamics, heat transfer and to optimize solid model designs via multi-disciplinary computational analysis. Corequisites: EMA 3702, EGN 3343, and EML 3126.

EML 3101 Thermodynamics II (3). Continuation of Thermodynamics I covering reactive and nonreactive mixtures and various thermodynamic cycles. Prerequisite: EGN 3343.

EML 3126L Transport Phenomena Laboratory (1). Experiments illustrating the principles of transport phenomena: wind tunnel, shock tubes, airfoils. Prerequisite: EML 3126.

EML 3222 System Dynamics (3). Introduction to modeling of mechanical systems; derivation of system equations and response of fluid, thermal, and vibrational systems. Available solution methods will be discussed. Prerequisites: EGN 3321, EMA 3702, EML 2032.

EML 3262 Kinematics and Mechanism Design (3). Fundamentals of kinematics and mechanism design; study of the mechanisms used in machinery and analysis of their motion. Two and three dimensional analytical and numerical methods of computer application. Design is emphasized. Prerequisites: EGN 3321, EML 2032.

EML 3301 Instrumentation (3). A practical study of common instrumentation techniques. The use of instrumentation and measurement methods to solve problems is emphasized. Prerequisites: EEL 3003 or EEL 3110.

EML 3301L Instrumentation and Measurement Laboratory (1). A practical study of common instrumentation elements and measurement systems used in mechanical and electro-mechanical applications. Prerequisite: EEL 3110L.

EML 3500 Mechanical Design I (3). Design of basic machine members including shafts, springs, belts, clutches, chains, etc. Prerequisites: EGN 3321, EMA 3702, and EGN 3365.

EML 4081 Introduction to Nondestructive Testing and Mechanical Health Monitoring (3). Nondestructive Testing (NDT) and Mechanical Health Monitoring (MHM) techniques will be introduced. Computational methods for interpretation of signals will be discussed. Prerequisite: Permission of the instructor.

EML 4140 Heat Transfer (3). Study of the fundamentals of heat transfer including conduction, convection, and radiation. Computer applications and design problems emphasized. Prerequisites: EML 2032, EGN 3343, EML 3126, and MAP 2302.

EML 4220 Mechanical Vibrations (3). Theory and application of mechanical vibrations. Includes damped and undamped vibrations with one or more degrees of freedom computer methods emphasized. Prerequisites: EGN 3321, EMA 3702, and EML 2032.

EML 4246 Tribological Design for Machines and Elements (3). Introduction to friction and wear, analysis of tribological systems, and applications of Tribological Principles to machine and machine element design. Prerequisites: EML 4501 or permission of the instructor.

EML 4260 Dynamics of Machinery (3). Acceleration and force analysis of reciprocating and rotating mechanisms and machines. Dynamic balancing of idealized systems. Torsional and lateral critical speeds of a rotor and self-excited instability. Prerequisite: EML 3262.

EML 4264 Introduction to Vehicle Dynamics (3). Fundamentals of dynamics applied to the study of automotive vehicle performance. Emphasis will be placed on the use of models to evaluate or improve vehicle design. Prerequisite: EGN 3321.
EML 4312 Automatic Control Theory (3). Feedback control systems; stability analysis; graphical methods. Applications with emphasis on hydraulic, pneumatic and electro-mechanical devices. Prerequisites: EGN 3321, MAP 2302, EML 2032.

EML 4410 Combustion Processes (3). Introduction to combustion processes, thermochemistry, chemical kinetics, laminar flame propagation, detonations and explosions, flammability and ignition, applications in IC engines and gas turbines. Prerequisite: EML 4140.

EML 4501 Mechanical Design II (3). Continuation of design analysis of elementary machine elements, including lubrication bearings, and gears. Introduction to advanced analysis techniques. Prerequisite: EML 3500.

EML 4503 Production Machine Modeling and Design (3). The modeling of metal removing, forming, and polymer processing operations will be introduced. The design of production machines will be discussed based on the models. Prerequisites: EGN 3365, EMA 3702, and EIN 3390.

EML 4535 Mechanical Computer Aided Design (3). Introduction to the use of computers in the design process. Course emphasizes the use of interactive computing and computer graphics in developing CAD applications. Programming project required. Prerequisite: EML 2032.

EML 4551 Ethics and Design Project Organization – GL (1). Organization to include problem definition, goals, survey, conceptual and preliminary design, ethics and cost components, social and environmental impact, presentation to enhance communication skills. Prerequisites: EGM 3311, EML 3500, and EML 4140.

EML 4557 Market Oriented Design and Production (3). Students will work in groups to simulate development of innovative products and bringing them to the market. Patent search, design, prototyping, and finding manufactures will be discussed.

EML 4561 Introduction to Electronic Packaging (3). Introduction to mechanical packaging of electronic systems. Integrates concepts in mechanical engineering to the packaging of electronic systems, such as hybrid microelectronics. Prerequisites: EEL 3003 or EEL 3110, and EEL 3110L.

EML 4569 Risks and Design Project Organization (1). Presentation to enhance communication skills. Prerequisite: EML 4140.

EML 4601L Refrigeration and Air Conditioning Lab (1). Experiments in Air Conditioning and Refrigeration applications. Corequisite: EML 4601.

EML 4603 Air Conditioning Design (3). Mechanical design and optimization of an air conditioning system for a selected application including comfort, industrial applications, building operation and management. Design project required. Prerequisites: EML 4140 or permission of the instructor.

EML 4608C Mechanical Systems in Environmental Control (3). Analysis of refrigeration, heating and air handling systems. Design of environmental control systems. Prerequisite: EGN 3343.

EML 4702 Fluid Dynamics (3). A mid-level course on ideal fluid flow, compressible flow and viscous flow. Analysis and numerical techniques of continuity and Navier-Stokes equation for incompressible and compressible flow. Prerequisite: EML 3126.

EML 4711 Gas Dynamics (3). Basic equations of motion for the flow of a compressible fluid, isentropic flow, normal and oblique shock waves, linearized flows method of characteristics and supersonic nozzle and airfoil design. Prerequisites: EML 3126 and EGN 3343.

EML 4721 Introduction to Computational Thermo-Fluids (3). Introduction of numerical methods for compressible and incompressible flows and heat transfer. Topics include explicit and implicit schemes, accuracy and stability in different coordinate systems. Prerequisite: EGM 3311. Corequisite: EML 4140.

EML 4804 Introduction to Mechatronics (3). This course will introduce computer controlled precise motion generation in smart machines. Prerequisites: EML 3301L or EEL 3110L.

EML 4806 Modeling and Control of Robots (3). Robot models in terms of geometric parameters. Kinematic and dynamic modeling of robots. Static and dynamic force equilibrium. Robot programming, control algorithms, simulations. Prerequisites: EGN 3321 and EML 2032.

EML 4823 Introduction to Sensors and Signal Processing (3). This course will introduce the basic sensors and signal processing techniques for design and development of smart products. Prerequisites: EML 3301L or EEL 3110L.

EML 4840 Robot Design (3). Robotic arm and mobile platform design including a review of major design components such as actuators, sensors, and controllers. Computer-based design, analysis and hands-on projects. Prerequisites: EML 4806 or permission of the instructor.
EML 4905 Senior Design Project – GL (3). Project statement, in-depth survey, conceptual and structural design, analysis, statistical and cost analyses, ethical, societal and environmental impact, prototype construction, final presentation. Prerequisites: EML 4551 and permission of the advisor. Corequisites: EML 4501, EML 4706.

EML 4906L Mechanical Lab (1). Experiments with various types of mechanical equipment including engines, fans, boilers, pumps, motions and mechanics. Prerequisites: EGN 3343 and EML 3126.

EML 4911 Undergraduate Research Experience (1-3). Participate in funded research in the areas of nanotechnology, advanced materials, mechanics, mechatronics, robotics, thermal and fluid sciences and computational engineering. Prerequisite: Permission of a faculty advisor.

EML 4920 Introduction to Professional Development and Leadership for Mechanical Engineers (3). Introduction to consequences of engineering, concepts of career management, decision making, leadership and intrapreneuring that enhance the effectiveness of professional engineering practice. Prerequisite: Senior standing in engineering.

EML 4930 Special Topics/Projects (1-3). Individual conferences, assigned readings, and reports on independent investigations selected by the students and professor with approval of advisor.

EML 4940 Undergraduate Internship (1). Undergraduate students gain work experience through supervised internship in industry. The student develops an internship program proposal, and the work performed is documented and presented. Prerequisites: Permission of departmental advisor or undergraduate program director.

EML 4949 Co-op Work Experience (3). Supervised full-time work experience in engineering field. Limited to students admitted to the Co-op program with consent of advisor. Evaluation and reports required.

EML 5082 Advanced Nondestructive Testing and Mechanical Health Monitoring (3). Theory and application of Nondestructive Testing (NDT) and Mechanical Health Monitoring (MHM) techniques will be discussed. Automated interpretation of signals and advanced methods will be presented. Prerequisite: Permission of the instructor.

EML 5103 Intermediate Thermo Dynamics (3). Thermodynamic approach to processes and engines; alternative formulations and Legendre transformations; Maxwell relations, first and second order phase transitions. Prerequisite: EML 3101.

EML 5104 Classical Thermodynamics (3). Mathematical analysis of the laws of classical reversible and irreversible thermodynamics. Applications to mechanical, electromagnetic, and chemical systems. Prerequisite: EML 3101.

EML 5290 Fundamentals of Microfabrication (3). Science of miniaturization will be introduced. Materials choices, scaling laws, different options to make very small machines and practical applications will be emphasized. Progress related to state-of-the-art BioMicroElectro Mechanical Systems will be presented.

EML 5385 Identification Techniques of Mechanical Systems (3). FFT, time series analysis and neural networks are introduced. Applications of these techniques are discussed for identification of mechanical structures and machine diagnostics. Prerequisite: EML 4804.

EML 5412 Combustion Processes (3). Introduction to combustion processes, thermochemistry, chemical kinetics, laminar flame propagation, detonations and explosions, flammability and ignition, applications in IC engines and gas turbines. Prerequisites: EML 3101 and EML 4140.

EML 5505 Smart Machine Design and Development (3). Design of independently operating smart electromechanical systems (most consumer products) which monitor their environment, give decisions, and create motion. Prerequisites: EML 4804 or permission of the instructor.

EML 5509 Mechanical Design Optimization (3). Finite element analysis and sensitivity analysis combined with numerical single objective and multi-objective optimization techniques to optimize design. Prerequisite: Permission of the instructor.

EML 5519 Fault-Tolerant System Design (3). Fault tolerance in mechanical, manufacturing, computer, and aerospace systems. Basic stages of fault isolation. Fault tolerance measures, architectures, and mechanical system design methodologies. Prerequisite: EML 3500.

EML 5528 Digital Control of Mechanical Systems (3). Discrete modeling of mechanical systems. Digital feedback systems. Computer interface with mechanical systems. Controller design with emphasis on hydraulic, pneumatic and electro-mechanical devices. Prerequisite: Permission of the instructor.

EML 5530 Intermediate Computer-Aided Design/Computer-Aided Engineering (3). Computer-aided geometrical modeling of spatial mechanical systems. Design criteria and analytical approaches for planar kinematic systems will be emphasized. Prerequisites: EML 4535 or permission of the instructor.
EML 5555 Special Projects in Mechanical Engineering Design and Business Development (3). Mechanical engineering design project that encompasses conceptual and structural design, analysis, and optimization complemented by a study to develop a business venture to produce the designed product. Prerequisites: EML 4501 or equivalent, QMB 6357C, and MAN 6209.

EML 5559 Design, Production and Marketing (3). Student teams will evaluate the market and identify promising mechatronics systems. They will simulate design, development, and commercialization of the products in realistic environment.

EML 5562 Advanced Electronic Packaging (3). Advanced topics in electronic packaging. Evaluation of first through fourth level assembly. Applications of computer layout design, thermal management and mechanical stability analysis. Prerequisites: EML 4561 or permission of the instructor.

EML 5599 Heat Pipe Theory and Applications (3). Heat pipe theory, heat pipe design and its applications, especially in the areas of energy conversion and conservation. Prerequisites: EML 3101 and EML 4140.

EML 5606C Advanced Refrigeration and Air Conditioning Systems (3). The various methods used in the thermal design and analysis of both refrigeration and heat pump systems are investigated. Various methods of producing heating and cooling are examined including vapor compression, absorption, air cycle, steam jet, thermoelectric, solar heating and cooling systems. Prerequisite: EML 4601.

EML 5615C Computer-Aided Design in Air Conditioning (3). Software will be used to demonstrate heating, ventilating and air conditioning design concepts and sizing equipment & determining performance parameters. Project design is required. Prerequisites: EML 2032 and EML 4601.

EML 5708 Advanced Design of Thermal and Fluid Systems (3). Advanced designs of pumps, compressors, heat exchangers, HVAC systems and thermal and fluid control devices. Prerequisite: EML 4706.

EML 5709 Intermediate Fluid Mechanics (3). Basic concepts and scope of fluid dynamics; non-inertial reference frames. Two-dimensional potential theory. Applications to airfoils. The Navier-Stokes equations; selected exact and approximate equations. Prerequisite: EML 3126.

EML 5825 Sensors and Applied Machine Intelligence (3). Sensors, signal analysis techniques, and error compensation methods will be introduced for machine intelligence. Production Machine Modeling and Design. Prerequisites: EML 4804, EML 4503, or equivalent, or permission of the instructor.

EML 5927 Professional Development and Leadership for Mechanical Engineers (3). Consequences of engineering and concepts for personal career management, decision making leadership, and entrepreneurs that enhance the effectiveness of professional engineering practice. Prerequisite: Senior standing in engineering.

The School of Computing and Information Sciences offers both undergraduate and graduate degree programs. The major program and a minor program, are described below. The School offers three undergraduate major programs and a minor program.

Bachelor of Science in Computer Science

Degree Program Hours: 120

The Bachelor of Science program in Computer Science is accredited by the Computing Accreditation Commission (ABET), 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 – Telephone (410) 347-7700.

Two tracks are available in the upper division program.

The Computer Science track should be followed by the student who intends to continue to graduate study in computer science. The Software Design and Development track may be followed by the student who intends to pursue a software engineering career.

All required and elective courses must be completed with a grade of “C” or better. All students must participate in SCIS assessment activities and successfully complete an exit interview prior to graduation.

Lower Division Preparation

To qualify for admission to the program, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, completed COP 2210 with a grade of “C” or higher, and must be otherwise acceptable into the program.

As part of the 60 semester hours of lower division course work necessary to enter this upper division major, note the following recommendations or course requirements, or both.

Common Prerequisite Courses and Equivalencies

¹Intro Programming in C, C++, JAVA, or equivalent language. Choose programming language required by the university to which the student wishes to transfer.

²Science course for science majors.

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org, See Common Prerequisite Manual.

Required Courses

Common Prerequisites

| COP 2210      | Computer Programming I |
| MAC 2311      | Calculus I              |
| MAC 2312      | Calculus II             |
| PHY 2048      | Physics with Calculus I |
| PHY 2048L     | General Physics Lab I   |
| PHY 2049      | Physics with Calculus II|
| PHY 2049L     | General Physics Lab II  |

³Two additional one-semester courses in natural science; each of these should be a course designed for science or engineering majors. A list of additional approved courses is available through the School of Computing and Information Sciences.

Upper Division Requirements

At least 50% of the upper division credits required for the BS in Computer Science must be taken at FIU.

Courses Required for the Degree: (both tracks)

Third and Fourth Years

| CGS 1920      | Introduction to Computing | 1 |
| MAD 2104      | Discrete Mathematics      | 3 |
| COM 3110      | Business and Professional Communication | 3 |
| ENC 3213      | Professional and Technical Writing | 3 |
| COT 3420      | Logic for Computer Science | 3 |
| MAD 3512      | Introduction to Theory of Algorithms | 3 |
STA 3033  Introduction to Probability and Statistics for CS 3
CGS 3092  Professional Ethics and Social Issues in Computing 1
COP 3337  Computer Programming II 3
COP 4338  Computer Programming III 3
CDA 3103  Fundamentals of Computer Systems 3
COP 3530  Data Structures 3
COP 4555  Survey of Programming Languages 3
COP 4710  Database Management 3
CDA 4101  Structured Computer Organization 3
CEN 4010  Software Engineering I 3
COP 4610  Operating Systems Principles 3
*CIS 4911  Senior Project 3

Additional required courses for SDD track
CEN 4021  Software Engineering II 3
**CEN 4072  Fundamentals of Software Testing 3
*CIS4911 for SDD-track students must be a software engineering-focused project.
**With the permission of an SCIS UG advisor students can register for CEN 5064 Software Design and then substitute CEN 5064 for CEN 4072.

Computer Science Electives
CS-track students must complete two courses from Set 1 and one course from Set 2.
SDD-track students must complete one course from Set 1.

Set 1.
CAP 4710  Principles of Computer Graphics 3
CAP 4770  Introduction to Data Mining 3
*CEN 4021  Software Engineering II 3
CEN 4072  Fundamentals of Software Testing 3
COP 4604  Advanced Unix Programming 3
COP 4226  Advanced Windows Programming 3

Set 2.
MAD 3305  Graph Theory 3
MAD 3401  Numerical Analysis 3
MAD 4203  Introduction to Combinatorics 3
MHF 4302  Mathematical Logic 3

*CS-track students only
NOTE: Graduate courses can also be used to satisfy elective requirements. Please see adviser for approval. Graduate courses are subject to graduate fees.
Remarks: The following courses are not acceptable for credit toward graduation, unless a student has passed the course before declaring a Computer Science major: CGS 2060, CGS 3300, CGS 2100, COP 3175, MAC 2233, STA 1013, STA 2023, STA 2122, STA 3123, QMB 3200, ESI 3161.

Combined BS/MS in Computer Science
To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

Admission Requirements
1. Current enrollment in the Bachelor's Degree program in Computer Science at FIU.
2. Completed at least 90 credits of coursework.
3. Current GPA must be 3.3 or higher.
4. GRE general test score of 1000 (verbal and quantitative combined), with a minimum quantitative score of 600.
5. International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or 6.3 overall on the IELTS is required.
6. Three letters of recommendation.
7. Approval of the Graduate Committee.

General Requirements
The FIU Bachelor's degree in Computer Science must be awarded before the Master's degree.

Coursework
Required Courses
Required courses must be completed with an average of “B” or higher, and only one course may receive a grade less than “B-“.
CEN 5011  Advanced Software Engineering 3
COP 5725  Principles of Database Management Systems 3
COP 5614  Operating Systems 3
COT 5420  Theory of Computation I 3
COT 5407  Introduction to Algorithms 3

Electives
5 courses selected from the SCIS Graduate Course Offerings. No grade below “C” will be accepted in any course taken to satisfy graduate program requirements.

Overlap
Up to 4 courses (12 credits) may be used in satisfying both the Bachelor’s and Master’s degree requirements. All overlapping courses must be approved by both graduate and undergraduate program directors before students are enrolled in such courses.

The courses must be regular 5000-level computer science graduate courses intended for graduate majors.

Bachelor of Science in Information Technology
The School of Computing and Information Sciences offers a Bachelor of Science degree in Information Technology. There are two majors in the program. 1) Information Technology (IT) Major: The information technology major is for students who want broad coverage of information
technology concepts. 2) Software Major: The software major is for students who want to add a strong theoretical foundation of Computer Science that can be integrated within a vast array of career options.

The B.S. in Information Technology degree as a first major requires completion of prerequisite courses and 60 credit hours of required and elective courses as outlined below. All courses must be completed with a grade of "C" or better. All students must participate in SCIS assessment activities and successfully complete an exit interview prior to graduation.

Lower Division Preparation
To qualify for admission to the program, FIU undergraduates must have met all the University Core Curriculum requirements, achieve the competencies of the CLAS requirement, completed 60 semester hours and must be otherwise acceptable into the program.

As part of the 60 semester hours of lower division course work necessary to enter this upper division major, note the following recommendations or course requirements, or both.

Degree Program Hours: 120
Common Prerequisite Courses and Equivalencies

</tr>
</tbody>
</table>

Upper Division Requirements
At least 50% of the upper division credits required for the BS in Information Technology must be taken at FIU.

Interdisciplinary Courses for Both Majors
Nine additional credits must be taken outside the School of Computing and Information Sciences. These credits must normally be selected from the courses for a minor or certificate in another discipline. When there is no minor or certificate in the area of the student’s interest, a set of courses can be created with the approval of advisers from SCIS and the other area of interest.

Common Required Courses for Both Majors
All students must complete the following courses.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CEN 3721</td>
<td>Introduction to Human-Computer Interaction</td>
</tr>
<tr>
<td>COP 4814</td>

</tr>
<tr>
<td>CGS 3092</td>
<td>Professional Ethics and Social Issues in Computer Science</td>
</tr>
</tbody>
</table>

Information Technology Electives
Students in both majors must take information technology electives. The electives are arranged in the following areas of concentration:

- System Administration
- Applied Network Administration
- Application Development
- Databases

Information Technology (IT) Major

IT Major-specific Required Course

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>COP 3804</td>
<td>Intermediate Java</td>
</tr>
</tbody>
</table>

IT Major-specific Electives
Students must complete five electives courses, as follows. Select two areas of concentration and take two courses in each of the chosen concentration areas (four courses). Select the fifth course from any area of concentration. With approval of an adviser, the fifth elective may be met with a coop or internship.

Software Major

Software Major-specific Required Courses

<table>
<thead>
<tr>

</tr>
<tr>
<td>COP 4338</td>
<td>Computer Programming III</td>
</tr>
</tbody>
</table>

Software Major-specific Electives
Students must select one area of concentration and complete two elective courses in that area.

Free Electives for Both Majors
All students must complete nine additional credits of general electives.
Bachelor of Arts in Information Technology

Degree Program Hours: 120

The School of Computing and Information Sciences offers a Bachelor of Arts degree in Information Technology as a second major or as a second Bachelor Degree. This program is open to those students who are enrolled in and will be completing another bachelor degree program or those who already have a bachelor degree from an accredited institution. Computer Science and Computer Engineering are not accepted as the primary major at this time.

The B.A. in Information Technology degree as a second major requires completion of prerequisite courses and 30 credit hours (10 courses) of required and elective courses as outlined below. All courses must be completed with a grade of "C" or better.

Lower Division Preparation

To qualify for admission to the program, FIU undergraduates must have met all the University Core Curriculum requirements, achieve the competencies of the CLAS requirement, completed 60 semester hours, must have a different primary major or a previous Bachelor degree, and must be otherwise acceptable into the program.

As part of the 60 semester hours of lower division course work necessary to enter this upper division major, note the following recommendations or course requirements, or both.

Common Prerequisite Courses and Equivalencies

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org. See Common Prerequisite Manual. The Common Prerequisite Manual does not include a sheet for this program.

Required Courses

Common Prerequisites

All students must have completed the following courses (or equivalent) prior to starting the Information Technology program.

- CGS 2060 Introduction to Microcomputers (3) or COP 2100 Introduction to Microcomputer Applications for Computer Systems (3)
- COP 2250 Programming in Java (3)
- CGS 3559 Using the Internet (1)
- MAD 1100 Mathematics Concepts for Information Technology (3)

Upper Division Requirements

At least 50% of the upper division credits taught by the School must be taken at the University.

Information Technology Electives

All students must complete 2 courses (6 credits) from the following.

- COP 4365 Knowledge-Based Management Systems (3)
- COP 3353 Introduction to Using Unix/Linux Systems (3)
- COP 4005 Windows Programming for IT Majors (3)
- COP 4009 Windows Components Technology (3)
- CTS 4408 Database Administration (3)
- CTS 4348 Unix System Administration (3)

Cognate Electives

All students must complete 2 additional elective courses (6 credits). Students who are completing their major concurrent with their IT degree must choose their cognate elective courses from a list of designated courses from the department of their primary major. Students who have received their first Bachelor Degree prior to enrolling in the IT program must instead choose an additional two courses from the list of IT elective courses.

Minor in Computer Science

Required Courses

- COP 2210 Computer Programming I (4)
- CDA 3103 Fundamental of Computer Systems (3)
- COP 3337 Computer Programming II (3)

Plus two from the following list: COP 3175, COP 4338, COP 3530, CGS 4854, COP 4555, CDA 4101, CDA 4400, CNT 4513, CAP 4710, and MAD 3401. Normally the students from Engineering would choose COP 4338, and either COP 3530 or CDA 4101 and students from the College of Business would choose COP 3175 and one other. If one of the other options is selected, then the student should verify that he or she has the additional prerequisites necessary for the chosen course. At least nine of the 15 credits must be taken at FIU.

Course Descriptions

Definition of Prefixes

Prerequisites: COP 3337 and MAC 2312. This course will have additional fees.

**CAP 4770 Introduction to Data Mining (3).** Data mining applications, data preparation, data reduction and various data mining techniques such as association, clustering, classification, anomaly detection. Prerequisite: COP 3530. Corequisite: COP 4710.

**CAP 5011 Multimedia Systems and Applications (3).** Course covers organization of multimedia systems, data representation, quality of service, scheduling algorithms, synchronization and tele-communication of multimedia streams. Prerequisite: COP 4610.

**CAP 5510C Introduction to Bioinformatics (3).** Synchronization and tele-communication of multimedia analysis of sequence alignments, phylogeny data, gene visualization tools; machine learning; pattern discovery; predictive tools and techniques; programming and introduction to bioinformatics; algorithmic, analytical and representation, quality of service, scheduling algorithms, synchronization and tele-communication of multimedia streams. Prerequisite: COP 4610.

**CAP 5510C Introduction to Bioinformatics (3).** Introduction to bioinformatics; algorithmic, analytical and predictive tools and techniques; programming and visualization tools; machine learning; pattern discovery; analysis of sequence alignments, phylogeny data, gene expression data, and protein structure. Prerequisites: COP 3530 or equivalent and STA 3033 or equivalent.

**CAP 5602 Introduction to Artificial Intelligence (3).** Presents the basic concepts of AI and their applications to game playing, problem solving, automated reasoning, natural language processing and expert systems. Prerequisite: COP 3530. This course will have additional fees.

**CAP 5610 Introduction to Machine Learning (3).** Decision trees, Bayesian learning, reinforcement learning as well as theoretical concepts such as inductive bias, the PAC learning, minimum description length principle. Prerequisite: Graduate standing.

**CAP 5627 Affective Intelligent Agents (3).** Design and implementation methods using artificial intelligence (AI) techniques, human-computer interaction (HCI) principles, emotion theories; applications, e.g. health informatics, education, games. Prerequisites: Graduate standing or permission of the instructor.

**CAP 5701 Advanced Computer Graphics (3).** Advanced topics in computer graphics: system architecture, interactive techniques, image synthesis, current research areas. Prerequisites: COP 3530 and CAP 3710 or equivalent, or by permission. This course will have additional fees.

**CAP 5771 Principles of Data Mining (3).** Introduction to data mining concepts, knowledge representation, inferring rules, statistical modeling, decision trees, association rules, classification rules, clustering, predictive models, and instance-based learning. Prerequisites: COP 4710 and STA 3033.

**CDA 3003 Microcomputer Organization (3).** A study of the hardware components of modern microcomputers and their organization. Evaluation and comparison of the various microcomputer systems. Not acceptable for credit for Computer Science Majors. Prerequisite: COP 2250. This course will have additional fees.

**CDA 3103 Fundamentals of Computer Systems (3).** Overview of computer systems organization. Data representation. Machine and assembly language programming. Prerequisites: COP 2210 or equivalent. This course will have additional fees.

**CDA 4101 Structured Computer Organization (3).** Covers the levels of organization in a computer: Design of memory, buses, ALU, CPU; design of microprogram. Covers virtual memory, I/O, multiple processes, CISC, RISC and parallel architectures. Prerequisites: MAD 2104, CDA 3103 and COP 3337. This course will have additional fees.

**CDA 4400 Computer Hardware Analysis (3).** Study of hardware functions of a basic computer. Topics include logic elements, arithmetic logic units, control units, memory devices, organization and I/O devices. Prerequisite: CDA 4101.

**CDA 5655 Virtualized Systems (3).** Topics include the concepts and principles of virtualization and the mechanisms and techniques of building virtualized systems, from individual virtual machines to virtualized networked infrastructure. Prerequisites: COP 4610 or permission of the instructor.

**CEN 3721 Introduction to Human-Computer Interaction (3).** Fundamental concepts of human-computer interaction, cognitive models, user-centered design principles and evaluation, emerging technologies. Prerequisites: COP 2210 or COP 2250 or equivalent.

**CEN 4010 Software Engineering I (3).** Software Process Model, software analysis and specification, software design, testing. Prerequisites: COM 3110 and CGS 3092 and COP 3530. This course will have additional fees.

**CEN 4012 Software Design and Development Project (3).** Students design, implement, document, and test software systems working in faculty supervised project teams and utilizing knowledge obtained in previous courses. Required for Software Design and Development track. Prerequisite: CEN 4010. This course will have additional fees.

**CEN 4021 Software Engineering II (3).** Issues underlying the successful development of large scale software projects: Software Architectures; Software Planning and Management; Team Structures; Cost Estimation. Prerequisite: CEN 4010. This course will have additional fees.

**CEN 4072 Fundamentals of Software Testing (3).** Fundamentals of software testing. Topics include: test plan creation, test case generation, program inspections, specification-based and implementation-based testing, GUI testing, and testing tools. Prerequisite: COP 3530.

**CEN 5011 Advanced Software Engineering (3).** This course deals with the design of large scale computer programs. Included are topics dealing with planning design, implementation, validation, metrics, and the management of such software projects. Prerequisite: CEN 4010. This course will have additional fees.

**CEN 5065 Software Design (3).** Study of object-oriented analysis and design of software systems based on the standard design language UML; case studies. Prerequisite: CEN 5011.

**CEN 5076 Software Testing (3).** Tools and techniques to validate software process artifacts: model validation, software metrics, implementation-based testing, specification-based testing, integration and systems testing. Prerequisites: CEN 4010 or CEN 5011.
CEN 5082 Grid Enablement of Scientific Applications (3). Fundamental principles and applications of high-performance computing and parallel programming using OpenMP, MPI, Globus Toolkit, Web Services, and Grid Services. Prerequisites: Graduate standing or permission of the instructor.

CEN 5087 Software and Data Modeling (3). Essential software and data modeling methods and techniques such as UML, XML, and ER. Prerequisite: Graduate standing.

CEN 5120 Expert Systems (3). Introduction to expert systems, knowledge representation techniques and construction of expert systems. A project such as the implementation of an expert system in a high level AI-language is required. Prerequisite: COP 3530 or permission of the instructor. This course will have additional fees.

CGS 1920 Introduction to Computing (1). Overview of the computing field to students, research programs and career options.

CGS 2060 Introduction to Microcomputers (3). A hands-on study of microcomputer software packages for applications such as operating system, word processing, spreadsheets, and database management. For students without a technical background. Not acceptable for credit for Computer Science majors.

CGS 2100 Intro to Microcomputer Applications for Business (3). A hands-on study of spreadsheet and database management packages for business students without a technical background. Not acceptable for credit for Computer Science majors.

CGS 2518 Computer Data Analysis (3). A hands-on study of how to use a modern spreadsheet program to analyze data, including how to perform queries, summarize data, and solve equations. For non-technical students. Not acceptable for CS students.

CGS 3092 Professional Ethics and Social Issues in Computing (1). Ethical, legal, social issues and the responsibility of computer professionals. Codes of conduct, risks and reliability, responsibility, liability, privacy, security, free speech issues. Prerequisites: ENC 3213 and (COP 2210 or COP 2250).

CGS 3416 Web-based Programming (3). A programming course in Java with emphasis on web-based applications: Applets; Components; Servlets; Java Beans. Not acceptable for credit for Computer Science majors. Prerequisites: COP 2250 and MAD 1100. This course will have additional fees.

CGS 3559 Using the Internet (1). Internet history and importance. What is available on the Net. Tools such as email, listserves, telnet, ftp, Archie, Veronica, Gopher, netfind, the World Wide Web, Wais, and Mosaic. Nontechnical. Prerequisite: CGS 2060 or equivalent.

CGS 3767 Computer Operating Systems (3). Introduction to fundamental concepts of operating systems and their implementation in UNIX and Windows. Prerequisites: COP 2250 or COP 2210. This course will have additional fees.

CGS 4285 Applied Computer Network (3). Principles of computer network design, operation and management. Network protocols. Network configuration. Network security. Not acceptable for credit for Computer Science majors. Prerequisite: CGS 3767. This course will have additional fees.

CGS 4365 Knowledge-Based Management Systems (3). Introduction to knowledge-based and expert systems. Knowledge acquisition, knowledge representation, and creation of expert system. Not acceptable for credit for Computer Science majors. Prerequisite: COP 4703. This course will have additional fees.

CGS 4854 Website Construction and Management (3). The fundamentals of creating and maintaining a website. Installation and maintenance of a web-server. Techniques for building multimedia interactive web-pages. Not acceptable for credit for Computer Science majors. Prerequisites: CGS 3767 and (COP 3004 or COP 3337). This course will have additional fees.

CGS 5166 Introduction to Bioinformatics Tools (2). Introduction to bioinformatics; analytical and predictive tools; practical use of tools for sequence alignments, phylogeny, visualizations, patterns discovery, gene expression analysis, and protein structure. Prerequisite: PCB 6025 or equivalent.

CIS 3900 Independent Study (1-5). Individual conferences, assigned readings, and reports on independent investigations.

CIS 3930 Special Topics (1-5). A course designed to give groups of students an opportunity to pursue special studies not otherwise offered.

CIS 4431 IT Automation (3). IT automation: mgmt models, auditing, assets, change mgmt, network monitoring, OS imaging, patch mgmt, help desk, remote control, user state mgmt, end-point security, backup, disaster recovery. Prerequisite: CGS 3767. Corequisite: CGS 4285 or permission of the instructor.

CIS 4905 Independent Study (1-20). Individual conferences, assigned readings, and reports on independent investigations.

CIS 4911 Senior Project (3). Students work on faculty supervised projects in teams of up to 5 members to design and implement solutions to problems utilizing knowledge obtained across the spectrum of Computer Science courses. Prerequisites: CEN 4010 and permission of the instructor.

CIS 4912 Research Experience for Undergraduate Students (0-9). Participation in ongoing research in the research centers of the school.

CIS 4930 Special Topics (1-3). A course designed to give groups of students an opportunity to pursue special studies not otherwise offered.

CIS 5027 Computer Systems Fundamentals (3). Fundamentals concepts of IT Systems: operating systems, networking, distributed systems, platform technologies, web services and human-computer interaction. Covers design principles, algorithms and implementation techniques. Prerequisite: Graduate standing.
CIS 5346 Storage Systems (3). Introduction to storage systems, storage system components, storage architecture, devices, trends and applications, performance, RAID, MEMS and portable storage, file-systems, OS storage management. Prerequisite: Graduate standing.

CIS 5900 Independent Study (1-10). Individual conferences, assigned readings, and reports on independent investigations.

CIS 5910 Project Research (1-6). Advanced undergraduate or master’s level research for particular projects. Repeatable. Prerequisite: Permission of Department.

CIS 5915 Research Experience for Graduate Students (0-9). Participation in ongoing research in the research centers of the school.

CIS 5931 Special Topics (1-3). A course designed to give groups of students an opportunity to pursue special studies not otherwise offered.

CNT 4403 Computing and Network Security (3). Fundamental concepts and principles of computing and network security, symmetric and asymmetric cryptography, hash functions, authentication, firewalls and intrusion detection, and operational issues. Prerequisites: CGS 4285 and COP 3804.

CNT 4504 Advanced Network Management (3). Advanced principles of modern internetworking network design and implementation. Hands on experience with routers and switches and core Internet support protocols. Prerequisite: CNT 4513.

CNT 4513 Data Communications (3). Study Computer network models and protocol layers. Topics include: error handling, frames, broadcast networks, channel allocation; network routing algorithms, internetworking, TCP/IP, ATM protocols. Prerequisites: CDA 4101 or (COP 3804 and CGS 4285).

COP 1000 Introduction to Computer Programming (3). Uses graphics and animation in a media programming environment to engage students with no programming experience. Students develop problem solving skills and learn fundamental programming concepts.

COP 2210 Computer Programming I (4). A first course in computer science that uses a structured programming language to study programming and problem solving on the computer. Includes the design, construction and analysis of programs. Student participation in a closed instructional lab is required. This course will have additional fees.

COP 2250 Programming in Java (3). A first course in programming for IT majors. Syntax and semantics of Java. Classes and Objects. Object oriented program development. Not acceptable for credit for Computer Science majors. This course will have additional fees.

COP 2270 C for Engineers (3). A first course in programming geared for engineering and natural science students that describes the syntax and semantics of ANSI C programming language. Includes developing algorithms and writing for problems in engineering and science.

COP 3175 Programming in Visual Basic (3). An introduction to Visual Basic programming with emphasis on Business Applications. Not acceptable for credit for Computer Science majors. Prerequisites: CGS 2100 or CGS 2060. This course will have additional fees.

COP 3337 Computer Programming II (3). An intermediate level course in Object Oriented programming. Topics include primitive types, control structures, strings arrays, objects and classes, data abstraction inheritance polymorphism and an introduction to data structures. Prerequisites: COP 2210 or EEL 2880. This course will have additional fees.

COP 3353 Introduction to Using Unix/Linux Systems (3). Techniques of Unix/Linux systems. Basic use, file system structure, process system structure, unix tools (regular expressions, grep, find), simple and complex shell scripts, Xwindows. Not acceptable for credit for Computer Science majors. Prerequisites: COP 2210 or COP 2250 or equivalent. This course will have additional fees.

COP 3465 Data Structures for IT (3). Basic concepts of running time of a program, data structures including lists, stacks, queues, binary search trees, and hash tables, and internal sorting. Not acceptable for credit for CS majors. Prerequisite: Programming II (IT). This course will have additional fees.

COP 3530 Data Structures (3). Basic concepts of data organization, running time of a program, abstract types, data structures including linked lists, nary trees, sets and graphs, internal sorting. Prerequisites: MAD 2104 and COP 3337. This course will have additional fees.

COP 3804 Intermediate Java Programming (3). A second course in Java programming. Continues Programming in Java by discussing object-oriented programming in a more detail, with larger programming projects and emphasis on inheritance. Not acceptable for credit for CS majors. Prerequisite: COP 2250. Corequisite: CEN 3721. This course will have additional fees.

COP 3832 Advanced Web Server Communication (3). Maintain a web server on the Internet. Learn HTML, PERL, Javascript. Configure the Apache web server. Write interactive server scripts. Discuss Web security & ASP. Use Java applets and ActiveX controls. Prerequisites: CGS 3559. COP 2210 or equivalents. This course will have additional fees.
COP 3835 Designing Web Pages (3). Designing basic pages for display on the World Wide Web. Fundamental design elements and contemporary design tools are discussed. Computer literacy is expected.

COP 3949 Cooperative Education in Computer Science (1-3). One semester of full-time work, or equivalent, in an outside organization, limited to students admitted to the CO-OP program. A written report and supervisor evaluation is required of each student. Prerequisites: MAC 2312 and COP 3337.

COP 4005 Windows Programming for IT Majors (3). Application development techniques in Windows: Classes, Objects, Controls, Forms and Dialogs, Database, and Multi-tier Application Architecture. Students cannot receive credit for both COP 4005 and COP 4226. Prerequisite: COP 3804 or COP 3337. Corequisite: COP 4703. This course will have additional fees.

COP 4009 Windows Components Technology (3). Component-Based and Distributed Programming Techniques: C#, Common Type System, Windows and Web Forms, Multithreading, Distributed Objects. Prerequisites: COP 4226 or COP 4005. This course will have additional fees.

COP 4226 Advanced Windows Programming (3). Document and Dialog Based App, Message Passing, Printing, Drawing, GUI Design, Common Controls, Multithreaded Programming, Serialization, Database Connectivity, Runtime Libraries, Memory Management. Prerequisite: COP 3530. This course will have additional fees.

COP 4338 Computer Programming III (3). Topics include Object-Oriented programming Concepts and Modern Programming Techniques. Prerequisite: COP 3530. This course will have additional fees.

COP 4520 Introduction to Parallel Computing (3). This course introduces the field of parallel computing. The students will be taught how to design efficient parallel programs and how to use parallel computing techniques to solve scientific problems. Prerequisites: COP 3530 and CDA 4101 or EEL 4709C.

COP 4534 Algorithm Techniques (3). Basic algorithm design, including greedy algorithms, divide-and-conquer, dynamic programming, randomization, and backtracking. Graph, string, numerical, geometric, and optimization algorithms. Prerequisite: COP 3530.

COP 4555 Principles of Programming Languages (3). A comparative study of several programming languages and paradigms. Emphasis is given to design, evaluation and implementation. Programs are written in a few of the languages. Prerequisite: COP 3530. This course will have additional fees.

COP 4604 Advanced Unix Programming (3). Unix overview: files and directories, shell scripting and systems programming. Unix tools; Internals: file systems, process structure. Using the system call interface. Interprocess communication. Prerequisite: COP 4338. Corequisite: COP 4610. This course will have additional fees.

COP 4610 Operating Systems Principles (3). Operating systems design principles and implementation techniques. Address spaces, system call interface, process/threads, interprocess communication, deadlock, scheduling, memory, virtual memory, I/O, file systems. Prerequisites: CDA 4101 and COP 4338. This course will have additional fees.

COP 4655 Mobile Application Development (3). Design and development of mobile applications. Introduction to the mobile application frameworks, including user interface, sensors, event handling, data management and network interface. Prerequisite: COP 4814.

COP 4703 Information Storage and Retrieval Concepts (3). Introduction to information management and retrieval concepts. The design and implementation of a relational database using a commercial DBMS. Online information retrieval and manipulation. Not acceptable for credit for Computer Science majors. Prerequisite: COP 3804. This course will have additional fees.

COP 4710 Database Management (3). Logical aspects of databases including Relational, Entity-Relationship, and Object-Oriented data models, database design, SQL, relational algebra, tuple calculus, domain calculus, and physical database organization. Prerequisite: COP 3530. This course will have additional fees.

COP 4722 Survey of Database Systems (3). Design and management of enterprise systems; concurrency techniques; distributed, object-oriented, spatial, and multimedia databases; databases integration; datawarehousing and datamining; OLAP; XML interchange. Prerequisites: COP 4710 or COP 4703.

COP 4813 Web Application Programming (3). Creating Web applications with user interfaces, databases, state management, user authentication, error handling, and web services. Prerequisites: CGS 4854 and COP 4005.

COP 4814 Component-Based Software Development (3). Integrating, exchanging, and transforming XML data, building software from components, understanding security concepts, basic Web services. Prerequisites: COP 4703 and CGS 4854.

COP 4906 Research Experiences in Computer Science (1-3). Participation in ongoing research in the research centers of the school. Prerequisite: Permission of the instructor.

COP 4949 Cooperative Education in Computer Science (1-3). One semester of full-time work, or equivalent, in an outside organization, limited to students admitted to the CO-OP program. A written report and supervisor evaluation is required of each student. Prerequisites: MAC 2312, STA 3033 and COP 3337.

COP 5614 Operating Systems (3). Operating systems design principles, algorithms and implementation techniques: process and memory management, disk and I/O systems, communications and security.
COP 5621 Compiler Construction (3). Basic techniques of compilation; scanning; grammars and LL and LR parsing, code generation; symbol table management; optimization. Prerequisites: MAD 3512 and CEN 4010. This course will have additional fees.

COP 5725 Principles of Database Management Systems (3). Overview of Database Systems, Relational Model, Relational Algebra and Relational Calculus; SQL; Database Applications; Storage and Indexing; Query Evaluation; Transaction Management. Selected database topics will also be discussed.

COP 5949 Cooperative Education in Computer Science (1-3). One semester of full-time work, or equivalent, in an outside organization, limited to students admitted to the CO-OP program. A written report and supervision evaluation is required of each student. Prerequisite: Graduate Standing.

COT 3420 Logic for Computer Science (3). An introduction to the logical concepts and computational aspects of propositional and predicate logic, as well as to concepts and techniques underlying logic programming, in particular, the computer language Prolog. Prerequisites: COP 3337 and MAD 2104. This course will have additional fees.

COT 5407 Introduction to Algorithms (3). Design of efficient data structures and algorithms; analysis of algorithms and asymptotic time complexity; graph, string, and geometric algorithms; NP-completeness.

COT 5420 Theory of Computation I (3). Abstract models of computation; including finite automata, regular expressions, context-free grammars, pushdown automata, Turing machines. Decidability and indecidability of computational problems. Prerequisite: MAD 3512.

CTS 2327 Microsoft Windows NT Administration (3). A two-part course covering introduction to Networking and the Windows NT Operating System. This course will cover material that is covered on the Microsoft Certified systems Engineer (MCSE) exam. Prerequisites: CGS 2060, or CGS 2100, or equivalent. This course will have additional fees.

CTS 4348 Unix System Administration (3). Techniques of Unix system administration: system configuration and management; user setup, management and accounting; software installation and configuration; network setup, configuration and management. Prerequisite: CGS 3767.

CTS 4408 Database Administration (3). Client-server architecture; planning, installation, server configuration; user management; performance optimization; backup, restoration; security configuration; replication management; administrative tasks. Prerequisites: COP 4703 or COP 4710.
College of Engineering and Computing

Dean
Amir Mirmiran

Interim Director, School of Computing and Information Sciences
Jainendra Navlakha

Associate Dean for Academic Affairs
TBA

Associate Dean for Research and Graduate Studies
Giri Narasimhan

Director, Division of Corporate and Global Programs
Jainendra Navlakha

Chairperson, Biomedical Engineering
Ranu Jung

Chairperson, Civil and Environmental Engineering
Atorod Azinamini

Chairperson, Construction Management
Irthishad U. Ahmad

Chairperson, Electrical and Computer Engineering
Kang Yen

Chairperson, Industrial and Systems Engineering
Shih-Ming Lee

Chairperson, Mechanical and Materials Engineering
Cesar Levy

Director, Advanced Materials Engineering Research Institute
W. Kinzy Jones

Director, Bioinformatics Research Group
Giri Narasimhan

Director, Center for Advanced Distributed Systems Engineering
Xudong He

Director, Center for Advanced Technology and High-Confidence Systems
Naphtali Rishe

Director, Center for the Study of Matters at Extreme Conditions
Surendra Saxena

Director, Distributed Multimedia Information Systems Laboratory
Shu-Ching Chen

Director, Engineering Information Center
Hernan Bormey

Director, Engineering Manufacturing Center
Cesar Levy

Director, Florida Engineering Education Delivery System
Mercy Rueda Schott

Director, High Performance Database Research Center
Naphtali Rishe

Director, International Hurricane Research Center
Stephen Leatherman

Director, Lehman Center for Transportation Research
L. David Shen

Director, Telecommunications and Information Technology Institute
Niki Pissinou

Director, Space Planning
Eugene Farmer

Faculty
Abi Shidid, Caesar, Ph.D. (University of Florida), Instructor and Undergraduate Advisor, Civil and Environmental Engineering

Adjouadi, Malek, Ph.D. (University of Florida), Professor, Electrical and Computer Engineering; Joint Appointment with Biomedical Engineering; Director, Center for Advanced Technology and Education

Agarwal, Arvind, Ph.D. (University of Tennessee at Knoxville), Associate Professor, Mechanical and Materials Engineering

Ahmad, Irtishad, Ph.D., P.E. (University of Cincinnati), Chairperson and Professor, Construction Management; Joint Appointment with Civil and Environmental Engineering

Ahmed, Syed M., Ph.D. (Georgia Institute of Technology), Associate Professor and Graduate Program Director, Construction Management; Joint Appointment with Civil and Environmental Engineering

Akache, Walid, M.S. (University of Miami), Instructor, School of Computing and Information Sciences

Andrian, Jean, Ph.D. (University of Florida), Associate Professor and Graduate Program Director, Electrical and Computer Engineering

Arelanno, Wilmer, M.S., P.E. (Universidad Simon Bolivar), Instructor, Electrical and Computer Engineering

Baier, Ronald, A., M.S., P.E. (University of Florida), Instructor and Undergraduate Advisor, Construction Management

Bao, Wei Yu, Ph.D. (Florida International University), Director, High Performance Database Laboratories Manager, Mechanical and Materials Engineering

Barreto, Armando B., Ph.D. (University of Florida), Professor, Electrical and Computer Engineering; Joint Appointment with Biomedical Engineering

Barton, David, Ph.D. (University of Cambridge), Professor, School of Computing and Information Sciences

Bayraktar, Mehmet Emre, Ph.D. (Purdue University), Assistant Professor, Construction Management

Berk, Toby, Ph.D. (Purdue University), Professor Emeritus, School of Computing and Information Sciences

Bitsuamlak, Girma, Ph.D., P. Eng (Concordia University), Assistant Professor, Civil and Environmental Engineering

Brown, Michael, Ph.D. (University of Miami), Instructor, Biomedical Engineering

Caballero, Amaury A., Ph.D., P.E. (Energy Institute of Moscow), Lecturer, Electrical and Computer Engineering

Cao, Yiding, Ph.D. (University of Dayton), Professor, Mechanical and Materials Engineering

Carrera-Perpinan, Miguel, Ph.D. (University of Sheffield), Assistant Professor, School of Computing and Information Sciences

Centeno, Martha A., Ph.D. (Texas A&M University), Associate Professor and Undergraduate Program Director, Industrial and Systems Engineering; Director, Applied Research in Industrial and Systems Engineering

Chen, Chin Sheng, Ph.D. (Virginia Polytechnic Institute and State University), Professor and Graduate Program Director, Industrial and Systems Engineering

Chen, Jiuhua, Ph.D. (Japan Graduate University for Advanced Studies), Associate Professor, Mechanical and Materials Engineering

Chen, Shu-Ching, Ph.D. (Purdue University), Professor, School of Computing and Information Sciences, Director, Distributed Multimedia Information Systems Laboratory

Choi, Won-bong, Ph.D. (North Carolina State University), Associate Professor, Mechanical and Materials Engineering
Mirmiran, Amir, Ph.D., P.E. (University of Maryland), Dean and Professor, Civil and Environmental Engineering
Mitrani, Jose D., Engr., P.E., CPC, CGC (University of Florida), Associate Professor, Construction Management
Mohammed, Osama A., Ph.D. (Virginia Polytechnic), Professor, Electrical and Computer Engineering
Munroe, Norman, Ph.D. (Columbia University), Associate Professor, Mechanical and Materials Engineering and Director of Research, Applied Research Center
Nahas, Tony (New Jersey Institute of Technology), Visiting Instructor, Electrical and Computer Engineering
Narasimhan, Giri, Ph.D. (University of Wisconsin-Madison), Associate Dean and Professor, School of Computing and Information Sciences
Naviakha, Jainendra, Ph.D. (Case Western Reserve University), Interim Director and Professor, School of Computing and Information Sciences
Pala, Nezih, Ph.D. (Rensselaer Polytechnic Institute), Assistant Professor, Electrical and Computer Engineering
Pan, Deng, Ph.D. (University of New York at Stony Brook), Assistant Professor, School of Computing and Information Sciences
Pasztor, Ana, DRN (Darmstadt University, West Germany), Professor, School of Computing and Information Sciences
Pelin, Alex, Ph.D. (University of Pennsylvania), Associate Professor, School of Computing and Information Sciences
Pestaina, Norman, M.S. (Pennsylvania State University), Instructor, School of Computing and Information Sciences
Pissinou, Niki, Ph.D. (University of Southern California), Professor, School of Computing and Information Sciences; Director, Telecommunications and Information Technology Institute
Prabakar, Nagarajan, Ph.D. (University of Queensland), Associate Professor, School of Computing and Information Sciences
Prieto-Portar, Luis A., Ph.D., P.E. (Princeton University), Professor, Civil and Environmental Engineering
Quan, Gang, Ph.D. (University of Notre Dame), Associate Professor, Electrical and Computer Engineering
Rangaswami, Raju, Ph.D. (University of California-Santa Barbara), Associate Professor, School of Computing and Information Sciences
Rishe, Naphtali, Ph.D. (Tel Aviv University, Israel), Professor, School of Computing and Information Sciences and Director, High Performance Database Research Center
Roig, Gustavo, A., Ph.D. (University of Florida), Professor, Electrical and Computer Engineering
Sadjadi, Masoud, Ph.D. (Michigan State University), Assistant Professor, School of Computing and Information Sciences
Sanchez, Mario, M.S. (Florida International University), Lecturer and Advisor, Industrial and Systems Engineering, Senior Engineer and Manager, Engineering Manufacturing Center
Saxena, Surendra, Ph.D. (Upsala University), Professor, Mechanical and Materials Engineering and Director, Center for the Study of Matters at Extreme Conditions
Schenck, Carmen, M.S. (Florida International University), Advisor and Instructor, Mechanical and Materials Engineering
Shaw, Gregory, M.S. (Barry University), Instructor, School of Computing and Information Sciences
Shen, Lon-Li, David, Ph.D., P.E., T.E. (Clemson University), Professor, Civil and Environmental Engineering; Director, Lehman Center for Transportation Research
Smith, Geoffrey, Ph.D. (Cornell University), Associate Professor, School of Computing and Information Sciences
Smith, Joslyn, M.S. (University of New Brunswick), Instructor, School of Computing and Information Science
Suksawang, Nakin, Ph.D. (Rutgers University), Assistant Professor, Civil and Environmental Engineering
Sun Ju, Ph.D. (State University of New York at Stony Brook), Instructor, Mechanical and Materials Engineering
Tang, Walter Z., Ph.D., P.E. (University of Delaware), Associate Professor, Civil and Environmental Engineering
Tansel, Berrin, Ph.D., P.E. (University of Wisconsin-Madison), Associate Professor, Civil and Environmental Engineering
Tansel, Ibrahim, Ph.D. (University of Wisconsin-Madison), Professor, Mechanical and Materials Engineering
Tosunoglu, Sabri, Ph.D. (University of Florida), Associate Professor and Undergraduate Program Director, Mechanical and Materials Engineering
Tsoukias, Nikolaos, Ph.D. (University of California, Irvine), Assistant Professor, Biomedical Engineering
Tsukanov, Igor, Ph.D. (Northwestern University), Assistant Professor, Mechanical and Materials Engineering
Urban, Frank K., Ph.D., P.E. (University of Florida), Associate Professor, Electrical and Computer Engineering
Walker, Charlyne, Ph.D. (Barry University), Instructor, School of Computing and Information Sciences and Director of Educational Research and Evaluation
Wang, Chunlei (Peggy), Ph.D. (Jilin University), Associate Professor, Mechanical and Materials Engineering
Wang, Ton-Lo, Ph.D., P.E. (Illinois Institute of Technology), Professor and Undergraduate Program Director, Civil and Environmental Engineering
Watson, Herman, Ph.D. (Florida International University), Lecturer and Undergraduate Program Director, Electrical and Computer Engineering
Wei, Jinpeng, Ph.D. (Georgia Tech), Assistant Professor, School of Computing and Information Sciences
Weiss, Jill, M.S. (Barry University), Instructor, School of Computing and Information Sciences
Weiss, Mark, Ph.D. (Princeton University), Professor, School of Computing and Information Sciences
Wu, Kuang-Hsi, Ph.D., P.E. (University of Illinois), Professor, Mechanical and Materials Engineering
Yang, Zhenyu, Ph.D. (University of Illinois at Urbana-Champaign), Assistant Professor, School of Computing and Information Sciences
Yen, Kang K., Ph.D., P.E. (Vanderbilt University), Chairperson and Professor, Electrical and Computer Engineering

Wei, Jinpeng, Ph.D. (Georgia Tech), Assistant Professor, School of Computing and Information Sciences

Zhao, Ming, Ph.D. (University of Florida), Assistant Professor, School of Computing and Information Sciences

Zhu, Hao, Ph.D. (Pennsylvania State University), Assistant Professor, School of Computing and Information Sciences

Zhu, Yimin, Ph.D., CCE (University of Florida), Assistant Professor, Construction Management
The College of Nursing and Health Sciences was created in 2006 by the merger of the School of Nursing and the School of Health Sciences. In support of the University’s mission as a major urban research institution, the College offers programs of professional study in selected health professions.

The College offers baccalaureate degrees in Health Services Administration and Nursing. Master’s degrees are offered in Athletic Training, Occupational Therapy, Speech Language Pathology, and Nursing. The Doctor of Philosophy is offered in Nursing and the Doctor of Physical Therapy is offered in Physical Therapy.

Students interested in the academic programs offered by the College of Nursing and Health Sciences are urged to contact the academic unit for guidance on admissions requirements, curriculum and career planning.

College Policies

Background checks and drug screenings:

The practicum/field placement sites used by some of the programs in the College of Nursing and Health Sciences require the disclosure of conviction records for misdemeanors and/or felonies and current screening for drug use. Therefore, students are often required to submit to criminal background checks and drug screening tests prior to the initiation of the clinical education portion of their education. The student will be responsible for the financial cost of such screenings. Findings in background checks and/or drug screening tests may affect a student’s ability to participate in clinical experiences and complete the program, and/or obtain licensure or certification.

Standard disclaimer on policy/procedure changes

The programs, policies, requirements, and regulations listed in this catalog are continually subject to review in order to serve the needs of the University’s and College’s various publics and to respond to the mandates of the Florida Department of Education, Board of Governors, the Legislature, and other regulatory and accrediting agencies. Changes may be made without advance notice.
Bachelor of Health Services Administration

The Bachelor of Health Services Administration (BHSA) qualifies students for entry-level management positions in health services delivery organizations. The program provides professional education for administrative occupations in various health care settings. The degree also prepares individuals for further study in health services administration or public health. It is an excellent career development pathway for persons licensed in clinical health and medical care professions but lacking an undergraduate degree.

Admissions Requirements

Students seeking admission into the bachelor’s program must meet the following minimum requirements:

1. Completed 60 hours of course work or have completed the Associate in Arts degree or its equivalent, at an accredited college or university.
2. Satisfied the general University requirements for admission, including the University's Core Curriculum requirements.
3. Met the University’s lower division requirements, including CLAS.
4. Completed the State University System Common Prerequisites for Health Services Administration programs:
   - ACG 2021 Accounting for Decisions
   - ACG 2071 Managerial Accounting
   - CGS 2060 Introduction to Microcomputers
   - ECO 2023 Principles of Microeconomics
   - STA 2023 Stat Bus and Eco
5. Have achieved a minimum grade point average of 2.5 or higher.

Common Prerequisite Courses and Equivalencies

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

Program Requirements

All program students completing the BHSA are also subject to undergraduate student regulations and degree requirements governed by the policies of Florida International University and the State University System. Undergraduate HSA majors must receive a grade of ‘C’ or higher in all courses.

Degree Program Hours: 120

Courses are sequenced to enhance the development of competencies as student’s progress through the curriculum. Students need to pay particular attention to proper sequencing and course prerequisites.

Foundation Courses: (18)

Foundation Courses must be taken prior to Core courses. HSA 3111 must be taken in the first semester and HSA 3180 must be taken the first or second semester. These courses are prerequisites to all Core Courses in the degree program.

Elective Specialization Courses: (6)

Students are encouraged to develop a focused concentration of elective courses to develop specific skills and enhance students’ career objectives. Elective courses may include upper-division courses offered by other University departments. Students must submit a plan for electives and seek approval from the Department of Health Policy and Management's Curriculum Committee prior to registration. Please see our new approved electives list.

Integrative Courses: (18)

Before taking Integrative Courses, full admission into the BHSA degree program is required and completion of 30 hours is required.

Internship

Students electing an administrative internship generally begin their internship in the final semester of the degree requirements. If this period of field placement is evaluated by the Faculty Preceptor as successful, the student will graduate at the end of that semester provided that all other requirements have been met.
All students must achieve a GPA of 3.25 or higher in all upper-division course work, have completed 105 credit hours, attend an Internship Information Session, and submit an educational plan for faculty approval the semester prior to registering for the internship. Students must be placed in a health care organization and have approval of the site coordinator as well as the Faculty Preceptor before they are permitted to enroll in the Administrative Internship (HSA 4850).

For further information regarding internship requirements, reference should be made to the BHSA Administrative Internship Manual, which may be downloaded from the website.

**Minor in Health Services Administration**

A five course minor in Health Services Administration is available to baccalaureate degree seeking students who have a minimum GPA of 2.5, have completed 60 lower division hours, achieve the competencies of the CLAS requirement, and are interested in careers in health services administration or who wish to examine the administrative aspects of health services delivery.

Fifteen hours in Health Services Administration are required: Six required credit hours and nine credit hours of electives.

**Required Courses: (6 credit hours)**

- HSA 3111 Health and Social Service Delivery Systems 3
- HSA 3180 Management for Health Professions 3

To be taken in first semester of minor matriculation. These courses are prerequisite for electives and no substitutions or waivers will be granted.

**Elective Courses: (9 credit hours)**

The other nine hours may be selected from the following, providing all prerequisites have been met:

- HSA 4700 Fundamentals of Health Services Research 3
- HSA 4110 Health Care Organizational Behavior 3
- HSA 4150 Issues in Health Policy 3
- HSA 4170 Health Care Financial Management 3
- HSA 4184 Human Resources Management 3
- HSA 4421 Legal Aspects and Legislation in Health Care 3

It is the student’s responsibility to contact the department from which the student wishes to receive the minor when they apply for graduation. This will ensure that the minor will be posted on their transcript.

The College of Nursing and Health Sciences offers a professional program of study leading to the degree of Bachelor of Science in Nursing (BSN).

The BSN program is accredited by the Commission on Collegiate Nursing Education (CCNE), One Dupont Circle, Suite 530, Washington, DC 20036-1120, (202) 887-8476, and is approved by the Florida Board of Nursing (4052 Bald Cypress Way, BIN CO2, Tallahassee, FL 32399, 850-245-4125). The program is open to generic (basic) and RN students. The generic BSN program includes a track for foreign-educated physicians who have previous knowledge and skills in the health care field. Upon graduation, generic students are eligible to write the NCLEX examination to become registered nurses.

The College of Nursing and Health Sciences also offers a Master of Science degree in Nursing, as well as selected continuing education courses.

Program Objectives

Upon completion of the BSN, graduates will be able to:

1. Synthesize scientific knowledge from nursing and related disciplines in the provision of care to clients within the health-illness continuum throughout the lifespan.
2. Analyze research findings from nursing and from other disciplines to improve or change nursing practice.
3. Analyze nursing theories and concepts from other disciplines as a base for nursing practice.
4. Pro-act to legal, social, political, and economic forces and ethical considerations which impact on the role of the professional nurse and on clients.
5. Collaborate with members of the health care team in the delivery of individualized, economic and ethical health care services with accountability and responsibility for own practice.
6. Utilize creative leadership to promote quality health care in a rapidly changing multicultural, multiethnic, global environment.
7. Practice critical thinking as a lifelong process through independent pursuit of personal and professional growth.
8. Demonstrate clinical competencies in culturally diverse populations in a variety of clinical settings.
Program Policies

Students who enter FIU without an Associate of Arts (AA) degree, transfer from out-of-state, or transfer from a private community college must meet the FIU core curriculum requirements. See a nursing advisor (305) 348-7703 in the Office of Admissions and Student Services for program information.

Nursing majors are responsible for transportation expenses related to clinical experiences. They are required to carry health and accident insurance. To safeguard the health of clients, nursing students are required to submit proof of health examination and immunizations upon entry into the nursing program. Students must submit proof of basic cardiopulmonary resuscitation (CPR) certification (American Heart Association) prior to entering clinical courses in the nursing major. This CPR certification must cover the period of enrollment in the major.

The Florida Board of Nursing and clinical agencies require the disclosure of arrest and conviction records for misdemeanors and/or felonies; therefore, this information will be required at the time of application. Applicants are required to submit to criminal background checks and drug testing. Expenses associated with background checks and drug testing (including repeat testing) are the responsibility of the student. Findings may affect a student’s ability to participate in clinical experiences and complete the program, and/or obtain registered nurse licensure.

In addition to undergraduate tuition and fees, nursing students may be charged a fee for courses with an “L” suffix for laboratory supplies.

Students who request a transfer from another nursing program must provide a letter of good standing from the nursing program in which they were enrolled.

The College reserves the right to terminate a student from the nursing program for reasons related to the inability to safely carry out professional responsibilities.

Note: The programs, policies, requirements, and regulations listed in this catalog are continually subject to review in order to serve the needs of the University’s and College’s various publics and to respond to the mandates of the Florida Department of Education, Board of Governors, the Legislature, and other regulatory and accrediting agencies. Changes may be made without advance notice. Please refer to the General Information section for the University’s policies, requirements, and regulations. Please refer to the College’s website for updated information in nursing.

Bachelor of Science in Nursing (BSN)-Generic Track

Degree Program Hours: 125

Admission Requirements

Applicants to the nursing major must submit an application for admission to the University and must follow the regular University procedures. Applicants must also complete a nursing major application. Applicants must be admitted to the University before admission to the nursing major. All admission documents must be submitted and courses must be completed by May 15 preceding the Fall admission. Students interested in the nursing major should contact the College to make an appointment with the Office of Admissions and Student Services as early as possible. The College is located on the Modesto A. Maidique Campus, (305) 348-7703, or call the Biscayne Bay Campus for the Foreign-Educated Physician to BSN track, (305) 919-4421.

The generic BSN track is a limited enrollment program and admission is competitive based on previous academic performance. To be admitted to the program, applicants must:

1. Have an overall GPA of 3.0 or higher, with no repeats in science courses due to failure;
2. Have completed science courses within the past 10 years;
3. Have met all the lower division requirements including Gordon Rule and CLAS;
4. Completed 60 semester hours;
5. Have met entry requirements for computation and reading skills; and
6. Be recommended for admission by the Undergraduate Admissions Committee.

A point system is used for the admission evaluation of applicants to the generic BSN program. The point system is found at http://cnhs.fiu.edu/nursing. Applicants must apply by the published deadline to be considered for admission. Once a class fills, there are no deferred admissions. If an applicant desires to be considered for a subsequent class, he/she must send a letter requesting reconsideration and include a current SASS and transcript.

For applicants to the Foreign-Educated Physician-BSN track and the RN-BSN-MSN, see admission requirements for these.

Lower Division Preparation

Transfer students who have been awarded an Associate of Arts degree from a Florida (public) community college or a baccalaureate degree or higher from an accredited regional institution or FIU core students must successfully complete the following prerequisites for the FIU nursing program:

### Course Credits

**Freshman Year – Fall Semester**

- ENC 1101 Writing and Rhetoric I 3
- MGF 1106 Finite Mathematics 3
- CHM 1033/1033L Survey Chem/Lab* 5
- XXXXX Hist/Humanities/Writ 3
- SLS 1501 First Year Experience 1

**Freshman Year – Spring Semester**

- ENC 1102 Writing and Rhetoric II 3
- PSY 2012 Intro to Psychology 3
- MCB 2000/2000L Intro Microbiology/Lab* 4
- XXXXX Arts Requirement 3

**Sophomore Year – Fall Semester**

- PHI 2600 Introduction to Ethics 3
- DEP 2000 Human Growth/Dev 3
- PCB 2099/2099L Human Physio/Lab* 4
- HUN 2201 Principles of Nutrition 3

**Sophomore Year – Spring Semester**

- STA 3145 Statistics 3
- COM 3461 Intercultural/Interracial Communication 3
- ZOO 3731/3731L Human Anatomy/Lab* 4
- NUR 3119 Professional Nursing: Concepts and Issues 3

*Contact departments for course scheduling of sciences.

### Scholastic Requirements

To remain in good academic standing students must:

1. Achieve a grade of ‘C’ or higher in nursing courses. A student who earns less than a ‘C’ in any nursing course will be required to repeat the course in order to progress in the nursing program. A student may repeat a course one time only. Students who have failed two nursing courses or have two failures in the same nursing course will be dismissed from the program.

2. Pass required examinations: Generic students are required to take specific nursing achievement examinations (To be announced at the beginning of each academic term). In addition, generic students are required to pass a nursing synthesis (exit) exam as a prerequisite to the BSN degree. This examination is given during the last semester of the program.

### Required Nursing Courses

#### Junior Year – Fall Semester

- NUR 3029 Foundations of Nursing Practice 3
- NUR 3029C Foundations of Nursing Practice Lab 2
- NUR 3029L Foundations of Nursing Practice Clinical 3
- NUR 3125 Pathophysiologic Basis for Nursing Practice 3
- NUR 3066C Health Assessment and Promotion 4

#### Junior Year – Spring Semester

- NUR 3226 Nursing Care of Adults I 3
- NUR 3226L Nursing Care of Adults I Clinical 3
- NUR 3145 Pharmacologic Basis of Nursing Practice 3
- NUR 3666 Evidence-Based Nursing and Research in Global Health Care 3
- NUR 3668 Nursing Leadership in Global Health Care 3

#### Junior Year – Summer Semester

- NUR 3227 Nursing Care of Adults II 3
- NUR 3227L Nursing Care of Adults II Clinical 3
- NUR 4455 Care of Families: Childbearing Nursing 3
- NUR 4455L Care of Families: Childbearing Nursing Clinical 3
- NUR 3685L Integrative Nursing Care I 1

#### Senior Year – Fall Semester

- NUR 3535 Psychosocial Nursing 3
- NUR 3535L Psychosocial Nursing Clinical 3
- NUR 4355 Care of Families: Childrearing Nursing 3
- NUR 4355L Care of Families: Childrearing Nursing Clinical 3
- NUR 4686L Integrative Nursing Care II 1
- NUR 4667 Nursing in Global Health Care Systems 3

#### Senior Semester – Spring Semester

- NUR 4636C Care of Communities: Community Health Nursing 4
- NUR 4286 Nursing Care of Older Adults 3
- NUR 4945L Senior Clinical Practicum 4
- NUR 4940 Senior Nursing Synthesis 2

A laboratory fee will be assessed for the following courses: NUR 3535L, NUR 3226L, NUR 3227L, NUR 4355L, NUR 4455L, and NUR 4945L.

### Foreign-Educated Physician to BSN Track

#### Admission Requirements

The Foreign-Educated Physician-BSN (FEP-BSN) track option was created as a pathway for foreign-educated physicians to obtain the BSN degree and become employed as registered nurses (RNs). The FEP-BSN track is an accelerated upper division 125 credit five semester track. To be admitted in the program students must be:

1. A foreign-educated medical doctor;
2. Have their transcript evaluated by Josef Silny & Associates;
3. Obtain a TOEFL score of 550;
4. Meet entry requirements for computation and reading skills; and
5. Meet the admission criteria to be admitted to Florida International University.
6. See Generic BSN track for program policies.
Curriculum

**Junior Year Semester I**
- NUR 3026C Foundations of Nursing I: Basic Clinical Skills 3
- NUR 3027 Foundations of Nursing II 3
- NUR 3027L Foundations of Nursing II Clinical 6
- NUR 3065C Client Assessment 3
- NUR 3805 Professional Nursing: Socialization 3

**Junior Year Semester II**
- NUR 3535 Psychosocial Nursing 3
- NUR 3535L Psychosocial Nursing Clinical 3
- NUR 3145 Pharmacologic Basis for Nursing Practice 3
- NUR 3165 Professional Nursing: Research Consumer 3

**Junior Year Semester III**
- NUR 3126 Nursing Care of Adults I 3
- NUR 3226L Nursing Care of Adults I Clinical 3
- NUR 3227 Nursing Care of Adults II 3
- NUR 3227L Nursing Care of Adults II Clinical 3
- NUR 3125 Pathophysiological Basis for Nursing Practice 3

**Senior Year Semester I**
- NUR 4455 Care of Families: Childbearing Nursing 3
- NUR 4455L Care of Families: Childbearing Nursing Clinical 3
- NUR 4355 Care of Families: Childrearing Nursing Clinical 3
- NUR 4355L Care of Families: Childrearing Nursing Clinical 3
- NUR 4827 Professional Nursing: Leadership 3

**Senior Year Semester II**
- NUR 4636C Health Assessment and Promotion in Health Nursing 3
- NUR 4286 Nursing Care of Older Adults 3
- NUR 4940 Senior Nursing Synthesis 2
- NUR 4945L Senior Clinical Practicum 4

**Bachelor of Science in Nursing (BSN)-RN to BSN Track**

The RN-BSN degree requires a minimum of 125 credits. In addition to 60 transferable lower division credits, the degree requirements include a 24 credit nursing core, a 30 credit clinical proficiency evaluation (completed by equivalency exams), 4 credits each of human anatomy & lab, human physiology & lab, microbiology & lab, and survey of chemistry & lab; and 3 credits each of human growth & development, statistics, psychology, principles of nutrition, ethics, and intercultural communication. No more than six (6) transferable credits from other nursing baccalaureate programs will be accepted for the RN-BSN program of study. Students must complete at least 30 upper division credits at FIU.

Each applicant’s educational record is individually evaluated by the nursing unit. To progress through the curriculum, the RN must successfully complete prerequisite, corequisite and required courses for the curriculum plan in effect at the time of admission. It is possible to complete the nursing sequence in one year of full-time study after all prerequisites and equivalency examinations have been completed and the RN has been fully admitted to the program.

RNs must have one year clinical nursing experience and obtain professional liability insurance prior to registering for NUR 4636C and NUR 4945L. Students must achieve the competencies of the CLAS requirement and equivalency exams prior to enrollment in Level IV courses.

**Admission Requirements**

Degree seeking applicants with fewer than 60 semester hours of transfer credit must satisfy the same admission requirements as beginning freshmen. Graduates of diploma nursing programs who do not have transferable college credit will be required to complete the FIU lower division credit requirements. See a nursing advisor (305) 348-7703 in the Office of Admissions and Student Services for program information.

For admission to the RN-BSN track a student must:
1. Be licensed by the State of Florida as a Registered Nurse (RN).
2. Have submitted the required applications and official transcripts to FIU and CNHS.
3. Have completed a) Florida mandated Gordon Rule requirements; b) CLAS competencies; c) University Core Curriculum requirements; d) University foreign language requirement; and e) nursing major prerequisites.
4. Have completed at least 60 transferable credits of academic course work with a GPA of at least 2.0 from a regionally accredited college or university.
5. Have completed the required Excelsior equivalency examinations with a grade of C or better.
6. International students must submit a minimum score of 550 on the Test of English as a Foreign Language (TOEFL).
7. See Generic BSN for policies related to background checks, immunizations, health requirements, CPR, and drug testing.

**Advanced Placement and Progression of RNs**

Advanced placement in both nursing and non-nursing courses is facilitated by earning credits through examination, i.e., challenge or equivalency exams such as CLEP or Excelsior College examinations (Psychiatric-Mental Health Nursing, Adult Health Nursing, and Maternal-Child Nursing) with a grade of ‘C’ or better.

**Curriculum**

**Level I:**
- NUR 3119 Professional Nursing: Concepts and Issues 3
- NUR 3066C Health Assessment and Promotion in Nursing Practice 4
- NUR 3226/3227 Adult Physiological Nursing (E.E.)* 12
- NUR 3535 Psychosocial Nursing (E.E.)* 6
- NUR 4355 Childrearing (E.E.)* 6
- NUR 4455 Childbearing (E.E.)* 6

**Level II:**
- NUR 3666 Evidence-Based Nursing and Research in Global Health Care** 3
- NUR 3668 Nursing Leadership in Global Health Care 3
Combined BSN/MSN for Foreign-Educated Physician Track

Admission Requirements

The Combined BSN/MSN track is a pathway for foreign-educated physicians (FEPs) from culturally diverse backgrounds to:

- obtain the BSN degree
- become Registered Nurses (RNs)
- attain the MSN degree
- become eligible to take the Advanced Registered Nurse Practice (ARNP) national certification exam

The combined BSN/MSN track is an accelerated program that builds upon the knowledge and skills of the social and physical sciences from a prior BS degree. It is comprised of 63 upper division credits and 43-47 graduate credits, totaling 105 to 109 credit hours. Admission to the MSN component is contingent upon meeting the MSN admission requirements.

To be admitted to the BSN/MSN track, students must:

7. Have completed a medical degree from an accredited non-US university;
8. Have transcripts evaluated by Josef Silny & Associates or by an equivalent transcript evaluation company;
9. Obtain a TOEFL score of 550;
10. Meet nursing entry requirements for computation and reading skills;
11. Meet the admission criteria to be admitted to the University and to the College of Nursing and Health Sciences; and
12. Successfully complete the following nursing prerequisites: statistics, human growth & development across the life span, human nutrition, anatomy & physiology, microbiology, chemistry. Transcripts will be evaluated by CNHS.

To advance to the MSN component of this track, (Semesters V-VIII), students must:

1. Have a cumulative GPA of 3.2 or above for Semesters I to IV; and
2. Be licensed as a registered nurse (RN) by the end of Semester V.

Degree Conferrals

Students enrolled in the MSN component must apply to graduate with the BSN during the 4th week of semester VI; BSN degree will be posted at the end of semester VI. Students will graduate with the MSN at the end of semester VIII.

BSN Stop-out Options

1. Low GPA Stop-out Option: Students with <3.2 cumulative GPA for Semesters I to IV will take NUR 4636C (Care of Communities: Community Health Nursing, 4 credits) and NUR 4945L (Senior Clinical Practicum, 4 credits) in Semester V. BSN degree will be awarded at the end of semester V or semester VI depending on availability of NUR 4945L. Students must apply for graduation of the BSN component by the 4th week of the semester they intend to graduate.
2. Failure to Pass NCLEX Stop-out Option: Students not passing NCLEX-RN by the end of Semester V will take NUR 4945L (Senior Clinical Practicum, 4 credits) in Semester VI. BSN degree will be awarded at the end of semester VI. Students must apply for graduation of the BSN component by the 4th week of the semester they intend to graduate.

Curriculum

Semester I
- NUR 3029 Foundations of Nursing Practice 3
- NUR 3029C Foundations of Nursing Practice Laboratory 2
- NUR 3029L Foundations of Nursing Practice Clinical 3
- NUR 3066C Health Assessment and Promotion in Nursing Practice 4

Semester II
- NUR 3226 Nursing Care of Adults I 3
- NUR 3226L Nursing Care of Adults I Clinical 3
- NUR 3227 Nursing Care of Adults II 3
- NUR 3227L Nursing Care of Adults II Clinical 3
- NUR 3685L Integrative Nursing Care I 1
- NUR 3668 Nursing Leadership in Global Health Care 3

Semester III
- NUR 3535 Psychosocial Nursing 3
- NUR 3535L Psychosocial Nursing Clinical 3
- NUR 4686L Integrative Nursing Care II 1
- NUR 4286 Nursing Care of Older Adults 3
- NUR 3668 Nursing Leadership in Global Health Care 3
- NGR 5141 Pathophysiological Basis of Advanced Nursing Practice 3

Semester IV
- NUR 4455 Care of Families: Childbearing Nursing 3
- NUR 4455L Care of Families: Childbearing Nursing Clinical 3
- NUR 4355 Care of Families: Childrearing Nursing 3
- NUR 4355L Care of Families: Childrearing Nursing Clinical 3
- NUR 4667 Nursing in Global Health Care Systems 3
- NUR 4940 Senior Clinical Synthesis 2

Low GPA Stop-out Options: Students with <3.2 cumulative GPA for Semesters I to IV will take NUR 4636C (Care of Communities: Community Health Nursing, 4 credits) and NUR 4945L (Senior Clinical Practicum, 4 credits) in Semester V or VI, and end with a BSN degree.
Semester V
NUR 4636C  Care of Communities: Community Health Nursing 4
NGR 5131  Culture and Advanced Nursing Practice 3
NGR 5035C  Advanced Client Assessment 3
NGR 5810  Research Methods in Nursing 3

Failure to Pass NCLEX Stop-out Option: Students must pass the NCLEX during semester V. Students not passing the NCLEX-RN by the end of the semester V will take NUR 4945L (Senior Clinical Practicum, 4 credits) in semester VI and will be eligible for a BSN degree at the end of semester VI.

Semester VI
NGR 6201C, or Advanced Adult, Child, or Family 6301C, or 6601C Health Nursing I 3-4
NGR 6201L, or Advanced Adult, Child, or Family 6301L, or 6601L Health Nursing Practice I* 3-4
NGR 6713  Curriculum Development in Nursing 3

Students must apply for graduation from the BSN by 4th week of semester VI.

Semester VII
NGR 6202C, or Advanced Adult, Child, or Family 6302C, or 6602C Health Nursing II 3-4
NGR 6202L, or Advanced Adult, Child, or Family 6302L, or 6602L Health Nursing Practice II* 3-4
NGR 6910C  Research Project 3

Semester VIII
NGR 6714C  Clinical Teaching Strategies for Nursing 3
NGR 6700L, or Role Synthesis in Advanced Adult, 6337L, or 6619L Child, or Family Health Nursing Practice* 3-4
NGR 6910C  Research Project 3

Eligible to take ARNP National Certification Exam after completion of semester VIII.
Students must apply for graduation from MSN at the beginning of semester VIII.

*All students must have ARNP preceptors in all NP practicum courses.

Repeating Nursing Courses and Dismissal
A grade of “C” or better in all NUR courses and a grade of “B” or better in all NGR courses is necessary for continuing in the combined BSN/MSN track. A course in the BSN/MSN track can be repeated only once. If a student fails the same course twice, or two different courses, he/she will be dismissed from the BSN/MSN for FEP track.

RN-BSN-MSN
The RN-BSN-MSN requires a minimum of 120 credits for completion of the BSN portion. In addition to 60 transferable lower division credits, the degree requirements include a 24 credit nursing core, a 30 credit clinical proficiency evaluation (completed by equivalency exams), 4 credits of human anatomy & lab, human physiology & lab, microbiology & lab, and survey of chemistry & lab; and 3 credits each of human growth & development, statistics, psychology, principles of nutrition, ethics, and intercultural communication. No more than six (6) transferable credits from other nursing baccalaureate programs will be accepted for the BSN portion of the program of study.

Each applicant’s educational record is individually evaluated by the nursing unit. To progress through the curriculum, the RN must successfully complete prerequisite, corequisite and required courses for the curriculum plan in effect at the time of admission. Students must complete the University Core Curriculum, CLAS and Equivalency Exams and be admitted to the MSN Program prior to enrollment in Level III courses. Applicants must have a 3.2 cumulative GPA to be admitted to the MSN Program and must meet admission criteria for the FIU Graduate School and MSN Program. Students must be admitted to the MSN program prior to taking Pathophysiological Basis of ANP, Theories in Nursing, and Advanced Client Assessment courses.

RNs must have one year clinical nursing experience and obtain professional liability insurance prior to registering for NUR 4636C and/or NUR 4945L.

Admission Requirements
Degree seeking applicants with fewer than 60 semester hours of transfer credit must satisfy the same admission requirements as beginning freshmen. See a nursing advisor (305) 348-7703 in the Office of Admissions and Student Services for program information.

For admission to the RN-BSN-MSN track a student must:
1. Be licensed by the State of Florida as a Registered Nurse (RN).
2. Have submitted the required applications and official transcripts to FIU and CNHS.
3. Have completed a) Florida mandated Gordon Rule prerequisites.
4. Have completed at least 60 transferable credits of academic course work with a cumulative GPA of at least 3.2 from a regionally accredited college or university.
5. Have completed the required Excelsior equivalency examinations with a grade of “C” or better.

For international students (graduates of foreign nursing schools) only:
a. International graduate student applicants whose native language is not English are required to submit a score for the Test of English as a Foreign Language (TOEFL) of 550 or for the International English Language Testing System (IELTS). A total score of 80 on the iBT TOEFL or 6.5 on the IELTS is required.
b. CGFNS certification on Florida RN licensure.

7. See Generic BSN for program policies related to background checks, immunizations, health requirements, and CPR.

Advanced Placement of RNs
Advanced placement in both nursing and non-nursing courses is facilitated by earning credits through examination, i.e., challenge or equivalency exams such as CLEP or Excelsior College examinations (Psychiatric-Mental Health Nursing, Adult Health Nursing, and Maternal-Child Nursing) with a grade of “C” or better.

RNs who are admitted to the MSN program complete three graduate level courses (Advanced Client Assessment, Pathophysiological Basis of ANP and Theories in Nursing) while taking BSN courses. Applicants
admitted to the MSN program will substitute graduate nursing practicum credits for NUR 4945L Senior Clinical Practicum. Students who are not admitted to the MSN program will complete NUR 3666 Evidence-Based Nursing and Research in Global Health Care and NUR 4945L Senior Clinical Practicum for the BSN degree.

**Curriculum**

**Level I:**
- NUR 3119 Professional Nursing: Concepts and Issues 3
- NUR 3066C Health Assessment and Promotion in Nursing Practice 4

Adult Physiological Nursing (E.E.)* - equivalent to NUR 3226, NUR 3226L, NUR 3227, and NUR 3227L 12

**OR**
- NUR 3226 Nursing Care of Adults I 3
- NUR 3226L Nursing Care of Adults I Clinical 3
- NUR 3227 Nursing Care of Adults II 3
- NUR 3227L Nursing Care of Adults II Clinical 3

Psychosocial Nursing (E.E.)* - equivalent to NUR 3535 and NUR 3535L 6

**OR**
- NUR 3535 Psychosocial Nursing 3
- NUR 3535L Psychosocial Nursing Clinical 3

Childrearing (E.E.)* - equivalent to NUR 4355 and NUR 4355L 6

**OR**
- NUR 4355 Care of Families: Childrearing Nursing 3
- NUR 4355L Care of Families: Childrearing Nursing Clinical 3

Childbearing (E.E.)* - equivalent to NUR 4455 and NUR 4455L 6

**OR**
- NUR 4455 Care of Families: Childbearing Nursing 3
- NUR 4455L Care of Families: Childbearing Nursing Clinical 3

**Level II***:
- COM 3461 Intercultural/Interracial Communication 3
- NUR 3666 Evidence-Based Nursing and Research in Global Health Care 3

**Level III:**
- NUR 3668 Nursing Leadership in Global Health Care 3
- NGR 5141 Pathophysiological Basis of ANP 3

**Level IV:**
- NUR 4636 Care of Families: Community Health Nursing 4
- NGR 5035C Advanced Client Assessment 3
- NGR 5131 Culture and Advanced Nursing Practice 3

*E.E. = Equivalency Exam
**Students must apply to the MSN program at this point; Applicants must have a 3.2 GPA to be admitted to the MSN program.

See University catalog/nursing advisor for pre-and-co-requisite courses.

For BSN to Ph.D. Track, please see Graduate Catalog.
Occupational Therapy

Alma Abdel-Moty, Chairperson, Clinical Associate Professor and Clinical Coordinator
Elise Bloch, Clinical Assistant Professor and Graduate Coordinator
Carol Lambdin, Instructor
Dennis McCarthy, Assistant Professor
Amy Paul-Ward, Associate Professor
Pamela Shaffner, Clinical Associate Professor

About The Department

The Occupational Therapy Department is part of the College of Nursing and Health Sciences.

The Department no longer offers an undergraduate degree in Occupational Therapy.

Please refer to the Graduate Catalog for details about the Professional Master of Science Occupational Therapy program.

Students interested in Occupational Therapy as a career may pursue any undergraduate major, as long as they take specific prerequisite coursework. Please refer to the Undergraduate Catalog for information about the Occupational Therapy Pre-requisite certificate.
Physical Therapy

Denis Brunt, Professor and Chair
Steven Bernstein, Clinical Assistant Professor
Martha Bloyer, Clinical Assistant Professor and Director of Clinical Education
Helen Z. Cornely, Associate Professor and Associate Dean, College of Nursing and Health Sciences
Leonard Elbaum, Associate Professor
Inae Gadotti, Assistant Professor
Marilys Randolph, Associate Professor
Lisa Roberts, Clinical Assistant Professor
Colleen Rose St. Prix, Associate Professor
Mark Rossi, Associate Professor
Edgar Vieira, Assistant Professor

About The Department

The Department of Physical Therapy is part of the College of Nursing and Health Sciences.

Our curriculum is accredited by the Commission on Accreditation of Physical Therapy Education (CAPTE), and has been since its inception in 1975, allowing graduates of the program to apply for licensure as Physical Therapists throughout the United States. CAPTE no longer accredits Bachelor’s Degree programs, and as a result, the Department no longer offers an undergraduate degree.

Please refer to the Graduate Catalog for details about the Physical Therapy program.

Students interested in Physical Therapy as a career should pursue any major, as long as they take specific prerequisite coursework.
Certificate Programs

Athletic Training Prerequisite Certificate

The Athletic Training Prerequisite Certificate Program provides undergraduate level instruction in the identification, prevention, and management of injuries and illnesses in the physically active population. The certificate will enable students to complete coursework required to apply to the accredited entry-level Master of Science in Athletic training program while concurrently completing the requirements for a Bachelor of Arts (BA)/Bachelor of Science (BS) degree offered at Florida International University (FIU). Additionally, students already holding a BA or BS degree are eligible to apply for this certificate program to complete the required coursework for admission to the entry-level Master of Science program in athletic training.

Admission Requirements

Any student in good academic standing (with a minimum 3.0 cumulative GPA) completing the requirements for a Bachelor of Arts (BA)/Bachelor of Science (BS) degree offered at FIU is eligible to apply for this certificate. Any student already holding a BA or BS degree (with a minimum cumulative 3.0 GPA overall and a minimum cumulative 3.0 GPA in the last 60 credits of upper division coursework completed toward the bachelor’s degree) is eligible to apply for this certificate.

Required Courses

The following courses are required for admission to athletic training programs and many other allied health professional programs. They are also required prerequisites for admission to the Entry-Level Master of Science in Athletic Training degree program offered at FIU. Once enrolled in the Athletic Training Prerequisite Certificate Program, any of these courses not already completed must be taken at FIU.

BSC #011/BSC #011L General Biology and Lab 4
ZOO 3731/ZOO 3731L or BSC #086/BSC #086L 4
HSC 3537 Medical Terminology 3
STA 2122 Introduction to Statistics 3

Required Courses

To be awarded the Athletic Training Prerequisite Certificate the student must complete all of the required courses with a minimum grade of “C”. Additionally, the student must achieve a 3.00 cumulative GPA or higher in the last 60 credits of upper division coursework completed toward a bachelor’s degree. This certificate will be awarded to the student at the time of the awarding of his/her Bachelor’s degree; or upon completion of the appropriate coursework to a student who already has a Bachelor’s degree. No academic certificate shall be awarded to a student who either does not possess a Bachelor’s degree or does not complete a Bachelor’s degree program.

Occupational Therapy Prerequisite Certificate

The Occupational Therapy Prerequisite Certificate Program provides undergraduate level instruction for the completion of the prerequisites needed to become eligible to apply to the accredited Professional Master of Science in Occupational Therapy. The certificate will enable students to complete coursework required to apply to the accredited Professional Master of Science in Occupational Therapy while concurrently completing the requirements for a Bachelor of Arts (BA)/Bachelor of Science (BS) degree offered at Florida International University (FIU). Additionally, students already holding a BA or BS degree are eligible to apply for this certificate program to complete the required coursework for admission to the entry-level Professional Master of Science program in Occupational Therapy.

The Occupational Therapy Prerequisite Certificate Program consists of 26 credits of undergraduate coursework.

Admissions Requirements

Any student in good academic standing (with a minimum 3.0 cumulative GPA) completing the requirements for a Bachelor of Arts (BA)/Bachelor of Science (BS) degree offered at FIU or any student already holding a BA or BS degree who has a 3.0 GPA in the last 60 credits of their undergraduate degree is eligible to apply for this certificate program. A minimum grade of “C” or better is required for all certificate courses.

Required Courses

BSC 1010 General Biology 3
BSC 1010L General Biology Lab 1
DEP 2000 Human Growth and Development 3
CLP 4146 Abnormal Psychology 3
HSC 3549 Physiology for Health Professionals 3
STA 2122 Introduction to Statistics 3
HSC 4553 Fundamentals of Pathology 3
HSC 3537 Medical Terminology 3
ZOO 3731 Human Anatomy 3
ZOO 3731L Human Anatomy Demonstration 1

Additional Requirements

To remain in the Occupational Therapy Prerequisite Certificate Program students must maintain a minimum 3.00 cumulative GPA in the certificate coursework. To be awarded the Occupational Therapy Prerequisite Certificate Program the student must achieve a 3.00 cumulative GPA.

Physical Therapy Prerequisite Certificate

The Physical Therapy Prerequisite Certificate Program provides undergraduate level instruction for the completion of the prerequisites needed to become eligible to apply to the Doctorate in Physical Therapy (DPT). The certificate will enable students complete coursework required to apply to the accredited Doctorate in Physical Therapy while concurrently completing the requirements for a
Bachelor of Arts (BA)/Bachelor of Science (BS) degree offered at Florida International University (FIU). Additionally, students already holding a BA or BS degree are eligible to apply for this certificate program to complete the required coursework for application to the Doctorate in Physical Therapy.

The Physical Therapy Prerequisite Certificate Program consists of 40 credits of undergraduate coursework.

**Admission Requirements**
Any student in good academic standing (with a minimum 3.0 cumulative GPA) completing the requirements for a Bachelor of Arts (BA)/Bachelor of Science (BS) degree offered at FIU or any student already holding a BA or BS degree is eligible to apply for this certificate program.

**Prerequisite(s)**
The following courses are required by this certificate program. Once enrolled in the Physical Therapy Prerequisite Certificate Program, any of these courses not already completed must be taken at FIU. A grade of “C” or better is required in all certificate courses.

**Required Physical Therapy Prerequisite Certificate Courses**

**Additional Requirements**
To remain in the Physical Therapy Prerequisite Certificate Program students must maintain a 3.00 cumulative GPA or higher in certificate coursework. To be awarded the Physical Therapy Prerequisite Certificate Program the student must achieve a 3.00 cumulative GPA or higher in undergraduate coursework.

**Speech-Language Pathology Certificate**
The Certificate Program seeks to provide undergraduate level instruction in the identification, prevention and management of speech and language disorders. The certificate will prepare students with bachelor’s degrees in other areas to apply to the master’s program in speech-language pathology. The master’s degree is the entry level degree for speech-language pathologists. However, with a bachelor’s degree and the 25 credits completed for this certificate, students will be able to apply for a state license as a speech-language pathology assistant.

The Certificate requires the completion of the following 25 credits.

Course Descriptions

Definition of Prefixes
APK-Applied Kinesiology; HIM-Health Information Management; HSA-Health Services Administration; HSC-Health Sciences; IHS - Interdisciplinary Health Sciences; NUR-Nursing Practice and Theory; NSP-Nursing: Special; OTH-Occupational Therapy; PAD-Public Administration; PET-Physical Education Therapy; PHC-Public Health; PHT-Physical Therapy; SPA-Speech Language Pathology

F-Fall semester offering; S-Spring semester offering; SS-Summer semester offering.

APK 3120 Physiology for the Exercise and Sports Sciences (3). The human body will be studied using a body systems approach with emphasis on the function of the musculoskeletal, nervous, and cardiovascular systems. Prerequisite: PET 3325C. Corequisite: APK 3120L.

APK 3120L Physiology for the Exercise and Sports Sciences Lab (1). The function of the human body will be studied in a small group setting using class assignments, figures, models, and physiologic measurements. Prerequisites: PET 3325C and PET 3325L.

HIM 3006 Introduction to HIM Profession (3). Introduces the student to the historical development of health information management and focuses on the work and responsibilities of health information professionals and their relationship with other health care providers. The student will acquire a full understanding of the medical record, including its development, purpose, content, format analysis, value and uses along with the methods used to file and track records. (F)

HIM 3226 Basic ICD-9-CM Coding (3). Concepts and principles of nomenclatures and classification systems used to record and compare health data. Development of ICD-9-CM coding skills and applications for research. Prerequisites: Human anatomy and physiology and medical terminology. (F)

HIM 3236 Advanced ICD-9-CM Coding Procedures (3). Introduction to coding as it relates to DRG system. Record analysis and data quality addressed. CPT, DSM III and current coding issues and regulations presented and discussed. Encoder experience included.

HIM 3306 Introduction to Management in Health Care (3). General principles of management of a health information system in any type of health care facility, including hospitals, intermediate and long term care facilities, clinics, HMO’s etc. The basic concepts of management as related to the health care industry are addressed. (SS)

HIM 3437 Fundamentals of Medical Science I (3). Beginning with the cell and progressing through the various organ systems, the conceptual patterns of disease are explored and defined by etiology and the immune and repair responses generated by the body. The diagnostic and treatment modalities for each are studied and identified in the medical record for correlation with coding procedures. Prerequisites: Human Anatomy and Physiology. (F)

HIM 3438 Fundamentals of Medical Science II (3). A review of body systems to explore the various disease processes and pathological conditions which affect the organs involved. Includes detailed explanations of how the diagnostic work-ups are recorded in the medical record and how to recognize and interpret the significant findings and make intelligent coding decisions. Prerequisites: Human anatomy and physiology. (S)

HIM 3626 Research Methods in Health Information Management (3). This course is designed to introduce students to research concepts and tools. Emphasis is placed on research design and data collection and analysis techniques. Discussion of basic health statistics. Prerequisites: Introduction to Health Information Management, Introduction to Management, Statistics. (S)

HIM 3675 Communication Skills for Health Care Professional (3). This course provides an understanding of process of formal communication for the health care profession. It offers an overview of communication techniques leading to sound decision making and effective team work. It prepares students to formulate and present ideas clearly and persuasively. Prerequisites: Intro to Management, Intro to HIM profession, DPI. (F)

HIM 3806 Directed Practice I (1). Orientation of the student to the hospital health information department and adjunct diagnostic or therapeutic units; including the outpatient department, emergency room, admitting office, x-ray, pharmacy, physical therapy, laboratory, and pathology department. Corequisite: HIM 3006. (F)

HIM 3816 Directed Practice II (1). Orientation of the student to health information department functions. Rotation of the student through technical functions of the department, following the flow of the patient’s record after discharge. Includes the discharge procedure, analysis, coding and indexing systems; statistical reporting; correspondence; control of the incomplete medical record; and processing of the completed record. Prerequisites: Directed Practice I, Basic ICD-9-CM Coding, Introduction to Management. Corequisite: HIM 3236. (S)

HIM 4256 CPT-4 Coding and Reimbursement Issues (3). CPT-4/HCPCS coding practices, data collection and outpatient reimbursement issues will be presented and discussed. Prerequisites: Anatomy, Physiology, Medical Terminology, Basic and Advanced ICD-9CM Coding. (SS)

HIM 4344 HIM Departmental Systems (3). Application of management principles to health information systems, including; development of manuals, job descriptions, interviewing and evaluation techniques, forms design, environmental planning etc. External activities assigned. Prerequisites: Introduction to HIM Profession and Introduction to Management, DPI. (F)

HIM 4406 Multi-Institutional Health Information (3). Standards and procedures for long-term, ambulatory care, home health, rehabilitation, psychiatric, dental, hospice, and other health care services are investigated and compared. Prerequisites: Introduction to HIM Profession, Research Methods, Introduction to Management, Quality Assessment. (S)
HIM 4508 Clinical Quality Assessment and Improvement (3). Course is designed to introduce student to quality management techniques. It includes areas of UR, RM, QA, and QI. Role of computers in QA/QI is explored. Prerequisites: Introduction to HIM Profession, Introduction to Management, DPI, DPII, Research Methods. (F)

HIM 4676 Problem-Solving Skills in Health Information Management (3). Through illustrative case reports, group discussions, role playing, oral reports, lectures, buzz sessions, and review of the literature; students explore effective methods for identifying and arriving at satisfactory solutions to specific types of problems they may expect to encounter in the administration of health information services. Prerequisites: HIM 4508, HIM 4837, HIM 4256. (S)

HIM 4837 Directed Practice III (1). Experience in quality improvement, risk management, and utilization review areas. Clinical experience in acute care and non-acute care facilities. Prerequisite: Directed Practice I, Directed Practice II, Quality Assessment and Improvement, HIM Department Systems. (F)

HIM 4838 Internship in Health Information Management (3). Management experience in a health information department under the supervision of a credentialed Health Information Professional. Emphasis on administrative and medical staff relationships. Prerequisites: DPI, DPII, DPIII. (S)

HIM 4905 Directed Independent Study (1-3). Individual conferences, assigned readings, and reports on investigations related to the Health Information Management profession. (F,S,SS)

HIM 4932 Special Topics (3). Designed to address topics not otherwise offered in the curriculum but specific to or required for health information management. Topics to be announced yearly. (F,S,SS)

HSA 3111 Health and Social Service Delivery Systems (3). Students examine the history and current functions of health and social services delivery systems in the United States. Focus is on the components, their interaction and internal/external controls. Prerequisites: Completion of at least three of the following CGS 2060, ACG 2021, STA 2023 or ECO 2023 or permission of the instructor.

HSA 3180 Management for the Health Professions (3). Fundamental theories, principles, and concepts of management are surveyed to prepare the student for a middle-management position in health care. Case studies are utilized for practical application. Prerequisites: Completion of at least three of the following CGS 2060, ACG 2021, STA 2023 or ECO 2023 or permission of the instructor. Corequisite: HSA 3111.

HSA 4104 Team Approach to Health Service Delivery (3). Team formation, structure, composition, maturity, growth, and the process are identified. Team management in health facilities are discussed. Prerequisites: HSA 3111, HSA 3180 or permission of the instructor.

HSA 4110 Health Care Organizational Behavior (3). Analysis of organizational behavior and its implications for management in health care systems. Prerequisites: Completion of at least three of the following HSA 3111, HSA 3180, PHC 4510 or PAD 3438. If HSC major, completion of HSA 3111 and HSA 3180.

HSA 4113 Issues and Trends in Health Care Delivery (3). Issues and trends in policy questions involving health care organizations, financing, quality controls, and delivery of services are addressed. This is a Capstone course. Prerequisites: Completion of at least three of the following HSA 3111, HSA 3180, PHC 4510 or PAD 3438. If HSC major, completion of HSA 3111 and HSA 3180.

HSA 4141 Program Planning and Evaluation (3). Basic concepts of planning and evaluation as the fundamental tools of program design and development are examined. Prerequisites: Completion of at least three of the following HSA 3111, HSA 3180, PHC 4510 or PAD 3438. If HSC major, completion of HSA 3111 and HSA 3180.

HSA 4170 Health Care Financial Management (3). Financial management methods and procedures for health care institutions. Prerequisites: ACG 2021 or ACG 2071 plus completion of 9 hours of foundation coursework: HSA 3111, HSA 3180, PAD 3438; and HSC 4751, PAD 4704 or HSC 4751. If HIM major, completion of HIM 3006 and ACG 2021 or ACG 2071.

HSA 4183 Applied Management in Health Care Organization (3). Management theory and principles are examined in their application to the administrative process. Case studies are emphasized to illustrate operational conditions found in health care settings. Strategic Management is emphasized. Prerequisites: HSA 3180, HSA 4110, or permission of the instructor.

HSA 4184 Human Resources Management and Supervision (3). The role of health care supervisors is examined with respect to interviewing, performance appraisal, disciplining, counseling, job orientation, in-service education and responsibilities. Prerequisites: Completion of at least three of the following HSA 3111, HSA 3180, PHC 4510 or PAD 3438. If HSC major, completion of HSA 3111 and HSA 3180.

HSA 4190 Information and Communication Technology for Health Professionals (3). This online course assists the student in developing information and communication skills using the Internet. It demonstrates the use of technology in clinical practice, research and education. Prerequisite: CGS 3559.
HSA 4192 Health Management Systems Engineering (3). Introduction to health systems analysis and application of industrial engineering techniques including work systems, job analysis, space utilization, inventory control, and traffic patterns are studied. Prerequisites: Completion of at least three of the following: HSA 3111, HSA 3180, PAD 3438; and HSC 4751, PAD 4704 or HSC 4751. One of the statistics courses (HSC 4751 or PAD 4704) must be included in the 9 hours. If HIM major, HIM 3626. If HSC major, completion of HSA 3111 and HSA 3180. Computer skills required.

HSA 4193 Automated Management and Information Systems (3). The analysis, design, and installation of management information systems in health care organizations is studied. Evaluation of computer systems from several perspectives are examined. Prerequisites: HSA 4192 or permission of the instructor.

HSA 4421 Legal Aspects and Legislation in Health Care (3). Corporate structure and legal liabilities of health care institutions and professionals is studied from a local, state, and federal regulatory position. Prerequisites: Completion of at least three of the following: HSA 3111, HSA 3180, PAD 3438; and HSC 4751, PAD 4704 or HSC 4751. If HIM major, completion of HIM 3006.

HSA 4430 Health Economics (3). This course is designed as an introduction to health economics. Health economics is concerned with issues related to scarcity of resources in health care markets. Prerequisites: Completion of at least three of the following HSA 3111, HSA 3180, PHC 4510 or PAD 3438. If HSC major, completion of HSA 3111 and HSA 3180.

HSA 4700 Fundamentals of Health Research Methods (3). Introduction to health research method’s tools including literature research, research report analysis covering research design, and data analysis and reporting writing are examined and practiced. Prerequisites: Completion of at least three of the following HSA 3111, HSA 3180, PCB 2099 or HSC 3549. One of the statistics courses (HSC 4751 or PAD 4704) must be included in the 9 hours. If HIM major, HIM 3626. If HSC major, completion of HSA 3111 and HSA 3180.

HSA 4850 Administrative Internship (2-6). The student who has completed all required upper division course work is provided an opportunity to observe and engage in administrative practice in a health care setting. Prerequisite: Completion of all curriculum required course work and have an educational plan approved by the Faculty Preceptor the semester prior to registering.

HSA 4905 Undergraduate Independent Study (1-3). Students take part in in-depth research or an action-oriented project under the supervision of their faculty advisor. Preparation and approval of the content must be made one semester in advance. Prerequisite: Permission of faculty advisor.

HSA 1001C Perspectives of Health Science Professions (3). A study of public health issues, disease, preventive medicine and wellness as they relate to nutrition, physical and occupational therapy. Utilizes lab and field work.

HSC 2100 Healthy Lifestyles through Wellness (3). A survey of wellness issues including preventive health care, substance abuse prevention, stress management, sexually transmitted diseases, psychological illness, nutrition and exercise.

HSC 3002 Introduction to Health Science Professions (3). Introduction to health care delivery in the United States with emphasis on the roles/responsibilities of health care providers. Additional topics include legal, ethical, safety, and wellness issues.

HSC 3537 Medical Terminology (3). Provides the student with basic medical language skills including, pronunciation, spelling, and definitions as a foundation for developing the degree of competency required to read and understand medical reports and communicate with physicians and other medical professionals. Prerequisites: Human Anatomy and Physiology. (F,S)

HSC 3549 Clinical Physiology for Health Professionals (3). An integrated, systems-based approach to the study of human physiology with relevant clinical correlations and case studies. Prerequisites: BSC 2023 or BSC 1010.

HSC 3579 Wellness of Women (3). Concepts relating to women’s health, including sexuality, preventative health care, nutrition, exercise, reproductive diseases and the social/political health care of women.

HSC 3661 Communication Theory and Practice for Health Professions (3). Theory and practice of effective communication for health care professionals. Emphasis on communication between healthcare provider-client; provider-provider; provider-family. Prerequisite: HSC 3002.

HSC 3701 Leadership and Management in Health Science Professions (3). Introduces health sciences profession students to the generic principles of leadership and management for effective and efficient functioning in the health care arena.

HSC 4553 Fundamentals of Pathology (3). Study of human diseases/disorders of the immune, cardiovascular, hematopoietic, central nervous, musculoskeletal, respiratory, urinary/reproductive, gastrointestinal and endocrine systems. Prerequisites: PCB 2099 or HSC 3549 or PCB 3702.

HSC 4751 Statistical Applications (3). The intent of this course is to familiarize students with the basic approaches to social research as applied in healthcare settings. Emphasis will be placed on techniques for organizing and presenting data for policy and management decision-making.

HSC 4905 Health Independent Study (3). Faculty supervised project in health-related topics in association with the student’s special interests.

HSC 4910 Introduction to Research Methods in the Health Sciences (3). Introduces the student to the research process in an interdisciplinary, multidisciplinary health sciences environment. Prerequisites: STA 2122, CGS 2060.
IHS 4111 Values, Ethics, and Conflict Resolution in Health and Urban Affairs (3). Explores individual and organizational values, related values, related theories, ethical systems and their influence on behavior of individuals in government agencies, law enforcement and health care professions.

NUR 3017 Introduction to the Nursing Profession (3). Introduction to the nursing profession including historical, legal, ethical, and theoretical foundations of nursing. Professional standards and roles as part of the interdisciplinary health care team.

NUR 3026C Foundations of Nursing I: Basic Clinical Skills (3). Theoretical instruction and campus laboratory practical experience in the implementation of basic clinical nursing skills essential for professional nursing practice. Prerequisites: Admission to Nursing Pre-Major, NUR 3017. Corequisites: NUR 3065C, NUR 3145

NUR 3027 Foundations of Nursing II (3). Introduction to the nursing process in assisting individual clients with adaptation to potential and actual stressors. Prerequisites: Admission to Nursing Major, NUR 3026C, NUR 3065C, NUR 3145. Corequisites: NUR 3027L, NUR 3125.

NUR 3027L Foundations of Nursing II Clinical (6). In the clinical setting, the nursing process is applied in assisting individual clients with adaptation to potential and actual stressors. Prerequisites: Admission to Nursing Major, NUR 3026C, NUR 3065C, NUR 3145. Corequisites: NUR 3027, NUR 3125.

NUR 3029 Foundations of Nursing Practice (3). Development of essential nursing skills, using the nursing process, for managing acute and chronic care of diverse individuals in a multicultural environment. Prerequisite: Admission to nursing major. Corequisites: NUR 3029C, NUR 3029L.

NUR 3029C Foundations of Nursing Practice Laboratory (2). In a laboratory setting, students develop essential nursing skills using the nursing process for management of acute and chronic care of diverse individuals. Prerequisite: Admission to nursing major. Corequisites: NUR 3029, NUR 3029L.

NUR 3029L Foundations of Nursing Practice Clinical (3). In the clinical setting, students apply nursing skills, using the nursing process, for managing acute and chronic care of individuals in a multicultural environment. Prerequisite: Admission to nursing major. Corequisites: NUR 3029, NUR 3029C.

NUR 3065C Client Assessment (3). The assessment and evaluation of physiological and psychosocial stressors of the individual as client is emphasized. Prerequisites: Admission to Nursing Pre-major, NUR 3017. Corequisites: NUR 3145, NUR 3026C. (F,S,SS)

NUR 3066C Health Assessment and Promotion in Nursing Practice (4). Health and physical assessment of diverse individuals and health promotion; disease and injury prevention, evidence-based teaching/learning in multicultural environment. Prerequisite: Admission to nursing major.

NUR 3081 Transition to Professional Nursing (3). The role of the professional nurse is explored in applying the nursing process in assisting individuals and/or families with adaptation to potential and actual stressors. Prerequisite: Florida RN license. (F,S,SS)

NUR 3119 Professional Nursing: Concepts and Issues (3). Concepts and issues in professional nursing, including historical and theoretical aspects, standards, and use of communication, collaboration, advocacy, and technology within a global environment.

NUR 3125 Pathophysiologic Basis for Nursing Practice (3). Adaptive responses of cells, tissues, organs and systems in the pathogenesis, clinical manifestations, and nursing management of common diseases across the life span of diverse individuals. Prerequisite: Admission to Nursing Major. (F,S)

NUR 3145 Pharmacologic Basis for Nursing Practice (3). Focuses on the role of pharmacotherapeutic agents for diverse individuals across the life span. Nursing management related to pharmacodynamics, adverse effects, interactions and education. Prerequisites: NUR 3029, NUR 3029L, NUR 3029C, NUR 3125. Corequisites: NUR 3226, NUR 3226L. (F,S)

NUR 3165 Professional Nursing: Research Consumer (3). Interrelationship of problems solving, decision making, change and the nursing process are explored in identifying the role of the professional nurse as research consumer. Prerequisites: Statistics course, NUR 3017. (F,S,SS)

NUR 3192C Emergency Measures in Selected Health Crises (1). Emergency measures in selected health crises using CPR and preventive techniques. Prerequisite: Permission of the instructor.

NUR 3226 Nursing Care of Adults I (3). First of two courses in adult health nursing. Nursing management of diverse individuals with complex health alterations. Prerequisites: NUR 3029, NUR 3029C, NUR 3029L. Corequisite: NUR 3226L.

NUR 3226L Nursing Care of Adults I Clinical (3). First of two clinical courses in adult health nursing. Nursing management of diverse individuals with complex alterations. Prerequisites: NUR 3029, NUR 3029C, NUR 3029C. Corequisite: NUR 3226.

NUR 3227 Nursing Care of Adults II (3). Second of two courses in adult health nursing. Nursing management of diverse individuals with complex health alterations. Prerequisites: NUR 3226, NUR 3226L. Corequisite: NUR 3227L, NUR 4455, NUR 4455L.

NUR 3227L Nursing Care of Adults II Clinical (3). Second of two clinical courses in adult health nursing. Nursing management of diverse individuals with complex alterations. Prerequisites: NUR 3226, NUR 3226L. Corequisites: NUR 3227, NUR 4455, NUR 4455L.

NUR 3516 Crisis Intervention and Nursing (3). This course examines the crisis state, what it is, when it occurs and how the nurse can aid the individual, family or group in crisis.
NUR 3535 Psychosocial Nursing (3). Development of nursing skills for managing care of diverse individuals with psychosocial diseases/disorders in multicultural communities. Prerequisites: NUR 3227, NUR 3227L, NUR 4455, NUR 4455L. Corequisites: NUR 3535L, NUR 4355, NUR 4355L.

NUR 3535L Psychosocial Nursing Clinical (3). In the clinical setting, development of nursing skills for managing care of individuals with psychosocial diseases/disorders in multicultural communities. Prerequisites: NUR 3227, NUR 3227L, NUR 4455, NUR 4455L. Corequisites: NUR 3535, NUR 4355, NUR 4355L.

NUR 3666 Evidence-Based Nursing and Research in Global Health Care – GL (3). Develop research knowledge and skills for evidence-based nursing care delivery. This is a global learning course that counts towards your global learning graduation requirement. Prerequisites: Admission to nursing major; STA XXXX.

NUR 3668 Nursing Leadership in Global Health Care – GL (3). Development of nursing leadership and management skills for care delivery at local, state, national, and global levels. This is a global learning course. Prerequisite: Admission to nursing major.

NUR 3685L Integrative Nursing Care I (1). First of two courses in the development of inter- and intra-professional collaborative care for managing care of diverse patients/clients and their families in simulated and community settings. Prerequisites: NUR 3226, NUR 3226L. Corequisites: NUR 3227, NUR 3227L, NUR 4455, NUR 4455L.

NUR 3805 Professional Nursing I: Socialization (3). Socialization into the role of professional nursing is introduced with emphasis on responsibilities as a direct care provider, teacher learner, and collaborator. Prerequisite: Admission to major. (F,S,SS)

NUR 4178 Complementary and Alternative Therapies in Nursing and Healthcare (3). Provides the theory, practice and patterns of use in complementary and alternative products (CAPPs). Integrates CAPPs knowledge with conventional healthcare using National Institutes of Health NCCAM framework. Prerequisite: Permission of the instructor.

NUR 4286 Nursing Care of Older Adults (3). Development of nursing skills, including interventions and evaluation, for managing care of diverse older adults/families in a multicultural global environment. Prerequisites: NUR 3535, NUR 3535L, NUR 4355, NUR 4355L. Corequisites: NUR 4636.

NUR 4355 Care of Families: Childrearing Nursing (3). Development of nursing skills, using the nursing process, for providing a continuum of care of children and their families in various, multicultural settings within their community. Prerequisites: NUR 3227, NUR 3227L, NUR 4455, NUR 4455L. Corequisites: NUR 4355L, NUR 4355, NUR 3535L. (F,S)

NUR 4355L Care of Families: Childrearing Nursing Clinical (3). Implementation of nursing skills, using the nursing process, to provide a continuum of care for of children and their families in community-based clinical settings. Prerequisites: NUR 3227, NUR 3227L, NUR 4455, NUR 4455L. Corequisites: NUR 4355, NUR 3535, NUR 3535L. (F,S)

NUR 4455 Care of Families: Childbearing Nursing (3). Development of nursing skills for managing care of diverse childbearing women/families in a multicultural environment. Prerequisites: NUR 3226, NUR 3226L. Corequisites: NUR 4455L, NUR 3227, NUR 3227L. (F,S)

NUR 4455L Care of Families: Childbearing Nursing Clinical (3). In the clinical setting, development of nursing skills for managing care of childbearing women/families in a multicultural environment. Prerequisites: NUR 3226, NUR 3226L. Corequisites: NUR 4455, NUR 3227, NUR 3227L. (F,S)

NUR 4636 Care of Communities: Community Health Nursing (3). Building upon concepts of community-based nursing introduced across the curriculum, this course integrates those concepts into a broader perspective in which the community is the client. Prerequisites: NUR 4455, NUR 4455L, NUR 4355, NUR 4355L. Corequisites: NUR 4286, NUR 4945L, NUR 4940. (F,S,SS)

NUR 4636L Approaches to Nursing IV: Community Nursing: Clinical Experience (3). In the clinical arena, the nursing process is applied in assisting individuals, families, and communities as clients with adaptation to potential and actual stressors. Prerequisites: NUR 4455, NUR 4455L, NUR 4355, NUR 4355L. Corequisite: NUR 4636. (F,S,SS)

NUR 4665 Introduction to International Nursing Research (3). Examines international nursing research methods and design with a focus on global health, specifically related to health disparities in underserved populations in local, national, and international areas. Prerequisite: NUR 3165.

NUR 4667 Nursing in Global Health Care Systems – GL (3). Develop basic knowledge of global healthcare systems and models. This is a global learning course that counts towards your global learning graduation requirement. Prerequisite: Admission to nursing major.

NUR 4686L Integrative Nursing Care II (1). Second of two courses in the development of inter- and intraprofessional collaborative care for managing care of diverse patients/clients and their families in simulated and community settings. Prerequisites: NUR 3227, NUR 3227L, NUR 4455, NUR 4455L. Corequisites: NUR 3535, NUR 3535L, NUR 4355L, NUR 4355L.

NUR 4827 Professional Nursing: Leadership (3). The client advocate, leadership and change agent roles of the professional nurse are analyzed in a variety of health care settings. Prerequisite: NUR 3017. (F,S,SS)

NUR 4905 Independent Study in Nursing (1-5). Faculty supervised introduction to problems in nursing in accord with the student's special interest.
NUR 4940 Senior Nursing Synthesis (2). Transition from student to graduate role through synthesis of nursing knowledge in preparation for the registered nursing licensure examination. Prerequisites: Completion of all Clinical Nursing courses except NUR 4945L. Corequisites: NUR 4636, NUR4945L, NUR 4286.

NUR 4945L Senior Clinical Practicum (4). Nursing care management of groups of patients through a practicum experience in a selected clinical setting that requires critical thinking, nursing skills and social and multicultural competence. Prerequisites: NUR 3535, NUR 3535L, NUR 4355, NUR 4355L. Corequisite: NUR 4636C. (F,S,SS)

NUR 4947 Directed Field Experience in Nursing (3). Application and refinement of nursing in a clinical specialty area. Prerequisite: Permission of the instructor.

NSP 3801 Interprofessional Approaches to Health Care (2). Working in collaboration with medical students and other health professionals, students will develop skills (e.g., communication, conflict resolution, etc.) to work effectively in a health care team. Prerequisite: Admission to major.

NSP 4185 Transcultural Issues and the Nurse (2). The course is designed to guide the student into direct relationships with individuals of ethnic and racial differences, and to facilitate the development of a therapeutic relationship.

OTH 3000 Foundations of Occupational Therapy (3). History and theory of occupational therapy, including scope of practice and introduction to clinical reasoning. (F)

OTH 3122 Therapeutic Skills in Occupational Therapy I (1). Presents the use of self and the use of occupation as therapeutic mediums. Communication skills and skills in analyzing, adapting, and grading activities are emphasized. (F)

OTH 3122L Therapeutic Skills in Occupational Therapy I Lab (2). Lab experiences enable practice of skills in therapeutic communication, activity analysis and adaptation, and beginning group process. (F)

OTH 3160 Adaptive Living Skills (2). Examination of factors that interfere with an individual’s performance of daily activities and occupations. Students will develop problem-solving to evaluate, select, and adapt activities that will assist clients in occupational performance. Corequisite: OTH 3160L.

OTH 3160L Adaptive Living Skills Lab (1). Lab class to accompany Adaptive Living Skills lecture.

OTH 3210 Occupational Development Throughout the Lifespan I (2). Investigates how humans shape and are shaped by their activities and environment. Examines normal occupational development in infants, children and adolescents. Prerequisites: DEP 2000 or equivalent. (F)

OTH 3210L Occupational Development Throughout the Lifespan I Lab (1). Laboratory class to accompany OTH 3210.

OTH 3216C Occupational Development Throughout the Lifespan II (3). Examines normal occupational development of young, middle-aged and older adults. Analysis of occupations and personal and environmental factors that influences occupational competence. Prerequisites: DEP 2000 or equivalent. (S)

OTH 3413 Applied Kinesiology (3). A study of the anatomical, physiological and biomechanical principles of human motion with an emphasis on clinical application. (S)

OTH 3413L Applied Kinesiology Lab (2). Laboratory to accompany OTH 3413. (S)

OTH 3416 Mechanisms of Disease and Dysfunction (3). A study of mechanisms of disease and pathophysiological processes that occur in the human body. State of the art diagnostic techniques, medical advances, and methods of disease prevention are discussed. Prerequisites: ZOO 3731 and laboratory, PCB 3702, or equivalent. (S)

OTH 3760 Evaluation and Research in Occupational Therapy I (2). Introduces concepts of evaluation and testing in occupational testing in occupational therapy and develops skills necessary to be a research consumer. (F)

OTH 3815 Field Work Experience Level I (3). Preliminary clinical experience in an approved training center. (SS)

OTH 4109 Technological Applications in Occupational Therapy (1). Overview of technological applications in clinical practice with emphasis on adaptations for the physically disabled client.

OTH 4109L Technological Applications in Occupational Therapy Lab (1). Laboratory experience with various technological applications used in occupational therapy practice.

OTH 4123 Therapeutic Skills in Occupational Therapy II (1). Studies the use of self and group activities to evaluate and treat individuals with psychiatric disorder or other functional limitations. (F)

OTH 4123L Therapeutic Skills in Occupational Therapy II Lab (2). Application and practice of therapeutic communication, activity analysis and adaptation, and group process skills through role-playing and simulated treatment situations. (F)

OTH 4322 Neuropsychiatric and Cognitive Approaches in Occupational Therapy I (2). Students development proficiency in OT evaluation and treatment techniques for individuals with cognitive and neuropsychiatric disorder. Selected disorders are studied. (F)

OTH 4322L Neuropsychiatric and Cognitive Approaches in OT Lab (1). Laboratory course and utilizing films that depict individuals with cognitive and neuropsychiatric disabilities as these disabilities impact functional performance. Prerequisite: General Psychology.

OTH 4323 Neuropsychiatric and Cognitive Approaches in Occupational Therapy II (3). Students develop proficiency in OT evaluation and treatment techniques for individuals with cognitive and neuropsychiatric disorders. Selected disorders are studied. (S)

OTH 4323L Neuropsychiatric and Cognitive Approaches in Occupational Therapy II Lab (1). Taken concurrently with OTH 4323, students will develop proficiency in administration of assessments and translation of findings in treatment. Prerequisite: OTH 4322.
OTH 4418 Impact of Neurological Dysfunction on Human Performance (3). Covers functional basis of neuroscience as needed to understand neuromotor, neuromotor perceptual, and neuropsychiatric performance in function and dysfunction.

OTH 4421 Biomechanical and Rehabilitative Approaches in Occupational Therapy I (2). Studies the application of biomechanical and rehabilitative approaches to selected physical disabilities. Case studies present specific evaluation and treatment techniques. Prerequisite: OTH 3413. (F)

OTH 4421L Biomechanical and Rehabilitative Approaches in Occupational Therapy I Lab (1). Lab experiences allow students to practice biomechanical and rehabilitative evaluation and treatment strategies in simulated treatment situations. Prerequisite: OTH 3413L. (F)

OTH 4422 Biomechanical and Rehabilitative Approaches in Occupation Therapy II (2). Continued study of the application of biomechanical and rehabilitative approaches to selected physical disabilities. Case studies present specific evaluation and treatment techniques. (S)

OTH 4422L Biomechanical and Rehabilitative Approaches in Occupational Therapy II Lab (1). Provides students with practical experiences in evaluation and treatment techniques for selected physical disabilities. (S)

OTH 4423 Neuromotor Approaches in Occupational Therapy II (3). Foundational knowledge of OT evaluation and treatment of neurologically impaired adults. (S)

OTH 4423L Neuromotor Approaches in Occupational Therapy II Lab (1). Applications of theoretical knowledge to clinical problems in the occupational therapy evaluation and treatment of neurologically impaired adults. (S)

OTH 4504 Neuromotor Approaches in Occupational Therapy (3). Provides theoretical basis for treatment of children with neuromotor disorders. Develops evaluation and treatment planning skill through extensive pediatric casework.

OTH 4504L Neuromotor Approaches in Occupational Therapy I Lab (1). Application of theoretical knowledge to clinical problems in the occupational therapy evaluation and treatment of children with neuromotor disorders. Prerequisites: Neuroscience (ZOO 4743 or equivalent), Occupational Development Across the Lifespan I (OTH 3210). Corequisite: Neuromotor Approaches to Occupational Therapy I.

OTH 4701 Professional Issues in Occupational Therapy (2). Study of professional issues in OT in relation to administration such as roles, functions, licensing, certification, documentation, ADA. (S)

OTH 4775 Evaluation and Research in Occupational Therapy II (2). Presents research concepts and strategies. Emphasis on evaluation and research activities that can be conducted in clinical settings and are relevant to clinical practice. Prerequisites: STA 2122 and evaluation and research in OT I. (S)

OTH 4904 Independent Study (VAR). To be arranged with instructor according to the student’s specialty. (F,S,SS)

PAD 3438 Communication Skills for Policy and Management (3). Designed to enable students to develop oral and written skills required to communicate effectively in organizational and public policy settings.

PAD 4723 Applied Research Methods for Policy and Management (3). Research design, sampling, critical evaluation, basic research ethics, experiments and quasi experiments, reliability and validity surveys, design-implementation, qualitative and quantitative methods, secondary analysis evaluation and presentation.

PET 3310 Kinesiology (3). Students study the anatomical and mechanical principles of movement and apply this knowledge in the analysis of physical education and athletic sport activities. (Includes laboratory class periods.) Prerequisites: ZOO 3731 or ZOO 3733 or PET 3325 or BSC 2085. (F,S,SS)

PET 3325C Anatomy for the Exercise and Sports Sciences (3). The human body will be studied using a body systems approach with emphasis on the organization and structure of the musculoskeletal, nervous, and cardiovascular systems. Corequisite: PET 3325L. (F,SS)

PET 3325L Anatomy for the Exercise and Sports Sciences Lab (1). The structure of the human body will be studied using hands-on experiences in the small group setting using class assignments, figures, models and computer activities. Corequisite: PET 3325C. (F,SS)

PET 4632 Therapeutic Exercise for the Injured Athlete (3). The theory behind the use of therapeutic exercise for the care and treatment of injured athletes. Prerequisite: PET 4622. Corequisite: PET 4632L. (F)

PET 4632L Therapeutic Exercise for the Injured Athlete Lab (1). Practical, hands on experience in utilizing the proper technique and understanding the reason why the use of therapeutic exercises are used for the care and treatment of the injured athlete. Prerequisite: PET 4622. Corequisite: PET 4632L. (F,S)

PET 5317C Orthopedic Assessment II – Upper Extremity (4). Introduction to common types of orthopedic injuries and/or dysfunctions that occur to the upper extremity during physical activity and the techniques of injury prevention, recognition, and evaluation. Prerequisites: PET 5633C, PET 5635C, PET 5668L. Corequisite: APK 6118C.

PET 5405 Administration and Professionalism in Athletic Training (3). Introduction to the concepts of legal liability, budgeting, inventory, facilities design and general administration of the athletic training room. Prerequisites: PET 5609C, PET 5683L, PET 5608. Corequisite: PET 6535.

PET 5608 Diseases and Disabilities in the Physically Active (3). Introduction to the clinical signs and symptoms of general medical conditions that will present to the Certified Athletic Trainer. Prerequisites: PET 5317C, APK 6118C, and PET 5682. Corequisite: PET 5609C.

PET 5609C Orthopedic Assessment III – Head, Spine, and Trunk (4). Introduction to common types of orthopedic injuries and/or dysfunctions that occur to the head, spine, and trunk during physical activity and the techniques of injury prevention, recognition, and evaluation. Prerequisites: PET 5682L and APK 6118C. Corequisite: PET 5608.
PET 5620C Principles of Athletic Training with Lab (4). Introduction to principles of risk management and injury prevention. Topics include the athletic training profession, fitness programs, environmental risk factors, taping techniques and nutrition. Prerequisite: Admission to Athletic Training Education Program. Corequisites: PET 5662C, PET 5658.

PET 5633C Orthopedic Assessment I - Lower Extremity with Lab (4). Introduction to orthopedic injuries and/or dysfunctions that occur to the lower extremity during physical activity and the application of techniques of orthopedic assessment. Prerequisites: PET 5260C, PET 5662C, PET 5658. Corequisites: PET 5635C, PET 5668L.

PET 5635C Therapeutic Modalities with Lab (4). Introduction to basic principles of theory and application of various therapeutic modalities encountered in athletic training practice and the application of the principles in the lab setting. Prerequisites: PET 5633C, PET 5662C, PET 5658. Corequisites: PET 5633C, PET 5668L.

PET 5658 Clinical Education Seminar in Athletic Training (1). Addresses issues related to the clinical setting and prepares the student for the clinical component of the Athletic Training Education Program while completing 30 clinical experience hours. Prerequisite: Admission to Athletic Training Education Program. Corequisites: PET 5662C, PET 5620C.

PET 5662C Management of Medical Emergencies (3). Students will learn the basic principles of managing medical emergencies utilizing immediate first aid techniques. American Red Cross certification in CPR and first aid will be obtained. Prerequisite: Admission to Athletic Training Education Program. Corequisites: PET 5620C, PET 5658.

PET 5668L Clinical Education I (3). Designed to allow students to apply athletic training techniques associated with the principles of athletic training, management of medical emergencies, and clinical education. Prerequisites: PET 5620C, PET 5662C, PET 5658. Corequisites: PET 5633C, PET 5653C.

PET 5682L Clinical Education II (3). Designed to allow students to apply athletic training techniques associated with orthopedic assessment of the lower extremity and therapeutic modalities. Prerequisites: PET 5633C, PET 5635C, PET 5668L. Corequisites: PET 5317C, APK 6118C.

PET 5683L Clinical Education III (3). Designed to allow students to apply athletic training techniques associated with orthopedic assessment of the upper extremity and rehabilitation. Prerequisites: PET 5317C, APK 6118C, PET 5682. Corequisites: PET 5609C, PET 5608.

PET 5684L Clinical Education IV (3). Designed to allow students to apply athletic training techniques associated with orthopedic assessment of the head, spine, and trunk, intervention and referral, and diseases and disabilities. Prerequisites: PET 5609C, PET 5683L, PET 5608. Corequisite: PET 6535.

PET 5716 Analysis and Observation of Teaching in Physical Education (3). This course analyzes the teaching-learning process in physical education. The emphasis is on systematic observation instruments and guidelines for systematic development of instructional skills. (F)

PET 5935 Special Topics in Athletic Training (1-3). This course presents current trends and professional issues in Athletic Training.

PHC 4024 Principles of Applied Epidemiology (3). Methods and techniques used by epidemiologists investigating the distribution and causes of diseases are studied. A holistic approach to principles of disease surveillance and control is studied. Prerequisite or Corequisite: HSA 3111.

PHC 4302 Introduction to Environmental Public Health (3). This course covers a description and analysis of environmental/occupational factors that affect the health of a community.

PHC 4509 Introduction to Health Promotion in Public Health (3). This course is an introduction to the role of health promotion in public health; it will address successes and failures in marketing public health program; it will discuss practical ways to prevent premature causes of death and policies.

PHT 4012 Introduction to Physical Disability and Physical Therapy I (3). The first of a two course sequence designed to provide a comprehensive introduction to physical disability and the role of the physical therapist in the management of disability. Prerequisites: Admission to BSHS/Pre-physical therapy track or permission of the instructor.

PHT 4013 Introduction to Physical Disability and Physical Therapy II (3). The second of a two course sequence designed to provide a comprehensive introduction to physical disability and the role of physical therapist in the management of disability. Prerequisites: Intro to Disability and PT I or permission of the instructor.

SPA 4002 Survey of Communication Disorders (3). This course focuses on procedures for environmental/occupational factors that affect the health of a community.

SPA 4002 Survey of Communication Disorders (3). Theory, evaluation, and therapeutic procedures with disorders of speech and language, including but not limited to, articulation disorders, childhood language disorders, aphasia, voice disorders, and disorders of fluency. Prerequisite: Permission of the instructor.

SPA 4004 Introduction to Speech and Language Development and Disorders (3). The study of normal speech and language acquisition and associated disorders. Prerequisite: Permission of the instructor.

SPA 4011 Speech and Hearing Science (3). Study of speech and hearing physiology, acoustic phonetics, and speech perception. Prerequisite: Permission of the instructor.

SPA 4030 Introduction to Audiology (3). Principles of auditory reception; the hearing mechanism; problems involved in measuring, evaluating, and conserving hearing. Prerequisite: Permission of the instructor.

SPA 4050 Clinical Management in Communication Disorders (3). The course focuses on procedures for working in various practicum settings. It includes
observation of evaluation and treatment sessions. Prerequisite: Permission of the instructor.

**SPA 4101 Anatomy and Physiology of Speech and Hearing (3).** Anatomy and physiology of the speech and hearing mechanisms. Including nomenclature, respiration, phonation, articulation/resonance, the nervous system, and the auditory system. Prerequisite: Permission of the instructor.

**SPA 4101L Anatomy and Physiology of Speech and Hearing Lab (1).** Lab to accompany SPA 4101. Prerequisite: Permission of instructor. Corequisite: SPA 4101.

**SPA 4112 Principles of Phonetics (3).** Principles of phonetics and their application to speech. Classification of speech sounds according to various systems including, but not limited to, manner and place, distinctive features, and phonological processes. Phonetic transcription utilizing the International Phonetic Alphabet. Prerequisite: Permission of the instructor.

The Robert Stempel College of Public Health and Social Work offers programs of study leading to Bachelor’s degrees in Dietetics and Nutrition and Social Work. The Dietetics and Nutrition Department also offers an accredited pre-professional practice program. The college offers minors in Nutrition and Social Welfare. A Master's degree in Public Health (with specializations in biostatistics, environmental and occupational health, epidemiology, health policy and management, and health promotion and disease prevention); a Ph.D. in Public Health (with specializations in environmental and occupational health, epidemiology, and health promotion and disease prevention); a Master's degree in Dietetics and Nutrition (MS), a Master’s degree in Social Work (MSW), a Doctoral degree in Dietetics and Nutrition (PhD), and a Doctoral degree in Social Welfare (PhD) are also offered. Each program is committed to preparing students for the pursuit of excellence in professional and scholarly endeavors as well as life-long learning processes in the era of globalization, scientific and technological advances, and demographic changes. We clearly recognize that the health and well-being of any community is affected by interaction among multiple determinants. Hence, the curriculum offered by all programs within the college is interdisciplinary. Our emphasis on involving practitioners, academic researchers, and the community to improve and promote public-health, nutrition and social work is ideal for enhancing student learning.

Accreditation
The Robert Stempel College of Public Health and Social Work is accredited by the Council on Education for Public Health. The Didactic and Coordinated Program (DPD and CP) in Dietetics and Nutrition are accredited by The Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago, Illinois, 60606, (312) 899-0040, ext. 5400. The BSW and MSW programs are accredited by the Council on Social Work Education.

Office of Student and Alumni Affairs
The Office of Student and Alumni Affairs serves as a liaison between the Robert Stempel College of Public Health and Social Work and university-wide student support services. The office works with department chairs and the school director to coordinate admissions and advising services, and provides students with information on scholarships, assistantships, stipends, internships, and graduation application deadlines. The office also coordinates alumni services and communication.

The college has a dynamic, professional staff dedicated to promoting the college and assisting and supporting our students while they pursue their academic goals.

For additional and updated information about degrees offered, entrance requirements, and services, please visit our website: http://rscphsw.fiu.edu/students_affairs/index.html.
Dietetics and Nutrition

Fatma Huffman, Professor and Chair
Mariana Baum, Professor
Adriana Campa, Assistant Professor
Michele Ciccazzo, Associate Professor and Interim Dean
Katharine R. Curry, Professor Emeritus
Victoria Castellanos, Associate Professor and Associate Dean, University Graduate School
Zisca Dixon, Associate Professor
Penelope S. Easton, Professor Emeritus
Evelyn B. Enrione, Associate Professor

Vijaya Narayannan, Assistant Professor
Tania Rivera, Clinical Assistant Professor and Director, Didactic Program
Dian O. Weddle, Associate Professor Emeritus

The Program in Dietetics and Nutrition offers a major leading to a baccalaureate degree in dietetics and nutrition, and courses in nutrition for interested students. The program also offers Master of Science and Doctor of Philosophy degrees in dietetics and nutrition. The undergraduate programs are designed to assist the student to gain basic practitioner knowledge and skills.

Bachelor of Science in Dietetics and Nutrition

Degree Program Hour: 120

Didactic Program

The Didactic Program in Dietetics (DPD) is currently granted accreditation by The Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago, Illinois, 60606, (312) 899-0040, ext. 5400.

Upon completion of this program, all students are eligible to receive a Didactic Program Verification Statement and may apply to FIU Coordinated Program (CP) or an accredited dietetic internship program or to a Master’s of Science, Dietetics and Nutrition with a supervised component to obtain the supervised practice experience required to become eligible to sit for the National Registration Examination for Dietitians.

DPD courses within the department (prefix DIE, FOS, HUN, and FSS Hospitality course) will receive a grade of “C” or higher. A grade lower than a “C” will require that the student retake the course(s) and successfully pass with a grade of “C” or higher.

Students must receive a “C” or higher in all science courses and course labs required for dietetics major (Gen CHM 1045/lab and 1046/lab, Org CHM 2200/lab or Org CHM 2210/lab and 2211/lab, BCH 3033, MCB 2000/lab, PCB 3702 or HSC 3549 and BSC 1010. Any course(s) transferring into one of the above mentioned science course(s) will need to meet the criteria. Any foreign equivalence must meet the same criteria.

Common Prerequisite Courses and Equivalencies

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org, See Common Prerequisite Manual.

Recommended Electives

Selected courses in: computer science, education, statistics, social work, health science, adult education, business, anthropology, sociology.

Degree Program Hours: 132

Coordinated Program

The Coordinated Program (CP) is currently granted Continuing Accreditation status by The Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago, Illinois 60606, (312) 899-0040, ext. 5400.

The CP is a limited enrollment program for FIU students and admission to the program is competitive based on academic performance. Students must have completed the DPD curriculum and all requirements of the university (Gordon Rule and CLAS). Applicants must apply to the CP by the published deadline to be considered for admission. The CP application is due to the CP Program Director by October 20 of the student’s senior year. Students admitted to the CP registered for the preceding Summer semester and Fall semester graduating the CP in December. Students must register for 6 credits for Supervised Practice I and 6 credits for Supervised Practice II totaling 12 credits for the enter portion of supervised practice. Students completing the CP are eligible to sit for the National Registration Examination for Dietitians.

To be considered for the CP, DPD courses within the department (prefix DIE, FOS, HUN and FSS Hospitality course) will receive a grade of ‘C’ or higher. A grade lower than a ‘C’ will require that the student retake the course(s) and successfully pass with a grade of ‘C’ or higher.

Students must receive a ‘C’ or higher in all science courses and course labs required for dietetics major (Gen CHM 1045/lab and 1046/lab, Org CHM 2200/lab or Org CHM 2210/lab and 2211/lab, BCH 3033, MCB 2000/lab, PCB 3702 or HSC 3549 and BSC 1010. Any course(s) transferring into one of the above mentioned science course(s) will need to meet the criteria. Any foreign equivalence must meet the same criteria.

The supervised practice placement sites used by the Dietetics and Nutrition Department require the disclosure of conviction records for misdemeanors and/or felonies and current screening for drug use. Students are required to submit Level II to federal background checks including finger printing and drug screening tests prior to the initiation of the supervised practice. Students will also need to have a current Tetanus and PPD test. Students are required to complete and pass an adult CPR course and maintain a current CPR card during the Supervised Practice.

The student is solely responsible for the financial cost of such all drug and vaccination screenings, PPD, Tetanus, and background checks including finger printing. Findings in background checks and/or drug screening tests may affect a student’s ability to participate in the supervised practice rotations and may not be able to complete the program.

Common Prerequisite Courses and Equivalencies

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions-equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org, See Common Prerequisite Manual.

Common Prerequisites1

Lower Division Preparation

Minor in Nutrition

A twelve-credit nutrition course sequence at the undergraduate level affords students the opportunity to study food and nutrients, their physiological functions, normal nutritional requirements, socioeconomic influences on food choices and other aspects of food technology. The required science foundation courses provide the necessary background of chemistry and biological sciences to understand the physiological and biochemical basis of nutrition, as a multi-disciplinary science with relevance to health. Students minoring in nutrition learn to interpret nutrition research and contemporary claims and theories as a basis for improving food habits. Students interested in entering health professional fields of physical or occupational therapy, schools of medicine, dentistry or veterinary medicine find the nutrition minor relevant to their future careers because of diet and health relationships.

This nutrition minor will not meet licensure requirements for qualifications as a nutritionist in the State of Florida. A license is required to provide nutritional counseling to individuals.

School of Social Work

Mary Helen Hayden, Assistant Professor and Director
Jennifer Abellof, Clinical Instructor and Field Education Coordinator and BSSW Program Coordinator
Richard Beaulaurier, Associate Professor and Associate Dean for Research and Engagement
David Cohen, Professor
Mario De La Rosa, Professor and Director, Latino Minority Drug Abuse Research Center
Frank Dillon, Assistant Professor
Andres Gil, Professor and Vice President for Research
Victoria Gray, Visiting Instructor
Rosa Jones, Associate Professor and Vice President for Student Affairs
Elise Linder, Visiting Instructor and Assistant Coordinator of Field Education
Mark Macgowan, Professor and Ph.D. Program Coordinator
Lourdes Martin, Clinical Instructor and Neighborhood HELP™ Social Work Coordinator
Adis Orta, Clinical Instructor and Assistant Coordinator of Field Education
Miriam Potokry, Professor
Chris Rice, Associate Professor
Nicole Ruggiano, Assistant Professor
Florence Safford, Professor Emeritus
Barbara Thomlison, Professor
Ray Thomlison, Professor
Nan Van Den Bergh, Clinical Associate Professor
Eric F. Wagner, Professor and Director, Community Based Intervention Research Group
Stephen Wong, Associate Professor

Social Work offers graduate and undergraduate studies leading to the Bachelor's and Master's degrees in Social Work. The School also offers a Ph.D. in Social Welfare. This profession requires a high degree of knowledge, skill, and dedication; a desire and ability to work effectively with people and to help solve social problems; a scientific understanding of society and human behavior; skills of social work practice; and identification with values of the profession.

Bachelor of Science in Social Work

Degree Program Hours: 120

The program and courses listed in this catalog are under review and changes may be made without advance notice.

The program offers an integrated educational experience that combines the theoretical and the practical. It is designed to prepare the student for generalist practice as a beginning professional social worker, for entrance into a graduate school of social work, and for participation in society as an informed citizen. The curriculum applies a bio-psychosocial model within the context of a social systems framework to understand client systems, address problems and develop intervention. Students are also provided grounding in public health core knowledge.

The program is accredited by the Council on Social Work Education.

The four semester program includes a sequence of academic courses as well as field education under qualified supervision in social agencies in South Florida. As part of field education, social work students will also participate with students from the Herbert Wertheim College of Medicine and the College of Nursing and Health Sciences in Neighborhood HELP™, an inter-professional team approach in Miami-Dade communities.

The vast majority of agencies require the disclosure of conviction records for misdemeanors and/or felonies and current screening for drug use. Therefore, students are often required to submit state and federal background checks and drug screening tests prior to the initiation of the practicum. Findings in the background checks and/or drug screenings tests may affect a student’s ability to participate in field internship and, thus, complete the social work program. Students are further advised that Florida and most other states may restrict or deny social work licensure for persons with a felony conviction. Students with a criminal background must consult with the MSW Program Coordinator before continuing in the program.

Evening and weekend placements are extremely limited and are granted only as an exception in extreme circumstances. The School of Social Work is under no obligation to provide such placements. Consequently, practicum placement cannot be guaranteed students who require evening and weekend placements and all students must have at least eight (8) weekday, daytime hours available per week during their practicum experience.

Common Prerequisite Courses and Equivalencies

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: [http://facts.org](http://facts.org), See Common Prerequisite Manual.

Common Prerequisites

| POS 2042 | American Government |
| BSC 2023 | Human Biology or |
| PCB 2099 | Foundations of Human Physiology |
| ECO 2013 | Macropiniciples or |
| ECO 2023 | Microprinciples |
| DEP 2000 | Human Growth and Development or |
| PSY 2012 | Introduction to Psychology |
| SYG 2000 | Introduction to Sociology |
| SYG 2010 | Social Problems |

Course required for the degree:

STA 1013 Statistics for Social Services
Lower Division Preparation

The student desiring to major in Social Work must have completed the Associate in Arts degree at a Florida public community college, or the lower division core requirements of the University.

Required Courses

Before admission to the Social Work program, the student must complete college-level courses in biology (including coverage of Human Biology) and statistics, 12 semester hours in the social and behavioral sciences, which must include one course each in sociology, psychology, economics and American government and eight to ten hours in a foreign language.

To qualify for admission to the program, FIU undergraduates must have met all the lower division requirements including CLAS, completed 60 semester hours, have a minimum cumulative GPA of 2.5 and must be otherwise acceptable into the program.

For additional information regarding the undergraduate social work program of study and degree program requirements, contact the School directly.

Upper Division Program: (60)

Required Courses: (48)

Remarks: Students should be aware that courses in this program are sequenced. Students must check with their advisors for pre and corequisite courses. A grade of 'C' or higher (a grade of 'C-' is not acceptable) in all courses required for the major is necessary for graduation. A passing grade in field courses is required for continuation in the program. Field courses cannot be repeated.

Minor in Social Welfare

A five-course minor in social welfare is available to baccalaureate degree-seeking students who are interested in careers in the human services field or who wish to study how common human needs are addressed within social welfare programs. The courses that comprise the minor will provide students with the opportunity to relate to the special concerns of our region, including poverty, crime and delinquency, child abuse and neglect, and family instability.

The minor is available at Modesto A. Maidique Campus.

Course Descriptions

Definition of Prefixes

DIE-Dietetics; FOS-Food Science; FSS-Food Service Systems; HUN-Human Nutrition; IDS-Interdisciplinary Studies; PHC-Public Health; SOW-Social Work

F-Fall semester offering; S-Spring semester offering; SS-Summer semester offering.

DIE 3005 Orientation to Dietetics (1). Survey of role and responsibilities of the dietitian. Legal and ethical considerations necessary for the student dietitian in clinical responsibilities of the dietitian. Prerequisite: HUN 2201. (SS)

DIE 3125 Management of Dietary Systems (3). Survey of management concepts in planning, implementing, and evaluating food service systems. Prerequisite or Corequisite: FSS 3233C. (SS)

DIE 3125L Applied Management of Dietary Systems (1). Application of principles of food service production and management including production, service, food sanitation and safety. Prerequisite: FSS 3233C. Corequisite: DIE 3125.

DIE 3126 Dietetic Information Systems (3). Survey of various types of institutional food service systems; management concepts in planning, implementing, and evaluating food service systems.

DIE 3175 Dietetic Management Practicum (4). Developing skills for DIE 3125 and DIE 4365. Clinical assignments in several food service institutions in this area. Clinical component: open only to students in the Coordinated Program. Prerequisites: DIE 3355 and DIE 4277. (F)

DIE 3244 Medical Nutrition Therapy (3). Techniques of assessing nutritional status and adjusting nutrient/energy intake to accommodate medical treatment. Corequisite: DIE 3244L. Prerequisites: Organic Chemistry (CHM 2200 or equivalent), Physiology (HSC 3549 or equivalent). Pre or Corequisite: HUN 4403. (F)

DIE 3244L Medical Nutrition Therapy Lab (1). Application of nutritional assessment and dietary prescriptions to accommodate medical treatment. Corequisite: DIE 3244. (F)

DIE 3317 Dietetics in Community Health (3). Study of community agencies providing nutrition guidance for differing age groups. Emphasis on influencing nutrition and health care policy. Prerequisites: HUN 2201, DIE 3005. Prerequisite or Corequisite: HUN 4403. (F)

DIE 3355 Dietetics in Community Health Practicum (2). Observation and participation in activities of community agencies. Nutrition education and counseling experiences. Clinical component: Open only to students in the Coordinated Program. Corequisite: DIE 3317. (F)

DIE 3434 Nutrition Education (2). Planning for groups/individual basic nutrition and clinical nutrition education, and working with the instructional media. Prerequisite or Corequisite: FOS 3021. Prerequisite: HUN 4403. Corequisite: Nutrition Education Lab. (SS)

DIE 3434L Nutrition Education Laboratory (1). Students plan and practice various forms of nutrition education individual, groups and instructional media. (SS)

DIE 4195 Special Problems in Dietetic Administration (1-3). In-depth study of a problem in dietetic administration chosen to coincide with a student’s interest and career goals. Student will develop objectives stated in behavioral terms and demonstrate skills in information gathering, analysis, and technical writing. Prerequisite: Permission of the instructor.

DIE 4246 Clinical Nutrition (3). Study of the complex dietetic problems accompanying metabolic disorders. Determination of nutrient requirements based on pathophysiological conditions. Prerequisite: DIE 3244. (S)

DIE 4246L Clinical Nutrition Laboratory (1). Application of nutrient requirements for the treatment of complex pathophysiological conditions. Prerequisites: DIE 3244 and DIE 3244L. Corequisite: DIE 4246. (S)

DIE 4277 Clinical Nutrition Practicum (4). Participation in activities in clinical affiliations focusing on nutritional assessment, planning, treatment and follow-up of patients. Clinical component: open only to students in the Coordinated Program. Corequisite: DIE 4246. Prerequisite: DIE 3355. (S)

DIE 4296 Special Problems in General Dietetics (1-3). In-depth study of a problem chosen to coincide with student's interest and career goals. Student develops behavioral objectives and demonstrates skills in information gathering, analysis and technical writing. Prerequisite: Permission of the instructor. (F,S,SS)

DIE 4365 Dietetic Management of Nutrition Programs (3). Advanced concepts of managerial functions as an institutional consultant, a member of a community nutrition program, a private therapeutic consultant, full time institutional food service administrator. Advanced standing required. Prerequisites: DIE 3125 or permission of the instructor, basic competency in management principles. (F)

DIE 4377 Applied Dietetic Management of Nutrition Programs (1). Observation and participation in community agencies, institutions, and simulated setting the development of entry level competencies in the management of nutrition and food service programs. Corequisite: DIE 4365. (F)

DIE 4435 Nutrition Counseling and Communication Skills (3). Nutrition counseling methods and communication skills for development of entry level competencies. Advanced standing in dietetics required. Prerequisites: DIE 3244, DIE 3434, or DIE 4277. Corequisites: DIE 4246, DIE 4435L.

DIE 4435L Nutrition Counseling and Communication Skills Lab (1). Small group video recorded practice in instruction counseling communication skills. Prerequisite: Advanced standing in dietetics. Corequisite: DIE 4435. (S)

DIE 4506 Seminar in Dietetics and Nutrition (3). Professional skills development for career effectiveness in today’s job world; emphasis on speaking and writing related to contemporary nutrition issues. Majors only, senior standing. (F,S)
DIE 4536 Advanced Practicum in Dietetics (9). In-depth study combining theoretical concepts and clinical experience. Learning experience planned cooperatively by the student, campus instructor, and clinical instructor to meet student needs and goals. Prerequisites: DIE 4246, DIE 4277, and permission of Director of the Coordinated Program. Clinical component: Open only to students in the Coordinated Program. (S)

DIE 4537 Supervised Dietetics Practice I (6). Practical application of knowledge and skills in a supervised practice setting. Prerequisites: Permission of the instructor. (SS)

DIE 4538 Supervised Dietetics Practice II (6). Continuation of practical application of knowledge and skills in a supervised practice setting. Prerequisite: Permission of the instructor.

DIE 4564 Evidence Based Research in Dietetics (3). Research methodology for planning, conducting and analyzing evidence based research in applied dietetics. (F)

DIE 4963 Comprehensive Dietetic Examination (1). A comprehensive examination of the dietetics and nutrition curriculum. Prerequisite: Senior standing. (F, S, SS)  

FOS 3004 Food and the Consumer (3). Study of purchasing, storage, and preparation of food. Consideration of life style influences on food choices. Designed to develop skills in purchasing and preparing foods to meet personal, social, and physical needs. Demonstration laboratory included.

FOS 3021 Fundamentals of Food (3). Study of selection, processing, and preparation of food with attention to quality and nutrient retention. Corequisite: FOS 3021L. (F, SS)

FOS 3021L Fundamentals of Food Laboratory (1). Techniques of food preparation to maintain nutrients and food quality. Corequisite: FOS 3021. (F, SS)

FOS 4041 Food Science (3). Physical and chemical changes in food occurring as a result of various methods of processing, preparation, and storage. Prerequisites: Organic Chemistry, HUN 3122 or HUN 2201, FOS 3021, or equivalents. Corequisite: FOS 4041L. (S)

FOS 4041L Food Science Laboratory (1). Experimental laboratory in the physical and chemical characteristics of food. Corequisite: FOS 4041. (S)

FSS 3316 Food Science for Institutions (3). Proper food handling in institutional settings with use of sound management principles closely coordinated with food science advances and government regulations. Laboratory and field trips to strengthen theoretical concepts. Prerequisite: FOS 3021.

HUN 2000L Foundations of Nutrition Science Laboratory (1). To apply the scientific method to nutrition science as it relates to human physiology, physiological chemistry, food chemistry and biotechnology. Corequisite: Foundations of Nutrition Science.

HUN 2201 Principles of Nutrition (3). Nutrients and their interrelationships, requirements of individuals, and food sources. Investigates current controversies, fads/fallacies, and health related issues. Recommended for non-majors. (F, S, SS)

HUN 3122 Applied Nutrition (3). Study of the scientific principles of nutrition and impact of culture on nutrition and health. Recommended for Junior-Senior non-majors. (F, S, SS)

HUN 3191 World Nutrition – GL (3). Strategies for improving cross-cultural competence in conducting needs assessments, program planning, and implementation in nutrition services. Prerequisite: HUN 2201. (F, S, SS)

HUN 3294 Women’s Nutrition Issues (3). Focus is on women, health and nutrition. Covers nutrition throughout women’s life cycle, principles of absorption, digestion, metabolism, food composition, local to international issues. New labeling laws, current nutrition research. (F)

HUN 3414 Nutrition for the Athlete (3). Exploration of nutrition in the enhancement of health and athletic performance. Nutrition claims targeted to the exercising population will be evaluated. Prerequisite: HUN 2201.

HUN 4240 Nutrition and Biochemistry (3). Study of the relationship of nutrition and biochemistry with emphasis on digestion, absorption, metabolism of nutrients, and determination of norms. Prerequisites: Organic Chemistry concurrent or prerequisite and Junior standing. (F, S, SS)

HUN 4241 Advanced Nutrition (3). Roles of nutrients in metabolic processes. Effects of excesses and deficiencies. Prerequisites: Organic Chemistry, Physiology, Biochemistry, and HUN 2201 or equivalent. (F)

HUN 4403 Life Cycle Nutrition (3). Nutrient requirements, dietary adequacy, food habits, special nutritional concerns during pregnancy, infancy, childhood, adolescence, and adulthood including aging. Prerequisites: HUN 2201 or HUN 3122. (F, S)

HUN 4404 Nutrition, Physical Activity and Special Populations (3). Study of nutrition and physical activity, nutrition and special populations, especially pediatrics and older adults. Prerequisites: DIE 3244, DIE 3244L.

IDS 3189 International Nutrition, Public Health and Economic Development – GL (3). This course will examine the impact of global public health, nutrition and economic development on the physical and political environment. Recommended also for non-majors.

PHC 2402 Sexual Issues in Public Health (3). Public Health policy and its relation to understanding sexual health and the variety of factors that affect individual’s sexual lives.

PHC 3101 Introduction to Public Health (3). This course examines principles of public health practice, with emphasis on history, philosophy, scope, law and regulations, and recent trends of public health.
PHC 4024 Principles of Applied Epidemiology (3). Methods and techniques used by epidemiologists investigating the distribution and causes of diseases are studied. A holistic approach to principles of disease surveillance and control is studied. Prerequisite or Corequisite: HSA 3111.

PHC 4302 Introduction to Environmental Public Health (3). This course covers a description and analysis of environmental/occupational factors that affect the health of a community.

PHC 4308 Biological Basis of Environmental Public Health (3). This course will introduce students to cell biology and basic anatomy, physiology, pathophysiology of major organ systems.

PHC 4318 Introduction to Biological Basis of Environmental Public Health (3). This course will introduce students to cutting-edge research in the field of environmental public health with a focus towards better treatment and prevention of human diseases.

PHC 4509 Introduction to Health Promotion in Public Health (3). This course is an introduction to the role of health promotion in public health; it will address successes and failures in marketing public health program; it will discuss practical ways to prevent premature causes of death and policies.

SOW 3100 The Social Environment and Human Behavior II (3). Study of individual development, personality, and behavior from a bio-psychological and sociocultural perspective with emphasis on the life cycle, giving attention to racial/ethnic, gender and sexual orientation variables. Prerequisites: SOW 3113 or equivalent, and one college-level course in biology (including coverage of human biology).

SOW 3113 The Social Environment and Human Behavior I (3). Study of the socio-cultural factors (including racial, ethnic, and gender and sexual orientation variables) affecting human development and behavior in families, groups, organizations, and communities. Prerequisites: College level Biology (including coverage of Human Biology).

SOW 3203 Introduction to Social Work (3). An overview of the profession of social work within the institution of social welfare. Historical and philosophical development, field of practice, values, and ethics.

SOW 3232 Social Welfare Policy and Services I (3). This course considers the major social welfare programs in the United States: how they emerged and developed, and how they operate today. Analysis of financial resources, decision-making processes, and structure of delivery systems serves as a basis for understanding policy assessment. Pre/Corequisites: American Government and Economics.

SOW 3233 Social Welfare Policy and Services II – GL (3). This course examines the frameworks and methods used to analyze social welfare policy and programs. Special attention is paid to current policy issues in the Social Welfare system and strategies that can be used to achieve policy change. Prerequisites: SOW 3232, POS 2042, and economics.

SOW 3313 Social Work Practice with Families and Individuals (3). Overview of generalist social work practice with a focus on individuals and families. Social work practice framework and principles, use of values/ethics and skill development are included. Prerequisites: SOW 3203, SOW 3113. Prerequisite or Corequisite: SOW 3100.

SOW 3350 Interviewing Techniques Lab (3). This is a competency-based course providing students with basic interviewing skills for Social Work practice. Emphasis is on acquisition of interviewing behavior rather than theory. Prerequisite or Corequisite: SOW 3313.

SOW 3403 Social Work Research (3). Introduction to the basic language, methods, and skills of scientific research for beginning social work practice. Problem formulation, literature review, definition of variables, sampling, data collection and analysis, and report writing are addressed. Prerequisites: STA 1013 or equivalent.

SOW 3620 Social Work and Human Diversity – GL (3). Prepares students for generalist social work practice with diverse populations focusing on knowledge, attitude, and skills. A global learning course. Prerequisite: SOW 3203.

SOW 3801* Self-Awareness and Self-Modification for Practice (3). An experience oriented course directed toward helping students become aware of their own interpersonal processes and how these may influence their skill and effectiveness as professional helping persons. Emphasis is on personal learning.

SOW 4272* Comparative Social Welfare Policy (3). A combination seminar and lecture course in which students will analyze and compare social welfare policy, problems, and programs in various countries.

SOW 4322 Social Work Practice with Groups (3). This course is designed to provide the theories and techniques of generalist social work practice with small groups in a wide range of social service agencies and with a diverse client population. Prerequisites: SOW 3313, SOW 3350. Corequisites: SOW 4511L, SOW 4522.

SOW 4332 Social Work Practice with Communities and Organizations (3). Provides an understanding of planned change at the community level from a social work perspective, as well as strategies and methods utilized in community organization practice. Identification of generalist skills and prevalent models of groups and community organization in social work practice. Prerequisites: SOW 4322, SOW 4511L, SOW 4522. Corequisites: SOW 4512L, SOW 4523.

SOW 4341* Behavioral Approaches to Social Work Practice (3). An introduction to the basics of learning theory as applied to social work settings. A review of principles of cognitive and learning theory applied to generalist practice.

SOW 4511L Practicum I (7). The first of two practicum courses that provide students with the opportunity to apply and integrate generalist social work knowledge and skills in a supervised experience. Prerequisites: SOW 3113, SOW 3100, SOW 3232, SOW 3233, SOW 3203, SOW 3403, SOW 3313, SOW 3350, and SOW 3620. Corequisites: SOW 4322, SOW 4522.
SOW 4512L Practicum II (7). The second of two practicum courses that provide students with the opportunity to apply and integrate generalist social work knowledge and skills in a supervised practice experience. Prerequisites: SOW 4511L, SOW 4322, SOW 4522. Corequisites: SOW 4332, SOW 4523.

SOW 4522 Field Seminar I (2). This seminar is taken concurrently with SOW 4511L and SOW 4322. It is designed to analyze the field practicum experience by emphasizing the integration of theory and practice. Prerequisites: SOW 3122, SOW 3233, SOW 3313, SOW 3620, SOW 3350, and SOW 3403. Corequisites: SOW 4511L and SOW 4322.

SOW 4523 Field Seminar II (2). This seminar is taken concurrently with SOW 4512L and SOW 4332. It is designed to analyze the field practicum experience by emphasizing the integration of theory and practice. Prerequisites: SOW 4511L, SOW 4322, SOW 4522. Corequisites: SOW 4512L, SOW 4332.

SOW 4654* Child Welfare: Policy and Practice (3). This course will explore professional practice and policy issues in child welfare with emphasis on interventions in child maltreatment. Prerequisite: SOW 3113.

SOW 4658* Interventions in Child Maltreatments (3). This course will examine best practices in the health, mental health and socio emotional development of children and adolescents within the child welfare system. Prerequisites: Students in the Certificate in Child Welfare Practice or permission of the instructor.

SOW 4684* Professional Values in the Human Services (3). This course is designed to assist students in identifying, exploring, and experiencing the values inherent in professionalism, as they are manifested in the various human service professions. Material will be presented in a didactic and experiential manner with emphasis upon student involvement in the value clarification process. Prerequisite: Senior standing.

SOW 4905* Individual Study (1-9). Individually selected program of supervised study related to specific social work issues. Prerequisite: Permission of the instructor. (F,S,SS)

SOW 4932* Current Topics in Social Work (3). This course presents an extensive examination of current issues and problems in social work. Interventive technology to address these issues will be presented.

*Social Work Elective

The School of Hospitality and Tourism Management offers Bachelor and Master degrees in Hospitality Management and Certificate Programs that combine practical experience with classroom theory to assist the student to gain the understanding, skills, and techniques needed to qualify for job opportunities, and to achieve his or her career goals in the hospitality/tourism industry.

With the cooperation of industry executives, the School has created an internship program which literally utilizes the hotels, resorts, restaurants, clubs, airlines, travel agencies, and cruise lines as practice labs for students. The advanced phase of the internship program provides each student a structured training experience normally not available to a student until he or she has entered the industry after graduation.

An Industry Advisory Board - which includes outstanding executives in the lodging, foodservice, and tourism industries - works regularly with the faculty, staff, and students of the School to formulate and update a curriculum that is current, flexible, and related to the needs of the hospitality and tourism industries.

The School was designated a Program of Distinction by the former Florida Board of Education.

Note: The programs, policies, requirements, and regulations listed in this catalog are continually subject to review, in order to serve the needs of the University's various publics, and to respond to the mandates of the FIU Board of Trustees. Changes may be made without advance notice. Please refer to the General Information section for the University's policies, requirements, and regulations.

Locations

The School is located on 200 tropical acres in a resort-like setting at the scenic Biscayne Bay Campus at Biscayne Boulevard and Northeast 151 Street, North Miami, Florida.

The FIU undergraduate degree program has some courses available in the evening. Selected courses in Hospitality and Tourism Management are presented at the FIU Modesto A. Maidique Campus.

Admission

Applicants to the School must submit an Application for Admission to the University and must follow the regular University admission procedures described in the Admissions section of the catalog. Applicants must be eligible for admission to the University before admission to the School. A minimum TOEFL score of 500 paper-based, 173 computer based or 63 internet-based (iBT) is required for international applicants. The following exceptions apply: (1) Applicants who completed 4 years of high school in the United States or other English-speaking countries, (2) Applicants who hold an undergraduate or graduate degree from an institution within the United States or other English-speaking countries. Admitted international students scoring below 550 paper-based, 213 computer-based, or 80 internet-based (iBT) on the TOEFL may be required to take an intensive course in conversational English offered by the FIU English Language Institute.

Undergraduate Study

Any student who has completed two years of college (60 semester hours) may apply for admission to the upper division program. A maximum of 60 credits will be granted for both Associate in Arts and Associate in Science degrees. One may enroll on either a full-time or a part-time basis. International students must enroll full-time. Students with less than 60 transfer credits must meet freshman admission criteria. All students must meet the University’s Core Curriculum requirements prior to graduation. Students with an Associate in Arts degree from a Florida public community college will have met the University Core Curriculum requirements.

It is not necessary to have been previously enrolled in a hotel, restaurant, or tourism program. The curriculum will provide the specialized professional education to equip the student for a career in hospitality and tourism management. Students with training in liberal arts, business, education, or technology, for example, are qualified to enroll in the program.

A maximum of 60 lower division undergraduate semester credits may be transferred from a community college program. More credits may be transferred from a related upper-division program at a four-year institution.

There is a requirement that all students complete at least 1000 hours of practical training work experience in the hospitality or tourism industry, in addition to the Advanced Internship of 300 hours. A minimum of 800 hours of the total 1300 hours must be completed while enrolled at FIU. Work experience documentation is
required. All graduating students will be required to attend the “Life After College” Workshop.

**Bachelor of Science in Hospitality Management**

**Degree Program Hours: 120**

**Lower Division Preparation (60)**

To qualify for full admission to the upper division program, FIU undergraduates must have met all the lower division core requirements, including CLAS, have completed 60 semester hours, have a minimum 2.25 GPA and must be otherwise acceptable into the program. Transfer students should complete a minimum of 60 semester hours with a 2.25 GPA. All University Core Curriculum and CLAS requirements must be completed prior to graduation from the University.

**Common Prerequisite Courses and Equivalencies**

<table>

</thead>
<tbody>
<tr>
<td>None</td>
<td>FIU does not require HFTX000 for admission to its program.</td>
</tr>
</tbody>
</table>

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

**Hospitality Core Requirements: 42**

- **FSS 3230C** Introductory Food Production Management 3
- **FSS 4234C** Advanced Food Production Management 3
- **HFT 3203** Fundamentals of Management in the Hospitality Industry 3
- **HFT 3403** Accounting for the Hospitality Industry 3
- **HFT 3423** Hospitality Information Technology 3
- **HFT 3453** Operations Control 3 or
- **HFT 3263** Restaurant Management 3
- **HFT 3503** Hospitality Marketing Strategy 3
- **HFT 3603** Hospitality Industry Law 3
- **HFT 4295** Leadership in the Hospitality Industry 3
- **HFT 4221** Human Resources Management for the Hospitality Industry 3
- **HFT 4323** Hospitality Facilities Environmental Systems 3
- **HFT 4464** Financial Analysis in the Hospitality Industry 3
- **HFT 4474** Management Accounting for the Hospitality Industry 3
- **HFT 4945** Advanced Internship 3

**Electives: 18 hours**

Choose from hospitality courses or use to make up University Core Curriculum deficiencies. **Note:** Elective credits may be used to make up university core curriculum deficiencies, excluding foreign language.

**Industry Experience Requirement: 1300 hours**

A total of 1300 documented hours of hospitality/tourism related practical training work experience is required. This includes 300 hours in HFT 4945 Advanced Internship. A minimum of 800 hours must be completed while enrolled in the degree program at FIU. The Advanced Internship must be track-related and approved by an advisor. Work experience documentation is required. Students with extensive industry management experience may apply for a waiver of the 1000 hour work experience and Advanced Internship.

**Combined BS/MS in Hospitality Management**

To be considered for admission to the combined bachelor's/master's degree program, students must have completed at least 75-90 credits in the bachelor's degree program at FIU and meet the admissions criteria for the graduate degree program to which they are applying. Students need only apply once to the combined degree program, but the application must be submitted to Graduate Admissions before the student starts the last 30 credits of the bachelor's degree program. A student admitted to the combined degree program will be considered to have undergraduate status until the student applies for graduation from their bachelor's degree program. Upon conferral of the bachelor's degree, the student will be granted graduate status and be eligible for graduate assistantships. Only 5000-level or higher courses, and no more than the number of credits specified by the program catalog, may be applied toward both degrees.

**Admission Requirements**

- Current enrollment in the Bachelor's Degree program in Hospitality Management at FIU.
- Completed at least 75-90 credit hours of course work.
- Current GPA must be 3.2 or higher.

**General Requirements**

- Completed bachelor’s Degree in Hospitality Management at FIU.
- Course work.
- Complete the separate 4+1 application.
- Applications should be submitted in the first semester of the student's senior year.

**Required (30 credits):**

- **HFT 6245** Hospitality/Tourism Service Operations Analysis
- **HFT 6246** Organizational Behavior in the Hospitality Industry
- **HFT 6296** Strategic Management for Hospitality and Tourism
- **HFT 6299** Case Studies in Hospitality Management
- **HFT 6446** Hospitality Enterprise Technologies
HFT 6477 Financial Management of the Hospitality Industry
HFT 6476 Feasibility Studies for the Hospitality Industry
or
HFT 6478 Restaurant Development
HFT 6586 Research and Statistical Methods
HFT 6697 Hospitality Law Seminar
HFT 6946 Graduate Internship

Electives
4 courses selected from the Hospitality and Tourism Management Graduate Course Offerings.

Overlap
Up to 4 courses (12 credits) may be used to satisfy both the bachelor's and master's degree requirements. Courses must be 5000- or 6000-level School of Hospitality and Tourism Management Graduate Courses.

Minor Programs

Minor in Hotel/Lodging Management

Required Courses: (12)
HFT 3003 Introduction to Hospitality Industry 3
HFT 3503 Hospitality Marketing Strategies 3
HFT 3314 Hospitality Property Management 3
HFT 4293 Hotel/Foodservice Operation 3

Minor in Restaurant/Foodservice Management

Required Courses: (12)
HFT 3003 Introduction to Hospitality Industry 3
HFT 3457 Food & Beverage Control 3
HFT 3263 Restaurant Management 3
HFT 3861 Beverage Fundamentals 3

Minor in Travel and Tourism Management

Required Courses: (12)
HFT 3700 Introduction to Tourism 3
HFT 3713 International Tourism 3
HFT 3755 Destinations and Cultures 3
HFT 3770 Cruise Operations and Management 3

Minor in Hospitality Studies

Students select 12 credits in hospitality management and create their own minor according to their particular interests. This minor available to non-hospitality majors.

Minor in International Hospitality Studies

Students select 12 credits in hospitality management and create their own minor according to their particular interests. This minor available to non-hospitality majors only in our International Program Centers.

Minor in Beverage Management

Choose any four of the following courses:
HFT 3873 History of Wine 3
HFT 3861 Beverage Fundamentals 3
HFT 3868 Wine and Culture 3
HFT 3862L Wines of France and Italy 3

HFT 3865 Wines of the New World 3
HFT 3866 Wine Technology, Merchandising, and Marketing 3
HFT 4867 The Business of Wine 3
HFT 3613 Beverage Management Law 3

Certificate Programs

The School has several Certificate Programs varying in focus and length. The 30 to 36 credit programs may be completed in approximately one year of full time study. The professional certificate programs are open to all students with a high school education. International student candidate must submit a minimum score of 500 paper-based, 173 computer-based, or 63 internet-based (iBT) on the TOEFL exam and a Declaration and Certification of Finances document.

Restaurant/Foodservice Management Certificate (36)

Note: Curriculum may be adjusted to meet the needs of students with extensive related industry experience.

Core Requirements: (27 credits)
FSS 3230C Introductory Commercial Food Production 3
FSS 4234C Advanced Food Production Management 3
HFT 3203 Fundamentals of Management in the Hospitality Industry 3
HFT 3263 Restaurant Management 3
HFT 3457 Food and Beverage Control 3
HFT 3503 Hospitality Marketing Strategies 3
HFT 3661 Beverage Fundamentals 3

Electives: (9)
(Any HFT or FSS course is acceptable for electives)
FSS 3242 International Cuisine 3
FSS 3285 Art in Culinary Arts 3
FSS 3073 International Baking, Confectionary and Desserts 3
FSS 4106 Purchasing and Menu Planning 3
FSS 4241 Classical Cuisine 3
HFT 3277 Club Operations Management 3
HFT 3666 Wine Technology 3
HFT 4221 Human Resources Management 3
HFT 4224 Human Relations 3
HFT 4344C QSR Management 3
HFT 4493C Foodservice Computer Systems 3
HFT 4454 Managing High-Functioning Teams 3
HFT 4802 Catering Management 3
HFT 4809 Management for Food Service Industry Segments 3
HFT 4853 Foodservice Trends and Challenges 3
HFT 4867 Advanced Wine Technology 3
HFT 6683 World of Wine and Food 3

Hotel/Lodging Management Certificate (36)

Note: Curriculum may be adjusted to meet the needs of students with extensive related industry experience.

## Hospitality Studies Certificate (15)

This certificate is designed to provide students maximum flexibility in choosing courses that reflect their needs and interests.

Students select 15 credits in hospitality and tourism management courses to create their own certificate according to their particular interests.

### Non-Degree Seeking Students

A number of persons currently employed in the hospitality field may not have the educational requirements to meet degree admission standards, but may be interested in enrolling in certain specific courses to improve their skills and to enhance their chances for promotion. Individuals employed in the field may register as a Non-Degree Seeking Student for a maximum of 15 semester hours.

## Event and Meeting Planning Certificate (30)

### Joint Certification in Tourism Marketing Communications (18 credits)

The Joint Undergraduate Certificate in Tourism Marketing Communication is an 18-hour program offered jointly by the School of Journalism and Mass Communication and the School of Hospitality and Tourism Management. The objective of this certificate program is to prepare professionals for a communications career specifically in the tourism industry. It is also appropriate to provide tourism professionals who have gained communications responsibilities with a broad overview of the basic concepts and tasks of mass communications. Hospitality and Tourism will waive the prerequisites for students in the certificate program, with the exception of HFT 3866.

### Course Descriptions

#### Definition of Prefixes

FOS - Food Science; FSS - Foodservice Systems; HFT - Hotel, Food, Tourism

#### FOS 3207 Food Service Sanitation (1).

Principles and practices involved in safe handling of food products including HACCP procedures. Offers the opportunity for Food Safety Certification.

#### FOS 4206 Sanitation in Food Service Operations (3).

The causes and prevention of foodborne illness are stressed. Emphasis is placed on the current problems confronting the industry, with recent food developments as they relate to sanitation. The Hazard Analysis Critical Control Point system (HACCP) is included.

#### FSS 1005 Introduction to the Culinary Arts (3).

Principles and skills required in preparing breads, desserts, salads and entrees including theory of food production, functions and ingredients, purchasing, equipment used and sanitation will be covered.

#### FSS 3073 International Baking, Confectionary and Desserts (3).

Provides a professional understanding and foundation of management for food production in a pastry department or industrial baking facility within the foodservice industry. Prerequisite: FSS 3230C.

#### FSS 3230C Introductory Commercial Food Production (3).

Study of basic and intermediate commercial food production management skills required in menu design. This knowledge will be applied in the production of appetizers, salads, main course items, and desserts.

#### FSS 3232C Intermediate Quantity Food Production Techniques (3).

An advanced commercial food production course which provides the student with the opportunity to achieve competence and to develop techniques in soups, salads, sauces, and the entrees of meat, poultry, and seafood. Prerequisites: FSS 3230C or equivalent.

#### FSS 3233C Institutional Food Service Production (3).

Theory and application of commercial and institutional food service in an industrial environment, including large scale purchasing procedure, training in large production equipment, on-the-job training. Prerequisites: FOS 3021 or FOS 4041.
FSS 3242C International Cuisine (3). An opportunity for food aficionados to explore modern interpretations of international classic cuisine. Includes lecture, demonstration and preparation of favorite international dishes from restaurant menus around the world. Open to non-majors.

FSS 3285 Art in the Culinary Arts (3). Analysis of art used in the hospitality industry and in the creation of artistic culinary preparations made from edible material used to enhance receptions and buffets. Prerequisite: FSS 3230C.

FSS 3311C School Food Service Production (3). Managerial approach to commercial food production in educational service emphasizing supervisory aspects of planning, production and controls.

FSS 4106 Purchasing and Menu Planning (3). Basic information on sources, grades and standards, criteria for selection, purchasing, and storage for the major foods, including the development of specifications. Consideration of the menu pattern with particular emphasis on costing, pricing, and the work load placed on the production staff. Item analysis and merchandising features are emphasized. Prerequisite: FSS 3230C.

FSS 4234C Advanced Food Production Management (3). A course in advanced food production and service techniques to provide the student with realistic production, service and managerial experience. Students will be rotated through production and service stations and, as managers, will be required to plan menus, supervise preparation and service, handle customer relations, and keep accurate accounting records on the profit and loss phases of the operation. Staffing, merchandising, and cost control procedures are integral parts of the course. Prerequisite: FSS 3230C.

FSS 4336 Culinary Event Management (3). A unique course allowing the opportunity for students with advanced culinary skills to learn the art and science of managing culinary events. Prerequisites: FSS 3230C and FSS 4234C or A.O.S. in Culinary Arts.

FSS 4339C Advanced Culinary Event Management (3). An advanced course designed for students that have previous background in culinary events. This course will provide leadership opportunity in managing the Bubble Q event as part of the South Beach Wine & Food Festival. Prerequisite: FSS 4336.

FSS 4434 Food Facility Layout and Design (3). Defines and explains concepts, principles, and procedures in evaluating and/or developing varied commercial foodservice facilities that will increase profit by reducing investment and operating cost and/or by increasing capacity. Actual installations are intensively reviewed. Current trends in foodservice methodology and technology are studied in detail, and foodservice equipment manufacturing processes and distribution economics are observed and evaluated. Prerequisite: HFT 4323.

FSS 4741C Contemporary Cuisine (3). Provides an opportunity for students skilled in food production and service techniques to expand their knowledge of food preparation into the area of world renowned traditional and contemporary dishes.

HFT 1001 Careers in Hospitality Management (3). Orientation to the hospitality industry, its history, magnitude, challenges and career opportunities.

HFT 1750 Introduction to Conference & Convention Planning (3). Introductory course covering career opportunities in the conference/convention business; procedure involved in planning and marketing events. Students will plan and execute a special event.

HFT 1772 Introduction to the Cruise Line Industry (3). Introductory course focusing on the cruise line industry, its relationship to other segments of the hospitality industry. Why cruising is the fastest growing travel industry and career opportunities offered.

HFT 3003 Introduction to Hospitality and Tourism Management (3). A survey course providing an overview of the industry, its history, problems, and general operating procedures. Operating executives from the fields of hotel, restaurant, foodservice, travel, and tourism will be featured periodically. For Freshman, Sophomores, or Juniors Only.

HFT 3073 Social Responsibility in the Hospitality Industry (3). Examines hospitality companies' social responsibility to their communities and planet. This course examines hospitality's global companies and global issues that will affect their communities and business.

HFT 3203 Fundamentals of Management in the Hospitality Industry (3). A basic course in general management concepts and practices to acquaint the student with theories and principles of organization, the tools of managerial decision-making, and the management process, with particular reference to the hospitality industry. Case studies are used.

HFT 3263 Restaurant Management (3). Analysis of principal operating problems facing managers in the restaurant industry. Various control systems necessary for profitability and quality are examined.

HFT 3271 Nightclub Management (3). The purpose of this course is to provide the student with an understanding of Nightclub Management and how it fits within the Hospitality Industry.

HFT 3277 Club Operations Management (3). Lecture, discussion, case studies, and field trips specifically designed to expose the future club manager, golf professional, and turf manager to club operations. Introduction to the uniform system of accounts for clubs, annual club studies for operating results, control systems, taxation, budgeting, and management reports.

HFT 3314 Hospitality Property Management (3). The problems of cost and operation of pest control, security, parking, general cleaning and upkeep, laundry, fire prevention, pools, tennis courts, and care of guest rooms and public space, with emphasis on equipment, personnel, and modern innovations. The housekeeping and property management function of the hotel.
HFT 3403 Accounting for the Hospitality Industry (3). Introduction to the principles of accounting as they apply to the hospitality industry. Required for students who have not satisfactorily completed introductory accounting courses.

HFT 3423 Hospitality Information Technology (3). This course covers current computer applications in the hospitality industry including information technology specific to hotel and restaurant accounting, finance, marketing, and management.

HFT 3440 Applied Computers Technology in Food Service (1). Introductory computer course including menu graphics; word processing, communications, MS Office, the WWW and computer methods in foodservice.

HFT 3444 Survey of Computer Use by Hospitality Managers (3). An introduction to the novice computer user to basic computer skills and computer use in the hospitality industry.

HFT 3453 Lodging Operations Control (3). Focuses on controlling expenses and revenues of a full-service lodging establishment. Procedures, approaches and techniques of management control explored for efficiency using accounting knowledge.

HFT 3457 Food and Beverage Control (3). Fundamentals of food and beverage cost controls in the hospitality industry. Prerequisite: HFT 3403.

HFT 3503 Hospitality Marketing Strategy – GL (3). Examines marketing principles, theories and concepts and the use of management principles and techniques of analysis, planning, implementation and control to maximize marketing effectiveness in hospitality organizations.

HFT 3505 Hospitality Buyer Behavior (3). An analysis of influences on buyer and the process involved in their purchase of hospitality services and the implications for marketing/strategy design and execution. Prerequisites: HFT 3503 or equivalent.

HFT 3521 Hospitality Sales and Marketing Techniques (1). An experiential course that gives students the opportunity to practice and develop personal-selling skills by doing field sales projects for industry partners (may be repeated for up to 3 credits). Prerequisite: Permission of the instructor.

HFT 3603 Hospitality Industry Law (3). A basic course in hotel, motel, and restaurant law emphasizing risk management and security. The student is introduced to the fundamental laws, rules, and regulations applicable to the hospitality industry. Case study approach is used to develop an awareness and understanding of the legal problems confronting the manager and executive in policy and decision making.

HFT 3613 Beverage Management Law (3). A basic course in alcoholic beverage law. The student is introduced to the fundamental laws, rules and regulations applicable to the retail alcoholic beverage industry in the State of Florida. The student is introduced to methods of enforcement of laws, rules and regulations; the principals that control licensing and permitting within the industry; and municipal code violation enforcement.

HFT 3691 Gaming Industry Law (3). This course presents legal issues arising out of the gaming industry, including government regulation, contracts, premises liability, employment, anti-discrimination laws and treatment of guests and employees with disabilities and issues particular to the gaming industry.

HFT 3692 Ocean and Coastal Law for the Hospitality Industry (3). A survey of legal issues related to coastal land/water with particular concern for business/recreational uses. Critical environmental issues will be examined and how these issues are handled worldwide.

HFT 3700 Fundamentals of Tourism (3). An introduction to the broad fields of travel and tourism. Among the topics covered are cultural tourism, eco-tourism, sociology of tourism, tourism components and supply, tourism development, the economic role of tourism demand, and the marketing of tourism.

HFT 3701 Sustainable Tourism Practices (3). In-depth study of contemporary issues pertaining to tourism based on the natural environment. Explores management strategies suitable for controlling a growing industry.

HFT 3713 International Travel and Tourism (3). An introduction to the international scope of travel and tourism. A brief analysis of regional framework and specific regions of the world, the interrelationship between human society and the physical environment. Tourism as a factor in economic development and its cultural and sociological factors are explored. An analysis of the international organization of tourism and the facilitation procedures required for its successful implementations are highlighted.

HFT 3718 Travel and Tourism Systems (3). The course provides a foundation for the concept of travel and tourism as a system. Study of the importance of interrelated activities of the components integral to international and domestic travel and tourism: destination planning and development.

HFT 3727 Travel Industry Law (3). Legal strategies, tactics and principles for the multi-faceted travel industry. Covers applicable statutes, regulations and international agreements. Prerequisite: HFT 3203.

HFT 3733 Tour Production and Distribution (2). Comprehensive study of group and wholesale tour operations. Includes design, supplier negotiations and pricing aspects of tours. Examines marketing, sales and promotional techniques of the tour product. Prerequisites: Junior standing or above.

HFT 3735 Destination and Cultures (3). A geographical analysis of worldwide tourist destination regions and their major attractions. The course emphasizes how geographic and cultural factors are critical to the attractiveness of a tourist destination.
HFT 3741 Planning Meetings and Conventions (3). Introduction to the meeting and convention industry, concentrating on specific and practical research, planning, supervision and control guidelines used by today’s Professional Meeting Planner.

HFT 3753 Convention and Trade Show Management (3). A course concentrating on organizing, arranging and operating conventions, trade shows, and expositions. Emphasis is placed on the modes and methods of sales used in booking conventions and trade shows, as well as the division of administrative responsibility in their operation.

HFT 3754 Exposition and Events Management (3). Comprehensive study of strategies for planning, developing and marketing public/trade show events.

HFT 3760 Tourist Transport Systems (3). Explores relationships between tourists and modern transport providers, the impact of societal and environmental issues, the intense service nature and resulting challenges of operations and management.

HFT 3764 Travel Information Technology (3). This course provides a foundation for understanding and mastery of travel industry specific technologies, examines new technologies used in the travel industry which encourage unsurpassed quality, service and efficiency in today’s national and global travel industry.

HFT 3770 Cruise Line Operations & Management (3). Overview of cruise industry: its history and evolutions, operating and marketing procedures, career opportunities, ship profiles, itineraries, and ports of call. Guest speakers and optional field trip included.

HFT 3782 Casino Hotel Management (3). This course concentrates on all aspects of the gaming business, including organizational structure, new property development and space allocation, financial projections and controls.

HFT 3791 Social Event Planning (3). Designed to focus the basic concepts of event planning as they specifically apply to the area of social events and weddings, including infrastructure design and budget management. Prerequisites: HFT 3754 or permission of the instructor.

HFT 3793 Sociology of Leisure (3). An introduction to the fundamental psychological and sociological concepts and theories as they relate to the motivation behind travel and tourism.

HFT 3813 Marketing for Food Service Operations (1). Examines marketing principles, theories and concepts and the use of management principles and techniques. Stresses marketing for food services.

HFT 3855 Introduction to the Brewing Process (3). This class is designed to expose students to some basic home brewing techniques and give them practical experience in home-brewing beer. Students will brew ales in a hands-on laboratory. Prerequisite: Minimum age 21. Corequisite: HFT 3855L.

HFT 3855L Introduction to the Brewing Process Laboratory (1). Lab to accompany class designed to expose students to some basic home brewing techniques and give them practical experience in home-brewing beer. Students will brew ales in a hands-on laboratory. Prerequisite: Minimum age 21. Corequisite: HFT 3855.

HFT 3861 Beverage Fundamentals (3). Provides a comprehensive review of the beverage industry including the history of alcohol, the development of the beverage industry in the U.S. and a review of beverages with an emphasis on Spirits. Prerequisite: Minimum Age 21.

HFT 3862L Wines of France and Italy (3). A survey of the wines of the New World focusing on French and Italian wine groups, the most common methods of wine production; French and Italian wine classification systems. Prerequisite: Minimum age 21.

HFT 3864 Introduction to Brewing Science (3). A hands-on overview of the scientific principles and operation of craft breweries, and microbrewery technology. Relevant chemical, biological, and physical processes will be examined. Prerequisite: Minimum age 21.

HFT 3864L Introduction to Brewing Science Laboratory (1). A hands-on overview of the scientific principles and operation of craft breweries, commercial breweries, and microbrewery technology. Relevant chemical, biological, and physical processes will be examined. Prerequisite: Minimum age 21.

HFT 3865 Wines of the New World (3). Classroom discussion accompanied by class tastings of selected wines. An emphasis on identifying by taste the grape varietal of different wines from each region.

HFT 3866 Wine Technology, Merchandising, and Marketing (3). A course in oenology and the fundamentals of wine technology (viticulture and vinification methods). The major types of wine and the factors influencing their quality; principles of sensory evaluation; wine merchandising and marketing. Prerequisite: Minimum age 21.

HFT 3868 Wine and Culture (3). A survey of the legendary old world and new world wine regions with a special emphasis on the cultural background that enabled these vineyards to develop and flourish.

HFT 3870 The Components of Wine (3). An overview of various specific components (sound and spoilage) found in wines. Some aspects of winemaking will be included. Tasting of commercial wines to identify various components. Prerequisite: Minimum age 21.

HFT 3871 Introduction to Food and Wine Pairing (3). An introductory study of how wines pair with foods. Small portions of simple foods will be paired with an assortment of red and white, dry to sweet wines. Prerequisite: Must be 21 years or older.

HFT 3873 The History of Wine (3). This course will provide a history of wine from prehistoric times to the late Victorian era, it covers all aspects of wine from its early use by the Gods of mythology to ancient and modern practices: food, weather, customs, living conditions, cost of production, what they ate, etc. Prerequisite: Must be 21 or older.
HFT 3874 Role of Food Service in Tourism (3). A theoretical approach to the multicultural dimensions of food service and cultures of origin, a practical display and discussion of food production and presentation according to the different types of existing services. Prerequisites: HFT 3203 or HFT 3718.

HFT 3892 Caribbean Cuisine (3). An exploration of Caribbean cuisine in terms of history, ethnicity and lifestyle through lectures, food demonstrations and tastings.

HFT 3900-3905 Independent Studies (VAR). With permission from the Associate Dean, students may engage in independent research projects and other approved phases of independent study. Prerequisites: 3.0 GPA and permission of the instructor.

HFT 3923 Life After College Seminar (0). This workshop will review writing skills, interview skills, how to research a company and conduct a job search. Students will participate in mock interviews and learn about on-campus recruitment programs.

HFT 3935 Culinary Cultures of the Middle East (3). This multidisciplinary course explores the overlapping culinary cultures of the Middle East and surveys how food helps to influence regional and personal identity. Topics include major regional foodstuffs, gender cooking roles, diet, dining out, and religious holidays, and celebrations.

HFT 3941 Internship in Hospitality Management (3). Practical training and experience in all the major phases of hospitality operations and visitor industry. Reports are required. Prerequisite: Permission of the instructor.

HFT 4064 Beverage Management (3). An entrepreneurial and interactive course where students apply principles of beverage management learned during the semester to the development of a business plan related to the beverage industry.

HFT 4221 Human Resources Management for Hospitality Industry (3). An in-depth study of human resources management in hospitality industry designed to improve and advance student’s skills through understanding of both hourly and management resource policies, practices and procedures. Prerequisites: HFT 3203 and senior status only.

HFT 4222 Human Resources Development and Training for Hospitality Industry Managers (3). A course designed to provide specific applications of proven training systems and methods for managers in the hospitality industry. The case study method will be used. Prerequisite: HFT 3203. (F,S)

HFT 4224 Human Relations in the Hospitality Industry (3). Designed to improve management skills for effective relationships with hospitality associates and guests. Course includes diversity appreciation, community service and team building. Prerequisite: HFT 3203.

HFT 4240 Managing Service Organizations (3). In-depth study of management issues relating to service and quality assurance in the service industry. Examines service linkages to marketing operations and human resources. Prerequisites: HFT 3503 or HFT 4509, and HFT 3203, Senior Status only.

HFT 4274 Timeshare Management (3). A comprehensive study of time-share and vacation ownership, including legislation, legal structures, project budgeting, financing, marketing, sales and property management. Prerequisite: HFT 3203.

HFT 4284 Global Hospitality Business Environment (3). Advanced management seminar examining the role of social, cultural, political, legal, ethical, economic and technological factors in how management is practiced in hospitality firms worldwide. Prerequisite: HFT 3203.

HFT 4287C Contemporary Management Issues in the Asian Hospitality Marketplace (3). This course explores the Asian Hospitality Industry and provides the students an insight into major cultural issues and management differences as compared to the Western marketplace.

HFT 4292C Entrepreneurship in the Hospitality and Tourism Industry (3). Provides students with an overview of all major areas that must be considered when analyzing, designing and planning a new business venture or an acquisition.

HFT 4293 Hotel Food Service Operations Seminar (3). Senior course reviewing current foodservice operations, practices, procedures and problems throughout all areas and facets of the hotel industry. Prerequisites: HFT 3003 or HFT 3203.

HFT 4295 Leadership in the Hospitality Industry (3). To introduce the student to the fundamentals of leadership and basic leadership skills for organizational success. Prerequisite: Graduating Seniors.

HFT 4296 Senior Seminar in Hospitality Management (3). Student groups identify and research a major problem of a hospitality enterprise. Discussions will focus on problems and solutions. Final report required. Seniors only.

HFT 4343 Hotel and Restaurant Planning and Design (3). Considers analysis, evaluation, and scheduling of the economic, technical, aesthetic, and merchandising factors involved in the systematic planning, programming and design cycle for hotels and restaurants. Actual hotel and restaurant projects will serve as the basis for discussion and student project work. Prerequisite: HFT 4323.

HFT 4344C QSR Management (3). A study of management in a wide range of Quick Service Food Restaurants, including site criteria, design and layout, operations, marketing techniques and human relations. Prerequisite: HFT 3263.

HFT 4365 Environmental/Quality Management in the Hospitality Industry (3). A multidimensional course reviewing global sustainability and environmental movements. This defined impact on the hospitality industry. Integrates courses and opportunities related to sustainability. Prerequisite: HFT 3203.
Undergraduate Catalog 2011-2012

HFT 4413 Lodging Systems and Procedures (3). Detailed study of methods used in serving and tracking guest history and yield management in the hospitality industry. Demonstrates state-of-the-art technology and concepts. Prerequisites: HFT 3423 and HFT 3453.

HFT 4433C Financial Accounting in the Casino/Gaming Industry (3). The purpose of this course is to provide students with a broad overview of casino accounting processes, financial analysis, internal and external regulatory compliance, capital budgeting and business plan development. Prerequisite: HFT 3403.

HFT 4445 Hotel Computer Systems (3). A seminar on computer systems within the hotel industry. An intensive study of a computerized property management system. All computer applications are examined from reservations to the back office through a series of assignments and projects. Prerequisite: HFT 3423.

HFT 4464 Financial Analysis in the Hospitality Industry (3). Facilitates understanding and use of financial analysis in the hospitality industry. Topics include decision-making based on ratio analysis, leverage, financing sources and other financial issues. Prerequisite: HFT 3403.

HFT 4465 Financial Analysis for Tourism (3). Facilities understanding and use of financial analysis. Topics include decision-making based ratio-analysis, leverage, budgeting, financing sources and other financial issues. Prerequisite: HFT 3403.

HFT 4470 Resort Development (3). Analysis of management systems and methods for development of full-service resorts. Comparison of specialized requirements for different types of resorts based on location, climate, activities, and life-style. Considers management responsibilities for feasibility analysis, project development, construction supervision, pre-opening requirements and operations. Prerequisite: HFT 3403.

HFT 4474 Management Accounting for the Hospitality Industry (3). Advanced study of the decision-making process involved in the hospitality industry. Emphasis on budgeting, pricing decisions, cost-volume-profit analysis and capital budgeting. Prerequisite: HFT 3403.

HFT 4479 Food Service Systems Development (3). Course presenting the systems and procedures to develop a food service operation from concept to opening. Prerequisites: HFT 3403, HFT 3263, and HFT 3503.

HFT 4493C Food Service Computer Systems (3). Study of computer systems in the restaurant and food service industry. The student is required to implement a simulated restaurant including personnel files, daily management, menu explosion and analysis, and inventory tracking. A research project will be assigned. Prerequisite: HFT 3423 or permission of the instructor.

HFT 4502 Marketing Research in the Hospitality Industry (3). Fundamental research methods for tourism industry: data collection, analysis, write-up, and presentation. Emphasis placed on research implication relevant to management and problem solving. Prerequisite: HFT 4509.

HFT 4503L Hospitality Marketing Management Laboratory (2). An experiential course that allows students within a team to apply ideas, theories and techniques of management to real-world business challenges (may be repeated for up to 6 credits). Prerequisite: HFT 3521.

HFT 4504 Hospitality and Tourism on the Internet (3). This course provides working knowledge of the structure of the internet and web site hosting. Current principles of online marketing are examined in detail. Prerequisites: HFT 3503 or permission of the instructor.

HFT 4508 Meetings and Show Markets (3). An in-depth analysis of the characteristics and buying behavior of meetings and show markets and the marketing strategies that can effectively attract and serve them. Prerequisites: HFT 3503 or HFT 4509.

HFT 4509 Tourism Destination Marketing (3). Comprehensive study of strategies and advanced techniques used in marketing tourism destinations and products. Marketing plan developed.

HFT 4512C Hospitality Promotion Strategy (3). This course deals with the practical aspects of designing and implementing a hospitality advertising, public relations, and promotional program. Planning, budgeting, media, and campaign creation will be studied. Prerequisites: HFT 3503 or equivalent.

HFT 4520 Personal Sales Tactics for the Hospitality Industry (3). An investigation of personal selling approaches and procedures used in hospitality sales environments combined with practical application role plays and skill rehearsals. Prerequisites: HFT 3503 or HFT 4509.

HFT 4514 Hospitality Marketing Strategy Case Studies (3). A case-method course in strategic marketing analysis and decision making for the hospitality services industry. Students engage in intensive class discussion and write reports on hospitality cases. Prerequisites: HFT 3503 or HFT 4509.

HFT 4524 Sales Management for the Hospitality Industry (3). Explores innovative management techniques used in hospitality sales for effective sales development and revenue generation. Practical application, simulations, research and field study used. Prerequisites: HFT 3503 or HFT 4509.

HFT 4545 Managing High-Functioning Teams (3). Course covers factors contributing to effective teams. Students will experience and process activities to help group members build skills for teamwork. This is an experimental course requiring a high level of participation. Prerequisites: HFT 3203 or permission of the instructor.

HFT 4604 Employment Law for Hospitality Management (3). Study of employment law including minimum wage, overtime, exempt employees, sexual harassment, discrimination under Civil Rights Act Title VII, ADA, Immigration Act and Family & Medical Leave Act. Prerequisites: HFT 3603 or HFT 3727.

HFT 4653 Franchising in the Hospitality Industry (3). This course provides a better understanding of franchising in the hospitality industry from academic and practitioner perspectives. Discusses the reasons for using franchising as a growing strategy. Prerequisite: HFT 3603.
HFT 4654 Financial and Legal Aspects of Real Estate Development in the Hospitality Industry (3). A study of the legal implications and financing alternatives for development of new properties and conversions. Prerequisites: HFT 3603 and HFT 4464.

HFT 4708 Coastal and Marine Tourism (3). Exploration of positive and negative impacts, management techniques and practices of worldwide coastal and marine environments. Prerequisites: HFT 3718 or permission of the instructor.

HFT 4711 Cultural/Heritage Tourism (3). Course addresses the significance of cultural resources (such as historical sites, art, and customs), program development, and visitor management to educate the traveler and preserve cultural diversity. Prerequisites: HFT 3718 or permission of the instructor.

HFT 4714 Implementation and Management of Tourism Projects (3). Practical development, implementation, and management of tourism projects and programs with emphasis on international and developing nation situations. Prerequisites: HFT 3718 or HFT 3713.

HFT 4737 Managing Tourism Services (3). This course will introduce the student to management issues relating to service and quality assurance in travel and tourism systems. It includes examination of the concept of service and quality as a basic function of sustainability and analysis of the importance of the linkages of service and quality within sustainable travel and tourism products. Prerequisites: HFT 3718, HFT 3203, HFT 4221 or HFT 4224, HFT 3701, HFT 3727, and must take course in last semester / 12 hours left / graduating student.

HFT 4757 Advanced Events Management (3). This course focuses on advanced planning and managing of special events, from ideas and concepts through the actual event implementation and follow-up. Students will have the opportunity to focus on detailed elements of event management. Prerequisites: HFT 4754 or permission of the instructor.

HFT 4762 Airline Management (3). An in-depth study of the airline industry as a component of the hospitality tourism industry. Includes operation of various departments, costs of operations, regulation issues and career opportunities. Prerequisites: HFT 3718 or permission of the instructor.

HFT 4763 Airline Computer Reservation Systems (3). An intensive study of the airline reservation system including computer software, travel documents, tickets, price itineraries as well as worldwide travel information retrieval. Prerequisites: HFT 3423 or equivalent.

HFT 4783 Casino Marketing (3). The purpose of this course is for the student to develop a professional marketing skill-set. The student will additionally develop an understanding of marketing concepts as they apply to the hotel casino industry. This course will help students understand the components of effective marketing in the management of successful hotel casino operations. Prerequisite: HFT 3503.

HFT 4785 Casino Operations Management (3). Topics include: historical, legal, social and operational aspects of the casino industry; odds assessment, game types, and cash management. Paramutual wagering, casinos, and sports books examined. Prerequisite: HFT 3203.

HFT 4802C Catering Management (3). A study of the techniques, logistics, and responsibilities involved in the management of on-premise and off-premise, catering companies. Prerequisites: FSS 3230C or permission of the instructor.

HFT 4805 Contract Food Services Management (3). Management of various non-commercial and contract foodservice operations including business and industry, hospital/medical center, school/college, and recreational. Prerequisite: HFT 3203.

HFT 4809 Management of Food Service Industry Segments (3). An in-depth study of all segments of the food service industry including all major areas of food service operations as they relate to various industry segments. Prerequisite: HFT 3263.

HFT 4833 Culinary Innovation and Entrepreneurship (3). A unique course allowing the opportunity for students with advanced culinary skills to learn the art and science of managing culinary innovation and entrepreneurship. Prerequisites: FSS 3230C and strong background in culinary arts (FSS 4234C preferred, specifically experience in food production events, banquets and catering).

HFT 4853 Food Service Trends and Challenges (3). Advanced level course covers management issues relevant to current trends and challenges facing the food service industry. Topics covered will vary as appropriate for current situations. Prerequisite: FSS 3230.

HFT 4867 The Business of Wine (3). Overview of the wine business including: importers, whole-salers, growing grapes, making wine, retailing in supermarkets, restaurants, and liquor stores, analytical tastings, matching wine and food. Prerequisites: HFT 3866; minimum age 21.

HFT 4869 Celebrity Wine Course (3). Learn from the leading experts in the wine industry. The course includes sensory evaluation and appreciation of wines, marketing, wine and food pairings, and employment opportunities. Prerequisite: Must be 21 years or older.

HFT 4936 Hotel Management Seminar (3). A senior course examining the power of partnerships and interrelationships between hotel/resorts and other key segments of the visitor industry (airport, convention center, attractions, sport teams, and stadiums/arenas, etc.) Considers current lodging and visitor industry problems and practices, developing policies and procedures, and implementing them. Prerequisite: HFT 3203.
HFT 4945 Advanced Internship in Hospitality/Tourism Management (0-3). The Advanced Internship is a practical hospitality/tourism work experience structured to provide exposure to management and training functions, job rotation tasks and/or projects not previously performed. Minimum 300 hours/ten weeks field experience. Prerequisites: Documented completion of 1,000 hospitality related work hours of which 500 hours must be completed while enrolled at FIU. Permission of an advisor.

HFT 4955 China Field Study Abroad: Hospitality and Tourism (3-6). The course is designed to acquaint students with hospitality and tourism development in many parts of the world. Students will observe the development through trips to major cities in a country or area.

Bachelor of Science in Communication

Degree Program Hours: 120-124
The School of Journalism and Mass Communication is fully accredited by the Accrediting Council on Education in Journalism and Mass Communications. Only 25 percent of all Schools of Journalism and Mass Communication in the United States are fully accredited. The aim of the undergraduate communication program at the University is to prepare students who:

1. are broadly educated, demonstrated by a grasp of the liberal arts and an appreciation of the value of knowledge and learning, including exploration in some depth of a specific field of knowledge outside communication;
2. can think clearly and objectively about the complexities of the modern world, formulate concepts and effectively communicate this information to targeted audiences;
3. are proficient in the basic skills necessary to meet professional requirements at the entry level in one of the tracks offered by the school. This shall include the ability to write English to professional standards and to master the mechanics of grammar, spelling, and punctuation; and
4. understand the social, ethical, economic, philosophical, and political aspects of the communication professions in a global society.

The School offers majors in advertising, broadcast journalism, print journalism, and public relations. Approximately 30 percent of a student’s course work is within the school. The purpose is to provide professional entry skills as well as a broader understanding of communication processes and techniques and their impact on society.

Emphasis is placed on a broad range of knowledge. In keeping with the standards required of nationally-accredited mass communication programs for graduation, all students must take a minimum of 80 semester hours outside the field of journalism and mass communication (actual number will vary by track); a minimum of 65 of those hours must be in the liberal arts.

Additionally, students will select an area of concentration outside the field of communication to pursue in depth. Advisors in the Student Services office can provide recommendations for students with particular career goals.

Common Prerequisite Courses and Equivalencies

Courses which form part of the statewide articulation between the State University System and the Community College System will fulfill the Lower Division Common Prerequisites.

For generic course substitutions/equivalencies for Common Program Prerequisites offered at community colleges, state colleges, or state universities, visit: http://facts.org. See Common Prerequisite Manual.

Admission to Upper Division

To be fully admitted into the upper division program, FIU undergraduates and transfer students must complete 60 credits, achieve the competencies of the CLAS requirement, successfully pass MMC 3003 (Mass Communication Orientation), and have a minimum cumulative GPA of 3.0 (this includes all transfer work, in addition to current FIU work).

Petition for Waiver of GPA Requirement

Applications for a waiver of the 3.0 GPA requirements are accepted three times during the academic year (the first Monday in October, February, and May). A faculty committee reviews the applications and grants a very limited number of waivers. Simply applying for the waiver will not guarantee approval. To be eligible for the waiver, application, students must have a minimum GPA of 3.0 in their most recent 18 credit hours. Summer grades are considered at the end of Summer C. In addition, the student must have a 2.75 cumulative GPA and meet all other admission requirements. Students must have achieved a score on the language skills test that meets the minimum score requirement in effect at the time they apply for the waiver. Students may apply for this waiver only once.

Writing Proficiency

All students in each track are expected to demonstrate proficiency in writing. Students are required to enroll in Writing Strategies for Reaching a Mass Audience (MMC 3104C) and receive a ‘C’ or higher. Admission to MMC 3104C requires successful completion of a language skills test, no exceptions.

MMC 3104C is the prerequisite for the majority of courses in the SJMC, be sure to complete this requirement early so as not to fall behind.
Transfer Credit

Transfer students may receive credit for comparable Florida state communication courses in accordance with Statue 1007.24(7) or for a maximum of six semester hours of communication courses previously taken at non-Florida state institutions with a grade of 'B' or higher in each course.

Grade Policy

Only grades of 'C' or higher in SJMC courses, the student’s area of concentration, and other courses as required by the School shall apply for graduation. A 'C-' is unacceptable. A "P" grade is unacceptable, unless the required course is zero credits. In order to take courses, students must have completed all prerequisites for the course with a grade of 'C' or better. Any student found not to have completed the specific prerequisite requirements as stated in the catalog and the course outline will be administratively dropped if the student does not drop the course prior to the end of the drop period. Students who are late or absent on the first day of class may be dropped from high demand courses at the instructor’s discretion.

Graduation Policy

To be eligible for graduation, a student must have a minimum 2.75 GPA in all SJMC courses as well as in the outside courses required by the program. The grade point average will be computed separately to maintain the 2.75 standard in both categories.

Advertising

School Requirements: (15 credits)

Students in the Advertising Track may choose Account Management or Creative. In addition to the individual track requirements, students must take the following school requirements:

<table>

<tr>
<td>COM 3110**</td>
<td>Business &amp; Professional Communication</td>
</tr>
</tbody>
</table>

**If 1000/2000 speech course already taken, may take art/art history, political science, or international relations.

Area of Concentration: (12 credits)

In consultation with an advisor, students must elect a coherent series of four upper-division courses (12 semester hours) in a non-communication area related to their career emphasis.

Internship

Internships are available for advertising majors who have not yet gained experience in the field. Students who have a 3.0 GPA in School course work and meet the curricular requirements outlined in the internship packet may elect an internship in consultation with their advisors. The internship requires a minimum of 300 hours of work for 3 academic credits.

Journalism

School Requirements: (15 credits)

Students in the Journalism Track may choose Print or Broadcast. In addition to the individual track requirements, students must take the following school requirements:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MMC 3003</td>
<td>Mass Communication Orientation</td>
<td>0</td>

(Prereqs: MMC 3104C, JOU 3117, JOU 3343L, JOU 3300, full admission into upper division program Coreq: JOU 3300)

Two Departmental Electives (6 credits) from the following:

RTV 3007 Introduction to Television 3
MMC 4936 Special Topics or Study Abroad 3
(Prereqs: MMC 3104C and full admission into upper division program)
JOU 3121 Database and Computer Assisted Reporting 3
(Prereqs: MMC 3104C, JOU 3117, JOU 3343L, full admission into upper division program, Coreqs: JOU 3117, JOU 3343L)
JOU 3188 Reporting in a Multi-Ethnic Community 3
(Prereqs: MMC 3104C, JOU 3117, JOU 3343L, full admission into upper division program. Coreqs: JOU 3117, JOU 3343L)
RTV 4320 Electronic News Gathering 3
(Prereqs: MMC 3104C, JOU 3003, RTV 3260, VIC 3002, full admission into upper division program)
JOU 3312 Specialty Journalism (Herald Internship) 3
(Prereqs: MMC 3104C, JOU 3003, full admission into upper division program, and Chair's consent)

JOU 4946 Journalism Internship 1
(Prereqs: MMC 3104C, JOU 3117, JOU 3343L, full admission into upper division program, consent of the Department Chair)

Liberal Arts Requirements: (9 credits)

Students must select one course from each of the following subject areas: political science, economics, and international relations.

Area of Concentration: (12 credits)

Students must select a coherent series of four (12 credits semester hours) upper division courses (3000 or 4000 level) in an area chosen by the student in coordination with their advisor that would indicate a chosen area of focus outside of the SJMC. For example, photography, business, health, etc.

Public Relations

School Requirements: (15 credits)

MMC 3003 Mass Communication Orientation 0
MMC 3104C Writing Strategies for Reaching a Mass Audience 3
(Prereq: Passing Score on Language Skills Test)
MMC 3303 Global Media and Society 3
MMC 4200 Mass Communication Law and Ethics 3
VIC 3002 Visual Design for Media 3
RTV 3260 Multimedia Production 3
(Prereqs: MMC 3104C, VIC 3002, full admission into upper division program)

Public Relations Specific Track Requirements: (24 credits)

PUR 3000 Principles of Public Relations 3
ADV 3008 Principles of Advertising 3
ADV 3200 Creative Concepts 3
(Prereqs: MMC 3104C and full admission into upper division program)
MMC 4609 Integrated Communication Research Strategy 3
(Prereqs: MMC 3104C, [ADV 3008 or PUR 3000], full admission into upper division program)
PUR 4100 Writing for Public Relations 3
(Prereqs: MMC 3104C, PUR 3000, full admission into upper division program)
PUR 4101 Publications Editing and Design 3
(Prereqs: MMC 3104C, PUR 3000, full admission into upper division program)
PUR 4106 Advanced Public Relations Writing 3
(Prereqs: MMC 3104C, PUR 3000, PUR 4100, full admission into upper division program)
MMC 4410 Integrated Communication Campaigns 3
(Prereqs: MMC 3104C, all tracks and school requirements except MMC 4930 and/or MMC 4945, and full admission into upper division program)

Liberal Arts Requirements: (9 credits)

Students must select one course from each of the following subject areas:
Economics or Sociology 3
Psychology  3
COM 3110**  Business & Professional Communication  3

**If 1000/2000 speech course already taken, may take art/art history, political science, or international relations.

Area of Concentration: (12 credits)
In consultation with an advisor, the student must take 12 upper division semester hours in one area of emphasis outside the School. These courses should relate to the student’s career expectations. Several traditional areas of specialization are as follows:

- Governmental public communication (public administration, international relations, criminal justice, or political science)
- Corporate public relations (marketing or management)
- Non-profit public relations (social sciences or marketing)
- Public relations for travel and tourism (hospitality management)

These groupings do not preclude other specialized areas of interest, including modern languages and the certificate programs available in the College of Arts and Sciences.

Internship
The internship is important for public relations majors who have not yet gained experience in the field. Students who have a 3.0 GPA in School course work and meet the curricular requirements outlined in the internship packet may select an internship in consultation with their advisor. The internship requires a minimum of 300 hours of work for three academic credits.

Minor in Advertising
Required Courses: (18 credits)
Students are required to take the following three courses:
ADV 3008 Principles of Advertising  3
MMC 3104C Writing Strategies for Reaching a Mass Audience  3
(Prereq: Passing Score on Language Skills Test)
ADV 3200 Creative Concepts  3
(Prereq: MMC 3104C and full admission into minor program)

One of the following 3 credit courses:
MMC 3303 Global Media and Society  3
MMC 4200 Mass Communication Law and Ethics  3
PUR 3000 Principles of Public Relations  3

Choose one of the following 2 groups: 6 credits

Group 1:
(Prereq: ADV 3200 [grade of “B” or better], MMC 3104C, ADV 3008, Competency in “In Design”, admission to minor)
ADV 4101 Advanced Print Concepts  3
ADV 4103 Radio/TV Concepts  3

Group 2:
(Prereq: MMC 3104C, ADV 3008, admission to minor)
ADV 4300 Media Planning  3
MMC 4609 Integrated Communication Research Strategy  3

Minor in Journalism
Required Courses: (18 credits)
JOU 3003 Introduction to Journalism  3
MMC 3104C Writing Strategies for Reaching a Mass Audience  3
(Prereq: Passing Score on Language Skills Test)
VIC 3002 Visual Design for Media  3
RTV 3260 Multimedia Production  3
(Prereq: MMC 3104C, VIC 3002, admission to minor program)
JOU 3117 News Reporting Workshop  3
(Prereqs: MMC 3104C, JOU 3003, VIC 3002, and admission to minor program. Coreqs: RTV 3260, JOU 3343L)
JOU 3343L News Writing Workshop  3
(Prereqs: MMC 3104C, JOU 3003, JOU 3117, RTV 3260, admission into minor program. Coreqs: RTV 3260, JOU 3117)

Minor in Public Relations
Required Courses: (18 credits)
PUR 3000 Principles of Public Relations  3
ADV 3008 Principles of Advertising  3
MMC 3104C Writing Strategies for Reaching a Mass Audience  3
(Prereq: Passing Score on Language Skills Test)
PUR 4100 Writing for Public Relations  3
(Prereq: MMC 3104C, PUR 3000, admission into minor program)
PUR 4106 Advanced PR Writing  3
(Prereqs: MMC 3104C, PUR 3000, PUR 4100, admission into minor program)

Choose one of the following 3 credit courses:
MMC 3303 Global Media and Society  3
MMC 4200 Mass Communication Law and Ethics  3
MMC 4930 Integrated Communication Seminar  3
(Prereqs: MMC 3104C, ADV 3008, PUR 3000, ADV 3200 or PUR 4100, full admission into minor program)

Minor in Global Media Communication
Required Courses: (15 credits)
MMC 3303 Global Media and Society  3
MMC 4200 Mass Communication Law and Ethics  3
VIC 3002 Visual Design for Media  3

Two of the following 3 credit courses:
PUR 3000 Principles of Public Relations  3
ADV 3008 Principles of Advertising  3
RTV 3007 Introduction to Television  3
JOU 3003 Introduction to Journalism  3

Minor in Multimedia Production
Required Courses: (15 credits)
RTV 3007 Introduction to Television  3
MMC 3303 Global Media and Society  3
MMC 3104C Writing Strategies  3
(Prereq: Passing Score on Language Skills Test)
Certificate Programs

Global Media Communication

Required Courses: 18 credits

MMC 3303 Global Media and Society 3
MMC 4200 Mass Communication Law and Ethics 3
VIC 3002 Visual Design for Media 3

Plus 3 of the following 3 credit courses:

ADV 3008 Principles of Advertising 3
PUR 3000 Principles of Public Relations 3
JOU 3003 Introduction to Journalism 3
RTV 3007 Introduction to Television 3

Media Management

Required Courses: 15 credits

MMC 4200 Mass Communication Law and Ethics 3
MMC 3104C Writing Strategies for Reaching a Mass Audience
(Prereq: Passing Score on Language Skills Test)
VIC 3002 Visual Design for Media 3
MMC 3250 Media Management 3
(Prereq: MMC 3104C, admission to certificate program)

One additional three credit course from the following:

RTV 3007 Introduction to Television 3
JOU 3003 Introduction to Journalism 3
PUR 3000 Principles of Public Relations 3
ADV 3008 Principles of Advertising 3

Joint Certificate in Tourism Marketing Communications (18 credits)

The Joint Undergraduate Certificate in Tourism Marketing Communication is an 18-hour program offered jointly by the School of Journalism and Mass Communication and the School of Hospitality and Tourism Management. The objective of this certificate program is to prepare professionals for a communications career specifically in the tourism industry. It is also appropriate to provide tourism professionals who have gained communications responsibilities with a broad overview of the basic concepts and tasks of mass communications. Hospitality and Tourism will waive the prerequisites for students in the certificate program, with the exception of HFT 3866.

Required Courses

PUR 3000 Principles of Public Relations 3
ADV 3008 Principles of Advertising 3
MMC 4936 Special Topics** 3

**Special topics will be offered for non-SJMC students

Elective Courses

Students may choose any three of the following

HFT 3718 Travel and Tourism Systems 3
HFT 3713 International Travel and Tourism 3
HFT 3509 Tourism Destination Marketing 3

Course Descriptions

Definition of Prefixes

ADV - Advertising; COM - Communications; IDS - Interdisciplinary Studies; JOU - Journalism; MMC - Mass Media Communication; PUR - Public Relations; RTV - Radio-Television; VIC - Visual Communication

ADV 3008 Principles of Advertising (3). Comprehensive survey of basic principles and practices of advertising emphasizing creative/media strategy decision processes and historical, social, economic, and social influences.

ADV 3200 Creative Concepts (3). Familiarization with the creative process and creative problem solving techniques. Emphasis on group work, brainstorming and idea generation. Will formulate strategies using all communication tools. Prerequisites: MMC 3104C and full admission into upper division program.

ADV 4101 Advanced Print Concepts (3). Advanced copywriting and graphic design. Lab exercises focusing on concept, layout, type specification and mechanical preparation of print advertising, including outdoor and direct response. Prerequisites: MMC 3104C, ADV 3008, ADV 3200 (with a grade of "B" or better), and full admission into upper division program. (Supplies fee assessed)

ADV 4103 Radio/TV Concepts (3). Theory and practice of producing advertisements for radio and TV. Includes production of a radio and/or TV commercial. Prerequisites: MMC 3104C, ADV 3008, ADV 3200 (with a grade of "B" or better), competency in "In Design", full admission into upper division program.

ADV 4300 Media Planning (3). Planning, execution, and control of advertising media programs. Emphasis on characteristics of the media, buying and selling processes, and methods and techniques used in campaign planning. Prerequisites: ADV 3008, MMC 3104C, and full admission into upper division program.

COM 5606 Environmental Communication (3). This graduate level course is designed to bring theoretical principles and professional skills associated with mass communication together with environmental issues and themes. Prerequisites: Completion of the six-credit project or internship requirement (EVR 5907) and permission of the instructor or department.

IDS 3189 International Nutrition, Public Health and Economic Development – GL (3). This course will examine the impact of global public health, nutrition and economic development on the physical and political environment. Recommended also for non-majors.
JOU 3003 Introduction to Journalism (3). Study and analytical discussion of the history of journalism in America, including its current practice, through intensive readings of primary historical sources as well as broad, direct exposure to current news sources.

JOU 3117 News Reporting Workshop (3). Intensive instruction and practice in the fundamentals of reporting, including interviewing, data gathering, public records research and legal considerations of news-gathering for all news formats. Prerequisites: MMC 3104C, JOU 3003, VIC 3002, and full admission into upper division program. Corequisites: RTV 3260, JOU 3343L. (Supplies fee assessed)

JOU 3121 Database and Computer Assisted Reporting (3). The class focuses on the use of spreadsheets, database managers and the skillful use of the Internet sources, as well as commercial databases used by journalists. Prerequisites: MMC 3104C, JOU 3117, JOU 3343L, full admission into upper division program. Corequisites: JOU 3117, JOU 3343L.

JOU 3188 Reporting in a Multi-Ethnic Community (3). This course explores the challenges that face contemporary journalists covering increasingly diverse communities; the class will provide instruction in how to cover multi-ethnic communities. Prerequisites: MMC 3104C, JOU 3117, JOU 3343L, full admission into upper division program. Corequisites: JOU 3117, JOU 3343L.

JOU 3202 Editing and Layout (3). Editing news copy for accuracy and brevity, including AP style. Learning the role of news editor, including headline writing and layout. Prerequisites: MMC 3104C, JOU 3003, JOU 3343L, JOU 3117, JOU 3300. (Supplies fee assessed)

JOU 3300 Advanced News Writing (3). Writing and producing the feature story: human interest, trends, personality profiles, sidebars, backgraders, color. Prerequisites: MMC 3104C, JOU 3117, JOU 3343L, full admission into upper division program. Corequisite: JOU 4341C.

JOU 3312 Specialty Journalism (1). Seminars in such topics as investigative, political, business, sports, or minority reporting, and editorials and commentary. Must be taken three times. Prerequisites: MMC 3104C, JOU 3003, full admission into upper division program, and Chair’s consent.

JOU 3314 Environmental Journalism: Communicating Environmental Issues in South Florida (3). This course is designed to bring science, the environment and journalism together, so that students from a variety of disciplines can develop news stories about issues regarding the environment.

JOU 3343L News Writing Workshop (3). Intensive instruction and practice in the fundamentals of news writing for print, broadcast and the web. Prerequisites: MMC 3104C, JOU 3003, JOU 3117, RTV 3260, full admission into upper division program. Corequisites: RTV 3260, JOU 3117. (Supplies fee assessed)

JOU 4101 In-Depth Reporting (3). Advanced instruction and practice in researching, reporting and writing a variety of complex news stories. Prerequisites: JOU 3343L, JOU 3117, RTV 3301. (Supplies fee assessed)

JOU 4208 Magazine Editing and Production (3). Develops skill in writing, editing and design, and a knowledge of planning, typography and graphics. Attention is given to developing formats, selecting copy, photos, graphics, and type. Prerequisites: MMC 3104C, and full admission into upper division program.

JOU 4341C Senior Multimedia Project (3). Conceptualizing and production of an online publication, including layout, photography, streaming video and audio. The project to be delivered in 3 different formats - print, television, and on-line. Prerequisites: MMC 3104C, JOU 3117, JOU 3343L, JOU 3300, full admission into upper division program. Corequisite: JOU 3300.

JOU 4701 Business, Ethics and Journalism (1-3). Examination and discussion of case studies involving ethical dilemmas caused by pressures from the business side of print and broadcast journalism on working reporters and editors. Real world problems are brought into the classroom discussion to prepare students for the kind of problems they will almost certainly face in their news careers. Prerequisites: MMC 3104C and full admission into upper division program.

JOU 4946 Journalism Internship (1). On-the-job learning at selected and approved news organization, such as wire services, newspapers, magazines, radio and TV stations. Course may be repeated, but no more than 3 credits will be rewarded. Prerequisites: MMC 3104C, JOU 3117, JOU 3343L, full admission into upper division program, consent of the Department Chair.

JOU 5806 Student Media Advising (3). Designed to assist teachers and advisers of journalism at the high school and junior college level, this course emphasizes the technical aspects of producing student newspapers, yearbooks, and magazines, as well as the legal and ethical considerations facing today’s adviser. In addition, attention is given to matters pertaining to curriculum and methodology for effective journalistic instruction.

MMC 3003 Mass Communication Orientation (0). A course designed to provide the students with a comprehensive overview of academic policies, procedures and requirements for matriculation and graduation from the School of Journalism and Mass Communication. This course is required for full admission into the upper division program. (Supplies fee assessed)

MMC 3021 Grammar Workshop: Preparation for the 21st Century (3). This course provides a much-needed pre-writing workshop for those who need a stronger introduction to language skills or for who simply want to perfect their English grammar.

MMC 3104C Writing Strategies for Reaching a Mass Audience (3). An advanced writing course that applies creative thinking techniques, especially in the generation of ideas for mass media presentation, as well as the careful and compelling use of language. Prerequisite: Passing score on the Language Skills Test. (Supplies fee assessed)

MMC 3250 Media Management (3). Introduction to media markets with emphasis on television’s role in the media mix serving advertisers and end-users. Prerequisites: MMC 3104C, full admission into upper division program.
MMC 3303 Global Media and Society – GL (3). The course will familiarize the student with a multi-cultural global perspective of a multi-media world. The aim of the course is to create a foundation of global media literacy.

MMC 4200 Mass Communication Law and Ethics (3). An in-depth examination of legal and ethical issues confronting professional communicators. Focus on the responsibilities and rights of communicators and the implications for a society entering the 21st century.

MMC 4253 Advanced Media Management (3). A senior level course dealing with case studies of media organizations. Prerequisite: MMC 3250.

MMC 4262 New Technologies of Communication (3). The principal emphasis is upon new technologies in the industry. Prerequisites: RTV 3007, MMC 3104C, and full admission into upper division program, or admission to television minor.

MMC 4302 Comparative Systems of Mass Communication (3). An examination of various national and international mass communication systems and the elements which determine the type of systems currently operating throughout the world. Prerequisites: RTV 3007, MMC 3104C, and full admission into upper division program.

MMC 4410 Integrated Communications Campaigns (3). Capstone course for advertising and public relations students. Students work in teams to identify a client’s communication problem. They then research, strategize, design, and present a communications campaign to a client. Prerequisites: MMC 3104C, all track and school requirements except MMC 4930 and/or MMC 4945, and full admission into upper division program.

MMC 4500 Media History (3). Development of American media from beginnings in Europe to present day; freedom of the press and its relationships to economic, political, and social trends in society. Prerequisites: MMC 3104C and full admission into upper division program.

MMC 4541 E-Cinema and TV Aesthetics (3). Presentation and study of aesthetic concepts and execution of television and e-cinema. Prerequisites: MMC 3104C and full admission into upper division program. (Supplies fee assessed)

MMC 4609 Integrated Communication Research Strategy (3). Nature and application of research utilized in advertising and public relations. Emphasis on gathering and analyzing primary and secondary data to determine situation analysis and communication strategies. Prerequisites: MMC 3104C, ADV 3008 or PUR 3000, full admission into upper division program.

MMC 4905 Independent Study (1-3). Specialized intensive study in an area of special interest to the student. Consent of instructor is required. (Limit of three credits).

MMC 4930 Integrated Communication Seminar (3). A variable topics seminar dealing with one selected area of advertising or public relations, such as multi-cultural communications, sports communication, integrated communications cases, or media relations. Prerequisites: MMC 3104C, ADV 3008, PUR 3000, [ADV 3200 or PUR 4100], full admission into upper division program.

MMC 4936 Special Topics (3). Intensive study for groups of students of a particular topic or limited number of topics, not otherwise offered in the curriculum. Prerequisites: MMC 3104C and full admission into upper division program.

MMC 4940 Media Practicum (0-3). Structured field-work experience in media environment.

MMC 4945 Communication Internship (3). On-the-job learning in activity at selected and approved organizations. Will include newspapers, magazines, radio and TV stations, agencies, and non-profit organizations. Prerequisites: MMC 3104C, full admission into upper division program, permission of the Department Chair.

MMC 5207 Ethical and Legal Foundations of the Student Press (3). Examines ethical and legal foundations underlying the operation of the student press on American campuses, stressing both rights and responsibilities and how to organize publications to protect both.

MMC 5306 Global Communications (3). This course explores global markets and intercultural communications while providing advanced study, evaluation and application of cultural context, theories, stakeholders, and trends in media, advertising, and public relations. Analysis of ethical, legal, political, and social communications issues around the globe.

MMC 5440 Applied Research Methods in the Mass Media (3). An advanced course in the acquisition and use of secondary data, including media data, as well as the design, execution and utilization of research studies. Students will conduct an original proprietary study. (Offered at least once a year).

MMC 5932 Special Topics Seminar (3). A variable topic seminar dealing with issues of interest to the community. Examples are rights of high school journalists, cable TV, the use of minicomputers in creative communication.

PUR 4100 Writing for Public Relations (3). Introduction to the content, format and style of multiple public relations tools including newsletters, magazines, brochures and digital media. Emphasis on news releases, AP style and media relations. Prerequisites: MMC 3104C, PUR 3000, full admission into upper division program. (Supplies fee assessed)

PUR 4101 Publications Editing and Design (3). Understanding the visual theories behind the design, editing and production of PR materials for print, broadcast and multimedia. Special attention given to the aspects of digital pre-production layouts and typography. Prerequisites: MMC 3104C, PUR 3000, full admission into upper division program. (Supplies fee assessed)

PUR 4106 Advanced PR Writing (3). Emphasis on the strategic aspects of public relations writing and preparation of more complex vehicles, such as annual reports, policy speeches, position papers, and complex press releases. Prerequisites: MMC 3104C, PUR 3000, PUR 4100, full admission into upper division program. (Supplies fee assessed)
PUR 5406 Multi-Cultural Communications (3). Explores the multi-cultural dimensions of communications with diverse audiences within the United States.

PUR 5602 Integrated Communications Proseminar (0). Preparatory course providing guidelines and direction to graduate students completing Professional Project. Prerequisites: Completion of 18 credit hours, MMC 5440, full admissions into SJMC graduate program.

RTV 2201 Videography Basics (0). A seminar on the principles and practices of videography. Intended for students in the broadcast journalism track. Corequisite: RTV 4320. (Equipment fee assessed)

RTV 3007 Introduction to Television (3). Introduction to the history, regulation, industry structure and impact of television.

RTV 3200 Video Studio Production (3). Use of television studio equipment and techniques in production of programs, newcasts, documentaries, commercials, training and video productions. Introduction to basic video directing. Prerequisite or Corequisite: MMC 3104C. Prerequisite: Full admission into upper division program. (Equipment fee assessed)

RTV 3207 Video Directing (3). Studio directing/technical directing and related techniques used in television entertainment shows, commercials, newscasts, documentaries, training and corporate video productions. Students are expected to solve media-related problems during actual productions. Prerequisite: RTV 3260. (Equipment fee assessed)

RTV 3260 Multimedia Production (3). Use of ENG/EFP equipment and techniques in production of programs, news, documentaries, music videos, commercials, training and video productions on location. Emphasis on single camera techniques and editing. Prerequisites: MMC 3104C, VIC 3002, full admission into upper division program. (Equipment fee assessed)

RTV 3263 Video Post Production (3). Advanced post production techniques using A & B rolls, complex audio mixes and their preparation and execution. Prerequisites: RTV 3260 and full admission into upper division program. (Equipment fee assessed)

RTV 3280 Multimedia Production (3). This is a project-based course to provide all journalism, public relations and advertising students the basic skills needed to successfully develop, produce and publish/broadcast multimedia projects. Prerequisites: MMC 3104C and VIC 3002.

RTV 3301 Broadcast News Reporting (3). Instruction and practice in news writing, reporting and interviewing for broadcast media. This course meets in an accelerated manner in the first half of the semester to be followed by Electronic News Gathering RTV 4320 for those students wishing to pursue additional training in broadcast journalism. Prerequisites: JOU 3343L and full admission into upper division program, or admission into journalism minor. (Equipment fee assessed)

RTV 3803 Studio Management (3). Students are introduced to basic studio language and procedures and will do research about duties of the producer, budgets and related topics. Prerequisites: MMC 3104C and full admission into upper division program.

RTV 4101 Advanced Writing for TV (3). Includes writing for news reporting as well as anchoring. Documentaries, commercials and public service spots. Public affairs programs. Intros, outs and bridges for a variety of programs. Prerequisites: MMC 3104C and full admission into upper division program, or admission to television minor. (Supplies fee assessed)

RTV 4202 Videography Advanced (3). Advanced techniques in single camera production, field lighting and sound recording. Advanced techniques using non-linear editor. Prerequisites: RTV 3263, RTV 3207 and full admission to upper division program. (Equipment fee assessed)

RTV 4206C Advanced Video Production Workshop (3). Advanced course where students will be expected to use all the knowledge about television production received in the track. Students produce and perhaps direct programs for broadcast/cablecast. Prerequisite: RTV 3263. Corequisites: RTV 4202 and full admission to upper division program. (Supplies fee assessed)

RTV 4320 Electronic News Gathering (3). An introduction to the real world of television news. This course is designed to teach students to plan, write and execute electronic news productions from concept to finished product. This course meets in an accelerated manner in the second half of the semester following Broadcast News Reporting RTV 3301. Prerequisites: MMC 3104C, JOU 3003, RTV 3260, VIC 3002, full admission into upper division program. (Equipment fee assessed)

RTV 4323 Documentary Production (3). Advanced laboratory and field work to produce, report, write and edit documentaries for television. Prerequisites: JOU 3117, RTV 3301. (Supplies fee assessed)

RTV 4324 News and Public Affairs (3). Advanced instruction in public affairs reporting for television. Students will report, write, produce and edit hard and feature news stories in standard package and long format. Prerequisites: RTV 4320 and full admission into upper division program. (Equipment fee assessed)

RTV 4800C Station Operation (3). Advanced production course. Students learn production and operation for a television station. Students will be assigned programs to produce for broadcast/cablecast. Prerequisites: RTV 4101, RTV 3263, and RTV 3207.

RTV 4930C Television Programming Seminar (3). Advanced seminar on the business, legal and ethical issues in television programming. Prerequisites: RTV 3007, MMC 3250, and full admission to the upper division program.
RTV 4940L Television Production Internship (3).
Course provides television majors an opportunity for supervised professional experience in television production, working at television stations, production studios and other media organizations. Prerequisites: Full admission to upper division. Completion of RTV 3200, RTV 3207, RTV 3260, RTV 3263. Permission of the instructor. 3.0 GPA in SJMC courses.

RTV 4941L Television Management Internship (3).
Course provides Television majors an opportunity for supervised professional experience in television management working at broadcast stations and other media organizations. Prerequisites: Full admission to upper division. 3.0 GPA in SJMC courses. Completion of RTV 3007, MMC 3250, and MMC 4200. Permission of the instructor. Prerequisite or Corequisite: RTV 4930.

RTV 5801 Telecommunication Management Structures (3). Intensive study of telecommunication management problems, theory of same, solutions of same through practical application and examination of case studies. Prerequisite: Graduate standing.

RTV 5935 Seminar in International Comparative Broadcasting Systems (3). Introduction to international telecommunication systems with special emphasis on broadcasting. Comparison with other countries. Prerequisites: Graduate standing or permission of the instructor.

RTV 5936 Seminar in New Mass Communication Technologies (3). Discussion of new communication technologies and their influence on the society. Prerequisites: Graduate standing or permission of the instructor.

VIC 3002 Visual Design for Media (3). An exploration of messages – combining words and visual images and their relation to content in print, broadcast, and on-line media.

Rosa Barredo, Administrative Assistant
Rachelle Galindo, Coordinator of Recruitment
Lilian Hernandez, Development Officer
Cecile Houry, Instructor and Director of Student Programs
Juan Lopez, Coordinator of Media Services
Kanchana Marapana, Program Assistant
Lourdes Pereira, Program Assistant
Alan Raudez, Coordinator of Student Services

Explore, Engage, Excel

The Honors College is a small community of dedicated scholars—outstanding students and committed teachers—who work together in an atmosphere usually associated with small private colleges, but with all of the resources of a major state university.

The mission of the Honors College is to create an intellectual community where outstanding students and faculty engage in innovative, interdisciplinary, and international learning. This community is committed to excellence in all endeavors, academic and personal honor, innovative pedagogy and research, and respect for self and other.

The Honors College at FIU offers the very best in undergraduate education and preparation, providing the best possible foundation for academic, social, and professional development. Students’ undergraduate experiences are significantly enhanced by the interdisciplinary focus of the curriculum and the opportunity to work closely with top faculty from a wide variety of academic departments and schools. An emphasis on civic engagement and community involvement (including, but not limited to, the College’s extensive partnership with the City of Sweetwater) expands students’ leadership skills and builds community. Advance research, internship, professional development opportunities unique to the College prepare students for future graduate study and employment.

Location

The Honors College operates at both Modesto A. Maidique Campus in DM 233 and the Biscayne Bay Campus in ACI 200.

Admissions Policy

Admission to The Honors College is selective and limited. Students are admitted only at the beginning of each academic year (fall term).

Freshmen: Students with a 3.5 weighted high school GPA and commensurate scores on the SAT or ACT are eligible for admission to the College.

Transfer and Continuing FIU Students: Students who have maintained a 3.3 GPA in all college-level work are eligible for admission to the College. To be considered for admission, students must be able to complete at least 12 credits of Honors before graduating.

Academic Policy

Students are required to maintain a cumulative 3.3 GPA for satisfactory standing in the Honors College.

Graduation Policy

Students are eligible for the transcript notation “Graduated through The Honors College” if they have met the following criteria:

- completed all major and degree requirements for graduation from the University;
- were continuously enrolled in Honors seminar courses until the semester of graduation or the completion of the Honors College curriculum (whichever comes first);
- completed a minimum of six credits of Honors courses per year of enrollment in the College;
- maintained an overall minimum FIU GPA of 3.3;
- completed Honors Citizenship and Portfolio requirements.

Honor Policy

In the Honors College, the term “honor” refers to both academic achievement and character. Students in the College should therefore adhere to and will be held to the highest standards of personal accountability. Students whose behavior brings discredit upon themselves and/or the College or who commit acts of academic misconduct will be dismissed from the College.

For more information on additional Honors College policies, please visit http://honors.fiu.edu.

The Honors Curriculum

Students in the College possess dual academic citizenship. They pursue any major available in the University and at the same time complete the Honors curriculum. In most cases, participation in the College does not increase the number of credits required for graduation. All 12 credits of the first two years of Honors seminars satisfy UCC requirements. Each year students enroll in one honors seminar that is designed to stimulate thoughtful discussion and creativity and to develop communication skills. Honors seminars are limited to a student/faculty ratio of approximately 20:1 and are taught by some of the best professors in the University. In the third and fourth years, students may choose from several options including additional seminars, independent research, and foreign study.

Many classes are team-taught; all are interdisciplinary. Years one and two at the Modesto A. Maidique Campus are structured similarly: students and faculty meet in a large group session one day a week for lectures, panel discussions, case studies, student presentations, films, and special events; the other class meeting each week is spent in small group discussion sessions. At the Biscayne Bay Campus, classes meet as small seminars. The third and fourth years provide a choice of individually taught seminars, an extended research project, and/or opportunities to study abroad.

The Honors program specifically helps students to develop the following competencies:

1. Research Skill - Honors College students will learn the principles of conducting academic research,
logical analysis and synthesis, and be able to communicate results fluently orally and in writing.

2. **Interdisciplinarity and Connectivity** - Students will learn to apply ideas, methods, and knowledge from multiple disciplines to a question, recognize connections among things learned inside and outside the classroom, comprehend the complexity of important questions, and contextualize ideas, knowledge, information, and experiences.

3. **Global Learning** - Students will understand the interconnectedness and interdependence of global systems and issues; the historical, cultural, economic, and political forces that shape societies; and the nature and substance of various cultures.

4. **Appreciation of the Creative Arts** - Students will learn to articulate the importance of cultural artifacts and their production and to integrate knowledge and appreciation of the arts into their exploration of important questions and issues.

5. **Leadership and Community Engagement** - Students will develop awareness and application of ethical principles, assume leadership roles in the classroom, organization(s), and/or the larger community, and participate in activities that contribute to the common good.

**Year One**

**IDH 1001, IDH 1002 The Origin of Ideas and the Idea of Origins (6).** The course is designed to encourage students to become self-conscious learners, exploring not only the what, but also the how and why of knowing. The course focuses on the nature of truth and reality and our role in the world each of us has constructed.

**SLS 1501 Honors First Year Experience (1).** This required fall semester course participates in the university’s FYE program, but with enhanced research training for Honors students.

**IDH 1931 Honors Leadership Seminar (1).** This required spring semester course helps students identify their strengths and build them into leadership skills.

**Year Two**

**IDH 2003, IDH 2004 Inhabiting Other Lives (6).** This seminar exposes students to issues of human commonality and diversity, and invites them to investigate and to understand the interconnectedness of various cultures, times and life experiences.

**Year Three**

**IDH 3034, IDH 3035 Aesthetics, Values, and Authority (6).** These seminars build on the work of the first two years and allow students to work in depth on a problem or subject of personal interest or professional relevance.

**Year Four**

**Prerequisites**

1. 3.0 GPA in prior honors course work; and
2. A cumulative GPA of at least 3.3.

**Option 1**

**IDH 4007, IDH 4008 Aesthetics, Values, and Authority (6).** Students may opt to take a second upper-division seminar course to complete their Honors requirements.

**Option 2**

**Departmental Honors Thesis**—Honors course work or honors thesis opportunities offered by individual departments will be accepted to satisfy the fourth-year requirement, with the proviso that students register their project with ARCH (see below) and present their work at the ARCH conference in spring.

**Option 3**

**ARCH Research Project**—Students may register for an individually mentored, in-depth research project under the direction of a faculty member with matching interests. The ARCH program engages students in advanced research or artistic projects by pairing students and faculty for cutting edge research. Students must present their research at the annual undergraduate research conference that is the culmination of the program.

**Option 4**

**Honors College Study Abroad**

Students may choose to complete the fourth year of the honors curriculum through one of the College’s study abroad programs during the summer. Students take a three-credit preparatory course in the spring semester before traveling abroad. In the summer, the student will earn the remaining three credits of Honors. See [http://honors.fiu.edu/study_abrd_programs.htm](http://honors.fiu.edu/study_abrd_programs.htm) for a list of current programs.

**Honors Place**

Voted “Best Living and Learning Community” in the state of Florida by Florida Leader magazine, Honors Place is a close-knit and welcoming community of Honors College students who live and learn together. Honors College students who would like to live on campus may choose from three options: Honors Place in Lakeview Hall at Modesto A. Maidique Campus (for first-year Honors students); Honors Place on the Bay at Biscayne Bay Campus (for all Honors students), or Honors Place in Everglades Hall at the Modesto A. Maidique Campus (for Honors students sophomore level and above).

For more information on how to be a part of Honors Place, visit [http://honors.fiu.edu/slife_honorsplace.html](http://honors.fiu.edu/slife_honorsplace.html).

**Student Information Technology Centers**

Student information technology centers are located in the Honors College offices on both the Modesto A. Maidique Campus and Biscayne Bay Campuses. Honors students may use the computers and printers or study in the lounge areas. Honors also maintains a study room in the Green Library on the Modesto A. Maidique Campus and carrels in the libraries on both campuses.

**Student Organizations**

Gamma Epsilon Phi at the Modesto A. Maidique Campus and Tau Sigma Alpha on the Biscayne Bay Campus move the Honors experience beyond the classroom by organizing social and cultural activities and community service projects. The societies provide community and opportunities for leadership development. Other student groups include MUSE (student-student mentoring), HOW (Helping Our World), and the Honors Leadership Council.
Mentoring
Mentoring is an important component of the Honors College experience. A close mentoring relationship with a faculty/staff member or community leader can facilitate and enhance the educational or professional experience. Mentoring in the Honors College is multi-faceted. Through ARCH, students develop a close, one-on-one relationship with a research professor. The student-led Mentoring Undergraduate Students for Excellence (MUSE) program pairs entering freshman with an upper-class student mentor. The Student Program Coordinator works with students to develop leadership skills, community service programs, sites for internships and part-time jobs, and college and employment recruitment opportunities. Corporate and community partners also offer unique mentoring for selected students.

Graduate and Professional School
The Honors College has special relationships with the university's professional schools that offer students unique opportunities: a 3+3 program with the College of Law allows eligible students to begin law school in lieu of their fourth year of undergraduate study, and the College of Medicine guarantees Honors College graduates a personal interview for admission, subject to minimum eligibility requirements.

Other Privileges
Because of the special nature of their contribution to the university, Honors College students enjoy other privileges as well, including
- Priority registration
- "Graduated through the Honors College" on the transcript
- Library privileges as graduate students
- Honors-only scholarships
- Participation in community partnerships for service learning and engagement
- Supplemental funding to present at conferences
- Internships and mentoring
- Special recognition at commencement ceremonies

Course Descriptions
Definition of Prefixes
IDH – Interdisciplinary Honors

IDH 1001 Honors Seminar I (3). Focuses on origins and the various interpretations by the different disciplines, including the roles of technology, science, humanities, and social science. Prerequisite: Admission to Honors Program.

IDH 1002 Honors Seminar II: The Origin of Ideas and the Idea of Origins (3). The course is designed to explore not only the what, but also the how and why of knowing. Focuses on the nature of truth and reality and our role in the world each of us has constructed. Prerequisites: Enrollment in the Honors College and IDH 1001.

IDH 1931 Honors Leadership Seminar (1). An introduction to principles of leadership necessary for advancement within the institution and beyond graduation. Prerequisite: SLS 1501. Corequisite: IDH 1002.

IDH 2003 Honors Seminar III (3). The first of a two semester sequence, examining cultural commonalities and differences from an interdisciplinary perspective. Prerequisite: Admission to Honors Program.

IDH 2004 Honors Seminar IV (3). A continuation of Seminar III, this course is an interdisciplinary examination of other cultures and multicultural societies. Includes directed individual research projects. Prerequisite: Admission to Honors Program.

IDH 2910 Honors Independent Study (3-6). Directed Independent Study from an interdisciplinary perspective. Prerequisite: Admission to Honors Program.

IDH 2910L Research/Lab Experience (1). Laboratory research experience in conjunction with the Honors College FIU/USF Medical Education Program.

IDH 3034 Honors Seminar V (3). The first of a two course sequence, this course examines the aesthetic underpinnings of culture, the foundations of what are commonly held as western values, and the power relationships that surround them. Prerequisite: Admission to Honors Program.

IDH 3035 Honors Seminar VI (3). A continuation of Honors Seminar V, this course examines the interplay of various sources of authority in society and our system of values and aesthetics. Includes directed individual research projects. Prerequisite: Admission to Honors Program.

IDH 3125 Amazon Seminar: Environment, People and Opportunity on the Last Frontier (1). Introduction to the geological, ecological and human history of the Amazon; survey of its biodiversity, and review of current challenges facing the environment and its people.

IDH 3910 Honors Independent Study (3-6). Directed Independent Study from an interdisciplinary perspective. Prerequisite: Admission to the Honors College.

IDH 3940 Honors College Internship (1-6). Structured practical training and work experience in programs to which students have access as Honors College students. Prerequisite: Admission to The Honors College.

IDH 3955 Research Techniques: Applying Interdisciplinary Research in the Amazon (2). Interdisciplinary research of the Amazon with faculty guided development of student research proposal. Projects will be implemented in a study abroad course on the Peruvian Amazon during the summer. Prerequisite: IDH 3125.

IDH 4007 Honors Seminar VII (3). The first of a two semester sequence, this course is an interdisciplinary examination of expectations for the 21st Century. Prerequisite: Admission to Honors Program.

IDH 4008 Honors Seminar VIII (3). The second of a two semester sequence, this course is an interdisciplinary examination of expectations for the 21st Century. Prerequisite: Admission to Honors Program.

IDH 4460 Ethnic Groups of Spain (3). Transdisciplinary view of Spain’s ethnic composition. Includes analysis of origin, geographical distribution, migration patterns, mix, social status, and economic and political power.
IDH 4461 Fauna and Flora of Spain (3). Survey of representative animal and plant species of Spain. Includes geographical distribution, characteristics and lifestyles, role in ecological balance, economic use, and prospects.

IDH 4462 The Arts in Spain (3). Survey of Spanish artists and schools in painting, sculpture, music, literature, theater, and cinematography from antiquity to the present.

IDH 4463 Spain and the European Union (3). Transdisciplinary view of the incorporation process. Includes economic, social, political, legal, and administrative aspects.

IDH 4464 Current Honors Topics on Spain (3). Transdisciplinary view of topics of current interest on Spain. Topics vary from one semester to another.

IDH 4905 Honors Independent Study (0-6). Directed independent study from an interdisciplinary perspective. Prerequisite: Admission to Honors Program.

Aerospace Studies

Lieutenant Colonel Anthony Ricci vice Ritchie, 
Professor and Chairperson, Aerospace Studies
Captain Edward Bustle, Assistant Professor, 
Commandant of Cadets
Captain Jeffrey Nuñez, Assistant Professor, Unit
Admissions Officer
Florida International University, in cooperation with the
Department of Aerospace Studies, Air Force Reserve
Officers’ Training Corps (AFROTC) at the University of
Miami, provides academic instruction and training
experiences leading to commissioned service in the
United States Air Force.

There is no military obligation to sign up for AFROTC.
To take classes students must be U.S. citizens or resident
aliens, and must be U.S. citizens to receive a commission.
AFROTC cadets must also pass the Air Force Officer
Qualifying Test, a physical fitness test including a 1.5 mile
timed run, push-ups and sit-ups and pass a Department of
Defense physical exam in order to be eligible for
scholarships and ultimately commissioning.

All AFROTC cadets receive uniforms, books and
equipment for ROTC classes at no cost. Upon being
commissioned a 2nd Lieutenant in the Air Force, you will
receive a starting salary and allowances worth more than
$40,000 per year. Free medical and dental care, 30 days
annual vacation with pay tax deferred Federal
Government-sponsored retirement savings and
investment plan (similar to a “401(k)” plan) and added
educational benefits are also part of the compensation
package.

Educational Objectives
AFROTC is an educational program designed to give men
and women the opportunity to become Air Force officers
while completing a Bachelor's degree. Exciting job
opportunities exist everywhere in the Air Force. In
addition to the recurring need for pilots, the Air Force also
needs personnel to work in navigation, space and missile
operations, engineering, mathematics, physics, computer
science, and in the support fields of personnel,
administration, logistics, finance, education, security
forces, health, and others. In the years ahead, Air Force
ROTC will continue to concentrate on preparing men and
women to assume vital positions of leadership in the
modern Air Force.

AFROTC cadets receive junior officer training, career
orientation, and learn how the Air Force operates. The end
product of the AFROTC program is to produce 2nd
lieutenants in the Air Force upon graduation. For more
information, contact Detachment 155 at (305) 284-2870.

Course Descriptions

Definitions of Prefixes
AFR-Aerospace Studies

AFR 1101C First Semester Basic - First Term (1).
Survey course designed to introduce students to the
United States Air Force and encourage participation in Air
Force Reserve Officer Training Corps (AFROTC).
Featured topics include: overview of AFROTC, special
programs offered through AFROTC, mission and
organization of the Air Force, brief history of the Air Force,
introduction to leadership, Air Force officer career
opportunities, and an introduction to communication skills.
Leadership Laboratory is mandatory for AFROTC cadets
and complements this course by providing cadets with
followership experiences. Prerequisite: Must be taken
with PT Lab.

AFR 1121C First Year Basic - Second Term (1).
A survey and follow-on course to AFR 1101C designed to
introduce students to the United States Air Force and
courage participation in Air Force Reserve Officer
Training Corps (AFROTC). Featured topics include:
introduction to leadership, Air Force Core Values,
introduction to interpersonal communication and team
building, and a continuation of communication skills.
Leadership Laboratory is mandatory for AFROTC cadets
and complements this course by providing cadets with
followership experiences.

AFR 2130C Second Year Basic - First Term (1).
Course designed to examine general aspects of air and space
power through a historical perspective. Covers time period
from first balloons and dirigibles to space-age global
positioning systems of the Afghan/Iraqi Wars. Examines
several fundamental truths associated with war in the third
dimension: e.g. Principles of War and Tenets of Air and
Space Power. Leadership Laboratory is mandatory for
AFROTC cadets and complements this course by
providing cadets with followership experiences.

AFR 2131C Second Year Basic - Second Term (1).
Continuation of AFR 2130C which provides students with
knowledge level understanding for general element and
employment of air and space power. Discusses the
importance of Air Force Core Values with use of
operational examples and historical Air Force leaders.
Continues to develop communication skills. Leadership
Laboratory is mandatory for AFROTC cadets and
complements this course by providing cadets with
followership experiences.

AFR 3220 First Year Advanced - First Term (3).
Study of leadership, management fundamentals, professional
knowledge, and communication skills required of Air Force
junior officers. Case studies are used to examine Air Force
leadership and management situations. Mandatory
Leadership Laboratory complements this course by
providing advanced leadership experiences in officer-type
activities.

AFR 3230 First Year Advanced - Second Term (3).
Continuation of AFR 3220 and is a study of Air Force
personnel and evaluation systems, leadership ethics, and
communication skills required of Air Force junior officers.
Case studies are used to examine Air Force leadership
and management situations. Mandatory Leadership
Laboratory complements this course by providing
advanced leadership experiences in officer-type activities.

AFR 4201 Second Year Advanced - First Term (3).
Examines national security process, regional studies, and
Air Force doctrine. Special topics of interest focus on
civilian control of military and current issues affecting
military professionalism. Continued emphasis is given to
refining communication skills. Mandatory Leadership
Laboratory complements this course by providing students
advanced leadership experiences.
AFR 4210 Second Year Advanced - Second Term (3).
Continuation of AFR 4201 which examines regional studies and advanced leadership ethics. Special topics of interest focus on the military as a profession, officership, military justice, preparation for active duty, and current issues affecting military professionalism. Continued emphasis is given to refining communication skills. Mandatory Leadership Laboratory complements this course by providing students advanced leadership experiences.

Leadership Laboratory (LLAB)
0 credits Fall & Spring Semester
Leadership Laboratory (LLAB) is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air Force 2nd lieutenants and complement the AFROTC academic program. It is a student planned, organized, and executed practicum conducted under the supervision of the detachment commander and commandant of cadets.

Military Science
Son Vo, Professor and Chairperson, Military Science
Wally Gallart, Scholarship Enrollment Officer
Hector Blondet, Assistant Professor
Raymond Clamens, Assistant Professor
Darren McDonough, Assistant Professor
Brad Owens, Assistant Professor

The Army Reserve Officer Training Corps is a college elective that will help students succeed in their desired career, whether civilian or military. Students who complete all ROTC requirements may be commissioned second lieutenants and serve in the Army, Army National Guard or Army Reserve. ROTC electives may also be used by FIU lieutenants and serve in the Army, Army National Guard or all ROTC requirements may be commissioned second career, whether civilian or military. Students who complete electives that will help students succeed in their desired field of study.

Military Science

Enrollment
Enrollment is open to full-time male and female students attending Florida International University. Any students may enroll in MSL 1000 and 2000 level courses in a participation status. Any student enrolling in the MSL 3201/2 and MSL 4301/2 must have the approval of the department.

Instructions and Training
The freshmen and sophomore students will take Basic Military Science Courses. There is no military obligation associated with the first two years of the program. These courses will introduce students to leadership skills. The curriculum involves understanding how to communicate, set goals, how and when to make decisions, engage in creative problem solving, planning and organization. Many of the activities are taken from, or are adaptations of executive and leadership training workshops. The curriculum also focuses on building character, providing opportunities to apply, practice and experience leadership principles. Courses consist of outdoor/indoor instruction and practical ‘hands-on’ training on university intramural fields and at various South Florida military training sites. Qualified juniors, seniors, or graduate students may take the Advanced Military Science Courses upon approval of the department. The Advance Course provides intense training for students in experimental leadership positions.

Students are taught the fundamentals of serving as a military officer. They will have numerous opportunities to lead small teams in a variety of challenging leadership situations. The seniors manage the ROTC Corps of Cadets, mentor junior cadets, plan and conduct training, management, and fund raising activities.

Scholarships
Army ROTC offers a number of scholarships that will pay either tuition and fees or room and board, along with an allowance for books and a stipend ranging from $300 to $500.

Organizations
Ranger Challenge Team - A voluntary organization that is a physically demanding course designed to prepare cadets for area and regional competition against other ROTC units. Cadets train weekly to perfect skills in weapons handling and assembly, marksmanship, orienteering, hand grenade throwing, physical fitness, combat patrolling and combat load road marching.

Scabbard and Blade - An honor society for outstanding cadets selected for membership by their peers for academic and military excellence.

Color Guard - An elite organization of cadets skilled in marching and drill and ceremony. Members post the colors at Golden Panther basketball games, baseball games, football games, civic/veteran events and campus functions.

Association of the U.S. Army - A fraternal organization chartered by the national association to perpetuate the ideals of the U.S. Army.

Special Programs
Students who are unable to participate in ROTC during their freshman and sophomore years may qualify for admission to advanced ROTC (junior and senior years) by attending a four-week course at Ft. Knox, KY. Attendees receive pay, travel costs, lodging and food.

Students with prior military service must have a valid DD 214 and honorable discharge to qualify for the advance course program once they have achieved the status of junior.

Students who want to pursue an advanced degree in certain fields after receiving a baccalaureate may qualify for delayed entry on active duty.

Students interested in pursuing civilian careers after graduation may apply for duty with the Army National Guard or Army Reserve.

Students may enter into the Simultaneous Membership Program (SMP) in the Army National Guard or Army Reserve while in college. This allows students to earn valuable experience by serving in the Army National Guard or Army Reserves while enrolled in ROTC. Students continue their regular school curriculum and receive additional financial support from the Army National Guard or Army Reserve as an incentive to serve as officers upon graduation and commissioning.

Special Training
Outstanding Cadets may qualify to attend special Army schools such as Mountain Warfare Training, Northern
Warfare School, Air Assault School or Airborne School. Selection is on a competitive basis.

Outstanding Cadets are honored during regular award ceremonies. Scholarship Cadets can fly space-available aboard military aircraft. Once commissioned, newly Second Lieutenant's earn a starting salary of over $30,000, excluding housing allowances and special pays that are not taxed. 2Lts earn about $3,500 per year in the Army National Guard or Army Reserve in a part-time status.

Course Descriptions

Definition of Prefixes

ML 1001 Foundations of Officership (2). MSL 1001L Foundations of Officership Laboratory (0). Examines the unique duties and responsibilities of officers, organization and role of the Army, review skills pertaining to fitness and communication, analyze Army values and expected ethical behavior.

ML 1002 Basic Leadership (2). MSL 1002L Basic Leadership Laboratory (0). Presents fundamental leadership concepts and doctrine, practice basic skills that underlie effective problem solving, examine the officer experience.

ML 2101 Individual Leadership Studies (2). MSL 2101L Individual Leadership Laboratory (0). Develops knowledge of self, self-confidence, and individual leadership skills, develop problem solving and critical thinking skills, apply communication, feedback, and conflict resolution skills.

ML 2102 Leadership and Teamwork (2). MSL 2102L Leadership and Teamwork Laboratory (0). Focuses on self-development guided by knowledge of self and group processes, challenges current beliefs, knowledge, and skills.

ML 3201 Leadership and Problem Solving (3). MSL 3201L Leadership and Problem Solving Laboratory (0). Examines skills that underlie effective problem solving, analyze military missions and plan military operations, execute squad battle drills.

ML 3202 Leadership and Ethics (3). MSL 3202L Leadership and Ethics Laboratory (0). Probes leader responsibilities that foster an ethical command climate, develop Cadet leadership competencies, apply principles and techniques of effective written and oral communication.

ML 4301 Leadership and Management (3). MSL 4301L Leadership and Management Laboratory (0). Discuss staff organization, functions, and processes, analyze counseling responsibilities and methods, and apply leadership and problem solving principles to a complex case study/simulation.
